NON-GAAP FINANCIAL MEASURES

Non-GAAP Financial Measures

The SEC has adopted rules to regulate the use of "non-GAAP financial measures" that are derived on the basis of methodologies other than in accordance with U.S. generally accepted accounting principles ("GAAP"). This prospectus supplement contains comparable net (loss) income available to common stockholders, comparable sales, comparable cost of sales, comparable gross profit, Adjusted EBITDA, segment comparable Adjusted EBITDA, and segment comparable sales, which are non-GAAP financial measures. This prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein also present additional non-GAAP financial measures, including adjusted net sales change, adjusted cost of sales change, adjusted gross profit change, adjusted selling, technical, general and administrative expense change, adjusted research and development expense change and adjusted operating profit change, in each case adjusted for acquisitions and changes in foreign currency translations, which are also non-GAAP financial measures.

For purposes of Regulation G and Section 10(e) of Regulation S-K, a non-GAAP financial measure is a numerical measure of a company's historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statements of operations, balance sheets, or statements of cash flows of the company; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. Pursuant to the requirements of Regulation G and Item 10(e) of Regulation S-K, Platform has provided reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures.

These non-GAAP financial measures are provided because management uses this non-GAAP financial information as an indicator of business performance, and evaluates overall management with respect to such indicators. Management believes these non-GAAP financial measures provide useful information about our operating performance by excluding certain items that we believe are not representative of our business performance and including other items that we believe are useful in evaluating our business. We also believe that these non-GAAP financial measures provide investors with a useful tool for assessing the comparability between periods of our ability to generate cash from operations sufficient to pay taxes, to service debt and to undertake capital expenditures. We use these non-GAAP financial measures as key metrics in the evaluation of the Company's performance and our consolidated financial results and, in part, in the determination of cash bonuses for the Company's executive officers. However, these non-GAAP financial measures should be considered in addition to, not a substitute for, measures of financial performance prepared in accordance with GAAP.

For definitions of our non-GAAP financial measures and additional information on why we present them, the limitations associated with their use and their reconciliations to the most comparable applicable GAAP financial measures, see "Summary Financial Data."

Financial Statements of Alent and Arysta

MARKET AND INDUSTRY DATA

We obtained the industry, market and competitive position data described or incorporated by reference in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein from our own internal estimates and research, as well as from industry and general publications and research, surveys and studies conducted by third parties. While we believe our internal estimates and research are reliable and the market definitions are appropriate, such estimates, research and definitions have not been verified by any independent source. We caution you not to place undue reliance on this data.

UNAUDITED PRO FORMA FINANCIAL INFORMATION

The Alent Acquisition, which was consummated on December 1, 2015, was a significant acquisition to us (at a significance level of greater than fifty percent) under Rule 3-05 and 1-02(w) of Regulation S-X under the Securities Act. The Arysta Acquisition, which was consummated on February 13, 2015, was also a significant acquisition to us (at a significance level of greater than seventy percent) under Rule 3-05 and 1-02(w) of Regulation S-X under the Securities Act. As a result, we have incorporated by reference in this prospectus supplement and the accompanying prospectus the historical financial statements of Alent and Arysta and unaudited pro forma financial information based on the historical financial statements of Platform, Alent and Arysta, combined and adjusted to give effect to the Alent Acquisition and the Arysta Acquisition and their respective financings as if each had occurred as of January 1, 2015 for purposes of the statements of operations. The unaudited pro forma statements of operations do not reflect the OMG Acquisition or the OMG Malaysia Acquisition, consummated on October 28, 2015 and January 31, 2016, respectively, because neither the OMG Acquisition nor the OMG Malaysia Acquisition, individually or in the aggregate, was significant as defined by Rule 1-02(w) of Regulation S-X. The Agriphar Acquisition and the CAS Acquisition were completed on October 1, 2014 and November 3, 2014, respectively, and therefore are already reflected in Platform's financial statements for all of fiscal year 2015.

The unaudited pro forma combined consolidated financial information incorporated by reference in this prospectus supplement and the accompanying prospectus is for informational purposes only and is not intended to represent or to be indicative of the consolidated results of operations or financial position that we would have reported had the Alent Acquisition and the Arysta Acquisition been completed as of the dates set forth in the unaudited pro forma combined consolidated financial information, and should not be taken as indicative of our future consolidated results of operations or financial position. The unaudited pro forma financial data has been prepared in accordance with the requirements of Article 11 of Regulation S-X of the Securities Act. However, neither the assumptions underlying the pro forma adjustments nor the resulting pro forma financial information have been audited or reviewed in accordance with any generally accepted auditing standards.

The unaudited pro forma combined consolidated financial information should be read in conjunction with the historical financial statements of Platform, Alent and Arysta, all incorporated by reference in this prospectus supplement and the accompanying prospectus.

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights information contained elsewhere or incorporated by reference in this prospectus supplement and the accompanying prospectus. This summary does not contain all of the information that you should consider before making an investment decision. We urge you to read this entire prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein or therein carefully, including the financial statements of Platform, Alent and Arysta and the notes to those financial statements incorporated by reference herein. Please also read "Risk Factors" contained herein, in the accompanying prospectus and in the documents incorporated by reference herein and therein for more information about important risks that you should consider before investing in our common stock. This prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors. See "Forward-Looking Statements" for more information relating to these factors.

Our Company

We are a global, diversified producer of high-technology specialty chemical products. Our business involves the formulation of a broad range of solutions-oriented specialty chemicals, which are sold into multiple industries, including agricultural, animal health, electronics, graphic arts, plating, and offshore oil and gas production and drilling. We refer to our products as "dynamic chemistries" due to their intricate chemical compositions. Our dynamic chemistries are used in a wide variety of attractive niche markets and we believe that the majority of our operations hold strong positions in the product markets they serve.

Our strategy is to acquire and maintain leading positions in niche sectors of high-growth markets. As our name "Platform Specialty Products Corporation" implies, we continually seek opportunities to acquire and consolidate specialty chemical businesses on a global basis, particularly those meeting our "Asset-Lite, High-Touch" philosophy, which involves prioritizing extensive resources to research and development and highly technical customer service, while managing conservatively our investments in fixed assets and capital expenditures. We regularly review acquisition opportunities and may acquire businesses that meet our acquisition criteria when we deem it to be financially prudent. To date, we have completed seven acquisitions: the MacDermid Acquisition on October 31, 2013, the Agriphar Acquisition on October 1, 2014, the CAS Acquisition on November 3, 2014, the Arysta Acquisition on February 13, 2015, the OMG Acquisition on October 28, 2015, the Alent Acquisition on December 1, 2015 and the OMG Malaysia Acquisition on January 31, 2016.

We generate revenue through the formulation and sale of our dynamic chemistries and by providing highly-technical services to our customers through our extensive global network of specially trained service personnel. Our personnel work closely with our customers to ensure that the intricate chemical composition and function of our products are maintained as intended while ensuring that these products are applied safely and effectively by users globally. We believe that the fragmented nature of the specialty chemical products market will continue to provide significant opportunities for growth and that our combined company will provide a strong platform on which to grow our business and expand our market shares in key geographic markets, particularly in emerging markets. For Performance Solutions, we believe the current addressable market is approximately \$8 billion while its global addressable market is approximately \$15 billion. For Agricultural Solutions, we believe the global addressable market is \$54 billion. We expect that the Prior Acquisitions and any future acquisitions will enhance our growth by extending our products breadth, developing higher-margin products and growing internationally. We intend to extend many of our product offerings through the development of new applications for our existing products or through synergistic combinations. Our goal is to target those geographies with attractive market fundamentals where our strengths in marketing, portfolio development, registration and customer education can add value for our customers.

Our History

We were initially incorporated with limited liability under the laws of the British Virgin Islands on April 23, 2013 under the name Platform Acquisition Holdings Limited. We completed our initial public offering in the United Kingdom on May 22, 2013, raising net proceeds of approximately \$881 million, and were listed on the London Stock Exchange.

On October 31, 2013, we indirectly acquired substantially all of the equity of MacDermid Holdings, LLC ("MacDermid Holdings"), which, at the time, owned approximately 97% of MacDermid. As a result, we became a

holding company for the MacDermid business. We acquired the remaining 3% of MacDermid on March 4, 2014. Concurrently with the closing of the MacDermid Acquisition, we changed our name to Platform Specialty Products Corporation. On January 22, 2014, we changed

S-1

our jurisdiction of incorporation from the British Virgin Islands to Delaware, and on January 23, 2014, our shares of common stock began trading on the NYSE under the ticker symbol "PAH."

Our Business

We currently operate our business in two reportable business segments, Performance Solutions and Agricultural Solutions, as described below:

Performance Solutions – Our Performance Solutions segment formulates and markets dynamic chemistry solutions that are used in automotive production, commercial packaging and printing, electronics, and oil and gas production and drilling. Our products include surface and coating materials, functional convention coatings, electronic assembly materials, water-based hydraulic control fluids and photopolymers. In conjunction with the sale of these products, we provide extensive technical service and support when necessary to ensure superior performance of their application. Within this segment, we provide specialty chemicals to the following industries: Electronics, Electronics Assembly Materials, Industrial, Offshore and Commercial Packing and Printing. For the Electronics industry, we design and formulate a complete line of proprietary “wet” dynamic chemistries that our customers use to process the surface of printed circuit boards and other electronic components they manufacture. For the Electronics Assembly Materials industry, we develop, manufacture and sell innovative interconnected materials, primarily in the electronics market, used to assemble printed circuit boards and advanced semiconductor packaging. We also offer a small water treatment product line. For the Industrial industry, our dynamic chemistries are used for finishing, cleaning and providing surface coatings for a broad range of metal and non-metal surfaces which improve the performance or look of a component of an industrial part or process. For the Offshore industry, we produce water-based hydraulic control fluids for major oil and gas companies and drilling contractors for offshore deep water production and drilling applications. For the Commercial Packaging and Printing industries, we produce photopolymers through an extensive line of flexographic plates, used to produce printing plates for transferring images onto commercial packaging, including packaging for consumer food products, pet food bags, corrugated boxes, labels and beverage containers. In addition, we also produce photopolymer printing plates for the flexographic and letterpress newspaper and publications markets. Our Performance Solutions segment employs approximately 4,500 personnel which operate mainly in the Americas, Asia/Pacific region and Europe.

Agricultural Solutions – Our Agricultural Solutions segment is based on a solutions-oriented business model that focuses on product innovation to address an ever-increasing need for higher crop yield and quality. We offer to growers diverse crop protection solutions from weeds (herbicides), insects (insecticides) and diseases (fungicides), in foliar and seed treatment applications. We also offer a wide variety of proven biosolutions, including biostimulants, which stimulate plant growth and reproductive development, innovative nutrition, which optimizes the nutrition of plants, and biocontrol products, such as bioinsecticides and biofungicides, which perform the same task as conventional crop protection products without chemical residues. We emphasize farmer economics and food safety by combining, when possible, biosolutions with crop protection and seed treatment agrochemicals. Our Global Value Added Portfolio ("GVAP") consists of agrochemicals in the herbicides, insecticides, fungicides and seed treatment categories, based on patented or proprietary off-patent AIs. Our Global BioSolutions Portfolio ("GBP") includes biostimulants, innovative nutrition and biocontrol products. We consider our GVAP and GBP to be key pillars for our sustainable growth. In addition, we offer regional off-patent AIs and certain non-crop products, including animal health products, such as honey bee protective miticides and certain veterinary vaccines. We employ approximately 4,000 personnel with a significant presence on high-growth regions such as Africa and the Middle East, South Asia, Latin America and Central and Eastern Europe.

Our operating segments include significant foreign operations. There are certain risks associated with our foreign operations. See Risk Factors— "Our substantial international operations subject us to risks not faced by domestic competitors" and "We are exposed to fluctuations in currency exchange rates, which may adversely affect our operating results and may significantly affect the comparability of our results between financial periods" included in this prospectus supplement.

Recent Developments

On July 12, 2016, we filed with the SEC a shelf registration statement on Form S-3, to which this prospectus supplement and the accompanying prospectus form a part and under which we may issue up to \$1.0 billion of

securities, including common stock, preferred stock and debt securities. The shelf registration statement was declared effective by the SEC on July 26, 2016.

