PROSPECTUS SUMMARY

This summary highlights selected information contained elsewhere in this prospectus or in documents incorporated by reference in this prospectus. This summary does not contain all of the information that you should consider before investing in our common stock. You should read carefully the entire prospectus, including Risk Factors and the other information contained or incorporated by reference in this prospectus before making an investment decision.

Our Business

We are a diversified global supplier of drilling and production related products and services to the oil and gas industry. Our core focus is oilfield specialty chemicals and logistics, downhole drilling tools and downhole production tools. Our business is organized into three strategic business units or segments: Chemicals and Logistics, Drilling Products and Artificial Lift. Each segment offers various products and services and requires different technology and marketing strategies. All three segments market products domestically and internationally.

Chemicals and Logistics

The chemical business offers a full spectrum of oil field and gas field specialty chemicals used for drilling, cementing, stimulation, and production designed to maximize recovery from both new and mature fields. Our specialty chemicals are key to the success of this business segment. Our specialty chemicals have enhanced performance characteristics and are manufactured to withstand a wide range of downhole pressures, temperatures and other well-specific conditions. We operate two laboratories, a technical services laboratory and a research and development laboratory, which focus on design, development and testing of new chemical formulations and enhancement of existing products, often in cooperation with our customers.

Our CESI branded micro-emulsions are patented (US & foreign) and are therefore unique in the oil and gas market. Micro-emulsions are stable mixtures of oil, water and surface active agents, forming a complex nano-fluid in which the molecules are organized (or assembled) into nanostructures. The combination of solvent, surface active agents and structure provide better well treatment results than the use of solvent and surface active agents alone. CESI's micro-emulsions are composed of renewable plant derived cleaning ingredients and oils and are biodegradable. Some of the micro-emulsions have received approval for use in the North Sea, meeting some of the most stringent oil field environmental standards in the world. CESI's micro-emulsions have documented operational and financial benefit in both low permeability sand and shale reservoirs.

Our logistics business designs, project manages and operates automated bulk material handling and loading facilities for oilfield service companies. These bulk facilities handle oilfield products, including sand and other materials for well-fracturing operations, dry cement and additives for oil and gas well cementing, and supplies and materials used in oilfield operations, which we blend to customer specification.

Drilling Products

We are a leading provider of downhole drilling tools used in the oilfield, mining, water-well and industrial drilling sectors. We manufacture, sell, rent and inspect specialized equipment for use in drilling, completion, production and workover activities. Through internal growth and acquisitions, we have increased the size and breadth of our rental tool inventory and geographic scope of operations so that we now conduct tool rental operations throughout the United States and in select international markets. Our rental tools include stabilizers, drill collars, reamers, wipers, jars, shock subs, wireless survey, and measurement while drilling, or MWD, tools and mud-motors, while equipment sold includes mining equipment, centralizers and drill bits. We focus our product marketing efforts primarily in the Southeast, Northeast, Mid-Continent and Rocky Mountain regions of the United States, with international sales currently conducted through third party agents and employees.

Table of Contents

Artificial Lift

We provide pumping system components, including electric submersible pumps, or ESPs, gas separators, production valves and services. Our products address the needs of coal bed methane and traditional oil and gas production to efficiently move gas, oil and other fluids from the producing horizon to the surface. Several of our Artificial Lift products employ unique technologies to improve well performance. Our patented Petrovalve product optimizes pumping efficiency in horizontal completions, heavy oil and wells with high liquid to gas ratios. This unique valve can be placed horizontally, results in increased flow per stroke, and eliminates gas locking by replacing the traditional ball and seat valve that requires more maintenance. Furthermore, our patented gas separation technology is particularly applicable for coal bed methane production as it efficiently separates gas and water downhole, ensuring solution gas is not lost in water production. Because gas is separated downhole, it reduces the environmental impact of escaped gas at the surface. The majority of our products for Artificial Lift are manufactured in China, assembled domestically and distributed globally.

Our principal executive offices are located at 2930 W. Sam Houston Pkwy. N., Houston, Texas 77043, and our telephone number is (713) 849-9911. Our website address is <http://www.flotekind.com>. RISK FACTORS

*An investment in our common stock is subject to numerous risks, including those listed below and the other risks described under the caption **Risk Factors** in our Annual Report on Form 10-K for the year ended December 31, 2009, as amended by Amendment No. 1 to such report, which are incorporated by reference herein. You should carefully consider these risks, along with the information provided elsewhere in this prospectus and the documents we incorporate by reference in this prospectus before investing in the common stock. You could lose all or part of your investment in the common stock.*

Additional Risks Associated With an Investment in Our Common Stock

Substantial sales of our common stock could adversely affect our stock price.

