UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, DC 20549

---

FORM 10-Q  
(Mark One)

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended September 30, 2016

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission file number: 1-13105

Arch Coal, Inc.

(Exact name of registrant as specified in its charter)

Delaware 43-0921172

(State or other jurisdiction (I.R.S. Employer  
of incorporation or organization) Identification Number)

One CityPlace Drive, Suite 300, St. Louis, Missouri 63141

(Address of principal executive offices) (Zip code)

Registrant's telephone number, including area code: (314) 994-2700

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer

Non-accelerated filer  Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

Table of Contents

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes  No

At November 1, 2016, there were 24,999,358 shares of the registrant's common stock outstanding.

Arch Coal, Inc. and Subsidiaries  
(Debtor-in-Possession)  
Notes to Condensed Consolidated Financial Statements  
(unaudited)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of Arch Coal, Inc. ("Arch Coal") and its subsidiaries (the "Company"). The Company's primary business is the production of thermal and metallurgical coal from surface and underground mines located throughout the United States, for sale to utility, industrial and steel producers both in the United States and around the world. The Company currently operates mining complexes in West Virginia, Kentucky, Virginia, Illinois, Wyoming and Colorado. All subsidiaries are wholly-owned. Intercompany transactions and accounts have been eliminated in consolidation.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial reporting and U.S. Securities and Exchange Commission regulations. In the opinion of management, all adjustments, consisting of normal, recurring accruals considered necessary for a fair presentation, have been included. Results of operations for the three and nine months ended September 30, 2016 are not necessarily indicative of results to be expected for the year ending December 31, 2016. These financial statements should be read in conjunction with the audited financial statements and related notes as of and for the year ended December 31, 2015 included in the Company's Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission.

On August 4, 2015 the Company affected a 1-for-10 reverse stock split of its common stock. Each stockholder's percentage ownership and proportional voting power remained unchanged as a result of the reverse stock split. All applicable share data, per share amounts and related information in the Condensed Consolidated Financial Statements and notes thereto have been adjusted retroactively to give effect to the 1-for-10 reverse stock split.

Filing Under Chapter 11 of the United States Bankruptcy Code

On January 11, 2016 (the "Petition Date"), Arch Coal and substantially all of its wholly owned domestic subsidiaries (the "Filing Subsidiaries" and, together with Arch Coal, the "Debtors"; the Debtors, solely following the effective date of the Plan, the "Reorganized Debtors") filed voluntary petitions for reorganization (collectively, the "Bankruptcy Petitions") under Chapter 11 of Title 11 of the U.S. Code (the "Bankruptcy Code") in the United States Bankruptcy Court for the Eastern District of Missouri (the "Court"). The Debtors' Chapter 11 Cases (collectively, the "Chapter 11 Cases") are being jointly administered under the caption In re Arch Coal, Inc., et al. Case No. 16-40120 (lead case). During the Chapter 11 Cases, each Debtor continues to operate its business as a "debtor in possession" under the jurisdiction of the Court and in accordance with the applicable provisions of the Bankruptcy Code and the orders of the Court.

The filing of the Bankruptcy Petitions constituted an event of default that accelerated the Company's obligations under the documents governing each of its 7.00% senior notes due 2019, 9.875% senior notes due 2019, 8.00% senior secured second lien notes due 2019, 7.25% senior notes due 2020, 7.25% senior notes due 2021 (together, the "senior notes") and senior secured first lien term loan due 2018 (the "Existing Credit Agreement") (collectively with the senior notes, the "Debt Instruments"). Immediately after filing the Bankruptcy Petitions, the Company began notifying all known current or potential creditors of the Debtors of the bankruptcy filings.

Additionally, on the Petition Date, the New York Stock Exchange (the "NYSE") determined that the Company's stock was no longer suitable for listing pursuant to Section 8.02.01D of the NYSE continued listing standards and trading in the Company's common stock was suspended on January 11, 2016.

On the Petition Date, the Debtors filed a number of motions with the Court generally designed to stabilize their operations and facilitate the Debtors' transition into Chapter 11. Certain of these motions sought authority from the

Court for the Debtors to make payments upon, or otherwise honor, certain pre-petition obligations (e.g., obligations related to certain employee wages, salaries and benefits and certain vendors and other providers essential to the Debtors' businesses). The Court has entered orders approving the relief sought in these motions, in certain cases on an interim basis.

Pursuant to Section 362 of the Bankruptcy Code, the filing of the Bankruptcy Petitions automatically stayed most actions against the Debtors, including actions to collect indebtedness incurred prior to the Petition Date or to exercise control over the Debtors' property. Subject to certain exceptions under the Bankruptcy Code, the filing of the Debtors' Chapter 11 Cases also automatically stayed the continuation of most legal proceedings or the filing of other actions against or on behalf of the Debtors or their property to recover on, collect or secure a claim arising prior to the Petition Date or to exercise control over property of the Debtors' bankruptcy estates, unless and until the Court modifies or lifts the automatic stay as to any such claim.

## Table of Contents

Notwithstanding the general application of the automatic stay described above, governmental authorities may determine to continue actions brought under their police and regulatory powers.

As required by the Bankruptcy Code, the U.S. Trustee for the Eastern District of Missouri appointed an official committee of unsecured creditors (the “Creditors’ Committee”) on January 25, 2016. During the Chapter 11 Cases, the Creditors’ Committee represents all unsecured creditors of the Debtors and has a right to be heard on all matters that come before the Court.

For periods subsequent to filing the Bankruptcy Petitions, the Company will apply the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 852, “Reorganizations”, in preparing its consolidated financial statements. ASC 852 requires that financial statements distinguish transactions and events that are directly associated with the reorganization from the ongoing operations of the business. Accordingly, certain revenues, expenses, realized gains and losses and provisions for losses that are realized or incurred in the bankruptcy proceedings have been recorded in a reorganization line item on the Condensed Consolidated Statement of Operations. In addition, the pre-petition obligations that may be impacted by the bankruptcy reorganization process have been classified on the balance sheet as liabilities subject to compromise. These liabilities are reported as the amounts expected to be allowed by the Court, even if they may be settled for lesser amounts.

The Plan (as defined below) was confirmed by the Bankruptcy Court on September 13, 2016 and the Debtors emerged from bankruptcy on October 5, 2016. For further information, see Note 19, “Subsequent Events.”

### Restructuring Support Agreement

As previously disclosed, prior to the Petition Date, certain of the Debtors entered into a Restructuring Support Agreement, dated as of January 10, 2016, which agreement was amended (on February 25, 2016, March 28, 2016, April 26, 2016, May 5, 2016, June 10, 2016 and June 23, 2016). On July 5, 2016, the Debtors entered into an Amended and Restated Restructuring Support Agreement (the “Amended and Restated RSA”) with lenders holding more than 75% of the aggregate principal amount of loans outstanding under Arch’s pre-petition first lien credit facility, the statutory committee of unsecured creditors appointed in the Chapter 11 Cases pursuant to Section 1102 of the Bankruptcy Code (the “Committee”) and certain members of the Committee. On September 29, 2016, the Amended and Restated RSA was amended to extend the deadline for substantial consummation of the Plan to coincide with the Company’s emergence from bankruptcy on October 5, 2016.

### Confirmation of Plan of Reorganization

On September 13, 2016, the Bankruptcy Court entered an order, Docket No. 1324 (the “Confirmation Order”) confirming the Debtors’ Fourth Amended Joint Plan of Reorganization Under Chapter 11 of the Bankruptcy Code, dated September 11, 2016 (the “Plan”), which order was amended on September 15, 2016, Docket No. 1334.

The Plan’s effectiveness is subject to certain conditions being satisfied or waived, including, (a) the documents governing the Reorganized Debtors’ new \$326.5 million first lien debt facility (the “New First Lien Debt Facility”) shall have been duly executed and delivered by the Reorganized Debtors parties thereto, and all conditions precedent to the consummation of the New First Lien Debt Facility shall have been waived or satisfied in accordance with the terms thereof, and the closing of the New First Lien Debt Facility shall have occurred; (b) the Debtors’ existing securitization facility shall be reinstated on terms substantially as set forth in the Plan Supplement; (c) all documents and agreements necessary to implement the Plan, including the Plan Supplement and the Confirmation Order, shall have been executed; and (d) the Debtors shall have received all authorizations, consents, regulatory approvals, rulings, letters, no-action letters, opinions or documents that are necessary to implement the Plan and that are required by law, regulation or order. The date on which all conditions to the effectiveness of the Plan have been satisfied or waived is the “Effective Date” of the Plan. The Company satisfied all conditions contemplated by the Plan on October 5, 2016,

which is the Effective Date of the Plan and the date which the Debtors emerged from bankruptcy. For further information, see Note 19, "Subsequent Events."

The following is a summary of certain provisions of the Plan, as confirmed by the Bankruptcy Court pursuant to the Confirmation Order, and is not intended to be a complete description of the Plan.

## Table of Contents

### Treatment of Claims

The Plan contemplates that:

Holders of allowed administrative expense claims, priority claims (other than administrative expense claims and priority tax claims) and secured claims (other than claims arising under priority claims, the prepetition first lien credit facility and prepetition second lien notes) will be paid in full.

Holders of allowed claims arising under the Debtors' prepetition first lien credit facility ("First Lien Credit Facility") will receive their pro rata distribution of (i) total cash payments equal to the greater of (A) \$144,796,527.78 less the amount of the adequate protection payments and (B) \$30,000,000; (ii) \$326.5 million in principal amount of New First Lien Debt Facility; and (iii) 94% of the common stock of Reorganized Arch Coal (the "New Common Stock"), subject to dilution on account of (a) any Class A Common Stock (as defined below) issued upon exercise of the warrants (the "New Warrants") issued pursuant to the Plan to purchase up to 12% of the fully diluted Class A Common Stock as of the Effective Date and exercisable at any time for a period of 7 years from the Effective Date at a strike price calculated based on a total equity capitalization of \$1.425 billion and (b) the issuance of New Common Stock in an amount of up to 10% of the New Common Stock, on a fully diluted basis, pursuant to a management incentive plan (the "Management Incentive Plan").

Holders of allowed claims on account of prepetition second lien or unsecured notes (the "Prepetition Notes") will receive their pro rata distribution of (i) \$22.636 million in cash, (ii) at such holder's election, either (A) such holder's pro rata share of the New Warrants or (B) such holder's pro rata share of \$25 million in cash and (iii) 6% of the New Common Stock (subject to dilution on account of any exercise of the New Warrants and pursuant to the Management Incentive Plan).

Holders of allowed general unsecured claims against Debtors (other than claims on account of the First Lien Credit Facility or Prepetition Notes) will receive their pro rata distribution of \$7.364 million cash, less fees and expenses incurred by any professionals retained by a claims oversight committee up to \$200,000.

The Reorganized Debtors will waive and release any claims or causes of action that they have, had, or may have that are based on sections 502(d), 544, 545, 547, 548, 549, 550, 551, 553(b) and 724(a) of the Bankruptcy Code and analogous non-bankruptcy law for all purposes against (i) prepetition trade creditors and (ii) officers, directors, employees or representatives of the Debtors or the Reorganized Debtors and all agents and representatives of all of the foregoing. However, the Reorganized Debtors will retain the right to assert any said claims as defenses or counterclaims in any cause of action brought by any creditor.

### New First Lien Debt Facility

Pursuant to the Plan and a condition to its effectiveness, holders of allowed claims on account of the First Lien Credit Facility will receive their pro rata share of the New First Lien Debt Facility to be entered into on the Effective Date in an aggregate original principal amount of \$326.5 million. The New First Lien Debt Facility will mature on the date that is five years after the Effective Date. Wilmington Trust, National Association will serve as administrative agent and collateral agent thereunder. Borrowings under the New First Lien Debt Facility will bear interest at a per annum rate equal to, at the option of Arch Coal, either (i) a London interbank offered rate ("LIBOR") plus an applicable margin of 9%, subject to a 1% LIBOR floor, or (ii) a base rate plus an applicable margin of 8%. Interest payments will be payable quarterly in cash, unless the Debtors' liquidity (as defined therein) after giving effect to the applicable interest payment would not exceed \$300 million, in which case interest may be payable in kind at the Company's option. The New First Lien Debt Facility will be guaranteed by all existing and future wholly owned domestic subsidiaries of Arch Coal subject to customary exceptions, and will be secured by first priority security interests on substantially all

assets of each Reorganized Debtor, including 100% of the voting equity interests of directly owned domestic subsidiaries and 65% of the voting equity interests of directly owned foreign subsidiaries, subject to customary exceptions.

Pursuant to the Plan, the Company entered into the New First Lien Debt Facility on October 5, 2016. For further information, see Note 19, "Subsequent Events."

Table of Contents

Securitization Agreement

On January 13, 2016, the Company agreed with its securitization financing providers (the “Securitization Financing Providers”) that, subject to certain amendments (the “Amendments”), they will continue the \$200 million trade accounts receivable securitization facility provided to Arch Receivable Company, LLC, a non-debtor special-purpose entity that is a wholly owned subsidiary of the Company (“Arch Receivable”) (the “Securitization Facility”).

Pursuant to the Amendments, which have been approved by the Court on a final basis, the Debtors agreed to a revised schedule of fees payable to the administrator and the Securitization Financing Providers. The cost of an advance backstopping a letter of credit issued under the Securitization Facility is determined by two factors: (a) a program fee of 2.65% per year and payable on each settlement date to each Securitization Financing Provider deemed to have made such an advance and (b) the “discount,” which is calculated based on each Securitization Financing Provider’s costs, including its cost of the issuance and placement of short term promissory notes to fund such an advance. On May 9, 2016, the Securitization Facility was amended to exclude account receivables in respect of certain disposed mining operations of one of the Debtors and to effect the release of certain liens relating to such account receivables.

On the Effective Date, the Company expects to extend and amend the existing \$200 million trade accounts receivable securitization facility provided to Arch Receivable (the “Extended Securitization Facility”), which will continue to support the issuance of letters of credit and will also reinstate Arch Receivable’s ability to request cash advances as existed prior to the Petition Date. The Extended Securitization Facility will terminate at the earliest of (i) three years from the Effective Date, (ii) if Liquidity (defined in the Extended Securitization Facility) is less than \$175,000,000 for a period of 60 consecutive days, the date that is the 364th day after the first day of such 60 consecutive day period and (iii) the occurrence of certain predefined events substantially consistent with the existing transaction documents. Under the Extended Securitization Facility, Arch Receivable and certain of the Reorganized Debtors party to the Extended Securitization Facility will grant to the administrator of the Extended Securitization Facility a first priority security interest in eligible trade accounts receivable generated by such Debtors from the sale of coal and all proceeds thereof.

The Company extended and amended the Securitization Facility on October 5, 2016. For further information, see Note 19, “Subsequent Events.”

Going Concern

The Company’s previously issued consolidated financial statements included cautionary language about its ability to continue as a going concern due to the Chapter 11 Cases. The Company emerged from Chapter 11 protection on October 5, 2016 and believes it has sufficient liquidity to fund its operations. For further information, see Note 19, “Subsequent Events.”

