For Immediate Release

ASUR 4Q07 PASSENGER TRAFFIC UP 14.52% YOY

México D.F., February 20, 2007 Grupo Aeroportuario del Sureste, S.A.B. de C.V. (NYSE:ASR; BMV:ASUR), (ASUR) the first privatized airport group in Mexico and operator of Cancun Airport and eight others in the southeast of Mexico, today announced results for the three- and twelve-month periods ended December 31, 2007.

4Q07 Highlights¹:

EBITDA² increased by 10.15% to Ps.377.8 million.

Total passenger traffic up 14.52%.

Total revenues rose by 13.58%, mainly due to increases of 22.63% in non-aeronautical revenues and 9.15% in aeronautical revenues.

Commercial revenues per passenger rose by 3.50% to Ps.49.73 per passenger.

Operating profit increased by 10.33%.

EBITDA margin was 57.08% compared with 58.86% in 4Q06.

1. Unless otherwise stated, all financial figures discussed in this announcement are unaudited, prepared in accordance with Mexican Financial Reporting Standards, expressed in constant Mexican pesos as of December 31, 2007, and represent comparisons between the three-month periods ended December 31, 2007, and the equivalent three-month period ended December 31, 2006. Tables state figures in thousands of pesos, unless otherwise noted. Passenger figures exclude transit and general aviation passengers. Commercial revenues include revenues from the activities of non-permanent ground transportation and parking lots. All U.S. dollar figures are calculated at the exchange rate of US\$1 = Ps.10.9157.
 2. EBITDA means net income before: provision for taxes, deferred taxes, deferred employees profit sharing, non-ordinary items, comprehensive financing cost, and depreciation and amortization.

Passenger Traffic

For the fourth quarter of 2007, total passenger traffic increased year-over-year by 14.52%. Domestic passenger traffic increased by 26.65% and international passenger traffic rose by 4.67%.

The 4.67% rise in international passenger traffic resulted mainly from increases of 4.73% and 9.54% at the Cancun and Cozumel airports, respectively.

The 26.65% rise in domestic passenger traffic resulted mainly from increases of 21.69%, 41.13%, 28.89%, 22.91%, 54.07% and 39.74% at the Cancun, Merida, Veracruz, Villahermosa, Oaxaca and Cozumel airports, respectively.

The increase in domestic traffic was principally due to strong demand for air travel in Mexico and to the opening of new airline services at several of ASUR's airports.

For FY07, total passenger traffic rose by 17.84% compared to FY06, with international passenger traffic up 13.04% and domestic passenger traffic up 24.52%.

Consolidated Results for 4Q07

Total revenues for 4Q07 increased year-over-year by 13.58% to Ps.661.9 million. This was mainly due to increases of:

9.15% in revenues from aeronautical services, principally as a result of the 14.52% rise in passenger traffic; and

22.63% in revenues from non-aeronautical services, principally as a result of the 18.66% rise in commercial revenues detailed below.

ASUR classifies commercial revenues as those derived from the following activities: duty-free services, car rental, retail, banking and currency exchange, advertising, teleservices, non-permanent ground transportation, food and beverage, and parking lots.

ASUR 4Q07, Page 3 of 16

Commercial revenues rose by 18.66% year-over-year during the quarter, principally as a result of revenue increases in the following areas:

- 6.73% from duty-free stores;
- 5.69% from food and beverage;
- 30.40% from retail operations;
- 25.62% from parking lots;
- 71.22% from advertising;
- 33.36% from banking and currency exchange services;
- 35.39% from ground transportation;
- 0.28% from car rental companies;
- 4.39% from teleservices; and
- 48.81% from other revenues.

The growth in each of these areas resulted generally from the rise in passenger traffic and in particular from the opening on May 18, 2007 of Cancun Airport's new Terminal 3, including the following commercial establishments:

Retail revenues continued to benefit from higher concession fees from local crafts and specialty shops. The increase in parking lot revenues was partially due to annual rate increases at several airports. Revenues from banking and currency exchange services rose as a result of the opening of new Banco Santander branches at the Cancun, Merida and Veracruz airports.

Total operating costs and expenses for 4Q07 increased 15.46% year over year, primarily as a result of:

a 9.85% increase in depreciation and amortization, resulting from the depreciation of investments in fixed assets and improvements made to concession assets;

a 10.86% increase in the cost of technical assistance, reflecting the increase in EBITDA for the quarter (a factor for the calculation of the fee);

a 13.62% increase in concession fees, mainly due to higher revenues; and

ASUR 4Q07, Page 5 of 16

a 23.85% increase in cost of services, primarily reflecting higher energy, maintenance and cleaning costs resulting from the operation of Terminal 3 at Cancun Airport.

These increases were partially offset by a 3.44% decline in administrative expenses.

Operating margin for the quarter declined marginally to 35.61% from 36.66% in 4Q06. This was mainly the result of higher operating costs relating to Terminal 3 at Cancun Airport.

