Dear Fellow Stockholders,

You are cordially invited to attend our 2014 Annual Meeting of Stockholders, which will be held on Friday, June 27, 2014 at 10:30 a.m. Pacific Time, at our corporate headquarters located at 11500 South Eastern Avenue, Suite 240, Henderson, Nevada 89052. In the following pages, you will find the Notice of Annual Meeting of Stockholders and Proxy Statement describing the business to be conducted at the Annual Meeting.

At the Annual Meeting, we are asking you to elect our board of director nominees for the coming year and vote on the other matters described in the accompanying notice. We believe that our director nominees will continue to add value through their strategic guidance and experience to help us move forward with the commercialization of our marketed drugs and development of our clinical drugs.

At Spectrum we have an unwavering commitment to serve patients and build value for our stockholders. We had just two approved drugs two years ago, have four approved drugs currently and expect to have six approved drugs within the next two years. We added FOLOTYN[®] to our product line in 2012, we brought MARQIBO[®] to market in 2013, and we are anticipating a launch of BELEODAQ in 2014, and Captisol-Enabled[®] MELPHALAN in 2015. We believe that we have all the required ingredients to successfully build the next generation of Spectrum with a solid base of commercial products, a strong balance sheet a robust research and development pipeline, and an accomplished team of executives to execute our proven strategy. I am excited about the positive direction of Spectrum and our potential for further growth in meeting the needs of the oncology/hematology community as well as adding value for our stockholders. We strongly believe that we are building a world-class oncology and hematology company.

Whether or not you plan to attend the Annual Meeting in person, I encourage you to access the proxy materials and cast your vote using the instructions provided, so that your shares are represented at the Annual Meeting. If you have any questions, please contact our Chief Financial Officer, Kurt A. Gustafson, at (702) 835-6300 or (949) 788-6700.

We thank you for your ongoing support of Spectrum Pharmaceuticals.

PROXY STATEMENT

The enclosed Proxy Statement is solicited on behalf of the Board of Directors of Spectrum Pharmaceuticals, Inc., which we refer to as Spectrum, the Company, we, us, or our, for use at the 2014 Annual Meeting of Stockholders to be held on June 27, 2014 at 10:30 a.m. Pacific Time, or the Annual Meeting, or at any postponements or adjournments thereof. The Annual Meeting is being held for the purposes described in this Proxy Statement and in the accompanying Notice of Annual Meeting of Stockholders.

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING AND VOTING

*The following questions and answers are intended to briefly address potential questions that our stockholders may have regarding this Proxy Statement and the Annual Meeting. They are also intended to provide our stockholders with certain information that is required to be provided under the rules and regulations of the Securities and Exchange Commission, or the SEC. These questions and answers may not address all of the questions that are important to you as a stockholder. If you have additional questions about the Proxy Statement or the Annual Meeting, please see **Whom should I contact with other questions?***

1. What is the purpose of the Annual Meeting?

At the Annual Meeting, our stockholders will be asked to consider and vote upon the matters described in this Proxy Statement and in the accompanying Notice of Annual Meeting of Stockholders, and any other matters that properly come before the Annual Meeting.

2. When and where will the Annual Meeting be held?

You are invited to attend the Annual Meeting on Friday, June 27, 2014 at 10:30 a.m. Pacific Time at our corporate headquarters located at 11500 South Eastern Avenue, Suite 240, Henderson, Nevada 89052.

3. Why am I receiving these proxy materials?

We are providing these proxy materials in connection with the solicitation by the Board of Directors of the Company, or the Board, of proxies to be voted at the Annual Meeting, and at any adjournment or postponement thereof. This Proxy Statement contains important information for you to consider when deciding how to vote on the matters brought before the Annual Meeting. You are invited to attend the Annual Meeting in person to vote on the proposals described in this Proxy Statement. However, you do not need to attend the Annual Meeting to vote your shares. Instead, you may vote your shares using one of the other voting methods described in this Proxy Statement. Whether or not you expect to attend the Annual Meeting, please vote your shares as soon as possible in order to ensure your representation at the Annual Meeting and to minimize the cost to the Company of proxy solicitation.

4. Why did I receive a notice in the mail regarding the Internet availability of proxy materials?

Instead of mailing printed copies to each of our stockholders, we have elected to provide access to our proxy materials over the Internet under the SEC's notice and access rules. These rules allow us to make our stockholders aware of the Annual Meeting and the availability of our proxy materials by sending a Notice of

Table of Contents

Internet Availability of Proxy Materials, or a Notice, which provides instructions for how to access the full set of proxy materials through the Internet or make a request to have printed proxy materials delivered by mail. Accordingly, on or about May 9, 2014, we mailed a Notice to each of our stockholders who held shares as of April 28, 2014, which is the Record Date for the Annual Meeting. The Notice contains instructions on how to access our proxy materials, including our Proxy Statement and our Annual Report on Form 10-K for the fiscal year ended December 31, 2013, or the Annual Report. The Notice also provides instructions on how to vote your shares.

5. What is the purpose of complying with the SEC's notice and access rules?

We believe compliance with the SEC's notice and access rules will allow us to provide our stockholders with the materials they need to make informed decisions about the matters to be voted upon at the Annual Meeting, while lowering the costs of printing and delivering those materials and reducing the environmental impact of our Annual Meeting. However, if you would prefer to receive printed proxy materials, please follow the instructions included in the Notice. If you have previously elected to receive our proxy materials electronically, you will continue to receive these materials via e-mail unless you elect otherwise.

6. What am I being asked to vote upon at the Annual Meeting?

At the Annual Meeting, you will be asked to:

Elect seven director nominees to serve until the Annual Meeting of Stockholders to be held in 2015, or until their successors are elected and duly qualified (Proposal 1);

Approve the flexible settlement feature in connection with the potential conversion of our Convertible Senior Notes, which could result in the issuance of an aggregate amount of shares of our common stock equal to 20% or more of the number of shares of common stock outstanding at the time the Convertible Senior Notes were priced (Proposal 2);

Ratify the selection of Deloitte & Touche LLP as our independent registered public accounting firm for fiscal year ending December 31, 2014 (Proposal 3);

Approve, on a non-binding advisory basis, the compensation of our named executive officers, as disclosed in the Compensation Discussion and Analysis section of this Proxy Statement (Proposal 4); and

Consider and act upon such other matters as may properly come before the Annual Meeting or any postponements or adjournments thereof.

7. What are the voting options for each Proposal?

In the election of directors (Proposal 1), you may vote **FOR** all of the nominees, you may **WITHHOLD** your vote with respect to all of the nominees, or you may vote **FOR ALL EXCEPT** with respect to any one or more nominees. On the approval of the flexible settlement feature for the potential conversion of our Convertible Senior Notes (Proposal 2), on the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2014 (Proposal 3), and on the approval, on a non-binding advisory basis, of the compensation of our named executive officers as disclosed in the Compensation Discussion and Analysis section of this Proxy Statement (Proposal 4), you may vote **FOR**, **AGAINST** or **ABSTAIN**.

8. How does the Board recommend that I vote?

Our Board recommends that you vote your shares:

FOR the election of each of the seven director nominees named in this Proxy Statement to serve until the Annual Meeting of Stockholders to be held in 2015, or until their successors are elected and duly qualified (Proposal 1);

Table of Contents

FOR the approval of the flexible settlement feature in connection with the potential conversion of our Convertible Senior Notes (Proposal 2);

FOR the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for fiscal year ending December 31, 2014 (Proposal 3); and

FOR the approval, on a non-binding advisory basis, of the compensation of our named executive officers, as disclosed in the Compensation Discussion and Analysis section of this Proxy Statement (Proposal 4).

Unless you give other instructions on your proxy card, the persons named as proxy holders on the proxy card, who are persons designated by the Board and are members of our management team, will vote in accordance with the recommendations of the Board. Management does not know of any matters which will be brought before the Annual Meeting other than those specifically set forth in this Proxy Statement. However, if any other business properly comes before the Annual Meeting, the proxy holders or their substitutes will vote as recommended by our Board or, if no recommendation is given, in their own discretion.

