| Loans transferred to other real estate owned | 79 | 64 |
| Securities purchases payable | 0 | 3,885 |

The accompanying notes are an integral part of these consolidated financial statements.

NOTE 1. BASIS OF PRESENTATION

This report is filed for Lakeland Financial Corporation (the "Company") and its wholly owned subsidiaries, Lake City Bank (the "Bank") and LCB Risk Management, a captive insurance company. Also included in this report is the Bank's wholly owned subsidiary, LCB Investments II, Inc. ("LCB Investments"), which manages the Bank's investment portfolio. LCB Investments also owns LCB Funding, Inc. ("LCB Funding"), a real estate investment trust. All significant inter-company balances and transactions have been eliminated in consolidation.

The unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and with the instructions for Form 10-Q. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements and are unaudited. In the opinion of management, all adjustments (all of which are normal and recurring in nature) considered necessary for a fair presentation have been included. Operating results for the three-month and six-month periods ended June 30, 2017 are not necessarily indicative of the results that may be expected for any subsequent reporting periods, including the year ending December 31, 2017. The Company's 2016 Annual Report on Form 10-K should be read in conjunction with these statements.

NOTE 2. SECURITIES

Information related to the fair value and amortized cost of securities available for sale and the related gross unrealized gains and losses recognized in accumulated other comprehensive income is provided in the tables below.

| (dollars in thousands) | Amortized Cost | Gross Unrealized Gain | Gross Unrealized Losses | Fair Value |
|---|-------------------|-----------------------------|-------------------------------|---------------|
| June 30, 2017 | | | | |
| U.S. Treasury securities | \$990 | \$18 | \$0 | \$1,008 |
| U.S. government sponsored agencies | 5,895 | 13 | (62) | 5,846 |
| Agency residential mortgage-backed securities | 355,055 | 3,779 | (1,930) | 356,904 |
| State and municipal securities | 165,489 | 2,869 | (1,804) | 166,554 |
| Total | \$527,429 | \$6,679 | \$(3,796) | \$530,312 |
| December 31, 2016 | | | | |
| U.S. Treasury securities | \$990 | \$13 | \$0 | \$1,003 |
| U.S. government sponsored agencies | 6,312 | 10 | (81) | 6,241 |
| Agency residential mortgage-backed securities | 351,108 | 3,604 | (3,144) | 351,568 |
| State and municipal securities | 146,917 | 1,784 | (3,322) | 145,379 |
| Total | \$505,327 | \$5,411 | \$(6,547) | \$504,191 |

Information regarding the fair value and amortized cost of available for sale debt securities by maturity as of June 30, 2017 is presented below. Maturity information is based on contractual maturity for all securities other than mortgage-backed securities. Actual maturities of securities may differ from contractual maturities because borrowers may have the right to prepay the obligation without a prepayment penalty.

| (dollars in thousands) | Amortized Fair | |
|--|----------------|-----------|
| | Cost | Value |
| Due in one year or less | \$2,293 | \$2,320 |
| Due after one year through five years | 23,660 | 24,214 |
| Due after five years through ten years | 43,811 | 45,005 |
| Due after ten years | 102,610 | 101,869 |
| | 172,374 | 173,408 |
| Mortgage-backed securities | 355,055 | 356,904 |
| Total debt securities | \$527,429 | \$530,312 |
| | | |

Securities proceeds, gross gains and gross losses are presented below.

| (dollars in thousands) | Three months | | Six months | |
|--|----------------|------|----------------|---------|
| | ended June 30, | | ended June 30, | |
| | 2017 | 2016 | 2017 | 2016 |
| Sales of securities available for sale | | | | |
| Proceeds | \$19,034 | \$0 | \$35,845 | \$6,929 |
| Gross gains | 59 | 0 | 256 | 65 |
| Gross losses | (10) | 0 | (204) | (13) |

The Company sold eight securities with a total book value of \$19.0 million and a total fair value of \$19.0 million during the second quarter of 2017. The Company sold 35 securities with a total book value of \$35.8 million and a total fair value of \$35.8 million during the first six months of 2017. The Company sold four securities with a total book value of \$6.9 million and a total fair value of \$7.0 million during the first six months of 2016.

Purchase premiums or discounts are recognized in interest income using the interest method over the terms of the securities or over the estimated lives of mortgage-backed securities. Gains and losses on sales are based on the amortized cost of the security sold and recorded on the trade date.

Securities with carrying values of \$156.7 million and \$168.3 million were pledged as of June 30, 2017 and December 31, 2016, respectively, as collateral for securities sold under agreements to repurchase, borrowings from the Federal Home Loan Bank and for other purposes as permitted or required by law.

Information regarding securities with unrealized losses as of June 30, 2017 and December 31, 2016 is presented below. The tables divide the securities between those with unrealized losses for less than twelve months and those with unrealized losses for twelve months or more.

| (dollars in thousands) | Less than 12 months | | 12 months or more | | Total | |
|---|---------------------|-------------------|-------------------|-------------------|------------|-------------------|
| | Fair Value | Unrealized Losses | Fair Value | Unrealized Losses | Fair Value | Unrealized Losses |

7

The total number of securities with unrealized losses as of June 30, 2017 and December 31, 2016 is presented below.

| | Less than 12 months | 12 months or more | Total |
|---|------------------------|----------------------|-------|
| June 30, 2017 | | | |
| U.S. government sponsored agencies | 1 | 0 | 1 |
| Agency residential mortgage-backed securities | 38 | 3 | 41 |
| State and municipal securities | 74 | 6 | 80 |
| Total temporarily impaired | 113 | 9 | 122 |
| December 31, 2016 | | | |
| U.S. government sponsored agencies | 1 | 0 | 1 |
| Agency residential mortgage-backed securities | 59 | 2 | 61 |
| State and municipal securities | 121 | 4 | 125 |
| Total temporarily impaired | 181 | 6 | 187 |

The following factors are considered in determining whether or not the impairment of these securities is other-than-temporary. In making this determination, management considers the extent and duration of the unrealized loss, and the financial condition and near-term prospects of the issuer, as well as the underlying fundamentals of the relevant market and the outlook for such market in the near future. Management also assesses whether it intends to sell, or it is more likely than not that it will be required to sell, a security in an unrealized loss position before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the entire difference between amortized cost and fair value is recognized as impairment through earnings. For debt securities that do not meet the aforementioned criteria, the amount of impairment is split into two components as follows: 1) OTTI related to credit loss, which must be recognized in the income statement and 2) OTTI related to other factors, which is recognized in other comprehensive income. Credit loss is defined as the difference between the present value of the cash flows expected to be collected and the amortized cost basis. For equity securities, the entire amount of impairment is recognized through earnings. As of June 30, 2017 and December 31, 2016, ninety-nine percent of the securities in the Company's portfolio were backed by the U.S. government, government agencies, government sponsored agencies or were A-rated or better, except for certain non-local or local municipal securities, which are not rated. For the government, government-sponsored agency and municipal securities, management did not believe that there would be credit losses or that full principal would not be received. Management considered the unrealized losses on these securities to be primarily interest rate driven and does not expect material losses given current market conditions unless the securities are sold. However, at this time management does not have the intent to sell, and it is more likely than not that the Company will not be required to sell these securities before the recovery of their amortized cost basis.

NOTE 3. LOANS

| (dollars in thousands) | June 30, 2017 | | December 31, 2016 | |
|---|------------------|---------|----------------------|---------|
| Commercial and industrial loans: | | | | |
| Working capital lines of credit loans | \$717,875 | 20.0 % | \$624,404 | 18.0 % |
| Non-working capital loans | 646,517 | 18.1 | 644,086 | 18.5 |

Troubled Debt Restructurings:

Troubled debt restructured loans are included in the totals for impaired loans. The Company has allocated \$2.9 million and \$2.7 million of specific reserves to customers whose loan terms have been modified in troubled debt restructurings as of June 30, 2017 and December 31, 2016. The Company is not committed to lend additional funds to debtors whose loans have been modified in a troubled debt restructuring.

| | June 30 | December 31 |
|---|----------|-------------|
| (dollars in thousands) | 2017 | 2016 |
| Accruing troubled debt restructured loans | \$8,425 | \$10,351 |
| Nonaccrual troubled debt restructured loans | 6,852 | 5,633 |
| Total troubled debt restructured loans | \$15,277 | \$15,984 |

During the three months ended June 30, 2017, no loans were modified as troubled debt restructurings.

During the three months ended March 31, 2017, certain loans were modified as troubled debt restructurings. The modified terms of these loans include one or a combination of the following: inadequate compensation for the terms of the restructure or renewal; a modification of the repayment terms which delays principal repayment for some period; or renewal terms offered to borrowers in financial distress where no additional credit enhancements were obtained at the time of renewal.

Additional concessions were granted to borrowers with previously identified troubled debt restructured loans during the three months ended March 31, 2017. The loans to two of the borrowers are for commercial real estate buildings where the collateral value and cash flows from the companies occupying the buildings do not support the loans with recorded investments of \$500,000. The loans to two other borrowers are for commercial and industrial non-working capital loans with recorded investments of \$690,000. These concessions are not included in table below.

The following table presents loans by class modified as new troubled debt restructurings that occurred during the six months ended June 30, 2017:

| | | Pre-Modification | Post-Modification | Modified Repayment | |
|--|-----------|------------------|-------------------|--------------------|-------------|
| | | Outstanding | Outstanding | Terms | |
| (dollars in thousands) | Number of | Recorded | Recorded | Number of | Extension |
| | Loans | Investment | Investment | Loans | Period or |
| | | | | | Range |
| | | | | | (in months) |
| Troubled Debt Restructurings | | | | | |
| Commercial and industrial loans: | | | | | |
| Non-working capital loans | 2 | \$1,712 | \$1,712 | 2 | 6 |
| Commercial real estate and multi-family residential loans: | | | | | |
| Owner occupied loans | 1 | 486 | 486 | 1 | 6 |
| Consumer 1-4 family loans: | | | | | |
| Closed end first mortgage loans | 1 | 44 | 46 | 1 | 350 |
| Total | 4 | \$2,242 | \$2,244 | 4 | 6-350 |

For the three-month period ended June 30, 2017, the commercial and industrial troubled debt restructurings described above increased the allowance for loan losses by \$8,000 and the commercial real estate and multi-family residential loan troubled debt restructuring described above decreased the allowance for loan losses by \$5,000. For the six-month period ended June 30, 2017, the commercial and industrial troubled debt restructurings described above increased the allowance for loan losses by \$42,000 and the commercial real estate and multi-family residential loan troubled debt restructuring described above increased the allowance for loan losses by \$44,000.

No charge-offs resulted from any troubled debt restructurings described above during the three- or six-month periods ended June 30, 2017.

Edgar Filing: LAKELAND FINANCIAL CORP - Form 10-Q

During the three months ended June 30, 2016, certain loans were modified as troubled debt restructurings. The modified terms of these loans include one or a combination of the following: inadequate compensation for the terms of the restructure or renewal; a modification of the repayment terms which delays principal repayment for some period; or renewal terms offered to borrowers in financial distress where no additional credit enhancements were obtained at the time of renewal.

During the three months ended June 30, 2016, there were renewal terms, which are considered additional concessions, offered to three borrowers under financial duress with previously identified troubled debt restructured loans which did not require additional compensation or consideration, and the terms offered would not have been readily available in the marketplace for loans bearing a similar risk profile. In these instances, it was determined that a concession had been granted. The loan to one of the borrowers was for a commercial real estate building where the collateral value and cash flows from the company occupying the building does not support the loan with a recorded investment of \$374,000. The loans to the other two borrowers are for commercial and industrial non-working capital loans with recorded investments of \$574,000. These concessions are not included in the table below.

Additional concessions were granted to borrowers with previously identified troubled debt restructured loans during the three-months ended March 31, 2016. The loans to two of the borrowers are for commercial real estate buildings where the collateral value and cash flows from the companies occupying the buildings do not support the loans with recorded investments of \$542,000. The other loans were to a borrower engaged in land development, where the aggregate recorded investment totaled \$484,000. These concessions are not included in table below.