On September 9, 2016, we agreed with Nalozo S.à.r.l. (the "Arysta seller") that from October 20, 2016 until the close of business on December 15, 2016, we may (i) settle all of our obligations with respect to our shares of Series B convertible preferred stock (the "Series B Convertible Preferred Stock") in exchange for a cash payment of \$1.00 and the issuance of 5,500,000 shares of our common stock upon simultaneous conversion of the Series B Convertible Preferred Stock by the Arysta

S-2

seller, and (ii) settle for a payment of \$460 million, our obligation to pay a “make whole payment” to the Arysta seller pursuant to a share purchase agreement among us, the Arysta seller and certain other parties thereto, dated as of October 20, 2014, as amended. The agreement includes mutual releases from any and all claims the parties may have had related to the Arysta share purchase agreement.

Rakesh Sachdev joined Platform on January 5, 2016 as our Chief Executive Officer. The board of directors of Platform (the "Board") also appointed Mr. Sachdev to serve as a Director on Platform's Board. Mr. Sachdev joined Platform with more than 28 years of management experience at leading public companies having most recently served as President and Chief Executive Officer of Sigma-Aldrich Corporation since 2010 through its recent acquisition by Merck KGaA. His previous positions at Sigma Aldrich included Vice President and Chief Financial Officer as well as Chief Administrative Officer. Earlier in his career, Mr. Sachdev held numerous senior management positions at ArvinMeritor, Inc. and Cummins Inc.

Diego Lopez Casanello joined Platform on February 1, 2016 as President of our Agricultural Solutions segment. Mr. Casanello joined Platform with over 20 years of experience at global diversified chemicals manufacturer BASF, having most recently served as Senior Vice President and head of the Agricultural Products Division, Asia Pacific. His previous positions at BASF included Senior Vice President of the Performance Chemicals Division, North America, as well as Chief Executive Officer and Managing Director of BASF Argentina. Mr. Casanello has held numerous other roles within the Agricultural Products Division of BASF, including Head of Global Marketing for Seed Treatment, Global Manager of New Business Development and Business Director for South Europe.

John E. Capps joined Platform on May 31, 2016 as Executive Vice President, General Counsel and Secretary. Before joining Platform, Mr. Capps was Executive Vice President - Administration, General Counsel and Secretary of Jarden Corporation, a Fortune 500 broad-based consumer products company ("Jarden"), where he served until April 2016 when Jarden merged with Newell Brands Inc. Previously, Mr. Capps worked with American Household, Inc. which was acquired by Jarden in January 2005, and as a private lawyer with the firm Sullivan & Cromwell LLP.

On January 31, 2016, we completed the OMG Malaysia Acquisition for an aggregate purchase price of approximately \$124 million, net of acquired cash and closing working capital adjustments. OMG Malaysia is included in our Performance Solutions business segment. We financed the OMG Malaysia Acquisition with the proceeds from the public offering of shares of our common stock which closed on June 29, 2015.

As previously disclosed in our 2015 Annual Report, 2016 Q1 Form 10-Q and 2016 Q2 Form 10-Q, in connection with the implementation of our internal controls, policies and procedures at Arysta, a newly acquired subsidiary, following our acquisition of that business, we discovered certain payments made to third-party agents in connection with Arysta's government tender business in West Africa which may be illegal or otherwise inappropriate. We have engaged outside counsel and an outside accounting firm to conduct an internal investigation (the "Internal Investigation") to review the legality of these and other payments made in Arysta's West Africa tender business, including Arysta's compliance with the Foreign Corrupt Practices Act of 1977 (the "FCPA"). We contacted the SEC and the U.S. Department of Justice to voluntarily inform them of this matter and we are fully cooperating with these governmental authorities as the Internal Investigation continues and as they review the matter. Although the Internal Investigation is still ongoing, at this time, based on the results to date, management does not currently believe that the amount of the payments in question, or any revenue or operating income related to those payments, are material to our business, results of operations, financial condition or liquidity.

In March and April 2016, a class action lawsuit entitled *Dillard v. Platform Specialty Products Corporation, et al.* and a shareholder derivative action entitled *Tuttelman v. Platform Specialty Products Corporation, et al.*, respectively, were filed against Platform, certain of its former and current executive officers and, in the case of the derivative action, its directors in the U.S. District Court for the Southern District of Florida alleging that the defendants made material false and misleading statements relating to the Company's business, operational and compliance policies in light of the Internal Investigation. In June 2016, the shareholder derivative action was dismissed by the Court. On June 29, 2016, the Court appointed joint lead plaintiffs in the class action lawsuit, and on July 20, 2016, the plaintiffs filed an amended complaint with an expanded class period but stating substantially similar claims to those contained in the original complaint. The class action lawsuit, which remains pending, is seeking unspecified damages. We believe this proceeding is without merit and intend to defend it vigorously.

As previously described in Note 26, Restatement of Unaudited Condensed Consolidated Financial Statements (unaudited), to the Consolidated Financial Statements included in our 2015 Annual Report, during the preparation of our annual financial statements for the fiscal year ended December 31, 2015, we discovered an error related to our income tax provision for the quarter ended September 30, 2015. The error was the result of recording an unrealized loss associated with foreign currency hedges entered into in connection with the Alent Acquisition as a temporary rather than permanent difference for income tax accounting purposes. As a result, we concluded that we were required to restate our unaudited financial information for our

S-3

third quarter ended September 30, 2015. Our 2015 Annual Report includes the restatement of our unaudited financial statements for the third quarter ended September 30, 2015 in the aforementioned Note 26. Subsequently, as previously disclosed in our 2016 Q1 Form 10-Q, an error to goodwill and foreign currency translation adjustment of \$72.8 million occurred relating to the Arysta Acquisition and was corrected as an out-of-period adjustment in such quarterly report. We subsequently concluded that this previously disclosed error also had the effect of understating cash flows provided by operating activities and cash flows used in investing activities by \$72.8 million, and therefore further concluded that the previously reported information should no longer be relied upon. As a result, we restated our unaudited Condensed Consolidated Statement of Comprehensive Income, Condensed Consolidated Balance Sheet, Condensed Consolidated Statement of Cash Flows, Condensed Consolidated Statement of Changes in Stockholders' Equity and related notes, for and as of the three months ended March 31, 2015. This restatement is included in Note 20, Restatement of Unaudited Interim Condensed Consolidated Financial Statements (Unaudited) to the unaudited interim Condensed Consolidated Financial Statements included in our 2016 Q1 Form 10-Q, incorporated by reference herein. The error had no impact on the net decrease in cash and cash equivalents for the quarter ended March 31, 2015 and cash balances as of March 31, 2015. Except as previously disclosed, these restatements had no impact on prior periods.

As previously disclosed in our 2016 Q2 Form 10-Q, 2016 Q1 Form 10-Q and our 2015 Annual Report, due to material weaknesses in our internal control over financial reporting, our disclosure controls and procedures were not effective beginning as of December 31, 2015. These material weaknesses, which are more fully described in our 2015 Annual Report, relate to insufficient complement of personnel with an appropriate level of accounting knowledge, experience and training commensurate with our financial reporting requirements. Our management is actively engaged in implementing the remediation initiatives described in our 2015 Annual Report and 2016 Q1 Form 10-Q which are designed to address these material weaknesses. As indicated in our 2016 Q1 Form 10-Q, we completed the implementation of a global tax reporting system during the first quarter of 2016. As indicated in our 2016 Q2 Form 10-Q, during the second quarter of 2016, we continued our remediation efforts towards the following actions, which were previously described in the 2016 Q1 Form 10-Q and which remain on-going as of the date of this prospectus supplement:

- implementation of a global consolidation and planning system;
- implementation of control processes relating to newly-acquired businesses and non-routine transactions;
- implementation of enhanced monitoring controls relating to the financial reporting and performance of our newly-acquired businesses;
- implementation of enhanced financial planning and analysis function within our businesses and at the corporate level;
- addition of further qualified resources to our corporate and segment staff;
- enhancement of the controllership function in our newly-acquired businesses; and
- continued recruiting efforts to hire qualified personnel.

While significant progress has been made, additional time is needed to fully implement and demonstrate the effectiveness of the remediation initiatives and until remediated, the material weaknesses described above could result in material misstatements of our annual or interim consolidated financial statements that would not be prevented or detected. We are committed to operating effective controls, and management continues to regularly assess the progress and sufficiency of the ongoing initiatives and make adjustments as and when necessary.

Risks Relating to Our Business

Our business is subject to a number of risks of which you should be aware before you decide to invest in our common stock. In particular, you should consider the following risks, which are discussed more fully in this prospectus supplement as well as our 2015 Annual Report and 2016 Q2 Form 10-Q, both incorporated by reference in this prospectus supplement and the accompanying prospectus:

- our business model depends on our ability to consummate future acquisitions and to successfully integrate acquisitions into our business;
- our substantial indebtedness may adversely affect our cash flow and our ability to operate our business and fulfill our obligations under our indebtedness;
-

our business, results of operations and financial conditions depend on our ability to attract and retain key personnel, including our executive officers, and to effectively manage succession;
the accuracy and timeliness of our financial reporting depends on our ability to remediate our existing material weaknesses in our internal control over financial reporting;

S-4

maintaining an effective internal control environment with operations in multiple international locations, including language differences, varying levels of U.S. GAAP expertise in international locations and multiple financial information systems may present certain challenges;

our existing material weaknesses may require the restatement of previously issued financial statements for additional periods;

foreign exchange controls or other currency restrictions and limitation on the movement of funds, including the prohibition of the repatriation of funds, may result in adverse tax consequences and tax inefficiencies;

our business and results of operations depend on our ability to protect and preserve our intellectual property rights;

adverse weather conditions, business cycles as well as seasonality, may cause fluctuation in the revenue and operating results of our Agricultural Solutions business;

conditions in the global economy, as well as social, political or economic instability, acts of wars and terrorism and natural disasters or other crisis may directly adversely affect our substantial international operations and financial condition;

failure to comply with the FCPA and other similar anti-corruption laws could subject us to penalties and damage our reputation;

agrochemical products are highly regulated by governmental agencies in countries where we do business; and our business involves chemicals manufacturing, which is both inherently hazardous and subject to evolving laws and regulations (including, but not limited to, the June 2016 amendments to the U.S. Toxic Substances Control Act and the EU REACH Substances of Very High Concern program) that could result in material costs relating to regulatory compliance, liabilities or litigation proceedings or other impacts, such as restrictions or prohibitions on our products. These risks, among others, may have a material adverse effect on our business, financial condition or results of operations, which could cause the trading price of our shares of common stock to decline and result in a loss of all or a portion of your investment.

DEFINITIONS OF NON-GAAP FINANCIAL MEASURES

For purposes of Regulation G, a non-GAAP financial measure is a numerical measure of a company's historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statements of operations, balance sheets, or statements of cash flows of the company; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented.

To supplement the financial measures prepared in accordance with GAAP, Platform has provided in this prospectus supplement the following non-GAAP financial measures: comparable net (loss) income available to common stockholders, comparable sales, comparable cost of sales, comparable gross profit, Adjusted EBITDA, segment comparable Adjusted EBITDA and segment corporate sales. Management believes that these measures provide useful information to investors by excluding certain items that it believes are not representative of the Company's business and including other items that it believes are useful in evaluating the Company's business; thereby providing a more complete understanding of the Company's operational results and a meaningful comparison of the Company's performance between periods and to its peers. When reconciled to the corresponding GAAP financial measures, these non-GAAP financial measures also help the Company's investors to understand the long-term profitability trends of its businesses. Finally, these non-GAAP financial measures address questions the Company routinely receives from securities analysts, investors and other interested parties in the evaluation of companies in our industry and, in order to assure that all investors have access to the same data, the Company has determined that it is appropriate to make this data available to all. Non-GAAP financial measures are however not prepared in accordance with GAAP, as they exclude certain items as described herein, and may not be indicative of the results that the Company expects to recognize for future periods. In addition, these non-GAAP financial measures may differ from measures that other companies may use. As a result, these non-GAAP financial measures should be considered in addition to, and not a substitute for, financial information prepared in accordance with GAAP. Investors are encouraged to review the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measure. A reconciliation of GAAP to non-GAAP financial measures has been provided in the financial tables as part of this prospectus supplement.

Comparable Sales

Comparable sales is defined as sales adjusted to include the sales of Alent, the OMG Businesses and OMG Malaysia as if each of these acquisitions had occurred on January 1, 2015. Management believes this measure provides investors with a more complete understanding of sales trends by providing sales on a more consistent basis.

