PROXY STATEMENT

FOR

2013 ANNUAL MEETING OF SHAREHOLDERS

This Proxy Statement is furnished in connection with the solicitation of proxies on behalf of the Board of Directors of Sykes Enterprises, Incorporated (the Company) for the Annual Meeting of Shareholders (the Annual Meeting) to be held at the Florida Museum of Photographic Arts, The Cube at Rivergate Plaza, 400 N. Ashley Drive, Cube 200, Tampa, Florida, 33602, on Tuesday, May 21, 2013, at 8:00 a.m., Eastern Daylight Savings Time, and any adjournment or postponement of the Annual Meeting.

This Proxy Statement and the annual report to shareholders of the Company for the year ended December 31, 2012 are first being mailed on or about April 18, 2013 to shareholders entitled to vote at the Annual Meeting.

SHAREHOLDERS ENTITLED TO VOTE

The record date for the Annual Meeting is March 22, 2013. Only shareholders of record as of the close of business on the record date are entitled to notice of the Annual Meeting and to vote at the Annual Meeting. As of the record date, 43,207,698 shares of common stock were outstanding and entitled to vote at the Annual Meeting.

Votes cast by proxy or in person at the Annual Meeting will be tabulated by the inspector of elections appointed for the Annual Meeting, who will also determine whether a quorum is present for the transaction of business. The Company's Bylaws provide that a quorum is present if the holders of a majority of the issued and outstanding shares of common stock entitled to vote at the meeting are present in person or represented by proxy. Abstentions will be counted as shares that are present and entitled to vote for purposes of determining whether a quorum is present. Shares held by nominees for beneficial owners will also be counted for purposes of determining whether a quorum is present if the nominee has the discretion to vote on at least one of the matters presented, even though the nominee may not exercise discretionary voting power with respect to other matters and even though voting instructions have not been received from the beneficial owner (a broker non-vote). At the Annual Meeting, if a quorum exists, directors will be elected by a plurality of the votes cast in the election. Approval of the other proposals will require the affirmative vote of a majority of the votes cast on the proposal at the Annual Meeting. Broker non-votes will not be counted as votes cast in determining whether a Proposal has been approved.

Shareholders are requested to vote by completing the enclosed Proxy and returning it signed and dated in the enclosed postage-paid envelope. Shareholders are urged to indicate their votes in the spaces provided on the Proxy. Proxies solicited by the Board of Directors of the Company will be voted in accordance with the directions given in the Proxy. Where no instructions are indicated, signed Proxies will be voted FOR each of the proposals listed in the Notice of Annual Meeting of Shareholders. Returning your completed Proxy will not prevent you from voting in person at the Annual Meeting, should you be present and wish to do so.

Any shareholder giving a Proxy has the power to revoke it at any time before it is exercised by:

filing with the Secretary of the Company written notice of revocation,

submitting a duly executed Proxy bearing a later date than the previous Proxy, or

appearing at the Annual Meeting and voting in person.

Proxies solicited by this Proxy Statement may be exercised only at the Annual Meeting and any adjournment of the Annual Meeting and will not be used for any other meeting. Proxies solicited by this Proxy Statement will be returned to the Board of Directors and will be tabulated by an inspector of elections designated by the Board of Directors.

The cost of solicitation of Proxies by mail on behalf of the Board of Directors will be borne by the Company. Proxies also may be solicited by personal interview or by telephone by directors, officers, and other employees of the Company without additional compensation. The Company also has made arrangements with brokerage firms, banks, nominees, and other fiduciaries that hold shares on behalf of others to forward proxy solicitation materials to the beneficial owners of such shares. The Company will reimburse such record holders for their reasonable out-of-pocket expenses.

PROPOSAL 1:

ELECTION OF DIRECTORS

The Company's Board of Directors (the Board) currently is comprised of 10 individuals, and is divided into three classes (designated CLASS I, CLASS II, and CLASS III), as nearly equal in number as possible, with each class serving a three-year term expiring at the third annual meeting of shareholders after its election. The term of the four current CLASS II directors will expire at the Annual Meeting. Mr. Mark C. Bozek, whose term is expiring at this meeting, and who has served on the Board for 10 years, has notified the Board that he will retire and not stand for re-election this year. The Company's Board of Directors, upon the recommendation of the Nominating and Corporate Governance Committee, has determined to reduce the size of the Board of Directors by one following the end of Mr. Bozek's term, (resulting in a 9 member Board) and have nominated Paul L. Whiting, Lt. General Michael P. DeLong (Ret.) and Iain A. Macdonald to stand for re-election as CLASS II directors, whose terms will expire at the 2016 Annual Meeting of Shareholders.

In the event any nominee is unable to serve, the persons designated as proxies will cast votes for such other person in their discretion as a substitute nominee. The Board of Directors has no reason to believe that the nominees named herein will be unavailable or, if elected, will decline to serve.

RECOMMENDATION OF THE BOARD:

The Board of Directors recommends the following nominees for election as directors in the Class specified and urges each shareholder to vote FOR the nominees. Executed proxies in the accompanying form will be voted at the Annual Meeting FOR the election as directors of the nominees named below, unless authority to do so is withheld.

CORPORATE GOVERNANCE

The Company maintains a corporate governance page on its website which includes key information about its corporate governance initiatives, including its Corporate Governance Guidelines, Code of Ethics, and charters for the committees of the Board of Directors. The corporate governance page can be found at www.sykes.com, by clicking on Investor Relations and then on Corporate Governance.

The Company's policies and practices reflect corporate governance initiatives that are compliant with the listing requirements of the Nasdaq Stock Market and the corporate governance requirements of the Sarbanes-Oxley Act of 2002, including:

the Board of Directors has adopted clear corporate governance policies;

a majority of the board members are independent of the Company and its management;

all members of the key board committees – the Audit Committee, the Compensation and Human Resource Development Committee, the Nominating and Corporate Governance Committee and the Finance Committee – are independent;

the independent members of the Board of Directors meet regularly without the presence of management;

the Company has adopted a code of ethics that applies to all directors, officers and employees which is monitored by its Nominating and Corporate Governance Committee;

the charters of the Board committees clearly establish their respective roles and responsibilities; and

the Company's Audit Committee has established procedures for the receipt, retention and treatment, on a confidential basis, of complaints received by the Company, including the Board and the Audit Committee, regarding accounting, internal accounting controls or auditing matters, and the confidential, anonymous submissions by employees of concerns regarding questionable accounting or auditing matters. These procedures are described under "Communications With Our Board" below.

Certain Relationships and Related Person Transactions

Review and Approval of Related Person Transactions

In order to ensure that material transactions and relationships involving a potential conflict of interest for any executive officer or director of the Company are in the best interests of the Company, under the Code of Ethics adopted by the Board of Directors for all of our employees and directors, all such conflicts of interest are required to be reported to the Board of Directors, and the approval of the Board of Directors must be obtained in advance for the Company to enter into any such transaction or relationship. Pursuant to the Code of Ethics, no officer or employee of the Company may, on behalf of the Company, authorize or approve any transaction or relationship, or enter into any agreement, in which such officer, director or any member of his or her immediate family, may have a personal interest without such Board approval. Further, no officer or employee of the Company may, on behalf of the Company, authorize or approve any transaction or relationship, or enter into any agreement, if they are aware that an executive officer or a director of the Company, or any member of any such person's family, may have a personal interest in such transaction or relationship, without such Board approval.

The Company's Audit Committee reviews all conflict of interest transactions involving executive officers and directors of the Company, pursuant to its charter.

In the course of their review of a related party transaction, the Board and the Audit Committee considers:

the nature of the related person's interest in the transaction;

the material terms of the transaction, including, without limitation, the amount and type of transaction;

the importance of the transaction to the Company;

the importance of the transaction to the related person;

whether the transaction would impair the judgment of the director or executive officer to act in the best interests of the Company; and

any other matters the Board or Committee deems appropriate.

Any member of the Board or the Audit Committee who has a conflict of interest with respect to a transaction under review may not participate in the deliberations or vote respecting approval of the transaction, provided, however, that such director may be counted in determining the presence of a quorum.

Related Party Transactions

The Company has maintained for several years an aircraft timesharing agreement with JHS Leasing of Tampa, Inc., an entity owned by Mr. John H. Sykes, (former Chairman of the Board and Chief Executive Officer, and father of Charles E. Sykes, the Company's current President, CEO and a director) for the use of its corporate aircraft, which agreement has been approved by the Audit Committee and the Board. However, the Company did not use the aircraft at any time during the year ended December 31, 2012, and accordingly, there were no amounts paid to JHS Leasing of Tampa, Inc., in connection with the timesharing agreement. The timesharing agreement was mutually terminated by the parties in March 2012. On January 25, 2008, the Company entered into a real estate lease with Kingstree Office I, LLC, an entity controlled by Mr. John Sykes relating to the Company's call center in Kingstree, South Carolina. On May 21, 2008, the Audit Committee of the Board reviewed this transaction and recommended approval to the full Board, which also approved the transaction. During the year ended December 31, 2012, the Company paid \$362,954 to Kingstree Office I, LLC as rent on the Kingstree facility.

Leadership Structure

Upon the 2004 retirement of Mr. John Sykes, the Company's founder, Chief Executive Officer and Chairman, the Board elected to change the leadership structure to separate the Chief Executive Officer position from that of the Chairman of the Board. The Board determined in 2005 that the change in leadership created an opportune time to change the leadership structure, and that the Company would benefit from having an independent non-employee Chairman who could provide a diversity of view and experience in consultation with the newly elected President and Chief Executive Officer. The Board continues to believe that the Company is best served by having this bifurcated leadership structure.

Risk Oversight

The Board has determined that the role of risk oversight will currently remain with the full Board as opposed to having responsibility delegated to a specific committee. Management has created an enterprise risk management committee which is primarily responsible for identifying and assessing enterprise risks, developing risk responses and evaluating residual risks. The chairperson of the management committee reports directly to the full Board.

