Additional Information and Where You Can Find It

NetScout will file a Registration Statement on Form S-4 containing a proxy statement/prospectus of NetScout and other documents concerning the proposed acquisition with the Securities and Exchange Commission (the SEC). Investors are urged to read the proxy statement/prospectus when it becomes available and other relevant documents filed with the SEC because they will contain important information. Security holders may obtain a free copy of the proxy statement/prospectus (when it is available) and other documents filed by

Edgar Filing: NETSCOUT SYSTEMS INC - Form 425

NetScout with the SEC at the SEC's website at [www.sec.gov](http://www.sec.gov). The proxy statement/prospectus and other documents may also be obtained for free by contacting Andrew Kramer, Vice

President

of

Investor

Relations,

by

telephone

at

978-614-4000,

by

email

at

[ir@netscout.com](mailto:ir@netscout.com),

or

by mail at Investor Relations, NetScout Systems, Inc., 310 Littleton Road, Westford, MA 01886.

This communication is not a solicitation of a proxy from any security holder of NetScout.

However, NetScout, Danaher and certain of their respective directors and executive officers may be deemed to be participants in the solicitation of proxies from NetScout's stockholders in connection with the proposed transaction. Information about NetScout's directors and executive officers and their beneficial ownership of NetScout's common stock may be found in its definitive proxy statement relating to its 2014 Annual Meeting of Shareholders filed with the SEC on July 24, 2014. This document can be obtained free of charge from the SEC website at [www.sec.gov](http://www.sec.gov).

4

Safe Harbor & Non-GAAP Financial Metrics

Forward-looking statements in this communication are made pursuant to the safe harbor provisions of Section 21E of the Securities Exchange Act of 1934, as amended, and other federal securities laws. Investors are cautioned that statements in this communication are strictly historical statements, including without limitation, our financial guidance for fiscal year 2015 and the anticipated timing of the proposed transaction involving NetScout's acquisition of communications business lines of Danaher Corporation, constitute forward-looking statements and involve risks and uncertainties. Actual results could differ materially from the forward-looking statements, including those related to our strategy in its strategic guidance and the timing associated with completing the acquisition of Danaher's Communications business. Risks and uncertainties include, but are not limited to, the following:

cause actual results to differ include, without limitation, risks and uncertainties associated with the failure to obtain, delays in or related to obtaining shareholder or regulatory approvals; the anticipated tax treatment of the transaction and related transaction; unforeseen changes to or the effects on liabilities, future capital expenditures, revenue, expenses, synergies, indebtedness, financial future prospects; failure to consummate or delay in consummating the transaction for other reasons; our ability to retain key employees; slowdowns or downturns in economic conditions generally and in the market for advanced network and service assurance solutions; relationships with strategic partners; dependence upon broad-based acceptance of NetScout's network performance management solutions to achieve and maintain a high rate of growth, introduction and market acceptance of new products and product enhancements; the advantage of service provider opportunities; competitive pricing pressures; reliance on sole source suppliers; successful expansion into and indirect distribution channels; and dependence on proprietary technology and the ability of NetScout to successfully integrate ONPATH Technologies, and achieve operational efficiencies. For a more detailed description of the risk factors associated with NetScout's Annual Report on Form 10-K for the fiscal year ended March 31, 2014 on file with the Securities and Exchange Commission, see our obligation to update any forward-looking information contained in this press release or with respect to the announcements described herein. This presentation makes reference to certain non-GAAP measures such as non-GAAP revenue and non-GAAP earnings per share. These non-GAAP measures are not in accordance with GAAP, should not be considered an alternative for measures prepared in accordance with GAAP (revenue, net income and diluted net income per share), and may have limitations in that they do not reflect all of NetScout's results determined in accordance with GAAP. These non-GAAP measures should only be used to evaluate NetScout's results of operations in conjunction with the corresponding GAAP measures. The presentation of non-GAAP information is not meant to be considered superior to, in isolation, results prepared in accordance with GAAP. NetScout believes these non-GAAP financial measures will enhance the reader's understanding of NetScout's current financial performance and NetScout's prospects for the future by providing a higher degree of transparency and providing a level of disclosure that helps investors understand how the Company plans and measures its own business. NetScout's use of these non-GAAP measures affords investors a view of NetScout's operating results that may be more easily compared to peer companies. We encourage investors to consider NetScout's operating results on both a GAAP and non-GAAP basis during and following the integration. Presenting the GAAP measures on their own would not be indicative of NetScout's core operating results. Furthermore, NetScout's presentation of non-GAAP measures when shown in conjunction with the corresponding GAAP measures provide useful information to investors regarding present and future business trends relating to its financial condition and results of operations. NetScout maintains supplemental non-GAAP financial measures internally to understand, manage and evaluate its business and to make operating decisions. These non-GAAP measures are among the primary factors that management uses in planning and forecasting. The reconciliation of these non-GAAP measures to GAAP metrics are set forth in the accompanying tables in the index of this presentation and are available on our website at <http://ir.netscout.com>.

