STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements (Unaudited)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of State Auto Financial Corporation and Subsidiaries (“State Auto Financial” or the “Company”) have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles (“GAAP”) for complete financial statements. In the opinion of the Company, all adjustments (consisting of normal, recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine month periods ended September 30, 2013 are not necessarily indicative of the results that may be expected for the year ending December 31, 2013. The balance sheet at December 31, 2012 has been derived from the audited financial statements at that date, but does not include all of the information and footnotes required by GAAP for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Company’s annual report on Form 10-K for the year ended December 31, 2012 (the “2012 Form 10-K”). Capitalized terms used herein and not otherwise defined shall have the meaning ascribed to them in the 2012 Form 10-K.

Adoption of Accounting Pronouncements

Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income

The amendments in this guidance result in additional disclosure requirements under GAAP and do not change the current requirements for reporting net income or other comprehensive income in financial statements. The new guidance requires an entity to present, either in a single note, or, parenthetically on the face of the statement where net income is presented, the effects of significant amounts reclassified from each component of accumulated other comprehensive income by the respective line items of net income, only, if the amount reclassified is required under GAAP to be reclassified to net income in its entirety in the same reporting period. If a component is not required to be reclassified to net income in its entirety, the entity would, instead, cross-reference it to the related disclosure required under GAAP. This guidance was effective prospectively for fiscal years and interim periods beginning after December 15, 2012. The Company adopted this guidance at January 1, 2013 and it did not have a material impact on the consolidated financial statements, see Note 8 - Other Comprehensive Income and Accumulated Other Comprehensive Income.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

The Company reviewed its investments at September 30, 2013, and determined no additional other-than-temporary impairment existed in the gross unrealized holding losses other than those listed in the table below. The following table sets forth the realized losses related to other-than-temporary impairments on the Company's investment portfolio recognized for the three and nine months ended September 30, 2013 and 2012:

(\$ millions)	Three months ended		Nine months ended	
	September 30		September 30	
	2013	2012	2013	2012
Equity securities:				
Large-cap securities	\$—	\$—	\$(1.3) \$—
Small-cap securities	(0.3) (0.7) (1.3) (2.2
Fixed maturities:	—	—	—	(0.2
Total other-than-temporary impairments	\$(0.3) \$(0.7) \$(2.6) \$(2.4

The Company regularly monitors its investments that have fair values less than cost or amortized cost for signs of other-than-temporary impairment, an assessment that requires significant management judgment regarding the evidence known. Such judgments could change in the future as more information becomes known, which could negatively impact the amounts reported. Among the factors that management considers for fixed maturity securities are the financial condition of the issuer including receipt of scheduled principal and interest cash flows, and intent to sell including if it is more likely than not that the Company will be required to sell the investments before recovery. When a fixed maturity has been determined to have an other-than-temporary impairment, the impairment charge is separated into an amount representing the credit loss, which is recognized in earnings as a realized loss, and the amount related to non-credit factors, which is recognized in accumulated other comprehensive income. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income.

Among the factors that management considers for equity securities and other invested assets are the length of time and/or the significance of decline below cost, the Company's ability and intent to hold these securities through their recovery periods, the current financial condition of the issuer and its future business prospects, and the ability of the market value to recover to cost in the near term. When an equity security or other invested asset has been determined to have a decline in fair value that is other-than-temporary, the cost basis of the security is adjusted to fair value. This results in a charge to earnings as a realized loss, which is not reversed for subsequent recoveries in fair value. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income.

The following table sets forth the amortized cost and fair value of available-for-sale fixed maturities by contractual maturity at September 30, 2013:

(\$ millions)	Amortized cost	Fair value
Due in 1 year or less	\$57.2	\$57.9
Due after 1 year through 5 years	367.1	385.8
Due after 5 years through 10 years	374.6	391.6
Due after 10 years	668.6	666.1
U.S. government agencies residential mortgage-backed securities	334.6	343.4
Total	\$1,802.1	\$1,844.8

Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay the obligations with or without call or prepayment penalties.

At September 30, 2013, State Auto P&C had fixed maturity securities, with a carrying value of \$118.0 million, that were pledged as collateral in connection with an outstanding borrowing of \$85.0 million with the Federal Home Loan Bank of Cincinnati ("FHLB"). In accordance with the terms of the borrowing, State Auto P&C retains all rights regarding these securities, which are included in the "U.S. government agencies residential mortgage-backed securities" classification of the Company's fixed maturity securities portfolio.

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

Fixed maturities with fair values of \$8.6 and \$10.0 million, respectively, were on deposit with insurance regulators as required by law at September 30, 2013 and December 31, 2012. The Company retains all rights regarding these securities.

The following table sets forth the components of net investment income for the three and nine months ended September 30, 2013 and 2012:

(\$ millions)	Three months ended		Nine months ended	
	September 30		September 30	
	2013	2012	2013	2012
Fixed maturities	\$ 16.2	\$ 14.7	\$ 48.2	\$ 49.1
Equity securities	1.9	1.5	4.7	3.5
Cash and cash equivalents, and other	1.3	1.4	4.1	4.1
Investment income	19.4	17.6	57.0	56.7
Investment expenses	0.6	0.4	1.6	1.5
Net investment income	\$ 18.8	\$ 17.2	\$ 55.4	\$ 55.2

The Company's current investment strategy does not rely on the use of derivative financial instruments.

The following table sets forth the realized and unrealized holding gains (losses) on the Company's investment portfolio for the three and nine months ended September 30, 2013 and 2012:

(\$ millions)	Three months ended		Nine months ended	
	September 30		September 30	
	2013	2012	2013	2012
Realized gains:				
Fixed maturities	\$ 0.4	\$ 3.3	\$ 1.6	\$ 14.0
Equity securities	7.9	4.8	17.9	11.5
Other invested assets	0.1	—	0.1	—

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

3. Fair Value of Financial Instruments

Below is the fair value hierarchy that categorizes into three levels the inputs to valuation techniques that are used to measure fair value:

Level 1 includes observable inputs which reflect quoted prices for identical assets or liabilities in active markets at the measurement date.

Level 2 includes observable inputs for assets or liabilities other than quoted prices included in Level 1, and it includes valuation techniques which use prices for similar assets and liabilities.

Level 3 includes unobservable inputs which reflect the reporting entity's estimates of the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The Company utilizes one nationally recognized pricing service to estimate the majority of its available-for-sale investment portfolio's fair value. The Company obtains one price per security and the processes and control procedures employed by the Company are designed to ensure the value is accurately recorded on an unadjusted basis. Through discussions with the pricing service, the Company gains an understanding of the methodologies used to price the different types of securities, that the data and the valuation methods utilized are appropriate and consistently applied, and that the assumptions are reasonable and representative of fair value. To validate the reasonableness of the valuations obtained from the pricing service, the Company compares to other fair value pricing information gathered from other independent pricing sources. At September 30, 2013 and December 31, 2012, the Company did not adjust any of the prices received from the pricing service.

Transfers between level categorizations may occur due to changes in the availability of market observable inputs.

Transfers in and out of level categorizations are reported as having occurred at the beginning of the quarter in which the transfer occurred. There were no transfers between level categorizations during the three and nine months ended September 30, 2013 and 2012.

The following sections describe the valuation methods used by the Company for each type of financial instrument it holds that are carried at fair value:

Fixed Maturities

The Company utilizes a third party pricing service to estimate fair value measurements for the majority of its fixed maturities. The fair value estimate of the Company's fixed maturity investments are determined by evaluations that are based on observable market information rather than market quotes. Inputs to the evaluations include, but are not limited to, market prices from recently completed transactions and transactions of comparable securities, interest rate yield curves, credit spreads, and other market-observable information. The fixed maturity portfolio pricing obtained from the pricing service is reviewed for reasonableness. Regularly, a sample of security prices are referred back to the pricing service for more detailed explanation as to how the pricing service arrived at that particular price. The explanations are reviewed for reasonableness by the portfolio manager and investment officer. Additionally, the prices and assumptions are verified against an alternative pricing source for reasonableness and accuracy. Any discrepancies with the pricing are returned to the pricing service for further explanation and if necessary, adjustments are made. To date, the Company has not identified any significant discrepancies in the pricing provided by its third party pricing service. Investments valued using these inputs include U.S. treasury securities and obligations of U.S. government agencies, obligations of states and political subdivisions, corporate securities (except for one security discussed below), and U.S. government agencies residential mortgage-backed securities. All unadjusted estimates of fair value for fixed maturities priced by the pricing service are included in the amounts disclosed in Level 2 of the hierarchy. If market inputs are unavailable, then no fair value is provided by the pricing service. For these securities, fair value is determined either by requesting brokers who are knowledgeable about these securities to provide a quote; or the Company internally determines the fair values by employing widely accepted pricing valuation models, and depending on the level of observable market inputs, renders the fair value estimate as Level 2 or Level 3. The Company holds two fixed maturity corporate securities included in Level 3. The Company estimates the fair value of

one security using the present value of the future cash flows and the Company obtains a broker quote of the other security's fair value. Due to the limited amount of observable market information for both of these securities, the Company includes the fair value estimates in Level 3.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

Equities

The fair value of each equity security is based on an observable market price for an identical asset in an active market and is priced by the same pricing service discussed above. All equity securities are recorded using unadjusted market prices and have been disclosed in Level 1.

Other Invested Assets

Included in other invested assets are two international funds (“the funds”) that invest in equity securities of foreign issuers and are managed by third party investment managers. The funds had a fair value of \$70.0 million and \$59.0 million at September 30, 2013 and December 31, 2012, respectively, which was determined using each fund’s net asset value. The Company employs procedures to assess the reasonableness of the fair value of the funds including obtaining and reviewing each fund’s audited financial statements. There are no unfunded commitments related to the funds. The Company may not sell its investment in the funds; however, the Company may redeem all or a portion of its investment in the funds at net asset value per share with the appropriate prior written notice. Due to the Company’s ability to redeem its investment in the funds at net asset value per share at the measurement date, the funds have been disclosed in Level 2.

The remainder of the Company’s other invested assets consist primarily of holdings in publicly-traded mutual funds. The Company believes that its prices for these publicly-traded mutual funds based on an observable market price for an identical asset in an active market reflect their fair values and consequently these securities have been disclosed in Level 1.

