REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and the Participants of The Gillette Company Global Employee Stock Ownership Plan:

We have audited the accompanying Statements of net assets available for plan benefits of The Gillette Company Global Employee Stock Ownership Plan (the "Plan") as of December 31, 2014 and 2013 and the related Statements of changes in net assets available for plan benefits for the years ended December 31, 2014, 2013 and 2012 (the "financial statements"). These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for plan benefits for the years ended December 31, 2014, 2013 and 2012, in conformity with accounting principles generally accepted in the United States of America.

THE GILLETTE COMPANY GLOBAL EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS AS OF DECEMBER 31, 2014 AND 2013, AND FOR
THE YEARS ENDED DECEMBER 31, 2014, 2013 AND 2012

1. DESCRIPTION OF THE PLAN

The Gillette Company Global Employee Stock Ownership Plan (the "Plan" or the "GESOP") is a stock ownership plan sponsored by The Gillette Company ("Gillette"), a subsidiary of The Procter & Gamble Company ("Procter & Gamble"), (the "Company"). The following provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General — The Plan is a share purchase plan established by Gillette to provide a means for eligible employees to tax efficiently purchase shares of the company. It is not subject to the provisions of the Employee Retirement Income Security Act of 1974 and is not subject to income taxation. Capita Plan Share Services is the Plan fiduciary and BMO Capital Markets is the custodian for the accounts.

On January 27, 2005, and in connection with the Company's acquisition of Gillette, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") with Gillette providing that, upon the terms and subject to the conditions set forth in the Merger Agreement, the Plan would merge with and into the Procter & Gamble International Stock Ownership Plan or other Procter & Gamble international plans (collectively "ISOP"). Over the years, each country has adopted the P&G benefit plans that include the ISOP, so their participation in the plan has terminated. Since 2010, the United Kingdom is the only remaining country participating in the Plan ("participating subsidiary") and the Company continues to evaluate the options for the United Kingdom.

Effective January 1, 2008, participants of the Plan were eligible to make contributions to ISOP and ceased making contributions to the Plan.

Eligibility — Employees eligible to participate in the Plan included all regular employees of participating subsidiaries of the Company with the exception of employees considered to be an executive, officer, director, or a 10 percent stockholder of the Company and employees eligible for another savings plan sponsored by the Company and maintained in the United States, Canada, or Puerto Rico. Eligible employees could have enrolled in the Plan on the first day of each month and on the initial participation date for each participating subsidiary.

Contributions — Eligible employees could have contributed 1 percent to 10 percent of their compensation to the Plan through payroll deductions. A participating employee could have changed the contribution rate effective as of the first day of any month. Employer contributions were made to the accounts of participants who were contributing to the Plan in amounts equal to 50 percent of the participant's contributions, up to 1 percent of each participant's eligible pay. Effective 1 January 2008, contributions were frozen as per Note 6.

Participant Accounts — Individual accounts have been maintained for each Plan participant. Each participant's account was credited with the participant's contribution, the Company's matching contribution, allocations of Company discretionary contributions, if any, and Plan earnings, and charged with withdrawals and an allocation of Plan losses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant accounts remaining in the Plan continue to have individual accounts maintained with Plan earnings or losses allocated based on earnings and account balances as defined.

As of December 31, 2014, the Plan has a total of 194 participants participating in the Plan solely in the United Kingdom.

Investments — All employee and employer contributions were converted into U.S. dollars and then invested in shares of the Company's common stock generally on the 15th day of each month (or if that date is not a business day, the preceding business day). Sales of the Company's common stock for distributions generally are made on two specified dates in each month and subsequently converted into the applicable local currencies for payment to employees. Any dividends on shares of the Company's common stock are invested in additional shares of the Company's common stock.

Vesting — In general, participants were immediately vested in all shares of the Company's common stock credited to their respective Plan accounts.

Payment of Benefits — Prior to the Merger Agreement, distributions of account balances were made when the employment of a participant ceased, unless upon retirement the participant's account was credited with at least 100 shares of the Company's common stock, and the participant elected to defer payment. If an election was made to defer the distribution, retirees could have made up to two requests a year for distributions of all or a portion of their account balance.

For those retirees who do not elect to defer payment and for all other participants who terminate employment for reasons other than retirement, a distribution of the participant's account was made in the form of a lump-sum payment.

