Quarterly Information (ITR) at

March 31, 2013

and Report on the Review

of the Quarterly Information

Report on Review of Quarterly Information

To the Board of Directors and Shareholders

Braskem S.A.

Introduction

We have reviewed the accompanying parent company and consolidated interim accounting information of Braskem S.A., included in the Quarterly Information Form (ITR) for the quarter ended March 31, 2013, comprising the balance sheet as at that date and the statements of operations, comprehensive income, changes in equity and cash flows for the quarter then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21 - Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with CPC 21 and International Accounting Standard (IAS) 34 - Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim accounting information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for

financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the parent

company interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Conclusion on the consolidated interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Other matters

Statements of value added

We have also reviewed the parent company and consolidated statements of value added for the quarter ended March 31, 2013. These statements are the responsibility of the Company's management, and are required to be presented in accordance with standards issued by the CVM applicable to the preparation of Quarterly Information (ITR) and are considered supplementary information under IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they have not been prepared, in all material respects, in a manner consistent with the parent company and consolidated interim accounting information taken as a whole.

1. Operations

Braskem S.A. (hereinafter “Parent Company”) is a public corporation headquartered in Camaçari, Bahia, which jointly with its subsidiaries (hereinafter “Braskem” or “Company”), operates 36 industrial units, 29 in Brazil, 5 in the United States and 2 in Germany.

Braskem S.A. is controlled by Odebrecht S.A. (“Odebrecht”), which indirectly holds interests of 50.11% and 38.11% in its voting and total capital, respectively.

(a) Material operating events

(a.1) On August 17, 2012, the Company inaugurated, in Marechal Deodoro, Alagoas, a new plant with annual production capacity of 200 kton (unaudited) of polyvinyl chloride (“PVC”). With the plant’s opening, Braskem’s annual PVC production capacity increased to 710 kton (unaudited).

(a.2) On September 13, 2012, the Company inaugurated, in the Triunfo Petrochemical Complex in the state of Rio Grande do Sul, a new plant with annual production capacity of 103 kton (unaudited) of butadiene. The new plant is already operating at full production capacity.

(a.3) In the last quarter of 2012, the Management decided to divest the ownership interest held in Cetrel and Braskem Distribuidora. The Parent Company held 54.2% of the total and voting capital of Cetrel and 100% of the capital of Braskem Distribuidora, which were sold on December 28, 2012 for R\$208,100 and R\$444,000, respectively.

(b) Net working capital

On March 31, 2013, net working capital at the Parent Company and Consolidated were negative R\$1,119,853 and R\$337,479, respectively. The consolidated figures are used in the management of working capital, since the Company uses mechanisms to transfer funds between the companies efficiently without jeopardizing the fulfillment of the commitments of each of the entities forming the consolidated statements. For this reason, any analysis of the Parent Company's working capital will not reflect the actual liquidity position of the consolidated group. Although the consolidated net working capital is negative, the Company does not have any issue regarding liquidity, since this condition is only temporary, for the following reason. Braskem S.A. and the Idesa Group are temporarily financing the installation of the Ethylene XXI Project in Mexico of the subsidiary Braskem Idesa. The funds required are loaned by the shareholders proportionally to their interest in the capital of Braskem Idesa. As of March 31, 2013, a total of R\$1,689 million had been loaned, of which R\$1,265 million by Braskem and R\$424 million by the Idesa Group. These loans will be repaid upon the release of funds under the Project Finance structure. The contracts related to such loans were executed in December 2012 and the first disbursement is expected to take place in the coming months. The amount owed to the Idesa Group is recorded in "other accounts payable" under current liabilities in the consolidated financial statements (Note 22).

Additionally, Braskem has three revolving credit lines in the amounts of: (i) US\$350 million that may be used without restrictions for a period of four years as from November 2012; and (ii) US\$250 million that may be used without restrictions for a period of five years as from August 2011; and (iii) R\$450 million for a period of three years as from December 2012. These credit facilities enable Braskem to reduce the amount of cash it holds. Up to March 31, 2013, Braskem had not drawn credit from these lines.

(c) Effect of foreign exchange variation

The Company has balances and transactions in U.S. dollar, as well as financial investments, trade accounts receivable, trade payables, borrowings and sales. The balances of assets and liabilities are translated based on the exchange rate at the end of each period, while transactions are based on the effective exchange rate on the date each operation occurs. These rates are informed by the Central Bank of Brazil.

The following table shows the U.S. dollar average and end-of-period exchange rates for the periods in this report:

U.S. dollar, end of period

March 2013	R\$ 2.0138
December 2012	R\$ 2.0435
Appreciation of the Brazilian real in relation to the U.S. dollar	1.45%

2. Summary of significant accounting policies

2.1. Basis of preparation

This Quarterly Information should be read together with the financial statements of Braskem S.A. as of December 31, 2012 and for the year then ended, which were prepared and presented in accordance with accounting practices adopted in Brazil, including the pronouncements issued by the Brazilian Accounting Pronouncements Committee (CPC), and in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

The preparation of the quarterly information requires the use of certain critical accounting estimates. It also requires the Management of the Company to exercise its judgment in the process of applying its accounting policies. There were no changes in the assumptions and judgments made by the Company's management in the use of estimates for the preparation of the Quarterly Information in relation to those used in the December 31, 2012 financial statements.

