NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JULY 31, 2012

---

NOTE 1 – NATURE OF OPERATIONS AND CONTINUANCE OF BUSINESS

Del Toro Silver Corp. (the “Company”) was incorporated on January 9, 2006 as Candev Resource Exploration, Inc. under the laws of the State of Nevada and extra-provincially registered under the laws of the Province of British Columbia on August 15, 2006. Effective July 28, 2009, the Company completed a merger with its wholly owned subsidiary, Del Toro Silver Corp., a Nevada corporation which was incorporated on July 7, 2009 solely to change the Company’s name to Del Toro Silver Corp. The Company is an exploration stage company engaged in the acquisition, exploration and development of mineral properties.

These financial statements have been prepared on the going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As of July 31, 2012, the Company has not earned any revenue, has a working capital deficit of \$156,588, and an accumulated deficit of \$1,271,699. The continued operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. These factors raise substantial doubt about the Company’s ability to continue as a going concern. These financial statements do not include any adjustments to the recorded assets or liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of Presentation** – The financial statements and the related notes of the Company are prepared in accordance with generally accepted accounting principles in the United States and are expressed in US dollars. The Company’s fiscal year end is October 31.

**Interim Financial Statements** – These interim unaudited financial statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. Therefore, these financial statements should be read in conjunction with the Company’s audited financial statements and notes thereto for the year ended October 31, 2011.

The financial statements included herein are unaudited; however, they contain all normal recurring accruals and adjustments that, in the opinion of management, are necessary to present fairly the Company’s financial position at July 31, 2012, and the results of its operations and cash flows for the nine month period ended July 31, 2012 and 2011. The results of operations for the period ended July 31, 2012 is not necessarily indicative of the results to be expected for future quarters or the full year.

**Recent Accounting Pronouncements** – The Company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

**Cash and Cash Equivalents** – The Company considers all highly liquid investments with maturity of three months or less at the date of acquisition to be cash equivalents.

Receivable – Receivables consist principally of input sale tax credit due from Canada.

Prepaid Expenses – Prepaid expenses are expenses paid by the Company in cash or stock before they are used or consumed.

Accounts Payable and Accrued Expenses – Accounts payable and accrued expenses consist principally of amounts due to suppliers.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Mineral Property Exploration and Development – The Company has been in the exploration stage since its inception and has not yet realized any revenues from its planned operations. It is primarily engaged in the acquisition and exploration of mining properties. Mineral property exploration costs are expensed as incurred. Mineral property acquisition costs are initially capitalized. The Company assesses the carrying costs for impairment under ASC 360 “Property, Plant and Equipment” at each fiscal quarter end. When it has been determined that a mineral property can be economically developed as a result of establishing proven and probable reserves, the costs then incurred to develop such property, are capitalized. Such costs will be amortized using the units-of-production method over the estimated life of the probable reserve. If mineral properties are subsequently abandoned or impaired, any capitalized costs will be charged to operations.

Due to Related Parties – Due to related parties consist principally of amounts due to officers and directors of the Company, in respect of expenditures paid by officers and directors on behalf of the Company.

NOTE 3 – MINERAL PROPERTIES

On July 7, 2009, and as amended on June 25, 2010, October 21, 2010, and July 9, 2012 the Company entered into an option agreement (the “Agreement”) to acquire a 50% undivided interest in the Dos Naciones Property located in Sonora, Mexico. As used in this quarterly report, the terms "we", "us", "our" and "our company" mean Del Toro Silver Corp., unless otherwise indicated.

### General Overview

Our company was incorporated on January 9, 2006 as Candev Resource Exploration, Inc. under the laws of the State of Nevada and extra-provincially registered under the laws of the Province of British Columbia on August 15, 2006. Effective July 28, 2009, our company completed a merger with our wholly owned subsidiary, Del Toro Silver Corp., a Nevada corporation, which was incorporated on July 7, 2009 solely to change our company's name to Del Toro Silver Corp.

Our head office is located at 320 North Carson Street, Carson City, Nevada 89701.

### Our Current Business

We are presently an exploration stage company focused on conducting exploration activities on our Dos Naciones property in Mexico. In November 2011, our management announced that our company will begin to change our corporate strategy to target high grade precious metals properties, located in the western US, with the potential for near-term production and positive cash flow. In keeping with this strategy on November 14, 2011, we entered into an asset sale agreement with Bowerman Holdings LLC to acquire up to 75% of Bowerman's 100% right, title and interest in and to 31 KM mining claims and 17 Raddlefinger mining claims located in Siskiyou County, California. Closing of the acquisition is scheduled to occur by November 8, 2012, unless otherwise agreed by the parties, and is subject to satisfactory completion of due diligence by our company.