9. Who can vote at the Annual Meeting?

If you were a holder of our common stock or Series E Convertible Voting Preferred Stock, which we refer to as the Series E Preferred Stock, as a stockholder of record, or if you are the beneficial owner of our common stock held in street name, as of the close of business on the Record Date, you may vote your shares at the Annual Meeting, and at any postponements or adjournments of the Annual Meeting. As of the Record Date, there were 65,582,245 shares of our common stock outstanding and 20 shares of our Series E Preferred Stock outstanding. Each stockholder has one vote for each share of common stock held as of the Record Date.

Holders of our Series E Preferred Stock as of the Record Date are entitled to vote on any matter on which holders of our common stock have the right to vote, voting together with the holders of common stock as one class. Each holder of our Series E Preferred Stock is entitled to the number of votes equal to the number of shares of common stock into which such shares of Series E Preferred Stock could be converted on the Record Date, as determined pursuant to the Certificate of Designations, Rights and Preferences of the Series E Preferred Stock, or the Certificate of Designations. As of the Record Date, each share of Series E Preferred Stock was entitled to 2,000 votes on each matter to be voted upon at the Annual Meeting. Consequently, the holders of our Series E Preferred Stock have a total of 40,000 votes on each matter at the Annual Meeting.

Including both the outstanding common stock and the Series E Preferred Stock, voting together as one class, a total of 65,622,245 votes may be cast at the Annual Meeting. A list of our stockholders will be available for examination by any stockholder at the Annual Meeting and at our corporate headquarters, located at 11500 South Eastern Avenue, Suite 240, Henderson, Nevada 89052, for a period of ten days prior to the Annual Meeting.

10. What does it mean to be a stockholder of record ?

If, on the Record Date, your shares were registered directly in your name with our transfer agent, Computershare, then you are a stockholder of record. As a stockholder of record, you may vote in person at the Annual Meeting or vote by proxy. Whether or not you plan to attend the Annual Meeting, we urge you to vote your shares using one of the voting methods described in this Proxy Statement and the Notice.

11. What does it mean to be a beneficial owner of shares held in street name ?

If, on the Record Date, your shares were held in an account at a broker, bank, or other financial institution (we refer to each of those organizations collectively as a broker), then you are the beneficial owner of shares held in street name and these proxy materials are being made available to you by that broker. The broker holding your account is considered the stockholder of record for purposes of voting at the Annual Meeting. You have the right to direct your broker on how to vote the shares in your account. As a beneficial owner, you are also invited to attend the Annual Meeting, but since you are not a stockholder of record, you may not vote your shares in person at the Annual Meeting unless you request and obtain a valid proxy from your broker giving you the legal right to vote the shares at the Annual Meeting. You must also satisfy the Annual Meeting admission criteria set out below.

Table of Contents

Under the rules that govern brokers, your broker is not permitted to vote on your behalf on any matter to be considered at the Annual Meeting (other than the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for 2014) unless you provide specific instructions to the broker as to how to vote. As a result, we encourage you to communicate your voting decisions to your broker before the date of the Annual Meeting to ensure that your vote will be counted.

12. How many shares must be present or represented to conduct business at the Annual Meeting?

The presence at the Annual Meeting of the holders of a majority of the outstanding shares, as of the Record Date, of our common stock and our Series E Preferred Stock, considered together as a single class (and counting the Series E Preferred Stock as if converted into common stock), in person or by proxy and entitled to vote, will constitute a quorum, permitting us to conduct our business at the Annual Meeting. Proxies marked "withhold authority" as to any director nominee, abstentions and broker non-votes will each be counted as present at the Annual Meeting for purposes of determining the existence of a quorum at the Annual Meeting. Broker non-votes will result for shares that are not voted by the broker who is the record holder of the shares because the broker is not instructed to vote on such matter by the beneficial owner of the shares and the broker does not have discretionary authority to vote on such matter. For further discussion on broker non-votes, please refer to **What are the voting requirements to approve the proposals?** below. If a quorum is not present, the Annual Meeting will be adjourned until a quorum is obtained.

13. How can I vote my shares of Spectrum stock?

Stockholders of record can vote by proxy or by attending the Annual Meeting and voting in person. The persons named as proxies on the proxy card were designated by the Board and are members of our management. If you vote by proxy, you can vote over the Internet, by telephone, or by mail as described below. If you are the beneficial owner of shares, please refer to the information forwarded by your broker to see which voting options are available to you and to see what steps you must follow if you choose to attend the Annual Meeting to vote your shares.

Vote by Internet: You can vote by proxy over the Internet by following the instructions provided in the Notice or the voting instruction card provided to you by your broker, if applicable. Internet voting is available 24 hours a day and will be accessible until 11:59 p.m. Eastern Time on June 26, 2014. Our Internet voting procedures are designed to authenticate stockholders by using individual control numbers, which are located on the Notice.

Vote by Telephone: If you requested to receive printed proxy materials, you can vote by telephone pursuant to the instructions provided on the proxy card or by following the voting instruction card provided to you by your broker, if applicable. Telephone voting is available 24 hours a day and will be accessible until 11:59 p.m. Eastern Time on June 26, 2014.

Vote by Mail: If you requested to receive printed proxy materials, you can vote by mail pursuant to the instructions provided on the proxy card or by following the voting instruction card provided to you by your broker, if applicable. In order to be effective, completed proxy cards must be received by 11:59 p.m. Eastern Time on June 26, 2014. If you choose to vote by mail, simply mark your proxy card, date and sign it, and return it in the postage-prepaid envelope. If you do not have the postage-prepaid envelope, please mail your completed proxy card to the following address: Spectrum Pharmaceuticals, Inc., c/o Computershare, Post Office Box 43070, Providence, Rhode Island 02940-3070.

Vote in Person at the Annual Meeting: If you satisfy the admission requirements to the Annual Meeting, as described in this Proxy Statement, you may vote your shares in person at the Annual Meeting. Even if you plan to attend the Annual Meeting, we encourage you to vote in advance by Internet, telephone or mail so that your vote will be counted in the event you later decide not to attend the Annual Meeting. The method you use to vote will not limit your right to vote at the Annual Meeting if you decide to attend in person. If you are the beneficial owner of your shares, you must obtain a proxy,

Table of Contents

executed in your favor by your broker, to be able to vote at the Annual Meeting. If you sign and return your proxy card but do not give voting instructions, the shares represented by that proxy will be voted as recommended by the Board.

YOUR VOTE IS VERY IMPORTANT. We encourage you to submit your proxy even if you plan to attend the Annual Meeting. If you properly give your proxy and submit it to us in time to vote, the individuals named as your proxy holders will vote your shares as you have directed. Whether or not you plan to attend the Annual Meeting, and regardless of the number of shares of our stock that you own, it is important that your shares be represented at the Annual Meeting.

14. How may I attend the Annual Meeting?

You are entitled to attend the Annual Meeting only if you were a stockholder of record as of the Record Date, or if you are a beneficial owner who holds a valid proxy for the Annual Meeting. Registration will begin at 9:30 a.m. Pacific Time and seating will begin immediately after. Since seating is limited, admission to the Annual Meeting will be on a first-come, first-served basis. If you attend, please note that you should be prepared to present government-issued photo identification for admittance, such as a passport or driver's license. If you are the beneficial owner of your shares, you will also need proof of ownership as of the Record Date, such as your most recent account statement prior to the Record Date, a copy of the voting instruction card provided by your broker, or similar evidence of ownership. If you do not have proof of ownership of our stock and a valid picture identification, you may be denied admission to the Annual Meeting. Please note that for security reasons, you and your bags may be subject to search prior to your admittance to the Annual Meeting. If you do not comply with each of the foregoing requirements, you may not be admitted to the Annual Meeting.

15. Can I change my vote after I have submitted my vote?

Yes. You may change your vote at any time before your proxy is voted at the Annual Meeting. If you are a stockholder of record, you may change your vote by (i) providing written notice of revocation to the Secretary of the Company at our corporate headquarters located at 11500 South Eastern Avenue, Suite 240, Henderson, Nevada 89052, (ii) by executing a subsequent proxy using any of the voting methods discussed above, or (iii) by attending the Annual Meeting and voting in person. However, simply attending the Annual Meeting will not, by itself, revoke your proxy. If you are a beneficial owner of shares and have previously instructed your broker to vote your shares, you must follow directions received from your broker to change those instructions. Subject to any such revocation, all shares represented by properly executed proxies will be voted in accordance with the specifications therein.