Transfers out of Level 3	—
Balance at December 31, 2012	\$ 8.5

The following sections describe the valuation methods used by the Company for each type of financial instrument it holds that is not measured at fair value but for which fair value is disclosed:

Financial Instruments Disclosed, But Not Carried, At Fair Value

Other Invested Assets

Included in other invested assets are the Federal Home Loan Bank of Cincinnati (“FHLB”) common stock and the Trust securities. The Trust securities and FHLB common stock are carried at cost, which approximates fair value. The fair value of the FHLB common stock at September 30, 2013 was \$4.5 million and the fair value of the Trust common

securities was \$0.5 million. Both investments have been placed in Level 3 of the fair value hierarchy.

15

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

Notes Receivable from Affiliates

In May 2009, the Company entered into two separate credit agreements with State Auto Mutual pursuant to which it loaned State Auto Mutual a total of \$70.0 million. The Company estimates the fair value of the notes receivable from affiliate using market quotations for U.S. treasury securities with similar maturity dates and applies an appropriate credit spread. Consequently this has been placed in Level 2 of the fair value hierarchy.

(\$ millions, except interest rates)	September 30, 2013			December 31, 2012		
	Carrying value	Fair value	Interest rate	Carrying value	Fair value	Interest rate
Notes receivable from affiliate	\$ 70.0	\$ 75.7	7.00 %	\$ 70.0	\$ 78.3	7.00 %

Notes Payable

Included in notes payable are the FHLB Loan and Subordinated Debentures. The Company estimates the fair value of the FHLB Loan by discounting cash flows using a borrowing rate currently available to the company for a loan with similar terms. This has been placed in Level 3 of the fair value hierarchy. The carrying amount of the Subordinated Debentures approximates its fair value as the interest rate adjusts quarterly and has been disclosed in Level 3.

(\$ millions, except interest rates)	September 30, 2013			December 31, 2012		
	Carrying value	Fair Value	Interest rate	Carrying value	Fair value	Interest rate
FHLB Loan due 2033:, issued \$85.0, July 2013 with fixed interest	\$ 85.3	\$ 91.1	4.59 %	N/A	N/A	N/A
Senior Notes due 2013: issued \$100.0, November 2003 with fixed interest	N/A	N/A	N/A	100.4	100.3	6.25 %
Affiliate Subordinated Debentures due 2033: issued \$15.5, May 2003 with variable interest	15.5	15.5	4.46 %	15.5	15.5	4.51 %
Total notes payable	\$ 100.8	\$ 106.6		\$ 115.9	\$ 115.8	

4. Reinsurance

The insurance subsidiaries of State Auto Financial, including State Auto Property & Casualty Insurance Company (“State Auto P&C”), Milbank Insurance Company and State Auto Insurance Company of Ohio (collectively referred to as the “STFC Pooled Companies”) participate in a quota share reinsurance pooling arrangement (“the Pooling Arrangement”) with State Automobile Mutual Insurance Company (“State Auto Mutual”) and its subsidiaries and affiliates, State Auto Insurance Company of Wisconsin, Meridian Citizens Mutual Insurance Company, Meridian Security Insurance Company, Patrons Mutual Insurance Company of Connecticut (which includes Litchfield Mutual Fire Insurance Company as it was merged with Patrons Mutual at the close of business March 31, 2013), Rockhill Insurance Company (“RIC”), Plaza Insurance Company (“Plaza”), American Compensation Insurance Company (“American Compensation”) and Bloomington Compensation Insurance Company (“Bloomington Compensation”), (collectively referred to as the “Mutual Pooled Companies”).

Losses and loss expenses incurred:				
Assumed from external insurers and reinsurers	\$ 0.9	\$ 1.2	\$ 1.3	\$ 3.1
Assumed under Pooling Arrangement	179.5	201.7	540.1	595.3
Ceded to external insurers and reinsurers	(0.8) (4.5) (4.9) (9.1
Ceded under Pooling Arrangement	(137.8) (133.8) (434.0) (457.6
Net assumed losses and loss expenses incurred	\$ 41.8	\$ 64.6	\$ 102.5	\$ 131.7

5. Notes Payable and Credit Facility

FHLB Loan

On July 11, 2013, State Auto Financial's subsidiary, State Auto P&C, borrowed \$85.0 million (the "FHLB Loan") from the Federal Home Loan Bank of Cincinnati (the "FHLB"). The FHLB Loan is a 20-year term loan and is callable after three years with no prepayment penalty thereafter. The FHLB Loan provides for interest-only payments during its term, with principal due in full at maturity. The interest rate is fixed over the term of the loan at 5.03%. The FHLB Loan is fully secured by a pledge of specific investment securities of State Auto P&C. The total loan interest incurred through September 30, 2013 was \$0.9 million.

Senior Note Redemption

On July 15, 2013, the Company redeemed all \$100.0 million of its outstanding Senior Notes. The redemption price of \$103.0 million was calculated in accordance with the terms of the Senior Notes and included principal plus a make-whole amount. The redemption price was funded by proceeds from the FHLB Loan and cash on hand.

Credit Facility

On July 26, 2013, State Auto Financial terminated its then-current credit agreement with a syndicate of lenders, as further described below. Concurrent with the termination of this credit agreement, State Auto P&C entered into a new credit facility (the "SPC Credit Facility") with a syndicate of lenders. The SPC Credit Facility provides State Auto P&C with a \$100.0 million five-year revolving credit facility maturing in July 2018. During the term of the SPC Credit Facility, State Auto P&C has the right to increase the total facility to a maximum amount of \$150.0 million, provided that no event of default has occurred and is continuing. The SPC Credit Facility is available for general corporate purposes and provides for interest-only payments during its term, with principal and interest due in full at maturity.

Edgar Filing: State Auto Financial CORP - Form 10-Q

Interest is based on the London Interbank Offered Rate ("LIBOR") or a base rate plus a calculated margin amount. All advances under the SPC Credit Facility are to be fully secured by a pledge of specific investment securities of State Auto P&C. The SPC Credit Facility includes certain requirements, including financial requirements that State Auto Financial maintain a minimum net worth and a certain debt to capitalization ratio.

As of September 30, 2013, State Auto P&C had not made any borrowings and both State Auto P&C and the Company were in compliance with all covenants and requirements of the SPC Credit Facility.

6. Income Taxes

The following table sets forth the reconciliation between actual federal income tax expense and the amount computed at the indicated statutory rate for the three and nine months ended September 30, 2013 and 2012:

(\$ millions)	Three months ended				Nine months ended			
	September 30		September 30		September 30		September 30	
	2013	2012	2013	2012	2013	2012	2013	2012
		%		%		%		%
Amount at statutory rate	\$ 6.6	35	\$ (1.9)	35	\$ 15.8	35	\$ (3.6)	35
Tax-exempt interest and dividends received deduction	(2.5)	(13)	(2.3)	41	(7.2)	(16)	(6.7)	65
Other, net	(0.3)	(1)	(0.1)	2	—	—	0.3	(3)
Valuation allowance	(3.6)	(19)	4.2	(75)	(8.0)	(18)	9.9	(96)
Federal income tax expense (benefit) and effective rate	\$ 0.2	2	\$ (0.1)	3	\$ 0.6	1	\$ (0.1)	1

The following table sets forth the tax effects of temporary differences that give rise to significant portions of deferred tax assets and deferred tax liabilities at September 30, 2013 and December 31, 2012:

(\$ millions)	September 30, 2013	December 31, 2012
Deferred tax assets:		
Unearned premiums not currently deductible	\$ 34.8	\$ 33.4
Losses and loss expenses payable discounting	25.5	25.2
Postretirement and pension benefits	35.8	39.4
Realized loss on other-than-temporary impairment	9.3	7.5
Other liabilities	17.1	14.5
Net operating loss carryforward	56.9	66.5
Tax credit carryforward	1.8	0.9
Other	7.6	7.9
Total deferred tax assets	188.8	195.3
Deferred tax liabilities:		
Deferral of policy acquisition costs	34.5	32.1
Net unrealized holding gains on investments	43.8	61.7
Total deferred tax liabilities	78.3	93.8
Total net deferred tax assets before valuation allowance	110.5	101.5
Less valuation allowance	100.5	100.5
Net deferred federal income taxes	\$ 10.0	\$ 1.0

Deferred income tax assets and liabilities represent the tax effect of the differences between the financial statement carrying value of existing assets and liabilities and their respective tax bases. In accordance with the Financial Accounting Standards Board's Accounting Standards Codification 740, Income Taxes (ASC 740), the Company periodically evaluates its deferred tax assets, which requires significant judgment, to determine if they are realizable based upon weighing all available evidence, both positive and negative, including loss carryback potential, past operating results, existence of cumulative losses in the most recent years, projected performance of the business, future taxable income, including the ability to generate capital gains, and prudent and feasible tax planning strategies. In making such judgments, significant weight is given to evidence that can be objectively verified. At both September 30, 2013 and December 31, 2012, the Company recorded a valuation allowance of \$100.5 million, respectively. The deferred income tax asset remaining after recognition of the valuation allowance represents a

deferred tax asset on the gross unrealized fixed maturity losses where management determined this portion of the asset to be realizable due to management's assertion that it has both the ability and intent to hold these securities through recovery or maturity.

18

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

Based on ASC 740 intraperiod tax allocation guidelines, the following sets forth the change in valuation allowance attributable to continuing operations and other comprehensive income for the three and nine months ended September 30, 2013 is as follows:

(\$ millions)	Three months ended		Nine months ended	
	September 30, 2013		September 30, 2013	
Continuing operations	\$ (3.6)	\$ (8.0)
Other comprehensive income	(3.4)	8.0	
Change in valuation allowance	\$ (7.0)	\$ —	

In future periods the Company will re-assess its judgments and assumptions regarding the realization of its net deferred tax assets, but until such time the positive evidence exceeds the negative evidence the Company will maintain a valuation allowance against its net deferred tax assets.

