Forward-Looking Statements

This Form 10-Q, including Management's Discussion and Analysis of Financial Condition and Results of Operations (Item 2) contains forward-looking statements that involve risks and uncertainties, as well as assumptions that, if they never materialize or prove incorrect, could cause our results to differ materially from those expressed or implied by such forward-looking statements. All statements other than statements of historical fact are statements that could be deemed forward-looking statements, including any projections of revenue, gross profit, expenses, earnings or losses from operations, synergies or other financial items; any statements of plans, strategies, and objectives of management for future operations; any statements regarding future economic conditions or performance; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing. The risks, uncertainties, and assumptions referred to above include, but are not limited to:

General business and economic conditions globally, in particular North America, Europe, Asia Pacific and China;

Effectiveness of our cost reduction initiatives and reorganization plans;

Competitive factors and the cyclical nature of the materials handling industry and lift truck orders;

Risks and complexities associated with international operations;

Impact of tax law changes;

Ability to comply with debt covenants;

Foreign currency fluctuations;

Assumptions relating to pension and other postretirement costs;

Cost and availability of raw materials;

Fluctuations in interest rates;

Levels of construction activity;

Environmental matters;

Impact of acquisitions.

We undertake no obligation to publicly revise or update forward-looking statements to reflect events or circumstances that arise after the date of this report. See Risk Factors (Item 1A) for additional information on risk factors with the potential to impact our business.

Table of Contents

CASCADE CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1 Description of Business

Cascade Corporation is an international company engaged in the manufacture of materials handling products that are widely used on industrial fork lift trucks and, to a lesser extent, construction, mining and agricultural vehicles. Accordingly, our sales are largely dependent on sales of lift trucks and replacement parts. Our sales are made throughout the world. We are headquartered in Fairview, Oregon, employing approximately 1,800 people and maintaining operations in 15 countries outside the United States.

Note 2 Interim Financial Information

The accompanying consolidated financial statements for the interim periods ended October 31, 2009 and 2008 are unaudited. In the opinion of management, the accompanying consolidated financial statements reflect normal recurring adjustments necessary for a fair statement of the financial position, results of operations and cash flows for those interim periods. Results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year, and these financial statements do not contain the detail or footnote disclosures concerning accounting policies and other matters that would be included in full fiscal year financial statements. Therefore, these statements should be read in conjunction with our audited financial statements included in our Annual Report on Form 10-K for the fiscal year ended January 31, 2009. We evaluate events and transactions that occur after the balance sheet date as potential subsequent events. We performed this evaluation through December 7, 2009, the date on which we issued our financial statements.

Note 3 Segment Information

Our operating units have several similar economic characteristics and attributes, including products, distribution patterns and classes of customers. As a result, we aggregate our operating units into four geographic operating segments related to the manufacturing, distribution and servicing of material handling load engagement products. We evaluate the performance of each of our operating segments based on income or loss before interest, foreign currency gains or losses and income taxes. The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies contained in Note 2 of our consolidated financial statements included in our Form 10-K for the fiscal year ended January 31, 2009.

Table of Contents

Revenues and operating results are classified according to the country of origin. Transfers between areas represent sales between our geographic operating segments. The costs of our corporate office are included in our North America operating segment. Identifiable assets are attributed to the geographic location in which they are located. Net sales and transfers, operating results and identifiable assets by geographic operating segment were as follows (in thousands):

2009	Three Months Ended October 31					Consolidated
	North America	Europe	Asia Pacific	China	Eliminations

Table of Contents**Note 4 Inventories**

During the nine months ended October 31, 2009, inventories decreased due to reduced inventory purchases and lower levels of finished goods needed to meet lower customer demand. Inventories stated at the lower of average cost or market are presented below by major class (in thousands):

	October 31 2009	January 31 2009
Finished goods	\$ 26,547	\$ 31,997
Raw materials and components	45,250	58,809
	\$ 71,797	\$ 90,806

Note 5 Goodwill

During the nine months ended October 31, 2009, goodwill increased due to fluctuations in foreign currencies. We have no goodwill recorded in China. The following table provides a breakdown of goodwill by geographic region (in thousands):

	October 31 2009	January 31 2009
North America	\$ 69,459	\$ 61,316
Europe	11,521	10,040
Asia Pacific	2,967	3,031
	\$ 83,947	\$ 74,387

Note 6 Share-Based Compensation Plans

We have granted three types of share-based awards: stock appreciation rights (SARS), restricted stock and stock options, under our share-based compensation plans to officers, key managers and directors. The grant prices are established by our Board of Directors Compensation Committee at the time the awards are granted. We issue new common shares upon the exercise of all awards.

SARS provide the holder the right to receive an amount, payable in our common shares, equal to the excess of the market value of our common shares on the date of exercise (intrinsic value) over the base price at the time the right was granted. The base price may not be less than the market price of our common shares on the date of grant. All SARS vest ratably over a four year period and have a term of ten years.

Our SARS plan also permits the issuance of restricted shares of common stock. Upon the granting of restricted stock, common shares are issued to the recipient, but the shares may not be sold, assigned, transferred, pledged, or disposed of by the recipient until vested. Regardless of vesting, restricted shares have full voting rights and any dividends declared will be paid to the restricted stock recipient. Restricted shares vest ratably over a period of three years for officers and four years for directors. The number of restricted shares issued to directors is based on the market value of our shares on the date of grant.

The SARS plan provides for the issuance of a maximum of 750,000 shares of common stock upon the exercise of SARS or issuance of restricted stock. As of October 31, 2009, a total of 279,000 shares of common stock have been issued under the SARS plan, which includes 96,000 shares of restricted stock.

Stock options provide the holder the right to receive our common shares at an established price. We have reserved 1,400,000 shares of common stock under our stock option plan. As of October 31, 2009, a total of 1,090,000 shares have been issued upon the exercise of stock options. No additional stock options can be granted under the terms of the plan. All outstanding stock options are fully vested and have a term of ten years.

