Reading International, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Unaudited)
For the Three Months Ended March 31, 2010

Note 1 – Basis of Presentation

Reading International, Inc., a Nevada corporation (“RDI” and collectively with our consolidated subsidiaries and corporate predecessors, the “Company,” “Reading” and “we,” “us,” or “our”), was founded in 1983 as a Delaware corporation and reincorporated in 1999 in Nevada. Our businesses consist primarily of:

- the development, ownership and operation of multiplex cinemas in the United States, Australia, and New Zealand and
- the development, ownership, and operation of retail and commercial real estate in Australia, New Zealand, and the United States.

The accompanying unaudited condensed consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) for interim reporting and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X of the Securities and Exchange Commission (“SEC”) for interim reporting. As such, certain information and disclosures typically required by US GAAP for complete financial statements have been condensed or omitted. There have been no material changes in the information disclosed in the notes to the condensed consolidated financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2009 (“2009 Annual Report”). The financial information presented in this quarterly report on Form 10-Q for the period ended March 31, 2010 (the “March Report”) should be read in conjunction with our 2009 Annual Report which contains the latest audited financial statements and related notes. The periods presented in this document are the three months ended March 31, 2010 (“2010 Quarter”) and the three months ended March 31, 2009 (“2009 Quarter”).

In the opinion of management, all adjustments of a normal recurring nature considered necessary to present fairly in all material respects our financial position, results of our operations, and cash flows as of and for the three months ended March 31, 2010 and 2009 have been made. The results of operations for the three months ended March 31, 2010 and 2009 are not necessarily indicative of the results of operations to be expected for the entire year.

Marketable Securities

We had investments in marketable securities of \$3.4 million and \$3.1 million at March 31, 2010 and December 31, 2009, respectively. We account for these investments as available for sale investments. We assess our investment in marketable securities for other-than-temporary impairments in accordance with ASC 320-10 for each applicable reporting period. During the three months ended March 31, 2010 and 2009, we recorded other-than-temporary losses of \$0 and \$746,000 on certain marketable securities. Additionally, these investments have a cumulative unrealized gain of \$739,000 included in accumulated other comprehensive income at March 31, 2010. For the three months ended March 31, 2010 and 2009 our net unrealized gain on marketable securities was \$218,000 and \$2,000, respectively.

Other Income/Loss

For the 2010 Quarter, we recorded an other loss of \$582,000 compared to an other loss of \$795,000 for the 2009 Quarter. The 2010 Quarter other loss was primarily related to a \$600,000 litigation loss associated with our Mackie

litigation and 2009 Quarter other loss was primarily related to an other-than-temporary loss in marketable securities of \$746,000.

-4-

Table of Contents

Deferred Leasing Costs

We amortize direct costs incurred in connection with obtaining tenants over the respective term of the lease on a straight-line basis.

Deferred Financing Costs

We amortize direct costs incurred in connection with obtaining financing over the term of the loan using the effective interest method, or the straight-line method, if the result is not materially different. In addition, interest on loans with increasing interest rates and scheduled principal pre-payments, is also recognized using the effective interest method.

Assets Transferred from Held For Sale to Operating

In accordance with SFAS 144 Accounting for the Impairment or Disposal of Long-Lived Assets, we report as discontinued operations real estate assets that meet the definition of a component of an entity and have been sold or meet the criteria to be classified as held for sale under SFAS 144. We previously reported the March 31, 2009 operating results of our Auburn property as a discontinued operation, less applicable income taxes, in a separate component of operations on the unaudited condensed consolidated statements of operations under the heading “discontinued operations,” however, during the second quarter of 2009, the property returned to its operating status when the prospective buyer’s purchase option expired unexecuted. As a result, the following 2009 financial statement amounts were reclassified to operating revenues and expenses to conform to the 2010 presentation:

	Three Months Ended March 31, 2009
Revenue	\$1,094
Operating expense	863
Depreciation and amortization expense	--
Operating income	\$224

New Cinema Lease

On February 12, 2010, we entered into a lease for an approximately 33,000 square foot 8-screen art cinema to be built as a new Angelika branded theater in Merrifield, Virginia.

Accounting Pronouncements Adopted During 2010

FASB ASU 2009-17 – Reporting on Variable Interest Entities

In December 2009, the Financial Accounting Standards Board (FASB) issued ASU 2009-17, “Consolidations (Topic 810): Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities.” This ASU incorporates Statement of Financial Accounting Standards (SFAS) No. 167, “Amendments to FASB Interpretation No. 46(R),” issued by the FASB in June 2009. The amendments in this ASU replace the quantitative-based risks and rewards calculation for determining which reporting entity, if any, has a controlling financial interest in a variable interest entity with an approach focused on identifying which reporting entity has the power to direct the activities of a variable interest entity that most significantly impact such entity’s economic performance and (i) the obligation to absorb losses of such entity or (ii) the right to receive benefits from such entity. ASU 2009-17 also requires additional

disclosures about a reporting entity's involvement in variable interest entities, which enhances the information provided to users of financial statements. We adopted ASU 2009-17 effective January 1, 2010. As a result of the fact that we have no variable interests in variable interest entities, the adoption of this ASU did not have a material impact on our financial position or results of operations.

FASB ASU 2010-06 – Fair Value Measurements

In January 2010, the FASB issued an Accounting Standards Update ("ASU"), ASU 2010-06 to the Fair Value Measurements and Disclosure topic of the Accounting Standards Codification. The ASU clarifies disclosure requirements relating to the level of disaggregation of disclosures relating to classes of assets and liabilities and disclosures about inputs and valuation techniques used to measure fair value for both recurring and nonrecurring fair value estimates for Level 2 or Level 3 assets and liabilities. These requirements of the ASU are effective for interim and annual disclosures for interim and annual reporting periods beginning after December 15, 2009. The adoption of these requirements of the ASU did not have a material effect on the Company's financial statements.

New Accounting Pronouncements

FASB ASU 2010-06 – Fair Value Measurements

The ASU also requires additional disclosures about the transfers of classifications among the fair value classification levels and the reasons for those changes and separate presentation of purchases, sales, issuances and settlements in the presentation of the roll forward of Level 3 assets and liabilities. Those disclosures are effective for interim and annual reporting periods for fiscal years beginning after December 15, 2010. The adoption of this portion of the ASU is not expected to have a material effect on the Company's financial statements.

There were no other new accounting pronouncements issued during the 2010 Quarter that will have a material impact on our financial statements.

Note 2 –Equity and Stock Based Compensation

Equity Compensation

Landplan Property Partners, Pty Ltd

As more fully described in our 2009 Annual Report, we have granted our President of Landplan Property Partners, Pty Ltd ("LPP"), Mr. Doug Osborne, as incentive compensation, a subordinated carried interest in certain property trusts, owned by LPP or its affiliates and formed to acquire and hold LPP's real property investments. The estimated value of Mr. Osborne's incentive interest of \$0 at March 31, 2010 is included in the noncontrolling interest in these property trusts at March 31, 2010 (see Note 14 – Noncontrolling Interest). As more fully described in our 2009 Annual Report, during the three months ended March 31, 2010, we expensed \$0 due to the poor economic performance of the investments associated with LPP. During the three months ended March 31, 2009, we expensed \$49,000 associated with Mr. Osborne's interest.

Table of Contents

Stock Based Compensation

For the three months ended March 31, 2010 and 2009, \$50,000 and \$100,000, respectively, of restricted Class A Non-Voting Common Stock vested related to prior year grants. During the three months ended March 31, 2010, we issued 143,462 of Class A Nonvoting shares to an executive employee associated with his prior years' stock bonuses. For the three months ended March 31, 2010 and 2009, we recorded compensation expense of \$4,000, and \$56,000, respectively, related to the vesting of all our restricted stock grants. For the three months ended March 31, 2010, no restricted stock grants were made to our employees.

Employee/Director Stock Option Plan

We have a long-term incentive stock option plan that provides for the grant to eligible employees and non-employee directors of incentive stock options and non-qualified stock options to purchase shares of the Company's Class A Nonvoting Common Stock. The 1999 Stock Option Plan expired in November 2009. We are currently involved in approval process of a new plan which has been approved by our Board of Directors and is currently pending approval by our shareholders who are scheduled to vote on the new plan during our 2010 annual shareholders meeting in May 2010.

When the Company's tax deduction from an option exercise exceeds the compensation cost resulting from the option, a tax benefit is created. FASB ASC 718-40 relating to Stock-Based Compensation ("FASB ASC 718-40"), requires that excess tax benefits related to stock option exercises be reflected as financing cash inflows instead of operating cash inflows. For the three months ended March 31, 2010 and 2009, there was no impact to the unaudited condensed consolidated statement of cash flows because there were no recognized tax benefits from stock option exercises during these periods.

FASB ASC 718-40 requires companies to estimate forfeitures. Based on our historical experience and the relative market price to strike price of the options, we do not currently estimate any forfeitures of vested or unvested options.

In accordance with FASB ASC 718-40, we estimate the fair value of our options using the Black-Scholes option-pricing model, which takes into account assumptions such as the dividend yield, the risk-free interest rate, the expected stock price volatility, and the expected life of the options. We exclude the dividend yield from the calculation, as we intend to retain all earnings. We expense the estimated grant date fair values of options issued on a straight-line basis over the vesting period.

We granted no options in the three months ended March 31, 2010 or 2009.

