PROXY STATEMENT

PROXY STATEMENT SUMMARY

We prepared the following summary to highlight important information you will find in this Proxy Statement regarding our 2014 performance and the matters to be considered at the 2015 Annual Meeting of Stockholders. As it is only a summary, please review our Annual Report on Form 10-K for the year ended December 31, 2014 (which we refer to as our “2014 Form 10-K”) and the other information contained in this Proxy Statement before you vote. This Proxy Statement and the materials accompanying it are first being sent to stockholders on or about April 2, 2015.

2014 Performance*

Financial and Operating Performance Highlights

In 2014, we achieved record profits, cash flows and normalized Funds From Operations (“FFO”). We delivered our 12th consecutive year of growth in normalized FFO, which increased 9% to over \$1.3 billion, and our normalized FFO per diluted share rose 8% to \$4.48. Our cash flows from operations increased to \$1.3 billion.

We also delivered outstanding total shareholder return (“TSR”) of 31% for 2014 and compound annual TSR of 14% for the three-year period ended December 31, 2014. For the period from January 1, 2000 through December 31, 2014 (the 15 completed fiscal years of our Chief Executive Officer's tenure), we delivered compound annual TSR of 28.5%, outperforming the S&P 500 index and the RMS index and ranking us first among our compensation peer group. For the ten-year period ended December 31, 2014, we delivered compound annual TSR of 15.4%—the best return among the three largest healthcare REITs.

In 2014, we paid our common stockholders an annual cash dividend of \$2.965 per share, which represents an increase of 8% over 2013 and a compound annual growth rate of 9% over the past ten years.

* See Annex A for reconciliations of certain financial measures presented in this Proxy Statement to the most directly comparable measure computed in accordance with U.S generally accepted accounting principles (“GAAP”).

Investment Highlights

We made over \$5 billion of attractive, accretive investments in seniors housing and healthcare assets in the United States, Canada and the United Kingdom, expanding our balanced, diversified portfolio of high-quality assets to over 1,600 properties. Our 2014 investments included, among other things, the acquisition of:

- publicly-traded American Realty Capital Healthcare Trust, Inc. (“HCT”) in a stock and cash transaction (which was completed in January 2015);
- 29 seniors housing communities located in Canada that are managed by our largest operator relationship, Atria Senior Living, Inc. (“Atria”);
- three high-quality private hospitals located in the United Kingdom operated by a well-regarded hospital provider under a long-term triple-net lease; and
- a \$425.0 million secured mezzanine loan investment that has a blended annual interest rate of 8.1%.

Portfolio Highlights

Same-store cash net operating income (“NOI”) for our total portfolio increased 3.9%, expressed in constant currency, year-over-year. Our total seniors housing operating portfolio NOI was \$516.4 million, an increase of 15% over 2013, and same-store seniors housing operating portfolio NOI grew 4.5%, expressed in constant currency, for the 217 properties we owned throughout 2013 and 2014.

In 2014, our proceeds from asset sales and loan repayments exceeded \$175 million, and we generated over \$285 million in free cash flow after dividends and recurring capital expenditures.

We successfully re-leased to Kindred Healthcare, Inc. (“Kindred”), transitioned to new operators or sold 107 of the 108 licensed healthcare assets whose lease terms with Kindred expired in 2014, and we expect to sell the remaining asset during 2015. In addition, we and Kindred reached a mutually beneficial agreement on nine assets and changes to existing leases, which included payment of \$37 million to us in January 2015.

Balance Sheet and Liquidity Highlights

In 2014, we maintained our significant financial strength and flexibility and improved our attractive cost of capital through efficient and nimble access to the capital markets, specifically:

- the issuance and sale in April of \$700 million aggregate principal amount of senior notes with a weighted average interest rate of 2.75% and a weighted average maturity of seven years;
- the issuance and sale in September of CAD 650 million aggregate principal amount of senior notes, with an effective weighted average interest rate of 3.5% and a weighted average maturity of 6.9 years—the largest-ever unsecured debt offering by a REIT in Canada; and
- the issuance and sale of a total of 3.4 million shares of our common stock for aggregate proceeds of \$246 million under our “at-the-market” equity offering program.

These transactions strengthened our liquidity, lengthened and further staggered our debt maturities and lowered our effective annual interest rate, and we ended the year with a solid balance sheet, demonstrated by our fixed charge coverage ratio of 4.7x and net debt to adjusted pro forma EBITDA (earnings before interest, income taxes, depreciation and amortization) of 5.9x.

2014 Executive Compensation

Our executive compensation programs are designed to attract, retain and motivate talented executives, to reward executives for the achievement of pre-established company and tailored individual goals consistent with our strategic plan and to link compensation to company performance. We compensate our executives primarily through base salary, annual cash incentive compensation and long-term equity incentive compensation. Our executive compensation philosophy emphasizes performance-based incentive compensation over fixed cash compensation, so that the vast majority of total direct compensation is variable and not guaranteed. In addition, a significant percentage of incentive compensation is in the form of equity awards granted to reward past performance. Even though these equity awards are fully earned for performance that has already been achieved at the time of grant, a substantial portion of the awards vests over time to provide additional retention benefits and create greater alignment with stockholders. We believe this structure appropriately focuses our executive officers on the creation of long-term value and encourages prudent valuation of risks.

2014 Executive Compensation Decisions

In 2014, our compensation decisions once again reflected strong alignment between pay and performance. In determining the incentive compensation paid to our Named Executive Officers for 2014, our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board rigorously evaluated company and individual performance relative to the pre-established measures and goals under our annual cash and long-term equity incentive plans, noting a high level of achievement overall. As a result of this superior performance, and in alignment with value delivered to stockholders, the 2014 total direct compensation for each of our Named Executive Officers increased year-over-year.

The graph below illustrates our long-term pay-for-performance alignment by comparing our Chief Executive Officer's total direct compensation to our TSR performance (indexed to a 2009 base year) for each of the past five years.

This graph differs from compensation reported in the 2014 Summary Compensation Table in that it aligns the value of long-term equity incentive awards with the performance year for which they were earned, rather than the year in which they were granted (e.g., long-term equity incentive awards granted in January 2015 for 2014 performance are shown in the graph as 2014 compensation), consistent with the manner in which our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board evaluate compensation and pay-for-performance.

2014 Annual Cash Incentive Awards

For 2014, annual cash incentive awards were based on our performance with respect to pre-established company financial goals, specifically normalized FFO per share, excluding non-cash items, and fixed charge coverage ratio at year end (which together accounted generally for 65% of the award opportunity), and the achievement of individual objectives tailored for each Named Executive Officer (which accounted generally for the remaining 35% of the award opportunity).

We exceeded maximum performance with respect to both company financial measures under the 2014 annual cash incentive plan:

COMPANY FINANCIAL PERFORMANCE

Normalized FFO per Share (Cash) (50%): Our normalized FFO per diluted share, excluding non-cash items, for the year ended December 31, 2014 was \$4.36, exceeding the maximum performance goal of \$4.23.

Fixed Charge Coverage Ratio (15%): As of December 31, 2014, our fixed charge coverage ratio was 4.7x, exceeding the maximum performance goal of 4x.

In regard to the tailored individual objectives under the 2014 annual cash incentive plan, each Named Executive Officer achieved between target and maximum performance, depending on his or her unique contributions to our success.

As a result, cash incentive awards granted to our Named Executive Officers for 2014 performance ranged from 89% to 100% of their respective maximum award opportunities.

2014 Long-Term Equity Incentive Awards

For 2014, long-term equity incentive awards were based on our performance with respect to pre-established quantitative measures, specifically one- and three-year relative TSR and net debt to adjusted pro forma EBITDA at year end (which together accounted generally for 50% of the award opportunity), and a qualitative evaluation of our performance with respect to pre-established financial, operational and strategic objectives (which accounted generally for the remaining 50% of the award opportunity).

We achieved between threshold and target performance with respect to the quantitative measures under the 2014 long-term equity incentive plan:

QUANTITATIVE PERFORMANCE MEASURES

One-Year Relative TSR (15%): For the year ended December 31, 2014, our TSR of 31% ranked us 11th out of the 16 companies in our compensation peer group, between the threshold and target performance goals.

Three-Year Relative TSR (20%): For the three-year period ended December 31, 2014, our compound annual TSR of 14% ranked us 12th out of the 16 companies in our compensation peer group, between the threshold and target performance goals.

Net Debt to Adjusted Pro Forma EBITDA (15%): As of December 31, 2014, our net debt to adjusted pro forma EBITDA was 5.9x, between the threshold and target performance goals.

In regard to the qualitative evaluation of our performance under the 2014 long-term equity incentive plan, we achieved near maximum performance overall based on our strong financial and operational results, evidenced primarily by our:

- ü exceptional long-term absolute and relative TSR and robust 31% annual TSR;
- ü record financial results, including normalized FFO per share;
- ü over \$5 billion of accretive acquisitions (including HCT, which was completed in January 2015);
- ü professional and transparent handling of our 2014 re-audit process, which reaffirmed our historical financial results and the integrity of internal controls;
- ü successful recruitment of key new members to our management team;
- ü expert and nimble capital markets execution; and
- ü successful re-leasing or sale of 108 post-acute facilities in our portfolio.

After adjustments to reflect individual contributions, each Named Executive Officer achieved between target and maximum performance under the qualitative portion of our 2014 long-term equity incentive plan.

As a result, long-term equity incentive awards granted to our Named Executive Officers for 2014 performance ranged from 59% to 92% of their respective maximum opportunities.

Proposal 2 — Ratification of the Selection of KPMG LLP as Our Independent Registered Public Accounting Firm for Fiscal Year 2015 (see page 68)

KPMG audited our financial statements for the year ended December 31, 2014 and has been our independent registered public accounting firm since July 2014. Our Board recommends that you vote FOR the ratification of the selection of KPMG LLP as our independent registered public accounting firm for fiscal year 2015.

Proposal 3 — Advisory Vote to Approve Our Executive Compensation (see page 71)

We submit an advisory vote to approve our executive compensation to our stockholders on an annual basis. Because your vote is advisory, it will not be binding on the Board or our Compensation Committee. However, your vote is important because it will be taken into account when making future decisions relating to executive compensation. Our executive compensation programs are designed to attract, retain and motivate talented executives, to reward executives for the achievement of pre-established company and tailored individual goals consistent with our strategic plan and to link compensation to company performance. We compensate our executives primarily through base salary, annual cash incentive compensation and long-term equity incentive compensation. Our executive compensation philosophy emphasizes performance-based incentive compensation over fixed cash compensation, so that the vast majority of total direct compensation is variable and not guaranteed. In addition, a significant percentage of incentive compensation is in the form of equity awards granted to reward past performance. Even though these equity awards are fully earned for performance that has already been achieved at the time of grant, a substantial portion of the awards vests over time to provide additional retention benefits and create greater alignment with stockholders. We believe this structure appropriately focuses our executive officers on the creation of long-term value and encourages prudent evaluation of risks.

Our Compensation Committee and, with respect to our Chief Executive Officer, the independent members of our Board have carefully evaluated our overall executive compensation program and believe that it is well designed to achieve our objectives of retaining talented executives and rewarding superior performance in the context of our business risk environment. By maintaining a performance- and achievement-oriented environment that provides the opportunity to earn market-competitive levels of compensation, we believe that our executive compensation program is structured optimally to support our goal to deliver sustained, superior returns to stockholders, and our exceptional long-term performance demonstrates the success of this program. For these reasons, our Board recommends that you vote FOR the approval, on an advisory basis, of our executive compensation.

Electronic Document Delivery to Stockholders

Instead of receiving future copies of our Notice of Annual Meeting, Proxy Statement and Annual Report by mail, stockholders of record and most beneficial owners may elect to receive an e-mail that will provide electronic links to these documents. Electronic document delivery saves us the cost of producing and mailing documents and will give you an electronic link to the proxy voting site. It is also more environmentally friendly.

We are making this Proxy Statement and the materials accompanying it available to our stockholders via the Internet, as permitted by Securities and Exchange Commission (“SEC”) rules. We will mail to stockholders a Notice of Internet Availability containing instructions on how to access our proxy materials and how to vote by proxy online. Starting on or about April 2, 2015, we will also mail this Proxy Statement and the materials accompanying it to stockholders who have requested paper copies. If you would like to receive a printed copy of our proxy materials by mail, you should follow the instructions for requesting those materials included in the Notice that we mail to you.

Stockholders who abstain from voting and broker non-votes are counted for purposes of establishing a quorum. OUR BOARD OF DIRECTORS

Our Board provides guidance and oversight with respect to our financial and operating performance, strategic plans, key corporate policies and decisions, and enterprise risk management. Among other matters, our Board considers and approves significant acquisitions, dispositions and other transactions and advises and counsels senior management on key financial and business objectives. Members of the Board monitor our progress with respect to these matters on a regular basis, including through presentations made at Board and committee meetings by our Chief Executive Officer, President, Chief Financial Officer, Chief Investment Officer and other members of senior management.

Criteria for Board Membership

Our Guidelines on Governance set forth the process by which our Nominating and Corporate Governance Committee (the “Nominating Committee”) identifies and evaluates nominees for Board membership. In accordance with this process, the Nominating Committee annually considers and recommends to the Board a slate of directors for election at the next annual meeting of stockholders. In selecting this slate, the Nominating Committee considers the following: incumbent directors who have indicated a willingness to continue to serve on our Board; candidates, if any, nominated by our stockholders; and other potential candidates identified by the Nominating Committee. Additionally, if at any time during the year a seat on the Board becomes vacant or a new seat is created, the Nominating Committee considers and recommends to the Board a candidate for appointment to fill the vacant or newly created seat.

The Nominating Committee considers different perspectives, skill sets, education, ages, genders, ethnic origins and business experience in its annual nomination process, although it has not established a formal policy regarding diversity in identifying potential director candidates. In general, the Nominating Committee seeks to include on our Board a complementary mix of individuals with diverse backgrounds, knowledge and viewpoints reflecting the broad set of challenges that the Board confronts without representing any particular interest group or constituency. The Nominating Committee regularly reviews the size and composition of the Board in light of our changing requirements and seeks nominees who, taken together as a group, possess the skills and expertise appropriate for an effective Board. In evaluating potential director candidates, the Nominating Committee considers, among other factors, the experience, qualifications and attributes listed below and any additional characteristics that it believes one or more directors should possess, based on an assessment of the needs of our Board at that time. Our Guidelines on Governance provide that, in general, nominees for membership on the Board should:

- ü have demonstrated management or technical ability at high levels in successful organizations;
- ü be currently employed in positions of significant responsibility and decision making;

- ü have experience relevant to our operations, such as real estate, REITs, healthcare, finance or general management;
- ü be well-respected in their business and home communities;
- ü have time to devote to Board duties; and
- ü be independent from us and not related to our other directors or employees.

In addition, our directors are expected to be active participants in governing our enterprise, and our Nominating Committee looks for certain characteristics common to all Board members, including integrity, independence, leadership ability, constructive and collegial personal attributes, candor and the ability and willingness to evaluate, challenge and stimulate.

No single factor or group of factors is necessarily dispositive of whether a candidate will be recommended by our Nominating Committee. The Nominating Committee considers and applies these same standards in evaluating individuals recommended for nomination to our Board by our stockholders in accordance with the procedures described in this Proxy Statement under “Requirements for Submission of Stockholder Proposals, Director Nominations and Other Business.” Our Board’s satisfaction of these criteria is implemented and assessed through ongoing consideration of directors and nominees by the Nominating Committee and the Board, as well as the Board’s annual self-evaluation process. Based upon these activities, our Nominating Committee and our Board believe that the director-nominees named in this Proxy Statement satisfy these criteria.

We have from time to time retained search firms and other third parties to assist us in identifying potential candidates based on specific criteria that we provided to them, including the qualifications described above. We may retain search firms and other third parties on similar or other terms in the future.

Director Independence

Our Guidelines on Governance require that at least a majority of the members of our Board meet the criteria for independence under the rules and regulations of the NYSE. For a director to be considered independent under the NYSE’s listing standards, the director must satisfy certain bright-line tests, and the Board must affirmatively determine that the director has no direct or indirect material relationship with us. Not less than annually, our Board evaluates the independence of each non-management director on a case-by-case basis by considering any matters that could affect his or her ability to exercise independent judgment in carrying out the responsibilities of a director, including all transactions and relationships between that director, members of his or her family and organizations with which that director or family members have an affiliation, on the one hand, and us, our subsidiaries and our management, on the other hand. Any such matters are evaluated from the standpoint of both the director and the persons or organizations with which the director has an affiliation. Each director abstains from participating in the determination of his or her independence.

Based on its most recent review, the Board has affirmatively determined that each of the following directors has no direct or indirect material relationship with us and qualifies as independent under the NYSE’s listing standards: Melody C. Barnes, Douglas Crocker II, Ronald G. Geary, Jay M. Gellert, Richard I. Gilchrist, Douglas M. Pasquale, Robert D. Reed, Glenn J. Rufrano and James D. Shelton. Ms. Cafaro is not considered independent under the NYSE listing standards due to her employment as our Chief Executive Officer, and Mr. Lustig is not considered independent under the NYSE listing standards due to his employment by Lazard Real Estate Partners LLC (“LREP”) and Lazard Alternative Investments LLC, whose affiliated entities received proceeds in connection with our December 2012 acquisition of certain private investment funds previously managed by Lazard Frères Real Estate Investors L.L.C. or its affiliates.

