To the Participants and Compensation and Benefits Committee

PerkinElmer, Inc. Savings Plan

Waltham, Massachusetts

We have audited the accompanying statements of net assets available for benefits of the PerkinElmer, Inc. Savings Plan (the Plan) as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2013 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## PERKINELMER, INC. SAVINGS PLAN

### NOTES TO FINANCIAL STATEMENTS

#### AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

#### 1. DESCRIPTION OF THE PLAN

The following description of the PerkinElmer, Inc. Savings Plan (the *Plan*), as in effect for the year ended December 31, 2013, is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

##### *General*

The Plan is a defined contribution plan covering substantially all domestic employees of PerkinElmer, Inc. (the *Company* or the *Plan Sponsor*) who are not members of a collective bargaining unit or who are members of a unit that specifically provides for participation in the Plan. The Plan also covers employees of each wholly owned domestic subsidiary that has entered into an agreement to adopt the Plan. The Plan is administered by an administrative committee (the *Plan administrator*), which has overall responsibility for interpreting the provisions of the Plan and providing the trustee with any information required in the discharge of its duties. Fidelity Management Trust Company (*FMTCo*) serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (*ERISA*).

##### *Contributions*

Participation in the Plan is voluntary. As defined in the Plan, eligibility commences the date the employee completes an hour of service for the Company. Participants could formerly elect to make voluntary before-tax or Roth 401(k) contributions of up to 100% of their eligible compensation subject to statutory limits, but effective January 1, 2012, participants may elect to make voluntary before-tax or Roth 401(k) contributions of up to only 90% of their eligible compensation subject to statutory limits. In order to maintain the Plan's status as nondiscriminatory, the contribution amounts for highly compensated employees may be limited. Participants age 50 or over may be eligible to make additional contributions, subject to certain Internal Revenue Code (the *Code*) limitations. Participants may also contribute amounts distributed to them by other qualified benefit plans.

All eligible participants receive matching contributions on a per-pay-period basis of 100% of the first 5% of compensation up to the applicable Code limits.

In connection with the Company's acquisition of Caliper Life Sciences, Inc. (*Caliper*) in November 2011, the Plan was amended to provide that eligible employees of Caliper became participants in the Plan as of January 1, 2012. Such employees received matching contributions of 50% of the first 5% of compensation up to applicable Code limits during 2012. In October 2012, the Plan was subsequently amended so that as of January 1, 2013 eligible employees of Caliper began to receive a matching contribution of 100% of the first 5% of compensation up to applicable Code limits.

As defined in the Plan, the Company may make supplemental contributions at its discretion. There were no supplemental contributions made during 2013 or 2012.

***Participant Accounts***

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, supplemental contributions, allocations of Plan earnings, and are charged with an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings, deferrals or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

***Vesting and Forfeitures***

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. All active participants are vested immediately in the Company's contribution portion of participants' accounts. Also, if a participant terminated employment due to death, disability or retirement, as defined in the Plan, his or her account balance became 100% vested.

At December 31, 2013 and 2012, forfeited accounts totaled \$47,706 and \$144,002, respectively. These forfeitures arose from contributions that were subject to former vesting schedules in place prior to February 1, 2011. Forfeited balances are used to reduce future Company contributions or to pay reasonable administrative expenses of the Plan. The Company's contribution was reduced by forfeitures of \$142,074 and \$334,155 for the years ended December 31, 2013 and 2012, respectively.

### ***Investments***

Participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan. The Plan currently offers mutual funds, common collective trust funds, participant-directed brokerage accounts, and a Company stock fund as investment options for participants.

### ***Notes Receivable From Participants***

Participants may borrow from their fund accounts from a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balances, whichever is less. The notes are secured by the balance in the participant's account and bear interest at rates fixed for the term of the note by the administrative committee based on interest rates currently being charged by commercial lending institutions. The period of repayment for any note is determined by the participant, but in no event shall that period exceed 60 months, unless the note is used to purchase a principal residence, in which case, a longer payment period is permitted. Principal and interest are paid ratably through payroll deductions.

### ***Payment of Benefits***

Upon termination of service, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Benefit payments to participants are recorded upon distribution.

