On April 9, 2015, the reporting person was granted an option to purchase 30,000 shares of Common Stock under the issuer's 2012 Stock
Option and Grant Plan, the vesting of which was subject to various conditions (other than the passage of time and continued employment) that were not tied to the market price of the issuer's securities. On September 29, 2016, one of the conditions was deemed to be achieved, resulting in the vesting and exercisability of 7,500 of the shares underlying such option.