In evaluating the independence of Mr. Pasquale, the Board considered his employment with us following our acquisition of Nationwide Health Properties, Inc. (“NHP”) in July 2011. Prior to the acquisition, Mr. Pasquale was Chief Executive Officer of NHP, and he served as Senior Advisor to our Chief Executive Officer from July 1, 2011 through December 31, 2011 to facilitate the integration of NHP with our company. Under the NYSE listing standards, Mr. Pasquale’s former employment relationship with us ceased to impair his independence on January 1, 2015. The Board believes that this former employment relationship will not affect Mr. Pasquale’s ability to exercise independent judgment in carrying out his responsibilities as a member of our Board.

In evaluating the independence of Mr. Reed, the Board considered our ownership of two medical office buildings (“MOBs”) that are 100% leased by Sutter Health and generated approximately \$4.4 million of rent in 2014. Until his retirement on December 31, 2014, Mr. Reed served as Senior Vice President and Chief Financial Officer of

Sutter Health, which has annual revenues in excess of \$9 billion. The Board believes that these business transactions are not considered to be material and this former employment relationship will not affect Mr. Reed's ability to exercise independent judgment in carrying out his responsibilities as a member of our Board. See also "Corporate Governance—Transactions with Related Persons."

Leadership Structure and Independent Presiding Director

Our Board recognizes that one of its key responsibilities is to evaluate and determine its optimal leadership structure so as to provide effective oversight of management and a fully engaged, high-functioning Board. The Board understands that no single approach to Board leadership is universally accepted and that the appropriate leadership structure may vary based on a company's size, industry, operations, history and culture. Consistent with this understanding, our Board, led by our Nominating Committee, annually assesses its leadership structure in light of our operating and governance environment at the time to achieve the optimal model for us and for our stockholders. Following its most recent review, the Board has determined that our existing leadership structure— under which our Chief Executive Officer also serves as Chairman of the Board and a Presiding Director assumes specific responsibilities on behalf of the independent directors—is effective, provides the appropriate balance of authority between those persons charged with overseeing our company and those who manage it on a day-to-day basis and achieves the optimal governance model for us and for our stockholders.

Under our Fourth Amended and Restated By-Laws, as amended (our "By-Laws"), and our Guidelines on Governance, our Board has discretion to determine whether to separate or combine the roles of Chief Executive Officer and Chairman of the Board as part of its leadership structure evaluation. Ms. Cafaro has served in both capacities since 2003, and our Board continues to believe that her combined role is most advantageous to us and our stockholders. Ms. Cafaro possesses extensive knowledge of the issues, opportunities and risks facing us, our business and our industry and has consistently demonstrated the vision and leadership necessary to focus the Board's time and attention on the most critical matters and to facilitate constructive dialogue among Board members on strategic issues. Moreover, the combined roles enable decisive leadership, clear accountability and consistent communication of our message and strategy to all of our stakeholders. These leadership attributes are uniquely important to our company given the value to our business of opportunistic capital markets execution, our history of rapid and significant growth, and our culture of proactive engagement and risk management.

In connection with Ms. Cafaro's service as our Chief Executive Officer and Chairman of the Board, our Guidelines on Governance require that the independent members of our Board, after considering the recommendation of the Nominating Committee, annually select one independent director to serve as Presiding Director, whose specific responsibilities include, among other things, presiding at all meetings of our Board at which the Chairman is not present, including executive sessions and all other meetings of the independent directors. The Presiding Director also serves as liaison between the Chairman and the independent directors, approves information sent to the Board and approves Board meeting agendas and meeting schedules to assure that there is sufficient time for discussion of all agenda items. The Presiding Director has authority to call meetings of the independent directors and, if requested by major stockholders, ensures that he is available for consultation and direct communication with stockholders. In addition, the Presiding Director reviews with our General Counsel potential conflicts of interest and has such other duties as may be assigned from time to time by the independent directors or the Board. Although the Presiding Director is elected on an annual basis, the Board generally expects that he or she will serve for more than one year. Douglas Crocker II, a well-respected and recognized leader in the real estate industry, has served as our Presiding Director since 2003.

Committees

Our Board has five standing committees that perform certain delegated functions for the Board: the Audit and Compliance Committee (the "Audit Committee"); the Compensation Committee; the Executive Committee; the Investment Committee; and the Nominating Committee. Each of the Audit, Compensation and Nominating Committees operates under a written charter that is available in the Corporate Governance section of our website at www.ventasreit.com/investor-relations/corporate-governance. We also provide copies of the Audit, Compensation and Nominating Committee charters, without charge, upon request to our Corporate Secretary at Ventas, Inc., 353 North Clark Street, Suite 3300, Chicago, Illinois 60654. Information on our website is not a part of this Proxy Statement. For additional details regarding the five standing committees of our Board, see "Board Committees," below.

Board and Committee Meetings

Our Board held a total of seven meetings during 2014. Evidencing a strong commitment to our company, each director attended at least 75% of the total meetings of the Board and the committees on which he or she served that were held during 2014. The table below provides current membership and 2014 meeting information for each of our Board committees:

* Independent Director

†Presiding Director

Our independent directors meet in executive session, outside the presence of management, at each regularly scheduled quarterly Board meeting and at other times as necessary or desirable. The Presiding Director chairs all regularly scheduled executive sessions of the Board and all other meetings of the independent directors. Members of our Audit, Compensation and Nominating Committees also meet in executive session, outside the presence of management, at each regularly scheduled committee meeting and at other times as necessary or desirable.

We strongly encourage, but do not require, directors to attend our annual meetings of stockholders. Nine of the ten directors who were nominated for reelection at our 2014 Annual Meeting of Stockholders attended that meeting.

How to Communicate with Directors

Stockholders and other parties interested in communicating directly with our Board or any director on Board-related issues may do so by writing to Board of Directors, c/o Corporate Secretary, Ventas, Inc., 353 North Clark Street, Suite 3300, Chicago, Illinois 60654, or by submitting an e-mail to bod@ventasreit.com. Additionally, stockholders and other parties interested in communicating directly with the Presiding Director of the Board or with the independent directors as a group may do so by writing to Presiding Director, Ventas, Inc., 353 North Clark Street, Suite 3300, Chicago, Illinois 60654, or by sending an e-mail to independentbod@ventasreit.com. Communications addressed to our Board or individual members of the Board are screened by our Corporate Secretary for appropriateness before distributing to the Board, or to any individual director or directors, as applicable.

AUDIT AND COMPLIANCE COMMITTEE

Our Audit Committee assists our Board in fulfilling its responsibilities relating to our accounting and financial reporting practices, including oversight of the quality and integrity of our financial statements; our compliance with legal and regulatory requirements; the qualifications, independence and performance of our independent registered public accounting firm and the performance of our internal audit function.

The Audit Committee maintains free and open communication with the Board, our independent registered public accounting firm, our internal auditor and our financial and accounting management. Our Audit Committee meets separately in executive session, outside the presence of management, with each of our independent

registered public accounting firm and our internal auditor at each regularly scheduled meeting and at other times as necessary or desirable.

Our Board has determined that each member of the Audit Committee is independent and satisfies the independence standards of the Sarbanes-Oxley Act of 2002 and related rules and regulations of the SEC and the NYSE listing standards, including the additional independence requirements for audit committee members. The Board has also determined that each member of the Audit Committee is financially literate and qualifies as an “audit committee financial expert” for purposes of the SEC’s rules.

EXECUTIVE COMMITTEE

Our Board has delegated to our Executive Committee the power to direct the management of our business and affairs in emergency situations during intervals between meetings of the Board, except for matters specifically reserved for our Board and its other committees. The Executive Committee exercises its delegated authority only under extraordinary circumstances and has not held a meeting since 2002.

EXECUTIVE COMPENSATION COMMITTEE

Our Compensation Committee has primary responsibility for the design, review, approval and administration of all aspects of our executive compensation program. The Compensation Committee reviews the performance of, and makes all compensation decisions for, each of our executive officers other than our Chief Executive Officer. Our Compensation Committee also reviews the performance of, and makes compensation recommendations to the independent members of our Board for, our Chief Executive Officer.

The Compensation Committee meets throughout the year to review our compensation philosophy and its continued alignment with our business strategy and to consider and approve our executive compensation program for the subsequent year. With the assistance of a nationally recognized, independent compensation consultant, the Compensation Committee discusses changes, if any, to the program structure, assesses the appropriate peer companies for benchmarking purposes, sets base salaries and incentive award opportunities, establishes the applicable performance measures and related goals under our incentive plans, evaluates performance in relation to the established measures and goals and determines annual cash and long-term equity incentive awards for our executive officers. Our executive officers provide support to our Compensation Committee by coordinating meeting logistics, preparing and disseminating relevant financial and other information regarding us and the companies in our compensation peer group as a supplement to the comparative market data prepared by our independent compensation consultant and making recommendations with respect to performance measures and related goals. Our Chief Executive Officer attends meetings at the Compensation Committee’s request and recommends to the Compensation Committee compensation changes affecting our other executive officers. However, our Chief Executive Officer plays no role in setting her own compensation. At various times, our General Counsel, our Corporate Secretary and our Chief Human Resources Officer may also attend meetings at the Compensation Committee’s request to act as secretary and record the minutes of the meetings, provide updates on legal developments and make presentations regarding certain organizational matters. Our Compensation Committee meets separately in executive session, without management present, at each regularly scheduled meeting and at other times as necessary or desirable.

The Compensation Committee meets during the first quarter of each year, typically in January, to review the achievement of pre-established performance goals for the prior year, to determine the appropriate annual cash and long-term equity incentive awards for executive officers based on that prior-year performance and, as appropriate, to approve grants of equity awards to our executive officers. Our executive officers provide support to our Compensation Committee in this process, and the Chief Executive Officer makes incentive award recommendations with respect to the other executive officers.

Our Board has determined that each member of the Compensation Committee is independent and satisfies the independence standards of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and the related NYSE listing standards, including the additional independence requirements for compensation committee members. The Board has also determined that each member of the Compensation Committee meets the additional requirements for “outside directors” set forth in Section 162(m) of the Internal Revenue Code of 1986, as amended (the “Code”), and “non-employee directors” set forth in Rule 16b-3 under the Exchange Act.

Compensation Committee Interlocks and Insider Participation

During the year ended December 31, 2014, Messrs. Crocker, Gellert, Gilchrist and Shelton served on our Compensation Committee. No member of the Compensation Committee is, or has been, employed by us or our subsidiaries or is an employee of any entity for which any of our executive officers serves on the board of directors.

Independent Compensation Consultant

Under its charter, our Compensation Committee has authority to retain, and approve the terms of engagement and fees paid to, compensation consultants, outside counsel and other advisors that the Compensation Committee deems appropriate, in its sole discretion, to assist it in discharging its duties. Any compensation consultant engaged by our Compensation Committee reports to the Compensation Committee and receives no fees from us that are unrelated to its role as advisor to our Board and its committees. Our Compensation Committee meets regularly with the compensation consultant without management present. Although a compensation consultant may periodically interact with company employees to gather and review information related to our executive compensation program, this work is done at the direction and subject to the oversight of the Compensation Committee. Under the Compensation Committee charter, any compensation consultant retained by our Compensation Committee must be independent, as determined annually by the Compensation Committee in its reasonable business judgment, considering the specific independence factors set forth in Rule 10C-1 under the Exchange Act and all other relevant facts and circumstances. Pearl Meyer & Partners (“PM&P”) has served as our Compensation Committee’s independent compensation consultant since 2006. In 2014, our Compensation Committee retained PM&P to advise it and the independent members of our Board, as applicable, on matters related to our executive compensation levels and program design for 2015. Our Compensation Committee reviews the scope of work provided by PM&P on an annual basis and, in connection with PM&P’s engagement in 2014, determined that PM&P met the independence criteria under the Compensation Committee charter. PM&P and its affiliates did not perform any consulting services unrelated to executive compensation for us during the year ended December 31, 2014, and PM&P’s work for the Board and its committees has raised no conflict of interest.

INVESTMENT COMMITTEE

The function of our Investment Committee is to review and approve proposed acquisitions and dispositions of properties and other investments meeting applicable criteria, in accordance with our Amended and Restated Investment and Divestiture Approval Policy.

NOMINATING AND CORPORATE GOVERNANCE COMMITTEE

Our Nominating Committee oversees our corporate policies and other corporate governance matters, as well as matters relating to the practices and procedures of our Board, including the following: identifying, selecting and recommending to the Board qualified director-nominees; making recommendations to the Board regarding its committee structure and composition; reviewing and making recommendations to the Board regarding non-employee director compensation; overseeing an annual evaluation of the Board and its committees; developing and recommending to the Board a set of corporate governance guidelines and the corporate code of ethics; and generally advising the Board on corporate governance and related matters.

Our Board has determined that each member of the Nominating Committee is independent and satisfies the NYSE listing standards.

CORPORATE GOVERNANCE

Governance Policies

Our Guidelines on Governance reflect the fundamental corporate governance principles by which our Board and its committees operate. These guidelines set forth general practices the Board and its committees follow with respect to structure, function, organization, composition and conduct. These guidelines are reviewed at least annually by the Nominating Committee and are updated periodically in response to changing regulatory

requirements, evolving corporate governance practices, input from our stockholders and otherwise as circumstances warrant.

Our Global Code of Ethics and Business Conduct sets forth the legal and ethical standards for conducting our business to which our directors, officers and employees, including our Chief Executive Officer, our Chief Financial Officer and Acting Chief Accounting Officer, and the directors, officers and employees of our subsidiaries must adhere. Our Global Code of Ethics and Business Conduct covers all significant areas of professional conduct, including employment practices, conflicts of interest, unfair or unethical use of corporate opportunities, protection of confidential information and other company assets, compliance with applicable laws and regulations, political activities and other public policy matters, and proper and timely reporting of financial results. See also “Public Policy Matters.”

Our Guidelines on Governance and our Global Code of Ethics and Business Conduct are available in the Corporate Governance section of our website at www.ventasreit.com/investor-relations/corporate-governance. We also provide copies of our Guidelines on Governance and our Global Code of Ethics and Business Conduct, without charge, upon request to our Corporate Secretary at Ventas, Inc., 353 North Clark Street, Suite 3300, Chicago, Illinois 60654. Waivers from, and amendments to, our Global Code of Ethics and Business Conduct that apply to our Chief Executive Officer, Chief Financial Officer or persons performing similar functions will be timely posted on our website at www.ventasreit.com. The information on our website is not a part of this Proxy Statement.

Transactions with Related Persons

Our written Policy on Transactions with Related Persons requires that any transaction involving us in which any of our directors, officers or employees (or their immediate family members) has a direct or indirect material interest be approved or ratified by the Audit Committee or the disinterested members of our Board. Our Global Code of Ethics and Business Conduct requires our directors, officers and employees to disclose in writing to our General Counsel any existing or proposed transaction in which he or she has a personal interest, or in which there is or might appear to be a conflict of interest by reason of his or her connection to another business organization. Our General Counsel reviews these matters with the Presiding Director to determine whether the transaction raises a conflict of interest that warrants review and approval by the Audit Committee or the disinterested members of the Board. In determining whether to approve or ratify a transaction, the Audit Committee or disinterested members of the Board consider all relevant facts and circumstances available to them and other factors they deem appropriate.

Transactions with Mr. Pasquale

From July 2011 through December 2011, Mr. Pasquale served as Senior Advisor to our Chief Executive Officer to facilitate the integration of NHP with our company. Our agreement with Mr. Pasquale entitled him to receive substantially the same severance benefits that he would have received if he had resigned for “good reason” under his prior employment agreement with NHP. Under the terms of this agreement, in 2014, Mr. Pasquale received approximately \$2.0 million representing certain severance benefits and deferred compensation, as well as continued medical and life insurance coverage and payment of certain dividend equivalent rights. The disinterested members of our Board approved the terms of Mr. Pasquale’s agreement in connection with its approval of the NHP acquisition.

Transactions with Sutter Health

We own two newly developed MOB’s that are 100% leased by Sutter Health under long-term triple-net leases. In 2014, Sutter Health paid us aggregate annual rent of approximately \$4.4 million, which is less than one-tenth of one percent (0.1%) of Sutter Health’s 2014 consolidated gross revenues. Mr. Reed, who served as Senior Vice President and Chief Financial Officer of Sutter Health until his retirement on January 1, 2015, has served as a member of our Board since March 2008. We believe the terms of the leases with Sutter Health are no less favorable to us than those available from an unaffiliated party.

Risk Management

Management has primary responsibility for identifying and managing our exposure to risk, subject to active oversight by our Board of the processes we establish to assess, monitor and mitigate that exposure. The Board, directly and through its committees, routinely discusses with management our significant enterprise risks and reviews the guidelines, policies and procedures we have in place to address those risks, such as our approval process for acquisitions, dispositions and other investments. At Board and committee meetings, directors engage in comprehensive analyses and dialogue regarding specific areas of risk following receipt of written materials and

in-depth presentations from management and third-party experts. This process enables our Board to focus on the strategic, financial, operational, legal, regulatory and other risks that are most significant to us and our business in terms of likelihood and potential impact and ensures that our enterprise risks are well understood, mitigated to the extent reasonable and consistent with the Board's view of our risk profile and risk tolerance.

