Notes to the Unaudited Condensed Interim Consolidated Financial Statements
(All amounts in millions of Argentine Pesos, except otherwise indicated)

1.
The Group's business and general information

IRSA was founded in 1943, and is engaged in a diversified range of real estate activities in Argentina since 1991.

IRSA and its subsidiaries are collectively referred to hereinafter as "the Group".

Cresud is our parent company and IFIS Limited our ultimate parent company.

These Financial Statements have been approved for issue by the Board of Directors on November 11, 2016.

The Group has established two Operations Centers to manage its global business, mainly through the following companies:

- (i)
Remains in current and non-current assets, as financial asset held for sale.
- (ii)
Corresponds to Group's associates, which are hence excluded from consolidation. Adama is included in assets held for sale (see Note 30).

1.

The Group's business and general information (Continued)

IDBD has diverse debts containing certain covenants which have been successively negotiated, resulting in several waivers actually in force. IDBD estimates that if the original covenants of such loans were to become effective again, it would not be able to honor them. Non-compliance could have the effect of creditors requiring immediate repayment of the debt. Yet, there are restrictions as to the payment of dividends based on the indebtedness level in some subsidiaries. IDBD has projected future cash flows and expects to have the required liquidity to meet its commitments by issuing new debt in Israel, selling financial assets such as Clal and from dividend payouts by Clal. IDBD could also secure additional financing through the private issuance of equity securities.

On December, 2013, it was published in the Official Gazette of Israel the Promotion of Competition and Reduction of Concentration Law, 5,774-13 ('the Concentration Law') which has material implications for IDBD and its investments, including the disposal of the controlling interest in Clal, a potential delisting of IDBD or DIC so as to no longer trade its shares publicly, or a merger between IDBD and DIC.

All factors mentioned above, mainly (i) IDBD's current financial position and need of financing to honor its financial debt and other commitments, (ii) the renegotiation underway with financial creditors, and (iii) the term set by Israel's governmental authorities to sell the equity interest in Clal and the potential effects of such sale, in particular, on its market value, raise significant uncertainties as to IDBD's capacity to continue as a going-concern. These financial statements do not include the adjustments or reclassifications related to the valuation of IDBD's assets and liabilities that would be required if IDBD were not able to continue as a going-concern.

The Group is and will continue working to address the uncertainties described above.

The financial position of IDBD and its subsidiaries at the operations center in Israel does not affect the financial position of IRSA and its subsidiaries at the operations center in Argentina.

IRSA and its subsidiaries are not facing financial constraints and are compliant with their financial commitments. In addition, the commitments and other covenants resulting from IDBD's debt do not have impact on IRSA since such debt has no recourse against IRSA and it is not granted by IRSA's assets.

There are no significant uncertainties as to the capacity of the Group, as a whole, to operate as a going-concern perspective, with such uncertainties being limited to the operation center in Israel.

2.

Summary of significant accounting policies

2.1.

Basis of preparation of the Financial Statements

These Financial Statements have been prepared in accordance with IAS 34 "Interim Financial Reporting", therefore, should be read together with the Annual Financial Statements of the Group as of June 30, 2016 prepared in accordance with IFRS in force. Furthermore, these Financial Statements include supplementary information required by Law N° 19,550 and/or regulations of the CNV. Such information is included in notes to these Financial Statements according to IFRS.

These Financial Statements corresponding to the three-month periods ended September 30, 2016 and 2015 have not been audited. The management believes they include all necessary adjustments to fairly present the results of each period. The Company's three-month periods ended September 30, 2016 and 2015 results do not necessarily reflect the proportion of the Group's full-year results.

IDBD's fiscal year ends on December 31 each year and the Company's fiscal year ends on June 30. IDBD's quarterly and annual reporting follows the guidelines of Israeli standards, which means that the information is only available after the applicable statutory terms in Argentina.

Therefore, the Company is not able to include IDBD's quarterly results in its financial statements to be filed with the CNV within the applicable statutory terms in Argentina. The Company consolidates IDBD's results of operations with a three-month lag, adjusted for the effects of material transactions that may have taken place during the reported period.

Under IAS 29 "Financial Reporting in Hyperinflationary Economies", the financial statements of an entity whose functional currency belongs to a hyperinflationary economy, regardless of whether they apply historic cost or current cost methods, should be stated at the current unit of measure as of the date of these Unaudited Condensed Interim Consolidated Financial Statements. For such purpose, in general, inflation is to be computed in non-monetary items from the acquisition or revaluation date, as applicable. For such purpose, in general, inflation is to be computed in non-monetary items from the acquisition or revaluation date, as applicable. In order to determine whether an economy is to be considered hyperinflationary, the standard lists a set of factors to be taken into account, including an accumulated inflation rate near or above 100% over a three year period.

As of September 30, 2016, it is not possible to compute the accumulated inflation rate for the three year period ending on that date based on the official statistics of the INDEC (Argentina Statistics Office), because in October 2015, the INDEC ceased to compute the Wholesale Domestic Price Index, and started to compute it again as from January 2016.

As of the date of these Unaudited Condensed Interim Consolidated Financial Statements, the Argentine peso does not meet the conditions to be treated as the currency of a hyperinflationary economy, pursuant to the guidelines set forth by IAS 29. Therefore, these financial statements have not been restated in constant currency.

2.

Summary of significant accounting policies (Continued)

However, over the last years, certain macroeconomic variables affecting the Group's business, such as payroll costs, input prices and service rates, have experienced significant annual changes. This factor should be taken into consideration in assessing and interpreting the financial situation and results of operations of the Group in these financial statements.

2.2.

Significant accounting policies

The accounting policies applied in the presentation of these Financial Statements are consistent with those applied in the preparation of the Annual Financial Statements under IFRS as described in Note 2 to the Annual Financial Statements as of June 30, 2016.

2.3.

Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these Financial Statements, the significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the Annual Financial Statements for the year ended June 30, 2016 as described in Note 5 to the annual financial statements.