7. Pension and Postretirement Benefit Plans

The following table sets forth the components of net periodic cost for the Company's pension and postretirement benefit plans for the three and nine months ended September 30, 2013 and 2012:

(\$ millions)	Pension				Postretirement			
	Three months ended				Nine months ended			
	September 30		September 30		September 30		September 30	
	2013	2012	2013	2012	2013	2012	2013	2012
Service cost	\$ 1.7	\$ 2.0	\$ 0.1	\$ —	\$ 4.7	\$ 5.8	\$ 0.2	\$ —
Interest cost	2.4	2.5	0.3	0.3	7.2	7.5	0.9	0.9

9. Earnings (Loss) per Common Share

The following table sets forth the compilation of basic and diluted earnings (loss) per common share for the three and nine months ended September 30, 2013 and 2012:

(\$ and shares in millions, except per share amounts)	Three months ended		Nine months ended	
	September 30		September 30	
	2013	2012	2013	2012
Numerator:				
Net income (loss) for basic earnings (loss) per common share	\$ 18.5	\$(5.5)	\$ 44.4	\$(10.2)
Denominator:				
Weighted average shares for basic net earnings (loss) per common share	40.6	40.4	40.5	40.4
Effect of dilutive share-based awards	0.3	—	0.2	—
Adjusted weighted average shares for diluted net earnings (loss) per common share	40.9	40.4	40.7	40.4
Basic net earnings (loss) per common share	\$ 0.46	\$(0.14)	\$ 1.09	\$(0.25)
Diluted net earnings (loss) per common share	\$ 0.45	\$(0.14)	\$ 1.09	\$(0.25)

The following table sets forth the options to purchase shares of common stock and the restricted share units ("RSU award") provided to each outside director of the Company, that were not included in the computation of diluted earnings per common share because the exercise price of the options, or awards, was greater than the average market price or their inclusion would have been antidilutive for the three and nine months ended September 30, 2013 and 2012.

(number of options and awards in millions)	Three months ended		Nine months ended	
	September 30		September 30	
	2013	2012	2013	2012
Number of options	2.1	3.7	2.7	3.7
Number of RSU awards	0.2	—	0.1	—
Total number of antidilutive shares and awards	2.3	3.7	2.8	3.7

10. Segment Information

The Company has four reportable segments: personal insurance, business insurance, specialty insurance and investment operations. The reportable insurance segments are business units managed separately because of the differences in the type of customers they serve, the products they provide or services they offer. The insurance segments market a broad line of property and casualty insurance products throughout the United States through independent insurance agencies, which include retail agents and wholesale brokers. The personal insurance segment provides primarily personal automobile and homeowners to the personal insurance market. The business insurance segment provides primarily commercial automobile, commercial multi-peril, fire & allied and general liability insurance covering small-to-medium sized commercial exposures in the business insurance market. The specialty insurance segment provides commercial coverages, including workers' compensation for both legacy State Auto Group and RTW, Inc.'s insurance subsidiaries, that require specialized product underwriting, claims handling or risk management services through a distribution channel of retail agents and wholesale brokers, which may include program administrators and other specialty sources. The investment operations segment, managed by Stateco, provides investment services.

The Company evaluates the performance of its insurance segments using industry financial measurements based on Statutory Accounting Practices ("SAP"), which include loss and loss adjustment expense ratios, underwriting expense ratios, combined ratios, statutory underwriting gain (loss), net premiums earned and net written premiums. One of the most significant differences between SAP and GAAP is that SAP requires all underwriting expenses to be expensed immediately and not deferred and amortized over the same period the premium is earned.

The accounting for pension benefits also contributes to the difference between our GAAP loss and expense ratios and our SAP loss and expense ratios. At January 1, 2013, we adopted new SAP pension guidance, which required the recognition of service costs for non-vested participants. In accordance with GAAP, service costs related to non-vested participants was recognized over the vesting period.

The investment operations segment is evaluated based on investment returns of assets managed by Stateco. Asset information by segment is not reported for the insurance segments because the Company does not produce such information internally.

As of January 1, 2013 our units within the specialty insurance segment changed from RED, Rockhill and Workers' Compensation to Excess & Surplus Property, Excess & Surplus Casualty, Programs and Workers' Compensation. This change did not have any impact on segment reporting.

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

11. Contingencies and Litigation

In accordance with the Contingencies Topic of the Financial Accounting Standards Board's Accounting Standards Codification, the Company accrues for a litigation-related liability when it is probable that such a liability has been incurred and the amount can be reasonably estimated. The Company reviews all litigation on an ongoing basis when making accrual and disclosure decisions. For certain legal proceedings, the Company cannot reasonably estimate losses or a range of loss, if any, particularly for proceedings that are in their early stages of development or where the plaintiffs seek indeterminate damages. Various factors, including, but not limited to, the outcome of potentially lengthy discovery and the resolution of important factual questions, may need to be determined before probability can be established or before a loss or range of loss can be reasonably estimated. If the loss contingency in question is not both probable and reasonably estimable, the Company does not establish an accrual and the matter will continue to be monitored for any developments that would make the loss contingency both probable and reasonably estimable. Based on currently available information known to the Company, it believes that its reserves for litigation-related liabilities are reasonable. However, in the event that a legal proceeding results in a substantial judgment against, or settlement by, the Company, there can be no assurance that any resulting liability or financial commitment would not have a material adverse effect on the financial condition, results of operations or cash flows of the consolidated financial statements of State Auto Financial Corporation.

The following describes a pending legal proceeding, other than routine litigation incidental to our business, to which State Auto Financial or any of its subsidiaries is a party or to which any of its or their property is subject:

In April 2013, a putative class action lawsuit (Schumacher vs. State Automobile Mutual Insurance Company, et al.) was filed against State Auto Mutual, State Auto Financial and State Auto P&C in Federal District Court in Ohio. Plaintiffs claim that in connection with the homeowners policies of various State Auto companies, the coverage limits and premiums were improperly increased as a result of an insurance to value ("ITV") program and Plaintiffs allege that they purchased coverage in excess of that which was necessary to insure them in the event of loss. Plaintiffs' claims include breach of good faith and fair dealing, negligent misrepresentation and fraud, violation of the Ohio Deceptive Trade Practices Act, and fraudulent inducement. Plaintiffs are seeking class certification and compensatory and punitive damages to be determined by the court. The Company intends to deny any and all liability to plaintiffs or the alleged class and to vigorously defend this lawsuit.

The Company is involved in other lawsuits arising in the ordinary course of our business operations arising out of or otherwise related to our insurance policies. Additionally, from time to time the Company may be involved in lawsuits arising in the ordinary course of business but not arising out of or otherwise related to its insurance policies. These lawsuits are in various stages of development. The Company generally will contest these matters vigorously but may pursue settlement if appropriate. Based on currently available information, the Company does not believe it is reasonably possible that any such lawsuit or related lawsuits will be material to its results of operations or have a material adverse effect on its consolidated financial or cash flow positions.

Additionally, the Company may be impacted by adverse regulatory actions and adverse court decisions where insurance coverages are expanded beyond the scope originally contemplated in its insurance policies. The Company believes that the effects, if any, of such regulatory actions and published court decisions are not likely to have a material adverse effect on its financial or cash flow position.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

The term "State Auto Financial" as used below refers only to State Auto Financial Corporation and the terms "our Company," "we," "us," and "our" as used below refer to State Auto Financial Corporation and its consolidated subsidiaries.

The term "third quarter" as used below refers to the three months ended September 30, for the time period then ended.

For a glossary of terms for State Auto Financial Corporation and its subsidiaries and affiliates and a glossary of selected insurance and accounting terms, see the section entitled "Important Defined Terms Used in this Form 10-K" included in our Annual Report on Form 10-K for the year ended December 31, 2012 (the "2012 Form 10-K").

The discussion and analysis presented below relates to the material changes in financial condition and results of operations for our consolidated balance sheets as of September 30, 2013 and December 31, 2012, and for the consolidated statements of income for the three and nine month periods ended September 30, 2013 and 2012. This discussion and analysis should be read together with "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in the 2012 Form 10-K, and in particular the discussions in those sections thereof entitled "Overview," "Executive Summary" and "Critical Accounting Policies." Readers are encouraged to review the entire 2012 Form 10-K, as it includes information regarding our Company not discussed in this Form 10-Q. This information will assist in your understanding of the discussion of our current period financial results.

The discussion and analysis presented below includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements generally can be identified by the use of forward-looking terminology such as "may," "will," "expect," "intend," "estimate," "anticipate," "project," "believe" or "continue" or the negative thereof or variations thereon or similar terminology.

Forward-looking statements speak only as of the date the statements were made. Although we believe that the expectations reflected in forward-looking statements have a reasonable basis, we can give no assurance that these expectations will prove to be correct. Forward-looking statements are subject to risks and uncertainties that could cause actual events or results to differ materially from those expressed in or implied by the statements. For a discussion of the most significant risks and uncertainties that could cause our actual results to differ materially from those projected, see "Risk Factors" in Item 1A of the 2012 Form 10-K, updated by Part II, Item 1A of this Form 10-Q. Except to the limited extent required by applicable law, we undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The Company has four reportable segments: personal insurance, business insurance, specialty insurance and investment operations. The reportable insurance segments are business units managed separately because of the differences in the type of customers they serve or products they provide or services they offer. The insurance segments market a broad line of property and casualty insurance products throughout the United States through independent insurance agencies, which include retail agents and wholesale brokers. The personal insurance segment provides primarily personal automobile and homeowners to the personal insurance market. The business insurance segment provides primarily commercial automobile, commercial multi-peril, fire & allied and general liability insurance covering small-to-medium sized commercial exposures in the business insurance market. Effective January 1, 2013, the units within the specialty insurance segment changed from the three units of RED, Rockhill and Workers' Compensation to the four units of Excess & Surplus property, Excess & Surplus casualty, Programs and Workers' compensation. The specialty insurance segment provides commercial coverages that require specialized product underwriting, claims handling or risk management services through a distribution channel of retail agents and wholesale brokers, which may include program administrators and other specialty sources. The investment operations segment, managed by Stateco, provides investment services. See "Personal and Business Insurance" and "Specialty Insurance" in Item 1 of the 2012 Form 10-K for more information about our insurance segments. Financial information about our reportable segments for 2013 is set forth in Note 10 of our condensed consolidated financial statements included in Item 1 of this Form 10-Q.