Adjusted EBITDA and Comparable Adjusted EBITDA

In this prospectus supplement, we present Adjusted EBITDA, which is a key supplemental measure of our performance. We define Adjusted EBITDA as earnings before interest, taxes, depreciation and amortization, as further adjusted for additional items included in earnings that we believe are not representative or indicative of our ongoing business, as described in the footnotes to the reconciliation tables included in this section. Comparable Adjusted EBITDA is defined as Adjusted EBITDA adjusted to reflect the results of Alent, the OMG Businesses and OMG Malaysia and their respective financings as though they each had been completed on January 1, 2015, further adjusted for the effects of purchase accounting on actual results. Adjusted EBITDA and comparable Adjusted EBITDA are key metrics used by management to measure operating performance and trends. In particular, the exclusion of certain expenses in calculating Adjusted EBITDA and comparable Adjusted EBITDA facilitates operating performance comparisons on a period-to-period basis.

The use of Adjusted EBITDA and comparable Adjusted EBITDA is considered relevant to the analysis of Platform's results (net) aside from the material impact of the charges associated with the Prior Acquisitions. We believe Adjusted EBITDA is useful to investors because it is frequently used by securities analysts, investors and other interested parties in the evaluation of companies in our industry. Our investors regularly request Adjusted EBITDA as a supplemental analytical measure to, and in conjunction with, our GAAP financial data. We understand that these investors use Adjusted EBITDA, among other things, to assess our period-to-period operating performance and to gain insight into the manner in which management analyzes operating performance. In addition, we believe that

Adjusted EBITDA is useful in evaluating our operating performance compared to that of other companies in our industry because the calculation of Adjusted EBITDA generally eliminates the effects of financing and income taxes and the accounting effects of capital spending and acquisitions, which items may vary for different companies for reasons unrelated to overall operating performance. Although we believe that Adjusted EBITDA can make an evaluation of our operating performance more consistent, investors should not place undue

S-22

reliance on Adjusted EBITDA as measures of operating performance. In evaluating Adjusted EBITDA, investors should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments presented herein. Our presentation of Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items.

Adjusted EBITDA has limitations as an analytical tool. Some of these limitations are:

Adjusted EBITDA does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

Adjusted EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debts;

Although depreciation is a non-cash charge, the assets being depleted and depreciated will generally have to be replaced in the future;

Non-cash compensation is and is expected to remain a key element of our overall long-term incentive compensation package;

Adjusted EBITDA does not reflect the impact of certain cash charges resulting from matters we consider not to be representative of our operations; and

Other companies in our industry may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, Adjusted EBITDA should not be considered in isolation or as a substitute for performance measures calculated in accordance with GAAP. We compensate for these limitations by relying primarily on our GAAP results and using Adjusted EBITDA only supplementally.

Combined Results, Comparable Adjusted Net (Loss) Income Attributable to Common Stockholders

This prospectus supplement contains unaudited "combined" Predecessor and Successor results for the fiscal year ended December 31, 2013, as well as "comparable" financial information which assumes full period contribution of Alent, and the OMG Businesses, each acquired during the fourth quarter of 2015, and OMG Malaysia acquired during the first quarter of 2016. This combined and comparable information is provided for informational purposes only and is not necessarily, and should not be assumed to be, an indication of our actual results or results that would have been achieved had each of the Alent, OMG and OMG Malaysia Acquisitions been completed as of the dates indicated, or that may be achieved in the future. Historical financial results and information included or incorporated by reference herein relating to these acquired businesses were derived from public filings, when applicable, and/or information provided by management of these businesses prior to their acquisitions by us. In addition, financial information for some of these acquired businesses was historically prepared in accordance with non-GAAP accounting methods, and may or may not be comparable to our financial statements. Consequently, you are cautioned not to place undue reliance on these results and information as they may not be representative of our actual or future results as a consolidated company.

Combined results are the arithmetic addition of the results of the Predecessor (January 1, 2013 to October 31, 2013) and the Successor (April 23, 2013 to December 31, 2013). Comparable adjusted net (loss) income attributable to common stockholders is defined as net (loss) income attributable to common stockholders adjusted to reflect acquisitions and the related financings as though they had occurred on January 1, 2015 without the impact of purchase accounting, as well as other adjustments consistent with our definition of Adjusted EBITDA. Additionally, we eliminate the amortization associated with (i) intangibles assets recognized in purchase accounting for acquisitions and (ii) costs capitalized in connection with obtaining regulatory approval of our products ("registration rights") as part of ongoing operations and deduct capital expenditures associated with obtaining these registration rights.

RISK FACTORS

In addition to the risk factors incorporated by reference in the prospectus supplement and in the accompanying prospectus, you should carefully consider the risk factors set forth below as well as the other information contained or incorporated by reference in this prospectus supplement, including those risk factors described in Item 1A of Part I of our 2015 Annual Report and in Item 1A of Part II of our 2016 Q2 Form 10-Q, both incorporated by reference in this prospectus supplement and the accompanying prospectus, before investing in our common stock. Any of the following risks could materially and adversely affect our business, financial condition or results of operations. In such a case, you may lose all or part of your investment. This prospectus supplement contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors. See "Forward-Looking Statements" for more information relating to these factors.

Risks Relating to this Offering and Ownership of our Common Stock

We have numerous equity instruments outstanding that could require us to issue additional shares of common stock. Therefore, you may experience significant dilution of your ownership interests and the future issuance of additional shares of our common stock, or the anticipation of such issuances, could have an adverse effect on our stock price. We have numerous equity instruments outstanding that would require us to issue additional shares of our common stock. Depending on the equity instrument, these additional shares may either be issued for no additional consideration or based on a fixed amount of additional consideration. Specifically, as of September 9, 2016, we had outstanding the following:

- 2,000,000 shares of Series A Preferred Stock which are convertible into shares of our common stock, on a one-for-one basis, at any time at the option of the holder;

- 600,000 shares of Series B Convertible Preferred Stock, issued in connection with the Arysta Acquisition, which are convertible into up to 22,107,590 shares of our common stock at any time at the option of the Arysta seller. Each share of Series B Convertible Preferred Stock will also be automatically redeemed in connection with certain mergers or consolidations, the sale of all or substantially all of the assets of Platform and its subsidiaries, the sale of certain subsidiaries of Platform, or a dissolution, liquidation or termination of Platform. Under the terms of a settlement agreement with the Arysta seller described in the Recent Developments section under "Prospectus Supplement Summary," from October 20, 2016 until the close of business on December 15, 2016, we may (i) settle all of our obligations with respect to the Series B Convertible Preferred Stock in exchange for a cash payment of \$1.00 and the issuance of 5,500,000 shares of our common stock upon simultaneous conversion of the Series B Convertible Preferred Stock by the Arysta seller, and (ii) settle for a payment of \$460 million, our obligation to pay the Make Whole Payment (as defined below) to the Arysta seller. To the extent we do not settle all of our obligations by December 15, 2016, we will be required, on April 20, 2017, pursuant to a share purchase agreement among us, the Arysta seller and certain other parties thereto, dated as of October 20, 2014, as amended, to repurchase each share of Series B Convertible Preferred Stock that has not been converted into shares of common stock of Platform, or automatically redeemed as described above. Upon such repurchase, we shall also pay to holders of Series B Convertible Preferred Stock in cash (the "Make Whole Payment") any deficit between (i) the 10-day volume weighted price of our common stock prior to such repurchase and (ii) \$27.14 per share. The related potential cash obligation, which varies based on our stock price, corresponds to a maximum amount of \$600 million. Based on our common stock price of \$9.35 as of September 12, 2016, the maximum potential make whole payment as of September 9, 2016 would total approximately \$393 million, assuming no offset from the March 2013 arbitration matter described in our unaudited financial statements for the quarter ended June 30, 2016;

- 7,997,665 exchange rights which require us to issue shares of our common stock in exchange for shares of common stock of our subsidiary, Platform Delaware Holdings, Inc., on a one-for-one basis, at the option of the holder;

- approximately 565,198 options which are exercisable to purchase shares of our common stock, on a one-for-one basis, at any time at the option of the holder, of which 390,198 shares were issued under the 2013 Plan; and

- approximately 2,348,687 RSUs which were granted to employees under our 2013 Plan. Each RSU represents a contingent right to receive one (1) share of our common stock.

We have approximately 12,387,681 shares of our common stock currently available under our 2013 Plan, net of the outstanding RSUs and options noted above (subject to increase in accordance with the terms of such plan) and 373,434 shares issued under the 2013 Plan, and an additional 5,026,150 shares of our common stock currently available under our 2014 ESPP.

In addition, the holders of our Series A Preferred Stock are entitled to receive an annual dividend on their Series A Preferred Stock in the form of shares of our common stock. For 2015, no stock dividend was declared with respect to their Series A Preferred Stock. Since December 31, 2014, the dividend amount is calculated based on the appreciated stock price compared to the highest dividend price (calculated based upon the average of the last ten trading days of the year's volume weighted average share prices) previously used in calculating the Series A Preferred Stock dividends. In 2014, the dividend price was \$22.85. Such issuance of common stock as stock dividend in the future could have a dilutive impact on, and reduce the value of, our outstanding common stock.

We have broad discretion in the use of the net proceeds from this offering and our existing cash and may not use them effectively.

Our management will have broad discretion in the application of the net proceeds from this offering as well as our existing cash, and you will be relying on the judgment of our management regarding such application. You will not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately. Our management might not apply the net proceeds or our existing cash in ways that ultimately increase the value of your investment. If we do not invest or apply the net proceeds from this offering or our existing cash in ways that enhance stockholder value, we may fail to achieve expected financial results, which could cause our stock price to decline.

We may issue preferred stock in the future, and the terms of the preferred stock may reduce the value of our common stock.

Our Board is authorized to create and issue one or more additional series of preferred stock, and, with respect to each series, to determine the number of shares constituting the series and the designations and the powers, preferences and rights, and the qualifications, limitations and restrictions thereof, which may include dividend rights, conversion or exchange rights, voting rights, redemption rights and terms and liquidation preferences, without stockholder approval. If we create and issue one or more additional series of preferred stock, it could affect your rights or reduce the value of our outstanding common stock. Our Board could, without stockholder approval, issue preferred stock with voting and other rights that could adversely affect the voting power of the holders of our common stock and which could have certain anti-takeover effects.

We cannot assure you that we will declare dividends or have the available cash to make dividend payments.

To the extent we intend to pay dividends on our common stock, we will pay such dividends at such times (if any) and in such amounts (if any) as our Board determines appropriate and in accordance with applicable law. We are also subject to certain restrictions in our financing arrangements which may prohibit or limit our ability to pay dividends. Additionally, for so long as any shares of Series B Convertible Preferred Stock are outstanding, no dividend or distribution may be declared or paid or set aside for payment on all or substantially all the outstanding shares of any other series of preferred stock, other than the Series A Preferred Stock, or common stock without the prior vote or written consent of the holders of at least a majority of the shares of Series B Convertible Preferred Stock then outstanding, voting separately as a single class. We therefore can give no assurance that we will be able to pay dividends going forward or as to the amount of such dividends, if any.

We operate as a holding company and our principal source of operating cash is income received from our subsidiaries. We are a holding company and do not have any material assets or operations other than ownership of equity interests of our subsidiaries. Our operations are conducted almost entirely through our subsidiaries, and our ability to generate cash to meet our obligations or to pay dividends is highly dependent on the earnings of, and receipt of funds from, our subsidiaries through dividends or intercompany loans. As a result, we are dependent on the income generated by our subsidiaries to meet our expenses and operating cash requirements. The amount of distributions and dividends, if any, which may be paid to us from each of our subsidiaries will depend on many factors, including our financial condition and results of operations, limits on dividends under applicable law, such subsidiary's constitutional documents, documents governing any indebtedness of such subsidiary, and other factors which may be outside our control. If our subsidiaries are unable to generate sufficient cash flow, we may be unable to pay our expenses or make distributions and dividends on our shares of common stock.

Delaware law and provisions in our certificate of incorporation may have anti-takeover implications.

We are governed by Delaware law. The application of Delaware law to us may have the effect of deterring hostile takeover attempts or a change in control. In particular, Section 203 of the Delaware General Corporation Law (the "DGCL") imposes certain restrictions on merger, business combinations and other transactions between us and holders of 15% or more of our common stock. A Delaware corporation may opt out of that provision either with an express provision in its original certificate of incorporation or in an amendment to its certificate of incorporation or by-laws approved by its stockholders. We have not opted out of this provision. In addition, pursuant to our certificate of incorporation, our board has the authority to issue preferred stock without stockholder approval with any rights or preferences. Furthermore, special meetings of stockholders may only be called by our board or the Chief Executive Officer, and there is no cumulative voting in the election of our directors. The provisions of our certificate of incorporation and Section 203 of the DGCL could prohibit or delay mergers or other takeover or change in control attempts and, accordingly, may discourage attempts to acquire us.

