Note 1 – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and SEC Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In our opinion, the interim condensed consolidated financial statements reflect all adjustments necessary for a fair presentation of the results of operations and financial position for such periods. All such adjustments reflected in the interim condensed consolidated financial statements are considered to be of a normal recurring nature. The results of operations for any interim period are not necessarily indicative of results for the full year. Accordingly, these financial statements should be read in conjunction with the financial statements and notes thereto contained in our 2013 Annual Report on Form 10-K. The current-year and prior-year results reflect the classification of the sold candle manufacturing and marketing operations as discontinued operations. See further discussion in Note 2. Unless otherwise noted, the term “year” and references to a particular year pertain to our fiscal year, which begins on July 1 and ends on June 30; for example, 2014 refers to fiscal 2014, which is the period from July 1, 2013 to June 30, 2014.

Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation. Purchases of property, plant and equipment included in accounts payable and excluded from the property additions and the change in accounts payable in the Condensed Consolidated Statements of Cash Flows were as follows:

	March 31,	
	2014	2013
Construction in progress in accounts payable	\$1,465	\$2,682

Earnings Per Share

Earnings per share (“EPS”) is computed based on the weighted average number of shares of common stock and common stock equivalents (restricted stock and stock-settled stock appreciation rights) outstanding during each period. Unvested shares of restricted stock granted to employees are considered participating securities since employees receive nonforfeitable dividends prior to vesting and, therefore, are included in the earnings allocation in computing EPS under the two-class method. Basic EPS excludes dilution and is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted EPS is computed by dividing income available to common shareholders by the diluted weighted average number of common shares outstanding during the period, which includes the dilutive potential common shares associated with nonparticipating restricted stock and stock-settled stock appreciation rights.

Note 2 – Discontinued Operations

On January 30, 2014, we sold effectively all of the net operating assets of our candle manufacturing and marketing operations for approximately \$28 million in cash. Net proceeds from the sale, after post-closing adjustments and transaction costs, totaled approximately \$25.6 million. The transaction resulted in a pretax loss of approximately \$44.0 million and a tax benefit of approximately \$14.4 million, which were recorded in the quarter ended March 31, 2014. The financial results of these operations are reported as discontinued operations for all periods presented. Future discontinued operations results may be impacted by potential changes in certain estimated liabilities that were retained in the sale. The discontinued operations, previously included in our Glassware and Candles segment, had net sales of approximately \$8.4 million and \$89.4 million and \$32.4 million and \$128.0 million for the three and nine months ended March 31, 2014 and 2013, respectively, and pretax losses of approximately \$43.7 million and \$39.3 million, including the pretax loss on sale, and pretax income of \$1.5 million and \$8.0 million for the three and nine months ended March 31, 2014 and 2013, respectively.

At June 30, 2013, the assets and liabilities of our sold operations were as follows:

	June 30, 2013
Cash	\$1
Receivables	14,061
Inventory	41,342
Other current assets	573
Current assets of discontinued operations	55,977
Property, plant and equipment	21,621

Noncurrent assets of discontinued operations	22,601
Total assets of discontinued operations	\$78,578
Accounts payable	\$5,431
Accrued liabilities	2,685
Current liabilities of discontinued operations	\$8,116

Note 3 – Impact of Recently Issued Accounting Standards

There were no recently issued accounting pronouncements that impact our consolidated financial statements.

Note 4 – Goodwill and Other Intangible Assets

Goodwill attributable to the Specialty Foods segment was approximately \$89.8 million at March 31, 2014 and June 30, 2013.

The following table summarizes our identifiable other intangible assets, all included in the Specialty Foods segment:

	2014	2013	2014	2013
Amortization expense	\$236	\$236	\$709	\$708

Total annual amortization expense for each of the next five years is estimated to be as follows:

2015	\$946
2016	\$775
2017	\$604
2018	\$604
2019	\$604

Note 5 – Long-Term Debt

At March 31, 2014 and June 30, 2013, we had an unsecured credit agreement under which we may borrow, on a revolving credit basis, up to a maximum of \$120 million at any one time, with potential to expand the total credit availability to \$200 million based on obtaining consent of the issuing banks and certain other conditions. The facility expires on April 18, 2017, and all outstanding amounts are then due and payable. Interest is variable based upon formulas tied to LIBOR or an alternative base rate defined in the credit agreement, at our option. We must also pay facility fees that are tied to our then-applicable consolidated leverage ratio. Loans may be used for general corporate purposes. Based on the long-term nature of this facility, when we have outstanding borrowings under this facility, we will classify the outstanding balance as long-term debt.