While our corporate strategy has changed we remain focused on exercising our option under an option agreement with Yale Resources Ltd. dated July 7, 2009, as amended June 25, 2010, October 21, 2010, and July 9, 2012. The Dos Naciones property is located approximately 140 km north northeast of the city of Hermosillo, in north-central Sonora, Mexico and is approximately 75 km southwest of the important Cananea mining district. The Dos Naciones property is comprised of one mineral concession that covers approximately 2,391 hectares.

On May 26, 2012, we entered into a convertible loan agreement with Greg Painter, a director and officer of our company. Under the terms of the convertible loan agreement, Mr. Painter agreed to loan our company the sum of US\$10,000, which was advanced to our company on January 9, 2012. The principal amount of the loan plus any accrued and unpaid interest shall be due and payable in full one year from the advancement date. Mr. Painter may provide our company with written notice of conversion at any time to exercise his rights of conversion in respect of either a portion of or the total outstanding amount of the loan plus accrued interest as of that date into shares of our company at the price of US\$0.06 per share. The loan shall bear interest at a rate of 8% per annum.

Also on May 26, 2012, we entered into a convertible loan agreement with Patrick Fagen, a director and officer of our company. Under the terms of the convertible loan agreement, Mr. Fagen agreed to loan our company the sum of US\$94,000, the first installment of which was received on December 8, 2011 and which remaining funds have been advanced in installments by Mr. Fagen. The principal amount of the loan plus any accrued and unpaid interest shall be due and payable in full one year from each of the advancement dates. Mr. Fagen may provide our company with written notice of conversion at any time to exercise his rights of conversion in respect of either a portion of or the total outstanding amount of the loan plus accrued interest as of that date into shares of our company, at the price of US\$0.06 per share. The loan shall bear interest at a rate of 8% per annum.

On July 16, 2012, we entered into a convertible loan agreement with Patrick Fagen, a director and officer of our company. Under the terms of the convertible loan agreement, Mr. Fagen has agreed to loan our company the sum of US\$50,000, which was advanced to our company on July 16, 2012. The principal amount of the loan plus any accrued and unpaid interest shall be due and payable in full one year from the advancement date. Mr. Fagen may provide our company with written notice of conversion at any time to exercise his rights of conversion in respect of either a portion of or the total outstanding amount of the loan plus accrued interest as of that date into shares of our company, at the price of US\$0.08 per share. The loan shall bear interest at a rate of 8% per annum.

On August 30, 2012, we entered into a convertible loan agreement with Patrick Fagen, a director and officer of our company. Under the terms of the convertible loan agreement, Mr. Fagen has agreed to loan our company the sum of US\$100,000, which was advanced to our company on August 30, 2012. The principal amount of the loan plus any accrued and unpaid interest shall be due and payable in full one year from the advancement date. Mr. Fagen may provide our company with written notice of conversion at any time to exercise his rights of conversion in respect of either a portion of or the total outstanding amount of the loan plus accrued interest as of that date into shares of our company, at the price of US\$0.10 per share. The loan shall bear interest at a rate of 8% per annum.

Effective August 31, 2012, we entered into a partial purchase option agreement with Natchez Pass LLC to acquire up to a 67.5% interest, in leasehold interests to land in Pershing County, Nevada. In order to earn the option, over a five year period our company is required to make aggregate cash payments of \$4,005,000, consisting of payments to Natchez Pass, certain repayments on behalf of the Natchez Pass and certain amounts for the work program on the property, and issue up to 5,000,000 restricted shares of common stock to Natchez Pass. If our company fully exercises the option to earn 67.5% interest, our company then has an option to earn up to an additional 7.5% interest at the price of \$150,000 per point.

Effective September 1, 2012, our company entered into consulting agreements with Greg Painter, a director and officer of our company, for services performed as our company's president and chief executive officer and with Patrick Fagen, for services performed as our company's chief financial officer.

#### Plan of Operation

Our plan of operation is to carry out exploration work on our Dos Naciones property in order to ascertain whether it possesses commercially exploitable quantities of gold, silver, and other metals. We intend to primarily explore for

gold, silver, and copper but if we discover that our mineral property holds potential for other minerals that our management determines are worth exploring further, then we intend to explore for those other minerals. We will not be able to determine whether or not the Dos Naciones property contains a commercially exploitable mineral deposit, or reserve, until appropriate exploratory work is done and an economic evaluation based on that work indicates economic viability.

The three phase exploration program on the Dos Naciones property carries an aggregate estimated cost of \$448,250. The first phase of our exploration program was completed during the quarter ended October 31, 2010 and consisted of detailed geological mapping, sampling, hand trenching and prospecting. In July, 2010 our company's operator on the Dos Naciones property engaged geological consultants to conduct mapping and sampling on the property. Our company commenced the second phase of its exploration program in September 2011. The results of the first work comprising the second phase of our exploration program warrant the continuation into the second phase of the program. The timing and scale of the next work program has yet to be determined but the company is working with Yale to determine how best to advance the exploration at Dos Naciones.