Mexican companies were generally required to pay the greater of their income tax liability or their asset tax liability (determined at a rate of 1.25% of the average tax value of virtually all of the company's assets including, in ASUR's case, its concessions, without deducting the average tax value of certain liabilities). ASUR made asset tax payments of Ps.22.8 million for 4Q07. Of these payments, Ps.14.3 million was recorded as an expense, including Ps.12.5 million that resulted from the new tax regulations that became effective on January 1, 2008. The difference was recorded as an asset, since ASUR expects to recover Ps.21.0 million as a credit against future tax payments.

As a result of the changes in Mexican tax law that took effect January 1st, 2008, which established a new flat rate business tax (Impuesto Empresarial a Tasa Unica , or IETU) and eliminated the asset tax, pursuant to Mexican Financial Reporting Standards the Company had to evaluate and review its deferred assets and liabilities position, because of these, the company created a deferred IETU provision of Ps.706.6 million, eliminated the existing deferred income tax provision of Ps.150.0 million and recognized an IETU tax credit of Ps.217.4 million. The cumulative effect of these changes resulted in a charge to income in the period of Ps.489.1 million.

For 4Q07 the company reported a net loss of Ps.(190.84) million, compared with a Ps.136.05 million gain in 4Q06. Earnings per common share for the quarter were Ps.(0.6361), or earnings per ADS (EPADS) of US\$(0.5828) (one ADS represents ten series B common shares). This compares with Ps.0.4535, or EPADS of US\$0.4155, for the same period last year.

Consolidated Results for Fiscal Year 2007

Total revenues for fiscal year 2007 increased year-over-year by 19.92% to Ps.2,785.9 million. This was mainly due to increases of:

14.77% in revenues from aeronautical services as a result of the 17.84% rise in passenger traffic during the period; and

32.48% in revenues from non-aeronautical services, principally as a result of the 32.61% rise in commercial revenues detailed below.

Commercial revenues for the twelve-month period rose by 32.61% year-over-year, principally as a result of revenue increases from the following areas:

20.71% from duty-free revenues;

39.33% from food and beverage;

34.89% from retail revenues;

Edgar Filing: SOUTHEAST AIRPORT GROUP - Form 6-K

21.54% from parking lot revenues;
66.39% from advertising revenues;
33.01% from ground transportation services;
25.25% from car rental companies;
9.15% from banking and currency exchange services;
2.81% from teleservices; and
76.60% from other income.

The growth in commercial revenue resulted generally from the rise in passenger traffic and in particular from the opening on May 18, 2007 of Cancun Airport's new Terminal 3 (including the new commercial establishments described above) as well as the other factors described above under Consolidated Results for 4Q07. Revenues for FY07 also reflect the

ASUR 4Q07, Page 8 of 16

final payment received for the lease of the Airshop restaurant at Terminal 2 of Cancun Airport that until July 2006 had been operated directly by ASUR.

Total operating costs and expenses for fiscal year 2007 increased by 10.77%, mainly due to the following:

an 11.78% increase in cost of services, due mainly to increased personnel costs relating to the implementation of internal accounting controls pursuant to the Sarbanes-Oxley Act of 2002, as well as higher energy costs, security costs, insurance premiums and maintenance expenses resulting from the opening of Terminal 3;

a 6.86% increase in depreciation and amortization, resulting from the depreciation of investments in fixed assets and improvements made to concession assets;

a 20.07% increase in concession fees, mainly due to higher revenues;

a 24.74% rise in technical assistance costs reflecting the corresponding increase in EBITDA during the period; and

a 2.83% increase in administrative expenses, principally due to marketing costs for participating in tourism fairs aimed at attracting new airline service to ASUR's airports, as well as other projects under development.

Operating margin increased to 41.86% for FY07, up from 37.06% for FY06. This was mainly the result of the 19.92% increase in revenues, which more than offset the 10.77% increase in costs and expenses during the period.

Net income for fiscal year 2007 decreased by 4.67% to Ps.522.36 million. Earnings per common share for the period were Ps.1.7412, or earnings per ADS (EPADS) of US\$1.5951 (one ADS represents ten series B common shares). This compares with Ps.1.8266, or EPADS of US\$1.6733, for the same period last year.

Tariff Regulation

The Mexican Ministry of Communications and Transportation regulates the majority of ASUR's activities by setting maximum rates, which represent the rates for the maximum possible revenues allowed per traffic unit at each airport.

ASUR's regulated revenues for FY07 were Ps.1,913.40 million, resulting in an annual average tariff per workload unit of Ps.114.4. ASUR's regulated revenues accounted for approximately 68.68% of total income for the period.

The Mexican Ministry of Communications and Transportation reviews compliance with the maximum rates on an annual basis at the close of each year.

Balance Sheet

On December 31, 2007, Airport Facility Usage Rights and Airport Concessions represented 80.09% of the Company's total assets, with current assets representing 14.76% and other assets representing 5.15%.

On December 31, 2007, cash and marketable securities were Ps.1,925.70 million. On the same date, shareholder s equity was Ps.14,505.53 million and total liabilities were Ps.2,170.55 million, representing 93.28% and 6.72% of total assets, respectively. Total deferred liabilities represented 85.00% of the Company s total liabilities.

Capex

During the quarter, ASUR made investments of Ps.206.38 million as part of ASUR s ongoing plan to modernize its airports pursuant to its master development plans. During fiscal year 2007 ASUR made capital investments of Ps.665.16 million.
