NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
March 31, 2012  
(unaudited)

Note 1 – Organization and Summary of Significant Accounting Policies:

Organization and Nature of Business – National Retail Properties, Inc., a Maryland corporation, is a fully integrated real estate investment trust (“REIT”) formed in 1984. The term “NNN” or the “Company” refers to National Retail Properties, Inc. and all of its consolidated subsidiaries. NNN has elected to treat certain subsidiaries as taxable REIT subsidiaries. These taxable subsidiaries and their majority owned and controlled subsidiaries are collectively referred to as the “TRS.”

NNN assets include: real estate assets, mortgages and notes receivable, and commercial mortgage residual interests. NNN acquires, owns, invests in and develops properties that are leased primarily to retail tenants under long-term net leases and primarily held for investment (“Properties” or “Property Portfolio”).

Property Portfolio:	
Total properties	1,486
Gross leasable area (square feet)	16,999,000
States	47

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and note disclosures required by accounting principles generally accepted in the United States of America. The unaudited condensed consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the results for the interim periods presented. Operating results for the quarter ended March 31, 2012, may not be indicative of the results that may be expected for the year ending December 31, 2012. Amounts as of December 31, 2011, included in the condensed consolidated financial statements have been derived from the audited consolidated financial statements as of that date. The unaudited condensed consolidated financial statements, included herein, should be read in conjunction with the consolidated financial statements and notes thereto as well as Management's Discussion and Analysis of Financial Condition and Results of Operations in NNN's Form 10-K for the year ended December 31, 2011.

Principles of Consolidation – NNN’s condensed consolidated financial statements include the accounts of each of the respective majority owned and controlled affiliates, including transactions whereby NNN has been determined to be the primary beneficiary in accordance with the Financial Accounting Standards Board (“FASB”) guidance included in Consolidation. All significant intercompany account balances and transactions have been eliminated. NNN applies the equity method of accounting to investments in partnerships and joint ventures that are not subject to control by NNN due to the significance of rights held by other parties.

Real Estate Portfolio – NNN records the acquisition of real estate at cost, including acquisition and closing costs. The cost of properties developed by NNN includes direct and indirect costs of construction, property taxes, interest and other miscellaneous costs incurred during the development period until the project is substantially complete and available for occupancy.

Purchase Accounting for Acquisition of Real Estate Subject to a Lease – In accordance with the FASB guidance on business combinations, the fair value of the real estate acquired with in-place leases is allocated to the acquired tangible assets, consisting of land, building and tenant improvements, and identified intangible assets and liabilities, consisting of the value of above-market and below-market leases, value of in-place leases and value of tenant relationships, based in each case on their relative fair values.

The fair value of the tangible assets of an acquired leased property is determined by valuing the property as if it were vacant, and the “as-if-vacant” value is then allocated to land, building and tenant improvements based on the

determination of the fair values of these assets. The as-if-vacant fair value of a property is provided to management by a qualified appraiser.

In allocating the fair value of the identified intangible assets and liabilities of an acquired property, above-market and below-market in-place lease values are recorded as other assets or liabilities based on the present value (using an interest rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases, and (ii) management's estimate of fair market lease rates for the corresponding in-place leases, measured

over a period equal to the remaining term of the lease, including the probability of renewal periods. The capitalized above-market lease values are amortized as a reduction of rental income over the remaining terms of the respective leases. The capitalized below-market lease values are amortized as an increase to rental income over the initial term unless the Company believes that it is likely that the tenant would renew the option whereby the Company would amortize the value attributable to the renewal over the renewal period.

The aggregate value of other acquired intangible assets, consisting of in-place leases, is measured by the excess of (i) the purchase price paid for a property after adjusting existing in-place leases to market rental rates over (ii) the estimated fair value of the property as-if-vacant, determined as set forth above. The value of in-place leases exclusive of the value of above-market and below-market in-place leases is amortized to expense over the remaining non-cancelable periods of the respective leases. If a lease were to be terminated prior to its stated expiration, all unamortized amounts relating to that lease would be written off. The value of tenant relationships is reviewed on individual transactions to determine if future value was derived from the acquisition.

Intangible assets and liabilities consisted of the following as of (in thousands):

	March 31, 2012	December 31, 2011
Intangible Lease Assets (included in Other assets):		
Value of above market in-place leases, net	\$8,596	\$8,503
Value of in-place leases, net	45,659	43,880
Intangible Lease Liabilities (included in Other Liabilities):		
Value of below market in-place leases, net	29,344	29,267
Investment in an Unconsolidated Affiliate – NNN accounts for its investment in an unconsolidated affiliate under the equity method of accounting. In September 2007, NNN entered into a joint venture, NNN Retail Properties Fund I LLC (the “NNN Crow JV”) with an affiliate of Crow Holdings Realty Partners IV, LP., accounted for under the equity method of accounting.		

Cash and Cash Equivalents - NNN considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents consist of cash and money market accounts. Cash equivalents are stated at cost plus accrued interest, which approximates fair value.

Cash accounts maintained on behalf of NNN in demand deposits at commercial banks and money market funds may exceed federally insured levels; however, NNN has not experienced any losses in such accounts.

Valuation of Receivables – NNN estimates the collectibility of its accounts receivable related to rents, expense reimbursements and other revenues. NNN analyzes accounts receivable and historical bad debt levels, customer credit-worthiness and current economic trends when evaluating the adequacy of the allowance for doubtful accounts. In addition, tenants in bankruptcy are analyzed and estimates are made in connection with the expected recovery of pre-petition and post-petition claims.

Earnings Per Share – Earnings per share have been computed pursuant to the FASB guidance included in Earnings Per Share. Effective January 1, 2009, the guidance requires classification of the Company’s unvested restricted share units which contain rights to receive nonforfeitable dividends, as participating securities requiring the two-class method of computing earnings per share. Under the two-class method, earnings per common share are computed by dividing the sum of distributed earnings to common stockholders and undistributed earnings allocated to common stockholders by the weighted average number of common shares outstanding for the period. In applying the two-class method, undistributed earnings are allocated to both common shares and participating securities based on the weighted average shares outstanding during the period.

The following table is a reconciliation of the numerator and denominator used in the computation of basic and diluted earnings per common share using the two-class method for the quarter ended March 31 (dollars in thousands):

	2012	2011
Basic and Diluted Earnings:		
Net earnings attributable to NNN	\$29,832	\$20,820
Less: Series C preferred stock dividends	(1,979)	(1,696)
Less: Excess of redemption value over carrying value of preferred shares redeemed	(3,098)	—
Net earnings available to NNN's common stockholders	24,755	19,124
Less: Earnings attributable to unvested restricted shares	(566)	(134)
Net earnings used in basic earnings per share	24,189	18,990
Reallocated undistributed income (loss)	—	—
Net earnings used in diluted earnings per share	\$24,189	\$18,990
Basic and Diluted Weighted Average Shares Outstanding:		
Weighted average number of shares outstanding	105,635,630	83,955,295
Less: Unvested restricted stock	(568,163)	(580,738)
Less: Contingent shares	(226,600)	(251,826)
Weighted average number of shares outstanding used in basic earnings per share	104,840,867	83,122,731
Effects of dilutive securities:		
Contingent shares	25,471	—
Convertible debt	1,192,706	298,241
Common stock options	2,286	3,276
Directors' deferred fee plan	150,036	146,190
Weighted average number of shares outstanding used in diluted earnings per share	106,211,366	83,570,438

For the quarter ended March 31, 2011, the potential dilutive shares related to certain convertible notes payable were not included in computing earnings per common share because their effects would be antidilutive.