7

4 Key Questions about NetScout's Acquisition of  
Danaher's Communication Business

1.

What is the growth profile of the businesses being  
acquired?

2.

How do Tektronix and NetScout businesses

complement each other?

3.

Are we biting off too much?

4.

What synergies are possible?

Understanding the unique benefits of this acquisition.

Understanding the unique benefits of this acquisition.

NetScout Systems Confidential

8

1a. Danaher's Communications Business

Track record of growth

Targeting markets  
currently growing in the  
mid-single digit to low

double digit range

Each business is  
profitable with upside  
Better Access to Service Providers  
Jump Starting our Cyber Security Initiative  
Broader Access in Enterprise

HQ: Plano, Texas

Leading provider of SP network monitoring solutions

125+ SP customers

4,000+ probes deployed worldwide, monitoring 500,000+ calls  
per second

HQ: Burlington, MA

Leading provider of network DDoS attack detection and  
mitigation for SP and Enterprise networks

300+ SP customers

Analyzes over 80TB/second of traffic worldwide

HQ: Everett, WA

Leading provider of network deployment and installation tools  
for SP and Enterprise installers

1,000s of customers

NetScout Systems Confidential

9

1b. A Closer Look

~50% of total revenue

~25% of total revenue

~25% of total revenue

It has consistently performed in the high-single digit revenue growth range.

A challenging 2014

Orders have turned positive

A growth outlook for 2015 with product revenue anticipated to reach the upper single digit growth rates

Track record of generating low double-digit growth since acquisition by Danaher in mid-2010

Strong base of both service provider and enterprise customers

We believe that Arbor's product revenue will grow in the combined business around the mid-teens

Complementary to NetScout

Reported overall growth in the mid to upper single digits

Product revenue positioned for continued growth in the mid to upper single digits over the coming years

NetScout Systems Confidential

10

2. Top-line synergy and opportunities

Primary capabilities of Tektronix Communications (troubleshooting) and NetScout (monitoring) are very complementary and both are needed by service provider

Better positioned for future technology turns with a broader range

of service providers

Extend our reach into new, higher growth adjacent markets

Cyber Intelligence and Radio Access Networks, WiFi, BI

Expanding our customer base and geographic footprint

Opportunity with Fluke in the mid-tier of the market with complementary vertical focus (SAS, Cloud, WiFi)

International distribution channels

NetScout Systems Confidential

11

3. Are we biting off more than we can chew?

No!

Proven experience in successfully integrating the transformative acquisition of Network General, which created an industry leader while assuring customer continuity

Proven experience in integrating small technology acquisitions  
(five in the past 3 years)

Proven productivity and superior execution with R&D  
distributed across 8 development centers and 5 time zones

Talent retention, product integration and improved performance

Compatible cultures with the Danaher Communications  
business

Jim Lico, EVP of Danaher and responsible for Communications  
business, to join NetScout's Board of Directors

NetScout Systems Confidential

12

#### 4. Operating Synergies

Meaningful synergies, in conjunction with anticipated revenue growth, will help us drive profitability substantially higher, particularly as we move out of year 1 and into year 2

Deal is accretive in the first full year of operation

Gross margin upside: leverage our purchasing power and extend our proven manufacturing techniques to improve product gross margin by a few percentage points over the next few years

Operational synergies arising from using common infrastructure platforms, and by eliminating or reducing expenses associated with programs and capabilities already in place

Initial estimate is to identify, remove and begin realizing synergies of about 5 percent on the 900 million dollars within the combined cost base of both organizations

Expect to realize the full effect of those initial actions in the second year of operations, while also exploring the potential to improve upon that as we more closely examine how to best align our go-to-market and related support programs and initiatives

Does not include any potential tax savings that we can realize moving forward after the acquisition closes
