RELEASE

1Q16

**FOR IMMEDIATE RELEASE** - São Paulo, May 5, 2016 – Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), one of Brazil’s leading homebuilders, today reported financial results for the first quarter ended March 31, 2016.

## **GAFISA RELEASES 1Q16 RESULTS**

### **MANAGEMENT COMMENTS AND HIGHLIGHTS**

The first quarter of 2016 was characterized by continued economic deterioration and political uncertainty in Brazil. These market conditions came as a result of high interest rates and rising inflation and unemployment rates, which in turn, pressured the Brazilian real estate market. The Gafisa Group, due to its diversification in both the medium-high income and the low income segments, have been fairly resilient in this challenging period.

The Gafisa and Tenda segments each faced substantially different operating environments throughout the first quarter. The Gafisa segment was significantly impacted by the poor macroeconomic environment. It sought to maintain a conservative launch strategy, while also focusing on operational and project-level improvements. The Tenda segment, conversely, benefited from greater resilience in the low-income market, and was able to consistently expand the scale of its business model.

In 1Q16, the Gafisa segment recorded a reduction in the volume of launches from the previous quarter and also faced an increased level of dissolutions, which impacted the results of the period. The segment launched one project in the first quarter in São Paulo, representing

R\$80.1 million in PSV, with sales starting in the last week of March.

The Gafisa segment's operating performance reflected impacts from both a difficult macroeconomic environment and political instability. This was particularly notable in January and February. Gross pre-sales totaled R\$237.1 million in the first quarter, with dissolutions reaching R\$170.3 million, resulting in net pre-sales of R\$66.8 million. The result was down 72.7% compared to the previous quarter, and decreased 62.8% compared to 1Q15.

RELEASE

1Q16

As a result of the market difficulties, Gafisa segment's SoS was 3.3% in 1Q16, compared to 10.8% in the previous quarter and 8.0% in 1Q15. Gafisa segment's SoS in the last twelve months reached 28.9%, compared to 27.9% in the same period last year. The volume of dissolutions in the Gafisa segment was higher than the last 12 month average, and a key driver of quarterly results. The increase came as a result of a high level of project deliveries in 4Q15, which accounted for R\$1.0 billion in PSV, approximately 43.3% of total delivered PSV last year.

One of the main operating guidelines which the Company has emphasized since the start of 2015 is its focus on the sale of inventory units. As a result, 87.8% of net sales during the 1Q16 were related to inventory. However, given the higher volume of dissolutions related to projects launched before 2015, net sales of 2015 launches inventory represented 82.0% of total net sales of remaining units, mainly reflected in Gafisa segment's capacity of generating revenues.

We ended 1Q16 with 24 projects under construction, all on schedule and within the delivery timeframe, reflecting our commitment to clients. In 1Q16, we delivered 2 projects accounting for 191 units, and representing R\$104.8 million in PSV. The transfer volume reached R\$110.0 million, showing our good level of operational controls and efficiency, which despite the current credit restrictions, still manages to partner with banks in the transfer process.

We expect the current market conditions to continue in the coming months, considering consumer confidence levels, decreases in household income and limited financing availability. It appears that the

Compared to 1Q15, the Tenda segment recorded launches of R\$228.5 million 1Q16, comprised of 9 new projects/phases in the states of São Paulo, Rio Grande do Sul, Minas Gerais, Bahia and Pernambuco. Launches represented 8.2% of the Tenda segment's total sales in the period, and the quarter's SoS reached 23.9%, up from the 23.3% recorded in 1Q15.

1Q16 gross sales reached R\$312.7 million and dissolutions remained at a moderate R\$46.2 million, resulting in net pre-sales of R\$266.5 million, an increase of 12.2% sequentially and 9.4% higher year on year.

In 1Q16, the volume of dissolutions decreased by 17.9% year on year, and increased 15.9% sequentially, in line with a higher gross sales volume. Percentage of dissolutions over gross sales reached 14.8%.