2.4.

Comparability of information

Balance items as of June 30, 2016 and September 30, 2015 shown in these financial statements for comparative purposes arise from Financial Statements then ended.

As required by IFRS 3, the information of IDBD is included in the financial statements of the Group as from takeover was secured, that is from October 11, 2015, and the prior periods are not modified by this situation. Therefore, the financial information consolidated as of September 30, 2015 is not comparative.

Seasonal effects on operations

Operations Center in Argentina

The operations of the shopping centers are subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time in Argentina (January and February), the lessees of shopping centers experience the lowest sales levels in comparison with the winter holidays (July) and Christmas and year-end holidays celebrated in December, when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping mall sales. Sale discounts at the end of each season also affect the business. As a consequence, for shopping center operations, a higher level of business activity is expected in the period ranging between July and December, compared to the period between January and June.

Operations Center in Israel

The operations of the Shufersal supermarket chain are subject to fluctuations of quarterly sales and income due to the increase in activity during religious holidays in different quarters throughout the year. For instance, in Pesaj (Passover) between March and April, and the Jewish New Year, sometime between September and October each year.

The results of operations of Cellcom are also usually affected by seasonality in summer months in Israel and by the Jewish New Year, given a higher consumption due to internal and external tourism.

4.

Acquisition and dispositions

Below are detailed the significant acquisitions and disposals for the three-month period ended September 30, 2016. The significant acquisitions and disposals for the fiscal year ended June 30, 2016, are detailed in Note 3 to the annual financial statements at that date.

A.

Acquisition of equity interest in EHSA

On July 6, 2016, the Group through IRSA CP acquired from FEG Entretenimientos S.A. a 20% of EHSA shares, a company where it already owned 50%. It also acquired a 1.25% interest in ENUSA from Marcelo Fígoli. The acquisition has been priced at Ps. 52 million, Ps. 35.4 million of which have been paid on September 30, while the remaining balance of Ps. 16.6 million was paid in October. As a result, the Group now holds 70% of the voting stock of EHSA and Mr. Diego Finkelstein holds the remaining 30%. As of the date of these unaudited financial statements, the Group is analyzing the allocation of the price paid for the acquisition of these interests.

In addition, EHSA holds, both directly and indirectly, 100% of the shares of OASA and 95% of the shares of ENUSA. Furthermore, OASA holds 50% of the voting stock of LRSA, a company that holds the rights to commercially operate the emblematic "Predio Ferial de Palermo" in the Autonomous City of Buenos Aires, where the SRA holds the remaining 50%.

Acquisition and dispositions (Continued)

B.

Share-holding increase in Shufersal

On September 12, 2016, the Group through DIC, acquired 9,097,127 of Shufersal's shares, so that the company's equity interest in Shufersal's share capital increased from approximately 53.89% to around 58.17%. In addition, it was granted an option ("the option") to acquire up to 9,097,127 additional shares of Shufersal at an exercise price of NIS 14.62 (equal to Ps. 223.4) per share of Shufersal (subject to adjustments). The option may be exercisable until December 12, 2016.

C.

Acquisition of DIC shares from IDBD

On September 23, 2016 Tyrus acquired from IDBD 8,888,888 of DIC's shares for a total amount of NIS 100 million (equivalent to Ps. 401 million), which represent 8.8% of the Company's outstanding shares. As a result of this transaction, the equity interest of the Group in DIC has increased by 3.28% without actual cash movements in the financial statements.

D.

Partial sale of equity interest in PBC

DIC sold 12% of its equity interest in PBC for a total amount of NIS 217 million (equivalent to Ps. 810 million); as a result, the DIC's interest in PBC has declined to around 64.4%.

5.

Financial risk management and fair value estimates

5.1.

Financial risk

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency risk, interest rate risk, indexing risk due to specific clauses and other price risk), credit risk, liquidity risk and capital risk. Within the Group, risk management functions are conducted in relation to financial risks associated to financial instruments to which the Group is exposed during a certain period or as of a specific date.

Given the diversity of characteristics corresponding to the business conducted in its operations centers, the Group has decentralized the risk management policies geographically based on its two operations centers in order to identify and properly analyze the various types of risks to which each of the subsidiaries is exposed.

These Financial Statements do not include all the information and disclosures on financial risk management; therefore they should be read along with Note 4 to the Annual Financial Statements as of June 30, 2016. There have been no changes in the risk management or risk management policies applied by the Group since year-end.

5.

Financial risk management and fair value estimates (Continued)

5.2.

Fair value estimates

Since June 30, 2016 there have been no significant changes in business or economic circumstances affecting the fair value of the Group's assets or liabilities (either measured at fair value or amortized cost). Furthermore, there have been no transfers between the different hierarchies used to assess the fair value of the Group's financial instruments.

6.

Segment information

There have been no changes to the Group's structure either in the business segments or in the financial reporting criteria of such segments in the annual consolidated financial statements. As explained in note 6 to the annual financial statements, comparative segment information has not been modified due to the consolidation of IDDB because as of that date the Group did not exercise control over it and it was reported at fair value. As of September 30, 2015, IDDB's equity interest and changes in its fair value are presented under the International segment of the Operations Center in Argentina.

Below is a summarized analysis of the lines of business of the Group for the three-month periods ended September 30, 2016 and 2015:

Restrictions, commitments and other relevant issues

Cellcom

As mentioned in Note 7 to the annual financial statements as of June 30, 2016, Cellcom is in dispute with Golán Telecom. As of the date of these unaudited condensed interim financial statements there still has not been any resolution to this matter.

Analysis of the impact of the Concentration Law

As mentioned in Note 7 to the annual financial statements as of June 30, 2016, IDBD is analyzing the implications of the Concentration Law. As of the date of these unaudited condensed interim financial statements, IDBD continues on this analysis process.

