**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

For the quarterly period ended June 30, 2018

Or
**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

Commission file number 001-34942

Inphi Corporation

(Exact Name of Registrant as Specified in Its Charter)

Delaware **77-0557980**
(State or Other Jurisdiction (I.R.S. Employer
of Incorporation or Organization) Identification No.)

2953 Bunker Hill Lane, Suite 300,

Santa Clara, California 95054

(Address of Principal Executive Offices) (Zip Code)

Registrant's telephone number, including area code: (408) 217-7300

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company Emerging growth company
(Do not check if a smaller reporting company)

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in 12b-2 of the Exchange Act). Yes No

The total number of shares outstanding of the Registrant's common stock, \$0.001 par value per share, as of August 3, 2018 was 43,850,494.

Inphi Corporation

Notes to Unaudited Condensed Consolidated Financial Statements

(Dollars in thousands except share and per share amounts)

1. Organization and Basis of Presentation

Inphi Corporation (the “Company”), a Delaware corporation, was incorporated in November 2000. The Company is a fabless provider of high-speed analog and mixed signal semiconductor solutions for the communications and datacenter markets. The Company’s semiconductor solutions are designed to address bandwidth bottlenecks in networks, maximize throughput and minimize latency in computing environments and enable the rollout of next generation communications and datacenter infrastructures. In addition, the semiconductor solutions provide a vital high-speed interface between analog signals and digital information in high-performance systems such as telecommunications transport systems, enterprise networking equipment and datacenters.

The interim unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and in accordance with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. They do not include all of the information and footnotes required by GAAP for complete financial statements. Therefore, these interim unaudited condensed consolidated financial statements should be read in conjunction with the Company’s audited consolidated financial statements and notes thereto for the year ended December 31, 2017, included in the Company’s Annual Report on Form 10-K filed with the Securities and Exchange Commission (“SEC”) on February 28, 2018.

The interim condensed consolidated financial statements included herein are unaudited; however, they contain all normal recurring accruals and adjustments that, in the opinion of management, are necessary to state fairly the Company’s consolidated financial position at June 30, 2018, and its consolidated results of operations for the three and six months ended June 30, 2018 and 2017 and cash flows for the six months ended June 30, 2018 and 2017. The results of operations for the three and six months ended June 30, 2018 are not necessarily indicative of the results to be expected for future quarters or the full year.

2. Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued guidance on “Revenue from Contracts with Customers.” The new revenue recognition guidance provides a five-step analysis of transactions to determine when and how revenue is recognized. The guidance requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The FASB issued several updates to the guidance. The Company adopted the new revenue guidance effective January 1, 2018, using the modified retrospective transition method applied to those contracts which were not completed as of that date. See Note 3 of the condensed consolidated financial statements for further details.

In January 2016, the FASB issued guidance that requires equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer. The guidance simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment. When a qualitative assessment indicates that impairment exists, an entity is required to measure the investment at fair value. The guidance eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet, and requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes. The guidance also requires an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. Separate presentation of financial assets and financial liabilities by measurement category and form of financial asset (that is, securities or loans and receivables) on the balance sheet or the accompanying notes to the financial statements is required under this guidance. The guidance further clarifies that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity’s other deferred tax assets. The Company adopted this guidance starting January 1, 2018 and concluded that there was no cumulative effect adjustment. The Company has elected to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer (referred to as the measurement alternative). See Note 4 of the condensed consolidated financial statements for further details.

Table of Contents

Inphi Corporation

Notes to Unaudited Condensed Consolidated Financial Statements

(Dollars in thousands except share and per share amounts)

In February 2016, the FASB issued guidance that requires companies that lease assets (lessees) to recognize on the balance sheet the assets and liabilities for the rights and obligations created by the leases with lease terms of more than 12 months. This guidance is effective for the Company beginning January 1, 2019. Early adoption is permitted. The Company is currently evaluating the impact of this new guidance on its consolidated financial statements and related disclosures.

In June 2016, the FASB issued guidance which requires the credit losses related to debt securities classified as available-for sale to be presented as an allowance rather than as a write-down. This guidance is effective for the Company beginning after December 15, 2019. The Company is currently evaluating the impact that this guidance will have on its consolidated financial statements.

In August 2016, the FASB issued guidance related to the classification of certain transactions on the statement of cash flows. The guidance is effective for calendar year-end public companies in 2018. The adoption of this guidance did not have a material impact to the consolidated statements of cash flows.

In January 2017, the FASB issued guidance on classifying the definition of a business. This guidance clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. This guidance is effective for calendar year-end public companies in 2018. The adoption of this standard did not have a material impact to the consolidated financial statements.

In January 2017, the FASB issued guidance to simplify the measurement of goodwill by eliminating the Step 2 impairment test. Step 2 measures a goodwill impairment loss by comparing the implied fair value of a reporting unit's goodwill with the carrying amount of that goodwill. The new guidance requires an entity to compare the fair value of a reporting unit with its carrying amount and recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value. Additionally, an entity should consider income tax effects from any tax deductible goodwill on the carrying amount of the reporting unit when measuring the goodwill impairment loss, if applicable. The new guidance becomes effective for goodwill impairment tests in fiscal years beginning after December 15, 2019, though early adoption is permitted. The Company is currently evaluating the impact that this guidance will have on its consolidated financial statements.

In May 2017, the FASB issued guidance to clarify when to account for a change to the terms or conditions of a share-based payment award as a modification. Under the guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award changes as a result of the change in terms or conditions. The guidance is effective for calendar year-end beginning after December 15, 2017. The adoption of this standard did not have a material impact on the Company's consolidated financial statements and related disclosures.

In February 2018, the FASB issued guidance that allows an option to reclassify from accumulated other comprehensive income to retained earnings any stranded tax effects resulting from the Tax Cuts and Jobs Act (the "Tax Act"). The guidance will be effective for calendar years beginning after December 15, 2018, though early adoption is permitted in any interim period after issuance of the update. The Company is currently evaluating the impact that this guidance will have on its consolidated financial statements.

In June 2018, the FASB issued guidance to eliminate the separate guidance applicable to share-based payments to nonemployees. Under the new guidance, equity-classified share-based payment awards issued to nonemployees will be measured on the grant date, instead of being remeasured through the performance completion date (generally the vesting date), as required under the current guidance. The new guidance will also require recognition of compensation cost for awards with performance conditions when achievement of those conditions are probable, rather than upon their achievement. Further, the new guidance will eliminate the requirement to reassess the classification of nonemployee awards under the financial instruments literature upon vesting. Under the guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award changes as a result of the change in terms or conditions. The guidance will be effective for calendar year-end beginning after December 15, 2018. The Company is currently evaluating the impact that this guidance will have on its consolidated financial statements.

3. Revenue

On January 1, 2018, the Company adopted Accounting Standards Update (ASU) 2014-09, Revenue from Contract with Customers (Topic 606), using the modified retrospective method applied to those contracts which were not completed as of January 1, 2018. The adoption of this guidance resulted in no cumulative effect adjustment as of January 1, 2018. Starting January 1, 2018, the Company recognizes revenue on sales to distributors upon shipment and transfer of control (known as "sell-in" revenue recognition), rather than deferring recognition until distributors report that they have sold the products to their customers (known as "sell-through" revenue recognition). The impact to revenue for the three and six months ended June 30, 2018 was an increase of \$387 and \$3,173, respectively. The impact to cost of revenue for the three and six months ended June 30, 2018 was an increase of \$88 and \$542, respectively. The deferred revenue and inventories decreased by \$3,173 and \$542 as of June 30, 2018, respectively. Results for reporting periods beginning after January 1, 2018 are presented under the new revenue guidance, while prior periods will not be retrospectively adjusted and continue to be reported in accordance with the Company's historic revenue recognition accounting.

Table of Contents**Inphi Corporation****Notes to Unaudited Condensed Consolidated Financial Statements****(Dollars in thousands except share and per share amounts)**

The Company recognizes revenue when the control of the promised goods or services is transferred to customers in an amount that reflects the consideration the Company expects to receive in exchange for such goods or services.