Since 2013, when the new model operations started, Tenda has launched 60 projects, representing a total of R\$2.2 billion in PSV. Of this total, Tenda has delivered R\$845.1 million, comprised of 22 projects/phases. Notably, all projects related to the first year of new model operations (2013) have been completed and delivered within the agreed time. In relation to the 2014 projects, only 3 of the 14 projects launched that year are still waiting delivery and are scheduled to be delivered within the next months. In 1Q16, the Tenda segment delivered 3 projects/phases corresponding to 464 units, and representing R\$61.7 million in PSV.

In the coming quarters, Tenda will continue to focus on increasing its scale by growing launches and implementing strategies designed to ensure a strong

country will take some time to exit the current downturn, which ultimately delays our expectation for a recovery in the real estate market. In light of this, we may see a more restrictive liquidity environment, which may impact pricing levels, margins and sales volumes. We maintain a conservative approach moving into the rest of 2016 in regards to the placement of new products in the market. We are prioritizing those projects with more liquidity, in order to reach adequate sales and profitability levels.

Tenda's 1Q16 results reflect a more comfortable scenario in the low-income market, with relevant launches and decreasing dissolutions, specially due to the transfer policy, which occurs immediately after the sale, as well as from the reduction in its legacy portfolio. The Tenda segment continues to concentrate on increasing the scale of its new business model. The consolidation of Tenda's new model is based on four strategic pillars – aluminum mold, contracted launches, sales in own stores, and the transfer of sales to financial institutions. Another competitive advantage of the Tenda segment is its concentration in the six main metropolitan areas of the country - São Paulo, Rio de Janeiro, Belo Horizonte, Porto Alegre, Salvador and Recife. These factors enabled Tenda to achieve excellent operating and financial results, with resumption of net income, which reached R\$4.8 million in 1Q16.

1Q16

On a consolidated basis, launches totaled R\$308.6 million in 1Q16, a decrease of 1.6% year over year and of 54.8% quarter over quarter. The Gafisa segment accounted for 26% of 1Q16 launches, while Tenda accounted for the remaining 74%. First quarter 2016 net pre-sales totaled R\$333.3 million, a decrease of 21.3% year over year and a 30.9% sequential reduction. In the quarter, sales from launches represented 9.0% of total sales, while the sale of inventory units represented 91.0%. The Gafisa segment accounted for 20% of net pre-sales while the Tenda segment represented 80%. 1Q16 consolidated adjusted gross profit was R\$110.2 million, at a margin of 27.2%.

In the current economic environment, the Company's focus on greater stability in its cost and expense structure is paramount. Selling and administrative expenses were R\$81.0 million in 1Q16, 14.2% lower compared to 4Q15, confirming the Company's efforts to respond to changes and movements in real estate market conditions, thus providing a cost structure more adequate to the current environment.

As a result of all this factors, Gafisa reported a consolidated net loss of R\$53.2 million in 1Q16, compared to the R\$31.6 million profit recorded in the previous year period.

At the end of the year, the Net Debt/Shareholders Equity ratio reached 46.5%, the lowest level since 3Q14. Excluding project finance, the Net Debt/Shareholder Equity ratio was negative 14.6%.

One of the positive highlights in the quarter was the consolidated operating cash generation, which reached R\$94.3 million, ending the quarter with net cash generation of R\$28.3 million.

Our positive cash flow performance and the maintenance of a low level of leverage reinforces the Company's conservative approach to capital discipline, which remains a priority during this period of macroeconomic uncertainty in Brazil.

We will maintain this conservative approach throughout the year, seeking to balance the placement of new products on the market, prioritizing those projects with more liquidity in order to reach adequate sales and profitability levels. The Gafisa segment, through its consistent and balanced performance, is focused on improving the return on invested capital. The Tenda segment is ready to expand the volume of new projects, backed by the positive results achieved from the new model and the resilience of the low-income market. The Company continues to advance guided by capital discipline, its profitability goals, and value creation for shareholders.

3) Backlog results net of PIS/COFINS taxes (3.65%), and excluding the impact of PVA (Present Value Adjustment) method according to Law 11.638.

The 1Q16 results were marked by a lower volume of net sales, resulting from the high volume of dissolutions related to uncertainty in the political and economic environment. Despite the higher share of projects launched before 2015 in the gross sales mix (74.7% of gross sales), the high volume of dissolutions in these projects (97.8% of dissolutions in the quarter) resulted in a concentration in net sales of inventory from more recent projects. Thus, revenues in the quarter were impacted not only by the lower volume of net sales, but also by the concentration of net sales in projects with slower evolution of work progress. These factors impacted the segment's profitability in the first quarter.