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### ***Basis of Accounting***

The accompanying financial statements have been prepared under the accrual basis in accordance with accounting principles generally accepted in the United States of America (GAAP).

### ***Use of Estimates***

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

### ***Risks and Uncertainties***

The Plan utilizes various investment instruments including common stock, mutual funds, and common collective trust funds. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the financial statements.

### ***Investment Choices, Valuation and Income Recognition***

The Plan's investments are carried at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan. The Company's common stock is valued at the quoted closing market price from a national securities exchange and the short-term investments are valued at cost, which approximate fair value. Shares

of mutual funds are valued at the net asset value of shares held by the Plan at year-end. One of the Plan's investment options allows participants to establish a brokerage account and select various investments consisting primarily of mutual funds, common stock, and interest bearing cash. The units of common collective trust funds are stated at fair value as determined by the issuer of the fund, Fidelity Management and Research Company (FMR Co.), based on the net asset value of the underlying investments. The stable value portfolio is stated at fair value and then adjusted to contract value as described below. Fair value of the stable value portfolio is the net asset value of its underlying investments, and contract value is principal plus accrued interest.

In accordance with GAAP, the stable value portfolio is included at fair value in participant-directed investments in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statements of changes in net assets available for benefits is presented on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan's net appreciation (depreciation) in the fair value of its investments consists of realized gains and losses and unrealized appreciation and depreciation on investments.

### ***Investment Management Fees and Operating Expenses***

Management fees and operating expenses charged to the Plan for investments in the mutual funds and common collective trust funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

### ***Notes Receivable from Participants***

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest at the end of the period. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

### ***Payment of Benefits***

Payments to participants are recorded upon distribution.

### ***Administrative Expenses***

Administrative expenses of the Plan may be paid by either the Plan or the Company, as provided in the Plan document.

### ***Subsequent Events***

The Plan evaluated all events and transactions that occurred after December 31, 2013 through June 19, 2014, the date these financial statements were available to be issued.

### ***Recently Adopted Accounting Standards***

The Plan does not anticipate that the adoption of recent accounting pronouncements will have an impact on the Plan's financial statements.

## **3. FAIR VALUE MEASUREMENTS**

Accounting Standards Codification 820, Fair Value Measurements (ASC 820), establishes a single authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurements. In accordance with ASC 820, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest Level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The Plan's policy is to recognize significant transfers between Levels at the beginning of the reporting period.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

### ***PerkinElmer Stock Fund***

The PerkinElmer Stock Fund is an employer stock unitized fund. The fund consists of PerkinElmer, Inc. common stock as well as short-term investments that provide liquidity for daily trading. PerkinElmer, Inc. common stock is valued at the quoted closing market price from a national securities exchange and the short-term investments are valued at cost, which approximate fair value.

*Mutual Funds*

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Participant-directed brokerage account*

A self-directed brokerage account allows plan participants the opportunity to invest in a wide array of securities. Participants can elect to direct their Plan assets into individual securities by establishing a Plan level brokerage account. Investments in brokerage accounts are reported at fair value. The Plan receives prices for investments in brokerage accounts from a nationally recognized pricing service that are based on observable market transactions.

*Common Collective Trust Fund*

Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. In the event that the Plan initiates a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

In accordance with the update to ASC 820, the following tables set forth by Level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2013 and 2012.

The Plan had no Level 3 investments as of either December 31, 2013 or December 31, 2012.

	<b>Active Markets for Identical Assets (Level 1)</b>	<b>Other Observable Inputs (Level 2)</b>	<b>2013 Total</b>
PerkinElmer Stock Fund	\$ 15,794,921	\$	\$ 15,794,921
Mutual funds:			
Domestic stock funds	278,404,238		278,404,238
International stock fund	74,455,774		74,455,774
Fixed income funds	51,543,926		51,543,926
Cash and other	11,042,113		11,042,113
Total mutual funds	415,446,051		415,446,051
Participant-directed brokerage account:			
Domestic stock funds	602,255		602,255
International stock funds	23,778		23,778
Cash and other	9,589		9,589
Total participant-directed brokerage account	635,622		635,622
Common collective trust funds:			
Stable-value fund		73,150,418	73,150,418
Index fund		413,086	413,086
Total common collective trust funds		73,563,504	73,563,504
Total	\$ 431,876,594	\$ 73,563,504	\$ 505,440,098