Dolphin arbitration process

As mentioned in Note 3 to the annual financial statements there is an arbitration process going on between Dolphin and ETH in relation to certain issues connected to the acquisition and control obtainment of IDBD. On September 24, 2015, the competent arbitrator resolved that: (i) Dolphin and IFISA were entitled to act as buyers in the BMBY process, and ETH had to sell all of the IDBD shares held by it at a price of NIS 1.64 per share; (ii) The buyer had to fulfill all of the commitments included in the seller's Arrangement, including the commitment to carry out Tender Offers; (iii) The buyer had to agree to pledge IDBD's shares. However, Dolphin and ETH still have several claims that are subject to an arbitration proceeding, which as of the date of these condensed financial statements have yet to be decided upon. There is no certainty as to the final outcome of this proceeding. Should the arbitrator render a decision favorable to ETH, the value of our investment in IDBD may be impaired and would, therefore, have an adverse effect on our business, financial situation and results of operations. As of the date of these financial statements, the proceeding is pending.

Adama

On July 17, 2016 DIC informed the market that it has accepted the offer by ChemChina who intends to acquire 40% of Adama's shares currently held by Koor, indirectly controlled by IDBD through DIC. On August 2016, Koor and a subsidiary of ChemChina executed the corresponding agreement. The price of the transaction includes a payment in cash of US\$ 230 million (equivalent to Ps. 3,498 at the exchange rate as of September 30, 2016) plus the total repayment of the non-recourse loan and its interests, which had been granted to Koor by a Chinese bank. This sale transaction is expected to be finalized during November of this year, subject to compliance with certain conditions, including obtaining approvals by the Chinese regulatory and antitrust authorities. Investment in ADAMA as well as the non-recourse loan have been reclassified as held for sale and the associated income has been reclassified under discontinued operations (see Notes 30 and 31).

Clal

As mentioned in Note 16 to the annual financial statements, IDBD is subject to a judicial process on the sale of its equity interest in Clal. As of the balance sheet date, there was no further information on the subject. It should be noted that on September 30, 2016 the Group was obliged to sell the 10% interest in Clal. Clal filed an appeal with the Israel Concentration Committee asking that the significant company status be reviewed and Dolphin also filed an appeal with the Supreme Court of Israel. The Group cannot estimate the outcome of such appeals.

(iii)

The Group's companies are required to recognize certain costs related to dismantling assets and remediating sites here such assets are located. The calculation of expenses are based on the dismantling value for the current year, taking into

consideration the best estimate of future changes in prices, inflation, etc. and such costs are capitalized at a risk-free interest rate. Volume projections for retired or built assets are restated based on expected changes from technological rulings and requirements.

(iv)

Provisions for other contractual liabilities include a series of liabilities resulting from a contractual liability or laws, regarding which there is a high degree of certainty as to the terms and the necessary amounts to discharge such liability.

IRSA

As mentioned in Note 20 to the annual financial statements, on February 23, 2016, a class action was filed against the Company, Cresud and some first-line managers and directors with the District Court of the United States for the Central District of California. The complaint, on behalf of people holding American Depositary Receipts of the Company between November 3, 2014 and December 30, 2015, claims presumed violations to the US federal securities laws. In addition, it argues that defendants have made material misrepresentations and made some omissions related to the Company's investment in IDBD.

Provisions (Continued)

Such complaint was voluntarily waived on May 4, 2016 by the plaintiff and filed again on May 9, 2016 with the US District Court by the East District of Pennsylvania.

Furthermore, the Company, some of its first-line managers and directors are defendants in a class action filed on April 29, 2016 with the US District Court of the East District of Pennsylvania. The complaint, on behalf of people holding American Depositary Receipts of the Company between May 13, 2015 and December 30, 2015, claims violations to the US federal securities laws. In addition, it argues that defendants have made material misrepresentations and made some omissions related to the investment of the Company's subsidiary, IRSA, in IDBD.

Subsequently, Cresud and IRSA requested that the complaint be moved to the district of New York, which request was granted.

The Company holds that such allegations are meritless and intends to make a strong defense in both actions.

Operations center in Argentina

On September 1, 2016, NCN Class VII and VIII were tendered under the Program approved by the Shareholders' Meeting for up to US\$ 300 million. The settlement took place on September 8, 2016. The results are shown below:

NCN Class VII for a total amount of Ps. 384.2 million to be matured 36 months after the issuing date, which will accrue interest at an annual floating interest rate, Badlar plus 299 basis points, interest payable on a quarterly basis. Principal will be amortized in only one installment due on September 9, 2019.

NCN Class VIII for a Nominal Value of US\$ 184.5 million (equivalent to Ps. 2,771 million) to be matured 36 months after the issuing date, paid in and payable in US Dollars, which will accrue interest at an annual fixed interest rate of 7.0%, interest payable on a quarterly basis. Principal will be amortized in only one installment due on September 9, 2019.

Operations Center in Israel

In July 2016, Shufersal repurchased NCN Series B for a Nominal Value of NIS 511 million (equivalent to Ps. 2,771 million) with an increase of the issue of NCN Series F by a ratio of 1.175 for each NIS 1 of the Series B. The NCN Series B acquired by Shufersal were cancelled and delisted. The swap transaction does not amount to an exchange of debt instruments because the terms are not substantially different. All expenses related to the bond swap have been deducted from outstanding balance of the debt and shall be amortized over the remaining term of the debt.

On August 2, 2016, IDBD has issued a new series of debentures in the Israeli market in an amount of NIS 325 million (equivalent to Ps. 1,213 million) due in 2019, at a rate of IPC plus 4.25%. These debentures are secured by shares of Clal subject to the approval of the Israel Commission of Capital Markets, Savings and Insurance. On September 15, 2016, the Supreme Court rendered an opinion on the use of Clal's shares as collateral and has requested the Capital Markets, Savings and Insurance Commission to explain the reasons why it does not allow IDBD to secure debentures with up to 5% of Clal shares. The hearing was fixed for January 2017.