Gross margin in 1Q16 was mainly impacted by the following factors:

(i) R\$25.3 million net effect, due to the volume of dissolutions higher than average, mainly those related to corporate projects - 25.2% of total dissolved PSV during the period. Commercial units have a direct financing model, whose balance is adjusted only after the delivery (IGMP + 12.0% p.y. interest). Due to this adjustment, the reversed revenue is higher, generating a stronger impact when cost and revenue are reversed;

(ii) R\$6,6 million, related to the increase in provisions for doubtful accounts and dissolutions for customers who present significant evidence regarding the risk of dissolution of their contracts;

EARNINGS

RELEASE

1Q16

(iii) R\$6,9 million, related to other effects, such as a difference in the pricing seen in the resale of dissolved units, especially in the case of corporate projects, in order to reach the liquidity needed in the current market conditions.

Thus, the Gafisa segment ended the 1Q16 with gross margin of 2.0%; excluding the abovementioned effects, the gross margin of the Gafisa segment would have reached 20.0%, more adherent to the 23.9% margin recorded in 4Q15. In turn, adjusted gross margin was 21.0% in 1Q16, or 35.5% excluding the effects above.

In this quarter, we highlight the efforts of the Gafisa segment in maintaining a level of SG&A expenses more aligned to the current level of our business cycle and the challenges and outlook for the Gafisa segment market, with a slight increase in the annual comparison even considering a 9.4% inflation (IPCA) measured in the period.

## Net Income

Net income for the period was a loss of R\$58.0 million compared to a profit of R\$13.8 million in 4Q15 and of R\$20.2 million in the 1Q15. As we previously stated, this was due to the higher volume of dissolutions in the period, mainly related to projects launched before 2015, reflecting on the volume and on the mix of net sales in the period, with a consequent effect in revenue and profitability levels of the quarter. Excluding the R\$10.9 million in equity income from Alphaville, the Gafisa segment had a net loss in 1Q16 of R\$68.9 million, compared to the loss of R\$12.9 million recorded in 4Q15 and a R\$3.2 million profit in 1Q15.

The Tenda segment posted another profitable quarter in 1Q16, after the effects of the non-recurring items recorded at the end of 2015.

In this period, the Tenda segment maintained efficient operating performance, supported by positive sales performance. This resulted in an improved adjusted gross margin for Tenda, which reached 31.7% in the

period, slightly higher than the previous quarters.

Adjusted EBITDA totaled R\$22.8 million, with adjusted EBITDA margin reaching 9.7% in 1Q16, higher y-o-y, which was impacted by the non-recurring items recorded in 4Q15, and slightly lower than the 1Q15 margin, which in turn benefited from the reversal of provision for bonus of R\$5.6 million.

## Net Income

The Tenda segment achieved net income of R\$4.8 million in 1Q16, a reversal from the net loss of R\$13.0 million recorded in 4Q15, which was impacted by the non-recurring items recorded. This was a decrease from the net income of R\$11.4 million of 1Q15, which benefited from the reversal of R\$5.6 million provision related to bonus provisioning.

## RECENT EVENTS

### ALLOCATION OF THE 2015 FISCAL YEAR RESULTS

In accordance with Article 47, paragraph 2 (b) of the Bylaws, 25% of the balance of net income of the fiscal year will be allocated for the payment of the statutory dividend to all shareholders after the deductions provided for in the Bylaws and adjusted pursuant to article 202 of Brazilian Corporate Law.

Due to the R\$74.4 million income calculated in the year ended on December 31, 2015, the Company's management proposed, at the Annual General Meeting held on April 25, 2016, the distribution of approximately R\$17.7 million, about R\$0.048 per share. This distribution will allow shareholders to gauge a dividend yield of approximately 2.0%, based on the 2015 closing price.