In addition to the overall risk oversight function administered directly by our Board, each of our Audit, Compensation, Nominating and Investment Committees exercises its own oversight related to the risks associated with the particular responsibilities of that committee:

- ü Our Audit Committee reviews financial, accounting and internal control risks and the mechanisms through which we assess and manage risk, in accordance with NYSE requirements, and has certain responsibilities with respect to our compliance programs, such as our Global Code of Ethics and Business Conduct, our Global Anti-Bribery Policy and our Investigations Policy.

- ü Our Compensation Committee, as discussed in greater detail below, evaluates whether our compensation policies and practices, as they relate to both executive officers and employees generally, encourage excessive risk-taking.

- ü Our Nominating Committee focuses on risks related to corporate governance, board effectiveness and succession planning.

- ü Our Investment Committee is responsible for overseeing certain transaction-related risks, including the review of transactions in excess of certain thresholds, with existing tenants, operators, borrowers or managers, or that involve investments in non-core assets.

The chairs of these committees report on such matters to the full Board at each regularly scheduled Board meeting and other times as appropriate. Our Board believes that this division of responsibilities is the most effective approach for identifying and addressing risk, and through Ms. Cafaro's combined role as Chief Executive Officer and Chairman, our Board leadership structure appropriately supports the Board's role in risk oversight by facilitating prompt attention by the Board and its committees to the significant enterprise risks identified by management in our day-to-day operations.

Compensation Risk Assessment

As part of its risk oversight role, our Compensation Committee annually considers whether our compensation policies and practices for all employees, including our executive officers, create risks that are reasonably likely to have a material adverse effect on our company. In conducting its risk assessment in 2015, the Compensation Committee reviewed a report prepared by management regarding our existing compensation plans and programs, including our severance and change-in-control arrangements, in the context of our business risk environment. In its review, the Compensation Committee noted several design features of our compensation programs that reduce the likelihood of excessive risk-taking, including, but not limited to, the following:

- ü a balanced mix of cash and equity compensation with a strong emphasis on performance-based incentive awards;

- ü multiple performance measures selected in the context of our business strategy and often in tension with each other;

- ü regular review of comparative compensation data to maintain competitive compensation levels in light of our industry, size and performance;

- ü incentive award opportunities that do not provide minimum guaranteed payouts, are based on a range of performance outcomes and plotted along a continuum, and have capped payouts, subject in all cases to the Compensation Committee's and, in the case of our Chief Executive Officer, the independent Board members' overall assessment of performance;

- ü equity compensation weighted more heavily towards restricted stock than stock options to provide greater incentive to create and preserve long-term stockholder value;

- ü equity incentive awards granted for prior-year performance with multi-year vesting schedules to enhance retention;

- ü minimum stock ownership guidelines that align executive officers with long-term stockholder interests; and

prohibitions on engaging in derivative and other hedging transactions in our securities and restrictions on holding our securities in margin accounts or otherwise pledging our securities to secure loans.

Based on its evaluation, the Compensation Committee has determined, in its reasonable business judgment, that our compensation practices and policies for all employees do not create risks that are reasonably likely to have a material adverse effect on our company and instead promote behaviors that support long-term sustainability and creation of stockholder value.

Public Policy Matters

We are committed to ethical business conduct and expect our directors, officers and employees to act with integrity and to conduct themselves and our business in a way that protects our reputation for fairness and honesty. Consistent with these principles, our Global Code of Ethics and Business Conduct and our Global Anti-Bribery Policy, we have established the policies and practices described below with respect to political contributions and other public policy matters.

Political Contributions and Expenditures

We do not use corporate funds or resources for direct contributions to political candidates, parties or campaigns. Corporate resources include non-financial donations, such as the use of our property in a political campaign or our employees' use of work time and telephones to solicit for a political cause or candidate.

Public Policy Advocacy

We do not have a political action committee. However, we may advocate a position, express a view or take other appropriate action with respect to legislative or political matters affecting our company or our interests. We may also ask our employees to make personal contact with governmental officials or to write letters to present our position on specific issues. Any such advocacy is done in compliance with applicable laws and regulations.

Individual Political Activity

We believe that our directors, officers and employees have rights and responsibilities to participate in political activities as citizens, including voting in elections, keeping informed on political matters, serving on civic bodies and contributing financially to, and participating in the campaigns of, the political candidates of their choice. Accordingly, our directors, officers and employees are not constrained from engaging in political activities, making political contributions, expressing political views or taking action on any political or legislative matter, so long as they are acting in their individual capacity, on their own time and at their own expense. Directors, officers and employees acting in their individual capacity must not give the impression that they are speaking on our behalf or representing our company in such activities.

Relationships with Government Officials

Our directors, officers and employees may not maintain any relationship or take any action with respect to public officials that could impugn our integrity or reputation. In particular, our directors, officers and employees may not offer, promise or give anything of value, including payments, entertainment and gifts, to any government official, employee, agent or other intermediary of the United States government or any domestic or foreign government.

EXECUTIVE COMPENSATION

Compensation Committee Report

The Compensation Committee has reviewed and discussed with management the following Compensation Discussion and Analysis and, based on such review and discussion, has recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement and incorporated by reference into the 2014 Form 10-K.

COMPENSATION COMMITTEE

Jay M. Gellert, Chair

Douglas Crocker II

Richard I. Gilchrist

James D. Shelton (member through May 15, 2014)

Compensation Discussion and Analysis

This Compensation Discussion and Analysis (“CD&A”) provides a detailed description of our executive compensation philosophy, objectives and programs, the compensation decisions made under those programs and the factors considered by our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board in making those decisions. The CD&A focuses on the compensation of our Named Executive Officers for 2014, who were:

Name	Title
Debra A. Cafaro	Chairman and Chief Executive Officer
Robert F. Probst (1)	Executive Vice President, Chief Financial Officer and Acting Chief Accounting Officer
Richard A. Schweinhart (2)	Former Executive Vice President, Chief Financial Officer and Acting Chief Accounting Officer
Raymond J. Lewis	President
Todd W. Lillibridge	Executive Vice President, Medical Property Operations; President and Chief Executive Officer, Lillibridge Healthcare Services, Inc.
T. Richard Riney	Executive Vice President, Chief Administrative Officer and General Counsel

(1) Mr. Probst joined us as Executive Vice President, Chief Financial Officer and Acting Chief Accounting Officer on October 27, 2014.

(2) Mr. Schweinhart served as Executive Vice President, Chief Financial Officer and Acting Chief Accounting Officer until October 27, 2014 and thereafter as Senior Advisor to the Chief Executive Officer and Merger Integration Leader until his retirement on December 31, 2014.

As in previous years, we awarded compensation to our Named Executive Officers for 2014 based on compensation policies that closely link compensation to performance. These policies, in planned combination, generate rewards for achievement of high-level company and individual performance and discourage excessive short-term risk taking. We believe this balance is essential to align management with the long-term interests of our stockholders.

Executive Summary

Our executive compensation programs are designed to attract, retain and motivate talented executives, to reward executives for the achievement of pre-established company and tailored individual goals consistent with our strategic plan and to link compensation to company performance. We compensate our executives primarily through base salary, annual cash incentive compensation and long-term equity incentive compensation. Our executive compensation philosophy emphasizes performance-based incentive compensation over fixed cash compensation, so that the vast majority of total direct compensation is variable and not guaranteed. In addition, a significant percentage of incentive compensation is in the form of equity awards granted to reward past performance. Even though these equity awards are fully earned for performance that has already been achieved at the time of grant, a substantial portion of the awards vests over time to provide additional retention benefits and create greater alignment with stockholders. We believe this structure appropriately focuses our executive officers on the creation of long-term value and encourages prudent evaluation of risks.

2014 Performance

Our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board view performance for compensatory purposes in two primary ways: (1) financial and operating performance, including results against our growth targets, and (2) returns to stockholders over time, both on an absolute basis and relative to other companies, including S&P 500 companies, large cap REITs and our compensation peer group (see “Compensation Consultant and Benchmarking”).

We delivered exceptional financial and operating performance in 2014, evidenced by the achievement of record profits, cash flows and normalized FFO per share through steadfast execution of our business strategy and building upon our three core strengths: raising capital efficiently, allocating capital wisely and managing our assets productively. We grew internally by increasing cash flows in our same-store portfolio and externally by successfully making over \$5 billion of attractive, accretive investments (including our acquisition of HCT, which was completed in January 2015). We expanded our reach internationally, making an initial investment in the United Kingdom with a well-regarded hospital provider and extending our Atria relationship to Canada. At the same time, we retained our significant financial strength and flexibility and improved our attractive cost of capital through expert and nimble access to capital markets, and we made numerous organizational and process improvements within the company. The 2014 compensation decisions made by our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board reflected our high level of achievement overall with respect to the pre-established measures and goals under our annual cash and long-term equity incentive plans and the differential performance and contributions of our Named Executive Officers to our strong financial and operating performance during the year.

Financial and Operating Performance. Our 2014 financial and operating performance highlights included the following:

- ü We delivered our 12th consecutive year of growth in normalized FFO, which increased 9% to over \$1.3 billion, and our normalized FFO per diluted share rose 8% to \$4.48.

- ü Our cash flows from operations increased to \$1.3 billion, and same-store cash NOI for our total portfolio increased 3.9%, expressed in constant currency year-over-year. We generated over \$285 million in free cash flow after dividends and recurring capital expenditures.

- ü We made over \$5 billion of attractive, accretive investments in seniors housing and healthcare assets in the United States, Canada and the United Kingdom (including our acquisition of HCT, which was completed in January 2015, and a \$425.0 million mezzanine loan investment that has a blended annual interest rate of 8.1%).

- ü We successfully re-leased to Kindred, transitioned to new operators or sold 107 of the 108 licensed healthcare assets whose lease terms with Kindred expired in 2014, and we expect to sell the remaining asset during 2015. In addition, we and Kindred reached a mutually beneficial agreement on nine assets and changes to existing leases, which included payment of \$37 million to us in January 2015.

- ü We expanded our international operations into the United Kingdom, making a \$200 million investment with a well-regarded hospital provider, and we invested \$900 million to extend our Atria relationship into Canada.

- ü We ended the year with a strong balance sheet, demonstrated by our fixed charge coverage ratio of 4.7x and net debt to adjusted pro forma EBITDA of 5.9x at December 31, 2014.

- ü We raised over \$1.5 billion of capital opportunistically, strengthening our liquidity, lengthening and further staggering our debt maturities and lowering our effective annual interest rate, including through a CAD 650 million senior note offering—the largest-ever unsecured debt offering by a REIT in Canada.

- ü We maintained our strong credit rating of BBB+ or equivalent from all three nationally recognized rating agencies.

- ü Our proceeds from asset sales and loan repayments during 2014 exceeded \$175 million.

Returns to Stockholders. Our long history of increasing our dividend and delivering sustained, superior returns to stockholders continued in 2014 with the following:

- ü We delivered robust TSR of 31% for 2014 and compound annual TSR of 14% for the three-year period ended December 31, 2014.

For the period from January 1, 2000 through December 31, 2014 (the 15 completed fiscal years of our Chief Executive Officer's tenure), we delivered compound annual TSR of 28.5%, outperforming the S&P 500 index and the RMS index and ranking us first among our compensation peer group.

For the ten-year period ended December 31, 2014, we delivered compound annual TSR of 15.4%—the best return among the three largest healthcare REITs.

We ranked second among the large-cap healthcare REITs in our peer group as to our one-year TSR of 31%, three-year compound annual TSR of 14% and five-year compound annual TSR of 15%.

We paid our stockholders an annual cash dividend of \$2.965 per share, which represents an increase of 8% over 2013.

Our dividend compound annual growth rates of 7% and 9% for the seven- and ten-year periods ended December 31, 2014 are among the highest of all REITs.

2014 Executive Compensation

In 2014, our compensation decisions once again reflected strong alignment between pay and performance. In determining the incentive compensation paid to our Named Executive Officers for 2014, our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board rigorously evaluated company and individual performance relative to the pre-established measures and goals under our annual cash and long-term equity incentive plans, noting a high level of achievement overall. As a result of this superior performance, and in alignment with value delivered to stockholders, the 2014 total direct compensation for each of our Named Executive Officers increased year-over-year, with the total direct compensation of our Chief Executive Officer increasing 21%.

The table below sets forth total direct compensation (base salary + annual cash incentive award + long-term equity incentive award) of each of our Named Executive Officers for 2014, 2013 and 2012, consistent with the manner in which our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board evaluate executive compensation and pay-for-performance alignment.

(1) Except as set forth in footnote (4) below, amounts shown represent the full grant date fair value, calculated pursuant to Financial Accounting Standards Board (“FASB”) guidance relating to fair value provisions for share-based payments, of the restricted stock and stock option portions of each Named Executive Officer’s long-term equity incentive award.

(2) Total direct compensation consists of base salary, annual cash incentive awards and long-term equity incentive awards, and therefore excludes amounts shown in the “All Other Compensation” column of the 2014 Summary Compensation Table.

Mr. Probst was appointed our Executive Vice President, Chief Financial Officer and Acting Chief Accounting Officer effective October 27, 2014. His annual base salary of \$575,000 was prorated to reflect his service in 2014, and his 2014 incentive compensation has been prorated at 25%, per his employment agreement. Upon employment, (3) Mr. Probst received a \$1 million, one-time restricted stock award for retention purposes, but this amount is excluded from 2014 total direct compensation because the award was part of a recruitment package and unrelated to 2014 performance. The award will vest in full on the third anniversary of the date of grant.

In light of his retirement on December 31, 2014, Mr. Schweinhart's long-term incentive award for 2014 was (4) granted solely in cash. For purposes of this presentation, the amount of the cash award is shown in the Restricted Stock - Value column.

This table differs from compensation reported in the 2014 Summary Compensation Table in that it reflects the value of our Named Executive Officers' long-term equity incentive awards in the performance year for which they were earned, rather than the year in which they were granted (e.g., long-term equity incentive awards granted in January 2015 for 2014 performance are shown in the table above as 2014 compensation). While compensation reported in the 2014 Summary Compensation Table is useful, the SEC's disclosure rules do not take into account the retrospective nature of our executive compensation program and therefore create a one-year lag between the value of our Named Executive Officers' long-term equity incentive awards and the performance year for which they were earned (e.g., long-term equity incentive awards granted in January 2015 for 2014 performance will not be shown in the Summary Compensation Table until our 2016 Proxy Statement as 2015 compensation). This table supplements, and does not replace, the 2014 Summary Compensation Table.

2014 Base Salary. Following a review of compensation data for peers with substantially similar roles and responsibilities (as described below under "Compensation Consultant and Benchmarking"), each of our Named Executive Officers (other than Mr. Probst) received an increase in base salary for 2014 to remain at or slightly below the market median.

2014 Annual Cash Incentive Awards. Cash incentive awards granted to our Named Executive Officers for 2014 performance ranged from 89% to 100% of their respective maximum award opportunities (or from 131% to 180% of their respective target award opportunities) based on our performance with respect to pre-established company financial measures, specifically normalized FFO per share, excluding non-cash items, and fixed charge coverage ratio (which together accounted for 65% of the award opportunity, or 35% in the case of Mr. Lillibridge, whose 2014 cash incentive award opportunity was also based 40% on the financial performance of our MOB operations), and the achievement of individual objectives tailored for each Named Executive Officer (which accounted for the remaining 35% of the award opportunity, or 25% in the case of Mr. Lillibridge).

We exceeded maximum performance with respect to both company financial measures under the 2014 annual cash incentive plan, and in regard to the tailored individual objectives, each Named Executive Officer achieved between target and maximum performance, depending on his or her unique contributions to our success.

2014 Long-Term Equity Incentive Awards. Long-term equity incentive awards granted generally in the form of restricted stock and stock options to our Named Executive Officers for 2014 performance ranged from 59% to 92% of their respective maximum award opportunities (or from 89% to 119% of their respective target award opportunities), based on our performance with respect to pre-established quantitative measures, specifically one- and three-year relative TSR and net debt to adjusted pro forma EBITDA (which together accounted generally for 50% of the award opportunity), and a qualitative evaluation of our performance with respect to pre-established financial, operational and strategic objectives (which accounted generally for the remaining 50% of the award opportunity). Our Compensation Committee and the independent members of our Board believe that this 50/50 split between formulaic measures and a qualitative evaluation of performance, and the ability to use their discretion in assessing each Named Executive Officer's contribution to our success in preserving long-term stockholder value within acceptable risk levels, provides the appropriate incentive structure and balance to drive long-term stockholder value, while discouraging excessive risk-taking. Our Compensation Committee and the independent members of our Board also believe that, because the grant and value of our long-term equity incentive awards are determined solely by performance achieved through the preceding fiscal year, such awards are fully earned at the time of grant and should not be subject to additional performance-based vesting requirements (even though they do vest over time to provide additional retention benefits and create greater alignment with stockholders). Due to his retirement on December 31, 2014, Mr. Schweinhart's 2014

long-term incentive award was based 100% on qualitative factors related to company performance and transition of the Chief Financial Officer role to Mr. Probst and was paid in cash.