16. What are the voting requirements to approve the proposals?

Assuming that a quorum is present at the Annual Meeting, the voting requirements to approve each of the proposals to be voted upon at the Annual Meeting are as follows:

Election of Directors (Proposal 1) Directors will be elected by a plurality of the votes cast at the Annual Meeting, in person or by proxy. This means that the director nominees who receive the most affirmative, or "FOR," votes will be elected. In a contested election, where there are more nominees than open board positions, the nominees who received the most "FOR" votes will be elected. In an uncontested election, where the number of nominees is equal to the number of open board positions, as is the case for the Annual Meeting, the nominees who receive *any* votes will be elected. A properly executed proxy marked "WITHHOLD" or "FOR ALL EXCEPT" with respect to the election of one or more directors will not be voted with respect to the director or directors indicated. The election of directors is a non-discretionary matter under applicable stock exchange rules, meaning that if you are the beneficial owner of your shares and do not instruct your broker how to vote with respect to the election of directors, your broker is not permitted to vote on this Proposal and your votes will be counted as broker non-votes. Broker non-votes will have no effect in determining which directors are elected at the Annual Meeting.

Table of Contents

Approval of Flexible Settlement Feature for the Potential Conversion of Convertible Senior Notes (Proposal 2) Approval of the flexible settlement feature for the potential conversion of our Convertible Senior Notes will require the affirmative vote of a majority of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote on the matter. A properly executed proxy marked ABSTAIN with respect to such matter will not be voted. Accordingly, an abstention will have the same effect as a vote AGAINST this Proposal. The vote on the flexible settlement feature is a non-discretionary matter under applicable stock exchange rules, meaning that if you are the beneficial owner of your shares and do not instruct your broker how to vote with respect to the vote on the flexible settlement feature, your broker is not permitted to vote on this Proposal and your votes will be counted as broker non-votes. Broker non-votes will have no effect on the outcome of the Proposal.

Ratification of Selection of Independent Registered Public Accounting Firm (Proposal 3) Ratification of the selection of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2014 will require the affirmative vote of a majority of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote on the matter. A properly executed proxy marked ABSTAIN with respect to such matter will not be voted. Accordingly, an abstention will have the same effect as a vote AGAINST this Proposal. The ratification of Deloitte & Touche LLP is a discretionary matter under applicable stock exchange rules, meaning that if you are the beneficial owner of your shares and do not instruct your broker how to vote with respect to the ratification of Deloitte & Touche LLP, your broker may use its discretion to vote your uninstructed shares on this Proposal. Accordingly, broker non-votes will not result for this Proposal.

Advisory Vote on the Compensation of Our Named Executive Officers (Proposal 4) Approval of the non-binding advisory resolution regarding the compensation of our named executive officers, as disclosed in the Compensation Discussion and Analysis section of this Proxy Statement, will require the affirmative vote of a majority of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote on the matter. A properly executed proxy marked ABSTAIN with respect to such matter will not be voted. Accordingly, an abstention will have the same effect as a vote AGAINST this Proposal. The advisory vote on compensation is a matter under applicable stock exchange rules, meaning that if you are the beneficial owner of your shares and do not instruct your broker how to vote with respect to the advisory vote on compensation, your broker is not permitted to vote on this Proposal and your votes will be counted as broker non-votes. Broker non-votes will have no effect on the outcome of the Proposal.

17. Could other matters be decided at the Annual Meeting?

As of the date this Proxy Statement was made available to stockholders, we did not know of any matters to be raised at the Annual Meeting other than those referred to in this Proxy Statement. However, if any other matters are presented for consideration at the Annual Meeting including, among other things, consideration of a motion to adjourn the Annual Meeting to another time or place in order to solicit additional proxies in favor of one or more of the proposals, the persons named as proxy holders and acting thereunder will have discretion to vote on these matters according to their best judgment to the same extent as the person delivering the proxy would be entitled to vote.

18. Who is paying for the cost of this proxy solicitation?

The proxies being solicited hereby are being solicited by us, and the cost of soliciting proxies in the enclosed form will be borne by us. Our officers and other employees may, without compensation other than their regular compensation, solicit proxies by further mailings, personal conversations, telephone, facsimile or other electronic means. We will, upon request, reimburse brokerage firms and others for their reasonable expenses in forwarding solicitation material to the beneficial owners of stock.

19. What is the deadline to submit stockholder proposals for our 2015 Annual Meeting of Stockholders?

Under Rule 14a-8 of the Securities Exchange Act of 1934, or the Exchange Act, any stockholder desiring to include a proposal in our Proxy Statement with respect to our 2015 Annual Meeting of Stockholders should arrange for such proposal to be delivered to us at our corporate headquarters no later than January 9, 2015, in order to be considered for inclusion in our proxy statement relating to such annual meeting. Matters pertaining to such proposals, and the eligibility of persons entitled to have such proposals included, are regulated by the Exchange Act and the rules of the SEC.

In addition, pursuant to our bylaws, any stockholder desiring to submit a proposal for action or nominate one or more persons for election as directors at our 2015 Annual Meeting of Stockholders must submit a notice of the proposal or nomination including the information required by our bylaws to us between February 27, 2015 and March 29, 2015, or else it will be considered untimely and ineligible to be properly brought before the Annual Meeting. However, if our 2015 Annual Meeting of Stockholders is not held between May 28, 2015 and September 5, 2015, under our bylaws, this notice must be provided not earlier than the ninetieth day prior to the 2015 Annual Meeting of Stockholders and not later than the close of business on the later of (a) the sixtieth day prior to the 2015 Annual Meeting of Stockholders or (b) the tenth day following the date on which notice of the date of the 2015 Annual Meeting of Stockholders is first mailed to stockholders or otherwise publicly disclosed, whichever first occurs.

All such notices should be directed to our Secretary at our corporate headquarters located at Spectrum Pharmaceuticals, Inc., 11500 South Eastern Avenue, Suite 240, Henderson, Nevada 89052.

20. I share an address with another stockholder, and we received only one copy of the proxy materials. How may I obtain an additional copy of the proxy materials?

The SEC rules permit brokers to participate in a practice known as householding, which means that only one copy of the Notice and, if applicable, this Proxy Statement and the Annual Report, will be sent to multiple stockholders who share the same address unless we have received contrary instructions from one or more of the stockholders. Householding is designed to reduce printing and postage costs, and results in cost savings for Spectrum. Stockholders who participate in householding will continue to be able to access and receive separate proxy cards. PROPOSAL 2 APPROVAL OF FLEXIBLE SETTLEMENT FEATURE FOR THE POTENTIAL CONVERSION OF CONVERTIBLE SENIOR NOTES

Background and Reason for Seeking Stockholder Approval

On December 23, 2013, we issued Convertible Senior Notes, which we refer to as the Notes, in a private offering to qualified institutional buyers, pursuant to Rule 144A under the Securities Act of 1933. The Notes pay interest at a rate of 2.75% and are due in 2018. The aggregate principal amount of the Notes was \$120 million, of which our net proceeds after expenses were approximately \$115.4 million. We used approximately \$13.1 million of the net proceeds for certain derivative instrument purchases to hedge the conversion feature of the Notes. We intend to use the remaining proceeds for general corporate purposes, which may include working capital, research and development and clinical studies. We may also use a portion of the net proceeds to acquire or license additional drug candidates or complementary technologies; however, we have no current agreements or commitments to complete any such transaction.

The Notes are convertible into shares of our common stock at an initial conversion rate of 95.0107 shares per \$1,000 principal amount of Notes, which is equivalent to approximately \$10.53 per share, subject to adjustment in certain circumstances. The initial conversion price represents a 27.5% premium to the last reported sale price of our common stock on the NASDAQ Global Select Market of \$8.255 per share on December 17, 2013, the date we priced the offering of the Notes. Additional information regarding the terms of the Notes is below under Summary of Terms and Conditions of the Notes.