Director Independence

In accordance with Nasdaq rules, the Board affirmatively determines the independence of each director and nominee for election as a director in accordance with guidelines it has adopted, which include all elements of independence set forth in the Nasdaq listing standards. Based upon these standards, at its meeting held on March 20, 2013, the Board determined that each of the following non-employee directors is independent and has no relationship with the Company, except as a director and shareholder of the Company:

- | | |
|---------------------------------------|--------------------------------|
| (1) Paul L. Whiting | (5) James S. MacLeod |
| (2) Lt. General Michael DeLong (Ret.) | (6) Linda McClintock-Greco, MD |

Nominations for Directors

The Nominating and Corporate Governance Committee is responsible for screening potential director candidates and recommending qualified candidates to the Board for nomination. The Committee considers all relevant criteria including, age, skill, integrity, experience, education, time availability, stock exchange listing standards, and applicable federal and state laws and regulations. The Committee has a specific goal of creating and maintaining a board with the heterogeneity, skills, experience and personality that lend to open, honest and vibrant discussion, consideration and analysis of Company issues, and accordingly the Committee also considers individual qualities and attributes that will help create the desired heterogeneity.

The Committee may use various sources for identifying and evaluating nominees for directors including referrals from our current directors, management and shareholders, as well as input from third party executive search firms retained at the Company's expense. If the Committee retains one or more search firms, such firms may be asked to identify possible nominees, interview and screen such nominees and act as a liaison between the Committee and each nominee during the screening and evaluation process. The Committee will review the resume and qualifications of each candidate identified through any of the sources referenced above, and determine whether the candidate would add value to the Board. With respect to candidates that are determined by the Committee to be potential nominees, one or more members of the Committee will contact such candidates to determine the candidate's general availability and interest in serving. Once it is determined that a candidate is a good prospect, the candidate will be invited to meet the full Committee which will conduct a personal interview with the candidate. During the interview, the Committee will evaluate whether the candidate meets the guidelines and criteria adopted by the Board, as well as exploring any special or unique qualifications, expertise and experience offered by the candidate and how such qualifications, expertise and/or experience may complement that of existing Board members. If the candidate is approved by the Committee, as a result of the Committee's determination that the candidate will be able to add value to the Board and the candidate expresses his or her interest in serving on the Board, the Committee will then review its conclusions with the Board and recommend that the candidate be selected by the Board to stand for election by the shareholders or fill a vacancy or newly created position on the Board.

Mr. Mark C. Bozek, whose term is expiring at this meeting, and who has served on the Board for 10 years, has notified the Board that he will retire and not stand for re-election this year. The Board of Directors, on the recommendation of the Nominating and Corporate Governance Committee, has determined to reduce the number of Board members from 10 to 9 following the end of Mr. Bozek's term. The remaining three Class II directors whose terms expire at the Annual Meeting have each been nominated by the Committee to stand for re-election.

The Committee will consider qualified nominees recommended by shareholders who may submit recommendations to the Committee in care of our Corporate Secretary, 400 North Ashley Drive, Tampa, Florida 33602. Any shareholder nominating an individual for election as a director at an annual meeting must provide written notice to the Secretary of the Company, along with the information specified below, which notice must be received at the principal business office of the Company no later than the date designated for receipt of shareholders' proposals as set forth in the Company's proxy statement for its annual shareholders' meeting. If there has been no such prior public disclosure, then to be timely, a shareholder's nomination must be delivered to or mailed and received at the principal business office of the Company not less than 60 days nor more than 90 days prior to the annual meeting of shareholders; provided, however, that in the event that less than 70 days notice of the date of the meeting is given to the shareholders or prior public disclosure of the date of the meeting is made, notice by the shareholder to be timely must be so received not later than the close of business on the tenth day following the day on which such notice of the annual meeting was mailed or such public disclosure was made.

To be considered by the Committee, shareholder nominations must be accompanied by: (1) the name, age, business and residence address of the nominee; (2) the principal occupation or employment of the nominee for at least the last ten years and a description of the qualifications of the nominee; (3) the number of shares of our stock that are beneficially owned by the nominee; (4) any legal proceedings involving the nominee during the previous ten years and (5) any other information relating to the nominee that is required to be disclosed in solicitations for proxies for election of directors under Regulation 14A of the Exchange Act, together with a written statement from the nominee that he or she is willing to be nominated and desires to serve, if elected. Also, the shareholder making the nomination should include: (1) his or her name and record address, together with the name and address of any other shareholder known to be supporting the nominee; and (2) the number of shares of our stock that are beneficially owned by the shareholder making the nomination and by any other supporting shareholders. Nominees for director who are recommended by our shareholders will be evaluated in the same manner as any other nominee for director.

We may require that the proposed nominee furnish us with other information as we may reasonably request to assist us in determining the eligibility of the proposed nominee to serve as a director. At any meeting of shareholders, the Chairman of the Board may disregard the purported nomination of any person not made in compliance with these procedures.

Communications with our Board

Shareholders and other parties interested in communicating with our Board of Directors may do so by writing to the Board of Directors, Sykes Enterprises, Incorporated, 400 N. Ashley Drive, Tampa, Florida 33602. Under the process for such communications established by the Board of Directors, the Executive Vice President and General Counsel of the Company reviews all such correspondence and regularly forwards to all members of the Board a summary of the correspondence. Directors may at any time review a log of all correspondence received by the Company that is addressed to the Board or any member of the Board and request copies of any such correspondence. Correspondence that, in the opinion of the Executive Vice President and General Counsel, relates to concerns or complaints regarding accounting, internal accounting controls and auditing matters is summarized and the summary and a copy of the correspondence is forwarded to the Chairman of the Audit Committee. Additionally, at the direction of the Audit Committee, the Company has established a worldwide toll free hotline administered by an independent third party through which employees may make anonymous submissions regarding questionable accounting or auditing matters. Reports of any anonymous submissions are sent to the Chairman of the Audit Committee as well as the Executive Vice President and General Counsel of the Company.

MEETINGS AND COMMITTEES OF THE BOARD

The Board

Each director is expected to devote sufficient time, energy and attention to ensure diligent performance of his or her duties and to attend all Board, committee and shareholders meetings. The Board met eleven times during 2012, of which four were regularly scheduled meetings and seven were unscheduled meetings. All directors attended at least 75% of the meetings of the Board and of the committees on which they served during the fiscal year ended December 31, 2012. All of the directors attended the 2012 Annual Meeting of Shareholders on May 17, 2012.

Committees of the Board

The Board has four standing committees to facilitate and assist the Board in the execution of its responsibilities. The Board may also establish special committees as needed to assist the Board with review and consideration of non-routine matters. The standing committees are the Audit Committee, Finance Committee, the Compensation and Human Resource Development Committee and the Nominating and Corporate Governance Committee. All the committees are comprised solely of non-employee, independent directors. Charters for each committee are available on the Company's website at www.sykes.com by first clicking on "Investor Relations" and then on "Corporate Governance." The charter of each committee is also available in print to any shareholder who requests it. The table below shows membership for the entire year 2012 for each of the standing Board committees.

Audit Committee. The Audit Committee serves as an independent and objective party to monitor the Company's financial reporting process and internal control system. The Committee's responsibilities, which are discussed in detail in its charter, include, among other things, the appointment, compensation, and oversight of the work of the Company's independent auditing firm, as well as reviewing the independence, qualifications, and activities of the auditing firm. The Company's independent auditing firm reports directly to the Committee. All proposed transactions between the Company and the Company's officers and directors, or an entity in which a Company officer or director has a material interest, are reviewed by the Committee, and the approval of the Committee is required for such transactions. In 2012, the Audit Committee held eight meetings. The Board has determined that Mr. Meurer is an audit committee financial expert within the meaning of the rules of the Securities and Exchange Commission. The Committee is governed by a written charter, which is reviewed on an annual basis.

Finance Committee. The principal purpose of the Finance Committee is to assist the Board of Directors in evaluating significant investments and other financial commitments by the Company. The Committee has the

authority to review and make recommendations to the Board with respect to debt and equity limits, equity issuances, repurchases of Company stock or debt, policies relating to the use of derivatives, and proposed mergers, acquisitions, divestitures or investments by the Company that require approval by the full Board. The Committee also has authority to approve capital expenditures not previously approved by the Board of Directors. The level of authority applies to capital expenditures in excess of \$2 million but less than \$5 million. This authority is used, and the Committee convened only, when management recommends a decision prior to the next Board meeting. In 2012, the Finance Committee held 8 meetings and acted once by unanimous written consent. The Committee is governed by a written charter, which is reviewed on an annual basis.

Nominating and Corporate Governance Committee. The purpose of the Nominating and Corporate Governance Committee is to: (a) identify individuals qualified to become members of the Board of Directors of the Company and its subsidiaries; (b) recommend to the Board of Directors director nominees for election at the annual meeting of shareholders or for election by the Board of Directors to fill open seats between annual meetings; (c) recommend to the Board of Directors committee appointments for directors; (d) develop and recommend to the Board of Directors corporate governance guidelines applicable to the Company; and (e) monitor the Company's compliance with good corporate governance standards. In 2012, the Nominating and Corporate Governance Committee held four meetings. The Committee is governed by a written charter, which is reviewed on an annual basis.

Compensation and Human Resource Development Committee. The Compensation and Human Resource Development Committee's responsibilities, which are discussed in detail in its charter, include, among other things, the establishment of the base salary, incentive compensation and any other compensation for the Company's President and Chief Executive Officer, and to review and approve the President and Chief Executive Officer's recommendations for the compensation of certain executive officers reporting to him. This Committee also monitors the Company's management incentive cash and equity based bonus compensation arrangements and other executive officer benefits, and evaluates and recommends the compensation policy for the directors to the full Board for consideration. The Committee also determines compensation and benefits of the Company's non-employee directors. This Committee is also responsible for providing oversight and direction regarding the Company's employee health and welfare benefit programs as well as training and development. In 2012, the Committee held five meetings and acted four times by unanimous written consent. The Committee is governed by a written charter, which is reviewed on an annual basis.

DIRECTOR COMPENSATION

Directors who are executive officers of the Company receive no compensation for service as members of either the Board of Directors or any committees of the Board.

Fifth Amended and Restated 2004 Non-Employee Director Fee Plan

In March 2012, upon the recommendation of the Compensation and Human Resource Development Committee, the Board, subject to shareholder approval, adopted the Fifth Amended and Restated 2004 Non-Employee Director Fee Plan (the "2004 Fee Plan") providing that the annual cash and equity retainer compensation amounts payable to directors under the 2004 Fee Plan would be determined by the Board of Directors on an

annual basis. The amendments to the 2004 Fee Plan were approved by shareholders at the May 17, 2012 annual meeting. The 2004 Fee Plan provides that all new non-employee directors joining the Board will receive an initial grant of shares of common stock on the date the new director is elected or appointed, the number of which will be determined by dividing \$60,000 by the closing price of the Company's common stock on the trading day immediately preceding the date a new director is elected or appointed, rounded to the nearest whole number of shares. The initial grant of shares vests in twelve equal quarterly installments, one-twelfth on the date of grant and an additional one-twelfth on each successive third monthly anniversary of the date of grant. The award lapses with respect to all unvested shares in the event the non-employee director ceases to be a director of the Company, and any unvested shares are forfeited.