We achieved between threshold and target performance with respect to the quantitative measures under the 2014 long-term equity incentive plan. In regard to the qualitative evaluation of our performance, we achieved near maximum performance overall based on our strong financial and operational results. After adjustments to reflect

individual contributions to our performance, each Named Executive Officer achieved between target and maximum performance under the qualitative portion of our 2014 long-term equity incentive plan.

Pay-for-Performance Alignment

The graph below illustrates our long-term pay-for-performance alignment by comparing our Chief Executive Officer's total direct compensation to our TSR performance (indexed to a 2009 base year) for each of the past five years.

This graph differs from compensation reported in the 2014 Summary Compensation Table in that it aligns the value of long-term equity incentive awards with the performance year for which they were earned, rather than the year in which they were granted (e.g., long-term equity incentive awards granted in January 2015 for 2014 performance are shown in the graph above as 2014 compensation), consistent with the manner in which our Compensation Committee and, with respect to our Chief Executive Officer, the independent members of our Board evaluate compensation and pay-for-performance (as disclosed in the supplemental table above).

Compensation Policies and Practices—Good Governance

Consistent with our commitment to strong corporate governance and responsiveness to our stockholders, in 2014 our Board maintained the following compensation policies and practices to drive performance and serve our stockholders' long-term interests:

ü The structure of our executive compensation program includes a balanced mix of cash and equity compensation with a strong emphasis on performance-based incentive awards.

ü Our Named Executive Officers' incentive award opportunities are capped, and the value of their awards is determined by the Compensation Committee's or the independent Board members' assessment of performance with respect to multiple performance measures, including TSR, that promote stockholder value.

- ü The long-term equity incentive awards earned by our Named Executive Officers for prior-year performance have time-based vesting schedules to enhance retention and alignment with long-term stockholder value.
- ü The competitiveness of our executive compensation program is assessed by comparison to the median of a group of peer companies that are comparable to us in terms of enterprise value, market capitalization and total assets.
- ü Our Compensation Committee is comprised solely of independent directors and annually engages an independent compensation consultant to advise on matters related to our executive compensation program.
- ü Our employment agreements with executive officers do not provide single-trigger change of control benefits, and we prohibit new tax gross-up arrangements under our anti-tax gross-up policy.
- ü We maintain meaningful stock ownership guidelines for our executive officers and non-employee directors that promote a long-term stockholder perspective.
- ü Our Compensation Committee annually reviews and assesses the potential risks of our compensation policies and practices for all employees.
- ü Our recoupment policy enables our Board to “claw back” incentive compensation in the event of a financial restatement.
- ü Our executive officers receive limited perquisites and other personal benefits that are not otherwise generally available to all of our employees.
- ü Our Securities Trading Policy and Procedures prohibits our executive officers and directors from engaging in derivative and other hedging transactions in our securities and restricts our executive officers and directors from holding our securities in margin accounts or otherwise pledging our securities to secure loans without the prior approval of the Audit Committee (no executive officer or director pledged or held our securities in margin accounts at any time during 2014).

2014 Advisory Vote on Executive Compensation and Stockholder Outreach

We submit an advisory vote to approve our executive compensation to our stockholders on an annual basis. At our 2014 Annual Meeting of Stockholders, holders of approximately 90.3% of the shares represented at the meeting voted to approve, on an advisory basis, our executive compensation. We believe the continued support for our compensation program in 2014 reflects:

- ü the strong alignment between our executive pay and performance and over long time periods;
- ü the quantitative alignment between our executive pay and performance, as measured by stockholder advisory groups;
- ü and
- ü our broad stockholder outreach efforts and the enhancements we made, beginning in 2013, to our executive compensation program based on that outreach.

In connection with our 2014 Annual Meeting of Stockholders, we continued our engagement in a broad outreach program to discuss our executive compensation practices with institutional investors that held more than 61% of the outstanding shares of our common stock. Because we value open and constructive dialogue with our stockholders, we formally invited our 30 largest stockholders to provide feedback about our executive compensation philosophy and programs, as well as our corporate governance practices. Based on these discussions and the strong support of our stockholders at our 2014 Annual Meeting of Stockholders, we learned that our stockholders:

- ü generally approve of the overall structure of our executive compensation program, our disclosures regarding the program, the decisions made under the program and the factors considered in making those decisions;
- ü generally support our pay-for-performance alignment; and
- ü generally endorse our corporate governance practices.

Our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board have also continued to evaluate our overall executive compensation program and believe that it is well designed to achieve our objectives of attracting, retaining and motivating talented executives and rewarding superior performance in the context of our business risk environment. Accordingly, our executive compensation program has not changed significantly from that described in our 2014 Proxy Statement.

Objectives of Our Compensation Program

We recognize that effective compensation strategies are critical to recruiting, incenting and retaining key employees who contribute to our long-term success and thereby create value for our stockholders. Accordingly, our compensation program is designed to achieve the following primary objectives:

- ü attract, retain and motivate talented executives;
- ü reward performance that meets or exceeds pre-established company and tailored individual goals consistent with our strategic plan, while maintaining alignment with stockholders;
- ü provide balanced incentives that discourage excessive risk-taking;
- ü retain sufficient flexibility to permit our executive officers to manage risk and adjust appropriately to meet rapidly changing market and business conditions;
- ü evaluate performance by balancing consideration of those measures that management can directly and significantly influence with market forces that management cannot control (such as monetary policy and interest rate expectations), but that impact stockholder value;
- ü encourage executives to become and remain long-term stockholders of our company; and

ii maintain compensation and corporate governance practices that support our goal to deliver sustained, superior returns to stockholders.

We align the interests of our executive officers and stockholders by maintaining a performance- and achievement-oriented environment that provides executives with the opportunity to earn market-competitive levels of cash and equity compensation for strong performance measured against key financial and strategic goals that create long-term stockholder value.

Benchmarking and Comparable Companies

Our Compensation Committee retained PM&P as its independent compensation consultant to advise it and, in the case of our Chief Executive Officer, the independent members of our Board on matters related to our Named Executive Officers' compensation levels and program design for 2014. At the time of engagement, our Compensation Committee reviewed PM&P's independence, determined that PM&P met the independence criteria under the Compensation Committee charter and determined that PM&P's engagement raised no conflict of interest.

For 2014 benchmarking purposes, PM&P provided our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board with comparative market data on compensation practices and programs based on its analysis of a group of peer companies (the "Comparable Companies") and provided guidance on compensation trends and best practices. Using this market data, PM&P advised the Compensation Committee and the independent members of our Board and made recommendations with respect to program design and setting base salaries and incentive award opportunity levels for our executive officers for 2014.

In determining 2014 compensation targets for our Named Executive Officers, our Compensation Committee, in consultation with PM&P, considered the competitive positioning of our executive compensation levels relative to compensation data for the Comparable Companies with respect to the following components of pay: base salary; total annual compensation (base salary plus annual incentive awards); long-term equity incentives (annualized expected value of long-term equity incentive awards) and total direct compensation (base salary plus annual incentive awards and annualized expected value of long-term equity incentive awards). Consistent with our compensation philosophy, our Compensation Committee targeted the median of the Comparable Companies for each of these components. Our 2014 executive compensation program was designed to deliver compensation levels above or below these targets if performance exceeded or failed to achieve the goals established for the annual cash and long-term equity incentive awards. We believe this methodology is appropriate for our operating style and reflects the need to attract, retain and stretch top executive talent.

The group of Comparable Companies consists of REITs similar to us in terms of operations and FFO and generally falling within a range of 40% to 250% of our enterprise value, market capitalization and total assets. Our Compensation Committee annually reviews the Comparable Companies to ensure that their size and operations remain comparable to ours and may change the composition of the group from time to time as appropriate. In August 2013, the Compensation Committee approved the 15 companies identified below as the appropriate Comparable Companies for 2014 compensation purposes. These companies are the same companies used by the Compensation Committee for 2013 compensation purposes, with one exception. After consultation with PM&P, our Compensation Committee replaced Brookfield Office Properties, Inc. ("Brookfield") with American Tower Corp. in order to achieve greater overlap with the peer companies selected by proxy advisory firms and due to Brookfield's domicile and substantial investor base in Canada (later, in June 2014, Brookfield was acquired and ceased to be a public company). The Comparable Companies reported compensation data for executive positions with responsibilities similar in breadth and scope to those of our executive officers, and we believe these companies generally competed with us for executive talent and stockholder investment in 2014.

Compensation Mix

Our executive compensation philosophy promotes a compensation mix that emphasizes variable pay and long-term stockholder value. We believe that an emphasis on incentive compensation creates greater alignment with the interests of our stockholders, ensures that our business strategy is executed by decision-makers in a manner that focuses on the creation of long-term value rather than only short-term results, and encourages prudent evaluation of risks.

Accordingly, our compensation structure is designed such that a significant portion of Named Executive Officers' total direct compensation is in the form of equity awards granted based on past performance that vest over time. Even though these equity awards are fully earned for performance that has already been achieved at the time of grant, the vesting schedule is designed to provide additional retention benefits and create greater alignment with stockholders. The following charts illustrate each Named Executive Officer's base salary, target annual cash incentive compensation and target long-term equity incentive compensation as a percentage of his or her target total direct compensation for 2014. Ms. Cafaro's and Mr. Lewis's target total direct compensation reflect a heavier weight on long-term equity incentive compensation because our Compensation Committee and the independent members of our Board believe that, due to their leadership roles as our Chief Executive Officer and President, respectively, their compensation structures should reflect even greater alignment with our stockholders.

Elements of Our Compensation Program

For 2014, the compensation provided to our executive officers consisted of the same elements generally available to our non-executive officers: base salary; annual cash incentive compensation; long-term equity incentive compensation; and other perquisites and benefits. The overall structure of our executive compensation program has not changed significantly over the past several years in light of the carefully considered feedback we received from our stockholders during that time.

Base Salary

The base salary payable to each Named Executive Officer provides a fixed component of compensation that reflects the executive's position and responsibilities. Base salary is generally targeted to approximate the competitive market median of the Comparable Companies, but may deviate from this target based on an individual's sustained performance, contributions, leadership, experience, expertise and specific roles within our company as compared to the benchmark data. Our Compensation Committee reviews base salaries annually and may make adjustments to better match competitive market levels or to recognize an executive's professional growth and development or increased responsibilities. The Compensation Committee also considers the success of each executive officer in developing and executing our strategic plans, exercising leadership and creating stockholder value.

In determining 2014 base salaries for our Named Executive Officers, our Compensation Committee analyzed base salary information of the Comparable Companies contained in a report prepared by PM&P. Although the Compensation Committee periodically considers information from REIT industry and other compensation surveys, it places primary emphasis on publicly available data from the Comparable Companies' proxy statements and other SEC filings, which is more detailed by individual executive officer position than the data typically provided in compensation surveys.

For 2014, our Compensation Committee and, in the case of the Chief Executive Officer, the independent members of our Board approved the following base salary increases for our Named Executive Officers:

	Base Salary		Year-Over-Year	
	2014	2013	% Change	
Debra A. Cafaro	\$1,050,000	\$1,000,000	5.0	%
Robert F. Probst	575,000	—	N/A	
Richard A. Schweinhart	500,580	463,500	8.0	%
Raymond J. Lewis	648,900	618,000	5.0	%
Todd W. Lillibridge	461,400	412,000	12.0	%
T. Richard Riney	500,580	463,500	8.0	%

With these increases, each Named Executive Officer's 2014 base salary was positioned at or slightly below the market median for the Comparable Companies. Mr. Lillibridge received a somewhat higher percentage increase in base salary in 2014 to more closely align with market competitive levels for his position.

Annual Cash Incentive Compensation — Opportunities, Measures and Actual Performance

We provide our Named Executive Officers with an annual opportunity to earn cash incentive awards for the achievement of pre-established company financial goals and tailored individual objectives. At or prior to the beginning of each performance year, our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board approve specific performance measures, goals and weightings and an award opportunity range (expressed as multiples of base salary and corresponding to threshold, target and maximum levels of performance) for each Named Executive Officer.

Cash incentive awards granted to our Named Executive Officers for 2014 performance ranged from 89% to 100% of their respective maximum award opportunities (or from 131% to 180% of their respective target award opportunities). We exceeded maximum performance with respect to both company financial measures described below that together accounted for 65% of the award opportunity (or 35% in the case of Mr. Lillibridge). Our MOB operations, which accounted for an additional 40% of Mr. Lillibridge's 2014 annual cash incentive award opportunity, achieved between target and maximum performance, based on pre-bonus segment results. In regard to the tailored individual objectives that accounted for the remaining 35% of the award opportunity (or 25% in the case of Mr. Lillibridge), our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board determined that each Named Executive Officer achieved between target and maximum performance, depending on his or her unique contributions to our success.

Award Opportunities. In December 2013 and January 2014 (with respect to Mr. Schweinhart), our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board approved the 2014 annual cash incentive award opportunities for our Named Executive Officers (other than Mr. Probst) shown in the charts above. Mr. Probst's 2014 annual cash incentive award opportunities were determined by the Compensation Committee in connection with his recruitment in September 2014. Messrs. Schweinhart's, Lillibridge's, Riney's and Lewis' threshold, target and maximum cash incentive award opportunities, as multiples of their respective base salaries, were increased from 2013 (from 0.70x, 1.40x and 2.10x, respectively, for Messrs. Schweinhart, Lillibridge and Riney and from 0.75x, 1.50x and 2.25x, respectively, for Mr. Lewis) to position their target total annual compensation closer to the market median for the Comparable Companies. Ms. Cafaro's threshold and target cash incentive award opportunities, as multiples of her base salary, also were increased from 2013 (from 0.80x and 1.60x, respectively) to position her target total annual compensation closer to the market median for the Comparable Companies. Ms. Cafaro's annual cash incentive opportunity structure has greater leverage and a wider range of outcomes than the structures of our other Named Executive Officers in support of the view that the Chief Executive Officer's compensation should be more closely aligned with stockholders than our other executive officers.

Performance Measures and Results. Below is a summary of the annual cash incentive plan measures and goals approved by our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board in December 2013 for 2014 performance, the relative weighting for each performance measure, the reasons why we consider each performance measure to be an important component of our pay-for-performance philosophy, and our results with respect to those measures. Consistent with our compensation philosophy, the 2014 annual cash incentive plan measures and goals were determined taking into consideration our strategic plan and were designed to be challenging, but also to discourage excessive risk-taking. Although these performance measures focus on shorter-term results, they have a counterbalancing effect on each other and incentivize our Named Executive Officers to adjust appropriately to meet rapidly changing market and business conditions in the long-term interests of our stockholders. For 2014, in light of the increasingly competitive acquisition environment, we eliminated the acquisition performance measure from the annual cash incentive plan

and increased the weighting of the normalized FFO per share measure by a corresponding amount to appropriately incentivize our Named Executive Officers to pursue acquisitions in a manner that minimizes risk, maintains our portfolio quality and maximizes stockholder value.

In the first quarter of the year following the performance year, each Named Executive Officer's performance is carefully evaluated with respect to the applicable pre-established measures and goals to determine the earned value of the individual's annual cash incentive award, if any, within the established award opportunity range. For 2014, we exceeded maximum performance with respect to each of the company financial measures, as summarized below.

Normalized FFO Per Share (Cash)

Normalized FFO per share, excluding non-cash items,
for the year ended December 31, 2014

Weighting: 50%*

Goals:

Threshold	\$4.07
Target	\$4.15
Maximum	\$4.23

Why does this measure matter? FFO is a common measure of operating performance for REITs because it excludes, among other items, the effect of gains and losses from real estate sales and real estate depreciation and amortization to allow investors, analysts and management to compare operating performance among companies and across time periods on a consistent basis. A REIT's FFO can have a significant impact on the trading price of its common stock and, therefore, its TSR. Normalized FFO is FFO excluding certain items, such as non-cash income tax items, deal costs and expenses, and gains and losses from marking the value of derivative instruments to market. The maximum performance goal represents a 6% increase over our normalized FFO per share, excluding non-cash items, of \$3.99 for the year ended December 31, 2013.

Result: Exceeded Maximum Performance Goal. Our year-over-year normalized FFO per diluted share, excluding non-cash items, was \$4.36. The variance between our actual results and the pre-established goals determined prior to the beginning of 2014 was largely due to actions led by our Named Executive Officers, including a higher volume of acquisitions and investments than expected through successful business development efforts, a different capital structure at year end than modeled through efficient and opportunistic capital raises, and the receipt of unanticipated fees and payments from certain of our tenants and borrowers through active asset management.

Fixed Charge Coverage (Year End)

Fixed charge coverage ratio as of December 31, 2014

Weighting: 15%*

Goals:

Threshold	3.50x
Target	3.75x
Maximum	4.00x

Why does this measure matter? Fixed charge coverage ratio reflects the strength of our balance sheet and our ability to generate sufficient earnings to meet our debt obligations. A strong ratio of EBITDA-generation compared to fixed payment obligations—one element of our comprehensive risk management program—is especially important for REITs, which are dividend paying and required to distribute to stockholders a substantial portion of their annual income. By maintaining a high fixed charge coverage ratio, we are able to preserve stockholder value, particularly during periods of economic decline, and create additional value for stockholders by continuing to execute on our acquisition strategy. Result: Exceeded Maximum Performance Goal. As of December 31, 2014, our fixed charge coverage ratio was 4.7x. The variance between our actual results and the pre-established goals determined prior to the beginning of 2014 was largely due to actions led by our Named Executive Officers, including a higher volume of acquisitions and investments than expected through successful business development efforts, efficient and opportunistic capital raises, and the receipt of unanticipated fees and payments from certain of our tenants and borrowers through active asset management.