Volatility of the trading prices of our common stock and/or senior notes could adversely affect our security holders. The trading prices of our common stock and our outstanding 6.00% senior notes - due 2023 denominated in Euros, 6.50% senior notes due 2022 denominated in U.S. Dollars and 10.375% senior notes due 2021 denominated in U.S. Dollars (collectively, our "Senior Notes") have been highly volatile and could continue to be subject to wide fluctuations in response to various factors, some of which are beyond our control, including, but not limited to:

- quarterly variations in our operating results;
- changes in the market's expectations about our operating results;
- our operating results failing to meet the expectation of management, securities analysts or investors in a particular period;
- the failure to remediate identified material weaknesses;
- changes in financial estimates and recommendations by securities analysts concerning our Company or our industry in general;
- operating and securities price performance of companies that investors deem comparable to us;
- news reports and publication of research reports relating to our business or trends in our markets;
- changes in laws and regulations affecting our businesses;
- announcements or strategic developments, acquisitions and other material events by us or our competitors;
- sales of substantial amounts of common stock by our directors, executive officers or significant stockholders or the perception that such sales could occur;
- adverse market reaction to any additional debt we incur in the future;
- litigation and class action proceedings;
- the failure to identify and complete acquisitions in the future or unexpected difficulties or developments related to the integration of recently completed or future acquisitions;
- actions by institutional stockholders;
- general economic and political conditions such as business cycles, recessions and acts of war or terrorism; and
- the risk factors set forth in this prospectus supplement, the documents incorporated by reference herein and other matters discussed herein and therein.

In addition, the stock market in general, and the market for specialty chemicals companies in particular, has experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of those companies. Broad market and industry factors may seriously affect the market price of companies' stock, including ours, regardless of actual operating performance. In addition, in the past, following periods of volatility in the overall market and the market price of particular companies' securities, securities litigation and class action proceedings have often been instituted against such companies. As discussed in our 2016 Q2 Form 10-Q in "Risk Factors—We are subject to a shareholder class action lawsuit which may adversely affect our business, financial condition, results of operations and cash flows," a class action lawsuit of this type was filed against us in March 2016. There can be no assurance that the market price of our common stock and/or Senior Notes will not fall in the future due to any of the aforementioned factors.

Future sales, or the perception of future sales, of our common stock may depress the price of our common stock.

If we or any of our stockholders sell a large number of shares of our common stock, or if we issue a large number of shares of common stock in connection with future acquisitions, financings or other circumstances, the market price of

our common stock could decline significantly. Moreover, the perception in the public market that we or our stockholders might sell shares of common stock could depress the market price of those shares.

We cannot predict the size of future issuances of our shares of common stock or the effect, if any, that future issuances or sales of our shares will have on the market price of such shares. Sales of substantial amounts of our shares, including sales by significant stockholders, and shares issued in connection with any additional acquisition, or the perception that such sales could occur, may adversely affect prevailing market prices for our shares of common stock. Possible sales also may make it more difficult for us to sell equity or equity-related securities in the future at a time and price we deem necessary or appropriate.

These forward-looking statements include all matters that are not historical facts. These projections and statements are based on management's estimates and assumptions with respect to future events and financial performance and are believed to be reasonable, though are inherently uncertain and difficult to predict. Actual results could differ materially from those projected as a result of certain factors. We believe these factors include, but are not limited to, conditions in the global economy, the variability of our operating results between periods and the resulting difficulty in forecasting future operating results, the anticipated results and synergies from our Prior Acquisitions and future acquisitions, the need for increased spending on capital expenditures to meet customer demand and pursue growth opportunities, our ability to compete successfully within our industry, risks associated with our substantial international operations, fluctuations in foreign currency exchange rates, changes in our customers' products and processes, the fact that we do not enter into long-term contracts with certain of our customers and the potential loss of those customers, decreases in the average selling prices of products in our industry, increases in the cost, or reductions in the supply, of the specialty and commodity chemicals used in our manufacturing processes, our ability to comply with extensive regulations applicable to agrochemical products, costs related to compliance with health, safety and environmental laws and regulations, including global climate change legislation, our ability to maintain and enhance our technological capabilities and to respond effectively to technological changes in our industry, our substantial level of indebtedness and the effect of restrictions on our operations set forth in the documents that govern such indebtedness, our compliance with certain financial maintenance covenants in our revolving credit facility and the effect on our liquidity of any failure to comply with such covenants, our ability to protect our intellectual property, on which our business is substantially dependent, and our success in avoiding infringing the intellectual property rights of others, acquisitions of businesses and our ability to integrate acquired operations into our operations, the inherently hazardous nature of chemical manufacturing in industries including agricultural, electronics, graphic arts, metal and plastic plating, the costs of complying with government regulations and obtaining regulatory approval of our products, risks related to the evaluation of our intangible asset values and the possibility of write-downs, the loss of the services of key personnel, our relationship with our employees, disruptions in our operations or the operations of our suppliers, distributors, resellers or customers as a result of extraordinary events, our ability to realize a benefit from our productivity initiatives, our ability to maintain an effective system of internal controls over financial reporting, our compliance with anti-corruption laws, and our role as a defendant in litigation that results from our business, including costs related to any damages we may be required to pay as a result of product liability claims brought against our customers.

You should read carefully the factors described or referred to in the "Risk Factors" section of this prospectus supplement and the accompanying prospectus to better understand the risks and uncertainties inherent in our business and underlying any forward-looking statements. Any forward-looking statements that we make in this prospectus

supplement, the accompanying prospectus and the documents incorporated by reference herein or therein speak only as of the date of such statement, and we undertake no obligation to update such statements. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless expressed as such, and should only be viewed as historical data.

S-25

USE OF PROCEEDS

We estimate that the net proceeds from this offering will be approximately \$340 million (or approximately \$391 million if the underwriters' option to purchase additional shares is exercised in full), after deducting fees to the underwriters and estimated offering expenses, based on an assumed public offering price of \$9.35 (which was the last reported sale price of our common stock on the NYSE on September 12, 2016). Each \$1.00 increase or decrease in the assumed public offering price would increase or decrease, respectively, our net proceeds by approximately \$38 million, assuming that the number of Shares offered by us remains the same and after deducting the estimated underwriting discounts and estimated offering expenses payable by us. We may also increase or decrease the number of Shares we are offering. Each increase or decrease of 1.0 million shares we are offering would increase or decrease, as applicable, the net proceeds to us from this offering by approximately \$9 million, after deducting the estimated underwriting discounts and estimated offering expenses payable by us, assuming the assumed public offering price stays the same.

We intend to use the net proceeds from this offering for general corporate purposes, including, but not limited to, the alternative settlement of certain obligations relating to our Series B Convertible Preferred Stock.

S-26

CAPITALIZATION

The following table summarizes our capitalization and cash and cash equivalents as of June 30, 2016:

on an actual basis; and

on an as adjusted basis to give effect to the net proceeds from this offering of common stock, assuming the sale of approximately 37.4 million Shares, at an assumed offering price of \$9.35 per share (the last reported sales price of our shares on September 12, 2016) and no exercise of the underwriters' option to purchase additional shares.

Other than as described above and in the table below, no other adjustments have been made to reflect normal course operations by us or other developments with our business after June 30, 2016. As a result, the as adjusted information provided below is not indicative of our actual cash and cash equivalents position or consolidated capitalization as of any other date. You should read this information in conjunction with "Use of Proceeds" and "Prospectus Supplement Summary—Summary Financial Data" in this prospectus supplement, and "Management's Discussion and Analysis of Financial Condition and Results of Operations" and our consolidated financial statements, including the accompanying notes, included in our 2016 Q2 Form 10-Q, as well as the historical financial statements of Platform, Arysta and Alent, and the notes to those financial statements incorporated by reference herein.

DIVIDEND POLICY

We have never declared or paid any cash dividends on our common stock and do not intend to pay cash dividends on our common stock in the foreseeable future. We anticipate that we will retain all of our future earnings, if any, for use in the development and expansion of our business and for general corporate purposes. Our credit agreement dated April 12, 2007, as amended and/or restated, and the indentures governing our Senior Notes also contain restrictions which may prohibit or limit our ability to pay dividends. As a holding company, our ability to pay dividends is highly dependent on receipts of funds from our subsidiaries. See Risk Factors— "We operate as a holding company and our principal source of operating cash is income received from our subsidiaries" included in this prospectus supplement. The holders of our Series A Preferred Stock are entitled to receive an annual dividend on their Series A Preferred Stock in the form of shares of our common stock. For 2015, no stock dividend was declared with respect to the Series A Preferred Stock. Since December 31, 2014, the dividend amount is calculated based on the appreciated stock price compared to the highest dividend price (calculated based upon the average of the last ten trading days of the year's volume weighted average share prices) previously used in calculating the Series A Preferred Stock dividends. In 2014, the dividend price, which was the only dividend price used to date, was \$22.85.

Other than with respect to our Series A Preferred Stock, no dividend or distribution may be declared or paid or set aside for payment on all or substantially all the outstanding shares of any other series of preferred stock or common stock without the prior vote or written consent of the holders of at least a majority of the shares of Series B Convertible Preferred Stock then outstanding, voting separately as a single class, for as long as any shares of Series B Convertible Preferred Stock are outstanding.

On October 27, 2015, we extended the maturity date of the Series B Convertible Preferred Stock from October 20, 2016 to April 20, 2017 (or such earlier date after October 20, 2016 that the then outstanding shares of Series B Convertible Preferred Stock are redeemed by Platform). We also agreed that any holder of then outstanding Series B Convertible Preferred Stock would be entitled to an incremental payment equal to \$4.0 million per month from October 20, 2016 to April 20, 2017 (or such earlier date after October 20, 2016 that the then outstanding shares of Series B Convertible Preferred Stock are converted into shares of common stock or automatically redeemed by Platform).

On September 9, 2016, we agreed with the Arysta seller that from October 20, 2016 until the close of business on December 15, 2016, we may (i) settle all of our obligations with respect to the Series B Convertible Preferred Stock in exchange for a cash payment of \$1.00 and the issuance of 5,500,000 shares of our common stock upon simultaneous conversion of the Series B Convertible Preferred Stock by the Arysta seller, and (ii) settle for a payment of \$460 million, our obligation to pay the Make Whole Payment to the Arysta seller pursuant to a share purchase agreement among us, the Arysta seller and certain other parties thereto, dated as of October 20, 2014, as amended. In addition to the restrictions described above, we may become subject to additional covenants should we incur any additional indebtedness, which may prohibit or further limit our ability to pay dividends.

MATERIAL U.S. FEDERAL INCOME AND ESTATE TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a general discussion of the material U.S. federal income and estate tax consequences to a non-U.S. holder of the acquisition, ownership and disposition of our common stock. For purposes of this discussion, a non-U.S. holder is any beneficial owner of our common stock, other than an entity or arrangement treated as a partnership for U.S. federal income tax purposes, that is not for U.S. federal income tax purposes any of the following:

- an individual who is citizen or resident of the United States;
- a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created or organized in the United States or under the laws of the United States or any state or the District of Columbia;
- an estate whose income is subject to U.S. federal income tax regardless of its source; or
- a trust (i) the administration of which is subject to the primary supervision of a U.S. court and which has one or more U.S. persons who have the authority to control all substantial decisions of the trust or (ii) which has made a valid election to be treated as a U.S. person.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our common stock, the tax treatment of a partner in the partnership will generally depend on the status of the partner and the activities of the partnership. Accordingly, we urge partnerships that hold our common stock and partners in such partnerships to consult their own tax advisors regarding the tax treatment of acquiring, holding and disposing of our common stock. This discussion assumes that a non-U.S. holder will hold our common stock as a capital asset (generally, property held for investment). This discussion does not address all aspects of U.S. federal income taxation or any aspects of state, local or non-U.S. taxation, nor does it consider any U.S. federal income tax considerations that may be relevant to non-U.S. holders which may be subject to special treatment under U.S. federal income tax laws, including, without limitation, U.S. expatriates, controlled foreign corporations, passive foreign investment companies, insurance companies, tax-exempt or governmental organizations, dealers in securities or currency, banks or other financial institutions, and investors that hold our common stock as part of a hedge, straddle or conversion transaction. Furthermore, the following discussion is based on current provisions of the Code, and Treasury Regulations and administrative and judicial interpretations thereof, all as in effect on the date hereof, and all of which are subject to change, possibly with retroactive effect.