The 2004 Fee Plan also provides that each non-employee director will receive, on the day after the annual shareholders meeting, an annual retainer for service as a non-employee director (the "Annual Retainer"). The Annual Retainer consists of shares of the Company's common stock and cash. Prior to May 21, 2012, the total value of the Annual Retainer was \$95,000, payable \$50,000 in cash and the remainder paid in stock, the amount of which was determined by dividing \$45,000 by the closing price of the Company's common stock on the date of the annual meeting of shareholders, rounded to the nearest whole number of shares. On May 21, 2012, the amount of the cash portion of the Annual Retainer for the following year remained at \$50,000, but the equity component of the Annual Retainer for the following year was increased from \$45,000 to \$75,000 resulting in an increase in the total value of the Annual Retainer for the following year from \$95,000 to \$125,000.

In addition to the Annual Retainer award, the 2004 Fee Plan also provides for any non-employee Chairman of the Board to receive an additional annual cash award of \$100,000, and each non-employee director serving on a committee of the Board to receive an additional annual cash award in the following amounts:

Position	Amount
<u>Audit Committee</u>	
Chairperson	\$ 20,000
Member	\$ 10,000
<u>Compensation & Human Resource Development Committee</u>	
Chairperson	\$ 15,000
Member	\$ 7,500
<u>Finance Committee</u>	
Chairperson	\$ 12,500
Member	\$ 7,500
<u>Nominating and Corporate Governance Committee</u>	
Chairperson	\$ 12,500
Member	\$ 7,500

The annual grant of shares vests in four equal quarterly installments, one-fourth on the day following the annual meeting of shareholders, and an additional one-fourth on each successive third monthly anniversary of the date of grant. The annual grant of cash, including all amounts paid to a non-employee Chairman of the Board and all amounts paid to non-employee directors serving on committees of the Board, vests in four equal quarterly installments, one-fourth on the day following the annual meeting of shareholders, and an additional one-fourth on each successive third monthly anniversary of the date of grant. The award lapses with respect to all unpaid cash

and unvested shares in the event the non-employee director ceases to be a director of the Company, and any unvested shares and unpaid cash are forfeited. At the Board's regularly scheduled meeting on March 20, 2013, upon the recommendation of the Compensation and Human Resource Development Committee, the Board determined that its compensation for the next fiscal year beginning on the date of the 2013 annual shareholder meeting would remain unchanged from 2012 levels.

The Board may pay additional cash compensation to any non-employee director for services on behalf of the Board over and above those typically expected of directors, including but not limited to service on a special committee of the Board.

The following table contains information regarding compensation paid to the non-employee directors during fiscal year ending December 31, 2012, including cash and shares of the Company's common stock.

EXECUTIVE COMPENSATION

Executive Summary

Sykes is a complex global business serving sophisticated and demanding clients. Our business and financial strategies require careful expense management while providing superior customer service and value. This requires experienced executive leadership with sound business judgment, a passion for service excellence, and a desire to succeed. The primary and overriding objective of the Compensation and Human Resource Development Committee of the Board (the Committee) in determining executive compensation is to align the elements of that compensation with the interests of our shareholders; the ultimate goal being to increase and optimize shareholder value. Our executive compensation strategy is also aligned with our business strategy and talent requirements by being sufficiently competitive on fixed compensation elements (such as base salary) while emphasizing variable compensation elements (such as short-term and long-term incentives) to drive targeted performance and to reward results.

The following are a few key financial and operating results, as well as the resulting incentive compensation results for 2012 and for the 2010 - 2012 performance period:

2012 Financial and Compensation Results

Revenues for 2012 decreased 3.6% year over year to \$1.128 billion. On a constant currency basis, and excluding revenue contribution from the Alpine Access acquisition, revenues for 2012 decreased 6.1% year over year, with increased demand within the financial services, healthcare and travel verticals being more than offset by end-of-life client programs and the effect of strategic geographical exits and capacity rationalization. Revenue is not a determinate for short term incentive compensation.

Adjusted Operating Income for 2012 decreased 3.2% year over year to \$83.17 million. Short-term incentive compensation for the year 2012 was based solely on Adjusted Operating Income targets, which were earned at 95.8% of the target award opportunity resulting in a payout of only 87.5% of the target award opportunity.

The time vested stock appreciation rights component of the long-term incentive plan, which were granted on March 21, 2012, were underwater at year end.

2010 - 2012 Financial and Compensation Results

Cumulative revenues for the 2010 - 2012 performance period were \$3.456 billion, which fell below the threshold performance requirement.

Cumulative Adjusted Operating Income for the 2010 - 2012 performance period was \$235 million, which fell below the threshold performance requirement.

Based on the above revenue and Adjusted Operating Income measures, the performance shares tied to the 2010 - 2012 performance period were not earned by the named executive officers (NEOs) and have therefore been cancelled.

Many of the time vested stock appreciation rights granted in recent years were underwater at year end. In evaluating the relationship between pay and performance, the Compensation Committee noted that the Company's financial performance at levels below expectations for 2012, as well as the 2010 - 2012 long-term

performance period, resulted in executive compensation being below target levels. That, coupled with prior years where both performance and pay have been above expectations, leads the Committee to believe that the compensation structures utilized by the Company do in fact result in a strong linkage between pay and performance.

Although the Committee believes that the current compensation model creates a strong alignment between pay and performance, the Committee also recognizes that the Company's long-term incentive plan design has been in effect for many years. In evaluating executive compensation for 2013, the Committee took note that during the period since the Company first implemented its current incentive pay structure, some industry practices have changed. Additionally, the Committee determined that there should be even stronger incentives and rewards in place for accelerating shareholder value creation. Accordingly, after deliberation with the CEO and with the Committee's independent advisor, the Committee recommended to the Board that for 2013 it retain its incentive compensation structure to include short term (one year) cash incentives, and long term (three year) equity incentives (long term incentive program or LTIP), with payment dependent on achievement of pre-determined revenue and income targets, but with the following high level changes:

There will be no increase in base salaries for the NEOs

There will be no increases to short-term incentive opportunities or to the short-term incentive plan design

There will be some changes in the mix of equity instruments, and increases to long-term incentive grant values, but under a long-term plan design that remains highly performance-based:

g 20% of the grant value will consist of time vested restricted stock, which will increase or decrease in value based on changes in the Company's stock price over time

g 30% of the grant value will consist of time vested stock appreciation rights, which only have value to the executives if the stock price rises above the grant value on the date of grant

g 50% of the grant value will be in performance shares, which are tied to challenging 3-year financial goals for revenue and Adjusted Operating Income

The Company uses Adjusted Operating Income as a performance measure in order to eliminate certain one time or non-performance related items. As was the case in the 2012 - 2014 LTIP calculation, the 2013 -2015 LTIP excludes the following items in the calculation of Adjusted Operating Income: (a) depreciation and amortization related to asset write ups in connection with acquisitions, (b) costs to obtain synergies in connection with acquisitions, (c) transaction costs associated with entity acquisitions and dispositions, (d) restructuring and impairment charges related to acquisitions and dispositions referenced in (c), and (e) any effect (positive or negative) from foreign currency exchange rate fluctuations.

Our Executive Leadership Team

The Company is fortunate to have in place a stable and seasoned senior executive leadership team. Charles E. Sykes, the Company's President and Chief Executive Officer, has served the Company in various capacities for over twenty-five years. Each of the remaining NEOs has served the Company for between seven and thirteen years. After eight years of service to the Company, James C. Hobby, former Executive Vice President of Global Operations retired in September of 2012, and Christopher M. Carrington, former Chief Executive Officer of Alpine Access, Inc. (which was acquired by the Company during 2012), joined the executive team as Executive Vice President of Global Delivery.

Compensation Philosophy and Objectives

The Committee believes that the most effective executive compensation program is one that is designed to enhance shareholder value by attracting and retaining the talent and experience best suited to manage, guide and build our business. This requires fair and competitive base salaries and benefits designed to attract qualified executives, as well as carefully designed incentive compensation programs to link the interests of the executives to the long-term interests of our shareholders.

In evaluating and determining the complete compensation packages for the Company's executive officers generally, and the NEOs specifically, the Committee reviews relevant market data provided by its outside independent consultant, which includes an evaluation of the executive compensation packages paid to similarly situated executives of similarly situated companies. Although the market pay data is only one of many factors considered when making pay determinations, the Committee generally seeks to position pay opportunities within a range of 80% to 120% of the 50th percentile pay level. However, variations from this objective may occur as dictated by the experience level of the individual and other factors.

A significant percentage of the target total compensation to our senior executives is allocated to performance-based incentives as a result of the philosophy mentioned above. Although there is no pre-established policy for the allocation between either cash and non-cash or short-term and long-term performance-based incentive compensation, in 2012 the Committee continued the basic structure utilized in recent years, which determined performance-based incentives as a percentage of base salary validated against current market data. A significant percentage of the target total direct compensation to our executive officers is in the form of non-cash, long-term equity incentive awards. A chart showing the relative percentages between cash, target short term and target long term incentive compensation of the NEOs for 2012 is included below in the section entitled "Elements of Compensation."

Roles and Responsibilities in Determining Executive Compensation

The Role of the Compensation and Human Resource Development Committee. The Compensation and Human Resource Development Committee (referred to in this Analysis as the "Committee") of the Board has been charged with the responsibility for establishing, implementing and continually monitoring adherence with the Company's compensation philosophy. The Committee's goal is to ensure that the form and amount of compensation and benefits paid to its senior leadership team, specifically including the named executive officers, is fair, reasonable and sufficiently competitive to attract and retain high quality executives who can lead the Company to achieve the goals that the Board believes will maximize shareholder value. For executives other than the CEO, executive compensation matters are first considered by the Committee, which then makes recommendations to the Board, which then considers and approves or disapproves the Committee's recommendations. As it relates to the compensation of the Company's CEO, the Committee meets first with the CEO to obtain information regarding performance, objectives and expectations, discusses the matter with the Board and then makes a final compensation determination.

