UNITED STATES SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D. C. 20549

FORM 10-Q
QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF
1934

For the quarterly period ended September 30, 2017

or
TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF
1934

For the transition period from _____ to _____
Commission file number 1-6402-1

SERVICE CORPORATION INTERNATIONAL
(Exact name of registrant as specified in its charter)

Texas 74-1488375
(State or other jurisdiction of incorporation or organization) (I. R. S. employer identification number)

1929 Allen Parkway, Houston, Texas 77019
(Address of principal executive offices) (Zip code)

713-522-5141
(Registrant's telephone number, including area code)

None
(Former name, former address, or former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company Emerging growth company
(Do not check if smaller reporting company)

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Edgar Filing: SERVICE CORP INTERNATIONAL - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act).

YES NO

The number of shares outstanding of the registrant's common stock as of October 25, 2017 was 187,470,180 (net of treasury shares).

GLOSSARY

The following terms are common to the deathcare industry, are used throughout this report, and have the following meanings:

Atneed — Funeral, including cremation, and cemetery arrangements sold once death has occurred.

Burial Vault — A reinforced container intended to inhibit the subsidence of the earth and house the casket after it is placed in the ground, also known as outer burial containers.

Cancellation — Termination of a preneed contract, which relieves us of the obligation to provide the goods and services included in the contract. Cancellations may be requested by the customer or be initiated by us for failure to comply with the contractual terms of payment. State or provincial laws govern the amount of refund, if any, owed to the customer.

Care Trust Corpus — The deposits and net realized capital gains and losses included in a perpetual care trust that cannot be withdrawn. In certain states, some or all of the net realized capital gains can be distributed, so they are not included in the corpus.

Cemetery Perpetual Care or Endowment Care Fund (ECF) — A trust fund established for the purpose of maintaining cemetery grounds and property into perpetuity, also referred to as a cemetery perpetual care trust. For these trusts, the corpus remains in the trust in perpetuity and the net ordinary investment earnings are distributed to us regularly and are intended to defray our expenses incurred to maintain the cemetery. In certain states, some or all of the net realized capital gains can also be distributed.

Cemetery Property — Developed lots, lawn crypts, mausoleum spaces, niches, and cremation memorialization property items (constructed and ready to accept interments) and undeveloped land we intend to develop for the sale of interment rights. Includes the construction-in-progress balance during the pre-construction and construction phases of projects creating new developed property items.

Cemetery Property Amortization — The non-cash recognized expenses of cemetery property interment rights, which are recorded by specific identification with the cemetery property revenue for each contract.

Cemetery Property Revenue — Recognized sales of interment rights in cemetery property when a minimum of 10% of the sales price has been collected and the property has been constructed and is available for interment.

Cemetery Merchandise and Services — Stone and bronze memorials, markers, burial vaults, floral placement, graveside services, merchandise installations, urns, outer burial containers, and burial interments.

Cremation — The reduction of human remains to bone fragments by intense heat.

Cremation Memorialization — Products specifically designed to commemorate and honor the life of an individual that has been cremated. These products include cemetery property inventory types that provide for the disposition of cremated remains within our cemeteries such as benches, boulders, statues, etc. They also include memorial walls and books where the name of the individual is inscribed but the remains have been scattered or kept by the family.

Funeral Merchandise and Services — Merchandise such as burial caskets and related accessories, burial vaults, urns and other cremation receptacles, casket and cremation memorialization products, and flowers and professional services relating to funerals including arranging and directing services, use of funeral facilities and motor vehicles, removal, preparation, embalming, cremations, memorialization, visitations, and catering.

Funeral Recognized Preneed Revenue — Funeral merchandise and travel protection sold on a preneed contract and delivered before a death has occurred.

Funeral Services Performed — The number of funeral services, including cremations, provided after the date of death, sometimes referred to as funeral volume.

General Agency (GA) Revenue — Commissions we receive from third-party life insurance companies for life insurance policies sold to preneed customers for the purpose of funding preneed funeral arrangements. The commission rate paid is determined based on the product type sold, the length of payment terms, and the age of the insured/annuitant.

Interment — The burial or final placement of human remains in the ground, in mausoleums, in niches, or in cremation memorialization property.

Lawn Crypt — An underground outer burial receptacle constructed of concrete and reinforced steel, which is usually pre-installed in predetermined designated areas.

Marker — A method of identifying a deceased person in a particular burial space, crypt, niche, or cremation memorialization property. Permanent burial and cremation memorialization markers are usually made of bronze or stone.

Maturity — When the underlying contracted merchandise is delivered or service is performed, typically at death. This is the point at which preneed funeral contracts are converted to atneed contracts (note — delivery of certain merchandise and services can occur prior to death).

Table of Contents

Mausoleum — An above ground structure that is designed to house caskets and cremation urns.

Merchandise and Service Trust — A trust account established in accordance with state or provincial law into which we deposit the required percentage of customers' payments for preneed funeral, cremation, or cemetery merchandise and services to be delivered or performed by us in the future. The amounts deposited can be withdrawn only after we have completed our obligations under the preneed contract or the cancellation of the contract. Also referred to as Preneed Trust.

Preneed — Purchase of cemetery property interment rights or any merchandise and services prior to death occurring.

Preneed Backlog — Future revenue from unfulfilled preneed funeral, cremation, and cemetery contractual arrangements.

Preneed Cemetery Production — Sales of preneed or atneed cemetery contracts. These sales are recorded in Deferred preneed cemetery revenue until the merchandise is delivered, the service is performed, or when a minimum of 10% of the sales price has been collected and the property has been constructed and is available for interment.

Preneed Funeral Production — Sales of preneed funeral trust-funded and insurance-funded contracts. Preneed funeral trust-funded contracts are recorded in Deferred preneed funeral revenue until the merchandise is delivered or the service is performed. We do not reflect the unfulfilled insurance-funded preneed funeral contract amounts in our Consolidated Balance Sheet. The proceeds of the life insurance policies will be reflected in revenue as these funerals are performed by us in the future.

Sales Average — Average revenue per funeral service performed, excluding the impact of funeral recognized preneed revenue, GA revenue, and certain other revenue.

Travel Protection — A product that provides shipment of remains to the servicing funeral home or cemetery of choice if the purchaser passes away outside of a certain radius of their residence, without any additional expense to the family.

Trust Fund Income — Recognized investment earnings from our merchandise and service and perpetual care trust investments.

As used herein, "SCI", "Company", "we", "our", and "us" refer to Service Corporation International and companies owned directly or indirectly by Service Corporation International, unless the context requires otherwise.

As used herein, each reference to the SCI Annual Report on Form 10-K for the year ended December 31, 2016 shall mean such Form 10-K as amended by the SCI Annual Report on Form 10-K/A for the year ended December 31, 2016.

SERVICE CORPORATION INTERNATIONAL

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

1. Nature of Operations

We are North America's largest provider of deathcare products and services, with a network of funeral service locations and cemeteries operating in the United States and Canada. Our funeral and cemetery operations consist of funeral service locations, cemeteries, funeral service/cemetery combination locations, crematoria, and other related businesses, which enable us to serve a wide array of customer needs. We sell cemetery property and funeral and cemetery merchandise and services at the time of need and on a preneed basis.

Funeral service locations provide all professional services relating to funerals and cremations, including the use of funeral facilities and motor vehicles, arranging and directing services, removal, preparation, embalming, cremations, memorialization, travel protection, and catering. Funeral merchandise, including burial caskets and related accessories, urns and other cremation receptacles, outer burial containers, flowers, online and video tributes, stationery products, casket and cremation memorialization products, and other ancillary merchandise, is sold at funeral service locations.

Our cemeteries provide cemetery property interment rights, including developed lots, lawn crypts, mausoleum spaces, niches, and other cremation memorialization and interment options. Cemetery merchandise and services, including memorial markers and bases, outer burial containers, flowers and floral placement, other ancillary merchandise, graveside services, merchandise installation, and burial openings and closings, are sold at our cemeteries.

2. Summary of Significant Accounting Policies

Principles of Consolidation and Basis of Presentation

Our unaudited condensed consolidated financial statements include the accounts of Service Corporation International (SCI) and all subsidiaries in which we hold a controlling financial interest. Our financial statements also include the accounts of the merchandise and service trusts and cemetery perpetual care trusts in which we have a variable interest and are the primary beneficiary. Our interim condensed consolidated financial statements are unaudited but include all adjustments, consisting of normal recurring accruals and any other adjustments, which management considers necessary for a fair statement of our results for these periods. Our unaudited condensed consolidated financial statements have been prepared in a manner consistent with the accounting policies described in our Annual Report on Form 10-K for the year ended December 31, 2016, unless otherwise disclosed herein, and should be read in conjunction therewith. The accompanying year-end condensed Consolidated Balance Sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. Operating results for interim periods are not necessarily indicative of the results that may be expected for the full year period. The Company has two reportable segments: Funeral and Cemetery. See Note 8 for further detail on the Company's segments.

Reclassifications to Prior Period Financial Statements and Adjustments

Certain reclassifications have been made to prior period amounts to conform to the current period financial statement presentation with no effect on our previously reported results of operations, consolidated financial position, or cash flows.

Use of Estimates in the Preparation of Financial Statements

The preparation of the unaudited condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions as described in our Annual Report on Form 10-K for the year ended December 31, 2016. These estimates and assumptions may affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the unaudited condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting periods. As a result, actual results could differ from these estimates.

Accounting Standards Adopted in 2017

Stock Compensation

In March 2016, the FASB amended "Stock Compensation", modifying certain aspects of the accounting for share-based payment transactions, which requires the tax effects related to share-based payments to be recorded

through the income statement, simplifies the accounting requirements for forfeitures and employers' tax withholding requirements, and modifies the presentation of certain items on the statement of cash flows. The guidance requires the tax effect related to the settlement of share-based awards be included in income tax benefit or expense in the statement of operations rather than in additional paid-in-capital. This guidance also eliminates the requirement to reclassify excess tax benefits from operating activities to financing activities within the statement of cash flows. We adopted the new guidance in the first quarter of 2017, as required, and the impact of the restricted stock deliveries and option exercises in the three and nine months ended September 30, 2017 was a reduction to our provision for income taxes of \$7.6 million and \$16.9 million, respectively. Prior periods have not been retrospectively adjusted for adoption of this guidance. The remaining amendments to this standard, as noted above, are either

Table of Contents

not applicable or do not change our current accounting practices and thus do not impact our consolidated financial statements, including our consolidated statement of cash flows.

Inventory

In July 2015, the FASB amended "Inventory" to state that an entity using an inventory method other than last-in, first out ("LIFO") or the retail inventory method should measure inventory at the lower of cost or net realizable value. The new guidance clarifies that net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The new guidance was effective for us on January 1, 2017 and our adoption did not materially impact our consolidated results of operations, consolidated financial position, or cash flows.

Recently Issued Accounting Standards

Revenue Recognition

In May 2014, the FASB issued "Revenue from Contracts with Customers", which replaces existing revenue recognition guidance. During 2016, the FASB made several amendments to the new standard that clarified guidance on several matters, including principal vs. agent considerations, identifying performance obligations, sales taxes, and licensing.