The following table shows revenue by geography, based on the shipping location of customers:

	Three Months Ended		Six Months Ended	
	June 30, 2018	2017	June 30, 2018	2017
China	\$25,304	\$22,835	\$38,987	\$60,555
United States	18,561	18,834	46,963	31,043
Singapore	225	10,221	1,156	14,522
Thailand	12,895	9,885	16,120	23,738
Japan	2,418	9,960	4,141	20,654
Other	10,411	12,688	22,583	27,495
	\$69,814	\$84,423	\$129,950	\$178,007

Product Revenue

The Company's products are fully functional at the time of shipment and do not require additional production, modification, or customization. The Company recognizes revenue upon transfer of control at a point in time when title transfers either upon shipment to or receipt by the customer, net of accruals for estimated sales returns and allowances. Sales and other taxes the Company collects are excluded from revenue. The fee is based on specific products and quantities to be delivered at specified prices, which is evidenced by a customer purchase order or other persuasive evidence of an arrangement. Certain distributors may receive a credit for the price discounts associated with the distributors' customers that purchased those products. The Company estimates the extent of these distributor price discounts at each reporting period to reduce accounts receivable and revenue. Although the Company accrues an estimate of distributor price discount, the Company does not issue these discounts to the distributor until the inventory is sold to the distributors' customers. As of June 30, 2018, the estimated price discount was \$682. Payment terms of customers are typically 30 to 60 days after invoice date. The Company's products are under warranty against defects in material and workmanship generally for a period of one or two years. The Company accrues for estimated warranty cost at the time of sale based on anticipated warranty claims and actual historical warranty claims experience

including knowledge of specific product failures that are outside of the Company's typical experience.

Other Revenue

Occasionally, the Company enters into license and development agreements with some of its customers and recognizes revenue from these agreements upon completion and acceptance by the customer of contract deliverables by milestones or as services are provided, depending on the terms of the arrangement. Revenue is deferred for any amounts billed or received prior to completion of milestones or delivery of services. The Company believes the milestone method best depicts efforts expended to transfer services to the customers. Certain contracts may include multiple performance obligations in which the Company allocates revenues to each performance obligation based on relative stand-alone selling price. The Company determines stand-alone selling prices based on the adjusted market assessment approach or residual approach, if applicable.

The Company does not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less or (ii) contracts for which the Company recognizes revenue at the amount to which the right to invoice for services performed.

Table of Contents**Inphi Corporation****Notes to Unaudited Condensed Consolidated Financial Statements****(Dollars in thousands except share and per share amounts)****4. Investments**

The following table summarizes the investments by investment category:

	June 30, 2018		December 31, 2017	
	Cost	Fair Value	Cost	Fair Value
Available-for-sale securities:				
Municipal bonds	\$19,599	\$19,562	\$27,725	\$27,657
Corporate notes/bonds	138,357	138,066	146,549	146,401
Variable rate demand notes	3,500	3,500	3,500	3,500
Commercial paper	42,628	42,627	57,006	56,994
Asset backed securities	24,935	24,884	7,197	7,185
Total investments	\$229,019	\$228,639	\$241,977	\$241,737

As of June 30, 2018, the Company had 84 investments that were in an unrealized loss position. The gross unrealized losses on these investments at June 30, 2018 of \$429 were determined to be temporary in nature. The Company reviews the investments to identify and evaluate investments that have an indication of possible other-than-temporary impairment. Factors considered in determining whether a loss is other-than-temporary include the length of time and extent to which fair value has been less than the cost basis, the financial condition and near-term prospects of the investee, and the intent and ability to hold the investment for a period of time sufficient to allow for any anticipated recovery in market value.

The contractual maturities of available-for-sale securities at June 30, 2018 are presented in the following table:

	Cost	Fair Value
Due in one year or less	\$157,104	\$156,919
Due between one and five years	68,415	68,220
Due after five years	3,500	3,500

\$229,019 \$228,639

The Company has a marketable equity investment in a company located in Taiwan. The fair value of the investment and unrealized loss as of June 30, 2018 was \$1,803 and \$192, respectively. This investment is presented as Other assets, net on the condensed consolidated balance sheet.

The Company has non-marketable equity investments in privately held companies without readily determinable market values. Prior to January 1, 2018, the Company accounted for non-marketable equity investments at cost less impairment. Realized gains and losses on non-marketable equity investments sold or impaired were recognized in Other income, net. On January 1, 2018, the Company adopted ASU 2016-01, Financial Instruments – Recognition and Measurement of Financial Assets and Financial Liabilities, which changed the way the Company accounts for non-marketable equity investments. The Company adjusts the carrying value of non-marketable equity investments to fair value upon observable transactions for identical or similar investments of the same issuer or impairment (referred to as the measurement alternative). All gains and losses on non-marketable equity investments, realized and unrealized, are recognized in Other income, net. There was no cumulative effect adjustment upon adoption of this guidance. As of June 30, 2018, non-marketable equity investments had a carrying value of approximately \$23,866, of which \$6,066 was remeasured to fair value based on observable transaction during the six months ended June 30, 2018. These investments are presented as Other assets, net on the condensed consolidated balance sheet. The unrealized gain recorded in other income and included as adjustment to the carrying value of non-marketable equity investments held as of June 30, 2018 was \$3,066 for the six months ended June 30, 2018.

Table of Contents**Inphi Corporation****Notes to Unaudited Condensed Consolidated Financial Statements****(Dollars in thousands except share and per share amounts)****5. Inventories**

Inventories consist of the following:

	June 30,	December 31,
	2018	2017
Raw materials	\$15,134	\$ 12,267
Work in process	13,826	13,800
Finished goods	4,889	5,654
	\$33,849	\$ 31,721

6. Property and Equipment, net

Property and equipment consist of the following:

	June 30,	December 31,
	2018	2017
Laboratory and production equipment	\$112,121	\$ 94,609
Office, software and computer equipment	28,894	28,594
Furniture and fixtures	1,530	1,698
Leasehold improvements	7,592	7,250
	150,137	132,151
Less accumulated depreciation	(81,159)	(71,807)
	\$68,978	\$ 60,344

Depreciation and amortization expense of property and equipment for the three and six months ended June 30, 2018 was \$4,753 and \$9,796, respectively. Depreciation and amortization expense of property and equipment for the three and six months ended June 30, 2017 was \$5,028 and \$9,899, respectively.

As of June 30, 2018 and December 31, 2017, computer software costs included in property and equipment was \$7,236 and \$7,181, respectively. Amortization expense of capitalized computer software costs was \$159 and \$345 for the three and six months ended June 30, 2018, respectively. Amortization expense of capitalized computer software costs was \$262 and \$539 for the three and six months ended June 30, 2017, respectively.

Property and equipment not yet paid as of June 30, 2018 and December 31, 2017 was \$4,426 and \$3,339, respectively.

The Company leases certain equipment under capital lease agreements. Assets held under capital leases are included in property and equipment above. Gross amount and accumulated depreciation of assets under capital lease as of June 30, 2018 was \$3,639 and \$1,329, respectively. Gross amount and accumulated depreciation of assets under capital lease as of December 31, 2017 was \$3,639 and \$898, respectively.

Table of Contents**Inphi Corporation****Notes to Unaudited Condensed Consolidated Financial Statements****(Dollars in thousands except share and per share amounts)**

The minimum lease payments under capital leases as of June 30, 2018 are as follows:

2018 (remaining)	\$ 300
2019	501
2020	364
2021	94
Total minimum lease payments	1,259
Less: Amount representing interest	159
Minimum lease payments, net of interest	\$ 1,100

7. Identifiable Intangible Assets

The following table presents details of identifiable intangible assets:

	June 30, 2018			December 31, 2017		
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
Developed technology	\$ 126,300	\$ 66,931	\$ 59,369	\$ 126,300	\$ 53,533	\$ 72,767
Customer relationships	70,540	16,818	53,722	70,540	11,954	58,586
Trade name	2,310	1,119	1,191	2,310	888	1,422
Patents	1,579	811	768	1,579	734	845
Software	62,841	24,637	38,204	47,039	18,226	28,813
In-process research and development	60,500	—	60,500	60,500	—	60,500
	\$ 324,070	\$ 110,316	\$ 213,754	\$ 308,268	\$ 85,335	\$ 222,933

The in-process research and development is expected to be completed in the second half of 2018.

The following table presents amortization of intangible assets for the three and six months ended June 30, 2018 and 2017:

	Three Months Ended		Six Months Ended	
	June 30, 2018	2017	June 30, 2018	2017
Cost of goods sold	\$6,699	\$7,249	\$13,398	\$14,499
Research and development	4,524	4,515	9,079	9,221

General and administrative	152	163	308	324
	\$13,807	\$14,359	\$27,649	\$28,908

Table of Contents**Inphi Corporation****Notes to Unaudited Condensed Consolidated Financial Statements****(Dollars in thousands except share and per share amounts)**

Based on the amount of intangible assets subject to amortization at June 30, 2018, the expected amortization expense for each of the next five fiscal years and thereafter is as follows:

2018 (remaining)	\$28,612
2019	54,704
2020	26,741
2021	20,787
2022	12,161
Thereafter	10,249
	\$153,254

The weighted-average amortization periods remaining by intangible asset category are as follows (in years):

Developed technology	2.7
Customer relationship	5.5
Trade name	3.0
Patents	8.3
Software	2.1

8. Product Warranty Obligation

As of June 30, 2018 and December 31, 2017, the product warranty liability was \$110. There was no change in product warranty liability during the three and six months ended June 30, 2018 and 2017.