The Role of the Chief Executive Officer. The Committee meets periodically with the CEO to discuss and review executive compensation. The CEO provides the Committee with the appropriate business context for executive compensation decisions as well as specific recommendations for each of the executives, including the named executive officers, but excluding the CEO. Additionally, the Chairman of the Committee meets periodically with the CEO to discuss the Committee's views on the CEO's compensation and proposals for adjustments to be considered by the Committee.

The Role of Senior Management. The Committee periodically meets with representatives of Human Resources, Finance, and Legal. These individuals provide the Committee with requested data, information, and advice regarding the executive compensation program, specifically with regard to incentive plan designs, performance measures and goals, and disclosure. These representatives are not involved in conversations regarding their own compensation.

The Role of Outside Independent Consultants. In accordance with the Committee's charter, the Committee has the authority to retain any outside counsel, consultants or other advisors to the extent deemed necessary and appropriate, including the sole authority to approve the terms of engagement and fees related to services provided. Since 2010, the Committee has utilized Pearl Meyer & Partners (PM&P) as its independent executive compensation consultant. PM&P provides research, market data, survey information and design expertise in developing executive and director compensation programs. When appropriate, the Committee has discussions with its consultant without management present to ensure candor and impartiality. A representative of PM&P attended Committee meetings in 2012 and advised the Committee on all principal aspects of executive and director compensation, including the competitiveness of program design and award values and specific analyses with respect to the compensation of the Company's executive officers.

PM&P is directly engaged by, and its activities are dictated by, the Committee. PM&P and its affiliates provide services only to the Committee and are prohibited from providing services or products of any kind to the Company. PM&P has certified to the Committee that neither it, nor any of the individuals providing services to the Committee on its behalf, have any business or personal relationship with any of the directors or executive officers of the Company, and has further certified that the compensation it receives for its services to the Committee comprised less than 1% of its total revenue for 2012.

The Role of Peer Group Data. In making its compensation decisions for 2012, the Committee compared the Company's pay and performance levels against a peer group of ten (10) publicly traded companies which the Committee believes compete with the Company in the customer contact management segment and for executive talent (the Compensation Peer Group). The composition of the Compensation Peer Group is reviewed annually to determine whether there are new companies which should be added, or existing companies which should be deleted. For its analysis in 2012, the Committee replaced two companies in the Compensation Peer Group from that used in 2011 due to the fact that they had been acquired by other entities.

The companies included in the Compensation Peer Group and used as the basis for comparison and analysis by the Committee with respect to 2012 compensation decisions were:

- Genpact, Ltd.
- Kforce, Inc.
- Convergys Corporation
- Stream Global Services
- West Corp
- StarTek, Inc.
- Alliance Data Systems
- TeleTech Holdings, Inc.
- Axciom Corp.
- CDI Corp.

As in prior years, the peer group analysis and data are one of many factors considered by the Committee and the Board in making its final pay determinations. Other important factors include the current and expected performance of the Company, the current and expected performance of the executive and internal pay equity.

Executive Compensation Analysis

As in prior years, the Committee requested, reviewed, and discussed an independent analysis of the executive compensation program for the Company's NEOs provided by its consultant. The analysis included a review of pay competitiveness, pay and performance alignment, the long-term incentive plan design, and an overall risk assessment of the executive compensation program. The following were the significant findings from this analysis:

Base salaries were generally positioned at the 50th percentile

Target total cash compensation (salary plus target short-term incentive opportunity) was generally positioned at the 50th percentile

Long-term incentive grant values were positioned near the 75th percentile, but the aggregate equity grant rate (as a percent of shares outstanding) was below the 25th percentile

Total direct compensation (target total cash compensation plus long-term incentive grant value) was positioned slightly above the 50th percentile

Company performance (across a variety of financial and operating metrics) on a 1-year and 3-year basis was generally positioned at the 75th percentile

The overall program strikes a balance between risks and rewards, and is not believed to encourage executives to take undue risks that could materially harm the Company

The above analysis reflects the executive team in aggregate. As expected, there is variation by executive (with regard to pay competitiveness) and by performance measure (with regard to relative performance). This analysis was completed in August 2011 and was one of many inputs into the Committee's decisions with regard to 2012 executive compensation.

Elements of Compensation

The compensation program for our executives includes several direct compensation components. Those components are base salary, annual cash incentive awards and equity-based incentive awards, which are granted in the form of performance based restricted stock (or restricted stock units), and time-vested stock appreciation rights. Our executives are also permitted to participate in our 401(k) plan which is available to all employees, as well as our non-qualified executive deferred compensation plan. The purpose of the deferred compensation plan is to provide our executives with the ability to take advantage of tax deferred savings which may not be fully available to them under our 401(k) plan.

The relative percentages between base salary, annual cash incentive targets and long term equity based incentive targets as compared to total target compensation for the NEOs for 2012 were as follows:

Name	Total Direct Compensation	Base Salary	Annual Cash Incentive	Long Term Equity Incentive
Charles E. Sykes	100%	20%	20%	60%
W. Michael Kipphut	100%	32%	23%	45%
James C. Hobby	100%	32%	23%	45%
Lance R. Zingale	100%	32%	23%	45%
James T. Holder	100%	45%	23%	32%
David L. Pearson	100%	45%	23%	32%

Base Salary

Base salary is designed to provide each executive with a fixed amount of annual compensation that is competitive with the marketplace. Base salaries for the named executive officers are determined for each executive based on his or her position and responsibility, and are further informed by using market data provided to the Committee by its consultant. Base salary ranges of our executives are designed so that salary opportunities for a given position will be approximately between 80% and 120% of the market data midpoint. During its review of base salaries for executives, the Committee primarily considers (a) the market data provided by its consultant, (b) internal review of the executive's compensation, both individually and relative to other officers, and (c) individual performance of the executive. Salary levels are typically considered annually as part of the Company's performance review process as well as upon a promotion or other change in job responsibility. Merit based increases to salaries of our executive leadership team, other than the President and CEO, are based on the Committee's assessment of the individual's performance, with input from the President and CEO. Merit increases for the President and CEO are determined by the Committee based upon the Committee's assessment of performance, with input from the Board, and after consultation with the Committee's independent outside consultant. Based upon a combination of all the foregoing factors, the Committee made no salary adjustment for the President and CEO in 2012, but recommended to the Board (which recommendation was accepted) that the base salary for each of the remaining NEOs be increased by 2%. Accordingly, the annual base cash compensation for the NEOs in 2011 and 2012 were as follows:

Named Executive Officer	2011 Annual Base Cash Compensation	2012 Annual Base Cash Compensation	% Increase
Charles E. Sykes	\$ 625,000	\$ 625,000	0%
W. Michael Kipphut	\$ 415,978	\$ 424,298	2%
James C. Hobby	\$ 369,973	\$ 377,372	2%
Lance R. Zingale	\$ 360,132	\$ 367,335	2%
James T. Holder	\$ 300,340	\$ 306,347	2%
David L. Pearson	\$ 285,451	\$ 291,160	2%

Additionally, in September 2012, the Committee recommended to the Board a further increase in the annual base cash compensation for Mr. Zingale. In considering an additional adjustment to Mr. Zingale's base salary in 2012, the Committee's recommendation to the Board was impacted primarily by the larger revenue size and

complexity of the Company following the acquisition of Alpine Access, Inc. and the increased scope of responsibility assumed by Mr. Zingale when he was promoted to the position of Executive Vice President and General Manager of Major Markets. Based on its review, the Committee recommended to the Board, and the Board approved, an 8.9% increase in Mr. Zingale's base salary from \$367,335 to \$400,000 effective in September 2012.

In 2013, based upon a similar review as conducted for 2012, the Committee made no salary adjustment for the CEO, and upon the recommendation of the Committee, the Board approved no salary increases for any of the other NEOs.

Performance-Based Annual Cash Incentive Compensation

The annual cash incentive component of the total direct compensation paid to our executive leadership team is designed to reward achievement of pre-determined annual corporate, and sometimes individual, performance goals, reward current performance by basing payment on the achievement of quantifiable performance measures that reflect contributions to the success of our business, and encourage actions by the executives that contribute directly to our operating and financial results. In fiscal year 2012, the annual cash incentive opportunity for the President and CEO, and all other executive officers, was determined based solely upon the achievement of pre-determined corporate financial goals.

At the beginning of the year, the Committee sets minimum, target and maximum levels for the portion of the cash incentive component of total direct compensation that is determined by reference to corporate financial performance. Threshold performance represents the minimum performance that still warrants incentive recognition for that particular goal, and is paid at 50% of the target award level. Maximum performance represents the highest level likely to be attained and is paid at 150% of the target award level. No annual performance-based cash incentive compensation determined by reference to corporate financial performance is paid to any executive of the Company if our financial results do not exceed the threshold determined for that year.

At the beginning of each year, the Committee also sets the award percentage tied to salary for the President and CEO and recommends an award percentage for each of the other members of the executive leadership team that they will receive if the performance goals are met. The Committee's goal in setting target award levels is to create a compensation program such that the potential incentive awards, when combined with each officer's base salary, will provide a fully competitive total cash compensation opportunity, with the portion of compensation at risk (i.e., the target award level) being reflective of the level of that officer's accountability for contributing to bottom line financial results, and the degree of influence that officer has over results. In setting these percentages, the Committee considers these factors as well as data from the market assessment provided by its consultant. In 2012, the target award opportunities were set at 100% of base salary for the President and CEO, 70% of base salary for the CFO, and between 30% and 70% of base salary for each of the other named executive officers and members of the executive leadership team.

For 2012, the Committee met with management and reviewed the Company's operating plan for 2012 to establish the target financial goals of the Company on which the annual performance-based cash incentive compensation awards would be based. The performance measure selected for the 2012 short-term incentive plan was Adjusted Operating Income. Adjusted Operating Income was defined as Operating Income less (a) depreciation and amortization related to write-ups in connection with acquisitions, (b) costs to obtain synergies in connection with acquisitions, (c) transaction costs associated with entity acquisitions and dispositions, (d) restricting and impairment charges related to acquisitions and dispositions, and (e) any effects (positive or negative) from foreign currency exchange rate fluctuations. The Committee believes that Adjusted Operating Income, as defined, is

an effective and appropriate measure of the Company's operating performance on an annual basis. The performance target for 2012 was Adjusted Operating Income of \$69.766 million. The Company's actual Adjusted Operating Income for 2012 was \$66.846 million. This performance result yielded a short-term incentive payout equal to 87.5% of the targeted payout for each participant.