Table of Contents

A summary of the plans status at October 31, 2009 together with changes during the nine months then ended is presented in the following tables (in thousands, except per share amounts):

	Stock Options Weighted Average		Stock Appreciation Rights Weighted Average	
	Outstanding Awards	Exercise Price Per Share	Outstanding Awards	Exercise Price Per Share
Balance at January 31, 2009	279	\$ 13.26	806	\$ 34.95
Granted			61	24.50
Exercised			(12)	21.15
Forfeited			(27)	36.38
Balance at October 31, 2009	279	\$ 13.26	828	\$ 34.84

	Restricted Stock Awards Weighted Average	
	Number of Shares	Grant Date Fair Value Per Share
Unvested restricted stock at January 31, 2009	51	\$ 60.51
Granted	31	24.50
Vested	(22)	64.40
Forfeited		
Unvested restricted stock at October 31, 2009	60	\$ 40.73

We calculate share-based compensation cost for stock options and SARs using the Black-Scholes option pricing model. The range of assumptions used to compute share-based compensation are as follows:

	Granted in Fiscal 2010	Granted Prior to Fiscal 2010
Risk-free interest rate	3.4%	2.3 - 5.1%
Expected volatility	48%	40 - 42%
Expected dividend yield	0.8%	1.0 - 2.8%
Expected life (in years)	6	5 - 7
Weighted average fair value at date of grant	\$ 11.75	\$4.16 - 33.31

We calculate share-based compensation cost for restricted stock by multiplying the fair market value of our common shares on the grant date by the number of restricted shares expected to vest. Share-based compensation is expensed ratably over the applicable vesting period. Additional information regarding the assumptions used to calculate fair value of our share-based compensation plans is presented in Note 2 to our consolidated financial statements included in our Form 10-K for the year ended January 31, 2009.

Table of Contents

As of October 31, 2009, there was \$3.9 million of total unrecognized compensation cost related to nonvested share-based compensation awards granted under the plans, which is expected to be recognized over a weighted average period of 2.1 years. The following table represents as of October 31, 2009 the share-based compensation costs to be recognized in future periods (in thousands) for awards granted to date:

Fiscal Year	Amount
2010*	709
2011	1,878
2012	878
2013	373
2014	85
	\$ 3,923

* Represents last three months of fiscal 2010.

Note 7 Commitments and Contingencies**Environmental Matters**

We are subject to environmental laws and regulations, which include obligations to remove or mitigate environmental effects of past disposal and release of certain wastes and substances at various sites. We record liabilities for affected sites when environmental assessments indicate probable cleanup and the costs can be reasonably estimated. Other than for costs of assessments themselves, the timing and amount of these liabilities is determined based on the estimated costs of remediation activities and our commitment to a formal plan of action, such as an approved remediation plan. The reliability and precision of the loss estimates are affected by numerous factors, such as different stages of site evaluation and reevaluation of the degree of remediation required. We adjust our liabilities as new remediation requirements are defined, as information becomes available permitting reasonable estimates to be made and to reflect new and changing facts.

It is reasonably possible that changes in estimates will occur in the near term and the related adjustments to environmental liabilities may have a material impact on our operating results. Unasserted claims are not currently reflected in our environmental remediation liabilities. It is also reasonably possible that these claims may also have a material impact on our operating results if asserted. We cannot predict when the additional expense will be necessary or the amount of any additional loss or range of loss that may reasonably be possible.

Our specific environmental matters consist of the following:

Fairview, Oregon

In 1996, the Oregon Department of Environmental Quality issued two Records of Decision affecting our Fairview, Oregon manufacturing facility. The Records of Decision required us to initiate remedial activities related to the cleanup of groundwater contamination at and near the facility. Remediation activities have been conducted since 1996 and current estimates provide for some level of activity to continue through 2019. Costs of certain remediation activities at the facility are shared with The Boeing Company, with Cascade paying 70% of these costs. The recorded liability for ongoing remediation activities at our Fairview facility was \$3.3 million and \$3.7 million at October 31, 2009 and January 31, 2009, respectively.

Springfield, Ohio

In 1994, we entered into a consent order with the Ohio Environmental Protection Agency, which required the installation of remediation systems for the cleanup of groundwater contamination at our Springfield, Ohio facility. The current estimate is that the remediation activities will continue through 2014. The recorded liability for ongoing remediation activities in Springfield was \$822,000 at October 31, 2009 and \$900,000 at January 31, 2009.

Table of Contents**Legal Proceedings**

We are subject to legal proceedings, claims and litigation, in addition to the environmental matters previously discussed, arising in the ordinary course of business. While the outcome of these matters is currently not determinable, management does not expect the ultimate costs to be material to our consolidated financial position, results of operations, or cash flows.

Note 8 Earnings Per Share

The following table presents the calculation of basic and diluted earnings (loss) per share (in thousands, except per share amounts):

	Three Months Ended October 31		Nine Months Ended October 31	
	2009	2008	2009	2008
Basic earnings (loss) per share:				
Net income (loss)	\$ 157	\$ 10,415	\$ (24,219)	\$ 31,768
Weighted average shares of common stock outstanding	10,824	10,801	10,813	10,792
	\$ 0.01	\$ 0.96	\$ (2.24)	\$ 2.94
Diluted earnings (loss) per share:				
Net income (loss)	\$ 157	\$ 10,415	\$ (24,219)	\$ 31,768
Weighted average shares of common stock outstanding	10,824	10,801	10,813	10,792
Dilutive effect of stock awards	180	300		315
Diluted weighted average shares of common stock outstanding	11,004	11,101	10,813	11,107
	\$ 0.01	\$ 0.94	\$ (2.24)	\$ 2.86

Basic earnings per share is based on the weighted average number of common shares outstanding for the period. Diluted weighted average common shares includes the incremental shares that would be issued upon the assumed exercise of stock options and stock appreciation rights and the amount of unvested restricted stock. Unexercised SARs totaling 610,000 awards and unvested restricted stock totaling 30,000 shares were excluded from the fiscal 2010 three month calculation of diluted earnings per share because they were antidilutive. All of the unexercised SARs and unvested restricted stock were not included in the fiscal 2010 nine month calculation as the impact would be antidilutive. Unexercised SARs totaling 104,000 awards and unvested restricted stock totaling 26,000 shares were excluded from the fiscal 2009 calculations of diluted earnings per share because they were antidilutive.

