(Name, telephone, facsimile number and address of company contact person)

Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of each class:	Name of each exchange on which registered:
American Depositary Shares* Common Stock**	The New York Stock Exchange

* American Depositary Receipts evidence American Depositary Shares, each American Depositary Share representing one share of the registrant's Common Stock.

** No par value. Not for trading, but only in connection with the registration of American Depositary Shares, pursuant to the requirements of the Securities and Exchange Commission.

Securities registered or to be registered pursuant to Section 12(g) of the Act: None

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act: None

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report:

Title of class:	Outstanding as of March 31, 2010:
Common Stock	178,721,592
American Depositary Shares	
each representing one share of Common Stock	1,901,143

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days: Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files): Yes No

Edgar Filing: ADVANTEST CORP - Form 20-F

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

<input checked="" type="checkbox"/> U.S. GAAP	<input type="checkbox"/> International Financial Reporting Standards as issued By the International Accounting Standards Board	<input type="checkbox"/> Other
---	---	--------------------------------

If Other has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow. Item 17 Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As used in this annual report, the term "fiscal year" preceding a year means the twelve-month period ended March 31 of the year subsequent to the year referred to. For example, "fiscal 2009" refers to the twelve-month period ended March 31, 2010. All other references to years refer to the applicable calendar year.

In parts of this annual report, certain amounts reported in Japanese yen have been translated into U.S. dollars for the convenience of readers. Unless otherwise noted, the rate used for this translation was \$1.00 = ¥93.04. This was the approximate exchange rate in Japan on March 31, 2010.

Table of Contents

Unless otherwise noted, all references and discussions of the financial position of Advantest Corporation (the Company) and its consolidated subsidiaries (collectively, Advantest), results of operations and cash flow in this annual report are made with reference to Advantest's consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States, or U.S. GAAP. The segment sales figures included in this annual report are presented before eliminating intercompany transactions.

See Information on the Company Business Overview Glossary for a description of certain technical terms used in this annual report.

Cautionary Statement with Respect to Forward-Looking Statements

This annual report contains forward-looking statements that are based on Advantest's current expectations, estimates and projections. These statements include, among other things, the discussion of Advantest's business strategy, outlook and expectations as to market and business developments, production and capacity plans. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as anticipate, believe, estimate, expect, intend, project, should and similar expressions. Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause Advantest's actual results, levels of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking statements, including:

changes in demand for the products and services produced and offered by Advantest's customers, including semiconductors, communications services and electronic goods;

the environment in which Advantest purchases materials, components and supplies for the production of its products, including the availability of necessary materials, components and supplies during a significant expansion in the market in which Advantest operates;

circumstances relating to Advantest's investment in technology, including its ability to timely develop products that meet the changing needs of semiconductor manufacturers and communications network equipment and components makers and service providers; and

changes in economic conditions, competitive environment, currency exchange rates or political stability in the major markets where Advantest produces, distributes or sells its principal products.

These risks, uncertainties and other factors also include those identified in Operating and Financial Review and Prospects, Key Information Risk Factors and Information on the Company set forth elsewhere in this annual report.

ITEM 3. KEY INFORMATION**3.A. SELECTED FINANCIAL DATA**

You should read the U.S. GAAP selected consolidated financial information presented below together with Operating and Financial Review and Prospects and Advantest's consolidated financial statements together with the notes included in this annual report.

U.S. GAAP Selected Consolidated Financial Data

The following selected financial data have been derived from Advantest's audited consolidated financial statements. These consolidated financial statements were prepared under U.S. GAAP. Advantest's U.S. GAAP audited consolidated financial statements for fiscal 2007, fiscal 2008 and fiscal 2009 were included in its Japanese Securities Reports filed with the Director General of the Kanto Local Finance Bureau.

- (1) On October 1, 2006, the Company conducted a two for one stock split of shares of its common stock. Net income per share and average number of shares outstanding for each period presented have been restated to reflect the effects of the stock split.
- (2) Operating income as a percentage of net sales.
- (3) Net income as a percentage of net sales.
- (4) On April 1, 2007, the Company and its domestic subsidiaries elected to change the declining-balance method of depreciating machinery and equipment as well as tools, furniture and fixtures from the fixed-percentage-on-declining base application to the 250% declining balance application.

Dividends

The Company normally pays cash dividends semi annually, at mid-year and at year-end. Pursuant to its articles of incorporation, the Company can make dividend payments pursuant to a resolution of its Board of Directors, but the articles do not preclude the Company from making dividend payments pursuant to a shareholders resolution. The year-end dividend is paid to shareholders of record as of March 31 pursuant to the resolution of either the Board of Directors or the ordinary general shareholders meeting held usually in June every year. The interim dividend is paid to shareholders of record as of September 30, pursuant to a resolution of the Board of Directors, usually in December.

Table of Contents

The following table sets forth the dividends paid by the Company for each of the periods shown, which are the six months ended on that date. The U.S. dollar equivalent for the dividends shown are based on the exchange rate in Japan on each record date shown. On October 1, 2006, the Company conducted a two for one stock split of shares of its common stock. Dividend per share information has been restated to reflect the effects of the stock split.

Six months ended/Record date	Dividend per Share	
	Yen	Dollars
September 30, 2005	12.5	0.12
March 31, 2006	22.5	0.22
September 30, 2006	17.5	0.17
March 31, 2007	32.5	0.32
September 30, 2007	25.0	0.25
March 31, 2008	25.0	0.25
September 30, 2008	25.0	0.24
March 31, 2009	5.0	0.05
September 30, 2009	5.0	0.06
March 31, 2010	5.0	0.05

The payment and the amount of any future dividends are subject to the level of Advantest's future earnings, its financial condition and other factors, including statutory restrictions on the payment of dividends.

Exchange Rates

In parts of this annual report, certain Japanese yen amounts have been translated into U.S. dollars for the convenience of investors. Unless otherwise noted, the rate used for the translation was \$1.00 = ¥93.04. This was the approximate exchange rate in Japan on March 31, 2010.

The following table sets forth, for the periods and dates indicated, information concerning the noon buying rate for Japanese yen announced by the Federal Reserve Bank of New York, expressed in Japanese yen per \$1.00. The noon buying rate as of June 18, 2010 was \$1.00 = 90.79. The Company does not intend to imply that the Japanese yen or U.S. dollar amounts referred to in this annual report could have been or could be converted into U.S. dollars or Japanese yen, as the case may be, at any particular rate, or at all.

Fiscal year ended/ending March 31,	At end of period	Average (of month-end rates) (¥ per \$1.00)	High	Low
2006	117.48	113.67	120.93	104.41

3.C. REASONS FOR THE OFFER AND USE OF PROCEEDS

Not applicable.

3.D. RISK FACTORS

Risks Related to Advantest's Business

Advantest's business and results of operations are subject to significant demand volatility in the semiconductor industry

Advantest's business depends largely upon the capital expenditures of semiconductor manufacturers, foundries and test houses. These companies, in turn, determine their capital expenditure and investment levels largely based on current and anticipated market demand for semiconductors and products incorporating semiconductors. Such demand is influenced significantly by the overall condition of the global economy. Historically, the percentage reduction in capital expenditures by semiconductor manufacturers during downturns in the semiconductor industry, including investment in semiconductor test systems, has typically been much greater than the percentage reduction in worldwide sales of semiconductors. The semiconductor industry has been highly cyclical with recurring periods of excess inventory, which often have had a severe effect on the semiconductor industry's demand for semiconductor test systems, including those of Advantest. In particular, the market for memory semiconductors shows higher demand volatility as compared to non memory semiconductors. In fiscal 2008, the economic downturn and the slowdown in the semiconductor market both became more pronounced, and Advantest's net sales of test systems for memory semiconductors decreased by ¥75,252 million (81.0%) from fiscal 2007 to ¥17,644 million, and in fiscal 2009 decreased by ¥5,200 million (29.5%) from fiscal 2008 to ¥12,444 million. Advantest's overall net sales in fiscal 2008 decreased by ¥106,115 million (58.1%) from fiscal 2007 to ¥76,652 million, and in fiscal 2009 decreased by ¥23,427 million (30.6%) from fiscal 2008 to ¥53,225 million, primarily due to lower sales of test systems for memory semiconductors. Any downturn in the memory semiconductor market will therefore likely continue to adversely affect Advantest's business.

The worldwide semiconductor market grew by 6.8%, 8.9% and 3.2% in 2005, 2006 and 2007, respectively. In 2008 and 2009, the semiconductor market contracted by 2.8% and 9.0%, respectively, compared to the previous year, reflecting the global economic downturn that stemmed from the financial crisis. Worldwide sales of memory semiconductors increased by 2.9% and 20.5% in 2005 and 2006, respectively, on a year-to-year basis, primarily due to the increase in demand for flash memory semiconductors used in digital consumer products and for DRAM semiconductors used in personal computers. Worldwide sales of memory semiconductors, however, declined slightly by 1.1% in 2007, mainly due to a substantial reduction in capital expenditure by semiconductor manufacturers reflecting a substantial decline in the price of DRAM semiconductors and NAND-type flash memory semiconductors. Moreover, worldwide sales of memory semiconductors in 2008 decreased by 19.9% compared to 2007, primarily due to the substantial decline in the price of memory semiconductors. Although the markets for personal computers and cellular phones including smart phones remained steady in 2009, worldwide sales of memory semiconductors in 2009 declined by 3.3% compared to 2008 reflecting the global economic downturn, resulting in negative growth for two consecutive years. Worldwide sales of non memory semiconductors increased by 7.9% in 2005. Furthermore, in 2006 and 2007, demand in the consumer market and automobile market stabilized and the data processing market were strong. Accordingly, worldwide sales of non memory semiconductors grew by 5.7% and 4.5% in 2006 and 2007, respectively. Worldwide sales of non memory semiconductors in 2008 increased by 2.3% from 2007, primarily due to steady demand for mobile PCs despite the deterioration in the overall condition of the global economy. In 2009, worldwide sales of non memory

Edgar Filing: ADVANTEST CORP - Form 20-F

semiconductors decreased by 10.3% compared to 2008, primarily as a result of the impact of the global economic downturn stemming from the financial crisis that started in 2008.

Table of Contents

The significant demand volatility of the market for semiconductors is affected by various factors such as:

the overall state of the global economy;

demand in personal computer and server industries;

consumer demand for digital consumer products such as flat-panel TVs, DVD/Blu-ray disc recorders, portable audio players and electronic books;

levels of investment in communications infrastructure and trends in the mobile telecommunications industry;

demand in the automobile industry; and

trends in the semiconductor industry.

Advantest's net sales in fiscal 2005 increased by 6.0% as compared with the previous fiscal year to ¥253,922 million, and net income achieved ¥41,374 million, reflecting the overall completion of adjustment of excess inventory on the part of semiconductor manufacturers. However, net sales in fiscal 2006 declined mainly as a result of a decrease in the price of semiconductors and, as a result, net sales for fiscal 2006 were ¥235,012 million, representing a 7.4% decrease compared to fiscal 2005, and net income decreased by 14.1% as compared to fiscal 2005 to ¥35,556 million. The substantial decline in the price of semiconductors continued through fiscal 2007 and many semiconductor manufacturers froze or postponed their capital expenditures. Primarily reflecting the foregoing, net sales in fiscal 2007 decreased by 22.2%, as compared to fiscal 2006, to ¥182,767 million, and net income decreased by 53.5%, as compared to fiscal 2006, to ¥16,550 million. Furthermore, in fiscal 2008, the global economic downturn that stemmed from the financial crisis led semiconductor manufacturers to maintain their prudent position, with many implementing inventory adjustments and freezing or postponing their capital expenditures. Primarily reflecting the foregoing, Advantest's net sales decreased by 58.1% as compared with fiscal 2007 to ¥76,652 million, and Advantest recorded a net loss of ¥74,902 million in fiscal 2008. In fiscal 2009, the semiconductor manufacturers gradually resumed capital expenditures as semiconductor prices rose and equipment utilization rates climbed. Despite the gradual recovery in fiscal 2009, Advantest's net sales in fiscal 2009 decreased by 30.6%, as compared to fiscal 2008, to ¥53,225 million, and Advantest recorded a net loss of ¥11,454 million in fiscal 2009 primarily due to the drop in orders seen in late fiscal 2008.

Advantest believes that its results are significantly impacted by the significant demand volatility of the semiconductor industry. Significant downturns in the semiconductor industry are likely to therefore adversely affect financial condition and results of operations. Advantest is unable to predict trends in the semiconductor industry going forward, and Advantest's financial condition and results of operations may be affected adversely if the demand for semiconductor test systems remains weak or further weakens beyond Advantest's expectations as a result of a further downturn in the semiconductor industry. The price of semiconductors, which have decreased significantly in recent years, may not return to their original levels if, for example, the over-supply of semiconductors persists. Should semiconductor prices remain at low levels, semiconductor manufacturers' earnings could deteriorate, resulting in their further restraint towards capital expenditures, and Advantest's results of operations could be adversely affected.

Failure by Advantest to meet demand for its products upon a significant expansion in the semiconductor and component test systems and mechatronics systems markets may adversely affect its future market share and financial results

Edgar Filing: ADVANTEST CORP - Form 20-F

In response to the global economic downturn following the financial crisis, suppliers have typically adjusted their production capacity through the reduction of production line and personnel. If the market for semiconductor and component test systems and mechatronics systems were to suddenly expand, Advantest would require significant increases in production capabilities including personnel, as well as materials, components and supplies from suppliers, in order to fully capitalize on such expansion. The failure of Advantest to adjust to such

Table of Contents

unanticipated increases in demand for its products during the period of recovery in demand could result in Advantest losing one or more of its existing large-volume customers or losing the opportunity to establish a strong relationship with potential large-volume customers with which it currently does little or no business. Such failure may adversely affect Advantest's future market share and its financial results.

If Advantest does not introduce new products meeting its customers' technical requirements in a timely manner and at competitive prices, its products may become obsolete and its financial condition and results of operations may suffer

Advantest sells its products to several industries that are characterized by rapid technological changes, the frequent introduction of new products and services, varying and unpredictable product lifecycles and evolving industry standards. Advantest anticipates that future demand for its products will be driven, in large part, by technological innovation in semiconductor technology, which create new testing requirements that are not adequately addressed by currently installed semiconductor test systems. Customer needs in response to these technological innovations, and their need for greater cost-effectiveness and efficiency to respond to the market environment, include:

investment by memory semiconductor manufacturers in facilities that are used to produce memory semiconductors, such as flash memory, DDR3-SDRAM and the next generation DDR4-SDRAM;

the introduction of non memory semiconductors that incorporate more advanced memory semiconductors, logic and analog circuits;

investment by semiconductor manufacturers in mechatronics related products which transport devices faster, more accurately and more stably;

the utilization of testing technologies that employ self-test circuit designs incorporated into semiconductor chips;

introduction of mechatronics products that respond to reduced testing time resulting from advances in customers' back-end testing;

prompt response and quick repair in the event of failure; and

total solutions that allow customers to reduce their testing costs.

Advantest also believes demand for its products, including semiconductor and component test systems, are affected by the level of demand for personal computers, high-speed wireless and wireline data services and digital consumer products. It is likely that advances in technologies used in those products and services will require new testing systems. Without the timely introduction of semiconductor test systems capable of effectively testing and measuring equipment that use new technologies, Advantest's products and services may become technologically obsolete over time.

A failure by Advantest to meet its customers' technical requirements at competitive prices or to deliver conforming equipment in a timely manner may result in its products being replaced by those of a competitor or an alternative technology solution. Furthermore, Advantest's inability to provide a product that meets requested performance criteria at an acceptable price when required by its customers would severely damage its reputation with those customers and may adversely affect future sales efforts with respect to those customers.

Advantest's dependence on certain subcontractors and its dependence on a sole source or a limited number of suppliers for its components and parts may prevent it from delivering an acceptable product on a timely basis

Advantest relies on subcontractors to perform some of the assembly requirements for its products. In addition, many of the components used in Advantest's semiconductor and component test systems and

Table of Contents

mechatronics systems are produced by suppliers based on Advantest's specifications. Advantest's reliance on these subcontractors and suppliers gives it less control over the manufacturing process and exposes it to significant risks, especially inadequate manufacturing capacity, late delivery, substandard quality, lack of labor availability and high costs. In addition, Advantest depends on a sole source or a limited number of suppliers for a portion of its components and parts. Advantest does not maintain long-term supply agreements with most of its suppliers, and it purchases most of its components and parts through individual purchase orders. If suppliers become unable to provide components or parts in the volumes needed and at acceptable prices, Advantest would have to identify and procure acceptable replacements. Furthermore, the markets for semiconductors and other specialized components have, in the past, experienced periods of inadequate supply to meet demand. The process of selecting subcontractors or suppliers and of identifying suitable replacement components and parts is lengthy and may result in Advantest being unable to deliver products meeting customer requirements in a timely manner. Advantest has, in the past, been unable to deliver its products according to production schedules primarily due to the inability of suppliers to supply components and parts based on Advantest's specifications and by other shortages in components and parts. Moreover, a deterioration in the financial position of Advantest's subcontractors or suppliers reflecting the decline in the economic environment may result in certain subcontractors and suppliers being unable to meet Advantest's requirements.

Advantest faces substantial competition in its businesses and, if Advantest does not maintain or expand its market share, its business may be harmed

Advantest faces substantial competition throughout the world. Advantest's primary competitors in the semiconductor and component test system market include, among others, Teradyne, Inc., Verigy Ltd., LTX-Credence Corporation, Yokogawa Electronic Corporation, FROM30 CO., LTD., EXICON Ltd. and UniTest Inc. In the mechatronics system related market, Advantest also competes with Delta Design, Inc., Seiko Epson Corporation, Mirae Corporation and TechWing, Inc. in test handler devices, and with TSE Co., Ltd. and Secron Co., Ltd. in device interfaces. Some of Advantest's competitors have greater financial and other resources than Advantest.

Advantest faces many challenges in its businesses, including increased pressure from customers to produce semiconductor and component test systems and mechatronics systems that reduce testing costs. To compete effectively and maintain and expand its market share, Advantest must continue to enhance its business processes to lower the cost of its products, as well as introduce enhancements that lower overall testing costs. Advantest also expects its competitors to continue to introduce new products with improvements in price and performance, as well as to increase their customer service and support offerings, and Advantest expects new market participants to launch low-price testers. Significant increases in competition may erode Advantest's profit margin and weaken its earnings.

Advantest's product lines are facing significant price pressure

Price pressure in Advantest's businesses is adversely affecting Advantest's operating margins. Irrespective of the trend in the demand for semiconductors, there is ongoing price pressure on semiconductors, which puts continuous pressure on the market price for products in the Semiconductor and Component Test System Segment and Mechatronics System Segment. Especially with the ongoing slowdown in the semiconductor industry, price pressure is salient. During these periods, semiconductor manufacturers and test houses, which are Advantest's customers, seek to increase their production capacities while minimizing their capital expenditures. In addition, increased competition in the market for digital consumer products and personal computers has driven down prices of these goods, subsequently creating significant price pressure on Advantest's product lines. An increase in price pressure may adversely affect Advantest's future financial condition and results of operations.

Advantest may not recoup costs incurred in the development of new products

Edgar Filing: ADVANTEST CORP - Form 20-F

Enhancements to existing products and the development of new generations of products are, in most cases, costly processes. Furthermore, because the decision to purchase semiconductor and component test systems

Table of Contents

products and mechatronics systems generally involves a significant commitment of capital, the sale of this equipment typically involves a lengthy sales period and requires Advantest to expend substantial funds and sales efforts to secure the sale. Advantest's enhancements or new generations of products may not generate net sales in excess of development and sales costs if, for example, these new enhancements or products are quickly rendered obsolete by changing customer preferences, the introduction by Advantest's competitors of products embodying new technologies or features, the introduction by Advantest's customers of new products that require different testing functions or the failure of the market for Advantest's customer's products to grow at the rate, or to the levels, anticipated by Advantest. This risk is believed to be particularly acute with respect to test systems for non memory semiconductors because, in general, new non memory semiconductor product lines are introduced to market more frequently than new memory semiconductor product lines. In some cases, Advantest must anticipate industry trends and develop products in advance of the commercialization of its customers' products. This requires Advantest to make significant investments in product development well before it determines the commercial viability of these innovations. If Advantest's customers fail to introduce their devices in a timely manner or the market rejects their devices, Advantest may not recover its investments in product development through sales in significant volume.

The market for Advantest's major products is highly concentrated, and Advantest may not be able to increase sales of its products because of limited opportunities

The market for test systems for memory semiconductors in the Semiconductor and Component Test System Segment is highly concentrated, with a small number of large semiconductor manufacturers, foundries and test houses accounting for a large portion of total sales in the semiconductor and component test system industry. Advantest believes that this market concentration could become even more severe in the future as larger semiconductor device manufacturers, foundries and test houses acquire smaller semiconductor market participants, and as corporate restructuring, such as elimination and consolidation of businesses, progresses. Advantest's ability to increase sales will depend in large part upon its ability to obtain or increase orders from large-volume customers. Furthermore, in the event there is an over-supply of semiconductor and component test system products on the second-hand market reflecting, among others, restructuring within the industry, Advantest faces an additional risk of losing its sales opportunities.

Advantest's largest customers currently account for a significant part of its net sales and, in addition to the risk of Advantest's business being harmed by the loss of one or more of these customers or changes in their capital expenditures, Advantest may not be able to recover its accounts receivables if its largest customers experience a deterioration in their financial position

Advantest's success depends on its continued ability to develop and manage relationships with its major customers, a small number of which currently account for a significant portion of its net sales. Sales to Advantest's largest customer as a percentage of its total sales were approximately 9% in fiscal 2007, approximately 24% in fiscal 2008 and approximately 20% in fiscal 2009. Sales to Advantest's five largest customers accounted for approximately 32% in fiscal 2007, approximately 51% in fiscal 2008 and approximately 43% in fiscal 2009. The loss of one or more of these major customers or changes in their capital expenditures could materially harm Advantest's business. Furthermore, if Advantest's major customers experience a deterioration in their financial position and are unable to fulfill their payment obligations to Advantest in accordance with the applicable terms, Advantest's business, results of operations and financial position may be adversely affected.

Fluctuations in exchange rates could reduce Advantest's profitability

The majority of Advantest's net sales derive from products sold to customers located outside of Japan. Approximately 78% of Advantest's fiscal 2009 net sales were from products sold to overseas customers. Most of Advantest's products are manufactured in Japan, but approximately 38% of Advantest's net sales in fiscal 2009 were made in currencies other than the Japanese yen, predominantly the U.S. dollar. A strengthening in the

Table of Contents

Japanese yen relative to foreign currencies (mostly U.S. dollar and, to a much lesser extent, other currencies) would increase the prices of Advantest products as stated in U.S. dollars and in those other currencies, which could hurt sales in those countries. In addition, significant fluctuations in the exchange rate between the Japanese yen and foreign currencies, especially the U.S. dollar, could require Advantest to lower its prices with respect to foreign sales of its products that are priced in Japanese yen, and reduce the Japanese yen equivalent amounts of its foreign sales for products that are based in U.S. dollars or other foreign currencies, and overall reducing its profitability. These fluctuations could also cause prospective customers to push out or delay orders because of the increased relative cost of Advantest's products. In the past, there have been significant fluctuations in the exchange rate between the Japanese yen and the foreign countries in which Advantest's sales are denominated.

If Advantest's main facilities for research and development, production or information technology systems for all of its businesses, or the facilities of its subcontractors and suppliers, were to experience catastrophic loss, its results of operations would be seriously harmed

Advantest's main facilities for research and development for its Semiconductor and Component Test Systems and Mechatronics System Segments production, as well as many of Advantest's service bases, are located in Japan and particularly concentrated in Gunma Prefecture and Saitama Prefecture. In addition, the main system server and the network hub are maintained in system centers approved by the Information System Management System, or ISMS, and local network servers are located in certain operations offices in Japan. Japan suffers from relatively frequent earthquakes.

If Advantest's facilities, particularly its semiconductor and component test system manufacturing factories, were to experience a catastrophic loss, it would materially disrupt Advantest's operations, delay production, shipments and revenue, and result in large expenses to repair or replace the facilities. Advantest has insurance to cover most potential losses at its manufacturing facilities, other than those that result from earthquakes. However, this insurance may not be adequate to cover all possible losses. Similar disruptions to Advantest's business may occur if the facilities of Advantest's subcontractors and suppliers or if the facilities of Advantest's information system network were to experience a catastrophic loss.

Advantest has prepared itself for crises such as large-scale natural disasters, and each department of Advantest has documented its own disaster procedures and manuals. Furthermore, in order to prevent any disruption of its core businesses, or in case of suspension, to re-start the suspended businesses, including the recovery of important facilities, in the shortest possible time, Advantest has formulated and is in the process of implementing a Business Continuity Plan. However, if Advantest cannot implement such Business Continuity Plan, or if upon implementation such Business Continuity Plan is not effective, Advantest's core businesses could be disrupted at a time of crisis, such as large-scale natural disasters, and could take a substantial amount of time to recover.

Advantest's business is subject to economic, political and other risks associated with international operations and sales

Advantest's business is subject to risks associated with doing business internationally because it sells its products, and purchases parts and components from, around the world. In fiscal 2009, 64.2% of Advantest's total net sales came from Asia (excluding Japan), a majority of which consisted of sales in Taiwan, the People's Republic of China and Korea, 9.3% from the Americas and 4.0% from Europe. Advantest anticipates that net sales from international operations will continue to represent a substantial portion of its total net sales. In addition, some of Advantest's distribution and support subsidiaries are located in the Americas, Europe, and Asian countries including Singapore, Taiwan, the People's Republic of China and Korea and some of Advantest's suppliers are also located overseas. Accordingly, Advantest's future results could be harmed by a variety of factors, including:

Edgar Filing: ADVANTEST CORP - Form 20-F

political and economic instability, natural calamities, epidemics or other risks related to countries where Advantest procures its components and parts or sells its products;

trade protection measures and import or export licensing requirements;

Table of Contents

potentially negative consequences from changes in tax laws;

risks with respect to international taxation, including transfer pricing regulations;

difficulty in staffing and managing widespread operations;

differing protection of intellectual property;

difficulties in collecting accounts receivable because of distance and different legal rules; and

risks with respect to social and political crises resulting from terrorism and war, among others.

Advantest's financial condition and results of operations are subject to factors relating to its marketing and sales capabilities and its branding

Advantest's financial condition and results of operations may be negatively affected by factors relating to its marketing and sales capabilities and its branding, including:

the long selling process involved in the sale of semiconductor and component test systems;

the relatively small number of total units sold in the semiconductor and component test system market;

order cancellations or delays by customers;

delays in collection of, or increases in provisions for, accounts receivable reflecting the financial condition of customers;

increases in required provisions for product warranty costs and write-downs of inventory; and

any real or perceived decrease in performance and reliability of Advantest products, which could lead to a decline in Advantest's reputation.

Chemicals used by Advantest may become subject to more stringent regulations, and Advantest may be required to incur significant costs in adapting to new requirements

Advantest uses chemicals in the manufacturing of its products, the manufacture, processing and distribution of which are subject to environmental related laws, regulations and rules of Japanese governmental agencies, as well as by various industry organizations and other

Edgar Filing: ADVANTEST CORP - Form 20-F

regulatory bodies in other countries. These regulatory bodies may strengthen existing regulations governing chemicals used by Advantest and may also begin to regulate other chemicals used by Advantest. While Advantest is taking measures to eliminate toxic substances included in parts used to manufacture its products, Advantest uses solder which contains lead for mounting electronic parts and components for its products in order to ensure the reliability of its products as a matter of priority. Further, as a method to cool some of its semiconductor and component test systems, Advantest uses a type of perfluorocarbon, or PFC, that is not currently regulated by laws related to global warming. Advantest believes that it is in compliance with regulations with respect to the use of chemicals by promoting environmental policies for its products with the focus on ensuring the safety and the reliability of its products; however, Advantest must be prepared to adapt to regulatory requirements in all relevant countries as requirements change. Advantest may be required to incur significant cost in adapting to new requirements. Any failure by Advantest to comply with applicable government or industry regulations could result in restrictions on its ability to carry on or expand its operations, including being unable to sell its products.

Advantest could suffer significant liabilities, litigation costs or licensing expenses or be prevented from selling its products if it is infringing the intellectual property of third parties

Advantest may be unknowingly infringing the intellectual property rights of third parties and may be held responsible for that infringement. To date, Advantest has not been the subject of a material intellectual property claim. However, any future litigation regarding patents or other intellectual property infringement could be costly

Table of Contents

and time consuming and divert management and key personnel from Advantest's business operations. If Advantest loses a claim, it might be forced to pay significant damages, pay license fees, modify its products or processes, stop making products or stop using processes. A license could be very expensive to obtain or may not be available at all. Changing Advantest's products or processes to avoid infringing the rights of third parties may be costly or impractical.

Advantest may be unable to protect its proprietary rights due to the difficulty of Advantest gaining access to, and investigating, the products believed to infringe Advantest's intellectual property rights

Advantest relies on patents, utility model rights, design rights, trademarks and copyrights obtained in various countries to actively protect its proprietary rights. For instance, with respect to the device interface market, Advantest has taken legal action based on its patent and utility model rights against manufacturers that sell replicas of Advantest's products and, in some instances, has obtained injunctions against sales of such replicas. However, in general, it is difficult for Advantest to gain access to, and investigate, the products believed to infringe its intellectual property rights. Therefore, Advantest cannot ensure that its intellectual property rights will provide meaningful protection of its proprietary rights. Nevertheless, Advantest is focused on protecting its intellectual property rights from third party infringement and will continue to monitor and enforce its rights.

The technology labor market is very competitive, and Advantest's business may suffer if Advantest is unable to hire and retain engineers and other key personnel

Advantest's future success depends partly on its ability to attract and retain highly qualified engineers for its research and development and customer service and support divisions. If Advantest fails to hire and retain a sufficient number of these personnel, it may not be able to maintain and expand its business. Advantest may need to revise its compensation and other personnel related policies to retain its existing officers and employees and attract and retain the additional personnel that it expects to require.

Confidential information could be inadvertently disclosed through unauthorized access or use, which could lead to substantial costs or harm Advantest's reputation

Advantest uses both paper documents and electronic data in managing confidential information. Although Advantest has established the Information Security Committee and Security Control Office and is taking measures to keep information confidential through procedures designed to prevent accidental release of information through unauthorized access or use, such information may be inadvertently disclosed without Advantest's knowledge. If this occurs, Advantest's reputation could be harmed and Advantest could incur substantial costs to remedy the situation. Accordingly, inadvertent disclosure of confidential information could have a material adverse effect upon Advantest's business results and financial condition.

Product defects and any damages stemming from Advantest's product liability could harm Advantest's reputation among existing and potential customers and could have a material adverse effect upon Advantest's business results and financial condition

Advantest manufactures its products in accordance with internationally accepted quality control standards such as ISO 9000. However, Advantest cannot guarantee that there are no defects in its products. Advantest maintains product liability insurance, but cannot guarantee that such insurance will sufficiently cover the ultimate amount of damages with respect to Advantest's liabilities. Large scale accidents or any

Edgar Filing: ADVANTEST CORP - Form 20-F

discovery of defects in its products could harm Advantest's reputation for not adequately addressing defects, could cause Advantest to incur higher costs and could have a material adverse effect upon Advantest's business results and financial condition if Advantest is liable for claims for damages.

Table of Contents

Risks Related to Ownership of ADSs or Common Stock

Japanese yen-dollar fluctuations could cause the market price of the ADSs to decline and reduce dividend amounts payable to ADS holders as expressed in U.S. dollars

Fluctuations in the exchange rate between the Japanese yen and the U.S. dollar may affect the U.S. dollar equivalent of the Japanese yen price of the shares on the Tokyo Stock Exchange and, primarily reflecting the foregoing, are likely to affect the market price of the ADSs. The Company has historically paid dividends on its shares twice a year. If the Company declares cash dividends, dividends on the shares represented by the ADSs will be paid to the depositary in Japanese yen and then converted by the depositary into U.S. dollars. Therefore, exchange rate fluctuations could also affect the dividend amounts payable to ADS holders following conversion into U.S. dollars of dividends paid in Japanese yen on the shares represented by the ADSs.

As a holder of ADSs, you will have fewer rights than a shareholder has, and you must act through the depositary to exercise those rights

The rights of shareholders under Japanese law to take actions, including voting their shares, receiving dividends and distributions, bringing derivative actions, examining Advantest's accounting books and records and exercising appraisal rights, are available only to holders of record on the Company's register of shareholders. Because the depositary, through its custodian agents, is the registered holder of the shares underlying the ADSs, only the depositary can exercise those rights in connection with the deposited shares. The depositary will make efforts to vote the shares underlying a holder's ADSs as instructed by the holder and will pay to the holder the dividends and distributions collected from Advantest. However, in the holder's capacity as an ADS holder, that holder will not be able to bring a derivative action, examine Advantest's accounting books and records or exercise appraisal rights through the depositary.

There are restrictions on the withdrawal of shares from the Company's depositary receipt facility

Under the Company's ADS program, each ADS represents the right to receive one share. To withdraw any shares, a holder of ADSs has to surrender for cancellation American Depositary Receipts, or ADRs, evidencing 100 ADSs or any integral multiple thereof. Each ADR bears a legend to that effect. As a result, holders of ADSs are unable to withdraw fractions of shares or units or receive any cash settlement from the depositary in lieu of withdrawal of fractions of shares or units. Holders of shares representing less than one unit, or 100 shares, may require the Company to repurchase those shares, whereas holders of ADSs representing less than one unit of shares are unable to exercise this right because the holders of these ADSs are unable to withdraw the underlying shares. Under the Company's ADS program, an ADS holder cannot cause the depositary to require the Company to repurchase fractions of shares or units on its behalf. For a further discussion of the ADSs and the ADS program, see "Description of American Depositary Receipts" set forth in the Company's registration statement on Form F-1 filed with the Securities and Exchange Commission on July 22, 2002. For a further discussion of the Japanese unit share system, see "Additional Information" Memorandum and Articles of Association "The Unit Share System."

Enforcement of Civil Liabilities

The Company is a limited liability, joint-stock corporation incorporated under the laws of Japan. Almost all of the Company's directors, executive officers and corporate auditors reside in Japan. Substantially all of the Company's assets and the assets of these persons are located in Japan. It may not be possible, therefore, for investors to effect service of process within the U.S. upon the Company or these persons or to

Edgar Filing: ADVANTEST CORP - Form 20-F

enforce against the Company or these persons judgments obtained in U.S. courts predicated upon the civil liability provisions of the federal securities laws of the U.S. The Company's Japanese counsel, Nagashima Ohno & Tsunematsu, has advised the Company that there is doubt as to the enforceability in Japan, in original actions or in actions for enforcement of judgments of U.S. courts, of liabilities predicated solely upon the federal securities laws of the U.S.