Charles E. Sykes	\$ 625,000	\$ 546,874

Discretionary Bonuses

The Compensation Committee believes that discretionary bonuses should be, and have been, a rare occurrence. There were no discretionary bonuses paid to any of the NEOs for 2012 performance, with the exception of a retirement bonus of \$377,372 paid to Mr. Hobby in September of 2012.

Performance-Based, Long-Term Equity Incentive Compensation

The performance-based, long-term equity incentive compensation component of total direct compensation for our executives is designed to encourage them to focus on long-term Company performance and provides an opportunity for executive officers and certain designated key employees to increase their ownership stake in the Company. The Committee utilizes a combination of performance-vested restricted stock (or restricted stock units for executives and key employees in foreign countries who would incur unfavorable tax consequences due to local tax laws if they were to receive restricted stock) and time-vested stock appreciation rights (SARs). The Committee believes both of these components of performance-based, long-term equity incentive compensation directly align the interests of the Company's executives with the interests of its shareholders by requiring achievement of both long-term operating results that are the drivers of long-term value creation and actual increases in the Company's stock price. For 2012, the grant mix for the Named Executive Officers was 2/3 performance-vested restricted stock and 1/3 time-vested stock appreciation rights. The performance-vested restricted stock is earned based on cumulative performance over a 3-year performance period and the time-vested stock appreciation rights vest ratably over a 3-year period.

The Committee's goal in setting target long-term equity incentive award levels is to create a complete compensation program, such that the potential annual cash and long-term equity incentive awards, when combined with each officer's base salary, will provide a fully competitive total compensation opportunity, with there being a significant portion of potential compensation at risk. In setting award percentages (which are tied to salary), the Committee considers the level of each officer's accountability for contributing to bottom line financial results, and the degree of influence that officer has over results, as well as data from the market assessment provided by its consultant.

With respect to the performance-vested restricted stock, the Committee meets with management each year to review the proposed operating plan for the upcoming year, and in conjunction with the Board approval of an operating plan, together with growth goals for the succeeding two years, sets the financial targets for the next three-year performance cycle. The Committee first utilized this method for determining long-term incentive compensation on a three-year performance cycle for the performance cycle beginning January 1, 2005 and has continued utilizing this method through 2012. The performance-based restricted stock awards vest at 95% of target for achieving the threshold goal and at 110% of target for achieving the maximum goal, with straight-line interpolation between threshold and target and between target and maximum. Below is a discussion of the specific design elements of each performance-vested restricted stock grant that was either awarded in or has a payout potential in the years covered by this disclosure.

2008 through 2010 Performance Cycle. For the 3-year cycle ending in 2010 (2008 - 2010), the Committee made awards of performance-vested restricted stock (or restricted stock units, as the case may be) and time-vested SARs. The target award percentages for performance-based restricted stock were set at 133% of base salary for the President and CEO, 80% of base salary for the CFO, and between 20% and 67% of base salary for each of the other named executive officers, members of the executive leadership team and other key employees. The target award percentages for SARs were set at 67% of base salary for the President and CEO, 40% of base salary for the CFO, and between 20% and 33% of base salary for each of the other named executive officers and members of the executive leadership team. The target goal for 2/3 of the performance-based restricted share awards was established by the Committee to be that income from operations of the Company, as reported in its audited Consolidated Statement of Operations, during fiscal years 2008, 2009 and 2010 (measured from January 1, 2008 through December 31, 2010) equals at least \$183,720,000. In December, 2009 the Committee recommended, and the Board approved, that this target be adjusted downward by the sum of: (a) depreciation related to assets acquired in the 2010 acquisition of ICT Group, Inc. (the ICT Transaction) that were revalued for accounting purposes and will be depreciated in the future, and amortization of intangibles related to the ICT Transaction; (b) costs to obtain synergies from the ICT Transaction; (c) ICT Transaction costs; and (d) restructuring and impairment charges incurred in 2010 related to the ICT Transaction. The target goal for 1/3 of the performance-based restricted share awards is that gross revenue from operations of the Company, as reported in its audited Consolidated Statements of Operations during fiscal years 2008, 2009 and 2010 (measured from January 1, 2008 through December 31, 2010) equals at least \$2,388,953,000. Based on actual results, 150% of the performance-based restricted stock awards were earned.

2009 through 2011 Performance Cycle. For the 3-year cycle ending in 2011 (2009 - 2011), the Committee made awards of performance-vested restricted stock (or restricted stock units, as the case may be) and time-vested SARs. The target award percentages for performance-based restricted stock were set at 183% of base salary for the President and CEO, 93% of base salary for the CFO, and between 20% and 93% of base salary for each of the other named executive officers, members of the executive leadership team and other key employees. The target award percentages for SARs were set at 92% of base salary for the President and CEO, 47% of base salary for the CFO, and between 23% and 47% of base salary for each of the other named executive officers and members of the executive leadership team. The target goal for 2/3 of the performance-based restricted share awards was established by the Committee to be that income from operations of the Company, as reported in its audited Consolidated Statement of Operations, during fiscal years 2009, 2010 and 2011 (measured from January 1, 2009 through December 31, 2011) equals at least \$230,351,000. In December 2009 the Committee recommended, and the Board approved, that this target be adjusted downward by the sum of: (a) depreciation related to assets acquired in the ICT Transaction that were revalued for accounting purposes and will be depreciated in the future, and amortization of intangibles related to the ICT Transaction; (b) costs to obtain synergies

from the ICT Transaction; (c) ICT Transaction costs; and (d) restructuring and impairment charges incurred in 2010 related to the ICT Transaction. The target goal for 1/3 of the performance-based restricted share awards is that gross revenue from operations of the Company, as reported in its audited Consolidated Statements of Operations during fiscal years 2009, 2010 and 2011 (measured from January 1, 2009 through December 31, 2011) equals at least \$2,821,514,000. Based on actual results, 98% of the income performance-based restricted stock awards were earned, and 150% of the revenue performance-based restricted stock awards were earned.

2010 through 2012 Performance Cycle. For the 3-year cycle ending in 2012 (2010 - 2012), the Committee made awards of performance-vested restricted stock (or restricted stock units, as the case may be) and time-vested SARs. The target award percentages for performance-based restricted stock were set at 183% of base salary for the President and CEO, 93% of base salary for the CFO, and between 20% and 93% of base salary for each of the other named executive officers, members of the executive leadership team and other key employees. The target award percentages for SARs were set at 92% of base salary for the President and CEO, 47% of base salary for the CFO, and between 23% and 47% of base salary for each of the other named executive officers and members of the executive leadership team. The target goal for 2/3 of the performance-based restricted share awards was established by the Committee to be that income from operations of the Company, as reported in its audited Consolidated Statement of Operations, during fiscal years 2010, 2011 and 2012 (measured from January 1, 2010 through December 31, 2012) equals at least \$326,468,000. In December 2009 the Committee recommended, and the Board approved, that this target be adjusted downward by the sum of: (a) depreciation related to assets acquired in the ICT Transaction that were revalued for accounting purposes and will be depreciated in the future, and amortization of intangibles related to the ICT Transaction; (b) costs to obtain synergies from the ICT Transaction; (c) ICT Transaction costs; and (d) restructuring and impairment charges incurred in 2010 related to the ICT Transaction. The target goal for 1/3 of the performance-based restricted share awards is that gross revenue from operations of the Company, as reported in its audited Consolidated Statements of Operations during fiscal years 2010, 2011 and 2012 (measured from January 1, 2010 through December 31, 2012) equals at least \$4,038,850,000. Based on actual results, none of the income or revenue performance based restricted stock awards were earned.

2011 through 2013 Performance Cycle. For the 3-year cycle ending in 2013 (2011 - 2013), the Committee made awards of performance-vested restricted stock (or restricted stock units, as the case may be) and time-vested SARs. The target award percentages for performance-based restricted stock were set at 200% of base salary for the President and CEO, 93% of base salary for the CFO, and between 20% and 93% of base salary for each of the other named executive officers, members of the executive leadership team and other key employees. The target award percentages for SARs were set at 100% of base salary for the President and CEO, 47% of base salary for the CFO, and between 23% and 47% of base salary for each of the other named executive officers and members of the executive leadership team. The target goal for 2/3 of the performance-based restricted share awards was established by the Committee to be that income from operations of the Company, as reported in its audited Consolidated Statement of Operations, during fiscal years 2011, 2012 and 2013 (measured from January 1, 2011 through December 31, 2013), less (a) depreciation and amortization related to write-ups in connection with acquisitions, (b) costs to obtain synergies in connection with acquisitions, (c) transaction costs associated with acquisitions and dispositions, (d) restructuring and impairment charges related to the acquisitions and dispositions referenced in (c) above, and (e) any effects, (positive or negative) from foreign currency exchange rate fluctuations, equals at least \$270,982,000. The target goal for 1/3 of the performance-based restricted share awards is that gross revenue from operations of the Company, as reported in its audited Consolidated Statements of Operations during fiscal years 2011, 2012 and 2013 (measured from January 1, 2011 through December 31, 2013) equals at least \$3,761,735,000.

2012 through 2014 Performance Cycle. For the 3-year cycle ending in 2014 (2012 - 2014), the Committee made awards of performance-vested restricted stock (or restricted stock units, as the case may be) and time-vested SARs. The target award percentages for performance-based restricted stock were set at 200% of base salary for the President and CEO, 93% of base salary for the CFO, and between 20% and 93% of base salary for each of the other named executive officers, members of the executive leadership team and other key employees. The target award percentages for SARs were set at 100% of base salary for the President and CEO, 47% of base salary for the CFO, and between 23% and 47% of base salary for each of the other named executive officers and members of the executive leadership team. The target goal for 2/3 of the performance-based restricted share awards was established by the Committee to be that income from operations of the Company, as reported in its audited Consolidated Statement of Operations, during fiscal years 2012, 2013 and 2014 (measured from January 1, 2012 through December 31, 2014), less (a) depreciation and amortization related to write-ups in connection with acquisitions, (b) costs to obtain synergies in connection with acquisitions, (c) transaction costs associated with acquisitions and dispositions, (d) restructuring and impairment charges related to the acquisitions and dispositions referenced in (c) above, and (e) any effects, (positive or negative) from foreign currency exchange rate fluctuations, equals at least \$265,714,151. The target goal for 1/3 of the performance-based restricted share awards is that gross revenue from operations of the Company, as reported in its audited Consolidated Statements of Operations during fiscal years 2012, 2013 and 2014 (measured from January 1, 2012 through December 31, 2014) equals at least \$3,536,384,491.