Table of Contents**Note 9 Supplemental Cash Flow Information**

The following table presents information that supplements the consolidated statements of cash flow (in thousands):

	For the Nine Months Ended October 31	
	2009	2008
Cash paid during the period for:		
Interest	\$ 1,477	\$ 3,622
Income taxes	\$ 3,429	\$ 14,383
Supplemental disclosure of non-cash investing activities:		
Dividends declared	\$ 108	\$

Note 10 Benefit Plans

The following table represents the net periodic cost related to our defined benefit plans in England and France and our postretirement health benefit plan in the United States (in thousands):

	Defined Benefit		Postretirement Benefit	
	Three Months Ended October 31		Three Months Ended October 31	
	2009	2008	2009	2008
Net periodic benefit cost:				
Service cost	\$ 5	\$ 5	\$ 27	\$ 26
Interest cost	119	133	113	108
Expected return on plan assets	(96)	(118)		
Recognized prior service cost			(19)	(19)
Recognized net actuarial loss	13	20		1
	\$ 41	\$ 40	\$ 121	\$ 116

	Defined Benefit		Postretirement Benefit	
	Nine Months Ended October 31		Nine Months Ended October 31	
	2009	2008	2009	2008
Net periodic benefit cost:				
Service cost	\$ 15	\$ 17	\$ 81	\$ 78
Interest cost	340	426	339	324
Expected return on plan assets	(275)	(380)		
Recognized prior service cost			(57)	(57)
Recognized net actuarial loss	36	66		3
	\$ 116	\$ 129	\$ 363	\$ 348

Note 11 Recent Accounting Pronouncements

Business combinations and noncontrolling interests in consolidated financial statements - In December 2007, the Financial Accounting Standards Board (FASB) issued accounting guidance on business combinations and noncontrolling interests in consolidated financial statements. The guidance on business combinations requires the acquiring entity in a business combination to recognize the assets acquired and liabilities assumed. Further, it also changes the accounting for acquired in-process research and development assets, contingent consideration, partial acquisitions and transaction costs. Under the guidance on noncontrolling interests, all entities are required to report noncontrolling (minority) interests in subsidiaries as equity in the consolidated financial statements. In addition, transactions between an entity and noncontrolling interests will be treated as equity transactions. We adopted this new guidance on February 1, 2009. The adoption of this guidance

did not have any impact on our financial statements.

Table of Contents

Disclosures about derivative instruments and hedging activities - In March 2008, the FASB issued accounting guidance on disclosures about derivative instruments and hedging activities. This guidance expands disclosures for derivative instruments by requiring entities to disclose the fair value of derivative instruments and their gains or losses in tabular format. It also requires disclosure of information about credit risk-related contingent features in derivative agreements, counterparty credit risk, and strategies and objectives for using derivative instruments. We adopted this new guidance on February 1, 2009. The adoption of this guidance did not have any impact on our financial statements.

Classification of share based payment instruments as participating securities - In June 2008, the FASB issued accounting guidance which addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and, therefore, need to be included in the earnings allocation in computing earnings per share under the two-class method. The provisions of this guidance were adopted on February 1, 2009 and did not have a material impact on our financial statements.

Subsequent events - In May 2009, the FASB issued accounting guidance on subsequent events that establishes standards of accounting for and disclosure of subsequent events. In addition, it requires disclosure of the date through which an entity has evaluated subsequent events and the nature of any nonrecognized subsequent events. This new guidance was adopted for our financial statements for the quarter ended July 31, 2009. The adoption of this guidance did not have a material impact on our financial statements.

Accounting standards codification - In June 2009, the FASB issued guidance on a single source of authoritative U.S. Generally Accepted Accounting Principles (GAAP) to be applied by nongovernmental entities. While not intended to change U.S. GAAP, the codification significantly changed the way in which the accounting literature is referenced and organized. All existing accounting standards were superseded by the codification, and all other accounting guidance not included in the codification will be considered non-authoritative. We adopted this new guidance for our financial statements for the quarter ended October 31, 2009. The adoption of this guidance did not have an impact on our financial statements.

Note 12 Warranty Obligations

We record a liability on our consolidated balance sheet for costs related to warranties with the sales of our products. This liability is estimated through historical customer claims, product failure rates, material usage and service delivery costs incurred in correcting a product failure. Our warranty obligations, which are recorded in other accrued expenses on the consolidated balance sheets, were as follows (in thousands):

	2009	2008
Balance at January 31	\$ 1,312	\$ 1,900
Accruals for warranties issued during the period	1,510	1,487
Accruals for pre-existing warranties	682	
Settlements during the period	(2,192)	(1,677)
Foreign currency changes	103	(253)
Balance at October 31	\$ 1,415	\$ 1,457

Table of Contents**Note 13 Accumulated Other Comprehensive Income**

During the nine months ended October 31, 2009, accumulated other comprehensive income increased due to fluctuations in foreign currencies, primarily the Euro, British Pound and Canadian Dollar. The following table presents the changes in and the components of accumulated other comprehensive income (in thousands):

	Accumulated Other Comprehensive Income (Loss)		
	Translation Adjustment	Minimum Pension Liability Adjustment	Total
Balance at January 31, 2009	\$ 8,942	\$ (675)	\$ 8,267
Currency translation adjustment	18,942	(112)	18,830
Balance at October 31, 2009	\$ 27,884	\$ (787)	\$ 27,097

Note 14 Income Taxes

The provision for income taxes in the third quarter of fiscal 2010 is primarily a result of taxes due in countries where we are generating income and taxes on foreign dividends related to the repatriation of cash to the U.S. We are currently unable to realize a tax benefit in several European countries where we have incurred losses.

As of October 31, 2009 our liability for uncertain tax positions was \$1.3 million. There were no material changes in unrecognized tax benefits during the current period. The reserve for unrecognized tax benefits as of October 31, 2009 included an accrual for interest and penalties of \$240,000.

We are subject to taxation primarily in the U.S., Canada and China, as well as various state and other foreign jurisdictions. The Internal Revenue Service (IRS) is currently reviewing our U.S. income tax return for fiscal years 2004 - 2007. The IRS has proposed an adjustment of \$5 million related to interest deductions reported on tax returns for the 2004 and 2005 tax years. These adjustments would result in an additional federal and state tax liability of approximately \$1.8 million. We are in the process of appealing the issue with the IRS and have determined that we will more-likely-than-not prevail on the issue. No amount has been recorded in our financial statements as of October 31, 2009 related to this matter. As of October 31, 2009, we remain subject to examination in various state and foreign jurisdictions for the 1999-2008 tax years.

Note 15 Restructuring Activities

During the first nine months of fiscal 2010 and 2009 we incurred costs related to our ongoing European restructuring activities. The following table outlines the restructuring costs incurred during those periods (in thousands):

	For the Three Months Ended October 31		For the Nine Months Ended October 31	
	2009	2008	2009	2008
Employee wages and benefits	\$ 531	\$ 1,038	\$ 11,146	\$ 1,486
Facility shut down	968		1,207	
Professional fees	184	252	369	252
Other restructuring	(113)		329	
Fixed asset write downs	(56)		4,829	
Total costs	\$ 1,514	\$ 1,290	\$ 17,880	\$ 1,738

As of October 31, 2009, \$3 million of accrued restructuring costs are included on the consolidated balance sheet. We anticipate paying these costs by the end of fiscal 2010. Fixed asset write downs are recorded as a reduction of the carrying value of property, plant and equipment.