Sales of a substantial number of shares of common stock after the date of this prospectus, or the perception that such sales could occur, could adversely affect the market price of our common stock by introducing a large number of sellers to the market. Such sales could cause the market price of our common stock to decline.

On August 11, 2009, in connection with the private placement of preferred stock, exercisable warrants to purchase common stock and contingent warrants to purchase common stock, we entered into purchase agreements with certain accredited investors, who collectively hold or have the right to acquire a total of 17,436,512 shares of our common stock. Pursuant to the purchase agreements, we have filed and are obligated to maintain a "shelf" registration statement relating to the resale of certain of the shares of our common stock issuable upon conversion of the preferred stock and exercise of the warrants issued to the accredited investors in the private placement.

By causing a large number of shares to be sold in the public market, these holders could cause the market price of our common stock to decline. We cannot predict whether future sales of our common stock, or the availability of our common stock for sale, will adversely affect the market price for our common stock or our ability to raise capital by offering equity securities.

USE OF PROCEEDS

The shares of common stock to be offered and sold pursuant to this prospectus will be offered and sold by the selling stockholders. We will not receive any proceeds from the sale of the shares of common stock by the selling stockholders.

Of the 8,000,000 shares of common stock to be offered and sold pursuant to this prospectus, all such shares of common stock will be issued to the selling stockholders upon exercise of the contingent warrants. We will receive an aggregate of \$10,198,400 from the selling stockholders upon exercise of these warrants assuming all of such warrants are exercised.

Table of Contents**SELLING STOCKHOLDERS**

On August 12, 2009, we completed a private placement of preferred stock, exercisable warrants to purchase common stock and contingent warrants to purchase common stock. The preferred stock is convertible into shares of our common stock and the warrants entitle the holders thereof to purchase shares of our common stock. The issuance of the preferred stock and the warrants was exempt from the registration requirements of the Securities Act under Section 4(2) of the Securities Act, which did not involve a public offering. In connection with the private placement, we entered into purchase agreements with certain accredited investors. Under the purchase agreements, we have agreed to indemnify each selling stockholder and their respective directors, officers, members, partners, employees, agents and representatives, against certain liabilities, including liabilities under the Securities Act. Additionally, pursuant to the purchase agreements, we agreed to file with the SEC a registration statement relating to the registration of the offer and sale by the accredited investors of the 8,000,000 shares of our common stock issuable upon exercise of the contingent warrants issued to the accredited investors in the private placement. We have filed the registration statement of which this prospectus forms a part in order to comply with our obligation under the purchase agreements to the accredited investors.

The following table sets forth information regarding the selling stockholders and the number of shares of common stock each selling stockholder is offering. The information included in the table as to the selling stockholders has been furnished to us by or on behalf of the selling stockholders for inclusion in this prospectus. The selling stockholders identified below may have sold, transferred, or otherwise disposed of some or all of their securities since the date as of which the information in the following table is presented in transactions exempt from or not subject to the registration requirements of the Securities Act and of which we are not aware. The term "selling stockholder" includes donees, pledgees, transferees, or other successors-in-interest selling securities received from the named selling stockholders as a gift, pledge, stockholder distribution or other non-sale related transfer after the date of this prospectus. Under the rules of the SEC, beneficial ownership includes shares over which the indicated beneficial owner exercises voting or investment power. The information regarding shares beneficially owned after the offering assumes the sale of all shares offered by the selling stockholders. The percentage ownership data is based on 30,076,602 shares of our common stock issued and outstanding as of April 21, 2010.

The Northwestern Mutual Life Insurance Company and OTA LLC are broker-dealers or affiliates of a broker-dealer. We have been advised by the selling stockholders that none of the other selling stockholders is a broker-dealer or an affiliate of a broker-dealer. We have also been advised by the selling stockholders that they purchased the securities being registered in the ordinary course of business, and not for resale, and that they had, at the time of purchase, no agreements or understandings, directly or indirectly, with any person to distribute such securities.

Jerry D. Dumas, Sr., one of the selling stockholders, is the Chairman of the Board of Directors of the Company. To our knowledge, none of the other selling stockholders has, or has had within the past three years, any position, office or other material relationship with us or any of our predecessors or affiliates, other than their ownership of securities described below.

In connection with sales of the common stock or otherwise, the selling stockholders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the common stock in the course of hedging in positions they assume. The selling stockholders may also sell shares of common stock short and deliver shares of common stock to close out short positions, or loan or pledge shares of common stock to broker-dealers that in turn may sell those shares. If the selling stockholders effects such transactions by selling shares of common stock to or through underwriters, broker-dealers or agents, those underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling stockholders or commissions from purchasers of the shares of common stock for whom

Furthermore, under Regulation M persons engaged in a distribution of securities are prohibited from simultaneously engaging in market making and certain other activities with respect to such securities for a specified period of time prior to the commencement of such distributions, subject to specified exceptions or exemptions. Item 15. Indemnification of Directors and Officers.