The amount each named executive officer received as performance-based, long-term equity incentive compensation for each of the three-year measurement periods beginning in 2010, 2011 and 2012 has been reported in the summary compensation table in the Stock Awards column.

Executive Deferred Compensation

Participation in the Executive Deferred Compensation Plan (the *Deferred Compensation Plan*) is limited to employees at the Director level and above within the Company's organizational structure (in ascending order, Directors, Senior Directors, Executive Directors, Vice Presidents, Senior Vice Presidents, Executive Vice Presidents and the President). Participants in the *Deferred Compensation Plan* may elect to defer any amount of base compensation and bonus. The Company matches a portion of amounts deferred by participants at the level of Vice President and above on a quarterly basis as follows: 50% match on salary deferred, up to a total match of \$12,000 per year for Senior Vice Presidents and above and \$7,500 per year for Vice Presidents. No match is made on deferrals by other participants. The matching contributions made to the *Deferred Compensation Plan* by the Company are made in the form of Company common stock.

Compensation deferred by a participant while participating in the *Deferred Compensation Plan* is deferred until such participant's retirement, termination, disability or death, or a change in control of the Company, as defined in the *Deferred Compensation Plan*, and in such event is paid out to the participant or his beneficiary. Under current tax law, a participant does not recognize income with respect to deferred compensation until it is paid to him or her. Upon payment, the participant will recognize ordinary income in an amount equal to the sum of the cash and the fair market value of the shares of stock received, and the Company will be entitled to a deduction equal to the income recognized by the participant.

Distributions of a participant's deferred compensation and Company stock contributed as matching contributions is made as soon as administratively feasible six months after retirement or termination of employment, unless the participant dies or becomes disabled while still an employee, in which case both distributions are made on the first day of the second month following the death or disability.

In the event the participant terminates employment (for reasons other than death, disability or retirement) without participating in the Deferred Compensation Plan for three years, the matching contributions and earnings attributable thereto are forfeited. In the event that a participant terminates employment after three years but less than five years of participation in the Deferred Compensation Plan, the participant forfeits 67% of the matching contribution and earnings. In the event a participant terminates employment after five years but less than seven years of participation in the Deferred Compensation Plan, the participant forfeits 33% of the matching contribution and earnings. In the event a participant terminates employment after seven years of participation in the Deferred Compensation Plan, the participant is entitled to retain all of the matching contribution and earnings.

In the event of a distribution of benefits as a result of a change in control, the Company will increase the benefits for the Senior Vice Presidents, Executive Vice Presidents and the President by an amount sufficient to offset the income tax obligations created by the distribution of benefits.

Participants forfeit undistributed matching contributions if the participant is terminated for cause as defined in the Deferred Compensation Plan or the participant enters into a business or employment which the Company's CEO determines to be in violation of any non-compete agreement between the participant and the Company.

Other Elements of the Compensation Program

Stock Ownership Guidelines

The Board has adopted stock ownership guidelines for the named executive officers and other members of the senior management team, which vary by position from 150% to 400% of base salary. These guidelines, which allow the executives five (5) years beginning January 1, 2008 to acquire this amount of stock, were adopted in 2006. The Committee reviews share ownership of the Company's executives on an annual basis to ensure that the executive officers are aware of where each stands in relation to the established guidelines. For purposes of the guidelines, stock ownership includes fully vested stock options, directly held common stock, time-vested restricted stock, performance shares and indirectly held shares that are considered beneficially owned under applicable SEC rules. There are no additional stock holding period requirements for shares acquired upon exercise of SARs or upon the vesting of performance-based restricted stock. As of December 31, 2012, all named executive officers were in compliance with the stock ownership guidelines.

Clawback and Anti-Hedging Policies

The Board has not yet adopted specific clawback and anti-hedging policies beyond the requirements already created by various provisions of Sarbanes-Oxley. However, the Board intends to adopt fully compliant clawback and anti-hedging policies as soon as practical following the issuance of final rules and regulations by the SEC in enacting the requirements of the Dodd-Frank Act.

Change-in-Control Provisions

We have change of control provisions in the employment agreements with our President and CEO, our CFO, our Executive Vice President of Global Delivery, our Executive Vice President and General Manager of Major Markets, as well as in all of the equity incentive agreements with all of our executives and key employees. The change of control provisions in the four employment agreements are double-trigger arrangements, meaning that payments are only made if there is a change in control of the Company and the officer's employment is terminated without cause, or the officer terminates employment for good reason, as such terms are defined in

their respective employment agreements. All of our employment agreements with the NEOs, and the other executive officers, contain severance agreements ranging from one to three years of compensation and benefits in the event of termination by the Company other than for cause. These agreements are discussed in greater detail on page 43 under Potential Payments Upon Termination or Change of Control. We believe that providing these agreements helps increase our ability to attract, retain and motivate highly qualified management personnel and encourage their continued dedication without distraction from concerns over job security relating, among other things, to a change in control of the Company.

Perquisites and Other Personal Benefits

The Company provides named executive officers with perquisites and other personal benefits that the Company and the Committee believe are reasonable and consistent with its overall compensation program to better enable the Company to attract and retain superior employees for key positions. For our named executive officers, the amount of compensation shown under the Other Compensation column of the Summary Compensation Table represents less than 2% of their total compensation for the year. These amounts represent mainly Company matches to the Deferred Compensation Plan, excess group term life insurance premiums and additional compensation paid to the named executive officers related to the cost of executive physicals and other health and welfare benefits. The Committee periodically reviews the levels of perquisites and other personal benefits provided to named executive officers.

The named executive officers are permitted to fly in business class when traveling overseas on business and are permitted to attend sporting events utilizing Company paid tickets that are not otherwise utilized in connection with business development.

Mitigating Compensation Risks

Although the responsibility for oversight of enterprise risk management lies with the full Board, the Committee annually reviews and conducts an assessment of the risks associated with the Company's compensation policies and practices. Based on the assessment conducted in 2012, the Committee determined that the Company's compensation policies and practices are not reasonably likely to have a material adverse effect on the Company. In reaching that conclusion, the Committee evaluated each of the following key elements of the Company's compensation plans and practices for the executive officers:

Performance and pay horizons are appropriate and not overweight in short-term incentives;

The relationship between the incremental achievement levels and corresponding payouts in the Company's incentive plans are appropriate and have caps on payouts;

The incentive plans employ a reasonable mix of performance metrics and are not concentrated on a single metric;

Criteria for payments are closely aligned with our strategic goals and shareholder interests;

Payout curves are reasonable and do not contain steep cliffs that might encourage unreasonable short-term business decisions to achieve payment thresholds; and

Equity compensation plans for executive officers consist of a balanced mix of performance-based restricted stock, time vested stock appreciation rights, and service based restricted stock.

Tax and Accounting Implications

Deductibility of Executive Compensation

As part of its role, the Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that the Company may not deduct compensation of more than \$1,000,000 per year that is paid to certain individuals. The Company believes that compensation paid under the management incentive plans is generally fully deductible for federal income tax purposes. However, in certain situations, the Committee may approve compensation that will not meet these requirements in order to ensure competitive levels of total compensation for its executive officers.

Nonqualified Deferred Compensation

On October 22, 2004, the American Jobs Creation Act of 2004 (the Jobs Creation Act) was signed into law, changing the tax rules applicable to nonqualified deferred compensation arrangements. The Company believes its agreements containing deferred compensation components comply with the final regulations issued in connection with the Jobs Creation Act. A more detailed discussion of the Company's nonqualified deferred compensation arrangements is provided on page 41 under the heading Nonqualified Deferred Compensation.

Accounting for Equity Based Compensation

Beginning on January 1, 2006, the Company began accounting for stock-based payments, including those under its long-term incentive programs, in accordance with the requirements of FASB ASC Topic 718 (formerly FAS Statement 123(R)).

SUMMARY COMPENSATION TABLE

The table below summarizes the total compensation paid to, or earned by each of the named executive officers for the fiscal years ending December 31, 2012, December 31, 2011 and December 31, 2010. The Company has entered into employment agreements with each of the named executive officers which are summarized under the section entitled "Employment Agreements" below. When setting the total compensation for each of the named executive officers, the Committee considers all of the executive's current compensation, including equity and non-equity based compensation.

The named executive officers (other than James C. Hobby) did not receive payments which would be characterized as "Bonus" payments for the fiscal years ended December 31, 2012 or December 31, 2011. Mr. Hobby received a bonus upon retirement in September of 2012 which amount is listed in column (d). Amounts listed under column (g), "Non-Equity Incentive Plan Compensation" were paid in accordance with parameters determined by the Committee on March 6, 2012 and March 7, 2011, respectively, and were paid in March 2013 and March 2012, respectively.

- (1) These amounts are based on the individual's current salary and position.
- (2) Where amounts are shown in columns (f) and (h), then the amounts shown in column (f) reflect the Long-Term Incentive Stock Grant minimum which is 80% of the target amount shown in column (g), and the amount shown in column (h) is 150% of such target amount. The target amount shown is an absolute target. These amounts are based on the individual's current salary and position. The grant date fair value of the long-term incentive plan awards are based upon the target amounts shown in column (g).
- (3) The amounts shown in column (i) reflect the number of shares of stock granted to each named executive officer as matching contributions pursuant to the Executive Deferred Compensation Plan.
- (4) The amounts shown in column (j) reflect the number of Stock Appreciation Rights granted to each named executive officer as part of the Long-Term Incentive awards as described in more detail on page 26 under the heading Performance-Based, Long-Term, Equity Incentive Compensation. The actual number of shares underlying the Stock Appreciation Rights cannot be determined until such time as the Stock Appreciation Rights vest and are exercised and the spread between the fair value on the date of exercise and the base price is known. The fair value of the Stock Appreciation Rights included in column (l) is the amount determined pursuant to FASB ASC Topic 718 (formerly FAS Statement 123(R)).