Individual Performance

Individual performance under management

objectives established for each Named Executive Officer

Weighting: 35%*

Goals:

Individual objectives relate to areas of special emphasis within the executive's particular responsibilities and duties, such as achieving certain cost, NOI or revenue targets, completing certain IT systems conversions or installations, or achieving other extraordinary or unusual accomplishments or contributions, in light of our business risk environment. Why does this measure matter? A review of each Named Executive Officer's annual accomplishments enables our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board to evaluate the specific contributions of the Named Executive Officer to our success and more closely link pay to performance.

Result: Between Target and Maximum Performance. Each of our Named Executive Officers achieved between target and maximum performance with respect to his or her tailored individual objectives. The significant accomplishments considered by our Compensation Committee and the independent members of our Board in determining the individual performance component of our Named Executive Officers' 2014 annual cash incentive awards are summarized below.

Our MOB operations also achieved near maximum performance based on pre-bonus segment results, accounting for 40% of Mr. Lillibridge’s 2014 cash incentive award.

Earned Awards. Based on the performance summarized above, in January 2015, our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board approved 2014 cash incentive awards ranging from 89% to 100% of the Named Executive Officers' respective maximum award opportunities (or from 131% to 180% of their respective target award opportunities). The dollar value of each Named Executive Officer's award is set forth in the "Non-Equity Incentive Plan Compensation" column of the 2014 Summary Compensation Table.

Long-Term Equity Incentive Compensation — Opportunities, Measures and Performance

Our Compensation Committee believes that a substantial portion of each Named Executive Officer's compensation should be in the form of long-term equity incentive compensation. While the annual cash incentive plan rewards management actions that positively impact short-and mid-term performance, equity incentive awards encourage management to create and sustain stockholder value over longer periods because their value is directly attributable to changes in the price of our common stock over time. In addition, equity awards promote management retention because their full value cannot be realized until vesting occurs, which generally requires continued employment for multiple years. At or prior to the beginning of each performance year, our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board approve specific performance measures, goals and weightings and an award opportunity range (expressed as multiples of base salary and corresponding to threshold, target and maximum levels of performance) for each Named Executive Officer.

Unlike other companies that grant equity awards on a prospective basis prior to performance, our long-term equity incentive plan is retrospective in nature, such that equity awards are granted following the satisfaction of specified performance goals. Similar to our annual cash incentive awards, the grant and value of our long-term equity incentive awards are approved at the beginning of each fiscal year and determined solely by performance achieved through the preceding fiscal year. If threshold performance has not been achieved with respect to a performance goal for a particular performance period, the portion of the long-term equity incentive awards based on that performance goal is not granted for that period. Therefore, at the time of their grant, our long-term equity incentive awards have been fully earned and are not subject to additional performance-based vesting requirements. Although these awards do vest over multiple years to provide additional retention benefits and create greater alignment with stockholders, our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board believe that the imposition of performance-based vesting requirements would be inequitable and hinder the competitiveness of our executive compensation program. Because of the retrospective nature of our long-term equity incentive plan and the SEC's disclosure rules, the 2014 long-term equity incentive awards granted to our Named Executive Officers (other than Mr. Schweinhart, whose award was paid in cash due to his retirement on December 31, 2014) do not appear in the 2014 Summary Compensation Table, but will be reflected in next year's Summary Compensation Table as restricted stock and stock option awards granted in 2015.

Long-term equity incentive awards granted generally in the form of restricted stock and stock options to our Named Executive Officers for 2014 performance ranged from 59% to 92% of their respective maximum award opportunities (or from 89% to 119% of their respective target award opportunities). We achieved between threshold and target performance with respect to the quantitative measures described below that together accounted generally for 50% of the award opportunity. In regard to the qualitative evaluation of our performance with respect to the financial, operational and strategic objectives described below that accounted generally for the remaining 50% of the award opportunity, we achieved near maximum performance overall based on our strong financial and operational results. After adjustments to reflect individual contributions, our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board determined that each Named Executive Officer achieved between target and maximum performance under the qualitative portion of our 2014 long-term equity incentive plan. The aggregate long-term equity incentive awards granted to our Named Executive Officers for 2014 performance approximated the target level. Ms. Cafaro's 2014 long-term equity incentive award also approximated the target level and represented 79% of her maximum award opportunity, compared to her long-term equity incentive awards for the prior five years, which averaged 89% of her maximum award opportunity. Reflecting strong stockholder alignment and our emphasis on pay-for-performance, TSR had a significant impact on our Named Executive Officers' 2014 long-term equity incentive awards as it (a) generally constituted 35% of the award opportunity (or 70% of the quantitative performance measures) and (b) was a key consideration in the qualitative evaluation of our performance

with respect to specified objectives. Due to Mr. Schweinhart's retirement on December 31, 2014, his 2014 long-term incentive award was based solely on a qualitative evaluation of

performance that took into account, among other things, our relative and absolute TSR and the smooth transition of the Chief Financial Officer role to Mr. Probst.

Award Opportunities. In December 2013 and January 2014 (with respect to Mr. Schweinhart), our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board approved the 2014 long-term equity incentive award opportunities for our Named Executive Officers (other than Mr. Probst) shown in the charts above. Mr. Probst's 2014 long-term equity incentive award opportunities were determined by our Compensation Committee in connection with his recruitment in September 2014. Messrs. Schweinhart's, Lillibridge's and Riney's threshold, target and maximum long-term equity incentive award opportunities, as multiples of their respective base salaries, were increased from 2013 (from 1.00x, 2.00x and 3.00x, respectively) to position their target total direct compensation closer to the market median for the Comparable Companies and to provide a similar range of upside and downside opportunity around target. Ms. Cafaro's threshold and target long-term equity incentive award opportunities and Mr. Lewis' threshold long-term equity incentive award opportunity, as multiples of their respective base salaries, also were increased from 2013 (from 2.25x and 4.50x, respectively, for Ms. Cafaro and from 1.65x for Mr. Lewis) to position their target total direct compensation closer to the market median for the Comparable Companies and to provide a more similar range of upside and downside opportunity around target.

At the target levels shown above, each Named Executive Officer's 2014 target total direct compensation was positioned near or slightly below the market median of the Comparable Companies. Ms. Cafaro's and Mr. Lewis's long-term equity incentive structures have greater leverage and a wider range of outcomes than the structures of our other Named Executive Officers in support of the view that our Chief Executive Officer's and President's compensation should be even more closely aligned with stockholders than our other executive officers.

Performance Measures and Results. Below is a summary of the 2014 long-term equity incentive plan measures and goals approved by our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board, in December 2013, the relative weighting for each performance measure, the

reasons we consider each performance measure to be an important component of our pay-for-performance philosophy, and our results with respect to those measures and goals. Although our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board retain discretion to determine overall performance under the qualitative portion of our long-term equity incentive plan, many of the specific performance factors are evaluated based on objective, quantifiable measures. Our Compensation Committee and the independent members of our Board believe that this 50/50 split between formulaic measures and a qualitative evaluation of performance, and the ability to use their discretion in assessing each Named Executive Officer's contribution to our success in preserving long-term stockholder value within acceptable risk levels, provides the appropriate incentive structure and balance to drive long-term stockholder value and discourage excessive risk-taking. For future performance periods, they will continue to evaluate our long-term equity incentive plan in the context of our overall executive compensation program, our business needs and feedback from our stockholders.

In the first quarter of the year following the performance year, each Named Executive Officer's performance is carefully evaluated with respect to the applicable pre-established measures and goals in the context of the macroeconomic environment and conditions in the healthcare REIT industry to determine the earned value of the individual's long-term equity incentive award, if any, within the established award opportunity range.

One-Year Relative TSR

Our TSR for the one-year period ended December 31, 2014
relative to the TSR of the Comparable Companies for the same period

Weighting: 15%

Goals:

Threshold	25th percentile
Target	50th percentile
Maximum	80th percentile

Why does this measure matter? TSR is the most direct measure of our creation and preservation of stockholder value. By relying on a relative measure of our TSR performance, our Board mitigates the impact of broader market or industry trends that do not directly reflect our actual performance.

Result: Between Threshold and Target Performance Goals. For the year ended December 31, 2014, our robust TSR of 31% ranked us 11th among the Comparable Companies, at the 33rd percentile.

Three-Year Relative TSR

Our TSR for the three-year period ended December 31, 2014
relative to the TSR of the Comparable Companies for the same period
Weighting: 20%

Goals:

Threshold	25th percentile
Target	50th percentile
Maximum	80th percentile

Why does this measure matter? Same as for one-year TSR, but we place greater weight on three-year TSR performance to reflect our focus on long-term stockholder value and mitigate the impact of temporary fluctuations in our stock price that are not present over longer time periods.

Result: Between Threshold and Target Performance Goals. For the three-year period ended December 31, 2014, our compound annual TSR of 14% ranked us 12th among the Comparable Companies, slightly above the 25th percentile.

Metric Three: Net Debt to EBITDA (Year End)

Net debt to adjusted pro forma EBITDA as of December 31, 2014
Weighting: 15%

Goals:

Threshold	6.00x
Target	5.75x
Maximum	5.50x

Why does this measure matter? Net debt to adjusted pro forma EBITDA reflects the strength of our balance sheet and our ability to generate sufficient earnings to meet our debt obligations. A strong balance sheet— one element of our comprehensive risk management program—is especially important for REITs, which are required to distribute to stockholders a substantial portion of their annual income. By maintaining financial strength, we are able to preserve stockholder value, particularly during periods of economic decline, and create additional value for stockholders by continuing to execute on our acquisition strategy.

Result: Between Threshold and Target Performance Goals. As of December 31, 2014, our net debt to adjusted pro forma EBITDA was 5.9x.

Qualitative Evaluation of Specified Objectives

Qualitative evaluation of specified financial, operational and strategic objectives subject to Compensation Committee and independent Board members discretion

Weighting: 50%

2014 Performance Factors:

Absolute and Relative TSR

Enterprise Risk Management

Value Creating Refinancing

Reinforce Culture of Excellence, Collaboration and Results Driven

High Performance Team

Process Improvement

Optimization of Same-Store Cash Flow Growth

Succession Planning and Organizational Improvement

Value Creating Dispositions

Values, Reputation and Industry Leadership

Why do these measures matter? Focus areas are selected to drive long-term stockholder value and discourage excessive risk-taking with the ability to recognize individual contributions.

Result: Near Maximum Performance. Our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board evaluated our performance with respect to the specified objectives and other factors described below, noting a high level of achievement. After adjustments to reflect individual contributions, our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board determined that each Named Executive Officer achieved between target and maximum performance under the qualitative portion of our 2014 long-term equity incentive plan.

In their qualitative evaluation, our Compensation Committee and the independent members of our Board did not assign a specific weight to any single factor, but recognized our strong financial and operational results, evidenced primarily by: our exceptional long-term absolute and relative TSR (described below) and robust 31% absolute annual TSR; over \$5 billion of accretive acquisitions (including HCT, which was completed in January 2015); record financial results, including normalized FFO; professional and transparent handling of our 2014 re-audit process, which reaffirmed our historical financial results and the integrity of internal controls; successful recruitment of key new members to our management team; expert and nimble capital markets execution; and successful re-leasing or sale of 108 post-acute facilities in our portfolio. Specifically, our long track record of delivering superior returns to stockholders included:

- our 28.5% compound annual TSR for the period from January 1, 2000 through December 31, 2014 (the 15 completed fiscal years of our Chief Executive Officer's tenure), which outperformed the Comparable Companies, the S&P 500 index and the RMS index;

- our 15.4% compound annual TSR for the ten-year period ended December 31, 2014, which ranked us first among the three largest healthcare REITs;

- our compound annual TSR of 31%, 14% and 15% for the one-, three- and five-year periods ended December 31, 2014, respectively, which placed us second among the large-cap healthcare REITs in our peer group;

- an 8% increase in the dividend we paid to our stockholders in 2014; and

- our compound dividend annual growth rates of 7% and 9% for the seven- and ten-year periods ended December 31, 2014, which are among the highest of all REITs.

Our other accomplishments considered by our Compensation Committee and independent members of our Board were:

- ü 3.9% same-store total portfolio cash flow growth, expressed in constant currency;
- ü generation of over \$285 million in free cash flow after dividends and recurring capital expenditures;
- ü expansion of our international operations into the United Kingdom and extension of our Atria relationship into Canada;
- ü Ms. Cafaro's external recognition by Harvard Business Review, Institutional Investor, Jim Cramer and NAREIT for exceptional long-term performance and leadership;
- ü our strong credit rating of BBB+ or equivalent from all three nationally-recognized rating agencies;
- ü over \$175 million in proceeds from asset sales and loan repayments during 2014; and
- ü improvements in business processes enterprise-wide and implementation of a state-of-the-art accounting system.

Earned Awards. Based on the performance summarized above, in January 2015, our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board approved 2014 long-term equity incentive awards ranging from 59% to 92% of the Named Executive Officers' respective maximum award opportunities (or from 89% to 119% of their respective target award opportunities). With the exception of Mr. Schweinhart, whose 2014 long-term incentive compensation was granted in cash due to his retirement on December 31, 2014, the long-term incentive compensation granted to our Named Executive Officers for 2014, similar to prior years, consisted of equity awards in the form of stock options (30%) and shares of restricted stock (70%) granted pursuant to our 2012 Incentive Plan. Our Compensation Committee believes that restricted stock, which is the most prevalent form of long-term equity incentive compensation among the Comparable Companies, provides a stronger incentive to create and preserve long-term stockholder value and, therefore, weighted the 2014 long-term equity incentive awards more heavily toward restricted stock.

The shares of restricted stock and stock options granted to our Named Executive Officers in January 2015 for 2014 performance vest in three equal annual installments, beginning on the date of grant. The stock options have a ten-year term, and the stock option exercise price is the closing price of our common stock on the date of grant.

Shares of restricted stock and stock options are granted to our Named Executive Officers (other than the Chief Executive Officer) on the date that our Compensation Committee meets to review our performance and determine the value of the long-term equity incentive awards. Shares of restricted stock and stock options are granted to our Chief Executive Officer on the date that the independent members of our Board meet to review and approve the Compensation Committee's recommendations with respect to the value of the Chief Executive Officer's long-term equity incentive award. Typically, these meetings of our Compensation Committee and the independent members of our Board are held on the same day.

Other Benefits and Perquisites

Our executive compensation program focuses on the elements described above, with extremely limited provision of perquisites. Our Named Executive Officers are generally eligible to participate in the same benefit programs that we offer to other employees, which in 2014, included the following:

- ü health, dental and vision insurance (of which we paid 90% of the premium in 2014);
- ü short-term disability, long-term disability and life insurance coverage (at no cost to the employee); and
- ü participation in a 401(k) plan (to which we made matching contributions up to 3.5% of the employee's base salary, up to the federal limit, in 2014).

We believe these benefits are competitive with overall market practices. In addition, we provide certain limited perquisites and other benefits to attract and retain superior employees for key positions. The only perquisites and benefits provided to our Named Executive Officers in 2014 that were not otherwise available to all employees consisted of supplemental disability and life insurance coverage, including reimbursement for taxes relating to that life insurance coverage, for Ms. Cafaro and reimbursement for the cost of parking for Mr. Lillibridge. Our Compensation Committee periodically reviews the perquisites and other personal benefits provided to each Named Executive Officer and has determined that they are consistent with current market practice. Except for the eligibility

to participate in, and our matching contributions to, the 401(k) plan, as described above, we do not provide our Named Executive Officers with any retirement benefits.

Severance Benefits

Our Named Executive Officers are entitled to receive severance benefits under existing agreements upon certain qualifying terminations of employment (subject to any required payment delay pursuant to Section 409A of the Code). Generally, these severance arrangements support executive retention and continuity of management and provide replacement income if an executive is terminated involuntarily other than for cause.

None of our executive officers is entitled to severance benefits solely upon a change of control of our company. Moreover, our Chief Executive Officer is not entitled to any tax gross-ups with respect to payments made in connection with a change of control. Although longstanding legacy arrangements with Messrs. Lewis and Riney provide certain tax gross-ups with respect to payments made in connection with a change of control, no such gross-up payment would have been payable to any of our Named Executive Officers under the scenarios and assumptions presented under “Potential Payments Upon Termination or Change of Control” in this Proxy Statement. At the time we entered into each of those arrangements, our Compensation Committee considered the potential severance benefits, including any potential tax gross-up, to be necessary to attract and retain top executives and, based on the market compensation analyses of the Compensation Committee’s independent compensation consultant, to be consistent with then-current competitive market practices. Our employment agreement with Mr. Lillibridge, entered into in 2010, and our Employee Protection and Non-Competition Agreement with Mr. Probst, entered into in 2014, do not provide for any tax gross-up payments in connection with a change of control.

In 2013, consistent with our commitment to strong corporate governance and responsiveness to our stockholders, our Board adopted a policy against tax gross-up arrangements, which formalized our existing practice of not entering into new tax gross-up arrangements with our executive officers.