POOLING ARRANGEMENT

The STFC Pooled Companies and the Mutual Pooled Companies participate in a quota share reinsurance pooling arrangement referred to as the “Pooling Arrangement.” Under the Pooling Arrangement, State Auto Mutual assumes premiums, losses and expenses from each of the Pooled Companies and in turn cedes to each of the Pooled Companies a specified portion of premiums, losses and expenses based on each of the Pooled Companies’ respective pooling percentages. State Auto Mutual then retains the balance of the pooled business.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

The following table sets forth the participants and their participation percentages in the Pooling Arrangement since January 1, 2012:

STFC Pooled Companies:

State Auto P&C	51.0	%
Milbank	14.0	
SA Ohio	—	
Total STFC Pooled Companies	65.0	

State Auto Mutual Pooled Companies:

State Auto Mutual	34.0	%
SA Wisconsin	—	
Meridian Security	—	
Meridian Citizens Mutual	0.5	
Patrons Mutual ⁽¹⁾	0.5	
RIC	—	
Plaza	—	
American Compensation	—	
Bloomington Compensation	—	
Total State Auto Mutual Pooled Companies	35.0	

Includes the pooling participation percentage of Litchfield which was merged into Patrons Mutual as of the close (1) of business on March 31, 2013. Litchfield's pooling participation percentage was 0.1% from January 1, 2012 to March 31, 2013

RESULTS OF OPERATIONS

Our net income for the three and nine months ended September 30, 2013 was \$18.5 million and \$44.4 million, respectively, compared to net losses of \$5.5 million and \$10.2 million, respectively, for the same 2012 periods. The improvement for the three and nine months ended September 30, 2013 was primarily due to improved loss experience, both catastrophe and non-catastrophe, when compared to the same 2012 periods. Year over year results have also been favorably impacted by the termination of business previously written through the former RED unit in our specialty insurance segment.

Homeowners Quota Share Arrangement

To reduce risk and volatility in our homeowners book of business, while at the same time providing us with additional catastrophe reinsurance protection, the State Auto Group entered into a quota share reinsurance agreement on December 31, 2011 with a syndicate of unaffiliated reinsurers covering its homeowners book of business (the "HO QS Arrangement"). Under the HO QS Arrangement, the State Auto Group ceded to the reinsurers 75% of its homeowners business under policies in force at December 31, 2011 and new and renewal policies thereafter issued during the term of the agreement. The HO QS Arrangement is in effect until December 31, 2014. See "Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources – Reinsurance Arrangements" in Item 7 of the 2012 Form 10-K for a discussion of the HO QS Arrangement.

The following tables set forth, on a GAAP and pro forma basis, certain of our key performance indicators before and after the impact of the HO QS Arrangement cession for the three and nine months ended September 30, 2013 and 2012.

See additional pro forma reconciliation tables for the HO QS Arrangement cession on our homeowners' line of business at Reconciliation Tables 9-12.

Use of Non-GAAP Financial Measures

In the following discussion of the results of our insurance segments, we sometimes refer to GAAP financial measures in the context of "as reported" and to non-GAAP financial measures in the context of "pro forma." These pro forma, or non-GAAP financial measures, may (i) exclude the impact of the HO QS Arrangement cession for the three and nine months ended September 30, 2013, (ii) exclude the impact of the unearned premium transfer associated with the termination of the umbrella quota share reinsurance agreement for the three and nine months ended September 30, 2012 and (iii) exclude the impact of program business written through our former RED unit, which is in run-off. We believe the use of these non-GAAP financial measures will enable investors to (a) better understand the impact of the reinsurance arrangement cession on our reported results for the three and nine months ended September 30, 2013, and (b) perform a meaningful comparison of our results of operations for the three and nine months ended September 30, 2013 and 2012. We have also included Reconciliation Tables 1 – 20 and Tables 1 – 9 for readers to better understand the use and calculation of these non-GAAP financial measures.

Insurance Segments

The insurance segments market a broad line of property and casualty insurance products throughout the United States through independent insurance agencies, which include retail agents and wholesale brokers. The personal insurance segment provides primarily personal automobile and homeowners coverages to the personal insurance market. The business insurance segment provides primarily commercial automobile, commercial multi-peril, fire & allied and general liability insurance covering small-to-medium sized commercial exposures in the business insurance market.

Effective January 1, 2013, the units within the specialty insurance segment changed from the three units of RED, Rockhill and Workers' Compensation to the four units of Excess & Surplus property, Excess & Surplus casualty, Programs and Workers' compensation. The specialty insurance segment provides commercial coverages requiring specialized product underwriting, claims handling or risk management services through a distribution channel of retail agents and wholesale brokers, which may include program administrators and other specialty sources.

We measure top-line growth for our insurance segments based on net written premiums, which represent the premiums on the policies we have issued for a period, net of reinsurance. Net written premiums provide us with an indication of how well we

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

are doing in terms of revenue growth before it is actually earned. Our policies provide a fixed amount of coverage for a stated period of time, often referred to as “the policy term.” As such, our net written premiums are recognized as earned ratably over the policy term. The unearned portion of net written premiums, called unearned premiums, is reflected on our balance sheet as a liability and represents our obligation to provide coverage for the unexpired term of the policies.

Insurance industry regulators require our insurance subsidiaries to report their financial condition and results of operations using SAP. We use SAP financial results, along with industry standard financial measures determined on a SAP basis and certain measures determined on a GAAP basis, to internally monitor the performance of our insurance segments and reward our employees.

One of the more significant differences between GAAP and SAP is that SAP requires all underwriting expenses to be expensed immediately and not deferred over the same period that the premium is earned. In converting SAP underwriting results to GAAP underwriting results, acquisition costs are deferred and amortized over the periods the related written premiums are earned. For a discussion of deferred acquisition costs, see “Critical Accounting Policies – Deferred Acquisition Costs” section included in Item 7 of our 2012 Form 10-K.

The accounting for pension benefits also contributes to the difference between our GAAP loss and expense ratios and our SAP loss and expense ratios. At January 1, 2013, we adopted new SAP pension guidance, which required the recognition of service costs for non-vested participants. In accordance with GAAP, service costs related to non-vested participants were recognized over the vesting period. See “Critical Accounting Policies – Pension and Postretirement Benefit Obligations” section included in Item 7 of our 2012 Form 10-K.

All references to financial measures or components thereof in this discussion are calculated on a GAAP basis, unless otherwise noted.

The following tables set forth our insurance segments’ SAP underwriting loss and SAP combined ratio for the three and nine months ended September 30, 2013 and 2012:

Personal auto net written premiums for the three and nine months ended September 30, 2013 decreased slightly compared to the same 2012 periods (Table 1). The decrease in premiums was primarily due to actions taken in our homeowners book of business (discussed below), which actions have resulted in a reduction of companion auto policies. The decrease in premiums was partially offset by rate increases and new business growth in states less prone to wind damage.

The personal auto SAP non-catastrophe loss ratio for the three and nine months ended September 30, 2013 increased 3.5 points and 3.3 points, respectively, compared to the same 2012 periods, primarily due to personal injury protection liability losses, higher physical damage loss trends and a few states with unfavorable loss trends (Tables 2 and 3).

While most of our states are performing well, we have implemented remediation plans focused on pricing and agency management actions in Arizona, Colorado, Georgia, Illinois and Michigan to address the unfavorable loss trends.

These five states represent 14% of our personal auto direct written premiums.

Homeowners net written premiums for the three and nine months ended September 30, 2013 increased 2.6% and 5.1%, respectively, compared to the same 2012 periods primarily due to rate increases (Table 1). While our policies in force have decreased, we are collecting more premiums with fewer exposures. We continued to address our rate needs in homeowners by filing rate increases in the first nine months of 2013. The as reported homeowners SAP non-catastrophe loss and ALAE ratio for the three and nine months ended September 30, 2013 improved 0.8 points and 4.4 points, respectively, when compared to the same 2012 periods (Tables 2 and 3). The pro forma homeowners SAP non-catastrophe loss and ALAE ratio for the three and nine months ended September 30, 2013 improved 2.5 points and 5.7 points, respectively, when compared to the same 2012 periods (Reconciliation Tables 9-12). Our SAP non-catastrophe loss and ALAE ratio improved as a result of prior year rate actions emerging in earned premiums and the actions discussed below.

CustomFitSM homeowners: We had previously implemented the use of our by-peril rating approach, CustomFit homeowners, in states that represent approximately 80% of our homeowners' premium and 86% of our five-year wind/hail losses. During 2012, our CustomFit homeowners was operational in 20 of our 28 active states. During 2012,

we developed a second generation CustomFit homeowners product, which enhances our ability to model and price appropriately for non-weather related losses. This second generation of CustomFit homeowners was deployed in two states in late 2012 and we are on target to add two more states in 2013.

Evaluating, monitoring and terminating unprofitable agencies: We are aggressively evaluating and monitoring unprofitable agencies, which includes reviewing existing policies, implementing tighter new business and renewal guidelines and applying other loss mitigation tools. In 2012, we terminated the personal lines relationship with a

37

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

significant number of agencies in our most unprofitable homeowners states and we continue to see the run off of these agencies' business during 2013.

Insurance to value: We continue to focus on insurance to value so that our insureds maintain an amount of coverage sufficient to replace their home and contents in the case of a total loss. Proper insurance to value ensures that our premiums are commensurate with our loss exposure. During 2013, we integrated our insurance to value review with our underwriting workflow. We developed a model that allows us to identify homeowner risks that have a high probability of having insurance to value gaps.

Wind and hail deductibles: We continue to analyze each state's wind and hail deductible, and all peril deductibles, at each annual rate review, making adjustments where necessary. We have implemented mandatory wind and hail deductibles in all targeted catastrophe prone states.

The as reported homeowners catastrophe loss ratio for the three months ended September 30, 2013 increased 15.1 points when compared to the same 2012 period, primarily due to favorable reserve development recorded during the third quarter 2012, the majority of which was attributable to losses incurred prior to the inception of the homeowners quota share arrangement (Table 2).

The following tables set forth, on a SAP and pro forma basis, certain of our key performance indicators for the homeowners' line of business before and after the impact of the HO QS Arrangement cession for the three and nine months ended September 30, 2013 and 2012:

As reported net written premiums for the business insurance segment for the three and nine months ended September 30, 2013 increased 0.9% and 8.4%, respectively, compared to the same 2012 periods (Table 4). Net written premiums for the three and nine months ended September 30, 2012 reflected the impact of the termination of an umbrella quota share reinsurance agreement, effective July 1, 2012. As a result of the termination of this agreement, net written premiums for the three and nine months ended September 30, 2012 included \$7.2 million related to the transfer of unearned premium remaining under the agreement. Excluding the impact of the termination of this umbrella quota share reinsurance agreement, pro forma net written premiums increased 9.4%⁽¹⁾ and 11.5%⁽¹⁾, respectively, for the three and nine months ended 2013. The increase was primarily due to (i) writing larger average premium new business accounts, (ii) achieving price increases in the high single digits, and (iii) experiencing more growth on existing policies due to improved economic conditions.