Table of Contents

European restructuring costs by facility location are as follows (in thousands):

	For the Three Months Ended October 31		For the Nine Months Ended October 31	
	2009	2008	2009	2008
The Netherlands	\$ 986	\$ 82	\$ 12,802	\$ 530
France	465		5,015	
Germany	63	1,208	63	1,208
Total costs	\$ 1,514	\$ 1,290	\$ 17,880	\$ 1,738

Note 16 Debt

In July 2009, we entered into an amendment of our loan agreement with Bank of America and Union Bank. The amendment decreases the aggregate amount that may be borrowed under the loan agreement from \$143.8 million to \$115 million, but provides that we may increase the amount that may be borrowed by up to \$30 million, subject to the agreement of the lenders. The amendment to the loan agreement grants the lenders a security interest in all of our assets, provides for the guaranties of the loan and the grant of security interest, to secure the guaranties by certain of our subsidiaries, increases the interest rate on the loan to rates ranging from 1.5% to 3.0% over LIBOR depending on our consolidated leverage ratio, and modifies certain loan covenants, including the consolidated leverage ratio and consolidated fixed charge coverage ratio, that we are required to maintain. We were in compliance with our debt covenants at October 31, 2009.

Note 17 Subsequent Event

During October 2009, we initiated discussions with the local works council at our facility in Hagen, Germany regarding our intention to cease production operations. Our current plans are to continue to maintain sales and certain administrative functions in Germany and shift production capacity to other Cascade facilities. We estimate the costs for the Hagen restructuring will be approximately \$10 million and will be incurred in the fourth quarter of fiscal 2010.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Our businesses globally manufacture and distribute material handling load engagement products primarily for the lift truck industry and to a lesser extent the construction industry. We operate in four geographic segments: North America, Europe, Asia Pacific and China. All references to fiscal periods are defined as the period ended October 31, 2008 (fiscal 2009) and the period ended October 31, 2009 (fiscal 2010).

RECENT TRENDS AND DEVELOPMENTS AFFECTING OUR RESULTS

Restructuring

We have continued to execute our plan to restructure our current business and improve operational efficiencies. This has included a continued rationalization of our existing production capacity in a lift truck market in which year-to-date shipments are down 47% from the prior year. Through the first nine months of the year we have incurred costs of \$18 million, all of which related to our European operations. We previously announced that the estimated restructuring costs for fiscal 2010 could be up to \$25 million. At the present time we estimate our total restructuring costs for fiscal 2010 will be approximately \$28 million. The additional costs above our original estimate relate to charges for restructuring activities in Hagen, Germany noted below.

During October 2009, we initiated discussions with the local works council at our facility in Hagen, Germany regarding our intention to cease production operations. Our current plans are to continue to maintain sales and certain administrative functions in Germany and shift production capacity to other Cascade facilities. We estimate the costs for the Hagen restructuring will be approximately \$10 million and will be incurred in the fourth quarter of fiscal 2010.

It continues to be very difficult to estimate the prolonged effect this downturn will have on our future business. We believe our cash and cash equivalents, existing credit facilities and cash flows from operations will be sufficient to satisfy our expected working capital, capital expenditures and debt requirements for at least the next twelve months.

Table of Contents**COMPARISON OF THIRD QUARTER OF FISCAL 2010 AND FISCAL 2009****Executive Summary**

	Three Months Ended October 31		Change	Change %
	2009	2008		
	(In thousands except per share amounts)			
Net sales	\$ 80,822	\$ 139,134	\$ (58,312)	(42)%
Operating income	\$ 1,017	\$ 17,815	\$ (16,798)	(94)%
Income before taxes	\$ 371	\$ 14,968	\$ (14,597)	(98)%
Provision for income taxes	\$ 214	\$ 4,553	\$ (4,339)	(95)%
Effective tax rate	58%	30%	28%	93%
Net income	\$ 157	\$ 10,415	\$ (10,258)	(98)%
Diluted earnings per share	\$ 0.01	\$ 0.94	\$ (0.93)	(99)%

The following is an overview for the third quarter of fiscal 2010:

Consolidated net sales decreased 42%, excluding the impact of foreign currencies, as a result of the general economic downturn and a weak lift truck market. Global lift truck shipments were down 44% compared to the prior year. We have found that lift truck industry statistics provide an indication of the direction of our business activity. However, changes in our net sales do not correspond directly to the percentages changes in lift truck shipments or orders.

Our consolidated gross profit percentage decreased primarily as a result of unabsorbed fixed and variable costs due to lower sales volumes, particularly in Europe.

We incurred restructuring costs of \$1.5 million primarily related to shutting down production activities at our facility in The Netherlands.

We were able to pay down outstanding debt by \$2.3 million during the quarter ended October 31, 2009 using cash flow from operations.

The income tax expense in fiscal 2010 is a result of taxes due in countries where we are generating income and taxes on foreign dividends related to the repatriation of cash to the U.S. We are currently unable to realize a tax benefit in several European countries where we have incurred losses.

North America

	Three Months Ended October 31				Change	Change %
	2009	%	2008	%		
	(In thousands)					
Net sales	\$ 40,215	91%	\$ 69,692	90%	\$ (29,477)	(42)%
Transfers between areas	4,097	9%	7,696	10%	(3,599)	(47)%
Net sales and transfers	44,312	100%	77,388	100%	(33,076)	(43)%
Cost of goods sold	30,540	69%	53,033	69%	(22,493)	(42)%

Edgar Filing: CASCADE CORP - Form 10-Q

Gross profit	13,772	31%	24,355	31%	(10,583)	(43)%
Selling and administrative	9,329	21%	11,304	14%	(1,975)	(17)%
Loss on disposition of assets, net			15		(15)	
Amortization	48		586	1%	(538)	(92)%
Operating income	\$ 4,395	10%	\$ 12,450	16%	\$ (8,055)	(65)%

Table of Contents

Details of the change in net sales compared to the prior year quarter are as follows (in thousands):

	Amount	Change %
Net sales change	\$ (29,488)	(42)%
Foreign currency change	11	0%
Total	\$ (29,477)	(42)%

The following summarizes financial results for North America for the third quarter of fiscal 2010. All percentage comparisons to the prior year exclude the impact of foreign currencies:

Net sales decreased 42% primarily due to lower sales volumes as a result of the general economic downturn and a weak lift truck market. Lift truck industry shipments decreased 50% for the quarter.

Product to other Cascade locations decreased 47% during fiscal 2010 due to lower global customer demand and efforts to reduce inventory.