Tax Considerations

Section 162(m) of the Code places a limit of \$1 million on the amount of compensation that we may deduct in any year with respect to each Named Executive Officer other than our Chief Financial Officer, unless the compensation is performance-based compensation and meets certain other requirements, as described in Section 162(m) and the related regulations. Although we consider the impact of Section 162(m), as well as other tax and accounting consequences, when developing and implementing our executive compensation programs, our Compensation Committee retains flexibility to make compensation decisions that do not meet the requirements for deductibility under Section 162(m) when it considers it appropriate or necessary to do so. In addition, due to ambiguities and uncertainties as to the interpretation and application of Section 162(m) of the Code, no assurances can be given that compensation would satisfy the requirements for deductibility under Section 162(m), even if intended to do so. Accordingly, our Compensation Committee may approve compensation that exceeds the \$1 million limit or does not otherwise meet the requirements of Section 162(m).

Minimum Share Ownership Guidelines for Executive Officers

Our minimum share ownership guidelines require each executive officer to maintain a minimum equity investment in our company based upon a multiple (five times, in the case of the Chief Executive Officer, and three times, in the case of all other executive officers) of his or her base salary at the time his or her compliance with the guidelines is evaluated. Each executive officer must achieve the minimum equity investment within five years from the date he or she first becomes subject to the guidelines and, until that time, must retain at least 60% of the shares of our common stock granted to the executive officer or purchased by the executive officer through the exercise of stock options. The independent members of our Board annually review each executive officer’s compliance with the guidelines as of July 1. All of our executive officers (other than Mr. Probst, who is still subject to the transition period) are currently in compliance with the minimum share ownership guidelines. Except as described above, our minimum share ownership guidelines and our 2012 Incentive Plan do not specify a minimum holding period for stock options, restricted stock or other equity grants.

Recoupment Policy

In 2014, our Board adopted a Policy for Recoupment of Incentive Compensation that allows us to recapture amounts paid to our executive officers under certain circumstances. Under this policy, our Compensation Committee may require an executive officer to repay all or a portion of any excess cash or equity incentive compensation he or she received during the preceding three-year period if the incentive compensation was based on achieving certain financial results that were later required to be restated due to our material noncompliance with any financial reporting requirement.

Following the SEC's adoption of final rules regarding executive compensation recoupment policies pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act, we will review our recoupment policy and make any changes necessary to comply with the final rules.

(1) The amounts shown in the Stock Awards and Option Awards columns reflect the full grant date fair value of the restricted stock and stock options granted to our Named Executive Officers in 2014, 2013 and 2012 for prior-year performance (with the exception of Mr. Probst, who received a one-time restricted stock award as part of his recruitment package), calculated pursuant to FASB guidance relating to fair value provisions for share-based payments. See Note 12 of the Notes to Consolidated Financial Statements included in the 2014 Form 10-K for a

discussion of the relevant assumptions used in calculating grant date fair value. For further information on these awards, see the 2014 Grants of Plan-Based Awards Table and 2014 Outstanding Equity Awards at Fiscal Year-End Table in this Proxy Statement. In accordance with SEC rules, restricted stock and stock options granted in 2015 to our Named Executive Officers for 2014 performance are not shown in the 2014 Summary Compensation Table but will be shown in the 2015 Summary Compensable Table.

- (2) The amounts shown in the Non-Equity Incentive Plan Compensation column reflect annual cash incentive awards earned by our Named Executive Officers for performance in 2014, 2013 and 2012.

The amounts shown in the All Other Compensation column for 2014 include supplemental disability insurance premiums (in the amount of \$46,848) and supplemental life insurance premiums paid on behalf of Ms. Cafaro; group term life insurance premiums paid on behalf of our Named Executive Officers; reimbursement for the payment of taxes relating to such group term life insurance for Ms. Cafaro (in the amount of \$586); our matching contributions to the Named Executive Officers' 401(k) plan accounts (except for Mr. Probst, in the amount of \$9,100 for each Named Executive Officer, and in the amount of \$1,438 in the case of Mr. Probst); and reimbursement for the cost of parking for Mr. Lillibridge.

- (3) Mr. Probst was appointed our Executive Vice President, Chief Financial Officer and Acting Chief Accounting Officer effective October 27, 2014. His annual base salary of \$575,000 was prorated to reflect his service in 2014. Upon employment, Mr. Probst received a \$1 million, one-time restricted stock award for retention purposes. The award will vest in full on the third anniversary of the date of grant.
- (4)

- The amount shown in the Non-Equity Incentive Plan Compensation column for Mr. Schweinhart for 2014 includes (5) the value of his long-term incentive award granted in 2015 for performance in 2014 (\$1,501,740), but paid in cash rather than in shares of restricted stock due to his retirement on December 31, 2014.

The amounts shown reflect shares of restricted stock granted to our Named Executive Officers. These shares vest in three equal annual installments beginning on the date of grant, except for Messrs. Schweinhart's and Probst's (1) shares of restricted stock, which will vest or were scheduled to vest in full on the third anniversary of the date of grant. The vesting of Mr. Schweinhart's shares of restricted stock was accelerated upon his retirement on December 31, 2014 in accordance with the terms of the applicable award agreement.

(2)

The stock options vest in three equal annual installments beginning on the date of grant, except for Mr. Schweinhart's options, which were scheduled to vest in full on the third anniversary of the date of grant. The vesting of Mr. Schweinhart's options was accelerated upon his retirement on December 31, 2014 in accordance with the terms of the applicable award agreement.

- (3) The stock option exercise price equals the closing price of our common stock on the date of grant. The amounts shown reflect the full grant date fair value of the awards calculated pursuant to FASB guidance regarding fair value provisions for share-based payments. See Note 12 of the Notes to Consolidated Financial Statements included in our 2014 Form 10-K for a discussion of the relevant assumptions used in calculating grant date fair value.
- (4) The amounts shown represent each Named Executive Officer's threshold, target and maximum annual cash incentive opportunities for performance in 2014. These opportunities were approved by our Compensation Committee and, in the case of our Chief Executive Officer, by the independent members of our Board in December 2013 (for the Named Executive Officers other than Messrs. Schweinhart and Probst), January 2014 (for Mr. Schweinhart) and September 2014 (for Mr. Probst). The actual amount of each Named Executive Officer's award is based on the achievement of certain performance measures as discussed in our CD&A. The annual cash incentive awards earned by our Named Executive Officers for performance in 2014 were granted in January 2015 and paid during the first quarter of 2015. Such earned awards are shown in the "Non-Equity Incentive Plan Compensation" column of the 2014 Summary Compensation Table.
- (5) The amounts shown represent each Named Executive Officer's threshold, target and maximum long-term equity incentive opportunities for performance in 2014. These opportunities were approved by our Compensation Committee and, in the case of our Chief Executive Officer, by the independent members of our Board in December 2013 (for the Named Executive Officers other than Messrs. Schweinhart and Probst),
- (6)

January 2014 (for Mr. Schweinhart) and September 2014 (for Mr. Probst). The actual amount of each Named Executive Officer's award is based on the achievement of certain performance measures as discussed in our CD&A. Except for Mr. Schweinhart, the long-term equity incentive awards earned by our Named Executive Officers for performance in 2014 were granted in January 2015 in the form of restricted stock (70%) and stock options (30%). Such earned equity awards will be reported as restricted stock and stock option grants made during 2015 and are not included in the 2014 Grants of Plan-Based Awards Table above; however, these awards are shown in the table under "Earned Compensation of Our Named Executive Officers for 2014, 2013 and 2012 Performance" in the CD&A. Mr. Schweinhart's long-term equity incentive award for 2014 was paid in cash rather than in shares of restricted stock and stock options due to Mr. Schweinhart's retirement on December 31, 2014.

(7) The amounts shown reflect the long-term equity incentive awards granted as restricted stock and stock options to our Named Executive Officers in January 2014 for 2013 performance.

Outstanding option and restricted stock awards vest in three equal annual installments beginning on the date of grant and outstanding options expire on the tenth anniversary of the date of grant, except for: 152,934 shares of restricted stock granted to Ms. Cafaro on March 22, 2011, which vest in five equal annual installments beginning on March 22, 2012; 14,836 shares of restricted stock granted to Mr. Probst on October 27, 2014, which vest in full (1) on the third anniversary of the date of grant; 10,208 stock options granted to Mr. Lewis on March 16, 2011, which expire on January 20, 2021; and 111,122 shares of restricted stock granted to Mr. Lillibridge on July 1, 2010, which vest 15%, 15%, 20%, 25% and 25% on the first, second, third, fourth and fifth anniversaries, respectively, of the date of grant. Accordingly, the options and shares of restricted stock shown in these columns vest (or have vested) as follows:

Upon his retirement on December 31, 2014, all of Mr. Schweinhart's outstanding options and shares of restricted stock granted under our 2012 Incentive Plan vested in accordance with the terms of the applicable award agreements.

Our Named Executive Officers are generally entitled to dividends paid on unvested shares of restricted stock.

(2) For purposes of the table, the market value of restricted stock that has not vested is determined by multiplying the number of shares by \$71.70, the closing price of our common stock on December 31, 2014.

(3) The amounts shown represent the 2014 long-term equity incentive awards for our Named Executive Officers, which had not been granted as of December 31, 2014. The 2014 long-term equity incentive awards consisted of restricted stock (70%) and stock options (30%).

(4) In light of Mr. Schweinhart's retirement on December 31, 2014, his long-term equity incentive award for 2014 was granted solely in cash; however, for purposes of this presentation, the cash amount is shown in the Equity Incentive Plan Awards: Market or Payout Value of Unearned Shares, Units or Other Rights That Have Not Vested column, as well as in the Non-Equity Incentive Plan Compensation column of the 2014 Summary Compensation Table.

2014 Options Exercised and Stock Vested Table

The following table sets forth information regarding the value realized by our Named Executive Officers pursuant to the vesting or exercise of equity-based awards during 2014:

Name	Option Awards(1)		Stock Awards(1)	
	Number of Shares Acquired Upon Exercise (#)	Value Realized Upon Exercise (\$)	Number of Shares Acquired Upon Vesting (#)	Value Realized Upon Vesting(2) (\$)
Debra A. Cafaro	447,613	\$ 13,199,294	98,815	\$ 6,006,349
Robert F. Probst	—	—	—	—
Richard A. Schweinhart	150,779	5,431,573	23,272	1,574,568
Raymond J. Lewis	—	—	27,048	1,658,319
Todd W. Lillibridge	—	—	38,088	2,419,231
T. Richard Riney	—	—	12,813	785,657

If a Named Executive Officer used share withholding to pay the exercise price of options or to satisfy the tax (1) obligations with respect to the option exercise or the vesting of restricted stock, the number of shares acquired and the value realized were less than the amounts shown.

(2) The amounts shown in this column reflect the value of the vested shares based on the closing price of our common stock on the vesting date.

Employment and Severance Agreements with Named Executive Officers

We are party to the following employment and severance agreements with our Named Executive Officers:

- a second amended and restated employment agreement with Ms. Cafaro dated March 22, 2011 (the “Cafaro Employment Agreement”);
- an offer letter to Mr. Probst dated September 16, 2014, and an employee protection and non-competition agreement with Mr. Probst dated September 16, 2014 (collectively, the “Probst Employee Protection Agreement”);
- an employment agreement with Mr. Lewis dated September 18, 2002, as amended (the “Lewis Employment Agreement”);
- an employment agreement with Mr. Lillibridge dated July 1, 2010 (the “Lillibridge Employment Agreement”); and
- an amended and restated employment agreement with Mr. Riney dated July 31, 1998, as amended (the “Riney Employment Agreement”), and an amended and restated change-in-control severance agreement with Mr. Riney dated March 22, 2011 (the “Riney Severance Agreement”).

In addition, prior to his retirement on December 31, 2014, we were party to an amended and restated employment agreement with Mr. Schweinhart dated December 31, 2004, as amended (the “Schweinhart Employment Agreement”). On December 31, 2014, we entered into a consulting agreement with Mr. Schweinhart, pursuant to which he agreed to provide certain consulting services for us generally for the period from January 1, 2015 through March 31, 2015. Mr. Schweinhart is no longer entitled to any benefits or payments under the Schweinhart Employment Agreement. Under these agreements, our Named Executive Officers are or were (in the case of Mr. Schweinhart) entitled to receive severance benefits upon certain qualifying terminations of employment (subject to any required payment delay pursuant to Section 409A of the Code). At the time we entered into each of the agreements, the Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board considered the potential severance benefits, including any potential tax gross-up, to be necessary to attract and retain top executives and, generally based on market compensation analyses of the Compensation Committee’s independent compensation consultant, to be consistent with then current competitive market practices. Neither the Lillibridge Employment Agreement nor the Probst Employee Protection Agreement provides for any tax gross-up payments in connection with a change of control, and in 2013, consistent with our commitment to strong corporate governance and responsiveness to stockholders, we formalized our existing practice of not entering into new tax gross-up arrangements with our executive officers.

Cafaro Employment Agreement

The Cafaro Employment Agreement provides Ms. Cafaro with an annual base salary of not less than \$915,000 and eligibility to participate in our incentive and other employee benefit plans. The Cafaro Employment Agreement also requires that we provide Ms. Cafaro with \$2 million of life insurance coverage and executive disability coverage that would provide annual benefits of at least 100% of her base salary. Under the Cafaro Employment Agreement, the term of Ms. Cafaro’s employment will continue until terminated or the Cafaro Employment Agreement is amended. Upon termination of Ms. Cafaro’s employment for any reason, Ms. Cafaro will be subject to noncompetition and nonsolicitation restrictions for a period of one year, as well as certain confidentiality and nondisparagement restrictions.

Under the terms of the Cafaro Employment Agreement, Ms. Cafaro is entitled to the benefits summarized below upon the event specified. Under certain circumstances, Ms. Cafaro’s severance payments or other benefits are subject to reduction such that there will be no taxes imposed upon her by Section 4999 of the Code or any similar state or local tax.

Certain of Ms. Cafaro’s outstanding stock option and restricted stock awards would vest in full upon death, disability or a change of control pursuant to the terms of the applicable incentive plan or award agreement.

** However, the special equity incentive award granted to Ms. Cafaro on March 22, 2011 specifically provides that it does not vest solely upon a change of control.

Potential Payments Upon Termination or Change of Control

The table below reflects the amount of compensation and benefits payable to each Named Executive Officer in the
 event of:

- ü termination for Cause or without Good Reason;
- ü termination other than for Cause or with Good Reason (“involuntary termination”);
- ü a Change of Control (without any termination of employment);
- ü involuntary termination following a Change of Control; and
- ü death or disability.

The amounts shown are estimates of the amounts that would be paid to the Named Executive Officers assuming the
 applicable termination or Change of Control occurred on December 31, 2014. The actual amounts can be determined
 only if and when the Named Executive Officer’s employment is terminated or the Change of Control occurs. Receipt
 of benefits upon termination is subject to the execution of a general release of claims by the Named Executive Officer
 or his or her beneficiary. Although our employment and severance agreements with our Named Executive Officers
 (other than Mr. Riney) contain certain restrictive covenants, including noncompetition and nonsolicitation provisions,
 no specific value to the company has been ascribed to these covenants in the table.

Involuntary termination following Change of Control for Ms. Cafaro, involuntary termination within one year of (1) Change of Control for Messrs. Probst, Schweinhart, Lewis and Lillibridge, and involuntary termination within two years of Change of Control for Mr. Riney.

(2) “Target Bonus,” “Target Annual Bonus” or “Maximum Annual Bonus,” as applicable, for each Named Executive Officer is defined above under “Employment and Severance Agreements with Named Executive Officers.”

(3) Multiples for the Named Executive Officers are as follows:

	Involuntary Termination (without Change of Control)	Involuntary Termination Following Change of Control
Ms. Cafaro	3x	3x
Messrs. Probst, Schweinhart, Lewis, Lillibridge and Riney	1x	2x

(4) Pursuant to our 2006 Incentive Plan, unless the applicable award agreement provides otherwise, upon a change of control or in the event of death or disability of a participant while employed by us, all stock options held by the participant become fully vested and immediately exercisable and all restrictions and other conditions pertaining to shares of restricted stock held by the participant immediately lapse. However, the special equity incentive awards granted to Ms. Cafaro on March 22, 2011 and Mr. Lillibridge on July 1, 2010 specifically provide that they do not vest solely upon a change of control. The outstanding award agreements under our 2012 Incentive Plan generally provide that, upon a change of control or in the event of death or disability of a participant while employed by us, the stock options underlying the award become immediately exercisable or the restrictions and other conditions

pertaining to the shares of restricted stock underlying the award immediately lapse. However, the sign-on equity award granted to Mr. Probst on October 27, 2014 specifically provides that it does not vest solely upon a change of control.

In the event of involuntary termination: Ms. Cafaro's restricted stock and stock options would become fully vested; Messrs. Lewis, Riney and Schweinhart would be treated as having one additional year of service for purposes of vesting of restricted stock; all shares of restricted stock granted to Mr. Lillibridge as part of his special equity incentive awards on July 1, 2010 would vest in full.

Assumes a stock price of \$71.70, the closing price of our common stock on December 31, 2014. For purposes of the table, the value of vesting of restricted stock is determined by multiplying the number of shares vesting by (5) \$71.70, and the value of vesting of stock options is determined by subtracting the stock option exercise price from \$71.70 and multiplying by the number of options vesting.

