Item 8.01 Other Events.

As previously reported, on December 29, 2017, Northwest Natural Gas Company (NW Natural) filed an application for a general rate increase with the Public Utility Commission of Oregon (OPUC). The rate case filing did not include the impact of newly passed federal tax legislation, but was filed with the intent that NW Natural would make supplemental filings to reflect the implications of tax reform on NW Natural's rates.

On March 20, 2018, NW Natural made supplemental filings in the rate case to reflect the impact of tax reform. These supplemental filings reduce the requested annual revenue requirement increase from \$52.4 million to \$37.8 million, and reduce the net revenue increase requested from \$40.4 million, or approximately 6%, to \$25.7 million, or approximately 4%, after an adjustment for the Company's conservation tariff deferral. The revised revenue requirement is based upon the following assumptions or requests:

- Forward test year from November 1, 2018 through October 31, 2019;
- Capital structure of 50% debt and 50% equity;
- Return on equity of 10.0%;
- Cost of capital of 7.62%; and
- Rate base of \$1.215 billion or an increase of \$329 million since the last rate case.

The supplement filings do not address the treatment of historical deferred tax liabilities, which may be addressed in either this rate case proceeding or in another proceeding and which may result in additional changes to the rate case request. New rates are anticipated to be effective November 1, 2018.

Forward-Looking Statements