At March 31, 2014 and June 30, 2013, we had no borrowings outstanding under this facility. At March 31, 2014, we had approximately \$3.7 million of standby letters of credit outstanding, which reduced the amount available for borrowing under the credit agreement. We paid no interest for the three and nine months ended March 31, 2014 and 2013. At March 31, 2014 and June 30, 2013, we were in compliance with all applicable provisions and covenants of this facility, and we exceeded the requirements of the financial covenants by substantial margins. At March 31, 2014, we were not aware of any event that would constitute a default under the facility.

The facility contains certain restrictive covenants, including limitations on indebtedness, asset sales and acquisitions. There are two principal financial covenants: an interest expense test that requires us to maintain an interest coverage ratio not less than 2.5 to 1 at the end of each fiscal quarter; and an indebtedness test that requires us to maintain a consolidated leverage ratio not greater than 3 to 1 at all times. The interest coverage ratio is calculated by dividing Consolidated EBIT (as defined more specifically in the credit agreement) by Consolidated Interest Expense (as defined more specifically in the credit agreement), and the leverage ratio is calculated by dividing Consolidated Debt (as defined more specifically in the credit agreement) by Consolidated EBITDA (as defined more specifically in the credit agreement).

Note 6 – Income Taxes

Prepaid Federal, state and local income taxes of approximately \$21.4 million and \$7.5 million were included in deferred income taxes and other current assets at March 31, 2014 and June 30, 2013, respectively. The change was due to the impact of the loss on the sale of our candle manufacturing and marketing operations.

The gross tax contingency reserve at March 31, 2014 was approximately \$0.9 million and consisted of tax liabilities of approximately \$0.5 million and penalties and interest of approximately \$0.4 million. We have classified none of the gross tax contingency reserve as current liabilities as none of these amounts are expected to be resolved within the next 12 months. The entire liability of approximately \$0.9 million was included in other noncurrent liabilities. We expect that the amount of these liabilities will change within the next 12 months; however, we do not expect the change to have a significant effect on our financial position or results of operations. We recognize interest and penalties related to these tax liabilities in income tax expense.

 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share data)

Note 7 – Stock-Based Compensation

Our shareholders approved the adoption of and subsequent amendments to the Lancaster Colony Corporation 2005 Stock Plan (the “2005 Plan”). The 2005 Plan reserved 2,000,000 common shares for issuance to our employees and directors, and all awards granted under the 2005 Plan will be exercisable at prices not less than fair market value as of the date of the grant. The vesting period for awards granted under the 2005 Plan varies as to the type of award granted, but generally these awards have a maximum term of five years.

Stock-Settled Stock Appreciation Rights

We use periodic grants of stock-settled stock appreciation rights (“SSSARs”) as a vehicle for rewarding certain employees with long-term incentives for their efforts in helping to create long-term shareholder value. We calculate the fair value of SSSARs grants using the Black-Scholes option-pricing model. Our policy is to issue shares upon SSSARs exercise from new shares that had been previously authorized.

In the nine months ended March 31, 2014 and 2013, we granted SSSARs under the terms of our 2005 Plan. The following table summarizes information relating to these grants:

	2014	2013		
SSSARs granted	146	108		
Weighted average grant date fair value per right	\$11.84	\$9.04		
Weighted average assumptions used in fair value calculations:				
Risk-free interest rate	0.75	% 0.33		%
Dividend yield	1.97	% 2.09		%
Volatility factor of the expected market price of our common stock	22.35	% 23.23		%
Weighted average expected life in years	3.12	2.67		
Weighted average estimated forfeiture rate	3	% 2		%

For these grants, the volatility factor was estimated based on actual historical volatility of our stock for a time period equal to the term of the SSSARs. The expected average life was determined based on historical exercise experience for this type of grant. The SSSARs from each grant vest one-third on the first anniversary of the grant date, one-third on the second anniversary of the grant date and one-third on the third anniversary of the grant date.