Table of Contents

ITEM 4. INFORMATION ON THE COMPANY

4.A. HISTORY AND DEVELOPMENT OF THE COMPANY

The Company commenced operations in July 1954, and was incorporated in December 1954 under the name Takeda Riken Industry Co., Ltd. as a limited liability, joint-stock company in Japan under the Commercial Code of Japan. At the time of incorporation, Takeda Riken's primary business was the design, manufacture and sale of measuring instruments for Japanese electronics manufacturers. Takeda Riken started focusing on semiconductor test equipment for the semiconductor industry in 1968 and was the first to domestically produce semiconductor test equipment in 1972. In 1971, Takeda Riken entered into its first distribution agreement with a foreign distributor and, in 1973, established its first representative office in the U.S. to gather information on technology and distribution and to establish dealer relationships. These two milestones launched the company's long-term goal of becoming a global manufacturer of testing and measuring products. Takeda Riken has been listed on the Tokyo Stock Exchange since February 1983. Takeda Riken changed its registered name to Kabushiki Kaisha Advantest in October 1985.

Advantest applies its capital expenditures chiefly to the streamlining of development, production of new products, energy saving initiatives and the expansion of production capacity. Advantest's capital expenditures were ¥14.1 billion, ¥4.6 billion and ¥3.4 billion in fiscal 2007, 2008 and 2009, respectively. In fiscal 2007, Advantest's capital expenditure included the construction of Sendai Factory A, a factory with clean room facilities for production.

The Company's principal executive offices are located at Shin-Marunouchi Center Building, 1-6-2, Marunouchi, Chiyoda-ku, Tokyo 100-0005 Japan. The Company's telephone number in Japan is (81-3) 3214-7500.

4.B. BUSINESS OVERVIEW

Overview

As of June 25, 2010, Advantest is comprised of the Company and its 30 consolidated subsidiaries and one investee which is accounted for by the equity method. Advantest conducts its business in the following segments:

Semiconductor and Component Test System Segment;

Mechatronics System Segment, focusing on peripheral devices including test handlers and device interfaces; and

Services, Support and Others Segment.

Semiconductor and Component Test System Segment

The Semiconductor and Component Test System Segment provides customers with test system products for the semiconductor industry and the electronic component industry. The products in this segment include test systems for memory semiconductors and test systems for non memory semiconductors. The test systems for non memory semiconductors are divided into test systems for SoC semiconductors, LCD driver integrated circuits and semiconductors used in car electronics.

Mechatronics System Segment

The Mechatronics System Segment focuses on peripheral devices to the semiconductor and component test systems. This business includes test handlers applying mechatronics technologies, which handle semiconductor devices and automate testing, device interfaces with measured devices, and operations related to nano-technology.

Table of Contents**Services, Support and Others Segment**

The Services, Support and Others Segment consists of comprehensive customer solutions provided in connection with the Semiconductor and Component Test System and Mechatronics System Segments, support services and an equipment lease business.

Sales by Segment

The following table illustrates net sales by each segment for the last three fiscal years.

Segment	Fiscal 2007		Fiscal 2008		Fiscal 2009	
	Sales (in millions)	%	Sales (in millions)	%	Sales (in millions)	%
Semiconductor and Component Test System Segment	¥ 131,608	72.0	¥ 49,216	64.2	¥ 32,572	61.2
Mechatronics System Segment	34,944	19.1	14,388	18.8	11,237	21.1
Services, Support and Others Segment	19,344	10.6	15,815	20.6	11,838	22.2
Intercompany transactions elimination	(3,129)	(1.7)	(2,767)	(3.6)	(2,422)	(4.5)
Total Net Sales	¥ 182,767	100.0%	¥ 76,652	100.0%	¥ 53,225	100.0%

Industry Overview

Advantest offers products in semiconductor and component test systems, mechatronics systems, and services, support and others. Advantest's main customers are semiconductor manufacturers, foundries and test houses. Advantest believes that the following factors promote growth of the business carried out by its main customers.

the move to lower-cost, smaller, faster and more powerful and energy efficient semiconductors and electronic components;

the increase in demand for higher performance servers and personal computers;

the increase in demand for digital consumer products such as flat-panel TVs, DVD/Blu-ray disc recorders, portable audio players and electronic books;

the increasing levels of wireless communications penetration worldwide reflecting the expansion of the mobile telecommunications industry in developing countries;

the development of higher speed and high capacity communications infrastructure;

Edgar Filing: ADVANTEST CORP - Form 20-F

the increasing demand for electronic devices that incorporate semiconductor and communications technologies; and

the increase in demand for electronic components including semiconductors and sensors, in response to technological advancement of automobiles such as electric vehicles (EV) and hybrid electric vehicles (HEV).

Advantest believes that these factors will continue to provide long-term growth opportunities for Advantest because they lead to additional capital expenditures by its customers, resulting in an expansion of businesses for Advantest. However, the capital expenditures of Advantest's customers may be adversely affected by the following factors:

the level of demand for semiconductors and electronic components;

advancements in semiconductor and electronic component technology; and

changes in semiconductor and electronic component manufacturing processes.

Table of Contents***Demand for Semiconductors and Electronic Components***

Demand for semiconductor and component test systems and mechatronics systems is closely related to the volume of semiconductors and electronic components produced and the resulting capital expenditure of semiconductor manufacturers and others.

Semiconductors are generally classified as either memory semiconductors or non memory semiconductors. Memory semiconductors are used in electronic systems to store data and programs. Non memory semiconductors include various semiconductors that incorporate non memory circuits, which include logic and analog circuits. Logic circuits process digital data to control the operations of electronic systems. Analog circuits process analog signals translated from real world phenomena such as sound, light, heat and motion. SoC semiconductors are a subset of non memory semiconductors that combine digital circuits with analog, memory and RF circuits, among others, on a single semiconductor chip. SoC semiconductors are used in a variety of sophisticated products, including wireless communications, fiber optic equipments and digital consumer products.

Semiconductor sales have increased significantly over the long-term. However, semiconductors, particularly memory semiconductors, have experienced significant cyclical variations in growth rates. According to World Semiconductor Trade Statistics (WSTS), worldwide semiconductor sales in 2005 increased by approximately \$14.5 billion or 6.8% compared to the previous year to approximately \$227.5 billion. Sales in 2006 increased by approximately \$20.2 billion or 8.9% to approximately \$247.7 billion, and sales in 2007 increased by approximately \$7.9 billion or 3.2% to approximately \$255.6 billion. However, sales in 2008 decreased by approximately \$7.0 billion or 2.8% compared to the previous year to approximately \$248.6 billion, mainly due to the substantial decline in the price of memory semiconductors. Sales in 2009 also decreased compared to the previous year, by approximately \$22.3 billion or 9.0% to approximately \$226.3 billion, mainly due to the slow economy persisting since the previous year. The following table sets forth the size of the market for memory semiconductors, non memory semiconductors and all semiconductors between 2005 and 2009 and the projected market size between 2010 and 2012 as compiled and estimated by WSTS as of June 2010.

	Actual Year ended December 31,					Projections for Years ending December 31,		
	2005	2006	2007	2008	2009	2010	2011	2012
	(in millions)							
Memory	\$ 48,519	\$ 58,473	\$ 57,854	\$ 46,348	\$ 44,797	\$ 65,211	\$ 65,699	\$ 64,777
Non memory	178,965	189,243	197,791	202,255	181,516	225,740	241,689	255,384
Total	\$ 227,484	\$ 247,716	\$ 255,645	\$ 248,603	\$ 226,313	\$ 290,951	\$ 307,388	\$ 320,161

The non memory semiconductor market is not as volatile as the memory semiconductor market because non memory semiconductors are used in a larger variety of consumer products and equipment. In periods of rapid decline in the semiconductor market, the capital expenditures of semiconductor manufacturers, including their purchases of semiconductor test systems, generally decline at a faster pace than the decline in semiconductor sales. In addition, following a downturn in the semiconductor market or a decline in the price of semiconductors, investment is generally restrained until semiconductor manufacturers determine that the market for semiconductors is experiencing a substantive recovery and accordingly, sales of semiconductor test systems generally do not experience significant increase. Advantest believes these trends will continue in the future.

The semiconductor market recovered in the first half of 2005 from the slowdown caused by inventory adjustments in the second half of fiscal 2004, expanding further in the second half of 2005, and remaining steady in 2006 and 2007. However, the semiconductor market experienced negative growth in 2008 for the first time in seven years primarily due to the global economic crisis. The semiconductor market further declined in 2009 reflecting the conditions continuing from the previous year. According to data published by WSTS, the market for memory semiconductors is expected to increase rapidly by 45.6% in 2010 as compared with 2009, after which it is expected to grow by approximately

Edgar Filing: ADVANTEST CORP - Form 20-F

1% in 2011 and decrease by approximately 1% in 2012. WSTS expects that the market for memory semiconductors will grow to approximately \$64.8 billion in 2012. Advantest believes that demand for memory semiconductors will be generated in the foreseeable future by the prevalence of DDR3-SDRAM, the next generation DDR4-SDRAM, flash memory and other high-end semiconductors. WSTS

Table of Contents

estimates that the non memory semiconductor market will steadily grow by approximately 24% in 2010, by approximately 7% in 2011, and by approximately 6% in 2012. WSTS expects that the market for non memory semiconductors will grow to approximately \$255.4 billion in 2012. Advantest believes that the demand for non memory semiconductors will generally grow in the foreseeable future, led by the further prevalence of, and new developments in, digital consumer products and personal computers.

Advancements in Semiconductor and Electronic Component Technology

Advantest believes that demand for semiconductor and component test systems and mechatronics systems is also affected by the rate of change and development in semiconductor and electronic component technology. Current changes in the semiconductor and electronic component industry relate to the innovation of digital consumer products and communications technologies. Demand for faster semiconductors and electronic components that are smaller in size, incorporate more functions and require less power to operate is being driven by:

growing demand for, and continuous improvements in, personal computers and digital consumer products, such as flat-panel TVs, DVD/Blu-ray disc recorders, digital cameras, electronic books and mobile phone handsets; and

requirements of communications network equipment, such as network routers, switches and base stations, as well as wireless handsets and other Internet access devices, to enable advances in Internet hardware and software applications, increases in infrastructure performance and simplification and miniaturization of Internet access devices.

Demand for personal computers and servers with higher performance and capabilities is also driving changes in the memory semiconductor sector. This demand is causing manufacturers to shift from the production of the DDR2-SDRAM high-speed data transfer memory semiconductor to the high-speed DDR3-SDRAM, and to further expand production of large capacity and nonvolatile flash memory semiconductors. Advantest believes that this shift is creating demand for test systems for memory semiconductors capable of handling these new types of memory semiconductors, as well as contributing to a reduction in testing costs. In addition, Advantest believes that additional demand for mechatronics systems, including test handlers and device interfaces connecting semiconductor devices and semiconductor test systems, will be created and will grow in line with advances in semiconductor technologies.

The development of SoC semiconductors with smaller size, higher performance and lower power consumption has created demand for sophisticated semiconductor and component test systems that can simultaneously test SoC semiconductors logic, analog and memory circuits. Further innovations in non memory semiconductor technologies including SoC semiconductor technology are expected, and Advantest believes these innovations will create demand for new, high-performance semiconductor and component test systems optimized for use with these advanced semiconductors.

Advantest believes that the integration of non memory semiconductors into a range of digital consumer products will drive demand for test systems for non memory semiconductors which contribute to the reduction of testing costs. Non memory semiconductors are often customized for applications in specific products, which results in a large variety of non memory semiconductors that are often produced in relatively smaller volumes.

Changes in Semiconductor and Electronic Component Manufacturing Technologies

Edgar Filing: ADVANTEST CORP - Form 20-F

Semiconductor and electronic component manufacturers are promoting production outsourcing, technological innovation in manufacturing processes and testing technology to improve productivity.

Production Outsourcing

In recent years, semiconductor manufacturing and testing processes have become more complex and capital intensive. Primarily reflecting the foregoing, an increasing portion of the manufacturing and testing functions are being subcontracted out, not only by fabless companies, but also by industrial, design and manufacturing companies

Table of Contents

which had previously designed and manufactured semiconductors, in order to reduce capital expenditures. This trend has resulted in an increase in the number of test houses that accept test process outsourcing and foundries that accept manufacturing process outsourcing. Foundries either perform testing in-house or outsource their testing needs to test houses. This trend towards production outsourcing, particularly to test houses, has increased the number of potential customers for semiconductor test system manufacturers, although it has not significantly affected the total demand for Advantest's products. In addition, Advantest believes that it is most appropriate to use semiconductor and component test systems which have been designed using module structure, which enables the formation of semiconductor test systems that can meet the multiple needs of the customers of test houses and foundries. Outsourcing has also been utilized for electronic component manufacturing.

Technological Innovation in Manufacturing Processes

One of the innovations in semiconductor manufacturing processes is the use of 300 millimeter wafers. Wafers are circular flat pieces of silicon from which multiple semiconductor chips are made using photo-etching and other manufacturing processes. The use of 300 millimeter wafers allows manufacturers to increase semiconductor production per wafer twofold or more when compared to production using the conventional 200 millimeter wafers. From 2007, investment has remained at low levels mainly due to factors such as excess supply and increased price competition. While this trend continued throughout 2009, demand for new semiconductor and component test systems and test handlers slowly increased primarily due to the progress made in inventory adjustments on the part of semiconductor manufacturers from the end of 2009 through early 2010 and adjustments of semiconductor prices. However, capital expenditure with respect to 300 millimeter wafers is not yet active and the future remains uncertain.

New Testing Technologies

Semiconductor designers and manufacturers are striving to further reduce costs in connection with manufacturing semiconductors, especially the cost of testing semiconductors. Thus, there is a stronger demand for semiconductor test systems that can simultaneously test more semiconductors and accommodate a larger number of pins at higher speeds and with high throughput capabilities. On the other hand, there is an increasing pressure on semiconductor test systems to be energy efficient, smaller in size and less expensive. In order to respond to this demand, semiconductor test system manufacturers are taking measures to reduce semiconductor test system costs by making the development and manufacturing process of semiconductor test systems more efficient, strengthening peripheral devices such as test handlers and device interfaces and improving service and support systems. Furthermore, although certain semiconductors are now tested in a simplified manner in which self-test technologies are designed into circuits or even sold without being tested, Advantest believes that it has become increasingly important for semiconductor test systems to ensure the reliability of semiconductors since semiconductors are expected to become more complex and advanced going forward.

Advantest believes that semiconductor and electronic component manufacturing processes will continue to evolve. The introduction of new manufacturing processes will likely result in test costs constituting a higher percentage of the total cost of manufacturing and, therefore, increase price pressure on the semiconductor test system industry. Furthermore, advances in the semiconductor and electronic component industry will require semiconductor test systems with new and more sophisticated testing functions. Advantest believes that these trends provide it with an opportunity to distinguish itself from its competitors through the delivery of new products that are priced and designed to meet the specific needs of its customers.

Business Strategy

Edgar Filing: ADVANTEST CORP - Form 20-F

While Advantest is currently facing a challenging business environment primarily due to the recent downturn in the global economy and weakened demand for semiconductors, Advantest has established the following core business goals to achieve mid- to long-term growth:

focusing on the development of semiconductor test systems which can respond to changes in capabilities of memory and non memory semiconductors;

Table of Contents

increasing its market share for test systems for non memory semiconductors and maintaining its large market share for test systems for memory semiconductors;

increasing its market share for test handlers for memory and non memory semiconductors;

developing, designing and supplying high quality device interfaces in a shorter period of time;

reducing product cost of goods to withstand price pressures on products

enhancing its operating efficiency to improve profitability, through promotion of production innovations;

strengthening its ability to provide comprehensive solutions to satisfy customer needs; and

promoting the development and establishment of new businesses in the measuring instruments field outside of its semiconductor-related business.

To achieve these goals, Advantest plans to:

Continue to address industry trends, identify customer needs and deliver new products ahead of its competitors

Advantest will continue to work closely with major semiconductor manufacturers beginning in the product design stage of semiconductor and component test systems to understand customer needs relating to emerging technologies and applications. Based on this knowledge and its technological expertise, Advantest seeks to develop more advanced semiconductor and component test systems, test handlers, device interfaces and comprehensive solutions ahead of its competitors. For example, Advantest is pursuing the following strategies:

developing semiconductor and component test systems with increased test speeds and throughput capabilities and test handlers in line with the technological development of memory semiconductors and non memory semiconductors;

proactively developing products to address the recent shift in emphasis in the semiconductor industry toward front-end testing of dies;

actively applying high-frequency analog technology developed for measuring instruments for the wireless communications market to test systems for non memory semiconductors including test systems for SoC semiconductors;

offering semiconductor and component test systems and device interfaces with high throughput in order to test recent devices incorporating interfaces with data rates of several gigabits per second; and

developing device interfaces that can optimize the performance of semiconductor and component test systems and test handlers in responding to semiconductors with higher speed and large pin counts.

Strengthen the test system business for non memory semiconductors

Advantest believes that in 2009 the market for test systems for non memory semiconductors was approximately seven times the size of the market for test systems for memory semiconductors, reflecting significant but likely temporary contraction of the market for test systems for memory semiconductors, resulting in the relative expansion of proportion of the market for test systems for non memory semiconductors. Advantest has therefore devoted its resources to develop test systems and modules for non memory semiconductors to meet the demands of a large number of manufacturers for the testing of a wide variety of non memory semiconductors.

Advantest believes that the primary benefits of OPENSTAR[®], an industry-wide, open architecture for test systems for non memory semiconductors, for users of semiconductor and component test systems will be reduced testing costs resulting from the adoption of newly developed modules. In addition, Advantest hopes that the reduction in testing costs, and thus the lowering of overall manufacturing costs of non memory semiconductors, will help foster further demand for non memory semiconductors to be used in digital consumer products and other products.

Table of Contents***Focus sales and support efforts on key customer accounts***

Advantest believes that a small number of large semiconductor manufacturers, foundries and test houses account for a large portion of total sales in the semiconductor and component test system industry. Advantest sells semiconductor and component test systems and mechatronics systems to many of these customers and supports them on a regular basis. Advantest is seeking to expand its business with these key customers and develop new relationships with the remaining potential major customers. Many of Advantest's sales and support offices are located near the corporate headquarters or main research and development and manufacturing facilities of these key customers. These offices facilitate Advantest's efforts to continue conducting collaborative development activities with leading semiconductor manufacturers.

Products

As of fiscal 2009, Advantest's main products are products developed, manufactured and sold in the Semiconductor and Component Test System Segment and Mechatronics System Segment. They are as follows:

Semiconductor and Component Test Systems Segment

Semiconductor and component test systems are used during the semiconductor and electronic component manufacturing process to confirm that a semiconductor functions properly. Semiconductor and component test systems consist of test systems for memory semiconductors and test systems for non memory semiconductors.

The following table sets forth the amount of net sales of Advantest's semiconductor and component test systems, for memory and non memory semiconductors for the periods presented.

Category	Fiscal 2007	Fiscal 2008 (in millions)	Fiscal 2009
Test systems for memory semiconductors	¥ 92,896	¥ 17,644	¥ 12,444
Test systems for non memory semiconductors	38,712	31,572	20,128
Total	¥ 131,608	¥ 49,216	¥ 32,572

Test Systems for Memory Semiconductors

Advantest's test systems for memory semiconductors are test systems designed to test high-speed/high performance DRAM semiconductors used in equipment such as personal computers and servers, as well as flash memory semiconductors used in digital consumer products.

Edgar Filing: ADVANTEST CORP - Form 20-F

Test systems for memory semiconductors consist of a mainframe and one or more test heads. During testing, a device interface is attached to the test head. During the front-end testing process, wafers are loaded by a prober and are connected to the test system for memory semiconductors through the device interface. Electric signals between the die and the test systems for memory semiconductors are transmitted through probe pins located in the device interface and tested. After front-end testing is completed, the wafer is diced into separate dies and properly functioning dies are packaged. During back-end testing, test handlers are used to load these packaged devices onto the test heads, and electric signals are transmitted between the devices and the test heads via the device interface and tested. The test results are analyzed by the test systems for memory semiconductors hardware circuits and software programs. Customized software programs for each semiconductor are required to analyze the semiconductor tests and test data.

Characteristics of the performance and other characteristics of test systems for memory semiconductors that are important to customers include:

Throughput. Throughput is measured by the number of semiconductors that can be tested by test systems for memory semiconductors during a specified time.

Table of Contents

Test Speed. Test speed is the speed at which the test systems for memory semiconductors test semiconductors during testing. Test speed is measured in terms of hertz (Hz), or Bits Per Second (bps).

Timing Accuracy. Timing accuracy is the test system for memory semiconductors accuracy of control over the timing of testing signals generated.

Maximum Pin Count. Maximum pin count is the number of channels for test signals (at the maximum) used by test systems for memory semiconductors.

Size. Smaller machines reduce the amount of floor space occupied and electricity consumed by the test systems for memory semiconductors.

Temperature. Semiconductor manufacturers perform tests on semiconductors at varying temperatures to ensure proper operation under extreme conditions.

Compatibility. Test systems for memory semiconductors that are compatible with predecessor systems cut down on the time required to develop new test programs and otherwise allow for effective utilization by customers of existing resources.

Quality. Quality is determined by the reliability of test results produced and whether the equipment can maintain stable operation under different testing environments.

Advantest estimates that its market share in test systems for memory semiconductors was approximately 69% in fiscal 2007 and as a result of restrained capital expenditure in test systems for DRAM semiconductors on the part of Advantest's customers, Advantest's market share became approximately 51% in 2008 and 37% in 2009. Advantest has a substantially larger market share in test systems for DRAM memory semiconductors than in test systems for flash memory semiconductors. Advantest is currently seeking to increase its market share in test systems for flash memory semiconductors.

Advantest's main product lines of test systems for memory semiconductors are the T5500 series, the T5300 series and the T5700 series.

T5500 Series. The T5593 is a test system targeted at the market for high speed memory semiconductors such as DDR2-SDRAM and SGRAM. SGRAM is a memory semiconductor for use in graphical processor units. The T5588, makes possible simultaneous measurement of up to 512 DDR2-SDRAM devices, twice that of the T5593, and is a test system for mass production. Advantest can also accommodate a greater variety of memory semiconductors by using testing functions for flash memory which are already long used in connection with the T5370 series and its newly developed throughput enhancement functions. The top-of-the-line device in the T5500 series is the T5503, a memory semiconductor test system most suitable for testing and production of ultra high-speed memory semiconductors such as DDR3-SDRAM. This model allows twice as much of the spectrum band to be covered in terms of testing speed as the T5501 and thus enhances the measurement accuracy.

Edgar Filing: ADVANTEST CORP - Form 20-F

T5300 Series. The T5383 is a multi-functional test system for memory semiconductors that reduces testing costs for semiconductor manufacturers. The T5383 is used for the front-end testing of DRAM semiconductors and for back-end testing of flash memory semiconductors. The T5383, which is capable of simultaneously testing up to 384 devices, is a test system with a maximum testing rate of 286 MHz/572 Mbps, which is twice the testing rate of Advantest's previous model. This allows for DRAM wafer testing at speed testing, or testing for KGD, and package testing for flash memory semiconductors, at high-speed and with high-throughputs capabilities. The T5385, which is capable of simultaneously testing up to 768 devices with a maximum testing rate of 266 MHz/533 Mbps, succeeds the T5383. The T5300 series is Advantest's best selling test systems for memory semiconductors product line for front-end testing of DRAM semiconductors and for back-end testing of flash memory semiconductors.

Table of Contents

T5700 Series. Because variations in cell characteristics must be kept within a defined range, front-end testing for flash memory semiconductors require more types of testing than is required in front-end testing for DRAM semiconductors. Accordingly, front-end testing for flash memory semiconductors contributes to higher testing costs. Furthermore, although the volume of production with respect to NAND-type flash memory semiconductors is rapidly growing, prices have fallen substantially and there is a demand for higher efficiency for test systems. The T5761/T5761ES are test systems which have been designed to respond to this demand. The T5761 covers the full range of testing, from NAND-type flash memory testing to package testing. The T5761 is capable of simultaneous testing up to 512 devices, which is twice the capacity of Advantest's previous model, and allows for lower testing costs through its improved ability to detect failures. The T5761ES is designed for use in engineering and retains the same basic capabilities and functions as the T5761, with a substantially smaller size and at lower testing costs. Furthermore, Advantest introduced the T5781 memory test system, which is capable of testing Multiple Chip Package (MCP)-type memories which combine multiple memory types, such as NAND-type flash memories, which are used in mobile phones, NOR-type flash memories and SDRAM, at speeds of up to 266 MHz, and the T5781ES, which is designed to develop programs for evaluation and mass production. Because the T5781 and T5781ES have diverse memory semiconductor testing capabilities and can test single-handedly many different types of memory semiconductors which are incorporated into MCPs testing efficiency can be improved. Through the T5700 series, effective solutions can be provided, from the design of flash memories and MCPs to mass production.

Test Systems for Non Memory Semiconductors

Advantest's main line of test systems for non memory semiconductors relates to test systems for SoC semiconductors, test systems for LCD driver integrated circuits and test systems for semiconductors used in car electronics. Test systems for SoC semiconductors test SoC semiconductors that combine circuits such as digital, analog, memory and RF circuits on a single semiconductor chip. Test systems for LCD driver integrated circuits test semiconductors with specific functions, such as LCD driver integrated circuits that display images on LCD panels. The factors that are important to customers in the performance and other characteristics of test systems for memory semiconductors described above also apply to test systems for non memory semiconductors. Advantest's market share in test systems for non memory semiconductors remained at a similar level of approximately 17% in fiscal 2008, compared with approximately 16% in fiscal 2007.

T2000. In 2003, Advantest brought to market the T2000 test systems for non memory semiconductors based on component modules compatible with OPENSTAR® open architecture. Advantest believes that the development of modules for the T2000 compatible semiconductor test systems for non memory semiconductors and the increase in product lineup will increase Advantest's market share in test systems for non memory semiconductors. Main compatible component modules for the T2000 include modules designed for digital testing, analog testing and RF testing. Furthermore, mainframes for the T2000 may be chosen to meet customers' needs.

T6500 Series. The T6577 test systems for SoC semiconductors in the T6500 series were primarily developed to test MCU and SoC semiconductors that control digital consumer products at the production lines. The T6500 series is approximately one-third in size and uses approximately 50% less power than Advantest's predecessor product line.

T6300 Series. The T6300 series are test systems for LCD driver integrated circuits used with high-definition LCD displays. A maximum of 1,536 LCD testing pins may be used with the T6362 and T6372 systems and a maximum of 3,072 LCD testing pins may be used with the T6373 system. Each of these systems can simultaneously test multiple LCD driver integrated circuits.

T7720 Series. The T7721, T7722 and T7723 are test systems for non memory semiconductors for mixed signal integrated circuits. The T7723 targets highly complex semiconductors used in car electronics and is the result of the development of Advantest's constituent technology that measures analog signals. The T7723 uses a

Table of Contents

direct current signal generator with a range of 150V to 64V and floating power supply of 60V/10A or 30V/30A (pulse), utilizes up to a maximum of 256 pins, and has the capacity to simultaneously measure multiple devices.

T8571A. The T8571A is a test system for non memory semiconductors that is primarily used to evaluate and analyze CCDs which are image sensors. These semiconductors are used in digital consumer products, such as high-resolution digital cameras, mobile phone handset cameras and digital video cameras.

Mechatronics System Segment

The Main products in the Mechatronics System Segment are test handlers which handle semiconductor devices and automate the testing, and device interfaces which are the interfaces with devices being tested.

Test Handlers

Test handlers are used with semiconductor and component test systems to handle, condition temperature, contact and sort semiconductors and other electronic components during the back-end testing of the semiconductor manufacturing process.

Advantest's test handlers are sold primarily in conjunction with the sale of its semiconductor and component test systems. A majority of Advantest's test handlers, measured in units, are sold to customers of Advantest's semiconductor and component test systems. Advantest's test handlers are compatible with the semiconductor and component test systems of its competitors.

Test handlers are designed with different characteristics for memory and non memory semiconductors. Memory semiconductors require relatively long test times. Advantest's test handlers for memory semiconductors handle up to 512 semiconductors per test head at a time. Non memory semiconductors, including SoC semiconductors, require relatively short test times. Advantest's test handlers for non memory semiconductors require short time and handle up to 16 semiconductors at a time.

Test Handlers for Memory Semiconductors. The M6242 test handler for test systems for memory semiconductors, including DDR-3SDRAM, can handle up to 512 semiconductors at a time. The M6242's maximum throughput is 42,200 semiconductors per hour through the use of a new high-speed handling technology that shortens the time between tests to approximately half of the time associated with Advantest's ordinary model. In addition, the M6242 has a built-in temperature control device which can minimize the temperature fluctuation within a 1.5°C range for temperatures between -10°C and 100°C. Advantest also has other test handler product line for test systems for memory semiconductors that meet varying cost and functional needs of its customers.

Test Handlers for Non Memory Semiconductors. Advantest's test handlers for non memory semiconductors, including SoC semiconductors, are the M4841, the M4741A and the M4742A, among others. With a rate of 16 semiconductors at a time, the M4841 can handle approximately twice as many semiconductors at a time as Advantest's previous model. The M4841's maximum throughput of up to 18,500 semiconductors per hour is triple the maximum throughput of the previous model. Furthermore, the M4841 is also capable of testing in a wide range of temperatures,

from as low as -55°C or as high as 125°C.

The M4741A employs the vision alignment system which enables high-accuracy positioning of contact sockets for small-sized/narrow-pitched integrated circuits used in cellular phones and other products. Through the adoption of the vision alignment system, various types of measurement device can be operated under certain conditions without switching the change kit. M4742A realizes a reduction in contact pitch exchange time in handling of various products, visualization of operation screen, visibility check of internal devices, and improvement of operability, hence contributing to the reduction of test costs.

Table of Contents

In addition, as a common feature in Advantest's test handlers for memory/non memory semiconductors, numerous functions to improve operating rate are installed.

Device Interfaces

Device interfaces are components which transmit test signals between the device being tested and the semiconductor and component test system. These components are divided into motherboards, socket boards, performance boards and sockets all of which transmit signals to compatible components of a device under test; components compatible with a test handler device; and device interfaces and change kits with a device handling mechanisms and contact mechanisms.

Advantest develops and manufactures device interfaces for semiconductor and component test systems and supplies device interfaces such as high performance and high density connectors, socket boards and sockets to meet the demands of next-generation semiconductors that are becoming more high-speed and more diversified. Advantest believes that the rate at which new semiconductor designs are introduced to market will continue to increase in the long term, and customers' requests to accelerate development of main parts of device interfaces that are compatible with such new semiconductor designs will increase accordingly.

Motherboards: For test systems for memory semiconductors, Advantest provides motherboards capable of handling a maximum of 512 semiconductors at a time. For test systems for non memory semiconductors, Advantest provides motherboards that are compatible with a maximum of 3,072 signals. Advantest also provides motherboards designed for use in front-end testing.

Socket Boards and Performance Boards: Advantest provides custom manufacturing of socket boards and performance boards for each device under test in accordance with customers' specifications.

Sockets: Advantest provides sockets for test systems for memory semiconductors. Advantest provides low-inductance (0.4nH) sockets and fine pitch (0.4mm) sockets for semiconductors that are becoming more high-speed and more compact in size.

Change Kits: Advantest provides carrying and contacting mechanism components compatible with each device under test for test handlers for memory semiconductors and test handlers for non memory semiconductors.

Advantest competes with numerous small and independent electronics manufacturers in providing device interfaces for its semiconductor and component test systems. However, Advantest believes that as the complexity of the testing requirements of next-generation semiconductors increases, Advantest will enjoy competitive advantages by applying its technical knowledge, such as high speed signal transmission, derived from designing and manufacturing semiconductor and component test systems to device interfaces.

Customers

Edgar Filing: ADVANTEST CORP - Form 20-F

Advantest's semiconductor and component test systems and mechatronics systems are shipped and delivered to world's leading semiconductor manufacturers, as well as some foundries and test houses. Sales to INTEL Corporation and Samsung Corporation in fiscal 2008 and INTEL Corporation in fiscal 2009 each accounted for greater than 10% of Advantest's net sales in each of those respective years. No customer accounted for greater than 10% of Advantest's net sales in fiscal 2007. Advantest's five largest customers, all of which are semiconductor and component test system customers, accounted for approximately 32% of net sales in fiscal 2007, approximately 51% in fiscal 2008 and approximately 43% in fiscal 2009.

Table of Contents**Geographic Sales**

Approximately 78% of Advantest's fiscal 2009 net sales were derived from products sold to customers located outside Japan. The following table sets forth Advantest's net sales by geographic area, as well as net sales by geographic area as a percentage of total net sales, for Advantest's last three fiscal years. Net sales are classified into geographic areas based on the location to which the products are shipped.

Market	Fiscal 2007		Fiscal 2008		Fiscal 2009	
	Net Sales (in millions)	%	Net Sales (in millions)	%	Net Sales (in millions)	%
Japan	¥ 56,032	30.7	¥ 24,734	32.3	¥ 11,976	22.5
Asia (excluding Japan)	108,260	59.2	37,315	48.7	34,182	64.2
Americas	9,616	5.3	11,759	15.3	4,930	9.3
Europe	8,859	4.8	2,844	3.7	2,137	4.0
Total	¥ 182,767	100.0%	¥ 76,652	100.0%	¥ 53,225	100.0%

Japan. Advantest enjoys a significant market position in Japanese markets for test systems for memory semiconductors, with a market share of approximately 51% in 2009. In addition, Advantest had a market share of approximately 58% in the Japanese test systems for non memory semiconductors market in 2009. Sales of test systems for SoC semiconductors used in DVD /Blu-ray disc recorders and flat-panel TVs comprised a substantial portion of total sales of test systems for non memory semiconductors in Japan in fiscal 2009. Advantest is working to maintain and expand its large market share in Japan by continuing to work closely with its major customers to identify their needs during the early stages of their product development cycles.

Asia (excluding Japan). Asia is the largest market for semiconductor and component test systems and mechatronics systems, with semiconductor manufacturers located in Taiwan, Korea, the People's Republic of China and Singapore accounting for a majority of semiconductor production in Asia. Advantest views its relationships with these companies as critical to its semiconductor and component test system and mechatronics system business. Many Japanese, U.S. and European semiconductor manufacturers have shifted production to Asia, either to subsidiaries or foundries and test houses. Capital expenditure decisions for subsidiaries are usually made at the Company's headquarters. Foundries and test houses, a majority of which are located in Taiwan, often consult with their customers before investing in semiconductor and component test systems. Therefore, Advantest's performance in Asia will also depend on its ability to maintain strong relationships with customers in Japan, the U.S. and Europe. In addition, some of Advantest's customers have partnered with semiconductor manufacturers in Asia and outsourced manufacturing processes, thus shifting net sales to the Asia geographic market.

Americas. Advantest's marketing efforts in this region are centered in the United States, which accounted for approximately 9% of its total sales in fiscal 2009. Advantest's market share of semiconductor and component test systems sold in the U.S. was approximately 20% in 2008 and decreased to approximately 17% in 2009. Semiconductor and component test systems are marketed and sold in the Americas through Advantest's subsidiary, Advantest America, Inc.