Based on these assumptions and in accordance with the FASB ASC 718-40 modified prospective method, we recorded \$14,000 and \$160,000 in compensation expense for the total estimated grant date fair value of stock options that vested during the three months ended March 31, 2010 and 2009, respectively. At March 31, 2010, the total unrecognized estimated compensation cost related to non-vested stock options granted was \$80,000, which we expect to recognize over a weighted average vesting period of 1.7 years. 30,000 options were exercised during the three months ended March 31, 2010 having a realized value of \$47,000 and for which we received \$83,000 of cash. The grant date fair value of options vesting during the three months ended March 31, 2010 and 2009 was \$14,000 and \$160,000, respectively. The intrinsic, unrealized value of all options outstanding, vested and expected to vest, at March 31, 2010 was \$242,000 of which 94.6% are currently exercisable.

Table of Contents

All stock options granted have a contractual life of 10 years at the grant date. The aggregate total number of shares of Class A Nonvoting Common Stock and Class B Voting Common Stock authorized for issuance under our 1999 Stock Option Plan is 1,254,150. At the time that options are exercised, at the discretion of management, we will either issue treasury shares or make a new issuance of shares to the employee or board member. Dependent on the grant letter to the employee or board member, the required service period for option vesting is between zero and four years.

We had the following stock options outstanding and exercisable as of March 31, 2010 and December 31, 2009:

	Common Stock Options Outstanding		Weighted Average Exercise Price of Options Outstanding		Common Stock Exercisable Options		Weighted Average Price of Exercisable Options	
	Class A	Class B	Class A	Class B	Class A	Class B	Class A	Class B
Outstanding- January 1, 2009	577,850	185,100	\$5.60	\$9.90	525,350	110,100	\$5.19	\$9.67
Granted	50,000	--	\$4.01	\$--				
Exercised	(3,000)	--	\$3.80	\$--				
Expired	(35,100)	(35,100)	\$5.13	\$8.47				
Outstanding- December 31, 2009	589,750	150,000	\$5.51	\$10.24	534,750	150,000	\$5.62	\$10.24
Exercised	(30,000)	--	\$2.76	\$--				
Outstanding-March 31, 2010	559,750	150,000	\$5.65	\$10.24	504,750	150,000	\$5.79	\$10.24

The weighted average remaining contractual life of all options outstanding, vested, and expected to vest at March 31, 2010 and December 31, 2009 was approximately 5.01 and 5.05 years, respectively. The weighted average remaining contractual life of the exercisable options outstanding at March 31, 2010 and December 31, 2009 was approximately 4.66 and 4.70 years, respectively.

Note 3 – Business Segments

We organize our operations into two reportable business segments within the meaning of FASB ASC 280-10 - Segment Reporting. Our reportable segments are (1) cinema exhibition and (2) real estate. The cinema exhibition segment is engaged in the development, ownership, and operation of multiplex cinemas. The real estate segment is engaged in the development, ownership, and operation of commercial properties. Incident to our real estate operations we have acquired, and continue to hold, raw land in urban and suburban centers in Australia and New Zealand.

During the three months ended March 31, 2010, we changed our reporting for intercompany property rent where our cinema operations were substantially the only tenant of such property eliminating the intersegment revenue and expense relating to the intercompany rent, and transferred the third party lease costs from the real estate segment to the cinema segment. This change in management's structure of its reportable segments commenced on January 1, 2010, such changes to segment reporting are reflected in the segment results for the three months ended March 31, 2010 and 2009, respectively. The retroactive presentation for the three months ended March 31, 2009 segment results decreased intersegment revenue and expense for the intercompany rent by \$1.1 million and transferred the third party lease costs from the real estate segment to the cinema segment. The overall results of these changes decreased real estate segment revenues and expense by \$1.1 million. This change results in a reduction of real estate operating expense and an increase of cinema operating expense of \$1.1 million on our Condensed Consolidated Statements of Operations for the three months ended March 31, 2009.

The tables below summarize the results of operations for each of our principal business segments for the three months ended March 31, 2010 and 2009, respectively. Operating expense includes costs associated with the day-to-day operations of the cinemas and the management of rental properties including our live theater assets (dollars in thousands):

	2010	2009
Reconciliation to net income attributable to Reading International, Inc. shareholders:	Quarter	Quarter
Total segment operating income	\$8,064	\$5,593
Non-segment:		
Depreciation and amortization expense	198	254
General and administrative expense	3,388	3,453
Operating income	4,478	1,886
Interest expense, net	(3,097)	(4,390)
Other loss	(582)	(795)
Income tax expense	(582)	(351)
Equity earnings of unconsolidated joint ventures and entities	351	495
Net income (loss)	568	(3,155)
Net income attributable to the noncontrolling interest	(215)	(238)
Net income (loss) attributable to Reading International, Inc. common shareholders	\$353	\$(3,393)

Note 4 – Operations in Foreign Currency

We have significant assets in Australia and New Zealand. To the extent possible, we conduct our Australian and New Zealand operations on a self-funding basis. The carrying value of our Australian and New Zealand assets and liabilities fluctuate due to changes in the exchange rates between the US dollar and the functional currency of Australia (Australian dollar) and New Zealand (New Zealand dollar). We have no derivative financial instruments to hedge against the risk of foreign currency exposure.

Presented in the table below are the currency exchange rates for Australia and New Zealand as of March 31, 2010 and December 31, 2009:

	US Dollar	
	March 31, 2010	December 31, 2009
Australian Dollar	\$0.9169	\$0.8979
New Zealand Dollar	\$0.7098	\$0.7255

Table of Contents

Note 5 – Earnings (Loss) Per Share

Basic earnings (loss) per share is computed by dividing the net income (loss) attributable to Reading International, Inc. common shareholders by the weighted average number of common shares outstanding during the period. Diluted earnings (loss) per share is computed by dividing the net income (loss) attributable to Reading International, Inc. common shareholders by the weighted average number of common shares outstanding during the period after giving effect to all potentially dilutive common shares that would have been outstanding if the dilutive common shares had been issued. Stock options and non-vested stock awards give rise to potentially dilutive common shares. In accordance with FASB ASC 260-10 - Earnings Per Share, these shares are included in the diluted earnings per share calculation under the treasury stock method. As noted in the table below, due to the small difference between the basic and diluted weighted average common shares, the basic and the diluted earnings (loss) per share are the same for the 2010 Quarter. The following is a calculation of earnings (loss) per share (dollars in thousands, except share data):

	Three Months Ended March 31,	
	2010	2009
Net income (loss) attributable to Reading International, Inc. common shareholders	\$353	\$(3,393)
Basic and diluted earnings (loss) per share attributable to Reading International, Inc. common share holders	\$0.02	\$(0.15)
Weighted average common stock – basic	22,711,058	22,573,737
Weighted average common stock – diluted	22,758,421	22,573,737

For the three months ended March 31, 2010, the weighted average common stock – diluted included 47,363 of in-the-money incremental stock options. For the three months ended March 31, 2009, we recorded losses from continuing operations. As such, we excluded the incremental shares of 72,978 shares of restricted Class A Non-Voting Common Stock and 28,610 of in-the-money stock options from the computation of diluted loss per share because they were anti-dilutive in those periods. In addition, 662,387 and 699,240 of out-of-the-money stock options were excluded from the computation of diluted earnings (loss) per share for the three months ended March 31, 2010 and 2009, respectively.

Note 6 – Property Held For and Under Development and Property and Equipment

As of March 31, 2010 and December 31, 2009, we owned property held for and under development summarized as follows (dollars in thousands):

	March 31, 2010	December 31, 2009
Property Held For and Under Development		
Land	\$48,710	\$45,629
Construction-in-progress (including capitalized interest)	33,772	33,047
Property held for and under development	\$82,482	\$78,676

We recorded capitalized interest related to our properties under development for the three months ended March 31, 2009 of \$136,000. We have curtailed the development activities of our properties under development and are not currently capitalizing interest expense. Therefore, we did not capitalize any interest during the three months ended March 31, 2010.

Table of Contents

As of March 31, 2010 and December 31, 2009, we owned investments in property and equipment as follows (dollars in thousands):

	March 31, 2010	December 31, 2009
Property and equipment		
Land	\$61,134	\$61,110
Building	123,856	122,784
Leasehold interests	33,708	33,716
Construction-in-progress	2,624	1,807
Fixtures and equipment	87,190	85,235
Total cost	308,512	304,652
Less: accumulated depreciation	(108,119)	(103,903)
Property and equipment, net	\$200,393	\$200,749

Depreciation expense for property and equipment was \$3.3 million and \$3.2 million for the three months ended March 31, 2010 and 2009, respectively.

Note 7 – Investments in Unconsolidated Joint Ventures and Entities

Except as noted below regarding our investment in Malulani Investments, Limited (“MIL”), investments in unconsolidated joint ventures and entities are accounted for under the equity method of accounting, and, as of March 31, 2010 and December 31, 2009, include the following (dollars in thousands):

	Interest	March 31, 2010	December 31, 2009
Rialto Distribution	33.3%	\$ --	\$ --
Rialto Cinemas	50.0%	4,329	4,475
205-209 East 57th Street Associates, LLC	25.0%	124	207
Mt. Gravatt Cinema	33.3%	5,307	5,050
Total investments		\$ 9,760	\$ 9,732

For the three months ended March 31, 2010 and 2009, we recorded our share of equity earnings (loss) from our investments in unconsolidated joint ventures and entities as follows (dollars in thousands):

	Three Months Ended March 31,	
	2010	2009
Rialto Distribution	\$--	\$(91)
Rialto Cinemas	22	88
205-209 East 57th Street Associates, LLC	--	304
Mt. Gravatt Cinema	329	194
Total equity earnings	\$351	\$495

205-209 East 57th Street Associates, LLC – Retail Condominium Sale

The remaining retail condominium of our Place 57 joint venture was sold in February 2009 for approximately \$4.0 million. Based on the closing statements of the sale, our share of the sale price was approximately \$900,000 resulting in earnings to us of \$304,000. On February 10, 2010, we received \$83,000 relating to our investment in the Place 57

joint venture representing a return of substantially all of our remaining initial investment, which was \$3.0 million.