As issued, the conversion of the Notes may only be settled in shares of our common stock. However, under the terms of the Notes, we will have the option to settle conversions of the Notes in cash, shares of our common stock, or through any combination of cash and common stock, at our election. This option (referred to as flexible settlement in this Proxy Statement) is available only if we first obtain stockholder approval in accordance with NASDAQ requirements. As a company with shares listed for trading on the NASDAQ Global Select Market, we are subject to the NASDAQ Listing Rules. NASDAQ Listing Rule 5635(d)(2) requires that we obtain stockholder approval prior to implementing the flexible settlement feature in connection with the conversion of a principal amount of the Notes that could result in the issuance of an aggregate amount of common stock, issued pursuant to the flexible settlement feature, equal to 20% or more of our common stock or voting power outstanding on the date the offering of the Notes was priced. Based on a total of 64,063,244 shares of our common stock outstanding as of December 17, 2013, we must obtain stockholder approval of the potential issuance of more than 12,812,648 shares of our common stock pursuant to the flexible settlement feature.

Reason for Stockholder Approval

The Board of Directors believes the flexible settlement feature will benefit our stockholders by providing us with financial flexibility in the conversion of the Notes. This flexibility will allow us to use the settlement method that is in the best interests of Spectrum and our stockholders at the time of conversion, whether that involves issuing shares of our common stock to preserve cash, using cash to reduce dilution of existing stockholders, or relying upon a combination of share issuance and cash payment as we deem appropriate.

The terms of the Notes do not require us to seek stockholder approval of the flexible settlement feature, and we will not incur any penalties under the Notes if the stockholders do not approve the flexible settlement feature.

Proxies received in response to this solicitation will be voted **FOR** the approval of the flexible settlement feature described above.

Board Recommendation

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR APPROVAL OF THE FLEXIBLE SETTLEMENT FEATURE FOR THE POTENTIAL CONVERSION OF THE CONVERTIBLE SENIOR NOTES.

Table of Contents

Summary of Terms and Conditions of the Notes

Below is a summary of the terms of the Notes. The summary contains basic information about the Notes and does not provide a complete description of the Notes. Stockholders should read the Indenture, included as Exhibit 4.1 to the Current Report on Form 8-K that we filed with the SEC on December 23, 2013, for a more detailed account of the terms and conditions of the Notes.

Maturity; Interest. The Notes will mature on December 15, 2018, unless earlier converted or purchased by us. The Notes will bear interest at a rate of 2.75% per annum, payable semi-annually in arrears, commencing on June 15, 2014.

Ranking. All payments due under the Notes will be our unsecured and unsubordinated obligations and will rank senior in right of payment to any indebtedness that is expressly subordinated to the Notes; rank equal in right of payment to unsecured indebtedness that is not subordinated; be effectively subordinated in right of payment to secured indebtedness to the extent of the value of the assets securing such indebtedness; and be structurally subordinated to all indebtedness and liabilities of our subsidiaries.

Conversion Right. Prior to the close of business on the business day immediately preceding June 15, 2018, holders may convert all or a portion of their Notes only under the following circumstances:

during any fiscal quarter (and only during such fiscal quarter) commencing after March 31, 2014, if, for at least 20 trading days (whether or not consecutive) during the 30 consecutive trading day period ending on the last trading day of the immediately preceding fiscal quarter, the last reported sale price of our common stock on such trading day is greater than or equal to 130% of the applicable conversion price on such trading day;

during the five consecutive business day period immediately following any five consecutive trading day period, referred to as the measurement period, in which, for each trading day of that measurement period, the trading price per \$1,000 principal amount of Notes for such trading day was less than 98% of the product of the last reported sale price of our common stock on such trading day and the applicable conversion rate on such trading day;

upon the occurrence of specified corporate transactions as set forth in the indenture; and

at any time, if we have not received stockholder approval of the flexible settlement feature.

On or after June 15, 2018, until the close of business on the second scheduled trading day immediately preceding the maturity date, holders may convert their Notes at any time, regardless of the circumstances listed above.

The initial conversion rate of the Notes is 95.0107 shares of our common stock per \$1,000 principal amount of Notes, equivalent to a conversion price of approximately \$10.53 per share of our common stock. The conversion rate is subject to customary antidilution adjustments. In addition, upon the occurrence of a make-whole fundamental change (as defined in the indenture), in certain circumstances, the conversion rate may be increased by a number of additional shares for a holder that converts its Notes in connection with such make-whole fundamental change.

Conversion Settlement. Upon conversion of a Note, we will deliver for each \$1,000 principal amount of converted Notes a number of shares of our common stock equal to the conversion rate in effect on the conversion date. However, if we receive stockholder approval of the flexible settlement feature, we will settle conversions of the Note through payment or delivery, as the case may be, of cash, shares of our common stock, or a combination of cash and stock, at our election.

Obligation to Purchase. Upon the occurrence of a fundamental change (as defined in the indenture), holders of the Notes may require us to purchase all or a portion of the Notes for cash at a price equal to 100% of the principal amount of the Notes to be purchased, plus any then accrued and unpaid, interest.

Table of Contents

Additional Issuances. Under the indenture, we have the right, without the consent of the holders of the Notes, to reopen the indenture and issue additional notes in an unlimited aggregate principal amount with the same terms as the Notes (other than differences in the issue price and the date from which interest will accrue), provided that if such additional notes are not fungible with the Notes for U.S. federal income tax purposes, such additional notes shall have a separate CUSIP number. **The approval by stockholders of the flexible settlement feature of the Notes at the Annual Meeting will also apply to any additional notes that we may issue pursuant to this provision of the indenture.**

Accounting Effect on Reported Financial Results

If our stockholders approve the flexible settlement feature, we may settle conversions of the Notes in cash, shares of our common stock, or any combination thereof, at our election. Under the applicable accounting literature, an entity must separately value the debt component, and the embedded conversion option, of convertible debt instruments that may be settled entirely or partially in cash upon conversion. Regardless of whether our stockholders approve the flexible settlement feature, we will continue to record non-cash interest expense as a result of the amortization of the discounted carrying value of the Notes to their face amount over its term. This will adversely impact our presented net income (loss) in its financial results because of the recognition of both the amortization of the debt discount and the instrument's stated interest. This could adversely affect the trading price of our common stock, and the trading price of the Notes.

Currently, we include the full number of shares that may be issuable upon conversion of the Notes in the calculation of diluted net income per share. If the stockholders approve the flexible settlement feature, the calculation of diluted net income per share may change. Under certain circumstances, convertible debt instruments that may be settled entirely or partly in cash are accounted for using the treasury stock method, the effect of which is that the shares that may be issuable upon conversion of the Notes are not included in the calculation of diluted net income per share except to the extent that the conversion value of the Notes exceeds their principal amount. Under the treasury stock method available under current accounting standards, for diluted net income per share purposes, the transaction is accounted for as if the number of shares of common stock that would be necessary to settle such excess, if we elected to settle such excess in shares, are issued. If we are unable to use the treasury stock method in accounting for the shares issuable upon conversion of the Notes, then diluted net income per share would be adversely affected.

If the stockholders approve the flexible settlement feature and this flexible settlement feature is triggered, even if holders do not elect to convert their Notes, we could be required under applicable accounting rules to reclassify all or a portion of the outstanding principal of the Notes as a current rather than long-term liability, which would materially reduce our calculated net working capital.

PROPOSAL 3 RATIFICATION OF SELECTION OF INDEPENDENT

REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of our Board is responsible for the appointment, compensation, retention and oversight of the work of our independent registered public accounting firm. The Audit Committee has selected Deloitte & Touche LLP, or D&T, as our independent registered public accounting firm for fiscal year 2014 and has further directed that management submit the selection of the independent registered public accounting firm for ratification by our stockholders at the Annual Meeting.