Our gross profit percentage remained consistent at 31% due to the effect of price increases implemented in fiscal 2009 and a favorable product and customer mix. This offsets the effect of significantly lower sales volumes. Most of our facilities in North America continued to operate at reduced work schedules during the third quarter of fiscal 2010.

Selling and administrative costs decreased 18% due to lower personnel and other general costs.

Europe

	Three Months Ended October 31				Change	Change %
	2009	%	2008	%		
	(In thousands)					
Net sales	\$ 18,555	97%	\$ 42,144	99%	\$ (23,589)	(56)%

Cost of goods sold	21,235	111%	34,873	82%	(13,638)	(39)%
Gross profit (loss)	(2,113)	(11)%	7,731	18%	(9,844)	(127)%
Selling and administrative	4,526	24%	6,073	14%	(1,547)	(25)%
Loss (gain) on disposition of assets, net	56		(61)		117	
Amortization	75		73		2	3%
European restructuring costs	1,514	8%	1,290	3%	224	17%
Operating income (loss)	\$ (8,284)	(43)%	\$ 356	1%	\$ (8,640)	

Details of the change in net sales compared to the prior year quarter are as follows (in thousands):

Edgar Filing: CASCADE CORP - Form 10-Q

	Amount	Change %
Net sales change	\$ (23,565)	(56)%
Foreign currency change	(24)	0%
Total	\$ (23,589)	(56)%

The following summarizes financial results for Europe for the third quarter of fiscal 2010. All percentage comparisons to the prior year exclude the impact of foreign currencies:

Net sales decreased 56% primarily due to lower sales volumes as a result of the general economic downturn and a weak lift truck market. Lift truck industry shipments decreased 64% for the quarter.

Table of Contents

Our gross profit percentage decreased due to significantly lower sales volumes, which resulted in unabsorbed fixed and variable costs, higher product costs from transportation and import duties of goods shipped from North America and inventory write-downs due to restructuring. Most facilities in Europe operated under reduced work schedules during the third quarter of fiscal 2010. In addition, we recorded inventory write-downs of approximately \$800,000 to reflect losses we expect to incur on certain customer orders which will be shipped in subsequent quarters.

Selling and administrative costs decreased 25% primarily due to lower personnel costs, as a result of headcount reductions made during our European restructuring activities. Marketing, selling and travel costs were also lower.

Restructuring costs were primarily a result of shutting down production activities at our facility in The Netherlands. These costs included severance costs of \$531,000, costs for movement of equipment and facility shutdown of \$968,000 and other restructuring costs of \$15,000. We estimate costs in the future for The Netherlands restructuring will be minimal.

We initiated discussions with the local works council at our facility in Hagen, Germany regarding our intention to cease production operations. Our current plans are to continue to maintain sales and certain administrative functions in Germany and shift production capacity to other Cascade facilities. Using these facilities we will be able to continue providing a full-range of products to our European customers. We estimate the costs for the Hagen restructuring will be approximately \$10 million and will be incurred in the fourth quarter of fiscal 2010.

Asia Pacific

	Three Months Ended October 31				Change	Change %
	2009	%	2008	%		
	(In thousands)					
Net sales	\$ 11,886	99%	\$ 17,291	99%	\$ (5,405)	(31)%
Transfers between areas	112	1%	199	1%	(87)	(44)%
Net sales and transfers	11,998	100%	17,490	100%	(5,492)	(31)%
Cost of goods sold	8,715	73%	13,850	79%	(5,135)	(37)%
Gross profit	3,283	27%	3,640	21%	(357)	(10)%
Selling and administrative	2,029	17%	2,206	13%	(177)	(8)%
Loss on disposition of assets, net			44		(44)	
Operating income	\$ 1,254	10%	\$ 1,390	8%	\$ (136)	(10)%

Details of the change in net sales compared to the prior year quarter are as follows (in thousands):

	Amount	Change %
Net sales change	\$ (6,133)	(35)%
Foreign currency change	728	4%
Total	\$ (5,405)	(31)%

The following summarizes financial results for Asia Pacific for the third quarter of fiscal 2010. All percentage comparisons to the prior year exclude the impact of foreign currencies:

Edgar Filing: CASCADE CORP - Form 10-Q

Net sales decreased 36% primarily due to lower sales volumes as a result of the general economic downturn and a weak lift truck market. Lift truck industry shipments for the quarter decreased 44%.

Our gross profit percentage increased due to changes in product mix and fluctuations in foreign currency rates.

Selling and administrative costs decreased 15% due to lower personnel, sales and other general costs.

Table of Contents**China**

	Three Months Ended October 31				Change	Change %
	2009	%	2008	%

Details of the change in net sales compared to the prior year quarter are as follows (in thousands):

	Amount	Change %
Net sales change	\$ 140	2%
Foreign currency change	19	0%
Total	\$ 159	2%

The following summarizes financial results for China for the third quarter of fiscal 2010. All percentage comparisons to the prior year exclude the impact of foreign currencies:

Net sales increased 2% primarily due to a slight recovery of the Chinese economy and lift truck market. Lift truck industry shipments for the quarter decreased 10%.

Transfers to other Cascade locations decreased 62% during the current year due to lower customer demand in Europe and Asia Pacific and efforts to reduce inventory.

Our gross profit percentage increased due to changes in product mix, price increases implemented in the prior year and lower intercompany transfers, which carry lower gross margins.

Selling and administrative costs decreased 8% due to lower personnel and other general costs.

Non-Operating Items

The following are financial highlights for non-operating items during the third quarter of fiscal 2010:

Edgar Filing: CASCADE CORP - Form 10-Q

Interest expense decreased \$648,000 during fiscal 2010 primarily due to lower long-term debt levels and lower interest rates in the current year.

The provision for income taxes in the third quarter of fiscal 2010 is primarily a result of taxes due in countries where we are generating income and taxes on foreign dividends related to the repatriation of cash to the U.S. We are currently unable to realize a tax benefit in several European countries where we have incurred losses.

Lift Truck Market Outlook

Global lift truck shipments continue at their lowest levels since the early 1980 s. The uncertain depth and duration of this recession makes it very difficult to estimate when the global lift truck market will begin to recover. However, we are anticipating that demand for lift trucks will continue to be at low levels during the fourth quarter of fiscal 2010 and into fiscal 2011.

Additional information on lift truck industry trends can be found at www.cascorp.com/investor/industrytrends. This website address is intended to provide an inactive, textual reference only. The information at this website is not a part of this Form 10-Q and is not incorporated by reference.