The new standard, as amended, requires that we recognize revenue in the amount to which we expect to be entitled for delivery of promised goods and services to our customers. The new standard will also result in enhanced revenue-related disclosures, including any significant judgments and changes in judgments. Additionally, the new standard requires the deferral of incremental selling costs to the period in which the related revenue is recognized. The new standard will be effective for us beginning January 1, 2018. We intend to implement the standard with the modified retrospective approach, which recognizes the cumulative effect of adoption recognized on that date.

We established a cross-functional team and analyzed the impact on our contract portfolio by reviewing our revenue streams and our current policies and procedures to identify potential differences that would result from applying the requirements of the new standard to our contracts. The implementation team reports findings and progress of the project to management on a frequent basis. Through this process, we have identified appropriate changes to our processes, systems, and controls to support recognition and disclosure under the new standard.

In the first nine months of 2017, we made significant progress towards completing our evaluation of the potential changes from adopting the new standard on our future reporting and disclosures. We also made progress on our contract reviews and policy amendments, including developing a process for the systemic application of the standard to existing undelivered performance obligations at adoption. Additionally, we began making programming changes to our point of sale system to accommodate recognition and disclosure under the new standard. During the third quarter, we began testing these changes to ensure the updated system functions as intended. Finally, we have identified and begun designing additional controls around new processes that will be implemented upon adoption of the new standard.

We cannot determine the cumulative effect prior to adoption as the delivery of the performance obligations is not under our control. We do not know which services will be performed or merchandise will be delivered on existing contracts during the fourth quarter of 2017. We have not fully determined the ongoing financial impact of the new standard to our consolidated results of operations, consolidated financial position, and cash flows. However, we have concluded that the standard will impact the manner in which we recognize a) certain nonrefundable up-front fees and b) incremental costs to acquire new preneed funeral trust contracts and preneed and atneed cemetery contracts (i.e., selling costs). The nonrefundable fees will be deferred and recognized as revenue when the related goods and services are delivered to the customer. The incremental selling costs will be deferred and recognized by specific identification based on the delivery of the respective goods and services. Additionally, we believe the amounts due from customers for undelivered performance obligations on cancelable preneed contracts represent contract assets, which are required to be netted with deferred revenue, instead of preneed receivables on our consolidated balance sheet.

We will continue to expense costs to acquire new preneed funeral insurance contracts in the period incurred. The insurance contracts are not, and will not be, reflected in our Consolidated Balance Sheet because they do not represent assets or liabilities, as we have no claim to the insurance proceeds until the contract is fulfilled and no obligation under the contract until the benefits are assigned to us at the time of need.

Financial Instruments

In January 2016, the FASB amended "Financial Instruments" to provide additional guidance on the recognition and measurement of financial assets and liabilities. The amendment requires investments in equity instruments to be measured at fair value with changes in fair value reflected in net income. We will continue to defer the recognition of this income until we provide the related service or deliver the related merchandise. The new guidance is effective for us on January 1, 2018, and we do not expect a material impact of adoption on our consolidated results of operations, consolidated financial position, and cash flows.

In June 2016, the FASB amended "Financial Instruments" to provide financial statement users with more decision-useful information about the expected credit losses on debt instruments and other commitments to extend credit held by a reporting

Table of Contents

entity at each reporting date. This amendment replaces the incurred loss impairment methodology in the current standard with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to support credit loss estimates. The new guidance is effective for us on January 1, 2020, and we are still evaluating the impact of adoption on our consolidated results of operations, consolidated financial position, and cash flows.

Leases

In February 2016, the FASB amended "Leases" to increase transparency and comparability among organizations. Under the new standard, an entity will be required to recognize lease assets and liabilities on its balance sheet and disclose key information about leasing arrangements. In addition, the new standard offers specific accounting guidance for a lessee, a lessor, and sale and leaseback transactions. Lessees and lessors are required to disclose qualitative and quantitative information about leasing arrangements to enable a user of the financial statements to assess the amount, timing, and uncertainty of cash flows arising from leases. This new standard will be effective for us on January 1, 2019. We are in the process of reviewing our existing leases, have selected a software solution, and are assessing process changes as a result of the new guidance. We are still evaluating the impact of adoption on our consolidated results of operations, consolidated financial position, and cash flows.

Cash Flow

In August and November 2016, the FASB amended "Statement of Cash Flows" to clarify guidance on the classification of certain cash receipts and cash payments. Additionally, the guidance requires that the statement of cash flows reflects changes in restricted cash in addition to cash and cash equivalents. Amended guidance includes clarification on debt prepayment and extinguishment costs, contingent consideration in business combinations, proceeds from insurance claims, and premium payments on company-owned life insurance. The guidance requires these presentation changes to be made retrospectively to all consolidated statements of cash flows presented after the new guidance is effective for us on January 1, 2018. We are still evaluating the impact of adoption on our consolidated statement of cash flows.

Goodwill

In January 2017, the FASB amended "Goodwill" to simplify the subsequent measurement of goodwill. Amended guidance eliminates Step 2 from the goodwill impairment test. Instead, impairment is defined as the amount by which the carrying value of the reporting unit exceeds its fair value, up to the total amount of goodwill. The new guidance is effective for us on January 1, 2020, and is not expected to have an impact on our consolidated results of operations, consolidated financial position, and cash flows.

Retirement Plans

In March 2017, the FASB amended "Retirement Plans" to improve the presentation of net periodic pension cost and net periodic postretirement benefit cost by requiring the classification of interest costs and actuarial gains and losses separately from operating income on the consolidated statement of operations. The guidance requires these presentation changes to be made retrospectively to all consolidated statements of operations presented after the new guidance is effective for us on January 1, 2018. We intend to apply the practical expedient of reclassifying the amounts previously disclosed as "total net periodic benefit cost" in Note 14 of our 2016 Form 10-K from operating income to other income. Adoption is not expected to have an impact on our results of operations, consolidated financial position, and cash flows.

Stock Compensation

In May 2017, the FASB amended "Stock Compensation" to clarify which changes in terms and conditions of share-based awards require accounting for as modifications. Under the new guidance, modification accounting is required only if the fair value, vesting conditions, or the classification of the award (as equity or liability) changes as a result of the change in terms or conditions. The new guidance is effective for us on January 1, 2018 and is not expected to have an impact on our consolidated results of operations, consolidated financial position, and cash flows.

3. Preneed Activities

Preneed receivables, net and trust investments

The components of Preneed receivables, net and trust investments in our unaudited condensed Consolidated Balance Sheet at September 30, 2017 and December 31, 2016 are as follows:

Table of Contents

	September 30, 2017	December 31, 2016
	(In thousands)	
Preneed funeral receivables	\$331,917	\$312,556
Preneed cemetery receivables	1,099,795	1,038,592
Preneed receivables from customers	1,431,712	1,351,148
Unearned finance charge	(45,751)	(45,989)
Allowance for cancellation	(108,635)	(104,740)
Preneed receivables, net	\$1,277,326	\$1,200,419
Trust investments, at market	\$4,343,081	\$3,936,908
Cash held in trust	282,594	304,055
Assets associated with businesses held for sale	(2,680)	—
Insurance-backed fixed income securities and other	267,465	271,248
Trust investments	4,890,460	4,512,211
Less: Cemetery perpetual care trust investments	(1,490,201)	(1,407,465)
Preneed trust investments	\$3,400,259	\$3,104,746
Preneed receivables, net and trust investments	\$4,677,585	\$4,305,165

The table below sets forth certain investment-related activities associated with our trusts:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2017	2016	2017	2016
	(In thousands)		(In thousands)	
Deposits	\$86,028	\$82,286	\$277,286	\$243,957
Withdrawals	\$99,872	\$90,156	\$297,595	\$260,199
Purchases of available-for-sale securities	\$886,732	\$500,577	\$1,792,190	\$1,142,873
Sales of available-for-sale securities	\$509,675	\$490,945	\$1,742,860	\$1,092,912

Table of Contents

The costs and values associated with trust investments recorded at fair value at September 30, 2017 and December 31, 2016 are detailed below. Cost reflects the investment (net of redemptions) of control holders in the trusts. Fair value represents the value of the underlying securities held by the trusts.

Trust investments, at market		\$3,900,728	\$214,828	\$(178,648)	\$3,936,908

As of September 30, 2017, our unfunded commitment for our private equity and other investments was \$153.3 million which, if called, would be funded by the assets of the trusts.

The change in our market-based trust investments with significant unobservable inputs (Level 3) is as follows:

	Three Months		Nine Months	
	Ended	Ended	Ended	Ended
	September 30,	September 30,	September 30,	September 30,
	2017	2016	2017	2016
	(In thousands)		(In thousands)	
Fair value, beginning balance	\$7,924	\$8,553	\$7,163	\$8,177
Net unrealized (loss) gain included in Accumulated other comprehensive income ⁽¹⁾	(116)	117	694	486
Purchases	1,881	36	1,909	61
Sales	(854)	(1,309)	(931)	(1,327)
Fair value, ending balance	\$8,835	\$7,397	\$8,835	\$7,397

All net unrealized (losses) gains recognized in Accumulated other comprehensive income for our trust investments (1) are offset by a corresponding reclassification in Accumulated other comprehensive income to Deferred receipts held in trust and Care trusts' corpus.

Table of Contents

Maturity dates of our fixed income securities range from 2017 to 2040. Maturities of fixed income securities (excluding mutual funds) at September 30, 2017 are estimated as follows:

	Fair Value
	(In
	thousands)
Due in one year or less	\$ 73,050
Due in one to five years	50,496
Due in five to ten years	2,175
Thereafter	386
	\$ 126,107

Recognized trust fund income (realized and unrealized) related to these trust investments was \$39.1 million and \$35.7 million for the three months ended September 30, 2017 and 2016, respectively. Recognized trust fund income (realized and unrealized) related to these trust investments was \$122.6 million and \$116.2 million for the nine months ended September 30, 2017 and 2016, respectively.

We have determined that the unrealized losses in our trust investments are considered temporary in nature, as the unrealized losses were due to temporary fluctuations in interest rates and equity prices. The investments are diversified across multiple industry segments using a balanced allocation strategy to minimize long-term risk. We believe that none of the securities are other-than-temporarily impaired based on our analysis of the investments. Our analysis included a review of the portfolio holdings and discussions with the individual money managers as to the sector exposures, credit ratings, and the severity and duration of the unrealized losses. Our trust investment unrealized losses, their associated values, and the duration of unrealized losses as of September 30, 2017 and December 31, 2016, respectively, are shown in the following tables:

	September 30, 2017

Table of Contents

4. Income Taxes

Income tax expense during interim periods is based on our estimated annual effective income tax rate plus any discrete items, which are recorded in the period in which they occur. Discrete items include, among others, such events as changes in estimates due to the finalization of tax returns, tax audit settlements, expiration of statutes of limitation, and increases or decreases in valuation allowances on deferred tax assets. Our effective tax rate was 15.7% and 36.6% for the three months ended September 30, 2017 and 2016, respectively. Our effective tax rate was a benefit of 12.3% and expense of 40.8% for the nine months ended September 30, 2017 and 2016, respectively. The effective tax rate for the three and nine months ended September 30, 2017 is lower than the federal statutory tax rate of 35% primarily due to the recent IRS tax settlement discussed below and a result of tax benefits recognized on the settlement of employee share-based awards. The higher effective tax rate for the quarter ended September 30, 2016 as the result of non-deductible goodwill related to funeral home divestitures.

