**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**SEPTEMBER 30, 2006 (UNAUDITED)**

**NOTE 1 ORGANIZATION AND ACCOUNTING POLICY**

United Mobile Homes, Inc. changed its name to UMH Properties, Inc. (the Company). The name change was unanimously approved by the Company's Board of Directors and effected by the filing of Articles of Amendment to the Company's charter with the State Department of Assessments and Taxation of Maryland to be effective on April 1, 2006. In accordance with Section 2-605 of the Maryland General Corporation Law and the Company's organizational documents, no stockholder vote was required or obtained. No other changes were made to the Company's charter. The Company's common stock will continue to be traded on the American Stock Exchange under the ticker symbol UMH , but under the new CUSIP number 903002103.

The interim consolidated financial statements furnished herein reflect all adjustments which were, in the opinion of management, necessary to present fairly the financial position, results of operations, and cash flows at September 30, 2006 and for all periods presented. All adjustments made in the interim period were of a normal recurring nature. Certain footnote disclosures which would substantially duplicate the disclosures contained in the audited consolidated financial statements and notes thereto included in the annual report of the Company for the year ended December 31, 2005 have been omitted.

The Company, through its wholly-owned taxable subsidiary, UMH Sales and Finance, Inc. (S&F), conducts manufactured home sales in its communities. This company was established to enhance the occupancy of the communities. The consolidated financial statements of the Company include S&F and all of its other wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

**Employee Stock Options**

The Company accounts for its stock option plan under the provisions of SFAS No. 123 (revised 2004), Share-Based Payment (SFAS No. 123R). The Company has selected the prospective method of adoption under the provisions of SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure . SFAS 123R requires that compensation cost for all stock awards be calculated and recognized over the service period (generally equal to the vesting period). This compensation cost is determined using option pricing models, intended to estimate the fair value of the awards at the grant date.

Compensation cost which has been determined consistent with SFAS No. 123R, amounted to \$32,330 and \$97,957 for the three and nine months ended September 30, 2006, respectively, and \$29,902 and \$72,677 for the three and nine months ended September 30, 2005, respectively.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighed-average assumptions used for grants in the following years:

	2006	2005
Dividend yield	6.33%	6.30%
Expected volatility	18.50%	19.50%
Risk-free interest rate	4.63%	3.93%
Expected lives	8	8

The weighted-average fair value of options granted during the nine months ended September 30, 2006 and 2005 was \$1.44 and \$1.33, respectively.

During the nine months ended September 30, 2006, the following stock options were granted:

Date of Grant	Number of Employees	Number of Shares	Option Price	Expiration Date
1/9/06	1	44,200	\$15.62	1/9/14
1/9/06	1	5,800	17.21	1/9/14
7/21/06	10	40,000	15.15	7/21/14

During the nine months ended September 30, 2006, four employees exercised their stock options and purchased 36,000 shares for a total of \$386,413. As of September 30, 2006, there were options outstanding to purchase 350,000 shares and 1,197,000 shares were available for grant under the Company's 2003 Stock Option Plan.

## NOTE 2 NET INCOME PER SHARE AND COMPREHENSIVE (LOSS) INCOME

Basic net income per share is calculated by dividing net income by the weighted average shares outstanding for the period. Diluted net income per share is calculated by dividing net income by the weighted average number of common shares outstanding plus the weighted average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method. Options in the amount of 17,642 and 16,448 shares for the three

and nine months ended September 30, 2006, respectively, and 30,961 and 31,294 shares for the three and nine months ended September 30, 2005, respectively, are included in the diluted weighted average shares outstanding.

The following table sets forth the components of the Company's comprehensive income for the three and nine months ended September 30, 2006 and 2005:

	Three Months		Nine months	
	2006	2005	2006	2005
Net Income	\$276,075	\$2,259,635	\$3,634,549	\$5,544,210
Increase (Decrease) in				
unrealized gain on				
securities available for				
sale	(97,957)	468,982	(383,127)	(1,695,067)
Comprehensive Income	\$178,118	\$2,728,617	\$3,251,422	\$3,849,143

### NOTE 3 INVESTMENT PROPERTY AND EQUIPMENT

On March 10, 2006, the Company acquired (at auction) Weatherly Estates I, a 270-space manufactured home community in Lebanon, Tennessee, from Affordable Residential Communities Inc., an unrelated entity. The total purchase price was approximately \$5,200,000. The Company paid approximately \$600,000 in cash and used approximately \$4,600,000 of its line of credit from PNC Bank.