Fair Value Measurement – NNN's estimates of fair value of financial and non-financial assets and liabilities are based on the framework established in the fair value accounting guidance. The framework specifies a hierarchy of valuation inputs which was established to increase consistency, clarity and comparability in fair value measurements and related disclosures. The guidance describes a fair value hierarchy based upon three levels of inputs that may be used to measure fair value, two of which are considered observable and one that is considered unobservable. The following describes the three levels:

Level 1 – Valuation is based upon quoted prices in active markets for identical assets or liabilities.

Level 2 – Valuation is based upon inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include option pricing models, discounted cash flow models and similar techniques.

New Accounting Pronouncements – In December 2011, the FASB issued Accounting Standards Update 2011-10 entitled Derecognition of in Substance Real Estate - a Scope Clarification. The amendments in this update clarify the scope of current U.S. GAAP. The amendments will resolve the diversity in practice about whether the guidance in subtopic 360-20 applies to the derecognition of in substance real estate when the parent ceases to have a controlling financial interest in a subsidiary that is in substance real estate because of a default by the subsidiary on its nonrecourse debt. The amendments in this update are effective for fiscal years, and interim periods within those years,

beginning on or after June 15, 2012. NNN is currently evaluating the provisions to determine the potential impact, if any, the adoption will have on its financial position and results of operations.

8

---

In December 2011, the FASB issued Accounting Standards Update 2011-11 amending its guidance on offsetting assets and liabilities in financial statements. The objective of this update will require disclosure to facilitate comparison between those entities that prepare their financial statements on the basis of U.S. GAAP and those entities that prepare their financial statements on the basis of IFRS. The amendments in this update are effective for annual reporting periods beginning on or after January 1, 2013. NNN is currently evaluating the provisions to determine the potential impact, if any, the adoption will have on its financial position and results of operations.

In June 2011, the FASB issued Accounting Standards Update 2011-05 which amended its guidance on the presentation of comprehensive income in financial statements. The new guidance requires that all nonowner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The provisions of this new guidance were effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The adoption of this guidance changed the presentation of NNN's condensed consolidated financial statements but did not have an effect on NNN's results of operations.

In December 2011, the FASB issued update 2011-12, which indefinitely defers certain provisions of Accounting Standards Update 2011-05, including a requirement for entities to present reclassification adjustments out of accumulated other comprehensive income by component in both the statement in which net earnings is presented and the statement in which other comprehensive income is presented. The effective dates and expected changes to our presentation are the same as noted in ASU 2011-05 above.

Use of Estimates – Management of NNN has made a number of estimates and assumptions relating to the reporting of assets and liabilities, revenues and expenses and the disclosure of contingent assets and liabilities to prepare these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America. Significant estimates include provision for impairment and allowances for certain assets, accruals, useful lives of assets and purchase price allocation. Actual results could differ from those estimates.

Reclassification – Certain items in the prior year's consolidated financial statements and notes to consolidated financial statements have been reclassified to conform to the 2012 presentation.

Note 2 – Real Estate – Portfolio:

Leases – The following outlines key information for NNN's leases at March 31, 2012:

Lease classification:

Operating	1,449
Direct financing	14
Building portion – direct financing / land portion – operating	5
Weighted average remaining lease term	12 Years

The leases generally provide for limited increases in rent as a result of fixed increases, increases in the consumer price index, and/or increases in the tenant's sales volume. Generally, the tenant is also required to pay all property taxes and assessments, substantially maintain the interior and exterior of the property and carry property and liability insurance coverage. Certain of NNN's Properties are subject to leases under which NNN retains responsibility for specific costs and expenses of the property. Generally, the leases of the Properties provide the tenant with one or more multi-year renewal options subject to generally the same terms and conditions, including rent increases, consistent with the initial lease term.

As of March 31, 2012, in connection with the improvements of leased Properties, NNN has the following funding commitments (dollars in thousands):

	# of Properties	Total Commitment <sup>(1)</sup>	Amount Funded	Remaining Commitment
Real Estate Portfolio	60	\$ 184,819	\$ 123,858	\$ 60,961

<sup>(1)</sup> Includes land and construction costs.

#### Note 3 – Line of Credit Payable:

In May 2011, NNN amended and restated its credit agreement increasing the borrowing capacity under its unsecured revolving credit facility from \$400,000,000 to \$450,000,000 and amending certain other terms under the former revolving credit facility (as the context requires, the previous and new revolving credit facility, the “Credit Facility”). The Credit Facility had a weighted average outstanding balance of \$50,767,000 and a weighted average interest rate of 1.8% during the quarter ended March 31, 2012. The Credit Facility matures May 2015, with an option to extend maturity to May 2016. The Credit Facility bears interest at LIBOR plus 150 basis points; however, such interest rate may change pursuant to a tiered interest rate structure based on NNN's debt rating. The Credit Facility also includes an accordion feature to increase the facility size up to \$650,000,000. As of March 31, 2012, \$26,200,000 was outstanding and \$423,800,000 was available for future borrowings under the Credit Facility, excluding undrawn letters of credit totaling \$3,857,000.

#### Note 4 – Stockholders' Equity:

The following table outlines the dividends declared and paid for each issuance of NNN's stock (in thousands, except per share data):

	Quarter Ended March 31,	
	2012	2011
Series C preferred stock <sup>(1)</sup> :		
Dividends	\$ 1,979	\$ 1,696
Per share	0.5378	0.4609
Common stock:		
Dividends	40,432	31,678
Per share	0.385	0.380

<sup>1)</sup> The Series C preferred stock was redeemed in March 2012. The dividends paid during the quarter ended March 31, 2012 include accumulated and unpaid dividends through the redemption date.

In February 2012, NNN filed a shelf registration statement with the Commission which permits the issuance by NNN of an indeterminate amount of debt and equity securities.

In February 2012, NNN issued 11,500,000 depositary shares representing interests in our 6.625% Series D Cumulative Redeemable Preferred Stock (“Series D Preferred Stock”) at a price of \$25.00 per depositary share generating net proceeds of \$277,645,000. In connection with this offering, NNN incurred stock issuance costs totaling approximately \$9,855,000, consisting primarily of underwriters' fees and commissions, legal and accounting fees and printing expenses.

In March 2012, NNN redeemed all outstanding depositary shares (3,680,000) representing interests in its 7.375% Series C Cumulative Redeemable Preferred Stock (“Series C Preferred Stock”). The Series C Preferred Stock was redeemed at \$25.00 per depositary share, plus accumulated and unpaid distributions through the redemption date, for an aggregate redemption price of \$25.0768229 per depositary share. The excess carrying amount of preferred stock

redeemed over the cash paid to redeem the preferred stock was \$3,098,000 representing Series C Preferred Stock issuance costs.