Unrecognized Tax Benefits

As of September 30, 2017, the total amount of our unrecognized tax benefits was \$79.5 million and the total amount of our accrued interest was \$8.5 million.

In March 2017, we received from the IRS Office of Appeals the fully executed Form 870-AD for the years 1999-2005, which effectively settles the issues under audit for those years. As a result of this resolution, we recognized a reduction in our unrecognized tax benefits of \$143.0 million, of which \$102.5 million was recognized as an income tax benefit for the matters that were effectively settled with an increase in our taxes payable of \$40.5 million. In June 2017, we made \$34.2 million in settlement payments and associated interest to the IRS.

We remain under audit for years 2006 and 2007 as a result of carryback claims. In addition, we are under audit by various state jurisdictions for years 2000 through 2015. There are currently no federal or provincial audits in Canada. It is reasonably possible that the amount of unrecognized tax benefits could significantly decrease over the next 12 months. However, due to the uncertainty regarding the timing of completion and possible outcomes on the outstanding audits, a current estimate of the range of decrease that may occur within the next 12 months cannot be made.

5. Debt

Debt as of September 30, 2017 and December 31, 2016 was as follows:

	September 30 2017	December 31, 2016
	(In thousands)	
7.625% Senior Notes due October 2018	\$ 250,000	\$ 250,000
4.5% Senior Notes due November 2020	200,000	200,000
8.0% Senior Notes due November 2021	150,000	150,000
5.375% Senior Notes due January 2022	425,000	425,000
5.375% Senior Notes due May 2024	850,000	850,000
7.5% Senior Notes due April 2027	200,000	200,000
Term Loan due March 2021	647,500	673,750
Bank Credit Facility due March 2021	470,000	350,000
Obligations under capital leases	191,627	208,758
Mortgage notes and other debt, maturities through 2050	6,134	3,753
Unamortized premiums, net	7,673	8,313
Unamortized debt issuance costs	(28,804)	(32,984)
Total debt	3,369,130	3,286,590
Less: Current maturities of long-term debt	(76,314)	(89,974)
Total long-term debt	\$3,292,816	\$3,196,616

Current maturities of debt at September 30, 2017 include amounts due under our Term Loan, mortgage notes and other debt, and capital leases within the next year.

Our consolidated debt had a weighted average interest rate of 4.80% and 4.68% at September 30, 2017 and December 31, 2016, respectively. Approximately 62% and 63% of our total debt had a fixed interest rate at September 30, 2017 and December 31, 2016, respectively.

During the nine months ended September 30, 2017 and 2016, we paid \$101.7 million and \$98.8 million in cash interest, respectively.

Bank Credit Agreement

As of September 30, 2017, we have \$470.0 million of outstanding borrowings under our Bank Credit Facility due March 2021; \$647.5 million of outstanding borrowings under our Term Loan due March 2021; and issued \$33.4 million of letters of

Table of Contents

credit. The bank credit agreement provides us with flexibility for working capital, if needed, and is guaranteed by a majority of our domestic subsidiaries. The subsidiary guaranty is a guaranty of payment of the outstanding amount of the total lending commitment, including letters of credit. The bank credit agreement contains certain financial covenants, including a minimum interest coverage ratio, a maximum leverage ratio, and certain dividend and share repurchase restrictions. As of September 30, 2017, we were in compliance with all of our debt covenants. We pay a quarterly fee on the unused commitment, which was 0.30% at September 30, 2017. As of September 30, 2017, we have \$196.6 million in borrowing capacity under the Bank Credit Facility.

Debt Issuances and Additions

For the nine months ended September 30, 2017, we drew \$120.0 million on our Bank Credit Facility to make required payments on our term loan, to fund our IRS settlement payments, and for general corporate purposes.

Debt Extinguishments and Reductions

During the nine months ended September 30, 2017, we made aggregate principal debt payments of \$26.4 million, including \$26.3 million for scheduled payments towards our Term Loan.

6. Fair Value of Financial Instruments**Fair Value Estimates**

The fair value estimates of the following financial instruments have been determined using available market information and appropriate valuation methodologies. The carrying values of cash and cash equivalents, trade receivables, and trade payables approximate the fair values of those instruments due to the short-term nature of the instruments. The fair value of receivables on preneed contracts are impracticable to estimate because of the lack of a trading market and the diverse number of individual contracts with varying terms.

The fair value of our debt instruments at September 30, 2017 and December 31, 2016 was as follows:

	September 30, 2017	December 31, 2016
	(In thousands)	
7.625% Senior Notes due October 2018	\$264,375	\$ 272,353
4.5% Senior Notes due November 2020	202,750	205,000
8.0% Senior Notes due November 2021	177,563	175,500
5.375% Senior Notes due January 2022	436,726	444,614
5.375% Senior Notes due May 2024	907,205	884,000
7.5% Senior Notes due April 2027	240,200	231,590
Term Loan due March 2021	647,500	673,750
Bank Credit Facility due March 2021	470,000	350,000
Mortgage notes and other debt, maturities through 2050	6,134	3,753
Total fair value of debt instruments	\$3,352,453	\$ 3,240,560

The fair value of our long-term, fixed-rate loans were estimated using market prices for those loans, and therefore they are classified within Level 2 of the fair value measurements hierarchy. The Term Loan, Bank Credit Facility agreement, and the mortgage and other debt are classified within Level 3 of the fair value measurements hierarchy. The fair value of these instruments has been estimated using a discounted cash flow analysis based on our incremental borrowing rate for similar borrowing arrangements. An increase (decrease) in the inputs results in a directionally opposite change in the fair value of the instruments.

Table of Contents

7. Equity

(All shares reported in whole numbers)

Our components of Accumulated other comprehensive income are as follows:

	Foreign Currency Translation and Adjustment	Unrealized Gains and Losses	Accumulated Other Comprehensive Income
	(In thousands)		
Balance at December 31, 2016	\$ 16,492	\$ —	\$ 16,492
Activity in 2017	30,169	—	30,169
Net unrealized gains associated with available-for-sale securities of the trusts, net of taxes	—	142,958	142,958
Reclassification of net unrealized gain activity attributable to the Deferred receipts held in trust and Care trusts' corpus, net of taxes	—	(142,958)	(142,958)
Balance at September 30, 2017	\$ 46,661	\$ —	\$ 46,661

The assets and liabilities of foreign operations are translated into U.S. dollars using the current exchange rate. The U.S. dollar amount that arises from such translation, as well as exchange gains and losses on intercompany balances of a long-term investment nature, are included in the foreign currency translation adjustment in Accumulated other comprehensive income.

Share Repurchases

Subject to market conditions, normal trading restrictions, and limitations in our debt covenants, we may make purchases in the open market or through privately negotiated transactions under our stock repurchase program. During the nine months ended September 30, 2017, we repurchased 4,793,635 shares of common stock at an aggregate cost of \$148.8 million, which is an average cost per share of \$31.04. After these repurchases, the remaining dollar value of shares authorized to be purchased under our share repurchase program was approximately \$219.4 million at September 30, 2017.

Subsequent to September 30, 2017, we repurchased 390,063 shares of common stock at an aggregate cost of \$13.4 million, which is an average cost per share of \$34.39. After these subsequent repurchases, the remaining dollar value of shares authorized to be repurchased under our repurchase program is \$206.0 million.

Noncontrolling Interest

In May 2017, we purchased the remaining 11% of the common stock of our consolidated subsidiary, Wilson Financial Group, Inc. for \$4.6 million.

8. Segment Reporting

Our operations are both product-based and geographically-based, and the reportable operating segments presented below include our funeral and cemetery operations. Our geographic areas include the United States and Canada, where we conduct both funeral and cemetery operations.

Table of Contents

9. Commitments and Contingencies

Insurance Loss Reserves

We purchase comprehensive general liability, morticians' and cemetery professional liability, automobile liability, and workers' compensation insurance coverage, all of which are structured with high deductibles. The high-deductible insurance

21

Table of Contents

program means we are primarily self-insured for claims and associated costs and losses covered by these policies. As of September 30, 2017 and December 31, 2016, we have self-insurance reserves of \$84.7 million and \$78.0 million, respectively.

Litigation and Regulatory Matters

We are a party to various litigation and regulatory matters, investigations, and proceedings. Some of the more frequent routine litigations incidental to our business are based on burial practices claims and employment-related matters, including discrimination, harassment, and wage and hour laws and regulations. For each of our outstanding legal matters, we evaluate the merits of the case, our exposure to the matter, possible legal or settlement strategies, and the likelihood of an unfavorable outcome. We intend to vigorously defend ourselves in the matters described herein; however, if we determine that an unfavorable outcome is probable and can be reasonably estimated, we establish the necessary accruals. We hold certain insurance policies that may reduce cash outflows with respect to an adverse outcome of certain of these matters. We accrue such insurance recoveries when they become probable of being paid and can be reasonably estimated.

Wage and Hour Claims. We are named a defendant in various lawsuits alleging violations of federal and state laws regulating wage and hour pay, including but not limited to the Samborsky, Vasquez, Romano, and Horton lawsuits described below.

Charles Samborsky, et al, individually and on behalf of those persons similarly situated, v. SCI California Funeral Services, Inc., et al ; Case No. BC544180; in the Superior Court of the State of California for the County of Los Angeles, Central District-Central Civil West Courthouse. This lawsuit was filed in April 2014 against an SCI subsidiary and purports to have been brought on behalf of employees who worked as family service counselors in California since April 2010. The plaintiffs allege causes of action for various violations of state laws regulating wage and hour pay. The plaintiffs seek unpaid wages, compensatory and punitive damages, attorneys' fees and costs, interest, and injunctive relief. The claims have been sent to arbitration. In July 2017, the arbitrator entered an award rejecting the plaintiffs' claims, ruling that they did not sue the correct party. We cannot quantify our ultimate liability, if any, in this lawsuit.

Adrian Mercedes Vasquez, an individual and on behalf of others similarly situated, v. California Cemetery and Funeral Services, LLC, et al; Case No. BC58837; in the Superior Court of the State of California for the County of Los Angeles. This lawsuit was filed in July 2015 against SCI subsidiaries and purports to be brought on behalf of current and former non-exempt California employees of defendants during the four years preceding the filing of the complaint. The plaintiff alleges numerous causes of action for alleged wage and hour pay violations. The plaintiff seeks unpaid wages, compensatory and punitive damages, attorneys' fees and costs, interest, and injunctive relief. The claims have been ordered to arbitration, with the arbitrator to determine whether the claims will proceed as a class or individual claims. In addition, the plaintiff filed an unfair labor practice charge against defendants with the National Labor Relations Board alleging that by enforcing a mandatory arbitration provision, defendants allegedly violated the National Labor Relations Act. We cannot quantify our ultimate liability, if any, in this lawsuit.

Nicole Romano, individually and on behalf of all others similarly situated v. SCI Direct, Inc., et al; Case No. BC656654; in the Superior Court of California for the County of Los Angeles. This lawsuit was filed in April 2017 against an SCI subsidiary and purports to have been brought on behalf of persons who worked as independent sales representatives in the U.S. during the four years preceding the filing of the complaint. The plaintiff alleges numerous causes of action for alleged wage and hour pay violations, including misclassifying the independent sales representatives as independent contractors instead of employees. The plaintiff seeks unpaid wages, compulsory and punitive damages, attorneys' fees and costs, interest, and injunctive relief. We cannot quantify our ultimate liability, if any, in the lawsuit.