Diluted earnings (loss) per share	\$ (2.24)	\$ 2.86	\$ (5.10)	(178)%

The following is an overview for the first nine months of fiscal 2010:

Consolidated net sales decreased 45%, excluding the impact of foreign currencies, as a result of the general economic downturn and a weak lift truck market. Global lift truck shipments were down 47% compared to the prior year.

Our consolidated gross profit percentage decreased during fiscal 2010, primarily as a result of unabsorbed fixed and variable costs due to lower sales volumes in Europe and North America.

We incurred restructuring costs of \$18 million during fiscal 2010, primarily as a result of shutting down production activities at our facility in The Netherlands and the closure of our fork facility in France.

Based on cash flow from operations, we were able to pay down outstanding debt by \$40 million during the nine months ended October 31, 2009.

The income tax expense in fiscal 2010 is a result of taxes due in countries where we are generating income and taxes on foreign dividends related to the repatriation of cash to the U.S. We are currently unable to realize a tax benefit in several European countries where we have incurred losses.

North America

	Nine Months Ended October 31				Change	Change %
	2009	%	2008	%		
	(In thousands)					
Net sales	\$ 115,182	91%	\$ 208,853	89%	\$ (93,671)	(45)%

Table of Contents

Details of the change in net sales compared to the prior year are as follows (in thousands):

	Amount	Change %
Net sales change	\$ (92,562)	(44)%
Foreign currency change	(1,109)	(1)%
Total	\$ (93,671)	(45)%

The following summarizes financial results for North America for the first nine months of fiscal 2010. All percentage comparisons to the prior year exclude the impact of foreign currencies:

Net sales decreased 44% primarily due to lower sales volumes as a result of the general economic downturn and a weak lift truck market. Lift truck industry shipments decreased 43% during the current fiscal year.

Transfers to other Cascade locations decreased 56% during fiscal 2010 due to lower global customer demand and efforts to reduce inventory.

Our gross profit percentage decreased due to significantly lower sales volumes which resulted in unabsorbed fixed and variable costs. Most facilities in North America have operated on reduced work schedules during fiscal 2010.

Selling and administrative costs decreased 15% due to lower personnel, consulting, advertising and other general costs, which were partially offset by higher warranty costs.

Europe

Details of the change in net sales compared to the prior year are as follows (in thousands):

Edgar Filing: CASCADE CORP - Form 10-Q

	Amount	Change %
Net sales change	\$ (73,516)	(53)%
Foreign currency change	(6,216)	(4)%
Total	\$ (79,732)	(57)%

The following summarizes financial results for Europe for the first nine months of fiscal 2010. All percentage comparisons to the prior year exclude the impact of foreign currencies:

Net sales decreased 53% primarily due to lower sales volumes as a result of the general economic downturn and a weak lift truck market. Lift truck industry shipments decreased 61% for the current year.

Our gross profit percentage decreased primarily due to significantly lower sales volumes, which resulted in unabsorbed fixed and variable costs and the write off of inventory as a result of restructuring activities. Most facilities in Europe operated under reduced work schedules during fiscal 2010. In addition, we recorded inventory write downs to reflect losses we expect to incur on certain customer orders that will be shipped in the future.

Table of Contents

Selling and administrative costs decreased 29%, primarily due to lower personnel costs as a result of headcount reductions made during our European restructuring activities and lower marketing costs.

Restructuring costs were primarily a result of shutting down production activities at our facility in The Netherlands and the closure of our fork manufacturing facility in France. These costs include severance costs of \$11.1 million, fixed asset write downs of \$4.8 million, costs for movement of equipment and facility shutdowns of \$1.2 million and legal and other restructuring costs of \$700,000.

Asia Pacific

	Nine Months Ended October 31				Change	Change %
	2009	%	2008	%		
	(In thousands)

Operating income	\$ 3,089	9%	\$ 6,211	11%	\$ (3,122)	(50)%

Details of the change in net sales compared to the prior year are as follows (in thousands):

	Amount	Change %
Net sales change	\$ (19,441)	(35)%
Foreign currency change	(2,338)	(4)%
Total	\$ (21,779)	(39)%

The following summarizes financial results for Asia Pacific for the first nine months of fiscal 2010. All percentage comparisons to the prior year exclude the impact of foreign currencies:

Net sales decreased 35% primarily due to lower sales volumes as a result of the general economic downturn and a weak lift truck market. Lift truck industry shipments for the current year decreased 48%.

Our gross profit percentage increased due to a favorable product mix and fluctuations in foreign currencies.

Selling and administrative costs decreased 16% due to lower personnel, warranty, sales and other general costs.

Table of Contents**China**

Details of the change in net sales compared to the prior year are as follows (in thousands):

	Amount	Change %
Net sales change	\$ (10,550)	(30)%
Foreign currency change	409	1%
Total	\$ (10,141)	(29)%

The following summarizes financial results for China for the first nine months of fiscal 2010. All percentage comparisons to the prior year exclude the impact of foreign currencies:

Net sales decreased 30% primarily due to lower sales volumes as a result of the general economic downturn and a weak lift truck market. Lift truck industry shipments for fiscal 2010 decreased 28%.

Transfers to other Cascade locations decreased 62% during fiscal 2010 due to lower customer demand in Europe and Asia Pacific and efforts to reduce inventory.

Our gross profit percentage increased due to changes in product mix, price increases implemented in the prior year and lower intercompany transfers, which carry lower gross margins.

Selling and administrative costs decreased 19% due to lower personnel and other general costs.

Non-Operating Items

The following are financial highlights for non-operating items during the first nine months of fiscal 2010:

Edgar Filing: CASCADE CORP - Form 10-Q

Interest expense decreased \$2.1 million during fiscal 2010 primarily due to lower long-term debt levels and lower interest rates in the current year.

The provision for income taxes in fiscal 2010 is primarily a result of taxes due in countries where we are generating income and taxes on foreign dividends related to the repatriation of cash to the U.S. We are currently unable to realize a tax benefit in several European countries where we have incurred losses.

Table of Contents**CASH FLOWS****Free Cash Flow**

Free cash flow, a non-GAAP measure, is defined as cash flow from operating activities less capital expenditures. Free cash flow is considered a liquidity measure and provides useful information to management and investors about the amount of cash generated after capital expenditures, which can then be used for strategic opportunities including, among others, investing in our business, making strategic acquisitions and strengthening the balance sheet. A limitation of free cash flow is that it does not represent the total increase or decrease in the cash balance for the period.