During the nine months ended September 30, 2006, the Company sold or redeemed \$6,089,613 in securities available for sale, recognizing a gain of \$314,865. The Company also recognized a loss of \$823,249 due to a write-down to the carrying value of securities available for sale which were considered other than temporarily impaired.

### NOTE 5 DERIVATIVE INSTRUMENTS

The Company invested in futures contracts on ten-year Treasury notes with the objective of reducing the exposure of the debt securities portfolio to market rate fluctuations. The notional amount of these contracts amounted to \$9,000,000 at September 30, 2006 and 2005. Changes in the market value of these derivatives have been recorded in gain on securities available for sale transactions, net with corresponding amounts recorded in accrued liabilities and deposits on the balance sheet. The fair value of the derivatives at September 30, 2006 and December 31, 2005 was a liability of \$87,187 and \$50,625, respectively. During the three and nine months ended September 30, 2006, the Company recorded a realized loss of \$137,261 and a realized gain of \$165,484, respectively, on settled futures contracts, which is included in gain (loss) on securities available for sale transactions, net. Changes in the fair value of these agreements have been recorded as an increase or deduction from interest expense with corresponding amounts in other assets or other liabilities. The change in the fair value of these agreements for the three and nine months ended September 30, 2006 amounted to (\$324,609) and \$28,841, respectively, and has been recorded as a deduction from (increase to) interest expense. The fair value of these agreements at September 30, 2006 and December 31, 2005 amounted to assets of \$499,926 and \$471,085, respectively, which have been included in notes and other receivables, net.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

### **OVERVIEW**

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto included elsewhere herein and in our annual report on Form 10-K for the year ended December 31, 2005.

The Company is a real estate investment trust (REIT). The Company's primary business is the ownership and operation of manufactured home communities—leasing manufactured home spaces on a month-to-month basis to private manufactured home owners. The Company also leases homes to residents and, through, its taxable REIT subsidiary, UMH Sales and Finance, Inc. (S&F), sells and finances homes to residents and prospective residents of our communities. The Company owns twenty-eight communities containing approximately 6,600 sites. These communities are located in New Jersey, New York, Ohio, Pennsylvania and Tennessee.

The Company also holds a portfolio of securities of other REITs and home manufacturers with a balance of \$20,824,726 at September 30, 2006. The Company invests in these securities on margin from time to time when the Company can achieve an adequate yield spread and when suitable acquisitions of real property cannot be found. At September 30, 2006, the Company's portfolio consisted of 48% preferred stocks, 23% common stocks and 29% debentures. The securities portfolio provides the Company with liquidity and additional income until suitable acquisitions of real property are found.

Total revenues decreased by approximately 12% from \$11,247,848 for the quarter ended September 30, 2005 to \$9,894,006 for the quarter ended September 30, 2006. This was primarily due to a decrease in sales of manufactured homes and a decrease in gain (loss) on securities available for sale transactions. Sales of manufactured homes

decreased for the quarter ended September 30, 2006 as compared to the quarter ended September 30, 2005 primarily due to the timing of end of quarter sales. Certain sales scheduled to be closed at the end of the third quarter did not close until the beginning of the fourth quarter. The decrease in gain (loss) on securities available for sale transactions was primarily due to the loss on settled and open futures contracts. Total revenues increased by approximately 2% from \$29,107,908 for the nine months ended September 30, 2005 to \$29,750,059 for the nine months ended September 30, 2006. This was primarily due to an increase in sales of manufactured homes and the purchase of a new community in March 2006, partially offset by a decrease in the gain (loss) on securities available for sale transactions.

Total expenses increased by approximately 7% for the quarter ended September 30, 2006 as compared to the quarter ended September 30, 2005. This was primarily due to an increase in interest expense, partially offset by a decrease in cost of sales of manufactured homes. Total expenses increased by approximately 11% for the nine months ended September 30, 2006 as compared to the nine months ended September 30, 2005. This was primarily due to an increase in cost of sales of manufactured homes, interest expense, selling expenses and general and administrative expenses. The changes in cost of sales of manufactured homes are directly attributable to the changes in sales. The increase in selling expense is primarily due to increased advertising for homes in new expansions. The increases in general and administrative expenses are primarily due to an increase in personnel costs and franchise taxes. The fluctuations in interest expense were primarily due to the change in fair value of the Company's interest rate swaps.

Net income decreased by approximately 88% and 34% for the quarter and nine months, respectively, ended September 30, 2006 as compared to the quarter and nine months ended September 30, 2005. The decrease in net income is primarily due to the decrease in the gain (loss) on securities available for sale transactions and an increase in interest expense. In addition, the decrease for the quarter is also due to a decrease in the income from the sales operations.