The statement of operations and segment information (Note 31) for the first quarter of 2012 were restated to reflect the divestments of Cetrel S.A. ("Cetrel") and of Distribuidora de Água Camaçari S.A. ("Braskem Distribuidora"), as well as the decision to divest IQ Soluções & Química S.A. ("Quantiq") and IQAG Armazéns Gerais Ltda. ("IQAG") (Note 3). The balance sheet and the statement of changes in equity of December 31, 2012 have been revised in order to reflect the retrospective effects of the adoption of new standards CPC 33 (R1) (IAS 19), as described in Note 21.

(a) Consolidated quarterly information

The consolidated Quarterly Information was prepared and is being presented in accordance with the pronouncements CPC 21 (R1) and IAS 34 - Interim Financial Reporting, which establish the minimum content for interim financial statements.

(b) Parent company quarterly information

The parent company Quarterly Information was prepared and is being presented in accordance with pronouncement CPC 21.

2.2. Accounting policies

There were no changes in the accounting practices used in the preparation of the Quarterly Information in relation to those presented in the December 31, 2012 financial statements, except for the method for recognizing the cost components of defined benefit plans (Note 2.2.1). The accounting practice adopted complies with IAS 19 and CPC 33 (R1).

2.2.1 Defined benefit plans

The defined benefit plans are financed by contributions to pension funds and the use of actuarial assumptions is necessary to measure the liability and the expenses of the plans, as well as the existence of actuarial gains and losses.

The liability recognized in respect of these plans is the present value of the defined benefit obligation at the balance sheet date, less the fair value of plan assets, adjusted by actuarial gains or losses and past-service costs.

The cost components of defined-benefit plans are recognized as follows:

- (i) actuarial gains and losses from the actuarial remeasurement are recognized under “other comprehensive income”.
- (ii) immediate recognition of the costs of past services in the profit or loss as they are incurred; and
- (iii) the net amount of interest on the assets and liabilities of the plan are recorded in the financial results of the period.

Until 2013, it was possible not to recognize item (i) above if the amount was lower than 10% (a) of the amount of the current defined benefit obligation; and (b) of the fair value of any plan assets. As of 2013, the amount must be recognized at the moment it is determined. The effects of this change in accounting standard are described in Note 21.

2.3. Consolidated quarterly information

The consolidated quarterly information includes the quarterly information of the Parent Company and companies in which it, directly or indirectly, maintains a controlling equity interest or controls the activities, as presented below:

3. Held-for-sale assets and discontinued operations**Quantiq and IQAG**

These investments are in the process of sale and the Management of the Company estimates that the negotiations will be concluded in 2013.

The operating profits or losses of Quantiq and IQAG were presented in the segment information as operating segment “Chemical distribution” (Note 31). The operating profits or losses of this segment in the first quarter of 2012 were R\$6,262.

The profits and losses of Quantiq and IQAG in 2012 are presented under “profit or loss from discontinued operations” in the consolidated statement of operations, and further detailed in item(c) of this Note. The assets and liabilities of these companies on December 31, 2012 are presented under “held-for-sale assets” and “held-for-sale liabilities”, respectively. These amounts should be assessed at the lowest between the book value as of December 31, 2012 and fair value, until

the sale or eventual withdrawal from the transaction.

Profit or loss from discontinued operations is recognized after eliminating the revenues and expenses arising from any commercial and financial operations carried out among the companies.

The statements of cash flow and of value added include the results from discontinued operations.

In the period ended March 31, 2013, the Company recognized credits in the amount of R\$52,448 (Note 28) and offset the amount of R\$16,262.

Braskem S.A.

Notes to the financial statements

at March 31, 2013

All amounts in thousands of reais unless otherwise stated

(b) Value added tax (“VAT”)

On March 31, 2013, this line included:

(i) R\$34,122 from sales by Braskem Alemanha to other countries. These credits are refunded in cash by the local government; and

(ii) R\$142,938 from purchases of machinery and equipment for the Ethylene XXI Project. These credits may be refunded, in cash, by the local government or offset with VAT due from the start of operations of the project.

10. Insurance claims

The information related to insurance claims was presented in the 2012 annual financial statements, in Note 14.

The main change in non-current assets is due to the expenses in the amount of R\$42,033 to repair the damages caused by the power blackout in the Northeast region of Brazil in October 2012.

11. Other accounts receivable - consolidated

The information related to other accounts receivable was presented in the 2012 annual financial statements, in Note 15.

(a) Current assets

The main change in current assets is due to the receipt of R\$163,000 from the divestment, in December 2012, of the interest previously held by the Parent Company at Braskem Distribuidora.