	<b>Active Markets for Identical Assets (Level 1)</b>	<b>Other Observable Inputs (Level 2)</b>	<b>2012 Total</b>
PerkinElmer Stock Fund	\$ 13,127,196	\$	\$ 13,127,196
Mutual funds:			
Domestic stock funds	205,487,811		205,487,811
International stock fund	62,355,031		62,355,031
Fixed income funds	60,487,530		60,487,530
Cash and other	7,690,064		7,690,064
Total mutual funds	336,020,436		336,020,436
Common collective trust fund:			
Stable-value fund		79,963,709	79,963,709
Total	\$ 349,147,632	\$ 79,963,709	\$ 429,111,341

For the years ended December 31, 2013 and 2012, there were no significant transfers in or out of Levels 1, 2, or 3.

The valuation methods as described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth additional disclosures of the Plan's investments that have fair value estimated using a net asset value (NAV) as of December 31, 2013 and 2012:

**Fair Value Estimated Using Net Asset Value per Share  
December 31, 2013**

Investment	Fair Value*	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Stable value fund <sup>(a)</sup>	\$ 73,150,418	\$	Daily	See Above	See Above
Index fund <sup>(b)</sup>	\$ 413,086	\$	Daily	None	None

**Fair Value Estimated Using Net Asset Value per Share  
December 31, 2012**

Investment	Fair Value*	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Stable value fund <sup>(a)</sup>	\$ 79,963,709	\$	Daily	See Above	See Above

\* The fair values of the investments have been estimated using the net asset value of the investment.

- (a) Stable value fund strategy seeks to preserve the principal investment while earning a level of interest that is consistent with the principal preservation. While it seeks to maintain a stable NAV of \$1 per share, it cannot guarantee it will be able to do so; thus, the yield of the stable value fund will fluctuate.
- (b) Index fund strategy seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the Morgan Stanley Capital International (MSCI) All Country World Index (ACWI) Investable Market Index (IMI) Net Dividend Index SM.

#### 4. INVESTMENTS

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2013 and 2012 are as follows:

December 31,

2013

2012

Edgar Filing: PERKINELMER INC - Form 11-K

* Fidelity Contrafund - Class K	<b>\$ 58,628,959</b>	\$ 45,230,323

\* Represents party-in-interest to the Plan

## 5. STABLE VALUE PORTFOLIO

The Managed Income Portfolio II (the "Portfolio") is a stable value portfolio that is a commingled pool managed by FMTC. The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the Portfolio's constant net asset value (NAV) of \$1 per unit. Distribution to the Portfolio's participants is declared daily from the net investment income and automatically reinvested in the Portfolio on a monthly basis, when paid. It is the policy of the Portfolio to use its best efforts to maintain a stable net asset value of \$1 per unit; although there is no guarantee that the Portfolio will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Portfolio, plus earnings, less participant withdrawals and administrative expenses. The Portfolio imposes certain restrictions on the Plan, and the Portfolio itself may be subject to circumstances that impact its ability to transact at contract value (described below). Plan management believes that the occurrence of events that would cause the Portfolio to transact at less than contract value is not probable.

***Limitations on the Ability of the Portfolio to Transact at Contract Value:***

***Restrictions on the Plan***

Participant-initiated transactions are those transactions allowed by the Plan, including withdrawals for benefits, loans, or transfers to noncompeting funds within a plan, but excluding withdrawals that are deemed to be caused by the actions of the Plan Sponsor. The following employer-initiated events may limit the ability of the Portfolio to transact at contract value:

The Plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code.

Any communication given to Plan participants by the Plan Sponsor, any other Plan fiduciary or FMTC that is designed to sway or influence a participant not to invest in the Portfolio or to transfer assets out of the Portfolio.

Any transfer of assets from the Portfolio directly into a competing investment option.

The establishment of a defined contribution plan that competes with the Plan for employee contributions.