9. Convertible debt

In December 2015, the Company issued \$230,000 of 1.125% convertible senior notes due 2020 (Convertible Notes 2015). The Convertible Notes 2015 will mature December 1, 2020, unless earlier converted or repurchased. Interest on the Convertible Notes 2015 is payable on June 1 and December 1 of each year, beginning on June 1, 2016. The initial conversion rate is 24.8988 shares of common stock per \$1 principal amount of Convertible Notes 2015, which represents an initial conversion price of approximately \$40.16 per share. The total interest expense recognized for the three months ended June 30, 2018 was \$3,564, which consists of \$646 of contractual interest expense, \$2,677 of amortization of debt discount and \$241 of amortization of debt issuance costs. The total interest expense recognized for the six months ended June 30, 2018 was \$7,033, which consists of \$1,286 of contractual interest expense, \$5,272 of amortization of debt discount and \$475 of amortization of debt issuance costs. The total interest expense recognized for the three months ended June 30, 2017 was \$3,360, which consists of \$645 of contractual interest expense, \$2,490 of amortization of debt discount and \$225 of amortization of debt issuance costs. The total interest expense recognized for the six months ended June 30, 2017 was \$6,632, which consists of \$1,285 of contractual interest expense, \$4,905 of amortization of debt discount and \$442 of amortization of debt issuance costs.

In connection with the issuance of the Convertible Notes 2015, the Company entered into capped call transactions (Capped Call 2015) in private transactions. Under the Capped Call 2015, the Company purchased capped call options that in aggregate relate to 100% of the total number of shares of the Company's common stock underlying the Convertible Notes 2015, with a strike price equal to the conversion price of the Convertible Notes 2015 and with a cap price equal to \$52.06 per share.

In September 2016, the Company issued \$287,500 of 0.75% convertible senior notes due 2021 (Convertible Notes 2016, and together with the Convertible Notes 2015, the Convertible Notes). The Convertible Notes 2016 will mature September 1, 2021, unless earlier converted or repurchased. Interest on the Convertible Notes 2016 is payable on March 1 and September 1 of each year, beginning on March 1, 2017. The initial conversion rate is 17.7508 shares of common stock per \$1 principal amount of Convertible Notes 2016, which represents an initial conversion price of approximately \$56.34 per share. The total interest expense recognized for the three months ended June 30, 2018 was \$4,138, which consists of \$533 of contractual interest expense, \$3,332 of amortization of debt discount and \$273 of amortization of debt issuance costs. The total interest expense recognized for the six months ended June 30, 2018 was \$8,172, which consists of \$1,066 of contractual interest expense, \$6,568 of amortization of debt discount and \$538 of amortization of debt issuance costs. The total interest expense recognized for the three months ended June 30, 2017 was \$3,892, which consists of \$533 of contractual interest expense, \$3,104 of amortization of debt discount and \$255 of amortization of debt issuance costs. The total interest expense recognized for the six months ended June 30, 2017 was \$7,686, which consists of \$1,065 of contractual interest expense, \$6,120 of amortization of debt discount and \$501 of amortization of debt issuance costs.

Table of Contents**Inphi Corporation****Notes to Unaudited Condensed Consolidated Financial Statements****(Dollars in thousands except share and per share amounts)**

In connection with the issuance of the Convertible Notes 2016, the Company entered into capped call transactions (Capped Call 2016) in private transactions. Under the Capped Call 2016, the Company purchased capped call options that in aggregate relate to 100% of the total number of shares of the Company's common stock underlying the Convertible Notes 2016, with a strike price approximately equal to the conversion price of the Convertible Notes 2016 and with a cap price equal to approximately \$73.03 per share.

10. Other liabilities

Other current liabilities consist of the following:

	June 30, 2018	December 31, 2017
Obligations under capital lease	\$483	\$ 539
Intangible asset liability	20,827	16,892
Settlement claim liability	8,114	—
Others	2,483	3,956
	\$31,907	\$ 21,387

Other long-term liabilities consist of the following:

	June 30, 2018	December 31, 2017
Deferred rent	\$1,394	\$ 1,487
Income tax payable	736	830
Obligations under capital lease	617	857
Intangible asset liability	17,719	14,445

Deferred tax liabilities	—	6,146
Others	1,187	862
	\$21,653	\$ 24,627

11. Income Taxes

The Company normally determines its interim provision using an estimated single annual effective tax rate for all tax jurisdictions. ASC 740 provides that when an entity operates in a jurisdiction that has generated ordinary losses on a year-to-date basis or on the basis of the results anticipated for the full fiscal year and no benefit can be recognized on those losses, a separate effective tax rate should be computed and applied to ordinary income (or loss) in that jurisdiction. The Company incurred pretax loss during the three and six months ended June 30, 2018 and 2017 from its U.S. operations and will not recognize tax benefit of the losses due to full valuation allowance established against deferred tax assets. Thus, a separate effective tax rate was applied to losses from the U.S. jurisdiction to compute the Company's interim tax provision.

The Company recorded an income tax provision (benefit) of \$58 and (\$8,203) in the three and six months ended June 30, 2018, respectively. The effective tax rates were (0.2%) and 13.7% in the three and six months ended June 30, 2018, respectively. The difference between the effective tax rates and the 21% federal statutory rate and the 34% federal statutory rate in the three and six months ended June 30, 2018 and 2017, respectively, resulted primarily due to change in valuation allowance, foreign income taxes provided at lower rates, geographic mix in expected operating results, unrecognized tax benefits, recognition of federal and state research and development credits, windfall tax benefits from stock-based compensation, and the international provisions from the Tax Act enacted in December 2017. The income tax expense for the three months ended June 30, 2018, included an accrual for unrecognized tax benefit for foreign taxes. The income tax benefit for the six months ended June 30, 2018, primarily consists of the partial release of federal valuation allowance resulting from the anticipated transfer of an acquired in-process research and development to developed technology in 2018 which allowed the related deferred tax liability to be considered a source of income for realizing deferred tax assets, as well as the revaluation of the foreign deferred tax liability on the in-process research and development based on the foreign tax rates applicable to the anticipated reversal periods.

Table of Contents

Inphi Corporation

Notes to Unaudited Condensed Consolidated Financial Statements

(Dollars in thousands except share and per share amounts)

The Company recorded an income tax provision of \$371 and \$823 in the three and six months ended June 30, 2017, respectively. The effective tax rate for both the three and six months ended June 30, 2017 was (3%). The difference between the effective tax rates and the 34% federal statutory rate was primarily due to change in valuation allowance, foreign income taxes provided at lower rates, geographic mix in expected operating results, unrecognized tax benefits, recognition of federal and state research and development credits and windfall tax benefits from stock-based compensation.

During the three and six months ended June 30, 2018, the gross amount of the Company's unrecognized tax benefits increased approximately \$2,949 and \$4,209, respectively, primarily as a result of tax positions taken during the current year. Substantially all of the unrecognized tax benefits as of June 30, 2018, if recognized, would affect the Company's effective tax rate before offset by valuation allowance. However, as a significant amount of the Company's unrecognized tax benefits is recorded against deferred tax asset, a recognition of such unrecognized benefits would be offset by an increase in valuation allowance, resulting in no net effect on the effective tax rate. The Company believes that in the next twelve months, it is reasonably possible that the gross unrecognized tax benefit may decrease by approximately \$61 due to expiration of statute of limitations on certain foreign income taxes.

The Company is currently under examination by the Inland Revenue Authority of Singapore ("IRAS") for the years 2010, 2011 and 2012. The audit adjustment made by IRAS to date generally affected only the timing of certain deductions claimed in those years and had no net effect on the Company's income statement. IRAS is still in the process of examining the valuation of certain intangible assets transferred to Singapore during the years under audit, which may affect the deduction of related amortization in the subsequent years. As of the report date, the examination is ongoing.

The Tax Act made significant changes to U.S. federal corporate taxation, including a reduction of the corporate tax rate from 35% to 21% effective January 1, 2018, a one-time transition tax on deemed mandatory repatriation of accumulated earnings and profits of foreign subsidiaries in conjunction with the elimination of U.S. tax on dividend distributions from foreign subsidiaries as of December 31, 2017, and inclusion of global intangible low-tax income ("GILTI") earned by certain foreign subsidiaries. During the three and six months ended June 30, 2018, there were no changes made to the provisional estimates that were recorded in the fourth quarter of 2017. The Company will continue to analyze the effects of the Tax Act on the condensed consolidated financial statements.