The following table presents loans by class modified as new troubled debt restructurings that occurred during the three months ended June 30, 2016:

| (dollars in thousands) | Number of Loans | Pre-Modification Outstanding Recorded Investment | Post-Modification Outstanding Recorded Investment | Modified Repayment Terms | |
|--|-----------------|--|---|--------------------------|---------------------------------------|
| | | | | Number of Loans | Extension Period or Range (in months) |
| Troubled Debt Restructurings | | | | | |
| Commercial and industrial loans: | | | | | |
| Non-working capital loans | 3 | \$775 | \$775 | 3 | 9-15 |
| Commercial real estate and multi-family residential loans: | | | | | |
| Owner occupied loans | 1 | 305 | 305 | 1 | 13 |
| Total | 4 | \$1,080 | \$1,080 | 4 | 9-15 |

The following table presents loans by class modified as new troubled debt restructurings that occurred during the six months ended June 30, 2016:

| (dollars in thousands) | Number of Loans | Pre-Modification Outstanding Recorded Investment | Post-Modification Outstanding Recorded Investment | Modified Repayment Terms | |
|----------------------------------|-----------------|--|---|--------------------------|---------------------------------------|
| | | | | Number of Loans | Extension Period or Range (in months) |
| Troubled Debt Restructurings | | | | | |
| Commercial and industrial loans: | | | | | |

Edgar Filing: LAKELAND FINANCIAL CORP - Form 10-Q

| | | | | | |
|--|---|---------|---------|---|-------|
| Non-working capital loans | 3 | \$775 | \$775 | 3 | 9-15 |
| Commercial real estate and multi-family residential loans: | | | | | |
| Owner occupied loans | 2 | 640 | 640 | 2 | 13-15 |
| Total | 5 | \$1,415 | \$1,415 | 5 | 9-15 |

For the three months ended June 30, 2016, the commercial and industrial troubled debt restructurings described above increased the allowance for loan losses by \$182,000 and the commercial real estate and multi-family residential loan troubled debt restructuring described above decreased the allowance for loan losses by \$145,000. For the six months ended June 30, 2016, the commercial and industrial troubled debt restructurings described above increased the allowance for loan losses by \$684,000 and the commercial real estate and multi-family residential loan troubled debt restructuring described above increased the allowance for loan losses by \$15,000.

No charge-offs resulted from any troubled debt restructurings described above during the three- or six-month periods ended June 30, 2016.

There were no troubled debt restructurings that had payment defaults within the twelve months following modification during the three- or six-month periods ended June 30, 2017 and 2016.

Credit Quality Indicators:

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information and current economic trends, among other factors. The Company analyzes commercial loans individually by classifying the loans as to credit risk. This analysis is performed on a quarterly basis for Special Mention, Substandard and Doubtful grade loans and annually on Pass grade loans over \$150,000.

The Company uses the following definitions for risk ratings:

Special Mention. Loans classified as Special Mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

Substandard. Loans classified as Substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Company will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans classified as Doubtful have all the weaknesses inherent in those classified as Substandard, with the added characteristics that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above-described process are considered to be Pass rated loans with the exception of consumer troubled debt restructurings which are evaluated and listed with Substandard commercial grade loans and consumer nonaccrual loans which are evaluated individually and listed with Not Rated loans. Loans listed as Not Rated are consumer loans or commercial loans with consumer characteristics included in groups of homogenous loans which are analyzed for credit quality indicators utilizing delinquency status. As of June 30, 2017, and based on the most recent analysis performed, the risk category of loans by class of loans is as follows:

| (dollars in thousands) | Pass | Special Mention | Substandard | Doubtful | Not Rated | Total |
|--|-----------|--------------------|-------------|----------|--------------|-----------|
| Commercial and industrial loans: | | | | | | |
| Working capital lines of credit loans | \$660,503 | \$30,547 | \$26,602 | \$0 | \$198 | \$717,850 |
| Non-working capital loans | 596,679 | 23,539 | 22,546 | 0 | 3,653 | 646,417 |
| Commercial real estate and multi-family residential loans: | | | | | | |
| Construction and land development loans | 207,566 | 1,315 | 0 | 0 | 0 | 208,881 |
| Owner occupied loans | 483,925 | 14,384 | 12,810 | 0 | 0 | 511,119 |
| Nonowner occupied loans | 445,235 | 4,475 | 823 | 0 | 0 | 450,533 |
| Multifamily loans | 170,349 | 252 | 0 | 0 | 0 | 170,601 |
| Agri-business and agricultural loans: | | | | | | |
| Loans secured by farmland | 146,607 | 7,051 | 2,400 | 0 | 0 | 156,058 |

Edgar Filing: LAKELAND FINANCIAL CORP - Form 10-Q

| Total | \$2,980,993 | \$74,274 | \$72,392 | \$0 | \$343,268 | \$3,470,927 |

NOTE 5. FAIR VALUE DISCLOSURES

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

- Level 1 Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2 Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Company used the following methods and significant assumptions to estimate the fair value of each type of financial instrument:

Securities: Securities available for sale are valued primarily by a third party pricing service. The fair values of securities available for sale are determined on a recurring basis by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs) or pricing models which utilize significant observable inputs such as matrix pricing. This is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs). These models utilize the market approach with standard inputs that include, but are not limited to benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data. For certain municipal securities that are not rated and observable inputs about the specific issuer are not available, fair values are estimated using observable data from other municipal securities presumed to be similar or other market data on other non-rated municipal securities (Level 3 inputs).

The Company's Finance Department, which is responsible for all accounting and SEC compliance, and the Company's Treasury Department, which is responsible for investment portfolio management and asset/liability modeling, are the two areas that determine the Company's valuation policies and procedures. Both of these areas report directly to the Executive Vice President and Chief Financial Officer of the Company. For assets or liabilities that may be considered for Level 3 fair value measurement on a recurring basis, these two departments and the Executive Vice President and Chief Financial Officer determine the appropriate level of the assets or liabilities under consideration. If there are assets or liabilities that are determined to be Level 3 by this group, the Risk Management Committee of the Company and the Audit Committee of the Board of Directors are made aware of such assets at their next scheduled meeting.

Securities pricing is obtained from a third party pricing service and all security prices are tested annually against prices from another third party provider and reviewed with a market value price tolerance variance that varies by sector: municipal securities +/- 5%, government mbs/cmo +/- 3% and U.S. treasuries +/-1%. If any securities fall outside the tolerance threshold, a determination of materiality is made for the amount over the threshold. Any security that would have a material threshold difference would be further investigated to determine why the variance exists and if any action is needed concerning the security pricing for that individual security. Changes in market value are reviewed monthly in aggregate by security type and any material differences are reviewed to determine why they exist. At least annually, the pricing methodology of the pricing service is received and reviewed to support the fair value levels used by the Company. A detailed pricing evaluation is requested and reviewed on any security determined to be fair valued using unobservable inputs by the pricing service.

Mortgage banking derivatives: The fair value of mortgage banking derivatives are based on observable market data as of the measurement date (Level 2).

Interest rate swap derivatives: Our derivatives are traded in an over-the-counter market where quoted market prices are not always available. Therefore, the fair values of derivatives are determined using quantitative models that utilize multiple market inputs. The inputs will vary based on the type of derivative, but could include interest rates, prices and indices to generate continuous yield or pricing curves, prepayment rates, and volatility factors to value the position. The majority of market inputs are actively quoted and can be validated through external sources, including brokers, market transactions and third-party pricing services. The fair value of interest rate swap derivatives is determined by pricing or valuation models using observable market data as of the measurement date (Level 2).

Impaired loans: Impaired loans with specific allocations of the allowance for loan losses are generally based on the fair value of the underlying collateral if repayment is expected solely from the collateral. Fair value is determined using several methods. Generally, the fair value of real estate is based on appraisals by qualified third party appraisers. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and result in a Level 3 classification of the inputs for determining fair value. In addition, the Company's management routinely applies internal discount factors to the value of appraisals used in the fair value evaluation of impaired loans. The deductions to the appraisals take into account changing business factors and market conditions, as well as value impairment in cases where the appraisal date predates a likely change in market conditions. Commercial real estate is generally discounted from its appraised value by 0-50% with the higher discounts applied to real estate that is determined to have a thin trading market or to be specialized collateral. In addition to real estate, the Company's management evaluates other types of collateral as follows: (a) raw and finished inventory is discounted from its cost or book value by 35-65%, depending on the marketability of the goods (b) finished goods are generally discounted by 30-60%, depending on the ease of marketability, cost of transportation or scope of use of the finished good (c) work in process inventory is typically discounted by 50-100%, depending on the length of manufacturing time, types of components used in the completion process, and the breadth of the user base (d) equipment is valued at a percentage of depreciated book value or recent appraised value, if available, and is typically discounted at 30-70% after various considerations including age and condition of the equipment, marketability, breadth of use, and whether the equipment includes unique components or add-ons; and (e) marketable securities are discounted by 10-30%, depending on the type of investment, age of valuation report and general market conditions. This methodology is based on a market approach and typically results in a Level 3 classification of the inputs for determining fair value.

Mortgage servicing rights: As of June 30, 2017, the fair value of the Company's Level 3 servicing assets for residential mortgage loans was \$3.9 million, none of which are currently impaired and therefore are carried at amortized cost. These residential mortgage loans have a weighted average interest rate of 3.82%, a weighted average maturity of 19 years and are secured by homes generally within the Company's market area, which is primarily Northern Indiana. A valuation model is used to estimate fair value by stratifying the portfolios on the basis of certain risk characteristics, including loan type and interest rate. Impairment is estimated based on an income approach. The inputs used include estimates of prepayment speeds, discount rate, cost to service, escrow account earnings, contractual servicing fee income, ancillary income, late fees, and float income. The most significant assumption used to value mortgage servicing rights is prepayment rate. Prepayment rates are estimated based on published industry consensus prepayment rates. The most significant unobservable assumption is the discount rate. At June 30, 2017, the constant prepayment speed (PSA) used was 148 and the discount rate used was 9.4%. At December 31, 2016, the PSA used was 162 and the discount rate used was 9.3%.

Other real estate owned: Nonrecurring adjustments to certain commercial and residential real estate properties classified as other real estate owned are measured at the lower of carrying amount or fair value, less costs to sell. Fair values are generally based on third party appraisals of the property and are reviewed by the Company's internal appraisal officer. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable properties used to determine value. Such adjustments are usually significant and result in a Level 3 classification. In addition, the Company's management may apply discount factors to the appraisals to take into account changing business factors and market conditions, as well as value impairment in cases where the appraisal date predates a likely change in market conditions. In cases where the carrying amount exceeds the fair value, less costs to sell, an impairment loss is recognized.

Real estate mortgage loans held for sale: Real estate mortgage loans held for sale are carried at the lower of cost or fair value, as determined by outstanding commitments, from third party investors, and result in a Level 2 classification.

Edgar Filing: LAKELAND FINANCIAL CORP - Form 10-Q

The table below presents the balances of assets measured at fair value on a recurring basis:

| (dollars in thousands) | June 30, 2017 | | | Assets at Fair Value |
|---|-------------------------------|------------|---------|-------------------------|
| | Fair Value Measurements Using | | | |
| | Level 1 | Level 2 | Level 3 | |
| Assets | | | | |
| U.S. Treasury securities | \$ 1,008 | \$ 0 | \$ 0 | \$ 1,008 |

There were no transfers between Level 1 and Level 2 during the six months ended June 30, 2017 and there were no transfers between Level 1 and Level 2 during 2016.

The table below presents a reconciliation of all assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the six months ended June 30, 2017 and 2016:

| (dollars in thousands) | State and Municipal Securities | |
|--|--------------------------------|--------|
| | 2017 | 2016 |
| Balance of recurring Level 3 assets at January 1 | \$ 670 | \$ 551 |
| Transfers into Level 3 | 0 | 339 |
| Changes in fair value of securities included in other comprehensive income | (6) | 6 |
| Principal payments | (45) | (40) |
| Balance of recurring Level 3 assets at June 30 | \$ 619 | \$ 856 |

The fair values of two municipal securities with a fair value of \$339,000 as of March 31, 2016 were transferred from Level 2 and into Level 3 because of a lack of observable market data for these investments. The Company's policy is to recognize transfers as of the end of the reporting period. As a result the fair value for these municipal securities was transferred on March 31, 2016. The municipal securities measured at fair value included below are non-rated Indiana and Ohio municipal revenue bonds and are not actively traded.