#### Cash Requirements

We anticipate that we will incur the following expenses over the next twelve months:

Expense Item	Cost
Expenditures on the Dos Naciones property in accordance with the terms of our Option Agreement with Yale Resources Ltd.	\$150,000
Ongoing professional expenses associated with our company being a reporting issuer under the Securities Exchange Act of 1934	60,000
General and administrative expenses	70,000
Total Expenses	\$280,000

As of July 31, 2012 we had cash of \$20,239.

Based on the above estimated annual expenses of \$280,000, we do not have enough funds to proceed with our plan of operation over the next twelve months. We plan to rely on equity financing in order to raise any additional funds necessary to pursue our plan of operation and to fund our working capital deficit in order to enable us to pay our accounts payable and accrued liabilities. We currently do not have any arrangements in place for the completion of any equity financings and there is no assurance that we will be successful in completing any equity financings.

## Results of Operations

The following discussion of our results of operations should be read in conjunction with our unaudited financial statements for the three and nine month periods ended July 31, 2012 which are included herein.

Our operating results for the three and nine month periods ended July 31, 2012 and 2011 are summarized as follows:

	Three Months Ended		Nine Months Ended	
	July 31, 2012	2011	July 31, 2012	2011
Revenue	\$0	\$0	\$0	\$0

## General and Administrative

For this discussion we have defined general and administrative costs to also include mineral property costs and professional fees. The \$54,416 increase in our general and administrative expenses for the three month period ended July 31, 2012 compared to the three month period ended July 31, 2011 was primarily due to an increase in mineral property costs for the current period related to the option agreement with Yale Resources Ltd.

The \$83,570 increase in our general and administrative expenses for the nine month period ended July 31, 2012 compared to the nine month period ended July 31, 2011 was primarily due to an overall increase in mineral property costs and legal and accounting expenses.

## Other Income/ Expenses

We had \$43,489 of accretion of discount on convertible debt for the nine month period ended July 31, 2011. There was no such activity for the same nine month period ended July 31, 2012.

---

We anticipate that we will incur approximately \$280,000 for operating expenses, including professional, legal and accounting expenses associated with our reporting requirements under the Exchange Act during the next twelve months. As of July 31, 2012 we had cash of \$20,239, accordingly, we will need to obtain additional financing in order to complete our business plan.

#### Cash Used For Operating Activities

We used cash in operating activities in the amount of \$194,903 during the nine month period ended July 31, 2012 and \$138,926 during the nine month period ended July 31, 2011. Cash used in operating activities for both periods was funded by cash from financing activities, and \$55,977 increase in cash used compared to the nine month period end July 31, 2011 was due to timing differences between the ongoing needs for general and administrative expenses.

#### Cash Provided by Financing Activities

We generated cash of \$191,054 from financing activities during the nine month period ended July 31, 2012 compared to cash generated of \$64,655 by financing activities during the nine month period ended July 31, 2011. The increase of cash provided of \$126,399 was also due to timing differences between the ongoing needs for general and administrative expenses.

#### Going Concern

The financial statements accompanying this report have been prepared on a going concern basis, which implies that our company will continue to realize its assets and discharge its liabilities and commitments in the normal course of business. Our company has not generated revenues since inception and has never paid any dividends and is unlikely to pay dividends or generate earnings in the immediate or foreseeable future. The continuation of our company as a going concern is dependent upon the continued financial support from our shareholders, the ability of our company to obtain necessary equity financing to achieve our operating objectives, and the attainment of profitable operations. As of July 31, 2012, our company has accumulated losses of \$1,271,699 since inception. We do not have sufficient working capital to enable us to carry out our stated plan of operation for the next twelve months.

Due to the uncertainty of our ability to meet our current operating expenses and the capital expenses noted above in their report on the financial statements for the year ended October 31, 2011, our independent auditors included an explanatory paragraph regarding concerns about our ability to continue as a going concern. Our financial statements contain additional note disclosures describing the circumstances that lead to this disclosure by our independent auditors.

The continuation of our business is dependent upon us raising additional financial support. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

#### Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

### Mineral Property Exploration and Development

Our company has been in the exploration stage since its inception and has not yet realized any revenues from its planned operations. It is primarily engaged in the acquisition and exploration of mining properties. Mineral property exploration costs are expensed as incurred. Mineral property acquisition costs are initially capitalized. Our company assesses the carrying costs for impairment under ASC 360 "Property, Plant and Equipment" at each fiscal quarter end. When it has been determined that a mineral property can be economically developed as a result of establishing proven and probable reserves, the costs then incurred to develop such property, are capitalized. Such costs will be amortized using the units-of-production method over the estimated life of the probable reserve. If mineral properties are subsequently abandoned or impaired, any capitalized costs will be charged to operations.

### Due to Related Parties

Due to related parties consist principally of amounts due to officers and directors of our company, in respect of expenditures paid by officers and directors on behalf of our company.