See PART I, Item 1 Business in the Company's 2005 annual report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

#### **CHANGES IN RESULTS OF OPERATIONS**

Rental and related income increased from \$5,581,395 for the quarter ended September 30, 2005 to \$5,795,685 for the quarter ended September 30, 2006. Rental and related income increased from \$16,612,171 for the nine months ended September 30, 2005 to \$17,321,774 for the nine months ended September 30, 2006. This was primarily due to the expansion of existing communities in 2005, the acquisition of a new community during 2006 and rental increases to residents. The Company has been raising rental rates by approximately 3% to 4% annually.

Interest and dividend income decreased from \$898,008 for the quarter ended September 30, 2005 to \$644,229 for the quarter ended September 30, 2006. Interest and dividend income decreased from \$2,374,619 for the nine months ended September 30, 2005 to \$2,245,155 for the nine months ended September 30, 2006. This was primarily due to a decrease in dividend income from the securities available for sale, partially offset by an increase in interest income from notes and other receivables.

Gain (loss) on securities available for sale transactions, net for the three and nine months ended September 30, 2006 and 2005 consisted of the following:

	<u>Three Months</u>		<u>Nine months</u>	
	<u>2006</u>	<u>2005</u>	<u>2006</u>	<u>2005</u>
Gain (loss) on sale of securities, net	(\$24,599)	\$32,168	\$314,865	\$1,187,658
Impairment loss	-0-	-0-	(823,249)	-0-
Gain (loss) on settled futures contracts	(137,261)	140,552	165,484	(94,595)
Gain (loss) on open futures contracts	(163,124)	82,187	(87,187)	116,718
(Loss) gain on securities available for sales transactions, net	(\$324,984)	\$254,907	(\$430,087)	\$1,209,781

Gain (loss) on sale of securities, net decreased by \$56,767 and \$872,793 for the three and nine months ended September 30, 2006, respectively as compared to the three and nine months ended September 30, 2005. This was due primarily to the Company's decision to realize a substantial portion of the unrealized gain in the securities portfolio existing during 2005. During 2006, the Company also recognized a loss of \$823,249 due to a write-down to the carrying value of securities available for sale which were considered other than temporarily impaired. These decreases were partially offset by the increase in the gain on settled futures contracts for the nine months ended September 30, 2006. The Company invests in futures contracts of ten-year treasury notes to mitigate the exposure of interest rate fluctuations on the Company's preferred equity and debt securities portfolio.

Community operating expenses increased from \$3,019,762 for the quarter ended September 30, 2005 to \$3,291,018 for the quarter ended September 30, 2006. This was primarily due to an increase in repairs and maintenance and travel for community expansions. Community operating expenses remained relatively stable for the nine months ended September 30, 2006 as compared to the nine months ended September 30, 2005. General and administrative expenses increased from \$768,309 for the quarter ended September 30, 2005 to \$838,652 for the quarter ended September 30, 2006. General and administrative expenses increased from \$2,244,453 for the nine months ended September 30, 2005 to \$2,493,169 for the nine months ended September 30, 2006. This was primarily due to an increase in personnel costs and franchise taxes. Interest expense increased from \$340,525 for the quarter ended September 30, 2005 to \$1,117,060 for the quarter ended September 30, 2006. Interest expense increased from \$1,501,343 for the nine months ended September 30, 2005 to \$2,381,665 for the nine months ended September 30, 2006. This was primarily due to an increase in interest rates and the change in fair value of the Company's interest rate

swaps. The change in fair value of the interest rate swaps increased interest expense by approximately \$325,000 for the quarter ended September 30, 2006 and decreased interest expense by approximately \$395,000 for the quarter ended September 30, 2005. This change in fair value also decreased interest expense by approximately \$29,000 and \$625,000 for the nine months ended September 30, 2006 and 2005, respectively. Cash paid for interest during the quarter ended September 30, 2006 and 2005 amounted to \$853,350 and \$767,127, respectively. Cash paid for interest during the nine months ended September 30, 2006 and 2005 amounted to \$2,552,406 and \$2,246,032, respectively.

Depreciation expense remained relatively stable for the quarter and nine months ended September 30, 2006 as compared to the

quarter and nine months ended September 30, 2005. Amortization of financing costs increased from \$45,120 for the quarter ended September 30, 2005 to \$62,370 for the quarter ended September 30, 2006. Amortization of financing costs increased from \$135,360 for the nine months ended September 30, 2005 to \$187,110 for the nine months ended September 30, 2006. This was primarily due to fees incurred for our line of credit with PNC Bank.

