Twin Disc, Incorporated – The Accelerator 401(k) Savings Plan

Racine, Wisconsin

We have audited the accompanying statements of net assets available for benefits of Twin Disc, Incorporated – The Accelerator 401(k) Savings Plan ("Plan") as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended. The Plan's management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States.

The supplemental information in the accompanying schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2015 has been subjected to audit procedures performed in conjunction with the audit of Twin Disc, Incorporated – The Accelerator 401(k) Savings Plan's financial statements. The supplemental information is

presented for the purpose of additional analysis and is not a required part of the financial statements but include supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures include determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information in the accompanying schedule is fairly stated in all material respects in relation to the financial statements as a whole.

#### **Note 2 Summary of Significant Accounting Policies**

## **Basis of Accounting**

The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States ("GAAP"). GAAP requires an investment contract held by a defined contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in an investment contract through a common collective trust. Contract value for this common collective trust is based on the net asset value as reported by the investment advisor. The Statements of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

#### **Investment Valuation and Income Recognition**

Investments are stated at fair value, with investments in fully benefit-responsive contracts adjusted to contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 3 for discussion of fair value measurements. Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

#### **Use of Estimates in Preparation of Financial Statements**

The preparation of the accompanying financial statements in conformity with GAAP requires management to make estimates and assumptions that directly affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Actual results may differ from these estimates.

#### **Notes Receivable from Participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make note repayments and the plan administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded. Delinquent notes are treated as distributions based upon the terms of the plan document.

Twin Disc, Incorporated - The Accelerator 401(k) Savings Plan
Notes to Financial Statements
Note 2 Summary of Significant Accounting Policies (Continued)
Payment of Benefits
Benefits paid to participants are recorded when paid.
Administrative Expenses
Administrative expenses are note processing fees which are charged directly to the account of the participant to whom the note is made. Other administrative expenses of the Plan are paid by the Company at its discretion. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.
Subsequent Events
Subsequent events have been evaluated through June 10, 2016, which is the date the financial statements were available to be issued.
Note 3 Fair Value Measurements

A fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy are

described below:

Level Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Twin Disc, Incorporated - The Accelerator 401(k) Savings Plan
Notes to Financial Statements

#### **Note 3 Fair Value Measurements** (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust: T. Rowe Price Stable Value Fund ("Fund") is valued at the fair value of underlying securities held by the issuer and designated for payment of benefit-responsive withdrawals and the price of benefit-responsive contracts of comparable quality and terms based, in part, on issuer quotes. The fair value of wrap contracts reflects the discounted present value of the difference between the current wrap contract cost and its replacement cost, based on issuer quotes. Market value events may limit the ability of the Fund to transact at contract value.

The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the stable value funds constant NAV. Distribution to the Fund's unit holders is declared daily from the net investment income and automatically reinvested in the Fund on a monthly basis, when paid. It is the policy of the Fund to use its best efforts to maintain the stable NAV per unit, although there is no guarantee that the Fund will be able to maintain this value.

Common stock: Valued at the closing price reported on the active market on which the individual stock is traded.

Twin Disc, Incorporated - The Accelerator 401(k) Savings Plan

Notes to Financial Statements

#### **Note 3 Fair Value Measurements (Continued)**

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at:

# Note 5 Stable Value Fund

The Fund invests primarily in conventional guaranteed investment contracts and synthetic investment contracts issued by life insurance companies, banks, and other financial institutions, with the objective of providing a high level of return that is consistent with also providing stability of investment return, preservation of capital, and liquidity to pay plan benefits of its retirement plan investors.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. The Fund imposes certain restrictions on the Plan, and the Fund itself may be subject to circumstances that impact its ability to transact at contract value. Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value is remote.

The following summarizes the Fund:

# Fair Value Estimated Using Net Asset Value per Share at December 31, 2015

<sup>(1)</sup> The Fund strategies seek to maximize current income while maintaining invested principal. The Plan is required to give notice one day in advance of a partial or total liquidation of the investment for any purpose other than for benefit payments, participant-directed investment transfers and payment of administrative fees. The Plan administrator is also required to give a 30-day notice of the liquidation of the Fund due to the termination of the Plan.

Twin Disc, Incorporated - The Accelerator 401(k) Savings Plan

Notes to Financial Statements

#### **Note 6 Plan Termination**

Although it has not expressed any intent to do so, the Company has the right to discontinue contributions and to terminate the Plan subject to the provisions of ERISA.

#### **Note 7 Income Tax Status**

The Internal Revenue Service ("IRS") has determined by a letter dated June 19, 2012, that the Plan was designed in accordance with the applicable sections of the IRC. The Plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Accordingly, the Plan administrator believes the Plan is exempt from federal and state income taxes. Plan management evaluates uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there were no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions and there are currently no audits in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

#### **Note 8 Risk and Uncertainties**

The Plan's investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

#### **Note 9 Party-In-Interest Transactions**

The Plan holds shares of mutual funds and units in a common collective trust managed by an affiliate of the Plan Trustee. The Plan also invests in the common stock of the Company and issues notes receivable to participants. These transactions qualify as party-in-interest transactions. These transactions are not considered prohibited transactions under 29 CFR 480(b) of the ERISA regulations. Fees incurred by the Plan for the investment management services are

included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.