NONQUALIFIED DEFERRED COMPENSATION

Pursuant to the Company's Executive Deferred Compensation Plan, certain executives, including the named executive officers, may defer all or any portion of their base salary, and all or any portion of their performance based non-equity incentive compensation. Deferral elections are made on or before December 31st of each year for amounts to be deferred from income earned with respect to the following year. The table below shows the investment options available under the Deferred Compensation Plan and their annual rate of return for the calendar year ended December 31, 2012, as reported by the Compensation Committee of the Plan.

Distributions of the participants' deferred compensation and any vested Company stock matching contributions are made as soon as administratively feasible six months after retirement or termination of employment, unless the participant dies or becomes disabled while still an employee, in which case both distributions are made as soon as administratively feasible.

In the event the participant terminates employment (for reasons other than death, disability or retirement) without participating in the plan for three years, the matching contributions and earnings attributable thereto are forfeited. In the event that a participant terminates employment after three years but less than five years of participation in the Plan, the participant forfeits 67% of the matching contribution and earnings. In the event a participant terminates employment after five years but less than seven years of participation in the Plan, the participant forfeits 33% of the matching contribution and earnings.

In the event of a distribution of benefits as a result of a change in control, the Company will increase the benefits for the Senior Vice Presidents, Executive Vice Presidents and the President by an amount sufficient to offset the income tax obligations created by the distribution of benefits.

Participants forfeit undistributed matching contributions if the participant is terminated for cause as defined in the Plan or the participant enters into a business or employment which the Company's CEO determines to be in violation of any non-compete agreement between the participant and the Company.

The following table shows information regarding contributions by the named executive officers, the Company's matching contributions, aggregate earnings on contributions during fiscal year 2012, and the aggregate balance at year end. There were no distributions from the plan to named executive officers during fiscal year 2012.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE OF CONTROL

The tables below reflect the amount of compensation to each of the named executive officers of the Company in the event of a termination of such executive's employment. The amount of compensation payable to each named executive officer upon voluntary termination, involuntary not-for-cause termination, termination following a change of control and in the event of a disability or death of the executive is shown below. The amounts shown assume that such termination was effective as of December 31, 2012, and thus includes amounts earned through such time and are estimates of the amounts which would be paid out to the executives upon their termination. The actual amounts to be paid out can only be determined at the time of such executive's separation from the Company.

Payments Made Upon Termination

Regardless of the manner in which a named executive officer's employment terminates, he is entitled to receive amounts earned during his term of employment. Depending upon the date of a termination, such amounts may include:

non-equity incentive compensation earned during the fiscal year;

shares which have vested and for which the restrictions have lapsed under Long-Term Incentive compensation awards;

shares to be issued as a result of the vesting of SARs under Long-Term Incentive compensation awards;

amounts contributed to the Executive Deferred Compensation Plan; and

unused vacation pay.

Payments Made Upon Termination by the Company Without Cause, or by the Executive with Good Reason

In the event the employment of Mr. Sykes, Mr. Kipphut or Mr. Zingale is terminated by the Company for any reason other than death, disability, or cause (as defined in their respective employment agreements), or if such officer terminates his employment agreement prior to the expiration of the renewal period for good reason (as defined in their respective employment agreements, other than a termination by the officer in connection with a change of control (as defined in his employment agreement)), the officer will be entitled to the following payments:

Mr. Sykes will be entitled to receive an amount equal to two times his annual base salary.

Mr. Kipphut will be entitled to receive an amount equal to his annual base salary, plus an amount equal to the maximum annual performance bonus he could earn under the performance based bonus plan in which Mr. Kipphut is then participating.

Mr. Zingale will be entitled to receive an amount equal to his annual base salary, plus an amount equal to the maximum annual performance bonus he could earn under the performance based bonus plan in which Mr. Zingale is then participating.

In the event that such officer terminates his employment agreement in connection with a change of control, such officer will be entitled to receive the benefits listed under the heading **Payments Made Upon a Change of Control** below.

In the event of the termination by the Company of the employment of any named executive officer other than Mr. Sykes, Mr. Kipphut or Mr. Zingale for any reason other than death, disability or cause, they will be entitled to receive an amount equal to their annual base salary.

Except as provided below, the foregoing amounts are to be paid biweekly in equal installments over 52 weeks, commencing immediately upon such officer's separation from service. If such officer is determined to be a specified employee on the date of his separation from service (each as defined in Section 409(A) of the Internal Revenue Code and applicable regulations), to the extent that he is entitled to receive any benefit or payment upon such separation from service under the employment agreement that constitutes deferred compensation within the meaning of Section 409A of the Internal Revenue Code before the date that is six months after the date of his separation from service, such benefits or payments will not be provided or paid to him on the date otherwise required to be provided or paid. Instead, all such amounts shall be accumulated and paid in a single lump sum on the first business day after the date that is six months after the date of his separation from service (or, if earlier, within fifteen (15) days following his date of death). All remaining payments and benefits otherwise required to be paid or provided on or after the date that is six months after the date of his separation from service will be paid or provided or paid in accordance with the payment schedule described above.

Payments Made Upon Death or Disability

In the event of the death or disability of a named executive officer, in addition to the benefits listed under the heading **Payments Made Upon Termination** above, the named executive officer will receive benefits under the Company's disability plan or payments under the Company's life insurance plan, as appropriate. The Company pays for life insurance and accidental death and dismemberment coverage for its executive team in amounts equal to twice the executive's base salary, up to a maximum of \$500,000. The Company also pays for short term disability for its executives with a benefit of 70% of base salary, up to a maximum of \$2,500 per week, and long term disability utilizing multiple plans. The base long term disability plan provides for a benefit to the executives of 70% of base salary, up to a maximum of \$15,000 per month. The base long term disability plan is supplemented with two individual policy plans designed to provide the executives with long term disability insurance approximating 75% of covered compensation.

Payments Made Upon a Change of Control

The Company has entered into employment agreements with Mr. Sykes, Mr. Kipphut and Mr. Zingale which contain change of control payment provisions. Pursuant to these provisions, if Mr. Sykes, Mr. Kipphut or Mr. Zingale terminate their employment in connection with a change of control (as defined in their employment agreement), instead of the benefits listed under the heading Payments Made Upon Termination, they will receive the following benefits:

Mr. Sykes. Mr. Sykes will be entitled to receive an amount equal to three times his then current annual base salary, plus an amount determined by multiplying the annual target bonus designated or otherwise indicated for Mr. Sykes in the year such change of control occurs by a factor of three. The target bonus amount is to be determined under the performance-based bonus plan in which Mr. Sykes is then participating. In addition, all stock options, stock grants or other similar equity incentives and/or compensation programs will immediately accelerate and become fully vested and exercisable at the option of Mr. Sykes.

Mr. Kipphut. Mr. Kipphut will be entitled to receive an amount equal to two times his then current annual base salary, plus an amount determined by multiplying the annual target bonus designated or otherwise indicated for Mr. Kipphut in the year such change of control occurs by a factor of two. The target bonus amount is to be determined under the performance-based bonus plan in which Mr. Kipphut is then participating. In addition, all stock options, stock grants or other similar equity incentives and/or compensation programs will immediately accelerate and become fully vested and exercisable at the option of Mr. Kipphut.

Mr. Zingale. Mr. Zingale will be entitled to receive an amount equal to two times his then current annual base salary, plus an amount determined by multiplying the annual target bonus designated or otherwise indicated for Mr. Zingale in the year such change of control occurs by a factor of two. The target bonus amount is to be determined under the performance-based bonus plan in which Mr. Zingale is then participating. In addition, all stock options, stock grants or other similar equity incentives and/or compensation programs will immediately accelerate and become fully vested and exercisable at the option of Mr. Zingale.

Except as provided below, the foregoing amounts are to be paid biweekly in equal installments over 52 weeks, commencing immediately upon such officer's separation from service. If such officer is determined to be a specified employee on the date of his separation from service (each as defined in Section 409(A) of the Internal Revenue Code and applicable regulations), to the extent that he is entitled to receive any benefit or payment upon such separation from service under the employment agreement that constitutes deferred compensation within the meaning of Section 409A of the Internal Revenue Code before the date that is six months after the date of his separation from service, such benefits or payments will not be provided or paid to him on the date otherwise required to be provided or paid. Instead, all such amounts shall be accumulated and paid in a single lump sum on the first business day after the date that is six months after the date of his separation from service (or, if earlier, within fifteen (15) days following his date of death). All remaining payments and benefits otherwise required to be paid or provided on or after the date that is six months after the date of his separation from service will be paid or provided or paid in accordance with the payment schedule described above.

The named executive officers of the Company, other than Mr. Sykes, Mr. Kipphut and Mr. Zingale, do not have change of control provisions in their respective employment agreements, but under various equity incentive agreements, all stock options, stock grants or other similar equity incentives and/or compensation programs will immediately accelerate and become fully vested and exercisable at the option of the executive in the event of a change in control.

EMPLOYMENT AGREEMENTS

Charles E. Sykes. The Company and Mr. Sykes are parties to an amended and restated employment agreement, dated December 30, 2008. The material terms and conditions of the agreement are summarized below. Under the agreement, Mr. Sykes serves as President and CEO of the Company. The initial term of the agreement expired on July 31, 2009, but automatically renewed, and will continue to be automatically renewed, for successive one-year terms unless one of the parties provides written notice of its intent not to renew the agreement at least 180 days prior to the expiration of any renewal term. Under the agreement, Mr. Sykes' annual base salary was originally set at \$550,000, subject to increase at the Company's discretion. Most recently, on March 7, 2011 the Compensation and Human Resource Development Committee of the Board increased Mr. Sykes' annual base salary to \$625,000. Mr. Sykes also is entitled to participate in a performance based bonus plan based upon the achievement of such goals as may be determined by the Compensation Committee, and to participate in such other bonus programs and benefit plans as are generally made available to other executive officers of the Company.