Although ratification by our stockholders is not a prerequisite to the Audit Committee's ability to select our independent registered public accounting firm, the Audit Committee believes that asking our stockholders to ratify the selection is advisable and in the best interests of our stockholders, and represents an important corporate governance practice. Accordingly, stockholders are being asked to ratify, confirm and approve the selection of D&T as our independent registered public accounting firm to conduct the annual audit of our consolidated financial statements and our internal controls over financial reporting for fiscal year 2014. If the stockholders do not ratify the selection of D&T, the selection of our independent registered public accounting firm will be reconsidered by the Audit Committee; provided, however, the Audit Committee may select D&T even if our stockholders do not ratify D&T's selection. If the appointment of D&T is ratified, the Audit Committee will continue to conduct an ongoing review of D&T's scope of engagement, pricing and work quality, among other factors, and will retain the right to replace D&T at any time.

There will be representatives from D&T present at the Annual Meeting. They may make a statement if they desire to do so and will be available to answer appropriate questions from stockholders. Representatives from Ernst & Young, LLP, or E&Y, our independent registered public accounting firm for fiscal year 2013, are not expected to be present at the Annual Meeting.

Proxies received in response to this solicitation will be voted **FOR** the ratification of D&T unless otherwise specified in the proxy.

Board Recommendation

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR THE RATIFICATION OF DELOITTE & TOUCHE LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR FISCAL YEAR 2014.

Change in Independent Registered Public Accountants

The Audit Committee of our Board conducted a competitive process to select our independent registered public accounting firm for fiscal year 2014. The Audit Committee invited four national accounting firms, including E&Y, our independent registered public accounting firm for fiscal year 2013, to participate in this process. On March 17, 2014, E&Y notified us that they would not participate in the process and resigned as our independent registered public accounting firm.

On April 5, 2014, the Audit Committee completed the competitive process and unanimously approved the appointment of D&T for the integrated audit for fiscal year 2014 and for the review of each of the fiscal quarters in fiscal year 2014. On April 9, 2014, the Audit Committee formally engaged D&T.

In connection with the audit of our financial statements during each of the two fiscal years ended December 31, 2013 and December 31, 2012, and in the subsequent interim period through March 17, 2014, the date of resignation by E&Y, there were no disagreements as that term is defined in Item 304(a)(1)(iv) of Regulation S-K and the related instructions to Item 304 of Regulation S-K, with E&Y on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements, if not resolved to E&Y's satisfaction, would have caused E&Y to make reference to the subject matter of the disagreement in connection with its report.

Table of Contents

In connection with the audit of our financial statements during each of the two fiscal years ended December 31, 2013 and December 31, 2012, and in the subsequent interim period through March 17, 2014, there was a reportable event, as that term is described in Item 304(a)(1)(v) of Regulation S-K related to a material weakness in our internal control over financial reporting as disclosed in our Annual Report. Our management concluded that as of December 31, 2013, our internal control over financial reporting was not effective because of the existence of a material weakness related to our controls over (i) the process of estimating the required period-end accruals for services performed under open purchase orders, which resulted in overstated operating expenses and accrued liabilities in multiple reporting periods in, and prior to, 2013; and (ii) the ineffective design and operating effectiveness of controls over the process for identifying and recording liabilities for vendor invoices received subsequent to year end that related to 2013 activities, which would have resulted in understated operating expenses and accrued liabilities, if left uncorrected, as described in Item 9A of the Annual Report, which description is incorporated herein by reference. Our management concluded that as of December 31, 2012, our internal control over financial reporting was not effective because of the existence of a material weakness related to the accurate and timely accounting for accruals identified in management's assessment of internal controls, which resulted in overstatement of expenses and accrued liabilities in such periods, as described in Item 9A of the Form 10-K/A for the fiscal year ended December 31, 2012, which description is incorporated herein by reference. The Audit Committee has discussed the subject matter of the foregoing material weaknesses with E&Y.

E&Y's audit report on our financial statements as of and for the fiscal year ended December 31, 2013 did not contain an adverse opinion or disclaimer of opinion, and E&Y's audit report was not qualified or modified as to uncertainty, audit scope, or accounting principles. E&Y's audit report on our financial statements as of and for the fiscal year ended December 31, 2012 contained no adverse opinion or disclaimer of opinion, and was not qualified or modified as to uncertainty, audit scope, or accounting principles, except for the effects on the consolidated financial statements of the restatement described in Note 1A to the financial statements. The E&Y 2013 and 2012 audit reports reference the E&Y internal control over financial reporting adverse opinion on our internal control over financial reporting, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (1992 framework).

We previously reported the change in accounting firms on Current Reports on Form 8-K filed with the SEC on March 21, 2014 and April 10, 2014, respectively. We provided E&Y with a copy of the above disclosures, other than the engagement of D&T, and requested that E&Y furnish a letter addressed to the SEC stating whether or not it agrees with the foregoing statements. A copy of E&Y's letter dated March 17, 2014 was filed as Exhibit 16.1 to our Current Report on Form 8-K filed on March 21, 2014.

During the two fiscal years ended December 31, 2013 and 2012, and the subsequent interim period through April 5, 2014, neither we nor anyone on our behalf consulted with D&T with respect to (a) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on our consolidated financial statements, and no written report or oral advice of D&T was provided to us that D&T concluded was an important factor considered by us in reaching a decision as to the accounting, auditing or financial reporting issue; or (b) any matter that was either the subject of a disagreement (as defined in Item 304(a)(1)(iv) of Regulation S-K and the related instructions to Item 304 of Regulation S-K), or a reportable event (as defined in Item 304(a)(1)(v) of Regulation S-K).

E&Y served as our independent registered public accounting firm from December 3, 2009 to March 17, 2014. During such time, E&Y rendered audit opinions on our consolidated financial statements and our internal controls over financial reporting included in our Annual Reports on Form 10-K filed with the SEC for the fiscal years ended December 31, 2009 through December 31, 2013.

We provided E&Y and D&T with a copy of the foregoing disclosures and requested that E&Y and D&T each review such disclosures. In addition, E&Y and D&T were given an opportunity to furnish us with a letter

Table of Contents

addressed to the SEC containing any new information, clarifying our expression of their respective views, or stating the extent to which they do not agree with the foregoing statements. E&Y and D&T each informed us that it agreed with the foregoing statements and did not furnish such a letter to us or the SEC.

Policy on Audit Committee Pre-approval of Audit and Permissible Non-audit Services of Independent Auditor

All audit and non-audit services by our independent registered public accounting firm were pre-approved by our Audit Committee. For audit services, the independent accountant provides the Audit Committee with an audit plan, including proposed fees in advance of the annual audit. The Audit Committee approves the plan and fees for the audit. Pursuant to its charter, the Audit Committee may establish pre-approval policies and procedures, subject to SEC and NASDAQ rules and regulations, to approve audit and non-audit services; however, it has not yet done so.

PROPOSAL 4 ADVISORY VOTE ON THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS

The Board is committed to excellence in governance and recognizes the interest our stockholders have in our executive compensation program. As a part of that commitment, and in accordance with SEC rules, our stockholders are being asked to approve an advisory resolution on the compensation paid to our named executive officers, as reported in the Compensation Discussion and Analysis section of this Proxy Statement. This proposal, commonly known as a Say-on-Pay proposal, gives stockholders the opportunity to endorse or not endorse our fiscal year 2013 compensation program and policies for our named executive officers.

For fiscal year 2013, the Committee established aggressive financial and strategic goals for the Chief Executive Officer and our other named executive officers, the achievement of which the Committee believed to be of paramount importance to the continued success of the Company and the accrual of long-term value to our stockholders.

As discussed in more detail in the Compensation Discussion and Analysis section of this Proxy Statement, our executive compensation program is designed to attract and retain professionals of the highest caliber, who are capable of leading us to fulfill our ambitious business objectives. The Compensation Committee believes our program is competitive in the marketplace, links pay to performance by rewarding our named executive officers for achieving Company and individual performance targets, and aligns our named executive officers' interests with the interests of our stockholders by providing a significant portion of total compensation through the grant of equity awards. The total compensation paid to our named executive officers in 2013 was strongly correlated with the achievement of our 2013 financial and strategic goals.

Highlights of 2013 Performance

During 2013 we accomplished various critical objectives for our business, which included:

Acquisitions: We completed two strategic acquisitions, including an FDA-approved oncology drug, MARQIBO® and we licensed-in a late-stage oncology drug, Captisol-enabled® MELPHALAN.