Table of Contents

Note 8 – Goodwill and Intangible Assets

In accordance with FASB ASC 350-20-35, Goodwill - Subsequent Measurement and Impairment, we perform an annual impairment review of our goodwill and other intangible assets on a reporting unit basis, or earlier if changes in circumstances indicate that an asset may be impaired. As of March 31, 2010 and December 31, 2009, we had goodwill consisting of the following (dollars in thousands):

	Cinema	Real Estate	Total
Balance as of December 31, 2009	\$32,187	\$5,224	\$37,411
Change in goodwill due to a purchase price adjustment	(4,381)	--	(4,381)
Foreign currency translation adjustment	(97)	--	(97)
Balance at March 31, 2010	\$27,709	\$5,224	\$32,933

We have intangible assets other than goodwill that are subject to amortization, which we amortize over various periods. We amortize our beneficial leases over the lease period, the longest of which is 20 years; our trade name using an accelerated amortization method over its estimated useful life of 50 years; and our option fee and other intangible assets over 10 years. For the three months ended March 31, 2010 and 2009, amortization expense totaled \$638,000 and \$648,000, respectively.

Intangible assets subject to amortization consist of the following (dollars in thousands):

	Beneficial			Other Intangible	Total
As of March 31, 2010	Leases	Trade name	Option Fee	Assets	
Gross carrying amount	\$24,066	\$7,220	\$2,773	\$451	\$34,510
Less: Accumulated amortization	7,191	2,376	2,734	205	12,506
Total, net	\$16,875	\$4,844	\$39	\$246	\$22,004

	Beneficial			Other Intangible	Total
As of December 31, 2009	Leases	Trade name	Option Fee	Assets	
Gross carrying amount	\$24,079	\$7,220	\$2,773	\$451	\$34,523
Less: Accumulated amortization	6,924	2,051	2,710	183	11,868
Total, net	\$17,155	\$5,169	\$63	\$268	\$22,655

Table of Contents

Note 9 – Prepaid and Other Assets

Prepaid and other assets are summarized as follows (dollars in thousands):

	March 31, 2010	December 31, 2009
Prepaid and other current assets		
Prepaid expenses	\$1,444	\$1,333
Prepaid taxes	709	686
Deposits	301	146
Other	941	913
Total prepaid and other current assets	\$3,395	\$3,078
Other non-current assets		
Other non-cinema and non-rental real estate assets	\$1,134	\$1,134
Long-term deposits	275	269
Deferred financing costs, net	3,499	3,661
Interest rate swap at fair value - non-qualifying hedge	918	766
Other receivables	6,750	6,750
Tenant inducement asset	1,118	1,135
Straight-line rent asset	1,292	1,074
Other	94	118
Total non-current assets	\$15,080	\$14,907

Note 10 – Income Tax

The provision for income taxes is different from the amount computed by applying U.S. statutory rates to consolidated losses before taxes. The significant reason for these differences is as follows (dollars in thousands):

	Three Months Ended March 31,	
	2010	2009
Expected tax provision (benefit)	\$326	\$(1,135)
Increase (decrease) in taxes resulting from:		
Change in valuation allowance, other	(186)	1,181
Foreign income tax provision	146	58
Foreign withholding tax provision	201	157
Tax effect of foreign tax rates on current income	(141)	(46)
State and local tax provision	87	9
Reserve for federal tax litigation	149	127
Actual tax provision	\$582	\$351

During the three months ended March 31, 2010, our FASB ASC 740-10-2a liability increased by \$149,000 reflecting the accrual of interest for IRS matters under litigation.

Table of Contents

Note 11 – Notes Payable and Subordinated Debt (Trust Preferred Securities)

Notes payable and subordinated debt (trust-preferred securities) are summarized as follows (dollars in thousands):

Name of Note Payable or Security	March 31, 2010 Interest Rate	December 31, 2009 Interest Rate	Maturity Date	March 31, 2010 Balance	December 31, 2009 Balance
Australian Corporate Credit Facility	5.79%	5.58%	June 30, 2011	\$ 92,150	\$ 90,239
Australian Shopping Center Loans	--	--	2010-2013	802	786
New Zealand Corporate Credit Facility	4.35%	4.35%	March 31, 2012	13,841	10,882
Trust Preferred Securities	9.22%	9.22%	April 30, 2027	27,913	27,913
US Euro-Hypo Loan	6.73%	6.73%	July 11, 2012	15,000	15,000
US GE Capital Term Loan	6.35%	6.35%	February 21, 2013	32,500	32,700
US Liberty Theaters Term Loans	6.20%	6.20%	April 1, 2013	6,829	6,862
US Nationwide Loan 1	7.50 - 8.50%	7.50 - 8.50%	February 21, 2013	15,339	20,021
US Nationwide Loan 2	8.50%	8.50%	February 21, 2011	1,728	1,693
US Sutton Hill Capital Note 1 – Related Party	10.25%	10.25%	December 31, 2010	5,000	5,000
US Sutton Hill Capital Note 2 – Related Party	8.25%	8.25%	December 31, 2010	9,000	9,000
US Union Square Theatre Term Loan	6.26%	6.26%	May 1, 2010	6,840	6,897
Total				\$ 226,942	\$ 226,993

Union Square Theatre Term Loan

This loan was scheduled to mature on April 1, 2010 because of three 30-day extensions from the January 1, 2010 maturity date. In order for us to finalize our new financing of this property, the lender has granted a fourth 30-day extension that matures on May 1, 2010. On April 30, 2010, we refinanced this loan with another lender (see Note 20 – Subsequent Events).

Nationwide Note 1

During the first quarter of 2010, Nationwide Theaters Corp. (the Seller's note above associated with the Consolidated Cinemas acquisition) and Reading agreed to reduce the seller's note, Nationwide Note 1, by \$4.4 million pursuant to the original sale and purchase agreement. This reduction in the note effectively reduces the original purchase price for the Consolidated Cinemas by \$4.4 million.

Table of Contents

Note 12 – Other Liabilities

Other liabilities are summarized as follows (dollars in thousands):

	March 31, 2010	December 31, 2009
Current liabilities		
Security deposit payable	\$ 188	\$ 143
Contractual commitment loss	--	321
Other	31	(7)
Other current liabilities	\$219	\$457
Other liabilities		
Foreign withholding taxes	\$5,944	\$5,944
Straight-line rent liability	6,376	6,199
Environmental reserve	1,656	1,656
Accrued pension	3,989	3,912
Interest rate swap - non-qualifying hedge	714	785
Acquired leases	3,878	4,042
Other payable	2,603	2,603
Other	682	711
Other liabilities	\$25,842	\$25,852

Included in our other liabilities are accrued pension costs of \$4.0 million. The benefits of our pension plans are fully vested, and, as such, no service costs were recognized for the three months ended March 31, 2010 and 2009. Our pension plans are unfunded; therefore, the actuarial assumptions do not include an estimate for expected return on plan assets. For the three months ended March 31, 2010 and 2009, we recognized \$77,000 and \$69,000, respectively, of interest cost and \$76,000 and \$71,000, respectively, of amortized prior service cost.

Note 13 – Commitments and Contingencies

Unconsolidated Debt

Total debt of unconsolidated joint ventures and entities was \$1.2 million and \$979,000 as of March 31, 2010 and December 31, 2009. Our share of unconsolidated debt, based on our ownership percentage, was \$397,000 and \$326,000 as of March 31, 2010 and December 31, 2009. This loan is guaranteed by one of our subsidiaries to the extent of our ownership percentage.

Litigation Update

IRS Litigation

The Internal Revenue Service (the “IRS”) completed its audits of the tax return of Reading Entertainment Inc. (“RDGE”) for its tax years ended December 31, 1996 through December 31, 1999 and the tax return of Craig Corporation (“CRG”) for its tax year ended June 30, 1997. These companies are each now wholly owned subsidiaries of RDI, but for the time periods under audit, were not consolidated with RDI for tax purposes. With respect to both of these companies, the principal focus of these audits was the treatment of the contribution by RDGE to our wholly owned subsidiary, Reading Australia, and thereafter the subsequent repurchase by Stater Bros. Inc. from Reading Australia, of certain preferred stock in Stater Bros. Inc. (the “Stater Stock”). The Stater Stock was received by RDGE from CRG as a part of

a private placement of securities by RDGE, which closed in October 1996. A second issue involving an equipment-leasing transaction entered into by RDGE (discussed below) has been conceded by RDGE resulting in a net tax refund.

Table of Contents

By letters dated November 9, 2001, the IRS issued reports of examination proposing changes to the tax returns of RDGE and CRG for the years in question (the “Examination Reports”). The Examination Report for each of RDGE and CRG proposed that the gains on the disposition by RDGE of Stater Stock, reported as taxable on the RDGE return, should be allocated to CRG. As reported, the gain resulted in no additional tax to RDGE inasmuch as the gain was entirely offset by a net operating loss carry forward of RDGE. This proposed change would result in an additional tax liability for CRG of approximately \$20.9 million plus interest of approximately \$26.3 million as of March 31, 2010. In addition, this proposal would result in California tax liability of approximately \$5.4 million plus interest of approximately \$7.6 million as of March 31, 2010. Accordingly, this proposed change represented, as of March 31, 2010, an exposure of approximately \$60.2 million.