We urge each prospective investor to consult a tax advisor regarding the U.S. federal, state, local and non-U.S. income and other tax consequences of acquiring, holding and disposing of shares of our common stock.

Dividends on Common Stock

If we make distributions on our common stock, those distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent those dividends exceed our current and accumulated earnings and profits, the dividends will constitute a return of capital and will first reduce a holder's adjusted tax basis in its common stock, but not below zero, and then will be treated as gain from the sale of the common stock (see “-Gain on Disposition of Common Stock”).

Any dividend paid out of earnings and profits to a non-U.S. holder of our common stock generally will be subject to U.S. federal withholding tax at a rate of 30% of the gross amount of the dividend or such lower rate as may be specified by an applicable income tax treaty. To receive the benefit of a reduced income tax treaty rate, a non-U.S. holder generally must provide the applicable withholding agent with an IRS Form W-8BEN or W-8BEN-E (or other applicable form) certifying qualification for the reduced rate. A non-U.S. holder eligible for a reduced rate of U.S. federal withholding tax pursuant to an applicable income tax treaty may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS.

Notwithstanding the foregoing, dividends received by a non-U.S. holder that are effectively connected with the conduct of a trade or business within the United States by the non-U.S. holder (and, if an applicable income tax treaty requires, is attributable to a U.S. permanent establishment maintained by the non-U.S. holder) may be exempt from such U.S. federal withholding tax. To obtain this exemption, the non-U.S. holder must provide the applicable withholding agent with an IRS Form W-8ECI properly certifying such exemption. Such effectively connected dividends, although not subject to U.S. federal withholding tax, generally will be subject to U.S. federal income tax on a net income basis at the same graduated tax rates generally applicable to U.S. persons, subject to any applicable

income tax treaty providing otherwise. In addition to the income tax described above, dividends received by corporate non-U.S. holders that are effectively connected with the conduct of a trade

S-30

or business in the United States by the corporate non-U.S. holder may be subject to a branch profits tax at a rate of 30% or such lower rate as may be specified by an applicable income tax treaty.

Gain on Disposition of Common Stock

A non-U.S. holder generally will not be subject to U.S. federal income or withholding tax on any gain realized upon the sale or other disposition of our common stock unless:

the gain is effectively connected with the conduct of a trade or business within the United States by the non-U.S.

holder and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment maintained by such non-U.S. holder;

the non-U.S. holder is an individual who is present in the United States for a period or periods aggregating 183 days or more during the calendar year in which the sale or disposition occurs and certain other conditions are met; or we become a U.S. real property holding corporation, or USRPHC, for U.S. federal income tax purposes, and the non-U.S. holder holds or has held, directly or indirectly, at any time within the shorter of (i) the five-year period preceding the disposition and (ii) the non-U.S. holder's holding period. Generally, a corporation is a U.S. real property holding corporation if the fair market value of its U.S. real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests and its other assets used or held for use in a trade or business.

In the case of a non-U.S. holder described in the first bullet point immediately above, the gain will be subject to U.S. federal income tax on a net income basis generally in the same manner as if the non-U.S. holder were a U.S. person (unless an applicable income tax treaty provides otherwise), and a corporate non-U.S. holder may also be subject to a branch profits tax equal to 30% of its effectively connected earnings and profits attributable to such gain (or at such lower rate as may be specified by an applicable income tax treaty). In the case of an individual non-U.S. holder described in the second bullet point immediately above, except as otherwise provided by an applicable income tax treaty, the gain, which may be offset by certain U.S.-source capital losses, will be subject to a flat 30% tax.

We believe we are not and do not anticipate becoming a USRPHC for U.S. federal income tax purposes. If, however, we are or become a USRPHC, so long as our common stock is considered to be regularly traded on an established securities market, only a non-U.S. holder who actually or constructively holds or held (at any time during the shorter of the five year period ending on the date of disposition or the non-U.S. holder's holding period) more than 5% of our common stock will be subject to U.S. federal income tax, under the third bullet point immediately above, on the disposition of our common stock. Each non-U.S. holder should consult with its tax advisor about the consequences that could result if we are, or become, a USRPHC.

Backup Withholding and Information Reporting

Generally, we must report annually to the IRS the amount of dividends paid to each non-U.S. holder, and the amount, if any, of tax withheld with respect to those dividends. A similar report is sent to each non-U.S. holder. These information reporting requirements apply even if withholding was not required. Pursuant to tax treaties or other agreements, the IRS may make its reports available to tax authorities in the recipient's country of residence.

Payments of dividends to a non-U.S. holder may be subject to backup withholding (at a rate of 28%) unless the non-U.S. holder establishes an exemption, for example, by properly certifying its non-U.S. status on an IRS Form W-8BEN or W-8BEN-E, or another appropriate version of IRS Form W-8.

Notwithstanding the foregoing, backup withholding also may apply if the applicable withholding agent has actual knowledge, or reason to know, that the beneficial owner is a U.S. person that is not an exempt recipient.

Payments of proceeds from the sale or other disposition by a non-U.S. holder of our common stock effected outside the United States by or through a foreign office of a broker generally will not be subject to information reporting or backup withholding. However, information reporting will apply to those payments if the broker does not have documentary evidence that the holder is a non-U.S. holder, an exemption is not otherwise established, and the broker has certain relationships with the United States.

Payments of proceeds from the sale or other disposition by a non-U.S. holder of our common stock effected by or through a U.S. office of a broker generally will be subject to information reporting and backup withholding (at a rate of 28%) unless the

non-U.S. holder establishes an exemption, for example, by properly certifying its non-U.S. status on an IRS Form W-8BEN or W-8BEN-E, or another appropriate version of IRS Form W-8.

Notwithstanding the foregoing, information reporting and backup withholding also may apply if the broker has actual knowledge, or reason to know, that the holder is a U.S. person that is not an exempt recipient.

Backup withholding is not an additional tax. Rather, the U.S. federal income tax liability of persons subject to backup withholding will be reduced by the amount of withheld. If backup withholding results in an overpayment of taxes, a refund may be obtained, provided that the required information is timely furnished to the IRS.

Foreign Account Tax Compliance Act

The Foreign Account Tax Compliance Act (“FATCA”), imposes a 30% withholding tax on any “withholdable payment” to (i) a “foreign financial institution” (as specifically defined for this purpose), unless such institution enters into an agreement with the U.S. government to collect certain amounts and provide to the U.S. tax authorities substantial information regarding account holders or (ii) a foreign entity that is not a financial institution, unless such entity provides the applicable withholding agent with a certification that the foreign entity does not have any substantial U.S. owners or provides the withholding agent with certain information relating to each of its substantial U.S. owners, unless, in each case, such entity otherwise qualifies for an exemption. Non-U.S. governments have entered into agreements with the United States (and additional U.S. governments are expected to enter into such agreements) to implement FATCA in a manner that alters the rules described herein. Under certain limited circumstances, a non-U.S. holder might be eligible for refunds or credits of such withheld taxes.

“Withholdable payments” include U.S. source payments otherwise subject to nonresident withholding tax and the gross proceeds from the sale of any equity of U.S. issuers. The withholding tax may apply regardless of whether the payment would otherwise be exempt from U.S. nonresident withholding tax (e.g., because it is capital gain).

The withholding rules described above will apply to dividends on our common stock regardless of when they are paid and to the payment of gross proceeds from the sale of our common stock made on or after January 1, 2019.

Estate Tax

Our common stock owned or treated as owned by an individual who is not a citizen or resident of the United States (as specifically defined for U.S. federal estate tax purposes) at the time of death will be includible in the individual’s gross estate for U.S. federal estate tax purposes and may be subject to U.S. federal estate tax unless an applicable estate tax treaty provides otherwise.

THE SUMMARY OF MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS ABOVE IS INCLUDED FOR GENERAL INFORMATION PURPOSES ONLY. POTENTIAL PURCHASERS OF OUR COMMON STOCK ARE URGED TO CONSULT THEIR TAX ADVISORS TO DETERMINE THE U.S. FEDERAL, STATE, LOCAL AND NON-U.S. TAX CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF OUR COMMON STOCK.

The underwriting agreement provides that the underwriters' obligation to purchase Shares depends on the satisfaction of the conditions contained in the underwriting agreement including:

Commissions and Expenses

The following table summarizes the underwriting discounts and commissions we will pay to the underwriters. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase additional shares. The underwriting fee is the difference between the initial price to the public and the amount the underwriters pay to us for the Shares.

Total (in thousands)		

The representative has advised us that the underwriters propose to offer the Shares directly to the public at the public offering price on the cover of this prospectus supplement and to selected dealers, which may include the underwriters, at such offering price less a selling concession not in excess of \$ per Share. After the offering, the representative may change the offering price and other selling terms.

The expenses of the offering that are payable by us are estimated to be approximately \$ (excluding underwriting discounts and commissions). We have also agreed to reimburse the underwriters for certain of their expenses in an amount up to \$50,000.

Option to Purchase Additional Shares

We have granted the underwriters an option exercisable for 30 days after the date of this prospectus supplement to purchase, from time to time, in whole or in part, up to an aggregate of shares from us at the public offering price less underwriting discounts and commissions. To the extent that this option is exercised, each underwriter will be obligated, subject to certain conditions, to purchase its pro rata portion of these additional shares based on the underwriter's percentage underwriting commitment in the offering as indicated in the table at the beginning of this Underwriting Section.

Lock-Up Agreements

We and all of our directors and executive officers have agreed that, for a period of 60 days after the date of this prospectus supplement subject to certain limited exceptions, and we and they will not directly or indirectly, without the prior written

consent of Credit Suisse Securities (USA) LLC (1) offer for sale, sell, pledge, or otherwise dispose of (or enter into any transaction or device that is designed to, or could be expected to, result in the disposition by any person at any time in the future of) any shares of common stock (including, without limitation, shares of common stock that may be deemed to be beneficially owned by us or them in accordance with the rules and regulations of the SEC and shares of common stock that may be issued upon exercise of any options or warrants) or securities convertible into or exercisable or exchangeable for common stock (other than the stock and shares issued pursuant to employee benefit plans, qualified stock option plans, or other employee compensation plans existing on the date of this prospectus supplement or pursuant to currently outstanding options, warrants or rights not issued under one of those plans), or sell or grant options, rights or warrants with respect to any shares of common stock or securities convertible into or exchangeable for common stock (other than the grant of options pursuant to option plans existing on the date of this prospectus supplement), (2) enter into any swap or other derivatives transaction that transfers to another, in whole or in part, any of the economic benefits or risks of ownership of shares of common stock, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of common stock or other securities, in cash or otherwise, (3) make any demand for or exercise any right or file or cause to be filed a registration statement, including any amendments thereto, with respect to the registration of any shares of common stock or securities convertible, exercisable or exchangeable into common stock or any of our other securities, or (4) publicly disclose the intention to do any of the foregoing.

Credit Suisse Securities (USA) LLC, in its sole discretion, may release the common stock and other securities subject to the lock-up agreements described above in whole or in part at any time. When determining whether or not to release common stock and other securities from lock-up agreements, Credit Suisse Securities (USA) LLC will consider, among other factors, the holder's reasons for requesting the release, the number of Shares and other securities for which the release is being requested and market conditions at the time.

Indemnification

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriters may be required to make for these liabilities.

Stabilization, Short Positions and Penalty Bids

The representative may engage in stabilizing transactions, short sales and purchases to cover positions created by short sales, and penalty bids or purchases for the purpose of pegging, fixing or maintaining the price of the common stock, in accordance with Regulation M under the Exchange Act:

• Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

A short position involves a sale by the underwriters of shares in excess of the number of Shares the underwriters are obligated to purchase in the offering, which creates the syndicate short position. This short position may be either a covered short position or a naked short position. In a covered short position, the number of shares involved in the sales made by the underwriters in excess of the number of Shares they are obligated to purchase is not greater than the number of shares that they may purchase by exercising their option to purchase additional shares. In a naked short position, the number of Shares involved is greater than the number of shares in their option to purchase additional shares. The underwriters may close out any short position by either exercising their option to purchase additional shares and/or purchasing shares in the open market. In determining the source of shares to close out the short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through their option to purchase additional shares. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

• Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions.