(6) Only in the event of involuntary termination or disability.

Pursuant to the Cafaro Employment Agreement, the Probst Employee Protection Agreement and the Executive Employment Agreements, under certain circumstances, payments or benefits to Ms. Cafaro and Messrs. Probst, (7) Schweinhart and Lewis are subject to reduction such that there will be no taxes imposed upon them by Section 4999 of the Code or any similar state or local tax.

Under the Probst Employee Protection Agreement, the amount of certain severance benefits payable to Mr. Probst is limited to a maximum of \$4 million, as adjusted annually beginning in 2015 to reflect increases in CPI. Under the Executive Employment Agreements, the Lillibridge Employment Agreement, the Riney Employment Agreement and the Riney Severance Agreement, the amount of certain severance benefits payable to each of Messrs. Schweinhart, Lewis, Lillibridge and Riney is limited to a maximum of \$3 million, as adjusted annually following the effective date of the applicable agreement to reflect increases in CPI.

The fair market value of the maximum or target restricted stock grant under the long-term equity incentive plan is determined by multiplying the maximum or target 2014 long-term equity incentive opportunity, as applicable, by 0.70.

NON-EMPLOYEE DIRECTOR COMPENSATION

Our Board believes that the compensation paid to our non-employee directors should be competitive with the Comparable Companies, as well as public companies of similar enterprise value, market capitalization and total assets, and should enable us to attract and retain individuals of the highest quality to serve as our directors. In addition, the Board believes that a significant portion of non-employee director compensation should align director interests with the long-term interests of our stockholders. Accordingly, non-employee directors receive a combination of cash and equity-based compensation for their services. Each of these components is described below. We also reimburse each non-employee director for travel and other expenses associated with attending Board and committee meetings, director education programs and other Board-related activities. Ms. Cafaro, the only member of the Board employed by us, does not receive compensation for her service as a director.

Cash Compensation

The cash compensation paid to, or earned by, our non-employee directors in 2014 was comprised of the following three components:

Quarterly Board retainer: Each non-employee director received a retainer of \$18,750 for each calendar quarter in which he or she served as a director. The Presiding Director received an additional retainer of \$6,250 for each calendar quarter of service.

Quarterly committee retainers: Each member (other than the chair) of the Audit, Compensation and Nominating Committees received a retainer of \$5,000, \$5,000 and \$3,750, respectively, for each calendar quarter of service as a member of such committee. The chair of the Audit, Compensation and Nominating Committees received a retainer of \$6,250, \$6,250 and \$5,000, respectively, for each calendar quarter of service as the chair of that committee.

Board and committee meeting fees: Each non-employee director received \$1,500 for each Board meeting he or she attended in excess of the eighth Board meeting held during the year, \$1,500 for each Audit, Compensation or Nominating Committee meeting he or she attended in excess of the sixth such committee meeting held during the year and \$1,500 for each Investment or Executive Committee meeting he or she attended during the year (in each case, including telephonic meetings, unless the meeting was 30 minutes or less).

Pursuant to our Nonemployee Directors' Deferred Stock Compensation Plan (the "Director Deferred Compensation Plan"), non-employee directors may elect to defer receipt of all or a portion of their cash retainer and meeting fees. Deferred fees are credited to each participating director in the form of stock units, based on the fair market value of our common stock on the deferral date. At the prior election of the participating director, dividend equivalents on the stock units are either paid in cash or credited as additional units. Upon termination of a participating director's service on the Board, or at such later time as he or she has previously designated, the director's stock unit account is settled in whole shares of our common stock on a one-for-one basis and distributed either in one lump sum or in installments over a period of not more than ten years, at the director's prior election. Fractional stock units are paid out in cash.

Equity-Based Compensation

The equity-based compensation paid to our non-employee directors in 2014 consisted of shares of restricted stock or restricted stock units, at the director's prior election, granted pursuant to our 2012 Incentive Plan as follows:

On January 1, each non-employee director who was serving on such date received shares of restricted stock or restricted stock units, at his or her prior election, having an aggregate value equal to \$130,000.

Upon initial election or appointment to the Board, a newly-elected or appointed non-employee director would have received a number of shares of restricted stock having an aggregate value equal to a pro rata portion of \$130,000 (determined by reference to the number of days remaining in the calendar year).

Shares of restricted stock and restricted stock units granted to our non-employee directors generally vest in two equal annual installments, beginning on the first anniversary of the date of grant.

Review of Non-Employee Director Compensation

Our Nominating Committee is responsible for annually reviewing the amount and types of compensation to be paid to our non-employee directors and recommending any changes to our non-employee director compensation program for approval by our Board. As part of its annual review, the Nominating Committee may consider information contained in surveys compiled by NAREIT or the National Association of Corporate Directors and may retain an independent compensation consultant to advise it on appropriate director compensation levels. In 2013, the Nominating Committee retained PM&P to advise it on matters related to non-employee director compensation levels and program design for 2014. After consultation with PM&P on our 2014 program, our Nominating Committee recommended, and our Board approved, a \$30,000 increase in the January 1 grant of restricted stock or restricted stock units to an aggregate value of \$130,000, beginning in 2014, and elimination of an additional grant of 2,000 shares of restricted stock or restricted stock units to directors upon initial election or appointment to the Board, effective immediately. In 2015, the Nominating Committee recommended, and the Board approved, a \$15,000 increase in the annual cash retainer to \$90,000 to remain competitive with the market for experienced directors.

Minimum Share Ownership Guidelines for Non-Employee Directors

Our minimum share ownership guidelines require each non-employee director to maintain a minimum number of shares of our common stock with a value not less than five times the current annual cash retainer (currently \$90,000) paid to such director for service on our Board (excluding, among other things, any additional retainer paid for service as a committee member or chair or the Presiding Director). Each non-employee director must satisfy the minimum share ownership levels within five years from the date that he or she first becomes subject to the guidelines (or, upon any increase in the annual cash retainer, within five years from the date of such increase to satisfy the guidelines with respect to such incremental amount) and, until such time, must retain 100% of the shares of our common stock or stock units granted to him or her as compensation minus any shares forfeited by the director under our share withholding program to pay taxes on the vesting of shares. Compliance with the guidelines is reviewed on July 1 of each year. All of our non-employee directors (other than Ms. Barnes, who is still subject to the transition period) are currently in compliance with these guidelines.

2014 Non-Employee Director Compensation Table

The following table sets forth the compensation awarded or paid to, or earned by, our non-employee directors during 2014:

Of the amounts shown in this column, the following directors elected to defer all (1) or a portion of their retainer and meeting fees pursuant to the Director Deferred Compensation Plan described above and were credited with the following stock units: Mr. Crocker, \$131,000 or 2,121 units; Mr. Gellert, \$113,500 or 1,832 units; Mr. Lustig, \$76,500 or 1,247 units; Mr. Reed, \$122,500 or 1,976 units; Mr. Rufrano, \$125,000 or 2,007 units; and Mr. Shelton, \$49,000 or 800 units.

The amounts shown in the Stock Awards column represents the full grant date fair value of shares of restricted stock or restricted stock units (excluding stock units credited in lieu of retainer and meeting fees) granted to each non-employee director in 2014, calculated pursuant to FASB guidance regarding fair value provisions for (2) share-based awards. See Note 12 of the Notes to Consolidated Financial Statements included in our 2014 Form 10-K for a discussion of the relevant assumptions used in calculating grant date fair value. Directors are generally entitled to dividends paid on unvested shares of restricted stock and dividend equivalents on vested and unvested restricted stock units.

As of December 31, 2014, the aggregate number of unvested shares of restricted stock and restricted stock units and the aggregate number of shares underlying unexercised stock options (vested and unvested) held by each non-employee director were as follows:

	Unvested Shares of Restricted Stock and Restricted Stock Units	Shares Underlying Unexercised Stock Options (Vested and Unvested)
Ms. Barnes	610 shares	0 shares

(3) Ms. Barnes was appointed to our Board, effective September 17, 2014.

The amounts shown for Mr. Pasquale exclude certain deferred compensation and severance benefits paid in 2014 (4) pursuant to the terms of the Pasquale Employment Agreement that were unrelated to his service as a director. See “Transactions with Related Persons—Transactions with Mr. Pasquale.”

(5) Ms. Rosenberg retired from our Board, effective May 15, 2014.

The following table shows, as of March 18, 2015, the number of shares of our common stock beneficially owned by each of our directors and director-nominees, each of our Named Executive Officers, and all of our directors, director-nominees and executive officers as a group. Except as otherwise indicated in the footnotes to the table, the named persons have sole voting and investment power over the shares of our common stock shown as beneficially owned by them. Each named person is deemed to be the beneficial owner of shares of our common stock that may be acquired within 60 days of March 18, 2015 through the exercise of stock options or the settlement of stock units, if any, and such shares are deemed to be outstanding for the purpose of computing the percentage of the class beneficially owned by such person; however, any such shares are not deemed to be outstanding for the purpose of computing the percentage of the class beneficially owned by any other person. Subject to the preceding sentence, percentages are based on 330,895,298 shares of our common stock outstanding on March 18, 2015.

Director and Executive Officer 10b5-1 Plans

From time to time, certain of our directors and executive officers may adopt non-discretionary, written trading plans that comply with Rule 10b5-1 under the Exchange Act ("10b5-1 plans"). These 10b5-1 plans permit our directors and executive officers to monetize their equity-based compensation in an automatic and non-discretionary manner over time and are generally adopted for estate, tax and financial planning purposes. Our Securities Trading Policy and Procedures requires preclearance of any 10b5-1 plan by our legal department and provides that directors and executive officers may enter into, modify or terminate a 10b5-1 plan only during an open trading window and while not in possession of material non-public information. Moreover, any such 10b5-1 plan must include a waiting period of no less than 30 days between establishment or modification of the plan and any transaction pursuant to the plan. In addition, our Securities Trading Policy and Procedures generally prohibits our directors and executive officers from entering into overlapping 10b5-1 plans.

We disclose a director's or executive officer's entrance into, and modification or termination of, a 10b5-1 plan, and sales thereunder, on the Investor Relations section of our website at www.ventasreit.com/investor-relations.

PROPOSALS REQUIRING YOUR VOTE

Proposal 1: Election of Directors

Eleven directors currently serve on our Board. Following the recommendation of the Nominating Committee, our Board has nominated each individual presently serving as a director for election at the Annual Meeting.

Under our By-Laws, in uncontested elections (which is the case for the Annual Meeting), a majority of votes cast is required for the election of each director. The number of votes cast “for” a director-nominee must exceed the number of votes cast “against” that nominee. Abstentions and broker non-votes are not counted as votes “for” or “against” a director-nominee and, therefore, will have no effect.

Director Resignation Policy

In accordance with our Director Resignation Policy, our Board will nominate an incumbent director for reelection only if the director agrees that, in the event the director fails to receive the required majority vote for reelection, he or she will tender, promptly following certification of the election results, an irrevocable resignation that will be effective upon acceptance by the Board. If an incumbent director fails to receive the required majority vote for reelection, our Nominating Committee will act on an expedited basis to determine whether to recommend acceptance or rejection of the director’s resignation and submit its recommendation for prompt consideration by the Board. Our Board will act on the Nominating Committee’s recommendation and publicly disclose its decision regarding the tendered resignation by filing a Current Report on Form 8-K with the SEC no later than 90 days following certification of the election results.

Any director who tenders his or her resignation pursuant to our Director Resignation Policy may not participate in any Nominating Committee or Board decision regarding that resignation. If less than a majority of the Nominating Committee members receive the required vote in favor of their reelection in the same election, then the independent directors who received the required vote will be constituted by our Board as a committee to consider the tendered resignation(s) and make a recommendation to the Board. However, if three or fewer independent directors receive the required vote in the same election, all directors not required by the Director Resignation Policy to tender a

resignation may participate in considering and recommending to the Board whether to accept or reject the resignation(s).

Under our Guidelines on Governance, a director is generally required to retire at the first annual meeting of stockholders following his or her 75th birthday. On the recommendation of our Nominating Committee, our Board may waive this requirement as to any director if it deems a waiver to be in our best interests and the best interests of our stockholders. In light of Mr. Crocker's expertise and valuable contributions to our Board, our Nominating Committee has recommended, and our Board has approved, that an exception to our mandatory retirement policy be made for Mr. Crocker until the time of our 2016 Annual Meeting of Stockholders.

Director Nominees

Below is certain biographical and other information concerning the persons nominated for election as directors, which is based upon statements made or confirmed to us by or on behalf of these nominees, except to the extent certain information appears in our records. Ages shown for all nominees are as of the date of the Annual Meeting. Following each nominee's biographical information, we have provided information concerning the particular experience, qualifications, attributes and skills that led our Nominating Committee and our Board to determine that such nominee should serve as a director. In addition, a substantial majority of the nominees serve or have served on boards and board committees (including, in many cases, as board or committee chairs) of other public companies, which we believe provides them with essential leadership experience, exposure to corporate governance best practices and substantial knowledge and skills that enhance the functioning of our Board.

We do not have a staggered board of directors. Each director elected at the Annual Meeting will hold office until the next succeeding annual meeting of stockholders and until his or her successor is duly elected and qualified, or until his or her earlier death, resignation or removal. Each nominee listed below has consented to be named in this Proxy Statement and has agreed to serve as a director if elected, and we expect each nominee to be able to serve if elected. If any nominee is unable or unwilling to accept his or her election or is unavailable to serve for any reason, the persons named as proxies will have authority, according to their judgment, to vote or refrain from voting for such alternate nominee as may be designated by the Board.

Proposal 2: Ratification of the Selection of KPMG as Our Independent Registered Public Accounting Firm for Fiscal Year 2015

Our Board has approved our Audit Committee’s selection of KPMG LLP as our independent registered public accounting firm for fiscal year 2015. Although not required by our By-Laws or otherwise, we are submitting the selection of KPMG to our stockholders for ratification because the Board values our stockholders’ views and believes such submission is appropriate as a matter of good corporate practice. The affirmative vote of a majority of the shares present in person or represented by proxy at the Annual Meeting is required to ratify the selection of KPMG as our independent registered public accounting firm for 2015. Abstentions will have the same effect as votes against such proposal, and broker non-votes will have no effect.

If our stockholders fail to ratify this selection, it will be considered a recommendation to the Audit Committee and the Board to consider the selection of a different firm, and the Audit Committee and the Board may select another independent registered public accounting firm without resubmitting the matter to the stockholders. Even if the selection is ratified, the Audit Committee may, in its discretion, select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in our best interests and the best interests of our stockholders.

We expect that representatives of KPMG will be present at the Annual Meeting to respond to appropriate questions and have the opportunity to make a statement if they so desire.

Our Board recommends that you vote FOR ratification of the selection of KPMG as our independent registered public accounting firm for fiscal year 2015.

Audit Committee Report

Management has primary responsibility for our financial statements and the reporting process, including our system of internal controls, subject to oversight by our Audit Committee on behalf of our Board. In fulfilling its oversight responsibilities, the Audit Committee has reviewed and discussed with management our audited financial statements for the year ended December 31, 2014, including the quality, not just the acceptability, of our accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

Our Audit Committee has reviewed and discussed with the independent registered public accounting firm, who is responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States, its judgments as to the quality, not just the acceptability, of our accounting principles and such other matters as are required to be discussed with the Audit Committee under generally accepted auditing standards, including Statement on Auditing Standards No. 16, Communications with Audit

Committees, which superseded Statement on Auditing Standards No. 61, as amended and as adopted by the Public Company Accounting Oversight Board (the "PCAOB") in Rule 3200T. The Audit Committee has also received the written disclosures and the letter from the independent registered public accounting firm required by applicable PCAOB rules regarding the independent registered public accounting firm's communications with the

Audit Committee concerning independence. In addition, our Audit Committee has discussed with the independent registered public accounting firm that firm's independence from our company and its management, and the Audit Committee has considered the compatibility of non-audit services with the firm's independence.

Our Audit Committee has discussed with the independent registered public accounting firm the overall scope and plans for its audit. The Audit Committee meets regularly with the independent registered public accounting firm, with and without management present, to discuss the results of its examination of our financial statements, its evaluations of our internal controls, and the overall quality of our financial reporting.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board that the audited financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2014 for filing with the SEC. The Audit Committee also recommended, and the Board approved, the selection of our independent registered public accounting firm for fiscal year 2015.

AUDIT COMMITTEE

Robert D. Reed, Chair

Ronald G. Geary

Glenn J. Rufrano

Changes in Our Certifying Accountant

On July 5, 2014, we terminated Ernst & Young LLP ("EY") as our registered public accountant due to EY's determination that it was not independent of us for the periods specified below, and not for any reason related to our financial reporting or accounting operations, policies or practices. EY notified us, solely because of its independence determination that: (1) it was withdrawing its audit reports on our financial statements for the fiscal years ended December 31, 2012 and 2013 and its reports on the effectiveness of our internal control over financial reporting as of December 31, 2012 and 2013, and that such reports should no longer be relied upon, and (2) its quarterly review procedures with respect to our financial statements for the quarterly period ended March 31, 2014 should no longer be relied upon. EY stated that it had concluded it was not independent of us due solely to an inappropriate personal relationship between an EY partner, who, until June 30, 2014, was the EY lead audit partner on our 2014 audit and quarterly review and was previously an audit engagement partner on our 2013 and 2012 audits, and an individual in a financial reporting oversight role with us. We do not disagree with EY's determination.