In accordance with the decision rendered by the Supreme Court on the petition filed by IDBD to pledge Clal's shares in September, 2016, on October 13, 2016, the Board of Directors of IDBD resolved a partial early redemption of the debentures, which was effected on November 1, 2016 as follows:

Borrowings (Continued)

i.

IDBD will carry out a partial early redemption of the debentures for an approximately amount of NIS 239 million (equivalent to Ps. 3,659 million at the prevailing exchange rate on September 30, 2016) at nominal value (“the redeemed portion”) and a total of approximately NIS 244 million (equivalent to Ps. 3,736 million at the exchange rate prevailing on September 30, 2016) with respect to principal, interest and compensation for early redemption.

ii.

The deadline for early redemption calls of the debentures principal was October 25, 2016.

iii.

The early redemption represents 73.7% of the outstanding principal balance of the debentures.

iv.

The interest rate payable on the partial early redemption for the redeemed portion stood was approximately 1.8%.

v.

The interest rate payable as part of the early redemption, computed on the outstanding principal balance as of the early redemption date (NIS 325 million adjustable pursuant to CPI, equivalent to Ps. 4,976 million at the prevailing exchange rate on September 30, 2016) is approximately 1.3%.

vi.

In accordance with the CPI corresponding to September (released on October 14, 2016), compared to the base index released in June 2016, there are no increases applicable to the redeemed portion in the early redemption.

vii.

The principal outstanding balance of debentures after the early redemption shall total NIS 86 million (equivalent to Ps. 1,317 million at the prevailing exchange rate on September 30, 2016) at nominal value, which amount makes up 26.3% of the original principal amount of the debentures at issuance. IDBD will try to pledge Clal’s shares to secure the remaining principal balance of such debentures after carrying out the early redemption.

viii.

In accordance with the provisions of the trust indenture, the redeemed portion will be paid pro rata the nominal value of the outstanding notes.

On August 4, 2016, DIC issued further debentures due 2025 in an amount of NIS 360 million (equivalent to Ps. 1,344 million). The bonds were placed at an internal rate of return of 5.70%.

IDBD has certain restrictions and financial covenants in connection with its financial liabilities, included its debentures, loans from banks and financial institutions. It was agreed between IDBD and the relevant financial entities that the parties would work to formulate an arrangement, to replace or amend the current financial covenants by March 2017. Such covenants are currently suspended until and including December 2016. If such arrangement is not reached, the previous financial covenants will re-apply with respect to the results for IDBD’s first quarter of 2017 and thereafter. In the event that these covenants will re-apply, IDBD estimates that it will not be able to meet the thresholds which were determined in the past with respect to the Liquidity Covenant and the Economic Equity Covenant.

Groups of assets and liabilities held for sale

IDB Tourism is currently negotiating the sale of its equity interests in Open Sky Ltd., but the terms and conditions of such sale have not yet been fully finalized. The assets and liabilities related to the Open Sky Ltd. transaction have been reclassified in the statement of financial position as of September 30, 2016 under the held for sale line.

In addition, the equity interest of the Group in Adama and the related non-recourse loan have been reported in the statement of financial position as of September 30, 2016 under the held for sale line, due to the sale intent of such associate company, as indicated in Note 9 to these unaudited financial statements.

Pursuant to IFRS 5, the assets and liabilities held for sale have been valued at the lower of their book value or fair value less selling cost. Since fair value is higher than book value of the group of assets held for sale, no impairment has been recorded.

The following table shows the main assets and liabilities classified as held for sale:

Group of assets held for sale:

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders, President and Directors of
IRSA Inversiones y Representaciones Sociedad Anónima
Legal address: Bolivar 108 – 1° floor
Autonomous City Buenos Aires
Tax Code No. 30-52532274-9

Introduction

We have reviewed the unaudited condensed interim consolidated financial statements of IRSA Inversiones y Representaciones Sociedad Anónima and its subsidiaries (hereinafter “the Company”) which included the unaudited condensed interim consolidated statement of financial position as of September 30, 2016, and the unaudited condensed interim consolidated statements of income and comprehensive income for the three-month period ended September 30, 2016, the unaudited condensed interim consolidated statement of changes in shareholders’ equity and the unaudited condensed interim consolidated statement of cash flows for the three-month period ended September 30, 2016 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2016 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim consolidated financial statements in accordance with the International Financial Reporting Standards (IFRS), adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations, as approved by the International Accounting Standard Board (IASB) and , for this reason, is responsible for the preparation and presentation of the unaudited condensed interim consolidated financial statements above mentioned in the introductory paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34).

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE, without modification as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim consolidated financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated statement of financial position, the consolidated statement of income, the consolidated statement of comprehensive income and consolidated statement of cash flows of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim consolidated financial statements above mentioned in the introductory paragraph of this report have not been prepared in all material respects in accordance with International Accounting Standard 34.

Emphasis paragraph

Without modifying our conclusion, we want to refer to the information included in Note 1 of these unaudited condensed interim consolidated financial statements.

Basis of preparation

The Unaudited Condensed Interim Separate Financial Statements have been prepared in accordance with International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB).

On April 1, 2016, the Argentine Federation of Professional Councils in Economic Sciences ("FACPCE", as per its Spanish acronym) approved Technical Resolution N° 43, which amends Technical Resolution N° 26, for fiscal years starting on January 1, 2016. Such Technical Resolution N° 43 provides that entities that file financial statements in accordance with the IFRSs, are expected to do it integrally and without modifications and that investments in subsidiaries, joint ventures and associates are to be accounted for under the equity method in the separate financial statements, as established by IFRS, pursuant to the amendment established by the IASB to IAS 27 in August 2014. Thus, valuation at cost or fair value (which are additional measurements) is not permitted for these types of investments. Before such amendment, Technical Resolution N° 26 did not require an integral adoption of IFRS in separate financial statements, since the equity method was not a valuation option for such investments.

2.

Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements (Continued)

The Company has adopted Technical Resolution N° 43 for this fiscal year ending on June 30, 2017. As a result, these unaudited condensed interim separate financial statements are the first to be prepared in accordance with the IFRS; its transition date is July 1, 2015 and, therefore, the provisions of IRFS 1 “First-Time Adoption of International Financial Reporting Standards” should be applied as of that date.

IFRS 1 mandatorily establishes that an entity must apply the requirements of IFRS 10 “Consolidated Financial Statements” for accounting of changes in a parent’s ownership interest in a subsidiary that do not result in a loss of control prospectively. Under IFRS, the Company accounts for acquisitions and disposals of non-controlling interests that do not result in change of control as business combinations. The Company did not restate these acquisitions or disposals prior to transition date.

Furthermore, IFRS 1 also provides that, where a first time IFRS adopter entity decides to account for investments in subsidiaries under the equity method in accordance with IAS 28, the entity should apply the exemption for business combinations conducted before the transition date. This exemption involves applying IFRS 3 “Business Combinations” on a prospective basis to business combinations conducted after the transition date. Business combinations occurring prior to the transition date have not been restated.

The other compulsory and optional exceptions of IFRS 1 have not been applied, as these are not relevant to the Company.

Below there is a comparison between shareholders’ equity computed under the previous standards and in accordance with IFRS 1 as of July 1, 2015.

	07.01.15
Shareholders’ equity under Technical Resolution N° 26	2,474
Acquisition of non-controlling interest	6
Retained earnings recognition	(6)
Total shareholders’ equity under IFRS	2,474

Balance items as of June 30, 2016 and September 30, 2015 shown in these financial statements for comparative purposes have been modified in order to present the mentioned adjustments. The notes below include a reconciliation of shareholders’ equity of the Unaudited Condensed Interim Separate Financial Statements prepared in accordance with Technical Resolution N° 26 on the closing date of the comparative period and the statement of income and other comprehensive income for the three-month period ended September 30, 2015, and those presented in accordance with IFRS in these Unaudited Condensed Interim Separate Financial Statements, as well as the effects of the adjustments to cash flow.

Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements (Continued)

The Unaudited Condensed Interim Separate Financial Statements of the Company for the three-month period ended September 30, 2016 have been prepared in accordance with IAS 34 "Interim Financial Reporting".

2.2

Reconciliations of Technical Resolution N° 26 to IFRS

The notes below include a reconciliation of shareholders' equity prepared in accordance with Technical Resolution N° 26 and those presented in accordance with IFRS as of June 30, 2016 and September 30, 2015 and the reconciliations of net income and cash flows for the year ended June 30, 2016 and for the three-month period ended September 30, 2015. The reconciliations included below were prepared based on the IFRS standards that are estimated to be applicable for the Company for the financial statements as of and for the year ended June 30, 2017. The items and amounts in the reconciliations included below are subject to change and should only be deemed final when the annual financial statements prepared under IFRS for the first time are issued.

The items and amounts included in the reconciliations could be modified to the extent that, when preparing financial statements as of and for the year ended June 30, 2017, applicable standards are different.

The first reconciliation provides an overview of the impact on shareholders' equity for the period ended September 30, 2015 and June 30, 2016 (Note 2.2.1). The second reconciliation provides an overview of the impact on net income for the three-month period ended September 30, 2015 (Note 2.2.2). The mentioned reconciliations do not have impact on other comprehensive income nor the statements of cash flows.

2.2.3

Explanation of the transition to IFRS

Technical Resolution N° 26 – The Company accounts for investments in subsidiaries under the equity method including any adjustment in the consolidated financial statements, so that the equity and income corresponding to the majority interest resulting from consolidated financial statements filed together with separate financial statements are the same in both sets of financial statements.

IFRS - Investment in entities in which the Company exercises control, are accounted for under equity method. Under this method, the investment is recognized at its original cost and periodically increased (decreased) for the investor share in profits / (losses) and other comprehensive income of the subsidiary and decreased by dividends received from the subsidiary.

In accordance with IFRS 28, paragraph 27, the interest in the investee is computed based on the consolidated financial statements of such investee after any adjustment related to unification of accounting criteria, without regard to any interest that the investee may have in other entities. As a result, the company has recognized its direct interest related to investments in subsidiaries, associates and companies under joint control, based on the consolidated financial statements of such companies.

Below is an outline of the adjustments recorded as explained above in relation to transactions affecting the non-controlling interest reserve of its subsidiaries, associates and entities under joint control where the company holds a direct interest:

-

Acquisition of additional interests in controlled companies: the acquisition price in excess of the book value of the subsidiary is recorded as an increase in assets.

-

Sale of interest in controlling companies where control is not lost: the difference between the sale price charged for the shares and the book value is recorded in the statement of income.

The non-controlling interest reserve set up before July 1, 2015 has been reclassified under retained earnings.

2.3. Significant accounting policies

The accounting policies applied in the preparation of these Unaudited Condensed Interim Separate Financial Statements are consistent with those applied in the annual financial statements as of June 30, 2016, except for the changes generated by implementation of Technical Resolution N° 43, as described in Note 2.1.

2.4. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimates and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these Unaudited Condensed Interim Separate Financial Statements, the main significant judgments made by Management in applying the Company's accounting policies and the major sources of uncertainty were the same that the Company used in the preparation of the Separate Financial Statements for the fiscal year ended June 30, 2016.

2.5. Comparative Information

Balance items as of September 30, 2015 and June 30, 2016 shown in these Unaudited Condensed Interim Separate Financial Statements for comparative purposes arise from financial statements then ended. Certain reclassifications have been made in order to present figures comparatively with this period.

3.

Acquisitions and disposals

See description of acquisitions and disposals made by the Company and/or its subsidiaries for the three-month period ended September 30, 2016 in Note 4 to the Unaudited Condensed Interim Consolidated Financial Statements.

