The material terms and conditions are as follows:

**Approved Features**

Unvested SARs are cancelled upon termination of employment, except in the case of death, disability, or involuntary (or good reason) termination within two years of a Change in Control that meets the criteria of Internal Revenue Code (IRC) Section 409A and the regulations thereunder, in which case, unvested SARs will immediately vest upon the date of termination. **Performance Contingent Restricted Stock Unit Awards**

The material terms and conditions of the 2013 grants of performance contingent restricted stock units ( PCSUs ) are the same as for those made in 2012 with the exception of changes in the three-year financial performance goals for early vesting and the number of performance contingent restricted stock units granted.

Key provisions of the grants are:

Grant Date:	February 13, 2013
Performance Cycle:	January 1, 2013 through December 31, 2015

Vesting:

Goals will be established for three levels of performance: acceptable, superior and outstanding

150% of target shares vest if outstanding (maximum) performance is achieved after three years

100% of target shares vest if superior (target) performance is achieved after three years

50% of target shares vest if acceptable (threshold) performance is achieved after three years

If less than the number of threshold shares vest at the end of the 3-year performance period, then one-half of the remaining number of threshold shares will vest and be settled at the end of year four and one-half at the end of year five.

Change in Control:

In the event of a Change in Control, all unvested PCSUs will vest at Target on a pro rata basis if the Change in Control occurs during the 3-year Performance Period or at Threshold on a pro rata basis if the Change in Control occurs during the Time-Vesting Period in year 4 or 5.

**Performance Measures**

The financial performance measures used to determine the amount of performance units vested are cumulative base earnings per share (as adjusted to exclude certain items) ( BEPS ) and average return on net assets employed ( RONAE ), after adjusting to exclude certain items.

The targets for the 2013 – 2015 performance cycle are as follows:

	<b>Threshold Vesting</b>	<b>Target Vesting</b>	<b>Maximum Vesting</b>
Three-Year Compound Growth in BEPS	9.0%	19.0%	25.8%
Average Three-Year RONAE <sup>1</sup>	9.5%	10.0%	10.3%

<sup>1</sup> Actual performance level required within the range depends on capital invested in acquisitions over the three-year period. The RONAE goals will be adjusted down for every dollar of capital investment made in acquisitions at an effective rate of 0.1% for every \$100 Million of acquisition investment multiplied by the percentage of time remaining in the three-year performance cycle as of the date of the acquisition.