In April 2012, NNN declared a dividend of \$0.385 per share, which is payable in May 2012 to its common stockholders of record as of April 30, 2012.

Dividend Reinvestment and Stock Purchase Plan. In February 2012, NNN filed a shelf registration statement with the Commission for its Dividend Reinvestment and Stock Purchase Plan (“DRIP”) which permits the issuance by NNN of 16,000,000 shares of common stock. The following outlines the common stock issuances pursuant to the DRIP (dollars in thousands):

	Quarter Ended March 31,	
	2012	2011
Shares of common stock	1,428,069	818,156
Net proceeds	\$37,666	\$20,081

#### Note 5 – Income Taxes:

NNN has elected to be taxed as a REIT under the Internal Revenue Code (“Code”), commencing with its taxable year ended December 31, 1984. To qualify as a REIT, NNN must meet a number of organizational and operational requirements, including a requirement that it currently distribute at least 90% of its REIT taxable income to its stockholders. NNN intends to adhere to these requirements and maintain its REIT status. As a REIT, NNN generally will not be subject to corporate level federal income tax on taxable income that it distributes currently to its stockholders. NNN may be subject to certain state and local taxes on its income and property, and to federal income and excise taxes on its undistributed taxable income, if any. The provision for federal income taxes in NNN's consolidated financial statements relates to its TRS operations and any potential taxable built-in gain. NNN did not have significant tax provisions or deferred income tax items during the periods reported hereunder.

In June 2006, the FASB issued guidance, which clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with FASB guidance included in Income Taxes. The interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

NNN, in accordance with FASB guidance included in Income Taxes, has analyzed its various federal and state tax filing positions. NNN believes that its income tax filing positions and deductions are well documented and supported. Additionally, NNN believes that its accruals for tax liabilities are adequate. Therefore, no reserves for uncertain income tax positions have been recorded pursuant to the FASB guidance. In addition, NNN did not record a cumulative effect adjustment related to the adoption of the FASB guidance.

NNN has had no increases or decreases in unrecognized tax benefits for current or prior years since adopting the guidance. Further, no interest or penalties have been included since no reserves were recorded and no significant increases or decreases are expected to occur within the next 12 months. When applicable, such interest and penalties will be recorded as non-operating expenses. The periods that remain open under federal statute are 2008 through 2012. NNN also files in many states with varying open years under statute.

#### Note 6 – Earnings from Discontinued Operations:

NNN classified the revenues and expenses related to properties which generated revenue and were sold or generated revenue and were held for sale as of March 31, 2012, as discontinued operations. The following is a summary of the earnings from discontinued operations quarter ended March 31 (dollars in thousands):

	2012	2011

#### Note 7 – Derivatives:

In accordance with the guidance on derivatives and hedging, NNN records all derivatives on the balance sheet at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative and the resulting designation. Derivatives used to hedge the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. Derivatives used to hedge the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges.

NNN's objective in using derivatives is to add stability to interest expense and to manage its exposure to interest rate movements or other identified risks. To accomplish this objective, NNN primarily uses treasury locks, forward swaps ("forward hedges") and interest rate swaps as part of its cash flow hedging strategy. Treasury locks and forward starting swaps are used to hedge forecasted debt issuances. Treasury locks designated as cash flow hedges lock in the yield/price of a treasury security. Forward swaps also lock the associated swap spread. Interest rate swaps designated as cash flow hedges hedging the variable cash flows associated with floating rate debt involve the receipt of variable rate amounts in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying principal amount.

For derivatives designated as cash flow hedges, the effective portion of changes in the fair value of the derivative is initially reported in other comprehensive income (outside of earnings) and subsequently reclassified to earnings when the hedged transaction affects earnings, and the ineffective portion of changes in the fair value of the derivative is recognized directly in earnings.

NNN discontinues hedge accounting prospectively when it is determined that the derivative is no longer effective in offsetting changes in the cash flows of the hedged item, the derivative expires or is sold, terminated, or exercised, the derivative is re-designated as a hedging instrument or management determines that designation of the derivative as a hedging instrument is no longer appropriate.

When hedge accounting is discontinued, NNN continues to carry the derivative at its fair value on the balance sheet, and recognizes any changes in its fair value in earnings or may choose to cash settle the derivative at that time.

In June 2011, NNN terminated its two treasury locks with a total notional amount of \$150,000,000 that were hedging the risk of changes in the interest-related cash outflows associated with the potential issuance of long-term debt. The fair value of the

12

---

treasury locks, designated as cash flow hedges, when terminated was a liability of \$5,300,000, of which \$5,218,000 was deferred in other comprehensive income.

As of March 31, 2012, \$5,868,000 remains in other comprehensive income related to the effective portion of NNN's previous interest rate hedges. During the quarters ended March 31, 2012 and 2011, NNN reclassified out of comprehensive income \$56,000 as an increase to interest expense and \$43,000 as a reduction to interest expense, respectively. Over the next 12 months, NNN estimates that an additional \$235,000 will be reclassified as an increase in interest expense. Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to interest expense as interest payments are made on NNN's long-term debt.

NNN does not use derivatives for trading or speculative purposes or currently have any derivatives that are not designated as hedges. NNN had no derivative financial instruments outstanding at March 31, 2012.

#### Note 8 – Segment Information:

As a result of a continued reduction of investments in real estate acquired for the purpose of resale, the previously reported segment of inventory assets no longer meets the criteria for significance for separate segment reporting. Therefore, for the quarters ended March 31, 2012 and 2011, NNN's operations are reported within one business segment in the financial statements.

#### Note 9 – Fair Value Measurements:

NNN holds the commercial mortgage residual interests ("Residuals") in seven securitizations. NNN currently values its Residuals based upon an independent valuation which provides a discounted cash flow analysis based upon prepayment speeds, expected loan losses and yield curves. These valuation inputs are generally considered unobservable; therefore, the Residuals are considered Level 3 financial assets. The table below presents a reconciliation of the Residuals during the quarter ended March 31, 2012 (dollars in thousands):

Balance at beginning of period	\$15,299
Total gains (losses) – realized/unrealized:	
Included in earnings	—
Included in other comprehensive income	—
Interest income on Residuals	755
Cash received from Residuals	(1,038 )
Purchases, sales, issuances and settlements, net	—
Transfers in and/or out of Level 3	—
Balance at end of period	\$15,016
Changes in gains (losses) included in earnings attributable to a change in unrealized gains (losses) relating to	\$—
assets still held at the end of period	

#### Note 10 – Fair Value of Financial Instruments:

NNN believes the carrying value of its Credit Facility approximates fair value based upon its nature, terms and variable interest rate. NNN believes that the carrying value of its cash and cash equivalents, mortgages, notes and other receivables, mortgages payable and other liabilities at March 31, 2012 and December 31, 2011, approximate fair value based upon current market prices of similar issues. At March 31, 2012 and December 31, 2011, the carrying value and fair value of NNN's notes payable and convertible notes payable, collectively, was \$1,376,658,000 and \$1,362,922,000, respectively, based upon the quoted market price.