Felicia Horton, an individual and on behalf of other aggrieved employees v. SCI Direct, Inc., et al; Case No. 37-2016-00039356-CU-OE-CTL; in the Superior Court of California for the County of San Diego. This lawsuit was filed in November 2016 on behalf of the plaintiff who worked as an independent sales representative of our subsidiary in California. In addition, this lawsuit asserts claims under California Private Attorney General Act ("PAGA") provisions on behalf of other similarly situated California persons. The lawsuit alleges causes of action and seeks damages and relief similar to those in the Romano case described above. The attorneys in the Horton case have also

filed additional lawsuits alleging individual and PAGA claims similar to those alleged in the Horton case. The additional lawsuits are styled Jandy Quismundo v. SCI Direct, Inc., et al; Case No. 37-2017-00031825-CU-OE-CTL; in the Superior Court of California for the County of San Diego, and Jaime Kallweit v. SCI Direct, Inc., et al; Case No. 37-2017-00037186-CU-OE-CTL; The Superior Court for the State of California for the County of San Diego. We cannot quantify our ultimate liability, if any, in the lawsuits.

Claims Regarding Acquisition of Stewart Enterprises. We are involved in the following lawsuit.

Karen Moulton, Individually and on behalf of all others similarly situated v. Stewart Enterprises, Inc., Service Corporation International and others ; Case No. 2013-5636; in the Civil District Court Parish of New Orleans. This case was filed as a class action in June 2013 against SCI and our subsidiary in connection with SCI's acquisition of Stewart Enterprises, Inc. The plaintiffs allege that SCI aided and abetted breaches of fiduciary duties by Stewart Enterprises and its board of directors in negotiating the combination of Stewart Enterprises with a subsidiary of SCI. The plaintiffs seek damages concerning the

Table of Contents

combination. We filed exceptions to the plaintiffs' complaint that were granted in June 2014. Thus, subject to appeals, SCI will no longer be party to the suit. The case has continued against our subsidiary Stewart Enterprises and its former individual directors. However, in October 2016, the court entered a judgment dismissing all of plaintiffs' claims. Plaintiffs have appealed the dismissal. We cannot quantify our ultimate liability, if any, for the payment of damages.

Operational Claims. We are named a defendant in various lawsuits alleging operational claims, including but not limited to the Allard lawsuit described below.

Linda Allard, on behalf of herself and all others similarly situated v. SCI Direct, Inc., Case No 16-1033; in the United States District Court, Middle District of Tennessee. This case was filed in June 2016 as a class action under the Telephone Consumer Protection Act (the Act). Plaintiff alleges she received telemarketing telephone calls that were made with a prerecorded voice or made by an automatic telephone dialing system in violation of the Act. Plaintiff seeks actual and statutory damages, as well as attorney's fees and costs. The parties reached a settlement of the lawsuit as reported in our Form 8-K filed on August 30, 2017. The settlement agreement is subject to court approval and notice to the class. The financial terms of the settlement call for SCI Direct to pay \$15.0 million, of which \$3.5 million will be paid by its insurer.

Unclaimed Property Audit. We are involved in the following matter.

We received notices from a third party auditor representing unclaimed property departments of 36 states regarding preneed funeral and cemetery contracts that were not funded by the purchase and assignment of the proceeds of insurance policies. The auditor claims that we are subject to the laws of those states concerning escheatment of unclaimed funds. The auditor seeks escheatment of funds from the portion of such contracts for which it claims that we will probably not be required to provide services or merchandise in the future. No actual audits have commenced at this time. We cannot quantify our ultimate liability, if any, in this matter.

The ultimate outcome of the matters described above cannot be determined at this time. We intend to vigorously defend all of the above matters; however, an adverse decision in one or more of such matters could have a material effect on us, our financial condition, results of operations, and cash flows.

10. Earnings Per Share

Basic earnings per common share (EPS) excludes dilution and is computed by dividing Net income attributable to common stockholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other obligations to issue common stock were exercised or converted into common stock or resulted in the issuance of common shares that then shared in our earnings.

A reconciliation of the numerators and denominators of the basic and diluted EPS computations is presented below:

	Three Months Ended		Nine Months Ended	
	September 30, 2017	2016	September 30, 2017	2016
	(In thousands, except per share amounts)			
Amounts attributable to common stockholders:				
Net income:				
Net income — basic	\$56,164	\$47,727	\$299,347	\$110,792
After tax interest on convertible debt	13	13	38	35
Net income — diluted	\$56,177	\$47,740	\$299,385	\$110,827
Weighted average shares (denominator):				
Weighted average shares — basic	187,435	193,274	187,761	193,999
Stock options	4,575	3,154	4,448	3,049
Restricted stock units	112	18	87	6
Convertible debt	121	121	121	121
Weighted average shares — diluted	192,243	196,567	192,417	197,175
Net income per share:				

Edgar Filing: SERVICE CORP INTERNATIONAL - Form 10-Q

Basic	\$0.30	\$0.25	\$1.59	\$0.57
Diluted	\$0.29	\$0.24	\$1.56	\$0.56

The computation of diluted EPS excludes outstanding stock options and restricted stock units in certain periods in which the inclusion of such options or restricted stock units would be anti-dilutive in the periods presented. Total options and

23

Table of Contents

restricted stock units not included in the computation of dilutive EPS are as follows (in shares):

	Three Months Ended September 30, 2016	Nine Months Ended September 30, 2017	Nine Months Ended September 30, 2016
Antidilutive options	551	878	936
Antidilutive restricted stock units	—	—	2
Total common stock equivalents excluded from computation	551	878	938

11. Divestiture-Related Activities

As divestitures occur in the normal course of business, gains or losses on the sale of such assets are recognized in the income statement line item (Losses) gains on divestitures and impairment charges, net, which consist of the following:

	Three Months Ended September 30, 2017	Three Months Ended September 30, 2016	Nine Months Ended September 30, 2017	Nine Months Ended September 30, 2016
(Losses) gains on divestitures, net	\$(62)	\$864	\$22,611	\$2,974
Impairment losses	(81)	(307)	(17,066)	(33,406)
(Losses) gains on divestitures and impairment charges, net	\$(143)	\$557	\$5,545	\$(30,432)

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The Company

We are North America's largest provider of deathcare products and services, with a network of funeral service locations and cemeteries unequaled in geographic scale and reach. At September 30, 2017, we operated 1,509 funeral service locations and 476 cemeteries (including 287 funeral service/cemetery combination locations), which are geographically diversified across 45 states, eight Canadian provinces, the District of Columbia, and Puerto Rico. We are well known for our Dignity Memorial® brand, North America's first transcontinental brand of deathcare products and services. Our other brands are Dignity Planning™, National Cremation Society®, Advantage® Funeral and Cremation Services, Funeraria del Angel™, Making Everlasting Memories®, Neptune Society™, and Trident Society™. Our funeral and cemetery operations consist of funeral service locations, cemeteries, funeral service/cemetery combination locations, crematoria, and related businesses, which enables us to serve a wide array of customer needs. We sell cemetery property and funeral and cemetery merchandise and services at the time of need and on a preneed basis. Our financial position is enhanced by our approximately \$10.5 billion backlog of future revenue from both trust and insurance-funded sales at September 30, 2017, which is the result of preneed sales. Preneed selling provides us with a current opportunity to lock-in future market share while deterring the customer from going to a competitor in the future. We believe it adds to the stability and predictability of our revenue and cash flows. While revenue on the majority of preneed merchandise and service sales is deferred until the time of need, sales of preneed cemetery property provide opportunities for full current revenue recognition (to the extent we collect 10% from the customer and the property is developed).

We believe we have the financial strength and flexibility to reward shareholders through dividends and share repurchases while maintaining a prudent capital structure and pursuing new opportunities for profitable growth. Factors affecting our operating results include: demographic trends in terms of population growth and average age, which impact death rates and number of deaths; establishing and maintaining leading market share positions supported by strong local heritage and relationships; effectively responding to increasing cremation trends by selling complementary services and merchandise; controlling salary and merchandise costs; and exercising pricing leverage related to our at-need revenue. The average revenue per funeral contract is influenced by the mix of traditional and cremation services because our average cremation service revenue is approximately half of the average revenue earned from a traditional burial service. To further enhance revenue opportunities, we have developed memorialization merchandise and services that specifically appeal to cremation customers. We believe that these additional merchandise and services will help drive increases in the average revenue for a cremation in future periods. For further discussion of our key operating metrics, see our Results of Operations and Cash Flow sections below.

Financial Condition, Liquidity and Capital Resources

Capital Allocation Considerations

We rely on cash flow from operations as a significant source of liquidity. Our cash flow from operating activities provided \$389.6 million in the first nine months of 2017. We have \$196.6 million in borrowing capacity under our bank credit agreement.

Our bank credit agreement requires us to maintain certain leverage and interest coverage ratios. As of September 30, 2017, we were in compliance with all of our debt covenants. Our financial covenant requirements and actual ratios as of September 30, 2017 are as follows:

	Per Credit Agreement	Actual
Leverage ratio	4.25 (Max)	3.62
Interest coverage ratio	3.00 (Min)	5.39

We believe that our unencumbered cash on hand, future operating cash flows, and the available capacity under our bank credit agreement will give us adequate liquidity to meet our short-term needs as well as our long-term financial obligations. Due to cash balances residing in Canada and expected minimum operating cash in transit, a portion of our cash on hand is encumbered.

We intend to evaluate the best uses of our cash flow that will yield the highest value and return on capital. Our capital deployment strategy is prioritized as follows:

Invest in acquisitions and new builds. We intend to make acquisitions of funeral service locations and cemeteries when pricing and terms are favorable. We expect an acquisition investment to earn an after-tax cash return in excess of our weighted average cost of capital with room for execution risk. We will also invest in the construction of funeral service locations. We target businesses with favorable customer segments and/or where we can achieve additional economies of scale.

Pay a dividend. Our quarterly dividend rate has steadily grown from \$0.025 per common share in 2005 to \$0.15 per common share in 2017. We target a payout ratio of 35% to 45% and intend to grow our cash dividend commensurate with the

Table of Contents

growth in our business. While we intend to pay regular quarterly cash dividends for the foreseeable future, all future dividends are subject to limitations in our debt covenants and final determination by our Board of Directors each quarter upon review of our financial performance.

Repurchase shares. Absent a strategic acquisition opportunity, we believe share repurchases are attractive at the appropriate price. During the nine months ended September 30, 2017, we repurchased 4,793,635 shares of common stock at an aggregate cost of \$148.8 million, which is an average cost per share of \$31.04. After these repurchases, the remaining dollar value of shares authorized to be purchased under our share repurchase program was approximately \$219.4 million at September 30, 2017. We intend to make purchases from time to time in the open market or through privately negotiated transactions, subject to market conditions, debt covenants, and normal trading restrictions. Our bank credit agreement contains covenants that limit our ability to repurchase our common stock. There can be no assurance that we will buy our common stock under our share repurchase program in the future.