⁽¹⁾ For the three and nine months ended September 30, 2013 and 2012, respectively, the following table sets forth the reconciliation of as reported net written premiums to pro forma net written premiums that exclude the impact of the unearned premium transferred associated with the termination of the umbrella quota share reinsurance agreement:

(\$ millions)	Three months ended September 30			Nine months ended September 30

Pro forma net written premiums	\$93.4	\$85.4	9.4	\$285.4	\$256.0	11.5

We believe our small accounts are a foundational element of our premium writings and will continue as an important part of our future business plans. Improved efficiency and reduced processing expense will be critical to our success in managing these

42

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

accounts. We believe Business Insurance Evolution (BIE) is an important tool providing automated predictive price models and rules engines as part of our new business and policy renewal process on our smaller accounts. BIE will allow this process to move from being high touch processing (i.e. very manual), to low or in many instances no touch processing. We expect to complete the roll out of BIE during the fourth quarter of 2013. Pricing and policy issuance efficiencies resulting from BIE have met our expectations, and we believe that this will lead to further improvements in our combined ratio. In addition to the financial benefits, we believe the implementation of BIE will result in higher agent satisfaction.

During 2013, BIE has allowed us to shift our underwriting focus from smaller commercial accounts to larger accounts with premiums in excess of \$25,000. Through September 30, 2013 our efforts have resulted in higher policy counts in the \$25,000-\$50,000 premium range and we have seen renewal price increases in accounts with premiums in excess of \$100,000.

The business insurance segment's SAP non-catastrophe loss and ALAE ratio for the three and nine months ended September 30, 2013 was 48.8% and 48.9% , respectively, compared to 52.2% and 50.3%, respectively, for the same 2012 periods (Tables 5 and 6). The improvement has been partially driven by prior period rate increases that we have taken on all lines of business in this segment. For the three months ended September 30, 2013, the commercial auto SAP non-catastrophe loss and ALAE ratio improved 6.4 points compared to the same 2012 period (Table 5) primarily driven by greater favorable development of prior year losses in 2013 compared to prior year favorable development in the same 2012 period. For the three and nine months ended September 30, 2013, the other product and liability non-catastrophe loss and ALAE ratio improved 22.5 points and 7.9 points, respectively, compared to the same 2012 periods (Tables 5 and 6), primarily due to a decrease in the size of large losses.

The business insurance segment's catastrophe loss and ALAE ratio for the nine months ended September 30, 2013 was 7.1% compared to 14.6% for the same 2012 period (Table 6). For the nine months ended September 30, 2013, the fire & allied lines SAP catastrophe loss and ALAE ratio improved 25.4 points (Table 6). The year to date improvement was due to a return to better weather this year, in contrast to the catastrophe losses from a derecho storm system that occurred during the second quarter of 2012, which moved through the Midwest and Mid-Atlantic in late June of that year.

Specialty Insurance Segment

Effective January 1, 2013, our units within the specialty insurance segment changed from the three units of RED, Rockhill and Workers' compensation to the four units of Excess & Surplus property, Excess & Surplus casualty, Programs (which includes the former RED unit) and Workers' compensation. Previously reported financial information has been revised to reflect the effect of the change in units. The following table sets forth the net written premiums by unit for our specialty insurance segment for the three and nine months ended September 30, 2013 and 2012.

As reported net written premiums for the specialty insurance segment for the three and nine months ended September 30, 2013 decreased 10.1% and 7.0%, respectively, compared to the same 2012 periods (Table 7).

Excluding the decrease in net written premiums associated with the run-off of our former RED unit, pro forma net written premiums for the specialty insurance segment for the three and nine months ended September 30, 2013 increased 20.5% and 35.1%, respectively, compared to the same 2012 periods (Reconciliation Tables 13-16). The SAP non-catastrophe loss and ALAE ratio for the specialty insurance segment for the three and nine months ended September 30, 2013 improved 43.6 points and 19.1 points, respectively, compared to the same 2012 periods, primarily due to greater reserve strengthening in 2012 related to our former RED unit.

Net written premiums for the Excess & Surplus property unit for the three and nine months ended September 30, 2013 increased 34.8% and 43.4%, respectively, compared to the same 2012 periods (Table 7) primarily due to increased new business growth, rate increases and premium from a rollover book of business through one of our distribution partners. The year to date growth was also impacted by a favorable property catastrophe reinsurance premium adjustment that occurred during the first quarter of 2013. The SAP non-catastrophe loss and ALAE ratio for the Excess & Surplus property unit for the three months ended September 30, 2013 improved 14.3 points when compared to the same 2012 period (Table 8) primarily due to a revised estimate of a reinsurance recovery associated with a hail loss in the second quarter of 2013.

Net written premiums for the Excess & Surplus casualty unit for the three and nine months ended September 30, 2013 increased 6.2% and 14.3%, respectively, compared to the same 2012 periods (Table 7) primarily due to growth in our Umbrella and General Liability policies. The SAP non-catastrophe loss and ALAE ratio for the Excess & Surplus casualty unit for the three and nine months ended September 30, 2013 increased 3.0 points and 17.1 points, respectively, compared to the same 2012 periods (Tables 8 and 9). The increase for the three months ended September

30, 2013 was primarily driven by one large loss within our surety lines. The increase for the nine months ended September 30, 2013 was primarily driven by greater prior year favorable development in reserves in 2012 compared to the prior year favorable development in reserves in 2013.

For the Programs unit, our strategy is to target small to medium sized programs underwritten by managing general underwriters with proven track records in terms of profitability and distribution. As reported net written premiums for our Programs unit for the three and nine months ended September 30, 2013 decreased 26.8% and 30.7%, respectively, compared to the same 2012 periods (Table 7). Excluding the decrease in net written premiums associated with our former RED unit, the Programs unit pro forma net written premiums increased \$6.8 million and \$31.0 million, respectively (Reconciliation tables 17-20). The growth for the three and nine months ended September 30, 2013 was driven by programs initiated in the second half of 2012. The as reported SAP

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

non-catastrophe loss and ALAE ratio for the Programs unit, for the nine months ended September 30, 2013 improved 24.2 points compared to the same 2012 period primarily due to changes in the mix of programs, as well as, underwriting actions and rate increases initiated in 2012 for the largest program (Table 9). The pro forma SAP non-catastrophe loss and ALAE ratio for the Programs unit, excluding the former RED unit, for the nine months ended September 30, 2013 improved 20.3 points compared to the same 2012 period primarily due to changes in the mix of programs, as well as, underwriting actions and rate increases initiated in 2012 for the largest program (Reconciliation Tables 18 and 20).

The following tables set forth, on a SAP and pro forma basis, certain of our key performance indicators for the Programs unit before and after the impact of our former RED unit's underwriting results for the three and nine months ended September 30, 2013 and 2012:

Our workers' compensation strategy focuses on accounts under \$10,000 and large account debit mod business, which focuses on accounts with higher average losses driven mostly by injuries that impact soft tissue. Net written premiums for our Workers' compensation unit for the three and nine months ended September 30, 2013, remained relatively the same when compared to the same 2012 periods (Table 7). The Workers' compensation unit's SAP non-catastrophe loss and ALAE ratio for the three and nine months ended September 30, 2013 improved 26.8 points and 15.5 points, respectively, when compared to the same 2012 periods (Tables 8 and 9). This improvement was attributable to more favorable development of prior accident years in 2013 as compared to 2012.

Specialty insurance segment:			
Excess & Surplus property	8.1	5.1	3.0
Excess & Surplus casualty	57.9	49.0	8.9
Programs	143.8	152.7	(8.9)
Workers' compensation	150.2	149.1	1.1
Total specialty	360.0	355.9	4.1
Total losses and loss expenses payable net of reinsurance recoverable on losses and loss expenses payable	\$ 941.2	\$ 928.7	\$ 12.5

We conduct quarterly reviews of loss development reports and make judgments in determining the reserves for ultimate losses and loss expenses payable. Several factors are considered by us when estimating ultimate liabilities including consistency in relative case reserve adequacy, consistency in claims settlement practices, recent legal developments, historical data, actuarial projections, accounting projections, exposure changes, anticipated inflation, current business conditions, catastrophe developments, late reported claims, and other reasonableness tests. The risks and uncertainties inherent in our estimates include, but are not limited to, actual settlement experience different from historical data, trends, changes in business and economic conditions, court decisions creating unanticipated liabilities, ongoing interpretation of policy provisions by the courts, inconsistent decisions in lawsuits regarding coverage and additional information discovered before settlement of claims. Our results of operations and financial condition could be impacted, perhaps significantly, in the future if the ultimate payments required to settle claims vary from the liability currently recorded. For a discussion of our reserving methodologies as well as a measure of sensitivity discussion see "Management's Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies – Losses and Loss Expenses Payable" in Item 7 of the 2012 Form 10-K.

Acquisition and Operating Expenses

Our GAAP expense ratios were 34.2 and 33.1 for the three months ended September 30, 2013 and 2012, respectively, and 33.7 and 33.3 for the nine months ended September 30, 2013 and 2012, respectively. Acquisition and operating expenses for the three and nine months ended September 30, 2013 increased \$4.5 million and \$9.1 million, respectively, compared to the same 2012 periods. The increase for the three and nine months ended September 30,

2013, was primarily driven by increases in agent and employee incentive compensation.

Investment Operations Segment

Our investments in fixed maturities, equity securities and certain other invested assets are reported as available-for-sale and carried at fair value. The unrealized holding gains or losses, net of applicable deferred taxes, are included as a separate component of stockholders' equity as accumulated other comprehensive income and as such are not included in the determination of net income.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

We have investment policy guidelines with respect to purchasing fixed maturity investments for our insurance subsidiaries which preclude investments in bonds that are rated below investment grade by a recognized rating service. For the insurance subsidiaries, the maximum investment in any single note or bond is limited to 5.0% or less of statutory assets, other than obligations of the U.S. government or government agencies, for which there is no limit. Our fixed maturity portfolio is composed of high quality, investment grade issues, comprised almost entirely of debt issues rated AAA or AA. We obtain investment ratings from Moody's, Standard & Poor's and Fitch. If there is a split rating, we assign the lowest rating obtained. At September 30, 2013, there were no fixed maturity investments rated below investment grade in our available-for-sale investment portfolio.

For further discussion regarding the management of our investment portfolio, see "Management's Discussion and Analysis of Financial Condition and Results of Operations – Results of Operations – Investment Operations Segment" in Item 7 of the 2012 Form 10-K.

