(Amounts are expressed in billions of Argentine pesos, except where indicated)

1. MAIN MILESTONES AND ECONOMIC MAGNITUDES FOR Q2 2017

Revenues for Q2 2017 were Ps 60.2 billion, 14.0% higher than Q2 2016.

Operating income for Q2 2017 was Ps 3.5 billion, 34.8% lower than Q2 2016.

Net income for Q2 2017 was a gain of Ps 0.3 billion compared to net loss of Ps 0.8 billion recorded for Q2 2016.

Hydrocarbon production for Q2 2017 was 550.1 Kboed, 4.2% lower than Q2 2016. Crude oil production for Q2 2017 was 218.3 Kbbld, 10.1% lower than Q2 2016. Natural gas production for Q2 2017 was 44.6 Mm3d, 0.5% lower than Q2 2016. NGL production for Q2 2017 was 51.4 Kbbld, 3.7% higher than Q2 2016.

Refinery processing levels in the Downstream business segment for Q2 2017 were 92.2%, 2.2% higher than Q2 2016.

Capital expenditures in property, plant and equipment for Q2 2017 were Ps 13.0 billion, 10.1% lower than Ps 14.5 billion in Q2 2016.

Operating cash flow for Q2 2017 was Ps 13.0 billion, 96.3% higher than Q2 2016.

Table of Contents

Consolidated Results Q2 2017

2. ANALYSIS OF RESULTS FOR Q2 2017

Revenues for Q2 2017 were Ps 60.2 billion, 14.0% higher than Q2 2016, due primarily to the following factors:

Gasoline revenues increased Ps 1.9 billion, 17.0% higher than Q2 2016, due to a 7.4% increase in gasoline mix prices and an 8.9% increase in sales volumes, including a 29.9% increase in sales volumes of Infinia gasoline, a premium gasoline product;

Natural gas revenues increased Ps 1.8 billion, 20.1% higher than Q2 2016, due to a 19.1% increase in prices in Argentine peso terms, as a result of an increase in third party sale prices and the effect of the stimulus program for the surplus injection of natural gas on incremental production (Gas Plan), as well as a 0.8% increase in sales volumes;

Retail natural gas revenues (residential and small business and companies) increased Ps 1.6 billion, 93.5% higher than Q2 2016, due to YPF's controlled company Metrogas S.A. (Metrogas), which recorded a 144.5% increase in prices for a total revenue increase of Ps 1.5 billion, 79.3% higher than Q2 2016, which was partially offset by a 26.7% decrease in sales volumes;

Asphalt revenues in the Argentine domestic market increased Ps 0.5 billion, 245.7% higher than Q2 2016, due to a 188.4% increase in sales volumes and a 19.9% increase in prices;

Diesel revenues increased Ps 45 million, 0.2% higher than Q2 2016, due to a 4.5% increase in diesel mix prices, which was partially offset by a 4.1% decrease in sales volumes as a result of lower sales to power generation plants, despite higher sale volumes in the agriculture and transportation markets, and a 23.3% increase in sales volumes of Infinia diesel, a premium diesel product;

Fuel oil revenues in the Argentine domestic market decreased Ps 1.0 billion, 37.7% lower than Q2 2016, due to a 24.7% decrease in sales volumes to power generation plants and a 17.2% decrease in prices; and

Export revenues increased Ps 0.7 billion, 17.0% higher than Q2 2016, due primarily to a 48.0% increase in export revenues of jet fuel as a result of increases in prices in Argentine peso terms, as well as a 45.2%

increase in exports of petrochemical products in sales volumes and prices, a 157.8% increase in exports of liquefied petroleum gas, and exports of virgin naphtha, which did not record export volumes in Q2 2016.

Exports of flour and soybean oil decreased Ps 61 million, 3.5% lower than Q2 2016.