We recognize compensation expense over the requisite service period. Compensation expense was reflected in Cost of Sales or Selling, General and Administrative Expenses based on the grantees’ salaries expense classification and was allocated to each segment appropriately. We recorded tax benefits and gross windfall tax benefits related to SSSARs. These windfall tax benefits were included in the financing section of the Condensed Consolidated Statements of Cash Flows. The following table summarizes SSSARs compensation expense and tax benefits recorded:

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2014	2013	2014	2013
Compensation expense	\$304	\$253	\$804	\$973

At March 31, 2014, there was approximately \$2.3 million of unrecognized compensation expense related to SSSARs that we will recognize over a weighted-average period of approximately 2.45 years.

#### Restricted Stock

We use periodic grants of restricted stock as a vehicle for rewarding our nonemployee directors and certain employees with long-term incentives for their efforts in helping to create long-term shareholder value.

In the nine months ended March 31, 2014 and 2013, we granted shares of restricted stock to various employees under the terms of the 2005 Plan. The following table summarizes information relating to these grants:

	Nine Months Ended March 31,	
	2014	2013
Employees		
Restricted stock granted	24	8
Grant date fair value	\$2,190	\$572
Weighted average grant date fair value per award	\$89.21	\$72.67
Weighted average estimated forfeiture rate	5	% 3

The restricted stock under these employee grants vests on the third anniversary of the grant date. Under the terms of our grants, employees receive dividends on unforfeited restricted stock regardless of their vesting status.

Approximately 6,000 and 23,000 shares of employee restricted stock vested in the nine months ended March 31, 2014 and 2013, respectively.

In November 2013 and 2012, we granted shares of restricted stock to our seven nonemployee directors under the terms of the 2005 Plan. The following table summarizes information relating to each of these grants:

	Nine Months Ended March 31,	
	2014	2013
Nonemployee directors		
Restricted stock granted	6	7
Grant date fair value	\$490	\$490
Weighted average grant date fair value per award	\$84.42	\$73.29

(Tabular amounts in thousands, except per share data)

The 2014 grant vests over a one-year period, and all of these shares are expected to vest. Dividends earned on the stock during the vesting period will be paid to the directors at the time the stock vests. Approximately 7,000 shares of nonemployee director restricted stock vested in the nine months ended March 31, 2014 and 2013 and the directors were paid the related dividends.

We recognize compensation expense over the requisite service period. Compensation expense was reflected in Cost of Sales or Selling, General and Administrative Expenses based on the grantees' salaries expense classification and was allocated to each segment appropriately. We recorded tax benefits and gross windfall tax benefits related to restricted stock. These windfall tax benefits were included in the financing section of the Condensed Consolidated Statements of Cash Flows. The following table summarizes restricted stock compensation expense and tax benefits recorded:

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2014	2013	2014	2013
Compensation expense	\$366	\$303	\$1,027	\$1,086
Tax benefits	\$155	\$106	\$386	\$380
Gross windfall tax benefits	\$68	\$124	\$76	\$134

The total fair values of restricted stock vested were as follows:

	Nine Months Ended March 31,	
	2014	2013
Fair value of vested shares	\$877	\$1,837

The following table summarizes the activity relating to restricted stock granted under the 2005 Plan for the nine months ended March 31, 2014:

	Number of Shares	Weighted Average Grant Date Fair Value
Unvested restricted stock at beginning of period	45	\$ 68.16
Granted	30	\$ 88.30
Vested	(13	) \$ 65.80
Forfeited	(2	) \$ 67.47
Unvested restricted stock at end of period	60	\$ 78.89

At March 31, 2014, there was approximately \$3.1 million of unrecognized compensation expense related to restricted stock that we will recognize over a weighted-average period of approximately 2.28 years.

Note 8 – Pension Benefits

We sponsor multiple defined benefit pension plans that have covered certain union workers. However, as a result of prior-years' restructuring activities, for all periods presented, we no longer have any active employees continuing to accrue service cost or otherwise eligible to receive plan benefits. Benefits being paid under the plans are primarily based on negotiated rates and years of service. We contribute to these plans at least the minimum amount required by regulation.

The following table summarizes the components of net periodic benefit income for our pension plans:

Net periodic benefit income	\$(60	) \$(15	) \$(182	) \$(45

For the three and nine months ended March 31, 2014, we made no pension plan contributions and we do not expect to make any contributions to our pension plans during 2014.

Note 9 – Postretirement Benefits

We and certain of our operating subsidiaries provide multiple postretirement medical and life insurance benefit plans. We recognize the cost of benefits as the employees render service. Postretirement benefits are funded as incurred.

