Mexico City (April 27, 2011), Coca-Cola FEMSA, S.A.B. de C.V. (BMV: KOFL, NYSE: KOF) (“Coca-Cola FEMSA” or the “Company”), the largest public Coca-Cola bottler in the world in terms of sales volume, announces results for the first quarter of 2011.

“Leveraging the broad array of beverages we provide to our consumers and supported by solid volume growth in our Mexico and Mercosur divisions, we generated strong top- and bottom-line growth for the quarter. Consistent with our commitment to offer our consumers more and better beverage alternatives, at the end of March, 2011, together with The Coca-Cola Company, we successfully closed the acquisition of Grupo Industrias Lacteas in Panama. We believe this significant acquisition in the dairy and juice-based beverage categories represents an important step in our growth strategy. Importantly, we are proud to welcome a talented team of professionals to our organization, who will help us to capitalize on our learning capabilities, leverage our mutual strengths, and reinforce our strategic partnerships with customers and suppliers. Our solid track record of growth and our strong financial position—which we have built over the past several years—enable us to significantly increase the dividend payment to our shareholders, as exemplified by the Ps. \$4.4 billion dividend we distributed as of April 27, 2011. Our clear focus on the precise execution of our strategic framework for growth guides our actions now and into the future, enabling us to stay ahead of the curve and to create value for our shareholders,” said Carlos Salazar Lomelin, Chief Executive Officer of the Company.

CONSOLIDATED RESULTS

Our consolidated total revenues increased 9.5% to Ps. 25,826 million in the first quarter of 2011, compared to the first quarter of 2010 mainly as a result of double-digit total revenue growth in our Mercosur and Mexico divisions. On a currency neutral basis, total revenues grew approximately 11%, mainly driven by average price per unit case growth across our territories, in combination with volume growth in our Mexico and Mercosur divisions.

Total sales volume increased 2.6% to reach 604.8 million unit cases in the first quarter of 2011 as compared to the same period in 2010. The sparkling beverage category grew 2% mainly supported by double-digit volume growth of the *Coca-Cola* brand in Mexico and Argentina, contributing more than 65% of incremental volumes. The still beverage category grew 10%, mainly driven by the Jugos del Valle line of business in Mexico and Brazil and the introduction of line extensions of the *Matte Leao* portfolio in Brazil, representing approximately 20% of the incremental volumes. The bottled water category grew 2% contributing the balance.

Our gross profit increased 9.8% to Ps. 11,766 million in the first quarter of 2011, compared to the first quarter of 2010. Cost of goods sold increased 9.2%, mainly as a result of higher PET and sweetener costs across our territories, which were partially offset by the appreciation of the Brazilian real,⁽¹⁾ the Mexican peso⁽¹⁾ and the Colombian peso⁽¹⁾ as applied to our U.S. dollar-denominated raw material costs. Gross margin reached 45.6%, an expansion of 20 basis points as compared to the first quarter of 2010.

Our consolidated operating income increased 10.4% to Ps. 3,883 million in the first quarter of 2011, driven by double-digit operating income growth in our Mexico and Mercosur divisions. Operating expenses increased 9.5% in the first quarter of 2011 mainly as a result of higher labor costs in Venezuela and higher labor and freight costs in Argentina, which were partially compensated by lower operating expenses in Colombia and Central America. Our operating margin was 15.0% in the first quarter of 2011, an expansion of 10 basis points compared to the same period in 2010.

During the first quarter of 2011, we recorded Ps. 235 million in the other expenses, net line. These expenses mainly reflect the recording of employee profit sharing.

Our comprehensive financing result in the first quarter of 2011 recorded an expense of Ps. 152 million as compared to an expense of Ps. 179 million in the same period of 2010.

During the first quarter of 2011, income tax, as a percentage of income before taxes, was 32.6% compared to 29.9% in the same period of 2010. This difference was mainly driven by (i) the recording of a tax incentive during 2010 and (ii) an increase in the tax on shareholder's equity in the first quarter of 2011, both in one of our Latincentro subsidiaries.

Our consolidated net controlling interest income grew 6.0% reaching Ps. 2,237 million in the first quarter of 2011 as compared to the first quarter of 2010. Earnings per share (EPS) in the first quarter of 2011 were Ps. 1.21 (Ps. 12.11 per ADS) computed on the basis of 1,846.5 million shares outstanding (each ADS represents 10 local shares).

Still beverages grew 14% mainly driven by the Jugos del Valle line of products and contributed the balance.

Operating Income

Our gross profit increased 13.4% to Ps. 4,542 million in the first quarter of 2011 as compared to the same period in 2010. LATINCENTRO DIVISION OPERATING RESULTS (Colombia, Venezuela, Guatemala, Nicaragua, Costa Rica and Panama)

Revenues

Total revenues were Ps. 6,989 million in the first quarter of 2011, a decrease of 5.3% as compared to the same period of 2010 as a result of volume declines across the division. Higher average prices per unit case in the division were offset by lower volumes, mainly due to the strike in our Valencia production and distribution facilities in Venezuela during the quarter.

Total sales volume in our Latincentro division decreased 14.2% to 131.5 million unit cases in the first quarter of 2011 as compared to the same period of 2010. Our sparkling beverage portfolio declined 14%, while the bottled water and still beverage categories declined 19% and 11%, respectively. Volumes in Venezuela declined 29%, mainly due to the Valencia strike during the quarter. Volumes in Colombia declined 8% mainly as a result of continued bad weather conditions, and volumes in Central America declined approximately 2%.

Operating Income

Gross profit reached Ps. 3,304 million, a decrease of 2.3% in the first quarter of 2011, as compared to the same period of 2010.

Cost of goods sold decreased 7.9%. Operating leverage achieved by higher average prices per unit case in local currency resulted in a gross margin expansion of 150 basis points to 47.3% in the first quarter of 2011.

Our operating income decreased 8.7% to Ps. 1,123 million in the first quarter of 2011, compared to the first quarter of 2010. Our operating margin was 16.1% in the first quarter of 2011, as compared to 16.7% in the same period of 2010.
