* *Non Income Producing Security*

(1) *Pledged security; a portion or all of the security is pledged as collateral for borrowings as of July 31, 2012. (See Note 3)*

(2) *Loaned security; a portion or all of the security is on loan at July 31, 2012. (See Note 3)*

(3) *Restricted security. As of July 31, 2012, the total market value of these securities was \$2,273,000 representing 0.37% of net assets. (See Note 4)*

(4) *Security fair valued using pursuant to procedures approved by the Board of Trustees. As of July 31, 2012, the total market value of these securities was \$2,273,000 representing 0.37% of net assets. (See Note 1). The Fund has engaged in a private purchase of preferred shares in an oil and gas well, operated by Anglo Dutch Corporation, a private company. The preferred shares have an expected life of 48 months, which would result in an effective maturity date of 12/1/2013. The Fund expects to receive interest at a rate of 15% per annum.*

Common Abbreviations:

ADR - American Depositary Receipt

LLC - Limited Liability Company

LP - Limited Partnership

PLC - Public Limited Company

S.A. - Generally designates corporations in various countries, mostly those employing the civil law. This translates literally in all languages mentioned as anonymous company.

See Notes to Quarterly Statement of Investments.

Notes to Quarterly Statement of Investments

July 31, 2012 (unaudited)

1. Significant Accounting and Operating Policies

Reaves Utility Income Fund (the Fund) is registered under the Investment Company Act of 1940, as amended (the 1940 Act) as a non-diversified, closed-end management investment company. The Fund was organized under the laws of the state of Delaware by an Agreement and Declaration of Trust dated September 15, 2003. The Fund's investment objective is to provide a high level of after-tax income and total return consisting primarily of tax-advantaged dividend income and capital appreciation. The Declaration of Trust provides that the Trustees may authorize separate classes of shares of beneficial interest. The Fund commenced operations on February 24, 2004. The Fund's common shares are listed on the New York Stock Exchange Amex (Exchange) and trade under the ticker symbol UTG.

The Fund may have elements of risk, including the risk of loss of equity. There is no assurance that the investment process will consistently lead to successful results. An investment concentrated in sectors and industries may involve greater risk and volatility than a more diversified investment.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The preparation of financial statements is in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP), which requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Investment Valuation: The net asset value per common share (NAV) of the Fund is determined no less frequently than daily, on each day that the Exchange is open for trading, as of the close of regular trading on the Exchange (normally 4:00 p.m. New York time).

For equity securities and funds that are traded on an exchange, the market price is usually the closing sale or official closing price on that exchange. In the case of equity securities not traded on an exchange, or if such closing prices are not otherwise available, the mean of the closing bid and asked price will be used. The market price for debt obligations is generally the price supplied by an independent third-party pricing service approved by the Board of Trustees (the Board), which may use a matrix, formula or other objective method that takes into consideration market indices, yield curves and other specific adjustments. Short-term debt obligations that will mature in 60 days or less are valued at amortized cost, unless it is determined that using this method would not reflect an investment's fair value. If vendors are unable to supply a price, or if the price supplied is deemed to be unreliable, the market price may be determined using quotations received from one or more broker-dealers that make a market in the security. Investments in non-exchange traded funds are fair valued at their respective net asset values. Securities for which market quotations or valuations are not available are valued at fair value in good faith by or at the direction of the Trustees. Various factors may be reviewed in order to make a good faith determination of a security's fair value. These factors may include, but are not limited to, the type and cost of the security; the fundamental analytical data relating to the investment; an evaluation of the forces which influence the market in which the security is sold, including the liquidity and depth of the market; information as to any transactions or offers with respect to the security; price, yield and the extent of or private trading in similar securities of the issuer or comparable companies.

The Fund discloses the classification of its fair value measurements following a three-tier hierarchy based on the inputs used to measure fair value. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability that are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability that are developed based on the best information available.

Edgar Filing: REAVES UTILITY INCOME FUND - Form N-Q

Various inputs are used in determining the value of the Fund's investments as of the end of the reporting period. When inputs used fall into different levels of the fair value hierarchy, the level in the hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The designated input levels are not necessarily an indication of the risk or liquidity associated with these investments. These inputs are categorized in the following hierarchy under applicable financial accounting standards.