Cost of sales for Q2 2017 was Ps 49.7 billion, 16.0% higher than Q2 2016. This includes a 9.1% increase in production costs and a 32.8% increase in purchases. Cash costs, which include costs of production and purchases but exclude depreciation and amortization, increased by 19.0%. This increase was driven by the following factors:

a) Costs of production:

Lifting costs increased Ps 1.0 billion, 11.1% higher than Q2 2016, reflecting a 15.5% increase in the unit indicator in Argentine peso terms; which was partially offset by decreased production during the period;

Table of Contents

Consolidated Results Q2 2017

Depreciation of property, plant and equipment increased Ps 0.7 billion, 6.6% higher than Q2 2016, due to an increase in the value of assets based on their valuation in U.S. dollars, which is the functional currency of the company, and the commencement of operations at the new Coke unit in the La Plata refinery in Q4 2016;

Transportation costs increased Ps 0.4 billion, 23.6% higher than Q2 2016, due primarily to increases in Argentine domestic transportation rates;

Production costs related to refining increased Ps 0.3 billion, 13.4% higher than Q2 2016, due primarily to increased costs for the consumption of materials, spare parts, electricity and other supplies and fuels, reflecting an 11.0% increase in the unit indicator in Argentine peso terms; and

Royalties increased Ps 79 million, 2.1% higher than Q2 2016. This increase was due to a Ps 218 million increase in royalties for natural gas production as a result of higher wellhead values of these products, partially offset by a Ps 139 million decrease in royalties for crude oil production as a result of lower production and lower wellhead values.

b) Purchases:

Crude oil purchases from third parties increased Ps 1.5 billion, 46.7% higher than Q2 2016, due to a 54.8% increase in volumes purchased driven by lower production during the period, partially offset by a 5.2% decrease in the purchase price in Argentine peso terms, related to the 2017 crude oil pricing structure in the Argentine domestic market agreed upon between producers and refiners;

Biofuel purchases increased Ps 1.1 billion, 33.3% higher than Q2 2016, due to higher FAME and ethanol biofuel prices of 12.7% and 21.5%, respectively, a 26.2% increase in volumes purchased of ethanol biofuel and a 6.0% increase in volumes purchased of FAME;

Natural gas purchases from third parties for resale to the retail market (residential and small business and companies) increased Ps 0.8 billion, 73.6% higher than Q2 2016, due to an 80.5% increase in prices, which was partially offset by a 3.8% decrease in volumes purchased;

Grain purchases in the agricultural sales segment through the form of barter, which were recorded as purchases for accounting purposes, increased Ps 0.4 billion, 22.0% higher than Q2 2016, due primarily to a 27.6% increase in volumes purchased, which was partially offset by a 4.4% decrease in prices; and

Fuel imports increased Ps 0.3 billion, 15.3% higher than Q2 2016, due primarily to higher diesel and jet fuel prices of 28.4% and 27.1%, respectively, which was partially offset by a 22.9% decrease in volumes imported of jet fuel.

Administration expenses for Q2 2017 were Ps 2.0 billion, 9.2% higher than Q2 2016. The increase was due primarily to higher personnel expenses and higher IT costs.

Selling expenses for Q2 2017 were Ps 4.2 billion, 13.8% higher than Q2 2016. This increase was driven primarily by increases in transport expenses, due primarily to higher rates paid for Argentine domestic transport of fuels, increases in personnel costs and taxes on bank debits and credits.

Table of Contents

Consolidated Results Q2 2017

Exploration expenses for Q2 2017 were Ps 0.8 billion, 12.9% higher than Q2 2016.

Other operating results, net, for Q2 2017 was a gain of Ps 22 million, a 98.7% decrease compared to a gain of Ps 1.6 billion for Q2 2016. This decrease was due to a net gain of Ps 1.5 billion from the deconsolidation of Maxus Energy Corporation, Tierra Solutions Inc., Maxus International Energy Company, Maxus (US) Exploration and Gateway Coal Company (collectively, the Maxus Entities) in Q2 2016.