Europe. Sales in Europe constituted approximately 4% of Advantest's sales in fiscal 2009. Advantest's market share of semiconductor and component test systems sold in Europe increased to approximately 24% in 2009 from approximately 12% in 2008. Advantest's principal European markets are Germany, Italy and France.

Sales and Marketing

Advantest sells its semiconductor and component test systems and mechatronics systems globally through direct sales channels. Advantest's direct sales department includes engineers who have in-depth knowledge of the customer's business and technology needs. Currently, Advantest has sales offices in Japan, Taiwan, Singapore

Table of Contents

and other parts of Asia, the Americas and Europe. Advantest maintains its sales and support centers in close physical proximity to key customer sites to identify its customers' needs in the early stage of product development and to provide required support in a timely fashion. Advantest is also strengthening its relationships with test houses through limited minority investments as a part of its sales and marketing strategy. In addition, Advantest offers operating lease contracts for semiconductor and component test systems through its subsidiary, Advantest Finance Inc.

Advantest believes that the best marketing strategy is to demonstrate the ability to develop products that meet the customer's specific needs, produce and deliver them in the required time and quantity, and support the customer and the product with sufficient technical and maintenance support. Advantest holds exhibitions from time to time to demonstrate and market its products to target customers. Advantest also markets by participating in industry trade shows and advertising in trade magazines.

Support and Customer Service

Advantest's support and customer service programs are designed to respond to all of the semiconductor testing-related needs of its customers. Advantest provides its services through its worldwide network of sales and customer support offices. These services consist of the following elements:

Testing Technology Support. Advantest engineers work with customers from the design phase of new products to the development of testing methods and device interfaces. Advantest also support customers' initiatives to reduce costs at the large-scale production phase by proposing procedures to improve production yield and throughput, and offering advice in connection with the operation of semiconductors and component test systems and other test products.

Application Software Support. Each different semiconductor design requires customized software programs for analysis of test data. As a part of its solution services, Advantest engineers assist customers in designing device interface, application software and test programs that optimize production throughput, reliability and capacity.

Procurement Support. The procurement process for semiconductor and component test systems and mechatronics systems is time consuming and complicated. Semiconductor and component test systems consist of a combination of multiple components, including test handlers or probers, device interfaces and software. Advantest sales personnel and engineers work with customers to identify the semiconductor and component test systems and mechatronics systems and related optional functions that best address their needs.

Installation and Warranty Support. The introduction of a new line of semiconductors by a manufacturer typically requires either the purchase of new semiconductor and component test systems and mechatronics systems or warranty support for the customer's existing system. Upon the sale of a new system, Advantest's engineers provide installation services and work with the customer to integrate the purchased system with the customer's existing manufacturing infrastructure.

Training Support. Advantest engineers prepare customer training materials related to the operation and maintenance of Advantest's semiconductor and component test systems and mechatronics systems, and offer their customers suitable training on-site and at Advantest's facilities in a timely manner.

Maintenance Support. Advantest's maintenance support services consist of:

Edgar Filing: ADVANTEST CORP - Form 20-F

Call Center Support. Advantest currently offers call center support services for hardware and software in Japan. This call center also offers support to the customer support centers that Advantest has overseas.

Internet Support. The Advantest customer support website offers maintenance tips and access to a database with possible solutions to semiconductor and component test system problems. Advantest customers can also make on-line requests for maintenance work and check the status of equipment sent in for repair through Advantest's web page.

Table of Contents

Repairs and Parts. Requests for repairs or parts can be made through the Advantest website or by phone. Advantest has established a system under which it endeavors to deliver requested parts to customers in Japan within 24 hours of request, and for customers in Asia (excluding Japan), the Americas and Europe within 48 hours.

Remote Surveillance. Advantest can equip its semiconductor and component test systems with a remote surveillance function. This function allows Advantest engineers to remotely monitor the performance of its customers' semiconductor and component test systems for more timely and effective maintenance.

Worldwide Presence. Advantest provides maintenance support through customer support centers in Japan; other parts of Asia, including Korea, China, Taiwan and Singapore; the Americas and Europe.

Manufacturing and Supplies

Advantest's principal factories at which semiconductors and component test systems and mechatronics systems are manufactured are its Gunma Factory and Gunma Factory 2 located in Gunma Prefecture, Japan. Printed circuit boards, on which electronic parts and other components are mounted, for use in these products are manufactured at the Gunma Factory 2. The Gunma Factory assembles the final products and conducts tests. The Gunma Factory is highly automated, and testing and production systems within the factory are interconnected by a sophisticated local area network using advanced data management software. This network allows Advantest factory managers to check on the status of systems under production at any given time.

Advantest uses a sophisticated enterprise resource planning (ERP) system that processes new information on a real time basis and converts sales order information into production specifications and manufacturing plans. This system also interconnects Advantest's multiple production and warehousing facilities to its information network.

Advantest has integrated many production processes in an effort to introduce a new production system based on the just-in-time production system and to improve upon the existing production system with a view to attaining a shorter production cycle, cost reduction and reduction of inventories.

Advantest purchases substantially all of its components and parts from outside suppliers.

The average costs of components and parts used by Advantest during the last three fiscal years have remained relatively stable. Advantest believes this relative price stability results from the fact that Advantest negotiates the terms of the purchase orders directly with its suppliers and the fact that the prices of the made-to-order components set forth in the purchase orders are primarily influenced by the technical specifications of the relevant components and parts.

Device interfaces, one of Advantest's products in its Mechatronics System Segment, are manufactured in Japan as well as overseas, including in Germany, Korea, Taiwan and Malaysia, in order to reduce lead time and reduce manufacturing costs.

Seasonality

As Advantest's sales levels of semiconductor and component test systems and mechatronics systems are not dependent on any particular season and are subject, in large part, to sales levels of the semiconductors in the market that can fluctuate significantly from year to year, Advantest does not traditionally experience seasonality in the sense of higher sales during any certain period of the year as compared to other periods of the year.

Table of Contents

Competition

Advantest faces substantial competition throughout the world in all of its business segments. In particular, in light of the on-going significant downturn in the semiconductor industry, competition in the semiconductor and component test system market is intensifying, which may lead to restructuring within the industry and certain companies may be eliminated or consolidated. Advantest believes that the principal factors of competition are:

Performance. The performance of products is determined by its accuracy, test speed, throughput and ability to test semiconductors with large pin counts. High performance products reduce the customer's cost of testing.

Reliability. Products that operate with minimal downtime allow semiconductor production and engineering work to proceed without frequent intervention and provides more cost-effective operation.

Delivery Time. Semiconductor manufacturers require timely delivery of products, especially in periods of high demand.

Price. The need for more sophisticated products often translates into higher testing costs for semiconductor manufacturers. In addition, primarily as a result of increased efficiency in the fabrication process and lower market prices for semiconductors, test costs have come to represent a higher proportion of the total cost of manufacturing. Advantest currently faces significant price pressure in its Semiconductor and Component Test System Segment.

System Architecture. Product architecture that is modular expands the product life because the system can be adapted to meet the customer's new requirements, while largely retaining compatibility with existing test programs.

Software. Products that use software that is easier to use and more powerful reduce the amount of engineering resources needed to develop and operate test programs.

Customer Support. Customer specific applications programs, worldwide service and customer training contribute to the efficient use of products and minimize the customer's cost of testing.

Qualified Technical Personnel. Having in place a team of highly qualified engineers and other customer service and support personnel is essential for securing sales and maintaining and developing strong relationships with key customers.

According to a report issued by a research company, Advantest maintained the highest market share in the semiconductor test system market for five consecutive years until 2007. However, in 2008 and 2009, Teradyne, Inc. achieved the highest share, and Advantest achieved the second highest share. Other companies following Advantest include Verigy Ltd., LTX-Credence Corporation and Yokogawa Electronic Corporation. Some of Advantest's other competitors include FROM30 CO., LTD., EXICON Ltd., and UniTest Inc. In addition, Advantest also competes in the mechatronics system market with, among others, Delta Design, Inc., Seiko Epson Corporation, Mirae Corporation and TechWing Inc. for test handlers, and TSE Co., Ltd. and Secron Co., Ltd. for device interfaces. In addition, in the Services, Support and Others Segment, Advantest has been competing with companies providing similar services. It also has been suggested by customers that Advantest competes with start-up companies with newer technologies or products in the market for both the test systems for memory semiconductors and test systems for non memory semiconductors.

Licenses and Intellectual Property Rights

Advantest has a policy of seeking licenses and intellectual property rights worldwide on technology considered of particular strategic importance. While Advantest does not consider any one or group of licenses and intellectual property rights to be so important that their expiration or termination would materially affect Advantest's business, Advantest considers all of its licenses and intellectual property rights to be important.

Table of Contents

Legal Proceedings

Based on information currently available to Advantest, Advantest believes that its losses from any pending legal proceedings would not have a material adverse effect on Advantest's financial position, operating results or cash flows.

Environmental

Advantest established and implemented the Advantest Group Environmental Management Plan. Under this management plan, in addition to improving its environmental management systems, Advantest is supporting its customers' environmental management by developing new products with lower power consumption and dealing with top priority environmental issues, for example by taking measures to prevent global warming.

Advantest's primary environmental activities during fiscal 2009 are as follows:

ISO 14001 Certification. Advantest has received ISO 14001 Uniform Certification for all seven of its domestic manufacturing and research and development facilities. With respect to its overseas manufacturing and research and development activities, seven principal facilities in Asia, Europe and North America regions have received ISO 14001 Uniform Certification.

Environmental Measures for Products. Advantest is actively involved in the development of environmentally friendly product lines. Advantest conducts environmental assessments of all its new products from their development stages. In fiscal 2009, seven models complied with Advantest's internal environment-oriented design standards, and have qualified as environmentally friendly Green products.

Reduce Waste. Advantest has implemented a recycling program and introduced liquid waste disposal capabilities at its facilities. Through such initiatives, Advantest's waste volume was a total of 700 tons in fiscal 2009, and Advantest continues to retain less than 1% of its industrial waste output at all seven of its domestic research and development and manufacturing facilities.

Use of Safe Components. Advantest has established an internal procurement standard for parts and components and has procured parts and components for its new products that do not contain specified toxic substances. Primarily reflecting the foregoing, Advantest has eliminated most regulated toxic substances from approximately 95% of the surface-mounted components on its new products after 2007, except lead solder, which is used for mounting parts and components for its products.

Prevention of Global Warming. Through the use of energy efficient equipment and the re-evaluation of manufacturing processes, Advantest strives to reduce levels of carbon dioxide emissions resulting from energy consumption relating to its business activities. Advantest's carbon dioxide emissions resulting from its all seven of domestic facilities was reduced to 20,398-CO₂tons in fiscal 2009, primarily as a result of energy saving effects and a decrease in production.

As one of its activities designed to contribute to society and to the environment, Advantest implements reforestation of seedlings, both in Japan and overseas.

Edgar Filing: ADVANTEST CORP - Form 20-F

Advantest spent approximately ¥682 million during fiscal 2009 to further implement its environmental protection activities.

Advantest has been addressing issues of corporate management, social activities and environmental issues from a global perspective. With increased attention in recent years on corporate ethics, Advantest believes that it should focus more on the issue of CSR (Corporate Social Responsibility). Accordingly, Advantest has established a CSR & Environmental Affairs Promotion Office and nine committees (Disclosure Committee, Personnel Mediation Committee, Human Rights Protection Committee, Information Security Committee, Committee on Environmental Conservation, Internal Control Committee, Corporate Ethics Committee, Product Liability Committee and Safety and Health Committee), and engages in corporate social responsibility efforts.

Table of Contents

Glossary

Analog circuits	Circuits on a semiconductor that monitor, condition, amplify or transform analog signals, which are signals that vary continuously over a wide range of values. Analog circuits process analog signals translated from real world phenomena such as sound, light, heat and motion.
DDR-SDRAM	Double Data Rate Synchronous Dynamic Random Access Memory. Memory semiconductor that can be read from, or written to, at double the rate of traditional SDRAM semiconductors.
DDR2-SDRAM	Advanced DDR-SDRAM semiconductors that can be read from, or written to, at a significantly higher rate than DDR-SDRAM semiconductors.
DDR3-SDRAM	DDR-SDRAM semiconductors that be read from, or written to, at a significantly higher rate than DDR2-SDRAM semiconductors.
DDR4-SDRAM	The next generation DDR-SDRAM semiconductors that can be read from, or written to, at a significantly higher rate than DDR3-SDRAM semiconductors.
Digital circuits	Circuits that perform binary arithmetic functions on data represented by a series of on/off states.
DRAM	Dynamic Random Access Memory. Devices that store a large volume of data and can read and write data freely. Because of their volatile characteristics, periodic re-writing of data is required to maintain memory information.
Foundries	Semiconductor manufacturing service providers that manufacture semiconductors based on their customers' semiconductor designs.
Fabless	Manufacturers that outsource their entire production to external entities, instead of having their own manufacturing facilities.
Flash memory	Memory devices that electrically erase or write data freely. Devices with nonvolatile memory which is maintained even when the power is turned off.
Integrated circuit	An electric part made of a combination of many transistors on a silicon wafer.
LCD driver integrated circuits	Integrated circuits that operate LCD (Liquid Crystal Display).
Logic circuits	Circuits that perform binary arithmetic functions.

Edgar Filing: ADVANTEST CORP - Form 20-F

Memory circuits

Circuits that store data and programs.

MCP

Multi Chip Package. A package which combines multiple chips with different functions.

Table of Contents

MCU	Micro Controller Unit. An integrated circuit that contains all necessary functions required for a small-scale computer system.
MPU	Microprocessor unit. A microprocessor incorporates most or all of the functions of a computer's central processing unit on a single integrated circuit.
NAND	A type of flash memory that is primarily used for data storage due to its large storage capability.
NOR	A type of flash memory that is primarily used for memorization of programs due to its random access capability.
OPENSTAR®	The name of the open architecture standard made publicly available by Advantest.
SGRAM	Synchronous Graphics Random Access Memory SDRAM with added graphics functions.
SoC	System on a Chip. A chip that integrates functions, including logic, memory and signaling, that are conventionally executed with multiple chips and requires smaller space and significantly less electricity.
Test houses	Providers of semiconductor test services.
Testing for KGD	Known Good Die. Testing for KGD is conducted to guarantee that semiconductor bare chips are in good quality.

Table of Contents**4.C. ORGANIZATIONAL STRUCTURE**

As of June 1, 2010, Advantest had 14 Japanese subsidiaries, 16 overseas subsidiaries and one investee which is accounted for by the equity method. The following table sets forth for each of Advantest's principal subsidiaries, the country of incorporation and the principal activities of the subsidiary.

Name of Subsidiary	Country of Incorporation	Principal Activities
Advantest Laboratories Ltd.	Japan	Research and development of measuring and testing technologies
Advantest Customer Support Corporation*	Japan	Maintenance service of Advantest's products
Advantest Manufacturing, Inc.*	Japan	Manufacture of Advantest's products
Japan Engineering Co., Ltd.	Japan	Development, manufacture and sales of Advantest's products
Advantest Finance Inc.	Japan	Leasing of Advantest's products
Advantest America, Inc.	U.S.	Sales of Advantest's products
Advantest Europe GmbH	Germany	Development and sales of Advantest's products
Advantest Taiwan Inc.	Taiwan	Sales of Advantest's products
Advantest (Singapore) Pte. Ltd.	Singapore	Sales of Advantest's products
Advantest Korea Co., Ltd.	Korea	Sales support of Advantest's products
Advantest (Suzhou) Co., Ltd.	China	Sales support of Advantest's products

* Advantest plans to merge its consolidated subsidiaries, Advantest Manufacturing, Inc. and Advantest Customer Support Corporation as of July 1, 2010. Through the merger, Advantest aims to review their R&D, manufacturing, sales, and maintenance service processes to further align them with Advantest's customer requirements, speeding up the implementation of its management strategy and seeking greater business efficiency.

Each of the subsidiaries listed above is a direct or indirect wholly-owned subsidiary of the Company.

4.D. PROPERTY, PLANTS AND EQUIPMENT

Set forth below is a list of each of Advantest's material properties, the use and location of the property and the approximate size of the property on which the facility is located.

Name	Location	Approximate Size (m²)	Use
Gunma R&D Center	Gunma, Japan	250,887	Research and development of semiconductor and component test systems and mechatronics systems
Saitama R&D Center*	Saitama, Japan	85,817	Research and development for and manufacturing of mechatronics systems
Advantest Laboratory and Sendai Factory	Miyagi, Japan	66,904	Basic technology research, and research for and manufacturing of key devices installed in

Table of Contents

Name	Location	Approximate Size (m²)	Use
Gunma Factory	Gunma, Japan	88,512	Manufacture of semiconductors and component test systems and test handlers
Gunma Factory 2	Gunma, Japan	93,112	Manufacture of semiconductor and component test systems and device interfaces

* Effective March 23, 2010, Otone R&D Center changed its name to Saitama R&D Center.

In addition to the above-mentioned manufacturing facilities, Advantest has manufacturing facilities in Korea and Malaysia, sales offices and customer support centers in various regions of the world, and owned or leased research facilities in Japan, the U.S. and Germany. Advantest owns each of its significant properties.

Advantest considers all of its principal manufacturing facilities and other significant properties to be in good condition and adequate to meet the needs of its operations. Advantest does not maintain internal records of the exact productive capacity and extent of utilization of its manufacturing facilities. It would require unreasonable effort and expense to determine this information because Advantest alters the volume, quantity and nature of its manufactured products as necessary in response to changes in demand and other market conditions, and revamps its manufacturing processes to take advantage of technological innovations. However, Advantest believes that its manufacturing facilities are currently operating at utilization levels that are substantially in line with prevailing market demand for its products.

Advantest believes that there are no material environmental issues that may affect utilization of its assets.

Advantest has prepared itself for crises such as large-scale natural disasters, and each department of Advantest has drafted its own disaster procedures and manuals. Furthermore, in order to prevent any disruption of its core businesses, or in case of suspension, to re-start the suspended businesses, including the recovery of important facilities, in the shortest possible time, Advantest has developed its Business Continuity Plan and is promoting its implementation. However, if Advantest is not successful in implementing such Business Continuity Plan, or if upon implementation, such Business Continuity Plan is not effective, Advantest's core businesses could be disrupted at time of crisis, such as large-scale natural disasters, and could take a substantial amount of time to recover.

ITEM 4A. UNRESOLVED STAFF COMMENTS

None.

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS**5.A. OPERATING RESULTS**

Edgar Filing: ADVANTEST CORP - Form 20-F

The following discussion and analysis of Advantest's financial condition and results of operations should be read with "Key Information - Selected Financial Data" and the audited consolidated financial statements as well as the notes to such consolidated financial statements appearing elsewhere in this annual report. These consolidated financial statements have been prepared in accordance with U.S. GAAP.

Overview

Advantest manufactures and sells semiconductor and component test systems and mechatronics-related products such as test handlers and device interfaces. Advantest also engages in research and development activities and provides maintenance and support services associated with these products.

Table of Contents

The Semiconductor and Component Test System Segment provides customers with test system products for the semiconductor industry and the electronic parts industry. Product lines in the Semiconductor and Component Test System Segment include test systems for memory semiconductors and non memory semiconductors. Test systems for non memory semiconductors include test systems for SoC semiconductors, test systems for LCD driver ICs and test systems for semiconductors used in car electronics. This business segment is the most important segment, as a whole accounting for 61.2% of Advantest's net sales in fiscal 2009.

The Mechatronics System Segment provides product lines such as test handlers, mechatronic-applied products, for handling semiconductor devices, device interfaces that serve as interfaces with the devices that are measured and operations related to nano-technology products. This business segment accounted for 21.1% of Advantest's net sales in fiscal 2009.

The Services, Support and Others Segment consists of comprehensive customer solutions provided in connection with the Semiconductor and Component Test Systems and Mechatronics System Segments, support services, equipment lease business and others. This segment accounted for 22.2% of Advantest's net sales in fiscal 2009.

Semiconductor and Component Test System Segment

The market for semiconductor and component test systems is subject to high demand volatility, is competitive, and depends on capital expenditures of customers. Their capital expenditures depend, to a large extent, on:

demand for semiconductors and electronic components;

innovation in semiconductor and electronic component technology; and

changes in semiconductor and electronic component manufacturing processes.

The business environment of the Semiconductor and Component Test System Segment was challenging at the beginning of fiscal 2009. The semiconductor manufactures were impacted by the global economic downturn, that resulted in reduction of capital expenditures. The semiconductor manufactures gradually resumed capital expenditures as semiconductor prices rose and equipment utilization rates climbed, driven by increased demand for personal computers, flat-screen TVs, and cellular phones and Advantest's orders improved significantly year on year. However, primarily due to the low level of orders in the second half of fiscal 2008, net sales decreased by 33.8% from fiscal 2008 to ¥32,572 million. For a detailed discussion of these factors, see Information on the Company Business Overview Industry Overview.

The test systems for memory semiconductor market of this segment was in an extremely challenging environment at the beginning of fiscal 2009, as memory semiconductor manufactures continued to take a cautious stance on capital expenditures. However, the upturn in personal computer demand left manufacturers struggling to keep up with demand, raising concerns with respect to potential DRAM shortages. Prices for DDR3-DRAM and other DRAM devices rose, encouraging memory semiconductor manufactures to resume capital expenditures, which led to an increase in orders for memory test systems towards the end of fiscal 2009. However, sales remained weak mainly due to the impact of weak orders carried over from the second half of fiscal 2008.

Edgar Filing: ADVANTEST CORP - Form 20-F

In the test systems for non memory semiconductor market, orders for MPU test systems continued to be robust and demand for LCD driver integrated circuits test systems and consumer SoC test systems also expanded in the second half of fiscal 2009, as the global recovery stimulated demand for consumer electronics including LCD TVs, cellular phones, and notebook computers. However, sales remained weak mainly due to the impact of weak orders carried over from the second half of fiscal 2008.

Table of Contents

Advantest believes that price pressure with respect to semiconductor and component test systems tends to be the strongest during periods when semiconductor manufactures are subject to price pressure despite an increase in demand for their products. Advantest continues to face significant price pressure. Even when the semiconductor industry experienced a recovery, increased competition in the market for digital consumer products and personal computers drove down prices of these goods, subsequently creating significant price pressure on its products and restriction on capital expenditure.

Mechatronics System Segment

Demand for Advantest's test handlers also improved sharply during the second half of fiscal 2009, supported by increased activity in the DDR3-DRAM and analog integrated circuits market. However, the steep drop in orders in the second half of fiscal 2008 kept sales at a low level for fiscal 2009.

Mainly as a result of the above, net sales of the Mechatronics System Segment totaled ¥11,237 million in fiscal 2009, a 21.9% decrease compared to that of fiscal 2008.

Services, Support and Others Segment

In the Services, Support and Others Segment, Advantest has focused on maintenance services such as installation and repair of Advantest's products and lease and rental services of its products as a part of Advantest's effort to provide customers with comprehensive solutions. This Segment did not perform strongly in fiscal 2009 as volumes declined in customer utilization rates of testing equipment, and net sales decreased by 25.1% compared to fiscal 2008 to ¥11,838 million in fiscal 2009.

Non-recurring Charges Related to Cost Reduction Initiatives

In response to concerns over the prolonged deterioration of Advantest's business environment in fiscal 2008, Advantest implemented an organizational restructuring to strengthen its management structure by undertaking certain actions to streamline its operations and change its organization to return to profitability in the future. In connection with the restructuring, Advantest recognized non-recurring charges, consisting of inventory write-down of ¥8,715 million incurred as a result of the rapid deterioration of the market, additional voluntary retirement benefit costs amounting to ¥5,064 million resulting from the early retirement of certain employees, and impairment losses on long-lived assets and goodwill of ¥13,866 million in fiscal 2008.

The inventory write-down of ¥8,715 million is included in cost of sales, and the additional voluntary retirement benefit costs of ¥5,064 million are included in restructuring and impairment charges. Impairment losses on long-lived assets of ¥5,142 million, which are related to production facilities, are included in cost of sales, and the remaining impairment losses of long-lived assets and goodwill of ¥8,724 million are included in restructuring and impairment charges as part of operating expenses in the accompanying consolidated statements of operations.

Edgar Filing: ADVANTEST CORP - Form 20-F

These actions were non-recurring in nature and represented a significant change in Advantest's businesses. However, such organizational restructuring and related charges were not exit or disposal activities. Advantest neither anticipates nor has exited businesses or discontinued product lines. Advantest did not incur costs associated with involuntary, one-time termination benefits, cancellation of contractual arrangements such as operating leases, or expenses associated with consolidation or integration of subsidiaries.

Significant assumptions and methodology with respect to the voluntary termination benefits and impairment losses on long-lived assets and goodwill are discussed further in the section on critical accounting policies and estimates.

In fiscal 2007 and 2009, Advantest did not incur non-recurring charges related to cost reduction initiatives.

Table of Contents

Research and Development

Research and development expenses represent a significant portion of Advantest's annual operating expenses. Advantest's research and development expenses were ¥30,507 million, ¥23,713 million and ¥17,896 million or 16.7%, 30.9% and 33.6% of net sales, in fiscal 2007, 2008 and 2009, respectively.

Personnel

As of March 31, 2010, Advantest had a total of 3,151 full-time employees, a decrease of 36 persons, or 1.1%, compared to that of March 31, 2009.

Advantest plans to continue its periodic recruitment of new graduates as part of its mid- to long-term growth strategy. Advantest expects that a majority of these new hires will join the Semiconductor and Component Test System Segment and Mechatronics System Segment to support the growth of Advantest's businesses. Other new hires are expected to join Advantest's maintenance support division or administrative divisions. The addition of these new hires may increase Advantest's future selling, general and administrative expenses and its research and development expenses.

Currency Fluctuations

Advantest is affected to some extent by fluctuations in foreign currency exchange rates. Advantest is principally exposed to fluctuations in the value of the Japanese yen against the U.S. dollar and currencies of other countries where Advantest does business. Advantest's consolidated financial statements, which are presented in Japanese yen, are affected by foreign currency exchange fluctuations through both translation risk and transaction risk.

Translation risk is the risk that Advantest's consolidated financial statements for a particular period or for a particular date will be affected by changes in the prevailing exchange rates of the currencies in which subsidiaries of the Company prepare their financial statements against the Japanese yen. Even though the fluctuations of currencies against the Japanese yen can be substantial and, therefore, significantly impact comparisons with prior accounting periods and among various geographic markets, the translation effect is a reporting consideration and does not reflect Advantest's underlying results of operations.

Transaction risk is the risk that the currency structure of Advantest's costs and liabilities will deviate from the currency structure of sales proceeds and assets. Advantest produces substantially all of its products, including all semiconductor and component test systems, in Japan. A small portion of the components and parts used in Advantest's semiconductor and component test systems is purchased in currencies other than the Japanese yen, predominantly the U.S. dollar.

Advantest enters into foreign exchange forward contracts to reduce its transaction risk. This has reduced, but not eliminated, the effects of foreign currency exchange rate fluctuations against the Japanese yen, which in some years can be significant.

Generally, the weakening of the Japanese yen against other foreign currencies, particularly the U.S. dollar, has a positive effect on Advantest's operating income and net income. The strengthening of the Japanese yen against other foreign currencies, particularly the U.S. dollar, has the opposite effect. In fiscal 2007, the Japanese yen strengthened significantly against the U.S. dollar, with the exchange rate moving from the ¥120 mark to around ¥100. In the second half of fiscal 2008, the Japanese yen strengthened rapidly, with the U.S. dollar depreciating below ¥90 to the dollar at one point, but subsequently, the Japanese yen depreciated to the high ¥90s to the dollar toward the end of the fiscal year. In fiscal 2009, the Japanese yen started from the high ¥90s and strengthened gradually against the U.S. dollar to the ¥80s during the third quarter of the fiscal year, yet the Japanese yen depreciated to the low ¥90s to the dollar toward the end of the fiscal year.

Table of Contents

Advantest's business is subject to risks associated with doing business internationally, and its business could be impacted by certain governmental, economic, fiscal, monetary, taxation or political policies or factors, including trade protection measures and import or export licensing requirements, that may materially affect, directly or indirectly, Advantest's operations or its future results.

Critical Accounting Policies and Estimates

Advantest has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities in preparing its consolidated financial statements in conformity with U.S. GAAP. Critical accounting policies are accounting policies that require the application of management's most difficult, subjective or complex judgments and often require management to make estimates about the effect of matters that are inherently uncertain and may change in subsequent periods. The following is not intended to be a comprehensive list of all of Advantest's accounting policies. Advantest's significant accounting policies are more fully described in note 1 to Advantest's consolidated financial statements included elsewhere in this annual report. In many cases, U.S. GAAP specifically dictates the accounting treatment of a particular transaction, with no need for judgment in its application. There are also areas in which management's judgment in selecting an available alternative could produce materially different results. Set forth below is a description of accounting policies under U.S. GAAP that Advantest has identified as critical to understanding its business and the reported financial results and condition of the Company.

Revenue Recognition

Advantest recognizes revenue when there is persuasive evidence of an arrangement, delivery has occurred or the services have been rendered, the sales price is fixed or determinable and collection of the related receivable is reasonably assured.

For equipment sales involving software that is more than incidental to the product, revenue is recognized when persuasive evidence of an arrangement exists, delivery has occurred, the sales price is fixed or determinable, and collection of the related receivable is probable. Revenue for the separate elements is only recognized when the functionality of the undelivered element is not essential to the delivered element.

Sales of Products

Sales of products which require installation are recognized when the related installation is completed and other sales recognition criteria are met since the installation is essential to the functionality of the equipment. When customer acceptance is uncertain, revenue is deferred until customer acceptance has been received. When the final payment is subject to customer acceptance, a portion of revenue for the final payment is deferred until an enforceable claim has become effective.

Sales of products and component which do not require installation service by Advantest is recognized upon shipment if the terms of the sale are free on board (FOB) shipping point or upon delivery if the terms are FOB destination which coincide with the passage of title and risk of loss.

Long-term Service contracts

Revenue from fixed-price, long-term service contracts is recognized on the straight-line basis over the contract term.

Leasing Income

Revenue from operating leases is primarily recognized on the straight-line basis over the lease term.

Table of Contents

Multiple deliverables

Advantest accounts for multiple element arrangements that consist of non-software or software-related products in accordance with multiple element revenue recognition guidance and industry specific accounting guidance for software and software related transactions.

Advantest obtains and utilizes objective evidence (Vendor-Specific Objective Evidence (VSOE) for software-related products) of fair value to allocate revenue to elements in multiple element arrangements and recognizes revenue when the criteria for revenue recognition have been met for each element. If the criteria are not met, then revenue is deferred until such criteria are met or until the period(s) over which the last undelivered element is delivered. In the absence of objective evidence of fair value of a delivered element, Advantest allocates revenue to the fair value of the undelivered elements and the residual revenue to the delivered elements. The price charged when an element is sold separately generally determines fair value.

Inventories

Advantest's inventories consist of on-hand inventory, including inventory located at customer sites, and inventory that is on-order and subject to a contract that is non-cancelable. Advantest states its inventories at the lower of cost or market. Cost is determined using the average cost method. Advantest determines the market for finished goods by determining net realizable value and for raw materials by identifying replacement cost. Advantest reviews its inventories and determines the appropriate amount of any inventory write-downs periodically based on these reviews. Write-downs occur from the discontinuation of product lines, inventory in excess of estimated usage, the release of new products which renders inventory obsolete and declines in net realizable value of Advantest's inventory leased to customers. Advantest recognizes inventory write-downs in cost of sales. Advantest may be required to take additional charges for excess and obsolete inventory in fiscal 2010 or other future periods if future weakness in its businesses causes further reductions to Advantest's inventory valuations. In addition, unexpected changes in testing technology can render Advantest's inventories obsolete. Advantest evaluates its inventory levels based on its estimates and forecasts of demand for its products.

Advantest's inventories increased by ¥6,853 million, or 70.4%, during fiscal 2009 to ¥16,590 million as of March 31, 2010 due to improvements in backlogs of orders.

Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation.

Depreciation is computed principally using the declining-balance method for the Company and its domestic subsidiaries. The straight-line method over estimated useful lives of the assets is used for foreign subsidiaries.

The depreciation period for significant assets ranges from 15 years to 50 years for buildings, 4 years to 10 years for machinery and equipment, and 2 years to 5 years for tools, furniture and fixtures.

Depreciation expense was ¥8,216 million, ¥8,035 million and ¥4,101 million for the fiscal years 2007, 2008 and 2009, respectively.

Impairment of Long-Lived Assets

Advantest evaluates the impairment of long-lived assets and certain identifiable intangibles with definite useful lives by reviewing for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets.

Table of Contents

During the fourth quarter of fiscal 2008, Advantest made significant adverse changes to its business forecast and cash flows to be generated by its test systems for non memory semiconductor business and mechatronics semiconductor business in the future mainly reflecting the deteriorated semiconductor markets including bankruptcy of major semiconductor manufacturers as well as in anticipation for a delayed recovery in the market. These events and macroeconomic trends led to a significant decline in Advantest's operating results for fiscal 2008 when compared to fiscal 2007. Accordingly, Advantest evaluated the ongoing value of the long-lived assets, including buildings, machinery and equipment, related to its test systems for non memory semiconductor business and mechatronics business.

In our impairment assessments, Advantest took into consideration the structure of its organization and vertical integration of different aspects of its non memory test systems and mechatronics systems businesses. Advantest's decision to group assets reflects the inter-connectivity of its manufacturing, distribution and selling efforts for different types of products and services. To assess whether long-lived asset groups are impaired when an impairment indicator exists, Advantest first estimated undiscounted cash flows. Advantest determined its estimates of undiscounted cash flows applying an in-use premise for its asset groups. Advantest identified a primary asset within each asset group and projected cash flows over the remaining useful life of the primary asset. To develop its projections of cash flows, Advantest used proprietary knowledge and judgments about its customers' production plans and capital expenditure trends. Additionally, Advantest considered the impact of reduced headcount resulting from the voluntary special termination benefit offer. Advantest's estimates of cash flows reconcile to those used for recoverability of other assets.

Based on this evaluation, Advantest determined that long-lived assets of production facilities with land, buildings, machinery and equipment, tools, furniture and fixtures that were held and used primarily in its non-memory test systems and mechatronics systems businesses were no longer recoverable and were in fact impaired, and wrote such assets down to their estimated fair value. Advantest used present value techniques to estimate fair value of the asset groups. Impairment losses were calculated based on excess of the carrying amount of the long-lived asset over its fair value.

The amounts of the impairment losses for those long-lived assets included in cost of sales and operating expenses in the accompanying consolidated statements of operations for fiscal 2008 were ¥5,142 million and ¥7,943 million, respectively. Fair value was measured mainly based on expected future cash flows to be generated by those asset groups, discounted at the risk-free interest rate. In fiscal 2007 and 2009, Advantest did not incur impairment of long-lived assets.