4. Financial risk management and fair value estimates

The Company's activities are exposed to a variety of financial risks: market risk (including foreign currency risk, interest rate risk and price risk), credit risk, liquidity risk and capital risk.

The Unaudited Condensed Interim Financial Statements do not include all the information and disclosures of the risk management, so they should be read together with the annual separate financial statements as of June 30, 2016. There have been no changes in the risk management or risk management policies applied by the Company since the end of the annual fiscal year, except for those financial risks incorporated by IDBD's business combination.

5. Information about principal subsidiaries, associates and joint ventures

The Company conducts its business through several operating and holding subsidiaries, associates and joint ventures. Its main subsidiaries include IRSA CP and Tyrus.

As indicated in Note 1 to the Unaudited Condensed Interim Consolidated Financial Statements, the Company has an indirect participation in IDBD through Tyrus. Factors namely (i) IDBD's current financial position and need for financing to honor its financial liabilities and other commitments, (ii) the renegotiation underway with financial creditors, and (iii) the term set by Israel's governmental authorities to sell the equity interest in Clal and the potential effects of such sale, in particular, on its market value, raise significant uncertainties as to IDBD's capacity to continue as a going-concern.

The main associates include BHSA and New Lipstick. The main joint ventures include Cyrsa, Puerto Retiro and Baicom.

CNV General Resolution N° 629/14 – Storage of documentation

On August 14, 2014, the CNV issued General Resolution N° 629 whereby it introduced amendments to rules related to storage and conservation of corporate books, accounting books and commercial documentation. In this sense, it should be noted that the Company has entrusted the storage of certain non-sensitive and old information to the following providers:

Storage of documentation responsible	Location
Iron Mountain Argentina S.A.	Av. Amancio Alcorta 2482, Autonomous City of Buenos Aires
	Pedro de Mendoza 2143, Autonomous City of Buenos Aires
	Saraza 6135, Autonomous City of Buenos Aires
	Azara 1245, Autonomous City of Buenos Aires
	Polígono industrial Spegazzini, Autopista Ezeiza Km 45, Cañuelas, Province of Buenos Aires
	Cañada de Gómez 3825, Autonomous City of Buenos Aires

It is further noted that a detailed list of all documentation held in custody by providers, as well as documentation required in section 5 a.3) of section I, Chapter V, Title II of the RULES (2013 as amended) are available at the registered office.

On February 5, 2014 there was a widely known fire in Iron Mountain's warehouse. Such company is a supplier of the Company and Company's documentation was being kept in the mentioned warehouse. Based on the internal review carried out by the Company, duly reported to the CNV on February 12, 2014, the information kept at the Iron Mountain premises that were on fire do not appear to be sensitive or capable of affecting normal operations.

29.

Negative working capital

As of September 30, 2016, the Company has recorded negative working capital of Ps. 68, which is permanently under consideration of the Board of Directors and Management.

30.

Accumulated losses

The Company's losses accumulated as of September 30, 2016 absorb more than 50% of the capital stock; as a result, the provisions of section 206 of Law N° 19,550 would apply to the Company.

The Board of Directors of the Company is currently analyzing alternatives to address this situation and present them to the Shareholders.

REVIEW REPORT ON THE UNAUDITED CONDENSED
INTERIM SEPARATE FINANCIAL STATEMENTS

To the Shareholders, President and Directors of
IRSA Inversiones y Representaciones Sociedad Anónima
Legal address: Bolivar 108 – 1° floor
Autonomous City Buenos Aires
Tax Code No. 30-52532274-9

Introduction

We have reviewed the unaudited condensed interim separate financial statements of IRSA Inversiones y Representaciones Sociedad Anónima (hereinafter “the Company”) which included the unaudited condensed interim separate statement of financial position as of September 30, 2016, and the unaudited condensed interim separate statements of income and comprehensive income for the three-month period ended September 30, 2016 the unaudited condensed interim separate statements of changes in shareholders’ equity and the unaudited condensed interim separate statements of cash flows for the three-month period ended September 30, 2016 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2016 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim separate financial statements in accordance with the International Financial Reporting Standards (IFRS) adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations, as approved by the International Accounting Standard Board (IASB) and, for this reason, is responsible for the preparation and presentation of the unaudited condensed interim separate financial statements above mentioned in the introductory paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34).

REVIEW REPORT ON THE UNAUDITED CONDENSED
INTERIM SEPARATE FINANCIAL STATEMENTS (Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE, without modification as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim separate financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the separate statement of financial position, the separate statement of income, the separate statement of comprehensive income and the separate statement of cash flows of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim separate financial statements above mentioned in the introductory paragraph of this report have not been prepared in all material respects in accordance with International Accounting Standard 34.

Emphasis paragraph

Without modifying our conclusion, we want to refer to the information included in Note 5 of these unaudited condensed interim separate financial statements.

III. Offices

The A+ office market in the City of Buenos Aires remains robust. Demand for Premium commercial spaces continues its upward trend, with sale prices in the whereabouts of USD 5,000 per square meter, 25% higher than at the closing of 2015, while rental prices increased slightly as compared to the previous year, averaging USD 30 per square meter for the A+ segment. The vacancy rate stood at 6%, significantly below the figures recorded at the closing of 2015.

As concerns the A+ office market in the Northern Area, we have noted a significant improvement in the price of units during the last 10 years, and we believe in its potential during the next decade. Rental prices have remained at USD 24.5 per square meter.

Revenues from the Offices segment increased by 34.7% in the three-month period of fiscal year 2017 due to higher rental prices in ARS/sqm, as lease agreements are denominated in U.S. dollars. In addition, the portfolio's occupancy reached 100%. The portfolio's rental prices in USD/sqm were slightly lower, at USD 25.5 per sqm due to the occupancy of 2 floors at the Suipacha building, whose rental prices are lower than the portfolio's average. The segment's EBITDA grew by 29.6% during the period under review, reaching ARS 70 million.