Composition of Investment Portfolio

The following table sets forth the composition of our investment portfolio at carrying value at September 30, 2013 and December 31, 2012:

(\$ millions)	September 30, 2013	% of Total	December 31, 2012	% of Total
Cash and cash equivalents	\$54.3	2.4	\$59.0	2.5
Fixed maturities, at fair value:				
Fixed maturities	1,635.1	71.1	1,674.1	72.0
Treasury inflation-protected securities	209.7	9.1	231.0	9.9
Total fixed maturities	1,844.8	80.2	1,905.1	81.9
Notes receivable from affiliate ⁽¹⁾	70.0	3.0	70.0	3.0
Equity securities, at fair value:				
Large-cap securities	184.6	8.0	174.2	7.5
Small-cap securities	66.5	2.9	54.2	2.3
Total equity securities	251.1	10.9	228.4	9.8
Other invested assets, at fair value:				
International funds	70.0	3.0	59.0	2.6
Other invested assets	6.3	0.3	5.4	0.2
Total other invested assets, at fair value	76.3	3.3	64.4	2.8
Other invested assets, at cost	5.0	0.2	0.5	—
Total portfolio	\$2,301.5	100.0	\$2,327.4	100.0

In May 2009, we entered into two separate Credit Agreements with State Auto Mutual. Under these Credit

⁽¹⁾ Agreements, State Auto Mutual borrowed a total of \$70.0 million from us on an unsecured basis. Interest is payable semi-annually at a fixed annual interest rate of 7.00%. Principal is payable May 2019.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

The following table sets forth the amortized cost and fair value of available-for-sale fixed maturities by contractual maturity at September 30, 2013:

(\$ millions)	Amortized cost	Fair value
Due in 1 year or less	\$ 57.2	\$ 57.9
Due after 1 year through 5 years	367.1	385.8
Due after 5 years through 10 years	374.6	391.6
Due after 10 years	668.6	666.1
U.S. government agencies residential mortgage-backed securities	334.6	343.4
Total	\$ 1,802.1	\$ 1,844.8

Expected maturities may differ from contractual maturities as the issuers may have the right to call or prepay the obligations with or without call or prepayment penalties. The duration of the fixed maturity portfolio was approximately 4.80 and 4.05 as of September 30, 2013 and December 31, 2012, respectively.

Investment Operations Revenue

The following table sets forth the components of net investment income for the three and nine months ended September 30, 2013 and 2012:

(\$ millions)	Three months ended September 30		Nine months ended September 30	
	2013	2012	2013	2012
Gross investment income:				
Fixed maturities	\$ 16.2	\$ 14.7	\$ 48.2	\$ 49.1
Equity securities	1.9	1.5	4.7	3.5
Other	1.3	1.4	4.1	4.1
Total gross investment income	19.4	17.6	57.0	56.7
Less: Investment expenses	0.6	0.4	1.6	1.5
Net investment income	\$ 18.8	\$ 17.2	\$ 55.4	\$ 55.2
Average invested assets (at cost)	\$ 2,122.0	\$ 2,131.4	\$ 2,136.3	\$ 2,180.6
Annualized investment yield	3.5	% 3.2	% 3.5	% 3.4
Annualized investment yield, after tax	2.8	% 2.5	% 2.7	% 2.6
Net investment income, after tax	\$ 14.6	\$ 13.4	\$ 43.1	\$ 42.5
Effective tax rate	22.1	% 21.8	% 22.2	% 22.9

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

The following table sets forth realized gains and the proceeds received on sale for our investment portfolio for the three and nine months ended September 30, 2013:

(\$ in millions)	Three months ended September 30, 2013		Nine months ended September 30, 2013	
	Realized gains (losses)	Proceeds received on sale	Realized gains (losses)	Proceeds received on sale
Realized gains:				
Fixed maturities	\$0.4	\$ 14.4	\$ 1.6	\$ 72.6
Equity securities	7.9	28.6	17.9	69.0
Other invested assets	0.1	0.1	0.1	0.1
Total realized gains	8.4	43.1	19.6	141.7
Realized losses:				
Equity securities:				
Sales	(0.3)	2.5	(1.0)	6.7
OTTI	(0.3)	—	(2.6)	—
Fixed maturities				
Sales	(0.3)	5.2	(0.3)	5.2
Total realized losses	(0.9)	7.7	(3.9)	11.9
Net realized gain on investments	\$ 7.5	\$ 50.8	\$ 15.7	\$ 153.6

During the first nine months of 2013, equity sales were executed for various reasons, including: (i) the achievement of our price target, (ii) in response to changes in business conditions, which in our opinion diminished the future business prospects on these securities, and (iii) in order to manage our equity holdings consistent with our investment objectives.

When a fixed maturity security has been determined to have an other-than-temporary decline in fair value, the impairment charge is separated into an amount representing the credit loss, which is recognized in earnings, and the amount related to non-credit factors, which is recognized in accumulated other comprehensive income. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies – Investments” included in Item 7 of the 2012 Form 10-K for other-than-temporary impairment (“OTTI”) indicators. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income. We did not recognize OTTI on our fixed maturity portfolio for the three and nine months ended September 30, 2013.

When an equity security or other invested asset has been determined to have a decline in fair value that is other-than-temporary, we adjust the cost basis of the security to fair value. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies – Investments” included in Item 7 of the 2012 Form 10-K for OTTI impairment indicators. This results in a charge to earnings as a realized loss, which is not reversed for subsequent recoveries in fair value. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income.

The following table sets forth the realized losses related to OTTI on our investment portfolio recognized for the three and nine months ended September 30, 2013:

(\$ millions, except # of positions)	Three months ended September 30		Nine months ended September 30	
	Number of positions	Total impairment	Number of positions	Total impairment

Equity securities:

Small-cap securities	3	\$(0.3) 19	\$(1.3)
Large-cap securities	—	—	1	(1.3)
Total other-than-temporary impairments	3	\$(0.3) 20	\$(2.6)

Gross Unrealized Investment Gains and Losses

Based upon our review of our investment portfolio at September 30, 2013, we determined that there were no individual investments with an unrealized holding loss that had a fair value significantly below cost continually for more than one year. The following table sets forth detailed information on our available-for-sale investment portfolio by lot at fair value for our gross unrealized holding gains (losses) at September 30, 2013:

(\$ millions, except # of positions)	Cost or amortized cost	Gross unrealized holding gains	Number of gain positions	Gross unrealized holding losses	Number of loss positions	Fair value
Fixed maturities:						
U.S. treasury securities and obligations of U.S. government agencies	\$ 348.9	\$ 18.4	41	\$(3.9)) 24	\$ 363.4
Obligations of states and political subdivisions	791.9	29.8	236	(16.7)) 81	805.0
Corporate securities	326.7	11.6	67	(5.3)) 21	333.0
U.S. government agencies residential mortgage-backed securities	334.6	11.4	90	(2.6)) 27	343.4
Total fixed maturities	1,802.1	71.2	434	(28.5)) 153	1,844.8
Equity securities:						
Large-cap securities	150.5	36.2	35	(2.1)) 6	184.6
Small-cap securities	45.1	21.4	71	—	—	66.5
Total equity securities	195.6	57.6	106	(2.1)) 6	251.1
Other invested assets	49.3	27.0	3	—	—	76.3
Total available-for-sale investments	\$ 2,047.0	\$ 155.8	543	\$(30.6)) 159	\$ 2,172.2

The following table sets forth our unrealized holding gains by investment type, net of deferred tax that was included as a component of accumulated comprehensive income (loss) at September 30, 2013 and December 31, 2012, and the change in unrealized holding gains, net of deferred tax, for the nine months ended September 30, 2013:

(\$ millions)	September 30, 2013	December 31, 2012	\$ Change
Available-for-sale investments:			
Unrealized holding gains:			
Fixed maturities	\$ 42.7	\$ 128.9	(86.2)
Equity securities	55.5	32.2	23.3
Other invested assets	27.0	15.4	11.6
Unrealized gains	125.2	176.5	(51.3)
Net deferred federal income tax liability (less valuation allowance)	(43.5)) (52.5)) 9.0
Unrealized gains, net of tax	\$ 81.7	\$ 124.0	(42.3)

Fair Value Measurements

We primarily use one independent nationally recognized pricing service in developing fair value estimates. We obtain one price per security, and our processes and control procedures are designed to ensure the value is accurately recorded on an unadjusted basis. Through discussions with the pricing service, we gain an understanding of the methodologies used to price the different types of securities, that the data and the valuation methods utilized are appropriate and consistently applied, and that the assumptions are reasonable and representative of fair value. To validate the reasonableness of the valuations obtained from the pricing service, we compare to other fair value pricing information gathered from other independent pricing sources. See Note 3, "Fair Value of Financial Instruments" to our

condensed consolidated financial statements included in Item 1 of this Form 10-Q for a presentation of our available-for-sale investments within the fair value hierarchy at September 30, 2013 and December 31, 2012. As of September 30, 2013, Level 3 assets as a percentage of total assets were 0.4% which we have determined to be insignificant.

Other Items

Income Taxes

Deferred income tax assets and liabilities represent the tax effect of the differences between the financial statement carrying value of existing assets and liabilities and their respective tax bases. In accordance with the Financial Accounting Standards Board's Accounting Standards Codification 740, Income Taxes (ASC 740), we periodically evaluate our deferred tax assets, which requires significant judgment, to determine if they are realizable based upon weighing all available evidence, both positive and negative, including our historical and anticipated future taxable income. In making such judgments, significant weight is given to evidence that can be objectively verified. The following table sets forth the components of our federal income tax expense for the three and nine months ended September 30, 2013 and 2012, respectively.

(\$ millions)	Three months ended		Nine months ended	
	September 30		September 30	
	2013	2012	2013	2012
Income (loss) before federal income taxes	\$ 18.7	\$ (5.6) \$ 45.0	\$ (10.3
Current tax expense (benefit)	0.2	(0.1) 0.6	(0.1
Deferred tax expense (benefit)	3.6	(4.2) 8.0	(9.9
	3.8	(4.3) 8.6	(10.0
Valuation allowance	(3.6) 4.2	(8.0) 9.9
Total federal income tax expense (benefit)	0.2	(0.1) 0.6	(0.1
Net income (loss)	\$ 18.5	\$ (5.5) \$ 44.4	\$ (10.2

During the three and nine months ended September 30, 2013, we recorded current tax expense in the income statement of \$0.2 million and \$0.6 million, respectively, related to the Alternative Minimum Tax (AMT). AMT is an alternative tax system whereby we calculate our tax and if it is greater than regular tax, we provide for the AMT. In our case during these periods, while we had both regular tax and AMT tax net operating loss carryforwards, the Internal Revenue Code only allows for a 90% offset of the AMT obligation; whereas, the Internal Revenue Code allows for an 100% offset of the regular tax obligation. This resulted in recording a current tax provision. The deferred tax benefit for the AMT was offset by the tax valuation allowance, which resulted in a net tax provision for the quarter and nine months then ended.