The following table summarizes the components of net periodic benefit cost for our postretirement plans:

	Three Months Ended		Nine Months Ended	
	March 31,		March 31,	
	2014	2013	2014	2013
Components of net periodic benefit cost

Amortization of prior service asset	(1	) (1	) (3	) (3
Net periodic benefit cost	\$34	\$29	\$98	\$89

For the three and nine months ended March 31, 2014, we made approximately \$28,000 and \$93,000, respectively, in contributions to our postretirement medical and life insurance benefit plans. We expect to make approximately \$0.1 million more in contributions to our postretirement medical and life insurance benefit plans during the remainder of 2014.

Note 10 – Commitments and Contingencies

At March 31, 2014, we were a party to various claims and litigation matters arising in the ordinary course of business. Such matters did not have a material effect on the current-year results of operations and, in our opinion, their ultimate disposition will not have a material effect on our consolidated financial statements.

The Continued Dumping and Subsidy Offset Act of 2000 (“CDSOA”) provides for the distribution of monies collected by U.S. Customs from anti-dumping cases to qualifying domestic producers. Our CDSOA receipts totaled approximately \$0.1 million in the second quarter of 2014, as compared to approximately \$0.3 million in the second quarter of 2013. These receipts are included in income from discontinued operations in the Condensed Consolidated Statements of Income.

As of January 30, 2014, we sold substantially all of the net operating assets of our candle manufacturing and marketing operations to an unaffiliated buyer. While we retained the right to seek further CDSOA remittances relating to past periods, we are currently unaware of any funds made available to manufacturers who may have otherwise qualified for CDSOA remittances but have exited the applicable business. Accordingly, we cannot predict the amount

of future distributions, if any, we may receive. U.S. Customs has advised affected domestic producers that it is possible that CDSOA distributions which we received could be subject to clawback until the resolution of outstanding litigation. We believe that the likelihood of clawback is remote. Any change in CDSOA distributions could affect our earnings and cash flow.

Note 11 – Business Segments Information

The following summary of financial information by business segment is consistent with the basis of segmentation and measurement of segment profit or loss presented in our June 30, 2013 consolidated financial statements and excludes the results of the Glassware and Candles segment, which are classified as discontinued operations. The March 31, 2014 identifiable assets by reportable segment are generally consistent with that of June 30, 2013, as reflective of discontinued operations.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

Our fiscal year begins on July 1 and ends on June 30. Unless otherwise noted, references to "year" pertain to our fiscal year; for example, 2014 refers to fiscal 2014, which is the period from July 1, 2013 to June 30, 2014.

The following discussion should be read in conjunction with our condensed consolidated financial statements and the notes thereto, all included elsewhere in this report. The forward-looking statements in this section and other parts of this report involve risks, uncertainties and other factors, including statements regarding our plans, objectives, goals, strategies, and financial performance. Our actual results could differ materially from the results anticipated in these forward-looking statements due to these factors. For more information, see the section below entitled "Forward-Looking Statements."

OVERVIEW

Business Overview

Lancaster Colony Corporation is a manufacturer and marketer of specialty food products for the retail and foodservice markets.

In recent years, our strategy has shifted away from operating businesses in a variety of industries towards emphasizing the growth and success we have achieved in our Specialty Foods segment. Consistent with this strategy, on January 30, 2014, we sold effectively all of the net operating assets of our candle manufacturing and marketing operations for approximately \$28 million in cash. Net proceeds from the sale, after post-closing adjustments and transaction costs, totaled approximately \$25.6 million. The transaction resulted in a pretax loss of approximately \$44.0 million and a tax benefit of approximately \$14.4 million, which were recorded in the quarter ended March 31, 2014. The financial results of these operations are reported as discontinued operations for all periods presented.

Prior to the divestiture noted above, our operations were organized in two reportable segments: "Specialty Foods" and "Glassware and Candles." With the completion of the sale, our business operations are now exclusive to the manufacturing and marketing of specialty food products. Our sales are predominately domestic.

We view our food operations as having the potential to achieve future growth in sales and profitability due to attributes such as:

- leading retail market positions in several branded products with a high-quality perception;
- a broad customer base in both retail and foodservice accounts;
- well-regarded culinary expertise among foodservice accounts;
- recognized leadership in foodservice product development;
- experience in integrating complementary business acquisitions; and
- historically strong cash flow generation that supports growth opportunities.