Trade Receivables

Advantest's trade receivables, less allowance for doubtful accounts was ¥15,930 million as of March 31, 2010, as compared with ¥10,415 million as of March 31, 2009. Advantest maintains allowances for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. Advantest provides an allowance for doubtful accounts for all specific accounts receivable that it judges are probable of not being collected.

Advantest periodically reviews its estimated allowances for doubtful accounts taking into account the customer's payment history, assessing the customer's current financial position and considering other information that is publicly available and the customer's credit worthiness. Additional reviews are undertaken upon significant changes in the financial condition of Advantest's customers and the semiconductor industry. Increases in allowance for doubtful accounts are charged to selling, general and administrative expenses.

At the end of fiscal 2009, Advantest decreased its allowance for doubtful accounts to ¥246 million, a decrease of ¥339 million from fiscal 2008. A reversal of allowances made for accounts receivable that are later collected, depending upon the recovered financial status of its customers and

Edgar Filing: ADVANTEST CORP - Form 20-F

Advantest's collection efforts, will decrease the selling, general and administrative expenses for the accounting period during which such collection takes place. Conversely, additional allowances may be necessary in the future if conditions in the industries of some of Advantest's customers do not improve in the near-term.

Table of Contents

Accrued Warranty Expenses

Advantest's products are generally subject to a product warranty. In addition, under certain circumstances, Advantest is responsible for the repair of defective components and parts. Advantest provides an allowance for estimated product warranty expenses when product revenue is recognized as part of its selling, general and administrative expenses. The allowance for estimated product warranty expenses represents management's best estimate at the time of sale of the total costs that Advantest will incur to repair or replace components or parts that fail while still under warranty. Advantest records its allowance for estimated product warranty expenses based on the historical ratio of actual repair expenses to corresponding sales, and any facts and circumstances that occurred. The foregoing evaluations are inherently uncertain as they require estimates as to maintenance costs and failure rates related to different product lines. Consequently, actual warranty costs may differ from the estimated amounts and could result in additional product warranty expenses. If actual warranty costs significantly exceed the amount of Advantest's allowance for product warranty expenses, it would negatively affect the future results of operations of Advantest. Accrued warranty expenses were ¥2,802 million at March 31, 2010, a decrease of ¥9 million from ¥2,811 million at March 31, 2009.

Stock-Based Compensation

Advantest applies the fair-valued-based method of accounting for stock-based compensation and recognizes stock-based compensation expense in the consolidated statements of operations. The cost of employee services received in exchange for an award of equity instrument is measured based on the grant-date fair value of the stock options granted to employees. The cost is recognized on a straight line basis over the period during which an employee is required to provide service in exchange for the award. The Black Scholes pricing model is used to estimate the value of the stock options.

Expected dividend yield is determined by the Company's dividend ratio of the past and other associated factors. Risk free interest rate is determined by Japanese government bond yield for the period corresponding to expected life. Expected volatility is determined by historical volatility and trend of the Company's share prices, and other associated factors. Expected life is determined by the Company's option exercise history, post vesting employment termination behavior for similar grants, and other pertinent factors.

Advantest has recorded ¥858 million, ¥248 million and ¥143 million as stock-based compensation expense in fiscal 2007, 2008 and 2009, respectively.

Accrued Pension and Severance Cost

The Company and certain of its subsidiaries have unfunded retirement and severance plans (point-based benefits system). Under a point-based benefits system, the benefits are calculated based on accumulated points allocated to employees each year according to their job classification and their performance.

The Company and certain of its subsidiaries also have a defined benefit corporate pension plan covering substantially all employees. Under the cash balance pension plan, the benefits are calculated based on accumulated points allocated to employees each year according to their job classification and their performance with a certain interest rate calculated based on the upper and lower limit of a market interest rate.

Edgar Filing: ADVANTEST CORP - Form 20-F

The retirement benefit costs are estimated from actuarial valuations. Inherent in these valuations are key assumptions in estimating pension costs including mortality, withdrawal, retirement, changes in compensation, discount rate and expected return on plan assets. Advantest is required to estimate the key assumptions by taking into account various factors including personnel demographics, current market conditions and expected trends in interest rates. Advantest determines the discount rate by looking to available information about rates implicit in return on high-quality fixed-income governmental and corporate bonds. Accordingly, the discount rate is likely to change from period to period based on these ratings. A decrease in the discount rate results in an increase in actuarial pension benefit obligations. Increases and decreases in the pension benefit obligation affect the amount

Table of Contents

of the actuarial gain or loss which is amortized into income over the service lives of employees. Changes in the key assumptions may have a material effect on Advantest's financial position and results of operations. Management believes that estimation of the key assumptions is reasonable under the various underlying factors.

Advantest has recorded ¥1,216 million, ¥1,987 million and ¥2,158 million as benefit cost in fiscal 2007, 2008 and 2009, respectively.

During the fourth quarter of fiscal 2008, as part of cost reduction measures under the rapidly deteriorated business environment, Advantest offered its employees an early retirement program under which special lump-sum termination benefits were provided to employees who applied. Advantest recognized a liability and an expense when employees accepted the offer and the amount was reasonably estimated. All of the employees who applied for the program terminated their employment prior to March 31, 2009, and were paid out in April 2009. Advantest recorded a voluntary termination benefit of ¥5,064 million for the program. The termination benefit is included in restructuring and impairment charges in the accompanying consolidated statements of operations.

Deferred Tax Assets

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon projections for future taxable income over the periods in which the deferred tax assets are deductible including management's expectations of future semiconductor market and semiconductor and component test systems market prospects and other factors, management believes it is more likely than not that Advantest will realize the benefits of these deductible differences, net of valuation allowance. The net (decreases) increases in valuation allowance were ¥0, ¥48,015 million and ¥3,274 million for fiscal years 2007, 2008 and 2009, respectively.

At March 31, 2009, Advantest recorded on its consolidated balance sheet, deferred tax assets of ¥49,592 million of which ¥18,169 million represents net operating losses, or NOL, carryforwards available to offset future taxable income. Advantest also established a valuation allowance of ¥48,015 for deferred tax assets were not considered to be realizable based upon projections for future taxable income. As a result, net deferred tax assets were ¥1,577 million. At March 31, 2010, Advantest has recorded on its consolidated balance sheet, deferred tax assets of ¥52,922 million of which ¥27,231 million represents NOL. Advantest has also recorded a valuation allowance of ¥51,289 million, as a result, net deferred tax assets were ¥1,633 million. Net operating loss carryforwards utilized were ¥1,046 million, ¥0 and ¥2,421 million in fiscal years 2007, 2008 and 2009, respectively.

The amount of the deferred tax assets were considered realizable, however, could be changed in the near term if estimates of future taxable income are revised and such effect on the company's consolidated financial position and results of operations could be significant.

Income Taxes

Advantest recognizes the financial statement effects of tax positions when they are more likely than not, based on technical merits, that the tax positions will be sustained upon examination by the tax authorities. Benefits from tax positions that meet the more-likely-than-not recognition threshold are measured at the largest amount of benefit that is greater than 50 percent likelihood of being realized upon settlement. Advantest

recognizes interest and penalty accruals related to unrecognized tax benefits in income taxes in the consolidated statements of operations.

Table of Contents

Fair Value

Investment securities

The fair value of available-for-sale equity securities is based on quoted market prices at the reporting date for those investments. The fair value of available-for-sale debt securities is based on unobservable inputs as the market for the assets was not active at the measurement date.

Plan assets

Plan assets are comprised principally of listed equity securities, pooled funds, hedge funds and investments in life insurance company's general accounts. Listed equity securities is based on quoted market prices on the reporting date for those investments. Pooled funds and hedge funds are valued at their net asset values which are calculated by the sponsors of the funds. Investments in life insurance company's general accounts are valued at conversion value.

Results of Operations Fiscal 2009 Compared with Fiscal 2008

Net Sales

Advantest's net sales decreased by ¥23,427 million, or 30.6%, compared with fiscal 2008, to ¥53,225 million in fiscal 2009. This decrease was primarily due to the global downturn sharply restricted capital expenditures by semiconductor manufactures in the semiconductor industry and a drop in orders seen in late fiscal 2008. The estimated effect of changes in exchange rates during fiscal 2009 was to decrease Advantest's net sales by ¥2,556 million.

The following is a discussion of net sales for Advantest's Semiconductor and Component Test System, Mechatronics System and Services, Support and Others Segments. Net sales amounts discussed include intercompany sales between segments.

Semiconductor and Component Test System Segment

In fiscal 2009, net sales of Advantest's Semiconductor and Component Test System Segment accounted for 61.2% of total net sales. Net sales of Advantest's Semiconductor and Component Test System Segment decreased by ¥16,644 million, or 33.8%, compared with fiscal 2008, to ¥32,572 million in fiscal 2009. The estimated effect of changes in exchange rates during fiscal 2009 was to decrease Advantest's net sales in its Semiconductor and Component Test System Segment by ¥1,399 million.

Edgar Filing: ADVANTEST CORP - Form 20-F

Net sales of test systems for memory semiconductors in fiscal 2009 decreased by ¥5,200 million, or 29.5%, compared with fiscal 2008 to ¥12,444 million. This decrease was mainly due to lower than expected demand for Advantest's DRAM semiconductor test systems especially for the T5300 series front-end test systems, reflecting lower capital expenditures by semiconductor manufacturers.

Net sales of test systems for non memory semiconductors in fiscal 2009 decreased by ¥11,444 million, or 36.2%, compared with fiscal 2008 to ¥20,128 million. This decrease was mainly due to weak sales of T2000 series test systems for SoC semiconductors.

Mechatronics System Segment

Net sales of the Mechatronics System Segment including test handlers and device interfaces decreased by ¥3,151 million, or 21.9%, compared to fiscal 2008 to ¥11,237 million in fiscal 2009.

The weak results for test systems for memory and non memory semiconductors also weakened demand for test handlers and device interface products, which are used together with semiconductor and component test

Table of Contents

systems. In particular, the downturn in the DRAM market led to a significant decline in demand for back-end test handlers. Furthermore, low nano-technology sales also contributed to decrease in net sales of the Mechatronics System Segment.

Services, Support and Other Segment

Net sales of the Services, Support and Other Segment decreased by ¥3,977 million, or 25.1%, compared with fiscal 2008 to ¥11,838 million in fiscal 2009, mainly due to a decline in demand for maintenance services reflecting the weak performance of the semiconductor market. The main businesses in the Services, Support and Others Segment for fiscal 2009 were maintenance services and leasing and rentals.

Geographic Markets

Advantest experienced a decrease of 30.6% in its net sales in fiscal 2009, which was mostly effected by decline in sales, in Japan and the Americas.

Net sales in Japan significant decreased by ¥12,758 million, or 51.6%, compared with fiscal 2008 to ¥11,976 million in fiscal 2009. This decrease was primarily due to weak sales of test systems for non memory semiconductors used for digital consumer device integrated circuits, effected by the decrease in capital expenditure by semiconductor manufacturers in light of the increasing uncertainty pertaining to demand for end products stemming from further slowdown of the economy.

Net sales in the Americas decreased by ¥6,829 million, or 58.1%, compared with fiscal 2008 to ¥4,930 million in fiscal 2009. This decrease was primarily due to restraint in capital expenditure by major semiconductor manufacturers for T2000 modules. The estimated effect of changes in exchange rates during fiscal 2009 was to decrease Advantest's net sales in the Americas by approximately ¥487 million.

Net sales in Europe decreased by ¥707 million, or 24.9%, compared to fiscal 2008 to ¥2,137 million in fiscal 2009 mainly due to low demand of test systems for semiconductors. The estimated effect of changes in exchange rates during fiscal 2009 was to decrease Advantest's net sales in Europe by approximately ¥205 million.

Net sales in Asia (excluding Japan) decreased by ¥3,133 million, or 8.4%, compared with fiscal 2008 to ¥34,182 million in fiscal 2009. Net sales in Korea decreased by ¥3,740 million, or 26.6% compared with fiscal 2008. This decrease was primarily due to restraint in capital expenditures by semiconductor manufacturers resulting from the slowing economy. Net sales in China and the rest of Asia (excluding Japan, Taiwan and Korea) decreased by ¥1,958 million, or 15.1%, compared with fiscal 2008. This decrease resulted from lower sales of test systems for semiconductors. On the other hand, net sales in Taiwan in fiscal 2009 increased by ¥2,565 million, or 25.0%, compared with fiscal 2008, reflecting a relatively rapid recovery of demand for test systems for semiconductors compared to other regions. The estimated effect of changes in exchange rates during fiscal 2009 was to decrease Advantest's net sales in Asia by approximately ¥1,847 million.

Advantest's overseas sales as a percentage of total sales was 77.5% for fiscal 2009, compared with 67.7% for fiscal 2008.

Operating Expenses

In fiscal 2009, Advantest's operating expenses decreased by ¥61,245 million, or 48.6%, compared with fiscal 2008 to ¥64,864 million.

In fiscal 2009, cost of sales decreased by ¥29,540 million, or 52.0%, compared to fiscal 2008 to ¥27,297 million. This decrease was attributed to a ¥23,427 million decrease in net sales and an one-time expenses relating to the structural reform in the amount of ¥13,857 million, including inventory write-down of ¥8,715 million and impairment loss on long-lived assets of ¥5,142.

Table of Contents

In fiscal 2009, research and development expenses decreased by ¥5,817 million, or 24.5%, compared to fiscal 2008 to ¥17,896 million. This decrease in research and development expenses reflects focusing on certain research and development projects as well as the decrease in personnel expenses achieved through voluntary retirement, non-renewal of contracts for temporary employees, and reduction of bonuses, along with the impairment loss on long-lived assets in fiscal 2008 resulting in the decline in depreciation for fiscal 2009.

In fiscal 2009, selling, general and administrative expenses decreased by ¥12,100 million, or 38.1%, compared to fiscal 2008 to ¥19,671 million. This decrease primarily reflect the effects of the decrease in personnel expenses achieved through voluntary retirement, non-renewal of contracts for temporary employees, and reduction of bonuses.

In fiscal 2008, Advantest recorded a one-time expense for restructuring and impairment loss in an amount of ¥13,788 million. This amount was comprised of restructuring and impairment loss on long-lived assets of ¥8,724 million and costs related to the early retirement program amounting to ¥5,064 million.

Operating Income

In fiscal 2009, operating income improved by ¥37,818 million, compared to fiscal 2008, to a loss of ¥11,639 million.

Other Income and Expenses

In fiscal 2009, interest and dividend income decreased by ¥1,578 million, or 73.2%, compared with fiscal 2008 to ¥579 million. This decrease reflects the decrease in interest income caused primarily by a decrease of cash and cash equivalents and a decline of interest rates.

In fiscal 2009, interest expenses decreased by ¥7 million, or 63.6%, compared with fiscal 2008 to ¥4 million.

In fiscal 2009, impairment loss on investment securities decreased by ¥3,194 million compared with fiscal 2008 to ¥316 million reflecting the recovery of stock prices.

In fiscal 2009, other non-operating income improved by ¥3,394 million, compared with fiscal 2008, to an income of ¥1,454 million. This improvement was primarily due to an increase in the effects of foreign currency exchange by ¥3,368 million compared with fiscal 2008 to ¥1,072 million in fiscal 2009. Currency exchange profits/losses represent the difference between the value of foreign currency-denominated sales, translated at prevailing exchange rates, and either (i) the value of sales amounts settled during the fiscal year, including those settled using foreign exchange forward contracts, or (ii) the value of cash and cash equivalents, accounts receivable and payables outstanding remeasured at the exchange rate in effect at March 31, 2010.

Income Taxes

In fiscal 2009, Advantest's effective tax rate was negative 14.7%, as the Company did not record tax benefits on pretax losses; the tax rate for fiscal 2008 was negative 41.7%. The statutory tax rate of the Company and its domestic consolidated subsidiaries was 40.5% for fiscal 2009. The difference between the statutory tax rate of 40.5% in fiscal 2009 and the effective tax rate of negative 14.7% in fiscal 2009 was mainly due to the effects of the valuation allowance for deferred tax assets. For a more detailed discussion on income taxes of Advantest in fiscal 2009 and fiscal 2008, see note 12 to Advantest's consolidated financial statements.

Net Income

In fiscal 2009, Advantest's net income improved by ¥63,448 million, compared to fiscal 2008, to a loss of ¥11,454 million.

Table of Contents

Other Comprehensive Income (Loss)

In fiscal 2009, Advantest's other comprehensive income (loss), net of tax, improved by ¥6,700 million compared to fiscal 2008, to a loss of ¥272 million. This improvement was primarily due to a ¥6,501 million increase in pension liability adjustments from a loss of ¥4,935 million in fiscal 2008 to an income of ¥1,566 million. No tax effect was recognized on the pension liability adjustments recorded in the other comprehensive income (loss).

Results of Operations Fiscal 2008 Compared with Fiscal 2007

Net Sales

Advantest's net sales decreased by ¥106,115 million, or 58.1%, compared with fiscal 2007, to ¥76,652 million in fiscal 2008. This decrease was primarily due to the restraint in capital expenditures within the Semiconductor and Component Test System Segment resulting from the significant decline of prices of DRAM semiconductors and economic downturn of the global economy. The estimated effect of changes in exchange rates during fiscal 2008 was to decrease Advantest's net sales by ¥3,050 million.

The following is a discussion of net sales for Advantest's Semiconductor and Component Test System, Mechatronics System and Services, Support and Others Segments. Net sales amounts discussed include intercompany sales between segments.

Semiconductor and Component Test System Segment

In fiscal 2008, net sales of Advantest's Semiconductor and Component Test System Segment accounted for 64.2% of total net sales. Net sales of Advantest's Semiconductor and Component Test System Segment decreased by ¥82,392 million, or 62.6%, compared with fiscal 2007, to ¥49,216 million in fiscal 2008. The estimated effect of changes in exchange rates during fiscal 2008 was to decrease Advantest's net sales in its Semiconductor and Component Test System Segment by ¥1,944 million.

Net sales of test systems for memory semiconductors decreased by ¥75,252 million, or 81.0%, compared with fiscal 2007 to ¥17,644 million in fiscal 2008. This decrease was mainly due to lower than expected demand for Advantest's DRAM semiconductor test systems for super high-speed memory devices, the T5500 series test systems and for the front-end testing systems, T5300 series test systems, primarily due to lower capital expenditures by semiconductor manufacturers resulting from falling DRAM semiconductors prices. Test systems for flash memory semiconductors also suffered from weak sales, led by lower capital expenditures by semiconductor manufacturers resulting from a substantial decline of flash memory semiconductors prices.

Net sales of test systems for non memory semiconductors decreased by ¥7,140 million, or 18.4%, compared with fiscal 2007 to ¥31,572 million in fiscal 2008. This decrease was reflecting weak sales, primarily in Japan, Korea and Taiwan, of T6500 series test systems for SoC semiconductors and the T6300 series test systems for non memory semiconductors used for LCD driver integrated circuits, affected by price competition of digital consumer devices.

Mechatronics System Segment

Net sales of the Mechatronics System Segment including test handlers and device interfaces decreased by ¥20,556 million, or 58.8%, compared to fiscal 2007 to ¥14,388 million in fiscal 2008.

The weak results for test systems for memory and non memory semiconductors also weakened demand for test handlers and device interface products, which are used together with semiconductor and component test systems. In particular, the downturn in the DRAM market led to a significant decline in demand for back-end test handlers.

Table of Contents

Services, Support and Other Segment

Net sales of the Services, Support and Other Segment decreased by ¥3,529 million, or 18.2%, compared with fiscal 2007 to ¥15,815 million in fiscal 2008, mainly due to a decline in demand for maintenance services reflecting the weak performance of the semiconductor market. Main businesses in the Services, Support and Others Segment for fiscal 2008 were maintenance services and leases and rentals.

Geographic Markets

Advantest experienced a decrease of 58.1% in its net sales in fiscal 2008, which was greatly affected by decline in sales, especially in Taiwan, Japan and Korea.

Net sales in Japan decreased by ¥31,298 million, or 55.9%, compared with fiscal 2007 to ¥24,734 million in fiscal 2008. This decrease was primarily due to weak sales of test systems for non memory semiconductors used for digital consumer device integrated circuits, affected by the decrease in capital expenditure by semiconductor manufacturers in light of the increase in uncertainty pertaining to demands for end products stemming from further slowdown of the economy.

Net sales in the Americas increased by ¥2,143 million, or 22.3%, compared with fiscal 2007 to ¥11,759 million in fiscal 2008. This increase was primarily due to steady demand of major semiconductor manufacturers for T2000 modules. The estimated effect of changes in exchange rates during fiscal 2008 with the appreciation of the Japanese yen against the U.S. dollar was to decrease Advantest's net sales in the Americas by approximately ¥1,056 million.

Net sales in Europe decreased by ¥6,015 million, or 67.9%, compared to fiscal 2007 to ¥2,844 million in fiscal 2008 mainly due to the decrease in the sales of test systems for memory semiconductors. The estimated effect of changes in exchange rates during fiscal 2008 was to decrease Advantest's net sales in Europe by approximately ¥219 million.

Net sales in Asia (excluding Japan) decreased by ¥70,945 million, or 65.5%, compared with fiscal 2007 to ¥37,315 million in fiscal 2008. Net sales in Korea and Taiwan decreased by ¥21,893 million, or 60.9% and, by ¥45,882 million, or 81.8%, compared with fiscal 2007, respectively. This decrease was primarily due to restraint in capital expenditures by semiconductor manufacturers resulting from decline in prices of DRAM semiconductors. Net sales in China and the rest of Asia (excluding Japan, Taiwan and Korea) decreased by ¥3,170 million, or 19.6%, compared with fiscal 2007. This decrease resulted from lower sales of test systems for memory semiconductors in China. The estimated effect of changes in exchange rates during fiscal 2008 was to decrease Advantest's net sales in Asia by approximately ¥1,723 million.

Advantest's overseas sales as a percentage of total sales was 67.7% for fiscal 2008, compared with 69.3% for fiscal 2007.

Operating Expenses

Edgar Filing: ADVANTEST CORP - Form 20-F

In fiscal 2008, Advantest's operating expenses decreased by ¥33,942 million, or 21.2%, compared with fiscal 2007 to ¥126,109 million.

In fiscal 2008, cost of sales decreased by ¥32,000 million, or 36.0%, compared to fiscal 2007 to ¥56,837 million. This decrease was attributed to the decrease of ¥106,115 million in net sales, however, this has been partially offset by inventory write-down of ¥8,715 million and one-time expenses relating to the structural reform, such as impairment loss on long-lived assets of ¥5,142 million out of total impairment losses on long-lived assets and goodwill of ¥13,866 million. The deterioration of sales cost ratio resulted from lowered capacity utilization reflecting reductions in sales and changes in product mix.

Table of Contents

In fiscal 2008, research and development expenses decreased by ¥6,794 million, or 22.3%, compared to fiscal 2007 to ¥23,713 million. This decrease in research and development expenses reflects the narrowing down of research and development projects as well as the decrease in personnel expenses achieved through non-renewal of contracts for temporary employees.

In fiscal 2008, selling, general and administrative expenses decreased by ¥8,936 million, or 22.0%, compared to fiscal 2007 to ¥31,771 million. This decrease primarily reflects the effects of the decrease in personnel expenses achieved through non-renewal of contracts for temporary employees.

In fiscal 2008, Advantest recorded a one-time expense for restructuring and impairment loss in an amount of ¥13,788 million. This amount is comprised of restructuring and impairment loss on long-lived assets and goodwill of ¥8,724 million and costs related to the early retirement program amounting to ¥5,064 million.

Operating Income

In fiscal 2008, operating income decreased by ¥72,173 million, compared to fiscal 2007, to a loss of ¥49,457 million.

Other Income and Expenses

In fiscal 2008, interest and dividend income decreased by ¥1,642 million, or 43.2%, compared with fiscal 2007 to ¥2,157 million. This decrease reflected the decrease in interest income caused primarily by a decline in U.S. dollar interest rates.

In fiscal 2008, interest expenses decreased by ¥1 million, or 8.3% compared with fiscal 2007 to ¥11 million.

In fiscal 2008, impairment loss on investment securities increased by ¥2,179 million compared with fiscal 2007 to ¥3,510 million reflecting the decline in stock prices stemming from the financial crisis.

In fiscal 2008, other, net decreased by ¥301 million, compared with fiscal 2007, to a loss of ¥1,940 million. This decrease in non-operating income was primarily due to an increase in foreign currency exchange losses by ¥416 million compared with fiscal 2007 to ¥2,296 million in fiscal 2008, reflecting the sharp appreciation of the Japanese yen against the Euro. Currency exchange losses represent the difference between the value of foreign currency-denominated sales, translated at prevailing exchange rates, and either (i) the value of sales amounts settled during the year, including those settled using foreign exchange forward contracts, or (ii) the value of accounts receivable and payables outstanding remeasured at the exchange rate in effect at March 31, 2009.

Income Taxes

In fiscal 2008, Advantest's effective tax rate was negative 41.7%, as the Company did not record tax benefits on pretax losses while that tax rate for fiscal 2007 was 29.3%. The statutory tax rate of the Company and its domestic consolidated subsidiaries was 40.4% for fiscal 2008. The difference between the statutory tax rate of 40.4% in fiscal 2008 and the effective tax rate of negative 41.7% in fiscal 2008 was mainly due to the difference of applicable amount of valuation allowance for deferred tax assets and the availability of tax credits for research and experimental expenses. For a more detailed discussion on income taxes of Advantest in fiscal 2008 and fiscal 2007, see note 12 to Advantest's consolidated financial statements.

Net Income

In fiscal 2008, Advantest's net income decreased by ¥91,452 million, compared to fiscal 2007, to a loss of ¥74,902 million.

Table of Contents***Other Comprehensive Income (Loss)***

In fiscal 2008, Advantest's other comprehensive income (loss), net of tax increased by ¥4,295 million, compared to fiscal 2007, to a loss of ¥6,972 million. This increase was primarily due to a ¥5,052 million increase in foreign currency translation adjustment from a loss of ¥6,845 million in fiscal 2007 to a loss of ¥1,793 million in fiscal 2008, which was partially offset by a loss of ¥4,935 million in pension liability adjustments. No tax benefit was recorded on the loss of pension liability adjustments.

5.B. LIQUIDITY AND CAPITAL RESOURCES

Advantest's cash and cash equivalents balance decreased by ¥9,016 million in fiscal 2009 to ¥96,439 million as of March 31, 2010. As of March 31, 2010, approximately 72% of Advantest's cash and cash equivalents were held in Japanese yen.

Net cash used by operating activities was ¥17,746 million in fiscal 2009 mainly reflecting the recording of a net loss of ¥11,454 million resulting from a decrease of sales, increase in inventory of ¥6,942 million resulting from increase in orders received and sales in the second half of the fiscal 2009, and an increase in accounts receivable of ¥5,457 million. Net cash provided by operating activities decreased by ¥20,103 million in fiscal 2009 compared to ¥2,357 million in net cash provided by operating activities in fiscal 2008. The main reason for the decrease in fiscal 2009 was the increase in accounts receivable and an increase in inventory and a decrease in non-cash items such as expense for impairment loss, deferred tax and depreciation. The decrease, however, has been partially offset by the improvement in net loss by ¥63,448 million.

Net cash provided by investing activities was ¥10,824 million in fiscal 2009 mainly attributable to a decrease in short-term investments in the amount of ¥13,881 million. Net cash provided by investing activities in fiscal 2009 was a ¥43,331 million increase compared to net cash used in investing activities in the amount of ¥32,507 million in fiscal 2008. The main reason for the increase in fiscal 2009 was the ¥13,881 million decline in purchase of short-term investments in fiscal 2009 from the ¥26,210 million purchased in fiscal 2008.

Net cash used in financing activities was ¥1,803 million in fiscal 2009, mainly attributable to dividends paid in the amount of ¥1,796 million. Net cash used in financing activities in fiscal 2009 was a ¥7,127 million decrease compared to ¥8,930 million in fiscal 2008. The main reason for the decrease in fiscal 2009 was the dividends paid in the amount of ¥1,796 million in fiscal 2009 which was ¥8,924 million in fiscal 2008.

Net effect of exchange rate changes on cash and cash equivalents was unfavorable by ¥291 million in fiscal 2009, an improvement of ¥2,522 million compared to fiscal 2008.

Advantest has various retirement and severance plans for employees, including non-contributory defined benefit retirement and severance plans consisting primarily of the Employees Provident Fund (EPF) plan. As mentioned in Note 15 to the consolidated financial statements, in the balance sheet as of March 31, 2010, the amount of ¥13,765 million has been recognized as accrued severance and pension costs. Advantest has contributed to the EPF plan in accordance with the funding requirements of applicable Japanese governmental regulations. Although there is presently no immediate or significant near-term increase expected in cash funding requirements, Advantest's cash funding requirements would be affected by any changes in interest rates, rate of returns on plan assets and government regulations. The contributions paid by Advantest under the EPF were ¥1,791 million in fiscal 2008 and ¥689 million in fiscal 2009. And Advantest expects to contribute ¥1,644 million under the EPF in fiscal 2010.

Edgar Filing: ADVANTEST CORP - Form 20-F

Advantest's funding and treasury policy (including funding for capital expenditures), which is overseen and controlled by its Finance Department, has funded and is expected to continue to fund substantially all of its cash needs through cash from operating activities and cash and cash equivalents on hand. If conditions in the semiconductor industry, and thus the semiconductor and component test system industry, experience a downturn in the medium term, Advantest may need to fund future capital expenditures and other working capital needs through the incurrence of additional debt or dilutive issuances of equity securities.

Table of Contents

5.C. RESEARCH AND DEVELOPMENT, PATENTS AND LICENSES

Research and Development and Product Enhancement

In order to support technology on the leading-edge, Advantest undertakes research and development initiatives to develop products which play a central role in the area of measuring technologies to support electronics, information and communications, and semiconductor manufacturing. Advantest's research and development focuses on the development of new products and the improvement of existing products. In particular, in the Semiconductor and Component Test System Segment, a large and ongoing investment in research and development is necessary in order to maintain market competitiveness and to provide many types of products that meet the various needs of the customers. Advantest also conducts research of basic technologies. Advantest's expenditures for research and development were approximately ¥30.5 billion in fiscal 2007, ¥23.7 billion in fiscal 2008 and ¥17.9 billion in fiscal 2009. Advantest employs over 1,000 engineers and other personnel in its research and development division.

The contents and achievements to date of Advantest's current research and development activities include:

Basic Technology

development of constituent technologies in the field of terahertz;

development of constituent technologies, including high speed, energy-saving micro switches and high speed samplers used in semiconductor and component test systems and millimeter wave measuring instruments;

development of methods to detect timing jitters in high bit-rate signals; and

development of compound semiconductor devices, including less-distortion devices used for semiconductor and component test systems.

Semiconductor and Component Test System Segment

development of semiconductor and component test systems that enable testing of super high speed memory semiconductors at actual motion speed;

development of semiconductor and component test systems that enhance the functionality of testing of DRAM semiconductors and flash memory semiconductors and require less floor space;

development of semiconductor and component test systems that have the capacity to simultaneously test multiple complex SoC semiconductors with large pin counts and require less floor space;

Edgar Filing: ADVANTEST CORP - Form 20-F

development of semiconductor and component test systems with specialized applications;

development of measurement modules for devices that operate at extremely high frequencies and for networks that carry extremely high density transmissions;

development of high speed transmission technologies for high speed large pin counts and high speed transmission signal contact technologies; and

development of application software for interface between the semiconductor designing environment and semiconductor and component test systems, as well as development of software to analyze defective semiconductors.

Mechatronics System Segment

development of test handlers for memory semiconductors enabling measuring of multiple semiconductors for high throughput testing;

development of test handlers for SoC semiconductors that respond to diversified device types and packages; and

development of real Active Thermal Control technology with high speed response for high power devices.

Table of Contents

Advantest has four research and development facilities in Japan, two in the U.S. and two in the Europe.

Advantest promotes joint development efforts between its various research facilities to capitalize on the capabilities of its researchers worldwide. Advantest's research and development team for semiconductor and component test systems in Japan works closely with Advantest engineers in Santa Clara, California in the development of open architecture platforms.

Advantest has been carrying out research and development activities for its burn-in system, concentrating its development resources on Japan Engineering Co., Ltd, a subsidiary of Advantest.

Advantest is currently engaged in the research and development of electron-beam, or e-beam, lithography technology used to draw circuit patterns directly on semiconductor wafers, as well as the research and development of electron-beam length measuring systems used to measure the microscopic size of the circuit pattern of a photomask. Due to their throughput limitations, e-beam lithography systems are currently only used in the production of high value-added semiconductors with limited production volumes and semiconductor prototypes. Advantest believes that further research and development will be necessary in order to attain high precision technologies for the leading semiconductor design and manufacturing process, in addition to the development of technologies for throughput responding to the demand for next generation equipment.

For a description of Advantest's patents, licenses and other intellectual property, see [Information on the Company Business Overview Licenses and Intellectual Property Rights](#).

5.D. TREND INFORMATION

For a discussion of the trends that affect Advantest's business and financial condition and results of operations, see [Information on the Company Business Overview, Operating and Financial Review Operating Results and Operating and Financial Review and Liquidity and Capital Resources](#).

5.E. OFF-BALANCE SHEET ARRANGEMENTS

As of March 31, 2010, Advantest had no material off-balance sheet arrangements.

Advantest does not participate in transactions that derecognize assets or liabilities through unconsolidated entities, structured finance or special purpose entities that were created for the purpose of facilitating off-balance sheet arrangements or other limited purposes.

5.F. TABULAR DISCLOSURE OF CONTRACTUAL OBLIGATIONS

The following table reflects Advantest's current obligations and commitments to make future payments under contracts, contractual obligations and commercial commitments as of March 31, 2010.

Contractual Cash Obligation	Total	Payments due by Period			More than 5 years
		Less than 1 year	1-3 years (in millions)	3-5 years	
Long-Term Debt, including current portion	¥	¥	¥	¥	¥
Operating Leases	1,292	361	380	131	420
Contractual Obligations	103	103			
Total Contractual Cash Obligations	¥ 1,395	¥ 464	¥ 380	¥ 131	¥ 420

5.G. SAFE HARBOR

All information that is not historical in nature disclosed under Item 5. Operating and Financial Review and Prospects Off-Balance Sheet Arrangements and Tabular Disclosure of Contractual Obligations is deemed to be a forward-looking statement. See Cautionary Statement with Respect to Forward-Looking Statements.

Table of Contents**ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES****6.A. DIRECTORS AND SENIOR MANAGEMENT****Directors, Corporate Auditors and Executive Officers**

Directors, corporate auditors and executive officers of the Company as of June 24, 2010 and their respective business experience are listed below.