### UPDATE SHARE BUYBACK PROGRAM

Reaffirming its commitment to generating shareholder value, on March 3, 2016, the Company approved the creation of the fourth share buyback program, up to a maximum of 8.2 million common shares which, when added to the 10.6 million shares currently held in treasury, correspond to 5% of the total common shares issued by the Company. The goal of the Program is to efficiently use the Company's available funds, aiming at medium and long-term profitability. A portion of the shares to be acquired will be allocated for the exercise of the options and/or shares to be granted in the Stock Option Plan, as approved at the Company's Extraordinary General Meeting.

The Company also reaffirms its commitment to capital discipline. The execution of the program is conditioned to the maintenance of Gafisa's Consolidated Net Debt to Equity ratio in a level equal or lower than 60%. The Company's Executive Officers are authorized to determine the opportunities in which operations will be performed, as well as the amount of shares to be effectively traded.

**GAFISA SEGMENT**

Focuses on residential developments within the upper, upper-middle, and middle-income segments, with average unit prices above R\$250,000.

**Operating Results | Launches and Pre-Sales**

First quarter launches totaled R\$80.1 million and consisted of 1 project/phase in São Paulo, which started sales in the last week of March. The sales speed of this launch reached 10.2%.

**Launches (R\$ million)**

First quarter gross pre-sales in the Gafisa segment totaled R\$237.1 million. Dissolutions in 1Q16 were R\$170.3 million, yielding total net pre-sales of R\$66.8 million, down 72.7% q-o-q and down 62.8% y-o-y.

It is worth noting that in 1Q16 operating performance was impacted quite heavily, especially in January and February due to the continued deterioration of the macroeconomic environment and the troubled political scenario, also taking into account seasonal characteristics. Results in March reached R\$101.1 million in net pre-sales, closer to last year's result, signaling an improvement when compared to the first two months of the year.

As seen in 2015, and one of the main current operational guidelines for the year, the Company continues to focus its efforts on the sale of remaining units. As a result, 96.5% of gross sales for the period were related to units in inventory. However, due to the higher volume of dissolutions of projects launched before 2015,

which accounted for 97.8% of total volume, the breakdown of net sales of inventory in the quarter ended up concentrated in units launched in 2015, which accounted for 82.0% of total net sales of remaining units and for 72.0% of total net sales in the period.

## Sales over Supply (SoS)

The Gafisa segment's SoS of the last twelve months reached 28.9% compared to 27.9% in the same period last year. In the 1Q16, SoS was 3.3%, compared to 10.8% in the previous quarter and to 8.0% in 1Q15.

## Dissolutions

The weak economic conditions observed in 2016 have directly impacted consumer confidence and, accordingly, the level of dissolutions. Due to the challenging operating environment, the level of dissolutions in the Gafisa segment reached R\$170.3 million in 4Q15, an increase compared to R\$125.3 million in 4Q14 and R\$124.8 million in 1Q15. Notably, the level of dissolutions was higher than the LTM average, especially due to the strong volume of projects delivered in 4Q15, totaling R\$1.0 billion in PSV, approximately 43% of the total PSV delivered in the FY2015.

Over the last three years, the Company has been working on initiatives to strengthen the credit review component of its sale process. In doing so, the Company intends to reduce the level of dissolutions throughout the construction and delivery cycle. However, given the current uncertainties in the economic environment and its effects on the real estate market, it has not been possible to reduce the volume of dissolutions in a more effective manner.

Notably, a comprehensive approach in the credit review process at the time of sale has generated a more efficient process of transferring Gafisa customers to financial institutions, even amid a unfavorable economic environment. As an example of the efficiency achieved in this process, of all customers who asked for transfers in 1Q16, only 3.5% have been rejected in the bank's credit analysis, i.e. out of the 318 units asking for transfers, only 11 were not accepted.

In recent quarters the Gafisa segment has been able to reduce the level of dissolutions by enabling customers facing financial pressure to swap their units for those that better match their financial position. This exchange process reflects the flexibility of Gafisa's product portfolio.

In the quarter, 257 Gafisa units were cancelled and 116 units, representing R\$61.9 million, were already resold within the period.