In January 2018, the FASB released guidance on the accounting for tax on the GILTI inclusion. Entities can make an accounting policy election to either recognize deferred taxes for temporary basis differences expected to reverse as GILTI in future years or account for GILTI as a period cost in the year the tax is incurred. The Company has not made an election. The Company continues to evaluate the impact of the Tax Act, including provisions impacting certain foreign income, such as a GILTI tax and a deduction for foreign derived intangible income. During the three and six months ended June 30, 2018, these items did not result in an impact to the Company's effective tax rate.

12. Earnings Per Share

The following securities were not included in the computation of diluted earnings per share as inclusion would have been anti-dilutive:

	Three Months Ended		Six Months Ended	
	June 30, 2018	2017	June 30, 2018	2017
Common stock options	1,197,891	1,436,718	1,237,305	1,504,466
Unvested restricted stock unit	2,993,650	2,591,673	2,857,301	3,365,095
Convertible debt	10,830,038	10,830,038	10,830,038	10,830,038
	15,021,579	14,858,429	14,924,644	15,699,599

13. Stock-Based Compensation

In June 2010, the Board of Directors (the "Board") approved the Company's 2010 Stock Incentive Plan (the "2010 Plan"), which became effective in November 2010. The 2010 Plan provides for the grants of restricted stock, stock appreciation rights and stock unit awards to employees, non-employee directors, advisors and consultants. The compensation committee of the Board administers the 2010 Plan, including the determination of the recipient of an award, the number of shares subject to each award, whether an option is to be classified as an incentive stock option or nonstatutory option, and the terms and conditions of each award, including the exercise and purchase prices and the vesting or duration of the award. Options granted under the 2010 Plan are exercisable only upon vesting. At June 30, 2018, 4,342,913 shares of common stock have been reserved for future grants under the 2010 Plan.

Table of Contents**Inphi Corporation****Notes to Unaudited Condensed Consolidated Financial Statements****(Dollars in thousands except share and per share amounts)*****Stock Option Awards***

The Company did not grant any stock options during the three and six months ended June 30, 2018 and 2017.

The following table summarizes information regarding options outstanding:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value
Outstanding at December 31, 2017	1,346,863	\$ 11.67	3.26	\$ 33,578
Exercised	(158,304)	3.09		
Outstanding at June 30, 2018	1,188,559	\$ 12.81	3.11	\$ 23,531
Vested and exercisable at June 30, 2018	1,188,559	\$ 12.81	3.11	\$ 23,531

The intrinsic value of options outstanding, exercisable and vested and expected to vest is calculated based on the difference between the exercise price and the fair value of the Company's common stock as of the respective balance sheet dates.

The total intrinsic value of options exercised during the six months ended June 30, 2018 and 2017 was \$3,711 and \$8,635, respectively. The intrinsic value of exercised options is calculated based on the difference between the exercise price and the fair value of the Company's common stock as of the exercise date. Cash received from the exercise of stock options was \$489 and \$1,485, respectively, for the six months ended June 30, 2018 and 2017.

Restricted Stock Units

The Company granted restricted stock units (“RSUs”) to members of the Board and employees. Most of the Company’s outstanding RSUs vest over four years with vesting contingent upon continuous service. The Company estimates the fair value of RSUs using the market price of the common stock on the date of the grant. The fair value of these awards is amortized on a straight-line basis over the vesting period.

The following table summarizes information regarding outstanding RSUs:

	Number of Shares	Weighted Average Grant Date Fair Value Per Share
Outstanding at December 31, 2017	3,987,552	\$ 34.48
Granted	2,043,687	31.56
Vested	(1,092,258)	28.72
Canceled	(388,410)	37.65
Outstanding at June 30, 2018	4,550,571	\$ 34.28
Expected to vest at June 30, 2018	4,416,021	

The RSUs include performance-based stock units subject to achievement of pre-established revenue goal and earnings per share on non-GAAP basis. Once the goals are met, the performance-based stock units are subject to four years of vesting from the original grant date, contingent upon continuous service. The total performance-based units that vested for the six months ended June 30, 2018 was 87,830. As of June 30, 2018, the total performance-based units outstanding was 128,359.

Table of Contents**Inphi Corporation****Notes to Unaudited Condensed Consolidated Financial Statements****(Dollars in thousands except share and per share amounts)*****Market Value Stock Units***

In January 2018, the compensation committee of the Board approved long-term market value stock unit (MVSU) awards to certain executive officers and employees, subject to certain market and service conditions in the maximum total amount of 801,000 units. Recipients may earn between 0% to 225% of the target number of shares based on the Company's achievement of total shareholder return (TSR) in comparison to the TSR of companies in the S&P 500 Index over a period of approximately three years in length ending in the first calendar quarter of 2021 after reporting of fiscal year 2020 results. If the Company's absolute TSR is negative for the performance period, then the maximum number of shares that may be earned is the target number of shares. The fair value of the MVSU awards was estimated using Monte Carlo simulation model and compensation is being recognized ratably over the performance period. The expected volatility of the Company's common stock was estimated based on historical average volatility rate for the three-year performance period. The dividend yield assumption was based on historical and anticipated dividend payouts. The risk-free interest rate assumption was based on observed interest rates consistent with three-year performance measurement period. The total amount of compensation to recognized over the performance period, and the assumptions used to value the grants are as follows:

Total target shares	356,000	
Fair value per share	\$55.81	
Total amount to be recognized over the performance period	\$19,868	
Risk free interest rate	2.29	%
Expected volatility	47.52	%
Dividend yield	—	

Employee Stock Purchase Plan

In December 2011, the Company adopted the Employee Stock Purchase Plan ("ESPP"). Participants purchase the Company's stock using payroll deductions, which may not exceed 15% of their total cash compensation. Pursuant to the terms of the ESPP, the "look-back" period for the stock purchase price is six months. Offering and purchase periods will begin on February 10 and August 10 of each year. Participants will be granted the right to purchase common stock at a price per share that is 85% of the lesser of the fair market value of the Company's common stock at the beginning or the end of each six-month period.

The ESPP imposes certain limitations upon an employee's right to acquire common stock, including the following: (i) no employee shall be granted a right to participate if such employee immediately after the election to purchase common stock, would own stock possessing 5% or more of the total combined voting power or value of all classes of stock of the Company, and (ii) no employee may be granted rights to purchase more than \$25 fair value of common stock for each calendar year. The maximum aggregate number of shares of common stock available for purchase under the ESPP is 1,750,000 shares. The total common stock issued under the ESPP during the six months ended June 30, 2018 and 2017 was 177,771 and 78,348, respectively.

The fair value of the ESPP is estimated at the start of offering period using the Black-Scholes option pricing model with the following assumptions:

	Six Months Ended	
	June 30, 2018	2017
Risk-free interest rate	1.79%	0.65 %
Expected life (in years)	0.49	0.50
Dividend yield	—	—
Expected volatility	48 %	38 %
Estimated fair value	\$7.42	\$12.58

Stock-Based Compensation Expense

Stock-based compensation expense is included in the Company's results of operations as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2018	2017	June 30, 2018	2017
Operating expenses				
Cost of goods sold	\$605	\$537	\$1,174	\$1,098
Research and development	9,741	7,274	18,239	13,189
Sales and marketing	3,241	2,119	6,483	3,801
General and administrative	2,629	1,315	4,873	2,387
	\$16,216	\$11,245	\$30,769	\$20,475

Table of Contents

Inphi Corporation

Notes to Unaudited Condensed Consolidated Financial Statements

(Dollars in thousands except share and per share amounts)

Total unrecognized compensation cost related to unvested stock options, restricted stock units and awards at June 30, 2018, prior to the consideration of expected forfeitures, is approximately \$152,507 and is expected to be recognized over a weighted-average period of 2.77 years.

14. Fair Value Measurements

The guidance on fair value measurements requires fair value measurements to be classified and disclosed in one of the following three categories:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability; or

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The Company measures its investments in marketable securities at fair value using the market approach, which uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The Company has cash equivalents, which consist of money market funds valued using the amortized cost method, in accordance with Rule 2a-7 under the 1940 Act, which approximates fair value.

The Company determines the amount of transfers between Levels 1 and 2 or transfers into or out of Level 3 by using the end-of-period fair value. The Company had no transfers among the fair value hierarchy during the three and six

months ended June 30, 2018.

The Convertible Notes are carried on the consolidated balance sheets at their original issuance value including accreted interest, net of unamortized debt discount and issuance cost. The Convertible Notes are not marked to fair value at the end of each reporting period. As of June 30, 2018 and December 31, 2017, the fair value of Convertible Notes was determined on the basis of market prices observable for similar instruments and is considered Level 2 in the fair value hierarchy.

