Item 9. Regulation FD Disclosure**Richardson Reports Sales Increased 9.5% Sequentially in the Second Quarter**

LaFox, IL, Tuesday December 17, 2002: Richardson Electronics, Ltd. (NASDAQ: RELL) today reported results for the second quarter of fiscal 2003, which ended November 30, 2002. Revenues in the second quarter of 2003 were \$119.0 million, an increase of 9.5% from the previous quarter. Revenues from continuing operations, excluding the Medical Glassware Business sold in February 2002, increased 6.5% from the prior year. Net earnings were \$1.2 million, or \$0.09 per share, compared to net earnings of \$0.9 million, or \$0.07 per share for the same quarter last year.

The Company's three largest business units, RF & Wireless Communications, Security Systems, and Industrial Products, and three largest regions, North America, Europe and Asia Pacific, all recorded revenue growth over the same quarter and six-month period last year.

Edward J. Richardson, Chairman of the Board and Chief Executive Officer, said, "The strong broad based growth achieved across our largest strategic business units we believe demonstrates the global demand for our engineered solutions strategy."

For the six-month period, revenues from continuing operations in the six months increased 6.9% from the prior year. Overall revenues were \$227.6 million, an increase of 3.4% from the six-month period a year ago. Net earnings, before cumulative effect of change in accounting principle, in the six months were \$1.5 million, or \$0.11 per share, compared to \$0.5 million, or \$0.04 per share a year ago.

The Company adopted SFAS No. 142, "Goodwill and Other Intangible Assets", effective June 1, 2002. In accordance with the transitional rules for this pronouncement, the Company completed its evaluation of the carrying value of goodwill and determined that the carrying value exceeded the fair value in certain instances. As a result of this new pronouncement, Richardson recorded an impairment charge of \$17.9 million net of tax, or \$1.28 per share, which has been recorded as a cumulative effect of accounting change in the first quarter of fiscal 2003.

"This was the second consecutive quarter of growth compared to the declines we experienced last year," added Mr. Richardson. "This improvement combined with the strong bookings that we have experienced so far suggests that the worst is behind us, and we are returning to normal market conditions. "

Mr. Richardson concluded, "Bookings were up 17% sequentially in the quarter with all four business units growing. We have solid momentum going into the second half of our fiscal year to continue market share gains and year-over-year growth in an otherwise non-eventful economy."