Before withdrawing its audit reports for the years ended December 31, 2012 and 2013 on our financial statements, none of EY's audit reports for the fiscal years ended December 31, 2012 and 2013 contained an adverse opinion or a disclaimer of opinion, nor was any such report qualified or modified as to uncertainty, audit scope or accounting principles. In addition, at no point during the two fiscal years ended December 31, 2013 and the subsequent interim period through July 5, 2014 were there any (1) disagreements with EY on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedures, which disagreement(s), if not resolved to the satisfaction of EY, would have caused it to make reference to the subject matter of the disagreement(s) in connection with its reports, or (2) "reportable events," as such term is defined in Item 304(a)(1)(v) of Regulation S-K, other than EY's withdrawal of its audit reports solely as a result of its determination that it was not independent of us for the above referenced periods, which is discussed under Item 4.02 in our Current Report on Form 8-K filed on July 9, 2014 and constitutes a reportable event under Item 304(a)(1)(v)(D) of Regulation S-K.

Our Audit Committee as well as our senior management discussed the matters described above with representatives of EY. We provided EY with a copy of the disclosure set forth in our Form 8-K filed on July 9, 2014 and requested that EY furnish us with a letter addressed to the SEC stating whether or not it agrees with the statements made therein, each as required by applicable SEC rules. A copy of the letter was filed as Exhibit 16.1 to the Form 8-K. The letter stated, among other things, that EY was withdrawing its reports solely due to the impairment of its independence and not for any reason related to our consolidated financial statements or our accounting practices.

The decision to terminate EY was approved by our Audit Committee.

Audit and Non-Audit Fees

KPMG audited our financial statements for the year ended December 31, 2014 and has been our independent registered public accounting firm since July 2014. KPMG also re-audited our financial statements for the years ended December 31, 2013 and 2012, following our termination of EY. Fees billed for professional services rendered by KPMG for the years ended December 31, 2014 and 2013 were as follows:

	2014	2013
Audit Fees(1)	\$2,905,000	\$2,520,000
Audit-Related Fees(2)	72,000	—
Tax Fees(3)	606,422	—
All Other Fees(4)	2,000	—
Total	\$3,585,422	\$2,520,000

Audit Fees include the aggregate fees billed for professional services rendered by KPMG for the audit of our annual consolidated financial statements (including debt covenant compliance letters), audit of internal control over financial reporting, review of interim financial statements included in our 2014 Quarterly Reports on Form 10-Q, (1) advice on audit and accounting matters that arose during, or as a result of, the audit or the review of interim financial statements, and work on securities offerings and other filings with the SEC, including comfort letters, consents and comment letters.

(2) Audit-Related Fees consist principally of fees related to an audit of our 401(k) plan and advice on the actual or potential impact of rules, standards and interpretations adopted or proposed by regulatory bodies.

(3) Tax Fees consist principally of reviews and preparation of tax returns (\$24,053 in 2014) and advice on tax-planning matters primarily related to acquisitions (\$582,359 in 2014).

(4) All Other Fees relate to annual subscription fees for KPMG's online technical research site.

All audit-related services, tax services and other services provided by KPMG since the date of its engagement were pre-approved by the Audit Committee in accordance with the Audit Committee's pre-approval policies described below. The Audit Committee determined that the provision of these services by KPMG did not compromise KPMG's independence and was consistent with its role as our independent registered public accounting firm.

Policy on Pre-Approval of Audit and Permissible Non-Audit Services

Consistent with the requirements of the SEC and the PCAOB, our Audit Committee has responsibility for retaining, compensating and overseeing the work of our independent registered public accounting firm. In recognition of this responsibility, the Audit Committee has implemented procedures relating to the pre-approval of all audit and permissible non-audit services performed by the independent registered public accounting firm to ensure that the provision of such services and related fees does not impair the firm's independence.

In accordance with these procedures, the annual audit services and related fees of the independent registered public accounting firm are subject to specific approval by our Audit Committee. Prior to its engagement, which typically occurs during the first quarter of each fiscal year, the independent registered public accounting firm must provide the Audit Committee with an engagement letter outlining the scope of proposed audit services for that year and the related fees. If agreed to by the Audit Committee, the engagement letter will be formally accepted as evidenced by its execution by the chair of the Audit Committee. The Audit Committee will then review and approve, if necessary, any changes in terms, conditions and fees resulting from changes in audit scope, company structure or other matters.

In addition, our Audit Committee may grant pre-approval for those permissible non-audit services that it believes would not impair the independence of the independent registered public accounting firm. However, the Audit Committee may not grant approval for any services categorized by the SEC as "Prohibited Non-Audit Services." Generally prior to the beginning of each fiscal year, management submits to the Audit Committee a list of certain non-audit services and related fees expected to be rendered by the independent registered public accounting firm during that year. Following review, the Audit Committee pre-approves the non-audit services within each category, and the fees for each category are budgeted. The term of any pre-approved non-audit service is 12 months from the date of pre-approval, unless the Audit Committee specifically provides for a different period. Fee levels for all non-audit services to be provided by the independent registered public accounting firm are established periodically by the Audit Committee, and any proposed services exceeding those levels require separate pre-approval by the Audit Committee. Upon request, the independent registered public accounting firm must provide detailed supporting

documentation to the Audit Committee regarding the particular services to be provided. To obtain approval of other permissible non-audit services, management must submit to the Audit

70

Committee those non-audit services for which it recommends the Audit Committee engage the independent registered public accounting firm, and both management and the independent registered public accounting firm must confirm to the Audit Committee that each non-audit service for which approval is requested is not a Prohibited Non-Audit Service.

Our Acting Chief Accounting Officer is responsible for tracking all fees for pre-approved non-audit services provided by the independent registered public accounting firm, and at each regularly scheduled Audit Committee meeting, management reports on the pre-approved non-audit services provided during the quarter and year-to-date and the fees incurred for such services during such periods.

Proposal 3: Advisory Vote to Approve Our Executive Compensation

We are submitting to our stockholders a non-binding advisory vote on the compensation of our Named Executive Officers, as disclosed in this Proxy Statement pursuant to the SEC's compensation disclosure rules. Our executive compensation program is designed to achieve certain key objectives, including:

- ü attracting, retaining and motivating talented executives;
- ü rewarding performance that meets or exceeds pre-established company and tailored individual goals consistent with our strategic plan, while maintaining alignment with stockholders;
- ü providing balanced incentives that discourage excessive risk-taking;
- ü retaining sufficient flexibility to permit our executive officers to manage risk and adjust appropriately to meet rapidly changing market and business conditions;
- ü evaluating performance by balancing consideration of measures over which management has significant direct influence with market forces that management cannot control (such as monetary policy and interest rate expectations), but that impact stockholder value;
- ü encouraging executives to become and remain long-term stockholders of our company; and
- ü maintaining compensation and corporate governance practices that support our goal to deliver sustained, superior returns to stockholders.

Below is a summary of some of the key features of our executive compensation program:

We generally target the median of our peer comparators for base salary, total annual compensation, long-term equity incentive compensation and total direct compensation of our Named Executive Officers. Our 2014 executive compensation program was designed to deliver compensation levels above or below these targets if performance exceeded or failed to achieve the goals established under our annual cash and long-term equity incentive plans.

A significant portion of our executive compensation is performance-based cash and equity incentive compensation. Our annual cash and equity incentive awards are only granted if our Named Executive Officers achieve certain threshold performance levels with respect to various measures that support long-term stockholder value, including one- and three-year relative TSR.

Our annual cash incentive awards are paid and our long-term equity incentive awards are issued only after the requisite performance level has been achieved and the awards are fully earned.

We support pay-for-performance by targeting a mix of executive compensation that emphasizes equity incentive awards that vest over time, with less weight on fixed cash compensation. The use of equity awards encourages management to create long-term stockholder value because the award value is directly attributable to changes in the price of our common stock over time. Equity awards are also an effective tool for management retention because full vesting of the awards generally requires continued employment over multiple years.

Our Compensation Committee annually reviews the compensation practices and programs of our compensation peer group (generally selected based on their similarity to us in terms of operations, FFO, enterprise value, market capitalization and total assets) and receives guidance from its independent compensation consultant on compensation best practices.

Our share ownership guidelines require our executive officers and directors to maintain significant ownership of our common stock to further align interests with our stockholders. Our Securities Trading Policy and Procedures prohibits our directors, executive officers and employees from engaging in

derivative and other hedging transactions in our securities and restricts our executive officers and directors from holding our securities in margin accounts or otherwise pledging our securities to secure loans without the approval of our Audit Committee (no executive officer or director pledged or held our securities in margin accounts at any time during 2014).

In determining the incentive compensation paid to our Named Executive Officers for 2014, our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board rigorously evaluated company and individual performance relative to the pre-established measures and goals under our annual cash and long-term equity incentive plans, noting a high level of achievement overall. Specifically, in regard to the qualitative evaluation of our performance under the 2014 long-term equity incentive plan, our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board recognized our strong financial and operating performance, evidenced primarily by our:

- ü exceptional long-term absolute and relative TSR and robust 31% annual TSR;
- ü record financial results, including normalized FFO per share;
- ü over \$5 billion of accretive acquisitions (including HCT, which was completed in January 2015);
- ü professional and transparent handling of our 2014 re-audit process, which reaffirmed our historical financial results and the integrity of internal controls;
- ü successful recruitment of key new members to our management team;
- ü expert and nimble capital markets execution; and
- ü successful re-leasing or sale of 108 post-acute facilities in our portfolio.

As a result of this superior performance, and in alignment with value delivered to stockholders, the 2014 total direct compensation for each of our Named Executive Officers increased year-over-year.

Our Compensation Committee and, in the case of our Chief Executive Officer, the independent members of our Board have carefully evaluated our overall executive compensation program and believe that it is well designed to achieve our objectives of retaining talented executives and rewarding superior performance in the context of our business risk environment. By maintaining a performance- and achievement-oriented environment that provides the opportunity to earn market-competitive levels of compensation, we believe that our executive compensation program is structured optimally to support our goal to deliver sustained, superior returns to stockholders, and our exceptional long-term performance demonstrates the success of this program.

Based on the information provided above and elsewhere in this Proxy Statement, we believe our executive compensation program is designed appropriately to support our key objectives. Accordingly, our Board recommends that stockholders vote in favor of the following resolution:

“RESOLVED, that the stockholders approve, on an advisory basis, the compensation of the Named Executive Officers, as disclosed in the Proxy Statement for the 2015 Annual Meeting of Stockholders pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, the 2014 Summary Compensation Table, the accompanying compensation tables and the related narrative disclosure.”

The affirmative vote of a majority of the shares present in person or represented by proxy at the Annual Meeting is required to approve, on an advisory basis, our executive compensation. Abstentions will have the same effect as votes against such proposal, and broker non-votes will have no effect. Although the results of the stockholder vote on this proposal are non-binding, the Board values continuing and constructive feedback from our stockholders on compensation. Our Compensation Committee and, with respect to our Chief Executive Officer, the independent members of our Board will consider the outcome of the vote when making future executive compensation decisions. Our Board recommends that you vote FOR the approval, on an advisory basis, of our executive compensation.

QUESTIONS AND ANSWERS; OTHER INFORMATION

Questions and Answers

What is a proxy? What is a proxy statement?

A proxy is a legal designation of a person to vote on your behalf. A proxy statement is the document we must give you when we ask you to sign a proxy. It is required by SEC rules. We have designated two of our officers as proxies for the Annual Meeting: Debra A. Cafaro and Robert F. Probst. By completing and returning the enclosed proxy card, you are giving each of these officers the authority to vote your shares in the manner you indicate on your proxy card.

Who can vote at the Annual Meeting?

You are qualified to vote on all matters presented to the stockholders at the Annual Meeting if you own shares of our common stock at the close of business on the record date, March 18, 2015.

What is a stockholder of record versus a beneficial owner of Ventas common stock?

This is a matter of how your ownership of our common stock is recorded. If your ownership is recorded in your name with our stock transfer agent, you are a stockholder of record. If your shares are held by (and in the name of) a broker, bank or custodian, you are a beneficial owner of those shares.

What do I need in order to attend the Annual Meeting in person?

You are entitled to attend the Annual Meeting only if you were a Ventas stockholder as of the close of business on the record date, March 18, 2015, or you hold a valid proxy for the meeting. In order to be admitted to the Annual Meeting, you must present photo identification (such as a driver's license) and proof of ownership of shares of our common stock on the record date. Proof of ownership can be accomplished through the following:

- ü a brokerage statement or letter from your broker or custodian with respect to your ownership of shares of our common stock on March 18, 2015;

- ü the Notice of Internet Availability of Proxy Materials;

- ü a printout of the proxy distribution email (if you receive your materials electronically);

- ü a proxy card;

- ü a voting instruction form; or

- ü a legal proxy provided by your broker, bank or custodian.

For the safety and security of our stockholders, we will be unable to admit you to the Annual Meeting if you do not present photo identification and proof of ownership of shares of our common stock or if you otherwise refuse to comply with our security procedures.

How do I revoke a vote?

If you are a stockholder of record, you can revoke your prior vote by proxy if you:

- ü execute and return a later-dated proxy card before your proxy is voted at the Annual Meeting;

- ü vote by telephone or over the Internet no later than 11:59 p.m. Eastern time on May 13, 2015;

- ü deliver a written notice of revocation to our Corporate Secretary at our principal executive offices located at

- ü 353 North Clark Street, Suite 3300, Chicago, Illinois 60654, before your proxy is voted at the Annual Meeting; or

- ü attend the Annual Meeting and vote in person (attendance by itself will not revoke your prior vote by proxy).

If you are a beneficial owner, follow the instructions provided by your broker, bank or custodian to revoke your vote by proxy, if applicable.

How are proxies solicited and what is the cost?

Our company will bear the cost of soliciting proxies by or on behalf of our Board. In addition to solicitation through the mail, proxies may be solicited in person or by telephone or electronic communication by our directors, officers and employees, none of whom will receive additional compensation for these services. We have engaged Georgeson Inc. to distribute and solicit proxies on our behalf and will pay Georgeson Inc. a fee of \$9,500 plus reimbursement of reasonable out-of-pocket expenses, for these services. We will also reimburse brokers and other custodians for their reasonable out-of-pocket expenses incurred in connection with distributing forms of proxies and proxy materials to beneficial owners of our common stock.

What is householding?

To eliminate duplicate mailings, conserve natural resources and reduce our printing costs and postage fees, we engage in householding and will deliver a single set of proxy materials (other than proxy cards, which will remain separate) to our stockholders who share the same address and who have the same last name or consent in writing. If your household receives multiple copies of our proxy materials, you may request to receive only one copy by contacting Broadridge Financial Solutions, Inc. at (800) 542-1061 or in writing at Householding Department, 51 Mercedes Way, Edgewood, NY 11717. Similarly, if your household receives only one copy of our proxy materials, you may request an additional copy by contacting Broadridge as indicated above. We will deliver the requested additional copy promptly following our receipt of your request.

Other Information

The affirmative vote of a majority of the shares present in person or represented by proxy at the Annual Meeting will be necessary to approve any other proposal that may properly come before the Annual Meeting. Accordingly, abstentions will have the same effect as votes against any such proposal, and broker non-votes will have no effect. Our Board is not aware of any matters that are expected to come before the Annual Meeting other than those set forth in the Notice of Meeting and described in this Proxy Statement. If any other matter should properly come before the Annual Meeting, the persons named in the accompanying form of proxy, or their substitutes, will have discretionary voting authority with respect to any such stockholder proposal.

No dissenters' or appraisal rights are available with respect to the proposals presently being submitted to the stockholders for their consideration at the Annual Meeting.

REQUIREMENTS FOR SUBMISSION OF STOCKHOLDER PROPOSALS, DIRECTOR NOMINATIONS AND OTHER BUSINESS

For any other meeting, we must receive notice of a stockholder's intention to make a nomination or to propose an item of business not later than the 30th day prior to the date of such meeting or the tenth day following the date on which we first publicly announce the date of such meeting, whichever occurs later.

Notices relating to director nominations and other stockholder proposals must include (among other information, as specified in our By-Laws):

as to each person proposed to be nominated for election as a director, all information relating to that person that would be required to be disclosed in connection with the solicitation of proxies for election as a director pursuant to Section 14 of the Exchange Act;

as to each other item of business, a brief description of such business, the stockholder's reasons for proposing such business and any material interest that the stockholder or any of the stockholder's associates may have in such business; and

as to the stockholder giving the notice, the stockholder's associates and any proposed director-nominee: the name and address of such person; the class, series and number of all shares of our capital stock owned by such person (and the name of the record holder, if beneficially owned), the date the shares were acquired and any short interest of such person in our securities; whether and to what extent such person has engaged in any hedging or derivative transactions in our securities during the preceding 12 months; and the investment strategy or objective of such person.

The persons appointed as proxies for our 2016 Annual Meeting will have discretionary voting authority with respect to any director nomination or other stockholder proposal that is submitted to us otherwise than in conformity with our By-Laws.