The following table presents information about assets required to be carried at fair value on a recurring basis:

June 30, 2018	Total	Level 1	Level 2
Assets			
Cash equivalents:

Corporate notes/bonds	2,608	—	2,608
Commercial paper	76,456	—	76,456
Investment in marketable securities:			
Municipal bonds	27,657	—	27,657
Corporate notes/bonds	146,401	—	146,401
Variable rate demand notes	3,500	—	3,500
Asset backed securities	7,185	—	7,185
Commercial paper	56,994	—	56,994
	\$325,132	\$ 31	\$325,101
Liabilities			
Convertible Notes	\$555,200	\$ —	\$555,200

As discussed in Note 4, the Company has a marketable equity investment. The marketable equity investment is classified as Level 1 in the fair value hierarchy. As discussed in Note 4, the Company has non-marketable equity investments which are classified within Level 3 in the fair value hierarchy because the Company estimates the value based on valuation methods using the observable transaction price at the transaction date.

15. Segment and Geographic Information

The Company operates in one reportable segment. The Company's Chief Executive Officer, who is considered to be the chief operating decision maker, manages the Company's operations as a whole and reviews consolidated financial information for purposes of evaluating financial performance and allocating resources. Revenue by region is classified based on the locations to which the product is transported, which may differ from the customer's principal offices.

The following table sets forth the Company's revenue by geographic region:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2018	2017	2018	2017
China	\$25,304	\$22,835	\$38,987	\$60,555
United States	18,561	18,834	46,963	31,043
Singapore	225	10,221	1,156	14,522
Thailand	12,895	9,885	16,120	23,738
Japan	2,418	9,960	4,141	20,654
Other	10,411	12,688	22,583	27,495
	\$69,814	\$84,423	\$129,950	\$178,007

As of June 30, 2018, \$31,764 of long-lived tangible assets are located outside the United States, of which \$28,073 are located in Taiwan. As of December 31, 2017, \$8,695 of long-lived tangible assets are located outside the United States, of which \$4,647 are located in Taiwan.

16. Commitments and Contingencies

Leases

The Company leases its facility under noncancelable lease agreements expiring in various years through 2026. The Company also licenses certain software used in its research and development activities under a term license subscription and maintenance arrangement.

Table of Contents

Inphi Corporation

Notes to Unaudited Condensed Consolidated Financial Statements

(Dollars in thousands except share and per share amounts)

As of June 30, 2018, future minimum lease payments under noncancelable operating leases having initial terms in excess of one year are as follows:

2018 (remaining)	\$3,223
2019	5,623
2020	2,838
2021	1,981
2022	1,723
Thereafter	3,319
	\$18,707

For the three and six months ended June 30, 2018, lease operating expense was \$1,708 and \$3,448, respectively. For the three and six months ended June 30, 2017, lease operating expense was \$1,744 and \$3,366, respectively.

Noncancelable Purchase Obligations

The Company depends upon third party subcontractors to manufacture its wafers. These subcontractor relationships typically allow for the cancellation of outstanding purchase orders, but require payment of all expenses incurred through the date of cancellation. As of June 30, 2018, the total value of open purchase orders for wafers was approximately \$6,617. As of June 30, 2018, the Company has a commitment to pay \$1,339 for software licenses and \$560 for mask costs.

Legal Proceedings

Netlist, Inc. v. Inphi Corporation, Case No. 09-cv-6900 (C.D. Cal.)

On September 22, 2009, Netlist filed suit in the United States District Court, Central District of California, or the Court, asserting that the Company infringes U.S. Patent No. 7,532,537. Netlist filed an amended complaint on December 22, 2009, further asserting that the Company infringes U.S. Patent Nos. 7,619,912 and 7,636,274, collectively with U.S. Patent No. 7,532,537, the patents-in-suit, and seeking both unspecified monetary damages to be determined and an injunction to prevent further infringement. These infringement claims allege that the iMB™ and certain other memory module components infringe the patents-in-suit. The Company answered the amended complaint on February 11, 2010 and asserted that the Company does not infringe the patents-in-suit and that the patents-in-suit are invalid. In 2010, the Company filed *inter partes* requests for reexamination with the United States Patent and Trademark Office (the “USPTO”), asserting that the patents-in-suit are invalid. As a result of the proceedings at the USPTO, the Court has stayed the litigation, with the parties advising the Court on status every 120 days.

As to the proceeding at the USPTO, reexamination has been ordered for all of the patents that were alleged to infringe, and at present, the USPTO has determined that almost all of the originally filed claims are not valid, with certain amended claims being determined patentable. The Reexamination Certificate for U.S. Patent No. 7,532,537 was issued on August 2, 2016 based upon amended claims. The parties continue to assert their respective positions with respect to the reexamination proceeding for U.S. Patent No. 7,619,912. With respect to the reexamination proceeding for U.S. Patent No. 7,636,274, the Patent Trial and Appeal Board has determined that none of the claims are patentable, Netlist has dismissed its appeal to the U.S. Court of Appeals for the Federal Circuit regarding this determination, and the parties are awaiting the USPTO issuance of the Reexamination Certificate based upon these proceedings.

While the Company intends to defend the foregoing USPTO proceedings and lawsuit vigorously, the USPTO proceedings and litigation, whether or not determined in the Company’s favor or settled, could be costly and time-consuming and could divert management’s attention and resources, which could adversely affect the Company’s business.

Based on the nature of USPTO proceedings and litigation, the Company is currently unable to predict the final outcome of this lawsuit and therefore, cannot determine the likelihood of loss nor estimate a range of possible loss. However, because of the nature and inherent uncertainties of litigation, should the outcome of these actions be unfavorable, the Company’s business, financial condition, results of operations or cash flows could be materially and adversely affected.

Inphi Corporation

Notes to Unaudited Condensed Consolidated Financial Statements

(Dollars in thousands except share and per share amounts)

The Company entered into settlement agreements related to claims by certain customers of ClariPhy Communications Inc. (ClariPhy) associated with contracts entered prior to the acquisition date under which the Company will pay \$8,000 to the customers. The Company also entered into an agreement with former shareholders of ClariPhy that entitles the Company to recover \$4,875 from the escrow set up as part of the ClariPhy acquisition. The Company recorded a charge of \$2,125, net of amount previously accrued, during the three and six months ended June 30, 2018 included in General and administrative expenses in the condensed consolidated statements of income (loss).

Indemnifications

In the ordinary course of business, the Company may provide indemnifications of varying scope and terms to customers, vendors, lessors, investors, directors, officers, employees and other parties with respect to certain matters, including, but not limited to, losses arising out of the Company's breach of such agreements, services to be provided by the Company, or from intellectual property infringement claims made by third-parties. These indemnifications may survive termination of the underlying agreement and the maximum potential amount of future payments the Company could be required to make under these indemnification provisions may not be subject to maximum loss clauses. The Company has not incurred material costs to defend lawsuits or settle claims related to these indemnifications. Accordingly, the Company has no liabilities recorded for these agreements as of June 30, 2018 and December 31, 2017.

Table of Contents**Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion of our financial condition and results of operations should be read in conjunction with the condensed consolidated financial statements and notes to those statements included elsewhere in this Quarterly Report. This Management’s Discussion and Analysis of Financial Condition and Results of Operations and this report contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. When used in this report, the terms “may,” “might,” “will,” “objective,” “intend,” “should,” “could,” “can,” “would,” “expect,” “predict,” “potential,” “plan,” “anticipate,” “seek,” “future,” “strategy,” “likely,” or the negative of these terms, and similar, are intended to identify forward-looking statements. These statements include statements regarding our anticipated trends and challenges in our business and the markets in which we operate, including the market for 25G to 600G high-speed analog semiconductor solutions, demand for our current products, our plans for future products and anticipated features and benefits thereof, expansion of our product offerings and business activities, enhancements of existing products, critical accounting policies and estimates, our expectations regarding our expenses and revenue, sources of revenue, our tax benefits, the benefits of our products and services, increase in headcount, our technological capabilities and expertise, timing of the development of our products, our liquidity position and sufficiency thereof, including our anticipated cash needs and uses of cash, our ability to generate cash, our operating and capital expenditures and requirements and our needs for additional financing and potential consequences thereof, repatriation of cash balances from our foreign subsidiaries, our contractual obligations, our anticipated growth and growth strategies, including growing our end customer base, our ability to retain and attract customers, particularly in light of our dependence on a limited number of customers for a substantial portion of our revenue, competition, interest rate sensitivity, adequacy of our disclosure controls, our legal proceedings and warranty claims. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by these or any other forward-looking statements. These risks and uncertainties include, but are not limited to, those risks discussed below, as well as factors affecting our results of operations, our ability to manage our growth, our ability to sustain or increase profitability, demand for our solutions, the effect of declines in average selling prices for our products, our ability to compete, our ability to rapidly develop new technology and introduce new products, our ability to safeguard our intellectual property, our ability to qualify for tax holidays and incentives, trends in the semiconductor industry and fluctuations in general economic conditions, and the risks set forth throughout this report, including the risks set forth under Part II, “Item 1A, Risk Factors.” Readers are cautioned not to place undue reliance on these forward-looking statements, which are based on current expectations and reflect management’s opinions only as of the date hereof. These forward-looking statements speak only as of the date of this report. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations with regard thereto or any changes in events, conditions or circumstances on which any such statement is based.