Alto Palermo Expansion

The expansion project of Alto Palermo will add a gross leaseable area of approximately 4,000 square meters to the shopping center that has the highest sales per square meter and consists in moving the food court to a third level by using the area of an adjacent building acquired in 2015. The demolition stage started during the first quarter of FY2017, and construction works are estimated to take between 18 and 24 months.

First Stage of Polo Dot

The project called “Polo Dot”, located in the commercial complex adjacent to our Dot Baires shopping center, has experienced significant growth since our first investments in the area. The total project will consist in 3 office buildings (one of them could include a hotel) in land reserves owned by the Company and the expansion of the shopping center by approximately 15,000 square meters of gross leaseable area. At a first stage, we will develop an 11-floor office building with an area of approximately 30,000 square meters on an existing building, in respect of which we have already executed a lease agreement for approximately half the footage, before starting the works. The demolition stage started in the first quarter of FY2017, and has reached 30% degree of progress, and construction works are estimated to last between 18 and 24 months before the building is operational. The second stage of the project will include two office/hotel buildings that will add 38,400 square meters of gross leaseable area to the complex. We have seen a significant demand for Premium office spaces in this new commercial hotspot, and we are confident that we will be able to open these buildings with attractive rent levels and full occupancy.

Catalinas Building

The “Catalinas” project is located in one of the most sought-after spots for Premium office development in Argentina. The building to be constructed will have 35,468 square meters of gross leaseable area in 30 office floors and 316 parking spaces. Construction is scheduled to begin towards the end of the current calendar year and will take about 3 years.

VI.

Hotels

During the three-month period of fiscal year 2017, the hotel segment recorded an increase in revenues of 55.9% mainly due to the depreciation of the exchange rate, which resulted in an increase in the average rate per room, offsetting the slight decline in average occupancy in the 3 hotels, which stood at 65.3% during the first quarter of 2017. The segment’s EBITDA reached ARS 8 million during the quarter under review.

Lipstick Building, New York, United States

The Lipstick Building is a landmark building in the City of New York, located at Third Avenue and 53th Street in Midtown Manhattan, New York. It was designed by architects John Burgee and Philip Johnson (Glass House and Seagram Building, among other renowned works) and it is named after its elliptical shape and red façade. Its gross leaseable area is approximately 57,500 sqm and consists of 34 floors.

As of September 30, 2016, the building reached an occupancy rate of 97.33%, thus generating an average rent of USD 67.04 per sqm.

Lipstick	Sep-16	Jun-16	YoY Var
Gross Leaseable Area (sqm)	58,092	58,094	-
Occupancy	97.33%	97.33%	0pp
Rental price (USD/sqm)	67.04	66.67	0.56%

In March 2016, two lease agreements were executed: one for the lease of the entire Floor 28 and another one for a portion of the underground floor, at an average rental price of USD 85 per square meter; which will be effectively occupied as from October 2016. This will cause occupancy to rise to over 97% of the total surface area.

Moreover, we successfully completed the building's certification process and obtained the LEED EB: O&M Gold certification. The implementation of this project started in July 2015, and it has concluded with a certification that endorses best environmental practices, transforming the building's operational standards.

Investment in Condor Hospitality Inc.

We maintain our 49% investment in the Condor Hospitality Trust hotel REIT's voting rights (NASDAQ: CDOR) through our subsidiary Real Estate Strategies L.P. ("RES"), in which we hold a 66.3% interest. Condor is a REIT listed in Nasdaq focused on medium-class and long-stay hotels located in various states of the United States of America, operated by various operators and franchises.

During the last months, the company's results have shown an improvement in operating levels and it has continued with its strategy of selectively disposing of lower-class hotels at very attractive prices and replacing them with higher-class hotels. The Company is studying different alternatives for developing its expansion plan.

The revenues and operating income from the Real Estate segment through the subsidiary Property & Building (“PBC”) reached ARS 1,049 million and ARS 355 million, respectively (USD 73 million and USD 25 million, respectively) during the consolidated quarter (March 31, 2016 to June 30, 2016). During this quarter, there was an increase in rental income and occupancy rates from PBC’s investment properties, mainly the HSBC building in the City of New York.

The Supermarkets segment, through Shufersal, recorded revenues of ARS 11,535 million (USD 795 million) for the quarter, mainly due to an increase in revenues from the retail segment, offset by a 6.8% decrease in revenues from the real estate segment. Same-store sales rose 14.2% during the quarter under review, compared to the same quarter of fiscal year 2015. Operating income from this segment reached ARS 449 million (USD 26 million).

The Telecommunications segment, operated by Cellcom, recorded revenues of ARS 3,901 million (USD 266 million). There was a decrease in revenues as compared to the same quarter of 2015 in both revenues from services and revenues from handsets. The reduction in revenues from services during the quarter under review mainly reflected lower revenues from cell telephone services due to the continued erosion of the price of these services as a result of stronger competition in the cell telephone market and lower revenues from international call services. The reduction in the revenues from handsets during the fourth quarter of 2015 was mainly due to the reduction in the number of cell phones sold during the quarter under review as compared to the same quarter of 2015, partially offset by an increase in revenues from handsets for Netvision’s final users. Operating income for the quarter under review was ARS 80 million (USD 4 million).

The Others segment recorded revenues for ARS 914 million (USD 72 million), and an operating loss of ARS 185 million (USD 7 million).

As concerns “Clal”, the Group values its interest in this insurance company as a financial asset at fair value. The valuation of Clal’s shares was ARS 4,792 million (USD 316 million) as of September 30, 2016.

Finally, the results from the agrochemical company “Adama” are recorded as a group of assets and liabilities held for sale. For the consolidated quarter, a profit of ARS 157 million (USD 11 million) was recorded in this regard.

