\* Non-income producing security.

- (a) Security is exempt from registration under Rule 144A of the Securities Act of 1933. This security may be resold in transactions that are exempt from registration, normally to qualified institutional buyers. This security has been deemed liquid pursuant to guidelines approved by the Board of Directors, unless otherwise noted.
- (b) Security is exempt from registration under Regulation S of the Securities Act of 1933. Regulation S applies to securities offerings that are made outside of the United States and do not involve direct selling efforts in the United States. This security has been deemed liquid pursuant to guidelines approved by the Board of Directors, unless otherwise noted.
- (c) All or a portion of this security is pledged as collateral pursuant to the loan agreement.
- (d) Payment-in-kind security for which the issuer has the option at each interest payment date of making interest payments in cash or additional debt securities.

Edgar Filing: WESTERN ASSET HIGH INCOME FUND II INC. - Form N-Q

- (e) Security is valued in good faith in accordance with procedures approved by the Board of Directors (See Note 1).
- (f) Illiquid security.
- (g) The maturity principal is currently in default as of January 31, 2016.
- (h) Variable rate security. Interest rate disclosed is as of the most recent information available.
- (i) The coupon payment on these securities is currently in default as of January 31, 2016.
- (j) Security has no maturity date. The date shown represents the next call date.
- (k) Value is less than \$1.
- (l) Interest rates disclosed represent the effective rates on senior loans. Ranges in interest rates are attributable to multiple contracts under the same loan.
- (m) Senior loans may be considered restricted in that the Fund ordinarily is contractually obligated to receive approval from the agent bank and/or borrower prior to the disposition of a senior loan.

# Aggregate cost for federal income tax purposes is substantially the same.

Abbreviations used in this schedule:

ADR	American Depositary Receipts
AUD	Australian Dollar
DIP	Debtor-in-Possession
EUR	Euro
GBP	British Pound
OJSC	Open Joint Stock Company

This Schedule of Investments is unaudited and is intended to provide information about the Fund's portfolio holdings as of the date of the schedule. Other information regarding the Fund is available in the Fund's most recent annual or semi-annual shareholder report.

**Notes to Schedule of Investments (unaudited)****1. Organization and significant accounting policies**

Western Asset High Income Fund II Inc. (the Fund) was incorporated in Maryland and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund seeks to maximize current income by investing at least 80% of its net assets, plus any borrowings for investment purposes, in high-yield debt securities. As a secondary objective, the Fund seeks capital appreciation to the extent consistent with its objective of seeking to maximize current income.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles (GAAP).

**(a) Investment valuation.** The valuations for fixed income securities (which may include, but are not limited to, corporate, government, municipal, mortgage-backed, collateralized mortgage obligations and asset-backed securities) and certain derivative instruments are typically the prices supplied by independent third party pricing services, which may use market prices or broker/dealer quotations or a variety of valuation techniques and methodologies. The independent third party pricing services use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar securities. Short-term fixed income securities that will mature in 60 days or less are valued at amortized cost, unless it is determined that using this method would not reflect an investment's fair value. Investments in open-end funds are valued at the closing net asset value per share of each fund on the day of valuation. Equity securities for which market quotations are available are valued at the last reported sales price or official closing price on the primary market or exchange on which they trade. When the Fund holds securities or other assets that are denominated in a foreign currency, the Fund will normally use the currency exchange rates as of 4:00 p.m. (Eastern Time). If independent third party pricing services are unable to supply prices for a portfolio investment, or if the prices supplied are deemed by the manager to be unreliable, the market price may be determined by the manager using quotations from one or more broker/dealers or at the transaction price if the security has recently been purchased and no value has yet been obtained from a pricing service or pricing broker. When reliable prices are not readily available, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund values these securities as determined in accordance with procedures approved by the Fund's Board of Directors.

The Board of Directors is responsible for the valuation process and has delegated the supervision of the daily valuation process to the Legg Mason North Atlantic Fund Valuation Committee (the Valuation Committee). The Valuation Committee, pursuant to the policies adopted by the Board of Directors, is responsible for making fair value determinations, evaluating the effectiveness of the Fund's pricing policies, and reporting to the Board of Directors. When determining the reliability of third party pricing information for investments owned by the Fund, the Valuation Committee, among other things, conducts due diligence reviews of pricing vendors, monitors the daily change in prices and reviews transactions among market participants.