## Inventory

Gafisa is maintaining its focus on inventory reduction initiatives. Projects launched prior to the end of 2015 represented 87.8% of net sales in the period. The market value of the Gafisa segment's inventory presented a decreased by 2.7% q-o-q, and of 4.6% y.o.y, totaling R\$2.0 billion. The reduction reflects current market conditions and the effect of the sales income in the period, as well as pricing adjustments on several legacy projects. Finished units outside of core markets accounted for R\$56.3 million, or 2.8% of total inventory.

Inventory from projects launched outside core markets, which is comprised exclusively of finished units, represented R\$56.3 million, a decrease of 51.0% when compared to the R\$115.0 million recorded last year and down 22.5% from 4Q15. The Company estimates that through the beginning of 2017, it will have monetized a large portion of its inventory in non-core markets, based on the sales rate observed in these markets over the past few quarters.

In regards to Gafisa's inventory, approximately 45%, or R\$890.6 million, is concentrated in projects to be delivered from 1Q17 on, not representing an immediate increase in the segment's volume of inventory of finished units.

## Gafisa Segments Delivered Projects

During 1Q16, 2 projects/phases totaling 191 units were delivered, accounting for R\$104.8 million in PSV. Currently, Gafisa has 24 projects under construction, all of which are on schedule according to the Company's business plan.

## Transfers

Over the past few years, the Company has been taking steps to improve the performance of its receivables/transfer process in an attempt to achieve higher rates of return on invested capital. Currently, the Company's strategy is to transfer 90% of eligible units up to 90 days after the delivery of the project. In accordance with this policy, transfers totaled R\$110.0 million in PSV in the first quarter.

## Financial Results

### Revenue

1Q16 net revenues for the Gafisa segment totaled R\$171.0 million, a decrease of 51.5% q-o-q and a decrease of 49.7% y-o-y, as a direct effect of the lower sales volume in the period, due to the high volume of dissolutions, and also due to higher net sales concentrated in projects launched since 2015, which accounted for 82.0% of total net sales in 1Q16.

As previously explained, the 1Q16 results were marked by a lower volume of net sales, resulting from the high volume of dissolutions related to uncertainty in the political and economic environment. Despite the higher share of projects launched before 2015 in the gross sales mix (74.7% of gross sales), the high volume of dissolutions in these projects (97.8% of dissolutions in the quarter) resulted in a concentration in net sales of inventory from more recent projects. Thus, revenues in the quarter were impacted not only by the lower volume of net sales, but also by the concentration of net sales in projects with slower evolution of work progress. These factors impacted the segment's profitability in the first quarter.

In 1Q16, 98.6% of Gafisa segment revenues were derived from projects located in Rio de Janeiro and São Paulo, while 1.4% were derived from projects in non-core markets. The table below provides additional details.

## Gross Profit & Margin

Gross profit for the Gafisa segment in 1Q16 was R\$3.5 million, a decrease from R\$84.2 million in 4Q15, and from R\$98.1 million in the prior year period, due to the lower top line result in the period.

Gross margin in 1Q16 was mainly impacted by the following factors:

- (i) R\$25.3 million net effect due to the volume of dissolutions higher than average, mainly those related to corporate projects - 25.2% of total dissolved PSV during the period. Commercial units have a direct financing model, whose balance is adjusted only after the delivery (IGMP + 12.0% p.y. interest). Due to this adjustment, the reversed revenue is higher, generating a stronger impact when cost and revenue are reversed;
- (ii) R\$6.6 million related to the increase in provisions for doubtful accounts and dissolutions;
- (iii) R\$6.9 million related to other effects, such as a difference in the pricing seen in the resale of dissolved units, especially in the case of corporate projects, in order to better reflect current market conditions.

The Company constitutes provision for doubtful accounts and dissolutions for customers who present significant evidenc regarding the risk of dissolution of their contracts. In 1Q16, the additional impact related to the provision for doubtful accounts and dissolutions was R\$6.6 million, in order to better reflect current market conditions.

Excluding financial impacts, the adjusted gross margin reached 21.0% in 1Q16 compared to 36.1% in the 4Q15 and 36.9% no 1Q15, impacted by the factors previously explained. Excluding these factors, adjusted gross margin ended 1Q16 at 35.5%.

## Selling, General and Administrative Expenses (SG&A)

SG&A expenses totaled R\$43.7 million in the 1Q16, stable y-o-y and down 20.9% q-o-q, as a result of the smaller selling expense in the period.