Table of Contents

2. Accounting Policies

In April 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update No. 2015-03 (“ASU 2015-03”), Simplifying the Presentation of Debt Issuance Costs. ASU 2015-03 requires debt issuance costs related to a recognized debt liability to be presented in the balance sheet as a direct deduction from the carrying amount of that liability, consistent with debt discounts. The Company adopted ASU 2015-03 in the first quarter of 2016 as mandated by the standard. Previously reported “other current assets” and “current maturities of debt” have been revised to reflect the retrospective application of the standard.

The following reflects the retrospective application:

#### 4. Reorganization items, net

In accordance with Accounting Codification Standard 852, "Reorganizations," the statement of operations shall portray the results of operations of the reporting entity while it is in Chapter 11. Revenues, expenses (including professional fees), realized gains and losses, and provisions for losses resulting from reorganization and restructuring of the business shall be reported separately as reorganization items.

During the three months ended September 30, 2016, the Company recorded a charge of \$20.9 million in "Reorganization items, net" comprised of professional fee expense of \$22.6 million, partially offset by non-cash gains on rejected contracts of \$1.7 million. Net cash paid for "Reorganization items, net" totaled \$16.0 million during the three months ended September 30, 2016.

During the nine months ended September 30, 2016, the Company recorded a charge of \$46.1 million in "Reorganization items, net" comprised of professional fee expense of \$62.7 million, partially offset by non-cash gains on rejected contracts of \$16.6 million. Net cash paid for "Reorganization items, net" totaled \$31.1 million during the nine months ended September 30, 2016.

Table of Contents

## 5. Liabilities Subject to Compromise

Liabilities subject to compromise include unsecured or under-secured liabilities incurred prior to the Chapter 11 filing. These liabilities represent the amounts expected to be allowed on known or potential claims to be resolved through the Chapter 11 proceedings and remain subject to future adjustments based on negotiated settlements with claimants, actions of the Court, rejection of executory contracts, proofs of claims or other events. Additionally, liabilities subject to compromise also include certain items that may be assumed under a plan of reorganization, and as such, may be subsequently reclassified to liabilities not subject to compromise. Generally, actions to enforce or otherwise effect payment of pre-petition liabilities are stayed.

Liabilities subject to compromise consist of the following:

	September 30, 2016 (in thousands)
Previously Reported Balance Sheet Line	
Debt	\$ 5,026,806
Accrued expenses and current liabilities	138,253
Accounts payable	90,926
Noncurrent liabilities	39,800
Total Liabilities Subject to Compromise	\$ 5,295,785

The debt balance included above is net of debt issuance costs of \$64.9 million; for additional information on debt, see Note 12, "Debt and Financing Arrangements."

## 6. Asset Impairment and Mine Closure Costs

During the third quarter of 2016, the Company recorded an immaterial amount of severance expense to "Asset impairment and mine closure costs" in the Condensed Consolidated Statements of Operations bringing the year-to-date total to \$129.3 million. The amount includes the following: a \$74.1 million impairment of coal reserves and surface land in Kentucky that are being leased to a mining company that idled its mining operations; a \$38.0 million impairment of the Company's equity investment in a brownfield bulk commodity terminal on the Columbia River in Longview, Washington as the Company relinquished its ownership rights in exchange for future throughput rights; \$7.2 million of severance expense related to headcount reductions during the year; a \$3.6 million curtailment charge related to the Company's pension, postretirement health and black lung actuarial liabilities due to headcount reductions in the first half of the year; \$3.4 million impairment charge on the portion of an advance royalty balance on a reserve base mined at the Company's Mountain Laurel operation that will not be recouped; and \$2.9 million related to an other-than-temporary-impairment charge on an available-for-sale security.

During the third quarter of 2015, the Company recorded \$2,120.3 million of "Asset impairment and mine closure costs" in the Condensed Consolidated Statements of Operations due to the continued deterioration in thermal and metallurgical coal markets and projections for a muted pricing recovery. The Company determined that the further weakening of the pricing environment in the third quarter and the projected operating losses represented indicators of impairment with respect to certain of its long-lived assets or asset groups. Using current pricing expectations which reflected marketplace participant assumptions, life of mine cash flows were used to determine if the undiscounted cash flows exceeded the current asset values for certain operating complexes in the Company's Appalachia segment. Discounted cash flows were then utilized to reduce the carrying value of those assets to fair value. The discount rate

used reflected the current financial difficulties present in the commodities sector in general and coal mining specifically; the perceived risk of financing coal mining in light of industry defaults; and the lack of an active market for buying or selling coal mining assets. Additionally, the Company determined that the current market conditions represented an indicator of impairment for certain undeveloped coal properties that were acquired in times of significantly higher coal prices. Current prices and the significant capital outlay that would be required to develop these reserves indicated that the carrying value was not recoverable.

Table of Contents

## 7. Losses from disposed operations resulting from Patriot Coal bankruptcy

On December 31, 2005, the Company entered into a purchase and sale agreement with Magnum to sell certain operations. On July 23, 2008, Patriot acquired Magnum. On May 12, 2015, Patriot and certain of its wholly owned subsidiaries (“Debtors”), including Magnum, filed voluntary petitions for reorganization under Chapter 11 of the U.S. Code in the U.S. Bankruptcy Court for the Eastern District of Virginia. Subsequently, on October 28, 2015, Patriot’s Plan of Reorganization was approved, including an authorization to reject their collective bargaining agreements and modify certain union-related retiree benefits. As a result of the Plan of Reorganization, the Company became statutorily responsible for retiree medical benefits pursuant to Section 9711 of the Coal Industry Retiree Health Benefit Act of 1992 for certain retirees of Magnum who retired prior to October 1, 1994. In addition, the Company has provided surety bonds to Patriot related to permits that were sold to an affiliate of Virginia Conservation Legacy Fund, Inc. (“VCLF”). Should VCLF not perform the required reclamation, the Company would incur losses under the bonds and related indemnity agreements. During the third quarter of 2015, the Company recognized \$149.3 million in losses related to the previously disposed operations as a result of the Patriot Coal bankruptcy.

## 8. Inventories

Inventories consist of the following:

	September 30, 2016	December 31, 2015
	(In thousands)	
Coal	\$51,426	\$85,043
Repair parts and supplies	107,984	111,677
	\$159,410	\$196,720

The repair parts and supplies are stated net of an allowance for slow-moving and obsolete inventories of \$5.1 million at September 30, 2016 and \$6.0 million at December 31, 2015.

## 9. Investments in Available-for-Sale Securities

The Company has invested in marketable debt securities, primarily highly liquid investment grade corporate bonds. These investments are held in the custody of a major financial institution. These securities, along with the Company’s investments in marketable equity securities, are classified as available-for-sale securities and, accordingly, the unrealized gains and losses are recorded through other comprehensive income.

The Company’s investments in available-for-sale marketable securities are as follows:

	September 30, 2016				Balance Sheet Classification	
	Cost Basis	Gross Unrealized Gains	Losses	Fair Value	Short-Term Investments	Other Assets
	(In thousands)					
Available-for-sale:						
U.S. government and agency securities	\$—	\$—	\$—	\$—	\$—	\$—
Corporate notes and bonds	111,545	8	(102)	111,451	111,451	—
Equity securities	913	786	—	1,699	—	1,699

Total Investments	\$112,458	\$794	\$(102)	\$113,150	\$111,451	\$1,699
-------------------	-----------	-------	---------	-----------	-----------	---------

Table of Contents

December 31, 2015						
	Cost Basis	Gross Unrealized		Fair Value	Balance Sheet Classification	
		Gains	Losses		Short-Term Investments	Other Assets
(In thousands)						
Available-for-sale:						
U.S. government and agency securities	\$ 10,007	\$—	\$(12 )	\$ 9,995	\$ 9,995	\$—
Corporate notes and bonds	190,496	—	(299 )	190,197	190,197	—
Equity securities	3,938	668	(2,888 )	1,718	—	1,718
Total Investments	\$ 204,441	\$ 668	\$(3,199)	\$ 201,910	\$ 200,192	\$ 1,718

The aggregate fair value of investments with unrealized losses that were owned for less than a year was \$73.0 million and \$184.6 million at September 30, 2016 and December 31, 2015, respectively. The aggregate fair value of investments with unrealized losses that were owned for over a year, and were also in a continuous unrealized loss position during that time, was \$28.6 million and \$15.8 million at September 30, 2016 and December 31, 2015, respectively. The unrealized losses in the Company's portfolio at September 30, 2016 are the result of normal market fluctuations. The Company does not currently intend to sell these investments before recovery of their amortized cost base.

The debt securities outstanding at September 30, 2016 have maturity dates ranging from the third quarter of 2016 through the fourth quarter of 2017. The Company classifies its investments as current based on the nature of the investments and their availability to provide cash for use in current operations.

## 10. Derivatives

### Diesel fuel price risk management

The Company is exposed to price risk with respect to diesel fuel purchased for use in its operations. The Company anticipates purchasing approximately 41 to 46 million gallons of diesel fuel for use in its operations during 2016. To protect the Company's cash flows from increases in the price of diesel fuel for its operations, the Company uses forward physical diesel purchase contracts and purchased heating oil call options. The Company has purchased 8.4 million gallons of call options for the remainder of 2016 representing 65% of expected purchases at an average strike price of \$1.40 per gallon. Additionally, the Company has protected approximately 49% of its expected 2017 purchases with call options with an average strike price of \$1.66 per gallon. At September 30, 2016, the Company had outstanding heating oil call options for approximately 22 million gallons for the purpose of managing the price risk associated with future diesel purchases. These positions are not designated as hedges for accounting purposes, and therefore, changes in the fair value are recorded immediately to earnings.

### Coal price risk management positions

The Company may sell or purchase forward contracts, swaps and options in the over-the-counter coal market in order to manage its exposure to coal prices. The Company has exposure to the risk of fluctuating coal prices related to forecasted, index-priced sales or purchases of coal or to the risk of changes in the fair value of a fixed price physical sales contract. Certain derivative contracts may be designated as hedges of these risks.

Edgar Filing: ARCH COAL INC - Form 10-Q

At September 30, 2016, the Company held derivatives for risk management purposes that are expected to settle in the following years:

(Tons in thousands)	2016	2017	Total
Coal sales	55	540	595
Coal purchases	60	480	540

The Company has also entered into a nominal quantity of natural gas put options to protect the Company from decreases in natural gas prices, which could impact thermal coal demand. These options are not designated as hedges. Additionally, the

Table of Contents

Company has also entered into a nominal quantity of foreign currency put options protecting for decreases in the Australian to United States dollar exchange rate, which could impact metallurgical coal demand. These options are not designated as hedges.

## Coal trading positions

The Company may sell or purchase forward contracts, swaps and options in the over-the-counter coal market for trading purposes. The Company is exposed to the risk of changes in coal prices on the value of its coal trading portfolio. The estimated future realization of the value of the trading portfolio is \$1.5 million of gains during the remainder of 2016.

## Tabular derivatives disclosures

The Company has master netting agreements with all of its counterparties which allow for the settlement of contracts in an asset position with contracts in a liability position in the event of default or termination. Such netting arrangements reduce the Company's credit exposure related to these counterparties. For classification purposes, the Company records the net fair value of all the positions with a given counterparty as a net asset or liability in the Condensed Consolidated Balance Sheets. The amounts shown in the table below represent the fair value position of individual contracts, and not the net position presented in the accompanying Condensed Consolidated Balance Sheets. The fair value and location of derivatives reflected in the accompanying Condensed Consolidated Balance Sheets are as follows:

Fair Value of Derivatives (In thousands)	September 30, 2016		December 31, 2015	
	Asset Derivative	Liability Derivative	Asset Derivative	Liability Derivative
Derivatives Designated as Hedging Instruments				
Coal	\$—	\$ (14 )	\$4	\$ (20 )

Effect of counterparty netting	(64,965)	64,965	(107,028)	107,028
Net derivatives as classified in the balance sheets	\$6,153	\$ (355 )	\$5,798	\$9,052

		September 30, 2016	December 31, 2015
Net derivatives as reflected on the balance sheets (in thousands)			
Heating oil and foreign currency	Other current assets	\$ 3,973	\$ 1,017
Coal and natural gas	Coal derivative assets	2,180	8,035
	Accrued expenses and other current liabilities	(355 )	—
		\$ 5,798	\$ 9,052

The Company had a current asset for the right to reclaim cash collateral of \$1.4 million at September 30, 2016 and the right to reclaim cash collateral of \$1.7 million at December 31, 2015, respectively. These amounts are not included with the derivatives presented in the table above and are included in “other current assets” in the accompanying Condensed Consolidated Balance Sheets.

Table of Contents

The effects of derivatives on measures of financial performance are as follows:

Derivatives used in Cash Flow Hedging Relationships (in thousands)  
Three Months Ended September 30,

	Gain (Loss) Recognized in Other Comprehensive Income(Effective Portion)		Gains (Losses) Reclassified from Other Comprehensive Income into Income (Effective Portion)

Long-term debt	\$30,037	\$30,953

## Acceleration of Debt Obligations; Automatic Stay

The filing of the Bankruptcy Petitions constituted an event of default that accelerated the Company's obligations under the documents governing each of its 7.00% senior notes due 2019, 9.875% senior notes due 2019, 8.00% senior secured second lien notes due 2019, 7.25% senior notes due 2020, 7.25% senior notes due 2021 (together, the "senior notes") and senior secured first lien term loan due 2018 (the "Existing Credit Agreement") (collectively with the senior notes, the "Debt Instruments"). Immediately after filing the Bankruptcy Petitions, the Company began notifying all known current or potential creditors of the Debtors of the bankruptcy filings.

Pursuant to Section 362 of the Bankruptcy Code, the filing of the Bankruptcy Petitions automatically stayed most actions against the Debtors, including actions to collect indebtedness incurred prior to the Petition Date or to exercise control over the Debtors' property. Subject to certain exceptions under the Bankruptcy Code, the filing of the Debtors' Chapter 11 Cases also automatically stayed the continuation of most legal proceedings or the filing of other actions against or on behalf of the Debtors or their property to recover on, collect or secure a claim arising prior to the Petition Date or to exercise control over property of the Debtors' bankruptcy estates, unless and until the Court modifies or lifts the automatic stay as to any such claim. Notwithstanding the general application of the automatic stay described above, governmental authorities may determine to continue actions brought under their police and regulatory powers.

The Debtors emerged from bankruptcy on October 5, 2016 and, as a result, the Company's outstanding obligations under the Debt Instruments were discharged. For further information, see Note 19, "Subsequent Events."

## Securitization Agreement

On January 13, 2016, the Company agreed with the Securitization Financing Providers that, subject to the Amendments, they will continue the \$200 million trade accounts receivable securitization facility provided to Arch Receivable Company, LLC, a non-debtor special-purpose entity that is a wholly owned subsidiary of the Company ("Arch Receivable") (the "Securitization Facility").

Pursuant to the Amendments, which have been approved by the Court on a final basis, the Debtors agreed to a revised schedule of fees payable to the administrator and the Securitization Financing Providers. The cost of an advance backstopping a letter of credit issued under the Securitization Facility is determined by two factors: (a) a program fee

of 2.65% per year and payable on each settlement date to each Securitization Financing Provider deemed to have made such an advance and (b) the “discount,” which is calculated based on each Securitization Financing Provider’s costs, including its cost of the issuance and placement of short term promissory notes to fund such an advance.

