REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Trustees
PGT Savings Plan

We have audited the accompanying statement of net assets available for benefits (modified cash basis) of PGT Savings Plan (Plan) as of December 31, 2010, and the related statement of changes in net assets available for benefits (modified cash basis) for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan has determined that it is not required to have, nor have we been engaged to perform, an audit of the Plan's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 2, the financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits (modified cash basis) of the Plan as of December 31, 2010, and the changes in net assets available for benefits (modified cash basis) for the year then ended, in conformity with the basis of accounting as described in Note 2.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule (modified cash basis) of assets (held at end of year) as of December 31, 2010, is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule (modified cash basis) is the responsibility of the Plan's management. This supplemental schedule (modified cash basis) has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

PGT Savings Plan

Notes to Financial Statements
(Modified Cash Basis)

December 31, 2010

1. Plan Description

The following description of the PGT Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all eligible employees of PGT Industries, Inc. (the “Company,” “Employer” or “Plan Sponsor”), a wholly-owned subsidiary of PGT, Inc. (“PGT”). The Plan became effective on October 1, 1982 and was amended and restated through the adoption of a non-standardized prototype adoption agreement effective January 1, 2009. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 “ERISA”, as amended.

Eligibility

Employees participating in the Plan prior to the Plan’s restatement remain eligible to participate. All other employees are eligible to participate in the Plan as of the first day of the next month following the employee’s completion of three months of service as defined in the Plan document.

Contributions

The Plan includes a 401(k) provision, which allows qualified employees to make contributions (through payroll deductions) to the Plan, thereby deferring taxation on the portion of their earnings contributed to the Plan. Employees can defer up to 100% of their compensation subject to Internal Revenue Code (“IRC”) limitations. Employees who have attained age 50 before the end of the Plan year may also make additional catch up contributions, subject to IRC limitations.

For each Plan year, the Company may contribute to the Plan, on behalf of each eligible participant, a matching contribution equal to a percentage of the eligible participant’s elective deferrals made. The Company, by action of its Board of Directors, shall determine the amount, if any, of the matching contribution. The Company amended the Plan in 2008 to make its matching contributions totally discretionary. Effective on December 30, 2007 (the first day of the Company’s 2008 fiscal year), the Company suspended the matching contribution portion of the Plan. There were no matching contributions approved for the Plan years ending December 31, 2010 or 2009. Based on its review of certain factors relating to the Company’s 2008 results, the Board of Directors of the Company approved a discretionary match by the Company of approximately 0.5% which was applied to eligible participants’ contributions made in 2008. On April 3, 2009, funds totaling \$257,964 were deposited into eligible participants’ accounts. Prior to December 30, 2007, the Company matched 100% of the participant’s pre-tax savings contributions up to 3% of the participant’s salary.

(Modified Cash Basis)

December 31, 2010

The Company, by action of its Board of Directors, may make a discretionary profit sharing contribution. Profit sharing contributions are allocated to all participating employees who have been credited with at least 1,000 hours of service in the Plan year, based on the ratio that the participant's compensation bears to the total compensation of all eligible participants for the Plan year. No profit sharing contributions were made during 2010 and 2009.

Vesting

Participants immediately vest in their contributions and fund earnings or losses. Participants fully vest in the Company's contributions after five years of service.

Notes Receivable from Participants

The aggregate amount of any loan to a participant may be, at a minimum, \$1,000 and may not exceed the lesser of \$50,000 or 50% of the participant's vested balance in the Plan. Loan terms range from one to five years, except in the case that the loan is used for the purchase of a participant's principal residence, in which case the repayment period may extend to no more than 15 years. The loans are secured by the balance in the participant's account and bear interest at rates commensurate to regional bank rates for similar loans. Principal and interest are paid ratably through weekly payroll deductions. Loans to terminated participants and loans in default are treated as distributions to the participant. In December 2009, the Loan Policy was changed to remove the limit on the number of outstanding loans at any point in time.