- i Level 1 Unadjusted quoted prices in active markets for identical investments

 - i Level 2 Significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

 - i Level 3 Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)
- The following is a summary of the Fund's investments in the fair value hierarchy as of July 31, 2012:

Investments in	Valuation Inputs			Total
	Level 1	Level 2	Level 3	
Securities at Value*				
Common Stocks	\$ 793,338,445	\$	\$	\$ 793,338,445
Preferred Stocks				
Electric Utilities	133,150	2,941,204		3,074,354
Multi-Utilities	583,200	940,519		1,523,719
Oil, Gas & Consumable Fuels			2,273,000	2,273,000
Limited Partnerships	38,586,700			38,586,700
Corporate Bonds		2,200,000		2,200,000
Mutual Funds	4,058,056			4,058,056
Short Term Investments	12,727,760			12,727,760
Total	\$ 849,427,311	\$ 6,081,723	\$ 2,273,000	\$ 857,782,034

During the nine months ended July 31, 2012, there were no significant transfers between Level 1 and 2 securities. The Fund evaluates transfers into or out of Level 1, Level 2 and Level 3 as of the end of the reporting period.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

Investments	Balance as	Accrued	Realized	Change in	Net	Transfer in	
in Securities	of	Discount/	gain/	unrealized	purchases/	(out) of	Balance as
at Value*	10/31/2011	Premium	(loss)	(depreciation)	(sales)	Level 3	of 7/31/2012
Preferred Stocks	\$-	(1,003,764)	-	276,764	3,000,000	-	\$2,273,000
TOTAL	\$-	(1,003,764)	-	276,764	3,000,000	-	\$2,273,000

**See Statement of Investments for further industry classification.*

Foreign Securities: The Fund may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible reevaluation of currencies, the inability to repatriate foreign currency, less complete financial information about companies and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. issuers.

Foreign Currency Translation: The books and records of the Fund are maintained in U.S. dollars. Investment valuations and other assets and liabilities initially expressed in foreign currencies are converted each business day into U.S. dollars based upon current exchange rates. Prevailing foreign exchange rates may generally be obtained at the close of the NYSE (normally, 4:00 p.m. Eastern time). The portion of realized and unrealized gains or losses on investments due to fluctuations in foreign currency exchange rates is not separately disclosed and is included in realized and unrealized gains or losses on investments, when applicable. Although the Fund held them during the period, as of July 31, 2012, the Fund had no outstanding forward foreign currency contracts.

Investment Transactions: Investment security transactions are accounted for as of trade date. Dividend income is recorded on the ex-dividend date, or as soon as information is available to the Fund. Interest income, which includes amortization of premium and accretion of discount, is accrued as earned. Realized gains and losses from investment transactions and unrealized appreciation and depreciation of securities are determined using the first-in first-out basis for both financial reporting and income tax purposes.

2. Unrealized Appreciation/(Depreciation)

On July 31, 2012, based on cost of \$690,086,197 for federal income tax purposes, aggregate gross unrealized appreciation for all securities in which there is an excess of value over tax cost was \$199,300,174 and aggregate gross unrealized depreciation for all securities in which there is an excess of tax cost over value was \$31,604,337, resulting in net unrealized appreciation of \$167,695,837.

3. Borrowings

As a result of the redemption of the preferred shares, the Fund entered into a financing package that includes a Committed Facility Agreement (the Agreement) with BNP Paribas Prime Brokerage, Inc. (BNP) that allowed the Fund to borrow up to \$240,000,000 (Maximum Commitment) and a Lending Agreement, as defined below. Borrowings under the Agreement are secured by assets of the Fund that are held by the Fund's custodian in a separate account (the pledged collateral). The Fund may, with 180 days notice, reduce the Maximum Commitment to a lesser amount. Interest is charged at the three month LIBOR (London Inter-bank Offered Rate) plus 1.10% on the amount borrowed and 1.00% on the undrawn balance. The Fund also paid an arrangement fee of 0.25% on the Maximum Commitment, upon closing date. The Fund renewed the Agreement on May 2, 2012, for a renewal fee of 0.25% of the Maximum Commitment. This renewal fee will be amortized over a six month period.

For the nine months ended July 31, 2012, the average amount borrowed under the Agreement and the average interest rate for the amount borrowed were \$218,923,358 and 1.35%, respectively. As of July 31, 2012, the amount of such outstanding borrowings was \$240,000,000. The interest rate applicable to the borrowings on July 31, 2012 was 1.35%. As of July 31, 2012, the amount of pledged collateral was \$538,263,537.

The Lending Agreement is a separate side-agreement between the Fund and BNP pursuant to which BNP may borrow a portion of the pledged collateral (the Lent Securities) in an amount not to exceed the outstanding borrowings owed by the Fund to BNP under the Agreement. The Lending Agreement is intended to permit the Fund to significantly reduce the cost of its borrowings under the Agreement. BNP has the ability to reregister the Lent Securities in its own name or in another name other than the Fund to pledge, re-pledge, sell, lend or otherwise transfer or use the collateral with all attendant rights of ownership. The Fund may designate any security within the pledged collateral as ineligible to be a Lent Security, provided there are eligible securities within the pledged collateral in an amount equal to the outstanding borrowing owed by the Fund. During the period in which the Lent Securities are outstanding, BNP must remit payment to the Fund equal to the amount of all dividends, interest or

other distributions earned or made by the Lent Securities. The Fund receives income from BNP based on the value of the Lent Securities. This income is recorded as Securities lending income on the Statement of Operations.