Section 145(a) of the General Corporation Law of the State of Delaware (the "DGCL") empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the person's conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which the person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that the person's conduct was unlawful.

Section 145(b) of the DGCL empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorneys' fees) actually and reasonably incurred by the person in connection with the defense or settlement of such action or suit if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

Section 145(c) of the DGCL provides that to the extent that a present or former director or officer of a corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in subsections (a) and (b) of Section 145, or in defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith.

Table of Contents

Section 145(d) of the DGCL provides that any indemnification under subsections (a) and (b) of Section 145 (unless ordered by a court) shall be made by the corporation only as authorized in the specific case upon a determination that indemnification of the present or former director, officer, employee or agent is proper in the circumstances because the person has met the applicable standard of conduct set forth in subsections (a) and (b) of Section 145. Such determination shall be made, with respect to a person who is a director or officer at the time of such determination, (1) by a majority vote of the directors who are not parties to such action, suit or proceeding, even though less than a quorum, or (2) by a committee of such directors designated by majority vote of such directors, even though less than a quorum, or (3) if there are no such directors, or if such directors so direct, by independent legal counsel in a written opinion, or (4) by the stockholders.

Section 145(e) of the DGCL provides that expenses (including attorneys' fees) incurred by an officer or director in defending any civil, criminal, administrative or investigative action, suit or proceeding may be paid by the corporation in advance of the final disposition of such action, suit or proceeding upon receipt of an undertaking by or on behalf of such director or officer to repay such amount if it shall ultimately be determined that such person is not entitled to be indemnified by the corporation as authorized in Section 145. Such expenses (including attorneys' fees) incurred by former directors and officers or other employees and agents may be so paid upon such terms and conditions, if any, as the corporation deems appropriate.

Section 145(f) of the DGCL provides that the indemnification and advancement of expenses provided by, or granted pursuant to, the other subsections of Section 145 shall not be deemed exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in such person's official capacity and as to action in another capacity while holding such office.

Section 145(g) of the DGCL provides that a corporation shall have power to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against such person and incurred by such person in any such capacity, or arising out of such person's status as such, whether or not the corporation would have the power to indemnify such person against such liability under Section 145.

Section 145(j) of the DGCL provides that the indemnification and advancement of expenses provided by, or granted pursuant to, Section 145 shall, unless otherwise provided when authorized or ratified, continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

Section 102(b)(7) of the DGCL provides that a certificate of incorporation may contain a provision eliminating or limiting the personal liability of a director to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, provided that such provision shall not eliminate or limit the liability of a director: (i) for any breach of the director's duty of loyalty to the corporation or its stockholders; (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law; (iii) under Section 174 of the DGCL or (iv) for any transaction from which the director derived an improper personal benefit. In accordance with Section 102(b)(7) of the DGCL, our Amended and Restated Certificate of Incorporation contains a provision that generally eliminates the personal liability of directors for monetary damages for breaches of their fiduciary duty, subject to the limitations of Section 102(b)(7).

Furthermore, our Amended and Restated Certificate of Incorporation and Bylaws provide for (i) indemnification of our directors, officers and employees and agents (to the extent deemed appropriate by the board of directors) to the fullest extent permitted by applicable law; (ii) the right of our directors, officers, employees and agents to be paid or reimbursed by us for the reasonable expenses incurred in advance of a proceeding's final disposition to the fullest extent authorized by applicable law; (iii) the payment or reimbursement of expenses incurred by a director or officer in connection with their appearance as a witness or other participation in a proceeding at a time when they are not a named defendant or respondent in the proceeding; and (iv) the purchase of insurance by us to protect us and any person who is or was serving as our director, officer, employee or agent.

Item 16. Exhibits.

The exhibits listed on the Exhibit Index to this registration statement are hereby incorporated by reference.

Item 17. Undertakings.

A. The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by section 10(a)(3) of the Securities Act;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in this registration statement;

provided, however, that paragraphs A(1)(i), (A)(1)(ii) and A(1)(iii) above do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in a report filed with or furnished to the SEC by the registrant pursuant to section 13 or 15(d) of the Exchange Act that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining any liability under the Securities Act to any purchaser:

(i) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5) or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii) or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective

date of the registration statement relating to the securities in the registration statement to which the prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

(5) That, for the purpose of determining liability of the registrant under the Securities Act to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

(iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

B. The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered herein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

C. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described under Item 15 above, or otherwise, the registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
