INFORMATION CONTAINED IN THIS FORM 6-K REPORT

Attached to this Report on Form 6-K as Exhibit 1 is a copy of the press release issued by Euroseas Ltd. (the Company) on November 23, 2011: Euroseas Ltd. Announces Time Charter extension for its Container Vessel Despina P and earlier Dry Docking of Container Vessel Captain Costas.

Euroseas Ltd. Announces Time Charter extension for its Container Vessel *Despina P* and earlier Dry Docking of Container Vessel *Captain Costas*

Maroussi, Athens, Greece, November 23, 2011, Euroseas Ltd. (NASDAQ:ESEA), an owner and operator of drybulk carriers and container vessels and provider of seaborne transportation for dry bulk and containerized cargoes, announced today that a subsidiary of the Company has extended for approximately one year (until March 1, 2013) its time charter agreement, for the vessel *Despina P*, a 1932 teu, 1990 built Handysize containership, at a gross daily rate of \$7,000. The new rate will commence on January 19, 2012.

Following the above mentioned charter, approximately 30% of Euroseas' total container fleet days for 2012 and approximately 6% in 2013 are secured under period charters.

Furthermore, the Company has decided to accelerate the scheduled dry docking of the containership *Captain Costas* and perform it during this challenging period. The dry docking was originally scheduled for the summer of 2012.

Edgar Filing: EUROSEAS LTD. - Form 6-K

Aristides Pittas, Chairman and CEO of Euroseas, commented: The container market has been witnessing a significant correction during the last six months and has now entered into the traditionally low period which usually lasts until after the Chinese new year (end of January for 2012) when volumes start to pick up again. We had four vessels opening up during this challenging period. We are happy to have been able to extend the time charter on the *Despina P* and our decision to accelerate the scheduled dry docking of the *Captain Costas* reflects our belief that we can utilise currently idle time so that the ship will not need to lose time in the summer when we expect to see improvements in the market. We have also been able to fix employment for the containership *Jonathan P* for a minimum of 21 to a maximum of 70 days so the only vessel currently idle is the containership *Marinos* (ex *YM Port Kelang*). We continue to believe that provided the world economy grows at levels close to the 4% mark we should see a reversal of the fortunes of the container sector as of Q2 2012. We also think that the presently soft market may offer us opportunities to buy further vessels in both the container and drybulk sectors at depressed prices and we continue to scan the markets accordingly.