Quantitative Information about Level 3 Fair Value Measurements

| (dollars in thousands) | Fair Value at June 30, 2017 | Valuation Technique | Unobservable Input | Range of Inputs (Average) |
|-----------------------------------|-----------------------------|--------------------------|-----------------------------|---------------------------|
| State and municipal securities \$ | 619 | Price to type, par, call | Discount to benchmark index | 0-5% (2.01%) |

Quantitative Information about Level 3 Fair Value Measurements

| (dollars in thousands) | Fair Value at December 31, 2016 | Valuation Technique | Unobservable Input | Range of Inputs (Average) |
|-----------------------------------|---------------------------------|--------------------------|-----------------------------|---------------------------|
| State and municipal securities \$ | 670 | Price to type, par, call | Discount to benchmark index | 0-5% (2.98%) |

The primary methodology used in the fair value measurement of the Company's state and municipal securities classified as Level 3 is a discount to the AAA municipal benchmark index. Significant increases or (decreases) in this index as well as the degree to which the security differs in ratings, coupon, call and duration will result in a higher or (lower) fair value measurement for those securities that are not callable. For those securities that are continuously callable, a slight premium to par is used.

The table below presents the balances of assets measured at fair value on a nonrecurring basis:

| (dollars in thousands) | June 30, 2017 | | | Assets at Fair Value |
|--|-------------------------------|---------|----------|-------------------------|
| | Fair Value Measurements Using | | | |
| | Level 1 | Level 2 | Level 3 | |
| Assets | | | | |

| Non-working capital loans | 0 | 0 | 4,013 | 4,013 |
| Commercial real estate and multi-family residential loans: | | | | |
| Owner occupied loans | 0 | 0 | 910 | 910 |
| Total impaired loans | \$ 0 | \$ 0 | \$ 6,264 | \$ 6,264 |
| Other real estate owned | 0 | 0 | 75 | 75 |
| Total assets | \$ 0 | \$ 0 | \$ 6,339 | \$ 6,339 |

| (dollars in thousands) | December 31, 2016 | | | Assets at Fair Value |
|--|-------------------------------|---------|----------|-------------------------|
| | Fair Value Measurements Using | | | |
| | Level 1 | Level 2 | Level 3 | |
| Assets | | | | |
| Impaired loans: | | | | |
| Commercial and industrial loans: | | | | |
| Working capital lines of credit loans | \$ 0 | \$ 0 | \$ 621 | \$ 621 |
| Non-working capital loans | 0 | 0 | 3,889 | 3,889 |
| Commercial real estate and multi-family residential loans: | | | | |
| Owner occupied loans | 0 | 0 | 1,195 | 1,195 |
| Consumer 1-4 family mortgage loans: | | | | |
| Closed end first mortgage loans | 0 | 0 | 62 | 62 |
| Total impaired loans | \$ 0 | \$ 0 | \$ 5,767 | \$ 5,767 |
| Other real estate owned | 0 | 0 | 75 | 75 |
| Total assets | \$ 0 | \$ 0 | \$ 5,842 | \$ 5,842 |

The following table presents the valuation methodology and unobservable inputs for Level 3 assets measured at fair value on a non-recurring basis at June 30, 2017:

| (dollars in thousands) | Fair Value | Valuation Methodology | Unobservable Inputs | Average | Range of Inputs |
|--|------------|-------------------------------|---|---------|-----------------|
| Impaired loans: Commercial and industrial | \$ 5,354 | Collateral based measurements | Discount to reflect current market conditions and ultimate collectability | 37% | (23% - 100%) |
| Impaired loans: Commercial real estate and multi-family residential loans | 910 | Collateral based measurements | Discount to reflect current market conditions and ultimate collectability | 38% | (3% - 60%) |
| Other real estate owned | 75 | Appraisals | Discount to reflect current market conditions | 49% | |

The following table presents the valuation methodology and unobservable inputs for Level 3 assets measured at fair value on a non-recurring basis at December 31, 2016:

| (dollars in thousands) | Fair Value | Valuation Methodology | Unobservable Inputs | Average | Range of Inputs |
|---|------------|-------------------------------|---|---------|-----------------|
| Impaired loans: Commercial and industrial | \$ 4,510 | Collateral based measurements | Discount to reflect current market conditions and ultimate collectability | 44% | (22% - 100%) |
| Impaired loans: Commercial real estate | 1,195 | Collateral based measurements | Discount to reflect current market conditions and ultimate collectability | 30% | (6% - 59%) |
| Impaired loans: Consumer 1-4 family mortgage | 62 | Collateral based measurements | Discount to reflect | 15% | |

current market
conditions
and ultimate
collectability

| | | | |
|-------------------------|---------------|---|-----|
| Other real estate owned | 75 Appraisals | Discount to reflect current market conditions | 49% |
|-------------------------|---------------|---|-----|

Impaired loans, which are measured for impairment using the fair value of the collateral for collateral dependent loans, had a gross carrying amount of \$10.0 million, with a valuation allowance of \$3.7 million at June 30, 2017, resulting in a net reduction in the provision for loan losses of \$200,000 in the three months ended June 30, 2017 and a net increase in the provision for loan losses of \$600,000 in the six months ended June 30, 2017. At June 30, 2016, impaired loans had a gross carrying amount of \$6.4 million, with a valuation allowance of \$2.5 million, resulting in a net increase in the provision for loan losses of \$0 and \$100,000 for the three and six months ended June 30, 2016.

Other real estate owned measured at fair value less costs to sell, at both June 30, 2017 and June 30, 2016, had a net carrying amount of \$75,000, which is made up of the outstanding balance of \$147,000, net of a valuation allowance of \$72,000, all of which was written down during 2012.

The following table contains the estimated fair values and the related carrying values of the Company's financial instruments. Items which are not financial instruments are not included.

| (dollars in thousands) | June 30, 2017 | | | | |

| Standby letters of credit | (323) | 0 | 0 | (323) | (323) |
| Accrued interest payable | (5,676) | (93) | (5,580) | (3) | (5,676) |

The methods and assumptions, not previously presented, used to estimate fair values are described as follows:

Cash and cash equivalents - The carrying amount of cash and cash equivalents approximate fair value and are classified as Level 1, with the exception of certificates of deposits, which are estimated using discounted cash flow analysis using current market rates applied to the estimated life resulting in a Level 2 classification.

Loans, net – Fair values of loans, excluding loans held for sale, are estimated as follows: For variable rate loans, fair values are based on carrying values resulting in a Level 3 classification. Fair values for other loans are estimated using discounted cash flow analyses, using current market rates applied to the estimated life of the loan resulting in a Level 3 classification. Impaired loans are valued at the lower of cost or fair value as described previously. The methods utilized to estimate the fair value of loans do not necessarily represent an exit price.

Federal Home Loan Bank stock and Federal Reserve Bank stock– It is not practical to determine the fair value of Federal Home Loan Bank stock and Federal Reserve Bank stock due to restrictions placed on its transferability.

Certificates of deposit - Fair values of certificates of deposit are estimated using discounted cash flow analyses using current market rates applied to the estimated life resulting in a Level 2 classification.

All other deposits- The fair values for all other deposits other than certificates of deposit are equal to the amount payable on demand (the carrying value) resulting in a Level 1 classification.

Securities sold under agreements to repurchase – The carrying amount of borrowings under repurchase agreements approximates their fair values resulting in a Level 2 classification.

Other short-term borrowings – The fair value of other short-term borrowings is estimated using discounted cash flow analysis based on current borrowing rates resulting in a Level 2 classification.

Long-term borrowings – The fair value of long-term borrowings is estimated using discounted cash flow analyses based on current borrowing rates resulting in a Level 2 classification.

Subordinated debentures - The fair value of subordinated debentures is based on the rates currently available to the Company with similar term and remaining maturity and credit spread resulting in a Level 3 classification.

Standby letters of credit – The fair value of off-balance sheet items is based on the current fees and costs that would be charged to enter into or terminate such arrangements resulting in a Level 3 classification.

Accrued interest receivable/payable – The carrying amounts of accrued interest approximates fair value resulting in a Level 1, Level 2 or Level 3 classification which is consistent with its associated asset/liability.

NOTE 6. SECURITIES SOLD UNDER AGREEMENTS TO REPURCHASE

Securities sold under agreements to repurchase represent collateralized borrowings with customers located primarily within the Company's service area. These repurchase liabilities are not covered by federal deposit insurance and are secured by securities owned. The Company retains the right to substitute similar type securities and has the right to withdraw all excess collateral applicable to the repurchase liabilities whenever the collateral values are in excess of the related repurchase liabilities. However, as a means of mitigating market risk, the Company maintains excess collateral to cover normal changes in the repurchase liability by monitoring daily usage. The Company maintains control of the securities through the use of third-party safekeeping arrangements.

Securities sold under agreements to repurchase of \$60.2 million and \$50.0 million, which mature on demand, are secured by mortgage-backed securities with a carrying amount of \$89.8 million and \$98.0 million at June 30, 2017 and December 31, 2016, respectively. Additional information concerning recognition of these liabilities is disclosed in Note 8.

NOTE 7. EMPLOYEE BENEFIT PLANS

Components of net periodic benefit cost:

| | Six Months Ended | | | | Three Months Ended | | | |
|--------------------------------------|------------------|----------|----------|----------|--------------------|----------|----------|----------|
| | June 30, | | June 30, | | June 30, | | June 30, | |
| | Pension | SERP | Pension | SERP | Pension | SERP | Pension | SERP |
| | Benefits | Benefits | Benefits | Benefits | Benefits | Benefits | Benefits | Benefits |
| (dollars in thousands) | 2017 | 2016 | 2017 | 2016 | 2017 | 2016 | 2017 | 2016 |
| Interest cost | \$52 | \$52 | \$20 | \$24 | \$26 | \$26 | \$10 | \$12 |
| Expected return on plan assets | (72) | (70) | (31) | (36) | (37) | (35) | (15) | (18) |
| Recognized net actuarial (gain) loss | 93 | 68 | 40 | 40 | 47 | 34 | 20 | 20 |
| Net pension expense (benefit) | \$73 | \$50 | \$29 | \$28 | \$36 | \$25 | \$15 | \$14 |

The Company previously disclosed in its financial statements for the year ended December 31, 2016 that it expected to contribute \$355,000 to its pension plan and \$41,000 to its Supplemental Executive Retirement Plan ("SERP") in 2017. The Company has contributed \$197,000 to its pension plan and \$41,000 to its SERP as of June 30, 2017. The Company does not expect to make any additional contributions to its pension plan or SERP during the remainder of 2017.

