Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

(c) On April 2, 2014, Dicerna Pharmaceuticals, Inc., a Delaware corporation (the Company), issued a press release announcing the appointment of Pankaj Bhargava, M.D., as the Company's chief medical officer commencing March 31, 2014. A copy of the press release is included as Exhibit 99.1 to this Current Report on Form 8-K.

Dr. Bhargava, 45, was Associate Vice President at Sanofi Oncology from February 2011 to March 2014 prior to joining the Company, where he led the global development of aflibercept (ZALTRAP) culminating in successful approvals by the U.S. Food and Drug Administration (FDA), European Medicines Agency and several other regulatory authorities worldwide. Dr. Bhargava also served as the Gastrointestinal Oncology Therapeutic Leader, Chairman of Protocol Review Committee, and a member of the Development Leadership Team at Sanofi Oncology Division. Prior to joining Sanofi, Dr. Bhargava was Vice President Clinical Research and Interim Chief Medical Officer at AVEO Pharmaceuticals, Inc. (NASDAQ: AVEO) from November 2006 to February 2011, where he led its clinical programs across all indications spanning from Phase 1 to Phase 3 development and was responsible for clinical and regulatory strategy, clinical development, operations, pharmaco-vigilance and joint development with alliance partners, among other things. Dr. Bhargava currently serves as an Attending Physician at Dana-Farber Cancer Institute and part-time faculty member at Harvard Medical School. Dr. Bhargava holds an M.B., B.S. degree from the University of Delhi, India, and is an alumnus of Harvard Business School Executive Education Program. Dr. Bhargava is U.S. Board Certified in Internal Medicine, Medical Oncology and Clinical Pharmacology, and did an advanced fellowship in Developmental Therapeutics at the Lombardi Cancer Center, Georgetown University.

The Company entered into an employment agreement with Dr. Bhargava dated as of March 7, 2014. The agreement provides that his employment is at-will and does not include a specified term. Under the agreement, Dr. Bhargava will receive an annual base salary initially established at \$340,000 and will be eligible for an annual incentive bonus, with his target bonus being 40 percent of his base salary. The board of directors of the Company will determine his actual bonus amount based on an assessment of the performance of the Company and Dr. Bhargava during the year. The agreement also provides for Dr. Bhargava to receive a stock option to purchase up to 264,808 shares of common stock of the Company at an exercise price equal to the closing price of the common stock on the date of grant. The option will vest over a four-year period, subject to Dr. Bhargava's continued employment through each vesting date, and will fully vest upon a change in control of the Company. The agreement also provides for Dr. Bhargava to participate in the Company's benefit programs made available to its senior executives generally.

Under the employment agreement, if Dr. Bhargava's employment is terminated by the Company without cause or by him for good reason (as such terms are defined in the agreement), he will be entitled to receive cash severance equal to six months of his base salary and reimbursement of his COBRA premiums for up to six months. If such a termination occurs within one year after a change in control of the Company, Dr. Bhargava will be entitled to receive cash severance equal to twelve months of his base salary and reimbursement of his COBRA premiums for up to twelve months. Dr. Bhargava's right to receive these severance benefits is subject to his providing a release of claims in favor of the Company.