The objective of our food operations is to grow both retail and foodservice sales over time by:

- leveraging the strength of our retail brands to increase current product sales, introduce new products and expand to new channels;
- growing our foodservice sales through the strength of our reputation in product development and quality; and
- pursuing acquisitions that meet our strategic criteria.

We have made substantial capital investments to support our existing food operations and future growth opportunities. Based on our current plans and expectations, we believe that our total capital expenditures for 2014 could total approximately \$15 million, depending on the timing and approval of certain projects currently being evaluated.

Summary of 2014 Results

The following is a comparative overview of our consolidated operating results for the three and nine months ended March 31, 2014 and 2013. The current-year and prior-year results reflect the classification of the Glassware and Candles segment as discontinued operations.

Net sales for the three months ended March 31, 2014 decreased 2% to approximately \$241.8 million from the prior-year total of \$247.1 million. This sales decrease reflects lower retail sales. The third quarter gross margin decreased 4% to

approximately \$51.9 million from the prior-year total of \$53.8 million. The lower level of net retail sales led to this decline. Income from continuing operations for the three months ended March 31, 2014 totaled approximately \$18.9 million, or \$0.69 per diluted share. Income from continuing operations totaled approximately \$20.7 million in the third quarter of the prior year, or \$0.76 per diluted share.

Year-to-date net sales for the period ended March 31, 2014 increased 2% to approximately \$782.3 million from the prior-year total of \$768.6 million. Greater sales volumes to the foodservice channel drove this increase. Consistent with the growth in net sales, gross margin increased 2% to approximately \$190.7 million from the prior year-to-date total of \$187.0 million. Income from continuing operations for the nine months ended March 31, 2014 totaled approximately \$80.1 million, or \$2.93 per diluted share. Income from continuing operations totaled approximately \$78.5 million in the nine months ended March 31, 2013, or \$2.87 per diluted share.

## RESULTS OF CONSOLIDATED OPERATIONS

### Net Sales and Gross Margin

(Dollars in thousands)	Three Months Ended March 31,			Nine Months Ended March 31,					
	2014	2013	Change	2014	2013	Change			
Net Sales - Specialty Foods	\$241,849	\$247,098	\$(5,249) (2)%	\$782,267	\$768,613	\$13,654 2%			
Gross Margin	\$51,908	\$53,833	\$(1,925) (4)%	\$190,702	\$187,000	\$3,702 2%			
Gross Margin as a Percentage of Net Sales	21.5%	21.8%		24.4%	24.3%				

Net sales for the third quarter and nine months ended March 31, 2014 decreased 2% and increased 2%, respectively.

Retail sales declined approximately 8% during the quarter ended March 31, 2014 on lower sales of frozen retail products, influenced in part by the later Easter holiday as well as by challenging market conditions. Year to date, retail sales declined less than 1%. Foodservice sales improved in both comparative periods, primarily due to higher volume, especially to larger chain restaurants, and in spite of lower pricing, which totaled approximately 1% of segment net sales. The segment's overall sales volume, as measured by pounds shipped, is estimated to have improved by approximately 2% and 3% for the three and nine months ended March 31, 2014, respectively.

Gross margin percentages were generally flat for the three and nine months ended March 31, 2014, as the benefit from lower raw-material costs was largely offset by a less favorable sales mix, the reduced foodservice pricing and higher freight costs associated with adverse weather conditions occurring during the most recent three-month period. For the nine months ended March 31, 2014, margins were also adversely affected by higher levels of trade promotional costs. We estimate that lower material costs beneficially affected the segment's gross margins by approximately two percent and one percent of net sales for the three and nine months ended March 31, 2014, respectively.

### Selling, General and Administrative Expenses

(Dollars in thousands)	Three Months Ended March 31,			Nine Months Ended March 31,					
	2014	2013	Change	2014	2013	Change			
SG&A Expenses	\$23,073	\$23,113	\$(40) —%	\$69,251	\$69,305	\$(54) —%			
SG&A Expenses as a Percentage of Net Sales	9.5%	9.4%		8.9%	9.0%				

Consolidated selling, general and administrative costs totaled approximately \$23.1 million and \$69.3 million for the three and nine months ended March 31, 2014, respectively, compared to the \$23.1 million and \$69.3 million incurred

for the three and nine months ended March 31, 2013. These costs were generally consistent as a percentage of net sales compared to the same periods in the prior year.