#### Note 11 – Subsequent Events:

NNN reviewed all subsequent events and transactions that have occurred after March 31, 2012 the date of the condensed consolidated balance sheet. There were no reportable subsequent events or transactions.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the consolidated financial statements and related notes included in the Annual Report on Form 10-K of National Retail Properties, Inc. for the year ended December 31, 2011. The term "NNN" or the "Company" refers to National Retail Properties, Inc. and all of its consolidated subsidiaries. NNN has elected to treat certain subsidiaries as taxable real estate investment trust ("REIT") subsidiaries. These subsidiaries and their majority owned and controlled subsidiaries are collectively referred to as the "TRS."

### Forward-Looking Statements

The information herein contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities and Exchange Act of 1934 (the "Exchange Act"). These statements generally are characterized by the use of terms such as "believe," "expect," "intend," "may," or similar words or expressions. Forward-looking statements are not historical facts or guarantees of future performance and are subject to known and unknown risks. Certain factors that could cause actual results or events to differ materially from those NNN anticipates or projects include, but are not limited to, the following:

- Current financial and economic conditions may have an adverse impact on NNN, its tenants, and commercial real estate in general;
- NNN may be unable to obtain debt or equity capital on favorable terms, if at all;
- Loss of revenues from tenants would reduce NNN's cash flow;
- A significant portion of the source of NNN's Property Portfolio annual base rent is heavily concentrated in specific industry classifications, tenants and in specific geographic locations;
- Owning real estate and indirect interests in real estate carries inherent risk;
- NNN's real estate investments are illiquid;
- Costs of complying with changes in governmental laws and regulations may adversely affect NNN's results of operations;
- NNN may be subject to known or unknown environmental liabilities and hazardous materials on properties owned by NNN;
- NNN may not be able to successfully execute its acquisition or development strategies;
- NNN may not be able to dispose of properties consistent with its operating strategy;
- A change in the assumptions used to determine the value of commercial mortgage residual interests could adversely affect NNN's financial position;
- NNN may suffer a loss in the event of a default or bankruptcy of a borrower or a tenant;
- Certain provisions of NNN's leases or loan agreements may be unenforceable;
- Property ownership through joint ventures and partnerships could limit NNN's control of those investments;
- Competition with numerous other REITs, commercial developers, real estate limited partnerships and other investors may impede NNN's ability to grow;
- NNN's loss of key management could adversely affect performance and the value of its common stock;
- Operating losses from retail operations on certain investment properties may adversely impact NNN's results of operations;
- Uninsured losses may adversely affect NNN's ability to pay outstanding indebtedness;
- Acts of violence, terrorist attacks or war may affect the markets in which NNN operates and NNN's results of operations;
- Vacant properties or bankrupt tenants could adversely affect NNN's business or financial condition;
- The amount of debt NNN has and the restrictions imposed by that debt could adversely affect NNN's business and financial condition;
- NNN is obligated to comply with financial and other covenants in its debt instruments that could restrict its operating activities, and the failure to comply with such covenants could result in defaults that accelerate the payment of such

debt;

The market value of NNN's equity and debt securities is subject to various factors that may cause significant fluctuations or volatility;

NNN's failure to qualify as a real estate investment trust for federal income tax purposes could result in significant tax liability;

Even if NNN remains qualified as a REIT, NNN may face other tax liabilities that reduce operating results and cash flow;

Adverse legislative or regulatory tax changes could reduce NNN's earnings, cash flow and market price of NNN's common stock;

Compliance with REIT requirements, including distribution requirements, may limit NNN's flexibility and negatively

affect NNN's operating decisions;

• Changes in accounting pronouncements could adversely impact NNN's or NNN's tenants' reported financial performance;

• NNN's failure to maintain effective internal control over financial reporting could have a material adverse effect on its business, operating results and share price;

• NNN's ability to pay dividends in the future is subject to many factors; and

• Cybersecurity risks and cyber incidents could adversely affect NNN's business and disrupt operations.

Additional information related to these risks and uncertainties are included in Item 1A. Risk Factors of NNN's Annual Report on Form 10-K for the year ended December 31, 2011, and may cause NNN's actual future results to differ materially from expected results. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date of this Quarterly Report on Form 10-Q. NNN undertakes no obligation to update or revise such forward-looking statements, whether as a result of new information, future events or otherwise.

#### Overview

NNN, a Maryland corporation, is a fully integrated real estate investment trust ("REIT") formed in 1984. NNN assets include: real estate assets, mortgages and notes receivable, and commercial mortgage residual interests. NNN acquires, owns, invests in and develops properties that are leased primarily to retail tenants under long-term net leases and primarily held for investment ("Properties" or "Property Portfolio").

As of March 31, 2012, NNN owned 1,486 Properties, with an aggregate gross leasable area of approximately 16,999,000 square feet, located in 47 states. Approximately 98 percent of total properties in the Property Portfolio was leased or operated as of March 31, 2012.

NNN's management team focuses on certain key indicators to evaluate the financial condition and operating performance of NNN. The key indicators for NNN include items such as: the composition of the Property Portfolio (such as tenant, geographic and line of trade diversification), the occupancy rate of the Property Portfolio, certain financial performance ratios and profitability measures, and industry trends and performance compared to that of NNN.

NNN continues to maintain its diversification by tenant, geography and tenant's line of trade. NNN's highest lines of trade concentrations are the convenience store and restaurant (including full and limited service) sectors. These sectors represent a large part of the freestanding retail property marketplace and NNN's management believes these sectors present attractive investment opportunities. NNN's Property Portfolio is geographically concentrated in the south and southeast United States, which are regions of historically above-average population growth. Given these concentrations, any financial hardship within these sectors or geographic locations, respectively, could have a material adverse effect on the financial condition and operating performance of NNN.

Prior to December 31, 2011, NNN reported its operations in two primary business segments, investment assets and inventory assets. As a result of a continued reduction of investments in real estate acquired for the purpose of resale, the previously reported segment of inventory assets no longer meets the criteria for significance for separate segment reporting. Currently, NNN's operations are reported within one business segment in the financial statements and all properties are considered part of the Properties or Property Portfolio. As such, property counts and calculations involving property counts reflect all NNN properties.

## Results of Operations

## Property Analysis

General. The following table summarizes NNN's Property Portfolio as of:

	March 31, 2012	December 31, 2011	March 31, 2011
Properties Owned:			
Number	1,486	1,422	1,223

<sup>(1)</sup> Based on annualized base rent for all leases in place for each respective period.

Property Acquisitions. The following table summarizes the Property acquisitions for each quarter ended March 31 (dollars in thousands):

	2012	2011
Acquisitions:		
Number of Properties	67	29
Gross leasable area (square feet)	594,000	354,000
Total dollars invested <sup>(1)</sup>	\$197,978	\$55,145

<sup>(1)</sup> Includes dollars invested in projects under construction or tenant improvements for each respective year.