In connection with the Securitization Facility, Arch Receivable has granted to the administrator (for the benefit of the securitization purchasers) a first priority security interest in all of its assets, including all outstanding accounts receivable

Table of Contents

generated by the Debtors from the sale of coal and sold through the Securitization Facility (including collections, proceeds and certain other interests related thereto) (the “Receivables”) and all proceeds thereof.

The agreements governing the Securitization Facility provide for the grant of analogous security interests by certain Debtors that generate Receivables from the sale of coal (such Debtors, the “Originators”). The agreements expressly state that the transfers of Receivables from the Originators to Arch and from Arch to Arch Receivable are intended to be true sales of the Receivables. However, if, against the intent of the parties (and notwithstanding entry of an order by the Court which provides that the transfers of the Receivables constitute true sales), any such transfer is recharacterized as a loan or extension of credit, each Originator has granted a first priority prepetition security interest in the Receivables and certain related collateral, pursuant to the agreements governing the Securitization Facility, for the ultimate benefit of the administrator and the Securitization Financing Providers (the “Liens”). The Debtors have agreed, in connection with the Amendments, to effectively extend such Liens to cover Receivables generated on or after the Petition Date.

The Originators do not guarantee the collection of Receivables that have been transferred to Arch Receivable. However, the Originators are obligated to reimburse Arch Receivable for inaccuracy of certain representations and warranties, dilution items with respect to Receivables and certain other limited indemnities (such obligations, the “Repayment Amounts”). Under the agreements governing the Securitization Facility, Arch Receivable is entitled to apply Repayment Amounts to amounts owed under the Securitization Facility.

Further, the Company has executed a performance guarantee through which it has promised to fulfill, or cause Arch Receivable, the designated servicer and each Originator to fulfill, each of their obligations under the agreements governing the Securitization Facility. In addition, as contemplated by the Amendments, the Originators have also executed a performance guarantee promising to fulfill obligations of all Originators under the agreements.

In addition, in connection with the Amendments, the Debtors have granted superpriority claims against the Debtors and in favor of Arch Receivable, the administrator and the Securitization Financing Providers in respect of certain of the Debtors’ obligations under the agreements governing the Securitization Facility, including the Repayment Amounts and certain other limited indemnification and other obligations of the Debtors under the agreements. On May 9, 2016, the Securitization Facility was amended to exclude account receivables in respect of certain disposed mining operations of one of the Debtors and to effect the release of certain liens relating to such account receivables.

The Company extended and amended the Securitization Facility on October 5, 2016. For further information, see Note 19, “Subsequent Events.”

Debtor-In-Possession Financing

On January 21, 2016, the Superpriority Secured Debtor-in-Possession Credit Agreement (as amended on March 4, 2016, March 28, 2016, April 26, 2016, June 10, 2016, June 23, 2016, July 20, 2016 and September 28, 2016, the “DIP Credit Agreement”) was entered into by and among Arch Coal, as borrower, certain of the Debtors, as guarantors (the “Guarantors” and, together with the Company, the “DIP Loan Parties”), the lenders from time to time party thereto (the “DIP Lenders”) and Wilmington Trust, National Association, as administrative agent and collateral agent for the DIP Lenders (in such capacities, the “DIP Agent”).

The DIP Credit Agreement, which has been approved by the Court on a final basis, provides for a super-priority senior secured debtor-in-possession credit facility (the “DIP Facility”) consisting of term loans (collectively, the “DIP Term Loan”) in the aggregate principal amount of up to \$275 million.

The maturity date of the DIP Facility is the earliest of (i) January 31, 2017, (ii) the date of the substantial consummation of a plan of reorganization that is confirmed pursuant to an order of the Court, (iii) the consummation of the sale of all or substantially all of the assets of the DIP Loan Parties pursuant to Section 363 of the Bankruptcy Code and (iv) the date the obligations under the DIP Facility are accelerated pursuant to the terms of the DIP Credit Agreement. Borrowings under the DIP Facility bear interest at an interest rate per annum equal to, at the Company's option (i) LIBOR plus 9.00%, subject to a 1.00% LIBOR floor or (ii) the base rate plus 8.00%.

Obligations under the DIP Credit Agreement are guaranteed on a super-priority senior secured basis by all existing and future wholly-owned domestic subsidiaries of Arch Coal, and all newly created or acquired wholly-owned domestic subsidiaries of Arch Coal, subject to customary limited exceptions.

## Table of Contents

The lenders under the DIP Credit Agreement have a first priority lien on all encumbered and unencumbered assets of the DIP Loan Parties (the “DIP Lien”), subject to a \$75 million carve-out for super-priority claims relating to the Debtors’ self-bonding obligations in Wyoming, a customary professional fees carve-out and certain exceptions.

The DIP Loan Parties are subject to certain financial maintenance covenants under the DIP Credit Agreement, including, without limitation, (i) maximum capital expenditures and (ii) minimum liquidity (defined as unrestricted cash and cash equivalents of Arch Coal and its domestic subsidiaries (other than any securitization subsidiary or bonding subsidiary), plus withdrawable funds from brokerage accounts of Arch Coal and its domestic subsidiaries (other than any securitization subsidiary or bonding subsidiary) plus any unused commitments that are available to be drawn by the Company pursuant to the terms of the DIP Credit Agreement) of (A) \$300 million prior to the entry of the Final Order (as defined below) and (B) \$500 million following the entry of the Final Order, in each case tested on a monthly basis. The DIP Credit Agreement contains customary affirmative and negative covenants and representations for debtor-in-possession financings. In addition to customary events of default for debtor-in-possession financings, the DIP Credit Agreement contains milestones relating to the Chapter 11 Cases and any failure to comply with such milestones constitutes an event of default.

The DIP Facility is subject to certain usual and customary prepayment events, including 100% of net cash proceeds of (i) debt issuances (other than debt permitted to be incurred under the terms of the DIP Credit Agreement), (ii) non-ordinary course asset sales or dispositions in excess of \$50 million in the aggregate (with no individual asset sale or disposition in excess of \$7.5 million) and (iii) any casualty event in excess of \$50 million in the aggregate, subject to customary reinvestment rights, in each case to be applied to prepay the DIP Term Loan. At a hearing held on February 23, 2016 in the Chapter 11 Cases, the Court issued an order approving the DIP Facility on a final basis (the “Final Order”), overruling the objections of the Creditors’ Committee and certain other parties who asserted, among other things, that the DIP Facility was unnecessary and argued that the Debtors should enter into an alternate debtor-in-possession financing facility proposed by certain members of the Creditors’ Committee.

Arch Coal entered into an amendment to the DIP Credit Agreement, dated as of July 20, 2016 which extended the availability period to borrow under the DIP Facility from July 21, 2016 to the earlier to occur of (i) September 30, 2016 and (ii) the termination of the DIP Facility with a corresponding extension to the period during which the 5% per annum unused commitment fee is applicable.

Arch Coal entered into an amendment to the DIP Credit Agreement, dated as of September 28, 2016, which (i) extended the availability period to borrow under the DIP Facility and (ii) extended the deadline for the Plan to become effective, in each case, to coincide with the Company’s emergence from bankruptcy on October 5, 2016, with a corresponding extension to the period during which the 5% per annum unused commitment fee is applicable.

The Company paid \$17.0 million in financing fees related to the DIP Facility which have been deferred and are being amortized over the term of the DIP Facility.

The Debtors emerged from bankruptcy on October 5, 2016 and all commitments under the DIP Credit Agreement were terminated. For further information, see Note 19, “Subsequent Events.”

### Contractual Interest Expense

The Company has recorded interest expense of \$46.2 million and \$135.9 million for the three and nine months ended September 30, 2016, respectively, compared to \$99.8 million and \$298.6 million for the three and nine months ended September 30, 2015, respectively. The reduction in interest expense in the current year is due to the Company’s bankruptcy filing. The contractual interest expense parenthetically disclosed on the face of the income statement represents interest expense that the Company was obligated to pay prior to the bankruptcy filing.

13. Income Taxes

During 2016, the Company determined it was more likely than not that the federal and state net operating losses it expects to generate in 2016 will not be realized based on projections of future taxable income. Accordingly, the estimated annual effective rate for the year ended December 31, 2016 includes the impact of recording a valuation allowance against these attributes. During the nine months ended September 30, 2016, the Company realized a net tax benefit of \$4.6 million, which included an expense to increase the valuation allowance of \$181.9 million for federal net operating losses and tax credits and \$9.3 million for the state net operating losses.

Table of Contents

During the nine months ended September 30, 2015, the Company increased its valuation allowance for the portion of the federal and state net operating losses it expected to generate in 2015. The Company increased its valuation allowance by \$616.0 million for the federal net operating losses and \$29.4 million for the state net operating losses.

## 14. Fair Value Measurements

The hierarchy of fair value measurements assigns a level to fair value measurements based on the inputs used in the respective valuation techniques. The levels of the hierarchy, as defined below, give the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

- Level 1 is defined as observable inputs such as quoted prices in active markets for identical assets. Level 1 assets include available-for-sale equity securities, U.S. Treasury securities, and coal futures that are submitted for clearing on the New York Mercantile Exchange.
- Level 2 is defined as observable inputs other than Level 1 prices. These include quoted prices for similar assets or liabilities in an active market, quoted prices for identical assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. The Company's level 2 assets and liabilities include U.S. government agency securities and commodity contracts (coal and heating oil) with fair values derived from quoted prices in over-the-counter markets or from prices received from direct broker quotes.
- Level 3 is defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions. These include the Company's commodity option contracts (coal, natural gas and heating oil) valued using modeling techniques, such as Black-Scholes, that require the use of inputs, particularly volatility, that are rarely observable. Changes in the unobservable inputs would not have a significant impact on the reported Level 3 fair values at September 30, 2016.

The table below sets forth, by level, the Company's financial assets and liabilities that are recorded at fair value in the accompanying condensed consolidated balance sheet:

	September 30, 2016			
	Total	Level 1	Level 2	Level 3
	(In thousands)			
Assets:				
Investments in marketable securities	\$ 113,150	\$ 1,699	\$ 111,451	\$—
Derivatives	6,153	1,960	220	3,973
Total assets	\$ 119,303	\$ 3,659	\$ 111,671	\$ 3,973
Liabilities:				
Derivatives	\$ 355	\$ 224	\$—	\$ 131

The Company's contracts with its counterparties allow for the settlement of contracts in an asset position with contracts in a liability position in the event of default or termination. For classification purposes, the Company records the net fair value of all the positions with these counterparties as a net asset or liability. Each level in the table above displays the underlying contracts according to their classification in the accompanying Condensed Consolidated Balance Sheet, based on this counterparty netting.

Table of Contents

The following table summarizes the change in the fair values of financial instruments categorized as Level 3.

	Three Months Ended September 30, 2016	Nine Months Ended September 30, 2016
	(In thousands)	
Balance, beginning of period	\$4,771	\$ 2,432
Realized and unrealized gains recognized in earnings, net	(1,888 )	(1,686 )
Realized and unrealized gains recognized in other comprehensive income, net	—	—
Purchases	1,586	5,021
Issuances	—	(488 )
Settlements	(627 )	(1,437 )
Ending balance	\$3,842	\$ 3,842

Net unrealized losses of \$0.5 million and \$0.0 million were recognized in the Condensed Consolidated Statement of Operations during the three and nine months ended September 30, 2016 related to Level 3 financial instruments held on September 30, 2016.

## Fair Value of Long-Term Debt

At September 30, 2016 and December 31, 2015, the fair value of the Company's debt, including amounts classified as current, was \$1.5 billion and \$937.1 million, respectively. Fair values are based upon observed prices in an active market, when available, or from valuation models using market information, which fall into Level 2 in the fair value hierarchy.

## 15. Loss Per Common Share

The effect of options, restricted stock and restricted stock units that were excluded from the calculation of diluted weighted average shares outstanding because the exercise price or grant price of the securities exceeded the average market price of the Company's common stock was immaterial for both the three and nine months ended September 30, 2016, and 2015, respectively. The weighted average share impact of options, restricted stock and restricted stock units that were excluded from the calculation of weighted average shares due to the Company's incurring a net loss was immaterial for both the three and nine months ended September 30, 2016 and 2015, respectively.

## 16. Employee Benefit Plans

The following table details the components of pension benefit costs:

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
	2016	2015	2016	2015

Net credit	\$(1,147)	\$(2,074)	\$(6,057)	\$(6,220)

### 17. Commitments and Contingencies

The Company accrues for costs related to contingencies when a loss is probable and the amount is reasonably determinable. Disclosure of contingencies is included in the financial statements when it is at least reasonably possible that a material loss or an additional material loss in excess of amounts already accrued may be incurred.

In addition, the Company is a party to numerous other claims and lawsuits with respect to various matters. As of September 30, 2016 and December 31, 2015, the Company had accrued \$2.9 million and \$2.8 million, respectively, for all legal matters, of which all amounts are classified as current. The ultimate resolution of any such legal matter could result in outcomes which may be materially different from amounts the Company has accrued for such matters.

Pursuant to Section 362 of the Bankruptcy Code, the filing of the Bankruptcy Petitions automatically stayed most actions against the Debtors, including actions to collect indebtedness incurred prior to the Petition Date or to exercise control over the Debtors' property. Subject to certain exceptions under the Bankruptcy Code, the filing of the Debtors' Chapter 11 Cases also automatically stayed the continuation of most legal proceedings or the filing of other actions against or on behalf of the Debtors or their property to recover on, collect or secure a claim arising prior to the Petition Date or to exercise control over property of the Debtors' bankruptcy estates, unless and until the Court modifies or lifts the automatic stay as to any such claim. Notwithstanding the general application of the automatic stay described above, governmental authorities may determine to continue actions brought under their police and regulatory powers.

The Debtors emerged from bankruptcy on October 5, 2016 and, as a result, the automatic stay described above no longer applies, and all actions are permanently enjoined and precluded from proceeding to the extent they seek monetary compensation or claim breach of an obligation that gives rise to a right to payment, except to the extent that the claimant seeks payment solely from the proceeds of insurance coverage, and with respect to certain actions by governmental entities, in each case, as set forth in the Plan. For further information, see Note 19, "Subsequent Events" to this Form 10-Q.

Table of Contents

## 18. Segment Information

The Company's reportable business segments are based on the major coal producing basins in which the Company operates and may include a number of mine complexes. The Company manages its coal sales by coal basin, not by individual mining complex. Geology, coal transportation routes to customers, regulatory environments and coal quality or type are characteristic to a basin, and, accordingly, market and contract pricing have developed by coal basin. Mining operations are evaluated based on adjusted EBITDAR, as well as on other non-financial measures, such as safety and environmental performance. The Company's reportable segments are the Powder River Basin (PRB) segment, with operations in Wyoming; and the Appalachia (APP) segment, with operations primarily in West Virginia. The "Other" category combines other operating segments and includes the Company's coal mining operations in Colorado and Illinois.