NOTE 8. OFFSETTING ASSETS AND LIABILITIES

The following tables summarize gross and net information about financial instruments and derivative instruments that are offset in the statement of financial position or that are subject to an enforceable master netting arrangement at June 30, 2017 and December 31, 2016.

| | June 30, 2017 | | | | | |
|--------------------------------|---|---|---|--|---|------------|
| | Gross Amounts of Recognized Assets/ Liabilities | Gross Amounts Offset in the Statement of Financial Position | Net Amounts of Assets of Financial Position | Gross Amounts of Financial Instruments | Gross Amounts Not Offset in the Statement of Financial Position | Net Amount |
| (dollars in thousands) | | | | | | |
| Assets | | | | | | |
| Interest Rate Swap Derivatives | \$2,693 | \$0 | \$2,693 | \$0 | \$0 | \$2,693 |
| Total Assets | \$2,693 | \$0 | \$2,693 | \$0 | \$0 | \$2,693 |
| Liabilities | | | | | | |
| Interest Rate Swap Derivatives | \$2,840 | \$0 | \$2,840 | \$0 | \$(2,680) | \$160 |
| Repurchase Agreements | 60,188 | 0 | 60,188 | (60,188) | 0 | 0 |
| Total Liabilities | \$63,028 | \$0 | \$63,028 | \$(60,188) | \$(2,680) | \$160 |

| | December 31, 2016 | | | | | |
|--|---|---|---|--|---|------------|
| | Gross Amounts of Recognized Assets/ Liabilities | Gross Amounts Offset in the Statement of Financial Position | Net Amounts of Assets of Financial Position | Gross Amounts of Financial Instruments | Gross Amounts Not Offset in the Statement of Financial Position | Net Amount |

Edgar Filing: LAKELAND FINANCIAL CORP - Form 10-Q

| (dollars in thousands) | Liabilities | Position | Position | Instruments | Received | Net Amount |
|--------------------------------|-------------|----------|----------|-------------|-----------|------------|
| Assets | | | | | | |
| Interest Rate Swap Derivatives | \$2,645 | \$0 | \$2,645 | \$0 | \$0 | \$2,645 |
| Total Assets | \$2,645 | \$0 | \$2,645 | \$0 | \$0 | \$2,645 |
| Liabilities | | | | | | |
| Interest Rate Swap Derivatives | \$2,735 | \$0 | \$2,735 | \$0 | \$(1,330) | \$1,405 |
| Repurchase Agreements | 50,045 | 0 | 50,045 | (50,045) | 0 | 0 |
| Total Liabilities | \$52,780 | \$0 | \$52,780 | \$(50,045) | \$(1,330) | \$1,405 |

If an event of default occurs causing an early termination of an interest rate swap derivative, any early termination amount payable to one party by the other party may be reduced by set-off against any other amount payable by the one party to the other party. If a default in performance of any obligation of a repurchase agreement occurs, each party will set-off property held in respect of transactions against obligations owing in respect of any other transactions.

NOTE 9. EARNINGS PER SHARE

Basic earnings per common share is net income available to common shareholders divided by the weighted average number of common shares outstanding during the period, including shares held in treasury on behalf of participants in the Company's Directors Fee Deferral Plan. Diluted earnings per common share includes the dilutive effect of additional potential common shares issuable under stock options, stock awards and warrants, none of which were antidilutive.

| | Three Months Ended June 30, | | Six Months Ended June 30, | |
|---|--------------------------------|------------|------------------------------|------------|
| | 2017 | 2016 | 2017 | 2016 |
| Weighted average shares outstanding for basic earnings per common share | 25,183,186 | 25,045,251 | 25,167,799 | 25,032,502 |
| Dilutive effect of stock options, awards and warrants | 436,791 | 350,519 | 450,753 | 338,105 |
| Weighted average shares outstanding for diluted earnings per common share | 25,619,977 | 25,395,770 | 25,618,552 | 25,370,607 |
| Basic earnings per common share | \$0.61 | \$0.51 | \$1.19 | \$1.00 |
| Diluted earnings per common share | \$0.60 | \$0.50 | \$1.17 | \$0.99 |

NOTE 10. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The following tables summarize the changes within each classification of accumulated other comprehensive income (loss) for the six months ended June 30, 2017 and the year ended December 31, 2016:

| (dollars in thousands) | Unrealized Gains and Losses on Available- for-Sales Securities | Defined Benefit Pension Items | Total |
|---|---|--|-----------|
| Balance at December 31, 2016 | \$(722) | \$(1,665) | \$(2,387) |
| Other comprehensive income before reclassification | 2,706 | 0 | 2,706 |
| Amounts reclassified from accumulated other comprehensive income (loss) | (31) | 81 | 50 |
| Net current period other comprehensive income | 2,675 | 81 | 2,756 |
| Balance at June 30, 2017 | \$1,953 | \$(1,584) | \$369 |

| (dollars in thousands) | Unrealized Gains and Losses on Available- for-Sales Securities | Defined Benefit Pension Items | Total |
|------------------------|---|--|-------|
|------------------------|---|--|-------|

Edgar Filing: LAKELAND FINANCIAL CORP - Form 10-Q

| | | | |
|---|---------|-----------|-----------|
| Balance at December 31, 2015 | \$3,836 | \$(1,694) | \$2,142 |
| Other comprehensive income before reclassification | (4,518) | (101) | (4,619) |
| Amounts reclassified from accumulated other comprehensive income (loss) | (40) | 130 | 90 |
| Net current period other comprehensive income | (4,558) | 29 | (4,529) |
| Balance at December 31, 2016 | \$(722) | \$(1,665) | \$(2,387) |

NOTE 11. NEW ACCOUNTING PRONOUNCEMENTS

In May 2014, the FASB issued new accounting guidance related to revenue recognition. This new standard will replace all current U.S. GAAP guidance on this topic and eliminate all industry-specific guidance. The new revenue recognition standard provides a unified model to determine when and how revenue is recognized. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration for which the entity expects to be entitled in exchange for those goods or services. This guidance will be effective for the Company beginning January 1, 2018 and can be applied either retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption. Management does not expect the adoption of this new accounting standard to have a material impact on our financial statements because the majority of the Company's financial instruments are not within the scope of the new guidance, however the new guidance will result in new disclosure requirements

In January 2016, the FASB amended existing accounting guidance related to the recognition and measurement of financial assets and financial liabilities. These amendments make targeted improvements to U.S. GAAP as follows: (1) Require equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer. (2) Simplify the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment. When a qualitative assessment indicates that impairment exists, an entity is required to measure the investment at fair value. (3) Eliminate the requirement to disclose the fair value of financial instruments measured at amortized cost for entities that are not public business entities. (4) Eliminate the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet. (5) Require public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes. (6) Require an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. (7) Require separate presentation of financial assets and financial liabilities by measurement category and form of financial asset (that is, securities or loans and receivable) on the balance sheet or the accompanying notes to the financial statements. (8) Clarify that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in

combination with the entity's other deferred tax assets. This guidance will be effective for the Company beginning January 1, 2018 and should be applied as a cumulative-effect adjustment to the balance sheet as of the beginning of the fiscal year of adoption. The amendments related to equity securities without readily determinable fair values (including disclosure requirements) should be applied prospectively to equity investments that exist as of the date of adoption. Adopting this standard is not expected to have a significant impact on the Company's financial condition or results of operations.

In February 2016, the FASB issued new accounting guidance related to leases. This update, effective for the Company beginning January 1, 2019, will replace existing lease guidance in GAAP and will require lessees to recognize lease assets and lease liabilities on the balance sheet for all leases and disclose key information about leasing arrangements. When implemented, lessees and lessors will be required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. The Company currently has approximately \$4.7 million of lease obligations that would come on balance sheet as both assets and liabilities upon adoption of this accounting standard.

In March 2016, the FASB issued new guidance related to employee share-based payment accounting. This standard requires all income tax effects of awards to be recognized in the income statement when the awards vest or are settled. It also allows an employer to repurchase more of an employee's shares than it can today for tax withholding purposes without triggering liability accounting and to make a policy election for forfeitures as they occur. The guidance is effective for public business entities for fiscal years beginning after December 15, 2016, and interim periods within those years. Early adoption is permitted. The Company adopted this new standard effective January 1, 2017. The adoption of this new standard could result in increased volatility to reported income tax expense related to excess tax benefits and tax deficiencies for employee share-based transactions, however, the actual amounts recognized in income tax expense will be dependent on the amount of employee share-based transactions and the stock price at the time of vesting or exercise. For the six months ended June 30, 2017, adopting this new standard resulted in \$932,000 in income tax benefit offsetting income tax expense and current tax liability due to the vesting of restricted stock and performance stock units.

In June 2016, the FASB issued guidance related to credit losses on financial instruments. This update will change the accounting for credit losses on loans and debt securities. For loans, the proposal will require an expected credit loss model rather than the current incurred loss model to determine the allowance for credit losses. The expected credit loss model would estimate losses for the estimated life of the financial asset. In addition, the guidance will modify the other-than-temporary impairment model for available-for-sale debt securities to require an allowance for credit impairment instead of a direct write-down, which will allow for reversal of credit impairments in future periods. This guidance is effective for public business entities that meet the definition of an SEC filer for fiscal years beginning after December 15, 2019, including interim periods in those fiscal years. A committee has been formed to assess the requirements of this accounting standard as it relates to the Company and develop a plan for implementing them. Management expects to recognize credit losses earlier upon adoption of this accounting standard and the expected credit loss model than it has historically done under the current incurred credit loss model and is evaluating the impact of adopting this new accounting standard on our financial statements.

In August 2016, the FASB issued guidance related to the classification of certain cash receipts and cash payments in the statement of cash flow. This standard provides cash flow statement classification guidance for certain transactions including how the predominance principle should be applied when cash receipts and cash payments have aspects of more than one class of cash flows. The guidance is effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years and should be applied retrospectively. Early adoption is permitted, including adoption in an interim period. Management does not expect the adoption of this new accounting standard to have a material impact on our financial statements.

In January 2017, the FASB issued ASU No. 2017-04 "Intangibles - Goodwill and Other - Simplifying the Test for Goodwill Impairment." These amendments eliminate Step 2 from the goodwill impairment test. The amendments also eliminate the requirements for any reporting unit with a zero or negative carrying amount to perform a qualitative assessment and, if it fails that qualitative test, to perform Step 2 of the goodwill impairment test. An entity still has the option to perform the qualitative assessment for a reporting unit to determine if the quantitative impairment test is necessary. The guidance is effective for annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. ASU 2017-04 should be adopted on a prospective basis. Management does not expect the adoption of this new accounting standard to have a material impact on our financial statements.

In March 2017, the FASB issued ASU No. 2017-07, "Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost." Under the new guidance, employers will present the service cost component of the net periodic benefit cost in the same income statement line item as other employee compensation costs arising from services rendered during the period. In addition, only the service cost component will be eligible for capitalization in assets. Employers will present the other components separately from the line item that includes the service cost. ASU No. 2017-07 is effective for interim and annual reporting periods beginning after December 15, 2017. Early adoption is permitted. Employers will apply the guidance on the presentation of the components of net

periodic benefit cost in the income statement retrospectively. The guidance limiting the capitalization of net periodic benefit cost in assets to the service cost component will be applied prospectively. Management does not expect the adoption of this new accounting standard to have a material impact on our financial statements.

NOTE 12. RECLASSIFICATIONS

Certain amounts appearing in the financial statements and notes thereto for prior periods have been reclassified to conform with the current presentation. The reclassification had no effect on net income or stockholders' equity as previously reported.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

Net income in the first six months of 2017 was \$29.9 million, up 19.1% from \$25.1 million for the comparable period of 2016. Diluted income per common share was \$1.17 in the first six months of 2017, up 18.2% from \$0.99 in the comparable period of 2016. Return on average total equity was 13.74% in the first six months of 2017 versus 12.43% in the comparable period of 2016. Return on average total assets was 1.38% in the first six months of 2017 versus 1.29% in the comparable period of 2016. The average equity to average assets ratio was 10.08% in the first six months of 2017 versus 10.39% in the comparable period of 2016.

Net income in the second quarter of 2017 was \$15.4 million, up 20.0% from \$12.8 million for the comparable period of 2016. Diluted income per common share was \$0.60 in the second quarter of 2017, up 20.0% from \$0.50 in the comparable period of 2016. Return on average total equity was 13.84% in the second quarter of 2017 versus 12.50% in the comparable period of 2016. Return on average total assets was 1.40% in the second quarter of 2017 versus 1.29% in the comparable period of 2016. The average equity to average assets ratio was 10.13% in the second quarter of 2017 versus 10.29% in the comparable period of 2016.

Total assets were \$4.393 billion as of June 30, 2017 versus \$4.290 billion as of December 31, 2016, an increase of \$103.0 million, or 2.4%. This increase was primarily due to a \$105.2 million increase in net loans as well as a \$26.1 million increase in securities available for sale. The increases were somewhat offset by a \$29.9 million decrease in cash and cash equivalents. The increase in assets was funded through growth in deposits of \$38.0 million, increased short-term borrowings of \$45.1 million and increases in equity of \$23.4 million.

CRITICAL ACCOUNTING POLICIES

Certain of the Company's accounting policies are important to the portrayal of the Company's financial condition, since they require management to make difficult, complex or subjective judgments, some of which may relate to matters that are inherently uncertain. Estimates associated with these policies are susceptible to material changes as a result of changes in facts and circumstances. Some of the facts and circumstances which could affect these judgments include changes in interest rates, in the performance of the economy or in the financial condition of borrowers. Management believes that its critical accounting policies include determining the allowance for loan losses and the valuation and other-than-temporary impairment of investment securities.