Subsequent to September 30, 2017, we repurchased 390,063 shares of common stock at an aggregate cost of \$13.4 million, which is an average cost per share of \$34.39. After these subsequent repurchases, the remaining dollar value of shares authorized to be repurchased under our repurchase program is \$206.0 million.

Repurchase debt. We seek open market debt repurchases when it is opportunistic to do so relative to other capital development opportunities to manage our near-term debt maturity profile. We have a relatively consistent annual cash flow stream that is generally resistant to down economic cycles. This cash flow stream and our significant liquidity is available to substantially reduce our long-term debt maturities should we choose to do so. Furthermore, our capital expenditures are generally discretionary in nature and can be managed based on the availability of operating cash flow.

Cash Flow

We believe our ability to generate strong operating cash flow is one of our fundamental financial strengths and provides us with substantial flexibility in meeting our operating and investing needs.

Operating Activities

Net cash provided by operating activities increased \$31.1 million to \$389.6 million in the first nine months of 2017, compared to \$358.5 million in the first nine months of 2016. Included in 2017 are a decrease of \$20.5 million in premiums paid on early extinguishment of debt, an \$11.1 million decrease in system and process transition costs, and an \$11.5 million decrease in excess tax benefits from share-based awards partially offset by an increase of \$34.2 million in cash taxes paid related to the March 2017 IRS tax settlement and a \$6.3 million increase in pension settlement payments. See discussion regarding the change in accounting treatment for excess tax benefits from share-based awards and IRS tax settlements in Part I, Item 1. Financial Statements, Notes 2 and 4.

Excluding the above items, cash flow from operations increased \$28.5 million as a result of the following:

- \$43.4 million increase in cash receipts from customers;
- \$4.5 million increase in insurance proceeds;
- a \$13.6 million decrease in cash tax payments due to the deferral of IRS permitted payments (excluding the March 2017 IRS tax settlement noted above), partially offset by
- a \$12.5 million increase in employee compensation;
- a \$12.3 million increase in vendor and other payments;
- a \$2.9 million increase in cash interest paid;
- a \$0.4 million increase in net trust deposits; and
- a \$4.9 million decrease in General Agency (GA) and other receipts.

Investing Activities

Cash flows from investing activities used \$178.6 million in the first nine months of 2017 compared to using \$179.1 million in the same period of 2016. This was primarily attributable to a decrease of \$16.5 million in cash spent on acquisitions, a \$0.5 million decrease in cash receipts from divestitures and asset sales, a \$4.9 million decrease in net withdrawals of restricted funds, and a \$10.5 million increase in capital expenditures.

Financing Activities

Financing activities used \$147.5 million in the first nine months of 2017 compared to using \$140.3 million in the same period of 2016. This increase was primarily driven by a decrease in net debt issuance proceeds, net of payments of \$48.7 million, a decrease of \$11.5 million in excess tax benefits from share-based awards, a \$7.0 million increase in payments of dividends, a \$2.6 million increase in purchases of noncontrolling interests to acquire the remaining 11% of the common stock of our consolidated subsidiary, Wilson Financial Group, Inc., partially offset by decrease in purchases of Company common stock of \$44.2 million and increased proceeds from exercises of stock options of \$14.6 million.

Table of Contents

We repurchased 4.8 million shares in the first nine months of 2017 for \$148.8 million and 7.5 million shares in the same period of 2016 for \$193.0 million. We paid cash dividends of \$80.7 million in the first nine months of 2017 and \$73.7 million in the same period of 2016.

Financial Assurances

In support of our operations, we have entered into arrangements with certain surety companies whereby such companies agree to issue surety bonds on our behalf as financial assurance and/or as required by existing state and local regulations. The surety bonds are used for various business purposes; however, the majority of the surety bonds issued and outstanding have been used to support our preneed funeral and cemetery sales activities. The obligations underlying these surety bonds are recorded on the unaudited condensed Consolidated Balance Sheet as Deferred revenue. The breakdown of surety bonds between funeral and cemetery preneed arrangements, as well as surety bonds for other activities, is described below.

	September 30, 2017	December 31, 2016
	(In millions)	
Preneed funeral	\$112.7	\$ 118.6
Preneed cemetery:		
Merchandise and services	135.3	141.6
Pre-construction	11.9	7.8
Bonds supporting preneed obligations	259.9	268.0
Bonds supporting preneed business permits	4.6	4.5
Other bonds	18.0	18.4
Total surety bonds outstanding	\$282.5	\$ 290.9

When selling preneed contracts, we may post surety bonds where allowed by state law. We post the surety bonds in lieu of trusting a certain amount of funds received from the customer. The amount of the bond posted is generally determined by the total amount of the preneed contract that would otherwise be required to be trusted, in accordance with applicable state law. For the nine months ended September 30, 2017 and 2016, we had \$17.6 million and \$16.1 million, respectively, of cash receipts attributable to bonded sales. These amounts do not consider reductions associated with taxes, obtaining costs, or other costs.

Surety bond premiums are paid annually and are automatically renewable until maturity of the underlying preneed contracts, unless we are given prior notice of cancellation. Except for cemetery pre-construction bonds (which are irrevocable), the surety companies generally have the right to cancel the surety bonds at any time with appropriate notice. In the event a surety company were to cancel the surety bond, we are required to obtain replacement surety assurance from another surety company or fund a trust for an amount generally less than the posted bond amount. Management does not expect that we will be required to fund material future amounts related to these surety bonds because of lack of surety capacity or surety company non-performance.

Preneed Funeral and Cemetery Activities and Backlog of Contracts

In addition to selling our products and services to client families at the time of need, we enter into price-guaranteed preneed contracts, which provide for future funeral or cemetery merchandise and services. Since preneed funeral and cemetery merchandise or services will generally not be provided until sometime in the future, most states and provinces require that all or a portion of the funds collected from customers on preneed contracts be paid into trusts and/or escrow accounts until the merchandise is delivered or the service is performed. These trust funds own investments in equity and debt securities and mutual funds, which are sensitive to current market prices. In certain situations, as described above, where permitted by state or provincial laws, we may post a surety bond as financial assurance for a certain amount of the preneed contract in lieu of placing funds into trust accounts.

Trust-Funded Preneed Contracts: The funds are deposited into trust and invested by independent trustees in accordance with state and provincial laws. We retain any funds above the amounts required to be deposited into trust accounts and use them for working capital purposes, generally to offset the selling and administrative costs of our preneed programs.

Table of Contents

The tables below detail our results of preneed production and maturities, excluding insurance contracts, for the three and nine months ended September 30, 2017 and 2016.

	Three Months Ended September 30, 2017 2016		Nine Months Ended September 30, 2017 2016	
	(In millions)		(In millions)	
Funeral:				
Preneed trust-funded (including bonded):				
Sales production	\$76.6	\$72.5	\$241.1	\$216.4
Sales production (number of contracts)	22,451	22,549	72,112	68,562
Maturities	\$64.0	\$58.1	\$195.7	\$177.2
Maturities (number of contracts)	16,065	15,295	50,897	48,417
Cemetery:				
Sales production:				
Preneed	\$194.8	\$189.8	\$638.3	\$595.6
Atneed	74.6	72.6	237.8	230.1
Total sales production	\$269.4	\$262.4	\$876.1	\$825.7
Sales production deferred to backlog:				
Preneed	\$91.5	\$93.9	\$292.2	\$283.8
Atneed	55.2	55.6	173.9	172.4
Total sales production deferred to backlog	\$146.7	\$149.5	\$466.1	\$456.2
Revenue recognized from backlog:				
Preneed	\$79.9	\$73.4	\$210.6	\$187.1
Atneed	55.8	56.5	171.4	171.3
Total revenue recognized from backlog	\$135.7	\$129.9	\$382.0	\$358.4

Insurance-Funded Preneed Contracts: Where permitted by state or provincial law, customers may arrange their preneed contract by purchasing a life insurance policy from third-party insurance companies, for which we earn a commission as a general sales agent for the insurance company. The policy amount of the insurance contract between the customer and the third-party insurance company generally equals the amount of the preneed contract. As the insurance contract is between the insurance company and the customer, we do not reflect the unfulfilled insurance-funded preneed contract amounts in our unaudited condensed Consolidated Balance Sheet.

The table below details the results of insurance-funded preneed production and maturities for the three and nine months ended September 30, 2017 and 2016, and the number of contracts associated with those transactions.

	Three Months Ended September 30, 2017 2016		Nine Months Ended September 30, 2017 2016	
	(In millions)		(In millions)	
Preneed insurance-funded:				
Sales production ⁽¹⁾	\$124.9	\$131.9	\$386.2	\$422.4
Sales production (number of contracts) ⁽¹⁾	21,297	21,434	64,305	69,156
General agency revenue	\$29.1	\$32.1	\$90.9	\$105.4
Maturities	\$77.4	\$76.0	\$249.5	\$239.4
Maturities (number of contracts)	13,061	12,943	42,144	40,778

(1) Amounts are not included in our unaudited condensed Consolidated Balance Sheet.

Backlog of Preneed Contracts: The following table reflects our backlog of trust-funded deferred preneed contract revenue, including amounts related to Deferred receipts held in trust at September 30, 2017 and December 31, 2016. Additionally, the table reflects our backlog of unfulfilled insurance-funded contracts (which are not included in our

unaudited condensed Consolidated Balance Sheet) at September 30, 2017 and December 31, 2016. The backlog amounts presented are reduced by an amount that we believe will cancel before maturity based on historical experience. The table does not include the backlog associated with businesses that are held for sale.

Table of Contents

The table also reflects our preneed receivables and trust investments (fair value and cost bases) associated with the backlog of deferred preneed contract revenue, net of the estimated cancellation allowance. We believe that the table below is meaningful because it sets forth the aggregate amount of future revenue we expect to recognize as a result of preneed sales, as well as the amount of assets associated with this revenue. Because the future revenue exceeds the asset amounts, future revenue will exceed the cash distributions actually received from the associated trusts.

	September 30, 2017		December 31, 2016	
	Fair Value	Cost	Fair Value	Cost
	(In billions)			
Deferred revenue	\$1.80	\$1.80	\$1.73	\$1.73
Deferred receipts held in trust	3.40	3.18	3.10	3.05
	\$5.20	\$4.98	\$4.83	\$4.78
Allowance for cancellation on trust investments	(0.26)	(0.25)	(0.25)	(0.25)
Backlog of trust-funded deferred revenue	\$4.94	\$4.73	\$4.58	\$4.53
Backlog of insurance-funded deferred revenue ⁽¹⁾	5.60	5.60	5.37	5.37
Total backlog of deferred revenue	\$10.54	\$10.33	\$9.95	\$9.90
Preneed receivables, net and trust investments	\$4.68	\$4.46	\$4.31	\$4.26
Allowance for cancellation on trust investments	(0.26)	(0.25)	(0.25)	(0.25)
Assets associated with backlog of trust-funded deferred revenue, net of estimated allowance for cancellation	\$4.42	\$4.21	\$4.06	\$4.01
Insurance policies associated with insurance-funded deferred revenue, net of estimated allowance for cancellation ⁽¹⁾	5.60	5.60	5.37	5.37
Total assets associated with backlog of preneed deferred revenue, net of estimated allowance for cancellation	\$10.02	\$9.81	\$9.43	\$9.38

(1) Amounts are not included in our unaudited condensed Consolidated Balance Sheet.

