Table of Contents

**iShares Gold Trust**

**Notes to Financial Statements (Unaudited)**

**September 30, 2018**

**I - Organization**

The iShares Gold Trust (the “Trust”) was organized on *January 21, 2005* as a New York trust. The trustee is The Bank of New York Mellon (the “Trustee”), which is responsible for the day-to-day administration of the Trust. The Trust’s sponsor is iShares Delaware Trust Sponsor LLC, a Delaware limited liability company (the “Sponsor”). The Trust is governed by the provisions of the Fourth Amended and Restated Depositary Trust Agreement (the “Trust Agreement”) executed by the Trustee and the Sponsor as of *December 22, 2016*. The Trust issues units of beneficial interest (“Shares”) representing fractional undivided beneficial interests in its net assets.

The Trust seeks to reflect generally the performance of the price of gold. The Trust seeks to reflect such performance before payment of the Trust’s expenses and liabilities. The Trust is designed to provide a vehicle for investors to make an investment similar to an investment in gold.

The accompanying unaudited financial statements were prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”) for interim financial information and with the instructions for Form 10-Q and the rules and regulations of the U.S. Securities and Exchange Commission (the “SEC”). In the opinion of management, all material adjustments, consisting only of normal recurring adjustments considered necessary for a fair statement of the interim period financial statements, have been made. Interim period results are *not* necessarily indicative of results for a full-year period. These financial statements and the notes thereto should be read in conjunction with the Trust’s financial statements included in its Annual Report on Form 10-K for the year ended *December 31, 2017*, as filed with the SEC on *February 28, 2018*.

The Trust qualifies as an investment company solely for accounting purposes and *not* for any other purpose and follows the accounting and reporting guidance under the Financial Accounting Standards Board Accounting Standards Codification Topic 946, *Financial Services - Investment Companies*, but is *not* registered, and is *not* required to be registered, as an investment company under the Investment Company Act of 1940, as amended.

## 2 - Significant Accounting Policies

### *A. Basis of Accounting*

The following significant accounting policies are consistently followed by the Trust in the preparation of its financial statements in conformity with U.S. GAAP. The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

### *B. Gold Bullion*

JPMorgan Chase Bank N.A., London branch (the “Custodian”), is responsible for the safekeeping of gold bullion owned by the Trust.

Fair value of the gold bullion held by the Trust is based on the price per fine troy ounce of gold determined in an electronic auction hosted by ICE Benchmark Administration (“IBA”) that begins at 3:00 p.m. (London time) and published shortly thereafter, on each day that the London gold market is open for business (such price, the “LBMA Gold Price PM”). If there is *no* announced LBMA Gold Price PM on any day, the Trustee is authorized to use the most recently announced price of gold determined in an electronic auction hosted by IBA that begins at 10:30 a.m. (London time) (such price, the “LBMA Gold Price AM”), unless the Trustee, in consultation with the Sponsor, determines that such price is inappropriate as a basis for evaluation.

Gain or loss on sales of gold bullion is calculated on a trade date basis using the average cost method.

## Table of Contents

The following tables summarize activity in gold bullion for the *three* months ended *September 30, 2018* and *2017*:

<b>Three Months Ended September 30, 2018</b>	<b>Ounces</b>	<b>Cost</b>	<b>Fair Value</b>	<b>Realized Gain (Loss)</b>

# Edgar Filing: ISHARES GOLD TRUST - Form 10-Q

Net change in unrealized appreciation/depreciation	—	—	776,911,354	—
Ending balance	7,348,395	\$9,047,063,229	\$9,428,726,089	\$19,244,967

## *C. Calculation of Net Asset Value*

On each business day, as soon as practicable after 4:00 p.m. (New York time), the net asset value of the Trust is obtained by subtracting all accrued fees, expenses and other liabilities of the Trust from the fair value of the gold and other assets held by the Trust. The Trustee computes the net asset value per Share by dividing the net asset value of the Trust by the number of Shares outstanding on the date the computation is made.

## Table of Contents

### *D. Offering of the Shares*

Trust Shares are issued and redeemed continuously in aggregations of 50,000 Shares in exchange for gold bullion rather than cash. Individual investors cannot purchase or redeem Shares in direct transactions with the Trust. The Trust only transacts with registered broker-dealers that are eligible to settle securities transactions through the book-entry facilities of the Depository Trust Company and that have entered into a contractual arrangement with the Trustee and the Sponsor governing, among other matters, the creation and redemption of Shares (such broker-dealers, the “Authorized Participants”). Holders of Shares of the Trust *may* redeem their Shares at any time acting through an Authorized Participant and in the prescribed aggregations of 50,000 Shares *provided*, that redemptions of Shares *may* be suspended during any period while regular trading on NYSE Arca, Inc. (“NYSE Arca”) is suspended or restricted, or in which an emergency exists as a result of which delivery, disposal or evaluation of gold is *not* reasonably practicable.