Penalty bids permit the representative to reclaim a selling concession from a syndicate member when the common stock originally sold by the syndicate members is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result, the price of the common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the NYSE or otherwise and, if commenced, may be discontinued at any time.

S-34

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the common stock. In addition, neither we nor any of the underwriters make any representation that the representative will engage in these stabilizing transactions or that any transaction, once commenced, will not be discontinued without notice.

Listing on the NYSE

Our common stock is listed on the NYSE under the ticker symbol "PAH."

Stamp Taxes

If you purchase Shares offered in this prospectus supplement, you may be required to pay stamp taxes and other charges under the laws and practices of the country of purchase, in addition to the offering price listed on the cover page of this prospectus supplement.

Other Relationships

The underwriters and certain of their affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and certain of their affiliates have, from time to time, performed, and may in the future perform, various commercial and investment banking and financial advisory services for the issuer and its affiliates, for which they received or may in the future receive customary fees and expenses. Specifically, the underwriters and/or certain of their affiliates are arrangers, lenders and agents under our credit agreement dated April 12, 2007, as amended and/or restated, and receive fees in connection therewith.

In the ordinary course of their various business activities, the underwriters and certain of their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of the issuer or its affiliates. If the underwriters or their affiliates have a lending relationship with us, or their affiliates routinely hedge, the underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, the underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, including potentially the Shares offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the shares of common stock offered hereby. The underwriters and certain of their affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

THE COMPANY

We are a global, diversified producer of high-technology specialty chemical products. Our business involves the formulation of a broad range of solutions-oriented specialty chemicals, which are sold into multiple industries, including agricultural, animal health, electronics, graphic arts, plating, and offshore oil and gas production and drilling. We refer to our products as "dynamic chemistries" due to their intricate chemical compositions. Our dynamic chemistries are used in a wide variety of attractive niche markets and we believe that the majority of our operations hold strong positions in the product markets they serve.

Our strategy is to acquire and maintain leading positions in niche sectors of high-growth markets. As our name "Platform Specialty Products Corporation" implies, we continually seek opportunities to acquire and consolidate specialty chemical businesses on a global basis, particularly those meeting our "Asset-Lite, High-Touch" philosophy which involves prioritizing extensive resources to research and development and highly technical customer service, while managing conservatively our investments in fixed assets and capital expenditures. We regularly review acquisition opportunities and may acquire businesses that meet our acquisition criteria when we deem it to be financially prudent. To date, we have completed seven acquisitions: MacDermid, Incorporated on October 31, 2013; Percival S.A., including Percival S.A.'s agrochemical business, Agriphar, on October 1, 2014; the Chemtura AgroSolutions business of Chemtura Corporation on November 3, 2014; Arysta LifeScience Limited ("Arysta") on February 13, 2015; the Electronic Chemicals and Photomasks businesses of OM Group, Inc. (collectively, "OMG") on October 28, 2015; Alent plc ("Alent") on December 1, 2015; and OMG Electronic Chemicals (M) Sdn Bhd, a subsidiary of OM Group, Inc. located in Malaysia, on January 31, 2016.

We believe that the fragmented nature of the specialty chemical products market will continue to provide significant opportunities for growth. We also believe that our combined company provides a strong platform on which to grow our business and expand our market shares in key geographic markets, particularly in emerging markets. We expect that our past and future acquisitions will enhance our growth by extending our products breadth, developing higher-margin products and growing internationally. We intend to extend many of our product offerings through the development of new applications for our existing products or through synergistic combinations. Our goal is to target those geographies with attractive market fundamentals where our strengths in marketing, portfolio development, registration and customer education can add value for our customers.

As of the date of this prospectus, we operate our business in two reportable business segments, Performance Solutions and Agricultural Solutions, as described below:

Performance Solutions - Our Performance Solutions segment formulates and markets dynamic chemistry solutions that are used in electronics, automotive production, oil and gas production, drilling, and commercial packaging and printing. Our products include surface and coating materials, functional conversion coatings, electronic assembly materials, water-based hydraulic control fluids and photopolymers. In conjunction with the sale of these products, we provide extensive technical service and support when necessary to ensure superior performance of their application. The regional sales mix in this segment has shifted over the past several years from more industrialized nations towards emerging markets, such as those in Asia and South America. Our Performance Solutions segment employs approximately 4,800 personnel which operate mainly in the Americas, Asia/Pacific region and Europe.

Agricultural Solutions - Our Agricultural Solutions segment is based on a solutions-oriented business model that focuses on product innovation to address an ever-increasing need for higher crop yield and quality. We offer to growers diverse crop protection solutions from weeds (herbicides), insects (insecticides) and diseases (fungicides), in foliar and seed treatment applications. We also offer a wide variety of proven biosolutions, including biostimulants, innovative nutrition and biocontrol products. We emphasize farmer economics and food safety by combining, when possible, biosolutions with crop protection and seed treatment agrochemicals. Our Global Value Added Portfolio ("GVAP") consists of agrochemicals in the herbicides, insecticides, fungicides and seed treatment categories, based on patented or proprietary off-patent active ingredients ("AIs"). Our Global BioSolutions Portfolio ("GBP") includes biostimulants, innovative nutrition and biocontrol products. We consider our GVAP and GBP to be key pillars for our sustainable growth. In addition, we offer regional off-patent AIs and certain non-crop products, including animal health products, such as honey bee protective miticides and certain veterinary vaccines. We employ approximately 3,700 personnel with a significant presence on high-growth regions such as Africa and the Middle East, South Asia,

Latin America and Central and Eastern Europe.

Our principal office is located at 1450 Centrepark Boulevard, Suite 210, West Palm Beach, Florida 33401, and our telephone number at that address is (561) 207-9600. We maintain a website at www.platformspecialtyproducts.com where general information about us is available. Information on, or accessible through, our website is not part of this prospectus.

Please carefully consider the risk factors described under the heading "Risk Factors" in our most recent annual report on Form 10-K, as amended or supplemented by subsequent quarterly reports on Form 10-Q, which have been or will be incorporated by reference into this prospectus, as well as any risks that may be set forth in this prospectus or the prospectus supplement relating to a specific security. Before making an investment decision, you should carefully consider these risks as well as other information we include or incorporate by reference in this prospectus or include in any applicable prospectus supplement. These risks could materially affect our business, results of operations or financial condition and cause the value of our securities to decline. As a result, you could lose all or part of your investment.

USE OF PROCEEDS

RATIO OF EARNINGS TO FIXED CHARGES AND EARNINGS TO COMBINED FIXED CHARGES AND PREFERRED STOCK DIVIDENDS

The following table sets forth the historical ratio of our earnings to fixed charges and our earnings to combined fixed charges and preferred stock dividends for the periods indicated:

	Three Months Ended March 31, 2016	2015	2014	Period from Inception through December 31, 2013	January 1, 2013 through October 31, 2013	2012	2011
	(successor)	(successor)	(successor)	(successor)	(predecessor)	(predecessor)	(predecessor)
Ratio of Earnings to Fixed Charges	(1) —	—	—	—	1.5	2.3	1.2
Ratio of Earnings to Combined Fixed Charges and Preferred Stock Dividends	(2) —	—	—	—	1.5	2.3	1.2

(1) The ratio of earnings to fixed charges is not presented for the years that the ratio is less than 1:1. The deficiency of earnings was \$116.0 million for the three months ended March 31, 2016 and \$229.3 million, \$30.9 million and \$201.4 million for the years ended December 31, 2015, 2014 and the Period from Inception through December 31, 2013, respectively.

(2) The ratio of earnings to combined fixed charges and preferred stock dividends is not presented for the years that the ratio is less than 1:1. The deficiency of earnings was \$116.0 million for the three months ended March 31, 2016 and \$229.3 million, \$30.9 million and \$201.4 million for the years ended December 31, 2015, 2014 and the Period from Inception through December 31, 2013, respectively.

The ratio of earnings to fixed charges equals earnings before fixed charges divided by fixed charges. The ratio of earnings to combined fixed charges and preferred stock dividends equals earnings before fixed charges and preferred stock dividends divided by fixed charges and preferred stock dividends. For purposes of calculating these ratios, earnings before fixed charges (and earnings before combined fixed charges and preferred stock dividends) consist of earnings from continuing operations before income taxes, non-controlling interests, dividends on preferred shares and accrued payment-in-kind dividends on cumulative preferred shares, plus fixed charges. Fixed charges consist of interest expense (including amortization of debt expense and discount or premium relating to any indebtedness) and

that portion of rental expense representative of the interest factor.

Preferred Stock

Series A Preferred Stock

The special rights, preferences and privileges of the Series A Preferred Stock are set forth in our certificate of incorporation, as amended.

Dividends

Subject to applicable law and the rights, if any, of any series of our preferred stock ranking senior to the Series A Preferred Stock as to dividends, the holders of the Series A Preferred Stock are entitled to receive, in respect of each calendar year (each a "Dividend Year"), a cumulative annual dividend amount (the "Annual Dividend Amount"), which is calculated as follows:

A X B, where:

A = an amount equal to 20% of the increase (if any) in the value of a share of our common stock, such increase calculated as being the difference between (i) the Average Price (as defined in our certificate of incorporation, as amended) per share of our common stock over the last ten days of the relevant calendar year for such annual dividend (the "Dividend Price") and (ii) (x) if no Annual Dividend Amount has previously been paid, a price of \$10.00 per share of our common stock, or (y) if an Annual Dividend Amount has previously been paid, the highest Dividend Price for any prior Dividend Year (provided in each case such amount is subject to such adjustment either as the board in its absolute discretion determine to be fair and reasonable in the event of a subdivision, combination or similar reclassification or recapitalization of our outstanding common stock or otherwise as determined in accordance with our certificate of incorporation, as amended, in each case without a corresponding subdivision, combination or similar reclassification or recapitalization of the outstanding shares of Series A Preferred Stock); and

B = 90,529,500 (based on the number of shares issued in our initial public offering plus the number of shares of our common stock issuable upon conversion of our outstanding shares of Series A Preferred Stock), which such amount is subject to such adjustment either as the board in its absolute discretion determine to be fair and reasonable in the event of a subdivision, combination or similar reclassification or recapitalization of the outstanding our common stock or otherwise as determined in accordance with our certificate of incorporation, as amended, in each case without a corresponding subdivision, combination or similar reclassification or recapitalization of the outstanding shares of Series A Preferred Stock.

Each Annual Dividend Amount shall be divided between the holders pro rata to the number of Series A Preferred Stock held by them on the relevant Dividend Date (as defined in our certificate of incorporation, as amended). The Annual Dividend Amount will be paid no later than ten trading days from the Dividend Date by the issue to each holder of Series A Preferred Stock of such number of shares of common stock as is equal to the pro rata amount of the Annual Dividend Amount to which they are entitled divided by the average closing price per share of our common stock on the relevant Dividend Date.

Conversion

Automatic Conversion. The Series A Preferred Stock will be automatically converted (the "Automatic Conversion") into shares of our common stock on a one-for-one basis (subject to adjustment in accordance with our certificate of incorporation, as amended) (i) in the event of a Change of Control (as defined in our certificate of incorporation, as amended) or (ii) upon the last day of our seventh full financial year following October 31, 2013, or the last day of such subsequent financial year (not exceeding our tenth full financial year following October 31, 2013) as agreed between the holders of a majority of the Series A Preferred Stock and a majority of our independent directors in accordance with our certificate of incorporation, as amended, as described below (or if either such date is not a trading day, the first trading day immediately following such date). In the event of any Automatic Conversion, the Annual Dividend Amount shall be payable for such shortened Dividend Year on the trading day immediately prior to such conversion.

Upon notice in writing from the holders of a majority of the Series A Preferred Stock to us to be received not less than ten business days prior to the last day of our seventh full financial year after October 31, 2013, such holder(s) may request that the date of automatic conversion be deferred to the last day of our eighth full financial year following October 31, 2013. If a majority of the independent directors determine in their discretion to defer the relevant date of Automatic Conversion as requested then (i) the date of Automatic Conversion shall be such deferred date; and (ii) the

holders of a majority of the Series A Preferred Stock will have the right to make a further request in writing no later than ten business days prior to the last day of our eighth full financial year following October 31, 2013 for the deferral of the relevant date of Automatic Conversion by a further year. In the event a majority of our independent directors approve any such further request for a deferral of the relevant

6

date of Automatic Conversion then (i) the date of Automatic Conversion shall be such deferred date and (ii) the holders of a majority of Series A Preferred Stock will have the right to make one further request on the same basis as referenced above no later than ten business days prior to the last day of our ninth full financial year following October 31, 2013 for the deferral of the relevant date of Automatic Conversion by a further year. In the event that a majority of our independent directors approve any such further request for a deferral of the relevant date of Automatic Conversion then the date of Automatic Conversion shall be such deferred date. In no circumstances shall the date of Automatic Conversion be deferred beyond the last day of our tenth full financial year following October 31, 2013 (or, if such date is not a trading day, on the first trading day immediately following such date).