Moreover, California has “amnesty” provisions imposing additional liability on taxpayers who are determined to have materially underreported their taxable income. While these provisions have been criticized by a number of corporate taxpayers to the extent that they apply to tax liabilities that are being contested in good faith, no assurances can be given that these new provisions will be applied in a manner that would mitigate the impact on such taxpayers. Accordingly, these provisions may cause an additional \$4.0 million exposure to CRG, for a total exposure of approximately \$64.2 million. We have accrued \$6.3 million in accordance with the cumulative probability approach prescribed in Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 740-10-25 – Income Taxes in relation to this exposure and believe that the possible total settlement amount will be between \$6.3 million and \$64.2 million.

In early February 2005, we had a mediation conference with the IRS concerning this proposed change. The mediation was conducted by two mediators, one of whom was selected by the taxpayer from the private sector and one of whom was an employee of the IRS. In connection with this mediation, we and the IRS each prepared written submissions to the mediators setting forth our respective cases. In its written submission, the IRS noted that it had offered to settle its claims against us at 30% of the proposed change, and reiterated this offer at the mediation. This offer constituted, in effect, an offer to settle for a payment of \$5.0 million federal tax, plus interest, for an aggregate settlement amount of approximately \$8.0 million. Based on advice of counsel given after reviewing the materials submitted by the IRS to the mediation panel, and the oral presentation made by the IRS to the mediation panel and the comments of the mediators (including the IRS mediator), we determined not to accept this offer.

Notices of deficiency (“N/D”) dated June 29, 2006 were received with respect to each of RDGE and CRG determining proposed deficiencies of \$20.9 million for CRG and a total of \$349,000 for RDGE for the tax years 1997, 1998 and 1999.

We intend to litigate aggressively the Stater matter in the U.S. Tax Court. A case was filed with the court on September 26, 2006 for each respective N/D. While there are always risks in litigation, we believe that a settlement at the level previously offered by the IRS would have substantially understated the strength of our position and the likelihood that we would prevail in a trial of these matters.

Since these tax liabilities relate to time periods prior to the Consolidation of CDL, RDGE, and CRG into Reading International, Inc. and since RDGE and CRG continue to exist as wholly owned subsidiaries of RDI, it is expected that any adverse determination would be limited in recourse to the assets of RDGE or CRG, as the case may be, and not to the general assets of RDI. At the present time, the assets of these subsidiaries are comprised principally of RDI securities. Accordingly, we do not anticipate, even if there were to be an adverse judgment in favor of the IRS that the satisfaction of that judgment would interfere with the internal operation or result in any levy upon or loss of any of our material operating assets. However, the satisfaction of any such adverse judgment would result in a material dilution to existing stockholder interests.

Table of Contents

The N/D issued to RDGE was conceded by RDGE in August 2008. The net result related to the equipment leasing transaction entered into by RDGE is expected to be a refund of approximately \$750,000 in federal alternative minimum tax for the year 1996, offset by a payment of approximately \$600,000 in federal and state income taxes, for the years 1997-99.

During the three months ended March 31, 2010, our motion for summary judgment was denied on the basis of perceived factual disputes, and trial has been set for late July 2010.

Mackie Litigation

On November 7, 2005, we were sued in the Supreme Court of Victoria at Melbourne by a former construction contractor with respect to the discontinued development of an ETRC at Frankston, Victoria. The action is entitled Mackie Group Pty Ltd (the “Mackie Group”) v. Reading Properties Pty Ltd, and in it the former contractor seeks payment of a claimed fee in the amount of \$917,000 (AUS\$1.0 million). That case was tried in March 2010 before a judge, and a decision in favor of Mackie was rendered on April 16, 2010, finding us responsible to pay fees to Mackie in the amount of \$917,000 (AUS\$1.0 million) plus interest. We currently estimate interest to be approximately \$484,000 (AUS\$528,000). It is also possible that the court will order us to pay a proportion of Mackie Group's costs of the proceeding. We are currently considering whether to appeal that decision. Inclusive of the \$600,000 (AUS\$655,000) accrued in the three months ended March 31, 2010, we have accrued \$1.4 million (AUS\$1.5 million) associated with this judgment against us. See Note 20 – Subsequent Events.

Note 14 – Noncontrolling interests

Noncontrolling interest is composed of the following enterprises:

- 50% membership interest in Angelika Film Centers LLC (“AFC LLC”) owned by a subsidiary of iDNA, Inc.;
- 25% noncontrolling interest in Australia Country Cinemas Pty Ltd (“ACC”) owned by Panorama Cinemas for the 21st Century Pty Ltd.;
 - 33% noncontrolling interest in the Elsternwick Joint Venture owned by Champion Pictures Pty Ltd.;
- 15% incentive interest in certain property holding trusts established by LPP or its affiliates (see Note 2); and
- 25% noncontrolling interest in the Sutton Hill Properties, LLC owned by Sutton Hill Capital, L.L.C.

The components of noncontrolling interest are as follows (dollars in thousands):

	March 31, 2010	December 31, 2009
AFC LLC	\$ 1,127	\$ 1,135
Australian Country Cinemas	211	255
Elsternwick unincorporated joint venture	171	139
Landplan Property Partners	--	--
Sutton Hill Properties	(220)	(155)
Noncontrolling interests in consolidated subsidiaries	\$ 1,289	\$ 1,374

Table of Contents

The components of income attributable to noncontrolling interests are as follows (dollars in thousands):

	Three Months Ended March 31,	
	2010	2009
AFC LLC	\$192	\$205
Australian Country Cinemas	60	28
Elsternwick Unincorporated Joint Venture	28	10
Landplan Property Partners	--	49
Sutton Hill Properties	(65)	(54)
Net income attributable to noncontrolling interests	\$215	\$238

A summary of the changes in controlling and noncontrolling stockholders' equity is as follows (dollars in thousands):

	Reading International, Inc.		Total Stockholders' Equity
	Stockholders' Equity	Noncontrolling Interests	
Equity at – January 1, 2010	\$ 108,889	\$ 1,374	\$ 110,263
Net income	353	215	568
Increase in additional paid in capital	100	--	100
Treasury stock purchased	(251)		(251)
Distributions to noncontrolling interests	--	(308)	(308)
Accumulated other comprehensive income	1,313	8	1,321
Equity at – March 31, 2010	\$ 110,404	\$ 1,289	\$ 111,693

	Reading International, Inc.		Total Stockholders' Equity
	Stockholders' Equity	Noncontrolling Interests	
Equity at – January 1, 2009	\$ 67,630	\$ 1,817	\$ 69,447
Net loss	(3,393)	238	(3,155)
Increase in additional paid in capital	217	--	217
Distributions to noncontrolling interests	--	(36)	(36)
Accumulated other comprehensive income	(2,281)	(1)	(2,282)
Equity at – March 31, 2009	\$ 62,173	\$ 2,018	\$ 64,191

Note 15 – Common Stock

Common Stock Issuance

During the three months ended March 31, 2010, we issued 143,462 of Class A Nonvoting shares to an executive employee associated with his prior years' stock bonuses.

For the stock options exercised during 2010, we issued for cash to an employee of the corporation under our employee stock option plan 30,000 shares of Class A Stock at an exercise price of \$2.76 per share.

Table of Contents

Note 16 – Comprehensive Income (Loss)

U.S. GAAP requires that the effect of foreign currency translation adjustments and unrealized gains and/or losses on securities that are available-for-sale (“AFS”) be classified as comprehensive income (loss). The following table sets forth our comprehensive income (loss) for the periods indicated (dollars in thousands):

	Three Months Ended March 31,	
	2010	2009
Net income	\$ 568	\$ (3,155)
Foreign currency translation gain (loss)	1,027	(2,351)
Amortization of pension prior service costs	76	71
Unrealized gain (loss) on available for sale investments	218	(2)
Comprehensive income (loss)	1,889	(5,437)
Net income attributable to noncontrolling interest	(215)	(238)
Comprehensive income attributable to noncontrolling interest	(8)	1
Comprehensive income (loss) attributable to Reading International, Inc.	\$ 1,666	\$ (5,674)

Note 17 – Derivative Instruments

We are exposed to interest rate changes from our outstanding floating rate borrowings. We manage our fixed to floating rate debt mix to mitigate the impact of adverse changes in interest rates on earnings and cash flows and on the market value of our borrowings. From time to time, we may enter into interest rate hedging contracts, which effectively convert a portion of our variable rate debt to a fixed rate over the term of the interest rate swap. In the case of our Australian borrowings, we are presently required to swap no less than 70% of our drawdowns under our Australian Corporate Credit Facility into fixed interest rate obligations. Under our GE Capital Term Loan, we are required to swap no less than 50% of our variable rate drawdowns for the first two years of the loan agreement.

The following table sets forth the terms of our interest rate swap derivative instruments at March 31, 2010:

Type of Instrument	Notional Amount	Pay Fixed Rate	Receive Variable Rate	Maturity Date
Interest rate swap	\$ 34,000,000	2.854%	0.290%	April 1, 2011
Interest rate swap	\$ 44,222,000	4.550%	4.328%	December 31, 2011
Interest rate cap	\$ 23,812,000	4.550%	4.328%	December 31, 2011

In accordance with FASB ASC 815-10-35, Subsequent Valuation of Derivative Instruments and Hedging Instruments (“FASB ASC 815-10-35”), we marked our interest rate swap instruments to market on the consolidated balance sheet resulting in a decrease in interest expense of \$211,000 and an increase in interest expense of \$243,000 during the three months ended March 31, 2010 and 2009, respectively. At March 31, 2010, we recorded the fair market value of an interest rate swap and a cap of \$918,000 as other long-term assets and an interest rate swap of \$714,000 as an other long-term liability. At December 31, 2009, we recorded the fair market value of an interest rate swap and a cap of \$766,000 as other long-term assets and an interest rate swap of \$785,000 as an other long-term liability. In accordance with FASB ASC 815-10-35, we have not designated any of our current interest rate swap positions as financial reporting hedges.