Operating segment results for the three and nine months ended September 30, 2016 and 2015 are presented below. The Company uses Adjusted EBITDAR to assess the operating segments' performance and to allocate resources. Corporate, Other and Eliminations includes the change in fair value of coal derivatives and coal trading activities, net; corporate overhead; land management; other support functions; and the elimination of intercompany transactions.

	PRB	APP	Other Operating Segments	Corporate, Other and Eliminations	Consolidated

19. Subsequent Events

Bankruptcy Items

On September 13, 2016, the Bankruptcy Court entered an order, Docket No. 1324, confirming the Debtors' Fourth Amended Joint Plan of Reorganization Under Chapter 11 of the Bankruptcy Code dated as of September 11, 2016 (the "Plan"), which order was amended on September 15, 2016, Docket No. 1334.

On October 5, 2016, Arch Coal satisfied the closing conditions contemplated by the Plan, which became effective on that date (the "Effective Date").

New First Lien Debt Facility

On the Effective Date, pursuant to the Plan and as a condition to its effectiveness, Arch Coal entered into a new senior secured term loan credit agreement in an aggregate principal amount of \$326.5 million with Wilmington Trust, National Association, as administrative agent and collateral agent (in such capacities, the "Agent") for the lenders party thereto from time to time (collectively, the "Lenders"). The Lenders are all institutions that previously committed to make loans to Arch Coal under the DIP Credit Agreement (as defined below), and pursuant to the Plan collectively received a distribution of 94% of Arch Coal's new common stock upon emergence. The New First Lien Debt Facility will mature on the date that is five years after the Effective Date.

Borrowings under the New First Lien Debt Facility bear interest at a per annum rate equal to, at the option of Arch Coal, either (i) a London interbank offered rate plus an applicable margin of 9%, subject to a 1% LIBOR floor (the "LIBOR Rate"), or (ii) a base rate plus an applicable margin of 8%. Interest payments will be payable in cash, unless Arch Coal's liquidity (as defined therein) after giving effect to the applicable interest payment would not exceed \$300 million, in which case interest may be payable in kind (any such interest that is paid in kind, the "PIK Interest"). The term loans provided under the New First Lien Debt Facility (the "Term Loans") are subject to quarterly principal amortization payments in an amount equal \$816,250. To the extent any interest is paid as PIK Interest on any interest payment date, the amount of the Term Loans in respect of which such PIK Interest is payable will be deemed to have accrued additional interest over the preceding interest period at 1.00%, which additional interest will be capitalized and added to the principal amount of outstanding Term Loans. The New First Lien Debt Facility is guaranteed by all existing and future wholly owned domestic subsidiaries of Arch Coal (collectively, the "Subsidiary Guarantors" and, together with Arch Coal, the "Exit Loan Parties"), subject to customary exceptions, and is secured by first priority security interests on substantially all assets of the Exit Loan Parties, including 100% of the voting equity interests of directly owned domestic subsidiaries and 65% of the voting equity interests of directly owned foreign subsidiaries, subject to customary exceptions. Arch Coal has the right to prepay Term Loans at any time and from time to time in whole or in part without premium or penalty, upon written notice, except that any prepayment of Term Loans that bear interest at the LIBOR Rate other than at the end of the applicable interest periods therefor shall be made with reimbursement for any funding losses and redeployment costs of the Lenders resulting therefrom. The New First Lien Debt Facility is subject to certain usual and customary mandatory prepayment events, including 100% of net cash proceeds of (i) debt issuances (other than debt permitted to be incurred under the terms of the New First Lien Debt Facility) and (ii) non-ordinary course asset sales or dispositions, subject to customary thresholds, exceptions and reinvestment rights. The New First Lien Debt Facility contains customary affirmative covenants and representations. The New First Lien Debt Facility also contains customary negative covenants, which, among other things, and subject to certain exceptions, include restrictions on (i) indebtedness, (ii) liens and guaranties, (iii) liquidations, mergers, consolidations, acquisitions, (iv) disposition of assets or subsidiaries, (v) affiliate transactions, (vi) creation or ownership of certain subsidiaries, partnerships and joint ventures, (vii) continuation of or change in business, (viii) restricted payments, (ix) prepayment of subordinated indebtedness, (x) restrictions in agreements on dividends,

intercompany loans and granting liens on the collateral, (xi) loans and investments, (xii) changes in organizational documents, (xiii) transactions with respect to bonding subsidiaries and (xiv) hedging transactions. The New First Lien Debt Facility does not contain any financial maintenance covenant. The New First Lien Debt Facility contains customary events of default, subject to customary thresholds and exceptions, including, among other things, (i) non-payment of principal and non-payment of interest and fees, (ii) a material inaccuracy of a representation or warranty at the time made, (iii) a failure to comply with any covenant, subject to customary grace periods in the case of certain affirmative covenants, (iv) cross-events of default to indebtedness of at least \$35 million, (v) cross-events of default to surety, reclamation or similar bonds securing obligations with an aggregate face amount of at least \$50 million, (vi) uninsured judgments in excess of \$35 million, (vii) any loan document shall cease to be a legal, valid and binding agreement, (viii) uninsured losses or proceedings against assets with a value in excess of \$35 million, (ix) ERISA events, (x) a change of control or (xi) bankruptcy or insolvency proceedings relating to Arch Coal or any material subsidiary of Arch Coal.

Table of Contents

## Securitization Facility

On the Effective Date, Arch Coal extended and amended its existing \$200 million trade accounts receivable securitization facility provided to Arch Receivable Company, LLC, a non-Debtor special-purpose entity that is a wholly owned subsidiary of Arch Coal (“Arch Receivable”) (the “Extended Securitization Facility”), which continues to support the issuance of letters of credit and reinstates Arch Receivable’s ability to request cash advances, as existed prior to the filing of the voluntary petitions for relief under the Bankruptcy Code. Pursuant to the Extended Securitization Facility, the Debtors agreed to a revised schedule of fees payable to the administrator and the providers of the Extended Securitization Facility. The Extended Securitization Facility will terminate at the earliest of (i) three years from the Effective Date, (ii) if the Liquidity (defined in the Extended Securitization Facility and consistent with the definition in the New First Lien Debt Facility) is less than \$175,000,000 for a period of 60 consecutive days, the date that is the 364th day after the first day of such 60 consecutive day period and (iii) the occurrence of certain predefined events substantially consistent with the existing transaction documents. Under the Extended Securitization Facility, Arch Receivable and certain of the Reorganized Debtors (as defined above) party to the Extended Securitization Facility have granted to the administrator of the Extended Securitization Facility a first priority security interest in eligible trade accounts receivable generated by such Debtors from the sale of coal and all proceeds thereof.

## Warrant Agreement

On the Effective Date, Arch Coal entered into a warrant agreement (the “Warrant Agreement”) with American Stock Transfer & Trust Company, LLC as warrant agent and, pursuant to the terms of the Plan, issued warrants (“Warrants”) to purchase up to an aggregate of 1,914,856 shares of Class A Common Stock, par value \$0.01 per share, of Arch Coal (the “Class A Common Stock”) to holders of claims arising under the Cancelled Notes (as defined below). Each Warrant expires on October 5, 2023, and is initially exercisable for one share of Class A Common Stock at an initial exercise price of \$57.00 per share. The Warrants are exercisable by a holder paying the exercise price in cash or on a cashless basis, at the election of the holder. The Warrants contain anti-dilution adjustments for stock splits, reverse stock splits, stock dividends, dividends and distributions of cash, other securities or other property, spin-offs and tender and exchange offers by Arch Coal or its subsidiaries to purchase Class A Common Stock at above-market prices.

If, in connection with a merger, recapitalization, business combination, transfer to a third party of substantially all of Arch Coal’s consolidated assets or other transaction that results in a change to the Class A Common Stock (each, a “Transaction”), (i) the Transaction is consummated prior to the fifth anniversary of the Effective Date and the Transaction consideration to holders of Class A Common Stock is 90% or more listed common stock or common stock of a company that provides publicly available financial reporting, and holds management calls regarding the same, no less than quarterly (“Reporting Stock”) or (ii) regardless of the consideration, the Transaction is consummated on or after the fifth anniversary of the Effective Date, the Warrants will be assumed by the surviving company and will become exercisable for the consideration that the holders of Class A Common Stock receive in such Transaction; provided that if the consideration such holders receive consists solely of cash, then upon the consummation of such Transaction, Arch Coal will pay for each Warrant an amount of cash equal to the greater of (i) (x) the amount of cash payable with respect to the number of shares of Class A Common Stock underlying the Warrant minus (y) the exercise price per share then in effect multiplied by the number of shares of Class A Common Stock underlying the Warrant and (ii) \$0.

If a Transaction is consummated prior to the fifth anniversary of the Effective Date in which the Transaction consideration is less than 90% Reporting Stock, a portion of the Warrants corresponding to the portion of the Transaction consideration that is Reporting Stock will be assumed by the surviving company and will become exercisable for the Reporting Stock consideration that the holders of Class A Common Stock receive in such

Transaction, and the portion of the Warrants corresponding to the portion of the Transaction consideration that is not Reporting Stock will, at the option of each holder, (i) be assumed by the surviving company and will become exercisable for the consideration that the holders of Class A Common Stock receive in such Transaction or (ii) be redeemed by Arch Coal for cash in an amount equal to the Black Scholes Payment (as defined in the Warrant Agreement).

Termination of Material Definitive Agreements

On the Effective Date, by operation of the Plan, all outstanding obligations under the following notes issued by Arch Coal and guaranteed by certain subsidiary guarantors, (collectively, the “Cancelled Notes”) were cancelled and the indentures governing such obligations were cancelled except as necessary to (a) enforce the rights, claims and interests of the applicable trustee vis-a-vis any parties other than the Debtors, (b) allow each trustee to receive distributions under the Plan and to distribute them to the holders of the Cancelled Notes in accordance with the terms of the applicable indenture, (c) preserve any rights of the applicable trustee to compensation, reimbursement and indemnification under each of the applicable indentures solely as against any money or property distributable to holders of Cancelled Notes, (iv) permit each of the trustees to enforce any obligation owed to them under the Plan and (v) permit each of the trustees to appear in the Chapter 11 cases or in any proceeding in the Bankruptcy Court or any other court:

7.000% Senior Notes due 2019, issued pursuant to an indenture dated as of June 14, 2011, by and among Arch Coal, as issuer, UMB Bank National Association, as trustee, and the guarantors named therein, as amended, supplemented or revised thereafter;

7.250% Senior Notes due 2020, issued pursuant to an indenture dated as of August 9, 2010, by and among Arch Coal, as issuer, U.S. Bank National Association, as trustee, and the guarantors named therein, as amended, supplemented or revised thereafter;

7.250% Senior Notes due 2021, issued pursuant to an indenture dated as of June 14, 2011, by and among Arch Coal, as issuer, UMB Bank National Association, as trustee, and the guarantors named therein, as amended, supplemented or revised thereafter;

9.875% Senior Notes due 2019, issued pursuant to an indenture dated as of November 21, 2012, by and among Arch Coal, as issuer, UMB Bank National Association, as trustee, and the guarantors named therein, as amended, supplemented or revised thereafter; and

8.000% Second Lien notes due 2019, issued pursuant to an indenture dated as of December 17, 2013, by and among Arch Coal, as issuer, Wilmington Savings Fund Society, as trustee and collateral agent as successor to UMB Bank National Association, and the guarantors named therein, as amended, supplemented or revised thereafter.

On the Effective Date, by operation of the Plan, all outstanding obligations under the following credit agreement (the “Prepetition Credit Agreement”) entered into by Arch Coal and guaranteed by certain of Arch Coal’s subsidiaries and the related collateral, guaranty and other definitive agreements relating to the Prepetition Credit Agreement were cancelled and the Prepetition Credit Agreement was cancelled except as necessary to (i) enforce the rights, claims and interests of the Prepetition Agent (as defined below) and any predecessor thereof vis-a-vis the Lenders and any parties other than the Debtors, (ii) to allow the Prepetition Agent to receive distributions under the Plan and to distribute them to the lenders under the Prepetition Credit Agreement and (iii) preserve any rights of the Prepetition Agent and any predecessor thereof as against any money or property distributable to holders of claims arising out of the Prepetition Credit Agreement or any related transaction documents, including any priority in respect of payment and the right to exercise any charging lien:

Amended and Restated Credit Agreement, dated as of June 14, 2011 (as amended by the First Amendment, dated as of May 16, 2012, the Second Amendment, dated as of November 20, 2012, the Third Amendment, dated as of November 21, 2012 and the Fourth Amendment, dated as of December 17, 2013), among Arch Coal, Inc., as borrower, the lenders from time to time party thereto, Wilmington Trust, National Association, in its capacities as term loan facility administrative agent (as successor to Bank of America, N.A. in such capacity) and collateral agent

(as successor to PNC Bank, National Association in such capacity) (in such capacities, the "Prepetition Agent")

On the Effective Date, all outstanding obligations under the following credit agreement (the "DIP Credit Agreement") other than contingent and/or unliquidated obligations were paid in cash in full, all commitments under the DIP Credit Agreement and the related transaction documents referred to therein as the "Loan Documents" were terminated, all liens on property of the Debtors arising out of or related to the DIP Facility terminated and the Loan Documents were cancelled except with respect to (a) contingent and and/or unliquidated obligations under the Loan Documents which survive the Effective Date and continue to be governed by the Loan Documents and (b) the relationships among the DIP Agent (as defined below) and the lenders under the DIP Credit Agreement, as applicable, including but not limited to, those provisions relating to the rights of the DIP Agent and the lenders to expense reimbursement, indemnification and other similar amounts, certain reinstatement obligations set forth in the DIP Credit Agreement and any provisions that may survive termination or maturity of the credit facility governed by the DIP Credit Agreement in accordance with the terms thereof:

## Table of Contents

Superpriority Secured Debtor-In-Possession Credit Agreement, dated as of January 21, 2016 (as amended by the Waiver and Consent and Amendment No. 1, dated as of March 4, 2016, Amendment No. 2, dated as of March 28, 2016, Amendment No. 3, dated as of April 26, 2016, Amendment No. 4, dated as of June 10, 2016, Amendment No. 5, dated as of June 23, 2016, Amendment No. 6, dated as of July 20, 2016, and Amendment No. 7, dated as of September 28, 2016) among Arch Coal, Inc., as borrower, certain subsidiaries of Arch Coal, Inc., as guarantors, the lenders from time to time party there and Wilmington Trust, National Association, in its capacity as administrative agent and as collateral agent (in such capacities, the “DIP Agent”).