Name (Date of birth)	Position (Group executive/function)	Date of commencement	Business experience
Toshio Maruyama (April 17, 1948)	Chairman of the Board and Representative	4/1973	Joined Advantest Corporation
		6/1989	
	Director	6/1995	Director
		6/1999	Managing Director
			Senior Managing Director
			Senior Vice President, ATE Sales Group
		6/2001	Representative Director and President
		5/2003	Director, Environmental Management Center
		6/2003	Representative Director, President and COO
		5/2005	Director of Japan Electronics and Information Technology Industries Association (present position)
		6/2005	Representative Director, President and CEO
		5/2006	Director of the Association of Super-Advanced Electronics Technologies (present position)
		7/2008	SEMI Director (present position)
3/2009	Senior Vice President, New Concept Product Initiative		
4/2009	Director, CSR & Environmental Affairs Promotion Center		
6/2009	Chairman of the Board and Representative Director (present position)		
	7/2009	Director of Nippon Keidanren (present position)	
		Director of Semiconductor Equipment Association of Japan (present position)	
Haruo Matsuno (February 14, 1960)	Representative Director, President and CEO	4/1984	Joined Advantest Corporation
		6/2006	
			Senior Vice President, Procurement Group
		6/2007	Senior Vice President, Procurement & Logistics Group
		1/2008	Senior Vice President, Production Group
		6/2008	Executive Officer
		6/2009	Representative Director, President and CEO (present position)
			Director, CSR & Environmental Affairs Promotion Center (present position)
	6/2010	Senior Vice President, New Concept Product Initiative (present position)

Table of Contents

6.B. COMPENSATION

Executive Compensation

The aggregate amount of compensation of all of the Company's directors and corporate auditors was approximately ¥396 million during fiscal 2009. Of the foregoing, the aggregate amount of compensation for the Company's directors (outside corporate directors excluded) was ¥324 million (¥261 million in fixed compensation and ¥63 million in qualifying stock options), ¥38 million for the Company's auditors (outside corporate auditors excluded) (¥34 million in fixed compensation and ¥4 million in qualifying stock options) and ¥34 million for outside corporate directors and auditors (¥25 million in fixed compensation and ¥9 million in qualifying stock options). Compensation for directors and corporate auditors must be authorized by resolutions of the general meetings of shareholders. For a description of the Company's equity-based compensation plans, see Share Ownership.

The amounts of compensation for directors and corporate auditors set forth above include compensation paid in relation to stock options and fixed compensation paid to two directors who retired from their respective positions as of the closing of the 67th ordinary general meeting of shareholders, which was held on June 25, 2009.

6.C. BOARD PRACTICES

Directors

The Board of Directors has the ultimate responsibility for the administration of the affairs of the Company. The Company's articles of incorporation limit the number of directors to ten. Directors are elected at a general meeting of shareholders, and the standard term of directors is one year. Directors may serve any number of consecutive terms. The Board of Directors elects one or more representative directors from among its members, each of whom has the authority individually to represent the Company. From among its members, the Board of Directors may elect the chairman and the vice chairman. None of the directors of the Company has a service contract with the Company that provides for benefits upon termination of service.

Pursuant to the Company Law of Japan (hereinafter in Item 6.C., Company Law) and the Company's articles of incorporation, and to the extent permitted by the laws and regulations, the Company may, by resolution of the Board of Directors, exempt liabilities of its directors (including persons who have previously served as the Company's directors) for failing to perform their duties. The Company may enter into contracts with outside directors to limit their liabilities for a failure to perform their duties, provided that the maximum amount of liabilities under such contracts shall be the total of the amounts provided in each item of Article 425, Paragraph 1 of the Company Law.

Corporate Auditors

The Company's articles of incorporation provide for no more than five corporate auditors and the Company currently has two Standing Corporate Auditors and two outside corporate auditors. Corporate auditors are elected at the general meeting of shareholders and the standard term of office of corporate auditors is four years. Under the Company Law, at least half of the corporate auditors are required to be persons who have not been a director, accounting counselor (if an accounting counselor is a corporation, an employee of such corporation who executes its duties), executive officer, manager, or employee of the Company or any of its subsidiaries at any time in the past. Corporate auditors may not at the

Edgar Filing: ADVANTEST CORP - Form 20-F

same time be directors, accounting counselors (if an accounting counselor is a corporation, an employee who executes its duties), executive officers, managers, or employees of the Company or any of its subsidiaries. The Company increased the number of required outside corporate auditors from one to two at the general meetings of shareholders held in June 2003 in order to strengthen the auditing function of the board of corporate auditors. Corporate auditors are under a statutory duty to oversee the administration of the Company's affairs by its directors, to audit its financial statements to be submitted by its Board of Directors to the general meetings of the shareholders and to report their opinions thereon. They are also required to attend the meetings of the Board of Directors and to express their opinions, but are not entitled to vote.

Table of Contents

Corporate auditors constitute the board of corporate auditors. The board of corporate auditors has a statutory duty to prepare and submit an audit report to the directors each year. A corporate auditor may note his or her opinion in the audit report if his or her opinion is different from the opinion expressed in the audit report. The board of corporate auditors is empowered to establish audit policy, methods to investigate the state of business operations and assets and other matters relating to the execution of duties by corporate auditors.

Pursuant to the Company Law and the Company's articles of incorporation, and to the extent permitted by the laws and regulations, the Company may, by resolution of the Board of Directors, exempt liabilities of its corporate auditors (including persons who have previously served as the Company's corporate auditors) for failing to perform their duties. The Company may enter into contracts with outside corporate auditors to limit their liabilities for a failure to perform their duties, provided that the maximum amount of liabilities under such contracts shall be the total of the amounts provided in each item of Article 425, Paragraph 1 of the Company Law.

6.D. EMPLOYEES

Set forth below is a table listing the total number of full-time employees and a breakdown of persons employed by main category of activity and by geographic location, as of March 31, 2008, March 31, 2009 and March 31, 2010.

	As of March 31,		
	2008	2009	2010
Full-Time Employees	3,666	3,187	3,151
By Category of Activity:			
Administrative	394	343	358
Sales	285	249	246
Customer Support	885	786	731
Manufacturing	832	578	579
Research and Development	1,144	1,120	1,139
Other	126	111	98
By Geographic Location:			
Japan	2,898	2,413	2,413
Asia (excluding Japan)	463	410	400
Americas	205	179	173
Europe	100	185	165

Most regular employees of the Company and its subsidiaries in Japan are members of one of the five labor unions. None of Advantest's overseas employees is a member of a union. Advantest considers its labor relations with all of its workers to be good.

During the fiscal year ended March 31, 2008, 2009 and 2010, Advantest had an annual average of 909, 565 and 217 temporary employees, respectively.

Table of Contents**6.E. SHARE OWNERSHIP**

The following table sets forth the beneficial ownership of shares of common stock of the Company as of March 31, 2010 of each of the Company's directors, corporate auditors and executive officers as of March 31, 2010.

Name of Record/Beneficial Owner	Number of Shares
Toshio Maruyama	158,324
Haruo Matsuno	53,957
Naoyuki Akikusa	25,396
Yasushige Hagio	25,880
Takashi Tokuno	106,501
Hiroshi Tsukahara	90,918
Yuichi Kurita	81,644
Hiroyasu Sawai	91,293
Shinichiro Kuroe	67,002
Hitoshi Owada	57,244
Yuri Morita	65,857
Megumi Yamamuro	21,353
Jiro Haneda	13,000
Yoshiro Yagi	79,980
Hiroshi Nakamura	68,088
Yoshiaki Yoshida	64,557
Masao Shimizu	60,000
Hideaki Imada	63,284
Yasuhiro Kawata	60,600
Takashi Sugiura	73,892
Takashi Sekino	62,510
Sae Bum Myung	31,000
Soichi Tsukakoshi	31,582
Josef Schraetzenstaller	54,000
R. Keith Lee	54,000

Each of the persons listed above owns less than one percent of the issued and outstanding shares of common stock of the Company.

The number of shares owned by the Company's directors, corporate auditors and executive officers include options that are currently exercisable for 1,475,000 shares of the Company's common stock. For a description of these options, see "Stock Option Plan" below. The number of shares of common stock owned by the Company's directors, corporate auditors and executive officers reflects the number of shares that are owned through the director and corporate auditor stock ownership association and allocated to an individual director, corporate auditor or executive officer. For a description of this association, see "Stock Ownership Associations." For a description of the unit share system, see "Additional Information - The Unit Share System."

Table of Contents**Stock Option Plan**

At the general ordinary meetings of shareholders or meeting of Board of Directors held in June 2006, June 2007, June 2008, June 2009 and June 2010, the shareholders or the Board Directors of the Company approved stock option plans for selected directors, corporate auditors, executive officers and employees of Advantest. The shareholders of the Company also approved the compensation amount of stock acquisition rights to be granted as stock options to directors and corporate auditors of the Company. The following table shows selected information related to these stock options. On October 1, 2006, the Company conducted a two for one stock split of shares of its common stock. The numbers of shares and exercise price have been restated to reflect the effects of the stock split.

	Thirteenth series	Fourteenth series	Fifteenth series
Date of grant	July 12, 2006	July 12, 2006	December 1, 2006

Table of Contents

Employee Stock Purchase Program

Since August 1, 2002, eligible employees of Advantest America Corporation and its U.S. subsidiaries are able to participate in an employee stock purchase program. Under the program, each eligible employee may authorize payroll deductions of up to 15% of their base salary toward the purchase of ADRs representing shares of common stock of the Company. In addition, the Company will make an additional contribution equal to 15% of each eligible employee's payroll deductions toward the purchase of the ADRs.

Stock Ownership Associations

The Company's director and corporate auditor stock ownership association is a partnership formed by the current and former directors, executive officers and corporate auditors of the Company for the purpose of acquiring the Company's shares of common stock. Only current directors, executive officers and corporate auditors and company advisors that formerly were directors or corporate auditors of the Company may join the director and corporate auditor stock ownership association. The Company established its director and corporate auditor stock ownership association in 1983. Any member of the association may request that record ownership of the stock held by that member be transferred, in lots of a single unit, to that member. As of March 31, 2010, 28 current and former directors, executive officers, corporate auditors and company advisors were members of the director, executive officer and corporate auditor stock ownership association, and the association held 11,516 shares of the Company's common stock. The Company also has an employee stock ownership association for other employees in Japan. As of March 31, 2010, the association had 560 members and held 310,116 shares of the Company's common stock.

ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS

7.A. MAJOR SHAREHOLDERS

As of March 31, 2010, 178,721,592 shares of the Company's common stock were outstanding. Beneficial ownership of the Company's common stock in the table below was prepared from publicly available records of the filings made by the Company's shareholders regarding their ownership of the Company's common stock under the Financial Instruments and Exchange Law of Japan.

Under the Financial Instruments and Exchange Law of Japan, any person who becomes, beneficially and solely or jointly, a holder, including, but not limited to, a deemed holder who manages shares for another holder pursuant to a discretionary investment agreement, of more than 5% of the shares with voting rights of a company listed on a Japanese stock exchange (including ADSs representing such shares) must file a report concerning the shareholding with the Director of the relevant local finance bureau. A similar report must be filed, with certain exceptions, if the percentage of shares held by a holder, solely or jointly, of more than 5% of the total issued shares of a company increases or decreases by 1% or more, or if any change to a material matter set forth in any previously filed reports occurs.

On October 1, 2006, the Company conducted a two for one stock split of shares of its common stock. The number of shares in the table below has been restated to reflect the effects of the stock split.

Based on publicly available information, the following table sets forth the beneficial ownership of holders of more than 5% of the Company's common stock as of the dates indicated in the reports described below.

Edgar Filing: ADVANTEST CORP - Form 20-F

Name of Beneficial Owner	Number of Shares	Percentage of Outstanding Shares
Fujitsu Limited	20,142,792	10.09%
The Bank of Tokyo-Mitsubishi UFJ, Ltd., and its related entities	13,690,220	6.86%

The number of shares owned by Fujitsu Limited is based on a report filed under the Securities and Exchange Law of Japan stating that Fujitsu held or was deemed to hold beneficially, as of February 23, 2005,

Table of Contents

20,142,792 shares of the Company's common stock. This figure includes 20,142,600 shares of the Company's common stock held by the trustee of a retirement benefit plan of Fujitsu. Fujitsu retained beneficial ownership of these 20,142,600 shares of common stock.

The number of shares owned by The Bank of Tokyo-Mitsubishi UFJ, Ltd. and its related entities is based on reports filed under the Financial Instruments and Exchange Law of Japan stating that The Bank of Tokyo-Mitsubishi UFJ, Ltd. and its related entities held or were deemed to hold beneficially, as of May 10, 2010, 13,690,220 shares of the Company's common stock.

Based on information made publicly available on or after April 1, 2007, the following table describes transactions resulting in a 1% or more change in the percentage ownership held by major beneficial owners of the Company's common stock.

Name of Shareholder	Date of Transaction	Shares Owned Prior to Transaction	Percentage	Number of Shares Changed	Shares Owned After the Transaction	Percentage

Edgar Filing: ADVANTEST CORP - Form 20-F

As of March 31, 2010, the Company had 178,721,592 outstanding shares of common stock. According to JPMorgan Chase Bank, depositary for the Company's ADSs, as of March 31, 2010, 1,901,143 shares of the Company common stock were held in the form of ADRs and there were two ADR holders of record in the U.S. According to the Company's register of shareholders, as of March 31, 2010, there were 48,489 holders of

Table of Contents

common stock of record worldwide. As of March 31, 2010, there were 101 record holders of the Company's common stock with addresses in the U.S., whose shareholdings represented 12.5% of the outstanding common stock on that date. Because some of these shares were held by brokers or other nominees, the number of record holders with addresses in the U.S. might not fully show the number of beneficial owners in the U.S.

None of the Company's shares of common stock entitles the holder to any preferential voting rights.

Advantest knows of no arrangements the operation of which may at a later time result in a change of control.

7.B. RELATED PARTY TRANSACTIONS

Business Relationships

Advantest sells products to and purchases parts from Fujitsu Limited, which owns approximately 11% of the voting rights of Advantest, and its subsidiaries. Advantest sells products to Fujitsu and its subsidiaries in arm's-length transactions. Advantest purchases parts from Fujitsu and its subsidiaries after receiving competitive bids from several suppliers. Advantest derived net sales of ¥2,085 million in fiscal 2009 from the sale of products to Fujitsu and its subsidiaries. Advantest purchased parts from Fujitsu and its subsidiaries in the amount of ¥4,065 million in fiscal 2009. Advantest had receivables from Fujitsu and its subsidiaries in the amount of ¥826 million as of March 31, 2010. Advantest had payables to Fujitsu and its subsidiaries in the aggregate amount of ¥2,372 million as of March 31, 2010. Advantest expects to continue to engage in arm's-length transactions with Fujitsu and its subsidiaries in the future.

Mr. Akikusa, a Director of the Company since 2006, currently serves as a Senior Executive Advisor of Fujitsu Limited. Mr. Yamamuro, a Corporate Auditor of the Company since 2006, currently serves as a corporate auditor of Fujitsu Limited.

Loans

As of March 31, 2010, the Company has no outstanding loans to its directors and executive officers.

10.B. MEMORANDUM AND ARTICLES OF ASSOCIATION

Set forth below is information relating to the Company's common stock, including brief summaries of the relevant provisions of the Company's articles of incorporation and share handling regulations and of the Company Law of Japan (the Company Law, hereinafter in Item 10.B. the same) and related legislation, all as currently in effect.

General

The Company's authorized number of shares to be issued is 440,000,000 shares. The number of the Company's issued share capital as of March 31, 2010, including treasury shares, was 199,566,770. All of the issued shares are fully paid and non-assessable.

Edgar Filing: ADVANTEST CORP - Form 20-F

The Company's share registration agent is Tokyo Securities Transfer Agent Co., Ltd., located at 6-2, Otemachi 2-chome, Chiyoda-ku, Tokyo 100-0004, Japan. The shares have no par value.

The registered holder of deposited shares underlying the ADSs is the depository for the ADSs. Accordingly, holders of ADSs will not be able to directly assert their shareholders' rights against the Company.

In January 2009, the share certificates of all Japanese companies listed on stock exchanges in Japan, including the common stock of the Company, were delisted and became subject to a new book-entry transfer system. Under the new system, the Company's shares are administered by being recorded in a shareholder's transfer account book at the Japan Securities Depository Center, Inc. (JASDEC), which is a book-entry transfer institution, or at securities firms, banks and other account management institutions. JASDEC will provide the Company with information pertaining to the Company's shareholders that it has collated from each of the relevant account management institutions as of March 31 and September 30, or at such time as the Company makes a request for information pertaining to its shareholders based on justifiable grounds. The Company will record or register such information received from JASDEC on its register of shareholders.

Shareholders wishing to assert the minority rights and other rights set forth in Article 147, Paragraph 4 of the Law on Book-Entry Transfer of Corporate Bonds, Stock and Other Securities must submit an individual

Table of Contents

shareholder notice to the account management institution at which such shareholder has opened a transfer account. The account management institution will promptly inform JASDEC of such individual shareholder notice and JASDEC will, in turn, provide information pertaining to the shareholder (the individual shareholder notice) to Advantest through its share registration agent.

In order for a transfer of shares to become effective, the amount of shares transferred must be recorded on the transfer account books. Moreover, the Company requires that a transfer of shares must be recorded in its shareholders' register in order for such transfer to be perfected.

Objects and Purposes

Article 2 of the Company's articles of incorporation states that its objective is to engage in the following business activities:

the manufacture and sale of electric, electronic and physicochemical appliances and their applied equipment;

the manufacture and sale of appliances, equipment and software related to any of the foregoing items;

the lease and rental of equipment, appliances and other products incidental to each of the foregoing items;

the temporary personnel service business; and

any and all businesses incidental to any of the foregoing items.

Dividends

Dividends General

Under its articles of incorporation, the Company's fiscal year closes on March 31 of each year, and year-end dividends, if any, are paid to shareholders (or registered pledgees thereof) of record at that date.

Under the Company Law, subject to certain limitation on the distributable surplus, dividends, if any, may be paid to shareholders and pledgees of shares of record as of a record date as set forth by the Company's articles of incorporation or as determined by the Board of Directors from time to time. Dividends shall be paid by way of distribution of surplus. Dividends may be distributed in cash, or in kind subject to certain conditions being met. The Company may make distribution of dividends by a resolution of a general meeting of shareholders or by a resolution of the Board of Directors.

Dividends Interim cash dividends

In addition to year-end cash dividends, pursuant to Article 459, Paragraph 1, Item 4 of the Company Law, the Board of Directors may by resolution declare, an interim cash surplus dividend to shareholders, and pledges of record at September 30 of each year.

Dividends Legal reserve

When a stock company like the Company makes distribution of surplus, it shall set aside in its legal reserve or additional paid-in capital an amount equal to 10 percent of the amount of the surplus to be decreased as a result of such distribution of surplus in accordance with the provisions set forth in an ordinance of the Ministry of Justice.

Dividends Distributable amount

Under the Company Law, the Company is permitted to make distribution of surplus to the extent that the aggregate book value of the assets to be distributed to shareholders does not exceed the Distributable Amount (as defined below) as at the effective date of such distribution of surplus.

Table of Contents

The amount of surplus at any given time shall be the amount of the Company's assets and the book value of the Company's treasury stock after subtracting the amounts of the following items (1) through (4) as they appear on the Company's non-consolidated balance sheet as at the end of the Company's last fiscal year, and after reflecting the changes in the Company's surplus after the end of the Company's last fiscal year, by adding the amounts of the following items (5), (6) and (7) and/or subtracting the amounts of the following items (8), (9) and (10):

- (1) its liabilities;
- (2) its stated capital;
- (3) its additional paid-in capital and legal reserve;
- (4) other amounts as provided for by an ordinance of the Ministry of Justice;
- (5) (if the Company transferred its treasury stock after the end of the last fiscal year) the amount of the transfer price of its treasury stock after subtracting the book value thereof;
- (6) (if the Company decreased its stated capital after the end of the last fiscal year) the amount of decrease in its stated capital (excluding the amount transferred to the additional paid-in capital or legal reserve);
- (7) (if the Company decreased its additional paid-in capital or legal reserve after the end of the last fiscal year) the amount of decrease in its additional paid-in capital or legal reserve (excluding the amount transferred to the stated capital);
- (8) (if the Company cancelled its treasury stock after the end of the last fiscal year) the book value of its treasury stock so cancelled;
- (9) (if the Company distributed surplus to shareholders after the end of the last fiscal year) the amount of the assets distributed to shareholders by way of such distribution of surplus; and
- (10) other amounts as provided for by an ordinance of the Ministry of Justice including (if the Company reduced the surplus and increased its stated capital, additional paid-in capital or legal reserve after the end of the last business year) the amount of such reduction and (if the Company has distributed the surplus to the shareholders after the end of the last fiscal year) the amount set aside in additional paid-in capital or legal reserve (if any) as required by the ordinances of the Ministry of Justice.

The Distributable Amount of the Company at any given time shall be the aggregate amount of (a) the surplus and (b) the amount of the transfer price of its treasury stock in the same period, after subtracting the amounts of the following items:

- (1) the book value of its treasury stock;
- (2) (if the Company transferred its treasury stock after the end of the last fiscal year) the amount of the transfer price of its treasury stock; and

Edgar Filing: ADVANTEST CORP - Form 20-F

- (3) other amounts as provided for by an ordinance of the Ministry of Justice including (if the sum of one-half of goodwill and the deferred assets exceeds the total of stated capital, additional paid-in capital and legal reserve, each such amount being that appearing on the non-consolidated balance sheet as of the end of the last fiscal year) all or certain part of such exceeding amount as calculated in accordance with the ordinances of the Ministry of Justice.

In addition, if the Company elects to become a company that uses its consolidated balance sheet for calculating distributable dividends (thus, becomes a company subject to regulations in respect of dividends determined based on consolidated accounts), the Company would be required to deduct the excess amount calculated in the following manner from the distributable amount of surplus. Such excess amount is determined as (x) the total amount of the amount of shareholders' equity on unconsolidated balance sheet at the end of the last fiscal year and other amounts as provided for by an ordinance of the Ministry of Justice exceeds (y) the total amount of the amount of shareholders' equity on its consolidated balance sheet at the end of its last fiscal year and other amounts as provided for by an ordinance of the Ministry of Justice.

Table of Contents

If the Company prepares extraordinary financial statements (as described below) and such extraordinary financial statements are approved at a meeting of the Board of Directors or the shareholders (if the Company Law so requires), the Company would be required to adjust the distributable amount for surplus by considering the profits and losses and the amount in respect of issuance of treasury stock during the period covered in such extraordinary financial statements.

The Company may prepare extraordinary unconsolidated financial statements that consist of a balance sheet as of a date within the fiscal year immediately following the last fiscal year (an extraordinary settlement date) and profit and loss covering a period of the first day of the current fiscal year up to such extraordinary settlement date. Such extraordinary financial statements prepared in the foregoing manner must be audited by corporate auditors and accounting auditors.

Dividends Ex-dividend date and prescription

In Japan, the ex-dividend date and the record date for dividends precede the date of determination of the amount of the dividend to be paid. The market price of shares generally becomes ex-dividend on the third business day before the record date.

Under the articles of incorporation, the Company is not required to pay any cash dividends unclaimed for a period of three years after the date on which the dividends first become payable.

For information as to Japanese taxes on dividends, see Taxation Japanese Taxation.

Capital Accounts

The amount of the issue price of new shares (with certain exceptions) is required to be accounted for as stated capital, although the Company may account for an amount not exceeding one-half of the issue price as additional paid-in capital.

Under the Company Law, a resolution of general meetings of shareholders is generally required for such transfer of the additional paid-in capital and legal reserve to the stated capital.

The Company may also reduce the sum of its legal reserve and additional paid-in capital by resolution of a general meeting of shareholders. Under the Company Law, the Company may reduce the sum of its legal reserve and additional paid-in capital without the limitation of the amount to be reduced as mentioned above.

All or any part of the surplus which may be distributed as dividends may also be transferred to stated capital by resolution of a general meeting of shareholders.

Stock Split

The Company may at any time split the outstanding shares into a greater number of shares by resolution of the Board of Directors. The Company must give public notice of the stock split, specifying a record date for the stock split, not less than two weeks prior to the record date.

Consolidation of Shares

The Company may at any time consolidate shares in issue into a smaller number of shares by a special shareholders resolution (See Voting Rights). When a consolidation of shares is to be made, the Company must give public notice or notice to each shareholder within two weeks from the date of entry into force. The Company must disclose the reason for the consolidation of shares at the general meeting of shareholders.

Table of Contents

The Unit Share System

General

Consistent with the requirements of the Company Law, the Company's articles of incorporation provide that 100 shares constitute one unit. Although the number of shares constituting a unit is included in the articles of incorporation, any amendment to the articles of incorporation reducing (but not increasing) the number of shares constituting a unit or eliminating the provisions for the unit of shares may be made by a resolution of the Board of Directors rather than by a special shareholders resolution, which is otherwise required for amending the articles of incorporation. The number of shares constituting one unit, however, cannot exceed 1,000 shares or one-200th of the number of the Company's issued share capital (including treasury stock).

Voting Rights under the Unit Share System

Under the unit share system, shareholders shall have one voting right for each unit of shares that they hold. Any number of shares less than a full unit will carry no voting rights.

Repurchase by the Company of Shares Constituting Less Than a Full Unit

A holder of shares constituting less than a full unit may require the Company to purchase those shares at their market value in accordance with the provisions of the Company's share handling regulations.

Request by a Holder of Shares of Sales by the Company of Shares to Constitute a Full Unit

The Company's articles of incorporation provide that a holder of shares constituting less than a full unit may request the Company to sell to such holder such amount of shares which will, when added together with the shares constituting less than a full unit, constitute a full unit of shares in accordance with the provisions of the Company's share handling regulations.

Effect of the Unit Share System on Holders of ADRs

A holder who owns ADRs evidencing less than 100 ADSs will indirectly own less than a whole unit of shares of common stock. Although, as discussed above, under the unit share system holders of less than a unit have the right to require the Company to purchase their shares, holders of ADRs evidencing ADSs that represent other than integral multiples of whole units are unable to withdraw the underlying shares of common stock representing less than a unit and, therefore, are unable, as a practical matter, to exercise the rights to require the Company to purchase such underlying shares. As a result, access to the Japanese markets by holders of ADRs through the withdrawal mechanism will not be available for dispositions of shares of common stock in lots less than a unit. The unit share system does not affect the transferability of ADSs, which may be

transferred in lots of any size.

General Meeting of Shareholders

The Company holds its ordinary general meeting of shareholders within three months after the end of a fiscal year and normally in June of each year in Tokyo, Japan. In addition, the Company may hold an extraordinary general meeting of shareholders whenever necessary by giving at least two weeks' advance notice. Under the Company Law, notice of any shareholders' meeting must be given to each shareholder having voting rights or, in the case of a non-resident shareholder, to his resident proxy or mailing address in Japan in accordance with the Company's share handling regulations, at least two weeks before the date of the meeting. The record date for an ordinary general meeting of shareholders is March 31 each year.

Any shareholder holding at least 300 voting rights or 1% of the total number of voting rights for a period of six months or longer may propose a matter to be considered at a general meeting of shareholders by submitting a request to a representative director of the Company at least eight weeks before the date of such meeting.

Table of Contents

Voting Rights

A holder of shares constituting one or more whole units is entitled to one voting right per unit of shares subject to the limitations on voting rights set forth in the following paragraph. In general, under the Company Law, a resolution can be adopted at a general meeting of shareholders by a majority of voting rights represented at the meeting. The Company Law and the Company's articles of incorporation require a quorum for the election of directors and corporate auditors of not less than one-third of the voting rights of all shareholders. The Company's shareholders are not entitled to cumulative voting in the election of directors. A corporate shareholder whose outstanding shares are directly or indirectly owned by the Company or, due to other causes, whose management is being controlled in substance by the Company as provided for by an ordinance of the Ministry of Justice, does not have voting rights.

Shareholders may exercise their voting rights through proxies if those proxies are also shareholders who have voting rights.

The Company Law provides that a quorum of at least one-third of voting rights of shareholders that are eligible to vote must be present at a shareholders' meeting to approve any material corporate actions, such as:

- (1) amendment of the articles of incorporation (except in cases in which a shareholders' resolution is not required);
- (2) acquisition of its own shares from a specific party;
- (3) consolidation of shares;
- (4) any issue or transfer of new or treasury shares at a specially favorable price (or any issue of stock acquisition rights, or bonds with stock acquisition rights at specially favorable conditions) to any persons other than shareholders;
- (5) the removal of a corporate auditor;
- (6) the exemption of liability of a director or corporate auditor with certain exceptions;
- (7) a reduction of stated capital meeting certain conditions;
- (8) a distribution of in-kind dividends which meets certain requirements;
- (9) dissolution, merger, or consolidation with certain exceptions in which a shareholders' resolution is not required;
- (10) the transfer of the whole or a material part of the business;
- (11) the taking over of the whole of the business of any other corporation with certain exceptions in which a shareholders' resolution is not required;

Edgar Filing: ADVANTEST CORP - Form 20-F

- (12) share exchange or share transfer for the purpose of establishing 100% parent-subsidary relationships with certain exceptions in which a shareholders resolution is not required; or

- (13) separating of the corporation with certain exceptions in which a shareholders resolution is not required,

At least two-thirds of voting rights eligible to vote that are represented at the meeting must approve these actions.

The voting rights of holders of ADSs are exercised by the depositary based on instructions from those holders. With respect to voting by holders of ADRs, see Description of American Depositary Receipts set forth in the Company's registration statement on Form F-1 filed with the Securities and Exchange Commission on July 22, 2002.

Table of Contents

Rights to be Allotted Shares

Holders of shares have no preemptive rights under the Company's articles of incorporation. Under the Company Law, the Board of Directors may, however, determine that shareholders shall be given rights to be allotted shares in connection with a particular issue or transfer of new or treasury shares, or stock acquisition rights. In this case, the rights must be given on uniform terms to all shareholders as of a specified record date by at least two weeks' prior public notice to shareholders of the record date.

Rights to be allotted new or treasury shares are non-transferable. A shareholder, however, may be allocated stock acquisition rights for free, in which case such stock acquisition rights may be transferred to a third party.

Stock Acquisition Rights

Subject to certain requirements, the Company may issue stock acquisition rights by resolution of the Board of Directors. Except where the issue would be on especially favorable terms, the issue of stock acquisition rights may be authorized by a resolution of the Board of Directors. Holders of stock acquisition rights may exercise their rights to acquire a certain number of shares within the exercise period as prescribed in the terms of their stock acquisition rights. Upon exercise of stock acquisition rights, the Company will be obliged to issue the relevant number of new shares or alternatively to transfer the necessary number of existing shares held by it.

Liquidation Rights

In the event of a liquidation of the Company, the assets remaining after payment of all debts, liquidation expenses and taxes will be distributed among the shareholders in proportion to the respective numbers of shares they own.

Liability to Further Calls or Assessments

All of the Company's currently outstanding shares, including shares represented by the ADSs, are fully paid and non-assessable.

Record Date

March 31 of each year is the record date for the Company's year-end dividends, if declared. A holder of shares constituting one or more whole units who is registered as a holder on the Company's register of shareholders at the close of business as of March 31 is entitled to exercise shareholders' voting rights at the ordinary general meeting of shareholders with respect to the fiscal year ending on that March 31. September 30 of each year is the record date for interim dividends, if declared. In addition, the Company may set a record date for determining the shareholders entitled to other rights and for other purposes by giving at least two weeks' public notice.

The shares generally trade ex-dividend or ex-rights in the Japanese stock exchanges on the third business day before a record date (or if the record date is not a business day, the fourth business day prior thereto), for the purpose of dividends or rights offerings.

Repurchase by the Company of Shares

The Company may acquire its own shares (i) through a stock exchange on which such shares are listed or by way of tender offer (pursuant to an ordinary resolution of a general meeting of shareholders or a resolution of the Board of Directors), (ii) by purchase from a specific party (pursuant to a special resolution of a general meeting of shareholders), or (iii) from a subsidiary of the Company (pursuant to a resolution of the Board of Directors). When such acquisition is made by the Company from a specific party other than a subsidiary of the Company, any other shareholder may make a demand to a representative director, more than five calendar days prior to the

Table of Contents

relevant shareholders' meeting, that the Company also purchase the shares held by such shareholder. However, under the Company Law, the acquisition of its own shares at a price not exceeding the then market price to be provided under an ordinance of the Ministry of Justice will not trigger the right of any shareholder to include him/her as the seller of his/her shares in such proposed purchase. Any such acquisition of shares must satisfy certain requirements and shall be integrated into regulations governing financial resources relating to the distribution of distributable surplus to shareholders. See Additional Information Memorandum and Articles of Association Dividends Distributable amount.

Shares acquired by the Company may be held by it for any period or may be cancelled by resolution of the Board of Directors. The Company may also transfer to any person the shares held by it, subject to a resolution of the Board of Directors, and subject also to other requirements similar to those applicable to the issuance of new shares. The Company may also utilize its treasury stock for the purpose of transfer to any person upon exercise of stock acquisition rights or for the purpose of acquiring another company by way of merger, share exchange or corporate split through exchange of treasury stock for shares or assets of the acquired company.

The Company Law generally prohibits any subsidiary of the Company from acquiring shares of the Company.

Disposal of the Shares by the Company

The Company is not required to send notices to a shareholder if notices to such shareholder fail to arrive continuously for five years or more at the registered address of the shareholder in the Company's register of shareholders or at the address otherwise notified to the Company.

In addition, the Company may dispose of the Shares at the then market price of the Shares by a resolution of the Board of Directors and after giving at least three months' prior public notice as well as individual notice to the shareholder at the registered address of the shareholder in the Company's register of shareholders or to the address otherwise notified to the Company, and hold or deposit the proceeds for the shareholder, the location of which is unknown, if (i) notices to the shareholder fail to arrive continuously for five years or more at the registered address of the shareholder in the Company's register of shareholders or at the address otherwise notified to the Company, and (ii) the shareholder fails to receive surplus dividends on the Shares continuously for five years or more at the address registered in the Company's register of shareholders or at the address otherwise notified to the Company.

Acquisition or Disposition of Shares

Under the Foreign Exchange and Foreign Trade Law and the cabinet orders and ministerial ordinances thereunder (collectively, the Foreign Exchange Regulations), all aspects of regulations on foreign exchange and trade transactions are, with minor exceptions relating to inward direct investments (which are not generally applicable to the Company's shares), only subject to post transaction reporting requirements. Acquisitions and dispositions of shares of common stock or ADSs by non-residents of Japan (including foreign corporation not resident in Japan) are generally not subject to this reporting requirement. However, the Minister of Finance has the power to impose a licensing requirement for transactions in limited circumstances.

Dividends and Proceeds of Sales

Edgar Filing: ADVANTEST CORP - Form 20-F

Under the Foreign Exchange Regulations as currently in effect, dividends paid on, and the proceeds of sales in Japan of, shares held by non-residents of Japan may in general be converted into any foreign currency and repatriated abroad. The acquisition of shares by non-residents of Japan by way of stock splits is not subject to any of the foregoing notification or reporting requirements.