Financial results for Q2 2017 were a gain of Ps 0.9 billion compared to a loss of Ps 4.7 billion in Q2 2016. This change was driven primarily by positive foreign exchange effects on net liabilities in Argentine peso terms of Ps 5.0 billion, due to the greater devaluation of the Argentine peso in Q2 2017 compared to Q2 2016. Higher interest expenses of Ps 28 million were also recorded in Q2 2017 due to increased levels of debt in Q2 2017 compared to Q2 2016, which was offset by lower interest rates for debt in Argentine peso terms. In addition, the fair value of investments in financial assets increased Ps. 0.5 billion.

Income tax for Q2 2017 was Ps 4.2 billion compared to Ps 1.6 billion in Q2 2016. This increase was mainly due to higher deferred tax of Ps 2.7 billion, partially offset by a Ps 16 million decrease in current income tax. The higher deferred tax charge is mainly due to the lower difference generated by the revaluation of the book values in relation to the property, plant and equipment tax values maintained in historical Argentine pesos to be deducted from tax as they are depreciated, taking into account the company's functional currency and the greater devaluation of the Argentine peso recorded in Q2 2017 compared to Q2 2016.

Net income for Q2 2017 was a gain of Ps 0.3 billion, an increase of 136.1% compared to a loss of Ps 0.8 billion in Q2 2016.

Total capital expenditures for property, plant and equipment in Q2 2017 were Ps 13.0 billion, 10.1% lower than Q2 2016.

------	------	-------------	------	-------------	------	-------------	------

Operating income for the Upstream business segment for Q2 2017 was an operating loss of Ps 0.9 billion, compared to an operating income of Ps 1.7 billion for Q2 2016.

Revenues were Ps 26.6 billion for Q2 2017, 4.4% lower than Q2 2016, due primarily to the following factors:

Natural gas revenues from sales to third parties increased Ps 1.8 billion, 20.1% higher than Q2 2016, due to a 19.1% increase in prices in Argentine peso terms and a 0.8% increase in sales volumes. All natural gas produced, net of internal consumption, is allocated to the Gas and Energy segment for sale to third parties at an intersegment price that includes the Gas Plan.

Crude oil revenues decreased Ps 3.1 billion, 16.0% lower than Q2 2016, due to a 4.3% decrease in Argentine peso terms of the transfer price between the business segments, while volumes transferred between business segments and to third parties decreased 10.9% and 64.3%, respectively.

The price obtained in U.S. dollars for crude oil in the Argentine domestic market for Q2 2017 decreased 13.4% to US\$52.50/barrel, due to the 2017 pricing structure agreed to between producers and refiners. The price obtained in U.S. dollars for natural gas was US\$4.91/Mmbtu, 3.8% higher than Q2 2016.

Table of Contents

Consolidated Results Q2 2017

Hydrocarbon production for Q2 2017 was 550.1 Kboed, 4.2% lower than Q2 2016. Crude oil production for Q2 2017 was 218.3 Kbbld, 10.1% lower than Q2 2016, due mainly to heavy rain and snow conditions that affected the province of Chubut, and to a lesser extent the province of Santa Cruz, a labor union dispute during Q2 2017 and, to a lesser extent, the deconsolidation of the Maxus Entities. Natural gas production for Q2 2017 was 44.6 Mm³d, 0.5% lower than Q2 2016. NGL production for Q2 2017 was 51.4 Kbbld, 3.7% higher than Q2 2016.

With respect to development activity, 112 wells were put in production in Q2 2017, including the shale and tight wells mentioned below.

Hydrocarbon production in shale areas, net to YPF for Q2 2017 was 35.3 Kboed, 22.1% higher than Q2 2016, including 16.7 Kbbld of crude oil, 5.7 Kbbld of NGL and 2.8 Mm³d of natural gas. During Q2 2017, 22 wells were put in production targeting the Vaca Muerta formation, for a total of 577 wells, including 8 active drilling rigs and 7 workovers.

With respect to tight gas development, net production in Q2 2017 reached a total of 13.84 Mm³d, of which 87.1% comes from areas operated by YPF. During Q2 2017, 21 new wells were put into production, 8 in Aguada Toledo-Sierra Barrosa, 4 in Rincón del Mangrullo and 9 in Estación Fernandez Oro.