The per Share amount of gold exchanged for a purchase or redemption represents the per Share amount of gold held by the Trust, after giving effect to its liabilities.

When gold bullion is exchanged in settlement of a redemption, it is considered a sale of gold bullion for accounting purposes.

### *E. Federal Income Taxes*

The Trust is treated as a grantor trust for federal income tax purposes and, therefore, *no* provision for federal income taxes is required. Any interest, expenses, gains and losses are passed through to the holders of Shares of the Trust.

The Sponsor has analyzed applicable tax laws and regulations and their application to the Trust as of *September 30, 2018* and does *not* believe that there are any uncertain tax positions that require recognition of a tax liability.

## **3 - Trust Expenses**

The Trust pays to the Sponsor a Sponsor’s fee that accrues daily at an annualized rate equal to 0.25% of the net asset value of the Trust, paid monthly in arrears. The Sponsor has agreed to assume the following administrative and marketing expenses incurred by the Trust: the Trustee’s fee, the Custodian’s fee, NYSE Arca listing fees, SEC registration fees, printing and mailing costs, audit fees and expenses, and up to \$100,000 per annum in legal fees and

expenses.

#### **4 - Related Parties**

The Sponsor and the Trustee are considered to be related parties to the Trust. The Trustee's fee is paid by the Sponsor and is *not* a separate expense of the Trust.

#### **5 - Indemnification**

The Trust Agreement provides that the Sponsor and its shareholders, directors, officers, employees, affiliates and subsidiaries shall be indemnified by the Trust for any loss, liability or expense incurred by any such person that arises out of or in connection with the performance of obligations under the Trust Agreement or any actions taken in accordance with the provisions of the Trust Agreement, absent such person's negligence, bad faith, willful misconduct, willful malfeasance or reckless disregard of such person's duties and obligations.

The Trust has agreed that the Custodian will only be responsible for any loss or damage suffered by the Trust as a direct result of the Custodian's negligence, fraud or willful default in the performance of its duties.

#### **6 - Commitments and Contingent Liabilities**

In the normal course of business, the Trust *may* enter into contracts with service providers that contain general indemnification clauses. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that *may* be made against the Trust that have *not* yet occurred.

#### **7 - Concentration Risk**

Substantially all of the Trust's assets are holdings of gold bullion, which creates a concentration risk associated with fluctuations in the price of gold. Accordingly, a decline in the price of gold will have an adverse effect on the value of the Shares of the Trust. Factors that *may* have the effect of causing a decline in the price of gold include large sales by

the official sector (governments, central banks, and related institutions), an increase in the hedging activities of gold producers, and changes in the attitude of speculators, investors and other market participants towards gold.

Table of Contents**8 - Financial Highlights**

The following financial highlights relate to investment performance and operations for a Share outstanding for the *three* and *nine* months ended *September 30, 2018* and *2017*.

	<b>Three Months Ended September 30, 2018      2017</b>		<b>Nine Months Ended September 30, 2018      2017</b>	
Net asset value per Share, beginning of period	\$12.00	\$11.95	\$12.45	\$11.16
Net investment loss(a)	(0.01 )	(0.01 )	(0.02 )	(0.02 )
Net realized and unrealized gain (loss)(b)	(0.61 )	0.39	(1.05 )	1.19
Net increase (decrease) in net assets from operations	(0.62 )	0.38	(1.07 )	1.17
Net asset value per Share, end of period	\$11.38	\$12.33	\$11.38	\$12.33
Total return, at net asset value(c)(d)	(5.17 %)	3.18 %	(8.59 %)	10.48%
Ratio to average net assets:				
Net investment loss(e)	(0.25 %)	(0.25 %)	(0.25 %)	(0.25 %)
Expenses(e)	0.25 %	0.25 %	0.25 %	0.25 %

---

(a) Based on average Shares outstanding during the period.

The amounts reported for a Share outstanding *may not* accord with the change in aggregate gains and losses on (b) investment for the period due to the timing of Trust Share transactions in relation to the fluctuating fair values of the Trust's underlying investment.

(c) Based on the change in net asset value of a Share during the period.

(d) Percentage is *not* annualized.

(e) Percentage is annualized.

**9 - Investment Valuation**

U.S. GAAP defines fair value as the price the Trust would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. The Trust's policy is to value its investment at fair value.