Under the terms of the Lending Agreement, the Lent Securities are marked to market daily, and if the value of the Lent Securities exceeds the value of the then-outstanding borrowings owed by the Fund to BNP under the Agreement (the Current Borrowings), BNP must, on that day, either (1) return Lent Securities to the Fund's custodian in an amount sufficient to cause the value of the outstanding Lent Securities to equal the Current Borrowings; or (2) post cash collateral with the Fund's custodian equal to the difference between the value of the Lent Securities and the value of the Current Borrowings. If BNP fails to perform either of these actions as required, the Fund will recall securities, as discussed below, in an amount sufficient to cause the value of the outstanding Lent Securities to equal the Current Borrowings. The Fund can recall any of the Lent Securities and BNP shall, to the extent commercially possible, return such security or equivalent security to the Fund's custodian no later than three business days after such request. If the Fund recalls a Lent Security pursuant to the Lending Agreement, and BNP fails to return the Lent Securities or equivalent securities in a timely fashion, BNP shall remain liable to the Fund's custodian for the ultimate delivery of such Lent Securities, or equivalent securities, and for any buy-in costs that the executing broker for the sales transaction may impose with respect to the failure to deliver. The Fund shall also have the right to apply and set-off an amount equal to one hundred percent (100%) of the then-current fair market value of such Lent Securities against the Current Borrowings. As of July 31, 2012, the value of securities on loan was \$225,518,056.

The Board of Trustees has approved the Agreement and the Lending Agreement. No violations of the Agreement or the Lending Agreement have occurred during the nine months ended July 31, 2012.

4. Restricted Securities

As of July 31, 2012, investments in securities included issues that are considered restricted. Restricted securities are often purchased in private placement transactions, are not registered under the Securities Act of 1933, may have contractual restrictions on resale, and may be valued under methods approved by the Board of Trustees as reflecting fair value.

Restricted securities as of July 31, 2012 are as follows:

Description	Maturity Date	Acquisition Date	Cost	Market Value	Market Value as
					Percentage of Net Assets
Anglo Dutch Oil Well Preferred Stock	12/1/2013	11/30/2011	\$ 2,741,889	\$2,273,000	0.37%
TOTAL			\$ 2,741,889	\$2,273,000	0.37%

5. Recently Issued Accounting Pronouncements

In May 2011, the FASB issued ASU No. 2011-04 Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (IFRSs). ASU 2011-04 includes common requirements for measurement of and disclosure about fair value between U.S. GAAP and IFRS. ASU 2011-04 will require reporting entities to disclose quantitative information about the unobservable inputs used in the fair value measurements categorized within Level 3 of the fair value hierarchy. In addition, ASU 2011-04 will require reporting entities to make disclosures about amounts and reasons for all transfers in and out of Level 1 and Level 2 fair value measurements. The new and revised disclosures are effective for interim and annual reporting periods beginning after December 15, 2011. Management is currently evaluating the impact this ASU may have on the Fund's financial statements.

6. Rights Offering

On June 27, 2012, the Fund announced a transferable rights offering, permitting shareholders to acquire one new share of the Fund for every three shares held on record date. The record date for determining shareholders eligible to participate in the offering was July 9, 2012, and those

Edgar Filing: REAVES UTILITY INCOME FUND - Form N-Q

shareholders received one right for each common share held on record date.

The rights offering period expired August 8, 2012, and as a result the Fund issued 5,892,187 new common shares. The new common shares represented approximately 77% of total shares offered through the primary subscription. The subscription price of \$24.41 per share was established upon the rights offering expiration date, which represented 95% of the reported market price per share, based on the average of the last reported sales price of a common share on the NYSE MKT for the five trading days preceding the expiration date. Total gross proceeds to the Fund were \$143,828,285.

Item 2. Controls and Procedures.

- (a) The Registrant's principal executive officer and principal financial officer have evaluated the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act) (17 CFR 270.30a-3(c))) within 90 days of the filing date of this report and have concluded that the Registrant's disclosure controls and procedures were effective as of that date.

- (b) There were no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the Registrant's last fiscal quarter covered by this report that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 3. Exhibits.

Separate certifications for the Registrant's principal executive officer and principal financial officer, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and Rule 30a-2(a) under the 1940 Act, are attached as Exhibit 99.Cert.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