Withdrawals initiated by the Plan Sponsor will normally be provided at contract value as soon as practicable within twelve months following written notice of the Trustee.

Complete or partial termination of the Plan or its merger with another plan.

### *Circumstances That Impact the Portfolio*

The Portfolio invests in assets, typically fixed income securities or bond funds, and enters into wrap contracts issued by third parties. A wrap contract is an agreement by another party, such as a bank or insurance company to make payments to the Portfolio in certain circumstances. Wrap contracts are designed to allow a stable value portfolio to maintain a constant NAV and to protect a portfolio in extreme circumstances. In a typical wrap contract, the wrap issuer agrees to pay a portfolio the difference between the contract value and the market value of the underlying assets once the market value has been totally exhausted.

The wrap contracts generally contain provisions that limit the ability of the Portfolio to transact at contract value upon the occurrence of certain events. These events include:

Any substantive modification of the Portfolio or the administration of the Portfolio that is not consented to by the wrap issuer.

Any change in law, regulation, or administrative ruling applicable to a plan that could have a material adverse effect on the Portfolio's cash flow.

Employer-initiated transactions by participating plans as described above.

In the event that wrap contracts fail to perform as intended, the Portfolio's NAV may decline if the market value of its assets declines. The Portfolio's ability to receive amounts due pursuant to these wrap contracts is dependent on the third-party issuer's ability to meet their financial obligations. The wrap issuer's ability to meet its contractual obligations under the wrap contracts may be affected by future economic and regulatory developments.

The Portfolio is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets. This could result from the Portfolio's inability to promptly find a replacement wrap contract following termination of a wrap contract. Wrap contracts are non-transferable and have no trading market. There are a limited number of wrap issuers. The Portfolio may lose the benefit of wrap contracts on any portion of its assets in default in excess of a certain percentage of Portfolio assets.

## **6. RELATED-PARTY TRANSACTIONS**

Certain Plan investments are shares of mutual funds managed by FMR Co., an affiliate of FMTC. These transactions qualify as party-in-interest transactions. Administrative fees paid by the Plan for the investment management services provided by the trustee were \$31,154 and \$28,114 for the years ended December 31, 2013 and 2012, respectively.

At December 31, 2013 and 2012, the Plan held 377,566 and 405,598 shares, respectively, of common stock of the Company, the Plan Sponsor. During the years ended December 31, 2013 and 2012, the Plan recorded dividend income from the Company's stock of \$115,760 and \$120,323, respectively.

## **7. FEDERAL INCOME TAX STATUS**

The Internal Revenue Service has determined and informed the Company by a letter dated May 29, 2014, that the Plan and related trust were designed in accordance with the applicable regulations of the Code. The Plan has been amended

since receiving the determination letter; however, the Company and the Plan administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Code, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

#### **8. PLAN TERMINATION**

Although it has not expressed any intention to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

**9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500**

The Company is reporting, in the Plan's Form 5500, the Plan's investment in a fully-benefit responsive stable-value fund, at fair value, at December 31, 2013 and 2012. The following is a reconciliation of net assets available per the financial statements to the Form 5500:

<i>December 31,</i>	<b>2013</b>	<b>2012</b>
Net assets available for benefits per financial statements	<b>\$ 511,081,155</b>	\$ 433,518,173
Adjustment from contract value to fair value for fully benefit-responsive stable-value fund	<b>1,029,694</b>	2,168,593
<b>Net Assets Available per the Form 5500</b>	<b>\$ 512,110,849</b>	\$ 435,686,766

The following is a reconciliation of the increase in net assets per the financial statements to net income per the Form 5500:

<i>Years ended December 31,</i>	<b>2013</b>	<b>2012</b>
Increase in net assets before plan transfers per the financial statements	<b>\$ 77,562,982</b>	\$ 63,066,911
Change in adjustment from contract value to fair value for fully benefit-responsive stable-value fund:		
Beginning of year	<b>(2,168,593)</b>	(1,962,845)
End of year	<b>1,029,694</b>	2,168,593
<b>Net Income per the Form 5500</b>	<b>\$ 76,424,083</b>	\$ 63,272,659