### Operating Income

The foregoing factors contributed to consolidated operating income totaling approximately \$28.8 million and \$121.5 million for the three and nine months ended March 31, 2014, respectively. Our operating income can be summarized as follows:

(Dollars in thousands)	Three Months Ended March 31,			Nine Months Ended March 31,					
	2014	2013	Change	2014	2013	Change			
Operating Income									
Specialty Foods	\$31,408	\$33,648	\$(2,240 )	(7 )%	\$130,364	\$126,790	\$3,574	3	%
Corporate Expenses	(2,573 )	(2,928 )	355	(12 )%	(8,913 )	(9,095 )	182	(2 )%	
Total	\$28,835	\$30,720	\$(1,885 )	(6 )%	\$121,451	\$117,695	\$3,756	3	%
Operating Income as a Percentage of Net Sales									
Specialty Foods	13.0	% 13.6	%		16.7	% 16.5	%		
Total	11.9	% 12.4	%		15.5	% 15.3	%		

Looking forward, for the final quarter of 2014, we foresee the benefit of higher sales from the shift in Easter-related retail sales as well as modestly favorable material-cost comparisons positively affecting operating margins. However, we also anticipate that the quarter's operating margins will be adversely affected by continued lower levels of pricing to the foodservice channel, significant introductory costs associated with new retail products being introduced, and a higher level of consumer marketing programs being incurred than a year ago.

### Interest Income and Other – Net

Interest income and other was expense of approximately \$0.2 million and \$0.3 million for the three and nine months ended March 31, 2014, respectively, as compared to expense of less than \$0.1 million for the three and nine months ended March 31, 2013.

### Income From Continuing Operations Before Income Taxes

As impacted by the factors discussed above, income from continuing operations before income taxes for the three months ended March 31, 2014 decreased by approximately \$2.1 million to \$28.6 million from the prior-year total of \$30.7 million. Income from continuing operations before income taxes for the nine months ended March 31, 2014 and 2013 was approximately \$121.1 million and \$117.7 million, respectively. Our effective tax rate of 34.0% and 33.9% for the three and nine months ended March 31, 2014, respectively, increased over the comparable prior-year rates of 32.5% and 33.3%. This increase reflects the prior-year period having been influenced by an increased deduction for dividends paid to our frozen ESOP Plan due to the \$5.00 per share special dividend paid in December 2012.

### Income From Continuing Operations

Third quarter income from continuing operations for 2014 of approximately \$18.9 million decreased from the preceding year's income from continuing operations for the quarter of \$20.7 million, as influenced by the factors noted above. Income from continuing operations per share for the third quarter of 2014 totaled approximately \$0.69 per basic and diluted share, as compared to \$0.76 per basic and diluted share recorded in the prior year. Year-to-date income from continuing operations of approximately \$80.1 million increased from the prior year-to-date total of \$78.5 million. Year-to-date income from continuing operations per share was approximately \$2.93 per basic and diluted share compared to \$2.87 per basic and diluted share for the prior-year period.

#### Discontinued Operations

Loss from discontinued operations, net of tax, totaled approximately \$29.3 million and \$26.4 million for the three and nine months ended March 31, 2014, respectively. These amounts included an after-tax loss of approximately \$29.6 million on the January 2014 sale of our candle manufacturing and marketing operations. Income from discontinued operations, net of tax, totaled approximately \$1.1 million and \$5.3 million for the three and nine months ended March 31, 2013, respectively. The current-year decline in such income from that of the comparable prior-year periods generally reflected lower seasonal sales volumes of candles. Loss from discontinued operations per share for the third quarter of 2014 totaled approximately \$1.07 per basic and diluted share, as compared to income of \$0.04 per basic and diluted share in the third quarter of 2013. Year-to-date loss from discontinued operations per share was approximately \$0.97 per basic and diluted share compared to income of \$0.20 per basic share and \$0.19 per diluted share for the prior-year period.

#### Net (Loss) Income

The third quarter results reflected a net loss for 2014 of approximately \$10.4 million compared to the preceding year's net income for the quarter of \$21.8 million, as influenced by the factors noted above. Year-to-date net income of approximately \$53.7 million was lower than the prior year-to-date total of \$83.8 million. Net loss per share for the third quarter of 2014 totaled approximately \$0.38 per basic and diluted share, as compared to net income of \$0.80 per basic and diluted share in the prior year. Year-to-date net income per share was approximately \$1.97 and \$1.96 per basic and diluted share, respectively, as compared to \$3.06 per basic and diluted share for the prior-year period.