NNN typically funds property acquisitions either through borrowings under NNN's unsecured revolving credit facility or by issuing its debt or equity securities in the capital markets.

Property Dispositions. The following table summarizes the Properties sold by NNN for the quarter ended March 31 (dollars in thousands):

	2012	2011
Number of properties	3	2
Gross leasable area (square feet)	20,000	11,000
Net sales proceeds	\$5,152	\$1,831
Net gain	\$314	\$86

NNN typically uses the proceeds from property sales either to pay down the credit facility or reinvest in real estate. Revenue from Continuing Operations Analysis

General. During the Quarter Ended March 31, 2012, NNN's rental income increased primarily due to the increase in rental income from property acquisitions (See "Results of Operations – Property Analysis – Property Acquisitions"). NNN anticipates increases in rental income will continue to come from additional property acquisitions and increases in rents pursuant to lease terms.

The following summarizes NNN's revenues from continuing operations for the quarter ended March 31 (dollars in thousands):

	2012	2011	2012	2011	Percent Increase (Decrease)	
			Percent of Total			
Rental Income <sup>(1)</sup>	\$74,364	\$57,862	94.5	% 94.0	% 28.5	%
Real estate expense reimbursement from tenants	2,832	2,280	3.6	% 3.7	% 24.2	%
Interest and other income from real estate transactions	707	620	0.9	% 1.0	% 14.0	%
Interest income on commercial mortgage residual interests	755	767	1.0	% 1.3	% (1.6)	)%
Total revenues from continuing operations	\$78,658	\$61,529	100.0	% 100.0	% 27.8	%

(1) Includes rental income from operating leases, earned income from direct financing leases and percentage rent from continuing operations ("Rental Income").

Rental Income. Rental Income increased in amount, but remained consistent as a percent of the total revenues from continuing operations for the quarter ended March 31, 2012, as compared to 2011. The increase for the quarter ended March 31, 2012, is primarily due to the acquisition of 66 properties with aggregate gross leasable area of approximately 586,000 square feet during the quarter ended 2012 and 218 properties with aggregate gross leasable area of approximately 3,445,000 square feet during 2011.

Real Estate Expense Reimbursement from Tenants. Real estate expense reimbursements from tenants increased for the quarter ended March 31, 2012, as compared to 2011, but remained stable as a percentage of total revenues from continuing operations. The increase is primarily attributable to a full year of reimbursements from certain properties acquired in 2011.

Interest and Other Income from Real Estate Transactions. Interest and other income from real estate transactions increased for the quarter ended March 31, 2012, as compared to 2011, however, it remained consistent as a percentage of total revenues. The increase is primarily a result of an increase in interest income on mortgage receivables. For the quarter ended March 31, 2012 and 2011, the weighted average outstanding principal balance on NNN's mortgage receivables was \$24,891,000 and \$20,790,000, respectively.

## Analysis of Expenses from Continuing Operations

General. Operating expenses from continuing operations increased during the quarter ended March 31, 2012, primarily due to the increase in depreciation expense from certain properties acquired in 2011. The following table summarizes NNN's expenses from continuing operations for the quarter ended March 31 (dollars in thousands):

	2012	2011	Percent Increase (Decrease)	Percentage of Total		Percentage of Revenues from Continuing Operations		2012	2011	%
				2012	2011	2012	2011			
General and administrative	\$7,603	\$6,657	14.2	% 25.1	% 27.9	% 9.7	% 10.8	%		%

Interest expense	19,645	17,662	11.2	% 102.0	% 102.0	% 25.0	% 28.7	%		%
Total other expenses (revenues)	\$19,259	\$17,320	11.2	% 100.0	% 100.0	% 24.5	% 28.1	%		%

General and Administrative Expenses. General and administrative expenses increased for the quarter ended March 31, 2012, as compared to the same period in 2011, but decreased as a percentage of total operating expenses and as a percentage of revenues from continuing operations. The increase in general and administrative expenses is primarily attributable to an increase in incentive compensation.

Real Estate. Real estate expenses increased both as a percentage of total operating expenses and as a percentage of revenues from continuing operations for the quarter ended March 31, 2012, as compared to the same period in 2011. The increase is primarily due to an increase in tenant reimbursable expenses from certain properties acquired in 2011.

Depreciation and Amortization. Depreciation and amortization expenses increased as a percentage of total operating expenses and as a percentage of revenues from continuing operations for the quarter ended March 31, 2012, as compared to the quarter ended March 31, 2011. The increase is primarily due to depreciation expense from the 218 properties with aggregate gross leaseable area of approximately 3,445,000 square feet acquired during 2011.

Impairment – Commercial Mortgage Residual Interests Valuation. During the quarter ended March 31, 2011, in connection with the independent valuations of the Residuals' fair value NNN recorded an other than temporary valuation adjustment of \$129,000 as a reduction of earnings from operations. There were no other than temporary valuation adjustments recorded during the quarter ended March 31, 2012.

Interest Expense. Interest expense increased for the quarter ended March 31, 2012, as compared to the same period in 2011, but decreased as a percentage of revenues from continuing operations. Interest expense remained consistent as a percentage of total operating expenses.

The following represents the primary changes in debt that have impacted interest expense:

- (i) the issuance of \$300,000,000 in July 2011 of notes payable with a maturity of July 2021, and stated interest rate of 5.500%, and
- (ii) the decrease of \$128,068,000 in the weighted average debt outstanding on the credit facility for the quarter ended March 31, 2012, as compared to the same period in 2011.

## Discontinued Operations

Earnings (Loss)

NNN classified as discontinued operations the revenues and expenses related to its revenue generating Properties that were sold and any revenue generating Properties that were held for sale at March 31, 2012. The following table summarizes the earnings

18

---

from discontinued operations for the quarter ended March 31 (dollars in thousands):

	2012			2011		
	# of Sold Properties	Gain	Earnings	# of Sold Properties	Gain	Earnings
Properties	3	\$314	\$542	2	\$86	\$384
Noncontrolling interests	—	—	(12 )	—	—	(59 )
	3	\$314	\$530	2	\$86	\$325

NNN periodically sells Properties and may reinvest the sales proceeds to purchase additional properties. NNN evaluates its ability to pay dividends to stockholders by considering the combined effect of income from continuing and discontinued operations.

#### Liquidity

General. NNN's demand for funds has been and will continue to be primarily for (i) payment of operating expenses and cash dividends; (ii) property acquisitions and development; (iii) origination of mortgages and notes receivable; (iv) capital expenditures; (v) payment of principal and interest on its outstanding indebtedness; and (vi) other investments.