Optional Conversion. A holder of Series A Preferred Stock may require some or all of his, her or its Series A Preferred Stock to be converted (the "Optional Conversion") into an equal number of shares of our common stock (subject to adjustment in accordance with our certificate of incorporation, as amended) by written notice to us, and in such circumstances those Series A Preferred Stock the subject of such conversion request shall be converted into shares of our common stock five trading days after our receipt of the written notice. In the event of an Optional Conversion, no Annual Dividend Amount shall be payable in respect of those Series A Preferred Stock for the Dividend Year in which the date of the Optional Conversion. A holder of Series A Preferred Stock may exercise its rights independently of the other holders of Series A Preferred Stock.

Voting Rights

The Series A Preferred Stock do not carry voting rights except in respect of any amendment to our certificate of incorporation, as amended, that alters or changes the rights, preferences or privileges of the Series A Preferred Stock.

Series B Convertible Preferred Stock

The special rights, preferences and privileges of the Series B Convertible Preferred Stock are set forth in our certificate of incorporation, as amended.

Dividends

Subject to applicable law, for so long as any shares of Series B Convertible Preferred Stock shall be outstanding, no dividend or distribution shall be declared or paid or set aside for payment on all or substantially all the outstanding shares of any series of our preferred stock, other than the Series A Preferred Stock, or all or substantially all the outstanding shares of our common stock without the prior vote or written consent of the holders of at least a majority of the shares of Series B Convertible Preferred Stock then outstanding, voting separately as a single class.

Conversion

Each share of Series B Convertible Preferred Stock is convertible into such number of shares of our common stock as is determined by dividing a \$1,000 liquidation preference by a conversion price of \$27.14, at the option of the holder.

Automatic Redemption

Each share of Series B Convertible Preferred Stock that is not previously converted to common stock will be subject to automatic redemption on either (a) April 20, 2017 (the "Maturity Date") or (b) the occurrence of (i) a merger of Platform or a subsidiary of Platform where more than 50% of the voting power of the surviving corporation is held by persons other than the stockholders of Platform, (ii) the sale of all or substantially all of our assets or subsidiaries in a single transaction or series of related transactions or (iii) our stockholders approve a plan for the Company's liquidation, dissolution or termination (each of clauses (i), (ii) and (iii), a "Triggering Event"). The redemption price for each share of Series B Convertible Preferred Stock will be \$1,000, which must be paid in cash in the event of redemption upon a Triggering Event. The redemption price must be paid in shares of common stock (valued at \$27.14 per share) in the event of redemption at the Maturity Date. However, we may not issue more than 22,107,590 shares of common stock in connection with a redemption at the Maturity Date. To the extent that the aggregate value of such 22,107,590 shares of common stock is less than \$600 million (based on a 10-day volume weighted average price), then such shortfall would be payable by us in cash. Any holder of then outstanding Series B Convertible Preferred Stock is also entitled to an incremental payment equal to \$4.0 million per month from October 20, 2016 to April 20, 2017, or such earlier date after October 20, 2016 that the then outstanding shares of Series B Convertible Preferred Stock are converted into shares of common stock or automatically redeemed by Platform.

Voting Rights

The Series B Convertible Preferred Stock do not carry voting rights except in respect of any amendment to our certificate of incorporation, as amended, that alters or changes the powers, preferences, rights, qualifications, limitations or restrictions of the Series B Convertible Preferred Stock. In addition, we may not, without the prior written consent of a majority of the holders of Series B Convertible Preferred Stock, authorize, create or designate any series of preferred stock that would rank pari passu or senior to the Series B Convertible Preferred Stock with respect to dividends or liquidation, or declare, pay or set aside for payment a dividend on the outstanding shares of any series of preferred stock that would rank pari passu to the Series B Convertible Preferred Stock.

Liquidation Preference

The holders of shares of Series B Convertible Preferred Stock have priority over the holders of shares of our common stock in the event of any liquidation, dissolution or winding up of Platform. Upon the liquidation, dissolution or winding up, whether voluntary or involuntary, before any distribution or payment is made to the holders of our common stock, the holders of shares of Series B Convertible Preferred Stock are entitled to be paid out of our assets an amount equal the stated value of their shares of Series B Convertible Preferred Stock, which is initially \$1,000 per share, plus any accrued but unpaid dividends.

Blank Check Preferred

Our certificate of incorporation, as amended, authorizes our board of directors to issue additional series of preferred stock without further stockholder action, unless stockholder approval is required by applicable law or by the rules of a stock exchange or quotation system on which any series of our stock may be listed or quoted.

Prior to issuance of shares of additional series of our undesignated preferred stock, our board of directors is required by the Delaware General Corporate Law ("DGCL") and our certificate of incorporation, as amended, to adopt resolutions and file a certificate of designation with the Secretary of State of the State of Delaware, fixing for each such series the designations, powers, preferences, rights, qualifications, limitations and restrictions of the shares of such series. Our board of directors could authorize the issuance of shares of preferred stock with terms and conditions which could have the effect of discouraging a takeover or other transaction which holders of some, or a majority, of such shares might believe to be in their best interests or in which holders of some, or a majority, of such shares might receive a premium for their shares over the then-market price of such shares.

Subject to limitations prescribed by the DGCL, our certificate of incorporation, as amended, and our amended and restated by-laws, our board of directors is authorized to fix the number of shares constituting each series of preferred stock and the designation of such series, powers (including voting powers), preferences, rights, qualifications, limitations and restrictions of the shares of such series, including such provisions as may be desired concerning voting, redemption, dividends, dissolution or the distribution of assets, conversion or exchange, and such other subjects or matters as may be fixed by resolution of the board of directors. Each series of preferred stock that we offer under this prospectus will, when issued, be fully paid and nonassessable and will not have, or be subject to, any preemptive or similar rights.

The applicable prospectus supplement(s) will describe the following terms of the series of preferred stock in respect of which this prospectus is being delivered:

- the title and stated value of the preferred stock;
- the number of shares of the preferred stock offered, the liquidation preference per share and the purchase price of the preferred stock;
- the dividend rate(s), period(s) and/or payment date(s) or the method(s) of calculation for dividends, when, as and if declared by our board of directors;
- whether dividends shall be cumulative or non-cumulative and, if cumulative, the date from which dividends on the preferred stock shall accumulate;
- the procedures for any auction and remarketing, if any, for the preferred stock;
- the provisions for a sinking fund, if any, for the preferred stock;
- the provisions for redemption, if applicable, of the preferred stock;
- any listing of the preferred stock on any securities exchange or market;

the terms and conditions, if applicable, upon which the preferred stock will be convertible into common stock or another series of our preferred stock, including the conversion price (or its manner of calculation) and conversion period;

the terms and conditions, if applicable, upon which preferred stock will be exchangeable into our debt securities, including the exchange price, or its manner of calculation, and exchange period;

voting rights, if any, of the preferred stock;

a discussion of any material and/or special U.S. federal income tax considerations applicable to the preferred stock;

whether interests in the preferred stock will be represented by depositary shares;

the relative ranking and preferences of the preferred stock as to dividend rights and rights upon liquidation, dissolution or winding up of our affairs; and

any other specific terms, preferences, rights, limitations or restrictions on the preferred stock.

Liquidation

In the event we voluntarily or involuntarily liquidate, dissolve or wind up our affairs, the holders of our preferred stock will be entitled to receive the liquidation preference per share specified in the certificate of designation applicable to such preferred stock before any distribution to the holders of our common stock.

Transfer Agent and Registrar

The transfer agent and registrar for any series of preferred stock will be determined upon the issuance of any such shares of preferred stock and described in the applicable prospectus supplement.

Certificate of Incorporation, as Amended, and Amended and Restated By-laws Anti-Takeover Provisions

Our certificate of incorporation, as amended, and amended and restated by-laws contain several provisions which could delay, defer or prevent a change of control from occurring. These provisions provide the following:

our board has the authority to issue preferred stock without stockholder approval with any rights or preferences the board determines;

special meetings of stockholders may only be called by our board or our Chief Executive Officer; and

there is no cumulative voting in the election of directors.

These and other provisions may have the effect of deferring hostile takeovers or delaying changes in control or management.

Delaware Law Anti-Takeover Provision

As a Delaware corporation, we are subject to Section 203 of the DGCL which restricts certain "business combinations" with "interested stockholders" for three years following the date that a person becomes an interested stockholder unless: (1) the "business combination" or the transaction which caused the person or entity to become an interested stockholder is approved by the board prior to such business combination or transactions; (2) upon the completion of the transaction in which the person or entity becomes an "interested stockholder," such interested stockholder holds at least 85% of the voting stock of Platform not including (x) shares held by officers and directors and (y) shares held by employee benefit plans under certain circumstances; or (3) at or after the person or entity becomes an "interested stockholder," the "business combination" is approved by the board and holders of at least 66 2/3% of the outstanding voting stock, excluding shares held by such interested stockholder. A Delaware corporation may elect not to be governed by Section 203. Platform has not made such an election.

Transfer and Exchange

Each debt security will be represented by either one or more global securities registered in the name of The Depository Trust Company, or the Depository, or a nominee of the Depository (we will refer to any debt security represented by a global debt security as a "book-entry debt security"), or a certificate issued in definitive registered

form (we will refer to any debt security represented by a certificated security as a "certificated debt security") as set forth in the applicable prospectus

11

supplement. Except as set forth under the heading "Global Debt Securities and Book-Entry System" below, book-entry debt securities will not be issuable in certificated form.

Certificated Debt Securities. You may transfer or exchange certificated debt securities at any office we maintain for this purpose in accordance with the terms of the indenture. No service charge will be made for any transfer or exchange of certificated debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with a transfer or exchange.

You may effect the transfer of certificated debt securities and the right to receive the principal of, premium and interest on certificated debt securities only by surrendering the certificate representing those certificated debt securities and either reissuance by us or the trustee of the certificate to the new holder or the issuance by us or the trustee of a new certificate to the new holder.

Global Debt Securities and Book-Entry System. Each global debt security representing book-entry debt securities will be deposited with, or on behalf of, the Depository, and registered in the name of the Depository or a nominee of the Depository.

Covenants

We will set forth in the applicable prospectus supplement any restrictive covenants applicable to any issue of debt securities.

No Protection In the Event of a Change of Control

Unless we state otherwise in the applicable prospectus supplement, the debt securities will not contain any provisions which may afford holders of the debt securities protection in the event we have a change in control or in the event of a highly leveraged transaction (whether or not such transaction results in a change in control) which could adversely affect holders of debt securities.

Consolidation, Merger and Sale of Assets

We may not consolidate with or merge with or into, or convey, transfer or lease all or substantially all of our properties and assets to any person (a "successor person") unless:

we are the surviving corporation or the successor person (if other than us) is a corporation organized and validly existing under the laws of any U.S. domestic jurisdiction and expressly assumes our obligations on the debt securities and under the indenture; and

immediately after giving effect to the transaction, no Default or Event of Default, shall have occurred and be continuing.

Notwithstanding the above, any of our subsidiaries may consolidate with, merge into or transfer all or part of its properties to us.

Events of Default

"Event of Default" means with respect to any series of debt securities, any of the following:

default in the payment of any interest upon any debt security of that series when it becomes due and payable, and continuance of that default for a period of 30 days (unless the entire amount of the payment is deposited by us with the trustee or with a paying agent prior to the expiration of the 30-day period);

default in the payment of principal of any debt security of that series at its maturity;

default in the performance or breach of any other covenant or warranty by us in the indenture (other than a covenant or warranty that has been included in the indenture solely for the benefit of a series of debt securities other than that series), which default continues uncured for a period of 60 days after we receive written notice from the trustee or Platform and the trustee receive written notice from the holders of not less than 25% in principal amount of the outstanding debt securities of that series as provided in the indenture;

certain voluntary or involuntary events of bankruptcy, insolvency or reorganization of Platform; or

any other Event of Default provided with respect to debt securities of that series that is described in the applicable prospectus supplement.