The fair value of our trust investments was based on a combination of quoted market prices, observable inputs such as interest rates or yield curves, and appraisals. As of September 30, 2017, the difference between the backlog and asset fair value amounts represents \$0.26 billion related to contracts for which we have posted surety bonds as financial assurance in lieu of trusting, \$0.05 billion collected from customers that were not required to be deposited into trust, and \$0.21 billion in allowable cash distributions from trust assets. As of September 30, 2017, the fair value of the total backlog comprised \$2.78 billion related to cemetery contracts and \$7.76 billion related to funeral contracts. As of September 30, 2017, the fair value of the assets associated with the backlog of trust-funded deferred revenue comprised \$2.55 billion related to cemetery contracts and \$1.87 billion related to funeral contracts.

The table also reflects the amounts expected to be received from insurance companies through the assignment of policy proceeds related to insurance-funded contracts. We do not reflect the unfulfilled insurance-funded preneed amounts in our unaudited condensed Consolidated Balance Sheet because they are not assets or liabilities as defined in Statement of Accounting Concepts No. 6 as we have no claim to the insurance proceeds until the contract is fulfilled and no obligation under the contract until the benefits are assigned to us upon or after the time of need.

Trust Investments

In addition to selling our products and services to client families at the time of need, we enter into price-guaranteed preneed funeral and cemetery contracts, which provide for future funeral or cemetery merchandise and services. Since preneed funeral and cemetery merchandise or services will generally not be provided until sometime in the future, most states and provinces require that all or a portion of the funds collected from customers on preneed funeral and cemetery contracts be paid into trusts and/or escrow accounts until the merchandise is delivered or the service is performed. Investment earnings associated with the trust investments are expected to mitigate the inflationary costs of providing the preneed funeral and cemetery merchandise and services in the future at the prices that were guaranteed at the time of sale.

Also, we are required by state and provincial law to pay a portion of the proceeds from the preneed or atneed sale of cemetery property interment rights into perpetual care trusts. For these investments, the original corpus remains in the trust in perpetuity and the net ordinary earnings or elected distributions are withdrawn with the intention of offsetting the expense to maintain the cemetery property. While many states require that net capital gains or losses be retained and added to the corpus, certain states allow the net realized capital gains and losses to be included in the net ordinary earnings that are distributed.

Independent trustees manage and invest the majority of the funds deposited into the funeral and cemetery merchandise and services trusts as well as the cemetery perpetual care trusts. The majority of trustees are selected based on their respective geographic footprint and qualifications per state and provincial regulations. Most of the trustees engage the same independent investment managers. These trustees, with input from SCI's wholly-owned registered investment advisor, establish an

Table of Contents

investment policy that serves as an operating document to guide the investment activities of the trusts including asset allocation and manager selection. The investments are also governed by state and provincial guidelines. Asset allocation is based on the liability structure of each funeral, cemetery, and perpetual care trust. The investment advisor recommends investment managers to the trustees, which are selected on the basis of various criteria set forth in the investment policy. The primary investment objectives for the funeral and cemetery merchandise and service trusts include 1) preserving capital within acceptable levels of volatility and risk and 2) achieving growth of principal over time sufficient to preserve and increase the purchasing power of the assets. Preneed funeral and cemetery contracts generally take years to mature; therefore, the funds associated with these contracts are often invested through several market cycles. Historically, the cemetery perpetual care trusts' investment objectives emphasize providing a steady stream of current investment income with some capital appreciation. During 2016, SCI worked with several state legislatures to adjust laws to allow for a set distribution rate from cemetery perpetual care trusts' assets regardless of income similar to a university endowment. As a result, beginning in 2017, a portion of cemetery perpetual care trust assets were liquidated and reinvested with investment objectives similar to the funeral and cemetery merchandise and service trusts to drive asset growth and provide further protection to our customers. All of the trusts seek to control risk and volatility through a combination of asset classes, investment styles, and a diverse mix of investment managers.

As of September 30, 2017, approximately 86% of our trusts were under the control and custody of three large financial institutions. The U.S. trustees primarily use four managed limited liability companies (LLCs), one for each merchandise and service trust type and two for the cemetery perpetual care trust type, and each with an independent trustee as custodian. Each financial institution acting as trustee manages its allocation of trust assets in accordance with the investment policy through the purchase of the LLCs' units. For those accounts not eligible for participation in the LLCs or in the event a particular state's regulations contain investment restrictions, the trustee utilizes institutional mutual funds that comply with our investment policy or with such state restrictions. The U.S. trusts include a modest allocation to alternative investments, which comprise primarily private equity investments. These investments are structured as LLCs and are managed by certain trustees. The trusts that are eligible to allocate a portion of their investments to alternative investments purchase units of the respective LLCs.

Investment Structures

Each financial institution, acting as trustee, manages its allocation of trust assets in compliance with the investment policy primarily through the purchase of three managed LLCs, one for each trust type and each with a different, independent trustee acting as custodian. The managed LLCs use the following structures for investments:

Commingled funds. These funds allow the trusts to access, at a reduced cost, the same investment managers and strategies used elsewhere in the portfolios.

Mutual funds. The trust funds employ institutional share class mutual funds where operationally or economically efficient. These mutual funds are utilized to invest in various asset classes including U.S. equities, non-U.S. equities, corporate bonds, government bonds, Treasury inflation protected securities (TIPS), high yield bonds, and commodities, all of which are governed by guidelines outlined in their individual prospectuses.

Separately managed accounts. To reduce the costs to the investment portfolios, the trusts utilize separately managed accounts where appropriate.

For those accounts not eligible for participation in the managed LLCs, the trustee utilizes institutional share class mutual funds that comply with our investment policy statement or with applicable state or provincial regulations. The U.S. trusts also include a modest allocation to alternative investments, which comprise primarily private equity investments. These investments are also held in LLCs and are managed by certain trustees.

Asset Classes

Fixed income investments are intended to preserve principal, provide a source of current income, and reduce overall portfolio volatility. The majority of the fixed income allocation for the trusts is in institutional share class mutual funds. Where the trusts have direct investments in individual fixed income securities, these are primarily in government and corporate instruments.

Canadian government fixed income securities are investments in Canadian federal and provincial government instruments. In many cases, regulatory restrictions mandate that the funds from the sales of preneed funeral and

cemetery products sold in certain Canadian jurisdictions must be invested in these instruments.

Equity investments have historically provided long-term capital appreciation in excess of inflation. The trusts have direct investments in individual equity securities primarily in domestic equity portfolios that include large, mid, and small capitalization companies of different investment styles (i.e., growth and value). The majority of the equity allocation is managed by institutional investment managers that specialize in an objective-specific area of expertise. Our equity securities are exposed to market risk; however, we believe these securities are well-diversified. As of September 30, 2017, the largest single equity position represented less than 1% of the total securities portfolio. The objective of private equity investments is to provide high rates of return with reduced volatility. These investments are typically long term in duration. These investments are diversified by strategy, sector, manager, and vintage year. The investments consist of numerous limited partnerships, including private equity, real estate, fund of funds, distressed debt, and

Table of Contents

mezzanine financing. The trustees that have oversight of their respective alternative LLCs work closely with the investment advisor in making all investment decisions.

Trust Performance

During the nine months ended September 30, 2017, the Standard and Poor's 500 Index increased 14.2% and the Barclay's Aggregate Index increased 3.1%, while the combined SCI trusts increased 10.8%.

SCI, the trustees, and the investment advisor monitor the capital markets and the trusts on an on-going basis. The trustees, with input from the investment advisor, take prudent action as needed to achieve the investment goals and objectives of the trusts.

Results of Operations — Three Months Ended September 30, 2017 and 2016

Management Summary

In the three months ended September 30, 2017, we reported net income attributable to common stockholders of \$56.2 million (\$0.29 per diluted share) compared to net income attributable to common stockholders for the same period in 2016 of \$47.7 million (\$0.24 per diluted share). These results were affected by the following items:

	Three Months Ended September 30, 2017 2016 (In millions)	
Pre-tax (losses) gains from divestitures and impairment, net	\$(0.1)	\$0.6
Pre-tax legal settlement	\$(11.5)	\$—
Pre-tax expenses related to system transition costs	\$—	\$(2.3)
Tax benefit from above items	\$4.0	\$(1.4)
Change in certain tax reserves	\$0.8	\$(0.8)

In addition to the above items, the increase in diluted earnings per share was primarily driven by strong cemetery results and a lower effective tax rate. We also encountered temporary business interruptions in certain of our businesses in Texas, Florida and Puerto Rico related to the three hurricanes during the quarter.

Funeral Results

	Three Months Ended September 30, 2017 2016 (Dollars in millions, except average revenue per service)	
Consolidated funeral revenue	\$437.5	\$445.5
Less: Revenue associated with acquisitions/new construction	8.2	4.3
Less: Revenue associated with divestitures	0.2	9.4

Less: Operating (loss) profit associated with divestitures	(0.8)	0.7
Comparable funeral operating profit	\$69.8	\$73.0

- (1) We define comparable (or same store) operations as those funeral locations owned by us for the entire period beginning January 1, 2016 and ending September 30, 2017.
- We calculate comparable average revenue per service by dividing comparable funeral revenue, excluding recognized preneed revenue, general agency revenue, and other revenue to avoid distorting our average of normal funeral services revenue, by the comparable number of services performed during the period. Recognized preneed revenue is preneed sales of merchandise that are delivered at the time of sale, including memorial merchandise and travel protection, and is excluded from our calculation of comparable average revenue per service because the associated service has not yet been performed.
- (2)

Table of Contents

Funeral Revenue

Consolidated revenue from funeral operations was \$437.5 million for the three months ended September 30, 2017 compared to \$445.5 million for the same period in 2016. This decrease is primarily attributable to the loss of \$9.2 million in revenue contributed by properties that have been subsequently divested and a \$2.7 million decrease in comparable revenue as described below. These decreases were partially offset by \$3.9 million in revenue contributed by acquired properties.

Comparable revenue from funeral operations was \$429.1 million for the three months ended September 30, 2017 compared to \$431.8 million for the same period in 2016. This \$2.7 million decrease is due to a 0.2% decrease in average revenue per funeral service and a decrease in general agency revenue as preneed sales suffered a temporary interruption at the hurricane impacted locations, partially offset by 0.1% higher comparable services performed. Organic sales average, excluding impacts from foreign currency and cremation rate was essentially flat. Our total comparable cremation rate increased to 53.5% in the three months ended September 30, 2017 from 52.7% in 2016 as a result of an increase in both direct cremations and cremations with service.

Funeral Operating Profit

Consolidated funeral operating profit decreased \$4.4 million, or 5.9%, in the three months ended September 30, 2017 compared to the same period in 2016. This decrease is primarily attributable to a decrease in comparable funeral operating profit of \$3.2 million, or 4.4%. Comparable funeral operating profit decreased \$3.2 million to \$69.8 million and the operating margin percentage decreased 60 basis points to 16.3%, which is primarily due to the decrease in revenue mentioned above and normal fixed cost growth partially offset by selling cost efficiencies.