If the agreement is terminated by the Company prior to the expiration of a renewal period for any reason other than death, disability, or cause (as defined in the agreement), or if the agreement is terminated by Mr. Sykes prior to the expiration of the renewal period for good reason (as defined below), the Company is required to pay Mr. Sykes an amount equal to two times his annual base salary, and Mr. Sykes is prohibited for a period of two years from soliciting the Company's employees and competing with the Company in any area in which the Company's clients were conducting business during the initial term or any renewal term of the agreement. If the agreement is terminated by Mr. Sykes following a change of control of the Company (as defined in the agreement) prior to the expiration of the initial term or any renewal period, the Company is required to pay Mr. Sykes an amount equal to three times his annual base salary, plus an amount determined by multiplying the annual target bonus designated or otherwise indicated for Mr. Sykes in the year such change of control occurs by a factor of three. The target bonus amount is to be determined under the performance based bonus plan in which Mr. Sykes is then participating. Except as provided below, the foregoing amounts are to be paid biweekly in equal installments over 52 weeks, commencing immediately upon his separation from service. If Mr. Sykes is determined to be a specified employee on the date of his separation from service (each as defined in Section 409(A) of the Internal Revenue Code and applicable regulations), to the extent that he is entitled to receive any benefit or payment upon such separation from service under the employment agreement that constitutes deferred compensation within the meaning of Section 409A of the Internal Revenue Code before the date that is six months after the date of his separation from service, such benefits or payments will not be provided or paid to him on the date otherwise required to be provided or paid. Instead, all such amounts shall be accumulated and paid in a single lump sum on the first business day after the date that is six months after the date of his separation from service (or, if earlier, within fifteen (15) days following his date of death). All remaining payments and benefits otherwise required to be paid or provided on or after the date that is six months after the date of his separation from service will be paid or provided or paid in accordance with the payment schedule described above.

Also, in the event the agreement is terminated by Mr. Sykes in connection with a change of control of the Company, all stock options, stock grants or other similar equity incentives and/or compensation programs will immediately accelerate and become fully vested and exercisable at the option of Mr. Sykes.

Good reason for Mr. Sykes' termination of the agreement is defined in the agreement as: (i) a change of control of the Company (as defined in the agreement), (ii) a good faith determination by Mr. Sykes that the Company has breached the employment agreement, (iii) a material adverse change in working conditions or status, (iv) the deletion of, or change in, any of the titles of CEO or President, (v) a significant relocation of

Mr. Sykes' principal office, (vi) a significant increase in travel requirements, or (vii) an impairment of Mr. Sykes' health to an extent that made the continued performance of his duties under the agreement hazardous to his physical or mental health or his life.

The agreement provides that if Mr. Sykes' employment is terminated by the Company due to his death, disability or for cause, or voluntarily by Mr. Sykes other than for good reason, then the Company will have no obligation to pay him any salary, bonus or other benefits other than those payable through the date of termination, and Mr. Sykes may not solicit any of the Company's employees or compete directly or indirectly with the Company during the term of the agreement and for a period of one year after its termination, regardless of the reason for its termination. The agreement contains customary confidentiality provisions.

W. Michael Kipphut. The Company and Mr. Kipphut are parties to an amended and restated employment agreement, dated December 30, 2008, the material terms and conditions of which are summarized below. The employment agreement provides that Mr. Kipphut will serve as an executive of the Company. Mr. Kipphut serves as Executive Vice President - Finance and CFO. The initial term of the agreement expired on March 5, 2009, but was automatically renewed, and will continue to be automatically renewed, for successive one-year terms unless one of the parties provides the other with written notice of its intent not to renew the agreement at least 30 days prior to the expiration of a renewal term. Under the agreement, Mr. Kipphut's annual base salary was originally set at \$400,000, subject to increase at the Company's discretion. Most recently, on December 7, 2011, and effective on February 29, 2012, upon the recommendation of the Compensation and Human Resource Development Committee, the Board of Directors increased Mr. Kipphut's annual base salary to \$424,298. Mr. Kipphut also is entitled to participate in a performance based bonus plan based upon the achievement of such goals as may be determined by the Compensation Committee, and to participate in such other bonus programs and benefit plans as are generally made available to other executive officers of the Company.

If the agreement is terminated by the Company prior to the expiration of a renewal period for any reason other than death, disability, or cause (as defined in the agreement), or if the agreement is terminated by Mr. Kipphut prior to the expiration of the renewal period for good reason (as defined below), the Company is required to pay Mr. Kipphut an amount equal to his annual base salary, plus an amount equal to the maximum annual performance bonus he could earn under the performance based bonus plan in which Mr. Kipphut is then participating. If the agreement is terminated by Mr. Kipphut following a change in control of the Company (as defined in the agreement) prior to the expiration of the renewal period, the Company is required to pay Mr. Kipphut an amount equal to twice his annual base salary, plus an amount determined by multiplying the annual target bonus designated or otherwise indicated for Mr. Kipphut in the year such change of control occurs by a factor of two. The target bonus amount is to be determined under the performance based bonus plan in which Mr. Kipphut is then participating. Except as provided below, the foregoing amounts are to be paid biweekly in equal installments over 52 weeks, commencing immediately upon his separation from service. If Mr. Kipphut is determined to be a specified employee on the date of his separation from service (each as defined in Section 409(A) of the Internal Revenue Code and applicable regulations), to the extent that he is entitled to receive any benefit or payment upon such separation from service under the employment agreement that constitutes deferred compensation within the meaning of Section 409A of the Internal Revenue Code before the date that is six months after the date of his separation from service, such benefits or payments will not be provided or paid to him on the date otherwise required to be provided or paid. Instead, all such amounts shall be accumulated and paid in a single lump sum on the first business day after the date that is six months after the date of his separation from service (or, if earlier, within fifteen (15) days following his date of death). All remaining payments and benefits otherwise required to be paid or provided on or after the date that is six months after the date of his separation from service will be paid or provided or paid in accordance with the payment schedule described above.

Also, in the event the agreement is terminated by Mr. Kipphut in connection with a change of control of the Company, all stock options, stock grants or other similar equity incentives and/or compensation programs will immediately accelerate and become fully vested and exercisable at the option of Mr. Kipphut.

Good reason for Mr. Kipphut's termination of the agreement is defined in the agreement as: (i) a change of control of the Company (as defined in the agreement), (ii) a good faith determination by Mr. Kipphut that the Company has breached the employment agreement, (iii) a material adverse change in working conditions or status, (iv) the deletion of, or change in, any of the titles of Senior Vice President and CFO, (v) a significant relocation of Mr. Kipphut's principal office, (vi) a change in reporting such that Mr. Kipphut is required to report to someone other than the CEO, or (vii) a significant increase in travel requirements.

The agreement provides that if Mr. Kipphut's employment is terminated by the Company due to his death, disability or for cause, or voluntarily by Mr. Kipphut other than for good reason, then the Company will have no obligation to pay him any salary, bonus or other benefits other than those payable through the date of termination.

The agreement provides that Mr. Kipphut may not solicit any of the Company's employees or compete directly or indirectly with the Company during the term of the agreement and for one year after its expiration in any area in which the Company's clients were conducting business during the initial term or any renewal term of the agreement. The agreement contains customary confidentiality provisions.

James Hobby. Mr. Hobby retired from employment with the Company effective September 30, 2012. The Company and Mr. Hobby are parties to an amended and restated employment agreement, dated December 29, 2008, the material terms and conditions of which are summarized below. The agreement continues until terminated by one of the parties. Under the agreement, Mr. Hobby's annual base salary was originally set at \$366,000, subject to increase at the Company's discretion. Most recently, on December 7, 2011, and effective on February 29, 2012, upon the recommendation of the Compensation and Human Resources Development Committee, the Board of Directors increased Mr. Hobby's annual base salary to \$377,372. He also was entitled to participate in a performance based bonus plan based upon the achievement of such goals as determined by the Compensation Committee and to standard executive fringe benefits.

The agreement provides that if it was terminated by the Company for any reason other than death, disability, or cause (as defined in the agreement), the Company was required to pay Mr. Hobby an amount equal to his weekly base salary for 52 weeks after the termination of the agreement. Except as provided below, the foregoing amount was to be paid biweekly in equal installments over 52 weeks, commencing immediately upon his separation from service. If Mr. Hobby was determined to be a specified employee on the date of his separation from service (each as defined in Section 409(A) of the Internal Revenue Code and applicable regulations), to the extent that he was entitled to receive any benefit or payment upon such separation from service under the employment agreement that constitutes deferred compensation within the meaning of Section 409A of the Internal Revenue Code before the date that is six months after the date of his separation from service, such benefits or payments will not be provided or paid to him on the date otherwise required to be provided or paid. Instead, all such amounts would be accumulated and paid in a single lump sum on the first business day after the date that is six months after the date of his separation from service (or, if earlier, within fifteen (15) days following his date of death). All remaining payments and benefits otherwise required to be paid or provided on or after the date that is six months after the date of his separation from service would be paid or provided or paid in

accordance with the payment schedule described above. If Mr. Hobby's employment was terminated by the Company due to his death, disability or cause, or voluntarily by Mr. Hobby, then the Company would have no obligation to pay him any salary, bonus or other benefits other than those payable through the date of termination. In any event, Mr. Hobby may not compete with the Company in any area in which the Company's clients were conducting business during the term of the agreement, or solicit the Company's employees, for a period of one year after termination of his employment. The agreement also contains customary confidentiality provisions.

Lawrence R. Zingale. The Company and Mr. Zingale are parties to an employment agreement, dated September 13, 2012, the material terms and conditions of which are summarized below. If the agreement is terminated by Mr. Zingale within 24 months after a change in control of the Company (as defined in the agreement), the Company is required to pay Mr. Zingale an amount equal to twice his annual base salary, plus an amount determined by multiplying the annual target bonus designated or otherwise indicated for Mr. Zingale in the year such change of control occurs by a factor of two. The target bonus amount is to be determined under the performance-based bonus plan in which Mr. Zingale is then participating. Except as provided below, the foregoing amounts are to be paid biweekly in equal installments over 52 weeks (or 104 weeks if a change in control was involved), commencing immediately upon his separation from service. If Mr. Zingale is determined to be a specified employee on the date of his separation from service (each as defined in Section 409(A) of the Internal Revenue Code and applicable regulations), to the extent that he is entitled to receive any benefit or payment upon such separation from service under the employment agreement that constitutes deferred compensation within the meaning of Section 409A of the Internal Revenue Code before the date that is six months after the date of his separation from service, such benefits or payments will not be provided or paid to him on the date otherwise required to be provided or paid. Instead, all such amounts shall be accumulated and paid in a single lump sum on the first business day after the date that is six months after the date of his separation from service (or, if earlier, within fifteen (15) days following his date of death).