Cash and Cash Equivalents. The table below summarizes NNN's cash flows for each of the quarter ended March 31 (in thousands):

	2012	2011
Cash and cash equivalents:		
Provided by operating activities	\$50,600	\$48,866
Used in investing activities	(190,678 )	(57,944 )
Provided by financing activities	141,029	9,587
Increase	951	509
Net cash at beginning of period	2,082	2,048
Net cash at end of period	\$3,033	\$2,557

Cash provided by operating activities represents cash received primarily from rental income from tenants, proceeds from the disposition of certain properties and interest income less cash used for general and administrative expenses, interest expense and acquisition of certain properties. NNN's cash flow from operating activities, net of cash used in and provided by the acquisition and disposition of certain properties, has been sufficient to pay the distributions for each period presented. NNN generally uses proceeds from its credit facility or from offerings of equity or debt securities in the capital markets to fund the acquisition of its properties. The change in cash provided by operations for the quarters ended March 31, 2012 and 2011, is primarily the result of changes in revenues and expenses as discussed in "Results of Operations." Cash generated from operations is expected to fluctuate in the future.

Changes in cash for investing activities are primarily attributable to the acquisitions and dispositions of Properties.

NNN's financing activities for the quarter ended March 31, 2012, included the following significant transactions:

\$39,400,000 in net payments on NNN's credit facility,

\$277,645,000 in net proceeds from the issuance of 11,500,000 depositary shares representing interests in NNN's

6.625% Series D Cumulative Redeemable Preferred Stock (the "Series D Preferred Stock") in February,

\$92,000,000 paid to fully redeem NNN's 7.375% Series C Cumulative Redeemable Preferred Stock (the "Series C Preferred Stock"),

\$40,432,000 in dividends paid to common stockholders,

\$1,979,000 in dividends paid to holders of the depositary shares of NNN's Series C Preferred Stock, and

\$37,666,000 in net proceeds from the issuance of 1,428,069 shares of common stock in connection with the Dividend Reinvestment and Stock Purchase Plan ("DRIP").

Contractual Obligations and Commercial Commitments. As of March 31, 2012, NNN has agreed to fund construction commitments in connection with the improvements of leased Properties as outlined in the table below (dollars in thousands):

	# of Properties	Total Commitment <sup>(1)</sup>	Amount Funded	Remaining Commitment
Real Estate Portfolio	60	184,819	123,858	60,961

<sup>(1)</sup> Includes land and construction costs.

As of March 31, 2012, NNN did not have any other material contractual cash obligations, such as purchase obligations, financing lease obligations or other long-term liabilities other than those reflected in the table above and previously disclosed under Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations included in NNN's Annual Report on Form 10-K for the year ended December 31, 2011. In addition to items reflected in the table, NNN has issued preferred stock with cumulative preferential cash distributions, as described below under "Dividends."

Management anticipates satisfying these obligations with a combination of NNN's cash provided from operations, current capital resources on hand, its credit facility, debt or equity financings and asset dispositions.

Generally the Properties are leased under long-term net leases, which generally require the tenant to pay all property taxes and assessments, substantially maintain the interior and exterior of the property and carry property and liability insurance coverage. Therefore, management anticipates that capital demands to meet obligations with respect to these Properties will be modest for the foreseeable future and can be met with funds from operations and working capital. Certain of NNN's Properties are subject to leases under which NNN retains responsibility for specific costs and expenses associated with the Property. Management anticipates the costs associated with NNN's vacant Properties or those Properties that become vacant will also be met with funds from operations and working capital. NNN may be required to borrow under its credit facility or use other sources of capital in the event of unforeseen significant capital expenditures.

The lost revenues and increased property expenses resulting from vacant properties or uncollectibility of lease revenues could have a material adverse effect on the liquidity and results of operations if NNN is unable to re-lease the Properties at comparable rental rates and in a timely manner. As of March 31, 2012, NNN owned 37 vacant, un-leased Properties which accounted for less than three percent of total Properties held in NNN's Property Portfolio. Additionally, as of April 27, 2012, less than one percent of the total gross leasable area of NNN's Property Portfolio was leased to three tenants that filed a voluntary petition for bankruptcy under Chapter 11 of the U.S. Bankruptcy Code. As a result, these tenants have the right to reject or affirm their leases with NNN.

Dividends. NNN has made an election to be taxed as a REIT under Sections 856 through 860 of the Code, as amended, and related regulations and intends to continue to operate so as to remain qualified as a REIT for federal income tax purposes. NNN generally will not be subject to federal income tax on income that it distributes to its stockholders, provided that it distributes 100 percent of its REIT taxable income and meets certain other requirements for qualifying as a REIT. If NNN fails to qualify as a REIT in any taxable year, it will be subject to federal income tax on its taxable income at regular corporate rates and will not be permitted to qualify for treatment as a REIT for federal income tax purposes for four years following the year during which qualification is lost. Such an event could materially adversely affect NNN's income and ability to pay dividends. NNN believes it has been structured as, and its past and present operations qualify NNN as, a REIT.

One of NNN's primary objectives, consistent with its policy of retaining sufficient cash for reserves and working capital purposes and maintaining its status as a REIT, is to distribute a substantial portion of its funds available from operations to its stockholders in the form of dividends.

The following table outlines the dividends declared and paid for each issuance of NNN's stock for the quarter ended March 31 (in thousands, except per share data):

	2012	2011
Series C preferred stock <sup>(1)</sup> :		
Dividends	\$1,979	\$1,696
Per share	0.5378	0.4609
Common stock:		
Dividends	40,432	31,678
Per share	0.385	0.380

- 1) The Series C preferred stock was redeemed in March 2012. The dividends paid during the quarter ended March 31, 2012 include accumulated and unpaid dividends through the redemption date.

In April 2012, NNN declared a dividend of \$0.385 per share which is payable in May 2012 to its common stockholders of record as of April 30, 2012.

#### Capital Resources

Generally, cash needs for property acquisitions, mortgages and notes receivable investments, debt payments, capital expenditures, development and other investments have been funded by equity and debt offerings, bank borrowings, the sale of properties and, to a lesser extent, by internally generated funds. Cash needs for operating expenses and dividends have generally been funded by internally generated funds. If available, future sources of capital include proceeds from the public or private offering of NNN's debt or equity securities, secured or unsecured borrowings from banks or other lenders, proceeds from the sale of properties, as well as undistributed funds from operations.

#### Debt

The following is a summary of NNN's total outstanding debt as of (dollars in thousands):

	March 31, 2012	Percentage of Total	December 31, 2011	Percentage of Total	
Line of credit payable	\$26,200	2.0	% \$65,600	4.9	%
Mortgages payable	22,883	1.8	% 23,171	1.8	%
Notes payable – convertible	356,416	27.4	% 355,371	26.5	%
Notes payable	895,103	68.8	% 894,967	66.8	%
Total outstanding debt	\$1,300,602	100.0	% \$1,339,109	100.0	%

Indebtedness. NNN expects to use indebtedness primarily for property acquisitions and development of single-tenant retail properties, either directly or through investment interests, and mortgage and note receivables.

Line of Credit Payable. In May 2011, NNN amended and restated its credit agreement increasing the borrowing capacity under its unsecured revolving credit facility from \$400,000,000 to \$450,000,000 and amending certain other terms under the former revolving credit facility (as the context requires, the previous and new revolving credit facility, the "Credit Facility"). The Credit Facility had a weighted average outstanding balance of \$50,767,000 and a weighted average interest rate of 1.8% during the quarter ended March 31, 2012. The Credit Facility matures May 2015, with an option by NNN to extend maturity to May 2016. The Credit Facility bears interest at LIBOR plus 150 basis points; however, such interest rate may change pursuant to a tiered interest rate structure based on NNN's debt rating. The Credit Facility also includes an accordion feature for NNN to increase the facility size up to \$650,000,000. As of March 31, 2012, \$26,200,000 was outstanding, and \$423,800,000 was available for future borrowings under the Credit Facility, excluding undrawn letters of credit totaling \$3,857,000.