Table of Contents

Reporting of Substantial Shareholdings

Pursuant to the Financial Instruments and Exchange Law of Japan and regulations thereunder, a person or group of persons beneficially holding more than 5% of the total shares with voting rights (for this purpose shares issuable upon exercise of stock acquisition rights held by the person or persons are counted in the calculation of the holding and the total shares in issue) of a company listed on any Japanese stock exchange is required to file with the director of a competent local finance bureau, within five business days a report containing the identity of such person or persons, the purpose of such holding and certain other information prescribed by regulations. A similar report must also be made (with certain exceptions) if the percentage of such holding subsequently increases or decreases by 1% or more or if any change occurs in material matters set out in reports previously filed.

10.C. MATERIAL CONTRACTS

All contracts concluded by the Company during the two years preceding this filing were entered into in the ordinary course of business.

10.D. EXCHANGE CONTROLS

The Foreign Exchange and Foreign Trade Law of Japan and its related cabinet orders and ministerial ordinances (the Foreign Exchange Regulations) govern the acquisition and holding of shares of capital stock of the Company by exchange non-residents and by foreign investors. The Foreign Exchange Regulations currently in effect do not, however, affect transactions between exchange non-residents to purchase or sell shares outside Japan using currencies other than Japanese yen.

Exchange non-residents are:

individuals who do not reside in Japan; and

corporations whose principal offices are located outside Japan.

Generally, branches and other offices of non-resident corporations that are located within Japan are regarded as residents of Japan. Conversely, branches and other offices of Japanese corporations located outside Japan are regarded as exchange non-residents.

Foreign investors are:

individuals who are exchange non-residents;

corporations that are organized under the laws of foreign countries or whose principal offices are located outside of Japan; and

Edgar Filing: ADVANTEST CORP - Form 20-F

corporations (1) of which 50% or more of the total voting rights of their shares are held by individuals who are exchange non-residents or corporations (a) that are organized under the laws of foreign countries or (b) whose principal offices are located outside of Japan or (2) a majority of whose officers, or officers having the power of representation, are individuals who are exchange non-residents.

In general, the acquisition of shares of a Japanese company (such as the shares of capital stock of the Company) by an exchange non-resident from a resident of Japan is not subject to any prior filing requirements. In certain limited circumstances, however, the Minister of Finance may require prior approval of an acquisition of this type. While prior approval, as described above, is not required, in the case where a resident of Japan transfers shares of a Japanese company (such as the shares of capital stock of the Company) for consideration exceeding ¥100 million to an exchange non-resident, the resident of Japan who transfers the shares is required to report the transfer to the Minister of Finance within 20 days from the date of the transfer, unless the transfer was made through a bank, securities company or financial futures trader licensed under Japanese law.

Table of Contents

If a foreign investor acquires shares of a Japanese company that is listed on a Japanese stock exchange (such as the shares of capital stock of the Company) and, as a result of the acquisition, the foreign investor, in combination with any existing holdings, directly or indirectly holds 10% or more of the issued shares of the relevant company, the foreign investor must file a report of the acquisition with the Minister of Finance and any other competent Ministers having jurisdiction over that Japanese company within 15 days from and including the date of the acquisition, except where the offering of the company's shares was made overseas. In limited circumstances, such as where the foreign investor is in a country that is not listed on an exemption schedule in the Foreign Exchange Regulations, a prior notification of the acquisition must be filed with the Minister of Finance and any other competent Ministers, who may then modify or prohibit the proposed acquisition.

Under the Foreign Exchange Regulations dividends paid on, and the proceeds of sales in Japan of, shares held by non-residents of Japan may in general be converted into any foreign currency and repatriated abroad. Under the terms of the deposit agreement pursuant to which the Company's ADSs are issued, the Depositary is required, to the extent that in its judgment it can convert Japanese yen on a reasonable basis into dollars and transfer the resulting dollars to the U.S., to convert all cash dividends that it receives in respect of deposited shares into dollars and to distribute the amount received (after deduction of applicable withholding taxes) to the holder of ADSs.

10.E. TAXATION

The following discussion is a general summary of the principal U.S. federal income and Japanese national tax consequences of the acquisition, ownership and disposition of the shares of common stock of the Company (the Shares) or ADSs. This summary does not purport to address all the material tax consequences that may be relevant to the holders of the Shares or ADSs, and does not take into account the specific circumstances of any particular investors, some of which (such as tax-exempt entities, banks, insurance companies, broker-dealers, traders in securities that elect to use a mark-to-market method of accounting for their securities holdings, regulated investment companies, real estate investment trusts, investors liable for alternative minimum tax, partnerships and other pass-through entities, investors that own or are treated as owning 10% or more of the Company's voting stock, investors that hold the Shares or ADSs as part of an arbitrage, options trading, hedge, conversion or constructive sale transaction or other integrated transaction and U.S. Holders (as defined below) whose functional currency is not the U.S. dollar) may be subject to special tax rules. This summary is based on the federal income tax laws and regulations of the United States and the national tax laws of Japan, judicial decisions and published rulings and administrative pronouncements as in effect on the date hereof, as well as on the current income tax convention between the United States and Japan (the Treaty), as described below, all of which are subject to change (possibly with retroactive effect), and/or to differing interpretations.

For purposes of this discussion, a U.S. Holder is any beneficial owner of the Shares or ADSs that, for U.S. federal income tax purposes, is:

- (1) an individual who is a citizen or resident of the United States,
- (2) a corporation or other entity organized in or under the laws of the United States or any State thereof or the District of Columbia,
- (3) an estate the income of which is subject to U.S. federal income tax without regard to its source, or
- (4) a trust that is subject to the primary supervision of a U.S. court and the control of one or more U.S. persons, or that has a valid election in effect under applicable Treasury regulations to be treated as a U.S. person.

An Eligible U.S. Holder is a U.S. Holder that:

(1) is a resident of the United States for purposes of the Treaty,

Table of Contents

- (2) does not maintain a permanent establishment in Japan (a) with which the Shares or ADSs are effectively connected and through which the U.S. holder carries on or has carried on a business or (b) of which the Shares or ADSs form part of the business property, and
- (3) is eligible for benefits under the Treaty with respect to income and gain derived in connection with the Shares or ADSs.

If a partnership (including any entity treated as a partnership for U.S. federal income taxation purposes) holds the Shares or ADSs, the tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. A partner of a partnership holding the Shares or ADSs is urged to consult its tax advisor.

This summary does not address any aspects of U.S. federal tax law other than income taxation and does not discuss any aspects of Japanese tax law other than income taxation as limited to national taxes, inheritance and gift taxation and securities transfer taxation. This summary also does not cover any state or local, or non-U.S., non-Japanese tax considerations. Investors are urged to consult their tax advisors regarding the U.S. federal, state, local and Japanese and other tax consequences of acquiring, owning and disposing of Shares or ADSs. In particular, where relevant, investors are urged to confirm their status as Eligible U.S. Holders with their tax advisors and to discuss with their tax advisors any possible consequences of their failure to qualify as Eligible U.S. Holders.

This summary is also based in part upon the representations of the depositary and the assumption that each obligation in the deposit agreement referred to in Description of American Depositary Receipts set forth in the Company's registration statement on Form F-1 filed with the Securities and Exchange Commission on July 22, 2002, and in any related agreement, will be performed under its terms.

In general, for purposes of the Treaty, and for U.S. federal and Japanese national income tax purposes, owners of ADRs evidencing ADSs will be treated as the owners of the Shares represented by those ADSs, and exchanges of the Shares for ADSs, and exchanges of ADSs for the Shares, will not be subject to U.S. federal or Japanese income tax.

This discussion below is intended for general information only and does not constitute a complete analysis of all tax consequences relating to ownership of Shares or ADSs. Investors in Shares or ADSs should consult their own tax advisors concerning the tax consequences of their particular situations.

Japanese Taxation

The following is a summary of the principal Japanese tax consequences (limited to national taxes) to holders of the Shares and of ADRs evidencing ADSs representing the Shares who are either individuals who are not residents of Japan or non-Japanese corporations, without a permanent establishment in Japan (non-resident Holders).

Generally, a non-resident of Japan or a non-Japanese corporation is subject to Japanese withholding tax on dividends paid by Japanese corporations. Stock splits in themselves are, in general not a taxable event.

Edgar Filing: ADVANTEST CORP - Form 20-F

In the absence of an applicable tax treaty, convention or agreement reducing the maximum rate of Japanese withholding tax or allowing exemption from Japanese withholding tax, the rate of Japanese withholding tax applicable to dividends paid by Japanese corporations to non-residents of Japan or non-Japanese corporations is generally 20%. With respect to dividends paid on listed shares issued by a Japanese corporation (such as the Shares) to any corporate or individual shareholders (including those shareholders who are non-Japanese corporations or non-residents of Japan, such as non-resident Holders), other than any individual shareholder who holds 5% or more of the total issued shares of the relevant Japanese corporation, the aforementioned 20% withholding tax rate is reduced to (i) 7% for dividends due and payable on or before December 31, 2011, and

Table of Contents

(ii) as a general rule, 15% for dividends due and payable on or after January 1, 2012. At the date of this annual report, Japan has income tax treaties, conventions or agreements whereby the above-mentioned withholding tax rate is reduced, in most cases to 15% for portfolio investors with, among other countries, Australia, Belgium, Canada, Denmark, Finland, Germany, Ireland, Italy, Luxembourg, the Netherlands, New Zealand, Norway, Singapore, Spain, Sweden, Switzerland and Russia, and 10% for portfolio investors under the income tax treaty with, among others, France, the U.K., India, Australia, China, Pakistan, Vietnam, Poland, Romania and the United States.

Under the Treaty, the maximum rate of Japanese withholding tax which may be imposed on dividends paid by a Japanese corporation to an Eligible U.S. Holder that is a portfolio investor is generally reduced to 10% of the gross amount actually distributed and Japanese withholding tax with respect to dividends paid by a Japanese corporation to an Eligible U.S. Holder that is a pension fund is exempt from Japanese taxation by way of withholding or otherwise, unless such dividends are derived from the carrying on of a business, directly or indirectly, by such pension fund.

If the maximum tax rate provided for in the income tax treaty applicable to dividends paid by the Company to any particular non-resident Holder is lower than the withholding tax rate otherwise applicable under Japanese tax law or any particular non-resident Holder is entitled to reduced rate or exemption from Japanese income tax with respect to such dividends under the income tax treaty applicable to such particular non-resident Holder, such non-resident Holder who is entitled to a reduced rate of, or exemption from, Japanese withholding tax on payment of dividends on the Shares by the Company is required to submit an Application Form for Income Tax Convention Regarding Relief from Japanese Income Tax on Dividends (together with any other required forms and documents) in advance through the Company to the relevant tax authority before the payment of dividends. A standing proxy for non-resident Holders of a Japanese corporation may provide this application service. With respect to ADSs, this reduced rate or exemption is applicable if the Depository or its agent submits two Application Forms (one before payment of dividends, the other within eight months after the Company's fiscal year-end or semi-fiscal year-end). To claim this reduced rate or exemption, any relevant non-resident Holder of ADSs will be required to file a proof of taxpayer status, residence and beneficial ownership (as applicable) and to provide other information or documents as may be required by the Depository. A non-resident Holder who is entitled, under an applicable income tax treaty, to a reduced treaty rate lower than the withholding tax rate otherwise applicable under Japanese tax law or an exemption from the withholding tax, but failed to submit the required application in advance will be entitled to claim the refund of withholding taxes withheld in excess of the rate under an applicable tax treaty (if such non-resident Holder is entitled to a reduced treaty rate under the applicable income tax treaty) or the whole of the withholding tax withheld (if such non-resident Holder is entitled to exemption under the applicable income tax treaty) from the relevant Japanese tax authority.

Gains derived from the sale of the Shares or ADSs outside Japan by a non-resident Holder holding such Shares or ADSs as portfolio investors are, in general, not subject to Japanese income tax or corporation tax. Eligible U.S. Holders are not subject to Japanese income or corporation tax with respect to such gains under the Treaty.

Japanese inheritance and gift taxes at progressive rates may be payable by an individual who has acquired the Shares or ADSs as a legatee, heir or donee even though neither the individual nor the deceased nor donor is a Japanese resident.

Holders of the Shares or ADSs should consult their tax advisors regarding the effect of these taxes and, in the case of U.S. Holders, the possible application of the Estate and Gift Tax Treaty between the U.S. and Japan.

U.S. Federal Income Taxation

U.S. Holders

The following discussion is a summary of the principal U.S. federal income tax consequences to U.S. Holders that hold those Shares or ADSs as capital assets (generally, for investment purposes).

Table of Contents

Taxation of Dividends

Subject to the passive foreign investment company (PFIC) rules discussed below, the gross amount of any distribution made by the Company in respect of Shares or ADSs (without reduction for Japanese withholding taxes) will constitute a taxable dividend to the extent paid out of current or accumulated earnings and profits of the Company, as determined under U.S. federal income tax principles. The U.S. dollar amount of such a dividend generally will be included in the gross income of a U.S. Holder, as ordinary income, when the dividend is actually or constructively received by the U.S. Holder, in the case of Shares, or by the depositary, in the case of ADSs. Dividends paid by us will not be eligible for the dividends-received deduction generally allowed to U.S. corporations in respect of dividends received from other U.S. corporations.

Under current law, dividends received on shares or ADSs of certain foreign corporations in taxable years beginning before January 1, 2011 by non-corporate U.S. investors may be subject to U.S. federal income tax at lower rates than other types of ordinary income if certain conditions are met. Dividends received by non-corporate U.S. Holders with respect to Shares or ADSs are expected to be eligible for these reduced rates of tax. U.S. Holders should consult their own tax advisors regarding the eligibility of such dividends for a reduced rate of tax.

The U.S. dollar amount of a dividend paid in Japanese yen will be determined based on the Japanese yen/U.S. dollar exchange rate in effect on the date that dividend is included in the gross income of the U.S. Holder, regardless of whether the payment is converted into U.S. dollars on such date. If the Japanese yen received as a dividend is not converted into U.S. dollars on the date of receipt, a U.S. Holder will have a tax basis in such Japanese yen equal to its U.S. dollar value on the date of receipt. Generally, any gain or loss resulting from currency exchange fluctuations during the period from the date the dividend payment is included in the gross income of a U.S. Holder through the date that payment is converted into U.S. dollars (or the U.S. Holder otherwise disposes of the Japanese yen) will be treated as U.S. source ordinary income or loss. U.S. Holders should consult their own tax advisors regarding the calculation and U.S. federal income tax treatment of foreign currency gain or loss.

To the extent, if any, that the amount of any distribution received by a U.S. Holder in respect of Shares or ADSs exceeds the Company's current and accumulated earnings and profits, as determined under U.S. federal income tax principles, the distribution first will be treated as a tax-free return of capital to the extent of the U.S. Holder's adjusted tax basis in those Shares or ADSs, and thereafter will be treated as U.S. source capital gain.

Distributions of additional Shares that are made to U.S. Holders with respect to their Shares or ADSs and that are part of a pro rata distribution to all of the Company's shareholders generally will not be subject to U.S. federal income tax.

For U.S. foreign tax credit purposes, dividends included in gross income by a U.S. Holder in respect of Shares or ADSs will constitute income from sources outside the United States, and will generally be passive category income or, for certain U.S. Holders, general category income. Subject to generally applicable limitations under U.S. federal income tax law and the Treaty, any Japanese withholding tax imposed in respect of the Company dividend may be claimed as a credit against the U.S. federal income tax liability of a U.S. Holder, or if the U.S. Holder does not elect to claim a foreign tax credit for any foreign taxes paid during the taxable year, as a deduction from such U.S. Holder's taxable income. Special rules generally will apply to the calculation of foreign tax credits in respect of dividend income that qualifies for preferential tax rates of U.S. federal income tax. Additionally, special rules may apply to individuals whose foreign source income during the taxable year consists entirely of qualified passive income and whose creditable foreign taxes paid or accrued during the taxable year do not exceed \$300 (\$600 in the case of a joint return). Further, under some circumstances, a U.S. Holder that:

- (i) has held Shares or ADSs for less than a specified minimum period, or

(ii) is obligated to make payments related to the Company dividends,

will not be allowed a foreign tax credit for Japanese taxes imposed on the Company dividends.

Table of Contents

Investors are urged to consult their tax advisors regarding the availability of the foreign tax credit under their particular circumstances. The U.S. Internal Revenue Service (the IRS) has expressed concern that parties to whom ADSs are released may be taking actions that are inconsistent with the claiming of foreign tax credits by U.S. Holders of ADSs. Accordingly, investors should be aware that the discussion above regarding the creditability of Japanese withholding tax on dividends could be affected by future actions that may be taken by the IRS.

Taxation of Capital Gains

In general, upon a sale or other taxable disposition of Shares or ADSs, a U.S. Holder will recognize gain or loss for U.S. federal income tax purposes in an amount equal to the difference between the amount realized on the sale or other taxable disposition and the U.S. Holder's adjusted tax basis in those Shares or ADSs. A U.S. Holder generally will have an adjusted tax basis in the Shares or ADSs equal to their U.S. dollar cost. Subject to the PFIC rules discussed below, gain or loss recognized on the sale or other taxable disposition generally will be capital gain or loss and, if the U.S. Holder's holding period for those Shares or ADSs exceeds one year, will be long-term capital gain or loss. Non-corporate U.S. Holders, including individuals, are currently eligible for preferential rates of U.S. federal income tax in respect of long-term capital gain at this time. Under U.S. federal tax law, the deduction of capital losses is subject to limitations. Any gain or loss recognized by a U.S. Holder in respect of the sale or other disposition of Shares or ADSs generally will be treated as derived from U.S. sources for foreign tax credit purposes.

Deposits and withdrawals of Shares in exchange for ADSs will not result in the realization of gain or loss for U.S. federal income tax purposes.

Passive Foreign Investment Companies (PFIC)

A non-U.S. corporation generally will be classified as a PFIC for U.S. federal income tax purposes in any taxable year in which, after applying look-through rules, either (1) at least 75% of its gross income is passive income, or (2) on average at least 50% of the gross value of its assets is attributable to assets that produce passive income or are held for the production of passive income. Passive income for this purpose generally includes dividends, interest, royalties, rents and gains from commodities and securities transactions. The PFIC determination is made annually and generally is based on the value of a non-U.S. corporation's assets (including goodwill) and the composition of its income for the relevant tax year.

Based on current estimates of its income and assets, the Company does not believe that it will be a PFIC for its current taxable year, and intends to continue its operations in such a manner that it will not become a PFIC in the future. However, because the PFIC determination is made annually at the close of the taxable year, the Company can provide no assurance that it will not become a PFIC in the current or any future taxable year due to changes in its asset or income composition, a decrease in the price of its Shares (which is used as a measure of goodwill as an active asset) or for other reasons. If the Company becomes a PFIC, U.S. Holders could be subject to additional U.S. federal income taxes on gain recognized with respect to the Shares or ADSs and on certain excess distributions (generally distributions in excess of 125% of the average distribution over a three-year period, or, if shorter, the holding period for the Shares or ADSs). In addition, an interest charge may apply to the portion of the U.S. federal income tax liability on such gains or distributions treated under the PFIC rules as having been deferred by the U.S. Holder. Moreover, dividends that a non-corporate U.S. Holder receives from the Company will not be eligible for the reduced U.S. federal income tax rates applicable to dividends described above if the Company is a PFIC either in the taxable year of the distribution or the preceding taxable year. The Company will inform U.S. Holders if it believes that it will be classified as a PFIC in any taxable year. If a U.S. Holder holds Shares or ADSs in any taxable year in which the Company is a PFIC, such U.S. Holder generally will be required to file an information statement or form specified by the U.S. Department of the treasury with the IRS in each year that the Company is a PFIC.

Edgar Filing: ADVANTEST CORP - Form 20-F

U.S. Holders are urged to consult their tax advisors concerning the U.S federal income tax consequences of holding Shares or ADSs if the Company were considered a PFIC in any year.

Table of Contents

Non-U.S. Holders

The following discussion is a summary of the principal U.S. federal income tax consequences to beneficial holders of Shares or ADSs that are neither U.S. Holders nor partnerships, nor entities taxable as partnerships for, U.S. federal income tax purposes (Non-U.S. Holders).

A Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax in respect of distributions in respect of the Shares or ADSs unless the distributions are effectively connected with the conduct by the Non-U.S. Holder of a trade or business within the United States (and, if an applicable tax treaty requires, are attributable to a U.S. permanent establishment or fixed base of such Non-U.S. Holder).

A Non-U.S. Holder generally will not be subject to U.S. federal income tax in respect of gain recognized on a sale or other taxable disposition of Shares unless (i) the gain is effectively connected with a trade or business conducted by the Non-U.S. Holder within the United States (and, if an applicable tax treaty requires, is attributable to a U.S. permanent establishment or fixed base of such Non-U.S. Holder), or (ii) the Non-U.S. Holder is an individual who was present in the United States for 183 or more days in the taxable year of the disposition and other conditions are met.

Income that is effectively connected with a U.S. trade or business of a Non-U.S. Holder (and, if an applicable income tax treaty applies, is attributable to a U.S. permanent establishment or a fixed base of such Non-U.S. Holder) generally will be taxed in the same manner as the income of a U.S. Holder. In addition, under certain circumstances, any effectively connected earnings and profits realized by a corporate Non-U.S. Holder may be subject to additional branch profits tax at the rate of 30% or at a lower rate that may be prescribed by an applicable income tax treaty.

Backup Withholding and Information Reporting

In general, except in the case of certain exempt recipients (such as corporations), information reporting requirements will apply to dividends paid to a U.S. Holder in respect of Shares or ADSs, and to the proceeds received by a U.S. Holder upon the sale, exchange or redemption of Shares or ADSs within the United States or through certain U.S.-related financial intermediaries. Furthermore, backup withholding (currently at a rate of 28%) may apply to such payments or proceeds if a U.S. Holder fails to provide an accurate tax identification number and make appropriate certifications in the required manner.

Dividends paid to a Non-U.S. Holder in respect of Shares or ADSs, and proceeds received upon the sale, exchange or redemption of Shares or ADSs by a Non-U.S. Holder generally are exempt from information reporting and backup withholding under current U.S. federal income tax law. However, a Non-U.S. Holder may be required to provide certification under penalty of perjury to ensure that exemption. Persons required to establish their exempt status generally must provide such certification on IRS Form W-9, entitled Request for Taxpayer Identification Number and Certification, in the case of U.S. Holders, and on IRS Form W-8BEN, entitled Certificate of Foreign Status of Beneficial Owner for United States Tax Withholding (or other appropriate IRS Form W-8), in the case of Non-U.S. Holders.

Backup withholding is not an additional tax. The amount of backup withholding imposed on a payment may generally be refunded or allowed as a credit against the holder's U.S. federal income tax liability provided that the required information is properly and promptly furnished to the IRS in a timely manner.

Recent Legislative Developments

Newly enacted U.S. legislation requires certain U.S. Holders who are individuals, estates or trusts to pay up to an additional 3.8% tax on, among other things, dividends and capital gains for taxable years beginning after December 31, 2012. In addition, for taxable years beginning after March 18, 2010, new legislation requires certain U.S. Holders who are individuals that hold certain foreign financial assets (which may include the Shares

Table of Contents

or ADSs) to report information relating to such assets, subject to certain exceptions. U.S. Holders should consult their tax advisors regarding the effect, if any, of this legislation on their ownership and disposition of the Shares or ADSs.

THE SUMMARY OF U.S. FEDERAL INCOME AND JAPANESE NATIONAL TAX CONSEQUENCES SET OUT ABOVE IS INTENDED FOR GENERAL INFORMATION PURPOSES ONLY. INVESTORS IN THE SHARES OR ADSs ARE URGED TO CONSULT WITH THEIR OWN TAX ADVISORS WITH RESPECT TO THE PARTICULAR TAX CONSEQUENCES TO THEM OF OWNING OR DISPOSING OF SHARES OR ADSs BASED ON THEIR PARTICULAR CIRCUMSTANCES.

ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Advantest is exposed to market risk from changes in foreign currency exchange rates, interest rates and equity security prices and credit.

Foreign Currency Exchange Rate Risk

The tables below summarize information as of March 31, 2010 and March 31, 2009 on instruments and transactions that are sensitive to foreign currency exchange rates, including assets and liabilities denominated in U.S. dollars, Euros, New Taiwan dollars and Korean won, and forward contracts. The information in each table is presented in Japanese yen equivalents, which is the Company's reporting currency.

Table of Contents**Foreign Currency Denominated Assets and Liabilities**

Foreign currency denominated assets and liabilities that are sensitive to exchange rates between such foreign currency and the Japanese yen are presented by denominated currency. All of these assets and liabilities are stated at fair value.

	As of March 31, 2010			
	Assets and Liabilities Denominated in

Accounts payables and accruals		(0)

Foreign Exchange Contracts

Advantest uses foreign exchange forward contracts and currency options to manage currency exposure, resulting from changes in foreign currency exchange rates, on trade receivables. Foreign exchange contracts generally have terms of several months. Foreign exchange forward contracts are presented by the notional balances with weighted average exchange rates. All of the foreign exchange forward contracts outstanding as of March 31, 2010 and March 31, 2009 are listed below.

Edgar Filing: ADVANTEST CORP - Form 20-F

12.D. AMERICAN DEPOSITARY SHARES

Fees and Charges for Holders of American Depositary Receipts

JPMorgan Chase Bank, N.A. (Depositary), as depositary of the Company s ADS, collects the following fees from holders of ADRs or intermediaries acting in their behalf. The Depositary may sell (by public or private sale) sufficient securities and property received prior to such deposit to pay such fees.

- (a) Depositing or substituting the underlying shares

Each person to whom ADSs are issued, will be charged U.S.\$5.00 for each 100 ADSs (or portion thereof) issued or delivered (as the case may be).

- (b) Receiving or distributing dividends

A fee of U.S. \$0.02 or less per ADS (or portion thereof) for any cash distribution made.

Table of Contents

- (c) Selling or exercising rights

A fee for the distribution or sale of securities, being in an amount equal to the fee for the execution and delivery of ADSs which would have been charged U.S.\$5.00 for each 100 ADSs (or portion thereof) as a result of the deposit of such securities (treating all such securities as if they were shares of stock).

- (d) Withdrawing an underlying security

Each person surrendering ADSs for withdrawal of deposited securities or whose ADSs are cancelled or reduced for any other reason will be charged U.S.\$5.00 for each 100 ADSs (or portion thereof) reduced, cancelled or surrendered (as the case may be).

- (e) Transferring, splitting or grouping receipts

A fee of U.S.\$1.50 per ADR or ADRs for transfers made.

- (f) General depositary services, particularly those charged on an annual basis

A fee of U.S.\$0.02 per ADS (or portion thereof) per year for the services performed by the Depositary in administering the ADRs (which fee shall be assessed against holders as of the record date or dates set by the Depositary not more than once each calendar year and shall be payable at the sole discretion of the Depositary by billing such holders or by deducting such charge from one or more cash dividends or other cash distributions).

- (g) Expenses of the Depositary

Such fees and expenses incurred by the Depositary (including without limitation expenses incurred on behalf of holders in connection with foreign exchange control regulations or any law or regulation relating to foreign investments) in connection with the delivery of deposited securities or otherwise to comply with the Depositary's or its custodian's compliance procedures, applicable law, rule or regulation.

- (i) stock transfer or other taxes and other governmental charges (which are payable by holders or persons depositing stock);
- (ii) cable, telex and facsimile transmission and delivery charges incurred at the request of persons depositing, or Holders delivering stock, ADRs or deposited securities (which are payable by such persons or holders);
- (iii) transfer or registration fees for the registration or transfer of deposited securities on any applicable register in connection with the deposit or withdrawal of deposited securities;
- (iv) expenses of the Depositary in connection with the conversion of foreign currency into U.S. dollars; and

Edgar Filing: ADVANTEST CORP - Form 20-F

- (v) any other charge payable by any of the Depositary, any of the Depositary's agents, including, without limitation, the custodian, or the agents of the Depositary's agents in connection with the servicing of the stock or other deposited securities.

Fees and Other Payments Made by the Depositary to the Company

The Depositary has agreed to reimburse certain reasonable expenses of the Company related to the Company's ADR program and incurred by the Company in connection with the ADR program. In FY2009, we received the following payments from JPMorgan Chase Bank, N.A., as depositary of the Company's ADS.

Category of Expenses (Direct Payments)	Amount Reimbursed for FY2009	
Listing fees	US\$	38,000.00
Investor relations	US\$	47,478.01
Total	US\$	85,478.01

ITEM 13. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES

None.

ITEM 14. MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY HOLDERS AND USE OF PROCEEDS

None.

ITEM 15. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures

Advantest performed an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures as of the end of fiscal 2009. Disclosure controls and procedures are designed to ensure that the material financial and non-financial information required to be disclosed in the reports that Advantest files, or submits, under the Exchange Act is accumulated and communicated to its management including the chief executive officer and principal accounting and financial officer to allow timely decisions regarding required disclosure. The disclosure controls and procedures also ensure that the reports that it files or submits under the Exchange Act are recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms. The evaluation was performed under the supervision of Advantest's Representative Director, President and CEO and Director and Senior Executive Officer. Advantest's disclosure and controls and procedures provide reasonable assurance that its objectives will be met. Managerial judgment was necessary to evaluate the cost-benefit relationship of possible controls and procedures. Advantest's Representative Director, President and CEO and Director and Senior Executive Officer have concluded that Advantest's disclosure controls and procedures are effective at the reasonable assurance level.

(b) Management's Annual Report on Internal Control Over Financial Reporting

The management of Advantest is responsible for establishing and maintaining adequate internal control over financial reporting. Advantest's internal control system was designed to provide reasonable assurance with respect to the preparation of financial statements in accordance with U.S. GAAP and the reliability of such financial statements.

Internal control over financial reporting has inherent limitations underlying internal control systems and misstatements may not be prevented or detected. Furthermore, if the evaluation results regarding the effectiveness of internal control are expected to remain the same going forward, it is important to recognize that there are risks, under which changes in circumstances may lead the controls in place to be inadequate or that the extent to which policies or procedures are complied with may lower.

Edgar Filing: ADVANTEST CORP - Form 20-F

Advantest's management assessed the effectiveness of the company's internal control over financial reporting as of March 31, 2010. In making this assessment, it used the criteria set forth in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this assessment, management has concluded that, as of March 31, 2010, Advantest's internal control over financial reporting was effective based on those criteria.

Ernst & Young ShinNihon LLC, Advantest's independent registered public accounting firm, has issued an attestation report on the effectiveness of our internal control over financial reporting as of March 31, 2010. This report appears in Item 18.

(c) Attestation Report of the Independent Registered Public Accounting Firm

This report appears in Item 18.

Table of Contents***(d) Changes in Internal Control Over Financial Reporting***

There has been no change in our internal control over financial reporting that occurred during the year ended March 31, 2010 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ITEM 16. [RESERVED]**ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT**

The Company's Board of Corporate Auditors has determined that Hitoshi Owada is an audit committee financial expert as defined by Item 16.A. of Form 20-F. Mr. Owada met the independence requirements, as the term is defined under the New York Stock Exchange listing standards. For details regarding Mr. Owada's business experiences, see 6.A. DIRECTORS AND SENIOR MANAGEMENT.

ITEM 16B. CODE OF ETHICS

The Company has adopted a code of ethics that applies to its directors and executive officers, including its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. A copy of the Company's code of ethics was attached to the annual report on Form 20-F for fiscal 2003 and is attached as an exhibit to this Form 20-F for reference.

ITEM 16C. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Ernst & Young ShinNihon LLC served as our independent registered public accounting firm for fiscal 2009, 2008 and 2007. The audited financial statements for these fiscal years are included in the respective year's annual report filed on Form 20-F.

The chart below sets forth the aggregate fees for professional services and other services rendered to Advantest by Ernst & Young ShinNihon LLC and its member firms in fiscal 2008 and 2009.

	Fiscal 2008	Fiscal 2009
	(in millions)	
Audit Fees ⁽¹⁾	¥ 335	¥ 282
Audit-Related Fees ⁽²⁾		
Tax Fees ⁽³⁾	39	26
All Other Fees ⁽⁴⁾		
Total	¥ 374	¥ 308

- (1) Audit Fees consist of fees billed for the annual audit services engagement and other audit services, which are those services that only the external auditor reasonably can provide, and include the group audit; statutory audits; the issuance of consents; and assistance with and review of documents filed with the SEC.
- (2) Audit-Related Fees consist of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of our financial statements or that are traditionally performed by the external auditor, and include consultations concerning financial accounting and reporting standards; and review of security controls and operational effectiveness of systems.
- (3) Tax Fees include fees billed for tax compliance services, including the preparation of original and amended tax returns and claims for refund; tax consultations, such as assistance in connection with tax audits and advice related to transfer pricing, and requests for rulings or technical advice from taxing authorities; and expatriate tax services.
- (4) All Other Fees include fees billed for training; and process improvement and advice.

Table of Contents***Policies and Procedures of the Board of Corporate Auditors***

Below is a summary of the current policies and procedures of the board of corporate auditors for the pre-approval of audit and permissible non-audit services performed by Advantest's independent public accountants.

Under the policy, the board of corporate auditors authorizes general pre-approval of audit and permissible non-audit services for the following fiscal year. Upon the general pre-approval of the board of corporate auditors, no specific pre-approval for audit and permissible non-audit services is required so long as those services fall within the scope of the general pre-approval provided.

Applications to provide services that require specific pre-approval by the board of corporate auditors will be submitted to the board of corporate auditors.

The board of corporate auditors makes further determination as to whether or not to revise the general pre-approval for the applicable fiscal year. Such request may include adding to or subtracting from any audit or permissible non-audit services listed in the general pre-approval. The performance of audit and permissible non-audit services and the payment of fees are subject to the review by the board of corporate auditors once every fiscal year.

ITEM 16D. EXEMPTIONS FROM THE LISTING STANDARDS FOR AUDIT COMMITTEES

The Company does not have an audit committee. The Company is relying on the general exemption contained in Rule 10A-3(c)(3) under the Exchange Act, which provides an exemption from the NYSE's listing standards relating to audit committees for foreign companies like the Company that have a board of corporate auditors. The Company's reliance on Rule 10A-3(c)(3) does not, in its opinion, materially adversely affect the ability of its board of corporate auditors to act independently and to satisfy the other requirements of Rule 10A-3.

ITEM 16E. PURCHASES OF EQUITY SECURITIES BY THE ISSUER AND AFFILIATED PURCHASERS

The following table sets forth Advantest's purchases of its common stock during fiscal 2009:

Period	(a) Total Number of Shares Purchased ¹	(b) Average Price Paid per Share (Yen)	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ³	(d) Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
2009				
April 1 - April 30	292	¥ 1,524	N/A	N/A
May 1 - May 31	292	1,648	N/A	N/A

Total		2,112	¥ 1,980	N/A	N/A

- 1 All purchases are made through repurchase of shares constituting less than one unit, which is 100 shares of common stock, or through repurchase of shares pursuant to a resolution of Board of Directors (Note 2). The

Table of Contents

purchase of shares that are a fraction of a unit are made in accordance with the provisions of the Company's share handling regulations. The Company is required to comply with such requests pursuant to the Company Law. See Additional Information Memorandum and Articles of Association The Unit Share System.

- 2 The Company can repurchase its shares through stock exchanges where the Company's shares are listed or pursuant to a takeover bid when there is a resolution of Board of Directors in accordance to Article 41 of the Articles of Incorporation.

ITEM 16F. CHANGE IN REGISTRATION'S CERTIFYING ACCOUNTANT

Not applicable.

ITEM 16G. CORPORATE GOVERNANCE

Significant Differences in Corporate Governance Practices between the Company and U.S. Companies Listed on the New York Stock Exchange

Pursuant to home country practices exemptions granted by the New York Stock Exchange, or the NYSE, the Company is permitted to follow certain corporate governance practices complying with Japanese laws, regulations and stock exchange rules in lieu of NYSE's listing standards. The SEC approved changes to the NYSE's listing standards related to corporate governance practices of listed companies in November 2003, as further amended in November 2004. The Company is exempted from the approved changes, except for requirements that (a) the Company's board of corporate auditors satisfy the requirements of Rule 10A-3 under the U.S. Securities Exchange Act of 1934 as amended, or the Exchange Act, (b) the Company must disclose significant differences in the corporate governance practices followed by the Company as compared to those followed by domestic companies under the NYSE listing standards, (c) the Company's CEO must notify the NYSE of any non-compliance with (a) and (b), and (d) the Company must submit annual and interim written affirmations to the NYSE. The Company's corporate governance practices and those followed by domestic companies under the NYSE listing standards, or NYSE Corporate Governance, have the following significant differences:

1. Directors. The Company currently has two outside directors on its Board of Directors. Unlike NYSE Corporate Governance, the Company Law of Japan and related legislation (hereinafter in Item 16G., the Company Law), do not require Japanese companies with boards of corporate auditors such as the Company to have any outside directors on its Board of Directors. While NYSE Corporate Governance requires that the non-management directors of each listed company meet at regularly scheduled executive sessions without management, the Company currently has no non-management director on its Board of Directors. Unlike NYSE Corporate Governance, the Company Law does not require, and accordingly the Company does not have, an internal corporate organ or committee comprised of only outside directors.

2. Committees. The Company has not established committees responsible for director nomination, corporate governance and executive compensation as required by NYSE Corporate Governance, but it has adopted a system of corporate auditors based on the Company Law and integrated such system into the Company's corporate governance structure. In addition, in connection with such system of corporate auditors, the Company has elected to establish a nomination and compensation committee, which is an optional committee under the Company Law.

Pursuant to the Company Law, the Company's Board of Directors nominates and submits a proposal for appointment of directors for shareholder approval. The shareholders vote on such nomination at the Company's general meeting of shareholders. The Company Law requires that the respective total amount of remuneration, among others, (remuneration, bonus, and other consideration for services related to employment) to be

Edgar Filing: ADVANTEST CORP - Form 20-F

paid to all directors and all corporate auditors must be determined by a resolution of the general meeting of shareholders, unless their remuneration is provided for in the articles of incorporation. The distribution of remuneration among directors is broadly delegated to the Company's Board of Directors and the distribution of remuneration among corporate auditors is determined by the board of corporate auditors.

Table of Contents

3. Audit Committee. The Company avails itself of paragraph (c)(3) of Rule 10A-3 of the Exchange Act, which provides a general exemption from the audit committee requirements to a foreign private issuer with a board of corporate auditors, subject to certain requirements which continue to be applicable under Rule 10A-3.

Consistent with the requirements of the Company Law, the Company elects its corporate auditors through a resolution adopted at a general meeting of shareholders. The Company currently has four corporate auditors, which exceeds the minimum number of corporate auditors required pursuant to the Company Law.

Unlike NYSE Corporate Governance, the Company Law, among others, does not require corporate auditors to establish an expertise in accounting nor are they required to present other special knowledge and experience. Under the Company Law, the board of corporate auditors may determine audit policy, methods to investigate the state of business operations and assets and other matters relating to the execution of duties by corporate auditors, prepare corporate auditors' reports and give consent to proposals of the nomination of corporate auditors and accounting auditors.

The Company currently has two corporate auditors who satisfy the requirements of an outside corporate auditor under the Company Law. Unlike NYSE Corporate Governance, under the Company Law, at least one-half of the corporate auditors of the Company must be outside corporate auditors, which is a person who was not a director, an accounting counselor (if an accounting counselor is a corporation, an employee of such corporation who carries out its duties), executive officer, general manager, or any other employee of the Company or any of its subsidiaries at any time in the past. Corporate auditors may not at the same time be directors, an accounting counselor (if an accounting counselor is a corporation, an employee who carries out its duties), executive officer, general manager, or any other employee of the Company or any of its subsidiaries.

4. Corporate Governance Guidelines. The Company is required to adopt or disclose corporate governance guidelines under Japanese laws and regulations, including the Company Law and the Financial Instruments and Exchange Law of Japan or rules of Tokyo stock exchange. Pursuant to the Company Law, the Company is required to decide to implement a structure as required by an ordinance of the Ministry of Justice (the Internal Control System) in order to ensure directors' compliance with applicable laws and regulations and the Company's articles of incorporation while executing their duties and joint stock companies' proper business operation, and is required to disclose the decision to implement the Internal Control System, policies and the conditions of its corporate governance in its business report, annual securities report and certain other disclosure documents in accordance with the Company Law, the Financial Instruments and Exchange Law, and applicable Cabinet ordinances and rules of Tokyo stock exchange in respect of timely disclosure.

5. Code of Business Conduct and Ethics. Unlike NYSE Corporate Governance, under Japanese law (including the Company Law and the Financial Instruments and Exchange Law of Japan), and the rules of the Tokyo stock exchange, the Company is not required to adopt a code of business conduct and ethics for directors, officers and employees. Accordingly, the Company is not required to adopt and disclose a code of business conduct and ethics for these individuals. However, in accordance with the Company Law, the Company has decided to implement the Internal Control System as a structure to ensure that directors' execution of their duties at meetings of the Board of Directors complies with applicable laws and regulations and the Company's articles of incorporation. Furthermore, the Company has established a code of ethics consistent with Section 406 of the Sarbanes-Oxley Act.

6. Shareholder Approval of Equity Compensation Plans. Unlike NYSE Corporate Governance, in which material revisions to equity-compensation plans of the listed companies are subject to shareholder approval, pursuant to the Company Law, if a joint stock company desires to adopt an equity-compensation plan for directors as compensation to directors other than cash, such company is generally required to obtain shareholder approval by an ordinary resolution. In addition to the above approval, when the Company previously desired to adopt an equity-compensation plan under which stock acquisition rights are granted on favorable terms to the recipient under the plan (except where such

Edgar Filing: ADVANTEST CORP - Form 20-F

rights are granted to all of its shareholders on a pro-rata basis at the same time), the Company has obtained shareholder approval by a special resolution of a general meeting of shareholders, where the quorum is one-third of the total number of voting rights and the approval of at least two-thirds of the voting rights represented at the meeting is required.

Table of Contents

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of

Advantest Corporation

We have audited the accompanying consolidated balance sheets of Advantest Corporation and subsidiaries as of March 31, 2010 and 2009, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended March 31, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Advantest Corporation and subsidiaries at March 31, 2010 and 2009, and the consolidated results of their operations and their cash flows for each of the three years in the period ended March 31, 2010, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Advantest Corporation's internal control over financial reporting as of March 31, 2010, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated June 25, 2010 expressed an unqualified opinion thereon.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of

Advantest Corporation

We have audited Advantest Corporation and subsidiaries' internal control over financial reporting as of March 31, 2010, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Advantest Corporation and subsidiaries' management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Advantest Corporation and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of March 31, 2010, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Advantest Corporation and subsidiaries as of March 31, 2010 and 2009, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended March 31, 2010 and our report dated June 25, 2010 expressed an unqualified opinion thereon.

**ADVANTEST CORPORATION
AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

(1) Description of Business and Summary of Significant Accounting Policies and Practices

(a) Description of Business

The Company and its consolidated subsidiaries (collectively, Advantest) manufacture and sell semiconductor and component test system products and mechatronics-related products such as test handlers and device interfaces. Advantest also engages in research and development activities and provides maintenance and support services associated with these products.

Description of the business by segment is as follows:

The semiconductor and component test system segment provides customers with test system products for the semiconductor industry and the electronic parts industry. Product lines provided in the semiconductor and component test system segment include test systems for memory semiconductors for memory semiconductor devices and test systems for SoC (System-on-a-Chip) semiconductors for non memory semiconductor devices.

The mechatronics system segment provides product lines such as test handlers, mechatronic-applied products for handling semiconductor devices, device interfaces that serve as interfaces with the devices that are measured and operations related to nano-technology products.

The services, support and others segment consists of comprehensive customer solutions provided in connection with the above segments, support services, equipment lease business and others.

(b) Principles of Consolidation

Advantest s consolidated financial statements include financial statements of the Company and its subsidiaries, all of which are wholly-owned. Advantest is not involved with any significant variable interest entities where Advantest is the primary beneficiary, and which require consolidation in accordance with accounting principles generally accepted in the United States (U.S. GAAP). All significant intercompany balances and transactions have been eliminated in consolidation.

(c) Cash Equivalents

Cash equivalents primarily consist of deposits and certificates of deposit with an original maturity of three months or less from the date of purchase. Advantest considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents.

(d) Short-term investments

All highly liquid investments with maturities greater than three months at the date of purchase are classified as short-term investments.

(e) Allowance for Doubtful Accounts

Advantest recognizes an allowance for doubtful accounts to ensure that trade receivables are not overstated due to uncollectability, which represents Advantest's best estimate of the amount of probable credit losses in Advantest's existing trade receivables. An allowance for doubtful accounts is provided at an amount calculated based on historical write off experience and a specific allowance for estimated amounts considered to be uncollectable after reviewing individual factors such as the customer's current financial position, significant changes in the semiconductor industry, other information that is publicly available and the customer's credit worthiness.

Table of Contents

ADVANTEST CORPORATION

AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(f) Inventories

Inventories are stated at the lower of cost or market. Cost is determined using the average cost method.

(g) Investment Securities

Investment securities consist of debt securities, marketable and non-marketable equity securities, and investment in an affiliated company. Fair value is determined based on quoted market prices, projected discounted cash flow or other valuation techniques as appropriate.

Debt and Marketable Equity Securities

Advantest classifies its debt and marketable equity securities as available-for-sale.

Available-for-sale securities are recorded at fair value. Unrealized gains and losses, net of the related tax effect, on available-for-sale securities are excluded from earnings and are reported as a component of accumulated other comprehensive income (loss) until realized. A decline in the fair value of any available-for-sale security below cost that is deemed to be other than temporary results in an impairment loss. The impairment loss is charged to earnings and a new cost basis for the security is established. Dividend and interest income are recognized when earned.

On a periodic basis, Advantest evaluates the available-for-sale securities for possible impairment. Factors considered in assessing whether an indication of other than temporary impairment exists include: the degree of change in ratio of market prices per share to book value per share at the date of evaluation compared to the acquisition date, the financial condition and prospects of each investee company, industry conditions in which the investee company operates, the period of time the fair value of an available-for-sale security has been below the cost basis of the investment and other relevant factors. Advantest generally has the intention and ability to retain available-for-sale securities which it determines that their impairment is not other than temporary for a period of time sufficient to allow for any anticipated recovery in market value. The impairment to be recognized is measured based on the amount by which the carrying amount of the investment exceeds the fair value of the investment.

The cost of a security sold or the amount reclassified out of accumulated other comprehensive income (loss) into earnings is determined by the average cost method.

Non-marketable Equity Securities

Non-marketable equity securities are carried at cost. On a periodic basis, Advantest evaluates these investments for possible impairment. Non-marketable equity securities that have impairment indicators were evaluated to determine whether the investments were impaired and the impairment, if any, is other than temporary. If the impairment is other than temporary, Advantest recognizes an impairment loss to reduce the carrying amount to the fair value and a new cost basis for the security is established.

Investment in an Affiliated Company

Investment in an affiliated company over which Advantest has the ability to exercise significant influence, but does not hold a controlling financial interest, is accounted for by the equity method. All significant intercompany profits have been eliminated.

Table of Contents

ADVANTEST CORPORATION

AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(h) Derivative Financial Instruments

All derivative instruments in the consolidated balance sheets are stated at fair value. The accounting for changes in the fair value (that are, gains or losses) of a derivative instrument depends on whether it has been designated and qualifies as part of a hedging relationship and, if so, the purpose for holding the instrument. If certain conditions are met, entities may elect to designate a derivative instrument as a hedge of exposures to changes in fair values, cash flows, or foreign currencies.

If the hedged exposure is a fair value exposure, the gain or loss on the derivative instrument is recognized in earnings in the period of change together with the offsetting loss or gain on the hedged item attributable to the risk being hedged. If the hedged exposure is a cash flow exposure, the effective portion of the gain or loss on the derivative instrument is reported initially as a component of other comprehensive income (loss) and subsequently reclassified into earnings when the forecasted transaction affects earnings. Any amounts excluded from the assessment of hedge effectiveness as well as the ineffective portion of the gain or loss are reported in earnings immediately. If the derivative instrument is not designated as a hedge, the gain or loss is recognized in earnings in the period of change.

(i) Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation.

Depreciation is computed principally using the declining-balance method for the Company and its domestic subsidiaries. The straight-line method over estimated useful lives of the assets is used for foreign subsidiaries.

The depreciation period for significant assets ranges from 15 years to 50 years for buildings, 4 years to 10 years for machinery and equipment, and 2 years to 5 years for tools, furniture and fixtures.

Depreciation expense was ¥8,216 million, ¥8,035 million and ¥4,101 million for the years ended March 31, 2008, 2009 and 2010, respectively.

(j) Intangible Assets and Other Assets

Edgar Filing: ADVANTEST CORP - Form 20-F

Intangible assets principally consist of goodwill and internal-use computer software. Other assets primary consist of security deposits and others.

Advantest capitalizes certain costs incurred to purchase or develop software for internal-use. Costs incurred to develop software for internal-use are expensed as incurred during the preliminary project stage, which includes costs for making strategic decisions about the project, determining performance and system requirements and vendor demonstration cost. Costs incurred subsequent to the preliminary project stage through implementation are capitalized. Advantest also expenses costs incurred for internal-use software projects in the post implementation stage such as costs for training and maintenance.

Costs incurred to develop software to be included with and sold as part of the Company's Semiconductor Test Systems are capitalized subsequent to the attainment of technological feasibility until the product becomes available for general release to customers. Other development costs are expensed as incurred.

The cost of software is amortized on a straight-line basis over the estimated useful life, which is generally from 3 years to 5 years.

F-11

Table of Contents

ADVANTEST CORPORATION

AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

Business combinations are accounted for using the purchase method. Goodwill and other intangible assets with indefinite useful lives are not subjected to amortization and are tested for impairment at least annually. Intangible assets with definite useful lives are amortized over their respective estimated useful lives and reviewed for impairment.

(k) Impairment of Long-Lived Assets

Advantest reviews impairment of long-lived assets and certain identifiable intangibles with definite useful lives whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In such circumstances, if the carrying value of the asset is less than the estimated undiscounted cash flows expected to be generated by the asset or asset group, we recognize an impairment loss. The impairment loss recognized is the amount by which the carrying amount of the asset or asset group exceeds the fair value.

(l) Accrued Warranty Expenses

Advantest's products are generally subject to warranty, and Advantest provides an allowance for such estimated costs when product revenue is recognized. To provide for future repairs during warranty periods, estimated repair expenses over the warranty period are accrued based on the historical ratio of actual repair expenses to corresponding sales, and any facts and circumstances that occurred.

(m) Accrued Pension and Severance Costs

The Company and certain of its subsidiaries have retirement and severance defined benefit plans covering substantially all of their employees. Prior service benefit and cost, and actuarial gains and losses are recognized in accumulated other comprehensive income (loss) and are amortized using the straight-line method over the average remaining service period of active employees. The funded status, which is the difference between the fair value of plan assets and the projected benefit obligations, of its pension plans is recognized in the consolidated balance sheet, with a corresponding adjustment to accumulated other comprehensive income (loss), net of tax. The adjustment to accumulated other comprehensive income (loss) represents the unrecognized actuarial loss, and unrecognized prior service cost. These amounts will be subsequently recognized as net periodic benefit cost pursuant to Advantest's accounting policy for amortizing such amounts.

(n) Revenue Recognition

General

Advantest recognizes revenue when there is persuasive evidence of an arrangement, delivery has occurred or the services have been rendered, the sales price is fixed or determinable and collection of the related receivable is reasonably assured.

For equipment sales involving software that is more than incidental to the product, revenue is recognized when persuasive evidence of an arrangement exists, delivery has occurred, the sales price is fixed or determinable, and collection of the related receivable is probable. Revenue for the separate elements is only recognized when the functionality of the undelivered element is not essential to the delivered element.

Sales of Products

Sales of products which require installation are recognized when the related installation is completed and other sales recognition criteria are met since the installation is essential to the functionality of the equipment.

Table of Contents

ADVANTEST CORPORATION

AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

When customer acceptance is uncertain, revenue is deferred until customer acceptance has been received. When the final payment is subject to customer acceptance, a portion of revenue for the final payment is deferred until an enforceable claim has become effective.

Sales of products and components which do not require installation service by Advantest is recognized upon shipment if the terms of the sale are free on board (FOB) shipping point or upon delivery if the terms are FOB destination which coincide with the passage of title and risk of loss.

Long-term Service Contracts

Revenue from fixed-price, long-term service contracts is recognized on the straight-line basis over the contract term.

Leasing Income

Revenue from operating leases is primarily recognized on the straight-line basis over the lease term.

Multiple Deliverables

Advantest accounts for multiple element arrangements that consist of non-software or software-related products in accordance with multiple element revenue recognition guidance and industry specific accounting guidance for software and software related transactions.

Advantest obtains and utilizes objective evidence (Vendor-Specific Objective Evidence (VSOE) for software-related products) of fair value to allocate revenue to elements in multiple element arrangements and recognizes revenue when the criteria for revenue recognition have been met for each element. If the criteria are not met, then revenue is deferred until such criteria are met or until the period(s) over which the last undelivered element is delivered. In the absence of objective evidence of fair value of a delivered element, Advantest allocates revenue to the fair value of the undelivered elements and the residual revenue to the delivered elements. The price charged when an element is sold separately generally determines fair value.

(o) Shipping and Handling Costs

Shipping and handling costs totaled ¥1,361 million, ¥819 million and ¥741 million for the years ended March 31, 2008, 2009 and 2010, respectively, and are included in selling, general and administrative expenses in the consolidated statements of operations.

(p) Research and Development Expenses

Research and development expenses totaled ¥30,507 million, ¥23,713 million and ¥17,896 million for the years ended March 31, 2008, 2009 and 2010, respectively, and are expensed as incurred.

(q) Advertising Costs

Advertising costs totaled ¥332 million, ¥410 million and ¥80 million for the years ended March 31, 2008, 2009 and 2010, respectively, and are expensed as incurred.

Table of Contents

ADVANTEST CORPORATION

AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(r) Stock-Based Compensation

Advantest applies the fair-valued-based method of accounting for stock-based compensation and recognizes stock-based compensation expense in the consolidated statements of operations. The cost of employee services received in exchange for an award of equity instruments is measured based on the grant-date fair value of the stock options granted to employees. The cost is recognized on the straight line basis over the period during which an employee is required to provide service in exchange for the award. The Black Scholes pricing model is used to estimate the value of stock options.

Expected dividend yield is determined by the Company's dividend ratio of the past and other associated factors. Risk free interest rate is determined by Japanese government bond yield for the period corresponding to expected life. Expected volatility is determined by historical volatility and trend of the Company's share prices, and other associated factors. Expected life is determined by the Company's option exercise history, post vesting employment termination behavior for similar grants, and other pertinent factors.

(s) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and operating loss carryforwards and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Advantest records a valuation allowance to reduce the deferred tax assets to the amount that is more likely than not to be realized.

Advantest recognizes the financial statement effects of tax positions when it is more likely than not, based on technical merits, that the tax positions will be sustained upon examination by the tax authorities. Benefits from tax positions that meet the more-likely-than-not recognition threshold are measured at the largest amount of benefit that is greater than 50 percent likelihood of being realized upon settlement. Advantest recognizes interest and penalty accruals related to unrecognized tax benefits in income taxes in the consolidated statements of operations.

(t) Net Income (Loss) per Share

Basic net income (loss) per share is calculated by dividing net income (loss) by the weighted average number of shares outstanding during the year. Diluted net income per share is calculated by dividing net income by the sum of the weighted average number of shares plus additional

shares that would have been outstanding if potential dilutive shares had been issued for granted stock options.

(u) Foreign Financial Statements

The financial statements of foreign operations whose functional currency is a local currency are translated into Japanese Yen. Assets and liabilities are translated at the period-end exchange rates and revenues and expenses are translated at the average exchange rate for the period. Resulting translation adjustments are shown as a component of other comprehensive income (loss).

Table of Contents

ADVANTEST CORPORATION

AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

The financial statements of foreign operations whose functional currency is Japanese Yen are remeasured into Japanese Yen. All exchange gains and losses from remeasurement of monetary assets and liabilities denominated in the local currency are included in other income (expense) for the period in which the remeasurement is made.

(v) Foreign Currency Transactions

Assets and liabilities denominated in foreign currencies at the balance sheet date are translated by using the applicable current rate prevailing at that date. All revenue and expenses associated with foreign currencies are translated by using the rate of exchange prevailing when such transactions occur. Those gains (losses) are included in other income (expense) in the accompanying consolidated statements of operations.

Foreign exchange gains (losses) were (¥1,880) million, (¥2,296) million and ¥1,072 million for the years ended March 31, 2008, 2009 and 2010, respectively.

(w) Use of Estimates

Management of Advantest has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the periods to prepare these consolidated financial statements in conformity with U.S. GAAP. Significant items subject to such estimates and assumptions include valuation for trade receivables, inventories, long-lived assets and deferred tax assets, various accruals such as accrued warranty expenses, and assets and obligations related to employees retirement and severance plans. Actual results could differ from those estimates.

(x) New Accounting Standards

In June 2009, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU), which establishes the FASB Accounting Standards Codification (ASC) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with U.S. GAAP. ASC is effective for interim and annual periods ending after September 15, 2009. Advantest adopted ASC in the second quarter beginning July 1, 2009, which did not have an impact on its consolidated results of operations and financial condition. References to pre-codification standards were excluded from footnotes to consolidated financial statements, which were used in conformity with pre-codification U.S. GAAP.

Edgar Filing: ADVANTEST CORP - Form 20-F

In October 2009, the FASB amended the accounting guidance for revenue recognition under multiple-deliverable arrangements. The guidance modifies the criteria for separating deliverables and allocating consideration in multiple-deliverable arrangements. The allocation of revenue is based on estimated selling price if neither vendor-specific objective evidence nor third-party evidence of selling price is available. The guidance is effective for fiscal years beginning on or after June 15, 2010, with early adoption permitted. The guidance is required to be adopted by Advantest in the first quarter beginning April 1, 2011. Advantest is currently evaluating the timing and the effect that this adoption will have on its consolidated results of operations and financial condition.

In October 2009, the FASB amended accounting guidance for software revenue recognition. This guidance changes the accounting model for revenue arrangements that include both tangible products and software elements. It provides guidance on how to determine which software, if any, relating to the tangible product would

F-15

Table of Contents

**ADVANTEST CORPORATION
AND SUBSIDIARIES**

Notes to Consolidated Financial Statements (Continued)

be excluded from the scope of the software revenue guidance. The guidance is effective for fiscal years beginning on or after June 15, 2010, with early adoption permitted. The guidance is required to be adopted by Advantest in the first quarter beginning April 1, 2011. Advantest is currently evaluating the timing and the effect that this adoption will have on its consolidated results of operations and financial condition.

(y) Reclassifications

Certain reclassifications have been made to the prior years consolidated financial statements to conform with the presentation used for the year ended March 31, 2010.

(2) Trade Receivables

Trade receivables at March 31, 2009 and 2010 are as follows:

	Yen (Millions)	
	2009	2010
Notes	¥ 106	2,382
Accounts	10,894	13,794
	11,000	16,176
Less allowance for doubtful accounts	585	246
	¥ 10,415	15,930

(3) Allowance for Doubtful Accounts

Changes in the allowance for doubtful accounts for the years ended March 31, 2008, 2009 and 2010 were as follows:

	Yen (Millions)		
	2008	2009	2010

Edgar Filing: ADVANTEST CORP - Form 20-F

Balance at beginning of year	¥ 205	45	585
Provision for (reversal of) allowance	(160)	558	(255)
Amount written off		(18)	(84)
Balance at end of year	¥ 45	585	246

(4) Inventories

Inventories at March 31, 2009 and 2010 are composed of the following:

	Yen (Millions)	
	2009	2010
Finished goods	¥ 4,305	5,965
Work in process	3,988	7,482
Raw materials and supplies	1,444	3,143
	¥ 9,737	16,590

The amount of inventory write-down, reflecting the decrease in orders input received, included in cost of sales in the accompanying consolidated statements of operations for the year ended March 31, 2009 was ¥8,715 million.

Table of Contents

**ADVANTEST CORPORATION
AND SUBSIDIARIES**

Notes to Consolidated Financial Statements (Continued)

(5) Property, Plant and Equipment

Property, plant and equipment at March 31, 2009 and 2010 are composed of the following:

	Yen (Millions)	
	2009	2010
Land	¥ 16,177	16,152
Buildings	28,089	28,115
Machinery and equipment	13,456	14,222
Tools, furniture and fixtures	15,042	14,737
Construction in progress	3	45
	72,767	73,271
Less accumulated depreciation	38,793	40,390
	¥ 33,974	32,881

During the fourth quarter of the year ended March 31, 2009, Advantest made significant adverse changes to its business forecast and cash flows to be generated by its non-memory semiconductors test system business and mechatronics system business in the future mainly reflecting the deteriorated semiconductor markets including bankruptcy of major semiconductor manufacturers as well as an anticipation for a delayed recovery in the market. Accordingly, Advantest evaluated the carrying value of the long-lived assets related to its non-memory test system business and mechatronics business by projecting undiscounted cash flows of the applicable asset groups. Based on this evaluation, Advantest determined that certain long-lived assets were no longer recoverable and were in fact impaired, and wrote them down to their estimated fair value. The specific long-lived assets included in the impaired asset groups consisted of production facilities with land, buildings, machinery and equipment, tools, furniture and fixtures that were held and used primarily in our non-memory test systems and mechatronics businesses. The amounts of the impairment losses for those long-lived assets included in cost of sales and operating expenses in the accompanying consolidated statements of operations were ¥5,142 million and ¥7,943 million, respectively. Impairment losses were measured as the amount by which the carrying amount of a long lived asset exceeds its fair value. Fair value was determined by using present value techniques mainly based on expected future cash flows to be generated by those asset groups, discounted at the risk-free interest rate.

(6) Intangible Assets

The components of acquired intangible assets excluding goodwill at March 31, 2009 and 2010 were as follows:

Edgar Filing: ADVANTEST CORP - Form 20-F

	Yen (Millions)			
	2009		2010	
	Gross carrying amount	Accumulated amortization	Gross carrying amount	Accumulated amortization
Intangible assets subject to amortization:				
Software	¥ 2,949	2,358	¥ 2,929	2,366
Other	49	39	50	37
Total	¥ 2,998	2,397	¥ 2,979	2,403

Intangible assets not subject to amortization at March 31, 2009 and 2010 were insignificant.

Table of Contents**ADVANTEST CORPORATION****AND SUBSIDIARIES****Notes to Consolidated Financial Statements (Continued)**

Aggregate amortization expense for the years ended March 31, 2008, 2009 and 2010 was ¥620 million, ¥684 million and ¥213 million, respectively. Estimated amortization expense for the next five years ending March 31 is: ¥208 million in 2011, ¥175 million in 2012, ¥117 million in 2013, ¥52 million in 2014, and ¥17 million in 2015, respectively.

Changes in the carrying amount of goodwill for the years ended March 31, 2008, 2009 and 2010 were as follows:

	Yen (Millions)		
	2008	2009	2010
Balance at beginning of year	¥ 1,426	1,426	645
Impairment loss		(781)	
Balance at end of year	¥ 1,426	645	645

Advantest experienced a significant decline in purchase orders of testers due to further deterioration of the semiconductor market during the fourth quarter of the year ended March 31, 2009. This sharp decline was not expected to recover in the near term. Consequently, this led to an impairment of our goodwill for a reporting unit, which was included in the semiconductor and component test system segment, and we wrote it down to its estimated fair value. Fair value was measured primarily utilizing discounted cash flow valuation techniques. The amount of the impairment loss was ¥781 million, which was included in restructuring and impairment charges on the consolidated statements of operations, and the consolidated statements of cash flows for the year ended March 31, 2009. Advantest performed its annual impairment test for goodwill at the reporting unit level and identified no impairment at March 31, 2008 and 2010.

(7) Investment Securities

Debt and marketable equity securities are classified as available-for-sale securities. The acquisition cost, gross unrealized gains, gross unrealized losses and fair value at March 31, 2009 and 2010 were as follows:

	Yen (Millions)		Total
	Equity securities	Debt securities	
Noncurrent:			
Available-for-sale:			
Acquisition cost	¥ 2,890		2,890
Gross unrealized gains	277		277
Gross unrealized losses	152		152

Edgar Filing: ADVANTEST CORP - Form 20-F

Fair value	¥ 3,015		3,015
------------	---------	--	-------

	Yen (Millions) 2010		
	Equity securities	Debt securities	Total
Noncurrent:			
Available-for-sale:			
Acquisition cost	¥ 2,833	411	3,244
Gross unrealized gains	1,468		1,468
Gross unrealized losses	69		69
Fair value	¥ 4,232	411	4,643

F-18

Table of Contents

ADVANTEST CORPORATION
AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

Equity securities consist primarily of stocks issues by Japanese listed companies. Debt securities are redeemable at the option of Advantest, and have no contractual maturity.

Gross realized gains and losses on available-for-sales securities for the years ended March 31, 2008 and 2009 were as follows. No gross gains and losses were realized on available-for-sale securities for the year ended March 31, 2010.

	Yen (Millions) 2008			Yen (Millions) 2009		
	Gross realized gains	Gross realized losses	Net realized gains (losses)	Gross realized gains	Gross realized losses	Net realized gains (losses)
Noncurrent:						
Available-for-sale:						
Equity securities	¥ 8		8	¥ 28		(28)
Debt securities						
Total	¥ 8		8	¥ 28		(28)

Net realized gains and losses based on the averaged cost method are included in other income (expense) in the consolidated statements of operations, and other in net cash provided by (used in) operating activities in the consolidated statements of cash flows.

Proceeds from the sale of available-for-sale securities for the years ended March 31, 2008 and 2009 were ¥10 million and ¥30 million, respectively. There was no proceeds from the sale of available-for-sale securities for the year ended March 31, 2010. For the years ended March 31, 2009 and 2010, Advantest recognized impairment losses of ¥3,022 million and ¥57 million on available-for-sale securities, which were considered other-than-temporarily impaired and wrote them down to the fair value.

Gross unrealized losses on available-for-sale securities and the fair value of the related securities, aggregated by length of time that individual securities have been in a continuous unrealized loss position, at March 31, 2009 and 2010, were as follows:

	Yen (Millions) 2009	
	Less than 12 months	12 months or longer

Edgar Filing: ADVANTEST CORP - Form 20-F

	Fair value	Gross unrealized losses	Fair value	Gross unrealized losses

F-19

Table of Contents

ADVANTEST CORPORATION

AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

Advantest maintains non-marketable equity securities, which are recorded at cost. The carrying amounts of non-marketable equity securities were ¥3,664 million and ¥3,434 million at March 31, 2009 and 2010, respectively. For non-marketable equity securities which Advantest identified events or changes in circumstances that might have had significant adverse effect on the fair value of the investments, the fair value approximates the carrying value. Advantest has not estimated the fair value of other non-marketable equity securities of ¥1,150 million and ¥1,417 million at March 31, 2009 and 2010, respectively, since it is not practicable to estimate the fair value of the investments. It is because of the lack of readily determinable fair values and difficulty in estimating fair value without incurring excessive cost. Non-marketable equity securities that have impairment indicators were evaluated to determine whether the investments were impaired and the impairment, if any, is other than temporary. For the years ended March 31, 2009 and 2010, non-marketable equity securities with a purchase cost of ¥1,104 million and ¥376 million were written down to their fair value of ¥616 million and ¥117 million, resulting in an other-than-temporary impairment charge of ¥488 million and ¥259 million, which was included in impairment losses on investment securities in the accompanying consolidated statements of operations.

(8) Derivative Financial Instruments

Derivative

Advantest uses foreign exchange forward contracts and currency options to manage currency exposure, resulting from changes in foreign currency exchange rates, on trade receivables. However, these contracts do not qualify for hedge accounting since they do not meet the hedging criteria specified in U.S. GAAP.

Foreign exchange contracts generally have terms of several months. These contracts are used to reduce Advantest's risk associated with exchange rate fluctuations, as gains and losses on these contracts are intended to offset exchange losses and gains on underlying exposures. Changes in fair value of foreign exchange contracts are recognized in earnings under the caption of other income (expense).

Advantest does not, as a matter of policy, enter into derivative transactions for the purpose of speculation.

Advantest had foreign exchange contracts to exchange currencies among Japanese yen, US dollar and Euro at March 31, 2009 and 2010. The notional amounts of these contracts at March 31, 2009 and 2010 were as follows:

Yen (Millions)	
2009	2010

Edgar Filing: ADVANTEST CORP - Form 20-F

Foreign exchange contracts	763	3,041
----------------------------	-----	-------

The fair value of derivative instruments not designated as hedging instruments under U.S. GAAP at March 31, 2009 and 2010 were as follows:

	Yen (Millions)			
	2009 Balance Sheet Location	Fair Value	2010 Balance Sheet Location	Fair Value
Assets				
Foreign exchange contracts	Other current assets	4	Other current assets	0
Liabilities				
Foreign exchange contracts	Other current liabilities	0	Other current liabilities	29

Table of Contents**ADVANTEST CORPORATION****AND SUBSIDIARIES****Notes to Consolidated Financial Statements (Continued)**

A loss of ¥278 million was recognized in earnings on foreign exchange contracts, which was included in other income (expense) for the three months ended March 31, 2009.

The effect of derivative instruments not designated as hedging instruments under U.S. GAAP on consolidated statements of operations for the year ended March 31, 2010 was as follows:

	Yen (Millions)	
	Location of gain (loss) recognized in income on derivative	Amount of gain (loss) recognized in income on derivative
Foreign exchange contracts	Other income (expense)	361

Concentration of credit risk

Derivative financial instruments contain an element of risk in the event the counterparties are unable to meet the terms of the agreements. However, Advantest minimizes risk exposure by limiting the counterparties to major international banks and financial institutions meeting established credit guidelines. Management of Advantest does not expect any counterparty to default on its obligations and, therefore, does not expect to incur any losses due to counterparty default on its obligations.

Advantest generally does not require or place collateral for these derivative financial instruments.

(9) Fair Value Measurement**Disclosure about the fair value of Financial Instruments**

The following table presents the carrying amounts and estimated fair values of Advantest's financial instruments at March 31, 2009 and 2010, except for cash and cash equivalents, short-term investments, trade receivables, other current assets, trade accounts payable, other accounts payable and accrued expenses for which fair value approximate their carrying amounts. Fair value estimates are made at a specific point in time based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve

Edgar Filing: ADVANTEST CORP - Form 20-F

uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

	Yen (Millions)			
	2009		2010	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets:				
Investment securities for which it is practicable to estimate fair value	¥ 3,015	3,015	¥ 4,643	4,643
Foreign exchange contracts	4	4	0	0
Financial liabilities:				
Foreign exchange contracts	0	0	29	29

The carrying amounts of investment securities for which it is practicable to estimate fair value is included in the consolidated balance sheets under investment securities. The carrying amounts of foreign exchange contracts are included in other current assets and other current liabilities.

Table of Contents

ADVANTEST CORPORATION

AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Cash and cash equivalents, short-term investments, trade receivables, other current assets, trade accounts payable, other accounts payable and accrued expenses (nonderivatives): The carrying amounts approximate fair value because of the short maturity of these instruments.

Available-for-sale securities: The fair values of available-for-sale equity securities are based on quoted market prices at the reporting date for those investments. The fair values of available-for-sale debt securities are based on unobservable inputs as the market for the assets was not active at the measurement date.

Foreign exchange contracts: The fair value of foreign exchange contracts are estimated by obtaining quotes from financial institutions.

Fair Value Hierarchy

US GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Additionally the inputs to valuation techniques used to measure fair value are prioritized into the following three levels:

Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 Observable inputs other than quoted prices included within Level 1 for the asset or liability, either directly or indirectly.

Level 3 Unobservable inputs for the asset or liability.

Assets/Liabilities Measured at Fair Value on a Recurring Basis

Edgar Filing: ADVANTEST CORP - Form 20-F

As of March 31, 2009 and 2010, carrying amount of financial assets and liabilities that were measured at fair value on a recurring basis by level are as follows:

	Yen (Millions) Fair Value Measurements at March 31, 2009			
	Total	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Financial Assets				
Available-for-sale equity securities	3,015	3,015		
Foreign exchange contracts	4		4	
Total assets measured at fair value	3,019	3,015	4	
Financial Liabilities				
Foreign exchange contracts	0		0	
Total liabilities measured at fair value	0		0	

Table of Contents

**ADVANTEST CORPORATION
AND SUBSIDIARIES**

Notes to Consolidated Financial Statements (Continued)

	Yen (Millions) Fair Value Measurements at March 31, 2010			
	Total	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Financial Assets				
Available-for-sale equity securities	4,232	4,232		
Available-for-sale debt securities	411			411
Foreign exchange contracts	0		0	
Total assets measured at fair value	4,643	4,232	0	411
Financial Liabilities				
Foreign exchange contracts	29		29	
Total liabilities measured at fair value	29		29	

The table does not include assets and liabilities which are measured at historical cost or any basis other than fair value. Advantest's financial assets and liabilities measured at fair value consist of available-for-sale debt and equity securities and foreign exchange contracts. Adjustments to fair value of available-for-sale debt and equity securities are recorded as an increase or decrease, net of tax, in accumulated other comprehensive income (loss) except where losses are considered to be other than temporary, in which case the losses are recorded in impairment losses on investment securities. Changes in fair value of foreign exchange contracts are recognized in earnings under the caption of other income (expense).

Advantest acquired the Level 3 asset during the fourth quarter of the year ended March 31, 2010. Fair value of the Level 3 asset approximates the acquisition cost.

Changes in the Level 3 financial assets and liabilities measured on a recurring basis for the year ended March 31, 2010 are as follows:

	Yen (Millions) 2010	
	Debt Securities ¥	Total
Balance at beginning of year		
Purchases, issuances and settlements	411	411

Balance at end of year	¥ 411	411

Assets/Liabilities Measured at Fair Value on a Nonrecurring Basis

As of March 31, 2009 and 2010, carrying amount of financial assets and liabilities, which was measured at fair value on a nonrecurring basis by level during the years ended March 31, 2009 and 2010, is as follows:

	Yen (Millions) Fair Value Measurements at March 31, 2009				Total gains (losses) for the year ended March 31, 2009
	Total	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Financial Assets					
Non-marketable equity securities	616		616		(488)
Total gains (losses) for assets held as of March 31, 2009					(488)

	Yen (Millions) Fair Value Measurements at March 31, 2010				Total gains (losses) for the year ended March 31, 2010
	Total	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Financial Assets					
Non-marketable equity securities	117			117	(259)
Total gains (losses) for assets held as of March 31, 2010					(259)

The fair value of non-marketable equity securities is based on quoted prices in markets that are not active at the reporting date, or present value of expected future cash flows for those investments.

(10) Leases Lessor

Advantest provides leases that enable its customers to use semiconductor test systems. All leases are classified as operating leases. Lease terms range from 1 year to 5 years, and certain of the lease agreements are cancelable. The gross amount of machinery and equipment and the related accumulated depreciation under operating leases as of March 31, 2009 and 2010 were as follows:

	Yen (Millions)	
	2009	2010
Machinery and equipment	¥ 5,311	5,738
Less accumulated depreciation	3,845	3,842
	¥ 1,466	1,896

Depreciation of machinery and equipment held under operating leases is included with depreciation expense. These assets are included in property, plant and equipment.

Table of Contents

ADVANTEST CORPORATION
AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

Future minimum lease income under noncancelable operating leases as of March 31, 2010 is as follows:

Year ending March 31	Yen (Millions)
2011	¥ 1,037
2012	164
2013	57
2014	8
Total minimum lease income	¥ 1,266

(11) Leases Lessee

Advantest has several noncancelable operating leases, primarily for office space and office equipment. Rent expense, including rental payments for cancelable leases, for the years ended March 31, 2008, 2009 and 2010 was ¥1,524 million, ¥1,618 million and ¥1,227 million, respectively.

Future minimum lease payments under noncancelable operating leases (with initial or remaining lease terms in excess of one year) as of March 31, 2010 are as follows:

Year ending March 31	Yen (Millions)
2011	¥ 361
2012	216
2013	164
2014	131
2015	134
Thereafter	286
Total minimum lease payments	¥ 1,292

(12) Income Taxes

Edgar Filing: ADVANTEST CORP - Form 20-F

The components of income before income taxes and equity in earnings (loss) of affiliated company and provision (benefit) for income taxes as shown in the consolidated statements of operations are as follows:

	Yen (Millions)		
	2008	2009	2010
Income before income taxes and equity in earnings (loss) of affiliated company:			
The Company and domestic subsidiaries	¥ 9,272	(55,246)	(13,376)

	¥ 6,889	21,994	1,457

Table of Contents

ADVANTEST CORPORATION
AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

The Company and its domestic subsidiaries are subject to a number of income taxes, which in the aggregate resulted in statutory income tax rate of 40.4%, 40.4% and 40.5% for the years ended March 31, 2008, 2009 and 2010, respectively.

A reconciliation of the Japanese statutory income tax rate and the effective income tax rate as a percentage of income before income taxes is as follows:

	2008	2009	2010
Statutory tax rate	40.4%	40.4%	40.5%
Increase (decrease) in income taxes resulting from:			
Earnings of foreign subsidiaries taxed at different rate from the statutory rate in Japan	(8.1)	(0.7)	2.1
Tax credits	(7.4)	4.2	(5.5)
Expenses not deductible for tax purposes	0.6	(0.3)	(0.8)
Undistributed earnings of foreign subsidiaries	4.7	2.2	1.1
Change in valuation allowance		(85.5)	(52.3)
Other, net	(0.9)	(2.0)	0.2
	29.3%	(41.7)%	(14.7)%

The tax effects of temporary differences that give rise to significant portions of the deferred tax assets and deferred tax liabilities at March 31, 2009 and 2010 are presented below.

	Yen (Millions)	
	2009	2010
Deferred tax assets:		
Inventories	¥ 7,510	5,682
Accrued warranty expenses	1,197	1,092
Accrued pension and severance costs	5,829	5,621
Accrued expenses	527	988
Research and development expenses capitalized for tax purposes	3,742	3,362
Operating loss carryforwards	18,169	27,231
Property, plant and equipment and intangible assets	6,579	4,355
Tax credits	3,579	3,012
Other	2,460	1,579
Total gross deferred tax assets	49,592	52,922
Less valuation allowance	(48,015)	(51,289)

Net unrealized gains on marketable securities	(44)	(587)
Undistributed earnings of foreign subsidiaries	(2,459)	(2,354)
Other	(2)	
Total gross deferred tax liabilities	(2,505)	(2,941)
Net deferred tax assets (liabilities)	¥ (928)	(1,308)

F-26

Table of Contents

**ADVANTEST CORPORATION
AND SUBSIDIARIES**

Notes to Consolidated Financial Statements (Continued)

At March 31, 2009 and 2010, deferred tax liabilities were provided for all foreign subsidiaries with undistributed earnings.

Included in other current assets and other assets are deferred tax assets of ¥683 million and ¥543 million at March 31, 2009 and 2010, respectively.

Included in other current liabilities and other liabilities are deferred tax liabilities of ¥1,611 million and ¥1,851 million at March 31, 2009 and 2010, respectively.

At March 31, 2010, Advantest had total net operating loss carry forwards for income tax purposes of ¥67,480 million which are available to reduce future income taxes. Operating losses of ¥66,432 million attributable to the Company and domestic subsidiaries in Japan will expire during the years ending March 31, 2015 and 2017. Other net operating losses of ¥1,048 million have no expiration dates. Net operating loss carryforwards utilized during the years ended March 31, 2008 and 2010 were ¥1,046 million and ¥2,421 million, respectively. There was no utilized amount during the year ended March 31, 2009.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon projections for future taxable income over the periods in which the deferred tax assets are deductible including management's expectations of future semiconductor market and semiconductor and component test systems market prospects and other factors, management believes it is more likely than not that Advantest will realize the benefits of these deductible differences, net of valuation allowance.

The net increase (decrease) in valuation allowance for the years ended March 31 were as follows.

	Yen (Millions)		
	2008	2009	2010
Balance at beginning of year			48,015
Additions		48,015	3,274
Reductions			
Balance at end of year		48,015	51,289

Edgar Filing: ADVANTEST CORP - Form 20-F

During the fiscal year ended March 31, 2009, Advantest established a valuation allowance as deferred tax assets were no longer considered to be realizable based upon projections for future taxable income over which the deferred tax assets are deductible. For the year ended March 31, 2010, valuation allowance increased primarily due to an increase in net operating loss carryforwards, which partially offset by decreases in deferred tax assets associated with inventory and property, plant and equipment.

The amount of the deferred tax assets considered realizable, however, could be changed in the near term if estimates of future taxable income are revised and the effect on the company's consolidated financial position and results of operations could be significant.

A reconciliation of the beginning and ending amount of unrecognized tax benefits for the year ended March 31, 2008 is as follows. There were no unrecognized tax benefits for the years ended March 31, 2009 and 2010.

F-27

Notes to Consolidated Financial Statements (Continued)

	Yen (Millions) 2008
Balance at April 1, 2007	¥ 238
Additions for tax positions of prior years	
Reductions for tax positions of prior years	
Additions for tax positions of the current year	
Reductions for tax positions of the current year	
Reductions by settlements	(238)
Lapse of the applicable statute of limitations	
Balance at March 31, 2008	

Although Advantest believes its estimates and assumptions of unrecognized tax benefits are reasonable, uncertainty regarding the final determination of tax audit settlements and any related litigation could affect the effective tax rate in the future periods. Advantest does not have any unrecognized tax benefits that would affect the effective tax rate. As of March 31, 2010, Advantest does not expect changes in its tax positions that would significantly increase or decrease unrecognized tax benefits within next 12 months.

Advantest files income tax returns in Japan and various foreign tax jurisdictions. As of March 31, 2010, Advantest has open tax years beginning April 1, 2007 for Japan, 2009 for Taiwan, and 2006 for the United States.

(13) Other Comprehensive Income (Loss)

The accumulated balances for each classification of other comprehensive income (loss), net of tax, for the years ended March 31, 2008, 2009 and 2010 are as follows:

The number of granted shares totaled 1,578,000. Options were granted with an exercise price of ¥5,880 per share that is equal to the higher of (1) 1.05 times the average price of the Company's common shares of the preceding month on the date of grant and (2) the closing price of the Company's common shares traded on the Tokyo Stock Exchange on the date of grant. The options have an exercise period of 4 years and are exercisable from April 1, 2007.

In December 2006, stock options were issued to certain employees of foreign subsidiaries under a stock option plan approved by the Board of Directors. The number of granted shares totaled 8,000. Options were granted with an exercise price of ¥6,218 per share that is equal to the higher of (1) 1.05 times the average price of the Company's common shares of the preceding month on the date of grant, (2) the closing price of the Company's common shares traded on the Tokyo Stock Exchange on the date of grant and (3) ¥5,880 per share that is equal to the exercise price of the July 2006 options. The options have an exercise period of 4 years and are exercisable from April 1, 2007.

In July 2007, stock options were issued to directors, executive officers, corporate auditors and certain employees of the Company and its subsidiaries under a stock option plan approved by the Board of Directors. The number of granted shares totaled 777,000. Options were granted with an exercise price of ¥5,563 per share that is equal to the higher of (1) 1.05 times the average price of the Company's common shares of the preceding month on the date of grant and (2) the closing price of the Company's common shares traded on the Tokyo Stock Exchange on the date of grant. The options have an exercise period of 4 years and are exercisable from April 1, 2008.

In September 2007, stock options were issued to certain employees of foreign subsidiaries under a stock option plan approved by the Board of Directors. The number of granted shares totaled 2,000. Options were granted with an exercise price of ¥5,563 per share that is equal to the higher of (1) 1.05 times the average price of the Company's common shares of the preceding month on the date of grant, (2) the closing price of the Company's common shares traded on the Tokyo Stock Exchange on the date of grant and (3) ¥5,563 per share that is equal to the exercise price of the July 2007 options. The options have an exercise period of 4 years and are exercisable from April 1, 2008.

In February 2008, stock options were issued to certain employees of foreign subsidiaries under a stock option plan approved by the Board of Directors. The number of granted shares totaled 1,000. Options were granted with an exercise price of ¥5,563 per share that is equal to the higher of (1) 1.05 times the average price of the Company's common shares of the preceding month on the date of grant, (2) the closing price of the Company's common shares traded on the Tokyo Stock Exchange on the date of grant and (3) ¥5,563 per share that is equal to the exercise price of the July 2007 options. The options have an exercise period of 4 years and are exercisable from April 1, 2008.

In July 2008, stock options were issued to directors, executive officers, corporate auditors and certain employees of the Company and its subsidiaries under a stock option plan approved by the Board of Directors. The number of granted shares totaled 704,000. Options were granted with an exercise price of ¥2,653 per share that is equal to the higher of (1) 1.05 times the average price of the Company's common shares of the preceding month on the date of grant and (2) the closing price of the Company's common shares traded on the Tokyo Stock Exchange on the date of grant. The options have an exercise period of 4 years and are exercisable from April 1, 2009.

Table of Contents**ADVANTEST CORPORATION****AND SUBSIDIARIES****Notes to Consolidated Financial Statements (Continued)**

In April 2009, stock options were issued to certain employees of foreign subsidiaries under a stock option plan approved by the Board of Directors. The number of granted shares totaled 12,000. Options were granted with an exercise price of ¥2,653 per share that is equal to the higher of (1) 1.05 times the average price of the Company's common shares of the preceding month on the date of grant, (2) the closing price of the Company's common shares traded on the Tokyo Stock Exchange on the date of grant and (3) ¥2,653 per share that is equal to the exercise price of the July 2008 options. The options have an exercise period of 4 years and are exercisable from May 1, 2009.

In July 2009, stock options were issued to directors, executive officers and corporate auditors of the Company under a stock option plan approved by the Board of Directors. The number of granted shares totaled 338,000. Options were granted with an exercise price of ¥1,844 per share that is equal to the higher of (1) 1.05 times the average price of the Company's common shares of the preceding month on the date of grant and (2) the closing price of the Company's common shares traded on the Tokyo Stock Exchange on the date of grant. The options have an exercise period of 4 years and are exercisable from April 1, 2010.

The exercise price of the stock options is subject to adjustment, if there is a stock split or consolidation of shares, or if new shares are issued or treasury stocks are sold at a price that is less than the market price.

Stock option activity during the years ended March 31, 2008, 2009 and 2010 is as follows:

	2008		2009		2010	
	Number of shares	Weighted average exercise price	Number of shares	Weighted average exercise price	Number of shares	Weighted average exercise price
Outstanding at beginning of year	4,297,980	¥ 4,582	4,515,980	¥ 4,940	3,938,980	¥ 4,804
Granted	780,000	5,563	704,000	2,653	350,000	1,872
Exercised	(178,000)	2,845				
Expired	(298,000)	2,600	(836,000)	3,732	(1,117,980)	4,309
Forfeited	(86,000)	5,163	(445,000)	4,798	(111,000)	4,854
Outstanding at end of year	4,515,980	4,940	3,938,980	4,804	3,060,000	4,647
Exercisable at end of year	3,743,980	¥ 4,811	3,265,980	¥ 5,247	2,722,000	¥ 4,995

Stock based compensation expense recognized was ¥858 million, ¥248 million and ¥143 million, which was included in selling, general and administrative expenses for the years ended March 31, 2008, 2009 and 2010, respectively. The recognized tax benefits were ¥252 million, ¥76 million and ¥53 million for the years ended March 31, 2008, 2009 and 2010, respectively. As of March 31, 2009 and 2010, a valuation allowance was recorded against related deferred tax asset.

Edgar Filing: ADVANTEST CORP - Form 20-F

The weighted average fair value per share for stock options that were granted during the years ended March 31, 2008, 2009 and 2010 were ¥1,112, ¥369 and ¥409, respectively. These figures were calculated based on the Black Scholes option pricing model by using the following weighted average estimates:

	2008	2009	2010
Expected dividend yield	0.7%	2.1%	2.6%
Risk free interest rate	1.3%	0.9%	0.5%
Volatility	31.0%	37.4%	45.3%
Expected life	3.4 years	3.7 years	3.8 years

AND SUBSIDIARIES**

Notes to Consolidated Financial Statements (Continued)

Cash proceeds from option exercises under the Company's stock option plans for the year ended March 31, 2008 were ¥ 506 million. No stock options were exercised for the years ended March 31, 2009 and 2010. The total fair value of shares vested during the years ended March 31, 2008, 2009 and 2010 was ¥ 2,338 million, ¥ 858 million and ¥ 251 million, respectively. The total intrinsic values of options exercised for the year ended March 31, 2008 was ¥ 158 million. No intrinsic value of options exercised was recognized for the years ended March 31, 2009 and 2010.

At March 31, 2010, all of the outstanding stock options were as follows:

Exercise price	Number of options	Outstanding		Number of options	Exercisable	
		Weighted average exercise price	Weighted average remaining contractual life		Weighted average exercise price	Weighted average remaining contractual life
1,844 - 2,653	1,017,000	2,384	3.3 years	679,000	2,653	3.0 years
5,563 - 6,702	2,043,000	5,774	1.3 years	2,043,000	5,774	1.3 years
	3,060,000	4,647	2.0 years	2,722,000	4,995	1.8 years

At March 31, 2010, the aggregate intrinsic value for the options outstanding was ¥ 167 million, and there was no aggregate intrinsic value for the options exercisable.

(15) Accrued Pension and Severance Costs

The Company and certain of its subsidiaries have unfunded retirement and severance plans (point-based benefits system). Under a point-based benefits system, the benefits are calculated based on accumulated points allocated to employees each year according to their job classification and their performance.

The Company and its subsidiaries also have a defined benefit corporate pension plan covering substantially all employees. Under the cash balance pension plan, the benefits are calculated based on accumulated points allocated to employees each year according to their job classification and their performance with a certain interest rate calculated based on the upper and lower limit of a market interest rate.

Edgar Filing: ADVANTEST CORP - Form 20-F

Information about the retirement and severance plans of Advantest for the years ended March 31 is as follows:

	Yen (Millions)		
	2008	2009	2010
Components of net periodic benefit cost:			
Service cost	¥ 1,543	1,419	1,309
Interest cost	672	700	745
Expected return on plan assets	(850)	(343)	(280)
Amortization of unrecognized:			
Net actuarial (gain) or loss	61	284	560
Prior service (benefit) cost	(210)	(210)	(176)
Other		137	
Net periodic benefit cost	¥ 1,216	1,987	2,158

Notes to Consolidated Financial Statements (Continued)

The estimated prior service cost and actuarial loss for the defined benefit pension plans that will be amortized from accumulated other comprehensive income (loss) into net periodic benefit cost over the next year are summarized as follow:

	Yen (Millions)	
Actuarial loss	¥	487
Prior service benefit		(176)
		311

Pension plans with accumulated benefit obligations in excess of plan assets at March 31, 2009 and 2010 are summarized as follows:

	Yen (Millions)	
	2009	2010
Projected benefit obligation	¥ 32,805	33,331
Accumulated benefit obligation	31,941	32,461
Fair value of plan assets	18,691	19,427

Other information about the retirement and severance plans of Advantest is as follows:

Measurement date:

The measurement date for the pension plans is March 31.

Assumptions:

Weighted-average assumptions used to determine benefit obligations as of March 31:

Edgar Filing: ADVANTEST CORP - Form 20-F

	2009	2010
Discount rate	2.3%	2.2%
Rate of compensation increase	3.0%	3.0%

Weighted-average assumptions used to determine net periodic benefit cost for the years ended March 31:

	2008	2009	2010
Discount rate	2.1%	2.1%	2.3%
Expected return on plan assets	3.5%	1.5%	1.5%
Rate of compensation increase	3.0%	3.0%	3.0%

Advantest determines the expected return based on the asset portfolio, historical returns and estimated future returns.

Plan assets:

Advantest's investment policies are designed to ensure adequate plan assets are available to provide future payments of pension benefits to eligible participants by attaining necessary long-term total returns on plan assets. Taking into consideration the expected returns, associated risks and correlations of returns between asset categories in plan assets, Advantest determines an optimal combination of equity, debt securities and other

Table of Contents**ADVANTEST CORPORATION****AND SUBSIDIARIES****Notes to Consolidated Financial Statements (Continued)**

investments as Policy Asset Allocation (PAA). Plan assets are invested in accordance with PAA with mid-term to long-term viewpoint, which is revised periodically to the extent considered necessary to achieve the expected long-term rate of return on plan assets.

Advantest s domestic benefit plans weighted-average asset allocation at March 31, 2009 and 2010 by asset category are as follows:

	2009	2010	Target
Equity securities	30.1%	45.8%	45.0%
Debt securities	30.9	29.4	30.0
Cash	7.9	2.0	2.0
Life insurance company general accounts	13.8	10.3	10.0
Other	17.3	12.5	13.0
	100.0%	100.0%	100.0%

The three levels of inputs that may be used to measure fair value of plan assets are as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets.

Level 2: Observable inputs other than quoted prices included within Level 1 for the assets, either directly or indirectly.

Level 3: Unobservable inputs for the assets.

	Yen (Millions)			
	Fair Value Measurements at March 31, 2010			
	Total	(Level 1)	(Level 2)	(Level 3)
Cash and cash equivalents	384	384		
Equity securities:				
Japanese companies	1,570	1,570		
Pooled funds (a)	7,319		7,319	
Debt securities:				

Edgar Filing: ADVANTEST CORP - Form 20-F

Pooled funds (b)	5,716		5,716	
Hedge funds (c)	2,433		301	2,132
Life insurance company general accounts	2,005		2,005	
Total	19,427	1,954	15,341	2,132

- (a) These funds invest in listed equity securities consisting of approximately 65% Japanese listed companies and 35% foreign listed companies. This category includes both long and short positions aggregating ¥2,486 million, invested in Japanese listed companies equity.
- (b) These funds invest in approximately 45% Japanese government bonds, 40% foreign government bonds, 10% Japanese municipal bonds, and 5% Japanese corporate bonds.
- (c) These hedge funds invest in stock price index futures / options, bond futures / options, bonds and private equity and others.

F-36

Table of Contents

**ADVANTEST CORPORATION
AND SUBSIDIARIES**

Notes to Consolidated Financial Statements (Continued)

Level 1 assets are comprised principally of listed equity securities, which are valued based on quoted market prices at the reporting date for those investments.

Level 2 assets are comprised principally of pooled funds and investments in life insurance company general accounts. Pooled funds are valued at their net asset values that are calculated by the sponsors of the funds. Investments in life insurance company general accounts are valued at conversion value.

Level 3 assets are comprised of hedge funds, which are valued at their net asset values that are calculated by the sponsors of the funds.

Changes in the Level 3 plan assets for the year ended March 31, 2010 are as follows:

	Yen (Millions) 2010	
	Hedge funds	Total
Balance at beginning of year	¥ 1,248	1,248
Net realized / unrealized gain (loss)	90	90
Purchases, issuances and settlements	794	794
Transfer in and / or out of Level 3		
Balance at end of year	¥ 2,132	2,132

Cash flows:

Advantest expects to contribute ¥1,644 million to its domestic defined benefit plans during the year ending March 31, 2011.

Estimated future benefit payments:

The following benefit payments, which reflect expected future service, as appropriate, are estimated as follows:

Year ending March 31 2011	Yen (Millions) ¥
	604

Edgar Filing: ADVANTEST CORP - Form 20-F

2012	716
2013	858
2014	903
2015	917
2016 through 2020	6,360

During the fourth quarter of the year ended March 31, 2009, Advantest offered its employees an early retirement program and employees who applied the program terminated their services prior to March 31, 2009. Advantest recognized a liability and an expense when the employees accepted the offer and the amount was reasonably estimated. Accordingly, Advantest recorded a voluntary termination benefit of ¥5,064 million, which is included in restructuring and impairment charges in the accompanying consolidated statements of operations for the year ended March 31, 2009.

(16) Stockholders' Equity

Changes in the number of shares issued and treasury stock during the years ended March 31, 2008, 2009 and 2010 are as follows:

	Total shares of common stock	Shares of treasury stock
Number of shares as of April 1, 2007	199,566,770	11,916,485
Purchase of shares		9,102,570
Exercise of stock options		(178,000)
Sale of shares		(334)
Number of shares as of March 31, 2008	199,566,770	20,840,721
Purchase of shares		3,497
Sale of shares		(920)
Number of shares as of March 31, 2009	199,566,770	20,843,298
Purchase of shares		2,112
Sale of shares		(232)
Number of shares as of March 31, 2010	199,566,770	20,845,178

The Corporation Law of Japan provides that an amount equal to 10% of distributions paid by the Company shall be appropriated as additional paid-in capital or a legal reserve until the total amount of the additional paid-in capital and the legal reserve equals to 25% of common stock. Certain foreign subsidiaries are also required to appropriate their earnings to legal reserves under the laws of the respective countries.

Cash dividends for the years ended March 31, 2008, 2009 and 2010 represent dividends paid out during those years. The accompanying consolidated financial statements do not include any provision for a dividend of ¥5 per share, aggregating ¥894 million for the second-half of the year ended March 31, 2010, subsequently proposed by the Board of Directors.

The amount available for future payment of dividends is determined under the Corporation Law of Japan and amounted to ¥56,213 million at March 31, 2010.

(17) Accrued Warranty Expenses

Advantest issues contractual product warranties under which it generally guarantees the performance of products delivered and services rendered for a certain period. Changes in accrued warranty expenses for the years ended March 31, 2008, 2009 and 2010 were summarized as follows:

	Yen (Millions)		
	2008	2009	2010
Balance at beginning of year	¥ 4,135	3,143	2,811

(18) Operating Segment and Geographic Information

Advantest manufactures and sells semiconductor and component test system products and mechatronics-related products such as test handlers and device interfaces. Advantest also engages in research and development activities and provides maintenance and support services associated with these products. Advantest's organizational structure consisted of three reportable operating segments, which are the design, manufacturing, and sale of semiconductor and component test systems, mechatronics systems and services, support and others. These reportable operating segments are determined based on the nature of the products and the markets. Segment information is prepared on the same basis that Advantest's management reviews financial information for operational decision making purposes.

The semiconductor and component test system segment provides customers with test system products for the semiconductor industry and the electronic parts industry. Product lines provided in the semiconductor and component test system segment include test systems for memory semiconductors for memory semiconductor devices and test systems for SoC semiconductors for non memory semiconductor devices.

The mechatronics system segment provides product lines such as test handlers, mechatronic-applied products, for handling semiconductor devices, device interfaces that serve as interfaces with the devices that are measured and operations related to nano-technology products.

The services, support and others segment consists of comprehensive customer solutions provided in connection with the above segments, support services, equipment lease business and others.

Fundamental research and development activities and headquarters functions are represented by Corporate.

Operating segment information during the years ended March 31, 2008, 2009 and 2010 is as follows:

	Yen (Millions)				Total
	Semiconductor and Component Test System Business	Mechatronics System Business	Services, Support and Others	Elimination and Corporate

Expenditures for additions to long- lived assets	942	396	1,856	231	3,425
Total assets	38,782	10,478	11,474	127,929	188,663

Adjustments to operating income (loss) in Corporate principally represent corporate general and administrative expenses and research and development expenses related to fundamental research activities that are not allocated to operating segments.

Advantest uses the operating income (loss) before stock option compensation expenses for management's analysis of business segment results.

Edgar Filing: ADVANTEST CORP - Form 20-F

Additions to long-lived assets included in Corporate consist of purchases of software and fixed assets for general corporate use.

Total assets included in Corporate consist of cash and cash equivalents, assets for general corporate use and assets used for fundamental research activities, which are not allocated to reportable segments.

One customer and its related entities mainly in the semiconductor and component test system segment and the mechatronics system segment accounted for approximately 4%, 24% and 20% of total consolidated net sales

for the years ended March 31, 2008, 2009 and 2010, respectively. Another customer accounted for approximately 9%, 14% and 6% for the years ended March 31, 2008, 2009 and 2010, respectively.

Information as to Advantest's net sales and long-lived assets in various geographical areas is as follows:

Net sales to unaffiliated customers for the years ended March 31, 2008, 2009 and 2010 are as follows:

	Yen (Millions)		
	2008	2009	2010
Japan	¥ 56,032	24,734	11,976
Americas	9,616	11,759	4,930
Europe	8,859	2,844	2,137
Asia	108,260	37,315	34,182
Total	¥ 182,767	76,652	53,225

Net sales to unaffiliated customers are based on the customer's location. Net sales indicated as Asia are generated in Taiwan, Korea and China and others in the amount of ¥56,122 million, ¥35,967 million and ¥16,171 million for the year ended March 31, 2008, ¥10,240 million, ¥14,074 million and ¥13,001 million for the year ended March 31, 2009, and ¥12,805 million, ¥10,334 million and ¥11,043 million for the year ended March 31, 2010, respectively. Substantially all net sales indicated as Americas are generated in the United States of America.

Long-lived assets as of March 31, 2008, 2009 and 2010 are as follows:

	Yen (Millions)		
	2008	2009	2010
Japan	¥ 49,006	31,723	31,067
Americas	161	108	219
Europe	592	634	606
Asia	4,483	2,979	2,434
Total	¥ 54,242	35,444	34,326

Long-lived assets are those assets located in each geographic area.

There is no individually material country with respect to long-lived assets outside Japan. Substantially all long-lived assets indicated as Americas are located in the United States of America. The significant portion of long-lived assets in Asia is located in Singapore.

(19) Related Party Transactions

Advantest sells products to and purchases raw materials from Fujitsu Limited, its 11.3% stockholder as of March 31, 2010 and its group companies (collectively, Fujitsu). The terms of sales are the same as those with third parties. Advantest purchases raw materials after receiving competitive bids from several suppliers. Advantest also purchases various software products for internal use, information system related services,

research and development materials and services from Fujitsu. Advantest had the following transactions with Fujitsu as of and for the years ended March 31:

	Yen (Millions)		
	2008	2009	2010
Sales of products	¥ 5,395	1,659	2,085
Purchases of raw materials	6,153	2,501	4,065
Receivables	1,515	418	826
Payables	1,964	1,021	2,372
Purchases of software, hardware and others	230	60	199
Research and development expenses, computer rentals, maintenance and other expenses	3,083	1,839	1,056
Investment	1,035		

Advantest invested ¥1,035 million for the year ended March 31, 2008, in common stock and class stock of e-Shuttle, Inc., a subsidiary of Fujitsu. Advantest is holding approximately 35% of common stock of e-Shuttle, Inc. since the initial investment, which is accounted for by equity method of accounting.

(20) Per Share Data

The following table sets forth the computation of basic and diluted net income (loss) per share as of March 31:

	Yen (Millions) except per share data		
	2008	2009	2010
Numerator:			
Net income (loss)	¥ 16,550	(74,902)	(11,454)
Denominator:			
Basic weighted average shares of common stock outstanding	182,418,821	178,724,884	178,722,505
Dilutive effect of exercise of stock options	305,161		
Diluted weighted average shares of common stock outstanding	182,723,982	178,724,884	178,722,505
Basic net income (loss) per share	¥ 90.72	(419.09)	(64.09)
Diluted net income (loss) per share	90.57	(419.09)	(64.09)

Edgar Filing: ADVANTEST CORP - Form 20-F

At March 31, 2008, 2009 and 2010, Advantest had outstanding stock options into 2,309,980, 3,938,980 and 3,060,000 shares of common stock, respectively, which were anti-dilutive and excluded from the calculation of diluted net income per share but could potentially dilute net income per share in future periods.

(21) Concentrations of credit risk

Advantest is exposed to credit risk in the event of default by financial institutions to cash and cash equivalents, but such risk is considered mitigated by the high credit rating of the financial institutions.

At March 31, 2009 and 2010, Advantest has one customer with significant receivables. Receivables from the customer accounted for 30% and 14% of consolidated trade receivables at March 31, 2009 and 2010,

respectively. Although Advantest does not expect that the customer will fail to meet its obligations, Advantest is potentially exposed to concentrations of credit risk if the customer failed to perform according to the terms of the contracts.

(22) Commitments and Contingent Liabilities

Advantest is involved in various claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on Advantest's consolidated financial position, results of operations, or cash flows.

Commitments outstanding for the purchase of property, plant and equipment and other assets totaled ¥103 million at March 31, 2010.