Operating costs (excluding exploration costs) for Q2 2017 were Ps 26.3 billion, 3.8% higher than Q2 2016, mainly due to the following:

Lifting costs increased Ps 1.0 billion, an 11.1% increase, reflecting a 15.5% increase in the unit indicator in Argentine peso terms, partially offset by the decrease in production discussed above;

Depreciation of property, plant and equipment increased Ps 0.3 billion, a 3.5% increase, due to an increase in the value of assets based on their valuation in U.S. dollars, which is the functional currency of the company; and

Royalties increased Ps 79 million, a 2.1% increase, due to an increase in royalties for natural gas production of Ps 218 million as a result of higher wellhead values of these products, partially offset by a decrease in royalties for crude oil production of Ps 139 million as a result of lower production and lower wellhead values.

Exploration expenses for Q2 2017 were Ps 0.8 billion, an increase of 12.9% compared to Ps 0.7 billion for Q2 2016. This change was due primarily to a Ps 69 million increase in negative results from unproductive exploratory wells in Q2 2017 compared to Q2 2016. Total exploration investments increased Ps 52 million, 22.9% higher than Q2 2016.

Unit cash costs in U.S. dollars increased 3.8% to US\$21.30/boe for Q2 2017 from US\$20.50/boe for Q2 2016, including taxes of US\$5.60/boe and US\$5.90/boe, respectively. In turn, the average lifting cost for YPF was US\$12.80/boe, 4.5% higher than US\$12.30/boe for Q2 2016.

CAPEX

Capital expenditures for the Upstream business segment for Q2 2017 were Ps 9.9 billion, 13.2% lower than Q2 2016.

Of these capital expenditures, 71% were invested in drilling and workover activities, 25% in facilities, and the remaining 4% in exploration and other activities in the Upstream business segment.

Table of Contents

Consolidated Results Q2 2017

In the Neuquina basin area, activities for Q2 2017 were focused on the development of the Loma Campana, Aguada Toledo Sierra Barrosa (Lajas), Rincón del Mangrullo, El Orejano, La Amarga Chica, Loma La Lata (Sierras Blancas), Cerro Bandera, EFO, Río Neuquén and Chachahuen blocks. Development activities continued at the Cuyana basin, mainly in the Barrancas, La Ventana, Mesa Verde, Ugarteche, Vizcacheras, Cerro Fortunoso, Desfiladero Bayo, Puesto Molina and La Ribera blocks. In the Golfo San Jorge basin, activity was concentrated in the Manantiales Behr and El Trébol-Escalante blocks, while perforation activity commenced in the Lago Fuego block in the Austral basin.

Exploration activities for Q2 2017 covered the Neuquina, Golfo San Jorge and Cuyana basins. In the Neuquina basin, exploratory activity was in the Salinas del Huitrín, Estación Fernandez Oro, Paso de las Bardas and Agua Salada blocks. In the Golfo San Jorge basin, activity focused on the evaluation of deep targets in the Los Perales block. In the Cuyana basin, exploratory activity was performed in the Zampal Norte block.

Outside of Argentina, an exploratory well was drilled in the San Sebastián block located in the Chilean Austral basin.

During Q2 2017, three (one crude oil and two gas) exploratory wells were completed.

Operating income for the Downstream business segment for Q2 2017 was Ps 3.1 billion, 1.8% higher than Q2 2016, compared to Ps 3.0 billion for Q2 2016.

Revenues were Ps 45.6 billion for Q2 2017, 10.0% higher than Q2 2016, due primarily to the following factors:

Gasoline revenues increased Ps 1.9 billion, 17.0% higher than Q2 2016, due to a 7.4% increase in gasoline mix prices and an 8.9% increase in sales volumes, including a 29.9% increase in sales volumes of Infinia gasoline, a premium gasoline product;

Asphalt revenues in the Argentine domestic market increased Ps 0.5 billion, 245.7% higher than Q2 2016, due to a 188.4% increase in sales volumes and a 19.9% increase in prices;