Cemetery Results

	Three Months Ended September 30, 2017 2016 (In millions)	
Consolidated cemetery revenue	\$293.8	\$276.0
Less: Revenue associated with acquisitions/new construction	1.6	—
Comparable ¹ cemetery revenue	\$292.2	\$276.0
Consolidated cemetery operating profit	\$79.6	\$66.2
Less: Operating profit associated with acquisitions/new construction	0.4	(0.1)
Less: Operating profit associated with divestitures	(0.1)	(0.2)
Comparable cemetery operating profit	\$79.3	\$66.5

⁽¹⁾ We define comparable (or same store) operations as those cemetery locations owned by us for the entire period beginning January 1, 2016 and ending September 30, 2017.

Cemetery Revenue

Consolidated revenue from our cemetery operations increased \$17.8 million, or 6.4%, in the third quarter of 2017 compared to the same period in 2016 primarily due to a \$16.2 million increase in comparable cemetery revenue and \$1.6 million in revenue contributed by acquired properties. The growth over the prior year quarter is primarily due to both the sales and recognition of cemetery property, as well as increases in cemetery merchandise delivered during the quarter.

Cemetery Operating Profit

Consolidated cemetery operating profit increased \$13.4 million, or 20.2%, in the third quarter of 2017 compared to the same period in 2016. Comparable cemetery operating profit increased \$12.8 million to \$79.3 million and the operating margin percentage increased 300 basis points to 27.1%. The \$12.8 million increase in comparable cemetery operating profit was primarily the result of high margin core revenue growth when taking into account our fixed cost structure.

Other Financial Statement Items

General and Administrative Expenses

General and administrative expenses increased \$12.3 million to \$39.2 million in the three months ended September 30, 2017 compared to \$26.9 million in the same period of 2016. We finalized a legal settlement for \$11.5 million of which approximately \$10 million was recognized during the quarter. The prior year period includes \$2.3 million in system transition costs primarily related to our 2016 implementation of a new general ledger system. Excluding these costs in both periods, general and administrative expenses increased \$3.0 million primarily related to incentive compensation programs compared to the prior year quarter.

Table of Contents**Hurricane Expenses, Net**

On August 26, Hurricane Harvey made landfall in Texas causing significant damage across coastal Texas. In addition to damage caused directly by the storm itself, the region suffered massive damage from flooding as rainfall nearly exceeded the annual average. The main corporate headquarters sustained significant flood damage as did many of our Texas operations. On September 10, Irma made landfall in western Florida causing wind and flood damage to large parts of that state and the southeastern United States. On September 20, Maria made landfall in Puerto Rico causing significant wind and flood damage. During the third quarter of 2017, we began cleanup, repair and restoration of much of the damage in Texas and in Florida related to Hurricanes Harvey and Irma. During the quarter, we incurred \$5.8 million in repair and cleanup costs and received \$4.5 million of insurance proceeds related to these claims for a net impact of \$1.3 million on our income statement. We believe we could incur another estimated \$5.0 million in repair and clean up in the fourth quarter of 2017 and expect to receive additional insurance proceeds that would partially offset those costs. In addition, we expect to incur total capital costs of approximately \$10.0 million to replace damaged assets. We are still assessing the impact from Hurricane Maria as communication with the island has been difficult, but based on our footprint on the island, we do not expect the overall impact to be material.

Interest Expense

Interest expense increased \$3.2 million to \$42.8 million in the three months ended September 30, 2017 as we were impacted by increased rates on our floating rate debt as well as higher Bank Credit Facility balances as we continued to maintain our leverage ratio.

Provision for Income Taxes

Income tax expense during interim periods is based on our estimated annual effective income tax rate plus any discrete items, which are recorded in the period in which they occur. Discrete items include, among others, such events as changes in estimates due to the finalization of tax returns, tax audit settlements, expiration of statutes of limitation, and increases or decreases in valuation allowances on deferred tax assets. Our effective tax rate was 15.7% and 36.6% for the three months ended September 30, 2017 and 2016, respectively. The effective tax rate for the three months ended September 30, 2017 is lower than the federal statutory tax rate of 35% due to tax benefits recognized on the settlement of employee share-based awards. The higher effective tax rate for the prior year quarter was the result of non-deductible goodwill related to funeral home divestitures.

Weighted Average Shares

The diluted weighted average number of shares outstanding was 192.2 million in the three months ended September 30, 2017, compared to 196.6 million in the same period in 2016. The decrease in the number of shares reflects the impact of shares repurchased under our share repurchase program.

Results of Operations — Nine Months Ended September 30, 2017 and 2016**Management Summary**

In the nine months ended September 30, 2017, we reported net income attributable to common stockholders of \$299.3 million (\$1.56 per diluted share) compared to net income attributable to common stockholders for the same period in 2016 of \$110.8 million (\$0.56 per diluted share). These results were affected by the following items:

	Nine Months Ended September 30, 2017 2016 (In millions)	
Pre-tax gains (losses) from divestitures and impairment, net	\$5.5	\$(30.4)
Pre-tax losses from the early extinguishment of debt	\$—	\$(22.5)
Pre-tax legal settlement	\$(11.5)	\$—
Pre-tax acquisition and integration costs	\$—	\$(5.5)
Pre-tax expenses related to system transition costs	\$—	\$(11.2)
Pre-tax pension termination settlement	\$(12.8)	\$—
Tax benefit from above items	\$6.6	\$21.1
Change in certain tax reserves and other	\$108.0	\$(3.4)

In addition to the above items, the increase in diluted earnings per share was primarily driven by higher operating profits led by an increase in cemetery sales production. These results were also bolstered by effective cost management, a lower tax rate, and fewer shares outstanding resulting from our ongoing share repurchase program.

Table of Contents

Funeral Results

	Nine Months Ended September 30, 2017 2016 (Dollars in millions, except average revenue per service)	
Consolidated funeral revenue	\$1,395.2	\$1,404.8
Less: Revenue associated with acquisitions/new construction	21.9	5.3
Less: Revenue associated with divestitures	2.5	31.0
Comparable ¹ funeral revenue	1,370.8	1,368.5
Less: Comparable recognized preneed revenue	88.8	85.6
Less: Comparable general agency and other revenue	87.8	97.6
Adjusted comparable funeral revenue	\$1,194.2	\$1,185.3
Comparable services performed	227,196	225,550
Comparable average revenue per service ²	\$5,256	\$5,255
Consolidated funeral operating profit	\$274.8	\$271.2
Less: Operating profit associated with acquisitions/new construction	4.5	1.1
Less: Operating loss associated with divestitures	(3.0) 2.7
Comparable funeral operating profit	\$273.3	\$267.4

(1) We define comparable (or same store) operations as those funeral locations owned by us for the entire period beginning January 1, 2016 and ending September 30, 2017.

(2) We calculate comparable average revenue per service by dividing comparable funeral revenue, excluding recognized preneed revenue, general agency revenue, and other revenue to avoid distorting our average of normal funeral services revenue, by the comparable number of services performed during the period. Recognized preneed revenue are preneed sales of merchandise that are delivered at the time of sale, including memorial merchandise and travel protection, and are excluded from our calculation of comparable average revenue per service because the associated service has not yet been performed.

Funeral Revenue

Consolidated revenue from funeral operations was \$1,395.2 million for the nine months ended September 30, 2017 compared to \$1,404.8 million for the same period in 2016. This decrease is primarily attributable to the loss of \$28.5 million in revenue contributed by properties that have been subsequently divested, partially offset by \$16.6 million in revenue contributed by acquired properties and a \$2.3 million increase in comparable revenue as described below. Comparable revenue from funeral operations was \$1,370.8 million for the nine months ended September 30, 2017 compared to \$1,368.5 million for the same period in 2016. The \$2.3 million increase was primarily due to a 0.7% increase in comparable services performed. The increase in services performed comprises a 0.4% increase in services performed by our funeral homes and a 3.2% increase in cremation services performed by our non-funeral home channel.

Organic growth at the customer level of 0.8% was largely offset by the increase in our cremation mix. Our total comparable cremation rate increased to 53.4% in the first nine months of 2017 from 52.4% in 2016 as a result of an increase in both direct cremations and cremations with service.

Funeral Operating Profit

Consolidated funeral operating profit increased \$3.6 million, or 1.3%, in the first nine months of 2017 compared to the same period in 2016. This increase is primarily attributable to an increase in comparable funeral operating profit of \$5.9 million, or 2.2%. Comparable funeral operating profit increased \$5.9 million to \$273.3 million and the operating margin percentage increased 40 basis points to 19.9%, which is primarily the result of increased comparable revenue described above, lower selling costs from lower sales production, and effective cost management.

Table of Contents

Cemetery Results

	Nine Months Ended September 30, 2017 2016 (In millions)	
Consolidated cemetery revenue	\$887.1	\$817.3
Less: Revenue associated with acquisitions/new construction	4.0	—
Less: Revenue associated with divestitures	—	0.2
Comparable ¹ cemetery revenue	\$883.1	\$817.1
Consolidated cemetery operating profit	\$235.5	\$194.5
Less: Operating profit associated with acquisitions/new construction	0.5	(0.1)
Less: Operating loss associated with divestitures	(0.1)	(0.3)
Comparable cemetery operating profit	\$235.1	\$194.9

(1) We define comparable (or same store) operations as those cemetery locations owned by us for the entire period beginning January 1, 2016 and ending September 30, 2017.

Cemetery Revenue

Consolidated revenue from our cemetery operations increased \$69.8 million, or 8.5%, in the nine months ended September 30, 2017 compared to the same period in 2016, primarily attributable to the \$66.0 million increase in comparable revenue and \$4.0 million in revenue contributed by acquired properties. This increase primarily resulted from higher recognized preneed revenue from higher preneed sales production and higher merchandise deliveries.

Cemetery Operating Profit

Consolidated cemetery operating profit increased \$41.0 million, or 21.1%, in the nine months ended September 30, 2017 compared to the same period in 2016. This increase is primarily the result of a \$40.2 million increase in comparable operating profit. The operating profit increase was driven by growth in recognized preneed revenue as described above, partially offset by increased selling commissions from higher sales production.

Other Financial Statement Items

General and Administrative Expenses

General and administrative expenses increased \$19.6 million to \$122.3 million in the nine months ended September 30, 2017 compared to \$102.7 million in the same period of 2016. The current period includes \$12.8 million related to a pension termination settlement and \$11.5 million related to a legal settlement. The prior year period includes \$5.5 million in acquisition costs and \$11.2 million in system transition costs primarily related to our 2016 implementation of a new general ledger system. Excluding these costs, general and administrative expenses increased \$12.1 million in the nine months ended September 30, 2017 compared to the same period in 2016 due to higher insurance claims and increased costs related to the company's long-term incentive compensation.

(Losses) Gains on Divestitures and Impairment Charges, Net

(Losses) gains on divestitures and impairment charges, net, improved \$36.0 million in the nine months ended September 30, 2017 compared to the same period of 2016, which included the divestiture of certain funeral homes in Los Angeles, California.