In future periods we will re-assess our judgments and assumptions regarding the realization of our net deferred tax assets, but until such time as the positive evidence exceeds the negative evidence we will maintain a valuation allowance against our net deferred tax assets.

Based on ASC 740 intraperiod tax allocation guidelines, the following sets forth the change in valuation allowance attributable to continuing operations and other comprehensive income for the three and nine months ended September 30, 2013 is as follows:

(\$ millions)	Three months ended		Nine months ended	
	September 30		September 30	
Continuing operations	\$ (3.6)	\$ (8.0)
Other comprehensive income	(3.4)	8.0)
Change in valuation allowance	\$ (7.0)	\$ —)

See Note 6 of our condensed consolidated financial statements included in Item 1 of this Form 10-Q.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

LIQUIDITY AND CAPITAL RESOURCES

General

Liquidity refers to our ability to generate adequate amounts of cash to meet our short- and long-term needs. Our primary sources of cash are premiums, investment income, investment sales and the maturity of fixed income security investments. The significant outflows of cash are payments of claims, commissions, premium taxes, operating expenses, income taxes, dividends, interest and principal payments on debt and investment purchases. The cash outflows may vary due to uncertainties regarding settlement of large losses or catastrophe events. As a result, we continually monitor our investment and reinsurance programs to ensure they are appropriately structured to enable the insurance subsidiaries to meet anticipated short- and long-term cash requirements without the need to sell investments to meet fluctuations in claim payments.

Liquidity

Our insurance subsidiaries must have adequate liquidity to ensure that their cash obligations are met. However, the STFC Pooled Companies do not have the daily liquidity concerns normally associated with an insurance company due to their participation in, and the terms of, the Pooling Arrangement. Under the terms of the Pooling Arrangement, State Auto Mutual receives all premiums and pays all losses and expenses associated with the insurance business produced by the STFC Pooled Companies and the other pool participants, and then it settles the intercompany balances generated by these transactions with the pool participants within 60 days following each quarter end. We believe this provides State Auto Mutual with sufficient liquidity to pay losses and expenses of our insurance operations on a timely basis. When settling the intercompany balances, State Auto Mutual provides the pool participants with full credit for the premiums written net of losses paid during the quarter, retaining all receivable amounts from insureds and agents and reinsurance recoverable on paid losses from unaffiliated reinsurers. Any receivable amounts that are ultimately deemed to be uncollectible are charged-off by State Auto Mutual and allocated to the pool participant on the basis of its pooling percentage. As a result, we have an off-balance sheet credit risk related to the balances due to State Auto Mutual from insureds, agents and reinsurers, which are offset by the unearned premiums from the respective policies. While the total amount due to State Auto Mutual from policyholders and agents is significant, the individual amounts due are relatively small at the policyholder and agency level. Based on historical data, this credit risk exposure is not considered to be material to our financial position, though the impact to income on a quarterly basis may be material. The State Auto Group mitigates its exposure to this credit risk through its in-house collections unit for both personal and commercial accounts which is supplemented by third party collection service providers. The amounts deemed uncollectible by State Auto Mutual and allocated to the STFC Pooled Companies are included in the other expenses line item in the accompanying consolidated statements of income.

We generally manage our cash flows through current operational activity and maturing investments, without a need to liquidate any of our other investments; however, should our written premiums decline or paid losses increase significantly, or a combination thereof, we may need to liquidate investments at losses in order to meet our cash obligations. This action was not necessary for the three and nine months ended September 30, 2013.

We maintain a portion of our investment portfolio in relatively short-term and highly liquid investments to ensure the immediate availability of funds to pay claims and expenses. At September 30, 2013 and December 31, 2012, we had \$54.3 million and \$59.0 million, respectively, in cash and cash equivalents, and \$2,172.2 million and \$2,197.9 million, respectively, of total available-for-sale investments. Included in our fixed maturities available-for-sale were \$8.6 and \$10.0 million of securities on deposit with insurance regulators as required by law at September 30, 2013 and December 31, 2012, respectively; in addition, substantially all of our fixed maturity and equity securities are traded on public markets. For a further discussion regarding investments, see "Investments Operations Segment" included in this Item 2.

Net cash provided by operating activities was \$37.7 million for the first nine months of 2013 compared to net cash used in operating activities of \$308.5 million for the first nine months of 2012. Net cash from operations will vary from period to period if there are significant changes in underwriting results, primarily a combination of the level of premiums written and loss and loss expenses paid, changes in cash flows from investment income or federal income tax activity. The majority of the change between periods was primarily due to our settlement payment of \$261.4 million related to the 12.31.11 pool change and our payment of \$75.5 million related to our share of the State Auto Group's initial net unearned premium transfer under the HO QS Arrangement, both of which occurred in 2012.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Net cash used in investing activities was \$17.0 million for the first nine months of 2013 compared to net cash provided by investing activities of \$34.0 million for the first nine months of 2012. The change can generally be attributed to less sales proceeds from available for sale securities in the first nine months of 2013 when compared to the first nine months of 2012, as well as, a lower level of call activity during the first nine months of 2013 compared to the same 2012 period.

Net cash used in financing activities was \$25.4 million and \$17.3 million for the first nine months of 2013 and 2012, respectively. The decrease was due to the repayment of the outstanding Senior Notes during the first nine months of 2013 compared to the same 2012 period, offset by a lower dividend payment in the first nine months of 2013 compared to the same 2012 period.

Borrowing Arrangements

Credit Facility

On July 26, 2013, State Auto Financial terminated its then-current credit agreement with a syndicate of lenders, as further described below. Concurrently with the termination of this credit agreement, State Auto P&C entered into a new credit facility (the "SPC Credit Facility") with a syndicate of lenders. The SPC Credit Facility provides State Auto P&C with a \$100.0 million five-year revolving credit facility maturing in July 2018. During the term of the SPC Credit Facility, State Auto P&C has the right to increase the total facility to a maximum amount of \$150.0 million, provided that no event of default has occurred and is continuing. The SPC Credit Facility is available for general corporate purposes and provides for interest-only payments during its term, with principal and interest due in full at maturity. Interest is based on LIBOR or a base rate plus a calculated margin amount. All advances under the SPC Credit Facility are to be fully secured by a pledge of specific investment securities of State Auto P&C. The SPC Credit Facility includes certain covenants and requirements, including financial requirements that State Auto Financial maintain a minimum net worth and a certain debt to capitalization ratio. As of September 30, 2013, State Auto P&C had not made any borrowings under the SPC Credit Facility and State Auto P&C and State Auto Financial were in compliance with all covenants and requirements of the SPC Credit Facility.

Prior to July 26, 2013, State Auto Financial had a \$100.0 million unsecured revolving credit facility with a syndicate of lenders which was to mature in September 2016 (the "STFC Credit Facility"). The STFC Credit Facility was terminated on July 26, 2013, and replaced with the SPC Credit Facility, as described above. The STFC Credit Facility was available for general corporate purposes and provided for interest-only payments during its term. Principal and interest was to be due in full at maturity. Interest was based on LIBOR or a base rate plus a calculated margin amount. The STFC Credit Facility included certain covenants, including financial covenants that required us to maintain a minimum net worth and not exceed a certain debt to capitalization ratio.

FHLB Loan

On July 11, 2013, State Auto P&C obtained a loan (the "FHLB Loan") from the Federal Home Loan Bank of Cincinnati (the "FHLB"). State Auto P&C became a member of the FHLB during the first quarter of 2013. The FHLB Loan is a 20-year term loan, callable after three years with no prepayment penalty thereafter, in the principal amount of \$85.0 million. The FHLB Loan provides for interest-only payments during its term, with principal due in full at maturity. The interest rate is fixed over the term of the loan at 5.03%. The FHLB Loan is fully secured by a pledge of specific investment securities of State Auto P&C. Proceeds from the FHLB Loan, along with cash on hand, were used by State Auto Financial to redeem all of its outstanding Senior Notes, as further described below.

Senior Notes

On July 15, 2013, State Auto Financial completed the redemption of all of its outstanding \$100.0 million 6.25% Senior Notes due November 2013. The total redemption price paid by State Auto Financial was \$103.0 million, which included interest through the redemption date and a make-whole amount due to the Senior Notes being redeemed prior to their November 15, 2013 maturity date. The redemption price was funded by proceeds from the FHLB Loan and cash on hand.

The Senior Notes were general unsecured obligations ranking senior to all existing and future subordinated indebtedness and equal with all existing and future senior indebtedness. The Senior Notes were not guaranteed by State Auto Financial or any of its subsidiaries.

Subordinated Debentures

State Auto Financial's Delaware business trust subsidiary (the "Capital Trust") has outstanding \$15.0 million liquidation amount of capital securities, due 2033. In connection with the Capital Trust's issuance of the capital securities and the related purchase by State Auto Financial of all of the Capital Trust's common securities (liquidation amount of \$0.5 million), State Auto

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Financial has issued to the Capital Trust \$15.5 million aggregate principal amount of unsecured Floating Rate Junior Subordinated Debt Securities due 2033 (the “Subordinated Debentures”). The sole assets of the Capital Trust are the Subordinated Debentures and any interest accrued thereon. Interest on the Capital Trust’s capital and common securities is payable quarterly at a rate equal to the three-month LIBOR rate plus 4.20%, adjusted quarterly. The applicable interest rates for September 30, 2013 and 2012 were 4.46% and 4.62%, respectively.

Reinsurance Arrangements

Members of the State Auto Group follow the customary industry practice of reinsuring a portion of their exposures and paying to the reinsurers a portion of the premiums received. Insurance is ceded principally to reduce net liability on individual risks or for individual loss occurrences, including catastrophic losses. Although reinsurance does not legally discharge the individual members of the State Auto Group from primary liability for the full amount of limits applicable under their policies, it does make the assuming reinsurer liable to the extent of the reinsurance ceded. To minimize the risk of reinsurer default, the State Auto Group cedes only to third-party reinsurers who are rated A- or better by A.M. Best or Standard and Poor’s and also utilizes both domestic and international markets to diversify its credit risk. We utilize reinsurance to limit our loss exposure and contribute to our liquidity and capital resources.