In addition, management refers to these financial measures to facilitate internal and external comparisons to our historical operating results, in making operating decisions, for budget planning purposes, and to form the basis upon which management is compensated. These measures should be considered in addition to, not as a substitute for, or superior to, gross profit, income from operations, cash flow from operating activities, or other measures of financial performance prepared in accordance with generally accepted accounting principles. The following table presents a summary of our free cash flow:

	Three Months Ended October 31		Nine Months Ended October 31	
	2009	2008	2009	2008
	(In thousands)		(In thousands)	
Cash flow from operating activities	3,767	4,972	35,216	21,978
Capital expenditures	(1,426)	(3,546)	(3,257)	(13,585)
Free cash flow	\$ 2,341	\$ 1,426	\$ 31,959	\$ 8,393

Statements of Cash Flows

The statements of cash flows reflect the changes in cash and cash equivalents for the nine months ended October 31, 2009 and October 31, 2008 by classifying transactions into three major categories of activities: operating, investing and financing.

The following table presents a summary of our cash flows:

	For the Three Months Ended October 31		For the Nine Months Ended October 31	
	2009	2008	2009	2008
	(In thousands)		(In thousands)	
Operating activities	\$ 3,767	\$ 4,972	\$ 35,216	\$ 21,978
Investing activities	(1,390)	(3,429)	(3,091)	(13,080)
Financing activities	(2,614)	(6,792)	(41,108)	(5,233)
Effect of exchange rate changes	(2,050)	10,601	(6,662)	8,375
Net change in cash	\$ (2,287)	\$ 5,352	\$ (15,645)	\$ 12,040

Operating Activities

Our primary source of liquidity is cash generated from operating activities. The major operating activity is net income or loss adjusted for changes in working capital and non-cash operating items such as depreciation, amortization and share-based compensation.

The following are operating activity highlights:

Edgar Filing: CASCADE CORP - Form 10-Q

The net loss in fiscal 2010 was a result of significantly lower sales volumes, lower gross margins and restructuring charges.

Table of Contents

Inventories decreased \$27.3 million during the current year compared to an increase of \$17.5 million in fiscal 2009. We have limited purchases of materials and focused on lowering inventory quantities during the current year.

During fiscal 2010, accounts receivable decreased \$15.5 million compared to an increase of \$5.1 million in fiscal 2009. The decrease in the current year is primarily a result of lower sales.

Investing Activities

Our primary investing activity is capital expenditures, which are primarily for equipment and tooling related to product improvements, more efficient production methods and replacement for normal wear and tear. Capital expenditures by geographic segments were as follows (in thousands):

	Three Months Ended October 31		Nine Months Ended October 31	
	2009	2008	2009	2008
North America	\$ 399	\$ 2,252	\$ 1,233	\$ 5,657
Europe	787	689	1,079	4,271
Asia Pacific	92	268	459	1,173
China	148	337	486	2,484
	\$ 1,426	\$ 3,546	\$ 3,257	\$ 13,585

The following are investing activity highlights:

Capital expenditures decreased \$10.3 million during the current year. We have limited spending to only critical projects.

We expect capital expenditures for the fourth quarter of fiscal 2010 to be approximately \$2 million. We believe this level of capital expenditures is sufficient to meet operational requirements, which includes amounts needed to reallocate production capacity in Europe.

Financing Activities

The following are major financing activities:

Net payments made against our long-term debt and notes payable were \$40.9 million during fiscal 2010 compared to net borrowings of \$1.7 million during fiscal 2009. The increase in debt payments during the current year reflects our focus on utilizing free cash flow to pay down outstanding debt.

During the prior year, we concluded our share repurchase program.

We declared dividends of \$0.11 and \$0.58 during the first nine months of fiscal 2010 and 2009, respectively.

Table of Contents

FINANCIAL CONDITION AND LIQUIDITY

The following are highlights regarding our financial condition and liquidity for the first nine months of fiscal 2010:

Our working capital, defined as current assets less current liabilities, decreased from \$161.7 million at January 31, 2009 to \$114.3 million at October 31, 2009. Our current ratio decreased from 4.7 to 1 at January 31, 2009 to 3.4 to 1 at October 31, 2009. The decreases are primarily due to the use of cash, generated by the reduction of accounts receivable and inventory, to pay down long-term debt.

Total outstanding debt, including notes payable to banks, decreased from \$102.8 million at January 31, 2009 to \$62.8 million at October 31, 2009.

In July 2009, we entered into an amendment of our loan agreement with Bank of America and Union Bank of California. The amendment decreases the aggregate amount that may be borrowed under the loan agreement from \$143.8 million to \$115 million, but provides that we may increase the amount that may be borrowed by up to \$30 million, subject to the agreement of the lenders. The amendment to the loan agreement grants the lenders a security interest in all of our assets, provides for the guaranty of the loan and the grant of a security interest to secure the guaranty by certain of our subsidiaries, increases the interest rate on the loan to rates ranging from 1.5% to 3.0% over LIBOR depending on our consolidated leverage ratio, and modifies certain loan covenants, including the consolidated leverage ratio and consolidated fixed charge coverage ratio, that we are required to maintain. The following are details on these two ratios, which are calculated quarterly, based on actual results from the previous twelve months:

Fixed charge coverage ratio requires earnings before interest, taxes, depreciation, amortization and other non-cash charges (EBITDA), adjusted for cash taxes paid, an established level of capital expenditures and cash dividends, to be 1.15 times required debt service payments, principal and interest on outstanding debt through January 31, 2010, be 1.25 times from January 31, 2010 to July 30, 2010 and 1.5 times from July 31, 2010 onward. The actual fixed charge coverage ratio at October 31, 2009 was 5.2.

Leverage ratio requires outstanding debt and letters of credit to be less than 4.0 times EBITDA through April 29, 2010, less than 3.5 times EBITDA from April 30, 2010 through July 30, 2010 and less than 3.0 times EBITDA from July 31, 2010 onward. The actual leverage ratio at October 31, 2009 was 2.0.

We were in compliance with our debt covenants at October 31, 2009. We believe our cash and cash equivalents, existing credit facilities and cash flows from operations will be sufficient to satisfy our expected working capital, capital expenditure and debt requirements for the next twelve months. We are considering options available to us in the event additional liquidity is needed due to a prolonged downturn in our industry.

As of October 31, 2009, outstanding borrowings under this line of credit totaled \$55.5 million and an additional \$780,000 was used to issue letters of credit. No principal payments are required until December 2011. The interest rate on the line of credit, which was based on LIBOR plus a margin of 2% at October 31, 2009 was 2.36%.