Hurricane Expenses, Net

On August 26, Hurricane Harvey made landfall in Texas causing significant damage across coastal Texas. In addition to damage caused directly by the storm itself, the region suffered massive damage from flooding as rainfall nearly exceeded the annual average. The main corporate headquarters sustained significant flood damage as did many of our Texas operations. On September 10, Irma made landfall in western Florida causing wind and flood damage to large parts of that state and the southeastern United States. On September 20, Maria made landfall in Puerto Rico causing significant wind and flood damage. During the third quarter of 2017, we began cleanup, repair and restoration of much of the damage in Texas and in Florida related to Hurricanes Harvey and Irma. During the quarter, we incurred \$5.8 million in repair and cleanup costs and received \$4.5 million of insurance proceeds related to these claims for a net

impact of \$1.3 million on our income statement. We believe we could incur another estimated \$5.0 million in repair and clean up in the fourth quarter of 2017 and expect to receive additional insurance proceeds that would partially offset those costs. In addition, we expect to incur total capital costs of approximately \$10.0 million to replace damaged assets. We are still assessing the impact from Hurricane Maria as communication with the island has been difficult, but based on our footprint on the island, we do not expect the overall impact to be material.

Table of Contents

Loss on Early Extinguishment of Debt

We incurred a \$22.5 million loss on early extinguishment of debt in the first nine months of 2016 to manage our near-term debt maturity profile and lower our effective interest rate by refinancing our 2017 notes.

Interest Expense

Interest expense increased \$3.5 million to \$125.5 million in the nine months ended September 30, 2017 as we were impacted by increased rates on our floating rate debt as well as higher Bank Credit Facility balances as we continued to maintain our leverage ratio.

Provision for Income Taxes

Income tax expense during interim periods is based on our estimated annual effective income tax rate plus any discrete items, which are recorded in the period in which they occur. Discrete items include, among others, such events as changes in estimates due to the finalization of tax returns, tax audit settlements, expiration of statute of limitations, and increases or decreases in valuation allowances on deferred tax assets. Our effective tax rate was a benefit of 12.3% and expense of 40.8% for the nine months ended September 30, 2017 and 2016, respectively. The effective tax rate for the nine months ended September 30, 2017 is lower than the federal statutory tax rate of 35% primarily due to the recent IRS tax settlement and result of tax benefits recognized on the settlement of employee share-based awards. The higher effective tax rate for the prior year quarter was the result of non-deductible goodwill related to funeral home divestitures.

Weighted Average Shares

The diluted weighted average number of shares outstanding was 192.4 million in the nine months ended September 30, 2017, compared to 197.2 million in the same period in 2016. The decrease in the number of shares reflects the impact of shares repurchased under our share repurchase program.

Critical Accounting Policies

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the unaudited condensed consolidated financial statements and accompanying notes. Although we base our estimates on historical experience and various other assumptions that we believe to be reasonable under the circumstances, actual results may differ from the estimates on which our financial statements are prepared at any given point of time. Changes in these estimates could materially affect our financial position, results of operations, or cash flows. Significant items that are subject to such estimates and assumptions include revenue and expense accruals, fair value of merchandise and perpetual care trust assets, and the allocation of purchase price to the fair value of assets acquired. Our critical accounting policies are disclosed in our Annual Report on Form 10-K for the year ended December 31, 2016.

There were no significant changes to our accounting policies that have occurred subsequent to December 31, 2016, except as described below within Recent Accounting Pronouncements and Accounting Changes.

Recent Accounting Pronouncements and Accounting Changes

For discussion of recent accounting pronouncements and accounting changes, see Part I, Item 1. Financial Statements, Note 2.

Cautionary Statement on Forward-Looking Statements

The statements in this Form 10-Q that may be deemed forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, are made in reliance on the “safe harbor” protections provided under the Private Securities Litigation Reform Act of 1995. These statements may be accompanied by words such as “believe,” “estimate,” “project,” “expect,” “anticipate,” or “predict” to convey the uncertainty of future events or outcomes. These statements are based on assumptions that we believe are reasonable; however, many important factors could cause our actual results in the future to differ materially from the forward-looking statements made herein and in any other documents or oral presentations made by us, or on our behalf. Important factors, which could cause actual results to differ materially from those in forward-looking statements include, among others, the following:

- Our affiliated funeral and cemetery trust funds own investments in equity securities, fixed income securities, and mutual funds, which are affected by market conditions that are beyond our control.

We may be required to replenish our affiliated funeral and cemetery trust funds to meet minimum funding requirements, which would have a negative effect on our earnings and cash flow.

Our ability to execute our strategic plan depends on many factors, some of which are beyond our control.

Our credit agreements contain covenants that may prevent us from engaging in certain transactions.

If we lost the ability to use surety bonding to support our preneed funeral and preneed cemetery activities, we may be required to make material cash payments to fund certain trust funds.

Table of Contents

• The funeral and cemetery industry is competitive.

• Increasing death benefits related to preneed contracts funded through life insurance contracts may not cover future increases in the cost of providing a price-guaranteed service.

• The financial condition of third-party insurance companies that fund our preneed funeral contracts may impact our future revenue.

• Unfavorable results of litigation could have a material adverse impact on our financial statements.

• Unfavorable publicity could affect our reputation and business.

• If the number of deaths in our markets declines, our cash flows and revenue may decrease.

• If we are not able to respond effectively to changing consumer preferences, our market share, revenue, and profitability could decrease.

• The continuing upward trend in the number of cremations performed in North America could result in lower revenue, gross profit, and cash flows.

• Our funeral home and cemetery businesses are high fixed-cost businesses.

• Regulation and compliance could have a material adverse impact on our financial results.

• Cemetery burial practice legal claims could have a material adverse impact on our financial results.

• We use a combination of insurance, self-insurance, and large deductibles in managing our exposure to certain inherent risks; as such, we could be exposed to unexpected costs that could negatively affect our financial performance.

• A number of years elapse before particular tax matters, for which we have established accruals, are audited and finally resolved.

• Declines in overall economic conditions beyond our control could reduce future potential earnings and cash flows and could result in future impairments to goodwill and/or other intangible assets.

• Any failure to maintain the security of the information relating to our customers, their loved ones, our associates, and our vendors could damage our reputation, could cause us to incur substantial additional costs and to become subject to litigation, and could adversely affect our operating results.

• Our Canadian business exposes us to operational, economic, and currency risks.

• Our level of indebtedness could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry, and may prevent us from fulfilling our obligations under our indebtedness.

• A failure of a key information technology system or process could disrupt and adversely affect our business.

• Failure to maintain effective internal control over financial reporting could adversely affect our results of operations, investor confidence, and our stock price.

• The application of unclaimed property laws by certain states to our preneed funeral and cemetery backlog could have a material adverse impact on our liquidity, cash flows, and our financial results.

For further information on these and other risks and uncertainties, see our Securities and Exchange Commission filings, including our 2016 Annual Report on Form 10-K. Copies of this document as well as other SEC filings can be obtained from our website at www.sci-corp.com. We assume no obligation to publicly update or revise any forward-looking statements made herein or any other forward-looking statements made by us, whether as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The primary objective of the following information is to provide forward-looking quantitative and qualitative information about our potential exposure to market risks. The term “market” risk refers to the risk of gains or losses arising from changes in interest rates and prices of marketable securities. The disclosures are not meant to be precise indicators of expected future gains or losses, but rather indicators of reasonably possible gains or losses. This forward-looking information provides indicators of how we view and manage our ongoing market risk exposures. All of our market risk-sensitive instruments were entered into for purposes other than trading.

Marketable Equity and Debt Securities — Price Risk

In connection with our preneed operations and sales, the related trust funds own investments in equity and debt securities and mutual funds, which are sensitive to current market prices. Cost and market values as of September 30, 2017 are presented

Table of Contents

in Part I, Item 1. Financial Statements and Note 3 of this Form 10-Q. Also, see Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations, Financial Conditions, Liquidity and Capital Resources, for discussion of trust investments.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

As of September 30, 2017, we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)). Our disclosure controls and procedures are designed to ensure that information required to be disclosed in the Securities and Exchange Commission (SEC) reports we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time period specified by the SEC's rules and forms and that such information is accumulated and communicated to management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure. Based on our evaluation, our CEO and CFO have concluded that our disclosure controls and procedures are effective as of September 30, 2017 and that the unaudited condensed consolidated financial statements included in this Quarterly Report on Form 10-Q fairly present, in all material respects, our financial condition, results of operations, and cash flows for the periods presented in conformity with US GAAP.

Changes in Internal Control Over Financial Reporting

No changes in our internal control over financial reporting occurred during the quarter ended September 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Information regarding legal proceedings is set forth in Note 9 in Item 1 of Part I of this Form 10-Q, which information is hereby incorporated by reference herein.

Item 1A. Risk Factors

There have been no material changes in our Risk Factors as set forth in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2016, except as set forth below.

A failure of a key information technology system or process could disrupt and adversely affect our business.

We rely extensively on information technology systems, some of which are managed or provided by third-party service providers, to analyze, process, store, manage, and protect transactions and data. In managing our business, we also rely heavily on the integrity of, security of and consistent access to this data for information such as sales, merchandise ordering, inventory replenishment and order fulfillment. For these information technology systems and processes to operate effectively, we or our service providers must periodically maintain and update them. Our systems and the third-party systems on which we rely are subject to damage or interruption from a number of causes, including power outages; computer and telecommunications failures; computer viruses; security breaches; cyber-attacks, including the use of ransomware; catastrophic events such as fires, floods, earthquakes, tornadoes, or hurricanes; acts of war or terrorism; and design or usage errors by our associates, contractors, or third-party service providers.

Although we and our third-party service providers seek to maintain our respective systems effectively and to successfully address the risk of compromise of the integrity, security, and consistent operations of these systems, such efforts may not be successful. As a result, we or our service providers could experience errors, interruptions, delays, or cessations of service in key portions of our information technology infrastructure, which could significantly disrupt our operations and be costly, time consuming, and resource-intensive to remedy.

The application of unclaimed property laws by certain states to our preneed funeral and cemetery backlog could have a material adverse impact on our liquidity, cash flows, and our financial results.

In the ordinary course, our businesses have sold preneed funeral and cemetery contracts for decades. To the extent these contracts will not be funded with the assignment of the proceeds of life insurance policies, depending on applicable state laws, we could be responsible for escheatment of the portion of the funds paid that relate to contracts which we are unlikely to fulfill. For additional information, see Unclaimed Property Audit in Note 9 in Item 1 of Part I of this Form 10-Q. The aforesaid application of unclaimed property laws could have a material adverse effect on our

liquidity, cash flows, and financial results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table summarizes our share repurchases during the three months ended September 30, 2017:

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced programs	Dollar value of shares that may yet be purchased under the program
July 1, 2017 - July 31, 2017	118,299	\$ 33.51	118,299	\$244,188,178
August 1, 2017 - August 31, 2017	258,300	\$ 35.33	258,300	\$235,062,389
September 1, 2017 - September 30, 2017	447,492	\$ 35.00	447,492	\$219,398,818
	824,091		824,091	

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.

Item 6. Exhibits

- 12.1 Ratio of Earnings to Fixed Charges for the three and nine months ended September 30, 2017 and 2016.
- 31.1 Certification of Thomas L. Ryan as Principal Executive Officer in satisfaction of Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Eric D. Tanzberger as Principal Financial Officer in satisfaction of Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification of Periodic Financial Reports by Thomas L. Ryan as Principal Executive Officer in satisfaction of Section 906 of the Sarbanes- Oxley Act of 2002.
- 32.2 Certification of Periodic Financial Reports by Eric D. Tanzberger as Principal Financial Officer in satisfaction of Section 906 of the Sarbanes-Oxley Act of 2002.
- 101 ~~I~~nteractive data file.