Commercial: We executed the launch of MARQIBO in less than seven weeks after acquisition, while continuing to focus on the growth of our marketed drugs.

Medical: We filed the NDA for BELEODAQ, for which the FDA has granted a Priority Review. We also completed enrollment in a pivotal study for Captisol-enabled MELPHALAN and initiated a Phase 2 study for SPI-2012.

Corporate: We strengthened our management team with the addition of experienced leaders in senior management, including a new Chief Financial Officer and new Chief Medical Officer.

Financial: We successfully completed a \$120 million convertible debt financing at the end of 2013 and ended the year with a strong balance sheet, including \$160 million in cash.

Stockholders are urged to read the Compensation Discussion and Analysis section of this Proxy Statement, which discusses in detail our fiscal year 2013 compensation program and decisions made by the Committee with respect to the compensation of our named executive officers.

Table of Contents**CORPORATE GOVERNANCE****Board Independence**

In determining whether members of our Board of Directors are independent, the Board reviews a summary of the relationships of each director with Spectrum and other facts relevant to the analysis of whether the directors qualify as independent directors under the NASDAQ Listing Rules.

The Board of Directors has affirmatively determined that Drs. Krassner, Lenaz, Maida and Vyas, and Mr. Cohen, are independent directors pursuant to the NASDAQ Listing Rules. All members of the Audit, Compensation, and Nominating and Corporate Governance Committees are independent pursuant to the NASDAQ Listing Rules. In addition, the members of the Audit Committee are independent directors pursuant to the heightened independence criteria for members of Audit Committees set forth in SEC rules.

Board Meeting Attendance

Our Board of Directors met eight times and acted by unanimous written consent five times during 2013. We expect each director to attend each meeting of the Board and of the committees on which he serves. Our policy is that every director is expected to attend the annual meeting of our stockholders in-person. If a director is unable to attend a meeting, he must notify the Board and attempt to participate in the meeting telephonically, if possible. All directors have attended at least 75% of the meetings of the full Board and the meetings of the committees on which he served in 2013. The average attendance of all directors in 2013 was approximately 96%. Our Board of Directors met in executive sessions without management eight times during 2013. All our Board members attended the 2013 Annual Meeting of Stockholders.

Committees of the Board

Our Board of Directors has five standing committees: Audit, Compensation, Nominating and Corporate Governance, Placement and Product Acquisition. Our Audit, Compensation and Nominating and Corporate Governance Committees each act pursuant to a written charter. Copies of the Audit, Compensation and Nominating and Corporate Governance Committee charters are posted on our website at <http://www.sppirx.com>. The Board intends to reevaluate the composition of each of the committees at its meeting immediately following the Annual Meeting.

Reading and discussing with management and the independent registered public accounting firm the annual audited, and quarterly unaudited, financial statements.

Compensation Committee. At December 31, 2013, the Compensation Committee was comprised of Drs. Krassner (Chair), Lenaz, Maida and Vyas. The Compensation Committee held one meeting and acted by unanimous written consent two times during 2013. Our Board of Directors determined that each of the members was an independent director within the meaning of the NASDAQ Listing Rules and a non-employee director within the meaning of Rule 16b-3 under the Exchange Act.

For additional information about the role and responsibilities of the Compensation Committee, see the *Compensation Discussion and Analysis Role of Compensation Committee* section of this Proxy Statement.

Placement Committee. At December 31, 2013, the Placement Committee was comprised of Drs. Shrotriya (Chair), Maida and Lenaz, and Messrs. Cohen and Gagnon. The Placement Committee has the authority to act on behalf of the Board with respect to approving and evaluating all issuances of our securities (other than stock options, restricted stock and other grants for compensation purposes, which is handled by the Compensation Committee or the Board), including the authority to set the terms of each security being issued, including, without limitation, common stock, warrants, preferred stock or other securities convertible into common stock. The Placement Committee did not meet during 2013.

Nominating and Corporate Governance Committee. At December 31, 2013, the Nominating and Corporate Governance Committee was comprised of Mr. Cohen (Chair) and Drs. Krassner, Maida and Vyas. Our Board of Directors determined that each of the members was an independent director under the NASDAQ Listing Rules. The Nominating and Corporate Governance Committee's responsibilities include, but are not limited to: the identification and recommendation of nominees for election as directors by the stockholders; the identification and recommendation of candidates to fill any vacancies on our board; and the recommendation of policies and standards of corporate governance. The Nominating and Corporate Governance Committee met one time in 2013.

In selecting and making recommendations to the Board for director nominees, the Nominating and Corporate Governance Committee may consider suggestions from many sources, including our stockholders. Any such director nominations, together with appropriate biographical information and qualifications, should be submitted by the stockholder(s) to the Chairman of the Nominating and Corporate Governance Committee of our Board of Directors, c/o Spectrum Pharmaceuticals, Inc., 11500 South Eastern Avenue, Suite 240, Henderson, Nevada 89052. Director nominees submitted by stockholders are subject to the same review process as director nominees submitted from other sources, such as other Board members or senior management. No director nominations by stockholders have been received as of the filing of this Proxy Statement.

Table of Contents

The Nominating and Corporate Governance Committee considers a number of factors when reviewing potential nominees for the Board. The factors which are considered by the Nominating and Corporate Governance Committee include the following: the candidate's ability and willingness to commit adequate time to Board and committee matters; the fit of the candidate's skills and personality with those of other directors and potential directors in building a Board that is effective, collegial and responsive to our needs; the candidate's personal and professional integrity, ethics and values; the candidate's experience in corporate management, such as serving as an officer or former officer of a publicly-held company; the candidate's experience in our industry and with relevant social policy concerns; the candidate's experience as a Board member of another publicly-held company; whether the candidate would be independent under applicable standards; whether the candidate has practical and mature business judgment; and the candidate's academic expertise in an area of our operations. In addition to the factors set forth above, the Nominating and Corporate Governance Committee also strives to create diversity in perspective, background and experience in the Board as a whole.

In identifying, evaluating and selecting future potential director nominees for election at each annual meeting of stockholders and nominees for directors to be elected by the Board to fill vacancies and newly created directorships, the Nominating and Corporate Governance Committee engages in a selection process. In identifying potential nominees, the Nominating and Corporate Governance Committee will consider as potential director nominees candidates recommended by various sources, including any member of the Board, any of our stockholders or senior management. In appropriate circumstances, the Nominating and Corporate Governance Committee may also hire a search firm to help locate qualified candidates. Once potential nominees are identified, they are initially reviewed by the Chairman of the Nominating and Corporate Governance Committee, or in the Chairman's absence, any other member of the Nominating and Corporate Governance Committee delegated to initially review director candidates. The reviewing member of the Nominating and Corporate Governance Committee will make an initial determination in his or her own independent business judgment as to the qualifications and fit of such director candidates based on the criteria set forth above. If the reviewing member determines that it is appropriate to proceed, the Chief Executive Officer and at least one member of the Nominating and Corporate Governance Committee will interview the prospective director candidate(s). The full Nominating and Corporate Governance Committee may interview the candidates as well. The Nominating and Corporate Governance Committee will provide informal progress updates to the Board and will meet to consider and recommend final director candidates to the entire Board of Directors. Our Board of Directors determines which candidates are nominated or elected to fill a vacancy.

Product Acquisition Committee. At December 31, 2013, the Product Acquisition Committee was comprised of Drs. Shrotriya (Chair), Lenaz, Maida and Vyas, and Mr. Gagnon. The Product Acquisition Committee is responsible for evaluating our product acquisition opportunities. The Product Acquisition Committee did not meet during 2013. Instead, the full Board previously considered and approved the 2013 investments and activities related to product acquisitions.

Board Leadership Structure

Currently, our Chief Executive Officer, Dr. Rajesh C. Shrotriya, serves as Chairman of our Board of Directors. The Board believes that Dr. Shrotriya is the director best situated to identify strategic opportunities for our Company and to focus the activities of the Board due to his full-time commitment to the business and his long tenure with Spectrum. The Board also believes that Dr. Shrotriya's dual roles as Chairman of the Board and Chief Executive Officer promotes effective execution of our business strategy and facilitates information flow between management and the Board. Our Board has determined that maintaining the independence of a majority of our directors helps maintain the Board's independent oversight of management and ensures that the appropriate level of independence is applied to all Board decisions. In addition, our Audit, Compensation and Nominating and Corporate Governance Committees, which oversee critical matters such as our accounting principles, financial reporting processes and system of disclosure controls and internal controls over financial reporting, our executive compensation program and the selection and evaluation of our directors and director nominees, each consist entirely of independent directors.