Allowance for Loan Losses

The Company maintains an allowance for loan losses to provide for probable incurred credit losses. Loan losses are charged against the allowance when management believes that the principal is uncollectable. Subsequent recoveries, if any, are credited to the allowance. Allocations of the allowance are made for specific loans and for pools of similar types of loans, although the entire allowance is available for any loan that, in management's judgment, should be charged against the allowance. A provision for loan losses is taken based on management's ongoing evaluation of the appropriate allowance balance. A formal evaluation of the adequacy of the loan loss allowance is conducted monthly. The ultimate recovery of all loans is susceptible to future market factors beyond the Company's control.

The level of loan loss provision is influenced by growth in the overall loan portfolio, changes in market risk, changes in concentration risk, commercial loan focus and large credit concentration, new industry lending activity, general economic conditions and historical loss analysis. In addition, management gives consideration to changes in the allocation for specific watch list credits in determining the appropriate level of the loan loss provision. Furthermore, management's overall view on credit quality is a factor in the determination of the provision.

The determination of the appropriate allowance is inherently subjective, as it requires significant estimates by management. The Company has an established process to determine the adequacy of the allowance for loan losses that generally includes consideration of the following factors: changes in the nature and volume of the loan portfolio, overall portfolio quality and current economic conditions that may affect the borrowers' ability to repay. Consideration is not limited to these factors although they represent the most commonly cited factors. With respect to specific allocation levels for individual credits, management considers the amounts and timing of expected future cash flows and the current valuation of collateral as the primary measures. Management also considers trends in adversely classified loans based upon an ongoing review of those credits. With respect to pools of similar loans, allocations are assigned based upon historical experience unless the rate of loss is expected to be greater than historical losses as noted below. A detailed analysis is performed on loans that are classified but determined not to be impaired which incorporates probability of default with a loss given default scenario to develop non-specific allocations for the loan pool. These allocations may be adjusted based on the other factors cited above. An appropriate level of general allowance for pooled loans is determined after considering the following: application of historical loss percentages, emerging market risk, commercial loan focus and large credit concentration, new industry lending activity and general economic conditions. It is also possible that the following could affect the overall process: social, political, economic and terrorist events or activities. All of these factors are susceptible to change, which may be significant. As a result of this detailed process, the allowance results in two forms of allocations, specific and general. These two components represent the total allowance for loan losses deemed adequate to cover probable losses inherent in the loan portfolio.

Commercial loans are subject to a dual standardized grading process administered by the credit administration function. These grade assignments are performed independent of each other and a consensus is reached by credit administration and the loan review officer. Specific allowances are established in cases where management has identified significant conditions or circumstances related to an individual credit that indicate the loan is impaired. Considerations with respect to specific allocations for these individual credits include, but are not limited to, the following: (a) does the customer's cash flow or net worth appear insufficient to repay the loan; (b) is there adequate collateral to repay the loan; (c) has the loan been criticized in a regulatory examination; (d) is the loan impaired; (e) are there other reasons where the ultimate collectability of the loan is in question; or (f) are there unique loan characteristics that require special monitoring.

Allocations are also applied to categories of loans considered not to be individually impaired, but for which the rate of loss is expected to be consistent with or greater than historical averages. Such allocations are based on past loss experience and information about specific borrower situations and estimated collateral values. In addition, general allocations are made for other pools of loans, including non-classified loans. These general pooled loan allocations are performed for portfolio segments of commercial and industrial, commercial real estate and multi-family, agri-business and agricultural, other commercial, consumer 1-4 family mortgage and other consumer loans, and loans within certain industry categories believed to present unique risk of loss. General allocations of the allowance are primarily made based on a three-year historical average for loan losses for these portfolios, subjectively adjusted for economic factors and portfolio trends.

Due to the imprecise nature of estimating the allowance for loan losses, the Company's allowance for loan losses includes an unallocated component. The unallocated component of the allowance for loan losses incorporates the Company's judgmental determination of inherent losses that may not be fully reflected in other allocations, including factors such as the level of classified credits, economic uncertainties, industry trends impacting specific portfolio segments, broad portfolio quality trends and trends in the composition of the Company's large commercial loan portfolio and related large dollar exposures to individual borrowers.

Valuation and Other-Than-Temporary Impairment of Investment Securities

The fair values of securities available for sale are determined on a recurring basis by obtaining quoted prices on nationally recognized securities exchanges or pricing models, which utilize significant observable inputs such as matrix pricing. This is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities. Different judgments and assumptions used in pricing could result in different estimates of value. The fair value of certain securities is determined using unobservable inputs, primarily observable inputs of similar securities.

At the end of each reporting period, securities held in the investment portfolio are evaluated on an individual security level for other-than-temporary impairment in accordance with current accounting guidance. Impairment is other-than-temporary if the decline in the fair value of the security is below its amortized cost and it is probable that all amounts due according to the contractual terms of a debt security will not be received.

Significant judgments are required in determining impairment, which includes making assumptions regarding the estimated prepayments, loss assumptions and the change in interest rates.

We consider the following factors when determining other-than-temporary, impairment for a security or investment:

- the length of time and the extent to which the market value has been less than amortized cost;
- the financial condition and near-term prospects of the issuer;
- the underlying fundamentals of the relevant market and the outlook for such market for the near future; and

our intent and ability to hold the security for a period of time sufficient to allow for any anticipated recovery in market value.

37

Edgar Filing: LAKELAND FINANCIAL CORP - Form 10-Q

The assessment of whether a decline exists that is other-than-temporary, involves a high degree of subjectivity and judgment and is based on the information available to management at a point in time. If, in management's judgment, other-than-temporary impairment exists, the cost basis of the security will be written down to the computed net present value, and the unrealized loss will be transferred from accumulated other comprehensive loss as an immediate reduction of current earnings (as if the loss had been realized in the period of other-than-temporary impairment).

RESULTS OF OPERATIONS

Overview

Selected income statement information for the three months and six months ended June 30, 2017 and 2016 is presented in the following table:

| (dollars in thousands) | Three Months Ended June 30, | | Six Months Ended June 30, | |
|---|-----------------------------|----------|---------------------------|----------|
| | 2017 | 2016 | 2017 | 2016 |
| Income Statement Summary: | | | | |
| Net interest income | \$33,819 | \$29,273 | \$65,880 | \$57,855 |
| Provision for loan losses | 500 | 0 | 700 | 0 |
| Noninterest income | 8,791 | 8,067 | 17,050 | 15,110 |
| Noninterest expense | 19,352 | 18,446 | 39,400 | 35,830 |
| Other Data: | | | | |
| Efficiency ratio (1) | 45.42% | 49.40% | 47.51% | 49.11% |

| Tangible Assets | 4,389,873 | 3,934,167 | 4,389,873 | 3,934,167 |
| | | | | |
| Tangible Common Equity/Tangible Assets | 10.19% | 10.57% | 10.19% | 10.57% |

Net Income

Net income was \$29.9 million in the first six months of 2017, an increase of \$4.8 million, or 19.1%, versus net income of \$25.1 million in the first six months of 2016. Net interest income increased \$8.0 million, or 13.9%, to \$65.9 million versus \$57.9 million in the first six months of 2016. Net interest income increased primarily due to an 11.5% increase in average earning assets. An increase of \$382.9 million, or 13.6%, in average commercial loans from the first six months of 2016 was the primary reason for the increase in average earning assets over the past twelve months, which reflects our continuing strategic focus on commercial lending. The net interest margin increased nine basis points to 3.31% in the first six months of 2017 compared to 3.22% for the first six months of 2016.

Edgar Filing: LAKELAND FINANCIAL CORP - Form 10-Q

Net income was \$15.4 million in the second quarter of 2017, an increase of \$2.6 million, or 20.0%, versus net income of \$12.8 million in the second quarter of 2016. Net interest income increased \$4.5 million, or 15.5%, to \$33.8 million versus \$29.3 million in the second quarter of 2016. Net interest income increased primarily due to a 10.3% increase in average earning assets, driven by an increase of 12.9% in the commercial loan portfolio. In addition, net interest income increased as a result of the increases in the federal funds rate by 0.25% in both March and June of 2017. The net interest margin was 3.34% in the second quarter of 2017 versus 3.19% in 2016. The higher margin reflected an increase in loan and securities yields, which more than offset the increase in the cost of funds.

Net Interest Income

The following tables set forth consolidated information regarding average balances and rates:

| (fully tax equivalent basis, dollars in thousands) | Six Months Ended June 30, 2017 | | | 2016 | | | Yield (1)/Rate | |

Interest Margin Recap

Edgar Filing: LAKELAND FINANCIAL CORP - Form 10-Q

| | | | | | | |
|---|----------|------|---|----------|------|---|
| Interest income/average earning assets | 80,349 | 3.95 | | 68,630 | 3.75 | |
| Interest expense/average earning assets | 13,068 | 0.64 | | 9,710 | 0.53 | |
| Net interest income and margin | \$67,281 | 3.31 | % | \$58,920 | 3.22 | % |

Tax exempt income was converted to a fully taxable equivalent basis at a 35 percent tax rate for 2017 and 2016.

The tax equivalent rate for tax exempt loans and tax exempt securities acquired after January 1, 1983 included the

(1) Tax Equity and Fiscal Responsibility Act of 1982 ("TEFRA") adjustment applicable to nondeductible interest expenses. Taxable equivalent basis adjustments were \$1.4 million and \$1.1 million in the six-month periods ended June 30, 2017 and 2016, respectively.

(2) Loan fees, which are immaterial in relation to total taxable loan interest income for the six months ended June 30, 2017 and 2016, are included as taxable loan interest income.

(3) Nonaccrual loans are included in the average balance of taxable loans.

| Interest expense/average earning assets | | 7,002 | 0.68 | | 5,082 | 0.54 | | |
| Net interest income and margin | | \$34,550 | 3.34 | % | \$29,818 | 3.19 | | % |

Tax exempt income was converted to a fully taxable equivalent basis at a 35 percent tax rate for 2017 and 2016.

The tax equivalent rate for tax exempt loans and tax exempt securities acquired after January 1, 1983 included the (1) Tax Equity and Fiscal Responsibility Act of 1982 ("TEFRA") adjustment applicable to nondeductible interest expenses. Taxable equivalent basis adjustments were \$731,000 and \$545,000 in the three-month periods ended June 30, 2017 and 2016, respectively.

(2)

Loan fees, which are immaterial in relation to total taxable loan interest income for the three months ended June 30, 2017 and 2016, are included as taxable loan interest income.

(3) Nonaccrual loans are included in the average balance of taxable loans.

Net interest income increased \$8.0 million, or 13.9%, for the six months ended June 30, 2017 compared with the first six months of 2016. The increased level of net interest income during the first six months of 2017 was largely driven by an increase in average earning assets of \$423.6 million, which resulted primarily from loan growth. Average loans outstanding increased \$407.0 million during the six months ended June 30, 2017 compared with the same period of 2016, with most of the growth being in commercial loans. The earning asset growth was funded through deposit growth and an increase in short-term borrowings. Average interest bearing transaction accounts increased by \$118.9 million, average public fund time deposits in denominations over \$100,000 increased by \$113.2 million, average noninterest bearing demand deposits which increased by \$92.7 million and short-term borrowings increased by \$88.0 million.

The tax equivalent net interest margin was 3.31% for the first six months of 2017 compared to 3.22% during the first six months of 2016. The yield on earning assets totaled 3.95% during the six months ended June 30, 2017 compared to 3.75% in the same period of 2016. Cost of funds (expressed as a percentage of average earning assets) totaled 0.64% during the first six months of 2017 compared to 0.53% in the same period of 2016.

Edgar Filing: LAKELAND FINANCIAL CORP - Form 10-Q

Average earning assets increased by \$387.2 million for the three months ended June 30, 2017 compared with the same period of 2016. Average loans outstanding increased \$393.9 million during the three months ended June 30, 2017 compared with the same period of 2016, with most of the growth being in commercial loans. The earning asset growth was funded through a mix of deposit growth and short-term borrowings. Average interest bearing deposits increased by \$166.4 million, average short-term borrowings increased by \$117.6 million and noninterest bearing demand deposits increased by \$78.5 million.