Table of Contents

Note 18 – Fair Value of Financial Instruments

We measure the following items at fair value on a recurring basis subject to the disclosure requirements of FASB ASC 820-20, Fair Value of Financial Instruments (dollars in thousands):

Financial Instrument	Level	Book Value		Fair Value	
		March 31, 2010	December 31, 2009	March 31, 2010	December 31, 2009
Investment in marketable securities	1	\$3,393	\$3,120	\$3,393	\$3,120
Interest rate swap & cap assets	2	\$918	\$766	\$918	\$766
Interest rate swap liability	2	\$714	\$785	\$714	\$785

ASC 820-10 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The statement requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

- Level 1: Quoted market prices in active markets for identical assets or liabilities.
- Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.
- Level 3: Unobservable inputs that are not corroborated by market data (were not used to value any of our assets).

We used the following methods and assumptions to estimate the fair values of the assets and liabilities:

Level 1 Fair Value Measurements – are based on market quotes of our marketable securities.

Level 2 Fair Value Measurements –

Interest Rate Swaps – The fair value of interest rate swaps are estimated using internal discounted cash flow calculations based upon forward interest rate curves, which are corroborated by market data, and quotes obtained from counterparties to the agreements.

Level 3 Fair Value Measurements – we do not have any assets or liabilities that fall into this category.

As of March 31, 2010, we held certain items that are required to be measured at fair value on a recurring basis. These included cash equivalents, available for sale securities, and interest rate derivative contracts. Cash equivalents consist of short-term, highly liquid, income-producing investments, all of which have maturities of 90 days or less. Derivative instruments are related to our economic hedge of interest rates. Our available-for-sale securities primarily consist of investments associated with the ownership of marketable securities in Australia.

The fair values of the interest rate swap agreements are determined using the market standard methodology of discounting the future cash payments and cash receipts on the pay and receive legs of the interest swap agreements that have the net effect of swapping the estimated variable rate note payment stream for a fixed rate payment stream over the period of the swap. The variable interest rates used in the calculation of projected receipts on the interest rate swap and cap agreements are based on an expectation of future interest rates derived from observable market interest rate curves and volatilities. To comply with the provisions of ASC 820-10, we incorporate credit valuation adjustments to appropriately reflect both our own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. Although we have determined that the majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated

with our derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by us and our counterparties. However, as of March 31, 2010, we have assessed the significance of the impact of the credit valuation adjustments on the overall valuation and determined that the credit valuation adjustments are not significant to the overall valuation of our derivatives. As a result, we have determined that our derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy. The nature of our interest rate swap derivative instruments is described in Note 17 – Derivative Instruments.

We have consistently applied these valuation techniques in all periods presented and believe we have obtained the most accurate information available for the types of derivative contracts we hold. Additionally, There were no transfers of assets and liabilities between levels 1, 2, or 3 during the three months ended March 31, 2010

Financial Instruments Disclosed at Fair Value

The following table sets forth the carrying value and the fair value of our financial assets and liabilities at March 31, 2010 and December 31, 2009 (dollars in thousands):

Financial Instrument	Book Value		Fair Value	
	March 31, 2010	December 31, 2009	March 31, 2010	December 31, 2009
Notes payable	\$185,029	\$185,080	\$164,172	\$172,946
Notes payable to related party	\$14,000	\$14,000	\$N/A	\$N/A
Subordinated debt (trust preferred securities)	\$27,913	\$27,913	\$19,847	\$20,416

The fair value of notes payable to related party cannot be determined due to the related party nature of the terms of the notes payable.

We estimated the fair value of our secured mortgage notes payable, our unsecured notes payable, trust preferred securities, and other debt instruments by performing discounted cash flow analyses using an appropriate market discount rate. We calculated the market discount rate by obtaining period-end treasury rates for fixed-rate debt, or LIBOR rates for variable-rate debt, for maturities that correspond to the maturities of our debt, adding appropriate credit spreads derived from information obtained from third-party financial institutions. These credit spreads take into account factors such as our credit standing, the maturity of the debt, whether the debt is secured or unsecured, and the loan-to-value ratios of the debt.

Table of Contents

Note 19 - Acquisitions

Manukau Land Purchase

On April 30, 2009, we entered into an agreement to purchase for \$3.6 million (NZ\$5.2 million) a property adjacent to our Manukau property. An initial deposit of \$26,000 (NZ\$50,000) was paid upon signing of the agreement, a second deposit of \$175,000 (NZ\$258,000) was paid in the second quarter of 2009 and a third deposit of \$531,000 (NZ\$773,000) was paid in August 2009. The fourth and final purchase payment of \$2.9 million (NZ\$4.1 million) was made on March 31, 2010 completing our acquisition of this land parcel.

Note 20 – Subsequent Events

Union Square Loan

On April 30, 2010, we refinanced the loan secured by our Union Square property with another lender. The new loan in the amount of \$7.5 million has a five-year term with a fixed interest rate of 5.92% per annum and an amortization payment schedule of 20 years and a balloon payment of approximately \$6.4 million at the end of the five years.

Mackie Litigation

On April 16, 2010, a decision in favor of Mackie was rendered, finding us responsible to pay fees to Mackie in the amount of \$917,000 (AUS\$1.0 million) plus interest. We currently estimate interest to be approximately \$484,000 (AUS\$528,000). It is also possible that the court will order us to pay a proportion of Mackie Group's costs of the proceeding. We are currently considering whether to appeal that decision. We have accrued \$1.4 million (AUS\$1.5 million) associated with this judgment against us. See Note 13 – Commitments and Contingencies.

Blythe Township

In 1996, we sold our interest in a certain coal property located in Blythe Township Pennsylvania for \$525,000, plus certain royalty rights tied to the amount of coal realized from mining operations on the property. Our interest in that coal property was subject to certain adverse claims, which resulted in litigation to which we were not a party and our sale arrangement provided that the purchase price was subject to repayment (in whole or in part) depending upon the resolution of that litigation. Accordingly, we have through the end of the March quarter reserved 100% of that purchase price. That litigation has now been resolved, and as a result, we will be taking the \$525,000 portion of the purchase price into income in our June quarter. Since the coal is located under an existing municipal reservoir, we have to date assigned no value to the royalty interest.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

We are an internationally diversified company principally focused on the development, ownership, and operation of entertainment and real property assets in the United States, Australia, and New Zealand. Currently, we operate in two business segments:

- cinema exhibition, through our 59 multiplex cinemas, and
- real estate, including real estate development and the rental of retail, commercial and live theater assets.

We believe that these two business segments can complement one another, as we can use the comparatively consistent cash flows generated by our cinema operations to fund the front-end cash demands of our real estate development business.

We manage our worldwide cinema exhibition businesses under various different brands:

- in the US, under the Reading, Angelika Film Center, Consolidated Amusements, and City Cinemas brands;
 - in Australia, under the Reading brand; and
 - in New Zealand, under the Reading and Rialto brands.

We believe cinema exhibition to be a business that will likely continue to generate consistent cash flows in the years ahead. We base this on our belief that people will continue to spend some reasonable portion of their entertainment dollar on entertainment outside of the home and that, when compared to other forms of outside the home entertainment, movies continue to be a popular and competitively priced option. During the third quarter of 2009, we leased two existing cinemas in New York City with 3 screens but elected not to renew the lease of our 5-screen cinema in Market City, Australia. We anticipate that our cinema operations will continue as our main source of cash flow and will support our real estate oriented activities.

In short, while we do have operating company attributes, we see ourselves principally as a hard asset company and intend to add to shareholder value by building the value of our portfolio of tangible assets.

In addition, we may from time to time identify opportunities to expand our existing businesses and asset base, or to otherwise profit, through the acquisition of interests in other publicly traded companies, both in the United States and in the overseas jurisdictions in which we do business. We may also take positions in private companies in addition to our investments in various private cinema joint ventures.

At March 31, 2010, we owned and operated 53 cinemas with 425 screens, had interests in certain unconsolidated joint ventures and entities that own an additional 4 cinemas with 32 screens and managed 2 cinemas with 9 screens. We anticipate opening the following two newly leased cinemas:

- one in Newcastle NSW, Australia with 8 screens which we anticipate will open in October 2010; and
- the Angelika branded cinema in Merrifield, Virginia with 8 screens which we anticipate will open in late 2011.

On July 24, 2009, we signed a lease with the City of Brisbane, Australia to lease our Indooroopilly building to them for an initial three-year period with two three-year options. Although we have curtailed our development activities, we remain opportunistic in our acquisitions of cinema and real estate assets. Our business plan going forward is to

continue the build-out of our existing development properties and to seek out additional, profitable real estate development opportunities while continuing to use and judiciously expand our presence in the cinema exhibition by identifying, developing, and acquiring cinema properties when and where appropriate. In addition, we will continue to investigate potential synergistic acquisitions that may not readily fall into either of our two currently identified segments.

-21-

Table of Contents

We continue to acquire, to dispose of, or to reposition assets in accordance with our business plan. For a description of our acquisitions so far in 2010, see Note 19 – Acquisitions to our March 31, 2010 Condensed Consolidated Financial Statements.