## Sales of Equity Securities

Under the Plan, 24,589,834 shares of Class A Common Stock and 410,166 shares of Class B Common Stock, par value \$.01 per share, (“Class B Common Stock” and together with Class A Common Stock, “Common Stock”) were distributed to the secured lenders and to certain holders of general unsecured claims under the Plan on the Effective Date. In addition, on the Effective Date, Arch Coal issued Warrants to purchase up to an aggregate of 1,914,856 shares of Class A Common Stock. Arch Coal relied, based on the confirmation order it received from the Bankruptcy Court, on Section 1145(a)(1) of the U.S. Bankruptcy Code to exempt from the registration requirements of the Securities Act of 1933, as amended (i) the offer and sale of Common Stock to the secured lenders and to the general unsecured creditors, (ii) the offer and sale of the Warrants to the holders of claims arising under the Cancelled Notes and (iii) the offer and sale of the Class A Common Stock issuable upon exercise of the Warrants. Section 1145(a)(1) of the Bankruptcy Code exempts the offer and sale of securities under a plan of reorganization from registration under Section 5 of the Securities Act and state laws if three principal requirements are satisfied:

the securities must be offered and sold under a plan of reorganization and must be securities of the debtor, of an affiliate participating in a joint plan of reorganization with the debtor or of a successor to the debtor under the plan of reorganization;

the recipients of the securities must hold claims against or interests in the debtor; and

the securities must be issued in exchange, or principally in exchange, for the recipient’s claim against or interest in the debtor.

## Accounting Impact of Emergence

Upon emergence, the Company will apply fresh start accounting to our consolidated financial statements because (i) the reorganization value of the assets of the emerging entity immediately before the date of confirmation was less than the total of all postpetition liabilities and allowed claims and (ii) the holders of the existing voting shares immediately before confirmation received less than 50 percent of the voting shares of the emerging entity. Our Annual Report on Form 10-K for the fiscal year ended December 31, 2016 will reflect the consummation of the Plan and the adoption of fresh start accounting.

In the application of fresh start accounting, the Company will allocate our reorganization value to the fair value of assets and liabilities in conformity with the guidance for the acquisition method of accounting for business combinations. The amount remaining after allocation of the reorganization value to the fair value of identified tangible and intangible assets and liabilities, if any, will be reflected as goodwill and subject to periodic evaluation for impairment. In addition to fresh start accounting, the Company’s future consolidated financial statements will reflect all effects of the transactions contemplated by the Plan. Accordingly, the Company’s future financial statements will not be comparable in many respects to its consolidated financial statements for periods prior to the adoption of fresh

start accounting and prior to accounting for the effects of the Plan.

The Bankruptcy Court approved a range of \$650 million to \$950 million for its reorganization value. While the Company is currently in the process of determining the adjustments that will result from the application of fresh start accounting, the Company expects its final reorganization value to be at the higher end of the range approved by the Bankruptcy Court.

## 20. Supplemental Consolidating Financial Information

Pursuant to the indentures governing Arch Coal, Inc.'s senior notes, certain wholly-owned subsidiaries of Arch Coal have fully and unconditionally guaranteed the senior notes on a joint and several basis.

Arch Coal and the subsidiaries which are guarantors under the senior notes are Debtors in the Chapter 11 Cases. The following tables present condensed consolidating financial information for (i) the Company (Debtor), (ii) the issuer of the senior notes (Debtor), (iii) the guarantors under the senior notes (Debtor), and (iv) the entities which are not guarantors under the senior notes (Arch Receivable Company, LLC and the Company's subsidiaries outside the United States) (Non-Debtors). These tables provide substantially the same information as would be presented pursuant to the disclosure requirements of

ASC 852 with respect to condensed combined financial statements of entities in reorganization proceedings.

The notes were discharged upon emergence from bankruptcy and are no longer outstanding.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Overview

Our regional results during the third quarter of 2016, when compared to the third quarter of 2015, were impacted by significant declines in volume and pricing, reflecting the lingering effects of long term weakness in all of the markets in which we participate. We have responded by rationalizing volumes and shifting volumes to lower cost operations wherever possible. Additionally, we continue to manage input costs and capital expenditures.

Pricing for our metallurgical sales during the current quarter declined compared to the prior year quarter due to the overhang from the persistent global oversupply that had driven pricing to multi-year lows. Forward pricing continued to improve during the current quarter as supply rationalization took effect, economic growth, although slow, remained positive, and the U.S. dollar weakened slightly versus key foreign currencies. Late in the current quarter, forward metallurgical pricing improvement accelerated substantially as supply scarcity became evident. We believe this significant improvement was driven by supply rationalization in North America, a Chinese mandate to restrict its domestic supply, years of global underinvestment in the industry, and some specific international supply disruptions, particularly in Australia. We sold 1.8 million tons of metallurgical coal during the third quarter of 2016 compared to 1.6 million tons during the third quarter of 2015. Overseas thermal markets remained uneconomic for most U.S. production during the current quarter.

Domestic thermal coal volumes continued their significant year over year decline in all of our operating segments. The historically mild winter, low natural gas pricing, high generator stockpiles, and the effects of the implementation of the Mercury Air Toxics Standards (MATS), combined to significantly reduce demand in domestic thermal markets. The mild winter weather resulted in decreased space heating demand for natural gas, driving pricing of the competing fuel during the first half of 2016 to levels low enough to displace significant amounts of coal-fueled electric generation throughout the country. Even PRB coal, with its lower cost structure, was significantly impacted by competition from low natural gas prices. The reduced coal burn has left utilities with historically high coal stockpile levels, further depressing demand. Closure of some coal fueled facilities to comply with the MATS regulation further reduced demand compared to the prior year periods. Although the closed coal-fueled plants were generally older, smaller, and less utilized than the remaining fleet, the closures have nevertheless had a negative impact on demand. In the current quarter natural gas pricing increased as hotter than normal summer temperatures, increased gas exports, and stagnant gas production levels led to rising gas pricing, allowing coal burn to improve significantly from the first half of the current year. Utility coal stockpiles were reduced during the current quarter, but remain above historical averages.

On January 11, 2016 (the "Petition Date"), Arch and substantially all of its wholly owned domestic subsidiaries (the "Filing Subsidiaries" and, together with Arch, the "Debtors") filed voluntary petitions for reorganization (collectively, the "Bankruptcy Petitions") under Chapter 11 of Title 11 of the U.S. Code (the "Bankruptcy Code") in the United States Bankruptcy Court for the Eastern District of Missouri (the "Court"). The Debtors' Chapter 11 Cases (collectively, the "Chapter 11 Cases") were jointly administered under the caption In re Arch Coal, Inc., et al. Case No. 16-40120 (lead case). During the Chapter 11 Cases, each Debtor continued to operate its business as a "debtor in possession" under the jurisdiction of the Court and in accordance with the applicable provisions of the Bankruptcy Code and the orders of the Court.

The Plan (as defined above) was confirmed by the Bankruptcy Court on September 13, 2016 and the Debtors emerged from bankruptcy on October 5, 2016. For further information, see Note 19, "Subsequent Events" to the Condensed Consolidated Financial Statements.

Table of Contents

## Results of Operations

## Three Months Ended September 30, 2016 Compared to Three Months Ended September 30, 2015

Revenues. Our revenues consist of coal sales. The following table summarizes information about our coal sales during the three months ended September 30, 2016 and compares it with the information for the three months ended September 30, 2015:

	Three Months Ended September 30,		
	2016	2015	(Decrease) / Increase
	(In thousands)		
Coal sales	\$550,305	\$688,544	\$(138,239)
Tons sold	27,525	34,802	(7,277 )

On a consolidated basis, coal sales decreased in the third quarter of 2016 from the third quarter of 2015, primarily due to the reduction in thermal tons sold of approximately \$122 million. The Powder River Basin accounts for approximately 72% of the value of the thermal volume decrease. Metallurgical and thermal pricing contributed approximately \$9 million and \$21 million to the reduction in coal sales respectively. Increased metallurgical volume offset these decreases by approximately \$13 million. See discussion in “Regional Performance” for further information about regional results.

Costs, expenses and other. The following table summarizes costs, expenses and other components of operating income for the three months ended September 30, 2016 and compares it with the information for the three months ended September 30, 2015:

	Three Months Ended September 30,		
	2016	2015	(Increase) Decrease in Net Loss
	(In thousands)		
Cost of sales (exclusive of items shown separately below)	\$450,427	\$540,192	\$89,765
Depreciation, depletion and amortization	69,423	103,965	34,542
Amortization of acquired sales contracts, net	104	(1,994 )	(2,098 )
Change in fair value of coal derivatives and coal trading activities, net	488	(3,559 )	(4,047 )
Asset impairment and mine closure costs	46	2,120,292	2,120,246
Losses from disposed operations resulting from Patriot Coal bankruptcy	—	149,314	149,314
Selling, general and administrative expenses	20,498	25,731	5,233
Other operating (income) expense, net	(2,476 )	(8,625 )	(6,149 )
Total costs, expenses and other	\$538,510	\$2,925,316	\$2,386,806

Cost of sales. Our cost of sales decreased in the third quarter of 2016 from the third quarter of 2015 due to reduced operating activity related to the significant volume decline and lower input pricing, particularly for diesel fuel. Major categories of reduction include sales related royalties and operating taxes (approximately \$31 million), maintenance (approximately \$25 million), contractor mining costs (approximately \$5 million), labor and benefits (approximately \$23 million), and diesel fuel (approximately \$9 million). See discussion in “Regional Performance” for further information about regional results.

Depreciation, depletion and amortization. When compared with the third quarter of 2015, depreciation, depletion and amortization costs decreased in 2016 due to the impairment of certain long lived assets in the third and fourth quarters of 2015 and the significantly reduced volume levels.

Asset impairment and mine closure costs. During the third quarter of 2015 our testing indicated impairment of several active and undeveloped properties. Impairment costs in the third quarter of 2015 included assets at two operating complexes and a significant portion of our undeveloped coal reserves value. See Note 6, "Asset Impairment and Mine Closure Costs" to the condensed consolidated financial statements for further discussion.

Table of Contents

Losses from disposed operations relating to Patriot Coal bankruptcy. During the third quarter of 2015 we recorded liabilities for surety bond and employee obligations that we incurred as a result of the Patriot Coal bankruptcy. See Note 7, “Losses from disposed operations resulting from Patriot Coal bankruptcy” to the condensed consolidated financial statements for further discussion.

Selling, general and administrative expenses. Total selling, general and administrative expenses decreased when compared with the third quarter of 2015, primarily due to reduced legal and other professional services costs, lower compensation and benefits, and lower professional dues expense.

Other operating (income) expense, net. Other operating income for the third quarter of 2016 was unfavorable compared to the third quarter of 2015 primarily due to a \$24 million gain from a contract settlement in the prior year quarter partially offset by a reduction in cost for liquidated damages on logistics contracts of approximately \$13 million, and favorable mark to market impact from heating oil positions of approximately \$3 million. Substantially all of our agreements for export logistics that resulted in liquidated damages have been rejected in our Chapter 11 bankruptcy proceedings.

Nonoperating Expense. The following table summarizes our nonoperating expense for the three months ended September 30, 2016 and compares it with the information for the three months ended September 30, 2015:

	Three Months Ended September 30,		(Increase) Decrease in Net Loss
	2016	2015	
	(In thousands)		
Expenses related to proposed debt restructuring	\$—	\$(7,482)	\$7,482
Reorganization items, net	(20,904 )	—	(20,904 )
Total nonoperating expense	\$(20,904)	\$(7,482)	\$(13,422)

Nonoperating expenses in the third quarter of 2016 are related to our Chapter 11 reorganization efforts. See further discussion in Note 4, “Reorganization Items, Net”, to the condensed consolidated financial statements.

Benefit from income taxes. The following table summarizes our benefit from income taxes for the three months ended September 30, 2016 and compares it with the information for the three months ended September 30, 2015:

	Three Months Ended September 30,		(Increase) Decrease in Net Loss
	2016	2015	
	(In thousands)		
Benefit from income taxes	\$(3,270)	\$(343,865)	\$(340,595)

The income tax benefit rate of 6.0% in the third quarter of 2016 decreased from 14.7% in the third quarter of 2015 due to an increase in the percentage of calculated tax benefit subject to a valuation allowance. See further discussion in Note 13, “Income Taxes”, to the condensed consolidated financial statements.

Table of Contents

## Nine Months Ended September 30, 2016 Compared to Nine Months Ended September 30, 2015

Revenues. Our revenues consist of coal sales. The following table summarizes information about our coal sales during the nine months ended September 30, 2016 and compares it with the information for the nine months ended September 30, 2015:

	Nine Months Ended September 30,		(Decrease) / Increase
	2016	2015	
	(In thousands)		
Coal sales	\$1,398,709	\$2,010,011	\$(611,302)
Tons sold	67,128	98,483	(31,355 )

On a consolidated basis, coal sales decreased in the first nine months of 2016 from the first nine months of 2015, \$504 million of the reduction is primarily due to the reduction in thermal tons sold. The Powder River Basin accounts for approximately 75% of the value of the thermal volume decrease. Metallurgical and thermal pricing contributed approximately \$78 million and \$64 million to the reduction in coal sales respectively. Increased metallurgical volume offset these decreases by approximately \$35 million. See discussion in “Regional Performance” for further information about regional results.

Costs, expenses and other. The following table summarizes costs, expenses and other components of operating income for the nine months ended September 30, 2016 and compares it with the information for the nine months ended September 30, 2015:

	Nine Months Ended September 30,		(Increase) Decrease in Net Loss
	2016	2015	
	(In thousands)		
Cost of sales (exclusive of items shown separately below)	\$1,288,785	\$1,668,766	\$379,981
Depreciation, depletion and amortization	191,581	306,211	114,630
Amortization of acquired sales contracts, net	(728 )	(7,028 )	(6,300 )
Change in fair value of coal derivatives and coal trading activities, net	2,856	(1,128 )	(3,984 )
Asset impairment and mine closure costs	129,267	2,139,438	2,010,171
Losses from disposed operations resulting from Patriot Coal bankruptcy	—	149,314	149,314
Selling, general and administrative expenses	59,343	72,604	13,261
Other operating (income) expense, net	(15,257 )	7,864	23,121
Total costs, expenses and other	\$1,655,847	\$4,336,041	\$2,680,194

Cost of sales. Our cost of sales decreased in the first nine months of 2016 from the first nine months of 2015 due to reduced operating activity related to the significant volume decline and lower input pricing, particularly for diesel fuel. Major categories of reduction include sales related royalties and operating taxes (approximately \$130 million), maintenance (approximately \$78 million), contractor mining costs (approximately \$39 million), labor and benefits (approximately \$72 million), and diesel fuel (approximately \$36 million). See discussion in “Regional Performance” for further information about regional results.

Depreciation, depletion and amortization. When compared with the first nine months of 2015, depreciation, depletion and amortization costs decreased in 2016 due to the impairment of certain long lived assets in the third and fourth

quarters of 2015 and the significantly reduced volume levels.

Asset impairment and mine closure costs. During the first quarter of 2016 we received notification of intent to idle operations by a third party to whom we leased certain Appalachian reserves. As a result of the idling and weakness in the thermal coal market, we determined that the value of these reserves was impaired. During the second quarter of 2016 we sold our interest in Millennium Bulk Terminal while retaining future throughput rights. As a result of the sale, our remaining equity investment in Millennium was impaired. During the third quarter of 2015 our testing indicated impairment of several active and undeveloped properties. Impairment costs in the third quarter of 2015 included assets at two operating complexes and a

Table of Contents

significant portion of our undeveloped coal reserves value. See Note 6, “Asset Impairment and Mine Closure Costs” to the condensed consolidated financial statements for further discussion.