The tax equivalent net interest margin was 3.34% for the second quarter of 2017 compared to 3.19% during the second quarter of 2016. The yield on earning assets totaled 4.02% during the second quarter of 2017 compared to 3.73% in the same period of 2016, while the cost of funds (expressed as a percentage of average earning assets) totaled 0.68% during the second quarter of 2017 compared to 0.54% in the same period of 2016. Approximately \$2.2 billion of total loans are variable rate loans as of June 30, 2017, primarily tied to Prime Rate Indexes, and have repriced to higher interest rates as a result of the increases in the Federal Funds Rate in mid-March 2017 and mid-June 2017. The benefit to loan yields as a result of the Federal Reserve Bank increases to the Federal Funds Rate has more than offset the increases to the cost of funds for the periods discussed.

Provision for Loan Losses

The Company recorded a provision for loan loss expense of \$500,000 and \$700,000, respectively, in the three-month and six-month periods ended June 30, 2017 due to the increase in the loan portfolio, compared to no provision during the comparable periods of 2016. The allowance for loan losses at June 30, 2017 represented 1.25% of the loan portfolio, versus 1.24% at March 31, 2017 and 1.35% at June 30, 2016. The primary factor impacting the decision to record a provision in the first six months of 2017 was the increasing size of the loan portfolio. Slightly offsetting the loan portfolio growth was the consideration management gave to the continued stability in key loan quality metrics including appropriate reserve coverage of nonperforming loans, a decrease in historical loss percentages and stable economic conditions in the Company's markets, and changes in the allocation for specific watch list credits. Management's overall view on current credit quality was also a factor in the determination of the provision for loan losses. The Company's management continues to monitor the adequacy of the provision based on loan levels, asset quality, economic conditions and other factors that may influence the assessment of the collectability of loans.

Noninterest Income

Noninterest income categories for the six-month and three-month periods ended June 30, 2017 and 2016 are shown in the following tables:

| (dollars in thousands) | Six Months Ended June 30, | | Percent |
|-------------------------------------|------------------------------|----------|---------|
| | 2017 | 2016 | Change |
| Wealth advisory fees | \$2,534 | \$2,293 | 10.5 % |
| Investment brokerage fees | 620 | 500 | 24.0 |
| Service charges on deposit accounts | 6,396 | 5,623 | 13.7 |
| Loan, insurance and service fees | 3,790 | 3,730 | 1.6 |
| Merchant card fee income | 1,108 | 1,024 | 8.2 |
| Bank owned life insurance | 873 | 662 | 31.9 |
| Other income | 1,168 | 515 | 126.8 |
| Mortgage banking income | 509 | 711 | (28.4) |
| Net securities gains (losses) | 52 | 52 | N/A |
| Total noninterest income | \$17,050 | \$15,110 | 12.8 % |
| Noninterest income to total revenue | 20.56% | 20.71% | |

| (dollars in thousands) | Three Months Ended June 30, | | | Percent Change |
|-------------------------------------|--------------------------------|---------|--------|-------------------|
| | 2017 | 2016 | | |
| Wealth advisory fees | \$1,284 | \$1,133 | 13.3 | % |
| Investment brokerage fees | 299 | 212 | 41.0 | |
| Service charges on deposit accounts | 3,253 | 2,843 | 14.4 | |
| Loan, insurance and service fees | 1,897 | 1,892 | 0.3 | |
| Merchant card fee income | 570 | 527 | 8.2 | |
| Bank owned life insurance | 402 | 489 | (17.8) | |
| Other income | 659 | 587 | 12.3 | |
| Mortgage banking income | 378 | 384 | (1.6) | |
| Net securities gains (losses) | 49 | 0 | N/A | |
| Total noninterest income | \$8,791 | \$8,067 | 9.0 | % |
| Noninterest income to total revenue | 20.63% | 21.60% | | |

The Company's noninterest income increased 13% to \$17.1 million for the six months ended June 30, 2017 compared to \$15.1 million in the prior year period. Noninterest income was positively impacted by a \$773,000 increase in service charges on deposit accounts. In addition, wealth advisory fees increased by \$241,000 and investment brokerage fees increased by \$120,000. Bank owned life insurance income increased \$211,000 from the first six months of 2016 to the first six months of 2017 primarily due to increased revenue from variable life insurance contracts owned by the Company. In addition, other income increased \$653,000 compared to the first six months of 2016. During the first quarter of 2016, other income was negatively impacted by credit valuation adjustment losses related to the Company's swap arrangements, which account for \$295,000 of the increase in other income from the first six months of 2016 to the first six months of 2017. In addition, a write down in the first quarter of 2016 of \$226,000 to a property formerly used as a Lake City Bank branch negatively impacted other income in 2016. Noninterest income was negatively impacted by a decrease of \$202,000 in mortgage banking income resulting from lower mortgage loan originations during the first six months of 2017 as compared to the prior year period.

The Company's noninterest income increased \$724,000 or 9% to \$8.8 million for the second quarter of 2017 versus \$8.1 million for the second quarter of 2016. Noninterest income was positively impacted by a \$410,000 increase in service charges on deposit accounts primarily due to growth in fees from business accounts. In addition, wealth advisory fees increased \$151,000 or 13%, due to the growth in assets under management.

Noninterest Expense

Noninterest expense categories for the six-month and three-month periods ended June 30, 2017 and 2016 are shown in the following tables:

| (dollars in thousands) | Six Months Ended June 30, | | | Percent Change |
|------------------------------------|------------------------------|----------|-------|-------------------|
| | 2017 | 2016 | | |
| Salaries and employee benefits | \$22,486 | \$20,197 | 11.3 | % |
| Net occupancy expense | 2,274 | 2,137 | 6.4 | |
| Equipment costs | 2,231 | 1,810 | 23.3 | |
| Data processing fees and supplies | 3,990 | 4,152 | (3.9) | |
| Corporate and business development | 2,698 | 1,620 | 66.5 | |

Edgar Filing: LAKELAND FINANCIAL CORP - Form 10-Q

| | | | |
|--|----------|----------|--------|
| FDIC insurance and other regulatory fees | 853 | 1,080 | (21.0) |
| Professional fees | 1,755 | 1,686 | 4.1 |
| Other expense | 3,113 | 3,148 | (1.1) |
| Total noninterest expense | \$39,400 | \$35,830 | 10.0 % |

42

Edgar Filing: LAKELAND FINANCIAL CORP - Form 10-Q

| (dollars in thousands) | Three Months Ended | | |
|--|--------------------|----------|----------------|
| | June 30, | | |
| | 2017 | 2016 | Percent Change |
| Salaries and employee benefits | \$11,065 | \$10,592 | 4.5 % |
| Net occupancy expense | 1,154 | 1,041 | 10.9 |
| Equipment costs | 1,156 | 909 | 27.2 |
| Data processing fees and supplies | 1,974 | 2,120 | (6.9) |
| Corporate and business development | 1,196 | 763 | 56.7 |
| FDIC insurance and other regulatory fees | 419 | 557 | (24.8) |
| Professional fees | 801 | 859 | (6.8) |
| Other expense | 1,587 | 1,605 | (1.1) |
| Total noninterest expense | \$19,352 | \$18,446 | 4.9 % |

The Company's noninterest expense increased by \$3.6 million or 10% to \$39.4 million in the first six months of 2017 compared to \$35.8 million in the prior year period. The increase was driven by salaries and employee benefits, which increased by 11% or \$2.3 million, primarily due to incentive-based compensation costs, increased health insurance cost, normal merit increases and staff additions related to the Company's branch expansion. In addition, corporate and business development increased by 67%, or \$1.1 million, primarily due to community support and donation expense of \$750,000 and \$283,000 of increased advertising expense. For the first six months of 2017 and 2016, the Company's efficiency ratio was 47.5% and 49.1%, respectively.

The Company's noninterest expense increased by 5% to \$19.4 million in the second quarter of 2017 compared to \$18.4 million in the second quarter of 2016. Salaries and employee benefits increased by 4% or \$473,000 primarily due to incentive-based compensation costs, increased health insurance cost, normal merit increases and staff additions related to the Company's branch expansion. Corporate and business development expense increased by \$433,000, primarily due to second quarter 2017 community support and donation expense of \$400,000. Equipment costs and net occupancy expense increased by \$247,000 and \$113,000, respectively, driven by the Company's branch expansion as well as remodeling of existing branches. Noninterest expense was positively impacted by decreases of \$146,000 in data processing fees and supplies and \$138,000 in FDIC insurance and other regulatory fees. The Company's efficiency ratio was 45.4% for the second quarter of 2017, compared to 49.4% for the second quarter of 2016 and 49.7% for the linked first quarter of 2017.

Income Taxes

The Company's income tax expense increased \$899,000 and \$1.3 million, respectively, in the six-month and three-month periods ended June 30, 2017, compared to the same periods in 2016. The effective tax rate was 30.2% and 32.5%, respectively, in the six-month and three-month periods ended June 30, 2017, compared to 32.5% and 32.2% for the comparable periods of 2016. The decrease in the effective tax rate in the six-month period ended June 30, 2017 was due to the Company adopting new FASB guidance related to employee share-based payment accounting effective January 1, 2017. This standard requires all income tax effects of awards to be recognized in the income statement when the awards vest or are settled. Adopting this standard resulted in the recognition of a \$932,000 income tax benefit during the first six months of 2017 related to vested employee share-based payments. The Company's long-term incentive plans vest in January of each year on the third anniversary of the grant date and are subject to performance conditions.

FINANCIAL CONDITION

Overview

Total assets of the Company were \$4.393 billion as of June 30, 2017, an increase of \$103.0 million, or 2.4%, when compared to \$4.290 billion as of December 31, 2016. Overall asset growth was primarily driven by a \$106.1 million, or 3.1%, increase in total loans to \$3.577 billion at June 30, 2017 from \$3.471 billion at December 31, 2016 and an increase of \$26.1 million, or 5.2%, in securities available for sale to \$530.3 million at June 30, 2017 from \$504.2 million at December 31, 2016 due to securities purchases and an increase in unrealized gains. Funding for the balance sheet growth came from a \$45.1 million increase in short-term borrowings as well as a \$38.0 million increase in deposits. A decrease of \$29.9 million, or 17.9%, in cash and cash equivalents partially offset the overall growth of total assets.

Uses of Funds

Total Cash and Cash Equivalents

Total cash and cash equivalents decreased by \$29.9 million, or 17.9%, to \$137.3 million at June 30, 2017, from \$167.3 million at December 31, 2016. Cash and cash equivalents decreased in order to fund growth in loans and securities.

Investment Portfolio

The amortized cost and the fair value of securities as of June 30, 2017 and December 31, 2016 were as follows:

| (dollars in thousands) | June 30, 2017 | | December 31, 2016 | |
|---|----------------|------------|-------------------|------------|
| | Amortized Cost | Fair Value | Amortized Cost | Fair Value |
| U.S. Treasury securities | \$990 | \$1,008 | \$990 | \$1,003 |
| U.S. government sponsored agencies | 5,895 | 5,846 | 6,312 | 6,241 |
| Agency residential mortgage-backed securities | 355,055 | 356,904 | 351,108 | 351,568 |
| State and municipal securities | 165,489 | 166,554 | 146,917 | 145,379 |
| Total | \$527,429 | \$530,312 | \$505,327 | \$504,191 |

At June 30, 2017 and December 31, 2016, there were no holdings of securities of any one issuer, other than the U.S. government, government agencies and government sponsored agencies, in an amount greater than 10% of stockholders' equity.