Selling expenses decreased 56.3% compared to 4Q15 and up 18.8% from 1Q15, explained by the current Market environment and the consequent need for higher sales and marketing investments.

The segment's general and administrative expenses reached R\$27.0 million in 1Q16, a decrease of 6.5% compared to the previous year and an increase of 58.8% q-o-q. Explained by the partial reversal of provision for bonus, recorded in the last quarter, that had a net effect of R\$9.0 million between the quarters. It is worth noting that despite the inflation of 9.4% recorded in the last 12 months, the Gafisa segment has managed to reduce its nominal volume of general and administrative expenses.

The better balance in SG&A expenses in the Gafisa segment reflects the Company's commitment to improve operational efficiency and achieve a level of costs and expenses that are appropriate for the current stage of the business cycle and economic outlook.

Other Operating Revenues/Expenses reached R\$14.6 million in 1Q16, a decrease of 46.3% compared to 4Q15, and 48.9% compared to 1Q15. This y-o-y increase reflects the smaller levels of litigation expenses in the first quarter, due to the seasonal effect.

The Company continues to be proactive and to mitigate risks associated with potential contingencies. Among a few initiatives that have been implemented during the year, we highlight: (i) agreements policy; (ii) new remuneration model of attorney fees; (iii) legal committee for ongoing litigation monitoring.

The table below contains more details on the breakdown of this expense.

The strong volume of deliveries over the past three years, due to the delivery of delayed projects in discontinued markets, led to an increase in the level of contingencies. The Gafisa segment has since concentrated its operations only in the metropolitan regions of São Paulo and Rio de Janeiro. This new strategic geographical positioning, combined with improved internal processes, is expected to result in fewer future legal claims and a subsequent decrease in the amount of expenses related to contingencies in the following years.

## Adjusted EBITDA

Adjusted EBITDA for the Gafisa segment totaled a negative result of R\$18.1 million in 1Q16, below when compared to the positive Adjusted EBITDA of R\$49.9 million in 4Q15 and R\$58.3 million compared to the same period last year. The 1Q16 Adjusted EBITDA was impacted by the following factors: (i) lower revenue in the quarter due to the volume and sales mix; and (ii) decreased gross margin in the period. Note that adjusted EBITDA for the Gafisa segment does not include equity income from Alphaville.

The adjusted EBITDA margin, using the same criteria, reached -10.6% compared to 14.1% in 4Q15 and 17.1% in 1Q15.

## 20. Financial instruments

The Company and its subsidiaries engage in operations involving financial instruments. These instruments are managed through operational strategies and internal controls aimed at providing liquidity, return and safety. The use of financial instruments with the objective of hedging is achieved through a periodical analysis of exposure to the risk that the management intends to cover (exchange, interest rate, etc.) which is submitted to the corresponding Management bodies for approval and performance of the proposed strategy. The control policy consists of continuously monitoring the contracted conditions in relation to the prevailing market conditions. The Company and its subsidiaries do not use derivatives or any other risky assets for speculative purposes. The result from these operations is consistent with the policies and strategies devised by Company management. The Company and its subsidiaries operations are subject to the following risk factors:

(i) Risk considerations

a) *Credit risk*

There was no significant change in relation to the credit risks disclosed in Note 20(i)(a) to the financial statements as of December 31, 2015.

b) *Derivative financial instruments*

The Company holds derivative instruments to mitigate the risk arising from its exposure to index and interest volatility recognized at their fair value in profit or loss for the year. Pursuant to its treasury policies, the Company does not own or issue derivative financial instruments other than for hedging purposes.

As of March 31, 2016, the Company had derivative contracts for hedging purposes in relation to interest fluctuations, with final maturity between June 2016 and January 2020. The derivative contracts are as follows:

During the period ended March 31, 2016, the amount of R\$10,184 (R\$(2,756) in 2015) in the Company's and consolidated statements, which refers to net result of the interest swap transaction, was recognized in the "financial income (expenses)" line in the statement of profit or loss for the year, allowing correlation between the impact of such transactions and interest rate fluctuation in the Company's balance sheet (Note 24).

