<sup>1</sup> Upon adoption of IFRS 15, certain brokerage fees paid in an agency capacity have been reclassified from Fee and commission income on a prospective basis from 1 January 2018, primarily relating to third-party traded derivative transactions and fees payable to third-party research providers on behalf of clients. Certain revenues, primarily distribution fees and fund management fees, have been reclassified between the nature of the revenues, with prior-period information restated accordingly. Also, certain expenses that were previously classified as revenues have been reclassified prospectively from General and administrative expenses to Fee and commission income in alignment of transaction-based costs with the associated revenue stream, primarily impacting clearing and custody expenses. As the effect of this reclassification was not material, prior-period information was

1 Statistics at individual levels may not be summed to deduce the corresponding aggregate figures. The VaR for each business line or risk type, being driven by the extreme loss tail of the corresponding risk type, may well be driven by different days in the historical time-series, rendering invalid the simple sum of the VaR for the business divisions and Corporate Center units and the VaR for the Group. 1 Comparative figures in this table have been restated for the change of the presentation currency from Swiss francs to US dollars. Assets, liabilities and total equity translated to US dollars at closing exchange rates prevailing on the respective reporting dates. Expenses translated at the respective average rates prevailing for the relevant periods. Comparatives are restated following organizational changes, restatements due to the retrospective adoption of new accounting standards and events after the reporting period. 2 Net management fees include transaction fees, fund administration fees, trading income from lending activities and foreign exchange hedging as part of the fund services offered to clients, co-investments, funding costs, and other items that are not performance fees. Beginning 1 January 2018, we include fund and custody expenses recognized as contra revenues and previously included in operating expenses. 3 Adjusted results are non-GAAP financial measures as defined by SEC regulations. They exclude expenses related to legacy cost programs as well as expenses for new restructuring initiatives in 2018. 4 Calculated as adjusted operating profit (applicable) / average invested assets. 5 Excluding the effect of business exits. Prior-period information is restated. 6 2018 has been restated for this change. 7 Calculated as adjusted operating profit before tax (annualized) / average invested assets. 8 Following the sale of our fund administration business in Luxembourg and Switzerland to Invesco, we no longer report assets under administration. 9 This includes UBS and third-party fund assets for which we provide fund services, including fund set-up, accounting and reporting for traditional investment funds and alternative investment funds. 10 Administration from new and existing funds less outflows from existing funds or fund exits. 11 Refer to our Annual report 2018 for more information.