Purchases of securities available for sale totaled \$90.1 million in the first six months of 2017. The purchases consisted primarily of agency residential mortgage-backed securities. Paydowns from prepayments and scheduled payments of \$26.8 million were received in the first six months of 2017, and the amortization of premiums, net of the accretion of discounts, was \$1.4 million. Sales of securities totaled \$35.8 million in the first six months of 2017. Maturities and calls of securities totaled \$4.0 million in the first six months of 2017. No other-than-temporary impairment was recognized in the first six months of 2017. Purchases of securities available for sale totaled \$53.8 million in the first six months of 2016. The purchases consisted primarily of federally tax-exempt municipal securities. Paydowns from prepayments and scheduled payments of \$24.8 million were received in the first six months of 2016, and the amortization of premiums, net of the accretion of discounts, was \$1.4 million. Sales of securities totaled \$6.9 million in the first six months of 2016. Maturities and calls of securities totaled \$10.8 million in the first six months of 2016. No other-than-temporary impairment was recognized in the first six months of 2016. The investment portfolio is managed by a third party firm to provide for an appropriate balance between liquidity, credit risk and investment return and to limit the Company's exposure to risk to an acceptable level. The Company does not trade or invest in or sponsor certain unregistered investment companies defined as hedge funds and private equity funds under what is commonly referred to as the "Volcker Rule" of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Real Estate Mortgage Loans HFS

Real estate mortgage loans held-for-sale decreased by \$1.7 million, or 28.6%, to \$4.2 million at June 30, 2017, from \$5.9 million at December 31, 2016. The balance of this asset category is subject to a high degree of variability depending on, among other things, recent mortgage loan rates and the timing of loan sales into the secondary market. The Company generally sells all of the mortgage loans it originates on the secondary market. Proceeds from sales totaled \$42.8 million in the first six months of 2017 compared to \$27.4 million in the first six months of 2016.

Loan Portfolio

The loan portfolio by portfolio segment as of June 30, 2017 and December 31, 2016 is summarized as follows:

44

Edgar Filing: LAKELAND FINANCIAL CORP - Form 10-Q

| (dollars in thousands) | June 30, 2017 | December 31, 2016 | Current Period Change |
|---|--------------------|----------------------|-----------------------------|
| Commercial and industrial loans | \$1,364,392 38.1 % | \$1,268,490 36.5 % | \$95,902 |
| Commercial real estate and multi-family residential loans | 1,343,006 37.5 | 1,300,923 37.5 | 42,083 |
| Agri-business and agricultural loans | 331,387 9.3 | 394,843 11.4 | (63,456) |
| Other commercial loans | 116,651 3.3 | 98,270 2.8 | 18,381 |
| Consumer 1-4 family mortgage loans | 354,143 9.9 | 347,834 10.0 | 6,309 |
| Other consumer loans | 68,646 1.9 | 61,308 1.8 | 7,338 |
| Subtotal | 3,578,225 100.0 % | 3,471,668 100.0 % | 106,557 |
| Less: Allowance for loan losses | (44,563) | (43,718) | (845) |
| Net deferred loan fees | (1,221) | (741) | (480) |
| Loans, net | \$3,532,441 | \$3,427,209 | \$105,232 |

Total loans, excluding real estate mortgage loans held for sale, increased by \$106.6 million to \$3.578 billion at June 30, 2017 from \$3.472 billion at December 31, 2016. The increase was concentrated in the commercial and commercial real estate categories and reflected the Company's long standing strategic plan that is focused on expanding and growing the commercial lending business throughout our market areas. In addition, the Company's consumer loans grew by \$13.6 million. The increase was partially offset by seasonal declines in agri-business loans.

The following table summarizes the Company's non-performing assets as of June 30, 2017 and December 31, 2016:

| (dollars in thousands) | June 30, 2017 | December 31, 2016 |
|---|------------------|----------------------|
| Nonaccrual loans including nonaccrual troubled debt restructured loans | \$ 9,884 | \$ 6,633 |
| Loans past due over 90 days and still accruing | 0 | 53 |
| Total nonperforming loans | \$ 9,884 | \$ 6,686 |
| Other real estate owned | 194 | 153 |
| Repossessions | 0 | 11 |
| Total nonperforming assets | \$ 10,078 | \$ 6,850 |
| Impaired loans including troubled debt restructurings | \$ 19,580 | \$ 20,692 |
| Nonperforming loans to total loans | 0.28% | 0.19% |
| Nonperforming assets to total assets | 0.23% | 0.16% |
| Performing troubled debt restructured loans | \$ 8,425 | \$ 10,351 |
| Nonperforming troubled debt restructured loans (included in nonaccrual loans) | 6,852 | 5,633 |
| Total troubled debt restructured loans | \$ 15,277 | \$ 15,984 |

Total nonperforming assets increased by \$3.2 million, or 47.2%, to \$10.1 million during the six-month period ended June 30, 2017. The increase in nonperforming assets was primarily due to two commercial relationships being placed in nonaccrual status. One of the nonaccrual relationships is with a financial services firm and the second is with a manufacturer.

Net recoveries totaled \$289,000 in the second quarter of 2017, versus net charge-offs of \$36,000 during the second quarter of 2016 and net charge-offs of \$144,000 during the first quarter of 2017.

A loan is impaired when full payment under the original loan terms is not expected. Impairment for smaller loans that are similar in nature and which are not in nonaccrual or troubled debt restructured status, such as residential mortgage, consumer, and credit card loans, is determined based on the class of loans and impairment is determined on an individual loan basis for other loans. If a loan is impaired, a portion of the allowance may be allocated so that the loan is reported, net, at the present value of estimated future cash flows or at the fair value of collateral if repayment is expected solely from the collateral.

45

Total impaired loans decreased by \$1.1 million, or 5.4%, to \$19.6 million at June 30, 2017 from \$20.7 million at December 31, 2016. The decrease in the impaired loans category was primarily due to payments received on impaired commercial credits.

Loans are charged against the allowance for loan losses when management believes that the principal is uncollectible. Subsequent recoveries, if any, are credited to the allowance. The allowance is an amount that management believes will be adequate to absorb probable incurred credit losses relating to specifically identified loans based on an evaluation of the loans by management, as well as other probable incurred losses inherent in the loan portfolio. The evaluations take into consideration such factors as changes in the nature and volume of the loan portfolio, overall portfolio quality, review of specific problem loans and current economic conditions that may affect the borrower's ability to repay. Management also considers trends in adversely classified loans based upon a monthly review of those credits. An appropriate level of general allowance is determined after considering the following factors: application of historical loss percentages, emerging market risk, commercial loan focus and large credit concentrations, new industry lending activity and current economic conditions. Federal regulations require insured institutions to classify their own assets on a regular basis. The regulations provide for three categories of classified loans: Substandard, Doubtful and Loss. The regulations also contain a Special Mention category. Special Mention applies to loans that do not currently expose an insured institution to a sufficient degree of risk to warrant classification as Substandard, Doubtful or Loss but do possess credit deficiencies or potential weaknesses deserving management's close attention. The Company's policy is to establish a specific allowance for loan losses for any assets where management has identified conditions or circumstances that indicate an asset is impaired. If an asset or portion thereof is classified as a loss, the Company's policy is to either establish specified allowances for loan losses in the amount of 100% of the portion of the asset classified loss or charge-off such amount.

At June 30, 2017, the allowance for loan losses was 1.25% of total loans outstanding, versus 1.26% of total loans outstanding at December 31, 2016. At June 30, 2017, management believed the allowance for loan losses was at a level commensurate with the overall risk exposure of the loan portfolio. However, if economic conditions do not remain stabilized, certain borrowers may experience difficulty and the level of nonperforming loans, charge-offs and delinquencies could rise and require increases in the allowance for loan losses. The process of identifying probable credit losses is a subjective process. Therefore, the Company maintains a general allowance to cover probable credit losses within the entire portfolio. The methodology management uses to determine the adequacy of the loan loss reserve includes the considerations below.

The Company has a relatively high percentage of commercial and commercial real estate loans, most of which are extended to small or medium-sized businesses from a wide variety of industries. Generally, this type of lending has more credit risk than other types of lending because of the size and diversity of the credits. The Company manages this risk by adjusting its pricing to the perceived risk of each individual credit and by diversifying the portfolio by customer, product, industry and market area.

As of June 30, 2017, on the basis of management's review of the loan portfolio, the Company had 81 credits totaling \$152.9 million on the classified loan list versus 84 credits totaling \$147.3 million on December 31, 2016. As of June 30, 2017, the Company had \$85.8 million of assets classified as Special Mention, \$67.2 million classified as Substandard, \$0 classified as Doubtful and \$0 classified as Loss as compared to \$74.3 million, \$72.4 million, \$0 and \$0, respectively, at December 31, 2016.

Allowance estimates are developed by management after taking into account actual loss experience adjusted for current economic conditions. The Company has regular discussions regarding this methodology with regulatory authorities. Allowance estimates are considered a prudent measurement of the risk in the Company's loan portfolio and are applied to individual loans based on loan type. In accordance with current accounting guidance, the allowance is provided for losses that have been incurred as of the balance sheet date and is based on past events and current economic conditions and does not include the effects of expected losses on specific loans or groups of loans that are related to future events or expected changes in economic conditions. For a more thorough discussion of the allowance

for loan losses methodology see the Critical Accounting Policies section of this Item 2.

The allowance for loan losses increased 1.9%, or \$845,000, from \$43.7 million at December 31, 2016 to \$44.6 million at June 30, 2017. Pooled loan allocations increased from \$39.6 million at December 31, 2016 to \$39.9 million at June 30, 2017, which was primarily due to management's view of current credit quality and the current economic environment. Impaired loan allocations increased \$511,000 from \$4.1 million at December 31, 2016 to \$4.6 million at June 30, 2017 due primarily to slightly higher allocations on specific classified loans. The unallocated component of the allowance for loan losses increased \$266,000 from \$2.8 million at December 31, 2016 to \$3.1 million at June 30, 2017. While general trends in the overall economy and credit quality were stable or favorable, the Company believes that the unallocated component is appropriate given the uncertainty that exists regarding near term economic conditions.

Most of the Company's loan growth has been concentrated in the commercial loan portfolio, which can result in overall asset quality being influenced by a small number of credits. Management has historically considered growth and portfolio composition when determining loan loss allocations. Management believes that it is prudent to continue to provide for loan losses in a manner consistent with its historical approach due to the loan growth described above and current economic conditions.

Economic conditions in the Company's markets have generally improved and stabilized, and management is cautiously optimistic that the growth is positively impacting its borrowers. While the growth is not robust, commercial real estate activity and manufacturing growth is occurring. The Company's continued growth strategy promotes diversification among industries as well as continued focus on enforcement of a strong credit environment and an aggressive position in loan work-out situations. The Company believes that historical industry-specific issues in the Company's markets have improved and continue to be somewhat mitigated by its overall expansion strategy, the economic environment impacting its entire geographic footprint will continue to present challenges.

Sources of Funds

The following table summarizes deposits and borrowings as of June 30, 2017 and December 31, 2016:

| (dollars in thousands) | June 30, 2017 | December 31, 2016 | Current Period Change |
|--------------------------------------|------------------|----------------------|-----------------------------|
| Non-interest bearing demand deposits | \$762,965 | \$819,803 | \$(56,838) |
| Savings and transaction accounts: | | | |
| Savings deposits | 275,151 | 268,970 | 6,181 |
| Interest bearing demand deposits | 1,322,847 | 1,325,320 | (2,473) |
| Time deposits: | | | |
| Deposits of \$100,000 or more | 1,015,741 | 924,825 | 90,916 |
| Other time deposits | 239,235 | 238,994 | 241 |
| Total deposits | \$3,615,939 | \$3,577,912 | \$38,027 |
| FHLB advances and other borrowings | 306,146 | 261,005 | 45,141 |
| Total funding sources | \$3,922,085 | \$3,838,917 | \$83,168 |

Deposits and Borrowings

Total deposits increased by \$38.0 million, or 1.1%, from December 31, 2016. The growth in deposits consisted of \$19.8 million of growth in core deposits, which excludes brokered deposits, and an increase of \$18.2 million in brokered deposits. Total brokered deposits were \$116.4 million at June 30, 2017 compared to \$98.2 million at December 31, 2016. Core deposit growth was comprised of increases in retail deposits of \$36.7 million and in public fund deposits of \$31.3 million, which were offset by a decrease in commercial deposits of \$48.2 million. Total public funds deposits, including public funds transaction accounts, were \$1.238 billion at June 30, 2017 compared to \$1.207 billion at December 31, 2016.