Losses from disposed operations relating to Patriot Coal bankruptcy. During the third quarter of 2015 we recorded liabilities for surety bond and employee obligations that we incurred as a result of the Patriot Coal bankruptcy. See Note 7, “Losses from disposed operations resulting from Patriot Coal bankruptcy” to the condensed consolidated financial statements for further discussion.

Selling, general and administrative expenses. Total selling, general and administrative expenses decreased when compared with the first nine months of 2015, primarily due to lower compensation, legal and other professional services, and professional dues expense.

Other operating (income) expense, net. Other operating income for the first nine months of 2016 was favorable to other operating expense for the first nine months of 2015 primarily due to a reduction in cost for liquidated damages on logistics contracts of approximately \$39 million and gains on sales of an idle and an active operation of approximately \$6 million partially offset by a \$24 million gain from a contract settlement in the prior year quarter. Substantially all of our agreements for export logistics that resulted in liquidated damages have been rejected in our Chapter 11 bankruptcy proceedings.

Nonoperating Expense. The following table summarizes our nonoperating expense for the nine months ended September 30, and compares it with the information for the nine months ended September 30, 2015:

	Nine Months Ended September 30,		(Increase) Decrease in Net Loss
	2016	2015	
	(In thousands)		
Expenses related to proposed debt restructuring	\$(2,213 )	\$(11,498)	\$9,285
Reorganization items, net	(46,050 )	—	(46,050 )
Total nonoperating expense	\$(48,263)	\$(11,498)	\$(36,765)

Nonoperating expenses in the first nine months of 2016 are related to our proposed debt restructuring activities and Chapter 11 reorganization efforts. See further discussion in Note 4, “Reorganization Items, Net”, to the condensed consolidated financial statements.

Benefit from income taxes. The following table summarizes our benefit from income taxes for the nine months ended September 30, 2016 and compares it with the information for the nine months ended September 30, 2015:

	Nine Months Ended September 30,		(Increase) Decrease in Net Loss
	2016	2015	
	(In thousands)		
Benefit from income taxes	\$(4,626)	\$(351,332)	\$(346,706)

The income tax benefit rate of 1.1% in the first nine months of 2016 decreased from 13.3% in the first nine months of 2015 due to an increase in the percentage of calculated tax benefit subject to a valuation allowance. See further

discussion in Note 13, "Income Taxes", to the condensed consolidated financial statements.

Table of Contents

## Regional Performance

The following table shows results by operating segment for the three and nine months ended September 30, 2016 and compares them with the information for the three and nine months ended September 30, 2015. The “Other” category represents the results of our other bituminous thermal operations: our West Elk mining complex in Colorado and our Viper mining complex in Illinois.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
<b>Powder River Basin</b>				
Tons sold (in thousands)	22,767	29,469	54,911	83,484
Coal sales per ton sold	\$12.79	\$13.07	\$13.01	\$13.26
Cost per ton sold	\$11.23	\$11.71	\$13.09	\$12.27
Operating margin per ton sold	\$1.56	\$1.36	\$(0.08 )	\$0.99
Adjusted EBITDAR (in thousands)	\$73,299	\$86,204	\$96,242	\$214,920
<b>Appalachia</b>				
Tons sold (in thousands)	2,935	2,993	8,514	9,113
Coal sales per ton sold	\$54.48	\$62.24	\$52.86	\$64.45
Cost per ton sold	\$57.84	\$63.70	\$59.62	\$69.65
Operating loss per ton sold	\$(3.36 )	\$(1.46 )	\$(6.76 )	\$(5.20 )
Adjusted EBITDAR (in thousands)	\$11,616	\$41,754	\$13,261	\$92,988
<b>Other</b>				
Tons sold (in thousands)	1,823	2,340	3,703	5,886
Coal sales per ton sold	\$28.92	\$30.20	\$30.35	\$31.14
Cost per ton sold	\$23.54	\$24.63	\$32.67	26.81
Operating margin per ton sold	\$5.38	\$5.57	\$(2.32 )	\$4.33
Adjusted EBITDAR (in thousands)	\$20,963	\$12,927	\$18,230	\$22,074

This table reflects numbers reported under a basis that differs from U.S. GAAP. See the “Reconciliation of Non-GAAP measurements” for explanation and reconciliation of these amounts to the nearest GAAP figures. Other companies may calculate these per ton amounts differently, and our calculation may not be comparable to other similarly titled measures.

**Powder River Basin** — Adjusted EBITDAR decreased approximately 15% in the third quarter of 2016 when compared to the third quarter of 2015, and approximately 55% in the first nine months of 2016 compared to the first nine months of 2015. The primary driver of the decline in Adjusted EBITDAR is the 34% reduction in shipment volume in the first nine months of 2016 compared to the first nine months of 2015 discussed further in the “Overview” above. Pricing declined in the current quarter and year to date primarily due to the annual roll off and no real replacement of sales orders for 2016. Cost per ton sold decreased in the third quarter but increased in the first nine months of 2016 when compared to the third quarter and first nine months of 2015, respectively. Cost per ton sold was lower in the current quarter due to efforts taken earlier in the year to rationalize operations to the lower volume levels, and a decrease in the percentage reduction in volume versus the first half of the current year. Cost per ton sold was higher in the first nine months of the year due to the significant decrease in volume partially offset by reduced labor, reduced maintenance activity, lower supply usage, and lower input pricing, particularly lower diesel fuel pricing.

**Appalachia** — Adjusted EBITDAR decreased approximately 72% in the third quarter of 2016 when compared to the third quarter of 2015 and approximately 86% in the first nine months of 2016 compared to the first nine months of

2015. Shipment volume and coal sales per ton both declined in the current year periods versus the prior year. Coal sales volumes decreased slightly in the third quarter and more significantly in the first nine months of 2016 when compared to the third quarter and first nine months of 2015, respectively, due to the idling or sale of three operations impacting the comparative periods, and reduced thermal demand, partially offset by increased metallurgical shipments. Metallurgical volume increased in both the current year three and nine month periods. Pricing declined in the third quarter and first nine months of 2016 compared to the third quarter and first nine months of 2015 respectively, across all major quality specifications, with the greatest deterioration occurring in metallurgical pricing. As discussed above in the “Overview”, supply rationalization and disruption late in the current quarter significantly improved forward metallurgical pricing in the current period, but the impact on our realized pricing was muted due to our largely committed position. Unit cost decreased significantly in the current year periods compared to the prior year periods, due to our continued shift of volume to lower cost operations, particularly the Leer

Table of Contents

complex, and the impairment of certain long lived assets in the third and fourth quarters of 2015 which significantly reduced depreciation, depletion, and amortization costs in the current year periods.

Other — Adjusted EBITDAR increased in the third quarter of 2016 when compared to the third quarter of 2015 due to the elimination of liquidated damages charges in the current quarter and lower unit costs as a result of operational rationalization to lower volume levels. Adjusted EBITDAR decreased in the first nine months of 2016 when compared to the first nine months of 2015 due to an approximately 37% decline in sales volume, partially offset by the significant reduction of liquidated damages charges in the current year period. Unit costs decreased in the current year quarter as operations rationalization efforts more than offset volume reductions, but unit costs increased in the current year nine month period due to the volume reductions partially offset by rationalization efforts. Pricing decreased in the third quarter and first nine months of 2016 when compared to the third quarter and first nine months of 2015 due to lower pricing on a major long-term supply agreement.

## Reconciliation of Non-GAAP measures

## Segment coal sales per ton sold

Segment coal sales per ton sold are calculated as the segment's coal sales revenues divided by segment tons sold. The segments' sales per tons sold are adjusted for transportation costs, and may be adjusted for other items that, due to accounting rules, are classified in "other operating (income) expense, net" on the statement of operations, but relate to price protection on the sale of coal. Segment sales per ton sold is not a measure of financial performance in accordance with generally accepted accounting principles. We believe segment sales per ton sold better reflects our revenue for the quality of coal sold and our operating results by including all income from coal sales. The adjustments made to arrive at these measures are significant in understanding and assessing our financial condition. Therefore, segment coal sales revenues should not be considered in isolation, nor as an alternative to coal sales revenues under generally accepted accounting principles.

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2016	2015	2016	2015
	(In thousands)			
Reported segment coal sales revenues	\$503,852	\$641,969	\$1,276,587	\$1,877,726
Coal risk management derivative settlements classified in "other (income) expense, net"	117	(648)	448	(2,267)
Transportation costs	46,336	47,223	121,674	134,552
Coal sales	\$550,305	\$688,544	\$1,398,709	\$2,010,011

Table of Contents

## Segment cost per ton sold

Segment costs per ton sold are calculated as the segment's cost of tons sold divided by segment tons sold. The segments' cost of tons sold are adjusted for transportation costs, and may be adjusted for other items that, due to accounting rules, are classified in "other (income) expense, net" on the statement of operations, but relate directly to the costs incurred to produce coal. Segment cost of tons sold is not a measure of financial performance in accordance with generally accepted accounting principles. We believe segment cost of tons sold better reflects our controllable costs and our operating results by including all costs incurred to produce coal. The adjustments made to arrive at these measures are significant in understanding and assessing our financial condition. Therefore, segment cost of tons sold should not be considered in isolation, nor as an alternative to cost of sales under generally accepted accounting principles.

	Three Months Ended		Nine Months Ended	
	September 30, 2016	2015	September 30, 2016	2015
	(In thousands)			
Reported segment cost of tons sold	\$468,136	\$593,250	\$1,347,166	\$1,816,173
Diesel fuel risk management derivative settlements classified in "other (income) expense, net"	(1,154 )	(2,684 )	(3,696 )	(4,894 )
Transportation costs	46,336	47,223	121,674	134,552
Depreciation, depletion and amortization in reported segment cost of tons sold presented on separate line on statement of operations	(68,630 )	(102,612 )	(189,323 )	(301,504 )
Other (other operating segments, operating overhead, etc.)	5,739	5,015	12,964	24,439
Cost of sales	\$450,427	\$540,192	\$1,288,785	\$1,668,766

## Segment Adjusted EBITDAR to Net Income

The discussion in "Results of Operations" includes references to our Adjusted EBITDAR. Adjusted EBITDAR is defined as net income attributable to the Company before the effect of net interest expense, income taxes, depreciation, depletion and amortization, the amortization of acquired sales contracts and reorganization items, net. Adjusted EBITDAR may also be adjusted for items that may not reflect the trend of future results. We use Adjusted EBITDAR to assess the operating segments' performance and to allocate resources. Investors should be aware that our presentation of Adjusted EBITDAR may not be comparable to similarly titled measures used by other companies. The table below shows how we calculate Adjusted EBITDAR.

	Three Months Ended		Nine Months Ended	
	September 30, 2016	2015	September 30, 2016	2015
	(In thousands)			
Reported Segment Adjusted EBITDAR	\$105,878	\$140,886	\$127,732	\$329,982
Corporate and other	(24,510 )	(6,081 )	(64,750 )	(68,077 )
Adjusted EBITDAR	81,368	134,805	62,982	261,905
Benefit from income taxes	3,270	343,865	4,626	351,332
Interest expense, net	(45,582 )	(99,087 )	(133,235 )	(294,578 )

Table of Contents

Corporate and other includes primarily selling, general and administrative expenses, income from our equity investments, certain actuarial adjustments, and certain changes in the fair value of coal derivatives and coal trading activities. Corporate and other adjusted EBITDAR declined \$18.4 million in the third quarter of 2016 while increasing \$3.3 million in the first nine months of 2016 when compared to the third quarter and first nine months of 2015 respectively. The decline in the third quarter was primarily due to a \$24 million gain from a contract settlement in the prior year quarter partially offset by \$5.2 million of reduced selling, general and administrative expenses. The benefit in the first nine months was primarily due to \$13.3 million of reduced selling, general and administrative expenses, \$6.3 million favorable change in investments versus the prior year period, \$6.9 million improvement in mark to market of heating oil derivatives, partially offset by the \$24 million gain from a contract settlement in the prior year.

## Liquidity and Capital Resources

Our primary sources of liquidity are proceeds from coal sales to customers and certain financing arrangements. Excluding significant investing activity, we have historically satisfied our working capital requirements and funded capital expenditures and debt-service obligations with cash generated from operations, cash on hand and credit extensions under available lines of credit. During the market down cycle our focus is preserving liquidity and prudently managing costs, including capital expenditures.

The filing of the Bankruptcy Petitions constituted an event of default that accelerated our obligations under our Debt Instruments, all as further described in Note 12, “Debt and Financing Arrangements”, in the Condensed Consolidated Financial Statements. Pursuant to the Bankruptcy Code, the filing of the Bankruptcy Petitions automatically stayed most actions against the Debtors, including most actions to collect indebtedness incurred prior to the Petition Date or to exercise control over the Debtors’ property. Accordingly, although the filing of the Bankruptcy Petitions triggered defaults under Debt Instruments, creditors are stayed from taking action as a result of these defaults. Additionally, under Section 502(b)(2) of the Bankruptcy Code, the Company is no longer required to pay interest on its senior unsecured notes and senior secured notes accruing on or after the Petition Date. However, the Debtors are required to pay interest on amounts borrowed under the Superpriority Secured Debtor-in-Possession Credit Agreement (as amended on March 4, 2016, March 28, 2016, April 26, 2016, June 10, 2016, June 23, 2016, July 20, 2016 and September 28, 2016).

The Plan (as defined above) was confirmed by the Bankruptcy Court on September 13, 2016 and the Debtors emerged from bankruptcy on October 5, 2016. For further information, see Note 19, “Subsequent Events” in the Condensed Consolidated Financial Statements.

On September 30, 2016, we had \$511.7 million of cash and liquid securities on hand. Based on our current internal financial forecasts, we believe that our cash on hand, and cash generated from the results of our operations will be sufficient to fund anticipated cash requirements for minimum operating and capital expenditures and for working capital purposes. However, given the current level of volatility in the market and the unpredictability of certain costs that could potentially arise in our operations, our liquidity needs could be significantly higher than we currently anticipate. In particular, weak coal market industry conditions and reduced domestic thermal coal demand may continue to impact our results of operations and our available liquidity.

Upon emergence on October 5, 2016, we were required to make payments in consummation of the Plan; details of the payments and a proforma cash balance at emergence are shown in the table below:

	In thousands
Cash, cash equivalents and short term investments at 9/30	\$ 511,656
Bankruptcy Related Payments Made Prior to or Upon Emergence	
1st Lien Adequate Protection/Settlement	79,766
General Unsecured Creditor Settlement	22,636
Warrant Redemption	10,178

Other Exit Costs (professional fees and other settlement payments) 12,113

Proforma Cash Balance at Emergence \$ 386,963

## Table of Contents

In addition to the bankruptcy exit related payments made prior to or upon emergence on October 5, 2016, we expect to make additional exit related payments totaling \$77.7 million subsequent to emergence. The remaining payments primarily relate to exit collateral, professional fees, remaining settlement payments to general unsecured creditors, and cure payments. We expect the majority of the remaining payments to be made by the end of 2016.