The estimated fair value of derivative financial instruments contracted by the Company was determined based on information available in the market and specific valuation methodologies. However, considerable judgment was necessary for interpreting market data to produce the estimated fair value of each transaction, which may vary upon the financial settlement of transactions.

**Report on the review of quarterly information - ITR**

To the shareholders, Board of Directors and Officers

Gafisa S.A.

São Paulo - SP

We have reviewed the accompanying individual and consolidated interim financial information of Gafisa S.A. (“Company”), identified as Company and Consolidated, respectively, contained in the Quarterly Information (ITR) for the quarter ended March 31, 2016, which comprises the balance sheet as of March 31, 2016 and the respective statement of operations, statement of comprehensive income (loss), statement of changes in equity and statement of cash flows for the quarter then ended, including explanatory notes.

The Company’s management is responsible for the preparation of individual interim financial information in accordance with the Technical Pronouncement of the Accounting Pronouncements Committee (CPC) 21 (R1) – Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21 (R1) and IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) which considers the Technical Orientation - OCPC 04 - Application of the Technical Interpretation ICPC 02 to the Brazilian Real Estate Development Entities, edited by the Accounting Pronouncements Committee (CPC) and approved by the Brazilian Securities and Exchange Commission (CVM) and the Brazilian Federal Accounting Council (CFC), as well as for the presentation of these information in compliance with the rules issued by the CVM, applicable to the preparation of Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

**Scope of review**

We conducted our review according to the Brazilian and international review standards of interim financial information (NBC TR 2410 – Review of Interim Financial Information Performed by the Auditor of the Entity, and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of inquiries, mainly of the people responsible for the financial and accounting matters, and the application of analytical and other review procedures. The scope of a review is significantly narrower than that of an audit conducted in accordance with audit standards and, accordingly, it did not

permit us to obtain assurance that we took notice of all significant matters that could have been raised in an audit. Therefore, we did not express an audit opinion.

**Conclusion from the individual and consolidated interim financial information prepared in accordance with CPC 21(R1)**

Based on our review, we are not aware of any fact that makes us believe that the individual and consolidated interim financial information included in the Quarterly Information referred to above was not prepared, in all material respects, in accordance with CPC 21 (R1) applicable to the preparation of Quarterly Information (ITR), and presented in compliance with the rules issued by the CVM.

*(A free translation from the original in Portuguese into English)*

## **Gafisa S.A.**

Based on our review, we are not aware of any fact that makes us believe that the consolidated interim financial information included in the Quarterly Information referred to above was not prepared, in all material respects, in accordance with IAS 34, issued by the IASB, which considers the Technical Orientation - OCPC 04 - Application of technical interpretation ICPC02 to the Brazilian Real Estate Development Entities, issued by the Accounting Pronouncements Committee (CPC), and approved by the CVM and the Brazilian Federal Accounting Council (CFC) applicable to the preparation of Quarterly Information (ITR), and presented in compliance with the rules issued by the CVM.

## **Emphasis of matter**

As described in Note 2, the individual (Company) and consolidated interim financial information was prepared in accordance with accounting practices adopted in Brazil (CPC21 (R1)). The consolidated interim financial information prepared in accordance with the IFRS applicable to the Brazilian Real Estate development entities IAS34 for interim financial information also considers the Technical Orientation OCPC04, edited by the Accounting Pronouncements Committee (CPC). This Technical Orientation refers to the revenue recognition of this sector and comprises other matters related to the meaning and adoption of the concept of continuous transfer of the risks, benefits and control over real estate unit sales, as further described in Note 2. Our conclusion is not modified in view of this matter.

## **Other matters**

### ***Statement of value added***

We have also reviewed the individual and consolidated statements of value added for the quarter ended March 31, 2016, prepared under the responsibility of the Company's management, the presentation of which in the interim financial information is required by the rules of the Brazilian Securities and Exchange Commission (CVM) applicable to Quarterly Information (ITR), and as supplementary information under International Financial Reporting Standards (IFRS), whereby no statement of value added presentation is required. These statements have been subject to the same

review procedures previously described and, based on our review, we are not aware of any fact that makes us believe that they were not prepared, in all material respects, according to the individual and consolidated interim financial information taken as a whole.