All distributions were made in cash, unless the participant (or beneficiary, in the event of a participant's or retiree's death) elected to receive the account balance in the form of shares of the Company's common stock.

While employed, participants could have elected to take up to two in-service withdrawals from their account balances during a calendar year. Effective October 1, 2005, upon a change in control of the Plan sponsor, all shares in the Plan became mature and immediately available for sale. Since then participants have been able to elect cash, share certificate, or electronic transfer of shares to the ISOP for both in-service and termination withdrawals. Only whole shares were processed for in-service withdrawals.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan invests in Company common stock which represents a concentration in investments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the value of the participants account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition — The Plan's investments in common company stock are stated at fair value. Quoted market prices are used to value these investments.

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex dividend date, net of any U.S. withholding taxes. Realized gains and losses are based upon the average cost method.

Net Appreciation / (Depreciation) in Fair Value of Investments - Realized and unrealized appreciation / (depreciation) in fair value of investments is based on the difference between the fair value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation / (depreciation), or on the last day of the year for unrealized appreciation / (depreciation).

Administrative Expenses — Brokerage commissions, fees, and other investment transaction costs are paid by participants as part of the purchase and sale of the Company's common stock. Costs relating to the administration of the Plan are paid by the Company. In 2013, the decision was taken to display the Administrative Expenses and the reimbursement from the Company on the face of the Statements of changes in net assets available for benefits. There is no overall impact to the Net Assets available for benefits for the current year or the comparison years.

Payment of Benefits — Benefits are recorded when paid.

3. FAIR VALUE MEASUREMENTS

ASC 820, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;

Level 2 • inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

All investments are measured following a Level 1 valuation technique as of December 31, 2014 and 2013.

4. INVESTMENTS

The Plan's investment in Company common stock experienced a net appreciation/ (depreciation) in value as follows for the years ended December 31, 2014, 2013 and 2012:

	2014	2013	2012
	\$	\$	\$
The Procter & Gamble Company common stock:			
Net appreciation/(depreciation)	65,017	161,148	(144,110)

The realized gain on sales of Company common stock for the years ended December 31, 2014, 2013 and 2012, was determined using an average cost method as follows:

	2014	2013	2012
	\$	\$	\$
Proceeds on sales of shares	304,095	561,862	521,327
Cost	180,847	320,961	341,043
Realized gain on sales	65,017	161,148	(144,110)

5. FEDERAL INCOME TAX STATUS

The Plan is not qualified under Section 401(a) of the Internal Revenue Code and is exempt from the provisions of Title I of ERISA pursuant to Section 4(b) (4) thereof. The Company believes that the fiduciary should be viewed as a directed custodian and that, for U.S. tax purposes, the participating employees should be treated as the owners of the shares of the Company's common stock held for their account under the Plan.

GAAP requires plan administrators to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or the Department of Labor. The Plan administrators have analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan administrators believe it is no longer subject to income tax examinations for years prior to 2010.

The Company has received a private letter ruling from the Internal Revenue Service confirming that the participating employees should be treated as the beneficial owners of the shares of the Company's common stock held for their account under the Plan for U.S. tax purposes and that, subject to certain procedural conditions, the information provided by the employees may be relied upon in determining the applicable U.S. tax withholding rate on dividends paid by the Company with respect to these shares.

6. RELATED PARTY TRANSACTIONS

At December 31, 2014 and 2013, the Plan held 21,751 and 25,168 shares, respectively, of Company common stock with a cost basis of \$1,004,964 and \$1,137,609, respectively. Contributions to the Plan were frozen effective January 1, 2008.

During the years ended December 31, 2014, 2013 and 2012, the Plan recorded dividend income from Company common stock of \$50,490, \$55,597 and \$66,022, respectively.

During the year ended December 31, 2014 the Plan incurred administrative expenses of approximately \$38,000. This compares to \$11,000 per annum in 2013 and \$12,000 in 2012. The costs were paid by companies within the Procter & Gamble group of companies, headed by the sponsoring company, and not reimbursed by the Plan.

7. PLAN TERMINATION

Although they have not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in the Plan agreement.

8. SUBSEQUENT EVENTS

The Company has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through 19 March, 2015, the date the financials were available to be issued. No other events have occurred that require adjustment to or disclosure in the financial statements of the Plan.