Risk Oversight

Management is responsible for identifying our risk exposures and communicating such exposures to our Board. Our Board is responsible for implementing our risk oversight responsibilities. The Board does not have a standing risk management committee, but administers this function directly through the Board as a whole, as well as through committees of the Board. For example, the Audit Committee assists the Board in its risk oversight function by reviewing and discussing with management our accounting principles and procedures, financial reporting processes and system of disclosure controls and internal controls over financial reporting. The Nominating and Corporate Governance Committee assists the Board in its risk oversight function by periodically reviewing and discussing with management important corporate governance principles and practices and by considering risks related to our director nominee evaluation process. The Compensation Committee assists the Board in its risk oversight function by overseeing compliance with our executive compensation programs and considering risks relating to the design of our executive compensation programs and arrangements. In addition, our compliance officer monitors our corporate compliance program and our compliance with applicable laws, rules and regulations and provides reports to our Board with respect to compliance matters and any related issues. The full Board considers strategic risks and opportunities and receives reports from the committees regarding risk oversight in their areas of responsibility as necessary. We believe our Board leadership structure facilitates the division of risk management oversight responsibilities among the Board committees and enhances the Board's effectiveness in fulfilling its oversight function with respect to different areas of our business risks and our risk mitigation practices.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee of our Board of Directors is responsible for assisting our Board of Directors in fulfilling its oversight responsibilities regarding Spectrum's financial accounting and reporting process, system of internal control, audit process, and process for monitoring compliance with laws and regulations. The Audit Committee operates pursuant to a written charter, a copy of which is posted on our website at www.sppirx.com. The Audit Committee met six times and acted by unanimous written consent once during fiscal 2013. All members of the Audit Committee are non-employee directors and satisfy the current NASDAQ Global Market Listing Standards and SEC requirements with respect to independence, financial literacy and experience.

Management of Spectrum has the primary responsibility for Spectrum's consolidated financial statements as well as Spectrum's financial reporting process, accounting principles and internal controls. Ernst & Young LLP, the independent registered public accounting firm for the Company in 2013, is responsible for performing an audit of Spectrum's consolidated financial statements and internal control over financial reporting, and expressing an opinion as to the conformity of such financial statements with generally accepted accounting principles and the effectiveness of Spectrum's internal control over financial reporting.

In this context, the Audit Committee has reviewed and discussed the audited consolidated financial statements of Spectrum as of and for the year ended December 31, 2013 with Spectrum's management and the independent registered public accounting firm. The Audit Committee has discussed with the independent registered public accounting firm the matters required to be discussed by Auditing Standard No. 16,

Communication with Audit Committees (which superseded Statement on Auditing Standards No. 61 for fiscal years beginning after December 15, 2012), as adopted by the Public Company Accounting Oversight Board, or PCAOB. The Audit Committee has also received the written disclosures and the letter from the independent registered public accounting firm required by applicable requirements of the PCAOB (Rule 3526) regarding the independent accountants' communications with the Audit Committee concerning independence, and has discussed with the independent registered public accounting firm the accounting firm's independence.

Based on the foregoing, the Audit Committee has recommended to our Board of Directors the inclusion of the audited consolidated financial statements in Spectrum's Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

Executive Summary

At Spectrum we have an unwavering commitment to serve patients and build value for our stockholders. We believe that we have all the ingredients to build a company with a solid base of commercial products, a strong balance sheet, a robust research and development pipeline, and an accomplished team of executives to execute our proven strategy.

Table of Contents

Although 2013 was a challenging year for the Company in some respects due to the unexpected decrease in product sales, we made significant progress towards achieving our key business objectives and positioning the Company for future growth and success. Notably, despite a \$100 million decrease in revenue as compared to the prior year, our management team was able to exercise fiscal discipline and carefully manage expenses so that we were able to achieve profitability (on a non-GAAP basis) in each of the third and fourth quarters.

Below is a brief summary of the key business developments which, taken as a whole, made 2013 a successful year:

Acquisitions: We acquired two important products in 2013: MARQIBO, an FDA-approved, oncology drug; and Captisol-enabled MELPHALAN, a late-stage oncology drug,

Commercial: We executed the launch of our fourth commercial drug, MARQIBO, in less than seven weeks after its acquisition, while continuing to focus on the growth and success of our other marketed drugs.

Medical: We filed a new drug application for BELEODAQ, for which the FDA granted a Priority Review. We also completed enrollment in a pivotal clinical study for Captisol-enabled MELPHALAN and initiated a Phase 2 study involving SPI-2012.

Corporate: We strengthened our management team with the addition of experienced leaders in senior management, including a new Chief Financial Officer and new Chief Medical Officer.

Financial: We successfully completed a \$120 million convertible debt financing transaction at the end of 2013 and ended the year with a strong balance sheet, including \$160 million in cash.

For 2013, the Committee established aggressive goals for the Chief Executive Officer and our other named executive officers, the achievement of which the Committee believed to be of paramount importance to the continued growth and success of the Company, and to the accrual of long-term value to our stockholders. These goals related to the achievement of a revenue target, acquisition of commercial products, management of our product pipeline, advancement of clinical studies, hiring key members of our management team, and maintaining fiscal discipline. Each of these goals was established at the beginning of 2013, except that our revenue target was adjusted in the middle of 2013 to reflect our new sales outlook following our determination that, due to unexpected market conditions, product sales would likely be significantly lower than originally forecast. The total compensation paid to our named executive officers in 2013, as determined by the Committee and approved by the full Board of Directors, was ultimately strongly correlated with the achievement of our 2013 financial and strategic goals, as described in greater detail below.

Compensation Philosophy and Objectives

Compensation Philosophy

The Committee's executive compensation philosophy is to attract and retain professionals of the highest caliber, who are capable of leading Spectrum to fulfill our ambitious business objectives. The Committee understands that competition for attracting talent in the pharmaceutical industry is very intense, and that such competition is local, national and even international in scope. The Committee also understands that, notwithstanding the Company's financial growth and strategic success over the past several years, it is still in the process of achieving the goal of becoming one of the most significant players in the market for hematology and specialty oncology treatments. As a result, the Committee recognizes that our executive compensation packages must be designed to encourage exceptional candidates to make a decision to join us over other potential employers, including pharmaceutical, biotechnology and other life sciences companies that may be much larger and better known than Spectrum. Our commitment to finding exceptional and accomplished executives, many of whom have come to us from very significant companies within the life sciences industry, permeates our executive compensation philosophy and results in us providing compensation packages to our named executive

Table of Contents

officers at the top end of the range as compared to peer group companies. The Committee seeks to implement this compensation philosophy by offering compensation opportunities that significantly reward executives for advancing our long and short-term financial and strategic goals.

Compensation Objectives

When reviewing and approving our executive compensation program, the Committee is guided by the following five objectives:

Attract exceptional and accomplished executives with the proper experience and skills required to achieve our specific business objectives, as well as our future growth and success;

Provide a total compensation package that is competitive with significant players in the life sciences industry, and that is at the top end of the range within our peer group companies;

Condition a significant portion of potential total compensation on the achievement of Company and individual performance targets, which are designed to advance our business objectives and create long-term stockholder value;

Provide a significant portion of total compensation through the grant of restricted shares and options to more directly align the interests of our executive officers with those of our stockholders; and

Provide for time-based vesting of restricted share and option awards to encourage executive officers to remain with the Company over a meaningful period of time (generally at least three years).