Overview

Our Company

We are a fabless provider of high-speed analog and mixed signal semiconductor solutions for the communications and datacenter markets. Our analog and mixed signal semiconductor solutions provide high signal integrity at leading-edge data speeds while reducing system power consumption. Our semiconductor solutions are designed to address bandwidth bottlenecks in networks, maximize throughput and minimize latency in computing environments and enable the rollout of next generation communications and datacenter infrastructures. Our solutions provide a vital high-speed interface between analog signals and digital information in high-performance systems such as telecommunications transport systems, enterprise networking equipment and datacenters. We provide 25G to 600G high-speed analog semiconductor solutions for the communications market.

A detailed discussion of our business may be found in Part I, Item 1, “Business,” of our Annual Report on Form 10-K for the year ended December 31, 2017.

Table of Contents

Quarterly Update

As discussed in more detail below, for the three and six months ended June 30, 2018 compared to the three and six months ended June 30, 2017, we delivered the following financial performance:

- Revenue decreased by \$14.6 million, or 17.3%, to \$69.8 million in the three months ended June 30, 2018. In the six months ended June 30, 2018, revenues decreased by \$48.1 million, or 27.0%, to \$129.9 million.

- Gross profit as a percentage of revenue was consistent at 56.7% in the three months ended June 30, 2018 and 2017. In the six months ended June 30, 2018, gross profit as a percentage of revenue slightly decreased to 55.5% from 56.9%.

- Total operating expenses increased by \$5.8 million, or 10.3%, to \$61.5 million in the three months ended June 30, 2018. In the six months ended June 30, 2018, total operating expenses increased by \$8.2 million, or 7.2%, to \$122.0 million.

- Loss from operations increased by \$14.0 million to \$21.9 million in the three months ended June 30, 2018. In the six months ended June 30, 2018, loss from operations increased by \$37.4 million to \$49.9 million.

- Loss per share increased to \$0.65 from \$0.36 in the three months ended June 30, 2018. In the six months ended June 30, 2018, loss per share increased to \$1.19 from \$0.63.

The decrease in our revenue for the three and six months ended June 30, 2018 was primarily the result of a lower level of consumption of our long haul and metro products as well as our Cortina legacy products.

The decrease in gross profit as a percentage of revenue in the six months ended June 30, 2018 was due to change in product mix and lower revenue.

Total operating expenses for the three and six months ended June 30, 2018 increased year-over-year primarily due to an increase in stock-based compensation expense as a result of higher equity awards. Our expenses primarily consist of personnel costs, which include compensation, benefits, payroll related taxes and stock-based compensation. We expect expenses to continue to increase in absolute dollars as we continue to invest resources to develop more products and to support the growth of our business. Our diluted loss per share increased primarily due to lower revenue, increase in operating expenses, partially offset by benefit for income tax due to partial release of valuation allowance.

Our cash and cash equivalents were \$155.1 million at June 30, 2018, compared with \$163.4 million at December 31, 2017. Cash provided by operating activities was \$26.1 million during the six months ended June 30, 2018 compared to \$29.6 million during the six months ended June 30, 2017. Cash used in investing activities during the six months ended June 30, 2018 was \$26.2 million primarily due to purchases of marketable securities of \$124.8 million, purchases of property and equipment of \$17.7 million, purchase of equity investment of \$12.8 million, and payment of debt related to purchase of intangible assets of \$11.3 million, partially offset by sales and maturities of marketable securities totaling \$137.8 million and proceeds from sale of equity investment of \$2.4 million. Cash used in financing activities was \$8.2 million primarily due to minimum tax withholding paid on behalf of employees of \$12.3 million, partially offset by proceeds from employee stock purchase plan and exercise of stock options of \$4.2 million.

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with U.S. generally accepted accounting principles, or GAAP, requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net revenue and expenses in the reporting period. We regularly evaluate our estimates and assumptions related to allowances for doubtful accounts, warranty reserves, inventory reserves, stock-based compensation expense, goodwill and intangible assets valuation, deferred income tax asset valuation allowances, uncertain tax positions, litigation, other loss contingencies and business combinations. We base our estimates and assumptions on current facts, historical experience and various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the recording of revenue, costs and expenses that are not readily apparent from other sources. The actual results experienced by us may differ materially and adversely from our estimates. To the extent there are material differences between our estimates and the actual results, our future results of operations will be affected. For a description of our critical accounting policies and estimates, please refer to the “Critical Accounting Policies and Estimates” section of our Management’s Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended December 31, 2017. There have been no material changes in any of our critical accounting policies during the six months ended June 30, 2018. On January 1, 2018, we adopted ASU 2014-09, Revenue from Contract with Customers (Topic 606). We also adopted ASU 2016-1, Financial Instruments – Recognition and Measurement of Financial Assets and Financial Liabilities. The effects of these adoptions are discussed in Note 2 of notes to our unaudited condensed consolidated financial statements.

Table of Contents**Results of Operations**

The following table sets forth a summary of our statement of operations as a percentage of each line item to the revenue:

	Three Months		Six Months	
	Ended June		Ended June	
	30,	30,	30,	30,
	2018	2017	2018	2017
Revenue	100 %	100 %	100 %	100 %
Cost of revenue	43	43	44	43
Gross profit	57	57	56	57
Operating expenses:				
Research and development	61	47	66	45
Sales and marketing	15	12	17	12
General and administrative	12	7	11	7
Total operating expenses	88	66	94	64
Loss from operations	(31)	(9)	(38)	(7)
Interest expense	(11)	(9)	(12)	(8)
Other income	1	—	4	—
Loss before income taxes	(41)	(18)	(46)	(15)
Provision (benefit) for income taxes	—	—	(6)	—
Net loss	(41%)	(18%)	(40%)	(15%)

*Comparison of Three and Six Months Ended June 30, 2018 and 2017***Revenue**

	Three Months		Change	
	Ended June 30,		Amount	%
	2018	2017		
	(dollars in thousands)			
Revenue	\$69,814	\$84,423	\$(14,609)	(17%)

	Six Months Ended		Change	
	June 30,		Amount	%
	2018	2017		
	(dollars in thousands)			
Revenue	\$ 129,950	\$ 178,007	\$(48,057)	(27%)

Revenue for the three and six months ended June 30, 2018 decreased compared to corresponding 2017 periods mainly due to decrease in number of units sold, partially offset by increase in average selling price (ASP). Revenue for the three months ended June 30, 2018 decreased by \$14.6 million primarily due to decline in revenue from Cortina legacy and transport products by \$7.3 million and long haul and metro products by \$9.3 million. The decreases are partially offset by an increase in consumption of our data center products by \$1.9 million. The ASP for the three months ended June 30, 2018 increased by 211% due to a decrease in the number of units sold of lower ASP products such as Cortina legacy and transport. Revenue for the six months ended June 30, 2018 decreased by \$48.1 million primarily due to decline in revenue from long haul and metro products by \$56.4 million and Cortina legacy and transport products by \$8.5 million. The decreases are partially offset by an increase in revenue from data center products by \$16.9 million. The ASP for the six months ended June 30, 2018 slightly decreased by 2.6% due to product mix. The decline in revenue from long haul and metro products was partly driven by China original equipment manufacturers (OEMs) due to an oversupply which peaked in 2017. The remaining decline in revenue came from North American and European OEM's which also reflected a similar market weakness in communication products. The decline in revenue from Cortina legacy and transport products was due to end of life programs for certain older products initiated in 2017, the last shipments of which were made in the first quarter of 2018.