Results of Operations

At March 31, 2010, we owned and operated 53 cinemas with 425 screens, had interests in certain unconsolidated joint ventures and entities that own an additional 4 cinemas with 32 screens and managed 2 cinemas with 9 screens. In real estate during the period, we (i) owned and operated four ETRC's that we developed in Australia and New Zealand, (ii) owned the fee interests in four developed commercial properties in Manhattan and Chicago improved with live theaters comprising seven stages and ancillary retail and commercial space, (iii) owned the fee interests underlying one of our Manhattan cinemas, and (iv) held for development an additional seven parcels aggregating approximately 129 acres located principally in urbanized areas of Australia and New Zealand. Two of these parcels held for development, Burwood and Moonee Ponds, comprise approximately 54 acres, and are in areas designated by the provincial government of Victoria, Australia as either a "major" or "principal activity centre."

Operating expense includes costs associated with the day-to-day operations of the cinemas and the management of rental properties, including our live theater assets. Our year-to-year results of operation were principally impacted by the following:

- strong revenue growth from our cinema exhibition segment driven primarily by the availability of good 3D content and our ability to show these films on our newly implemented 3D projectors;
- the fluctuation in the value of the Australian and New Zealand dollars vis-à-vis the US dollar resulting in an increase in results of operations for our foreign operations for 2010 compared to 2009.

During the three months ended March 31, 2010, we changed our reporting for intercompany property rent where our cinema operations were substantially the only tenant of such property eliminating the intersegment revenue and expense relating to the intercompany rent, and transferred the third party lease costs from the real estate segment to the cinema segment. This change in management's structure of its reportable segments commenced on January 1, 2010, such changes to segment reporting are reflected in the segment results for the three months ended March 31, 2010 and 2009, respectively. The retroactive presentation for the three months ended March 31, 2009 segment results decreased intersegment revenue and expense for the intercompany rent by \$1.1 million and transferred the third party lease costs from the real estate segment to the cinema segment. The overall results of these changes decreased real estate segment revenues and expense by \$1.1 million. This change results in a reduction of real estate operating expense and an increase of cinema operating expense of \$1.1 million on our Condensed Consolidated Statements of Operations for the three months ended March 31, 2009.

The tables below summarize the results of operations for each of our principal business segments for the three months ended March 31, 2010 ("2010 Quarter") and the three months ended March 31, 2009 ("2009 Quarter") (dollars in thousands):

Three months ended March 31, 2010	Cinema		Intersegment	Total

Cinema Exhibition Segment

Included in the cinema exhibition segment above is revenue and expense from the operations of 53 cinema complexes with 425 screens during the 2010 Quarter and 52 cinema complexes with 427 screens during the 2009 Quarter and management fee income from 2 cinemas with 9 screens in both years. The following tables detail our cinema exhibition segment operating results for the three months ended March 31, 2010 and 2009, respectively (dollars in thousands):

Three Months Ended March 31, 2010	United States	Australia	New Zealand	Total
Admissions revenue	\$18,179	\$16,324	\$4,508	\$39,011

- Cinema revenue increased for the 2010 Quarter by \$10.4 million or 24.0% compared to the same period in 2009. The 2010 Quarter increase was primarily from our Australia and New Zealand cinema operations, which accounted for \$10.3 million of the increase related in part to higher admissions for the 2010 Quarter by comparison to 2009 coupled with an increase in the average ticket price primarily associated with the recently released 3D movies. Additionally, we recorded higher revenues for both our Australia and New Zealand cinema operations in 2010 compared to 2009 due to a year over year increase in the value of the Australia and New Zealand dollars compared to the U.S. dollar. This increase translated to higher Australian and New Zealand revenues for the 2010 Quarter compared to the 2009 Quarter (see below). Also, we made certain internal reporting changes to our intersegment revenue recognition between our cinema and real estate segments which resulted in an increase in other cinema revenues of \$116,000 in the U.S. Our U.S. cinemas did not experience the same uplift in revenues as noted from our Australia and New Zealand cinemas due to increased competition at one of our cinemas and decreased revenues from our art cinemas.
- Operating expense increased for the 2010 Quarter by \$8.2 million or 22.6% compared to the same period in 2009. This increase followed the increased revenues noted above. Also, as mentioned above, we made certain internal reporting changes to our intersegment cost recognition between our cinema and real estate segments that resulted in an increase in our cinema expenses of \$67,000 in the U.S. Overall, our operating expense as a percent of gross revenue decreased from 84% to 83% from the 2009 Quarter to the 2010 Quarter.
- Depreciation and amortization expense decreased for the 2010 Quarter by \$356,000 or 12.2% compared to the same period in 2009 primarily related to the short useful lives of the used assets associated with our Consolidated Entertainment cinemas purchased February 1998.
- General and administrative costs decreased for the 2010 Quarter by \$209,000 or 26.1% compared to the same period in 2009 primarily related to cost cutting measures throughout the segment.
- For our statement of operations, Australia and New Zealand quarterly average exchange rates have increased by 36.1% and 32.9%, respectively, since the 2009 Quarter, which had an impact on the individual components of our income statement.
- Because of the above, cinema segment income increased for the 2010 Quarter by \$2.7 million compared to the same period in 2009.

Table of Contents

Real Estate Segment

The following tables detail our real estate segment operating results for the three months ended March 31, 2010 and 2009, respectively (dollars in thousands):

Three Months Ended March 31, 2010	United States	Australia	New Zealand	Total
Live theater rental and ancillary income	\$510	\$--	\$--	\$510
Property rental income	437	3,111	1,642	5,190
Total revenues	947	3,111	1,642	5,700
Live theater costs	458	--	--	458
Property rental cost	153	1,216	440	1,809
Total operating expense	611	1,216	440	2,267
Depreciation and amortization	80	690	383	1,153
General & administrative expense	--	226	(1)	225
Segment operating income	\$256	\$979	\$820	\$2,055

Three Months Ended March 31, 2009	United States	Australia	New Zealand	Total
Live theater rental and ancillary income	\$911	\$--	\$--	\$911
Property rental income	403	2,288	1,384	4,075
Total revenues	1,314	2,288	1,384	4,986
Live theater costs	455	--	--	455
Property rental cost	232	806	315	1,353
Total operating expense	687	806	315	1,808
Depreciation and amortization	83	303	295	681
General & administrative expense	11	153	16	180
Segment operating income	\$533	\$1,026	\$758	\$2,317

- Real estate revenue increased for the 2010 Quarter by \$714,000 or 14.3% compared to the same period in 2009. Real estate revenue increased from our Australia properties and stayed steady from our New Zealand properties, primarily due to a year over year increase in the value of the Australia and New Zealand dollars compared to the U.S. dollar. This increase translated to higher Australian and New Zealand revenues for the 2010 Quarter compared to the 2009 Quarter (see below). These increases in revenue were somewhat offset by a \$401,000 decrease in live theater revenue due to a reduction in the number of Off-Broadway productions in the U.S.
- Operating expense for the real estate segment increased for the 2010 Quarter by \$459,000 or 25.4% compared to the same period in 2009. This increase followed the increased revenues noted above.
- Depreciation expense for the real estate segment increased by \$472,000 or 69.3% for the 2010 Quarter compared to the same period in 2009 primarily due to the impact of currency exchange rates (see below).

Table of Contents

- General and administrative costs increased for the 2010 Quarter by \$45,000 or 25% compared to the same period in 2009 primarily due to the impact of currency exchange rate increases (see below).
- For our statement of operations, Australia and New Zealand quarterly average exchange rates have decreased by 36.1% and 32.9%, respectively, since the 2009 Quarter, which had an impact on the individual components of our income statement.
- As a result of the above, real estate segment income decreased for the 2010 Quarter by \$262,000 compared to the same period in 2009.

Corporate

General and administrative expense includes expenses that are not directly attributable to other operating segments. General and administrative expense decreased by \$65,000 in the 2010 Quarter compared to the 2009 Quarter related to decreases in payroll expense and audit fees offset by an increase in legal fees primarily associated with our current tax litigation despite currency changes that increased the Australia and New Zealand reported expense.

Net interest expense decreased by \$1.3 million for the 2010 Quarter compared to the 2009 Quarter. The decrease in interest expense during the 2010 Quarter was primarily related to changes to our interest rate swaps combined with a lower debt balance and somewhat lower interest rates for the 2010 Quarter compared to the same period last year.

For the 2010 Quarter, we recorded an other loss of \$582,000 compared to an other loss of \$795,000 for the 2009 Quarter. The 2010 Quarter other loss was primarily related to a \$600,000 litigation loss associated with our Mackie litigation and 2009 Quarter other loss was primarily related to an other-than-temporary loss in marketable securities of \$746,000.

For the 2010 Quarter, we recorded a decrease in our equity earnings of unconsolidated joint ventures and entities of \$144,000 primarily related to the last condominium being sold associated with our Place 57 investment during the 2009 Quarter. This decrease was somewhat offset by an increase in equity earnings from our Mt. Gravatt investment.

Net Income (Loss) Attributable to Reading International, Inc. Common Shareholders

During 2010, we recorded net income attributable to Reading International, Inc. common shareholders of \$353,000 for the 2010 Quarter compared to a net loss attributable to Reading International, Inc. common shareholders of \$3.4 million for the 2009 Quarter, respectively.

Acquisition

Manukau Land Purchase

On April 30, 2009, we entered into an agreement to purchase for \$3.6 million (NZ\$5.2 million) a property adjacent to our Manukau property. An initial deposit of \$26,000 (NZ\$50,000) was paid upon signing of the agreement, a second deposit of \$175,000 (NZ\$258,000) was paid in the second quarter of 2009 and a third deposit of \$531,000 (NZ\$773,000) was paid in August 2009. The fourth and final purchase payment of \$2.9 million (NZ\$4.1 million) was made on March 31, 2010.