Other Reinsurance Arrangements

Each member of the State Auto Group is party to working reinsurance treaties for casualty, workers’ compensation and property lines with several reinsurers arranged through reinsurance intermediaries. These agreements are described in more detail below. We have also secured other reinsurance to limit the net cost of large loss events for certain types of coverage. The State Auto Group also makes use of facultative reinsurance for unique risk situations. The State Auto Group also participates in state insurance pools and associations. In general, these pools and associations are state sponsored and/or operated, impose mandatory participation by insurers doing business in that state, and offer coverage for hard-to-place risks at premium rates established by the state sponsor or operator, thereby transferring risk of loss to the participating insurers in exchange for premiums which may not be commensurate with the risk assumed.

Property Catastrophe

Members of the State Auto Group maintain a property catastrophe excess of loss reinsurance agreement, covering property catastrophe related events affecting at least two risks. As of June 1, 2013, this property catastrophe reinsurance agreement was revised to increase the treaty limit. Under this agreement, the State Auto Group retains the first \$55.0 million of catastrophe loss, each occurrence, with a 5.0% co-participation on the next \$265.0 million (previously \$245.0 million) of covered loss, each occurrence. The reinsurers are responsible for 95% of the excess over \$55.0 million up to \$320.0 million (previously \$300.0 million) of covered losses, each occurrence. Under this agreement, our companies are responsible for losses above \$320.0 million (previously \$300.0 million).

The State Auto Group also maintains a separate property catastrophe excess of loss reinsurance agreement covering Excess & Surplus property and Programs catastrophe related events affecting at least two risks. Under this agreement, the State Auto Group retains the first \$15.0 million of catastrophe loss, each occurrence, and the reinsurers are responsible for 100% of the excess over \$15.0 million up to \$55.0 million of covered loss, each occurrence. The rates for this reinsurance are negotiated annually.

Property per Risk

At June 1, 2013, the State Auto Group renewed the July 1, 2012 property per risk excess of loss reinsurance agreement, aligning its effective date with that of our property catastrophe treaty. This reinsurance agreement provides that the State Auto Group is responsible for the first \$1.0 million of each covered loss for Excess & Surplus property and Programs, and the first \$3.0 million of each covered loss for other property business. The State Auto Group is also responsible for an additional \$2.0 million in aggregate retention per treaty year for losses exceeding \$3.0 million. The reinsurers are responsible for 100.0% of the loss in excess of \$1.0 million for the Excess and Surplus property and Programs business and \$3.0 million for other property business up to \$20.0 million of covered loss. The rates for this reinsurance are negotiated annually.

For Excess & Surplus property policies, the State Auto Group also maintains a property Surplus share agreement for wind-only insurance products. This agreement provides for a proportional share of losses on all coastal wind policies written with limits greater than \$5.0 million and up to \$10.0 million of covered loss and all non coastal wind policies written with limits greater than \$10.0 million and up to \$16.0 million of covered loss. The reinsurers' limit cannot exceed more than \$5.0 million on any one risk.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Casualty and Workers' Compensation

As of July 1, 2013, the State Auto Group renewed our casualty excess of loss reinsurance agreement. Under this agreement, the State Auto Group is responsible for the first \$1.0 million of workers compensation losses, each loss occurrence, subject to an additional \$1.0 million in annual aggregate retention, and \$2.0 million of losses that involve auto liability, other liability and umbrella liability policies. The reinsurance agreement provides coverage up to \$10.0 million. Excess & Surplus casualty and Programs risks are not subject to this casualty excess of loss reinsurance agreement.

Also, certain unusual claim situations involving bodily injury liability, property damage, uninsured motorist and personal injury protection are covered by an arrangement that provides for \$30.0 million of coverage in excess of \$10.0 million retention for each loss occurrence. This reinsurance sits above the \$8.0 million excess of \$2.0 million arrangement. The rates for this reinsurance are negotiated annually. Policies underwritten by Excess & Surplus casualty and Programs are not subject to this casualty excess of loss reinsurance agreement.

In addition to the workers' compensation reinsurance described above, each company in the State Auto Group is party to a workers' compensation catastrophe reinsurance agreement that provides additional reinsurance coverage for workers' compensation losses involving multiple workers. Subject to \$10.0 million of retention, reinsurers are responsible for 100% of the excess over \$10.0 million up to \$30.0 million of covered loss. For loss amounts over \$30.0 million, the casualty excess of loss reinsurance agreement provides \$20.0 million coverage in excess of \$30.0 million. Workers' compensation catastrophe coverage is subject to a "Maximum Any One Life" limitation of \$10.0 million. This limitation means that losses associated with each worker may contribute no more than \$10.0 million to covered loss under these agreements. The rates for the workers' compensation catastrophe reinsurance agreement are negotiated annually.

For Excess & Surplus casualty and Programs risks, the State Auto Group has a combined casualty treaty whereby we retain the first \$1.0 million of covered loss and the reinsurers are responsible for 90.0% (previously 87.0%) of loss in excess of \$1.0 million up to \$6.0 million. For losses arising out of its environmental, healthcare, management and professional, and umbrella product lines, this treaty also covers 100.0% of up to \$5.0 million in loss in excess of \$6.0. The rates for this reinsurance are negotiated annually.

For a discussion of our reinsurance arrangements see "Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources – Reinsurance Arrangements" in Item 7 of the 2012 Form 10-K. There have been no material changes in these other reinsurance arrangements since December 31, 2012.

Regulatory Considerations

At September 30, 2013, all of our insurance subsidiaries were in compliance with statutory requirements relating to capital adequacy.

Credit and Financial Strength Ratings

On May 8, 2013, A.M. Best Co. affirmed the State Auto Group's financial strength rating of A (Excellent) and revised its outlook from "stable" to "negative."

ADOPTION OF RECENT ACCOUNTING PRONOUNCEMENTS

Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income

The amendments in this guidance result in additional disclosure requirements under GAAP and do not change the current requirements for reporting net income or other comprehensive income in financial statements. The new guidance requires an entity to present, either in a single note, or, parenthetically on the face of the statement where net income is presented, the effects of significant amounts reclassified from each component of accumulated other comprehensive income by the respective line items of net income, only, if the amount reclassified is required under GAAP to be reclassified to net income in its entirety in the same reporting period. If a component is not required to be

reclassified to net income in its entirety, the entity would, instead, cross-reference it to the related disclosure required under GAAP. This guidance is effective prospectively for fiscal years and interim periods beginning after December 15, 2012. We adopted this guidance at January 1, 2013, and it did not have a material impact on the condensed consolidated financial statements.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

With the participation of our principal executive officer and principal financial officer, our management has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), as of the end of the period covered by this report. Based upon that evaluation, our principal executive officer and principal financial officer have concluded that, as of the end of the period covered by this report:

- Information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded,
1. processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission;
 2. accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure; and
 3. Our disclosure controls and procedures are effective in timely making known to them material information required to be included in our periodic filings with the Securities and Exchange Commission.

Changes in Internal Control over Financial Reporting

There has been no change in our internal controls over financial reporting that occurred during the most recent fiscal quarter that has materially affected, nor is it likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

The following describes a pending legal proceeding, other than routine litigation incidental to our business, to which State Auto Financial or any of its subsidiaries is a party or to which any of its or their property is subject:

In April 2013, a putative class action lawsuit (Schumacher vs. State Automobile Mutual Insurance Company, et al.) was filed against State Auto Mutual, State Auto Financial and State Auto P&C in Federal District Court in Ohio. Plaintiffs claim that in connection with the homeowners policies of various State Auto companies, the coverage limits and premiums were improperly increased as a result of an insurance to value (“ITV”) program and Plaintiffs allege that they purchased coverage in excess of that which was necessary to insure them in the event of loss. Plaintiffs’ claims include breach of good faith and fair dealing, negligent misrepresentation and fraud, violation of the Ohio Deceptive Trade Practices Act, and fraudulent inducement. Plaintiffs are seeking class certification and compensatory and punitive damages to be determined by the court. The Company intends to deny any and all liability to plaintiffs or the alleged class and to vigorously defend this lawsuit.

We are involved in other lawsuits arising in the ordinary course of our business operations arising out of or otherwise related to our insurance policies. Additionally, from time to time we may be involved in lawsuits arising in the ordinary course of business but not arising out of or otherwise related to its insurance policies. These lawsuits are in various stages of development. We generally contest these matters vigorously but may pursue settlement if appropriate. Based on currently available information, we do not believe it is reasonably possible that any such lawsuit or related lawsuits will be material to our results of operations or have a material adverse effect on our consolidated financial or cash flow positions.

Additionally, we may be impacted by adverse regulatory actions and adverse court decisions where insurance coverages are expanded beyond the scope originally contemplated in our insurance policies. We believe that the effects, if any, of such regulatory actions and published court decisions are not likely to have a material adverse effect on our financial or cash flow position.

In accordance with the Contingencies Topic of the FASB ASC, we accrue for a litigation-related liability when it is probable that such a liability has been incurred and the amount can be reasonably estimated. We review all litigation on an ongoing basis when making accrual and disclosure decisions. For certain legal proceedings, we cannot reasonably estimate losses or a range of loss, if any, particularly for proceedings that are in their early stages of development or where the plaintiffs seek indeterminate damages. Various factors, including, but not limited to, the outcome of potentially lengthy discovery and the resolution of important factual questions, may need to be determined before probability can be established or before a loss or range of loss can be reasonably estimated. If the loss contingency in question is not both probable and reasonably estimable, we do not establish an accrual and the matter will continue to be monitored for any developments that would make the loss contingency both probable and reasonably estimable. Based on currently available information known to us, we believe that our reserves for litigation-related liabilities are reasonable. However, in the event that a legal proceeding results in a substantial judgment against, or settlement by, us, there can be no assurance that any resulting liability or financial commitment would not have a material adverse effect on the financial condition, results of operations or cash flows of the consolidated financial statements of State Auto Financial Corporation.

Item 1A. Risk Factors

There have been no material changes in our risk factors from those disclosed in the 2012 Form 10-K under Part I, Item 1A – Risk Factors.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures
