Notes to the condensed consolidated interim financial statements

Amounts in EUR millions, unless otherwise stated

1. Basis of presentation

The condensed consolidated interim financial statements as at and for the second quarter ended June 30, 2011, have been prepared in accordance with IAS 34 Interim financial reporting as adopted by the European Union (EU) as issued by the International Accounting Standards Board (IASB). It does not include all of the information required for a full set of financial statements prepared in accordance with IFRS and should therefore be read together with the 2010 consolidated financial statements of AEGON N.V. as included in AEGON's Annual Report for 2010. AEGON's annual report for 2010 is available on our website (www.aegon.com).

The condensed consolidated interim financial statements have been prepared in accordance with the historical cost convention as modified by the revaluation of investment properties and those financial instruments (including derivatives) and financial liabilities that have been measured at fair value. The condensed consolidated interim financial statements were approved by the Executive Board on August 10, 2011.

The published figures in these condensed consolidated interim financial statements are unaudited.

2. Significant accounting policies

All accounting policies and methods of computation applied in the condensed consolidated interim financial statements are the same as those applied in the 2010 consolidated financial statements, which were prepared in accordance with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board as adopted by the European Union.

Taxes on income for the first six months of 2011 interim period are accrued using the tax rate that would be applicable to expected total annual earnings.

The following standards, interpretations, amendments to standards and interpretations became effective in 2011:

Amendment to IAS 24 - Related party disclosures

Amendment to IFRS 1 - First time adoption

Amendment to IFRIC 14 - Prepayments of a minimum funding requirement

Amendment to IAS 32 - Classification of Rights Issues

IFRIC 19 - Extinguishing financial liabilities with equity instruments

Improvements to IFRS (2010)

None of these new or revised standards and interpretations had a significant effect on the condensed consolidated interim financial statements for the period ended June 30, 2011.

AEGON has not early adopted any other standards, interpretations or amendments, that have been issued but are not yet effective.

Edgar Filing: AEGON NV - Form 6-K

Critical accounting estimates

Certain amounts recorded in the condensed consolidated interim financial statements reflect estimates and assumptions made by management. Actual results may differ from the estimates made.

Exchange rates

The following exchange rates are applied for the condensed consolidated interim financial statements:

Income statement items: average rate 1 EUR = USD 1.4025 (2010: USD 1.3279); 1 EUR = GBP 0.8670 (2010: GBP 0.8696).

Balance sheet items: closing rate 1 EUR = USD 1.4499 (2010: USD 1.3362); 1 EUR = GBP 0.9031 (2010: GBP 0.8608).

Non-IFRS measures

This report includes the non-IFRS financial measure: underlying earnings before tax. The reconciliation of this measure to the most comparable IFRS measure is presented in the tables in this note. This non-IFRS measure is calculated by consolidating on a proportionate basis the revenues and expenses of our associated companies in Spain, India, Brazil and Mexico. AEGON believes that its non-IFRS measure provides meaningful information about the underlying operating results of our business including insight into the financial measures that senior management uses in managing the business.

Among other things our senior management is compensated based in part on AEGON's results against targets using the non-IFRS measure presented here. While many other insurers in our peer group present substantially similar non-IFRS measures, the non-IFRS measure presented in this document may nevertheless differ from the non-IFRS measures presented by other insurers. There is no standardized meaning to these measures under IFRS or any other recognized set of accounting standards and readers are cautioned to consider carefully the different ways in which AEGON and its peers present similar information before comparing them.

AEGON believes the non-IFRS measure shown herein, when read together with our reported IFRS financial statements, provides meaningful supplemental information for the investing public to evaluate AEGON's business after eliminating the impact of current IFRS accounting policies for financial instruments and insurance contracts, which embed a number of accounting policy alternatives that companies may select in presenting their results (i.e. companies can use different local GAAPs) and that can make the comparability from period to period difficult.

Underlying earnings

Certain assets held by AEGON Americas, AEGON The Netherlands and AEGON UK are carried at fair value and managed on a total return basis, with no offsetting changes in the valuation of related liabilities. These include assets such as investments in hedge funds, private equities, real estate limited partnerships, convertible bonds and structured products. Underlying earnings exclude any over- or underperformance compared to management's long-term expected return on assets. Based on current holdings and asset returns, the

long-term expected return on an annual basis is 8-10%, depending on asset class, including cash income and market value changes. The expected earnings from these asset classes are net of deferred policy acquisition costs (DPAC) where applicable.

In addition, certain products offered by AEGON Americas contain guarantees and are reported on a fair value basis, including the segregated funds offered by AEGON Canada and the total return annuities and guarantees on variable annuities of AEGON USA. The earnings on these products are impacted by movements in equity markets and risk free interest rates. Short-term developments in the financial markets may therefore cause volatility in earnings. Included in underlying earnings is a long-term expected return on these products and excluded is any over- or underperformance compared to management's expected return. The fair value movements of certain guarantees and the fair value change of derivatives that hedge certain risks on these guarantees of AEGON The Netherlands and Variable Annuities Europe (included in New Markets) are excluded from underlying earnings, the long-term expected return for these guarantees is set at zero.

Holding and other activities include certain issued bonds that are held at fair value through profit or loss. The interest rate risk on these bonds is hedged using swaps. The fair value movement resulting from changes in AEGON's credit spread used in the valuation of these bonds are excluded from underlying earnings and reported under fair value items.

Fair value items

Fair value items include the over- or underperformance of investments and guarantees held at fair value for which the expected long-term return is included in underlying earnings.

In addition, hedge ineffectiveness on hedge transactions, fair value changes on economic hedges without natural offset in earnings and for which no hedge accounting is applied and fair value movements on real estate are included under fair value items.

Realized gains or losses on investments

Includes realized gains and losses on available-for-sale investments, mortgage loans and loan portfolios.

Table of Contents

Impairment charges / reversals

Includes impairments / (reversals) on available-for-sale debt securities and impairments on shares including the effect of deferred policyholder acquisition costs, mortgage loans and loan portfolios on amortized cost and associates.

Other income or charges

Other income or charges is used to report any items which cannot be directly allocated to a specific line of business. Also items that are outside the normal course of business are included under this heading.

Other charges include restructuring charges that are considered other charges for segment reporting purposes because they are outside the normal course of business. In the condensed consolidated income statement, these charges are included in operating expenses.

Run-off businesses

Includes underlying results of business units where management has decided to exit the market and to run off the existing block of business. Currently, this line includes the run-off of the institutional spread-based business, structured settlements blocks of business, Bank-Owned and Corporate-Owned Life Insurance (BOLI/COLI) business and life reinsurance business in the United States. AEGON has other blocks of business for which sales have been discontinued and of which the earnings are included in underlying earnings.

On April 26, 2011, AEGON publicly announced the decision of its Executive Board to divest its life reinsurance activities, Transamerica Reinsurance, to SCOR. These activities are no longer reported in underlying earnings but are reflected in the run-off businesses line in the segment reporting (both in 2011 and in 2010). More details on this transaction are given in note 18.

Also, in December 2010, AEGON publicly announced the decision of its Executive Board to discontinue new sales of

executive non-qualified benefit plans and related Bank-Owned and Corporate-Owned Life Insurance (BOLI/COLI) business in the United States. Earnings from the BOLI/COLI business are no longer reported in underlying earnings but reflected in the run-off businesses line in the segment reporting (both in 2011 and 2010).

The comparative figures, affecting the Americas segment, regarding the underlying earnings and the run-off businesses have been revised as follows:

On March 1, 2011 AEGON completed the issue of 173,604,912 new common shares of AEGON N.V. with a par value of EUR 0.12. The shares were issued at a price of EUR 5.20 per share. The proceeds of EUR 903 million were used to fund part of the repurchase of the convertible core capital securities described in note 16.

The new shares have been listed on Euronext Amsterdam, the principal market for AEGON's common shares.

On March 15, 2011, Vereniging AEGON exercised its option rights to purchase 41,042,000 class B preferred shares at par value of EUR 0.25 in order to avoid dilution of its voting rights following the issuance of 10% new common shares completed on March 1, 2011.

16. Convertible core capital securities

AEGON repurchased EUR 1.5 billion in principal amount of the original EUR 3 billion in convertible core capital securities from the Dutch State. The total payment to the Dutch State amounted to EUR 2,250 million of which EUR 1,500 million related to the repurchase of 375 million convertible core capital securities and EUR 750 million related to the premium attached to this repurchase. This repurchase was completed in two equal tranches on March 15 and June 15 respectively.

With these transactions AEGON has repurchased all of the EUR 3 billion core capital securities issued to the Dutch State at the height of the financial crisis in 2008.

Short term deposits	18	17
Bank overdrafts	70	57
Total borrowings	9,409	8,518

On April 14, 2011, AEGON The Netherlands sold EUR 1.5 billion Class A residential mortgage backed securities (RMBS) to a broad group of institutional investors. These securities consist of two tranches:

EUR 375 million of class A1 notes with an expected weighted average life of 1.9 years and priced at par with a coupon of three month Euribor plus 0.95 %; and

EUR 1,125 million of class A2 notes with an expected weighted average life of 4.9 years and priced at par with a coupon of three month Euribor plus 1.35 %.

The securities were issued under the Dutch SAECURE program. The net proceeds were used to finance a part of the existing Dutch mortgage portfolio of AEGON The Netherlands.

Debentures and other loans increased due to the sale of these residential mortgage backed securities, partly compensated by redemptions and negative impact of foreign currency exchange rates.

Included in Debentures and other loans is EUR 960 million relating to borrowings measured at fair value (2010: EUR 987 million).

Commercial paper, Short term deposits and Bank overdrafts vary with the normal course of business.

18. Commitments and contingencies

See note 19 for litigation with respect to Koersplan products.

There have been no material changes in contingent assets and liabilities reported in the 2010 consolidated financial statements of AEGON.

19. Events after the balance sheet date

Effective July 1, 2011, AEGON entered into a Joint Venture contract with Unnim, the entity which was created by the merger of Caixa Terrassa, Caixa Sabadell and Caixa Manlleu. AEGON Spain is the sole insurance partner of Unnim to provide life and pension insurance products.

On July 26, 2011, the Amsterdam Court of Appeal, an intermediate appeals court, ruled with respect to a specific AEGON unit-linked product (Koersplan). The Amsterdam Court of Appeal accepted AEGON's positions that Koersplan products sold during the period 1989-1998 entailed an obligation on the part of customers to pay a premium for a death benefit. However, the Court ruled that AEGON should have more clearly informed its customers about the amount of

premium which the company charged in relation to the embedded death benefit. AEGON acknowledges that its level of communication could have been better at the time and has subsequently taken steps to substantially improve its communications with customers.

In its decision, the Court ruled that customers are required to pay a reasonable premium. However, the Court went on to define what it considers to be a reasonable premium at a level below that charged by AEGON. The Court based its decision on a single industry example, which AEGON believes is not representative. It is AEGON's view that, based on the arguments presented, the Court's ruling was wrongly decided. AEGON will appeal the decision to the Supreme Court in the Netherlands.

On August 9, 2011, AEGON completed the previously announced divestment of its life reinsurance business, Transamerica Reinsurance (TARe), to SCOR. The divestment resulted in a total after-tax consideration of USD 1.4 billion, consisting of cash proceeds of USD 0.9 billion and capital release of USD 0.5 billion.

AEGON has retained certain blocks of business consisting primarily of variable annuity guarantee products with a book value of USD 0.4 billion.

The divestment of Transamerica Reinsurance (TARe) consists of a series of reinsurance agreements between various statutory insurance entities and SCOR for the US domestic business. In addition, SCOR has acquired Transamerica International Reinsurance Ireland (TIRI), a company that includes reinsurance contracts that are assumed by AEGON US domestic companies which have been retroceded to TIRI, and has taken over the operational assets and systems of TARe.

The business residing in Transamerica International Reinsurance, Bermuda (TIRe) has been retroceded to SCOR. TIRe will continue to provide reserve credit security for redundant reserves to AEGON USA's ceding companies. AEGON will maintain approximately half of the collateral requirements needed for reinsurance reserve financing. This obligation provides reserve credit security and will run-off over approximately 15 years.

Structuring the transaction as a reinsurance arrangement leaves AEGON exposed to a counter-party risk of SCOR not performing on the reinsurance contracts as the business matures. For such an event, certain levels of collateral related to the reinsured contracts have been placed in trust for AEGON's benefit. SCOR is rated A2/A by Moody's and Standard & Poor's, both with positive outlooks.

The transaction will be accounted for primarily as a reinsurance transaction between AEGON and SCOR. Certain fixed assets and certain investment assets will be transferred with any related gain (loss) being recognized. As a result, the divestment will have no significant impact on shareholders' equity. Earnings on the business retained as well as amortization of the prepaid cost of reinsurance asset will be reflected in the run-off businesses line in AEGON's segment reporting.

The reinsurance business being retained by AEGON, which is comprised primarily of the variable annuity guarantee business, is substantially hedged for financial market risks and produces normalized results which are negligible. In addition, various administration, service and asset management contracts are part of the transaction. The combined result, consisting primarily of the amortization of the prepaid cost of reinsurance, is approximately USD 40 million before tax per annum initially. These costs are expected to trend down as the contracts mature. Transamerica Reinsurance realized underlying earnings before tax of USD 105 million in 2010.

DISCLAIMERS

Cautionary note regarding non-GAAP measures

These condensed consolidated interim financial statements include a non-GAAP financial measure: underlying earnings before tax. The reconciliation of underlying earnings before tax to the most comparable IFRS measures is provided in Note 3 Segment information of notes to the condensed consolidated interim financial statements.

AEGON believes that this non-GAAP measure, together with the IFRS information, provide a meaningful measure for the investment community to evaluate AEGON's business relative to the businesses of our peers.

Local currencies and constant currency exchange rates

These condensed consolidated interim financial statements contain certain information about investments in USD for the Americas and GBP for the United Kingdom, because those businesses operate and are managed primarily in those currencies. None of this information is a substitute for or superior to financial information about us presented in EUR, which is the currency of our primary financial statements.

Forward-looking statements

The statements contained in this document that are not historical facts are forward-looking statements as defined in the US Private Securities Litigation Reform Act of 1995. The following are words that identify such forward-looking statements: aim, believe, estimate, target, intend, may, expect, anticipate, predict, project, counting on, plan, continue, want, forecast, goal, should, would, is confident, will, and similar expressions as they relate to our company. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. We undertake no obligation to publicly update or revise any forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which merely reflect company expectations at the time of writing. Actual results may differ materially from expectations conveyed in forward-looking statements due to changes caused by various risks and uncertainties. Such risks and uncertainties include but are not limited to the following:

Changes in general economic conditions, particularly in the United States, the Netherlands and the United Kingdom;

Changes in the performance of financial markets, including emerging markets, such as with regard to:

The frequency and severity of defaults by issuers in our fixed income investment portfolios; and

The effects of corporate bankruptcies and/or accounting restatements on the financial markets and the resulting decline in the value of equity and debt securities we hold;

The frequency and severity of insured loss events;

Changes affecting mortality, morbidity, persistence and other factors that may impact the profitability of our insurance products;

Changes affecting interest rate levels and continuing low or rapidly changing interest rate levels;

Changes affecting currency exchange rates, in particular the EUR/USD and EUR/GBP exchange rates;

Edgar Filing: AEGON NV - Form 6-K

Increasing levels of competition in the United States, the Netherlands, the United Kingdom and emerging markets;

Changes in laws and regulations, particularly those affecting our operations, the products we sell, and the attractiveness of certain products to our consumers;

Regulatory changes relating to the insurance industry in the jurisdictions in which we operate;

Acts of God, acts of terrorism, acts of war and pandemics;

Changes in the policies of central banks and/or governments;

Lowering of one or more of our debt ratings issued by recognized rating organizations and the adverse impact such action may have on our ability to raise capital and on our liquidity and financial condition;

Lowering of one or more of insurer financial strength ratings of our insurance subsidiaries and the adverse impact such action may have on the premium writings, policy retention, profitability of its insurance subsidiaries and liquidity;

The effect of the European Union's Solvency II requirements and other regulations in other jurisdictions affecting the capital we are required to maintain;

Litigation or regulatory action that could require us to pay significant damages or change the way we do business;

Customer responsiveness to both new products and distribution channels;

Competitive, legal, regulatory, or tax changes that affect the distribution cost of or demand for our products;

The impact of acquisitions and divestitures, restructurings, product withdrawals and other unusual items, including our ability to integrate acquisitions and to obtain the anticipated results and synergies from acquisitions;

Our failure to achieve anticipated levels of earnings or operational efficiencies as well as other cost saving initiatives;

Further details of potential risks and uncertainties affecting the company are described in the company's filings with Euronext Amsterdam and the US Securities and Exchange Commission, including the Annual Report on Form 20-F. These forward-looking statements speak only as of the date of this document. Except as required by any applicable law or regulation, the company expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in the company's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.