## Edgar Filing: ISHARES GOLD TRUST - Form 10-Q

Various inputs are used in determining the fair value of assets and liabilities. Inputs *may* be based on independent market data (“observable inputs”) or they *may* be internally developed (“unobservable inputs”). These inputs are categorized into a disclosure hierarchy consisting of *three* broad levels for financial reporting purposes. The level of a value determined for an asset or liability within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement in its entirety. The *three* levels of the fair value hierarchy are as follows:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly or indirectly, including quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are *not* considered to be active, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means; and

Level 3 – Unobservable inputs that are unobservable for the asset or liability, including the Trust’s assumptions used in determining the fair value of investments.

At *September 30, 2018* and *December 31, 2017*, the value of the gold bullion held by the Trust is categorized as Level 1.

**Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations**

*This information should be read in conjunction with the financial statements and notes to financial statements included in Item 1 of Part I of this Form 10 Q. The discussion and analysis that follows may contain statements that relate to future events or future performance. In some cases, such forward-looking statements can be identified by terminology such as “may,” “should,” “could,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “potential” or the negative of these terms or other comparable terminology. Except as required by applicable disclosure laws, neither the Sponsor, nor any other person assumes responsibility for the accuracy or completeness of any forward-looking statements. Neither the Trust nor the Sponsor is under a duty to update any of the forward-looking statements to conform such statements to actual results or to a change in the Sponsor’s expectations or predictions.*

**Introduction**

The iShares Gold Trust (the “Trust”) is a grantor trust formed under the laws of the State of New York. The Trust does not have any officers, directors, or employees, and is administered by The Bank of New York Mellon (the “Trustee”) acting as trustee pursuant to the Fourth Amended and Restated Depositary Trust Agreement (the “Trust Agreement”) between the Trustee and iShares Delaware Trust Sponsor LLC, the sponsor of the Trust (the “Sponsor”). The Trust issues units of beneficial interest (“Shares”) representing fractional undivided beneficial interests in its net assets. The assets of the Trust consist primarily of gold bullion held by a custodian as an agent of the Trust responsible only to the Trustee.

The Trust is a passive investment vehicle and seeks to reflect generally the performance of the price of gold. The Trust seeks to reflect such performance before payment of the Trust’s expenses and liabilities. The Trust does not engage in any activities designed to obtain a profit from, or ameliorate losses caused by, changes in the price of gold.

The Trust issues and redeems Shares only in exchange for gold, only in aggregations of 50,000 Shares (a “Basket”) or integral multiples thereof, and only in transactions with registered broker-dealers that have previously entered into an agreement with the Sponsor and the Trustee governing the terms and conditions of such issuance (such broker-dealers, the “Authorized Participants”). A list of the current Authorized Participants is available from the Sponsor or the Trustee.

Shares of the Trust trade on NYSE Arca, Inc. under the ticker symbol IAU.

## **Valuation of Gold Bullion; Computation of Net Asset Value**

On each business day, as soon as practicable after 4:00 p.m. (New York time), the Trustee evaluates the gold held by the Trust and determines the net asset value and the net asset value per Share (“NAV”) of the Trust. The Trustee values the gold held by the Trust using the price per fine troy ounce of gold determined in an electronic auction hosted by ICE Benchmark Administration (“IBA”) that begins at 3:00 p.m. (London time) and published shortly thereafter, on the day the valuation takes place (such price, the “LBMA Gold Price PM”). If there is no announced LBMA Gold Price PM on any day, the Trustee is authorized to use the most recently announced price of gold determined in an electronic auction hosted by IBA that begins at 10:30 a.m. (London time) (such price, the “LBMA Gold Price AM”), unless the Trustee, in consultation with the Sponsor, determines that such price is inappropriate as a basis for evaluation. The LBMA Gold Price AM and LBMA Gold Price PM are used by the Trust because they are commonly used by the U.S. gold market as indicators of the value of gold, and are permitted to be used under the Trust Agreement. The use of indicators of the value of gold bullion other than the LBMA Gold Price AM and LBMA Gold Price PM could result in materially different fair value pricing of the gold held by the Trust, and as such, could result in different cost or market adjustments or in different redemption value adjustments of the outstanding redeemable capital Shares. Having valued the gold held by the Trust, the Trustee then subtracts all accrued fees, expenses and other liabilities of the Trust from the value of the gold and other assets of the Trust. The result is the net asset value of the Trust. The Trustee computes the NAV by dividing the net asset value of the Trust by the number of Shares outstanding on the date the computation is made.