Sales of manufactured homes amounted to \$3,741,867 and \$4,460,301 for the quarters ended September 30, 2006 and 2005, respectively. Sales of manufactured homes decreased for the quarter ended September 30, 2006 as compared to the quarter ended September 30, 2005 primarily due to the timing of end of quarter sales. Some sales scheduled to be closed at the end of the third quarter did not close until the beginning of the fourth quarter. Sales of manufactured homes amounted to \$10,479,863 and \$8,781,794 for the nine months ended September 30, 2006 and 2005, respectively. Cost of sales of manufactured homes amounted to \$2,947,594 and \$3,608,236 for the quarters ended September 30, 2006 and 2005, respectively. Cost of sales of manufactured homes amounted to \$8,087,309 and \$7,183,653 for the nine months ended September 30, 2006 and 2005, respectively. Selling expenses amounted to \$540,821 and \$404,213 for the quarters ended September 30, 2006 and 2005, respectively. Selling expenses amounted to \$1,547,339 and \$1,127,326 for the nine months ended September 30, 2006 and 2005, respectively. These fluctuations are directly attributable to the fluctuations in sales. Income from sales operations (defined as sales of manufactured homes less cost of sales of manufactured homes less selling expenses) decreased from \$447,852 for the quarter ended September 30, 2005 to \$253,452 for the quarter ended September 30, 2006, primarily due to the timing of end of quarter sales. Income from sales operations amounted to \$845,215 for the nine months ended September 30, 2006 as compared to \$470,815 for the nine months ended September 30, 2005. This increase was primarily due to an increase in sales in our expansions which were completed in 2005. The Company has also been increasing the sales prices of these homes. The Company believes that sales of new homes into the Company's communities produce new rental revenue and upgrade the communities.

## **LIQUIDITY AND CAPITAL RESOURCES**

The Company's principal liquidity demands have historically been, and are expected to continue to be, distributions to the Company's stockholders, acquisitions, capital improvements, development and expansions of properties, debt service, purchases of manufactured home inventory, investment in debt and equity securities of other REITs and payments of expenses relating to real estate operations. The Company's ability to generate cash adequate to meet these demands is dependent primarily on income from its real estate investments and securities portfolio, the sale of real estate investments and securities, refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, proceeds from the DRIP, and access to the capital markets.

Net cash provided by operating activities increased from \$2,426,898 for the nine months ended September 30, 2005 to \$3,238,705 for the nine months ended September 30, 2006. The Company received, including dividends reinvested of \$1,345,167, new capital of \$5,432,948 through its Dividend Reinvestment and Stock Purchase Plan (DRIP). The Company sold \$6,089,613, at cost, and purchased \$1,510,377 of securities of other real estate investment trusts.

The Company purchased a manufactured home community in Lebanon, Tennessee for approximately \$5,200,000. Mortgages payable decreased by \$1,420,907 and loans payable decreased by \$128,486 as a result of principal repayments, partially offset by the use of the line of credit to acquire the community in Lebanon, Tennessee. The Company believes that funds generated from operations together with the financing and refinancing of its properties will be sufficient to meet its needs over the next several years.

## **FUNDS FROM OPERATIONS**

Funds from Operations (FFO) is defined as net income excluding gains (or losses) from sales of depreciable assets, plus depreciation. FFO should be considered as a supplemental measure of operating performance used by real estate investment trust (REITs). FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost bases. The items excluded from FFO are significant components in understanding and assessing the Company's financial performance. FFO (1) does not represent cash flow from operations as defined by generally accepted accounting principles; (2) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (3) is not an alternative to cash flow as a measure of liquidity. FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company's FFO for the three and nine months ended September 30, 2006 and 2005 is calculated as follows:

	Three Months		Nine months	
	2006	2005	2006	2005
Net Income	\$276,075	\$2,259,635	\$3,634,549	\$5,544,210
Gain on Sales of				
Depreciable Assets	(40,767)	(36,196)	(100,398)	(20,678)
Depreciation Expense	861,183	838,244	2,544,541	2,539,915
FFO	\$1,096,491	\$3,061,683	\$6,078,692	\$8,063,447

The following are the cash flows provided by (used in) operating, investing and financing activities for the nine months ended September 30, 2006 and 2005:

	2006	2005

Investing Activities	(4,050,502)	(9,365,307)
Financing Activities	(3,168,276)	2,590,453