#### FINANCIAL CONDITION

The current-year and prior-year balance sheets reflect the classification of the Glassware and Candles segment as discontinued operations.

For the nine months ended March 31, 2014, net cash provided by operating activities totaled approximately \$98.8 million as compared to \$94.9 million in the prior-year period. Not considering tax benefits to be realized due to the loss on the sale, cash provided by operating activities related to discontinued operations was approximately \$5.0 million and \$9.0 million for the nine months ended March 31, 2014 and 2013, respectively, including approximately \$1.4 million and \$1.9 million of depreciation and amortization for those periods. See Note 2 for further information regarding the sale of our candle manufacturing and marketing operations. Cash provided by continuing operations was also impacted by the relative changes in working capital, particularly prepaid assets and accrued liabilities and the change in net income.

Cash provided by investing activities for the nine months ended March 31, 2014 was approximately \$16.6 million as compared to cash used of \$18.8 million in the prior year. This increase resulted from the impact of the proceeds received on the sale of our discontinued operations as well as a lower level of capital expenditures in 2014. Cash used in investing activities related to discontinued operations was approximately \$1.0 million for both of the nine months ended March 31, 2014 and 2013.

Cash used in financing activities for the nine months ended March 31, 2014 of approximately \$37.5 million decreased from the prior-year total of \$167.1 million. This decrease was primarily due to lower dividend payments in the current year. Prior-year dividend payments included a \$5.00 per share special dividend that was paid in December 2012. The special dividend payment totaled in excess of \$136 million. The lower dividend payments were partially offset by a higher level of share repurchases in the current year. At March 31, 2014, approximately 1,426,000 shares remained authorized for future buyback under the existing share repurchase program.

Under our unsecured revolving credit facility, we may borrow up to a maximum of \$120 million at any one time. Loans may be used for general corporate purposes. We had no borrowings outstanding under this facility at March 31, 2014. At March 31, 2014, we had approximately \$3.7 million of standby letters of credit outstanding, which reduced the amount available for borrowing on the unsecured revolving credit facility. The facility expires in April 2017, and all outstanding amounts are then due and payable. Interest is variable based upon formulas tied to LIBOR or an alternative base rate defined in the credit agreement, at our option. We must also pay facility fees that are tied to our then-applicable consolidated leverage ratio. Based on the long-term nature of this facility, when we have outstanding borrowings under this facility, we will classify the outstanding balance as long-term debt.

The facility contains certain restrictive covenants, including limitations on indebtedness, asset sales and acquisitions, and financial covenants relating to interest coverage and leverage. At March 31, 2014, we were in compliance with all applicable provisions and covenants of the facility, and we exceeded the requirements of the financial covenants by substantial margins.

We currently expect to remain in compliance with the facility's covenants for the foreseeable future. A default under the facility could accelerate the repayment of any outstanding indebtedness and limit our access to additional credit available under the facility. Such an event could require curtailment of cash dividends or share repurchases, reduce or delay beneficial

expansion or investment plans, or otherwise impact our ability to meet our obligations when due. At March 31, 2014, we were not aware of any event that would constitute a default under the facility.

We believe that internally generated funds and our existing balances in cash and equivalents, in addition to our currently available bank credit arrangements, should be adequate to meet our cash requirements through calendar 2014. If we were to borrow outside of our credit facility under current market terms, our average interest rate may increase significantly and have an adverse effect on our results of operations.

For additional information regarding our credit facility, see Note 5 to the condensed consolidated financial statements.

#### CONTRACTUAL OBLIGATIONS

We have various contractual obligations that are appropriately recorded as liabilities in our condensed consolidated financial statements. Certain other items, such as purchase obligations, are not recognized as liabilities in our condensed consolidated financial statements. Examples of items not recognized as liabilities in our condensed consolidated financial statements are commitments to purchase raw materials or inventory that has not yet been received as of March 31, 2014 and future minimum lease payments for the use of property and equipment under operating lease agreements. Aside from expected changes in raw-material needs due to changes in product demand, there have been no significant changes to the contractual obligations disclosed in our 2013 Annual Report on Form 10-K.

#### CRITICAL ACCOUNTING POLICIES

There have been no changes in critical accounting policies from those disclosed in our 2013 Annual Report on Form 10-K.