Notes Payable – Convertible. Each of NNN’s outstanding series of convertible notes is summarized in the table below (dollars in thousands, except per share conversion price):

Terms	2026 Notes <sup>(1)(2)(4)</sup>		2028 Notes <sup>(2)(5)(6)</sup>	
Issue Date	September 2006		March 2008	
Net Proceeds	\$168,650		\$228,576	
Stated Interest Rate <sup>(8)</sup>	3.950	%	5.125	%
Debt Issuance Costs	\$3,850	<sup>(3)</sup>	\$5,459	<sup>(7)</sup>
Earliest Conversion Date <sup>(9)</sup>	September 2025		June 2027	
Earliest Put Option Date	September 2016		June 2013	
Maturity Date	September 2026		June 2028	
Original Principal	\$172,500		\$234,035	
Repurchases	(33,800	)	(11,000	)
Outstanding principal balance at March 31, 2011	\$138,700		\$223,035	

(1) NNN repurchased \$8,800 and \$25,000 in 2009 and 2008, respectively, for a purchase price of \$6,994 and \$19,188, respectively, resulting in a gain of \$1,565 and \$4,961, respectively.

Debt issuance costs include underwriting discounts and commissions, legal and accounting fees, rating agency fees and printing expenses. These costs have been deferred and are being amortized over the period to the earliest put option date of the holders using the effective interest method.

(3) The debt issuance costs associated with the 2026 Notes are fully amortized.

(4) The conversion rate per \$1 principal amount was 42.3759 shares of NNN’s common stock, which is equivalent to a conversion price of \$23.5983 per share of common stock.

(5) The conversion rate per \$1 principal amount was 39.4233 shares of NNN’s common stock, which is equivalent to a conversion price of \$25.3657 per share of common stock.

(6) NNN repurchased \$11,000 in 2009 for a purchase price of \$8,588 resulting in a gain of \$1,867.

(7) Includes \$219 of note costs which were written off in connection with the repurchase of \$11,000 of the 2028 Notes, respectively.

(8) With the adoption of the accounting guidance on convertible debt securities in 2009, the effective interest rates for the 2026 Notes and the 2028 Notes are 5.840% and 7.192%, respectively.

(9) Prior to the earliest respective conversion date, the notes are only convertible in limited circumstances pursuant to the terms of the notes.

Each series of convertible notes represents senior, unsecured obligations of NNN and is subordinated to all secured indebtedness of the Company. Each note is redeemable at the option of NNN, in whole or in part, at a redemption price equal to the sum of (i) the principal amount of the notes being redeemed plus accrued and unpaid interest thereon through but not including the redemption date, and (ii) the make-whole amount, if any, as defined in the applicable supplemental indenture relating to the notes.

Notes Payable. Each of NNN’s outstanding series of non-convertible notes is summarized in the table below (dollars in thousands):

Notes	Issue Date	Principal	Discount <sup>(3)</sup>	Net Price	Stated Rate	Effective Rate <sup>(4)</sup>	Maturity Date
2012 <sup>(1)(8)</sup>	June 2002	\$50,000	287	\$49,713	7.750	% 7.833	% June 2012
2014 <sup>(1)(2)(5)</sup>	June 2004	150,000	440	149,560	6.250	% 5.910	% June 2014
2015 <sup>(1)</sup>	November 2005	150,000	390	149,610	6.150	% 6.185	% December 2015
2017 <sup>(1)(6)</sup>	September 2007	250,000	877	249,123	6.875	% 6.924	% October 2017
2021 <sup>(1)(7)</sup>	July 2011	300,000	4,269	295,731	5.500	% 5.690	% July 2021

(1) The proceeds from the note issuance were used to pay down outstanding indebtedness of NNN’s Credit Facility.

(2) The proceeds from the note issuance were used to repay the obligation of notes maturing in 2004.

- (3) The note discounts are amortized to interest expense over the respective term of each debt obligation using the effective interest method.
- (4) Includes the effects of the discount, treasury lock gain / loss and swap gain / loss (as applicable).  
NNN entered into a forward starting interest rate swap agreement which fixed a swap rate of 4.61% on a notional
- (5) amount of \$94,000. Upon issuance of the 2014 Notes, NNN terminated the forward starting interest rate swap agreement resulting in a gain of

\$4,148. The gain has been deferred and is being amortized as an adjustment to interest expense over the term of the 2014 Notes using the effective interest method.

NNN entered into an interest rate hedge with a notional amount of \$100,000. Upon issuance of the 2017 Notes, (6) NNN terminated the interest rate hedge agreement resulting in a liability of \$3,260, of which \$3,228 was recorded to other comprehensive income. The liability has been deferred and is being amortized as an adjustment to interest expense over the term of the 2017 Notes using the effective interest method.

NNN entered into two interest rate hedges with a total notional amount of \$150,000. Upon issuance of the 2021 (7) Notes, NNN terminated the interest rate hedge agreements resulting in a liability of \$5,300, of which \$5,218 was deferred in other comprehensive income. The deferred liability is being amortized over the term of the 2021 Notes using the effective interest method.

(8) NNN plans to use proceeds from the Credit Facility to repay outstanding indebtedness.

Each series of notes represents senior, unsecured obligations of NNN and is subordinated to all secured indebtedness of NNN. The notes are redeemable at the option of NNN, in whole or in part, at a redemption price equal to the sum of (i) the principal amount of the notes being redeemed plus accrued and unpaid interest thereon through the redemption date, and (ii) the make-whole amount, if any, as defined in the applicable supplemental indenture relating to the notes. In connection with the note offerings, NNN incurred aggregate note issuance costs totaling \$8,001,000 consisting primarily of underwriting discounts and commissions, legal and accounting fees, rating agency fees and printing expenses. Debt issuance costs for all note issuances have been deferred and are being amortized over the term of the respective notes using the effective interest method.

In accordance with the terms of the indentures, pursuant to which NNN's notes and convertible notes have been issued, NNN is required to meet certain restrictive financial covenants, which, among other things, require NNN to maintain (i) certain leverage ratios, and (ii) certain interest coverage. At March 31, 2012, NNN was in compliance with those covenants. NNN's failure to comply with certain of its debt covenants could result in defaults that accelerate the payment under such debt and limit the dividends paid to NNN's common and preferred stockholders which would likely have a material adverse impact on NNN's financial condition and results of operations. In addition, these defaults could impair its access to the debt and equity markets.

#### Debt and Equity Securities

NNN has used, and expects to use in the future, issuances of debt and equity securities primarily to pay down its outstanding indebtedness and to finance investment acquisitions.