Diesel revenues increased Ps 45 million, 0.2% higher than Q2 2016, due to a 4.5% increase in diesel mix prices, which was partially offset by a 4.1% decrease in sales volumes as a result of lower sales to power generation plants, despite higher sales volumes in the agriculture and transportation markets, and a 23.3% increase in sales volumes of Infinia diesel, a premium diesel product;

Table of Contents

Consolidated Results Q2 2017

Fuel oil revenues in the Argentine domestic market decreased Ps 1.0 billion, 37.7% lower than Q2 2016, due to a 24.7% decrease in sales volumes to power generation plants and a 17.2% decrease in prices; and

Export revenues increased Ps 0.7 billion, 17.6% higher than Q2 2016, due to a 48.0% increase in export revenues of jet fuel as a result of increases in prices in Argentine peso terms, as well as a 45.2% increase in exports of petrochemical products in sales volumes and prices, a 157.8% increase in exports of liquefied petroleum gas, and exports of virgin naphtha, which did not record export volumes in Q2 2016. Exports of flour and soybean oil decreased Ps 61 million, 3.5% lower than Q2 2016.

Cost of sales and operating expenses for Q2 2017 increased Ps 3.5 billion, or 10.0% compared to Q2 2016, due primarily to the following factors:

Crude oil purchases decreased Ps 1.2 billion, 5.6% lower than Q2 2016, due to a decrease in prices in Argentine peso terms of crude oil purchased of 4.4%, related to the 2017 crude oil pricing structure in the Argentine domestic market agreed upon between producers and refiners, and lower volumes purchased. The volume of crude oil transferred from the Upstream business segment decreased 10.9%, and volumes purchased from third parties increased 54.8%;

Biofuel purchases increased Ps 1.1 billion, 33.3% higher than Q2 2016, due to higher FAME and ethanol biofuel prices of 12.7% and 21.5%, respectively, a 26.2% increase in volumes purchased of ethanol biofuel and a 6.0% increase in volumes purchased of FAME;

Fuel imports increased Ps 0.3 billion, 15.3% higher than Q2 2016, due to higher diesel and jet fuel prices of 28.4% and 27.1%, respectively, which was partially offset by a 22.9% decrease in volumes imported of jet fuel;

Grain purchases in the agricultural sales segment through the form of barter, which were recorded as purchases for accounting purposes, increased Ps 0.4 billion, 22.0% higher than Q2 2016;

Costs of products sold increased Ps 1.5 billion, 76.0% higher than Q2 2016, due to a reduction in the realizable value of inventory compared to Q2 2016;

Production costs related to refining increased Ps 0.3 billion, 13.4% higher than Q2 2016, due primarily to increased costs for consumption of materials, parts, electricity, other supplies and fuel. As a result, taking into account the 2.2% increase in volumes processed, unit refining costs in Q2 2017 were 11.0% higher than Q2 2016. Transportation costs related to production (shipping, oil pipelines, and multiproduct pipelines) increased Ps 0.2 billion, 23.0% higher than Q2 2016; and

Depreciation of property, plant and equipment increased Ps 0.4 billion, 31.0% higher than Q2 2016, resulting from an increase in the value of assets subject to depreciation compared to Q2 2016, taking into account the commencement of operations at the new Coke unit at the La Plata refinery as of Q4 2016 and an increase in asset values, based on their valuation in U.S. dollars, the functional currency of the company.

Selling expenses increased Ps 0.5 billion, 13.9% higher than Q2 2016, due to higher transportation costs related to an increase in Argentine domestic fuel transportation rates, increased advertising and promotional activities and taxes on bank debts and credits.

Table of Contents

Consolidated Results Q2 2017

The volume of crude oil processed in Q2 2017 was 295 Kbbld, 2.2% higher than Q2 2016. These higher processing levels resulted in a 5.3% increase in gasoline production, partially offset by a 2.6% decrease in diesel production and a 31.4% decrease in fuel oil production. In addition, the company increased its production of jet fuel, liquefied petroleum gas and petroleum coal compared to Q2 2016.

CAPEX

Capital expenditures for the Downstream business segment for Q2 2017 were Ps 1.9 billion, a 19.2% decrease compared to Q2 2016.