Benefits

For Employer matching and profit sharing contributions and earnings thereon, participants are vested ratably over five years of service, being fully vested upon completion of five years of service. Upon retirement, death, or disability, participants or their beneficiaries are vested 100% in all contributions and earnings. Participants are fully vested in their contributions and earnings thereon at all times. Retirement benefits are paid to the participant in a single, lump-sum payment. Hardship withdrawals by Plan participants may be made upon written request to and approval by the Plan administrator.

Investments

Effective October 28, 2006, T. Rowe Price Trust Company ("T. Rowe Price") began serving as trustee of the Plan. T. Rowe Price invests Plan contributions and holds the assets of the Plan. Contributions may be invested in various diverse funds available to the participants of the Plan. Participant accounts are credited with their contributions allocated among the funds as requested. Employer contributions, if any, are invested based on the participant's allocation directions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of: (a) the Company's contributions; and (b) Plan investment results. Allocations are based on participant contributions, individual fund earnings or account balances, as defined. Forfeited, non-vested balances are used to reduce Employer contributions. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Forfeited non-vested accounts in 2010 and 2009 totaled \$33,732 and \$53,367, respectively. Of the \$53,367 of forfeitures in 2009, \$39,640 was reinstated in 2010 pursuant to the partial plan termination as described in note 10. Forfeitures used to reduce employer contributions in 2010 and 2009 were \$39,640 and \$133,779, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to amend or discontinue the Plan at any time subject to the provisions of ERISA. Upon termination of the Plan, each participant becomes 100% vested in the value of his or her account.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles. In June 2009, the Financial Accounting Standards Board ("FASB") announced that the FASB Accounting Standards Codification ("ASC") was the new source of GAAP recognized by the FASB for nongovernmental entities. The preparation of financial statements on the modified cash basis requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets, additions to net assets, deductions from net assets and liabilities and disclosures of contingent liabilities, if any. Actual results could differ from those estimates and assumptions. Contributions are recorded when received, investment income is recorded as it is collected, and benefit payments and expenses are recorded when paid.

As described in ASC 820-10, Fair Value Measurements and Disclosures and Accounting Standards Update ("ASU") 2009-12 Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the "FSP"), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust, the T. Rowe Price Stable Value Fund (the "Fund"). As required by the FSP, the statements of net assets available for benefits present the fair value of the investment in this common collective trust as well as the adjustment of the investment in this common collective trust from fair value to contract value relating to the investment contracts. The accompanying statements of changes in net assets available for plan benefits are prepared on a contract value basis.

PGT Savings Plan

Notes to Financial Statements (continued)
(Modified Cash Basis)

December 31, 2010

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The shares of mutual funds are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. PGT common stock is valued at market price on the last day of the Plan year. The fair value of participation units of the Fund are determined based on the fair value of the underlying investments of the trust based on quoted market prices and then adjusted by the issuer to contract value. The contract value is determined based on quoted redemption values. Notes receivable from participants are valued at their outstanding balances, which approximate market value. Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded as received. Dividend income is recorded as of the ex-dividend date.

Recently Adopted Accounting Pronouncement

In January 2010, FASB issued ASU 2010-06, which expanded the required disclosures about fair value measurements. In particular, this guidance requires 1) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (2) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (3) fair value measurement disclosures for each class of assets and liabilities and, (4) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and non recurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009, except for information required under item (2) above, which will be effective for fiscal years beginning after December 15, 2010. The Plan adopted the amendments in ASU 2010-06 effective January 1, 2010. The Plan had no significant transfers between Level 1 or 2 for the year ended December 31, 2010.

In September 2010, FASB issued ASU 2010-25 "Reporting Loans to Participants by Defined Contribution Pension Plans", which is an update on how loans to participants should be classified and measured by defined contribution pension benefit plans. The amendments in this update require that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. As applicable, this update has been applied retrospectively to all prior periods presented and became effective for fiscal years ending after December 15, 2010.

Administrative Expenses

Except for an annual fee charged by T. Rowe Price that is paid by the Plan, administrative expenses of the Plan are generally absorbed by the Plan Sponsor.