Total borrowings increased by \$45.1 million, or 17.3%, from December 31, 2016. Most of the increase was from an increase in short-term advances from the Federal Home Loan Bank of Indianapolis. The Company used wholesale funding, including brokered deposits and Federal Home Loan Bank advances, to fund part of its loan growth and to help maintain its desired interest rate risk position.

Capital

As of June 30, 2017, total stockholders' equity was \$450.4 million, an increase of \$23.4 million, or 5.5%, from \$427.0 million at December 31, 2016. In addition to net income of \$29.9 million, other increases in equity during the first six months of 2017 included \$2.8 million in stock based compensation expense and \$2.8 million in accumulated other comprehensive income component of equity, which was driven by a net increase in the fair value of available-for-sale securities. Offsetting the increases to stockholders' equity were dividends paid in the amount of \$10.3 million and \$1.7 million in stock activity under equity compensation plans. The impact on equity by other comprehensive income is not included in regulatory capital. The banking regulators have established guidelines for leverage capital requirements, expressed in terms of Tier 1, or core capital, as a percentage of average assets, to measure the soundness of a financial institution. In addition, banking regulators have established risk-based capital guidelines for U.S. banking organizations. The final rules implementing the Basel Committee on Banking Supervision's capital guidelines for U.S. banks became effective for the Company on January 1, 2015, with full compliance with all of the final rule's requirements phased in over a multi-year schedule, to be fully phased-in by January 1, 2019. The final rules include a capital conservation buffer, comprised of common equity Tier 1 capital, which was phased in beginning January 1, 2016 at 0.625% of risk-weighted assets and will increase each subsequent year by an additional 0.625% until reaching its final level of 2.5% on January 1, 2019. The capital conservation buffer was 0.625% as of December 31, 2016 and 1.25% as of June 30, 2017. As of June 30, 2017, the Company's capital levels remained characterized as "well-capitalized" under the new rules. The actual capital amounts and ratios of the Company and the Bank as of June 30, 2017 and December 31, 2016, are presented in the table below:

Edgar Filing: LAKELAND FINANCIAL CORP - Form 10-Q

| (dollars in thousands) | Actual | Minimum Required | For Capital Adequacy Purposes | For Capital Adequacy Purposes Plus Conservation Buffer | Minimum Required For Capital Adequacy Purposes Plus Conservation Buffer | Minimum Required to Be Well Capitalized Under Prompt Corrective Regulations | | |

FORWARD-LOOKING STATEMENTS

This document (including information incorporated by reference) contains, and future oral and written statements of the Company and its management may contain, forward-looking statements, within the meaning of such term in the Private Securities Litigation Reform Act of 1995, with respect to the financial condition, results of operations, plans, objectives, future performance and business of the Company. Forward-looking statements, which may be based upon beliefs, expectations and assumptions of the Company's management and on information currently available to management, are generally identifiable by the use of words such as "believe," "expect," "anticipate," "plan," "intend," "estimate," "may," "will," "would," "could," "should" or other similar expressions. Additionally, all statements in this

document, including forward-looking statements, speak only as of the date they are made, and the Company undertakes no obligation to update any statement in light of new information or future events.

The Company's ability to predict results or the actual effect of future plans or strategies is inherently uncertain. The factors, which could have a material adverse effect on the operations and future prospects of the Company and its subsidiaries, are detailed in the "Risk Factors" section included under Item 1A. of Part I of the Company's Annual Report on Form 10-K. In addition to the risk factors described in that section, there are other factors that may impact any public company, including ours, which could have a material adverse effect on the operations and future prospects of the Company and its subsidiaries. These additional factors include, but are not limited to, the following:

- the effects of future economic, business and market conditions and changes, both domestic and foreign;
- governmental monetary and fiscal policies;

legislative and regulatory changes, including changes in banking, securities and tax laws and regulations and their application by our regulators;

· national and international political conditions and events;

· the risks of changes in interest rates on the levels, composition and costs of deposits, loan demand, and the values and liquidity of loan collateral, securities and other interest sensitive assets and liabilities;

· changes in borrowers' credit risks and payment behaviors;

· changes in the availability and cost of credit and capital in the financial markets;

· the effects of disruption and volatility in capital markets on the value of our investment portfolio;

· cyber-security risks and/or cyber-security damage that could result from attacks on the Company's or third party service providers, networks or data of the Company;

· changes in the prices, values and sales volumes of residential and commercial real estate;

· the effects of competition from a wide variety of local, regional, national and other providers of financial, investment and insurance services;

· changes in technology or products that may be more difficult or costly, or less effective than anticipated;

· the effects of war or other conflicts, acts of terrorism or other catastrophic events, including storms, droughts, tornados and flooding, that may affect general economic conditions, including agricultural production and demand and prices for agricultural goods and land used for agricultural purposes, generally and in our markets;

· the failure of assumptions and estimates used in our reviews of our loan portfolio, underlying the establishment of reserves for possible loan losses, our analysis of our capital position and other estimates;

· changes in the scope and cost of FDIC insurance, the state of Indiana's Public Deposit Insurance Fund and other coverages;

· changes in accounting policies, rules and practices; and

· the risks of mergers, acquisitions and divestitures, including, without limitation, the related time and costs of implementing such transactions, integrating operations as part of these transactions and possible failures to achieve expected gains, revenue growth and/or expense savings from such transactions.

These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. Additional information concerning the Company and its business, including factors that could materially affect the Company's financial results, is included in the Company's filings with the Securities and Exchange Commission, including the Company's Annual Report on Form 10-K.

ITEM 3 – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest rate risk represents the Company's primary market risk exposure. The Company does not have a material exposure to foreign currency exchange risk, does not have any material amount of derivative financial instruments and does not maintain a trading portfolio. The Corporate Risk Committee of the Board of Directors annually reviews and approves the policy used to manage interest rate risk. The policy was last reviewed and approved in July 2017. The

policy sets guidelines for balance sheet structure, which are designed to protect the Company from the impact that interest rate changes could have on net income but does not necessarily indicate the effect on future net interest income. The Company, through its Asset and Liability Committee, manages interest rate risk by monitoring the computer simulated earnings impact of various rate scenarios and general market conditions. The Company then modifies its long-term risk parameters by attempting to generate the types of loans, investments, and deposits that currently fit the Company's needs, as determined by its Asset and Liability Committee. This computer simulation analysis measures the net interest income impact of various interest rate scenario changes during the next twelve months. The Company continually evaluates the assumptions used in the model. The current balance sheet structure is considered to be within acceptable risk levels.

Interest rate scenarios for the base, falling 100 basis points, rising 25 basis points, rising 50 basis points, rising 100 basis points, rising 200 basis points and rising 300 basis points are listed below based upon the Company's rate sensitive assets and liabilities at June 30, 2017. The net interest income shown represents cumulative net interest income over a twelve-month time horizon. Balance sheet assumptions used for the base scenario are the same for the rising and falling simulations.

The base scenario is highly dependent on numerous assumptions embedded in the model. While the base sensitivity analysis incorporates management's best estimate of interest rate and balance sheet dynamics under various market rate movements, the actual behavior and resulting earnings impact will likely differ from that projected. For certain assets, the base simulation model captures the expected prepayment behavior under changing interest rate environments. Assumptions and methodologies regarding the interest rate or balance behavior of indeterminate maturity core deposit products, such as savings, money market, NOW and demand deposits reflect management's best estimate of expected future behavior.

| (dollars in thousands) | Base | Falling (100 Basis Points) | Rising 25 Basis Points | Rising 50 Basis Points | Rising 100 Basis Points | Rising 200 Basis Points | Rising 300 Basis Points | |
|-----------------------------|-----------|----------------------------------|------------------------------|------------------------------|-------------------------------|-------------------------------|-------------------------------|---|
| Net interest income | \$138,573 | \$124,997 | \$141,083 | \$143,576 | \$148,511 | \$158,116 | \$167,447 | |
| Variance from Base | | (\$13,576) | \$2,510 | \$5,003 | \$9,938 | \$19,543 | \$28,874 | |
| Percent of change from Base | | -9.80 | % 1.81 | % 3.61 | % 7.17 | % 14.10 | % 20.84 | % |

ITEM 4 – CONTROLS AND PROCEDURES

As required by Rules 13a-15(b) and 15d-15(b) under the Securities Exchange Act of 1934, management has evaluated, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e)) were effective as of June 30, 2017. Disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. These disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure.

During the quarter ended June 30, 2017, there were no changes to the Company's internal control over financial reporting that have materially affected or are reasonably likely to materially affect its internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal proceedings

There are no material pending legal proceedings to which the Company or its subsidiaries is a party other than ordinary routine litigation incidental to their respective businesses.

Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed in Item 1A. of Part I of the Company's 2016 Form 10-K. Please refer to that section of the Company's Form 10-K for disclosures regarding the risks and uncertainties related to the Company's business.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information as of June 30, 2017 with respect to shares of common stock repurchased by the Company during the quarter then ended:

ISSUER PURCHASES OF EQUITY SECURITIES

| Period | Total Number of Shares Purchased | Average Price Paid per Share | Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs | Maximum Number (or Appropriate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs |
|------------|----------------------------------|------------------------------|--|--|
| April 1-30 | 0 | \$0 | 0 | \$0 |
| May 1-31 | 792 | 45.31 | 0 | 0 |
| June 1-30 | 0 | 0 | 0 | 0 |
| Total | 792 | \$45.31 | 0 | \$0 |

(a) The shares purchased during the periods were credited to the deferred share accounts of

non-employee directors under the Company's directors' deferred compensation plan. These shares were purchased in the ordinary course of business and consistent with past practice.

Item 3. Defaults Upon Senior Securities

None

Item 4. Mine Safety Disclosures

N/A

Item 5. Other Information

Frequency of Future Advisory Votes on Named Executive Officer Compensation

As previously reported in a Current Report on Form 8-K filed on April 13, 2017, a non-binding, advisory vote was taken at our 2017 Annual Meeting of Shareholders on the frequency of our future advisory votes regarding named executive officer compensation. A majority of the votes cast at the Annual Meeting were in favor of holding such advisory vote on an annual basis, in accordance with the recommendation of the Company's Board of Directors. Accordingly, the Company has determined that it will hold a non-binding, advisory vote on the compensation of its named executive officers every year, until changed as a result of a subsequent vote on the frequency of the advisory vote.

Item 6. Exhibits

- 10.1 Lakeland Financial Corporation 2017 Equity Incentive Plan (incorporated by reference to Exhibit 4.5 to the Company's Form S-8 filed on April 13, 2017)
- 10.2 Form of Restricted Stock Unit Award Agreement (incorporated by reference to Exhibit 4.6 to the Company's Form S-8 filed on April 13, 2017)
- 10.3 Form of Restricted Stock Award Agreement (incorporated by reference to Exhibit 4.7 to the Company's Form S-8 filed on April 13, 2017)
- 10.4 Form of Incentive Stock Option Award Agreement (incorporated by reference to Exhibit 4.8 to the Company's Form S-8 filed on April 13, 2017)
- 10.5 Form of Nonqualified Stock Option Award Agreement (incorporated by reference to Exhibit 4.9 to the Company's Form S-8 filed on April 13, 2017)
- 31.1 Certification of Chief Executive Officer Pursuant to Rule 13a-14(a)/15d-14(a)
- 31.2 Certification of Chief Financial Officer Pursuant to Rule 13a-14(a)/15d-14(a)
- 32.1 Certification of Chief Executive Officer Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 32.2 Certification of Chief Financial Officer Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 101 Interactive Data File

Interactive data files pursuant to Rule 405 of Regulation S-T: (i) Consolidated Balance Sheets as of June 30, 2017 and December 31, 2016; (ii) Consolidated Statements of Income for the three months and six months ended June 30, 2017 and June 30, 2016; (iii) Consolidated Statements of Comprehensive Income for the three months and six months ended June 30, 2017 and June 30, 2016; (iv) Consolidated Statements of Changes in Stockholders' Equity for the six months ended June 30, 2017 and June 30, 2016; (v) Consolidated Statements of Cash Flows for the six months ended June 30, 2017 and June 30, 2016; and (vi) Notes to Unaudited Consolidated Financial Statements.