**Securities Offering.** In February 2012, NNN filed a shelf registration statement with the Securities and Exchange Commission (the "Commission") which was automatically effective and permits the issuance by NNN of an indeterminate amount of debt and equity securities.

A description of NNN's outstanding series of publicly held notes is found under "Debt – Notes Payable – Convertible" and "Debt – Notes Payable" above.

**7.375% Series C Cumulative Redeemable Preferred Stock.** In October 2006, NNN issued 3,680,000 depositary shares, each representing 1/100<sup>th</sup> of a share of Series C Preferred Stock.

In March 2012, NNN redeemed all outstanding depositary shares (3,680,000) representing interests in its Series C Preferred Stock. The Series C Preferred Stock was redeemed at \$25.00 per depositary share, plus accumulated and unpaid distributions through the redemption date, for an aggregate redemption price of \$25.0768229 per depositary share. The excess carrying amount of preferred stock redeemed over the cash paid to redeem the preferred stock was \$3,098,000 of Series C Preferred Stock issuance costs.

**6.625% Series D Cumulative Redeemable Preferred Stock.** On February 23, 2012, NNN consummated an underwritten public offering of 11,500,000 depositary shares (including 1,500,000 shares in connection with the underwriters over-allotment), each representing a 1/100<sup>th</sup> interest in a share of Series D Preferred Stock, and received gross proceeds of \$287,500,000. In connection with this offering, the Company incurred stock issuance costs of approximately \$9,855,000, consisting primarily of underwriting commissions and fees, legal and accounting fees and printing expenses.

Holders of the Series D depositary shares are entitled to receive, when and as authorized by the Board of Directors, cumulative preferential cash dividends at the rate of 6.625% of the \$25.00 liquidation preference per depositary share per annum (equivalent to a fixed annual amount of \$1.65625 per depositary share). The Series D Preferred Stock underlying the depositary shares ranks senior to NNN's common stock with respect to dividend rights and rights upon liquidation, dissolution or winding up of NNN. The Series D Preferred Stock has no maturity date and will remain outstanding unless redeemed. NNN may

redeem the Series D Preferred Stock underlying the depositary shares on or after September 23, 2017, for cash, at a redemption price of \$2,500.00 per share (or \$25.00 per depositary share), plus all accumulated and unpaid dividends. In addition, upon a change of control, as defined in the articles supplementary fixing the rights and preferences of the Series D Preferred Stock, NNN may redeem the Series D Preferred Stock underlying the depositary shares at a redemption price of \$2,500.00 per share (or \$25.00 per depositary share), plus all accumulated and unpaid dividends, and in limited circumstances the holders of depositary shares may convert some or all of their Series D Preferred Stock into shares of NNN's common stock at conversion rates provided in the related articles supplementary. As of April 27, 2012, the Series D Preferred Stock was not redeemable or convertible.

NNN used the net proceeds (including net proceeds from the underwriters' over-allotment exercise) of approximately \$277,645,000 from this offering to redeem the Series C Preferred Stock for an aggregate redemption price of \$92,000,000, excluding accumulated dividends of \$283,000. NNN used the remainder of the net proceeds for general corporate purposes, including repaying outstanding indebtedness under its Credit Facility.

**Common Stock Issuances.** In September 2011, NNN issued 9,200,000 shares (including 1,200,000 shares in connection with the underwriters' over allotment) of common stock at a price of \$26.07 per share and received net proceeds of \$229,451,000. In connection with this offering, NNN incurred stock issuance costs totaling approximately \$10,393,000, consisting primarily of underwriters' fees and commissions, legal and accounting fees and printing expenses. The Company used a portion of the net proceeds from the offering to repay borrowings under its Credit Facility and used the remainder for general corporate purposes, including property acquisitions.

In December 2011, NNN issued 8,050,000 shares (including 1,050,000 shares in connection with the underwriters' over allotment) of common stock at a price of \$25.75 per share and received net proceeds of \$198,228,000. In connection with this offering, NNN incurred stock issuance costs totaling approximately \$9,060,000, consisting primarily of underwriters' fees and commissions, legal and accounting fees and printing expenses. The Company used a portion of the net proceeds from the offering to repay borrowings under its Credit Facility and used the remainder for general corporate purposes, including property acquisitions.

**Dividend Reinvestment and Stock Purchase Plan.** In February 2012, NNN filed a shelf registration statement which was automatically effective, with the Commission for its DRIP, which permits the issuance by NNN of 16,000,000 shares of common stock. NNN's DRIP provides an economical and convenient way for current stockholders and other interested new investors to invest in NNN's common stock. The following outlines the common stock issuances pursuant to NNN's DRIP for the quarter ended March 31:

	2012	2011
Shares of common stock	1,428,069	818,156
Net proceeds	\$37,666,000	\$20,081,000

## Item 3. Quantitative and Qualitative Disclosures About Market Risk

NNN is exposed to interest rate risk primarily as a result of its variable rate Credit Facility and its fixed rate debt which is used to finance NNN's development and acquisition activities, as well as for general corporate purposes. NNN's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs. To achieve its objectives, NNN borrows at both fixed and variable rates on its long-term debt. As of March 31, 2012, NNN had no outstanding derivatives.

The information in the table below summarizes NNN's market risks associated with its debt obligations outstanding as of March 31, 2012 and December 31, 2011. The table presents principal payments and related interest rates by year for debt obligations outstanding as of March 31, 2012. The variable interest rates shown represent weighted average rate for the Credit Facility for the three months ended March 31, 2012. The table incorporates only those debt obligations that existed as of March 31, 2012, and it does not consider those debt obligations or positions which could arise after this date. Moreover, because firm commitments are not presented in the table below, the information presented therein has limited predictive value. As a result, NNN's ultimate realized gain or loss with respect to interest rate fluctuations will depend on the exposures that arise during the quarter, NNN's hedging strategies at that time and interest rates. If interest rates on NNN's variable rate debt increased by one percent, NNN's interest expense would have increased by less than one percent for the quarter ended March 31, 2012.

(1) Includes NNN's notes payable and convertible notes payable, each net of unamortized discounts. NNN uses Bloomberg to determine the fair value.

NNN is also exposed to market risks related to NNN's Residuals. Factors that may impact the market value of the Residuals include delinquencies, loan losses, prepayment speeds and interest rates. The Residuals, which are reported at market value based upon an independent valuation, had a carrying value of \$15,016,000 and \$15,299,000 as of March 31, 2012 and December 31, 2011, respectively. Unrealized gains and losses are reported as other comprehensive income in stockholders' equity. Losses are considered other than temporary and reported as a valuation impairment in earnings from operations if and when there has been a change in the timing or amount of estimated cash flows that leads to a loss in value.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. An evaluation was performed under the supervision and with the participation of NNN's management, including NNN's Chief Executive Officer and Chief Financial Officer, of the effectiveness as of March 31, 2012 of the design and operation of NNN's disclosure controls and procedures as defined in Rule 13a-15(e) under the Exchange Act. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control over Financial Reporting. There has been no change in NNN's internal control over financial reporting that occurred during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, NNN's internal control over financial reporting.
