Executive summary

---

**Initial considerations**

- This appraisal report ( Report or Valuation Report ) was prepared by Deutsche Bank as requested by Ultrapar
  - The Report observes the requirements imposed by Brazilian Securities Regulation, in particular Rule #361/02 of the Brazilian Securities Commission ( CVM ). Ultrapar requested this Report to be used in connection with (i) the mandatory tender offers related to the acquisition by Ultrapar of the control of Ipiranga Group, and (ii) the incorporation of CBPI, DPPI and RIPI shares in Ultrapar
  - The ranges for the respective valuations of Ultrapar, CBPI, DPPI and RIPI are limited to 10% due to a requirement imposed by Rule #361/02 of the CVM
-

**Scope of Deutsche Bank's analysis**

The objective of this Valuation Report is to present economic valuations of both Ultrapar and Ipiranga Group in accordance with the criteria defined as mandatory by the CVM

Under the CVM Rule #361/02, Deutsche Bank has conducted an analysis using the following methodologies and assumptions:

- **Economic value** based on discounted cash flow ( DCF ) analysis for the main operating companies and comparable multiples for some smaller operating subsidiaries  
Based on publicly available information and discussions with management of Ultrapar and Ipiranga
- **Market value** based on average share prices weighted by traded volume  
Average share price weighted by traded volume during the last twelve months ended March 16, 2007 (last trading day pre-announcement)
- **Book value** of the shares  
Based on Ultrapar and Ipiranga's audited financial statements as of December 31,2006

Among the different valuation methodologies presented in this Valuation Report, Deutsche Bank believes the economic value based on DCF and comparable multiples is the most applicable methodology for valuing Ultrapar and Ipiranga

**Economic value methodologies for different business lines**

### FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