Quantitative and Qualitative Performance Indicators

The Committee takes into account various quantitative and qualitative indicators of Company and individual performance in determining the level and structure of compensation for the named executive officers. The Committee generally considers Company quantitative performance indicators such as total revenue, expense management and total cash balance. The Committee also appreciates the importance of achievements that may be difficult to quantify, and accordingly recognizes qualitative factors such as the completion of the acquisition of commercial products, the advancement of product candidates, obtaining regulatory approvals, advancement of clinical trials, and demonstrated leadership ability. In general, the Committee believes that the Company's long-term growth and success are tied, to a greater and lesser extent, to these performance indicators. As a result, the Committee seeks to ensure that the realized compensation of our named executive officers is closely correlated to their achievement. The specific performance indicators that were deemed to be important for purposes of compensation paid in 2013 are discussed below. For additional information, see *Compensation Discussion and Analysis* Annual Cash Bonuses.

Elements of Executive Compensation

In furtherance of the Committee's compensation philosophy, the Committee generally believes that using a combination of three principal compensation elements—base salary, annual cash bonus, and equity incentive awards—effectively supports our executive compensation objectives. The Committee also uses other compensation elements, including standard benefits and perquisites, as well as change of control benefits for certain executives, which it views as necessary components of a competitive and effective executive compensation program. However, in light of our significant financial growth over a period of several years, and due to the rapidly evolving nature of the industry in which we operate, the Committee believes it is difficult to pinpoint specific competitive market levels to target for each element of compensation. Instead, the Committee strives to position the potential total compensation delivered to the named executive officers at the top end of a pre-identified peer group in order to recruit and retain top talent, compensate the named executive officers for exceptional contributions to the Company's financial growth and strategic success, and encourage outstanding future performance.

Table of Contents

Mix of Compensation Elements

In assessing the total compensation opportunity for each named executive officer, and determining the value or amount paid with respect to each compensation element, the Committee generally seeks to weight the compensation mix heavily towards performance-based compensation (annual cash bonuses and equity awards), which we refer to as at risk compensation, and seeks to limit the level of guaranteed compensation, especially guaranteed cash compensation (base salary, benefits and perquisites). In doing so, the Committee is mindful of the appropriate mix between guaranteed pay and at risk pay so as to mitigate compensation-related risk.

The Committee also strives to provide a larger proportion of the total compensation opportunity in the form of non-cash components (such as restricted shares and options) rather than cash components (such as base salary and annual cash bonuses). The Committee does so to allow the named executive officers to be financially rewarded for exceptional Company performance that the Committee believes will advance our business objectives, and to further align the interests of the named executive officers with those of our stockholders.

However, notwithstanding the foregoing general principles, the Committee has not established any formal policies or guidelines for allocating between at risk and guaranteed compensation, or cash and non-cash compensation. The Committee also has not adopted any policies for allocating between long-term and currently paid compensation or between any particular elements of compensation. For additional information, see *Compensation Discussion and Analysis - Key Elements of Executive Compensation*.

At Risk vs. Guaranteed Compensation

The following chart illustrates that the guaranteed pay (base salary, benefits and perquisites) of our Chief Executive Officer was only 19% of his potential compensation for 2013 and approximately 81% was at risk pay (annual cash bonuses, stock awards and option awards) that was dependent on the achievement of Company or individual performance targets, or appreciation in the value of our shares. These amounts are based on the amounts set forth in the Summary Compensation Table for base salary, bonus, stock awards, option awards, and all other compensation.

As is evident from the chart above, the vast majority of our Chief Executive Officer's compensation for 2013 was in the form of pay which was at risk, and therefore not guaranteed to be earned. This is consistent with the Committee's philosophy of providing a significant portion of potential total compensation based on the achievement of Company and individual performance targets, which are designed to advance our business objectives and create long-term stockholder value.

Table of Contents

Cash vs. Non-Cash Compensation

The following chart illustrates the various elements of the total compensation package paid to our Chief Executive Officer in 2013. The cash components (base salary, annual cash bonuses, benefits and perquisites) represented only 35% of his potential compensation for 2013, and approximately 65% was in the form of non-cash components (restricted shares and options). These amounts are based on the amounts set forth in the Summary Compensation Table for base salary, bonus, stock awards, option awards, and all other compensation.

As is evident from the chart above, the majority of the total compensation paid to our Chief Executive Officer in 2013 was in the form of non-cash equity awards. This is consistent with the Committee's philosophy of providing a significant portion of total compensation through the grant of equity incentive awards (restricted shares and options) in order to weight compensation more heavily towards non-cash compensation and to align the interests of our Chief Executive Officer with those of our stockholders. It is also consistent with the Committee's philosophy of seeking to encourage skilled executives to remain with the Company since the restricted share and option awards require time-based vesting over a period of several years.

The Committee believes that its overall executive compensation philosophy is effective at achieving its objectives of attracting and retaining top executives with the skills necessary to achieve our business objectives, providing a competitive total compensation package, encouraging the achievement of Company and individual performance targets, aligning the interests of the executives with those of our stockholders, and properly allocating between at risk and guaranteed compensation.

Role of Compensation Committee

The Committee was appointed by the Board of Directors, and consists entirely of directors who are independent directors under the applicable NASDAQ Listing Rules, outside directors for purposes of Section 162(m) of the Internal Revenue Code, and non-employee directors for purposes of Rule 16b-3 under the Exchange Act. The Committee is responsible for, among other things:

reviewing and recommending to the full Board of Directors for approval the compensation of our Chief Executive Officer, and recommending and approving the compensation of our other named executive officers and other key management personnel;

Table of Contents

approving individual and Company performance targets that relate to the payment of annual cash bonuses or the grant of equity awards, assessing achievement with respect to the targets, recommending to the full Board of Directors for approval the payments or grants made to our Chief Executive Officer, and approving the payments or grants made to our other named executive officers;

administering the Company's equity-based compensation plans, recommending to the full Board of Directors for approval equity awards to our Chief Executive Officer, and approving equity awards to our other named executive officers and other key management personnel pursuant to those plans;

reviewing and approving offer letters, employment agreements, severance agreements and other arrangements with our named executive officers and other key management personnel; and

reviewing compensation information from peer group companies, and other companies within our industry, to generally consider our compensation policies in light of current market practices.

The Committee is also responsible for preparing and approving the Report of the Compensation Committee for inclusion in this Proxy Statement. In performing its duties, the Committee, in its discretion, may retain or replace any independent counsel, compensation consultants or other outside expert or advisor that the Committee believes necessary or advisable, and the Committee has the sole authority to approve the compensation of such persons. The Committee met two times during 2013.

Role of Executive Officers

The Committee generally solicits input from our Chief Executive Officer in determining the amount and elements of compensation payable to the named executive officers and other key management personnel. Our Chief Executive Officer also generally assists the Committee in establishing specific Company financial and strategic goals that are ultimately used to determine whether certain compensation elements (such as annual cash bonuses) have been earned. However, while our Chief Executive Officer discusses his recommendations with the Committee, he does not participate in deliberation or determination with respect to his own compensation. The ultimate determination of the amount of any compensation paid to the Chief Executive Officer, including any element of compensation, is made by the full Board of Directors relying upon the recommendation of the Committee.

The Committee considers recommendations of our Chief Executive Officer when assessing the individual performance of the other named executive officers. However, the ultimate determination of the amount of any cash or equity incentive awards payable to the other named executive officers is made by the Committee.

The other named executive officers and other senior management personnel are generally not present at meetings of the Committee and such other persons do not generally participate in Committee discussions regarding executive compensation decisions.

Peer Group Data

In 2013, the Committee retained Radford, an Aon Hewitt company, to conduct a competitive review of our executive compensation program. Radford is a leading global provider of compensation services to life sciences companies. The Committee tasked Radford with reviewing and compiling data on the executive compensation practices of select companies within the life sciences industry, recommending a list of specific peer group companies, and providing guidance on our compensation practices in light of the compensation practices of the peer group companies. Radford's work also included analyzing our historical pay practices and presenting recommendations regarding our current pay practices, including with respect to the amount of cash compensation and the amount and mix of equity compensation. Radford presented a report to the Committee in March 2013, which the Committee reviewed and discussed with Radford.

Table of Contents

The peer group that Radford selected, which the Committee approved, consisted of the following 24 publicly traded pharmaceutical companies, which we refer to as the Peer Group:

Acorda Therapeutics

Idenix Pharmaceuticals