Table of Contents

Business Plan, Capital Resources, and Liquidity

Business Plan

Our cinema exhibition business plan is to continue to identify, develop, and acquire cinema properties, where reasonably available, that allow us to leverage our cinema expertise and technology over a larger operating base. Our real estate business plan is to continue development of our existing land assets to be sensitive to opportunities to convert our entertainment assets to higher and better uses, or, when appropriate, dispose of such assets. Because we believe that current economic conditions are not conducive to obtaining the pre-construction leasing commitments necessary to justify commencement of construction, we currently focus our development efforts on improving and enhancing land entitlements and negotiating with end users for build to suit projects. We will also continue to investigate potential synergistic acquisitions that may not readily fall into either of our two currently identified segments.

Contractual Obligations

The following table provides information with respect to the maturities and scheduled principal repayments of our secured debt and lease obligations at March 31, 2010 (in thousands):

	2010	2011	2012	2013	2014	Thereafter	Total
Debt	\$1,047	\$96,887	\$29,855	\$51,294	\$394	\$5,552	\$185,029
Notes payable to related parties	14,000	--	--	--	--	--	14,000
Subordinated notes (trust preferred securities)	--	--	--	--	--	27,913	27,913
Pension liability	5	15	23	32	40	3,309	3,424
Lease obligations	19,871	26,004	24,459	22,133	19,155	67,641	179,263
Estimated interest on debt	8,937	9,974	4,244	1,960	1,497	14,594	41,206
Total	\$43,860	\$132,880	\$58,581	\$75,419	\$21,086	\$119,009	\$450,835

On April 30, 2010, we refinanced the loan secured by our Union Square property with another lender. As this loan was refinanced prior to the filing of this document, we classified the March 31, 2010 \$6.8 million loan balance as current and reflected its principal payments and interest payments in the above table pursuant to the new loan agreement.

We base estimated interest on long-term debt on the anticipated loan balances for future periods calculated against current fixed and variable interest rates.

We adopted FASB ASC 740-10-2a, Accounting for Uncertainty in Income Taxes on January 1, 2007. As of adoption, the total amount of gross unrecognized tax benefits for uncertain tax positions was \$12.5 million increasing to \$15.6 million as of March 31, 2010. We do not expect a significant tax payment related to these obligations within the next 12 months.

Unconsolidated Debt

Total debt of unconsolidated joint ventures and entities was \$1.2 million and \$979,000 as of March 31, 2010 and December 31, 2009. Our share of unconsolidated debt, based on our ownership percentage, was \$397,000 and \$326,000 as of March 31, 2010 and December 31, 2009. This loan is guaranteed by one of our subsidiaries to the extent of our ownership percentage.

Off-Balance Sheet Arrangements

There are no off-balance sheet transactions, arrangements or obligations (including contingent obligations) that have, or are reasonably likely to have, a current or future material effect on our financial condition, changes in the financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources.

Table of Contents

Currency Risk

We are subject to currency risk because we conduct a significant portion of our business in Australia and New Zealand. Set forth below is a chart indicating the various exchange rates at certain points in time for the Australian and New Zealand Dollar vis-à-vis the US Dollar over the past 20 years.

We do not engage in currency hedging activities. Rather, to the extent possible, we operate our Australian and New Zealand operations on a self-funding basis. Our policy in Australia and New Zealand is to match revenues and expenses, whenever possible, in local currencies. As a result, we have procured in local currencies the majority of our expenses in Australia and New Zealand. Due to the developing nature of our operations in Australia and New Zealand and our historic practice of funding our asset growth through local borrowings, our revenues are not yet significantly greater than our operating expenses and interest charges in these countries. As we continue to progress with our acquisition and development activities in Australia and New Zealand, the effect of variations in currency values will likely increase.

Liquidity and Capital Resources

Our ability to generate sufficient cash flows from operating activities in order to meet our obligations and commitments drives our liquidity position. This is further affected by our ability to obtain adequate, reasonable financing and/or to convert non-performing or non-strategic assets into cash.

Currently, our liquidity needs arise primarily from:

- capital expenditure needs for our expanding digital and 3D implementations;
- working capital requirements; and
- debt servicing requirements.

Table of Contents

At March 31, 2010, we had approximately \$5.0 million (AUS\$5.5 million) in undrawn funds under our Australian Corporate Credit Facility and \$18.1 million (NZ\$25.5 million) available under our line of credit in New Zealand. Accordingly, we believe that we have sufficient borrowing capacity under our Australian Corporate Credit Facility and our New Zealand line of credit to meet our anticipated short-term working capital requirements.

Our U.S. Union Square Theatre loan matured on January 1, 2010. The lender has provided us four 30-day extensions to allow us to finalize our new financing of this property from another lender. The fourth 30-day extension matures on May 1, 2010. This refinancing occurred on April 30, 2010 (see Note 20 – Subsequent Events).

Under the 2000 City Cinemas transaction, we have reached a verbal agreement with the principal of Sutton Hill Capital to restructure the two notes aggregating \$14.0 million. We are currently in the process of documenting this verbal agreement, whose revised terms call for a partial repayment in 2010 and a deferral of the remainder through a date in 2013.

Operating Activities

Cash provided by operations was \$3.7 million in the 2010 Quarter compared to \$730,000 used in operations in the 2009 Quarter. The increase in cash provided by operations of \$4.4 million was due primarily to a \$2.0 million increase of cash provided by changes in operating assets and liabilities and a \$2.4 million overall increase of operational cash flows.

Investing Activities

Cash used in investing activities for the 2010 Quarter decreased by \$8.1 million to \$4.4 million from \$12.6 million compared to the same period in 2009. The \$4.4 million cash used for the 2010 Quarter was primarily related to:

- \$1.9 million in property enhancements to our existing properties;
- \$2.9 million to purchase a property adjacent to our Manukau property;

offset by

- \$204,000 of change in restricted cash; and
- \$132,000 in return of investment of unconsolidated entities.

The \$12.6 million cash used for the 2009 Quarter was primarily related to:

- \$1.8 million in property enhancements to our existing properties; and
- \$11.5 million to purchase marketable securities to exchange for our Reading International Trust I securities;

offset by

- \$433,000 of change in restricted cash; and
- \$265,000 receipt of an option payment for the Auburn property.

Table of Contents

Financing Activities

Cash provided by financing activities for the 2010 Quarter was \$2.4 million compared to \$1.9 million of cash used in financing activities for the same period in 2009 resulting in a change of \$4.4 million. The \$2.4 million in cash provided by financing activities during the 2010 Quarter was primarily related to:

- \$3.2 million of borrowing on our New Zealand credit facility; and
- \$83,000 of proceeds from the exercise of employee stock options;

offset by

- \$289,000 of loan repayments;
- \$251,000 of repurchase of Class A Nonvoting Common Stock; and
- \$309,000 in noncontrolling interest distributions.

The \$1.9 million in cash used in the 2009 Quarter was primarily related to:

- \$3.1 million of loan repayments;

offset by

- \$1.2 million of borrowing on our Australia credit facilities.

Critical Accounting Policies

The SEC defines critical accounting policies as those that are, in management's view, most important to the portrayal of the company's financial condition and results of operations and the most demanding in their calls on judgment. Although accounting for our core business of cinema and live theater exhibition with a real estate focus is relatively straightforward, we believe our most critical accounting policies relate to:

- impairment of long-lived assets, including goodwill and intangible assets;
- tax valuation allowance and obligations; and
- legal and environmental obligations.

We discuss these critical accounting policies in our 2009 Annual Report and advise you to refer to that discussion.

Financial Risk Management

Our internally developed risk management procedure, seeks to minimize the potentially negative effects of changes in currency exchange rates and interest rates on the results of operations. Our primary exposure to fluctuations in the financial markets is currently due to changes in currency exchange rates between U.S and Australia and New Zealand, and interest rates.

As our operational focus continues to shift to Australia and New Zealand, unrealized foreign currency translation gains and losses could materially affect our financial position. We currently manage our currency exposure by creating, whenever possible, natural hedges in Australia and New Zealand. This involves local country sourcing of goods and services as well as borrowing in local currencies.

Our exposure to interest rate risk arises out of our long-term debt obligations. Consistent with our internally developed guidelines, we seek to reduce the negative effects of changes in interest rates by changing the character of the interest rate on our long-term debt, converting a variable rate into a fixed rate. Our internal procedures allow us to enter into derivative contracts on certain borrowing transactions to achieve this goal. Our Australian credit facilities provide for floating interest rates but require that not less than a certain percentage of the loans be swapped into fixed rate obligations using derivative contracts.

Table of Contents

In accordance with FASB ASC 815-10-35, Subsequent Valuation of Derivative Instruments and Hedging Instruments (“FASB ASC 815-10-35”), we marked our interest rate swap instruments to market on the consolidated balance sheet resulting in a decrease in interest expense of \$211,000 and an increase in interest expense of \$243,000 during the three months ended March 31, 2010 and 2009, respectively. At March 31, 2010, we recorded the fair market value of an interest rate swap and a cap of \$918,000 as other long-term assets and an interest rate swap of \$714,000 as an other long-term liability. At December 31, 2009, we recorded the fair market value of an interest rate swap and a cap of \$766,000 as other long-term assets and an interest rate swap of \$785,000 as an other long-term liability. In accordance with FASB ASC 815-10-35, we have not designated any of our current interest rate swap positions as financial reporting hedges.