Improvements to the Topping III unit in the Luján de Cuyo refinery continued, and it is expected to commence operations in the second half of 2017. Work to improve YPF's logistical facilities and optimize safety and environmental performance also continued.

In its 2016 annual Financial Statements, YPF began to report its Gas and Energy business segment, which includes activities related to transportation, distribution and the sale of natural gas to third parties, regasification services for liquefied natural gas (LNG) and electricity generation.

Since 2017, the Gas and Energy Executive Vice-presidency of the company assumed all responsibility for the administration and management of collections related to the Gas Plan. As a result, the Gas and Energy segment began to record revenues derived from the Gas Plan within the segment, to later be transferred to the Upstream segment as an intersegment operation.

Operating income for this business segment in Q2 2017 was Ps 1.0 billion, compared to Ps 0.4 billion in Q2 2016. This increase was due primarily to improved results of regasification services for LNG in Bahía Blanca and Escobar in Argentine peso terms and to the incremental tariff restructuring by YPF's controlled company Metrogas, which recorded an operating income of Ps 0.6 billion in Q2 2017, compared to Ps 0.2 billion in Q2 2016. YPF also recorded improved operating results of Ps 0.1 billion, 89.0% higher than Q2 2016, from its controlled company YPF Energía Eléctrica S.A.

CAPEX

Capital expenditures for the Gas and Energy business segment for Q2 2017 were Ps 1.0 billion, 161.1% higher than Q2 2016.

In Q2 2017, construction work on the new thermoelectric plants Loma Campana I and Este, located in the basin of the same name, and the new thermoelectric plants, Y-GEN and Y-GEN II, in Loma Campana in the province of Neuquén and El Bracho in the province of Tucumán continued. Progress was also made on the Manantiales Behr wind farm in Comodoro Rivadavia. The Y-GEN and YGEN II projects are the result of a joint venture with General Electric.

It is expected that Loma Campana I, Loma Campana Este and Y-GEN will commence operations in the second half of 2017, and Y-GEN II will commence operations in the first half of 2018. The wind farm will gradually commence operations through the first half of 2018.

Consolidated Results Q2 2017

3.4 CENTRAL ADMINISTRATION AND OTHER

This business segment mainly involves corporate costs and other activities that are not reported in any of the previously-mentioned business segments.

Corporate operating income for Q2 2017 was a loss of Ps 0.5 billion, compared to Ps 0.6 billion in Q2 2016. This change was due primarily to the net gain of Ps 1.5 billion from the deconsolidation of the Maxus Entities in Q2 2016. The remaining change was driven primarily by higher personnel expenses and higher IT costs, partially offset by decreases in contingencies for legal proceedings and higher results obtained by YPF's controlled company, A-Evangelista S.A.

Consolidation adjustments to eliminate results among business segments not transferred to third parties were Ps 0.8 billion for Q2 2017. These adjustments were negative Ps 0.4 billion in Q2 2016. In Q2 2017, there was a decrease in the difference between transfer prices between businesses and the replacement cost of the company's inventory, as compared to an increase in such difference in Q2 2016.

3.5 RELATED COMPANIES

Results from related companies for Q2 2017 were a gain of Ps 0.1 billion, compared to a gain of Ps 0.2 billion for Q2 2016. This decrease was due primarily to lower results obtained by Profertil, Compañía Mega and Refinor.

4. LIQUIDITY AND SOURCES OF CAPITAL

In Q2 2017, net cash flows provided by operating activities were Ps 13.0 billion, 96.3% higher than Q2 2016. This increase of Ps 6.4 billion was due to an increase in working capital in Q2 2017 and a Ps 0.6 billion lower income tax payment, which was partially offset by a Ps 1.0 billion decrease in adjusted EBITDA. Among the principal reasons for the increase in working capital was the collection of accounts receivable owed to the company, including among others, accounts receivables derived from the stimulus program for the surplus injection of natural gas during Q2 2017 compared to Q2 2016 when no collections were received from this program.