Table of Contents*Cost of Revenue and Gross Profit*

	Three Months Ended June 30,		Change	
	2018	2017	Amount	%
	(dollars in thousands)			
Cost of revenue	\$30,203	\$36,588	\$(6,385)	(17%)
Gross profit	\$39,611	\$47,835	\$(8,224)	(17%)
Gross profit as a percentage of revenue	57 %	57 %	—	—

	Six Months Ended June 30,		Change	
	2018	2017	Amount	%
	(dollars in thousands)			
Cost of revenue	\$57,793	\$76,659	\$(18,866)	(25%)
Gross profit	\$72,157	\$101,348	\$(29,191)	(29%)
Gross profit as a percentage of revenue	56 %	57 %	—	(1%)

Cost of revenue and gross profit for the three and six months ended June 30, 2018, decreased compared to the corresponding 2017 periods primarily due to decrease in revenue as discussed above. Gross profit as a percentage of revenue for both the three and six months ended June 30, 2018 were comparable to corresponding 2017 periods.

Research and Development

	Three Months Ended June 30,		Change	
	2018	2017	Amount	%
	(dollars in thousands)			
Research and development	\$42,804	\$39,437	\$3,367	9 %

	Six Months Ended June 30,		Change	
	2018	2017	Amount	%
	(dollars in thousands)			
Research and development	\$85,742	\$79,725	\$6,017	8 %

Research and development expenses for the three and six months ended June 30, 2018 increased compared to the corresponding 2017 periods primarily due to an increase in equity awards, which resulted in a \$2.5 million and \$5.1 million increase in stock-based compensation expense, respectively. In addition, for the three months and six months ended June 30, 2017, we recorded reimbursement from a customer related to research and development of \$3.0 million and none in 2018. Depreciation and allocated expenses increased by \$0.7 million and \$2.1 million during the three and six months ended June 30, 2018, respectively, due to an increase in equipment and higher engineering activities of operations group. These increases were partially offset by decrease in testing, laboratory supplies, pre-production engineering mask cost and consulting expenses by \$1.5 million and \$2.9 million during the three and six months ended June 30, 2018, respectively, due to cost reduction efforts implemented. In addition, salary and employee benefits decreased by \$1.4 million and \$1.3 million during the three and six months ended June 30, 2018, respectively, due to reduction in employee headcount as a result of restructuring and vacation usage. The increase in research and development expense was primarily driven by our strategy to continue to expand our product offerings and enhance our existing product offerings.

Table of Contents*Sales and Marketing*

	Three Months Ended June 30,		Change	
	2018	2017	Amount	%
	(dollars in thousands)			
Sales and marketing	\$10,311	\$10,539	\$(228)	(2%)

	Six Months Ended June 30,		Change	
	2018	2017	Amount	%
	(dollars in thousands)			
Sales and marketing	\$21,653	\$21,480	\$173	1%

Sales and marketing expenses for the three and six months ended June 30, 2018 were comparable to corresponding 2017 periods. For the three and six months ended June 30, 2018, personnel costs, including stock-based compensation expense, increased by \$0.3 million and \$1.5 million, respectively, due to higher equity awards. The increase was offset by decrease in commission and allocated expenses by \$0.2 million and \$0.9 million for the three and six months ended June 30, 2018, respectively, due to lower revenue and cost reduction efforts implemented.

General and Administrative

	Three Months Ended June 30,		Change	
	2018	2017	Amount	%
	(dollars in thousands)			
General and administrative	\$8,415	\$5,798	\$2,617	45%

	Six Months Ended June 30,		Change	
	2018	2017	Amount	%
	(dollars in thousands)			
General and administrative	\$14,633	\$12,593	\$2,040	16%

General and administrative expenses for the three and six months ended June 30, 2018 increased compared to the corresponding 2017 periods due to a loss recorded during the three months ended June 30, 2018 on a settlement of \$2.1 million for claims related to the ClariPhy acquisition. The settlement made up approximately 30% of a larger loss due to the termination of various engineering contracts for product customizations entered prior to the acquisition. The remaining loss was absorbed by the former shareholders of ClariPhy through the escrow set up as part of ClariPhy acquisition. The escrow fund has a remaining balance of approximately \$10.0 million to address certain other claims related to the acquisition up until December 12, 2018. Such claims may not be resolved until after December 12, 2018, at which time the balance of the escrow fund may be released. In addition, salaries and stock-based compensation increased by \$1.1 million and \$1.7 million for the three and six months ended June 30, 2018, respectively, due mainly to higher equity awards. The increases were partially offset by decrease in professional and consulting fees by \$0.1 million and \$1.0 million during the three and six months ended June 30, 2018, respectively, due to higher fees in 2017 in relation to the acquisition of ClariPhy. In addition, allocated expense decreased by \$0.4 million in both three and six months ended June 30, 2018 due to cost reduction efforts implemented.

Provision (benefit) for Income Taxes

	Three Months Ended June 30, 2018		2017		Change Amount%	
	(dollars in thousands)					
Provision (benefit) for income taxes	\$58	\$371	\$(313)		(84%)	

	Six Months Ended June 30, 2018		2017		Change Amount %	
	(dollars in thousands)					
Provision (benefit) for income taxes	\$(8,203)	\$823	\$(9,026)		N/M	

We normally determine our interim provision using an estimated single annual effective tax rate for all tax jurisdictions. ASC 740 provides that when an entity operates in a jurisdiction that has generated ordinary losses on a year-to-date basis or on the basis of the results anticipated for the full fiscal year and no benefit can be recognized on those losses, a separate effective tax rate should be computed and applied to ordinary income (or loss) in that jurisdiction. We incurred pretax loss during the three and six months ended June 30, 2018 and 2017 from our U.S. operations and will not recognize tax benefit of the losses due to full valuation allowance established against deferred tax assets. Thus, a separate effective tax rate was applied to losses from the U.S. jurisdiction to compute the Company's interim tax provision.

Table of Contents

The income tax provision (benefit) of \$0.06 million and (\$8.2) million for the three and six months ended June 30, 2018, reflects an effective tax rate of (0.2%) and 13.7%, respectively. The effective tax rate for the three and six months ended June 30, 2018 differed from the statutory rate of 21% primarily due to the change in valuation allowance, foreign income taxes provided at lower rates, geographic mix in operating results, unrecognized tax benefits, recognition of federal and state research and development credits, windfall tax benefits from stock-based compensation, and the international provisions from the Tax Act. The income tax expense for the three months ended June 30, 2018, includes an accrual for unrecognized tax benefit for foreign taxes. The income tax benefit for the six months ended June 30, 2018, primarily consist of the partial release of federal valuation allowance resulting from the anticipated transfer of an acquired in-process research and development to developed technology in 2018 which allowed the related deferred tax liability to be considered a source of income for realizing deferred tax assets, as well as the revaluation of the foreign deferred tax liability on the in-process research and development based on the foreign tax rates applicable to the anticipated reversal periods.

The income tax provision of \$0.4 million and \$0.8 million in the three and six months ended June 30, 2017, respectively, reflects an effective tax rate of (3%). The effective tax rate for both three and six months ended June 30, 2017 differs from the statutory rate of 34% primarily due to the change in valuation allowance, foreign income taxes provided at lower rates, geographic mix in expected operating results, unrecognized tax benefits, recognition of federal and state research and development credits and windfall tax benefits from stock-based compensation.

Liquidity and Capital Resources

As of June 30, 2018, we had cash, cash equivalents and investments in marketable securities of \$383.8 million. Our primary uses of cash are to fund operating expenses, purchase inventory and acquire property and equipment. Cash used to fund operating expenses is impacted by the timing of when we pay these expenses, as reflected in the changes in our outstanding accounts payable and accrued expenses. Our primary sources of cash are cash receipts on accounts receivable from our revenue. In 2015 and 2016, we issued convertible debt, which resulted in an increase in cash, cash equivalents and investments in marketable securities. Aside from the growth in amounts billed to our customers, net cash collections of accounts receivable are impacted by the efficiency of our cash collections process, which can vary from period to period, depending on the payment cycles of our major customers.

The following table summarizes our cash flows for the periods indicated:

Six Months

**Ended June 30,
2018 2017**

	(in thousands)	
Net cash provided by operating activities	\$26,112	\$29,634
Net cash provided by (used in) investing activities	(26,239)	2,508
Net cash used in financing activities	(8,181)	(14,719)
Net increase (decrease) in cash and cash equivalents	\$(8,308)	\$17,423

Net Cash Provided by Operating Activities

Net cash provided by operating activities during the six months ended June 30, 2018 primarily reflected depreciation and amortization of \$37.4 million, stock-based compensation expense of \$30.8 million, accretion of convertible debt and amortization of issuance expenses of \$12.9 million, decrease in accounts receivable of \$13.9 million and increase in other liabilities of \$7.8 million, partially offset by a net loss of \$51.5 million, deferred income taxes of \$8.6 million, net unrealized gain on equity investments of \$2.9 million, increases in inventory of \$2.1 million and prepaid expenses and other assets of \$4.2 million, decrease in accrued expenses of \$6.4 million, and change in income tax payable/receivable of \$1.4 million. Our accounts receivable decreased due mainly to collections. Other liabilities increased due mainly to amounts payable related to settlement of claims related to the ClariPhy acquisition. Our inventory increased in the first quarter due to lower shipments, which was then partially absorbed by second quarter shipments. Our prepaid expenses and other assets increased due to receivable from escrow related to settlement of claims related to the ClariPhy acquisition. Our accrued expenses decreased mainly due to the timing of payment of employee-related expenses.