Inflation

We continually monitor inflation and the effects of changing prices. Inflation increases the cost of goods and services used. Competitive conditions in many of our markets restrict our ability to recover fully the higher costs of acquired goods and services through price increases. We attempt to mitigate the impact of inflation by implementing continuous process improvement solutions to enhance productivity and efficiency and, as a result, lower costs and operating expenses. In our opinion, we have managed the effects of inflation appropriately, and, as a result, it has not had a material impact on our operations and the resulting financial position or liquidity.

Litigation

We are currently, and are from time to time, involved with claims and lawsuits arising in the ordinary course of our business. Some examples of the types of claims are:

- contractual obligations;
- insurance claims;
- IRS claims;
- employment matters;
- environmental matters; and
- anti-trust issues.

Where we are the plaintiffs, we expense all legal fees on an on-going basis and make no provision for any potential settlement amounts until received. In Australia, the prevailing party is entitled to recover its attorneys fees, which typically works out to be approximately 60% of the amounts actually spent where first class legal counsel is engaged at customary rates. Where we are a plaintiff, we have likewise made no provision for the liability for the defendant’s attorneys’ fees in the event we are determined not to be the prevailing party.

Where we are the defendants, we accrue for probable damages, which insurance may not cover, as they become known and can be reasonably estimated. In our opinion, any claims and litigation in which we are currently involved are not reasonably likely to have a material adverse effect on our business, results of operations, financial position, or liquidity. However, we do not give any assurance as to the ultimate outcome of such claims and litigation. The resolution of such claims and litigation could be material to our operating results for any particular period, depending on the level of income for such period. Except as noted below regarding Malulani Investments, Limited (“MIL”), there have been no material changes to our litigation exposure since our 2009 Annual Report.

Table of Contents

Forward-Looking Statements

Our statements in this interim quarterly report contain a variety of forward-looking statements as defined by the Securities Litigation Reform Act of 1995. Forward-looking statements reflect only our expectations regarding future events and operating performance and necessarily speak only as of the date the information was prepared. We cannot guarantee that our expectation will be realized in whole or in part. You can recognize these statements by our use of words such as, by way of example, “may,” “will,” “expect,” “believe,” and “anticipate” or other similar terminology.

These forward-looking statements reflect our expectation after having considered a variety of risks and uncertainties. However, they are necessarily the product of internal discussion and do not necessarily completely reflect the views of individual members of our Board of Directors or of our management team. Individual Board members and individual members of our management team may have different views as to the risks and uncertainties involved, and may have different views as to future events or our operating performance.

Among the factors that could cause actual results to differ materially from those expressed in or underlying our forward-looking statements are the following:

- With respect to our cinema operations:
 - o The number and attractiveness to movie goers of the films released in future periods;
 - o The amount of money spent by film distributors to promote their motion pictures;
 - o The ability to implement digital and 3D projectors throughout our cinema circuits worldwide;
 - o The licensing fees and terms required by film distributors from motion picture exhibitors in order to exhibit their films;
 - o The continued willingness of moviegoers to spend money on our concession items;
 - o The comparative attractiveness of motion pictures as a source of entertainment and willingness and/or ability of consumers (i) to spend their dollars on entertainment and (ii) to spend their entertainment dollars on movies in an outside the home environment;
 - o The extent to which we encounter competition from other cinema exhibitors, from other sources of outside of the home entertainment, and from inside the home entertainment options, such as “home theaters” and competitive film product distribution technology such as, by way of example, cable, satellite broadcast, DVD and VHS rentals and sales, and so called “movies on demand;” and
 - o The extent to and the efficiency with which, we are able to integrate acquisitions of cinema circuits with our existing operations.
- With respect to our real estate development and operation activities:
 - o The rental rates and capitalization rates applicable to the markets in which we operate and the quality of properties that we own;
 - o The extent to which we can obtain on a timely basis the various land use approvals and entitlements needed to develop our properties;

- o The risks and uncertainties associated with real estate development;
 - o The availability and cost of labor and materials;

Table of Contents

- o Competition for development sites and tenants;
 - o Environmental remediation issues; and
 - o The extent to which our cinemas can continue to serve as an anchor tenant who will, in turn, be influenced by the same factors as will influence generally the results of our cinema operations.
- With respect to our operations generally as an international company involved in both the development and operation of cinemas and the development and operation of real estate:
 - o Our ongoing access to borrowed funds and capital and the interest that must be paid on that debt and the returns that must be paid on such capital;
 - o The relative values of the currency used in the countries in which we operate;
 - o Changes in government regulation;
 - o Our labor relations and costs of labor (including future government requirements with respect to pension liabilities, disability insurance and health coverage, and vacations and leave);
 - o Our exposure from time to time to legal claims and to uninsurable risks such as those related to our historic railroad operations, including potential environmental claims and health related claims relating to alleged exposure to asbestos or other substances now or in the future, recognized as being possible causes of cancer or other health related problems;
 - o Changes in future effective tax rates and the results of currently ongoing and future potential audits by taxing authorities having jurisdiction over our various companies; and
 - o Changes in applicable accounting policies and practices.

The above list is not exhaustive, as business is inherently unpredictable, risky, and subject to influence by numerous factors outside of our control. Such factors include changes in government regulation or policy, competition, interest rates, supply, technological innovation, changes in consumer taste and fancy, weather, and the extent to which consumers in our markets have the economic ability to spend money on beyond-the-home entertainment.

Given the variety and unpredictability of the factors that will ultimately influence our businesses and our results of operation, it naturally follows that no guarantees can be given that any of our forward-looking statements will ultimately prove to be correct. Actual results will undoubtedly vary and there is no guarantee as to how our securities will perform either when considered in isolation or when compared to other securities or investment opportunities.

Finally, please understand that we undertake no obligation to update publicly or to revise any of our forward-looking statements, whether because of new information, future events or otherwise, except as may be required under applicable law. Accordingly, you should always note the date to which our forward-looking statements speak.

Additionally, certain of the presentations included in this interim quarterly report may contain “non-GAAP financial measures.” In such case, we will make available in connection with such statements a reconciliation of this information to our GAAP financial statements.

Table of Contents

Item 3 – Quantitative and Qualitative Disclosure about Market Risk

The SEC requires that registrants include information about potential effects of changes in currency exchange and interest rates in their filings. Several alternatives, all with some limitations, have been offered. We base the following discussion on a sensitivity analysis, which models the effects of fluctuations in currency exchange rates and interest rates. This analysis is constrained by several factors, including the following:

- It is based on a single point in time; and
- It does not include the effects of other complex market reactions that would arise from the changes modeled.

Although the results of such an analysis may be useful as a benchmark, they should not be viewed as forecasts.

At March 31, 2010, approximately 51% and 16% of our assets were invested in assets denominated in Australian dollars (Reading Australia) and New Zealand dollars (Reading New Zealand), respectively, including approximately \$15.6 million in cash and cash equivalents. At December 31, 2009, approximately 50% and 16% of our assets were invested in assets denominated in Australian dollars (Reading Australia) and New Zealand dollars (Reading New Zealand) including approximately \$15.4 million in cash and cash equivalents.

Our policy in Australia and New Zealand is to match revenues and expenses, whenever possible, in local currencies. As a result, we have procured in local currencies a majority of our expenses in Australia and New Zealand. Due to the developing nature of our operations in Australia and New Zealand, our revenue is not yet significantly greater than our operating and interest expenses. The resulting natural hedge has led to a somewhat negligible foreign currency effect on our current earnings. Although foreign currency has had a nominal effect on our current earnings, the effect of the translation adjustment on our assets and liabilities noted in our other comprehensive income was an increase of \$1.0 million for the three months ended March 31, 2010. As we continue to progress our acquisition and development activities in Australia and New Zealand, we cannot assure you that the foreign currency effect on our earnings will be negligible in the future.

Historically, our policy has been to borrow in local currencies to finance the development and construction of our ETRCs in Australia and New Zealand whenever possible. As a result, the borrowings in local currencies have provided somewhat of a natural hedge against the foreign currency exchange exposure. Even so, and as a result of our issuance of fully subordinated notes (TPS) in 2007, and their subsequent partial repayment, approximately 49% and 64% of our Australian and New Zealand assets, respectively, remain subject to such exposure unless we elect to hedge our foreign currency exchange between the US and Australian and New Zealand dollars. If the foreign currency rates were to fluctuate by 10% the resulting change in Australian and New Zealand assets would be \$10.1 million and \$4.2 million, respectively, and the change in our quarterly net income would be \$171,000 and \$13,000, respectively. Presently, we have no plan to hedge such exposure.

We record unrealized foreign currency translation gains or losses that could materially affect our financial position. As of March 31, 2010 and December 31, 2009, we have recorded a cumulative unrealized foreign currency translation gain of approximately \$44.2 million and \$43.2 million, respectively.

Historically, we maintain most of our cash and cash equivalent balances in short-term money market instruments with original maturities of three months or less. Due to the short-term nature of such investments, a change of 1% in short-term interest rates would not have a material effect on our financial condition.

Table of Contents

While we have typically used fixed rate financing (secured by first mortgages) in the U.S., fixed rate financing is typically not available to corporate borrowers in Australia and New Zealand. The majority of our Australian and New Zealand bank loans have variable rates. The Australian facility provides for floating interest rates, but requires that not less than a certain percentage of the loan be swapped into fixed rate obligations (see Financial Risk Management above). If we consider the interest rate swaps, a 1% increase or decrease in short-term interest rates would have resulted in approximately \$138,000 increase or decrease in our 2010 Quarter's Australian and New Zealand interest expense.

Table of Contents

Item 4 – Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company’s Exchange Act reports, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this quarterly report.

Changes in Internal Control over Financial Reporting

No change in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the quarter ended March 31, 2010 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