### Debtor-In-Possession Financing

On January 21, 2016, the Superpriority Secured Debtor-in-Possession Credit Agreement (as amended on March 4, 2016, March 28, 2016, April 26, 2016, June 10, 2016, June 23, 2016, July 20, 2016 and September 28, 2016, the “DIP Credit Agreement”) was entered into by and among Arch Coal, as borrower, certain of the Filing Subsidiaries, as guarantors (the “Guarantors” and, together with Arch Coal, the “DIP Loan Parties”), the lenders from time to time party thereto (the “DIP Lenders”) and Wilmington Trust, National Association, as administrative agent and collateral agent for the DIP Lenders (in such capacities, the “DIP Agent”).

The DIP Credit Agreement which has been approved by the Court on a final basis provides for a super-priority senior secured debtor-in-possession credit facility (the “DIP Facility”) consisting of term loans (collectively, the “DIP Term Loan”) in the aggregate principal amount of up to \$275 million.

The maturity date of the DIP Facility is the earliest of (i) January 31, 2017, (ii) the date of the substantial consummation of a plan of reorganization that is confirmed pursuant to an order of the Court, (iii) the consummation of the sale of all or substantially all of the assets of the DIP Loan Parties pursuant to Section 363 of the Bankruptcy Code and (iv) the date the obligations under the DIP Facility are accelerated pursuant to the terms of the DIP Credit Agreement. Borrowings under the DIP Facility bear interest at an interest rate per annum equal to, at the Company’s option (i) LIBOR plus 9.00%, subject to a 1.00% LIBOR floor or (ii) the base rate plus 8.00%.

Obligations under the DIP Credit Agreement are guaranteed on a super-priority senior secured basis by all of our existing and future wholly-owned domestic subsidiaries, and all newly created or acquired wholly-owned domestic subsidiaries, subject to customary limited exceptions.

The lenders under the DIP Credit Agreement have a first priority lien on all encumbered and unencumbered assets of the DIP Loan Parties (the “DIP Lien”), subject to a \$75 million carve-out for super-priority claims relating to the Debtors’ bonding obligations, a customary professional fees carve-out and certain exceptions.

Arch Coal entered into an amendment to the DIP Credit Agreement, dated as of July 20, 2016 which extended the availability period to borrow under the DIP Facility from July 21, 2016 to the earlier to occur of (i) September 30, 2016 and (ii) the termination of the DIP Facility (which the Company currently expects to occur concurrently with its emergence from bankruptcy), with a corresponding extension to the period during which the 5% per annum unused commitment fee is applicable. Arch Coal entered into another amendment to the DIP Credit Agreement, dated as of September 28, 2016, which (i) extended the availability period to borrow under the DIP Facility and (ii) extended the deadline for the Plan to become effective, in each case, to coincide with the Company’s emergence from bankruptcy on October 5, 2016, with a corresponding extension to the period during which the 5% per annum unused commitment fee is applicable.

The Debtors emerged from bankruptcy on October 5, 2016 (the “Effective Date”) and all commitments under the DIP Credit Agreement were terminated. On the Effective Date, pursuant to the Plan (as defined above) and as a condition to its effectiveness, Arch Coal entered into a new senior secured term loan credit agreement in an aggregate principal amount of \$326.5 million with Wilmington Trust, National Association, as administrative agent and collateral agent for the lenders party thereto from time to time (collectively, the “Lenders”). The Lenders are all institutions that previously committed to make loans to Arch Coal under the DIP Credit Agreement (as defined above), and pursuant

to the Plan collectively received a distribution of 94% of Arch Coal's new common stock upon emergence. For further information, see Note 19, "Subsequent Events" in the Condensed Consolidated Financial Statements.

Table of Contents

The following is a summary of cash provided by or used in each of the indicated types of activities during the nine months ended September 30, 2016 and 2015:

	Nine Months Ended	
	September 30,	
	2016	2015
	(In thousands)	
Cash provided by (used in):		
Operating activities	\$(31,234)	\$(79,682)
Investing activities	15,135	(121,446)
Financing activities	(34,477)	(38,315)

Cash used in operating activities during the first nine months of 2016 decreased to \$31.2 million compared to \$79.7 million in the first nine months of 2015. The decreased use of cash was driven by reduced cash interest paid of \$152.5 million and a positive change in inventory of \$83.5 million, partially offset by the decrease in our adjusted EBITDAR of \$198.9 million primarily related to the significant volume declines discussed in the “Overview” and “Operational Performance” sections of “Management’s Discussion and Analysis of Financial Condition and Results of Operations”.

We received \$15.1 million of cash from investing activities during the first nine months of 2016 compared to using \$121.4 million of cash in the first nine months of 2015, due to a net \$42.9 million increase in cash provided from marketable securities transactions, reduced capital expenditures of \$26.8 million, and a positive net change in restricted cash of \$60.7 million related to cash collateral required to support letters of credit outstanding under our accounts receivable securitization facility compared to the prior period.

Cash used in financing activities decreased \$3.8 million in the first nine months of 2016, compared to the first nine months of 2015, due to the fact that no principal payment was made on the \$1.9 billion term loan facility as compared to \$14.6 million in the prior year period and pre-filing debt restructuring costs of \$11.5 million in the prior year period, partially offset by \$2.2 million of pre-filing debt restructuring costs in the current year period and financing costs associated with our DIP Facility of \$17.0 million and our amended accounts receivable securitization facility of \$3.2 million.

Table of Contents

## Ratio of Earnings to Fixed Charges

The following table sets forth our ratios of earnings to combined fixed charges and preference dividends for the periods indicated:

	Nine Months Ended September 30,	
	2016	2015
Ratio of earnings to combined fixed charges and preference dividends <sup>(1)</sup>	N/A <sup>(2)</sup>	N/A <sup>(2)</sup>

<sup>(1)</sup> Earnings consist of income from continuing operations before income taxes and are adjusted to include only distributed income from affiliates accounted for on the equity method and fixed charges (excluding capitalized interest). Fixed charges consist of interest incurred on indebtedness, the portion of operating lease rentals deemed representative of the interest factor and the amortization of debt expense.

<sup>(2)</sup> Total losses for the ratio calculation round to \$291.3 million and total fixed charges were \$142.0 million for the nine months ended September 30, 2016. Total losses for the ratio calculation were \$2,306.2 million and total fixed charges were \$305.9 million for the nine months ended September 30, 2015.

Table of Contents

## Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We manage our commodity price risk for our non-trading, thermal coal sales through the use of long-term coal supply agreements, and to a limited extent, through the use of derivative instruments. Sales commitments in the metallurgical coal market are typically not long term in nature, and we are therefore subject to fluctuations in market pricing.

Our sales commitments for 2016 and 2017 were as follows as of September 30, 2016:

	2016		2017	
	Tons	\$ per ton	Tons	\$ per ton
	(in		(in	
	millions)		millions)	
Powder River Basin				
Committed, Priced	74.8	\$ 12.86	54.3	\$ 12.89
Committed, Unpriced	0.5		4.0	
Appalachia				
Committed, Priced Thermal	4.4	\$ 48.01	1.9	\$ 39.42
Committed, Unpriced Thermal	—		—	
Committed, Priced Metallurgical	7.0	\$ 58.86	2.1	\$ 66.78
Committed, Unpriced Metallurgical	0.2		0.2	
Other Bituminous				
Committed, Priced	5.3	\$ 30.02	3.2	\$ 33.43
Committed, Unpriced	—		—	

At September 30, 2016, we had committed 2.1 million tons of our expected 7.0 to 7.5 million tons of metallurgical coal production in 2017. Nearly half the total was associated with a two-year commitment with a major customer covering 2016 and 2017 and negotiated earlier in the year; 0.5 million tons relate to commitments to supply a pulverized coal injection (PCI) product; and most of the remainder was offered in July or August, prior to the significant increase in metallurgical coal prices.

We are also exposed to commodity price risk in our coal trading activities, which represents the potential future loss that could be caused by an adverse change in the market value of coal. Our coal trading portfolio included forward, swap and put and call option contracts at September 30, 2016. The estimated future realization of the value of the trading portfolio is \$1.5 million of gains in the remainder of 2016.

We monitor and manage market price risk for our trading activities with a variety of tools, including Value at Risk (VaR), position limits, management alerts for mark to market monitoring and loss limits, scenario analysis, sensitivity analysis and review of daily changes in market dynamics. Management believes that presenting high, low, end of year and average VaR is the best available method to give investors insight into the level of commodity risk of our trading positions. Illiquid positions, such as long-dated trades that are not quoted by brokers or exchanges, are not included in VaR.

VaR is a statistical one-tail confidence interval and down side risk estimate that relies on recent history to estimate how the value of the portfolio of positions will change if markets behave in the same way as they have in the recent past. The level of confidence is 95%. The time across which these possible value changes are being estimated is through the end of the next business day. A closed-form delta-neutral method used throughout the finance and energy sectors is employed to calculate this VaR. VaR is back tested to verify its usefulness.

On average, portfolio value should not fall more than VaR on 95 out of 100 business days. Conversely, portfolio value declines of more than VaR should be expected, on average, 5 out of 100 business days. When more value than VaR is

lost due to market price changes, VaR is not representative of how much value beyond VaR will be lost.

While presenting VaR will provide a similar framework for discussing risk across companies, VaR estimates from two independent sources are rarely calculated in the same way. Without a thorough understanding of how each VaR model was calculated, it would be difficult to compare two different VaR calculations from different sources.

During the nine months ended September 30, 2016, VaR for our coal trading positions that are recorded at fair value through earnings ranged from under \$0.1 million to \$0.4 million. The linear mean of each daily VaR was \$0.1 million. The final VaR at September 30, 2016 was \$0.1 million.

## Table of Contents

We are exposed to fluctuations in the fair value of coal derivatives that we enter into to manage the price risk related to future coal sales, but for which we do not elect hedge accounting. Gains or losses on these derivative instruments would be largely offset in the pricing of the physical coal sale. During the nine months ended September 30, 2016, VaR for our risk management positions that are recorded at fair value through earnings ranged from \$0.1 million to \$0.2 million. The linear mean of each daily VaR was \$0.1 million. The final VaR at September 30, 2016 was \$0.1 million.

We are also exposed to the risk of fluctuations in cash flows related to our purchase of diesel fuel. We expect to use approximately 41 to 46 million gallons per year of diesel fuel for use in our operations during 2016. We enter into forward physical purchase contracts, as well as purchased heating oil options, to reduce volatility in the price of diesel fuel for our operations. The Company has purchased 8.4 million gallons of call options for the remainder of 2016 representing 65% of expected purchases at an average strike price of \$1.40 per gallon. Additionally, we have protected approximately 49% of our expected 2017 purchases with call options with an average strike price of 1.66 per gallon. At September 30, 2016, we had purchased heating oil call options for approximately 22 million gallons for the purpose of managing the price risk associated with future diesel purchases. A \$0.25 per gallon decrease in the price of heating oil would not result in an increase in our expense related to the heating oil derivatives.

### Item 4. Controls and Procedures.

We performed an evaluation under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of September 30, 2016. Based on that evaluation, our management, including our chief executive officer and chief financial officer, concluded that the disclosure controls and procedures were effective as of such date. There were no changes in our internal control over financial reporting during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II OTHER INFORMATION

### Item 1. Legal Proceedings.

We are involved in various claims and legal actions arising in the ordinary course of business, including employee injury claims. After conferring with counsel, it is the opinion of management that the ultimate resolution of these claims, to the extent not previously provided for, will not have a material adverse effect on our consolidated financial condition, results of operations or liquidity. Also, as a result of historical acquisitions or dispositions by us or other companies in our industry, we may time to time be subject to claims or legal actions, including in respect of certain employee or retiree health or pension benefits.

### Permit Litigation Matters

Surface mines at our Mingo Logan and Coal-Mac mining operations were identified in an existing lawsuit brought by the Ohio Valley Environmental Coalition (OVEC) in the U.S. District Court for the Southern District of West Virginia as having been granted Clean Water Act § 404 permits by the Army Corps of Engineers (Corps), allegedly in violation of the Clean Water Act and the National Environmental Policy Act. The lawsuit, brought by OVEC in September 2005, originally was filed against the Corps for permits it had issued to four subsidiaries of a company unrelated to us or our operating subsidiaries. The suit claimed that the Corps had issued permits to the subsidiaries of the unrelated company that did not comply with the National Environmental Policy Act and violated the Clean Water

Act.

The court ruled on the claims associated with those four permits in orders of March 23 and June 13, 2007. In the first of those orders, the court rescinded the four permits, finding that the Corps had inadequately assessed the likely impact of valley fills on headwater streams and had relied on inadequate or unproven mitigation to offset those impacts. In the second order, the court entered a declaratory judgment that discharges of sediment from the valley fills into sediment control ponds constructed in-stream to control that sediment must themselves be permitted under a different provision of the Clean Water Act, § 402, and meet the effluent limits imposed on discharges from these ponds. Both of the district court rulings were appealed to the U.S. Court of Appeals for the Fourth Circuit.

Before the court entered its first order, the plaintiffs were permitted to amend their complaint to challenge the Coal-Mac and Mingo Logan permits. Plaintiffs sought preliminary injunctions against both operations, but later reached agreements with our operating subsidiaries that have allowed mining to progress in limited areas while the district court's rulings were on appeal. The claims against Coal-Mac were thereafter dismissed.

53

---

Table of Contents

In February 2009, the Fourth Circuit reversed the district court. The Fourth Circuit held that the Corps' jurisdiction under Section 404 of the Clean Water Act is limited to the narrow issue of the filling of jurisdictional waters. The court also held that the Corps' findings of no significant impact under the National Environmental Policy Act and no significant degradation under the Clean Water Act are entitled to deference. Such findings entitle the Corps to avoid preparing an environmental impact statement, the absence of which was one issue on appeal. These holdings also validated the type of mitigation projects proposed by our operations to minimize impacts and comply with the relevant statutes. Finally, the Fourth Circuit found that stream segments, together with the sediment ponds to which they connect, are unitary "waste treatment systems," not "waters of the United States," and that the Corps had not exceeded its authority in permitting them.

OVEC sought rehearing before the entire appellate court, which was denied in May 2009, and the decision was given legal effect in June 2009. An appeal to the U.S. Supreme Court was then filed in August 2009. On August 3, 2010 OVEC withdrew its appeal.

Mingo Logan filed a motion for summary judgment with the district court in July 2009, asking that judgment be entered in its favor because no outstanding legal issues remained for decision as a result of the Fourth Circuit's February 2009 decision. By a series of motions, the United States obtained extensions and stays of the obligation to respond to the motion in the wake of its letters to the Corps dated September 3 and October 16, 2009 (discussed below). By order dated April 22, 2010, the district court stayed the case as to Mingo Logan for the shorter of either six months or the completion of the U.S. Environmental Protection Agency's (EPA) proposed action to deny Mingo Logan the right to use its Corps' permit (as discussed below).