July 2016: Agreement for the sale of equity interest in Adama

On July 17, 2016, DIC publicly announced it had accepted ChemChina's offer to purchase 40% of Adama's shares of stock held by Koor, a company indirectly controlled by IDBD through DIC. In August 2016, Koor and a subsidiary of ChemChina executed the related agreement. The consideration for the transaction is a cash payment of USD 230 million (equivalent to ARS 3,498 million at the exchange rate prevailing on September 30, 2016), plus the full repayment of a non-recourse loan, plus interest, a Chinese bank had granted to Koor. The sale transaction is expected to be completed by November 2016, subject to compliance with certain conditions, such as securing the applicable approvals from China's regulatory and antitrust authorities.

August 2016: Issue of Notes

On August 2, 2016, IDBD issued a new series of Notes in the Israeli market for an amount of NIS 325 million and due in 2019, at an annual interest rate to be adjusted by the CPI (inflation index), plus 4.25%. These Notes are secured by Clal's shares of stock, contingent upon the approval of the Israeli Capital Markets, Insurance and Savings Commission. On September 15, 2016, the Israeli Supreme Court rendered an opinion on the security on Clal's shares, in which it asked the Capital Markets, Insurance and Savings Commission to specify the reasons why it challenges IDBD's security of the notes with up to 5% of Clal's shares. The hearing has been scheduled for January 2017.

In compliance with the Supreme Court decision rendered in reply to the petition filed by IDBD in September 2016 in connection with the pledge of Clal's shares, on October 13, 2016, IDBD's Board of Directors decided to make a partial early repurchase of the notes, which was consummated on November 1, 2016. The repurchase was made for an amount of approximately NIS 244 as principal, interest and an early repurchase compensation, representing 73.7% of the principal amount of the notes, and the interest rate payable on the redeemed portion of principal in connection with the partial early repurchase was approximately 1.8%.

On August 4, 2016, DIC increased its series of Notes due 2025 by an additional amount of NIS 360 million (equivalent to ARS 1,344 million). The placement was made at an IRR of 5.70%.

September 2016: Purchase of DIC's shares

On September 23, 2016, IRSA, acting through a subsidiary, purchased 8,888,888 shares in Discount Investment Corporation ("DIC") (DISI: TASE) from IDB Development Corporation ("IDBD") for NIS 99,999,990 (approximately USD 26.7 million), representing 8.8% of DIC's share capital.

September 2016: Increase of interest in Shufersal

On September 12, 2016, the Group, acting through DIC, purchased 9,097,127 shares in Shufersal. Therefore, the company's equity interest in Shufersal's stock capital rose from approximately 53.89% to approximately 58.17%. It also received an option (the "option") to purchase up to 9,097,127 additional shares in Shufersal, at a strike price of NIS 14.62 (equivalent to ARS 223.4) for each Shufersal share (subject to adjustment). The option expires on December 12, 2016.

XVIII. Brief comment on prospects for the next period

Our real estate businesses in Argentina and abroad have posted sound results in the first three-month period of fiscal year 2017. We believe that the diversification of our business, with real estate assets in Argentina and abroad, favorably positions us to face all the challenges and opportunities that may arise in the coming years.

Our subsidiary IRSA Propiedades Comerciales S.A. continues to record growth in both its shopping center and Premium office businesses. Although our tenants' sales decelerated during the first quarter of 2017 as compared to the previous fiscal year, occupancy remains significantly high and the public keeps choosing each of our proposals; besides, top-notch domestic and international corporations continue to select our office spaces, which reached full occupancy at the end of the quarter.

We will remain active during the year by promoting marketing actions, events and promotions in our shopping centers, which have proved to be highly effective in terms of sales and have been eagerly endorsed by the public. Moreover, we plan to optimize even further the performance of our current shopping centers through improvements that result in taking better advantage of the leaseable square meters and creating higher functionality and appeal for the benefit of consumers, retailers and tenants alike. Along these lines, at the beginning of fiscal year 2017 we launched a project for expanding our Alto Palermo shopping center, which is strategically located in the heart of the

city and generates the highest sales per square meter in our portfolio. The project, that consists in moving the food court to a third level, will add approximately 4,000 square meters of gross leaseable area to the shopping center; the demolition stage has already started, and construction works are expected to last between 18 and 24 months.

During this fiscal year we launched an office building project in the commercial complex adjacent to our Dot Baires shopping center. The project, known as “Polo Dot”, will include, in a first stage, the development of a 11-floor, 30,000-square meter office building in a property owned by the company. The demolition stage started during the first quarter of fiscal year 2017 and has reached 30% of progress, and construction works are expected to last between 18 and 24 months before the building becomes operational. We have had a large demand for Premium office spaces in this emerging new commercial hotspot, and we hope to secure high occupancy at this building upon completion of construction works.

We are optimistic about the opportunities that may arise in Argentina in 2017. We have a large reserve of lands for future shopping center and office development projects in an industry scenario with high growth potential.

As concerns our investments outside Argentina, we will continue working in the improvement of the operating ratios of our “Lipstick” building in New York. Our investment in “Condor Hospitality Trust” hotel REIT (NASDAQ: CDOR) has shown very good results in the last months derived from its sales of hotels, whilst it has managed to seize good opportunities for purchasing higher class hotels. We believe that Stepstone’s recent entry as partner to the investment and the simplification of the shareholding structure will help unleash value in Condor. We trust in the new senior management and hope to reap the benefits of this investment in the future.

Regarding our investment in the Israeli company IDBD, during this fiscal year we have been reducing the company’s indebtedness level and rolling out a strategy intended to improve operating margins in each of its business units. A new CEO and CFO were appointed, who are working proactively toward simplifying and optimizing its capital structure. In 2017, we will continue to work for deleveraging the company and improving the results of its operating subsidiaries. We trust in the value of this investment, which we expect will deliver very good results in the medium term.

Taking into account the quality of the real estate assets in our portfolio, the Company’s financial position and low indebtedness level and its franchise for accessing the capital markets, we remain confident that we will continue consolidating the best real estate portfolio in Argentina and diversifying our operations by adding businesses abroad with attractive value-creation opportunities.