Net cash provided by operating activities during the six months ended June 30, 2017 primarily reflected depreciation and amortization of \$38.8 million, stock-based compensation expense of \$20.5 million, accretion of convertible debt of \$12.0 million, and increases in accounts payable of \$4.5 million and deferred revenue of \$2.1 million, partially offset by a net loss of \$26.2 million, increases in accounts receivable of \$12.7 million and inventories of \$2.4 million, and decreases in accrued expenses of \$3.7 million and other liabilities of \$4.7 million. Our accounts payable increased due to increased production volume. Our deferred revenue increased due to higher inventory in the distributors and receipts from customers. Our accounts receivable increased due to higher product shipments to customers and longer payment terms of some customers. Inventories increased due to driver products. Our accrued expenses and other liabilities decreased mainly due to the timing of payments.

Table of Contents

Net Cash Provided by (Used in) Investing Activities

Net cash used in investing activities during the six months ended June 30, 2018 primarily consisted of purchases of marketable securities of \$124.8 million, purchases of property and equipment of \$17.7 million, purchases of equity investments of \$12.8 million, and payment of debt related to purchase of intangible assets of \$11.3 million, partially offset by proceeds from maturities and sales of marketable securities of \$137.8 million and proceeds from sale of equity investment of \$2.4 million.

Net cash provided by investing activities during the six months ended June 30, 2017 primarily consisted of cash used to purchase property and equipment of \$18.3 million, purchases of marketable securities of \$105.4 million, remaining payment to shareholders of ClariPhy of \$1.8 million, and payment of debt related to purchase of intangible assets of \$9.5 million, partially offset by sales and maturities of marketable securities of \$137.5 million.

Net Cash Used in Financing Activities

Net cash used in financing activities during the six months ended June 30, 2018 primarily consisted of minimum tax withholding paid on behalf of employees for restricted stock of \$12.3 million and payment of capital lease obligations of \$0.3 million, partially offset by proceeds from exercise of stock options and employee stock purchase plan of \$4.2 million and repayment of long-term loan provided to a supplier of \$0.2 million.

Net cash used in financing activities during the six months ended June 30, 2017 primarily consisted of minimum tax withholding paid on behalf of employees for restricted stock units of \$18.8 million, partially offset by proceeds from the exercise of stock options and employee stock purchase plan of \$4.3 million.

Operating and Capital Expenditure Requirements

Our principal source of liquidity as of June 30, 2018 consisted of \$383.8 million of cash, cash equivalents and investments in marketable securities, of which \$23.1 million is held by our foreign subsidiaries. Based on our current operating plan, we believe that our existing cash and cash equivalents from operations will be sufficient to finance our operational cash needs through at least the next 12 months. In the future, we expect our operating and capital

expenditures to increase as we increase headcount, expand our business activities and grow our end customer base which will result in higher needs for working capital. Our ability to generate cash from operations is also subject to substantial risks described in Part II, Item 1A, Risk Factors. If any of these risks occur, we may be unable to generate or sustain positive cash flow from operating activities. We would then be required to use existing cash and cash equivalents to support our working capital and other cash requirements. If additional funds are required to support our working capital requirements, acquisitions or other purposes, we may seek to raise funds through debt financing or from other sources. If we raise additional funds through the issuance of equity or convertible debt securities, the percentage ownership of our stockholders could be significantly diluted, and these newly-issued securities may have rights, preferences or privileges senior to those of existing stockholders. If we raise additional funds by obtaining loans from third parties, the terms of those financing arrangements may include negative covenants or other restrictions on our business that could impair our operating flexibility, and would also require us to incur interest expense. We can provide no assurance that additional financing will be available at all or, if available, that we would be able to obtain additional financing on terms favorable to us.

Table of Contents

We do not plan to repatriate cash balances from foreign subsidiaries to fund our operations in the United States. There may be adverse tax effects upon repatriation of these funds to the United States.

Contractual Payment Obligations

Our contractual obligations for 2018 and beyond are included in our Annual Report on Form 10-K for the year ended December 31, 2017, filed with the SEC on February 28, 2018. See Note 16 of the notes to our unaudited condensed consolidated financial statements for information regarding obligations as of June 30, 2018.

Off-Balance Sheet Arrangements

At June 30, 2018, we had no material off-balance sheet arrangements, other than our facility operating leases.

Recent Authoritative Accounting Guidance

See Note 2 of the notes to our unaudited condensed consolidated financial statements for information regarding recently issued accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Sensitivity

We had cash and cash equivalents and investments in marketable securities of \$383.8 million and \$405.2 million at June 30, 2018 and December 31, 2017, respectively, which was held for working capital purposes. Our exposure to market interest-rate risk relates primarily to our investment portfolio. We do not use derivative financial instruments to hedge the market risks of our investments. We manage our total portfolio to encompass a diversified pool of investment-grade securities to preserve principal and maintain liquidity. We place our investments with high-quality issuers, money market funds and debt securities. Our investment portfolio as of June 30, 2018 consisted of money market funds, municipal bonds, corporate bonds/notes, variable rate demand notes, commercial papers and asset backed securities. Investments in both fixed rate and floating rate instruments carry a degree of interest rate risk. Fixed rate securities may have their market value adversely impacted due to an increase in interest rates, while floating rate

securities may produce less income than expected if interest rates fall. Due in part to these factors, our future investment income may fall short of expectations due to changes in interest rates or if the decline in fair value of our publicly traded debt investments is judged to be other-than-temporary. We may suffer losses in principal if we are forced to sell securities that have declined in market value due to changes in interest rates. However, because any debt securities we hold are classified as available-for-sale, no gains or losses are realized in the income statement due to changes in interest rates unless such securities are sold prior to maturity or unless declines in value are determined to be other-than-temporary. These securities are reported at fair value with the related unrealized gains and losses, net of applicable taxes, included in accumulated other comprehensive income (loss), reported in a separate component of stockholders' equity. Although, we currently expect that our ability to access or liquidate these investments as needed to support our business activities will continue, we cannot ensure that this will not change.

In a low interest rate environment, as short-term investments mature, reinvestment may occur at less favorable market rates. Given the short-term nature of certain investments, the current interest rate environment may negatively impact our investment income.

As of June 30, 2018, we had outstanding debt of \$517.5 million in the form of Convertible Notes. The fair value of our Convertible Notes is subject to interest rate risk, market risk and other factors due to the convertible feature. The fair value of the Convertible Notes will generally increase as interest rates fall and decrease as interest rates rise. In addition, the fair value of the Convertible Notes will generally increase as our common stock price increases and will generally decrease as our common stock price declines in value. The interest and market value changes affect the fair value of our Convertible Notes but do not impact our financial position, cash flows or results of operations due to the fixed nature of the debt obligation.

Foreign Currency Risk

To date, our international customer and vendor agreements have been denominated almost exclusively in United States dollars. Accordingly, we have limited exposure to foreign currency exchange rates and currently enter into immaterial foreign currency hedging transactions.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures

We maintain “disclosure controls and procedures,” as such term is defined in Rule 13a-15(e) under the Securities Exchange Act 1934, or the Exchange Act, that are designed to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer (our principal executive officer) and Chief Financial Officer (our principal financial officer), as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that such controls and procedures, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Our disclosure controls and procedures have been designed to meet reasonable assurance standards, but management does not expect that our disclosure controls and procedures will prevent or detect all error and all fraud. Additionally, in designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures is also based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Based on their evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q, our Chief Executive Officer (our principal executive officer) and Chief Financial Officer (our principal financial officer) have concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The information required by this Item 1 is set forth under Note 16 of the notes to our unaudited condensed consolidated financial statements, included in Part I, Item 1 of this Report, and is hereby incorporated by reference herein. For an additional discussion of certain risks associated with legal proceedings, see Item 1A. Risk Factors, below.

Item 1A. Risk Factors

You should carefully consider the risks described in Part I, Item 1A, Risk Factors, of our Annual Report on Form 10-K for the year ended December 31, 2017, which are incorporated by reference herein, as our business, financial condition and results of operations could be adversely affected by any of the risks and uncertainties described therein. There have been no material changes in our risk factors from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2017 and in our Quarterly Report on Form 10-Q for the three months ended March 31, 2018.