The Valuation Committee will consider pricing methodologies it deems relevant and appropriate when making fair value determinations. Examples of possible methodologies include, but are not limited to, multiple of earnings; discount from market of a similar freely traded security; discounted cash-flow analysis; book value or a multiple thereof; risk premium/yield analysis; yield to maturity; and/or fundamental investment analysis. The Valuation Committee will also consider factors it deems relevant and appropriate in light of the facts and circumstances. Examples of possible factors include, but are not limited to, the type of security; the issuer's financial statements; the purchase price of the security; the discount from market value of unrestricted securities of the same class at the time of purchase; analysts' research and observations from financial institutions; information regarding any transactions or offers with respect to the security; the existence of merger proposals or tender offers affecting the security; the price and extent of public trading in similar securities of the issuer or comparable companies; and the existence of a shelf registration for restricted securities.

For each portfolio security that has been fair valued pursuant to the policies adopted by the Board of Directors, the fair value price is compared against the last available and next available market quotations. The Valuation Committee reviews the results of such back testing monthly and fair valuation occurrences are reported to the Board of Directors quarterly.

The Fund uses valuation techniques to measure fair value that are consistent with the market approach and/or income approach, depending on the type of security and the particular circumstance. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable securities. The income approach uses valuation techniques to discount estimated future cash flows to present value.

**Notes to Schedule of Investments (unaudited) (continued)**

GAAP establishes a disclosure hierarchy that categorizes the inputs to valuation techniques used to value assets and liabilities at measurement date. These inputs are summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)  
The inputs or methodologies used to value securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets and liabilities carried at fair value:

DESCRIPTION	ASSETS			TOTAL
	QUOTED PRICES (LEVEL 1)	OTHER SIGNIFICANT OBSERVABLE INPUTS (LEVEL 2)	SIGNIFICANT UNOBSERVABLE INPUTS (LEVEL 3)

## Edgar Filing: WESTERN ASSET HIGH INCOME FUND II INC. - Form N-Q

Net change in unrealized appreciation (depreciation) for investments in securities still held at January 31, 2016<sup>1</sup>

The Fund's policy is to recognize transfers between levels as of the end of the reporting period.

\* Amount represents less than \$1.

<sup>1</sup> Change in unrealized appreciation (depreciation) includes net unrealized appreciation (depreciation) resulting from changes in investment values during the reporting period and the reversal of previously recorded unrealized appreciation (depreciation) when gains or losses are realized.

<sup>2</sup> Transferred into Level 3 as a result of the unavailability of a quoted price in an active market for an identical investment or the unavailability of other significant observable inputs.

<sup>3</sup> Transferred out of Level 3 as a result of the availability of a quoted price in an active market for an identical investment or the availability of other significant observable inputs.

### 2. Investments

At January 31, 2016, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$ 21,892,165
Gross unrealized depreciation	(129,918,171)
Net unrealized depreciation	\$ (108,026,006)

**Notes to Schedule of Investments (unaudited) (continued)**

At January 31, 2016, the Fund had the following open futures contracts:

	Number of Contracts	Expiration Date	Basis Value	Market Value	Unrealized Appreciation (Depreciation)
<b>Contracts to Buy:</b>					
U.S. Treasury Ultra Long-Term Bonds	61	3/16	\$ 9,615,362	\$ 10,137,437	\$ 522,075
<b>Contracts to Sell:</b>					
U.S. Treasury 5-Year Notes	309	3/16	36,661,144	37,287,609	(626,465)
<b>Net unrealized depreciation on open futures contracts</b>					\$ (104,390)

At January 31, 2016, the Fund had the following open forward foreign currency contracts:

Currency Purchased		Currency Sold		Counterparty	Settlement Date	Unrealized Appreciation (Depreciation)
EUR	50,000	USD	53,797	Citibank, N.A.	2/16/16	\$ 386
EUR	45,000	USD	48,881	Citibank, N.A.	2/16/16	(117)
EUR	200,000	USD	220,758	Citibank, N.A.	2/16/16	(4,027)
GBP	25,000	USD	38,082	Citibank, N.A.	2/16/16	(2,459)
GBP	760,000	USD	1,151,381	Citibank, N.A.	2/16/16	(68,440)
USD	4,592,571	EUR	4,214,837	Citibank, N.A.	2/16/16	25,127
USD	1,949,279	GBP	1,287,120	Citibank, N.A.	2/16/16	115,233
EUR	1,550,000	USD	1,673,272	UBS AG	2/16/16	6,399
EUR	1,260,000	USD	1,359,033	UBS AG	2/16/16	6,376
USD	17,296,802	EUR	15,858,834	UBS AG	2/16/16	111,242
USD	7,323,235	GBP	4,761,556	UBS AG	2/16/16	538,389
Total						\$ 728,109

Abbreviations used in this table:
