Report of Independent Accountants

To the Board of Directors of
Ford Motor Company

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Ford Motor Company Tax-Efficient Savings Plan for Hourly Employees (the "Plan") at December 30, 2000 and 1999, and the changes in net assets available for benefits for the year ended December 30, 2000, in conformity with accounting

Edgar Filing: FORD MOTOR CO - Form 11-K

principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of Assets Held for Investment Purposes and Reportable Transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Ford Motor Company Tax-Efficient
Savings Plan for Hourly Employees
Notes to Financial Statements

1. Description of the Plan

The following description of the Ford Motor Company Tax-Efficient Savings Plan for Hourly Employees (the "Plan") provides only general information. The Plan was established effective January 1, 1985. The provisions of the Plan are governed in all respects by the detailed terms and conditions contained in the plan agreement. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

Type and purpose of the plan

The Plan is a defined contribution plan established to encourage and facilitate systematic savings and investment by eligible hourly employees of Ford Motor Company (the "Company") and to provide them with an opportunity to become stockholders of the Company. The Plan includes provisions for voting shares of Company stock. It is subject to certain provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") applicable to defined contribution pension plans.

Eligibility and vesting

Hourly employees are eligible to participate in the Plan three months after their original date of hire. Certain other part-time and temporary employees may also be eligible to participate in the Plan. Participation in the Plan is voluntary. Employees vest 100% immediately in the Plan.

Contributions

Under the Plan and subject to limits required to be imposed by the Internal Revenue Code, participants may elect to contribute up to 25% of their eligible wages. Participants may also elect reductions in their distributions under the Company's Profit Sharing Plan to be contributed to the Plan. Such contributions are excluded from participants' taxable income.

Participant accounts

Each participant's account is credited with the participant's contributions and an allocation of plan earnings. Allocations are based on participant earnings or account balances, as defined. Plan administrative expenses are paid by the Company and not charged to participants' accounts. Per the plan agreement, certain fund options charge redemption fees on transfers of funds which are paid by the participants. These redemption fees are charged to the individual participant account fund assets. The fees totaled approximately \$78,000 and \$124,000 for the years ended December 30, 2000 and 1999, respectively. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Distributions

Plan assets may not be withdrawn by participants until the termination of their employment or until they reach 59-1/2, except in the case of personal financial hardship.

Ford Motor Company Tax-Efficient
Savings Plan for Hourly Employees
Notes to Financial Statements

1. Description of the Plan (continued)

Investment options and participation

Participant contributions are invested in accordance with the participant's election in one or more of several investment options. The types of investment options, and the number of participants in each option at December 30, 2000, are as follows:

	Participants
Ford Stock Fund	71,548
Interest Income Fund	40,949
Common Stock Fund	18,056
Other	122,694

The Ford Stock Fund is an investment in Ford common stock with a portion of the Fund's assets being invested in short-term investments.

The Interest Income Fund is a broadly diversified, stable value investment fund. The Interest Income Fund invests in a diversified portfolio of fixed income securities, including investment contracts with insurance companies and other organizations. During 2000 and 1999, the Plan entered into five benefit-responsive investment contracts with various companies. The contracts are included in the financial statements at their contract values as reported to the Plan by the companies. There is no immediate recognition of investment gains and losses on the fixed income securities. Instead, the gain or loss is recognized over time by adjusting the interest rate credited to the fund under the contracts.

There were no reserves against contract value for credit risk of the contract issuer or otherwise during 2000 or 1999. The average yield and crediting interest rates were approximately 6.16% for 2000 and 5.73% for 1999. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on an annual basis for resetting.

The Common Stock Fund is a broadly diversified, passively managed equity fund administered by Comerica Bank. Fund assets are invested in stocks through a series of Comerica Bank commingled pools.

Details of investments held as of December 30, 2000 are set forth in Schedule I - Schedule of Assets Held for Investment Purposes.

Transfers of assets

The Plan permits the transfer of assets among investment options, with certain restrictions related to transfers from the Stable Value Income Fund.

Loans

The Plan permits loans to participants from both their Pre-Tax and After-Tax Program accounts with certain restrictions related to loans from the Stable Value Income Fund. Monthly loan interest rates are based on the prime rate published in The Wall Street Journal.

1. Description of the Plan (continued)

Employee stock ownership plan

The Plan operates, in part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975 (e) (7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan purchased Company common shares using the proceeds of loans from the Company and held the shares in an ESOP trust account established under the Plan. The borrowings are to be repaid quarterly over the period ended December 3, 2001.

As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employee accounts. The shares vest fully upon allocation. The borrowings are collateralized by the unallocated shares of stock.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investments

The investment in the Ford Stock Fund and the investments in all other funds except the Stable Value Income Fund are valued on the basis of established year-end market prices. Investments in the Stable Value Income Fund, primarily fixed rate insurance contracts, are stated at contract value, which approximates fair value.

Contributions

Contributions to the Plan from employees are recorded in the period that payroll deductions are made from plan participants.

Payment of benefits

Benefits are recorded when paid.

Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties

The Plan's invested assets ultimately consist of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Edgar Filing: FORD MOTOR CO - Form 11-K

Ford Motor Company Tax-Efficient
Savings Plan for Hourly Employees
Notes to Financial Statements

2. Summary of Significant Accounting Policies (continued)

Other

Purchases and sales of investments are reflected on a trade-date basis. Realized gains and losses on sales of investments are determined using specific identification.

Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis.

3. Investments

The following present investments that represent 5% or more of the Plan's net assets:

	2000	1999
Interest Income Fund	\$ 638,071,797	\$ 688,033,731
Ford Stock Fund	2,162,911,043	2,520,898,764
Common Stock Fund	319,709,785	379,230,885

The Plan presents in the statement of changes in net assets available for Plan benefits the net appreciation (depreciation) in the fair value of its investments which consists of the Plan's realized gains or losses and the unrealized appreciation (depreciation) on those investments. During 2000, the Plan's investments depreciated in value by \$812,416,056 as follows:

Mutual Funds	\$ 233,989,493
Common Stock	536,675,958
Common and comingled trust fund	41,750,605

	\$ 812,416,056

4. Plan Amendment

During 1999, the year-end was amended from December 31 to December 30. The Plan was also amended to permit participants to contribute to the Plan on either or both a pre-tax or after-tax basis up to 25% of eligible wages, effective January 1, 2000. The investment programs are the same for all savings contributions.

5. Employee Stock Ownership Plan

Effective January 1, 1989, the Company, by action of the Board of Directors, established within the Plan an ESOP. All shares of Company stock in the Plan at any time including all shares allocated to participants' accounts and shares held in an ESOP suspense account are included in the ESOP, along with other assets attributable to post-1988 contributions to the Plan.

Edgar Filing: FORD MOTOR CO - Form 11-K

Ford Motor Company Tax-Efficient
Savings Plan for Hourly Employees
Notes to Financial Statements

5. Employee Stock Ownership Plan (continued)

The Plan obtained loans from the Company to purchase shares of company stock for quarterly allocation. The following summarizes the loans taken out by the Plan:

Date of loan	Original principle balance	Interest rate	Total quarterly payments	Number of quarterly payments	Date of first payment
6/7/00	\$ 7,100,000	6.52%	\$ 7,128,246	1	06/29/00
6/28/00	28,800,000	6.54%	715,276	7	08/10/00
8/31/00	62,510,000	7.04%	11,456,096	6	09/01/00
12/17/99	65,896,517	6.52%	8,838,000	8	03/01/00
11/25/98	3,440,957	5.00%	706,192	5	12/01/98
08/27/98	14,048,255	5.72%	2,427,802	6	09/01/98
12/30/97	38,190,886	8.50%	5,212,722	8	08/02/98

All loans were either paid off or have matured prior to December 30, 2000 except the June 28, 2000 and August 31, 2000 loans which both mature December 3, 2001.

The Company shares are held in a suspense account within the Plan until quarterly loan payments are made. A percentage of shares equivalent to the percentage of principal and interest paid down by the quarterly payment are released for distribution when each quarterly dividend payment is made. The trustee purchases additional shares to the extent that shares released from the suspense account are not adequate to satisfy the requirement for dividend shares allocated to participants' accounts. As of December 30, 2000 and 1999, the share activity is as follows:

	2000		1999	
	Allocated	Unallocated	Allocated	Unallocated
Ford Motor Company common shares				
Number of shares	3,701,457	1,821,080	695,708	
Cost	\$ 127,187,124	\$ 43,794,151	\$ 32,163,944	\$

Cash dividends earned on Company stock held in the Plan generally are used to make quarterly loan payments. If cash is not available to make the full payment, the trustee may sell shares held in the suspense account or the Company, at its option, may elect to make additional contributions to the Plan. If cash exceeds the loan payment amounts, the cash is used to reduce the Company's contribution for additional share requirements.

The following highlights certain ESOP activity:

2000

Edgar Filing: FORD MOTOR CO - Form 11-K

	loan activity
Units purchased with loan cash	5,522,537
Cost of units purchased with loan cash	\$ 170,981,281
Loan principal paid	117,717,138
Loan interest paid and accrued	3,563,681

8

Ford Motor Company Tax-Efficient
Savings Plan for Hourly Employees
Notes to Financial Statements

6. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by letter dated January 26, 1995, that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). The Plan has since been amended, however, the Plan sponsor has applied for an updated IRS letter. The Plan is currently designed and being operated in compliance with the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. Plan Termination

The Company, by action of the Board of Directors, may terminate the Plan at any time. Termination of the Plan would not affect the rights of a participant as to the continuance of investment, distribution or withdrawal of the securities, cash and cash value of the Ford Stock Fund units in the account of the participant as of the effective date of such termination. There are currently no plans to terminate the Plan.

8. Other

To conform the financial statements to the accrual basis of accounting, the plan administrator made adjustments resulting in differences between the data shown on page 2 of this report and the 1999 Form 5500 filed with the Department of Labor.

On August 7, 2000, the Company announced the final results of its recapitalization, known as the Value Enhancement Plan ("VEP"). Under the VEP, Ford shareholders exchanged each of their old Ford Common or Class B shares for one new Ford Common or Class B share, as the case may be, plus at their election, either \$20 in cash, 0.748 additional new Ford Common shares, or a combination of \$5.17 in cash and 0.555 additional new Ford Common shares. As a result of the elections made by shareholders under the VEP, the total cash elected was \$5.7 billion and the total number of new Ford Common and Class B shares that became issued and outstanding was 1.893 billion.

On June 28, 2000, Ford distributed 130 million shares of Visteon Corporation ("Visteon"), which represented its 100% ownership interest, by means of a tax-free spin-off in the form of a dividend on Ford Common and Class B Stock.

Holder of Ford Common and Class B Stock on the record date received 0.130933 shares of Visteon common stock for each share of Ford stock, and participants in U.S. employee savings plans on the record date received \$1.72 in cash per share of Ford stock, based on the volume-weighted

Edgar Filing: FORD MOTOR CO - Form 11-K

average price of Visteon stock of \$13.1326 per share on June 28, 2000. The total value of the distribution (including the \$365 million cash dividend) was \$2.1 billion, or \$1.72 per diluted share of Ford stock.