Table of Contents**OTHER MATTERS**

The following table represents the three-month percentage change from July 31, 2009 to October 31, 2009 and the nine-month percentage change from January 31, 2009 to October 31, 2009 in the end of month foreign currency rates compared to the U.S. dollar used by our significant operations. As a result of these changes, foreign currency translation adjustments increased shareholders' equity by \$1.4 million during the quarter ended October 31, 2009 and \$18.8 million during the first nine months of fiscal 2010.

Currency	Three Months Ended October 31, 2009	Nine Months Ended October 31, 2009
Australian Dollar	8%	42%
British Pound	(2)%	13%
Canadian Dollar	0%	13%
Korean Won	3%	16%
Euro	3%	15%
Japanese Yen	5%	0%

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management's discussion and analysis of financial condition and results of operations is based on our consolidated financial statements which have been prepared in accordance with generally accepted accounting principles in the United States of America (GAAP). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. We evaluate our estimates and judgments on an on-going basis, including those related to uncollectible receivables, inventories, impairment of goodwill, warranty obligations, environmental liabilities, benefit plans, share-based compensation and deferred taxes. We base our estimates on historical experience and various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. A description of our critical accounting policies and related judgments and estimates that affect the preparation of our consolidated financial statements is set forth in our Annual Report on Form 10-K for the year ended January 31, 2009.

OFF BALANCE SHEET ARRANGEMENTS

At October 31, 2009, we did not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or for other contractually narrow or limited purposes. As such, we are not materially exposed to any financing, liquidity market or credit risk that could arise if we had engaged in such relationships.

RECENT ACCOUNTING PRONOUNCEMENTS

Business combinations and noncontrolling interests in consolidated financial statements - In December 2007, the Financial Accounting Standards Board (FASB) issued accounting guidance on business combinations and noncontrolling interests in consolidated financial statements. The guidance on business combinations requires the acquiring entity in a business combination to recognize the assets acquired and liabilities assumed. Further, it also changes the accounting for acquired in-process research and development assets, contingent consideration, partial acquisitions and transaction costs. Under the guidance on noncontrolling interests, all entities are required to report noncontrolling (minority) interests in subsidiaries as equity in the consolidated financial statements. In addition, transactions between an entity and noncontrolling interests will be treated as equity transactions. We adopted this new guidance on February 1, 2009. The adoption of this guidance did not have any impact on our financial statements.

Table of Contents

Disclosures about derivative instruments and hedging activities - In March 2008, the FASB issued accounting guidance on disclosures about derivative instruments and hedging activities. This guidance expands disclosures for derivative instruments by requiring entities to disclose the fair value of derivative instruments and their gains or losses in tabular format. It also requires disclosure of information about credit risk-related contingent features in derivative agreements, counterparty credit risk, and strategies and objectives for using derivative instruments. We adopted this new guidance on February 1, 2009. The adoption of this guidance did not have any impact on our financial statements.

Classification of share based payment instruments as participating securities - In June 2008, the FASB issued accounting guidance which addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and, therefore, need to be included in the earnings allocation in computing earnings per share under the two-class method. The provisions of this guidance were adopted on February 1, 2009 and did not have a material impact on our financial statements.

Subsequent events - In May 2009, the FASB issued accounting guidance on subsequent events that establishes standards of accounting for and disclosure of subsequent events. In addition, it requires disclosure of the date through which an entity has evaluated subsequent events and the nature of any nonrecognized subsequent events. This new guidance was adopted for our financial statements for the quarter ended July 31, 2009. The adoption of this guidance did not have a material impact on our financial statements.

Accounting standards codification - In June 2009, the FASB issued guidance on a single source of authoritative U.S. Generally Accepted Accounting Principles (GAAP) to be applied by nongovernmental entities. While not intended to change U.S. GAAP, the codification significantly changed the way in which the accounting literature is referenced and organized. All existing accounting standards were superseded by the codification, and all other accounting guidance not included in the codification will be considered non-authoritative. We adopted this new guidance for our financial statements for the quarter ended October 31, 2009. The adoption of this guidance did not have an impact on our financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the potential loss arising from adverse changes in market rates and prices, such as foreign currency exchange rate and interest rate fluctuations. A significant portion of our net sales and expenses are denominated in foreign currencies. As a result, our operating results could become subject to significant fluctuations based upon changes in the exchange rates of the foreign currencies in relation to the U.S. dollar.

The table below illustrates the hypothetical increase in net sales for the third quarter of fiscal 2010 resulting from a 10% weaker U.S. dollar against foreign currencies which impact our operations (in millions):

Euro	\$ 1.5
Chinese yuan	1.0
Japanese yen	0.5
Australian dollar	0.4
British pound	0.3
Canadian dollar	0.3
Other currencies (representing 5% of consolidated net sales)	0.4

A 10% weaker U.S. dollar during the quarter, measured against foreign currencies that affect our operations, would have decreased our operating income by \$113,000. The majority of this decrease would be related to the Euro.

We enter into foreign currency forward exchange contracts to offset the impact of currency fluctuations on assets and liabilities which will be settled in a currency other than the domestic currency of an entity. The principal currencies hedged are denominated in Japanese Yen, Canadian Dollars, Euros, Chinese Yuan, Korean Won, Swedish Krona and British Pounds. Our foreign currency forward exchange contracts have terms lasting up to three months, but generally less than one month. We do not enter into derivatives or other financial instruments for trading or speculative purposes.

Table of Contents

A majority of our products are manufactured using specialty steel. As such, our cost of goods sold is sensitive to fluctuations in specialty steel prices, either directly through the purchase of raw materials or indirectly through the purchase of components. However, due to the nature of specialty steel, we are not impacted by changes in commodity steel prices to the extent others might be.

Presuming that the full impact of steel price increases is reflected in all steel and steel based component purchases, we estimate our gross profit percentage would decrease by approximately 0.4% for each 1.0% increase in steel prices. Based on our statement of operations for the three months ended October 31, 2009, a 1.0% increase in steel prices would have decreased consolidated gross profit by approximately \$303,000.

The majority of our debt as of October 31, 2009 has a variable interest rate, which is currently based on LIBOR plus a margin of 2%. Based on the October 31, 2009 outstanding balance of our variable rate debt of \$56 million, a 1% increase in our interest rate would result in a \$560,000 increase in annual interest expense.

Table of Contents

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management has evaluated, under the supervision and with the participation of our chief executive officer and chief financial officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 (the Exchange Act). Based on that evaluation, our chief executive officer and chief financial officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective in ensuring that information required to be disclosed in our Exchange Act reports is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There has been no change in the internal control over financial reporting that occurred during the three months ended October 31, 2009 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