No Event of Default with respect to a particular series of debt securities (except as to certain events of bankruptcy, insolvency or reorganization) necessarily constitutes an Event of Default with respect to any other series of debt securities. The occurrence of certain Events of Default or an acceleration under the indenture may constitute an event of default under certain of our indebtedness or that of our subsidiaries outstanding from time to time.

If an Event of Default with respect to debt securities of any series at the time outstanding occurs and is continuing, then the trustee or the holders of not less than 25% in principal amount of the outstanding debt securities of that series may, by a notice in writing to us (and to the trustee if given by the holders), declare to be due and payable immediately the principal of (or, if the debt securities of that series are discount securities, that portion of the principal amount as may be specified in the terms of that series) and accrued and unpaid interest, if any, on all debt securities of that series. Such acceleration will not be effective until the earlier of (1) the acceleration of indebtedness under our senior secured credit facilities or (2) five business Days after receipt by us of written notice of such acceleration, at which time the principal, premium, if any, interest and any other monetary obligations on all the then outstanding series of debt securities will become due and payable immediately. In the case of an Event of Default resulting from certain events of bankruptcy, insolvency or reorganization, the principal (or such specified amount) of and accrued and unpaid interest, if any, on all outstanding debt securities will become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder of outstanding debt securities. At any time after a declaration of acceleration with respect to debt securities of any series has been made, but before a judgment or decree for payment of the money due has been obtained by the trustee, the holders of a majority in principal amount of the outstanding debt securities of that series may rescind and annul the acceleration if all Events of Default, other than the non-payment of accelerated principal and interest, if any, with respect to debt securities of that series, have been cured or waived as provided in the indenture. We refer you to the prospectus supplement relating to any series of debt securities that are discount securities for the particular provisions relating to acceleration of a portion of the principal amount of such discount securities upon the occurrence of an Event of Default.

The indenture provides that the trustee will be under no obligation to exercise any of its rights or powers under the indenture unless the trustee receives indemnity satisfactory to it against any cost, liability or expense which might be incurred by it in exercising such right of power. Subject to certain rights of the trustee, the holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities of that series.

No holder of any debt security of any series will have any right to institute any proceeding, judicial or otherwise, with respect to the indenture or for the appointment of a receiver or trustee, or for any remedy under the indenture, unless: that holder has previously given to the trustee written notice of a continuing Event of Default with respect to debt securities of that series; and

the holders of not less than 25% in principal amount of the outstanding debt securities of that series have made written request, and offered reasonable indemnity or security, to the trustee to institute the proceeding as trustee, and the trustee has not received from the holders of not less than a majority in principal amount of the outstanding debt securities of that series a direction inconsistent with that request and has failed to institute the proceeding within 60 days.

Notwithstanding any other provision in the indenture, the holder of any debt security will have an absolute and unconditional right to receive payment of the principal of, premium and any interest on that debt security on or after the due dates expressed in that debt security and to institute suit for the enforcement of payment.

The indenture requires us, within 120 days after the end of our fiscal year, to furnish to the trustee a statement as to compliance with the indenture. If a Default or Event of Default occurs and is continuing with respect to the debt securities of any series and if it is known to a responsible officer of the trustee, the trustee shall mail to each holder of the debt securities of that series notice of a Default or Event of Default within 90 days after it occurs. The indenture provides that the trustee may withhold notice to the holders of debt securities of any series of any Default or Event of Default (except in payment on any debt securities of that series) with respect to debt securities of that series if the

trustee determines in good faith that withholding notice is in the interest of the holders of those debt securities.

13

Modification and Waiver

We and the trustee may modify and amend the indenture or the debt securities of any series without the consent of any holder of any debt security:

- to cure any ambiguity, defect or inconsistency;
- to comply with covenants in the indenture described above under the heading "Consolidation, Merger and Sale of Assets;"
- to provide for uncertificated securities in addition to or in place of certificated securities;
- to make any change that does not adversely affect the rights of any holder of debt securities;
- to provide for the issuance of and establish the form and terms and conditions of debt securities of any series as permitted by the indenture;
- to add covenants for the benefit of the holders or to surrender any right or power conferred upon Platform;
- to effect the appointment of a successor trustee with respect to the debt securities of any series and to add to or change any of the provisions of the indenture to provide for or facilitate administration by more than one trustee; or
- to comply with requirements of the SEC in order to effect or maintain the qualification of the indenture under the Trust Indenture Act of 1939, as amended.

We may also modify and amend the indenture with the consent of the holders of at least a majority in principal amount of the outstanding debt securities of each series affected by the modifications or amendments.

We may not make any modification or amendment without the consent of the holders of each affected debt security then outstanding if that amendment will:

- reduce the amount of debt securities whose holders must consent to an amendment, supplement or waiver;
- reduce the rate of or extend the time for payment of interest (including default interest) on any debt security;
- reduce the principal of or premium on or change the fixed maturity of any debt security or reduce the amount of, or
- postpone the date fixed for, the payment of any sinking fund or analogous obligation with respect to any series of debt securities;
- reduce the principal amount of discount securities payable upon acceleration of maturity;
- waive a default in the payment of the principal of, premium or interest on any debt security (except a rescission of acceleration of the debt securities of any series by the holders of at least a majority in aggregate principal amount of the then outstanding debt securities of that series and a waiver of the payment default that resulted from such acceleration);
- make the principal of or premium or interest on any debt security payable in currency other than that stated in the debt security;
- make any change to certain provisions of the indenture relating to, among other things, the right of holders of debt securities to receive payment of the principal of, premium and interest on those debt securities and to institute suit for the enforcement of any such payment and to waivers or amendments; and
- waive a redemption payment with respect to any debt security.

Except for certain specified provisions, the holders of at least a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all debt securities of that series waive our compliance with provisions of the indenture. The holders of a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all the debt securities of such series waive any past default under the indenture with respect to that series and its consequences, except a default in the payment of the principal of, premium or any interest on any debt security of that series; provided, however, that the holders of a majority in principal amount of the outstanding debt securities of any series may rescind an acceleration and its consequences, including any related payment default that resulted from the acceleration.

Defeasance of Debt Securities and Certain Covenants in Certain Circumstances

Legal Defeasance. The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, we may be discharged from any and all obligations in respect of the debt securities of any series (subject to certain exceptions). We will be so discharged upon the deposit with the trustee, in trust, of money and/or U.S. government obligations

or, in the case of debt securities denominated in a single currency other than U.S. Dollars, government obligations of the government that issued or caused to be issued such currency, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants or investment bank to pay and discharge each installment of principal, premium and interest on and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of those payments in accordance with the terms of the indenture and those debt securities.

This discharge may occur only if, among other things, we have delivered to the trustee an opinion of counsel stating that we have received from, or there has been published by, the United States Internal Revenue Service a ruling or, since the date of execution of the indenture, there has been a change in the applicable United States federal income tax law, in either case to the effect that, and based thereon such opinion shall confirm that, the holders of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit, defeasance and discharge and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit, defeasance and discharge had not occurred.

Defeasance of Certain Covenants. The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, upon compliance with certain conditions:

we may omit to comply with the covenant described under the heading "Consolidation, Merger and Sale of Assets" and certain other covenants set forth in the indenture, as well as any additional covenants which may be set forth in the applicable prospectus supplement; and
any omission to comply with those covenants will not constitute a Default or an Event of Default with respect to the debt securities of that series ("covenant defeasance").

The conditions include:

depositing with the trustee money and/or U.S. government obligations or, in the case of debt securities denominated in a single currency other than U.S. Dollars, government obligations of the government that issued or caused to be issued such currency, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants or investment bank to pay and discharge each installment of principal of, premium and interest on and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of those payments in accordance with the terms of the indenture and those debt securities; and

delivering to the trustee an opinion of counsel to the effect that the holders of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit and related covenant defeasance and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit and related covenant defeasance had not occurred.

Covenant Defeasance and Events of Default. In the event we exercise our option to effect covenant defeasance with respect to any series of debt securities and the debt securities of that series are declared due and payable because of the occurrence of any Event of Default, the amount of money and/or U.S. government obligations or foreign government obligations on deposit with the trustee will be sufficient to pay amounts due on the debt securities of that series at the time of their stated maturity but may not be sufficient to pay amounts due on the debt securities of that series at the time of the acceleration resulting from the Event of Default. However, we shall remain liable for those payments.

Governing Law

The indenture and the debt securities will be governed by, and construed in accordance with, the laws of the State of New York without regard to conflict of law principles that would result in the application of any law other than the law of the State of New York.

PLAN OF DISTRIBUTION

We may from time to time offer and/or sell some or all of the securities covered by this prospectus. Registration of securities covered by this prospectus does not mean, however, that those securities necessarily will be offered or sold. We may sell the securities in any of three ways (or in any combination) from time to time:

- to or through underwriters or dealers for resale;
- directly to a limited number of purchasers or to a single purchaser; or
- through agents.

The applicable prospectus supplement will set forth the terms of the offering of such securities, including:

- the name or names of any underwriters, dealers or agents and the amounts of shares underwritten or purchased by each of them;
- the public offering price of the shares;
- the net proceeds to us;
- any discounts, commissions or concessions or other compensation allowed or reallocated or paid to underwriters, dealers or agents; and
- any exchange or market on which the securities are listed or to which application will be made to list the securities.

We may designate agents to solicit purchases for the period of their appointment and to sell securities on a continuing basis, including pursuant to "at the market offerings."

We may offer these securities to the public through underwriting syndicates represented by managing underwriters or through underwriters without a syndicate. If underwriters are used, the securities will be acquired by the underwriters for their own account. The underwriters may resell the securities in one or more transactions, including negotiated transactions at a fixed public offering price or at varying prices determined at the time of sale. Unless otherwise indicated in the related prospectus supplement, the obligations of the underwriters to purchase the securities will be subject to customary conditions precedent and the underwriters will be obligated to purchase all the securities offered if any of the securities are purchased. Underwriters may sell securities to or through dealers, and the dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agent. Any public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

Underwriters and agents may from time to time purchase and sell the securities described in this prospectus and the relevant prospectus supplement in the secondary market, but are not obligated to do so. No assurance can be given that there will be a secondary market for the securities or liquidity in the secondary market if one develops. From time to time, underwriters and agents may make a market in the securities.

In order to facilitate the offering of the securities, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of these securities or any other securities the prices of which may be used to determine payments on these securities. Specifically, the underwriters may over-allot in connection with the offering, creating a short position in the securities for their own accounts. In addition, to cover over-allotments or to stabilize the price of the securities or of any other securities, the underwriters may bid for, and purchase, the securities or any other securities in the open market. Finally, in any offering of the securities through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the securities in the offering, if the syndicate repurchases previously distributed securities in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the securities above independent market levels. The underwriters are not required to engage in these activities, and may end any of these activities at any time.

Underwriters named in a prospectus supplement are, and dealers and agents named in a prospectus supplement may be, deemed to be "underwriters" within the meaning of the Securities Act in connection with the securities offered thereby, and any discounts or commissions they receive from us and any profit on their resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act. We may have agreements with the underwriters, agents and dealers to indemnify them against certain civil liabilities, including liabilities under the Securities Act, or to contribute to payments they may be required to make in respect of these liabilities. Underwriters, agents and dealers may engage in transactions with or perform services for Platform or our subsidiaries and affiliates

in the ordinary course of business.

One or more firms, referred to as "remarketing firms," may also offer or sell the securities, if the prospectus supplement so indicates, in connection with a remarketing arrangement upon their purchase. Remarketing firms will act as principals for their own accounts or as agents for us. These remarketing firms will offer or sell the securities in accordance with a redemption or repayment pursuant to the terms of the securities. The prospectus supplement will identify any remarketing firm and the terms of its agreement, if any, with us and will describe the remarketing firm's compensation. Remarketing firms may be deemed to be underwriters in connection with the securities they remarket. Remarketing firms may be entitled under agreements that may be entered into with us to indemnification by us against certain civil liabilities, including liabilities under the Securities Act and may be customers of, engage in transactions with or perform services for us in the ordinary course of business.

Unless indicated in the applicable prospectus supplement, we do not expect to apply to list the securities on a securities exchange.

LEGAL MATTERS

The validity of the securities offered by this prospectus will be passed upon for us by Greenberg Traurig, P.A., Ft. Lauderdale, Florida, and counsel for any underwriters or agents, if any, will be named in the applicable prospectus supplement.