Net cash flows used in investing activities were Ps 12.7 billion for Q2 2017, 11.9% lower than Q2 2016. Investments in fixed and intangible assets were Ps 13.1 billion in Q2 2017, 14.3% lower than Q2 2016.

For Q2 2017, the company's net cash flows provided by financing activities were Ps 1.3 billion as compared to net cash flows used in financing activities of Ps 2.3 billion in Q2 2016. This change reflects a net increase of Ps 3.5 billion in debt issuance and refinancing of maturing debt and a decrease of Ps 0.2 billion in interest payments for Q2 2017 compared to Q2 2016.

Cash and cash equivalents, together with the company's investment in Argentine sovereign bonds, including those received to cancel the accounts receivables of the Gas Plan program for the year 2015, which are still kept in the portfolio, were Ps 29.2 billion as of June 30, 2017. This cash position increased at the beginning of July with the new international issuance of U.S.\$750 million in debt securities.

At the end of Q2 2017, total debt in U.S. dollars was US\$9.7 billion, net debt was US\$7.9 billion(1) and the net debt/adjusted EBITDA LTM ratio was 1.98x(2).

The average interest rate for debt denominated in Argentine pesos at the end of Q2 2017 was 22.24%, while the average interest rate for debt denominated in U.S. dollars was 7.83%.

Consolidated Results Q2 2017

This document contains statements that YPF believes constitute forward-looking statements within the meaning of the US Private Securities Litigation Reform Act of 1995.

These forward-looking statements may include statements regarding the intent, belief, plans, current expectations or objectives as of the date hereof of YPF and its management, including statements with respect to trends affecting YPF's future financial condition, financial, operating, reserve replacement and other ratios, results of operations, business strategy, geographic concentration, business concentration, production and marketed volumes and reserves, as well as YPF's plans, expectations or objectives with respect to future capital expenditures, investments, expansion and other projects, exploration activities, ownership interests, divestments, cost savings and dividend payout policies. These forward-looking statements may also include assumptions regarding future economic and other conditions, such as the future price of petroleum and petroleum products, refining and marketing margins and exchange rates. These statements are not guarantees of future performance, prices, margins, exchange rates or other events and are subject to material risks, uncertainties, changes in circumstances and other factors that may be beyond YPF's control or may be difficult to predict.

YPF's actual future financial condition, financial, operating, reserve replacement and other ratios, results of operations, business strategy, geographic concentration, business concentration, production and marketed volumes, reserves, capital expenditures, investments, expansion and other projects, exploration activities, ownership interests, divestments, cost savings and dividend payout policies, as well as actual future economic and other conditions, such as the future price of petroleum and petroleum products, refining margins and exchange rates, could differ materially from those expressed or implied in any such forward-looking statements. Important factors that could cause such differences include, but are not limited to fluctuations in the price of petroleum and petroleum products, supply and demand levels, currency fluctuations, exploration, drilling and production results, changes in reserves estimates, success in partnering with third parties, loss of market share, industry competition, environmental risks, physical risks, the risks of doing business in developing countries, legislative, tax, legal and regulatory developments, economic and financial market conditions in various countries and regions, political risks, wars and acts of terrorism, natural disasters, project delays or advancements and lack of approvals, as well as those factors described in the filings made by YPF and its affiliates before the Comisión Nacional de Valores in Argentina and with the U.S. Securities and Exchange Commission, in particular, those described in Item 3. Key Information Risk Factors and Item 5. Operating and Financial Review and Prospects in YPF's Annual Report on Form 20-F for the fiscal year ended December 31, 2016 filed with the Securities and Exchange Commission. In light of the foregoing, the forward-looking statements included in this document may not occur.

Except as required by law, YPF does not undertake to publicly update or revise these forward-looking statements even if experience or future changes make it clear that the projected performance, conditions or events expressed or implied therein will not be realized.

These materials do not constitute an offer for sale of YPF S.A. bonds, shares or ADRs in the United States or elsewhere.

The information contained herein has been prepared to assist interested parties in making their own evaluations of YPF.