On October 15, 2010, the United States moved to extend the existing stay for an additional 120 days (until February 22, 2011) while the EPA Administrator reviewed the "Recommended Determination" issued by the EPA Region 3. By Memorandum Opinion and Order dated November 2, 2010, the court granted the United States' motion. On January 13, 2011, the EPA issued its "Final Determination" to withdraw the specification of two of the three watersheds as a disposal site for dredged or fill material approved under the current Section 404 permit. The court was notified of the Final Determination and by order dated March 21, 2011 stayed further proceedings in the case until further order of the court, in light of the challenge to the EPA's "Final Determination" then pending in federal court in Washington, D.C. A full account and status of this litigation surrounding the Final Determination is set forth in the immediately following section.

On April 5, 2012, Mingo Logan moved to lift the stay referenced above. On June 5, 2012, the court entered an order lifting the stay and allowing the case to proceed on Mingo Logan's Motion for Summary Judgment. Shortly thereafter, OVEC filed a motion for leave to file a seventh amended and supplemental complaint seeking to update existing counts and raising two new claims (one, to enforce EPA's "Final Determination" and, the other, that the Corps' refusal to prepare a Supplemental Environmental Impact Statement violates the APA and NEPA). By Memorandum, Opinion and Order dated July 25, 2012, the court granted OVEC's motion and directed the Clerk to file OVEC's Seventh Amended and Supplemental Complaint. Mingo Logan filed its Motion for Summary Judgment on August 31, 2012, along with its Answer to the Seventh Amended and Supplemental Complaint and the matter remains pending before the court.

EPA Actions Related to Water Discharges from the Spruce Permit

By letter of September 3, 2009, the EPA asked the Corps of Engineers to suspend, revoke or modify the existing permit it issued in January 2007 to Mingo Logan under Section 404 of the Clean Water Act, claiming that "new information and circumstances have arisen which justify reconsideration of the permit." By letter of September 30, 2009, the Corps of Engineers advised the EPA that it would not reconsider its decision to issue the permit. By letter of

October 16, 2009, the EPA advised the Corps that it has “reason to believe” that the Mingo Logan mine will have “unacceptable adverse impacts to fish and wildlife resources” and that it intends to issue a public notice of a proposed determination to restrict or prohibit discharges of fill material that already are approved by the Corps’ permit. By federal register publication dated April 2, 2010, the EPA issued its “Proposed Determination to Prohibit, Restrict or Deny the Specification, or the Use for Specification of an Area as a Disposal Site: Spruce No. 1 Surface Mine, Logan County, WV” pursuant to Section 404(c) of the Clean Water Act, the EPA accepted written comments on its proposed action (sometimes known as a “veto proceeding”), through June 4, 2010 and conducted a public hearing, as well, on May 18, 2010. We submitted comments on the action during this period. On September 24, 2010, the EPA Region 3 issued a “Recommended Determination” to the EPA Administrator recommending that the EPA prohibit the placement of fill material in two of the three watersheds for which filling is approved under the current Section 404 permit. Mingo Logan, along with the Corps, West Virginia DEP and the mineral owner, engaged in a consultation with the EPA as required by the regulations, to discuss “corrective action” to address the “unacceptable adverse effects” identified. On January 13, 2011, the EPA issued its “Final Determination” pursuant to Section 404(c) of the Clean Water Act to withdraw the specification of two of the three watersheds approved in the current Section 404 permit as a disposal site for dredged or fill

Table of Contents

material. By separate action, Mingo Logan sued the EPA on April 2, 2010 in federal court in Washington, D.C. seeking a ruling that the EPA has no authority under the Clean Water Act to veto a previously issued permit (Mingo Logan Coal Company, Inc. v. USEPA, No. 1:10-cv-00541(D.D.C.)). The EPA moved to dismiss that action, and we responded to that motion.

Pursuant to a scheduling order for summary disposition of the case, motions and cross-motions for summary judgment by both parties were filed. On November 30, 2011, the court heard arguments from the parties limited only to the threshold issue of whether the EPA had the authority under Section 404(c) of the Clean Water Act to withdraw the specification of the disposal site after the Corps had already issued a permit under Section 404(a). The court deferred consideration of the remaining issue (i.e. whether the EPA's "Final Determination" is otherwise lawful) until after consideration of the threshold issue. On March 23, 2012, the court entered an Order and a Memorandum Opinion granting Mingo Logan's motion for summary judgment, denying the EPA's cross-motion for summary judgment, vacating the Final Determination and ordering that Mingo Logan's Section 404 permit remains valid and in full force.

On May 11, 2012, the EPA filed a notice of appeal to the United States Court of Appeals for the District of Columbia Circuit. The court heard oral arguments on March 14, 2013. By opinion of the court filed on April 23, 2013, the court reversed the district court on the threshold issue and remanded the matter to the district court to address the merits of our APA challenge to the Final Determination. On June 6, 2013, Mingo Logan filed a Petition for Rehearing En Banc and by Order filed July 25, 2013, the court denied the petition.

On November 13, 2013, Mingo Logan filed a Petition for Writ of Certiorari with the Supreme Court of the United States seeking review of the D.C. Circuit's decision. On March 24, 2014, the Supreme Court denied Mingo Logan's Petition for Writ of Certiorari and remanded the matter to the federal district court for the District of Columbia for further consideration on the merits of the Final Determination. On September 30, 2014, the court entered an opinion and order denying Mingo Logan's motion for summary judgment and granting the government's motion for summary judgment. The court upheld the Final Determination finding that EPA's decision to withdraw the specifications for filling in Oldhouse Branch and Pigeonroost Branch under Mingo Logan's Section 404 permit was not arbitrary and capricious. On November 11, 2014, Mingo Logan filed a notice of appeal to the United States Court of Appeals for the District of Columbia Circuit. The court heard oral arguments on April 11, 2016. By opinion of the court filed on July 19, 2016, the court affirmed the district court judgment thus upholding the EPA's Final Determination.

UMWA 1974 Pension Plan et al. v Peabody Energy and Arch

On July 16, 2015, the UMWA 1974 Pension Trust ("1974 Plan") and its Trustees filed a Complaint for Declaratory Judgment against Peabody Energy Corporation, Peabody Holding Company, LLC and Arch, in the U.S. District Court in Washington D.C., seeking an order from the court requiring the defendants to submit to arbitration to determine their responsibility for pension withdrawal liability (triggered by Patriot Coal Corporation's ("Patriot") bankruptcy filing) for 1974 Plan participants of Patriot who formerly worked for Peabody and Arch subsidiaries. In the alternative, the complaint asks the court to declare that Peabody and Arch are liable for Patriot's withdrawal liability. With respect to Arch, plaintiffs allege that Arch engaged in actions to avoid and evade pension fund withdrawal liability when it sold subsidiaries that were signatory to UMWA agreements, to Magnum Coal Company ("Magnum") in 2005, allegedly in violation of ERISA law. Patriot subsequently purchased Magnum in 2008. On October 29, 2015, plaintiffs filed an amended complaint to reflect that Patriot formally rejected its obligations to contribute to the 1974 Plan, triggering a withdrawal. The amended complaint further alleged that Arch owes \$299.8 million in withdrawal liability. On October 29, 2015, the 1974 Plan issued a letter to Arch demanding payment of this withdrawal liability amount. Arch notified the District Court and the parties to the litigation of its bankruptcy filing and the automatic stay and, on January 21, 2016, the plaintiffs agreed that the automatic stay in the Chapter 11 Case applies to Arch and its affiliates that have filed bankruptcy petitions. Thereafter, on May 26, 2016, the 1974 Plan filed a proof of claim asserting a \$299.0 million claim against Arch and its debtor subsidiaries. On September 9, 2016, Arch and the 1974 Plan entered

into a confidential agreement in principle to settle the withdrawal liability dispute, which agreement became effective on November 3, 2016.

Filing Under Chapter 11 of the United States Bankruptcy Code

On January 11, 2016 (the “Petition Date”), Arch and substantially all of its wholly owned domestic subsidiaries (the “Filing Subsidiaries” and, together with Arch, the “Debtors”) filed voluntary petitions for reorganization (collectively, the “Bankruptcy Petitions”) under Chapter 11 of Title 11 of the U.S. Code (the “Bankruptcy Code”) in the United States Bankruptcy Court for the Eastern District of Missouri (the “Court”). The Debtors’ Chapter 11 Cases (collectively, the “Chapter 11 Cases”) were jointly administered under the caption In re Arch Coal, Inc., et al. Case No. 16-40120 (lead case). During the Chapter 11 Cases, each Debtor continues to operate its business as a “debtor in possession” under the jurisdiction of the Court and in accordance

Table of Contents

with the applicable provisions of the Bankruptcy Code and the orders of the Court. See Note 1, “Basis of Presentation” to the condensed consolidated financial statements for further discussion of these proceedings.

Pursuant to Section 362 of the Bankruptcy Code, the filing of the Bankruptcy Petitions automatically stayed most actions against the Debtors, including actions to collect indebtedness incurred prior to the Petition Date or to exercise control over the Debtors’ property. Subject to certain exceptions under the Bankruptcy Code, the filing of the Debtors’ Chapter 11 Cases also automatically stayed the continuation of most legal proceedings or the filing of other actions against or on behalf of the Debtors or their property to recover on, collect or secure a claim arising prior to the Petition Date or to exercise control over property of the Debtors’ bankruptcy estates, unless and until the Court modifies or lifts the automatic stay as to any such claim. Notwithstanding the general application of the automatic stay described above, governmental authorities may determine to continue actions brought under their police and regulatory powers.

The Debtors emerged from bankruptcy on October 5, 2016 and, as a result, the automatic stay described above no longer applies, and all actions are permanently enjoined and precluded from proceeding to the extent they seek monetary compensation or claim breach of an obligation that gives rise to a right to payment, except to the extent that the claimant seeks payment solely from the proceeds of insurance coverage, and with respect to certain actions by governmental entities, in each case, as set forth in the Plan. For further information, see Note 19, “Subsequent Events” to this Form 10-Q.

Item 1A. Risk Factors.

See Risk Factors in Item 1A of Part I of the Company’s Annual Report on Form 10-K for the year ended December 31, 2015 for a complete review of important risk factors.

Risks Related to Emergence from Bankruptcy Protection

Information contained in our historical financial statements will not be comparable to the information contained in our financial statements after the application of fresh start accounting.

Following the consummation of the Plan, our financial condition and results of operations from and after the Effective Date will not be comparable to the financial condition or results of operations in our historical financial statements. As a result of our restructuring under Chapter 11 of the Bankruptcy Code, our financial statements will be subject to fresh start accounting provisions of generally accepted accounting principles (“GAAP”). In the application of fresh start accounting, we will allocate our reorganization value to the fair value of assets and liabilities in conformity with the guidance for the acquisition method of accounting for business combinations. Adjustments to the carrying amounts could be material and could affect prospective results of operations as balance sheet items are settled, depreciated, amortized or impaired. This will make it difficult for stockholders to assess our performance in relation to prior periods. Our Annual Report on Form 10-K for the fiscal year ending December 31, 2016 will reflect the consummation of the Plan and the adoption of fresh start accounting.

Our emergence from bankruptcy will reduce or eliminate our net operating losses and other tax attributes and limit our ability to offset future taxable income with tax losses and credits incurred prior to its emergence from bankruptcy.

The use of our net operating losses (“NOLs”) and alternative minimum tax (“AMT”) credits has been limited by the “ownership change” under Section 382 of the Internal Revenue Code (the “Code”) that occurred on the Effective Date of the Plan (“the Emergence Ownership Change”). The limitation resulting from the Initial Ownership Change is substantial and applies to all NOLs and tax AMT credits existing at the time of the Initial Ownership Change. The limitation resulting from the Emergence Ownership Change has not yet been determined but will have a significant impact on our ability to offset future taxable income with carryforward net operating losses, AMT tax credits and an

overall limitation of certain tax deductions. NOLs and AMT credits generated after the Emergence Ownership Change are generally not subject to the limitations from the prior ownership changes. As a result of the discharge of debt in the Chapter 11 Cases, we and our subsidiaries will be required to reduce the amount of their NOLs and AMT credits and potentially other tax attributes existing at the end of our taxable year.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

In September 2006, our board of directors authorized a share repurchase program for the purchase of up to 1,400,000 shares of our common stock. As of September 30, 2016, there were 1,092,580 shares of our common stock available for purchase under this program. We were prohibited from purchasing shares under this program during the pendency of our Chapter 11 Cases. Upon emergence from Chapter 11, all shares of Arch Coal's existing common stock were canceled and the share repurchase program was terminated.

Item 4. Mine Safety Disclosures.

The statement concerning mine safety violations or other regulatory matters required by Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of Regulation S-K is included in Exhibit 95 to this Quarterly Report on Form 10-Q for the period ended September 30, 2016.

Item 5. Other Information.

The Company's 2017 annual meeting of stockholders will be held on May 4, 2017. In accordance with Rule 14a-8 under the Exchange Act, we will consider stockholder proposals submitted in connection with our 2017 Annual Meeting to have been submitted in a timely fashion if such proposals are received by us at our principal offices by December 9, 2016. Proposals should be addressed to Robert G. Jones, Senior Vice President--Law, General Counsel and Secretary, Arch Coal, Inc., One CityPlace Drive, Suite 300, St. Louis, MO 63141 or [bjones@archcoal.com]. Under applicable SEC rules, we are not required to include stockholder proposals in our proxy materials unless certain other conditions specified in such rules are also met.

Item 6. Exhibits.

- 2.1 Debtors' Fourth Amended Joint Plan of Reorganization Under Chapter 11 of the Bankruptcy Code (incorporated by reference to Exhibit 2.1 of Arch Coal's Current Report on Form 8-K filed on September 15, 2016).
- 2.2 Order Confirming Debtors' Fourth Amended Joint Plan of Reorganization Under Chapter 11 of the Bankruptcy Code on September 13, 2016 (incorporated by reference to Exhibit 2.2 of Arch Coal's Current Report on Form 8-K filed on September 15, 2016).
- 10.1 Amended and Restated Restructuring Support Agreement, dated as of July 5, 2016 (incorporated by reference to Exhibit 10.1 of Arch Coal's Current Report on Form 8-K filed on July 5, 2016).
- 10.2 Amendment No. 6, dated as of July 20, 2016, to that certain Superpriority Secured Debtor-in-Possession Credit Agreement dated as of January 21, 2016.
- 10.3 Amendment No. 7, dated as of September 28, 2016, to the Superpriority Secured Debtor-in-Possession Credit Agreement dated as of January 21, 2016.
- 10.4 Arch Coal, Inc. 2016 Omnibus Incentive Plan (incorporated by reference to Exhibit 99.1 to the Registration Statement on Form S-8 filed on November 1, 2016).
- 12.1 Computation of ratio of earnings to combined fixed charges and preference dividends.
- 31.1 Rule 13a-14(a)/15d-14(a) Certification of John W. Eaves.
- 31.2 Rule 13a-14(a)/15d-14(a) Certification of John T. Drexler.
- 32.1 Section 1350 Certification of John W. Eaves.
- 32.2 Section 1350 Certification of John T. Drexler.
- 95.0 Mine Safety Disclosure Exhibit.
- 101.0 Interactive Data File (Form 10-Q for the three and nine months ended September 30, 2016 filed in XBRL). The financial information contained in the XBRL-related documents is "unaudited" and "unreviewed."