#### RECENTLY ISSUED ACCOUNTING STANDARDS

There were no recently issued accounting pronouncements that impact our consolidated financial statements.

#### RECENTLY ADOPTED ACCOUNTING STANDARDS

In February 2013, the Financial Accounting Standards Board issued Accounting Standards Update (“ASU”) No. 2013-02, “Comprehensive Income: Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income” (“ASU 13-02”) which added new disclosure requirements for items reclassified out of accumulated other comprehensive income. ASU 13-02 effectively replaced the requirements outlined in previous ASUs. The requirements of ASU 13-02 were effective for fiscal years, and interim periods within those years, beginning after December 15, 2012. We adopted this guidance in the quarter ended September 30, 2013. The adoption did not have an impact on our financial position, results of operations or cash flows because it related to disclosures only.

#### FORWARD-LOOKING STATEMENTS

We desire to take advantage of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995 (the “PSLRA”). This Quarterly Report on Form 10-Q contains various “forward-looking statements” within the meaning of the PSLRA and other applicable securities laws. Such statements can be identified by the use of the forward-looking words “anticipate,” “estimate,” “project,” “believe,” “intend,” “plan,” “expect,” “hope” or similar words. These statements disclose future expectations; contain projections regarding future developments, operations or financial conditions; or state other forward-looking information. Such statements are based upon assumptions and assessments made by us in light of our experience and perception of historical trends, current conditions, expected future developments and other factors we believe to be appropriate. These forward-looking statements involve various important risks, uncertainties and other factors that could cause our actual results to differ materially from those expressed in the forward-looking statements. Actual results may differ as a result of factors over which we have no, or limited, control including, without limitation, the specific influences outlined below. Management believes these forward-looking statements to be reasonable; however, you should not place undue reliance on such statements that are based on current expectations. Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update such forward-looking statements, except as required by law.

Items which could impact these forward-looking statements include, but are not limited to:

- the potential for loss of larger programs or key customer relationships;
- the effect of consolidation of customers within key market channels;

the success and cost of new product development efforts;

20

---

- the lack of market acceptance of new products;
- the reaction of customers or consumers to the effect of price increases we may implement;
- changes in demand for our products, which may result from loss of brand reputation or customer goodwill;
- the extent to which future business acquisitions are completed and acceptably integrated;
- the possible occurrence of product recalls or other defective or mislabeled product costs;
- efficiencies in plant operations;
- price and product competition;
- fluctuations in the cost and availability of raw materials;
- adverse changes in energy costs and other factors that may affect costs of producing, distributing or transporting our products;
- the impact of fluctuations in our pension plan asset values on funding levels, contributions required and benefit costs;
- maintenance of competitive position with respect to other manufacturers;
- dependence on key personnel;
- stability of labor relations;
- dependence on contract copackers and limited or exclusive sources for certain goods;
- access to any required financing;
- changes in estimates in critical accounting judgments;
- the outcome of any litigation or arbitration; and
- certain other factors, including the information disclosed in our discussion of risk factors under Item 1A of our 2013 Annual Report on Form 10-K.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our market risks have not changed materially from those disclosed in our 2013 Annual Report on Form 10-K.

### Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures. As of the end of the period covered by this Quarterly Report on Form 10-Q, our Chief Executive Officer and Chief Financial Officer evaluated, with the participation of management, the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of March 31, 2014 to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is 1) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and 2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

(b) Changes in Internal Control Over Financial Reporting. No changes were made to our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II – OTHER INFORMATION

## Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed under Item 1A in our 2013 Annual Report on Form 10-K.

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) In November 2010, our Board of Directors approved a share repurchase authorization of 2,000,000 shares, of which approximately 1,426,000 shares remained authorized for future repurchases at March 31, 2014. This share repurchase authorization does not have a stated expiration date. In the third quarter, we made the following repurchases of our common stock:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans	Maximum Number of Shares that May Yet be Purchased Under the Plans
January 1-31, 2014	—	\$—	—	1,427,776
February 1-28, 2014 (1)	1,827	\$89.01	1,827	1,425,949
March 1-31, 2014	—	\$—	—	1,425,949
Total	1,827	\$89.01	1,827	1,425,949

(1) Represents shares that were repurchased in satisfaction of tax withholding obligations arising from the vesting of restricted stock granted to employees under the Lancaster Colony Corporation 2005 stock plan.