3. Income Tax Status

The Plan received a determination letter dated January 31, 2006 from the Internal Revenue Service stating that the Plan is qualified under Section 401(a) of the IRC. The Plan has been amended several times and restated in January 2009 since receiving the determination letter. However, the plan administrator believes that the Plan has been designed and is being operated in compliance with the requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

4. Investments

During 2010 and 2009, the Plan's investments (including investments purchased and sold, as well as held during the years) appreciated /(depreciated) in fair value as follows:

	Years ended December 31,	
	2010	2009
Fair value determined by quoted market prices:		
Mutual funds	\$ 2,968,858	\$ 5,973,100

Individual investments that represent 5% or more of the fair value of the Plan's net assets available for benefits are as follows:

	At December 31,	
	2010	2009
T. Rowe Price:		
Retirement 2035 Fund	\$ 2,290,671	\$ 2,088,554
Retirement 2015 Fund	3,051,378	3,164,051
Retirement 2030 Fund	3,709,436	3,247,654
Stable Value Fund	4,886,541	5,027,308
Retirement 2025 Fund	5,223,377	4,624,955
Retirement 2020 Fund	5,809,986	5,139,538

5. Investment Contracts

The Plan invests in the T. Rowe Price Stable Value Trust Fund which is a collective trust that invests in guaranteed investment contracts issued by insurance companies, investment contracts issued by banks, synthetic investment contracts issued by banks, insurance companies, and other issuers and securities supporting such synthetic investment contracts, as well as other similar instruments that are intended to maintain a constant net asset value while permitting participant-initiated benefit-responsive withdrawals for certain events.

As described in note 2, because the guaranteed investment contracts held by the Fund are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. Contract value, as reported to the Plan by the Fund, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rate is based on a formula agreed upon with the issuers.

The Plan currently has no nonfinancial assets or liabilities that are recognized or disclosed at fair value on a recurring basis. Changes in fair value of investments held at the end of the period are reported in net (depreciation)/appreciation in fair value of investments in the accompanying statements of changes in net assets available for benefits. For the years ended December 31, 2010 and 2009, the net amount reported was appreciation of \$3,014,772 and \$6,114,934, respectively.

7. Party-in-Interest Transactions

In 2010 and 2009, certain Plan investments were funds managed by T. Rowe Price, a party-in-interest to the Plan.

The Plan held investments in the common stock of the Plan Sponsor with a fair value of \$249,970 and \$213,313, each 1% or less of net assets available for benefits, at December 31, 2010 and 2009, respectively.

The Plan had notes receivable from active participants of \$2,303,379 and \$2,150,945 at December 31, 2010 and 2009, respectively.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Consolidation and Restructurings

On December 3, 2010, the Company announced it would transfer the Salisbury, NC operations to Venice, FL consolidating its window and door production at the Company's Florida plant. The Company began implementation of the consolidation in January 2011, and expects it to be complete by the end of the second quarter of 2011.

On January 13, 2009, March 10, 2009, September 24, 2009, and November 12, 2009, the Company announced more restructurings that resulted in a decrease in its workforce of approximately 260 employees in the first quarter, 80 employees in the third quarter and 140 in the fourth quarter. The combined effect of these restructurings extended the time period for the partial plan termination and, therefore, participants of the Plan affected in either restructuring with unvested Company matching funds became fully vested in such matching funds which, as of December 31, 2009, totaled \$51,546. This amount was not recorded as an employer contribution or contribution receivable by the Plan in the accompanying financial statements as of and for the year ended December 31, 2009. This amount is included as employer contributions, net of forfeitures applied in the accompanying 2010 statement of changes in net assets available for benefits.

On October 25, 2007, the Company announced a restructuring that resulted in a decrease in its workforce of approximately 150 employees. On March 4, 2008, the Company announced another restructuring that resulted in a decrease in its workforce of approximately 300 employees. The combined effect of these restructurings constituted a partial plan termination and, therefore, participants of the Plan affected in either restructuring with unvested Company matching funds became fully vested in such matching funds which, as of December 31, 2008, totaled \$135,915. This amount was not recorded as an employer contribution or contribution receivable by the Plan in the accompanying financial statements as of and for the year ended December 31, 2008.
