# **NEWS RELEASE**

# TEEKAY ACQUIRES SPANISH LNG AND OIL SHIPPING COMPANY; FORMS NEW JOINT VENTURE

Nassau, The Bahamas, March 16, 2004 Teekay Shipping Corporation ( Teekay or the Company ) announced today that it has entered into a definitive agreement to acquire Naviera F. Tapias S.A. ( Tapias ), the leading independent owner and operator of liquefied natural gas ( LNG ) carriers and crude oil tankers in Spain. Teekay has also entered into an agreement with the shareholders of Tapias to establish a 50/50 joint venture that will pursue new business in the oil and gas shipping sectors, focusing specifically on the Spanish market.

The Tapias acquisition will establish Teekay s presence in LNG shipping, one of the fastest growing sectors of sea-borne energy transportation. It will position the Company as a key supplier of LNG shipping to Spain, the world s third largest importer of LNG, and provide a strategic growth platform for Teekay. As a major provider of crude oil transportation to Spain, the acquisition of Tapias will also extend Teekay s leading position in the crude oil tanker sector.

Tapias has established itself as a high quality operator with a modern fleet of LNG carriers and crude oil tankers. Its LNG fleet consists of four vessels, including two newbuildings scheduled for delivery in the second half of 2004. All four vessels are contracted under long-term fixed-rate charters to major Spanish energy companies. Tapias conventional crude oil tanker fleet consists of nine Suezmax tankers, including three newbuildings scheduled for delivery in 2004 and 2005. Five of these vessels are contracted under long-term fixed-rate charters with a major Spanish oil company. The average remaining terms of these LNG and Suezmax charter contracts are approximately 21 and 18 years, respectively. The other four Suezmax tankers, two of which are currently trading under short-term contracts, are expected to join Teekay s spot tanker fleet during the next 18 months.

We are excited about the strategic benefits this acquisition provides to Teekay: it accelerates our entry into the high growth LNG shipping market in a profitable but low risk manner; it significantly increases our cash flow from vessel operations stemming from long-term, fixed-rate contracts; and it provides us with further operating leverage to the spot tanker market at an opportune time, said Bjorn Moller, President and Chief Executive Officer of Teekay. We are also excited about the growth opportunities for our new joint venture with the existing shareholders of Tapias. This venture will focus on leveraging Teekay s strong balance sheet and large, high-quality fleet in combination with Tapias leading market position and strong growth prospects in Spain.

Teekay will acquire Tapias for a total enterprise value of approximately \$810 million through a combination of cash, and the assumption of existing debt. In addition, Teekay will assume approximately \$540 million in newbuilding commitments, most of which is expected to be fully debt financed prior to the vessel deliveries, thereby requiring a relatively small total cash outlay by the Company. Teekay expects the acquisition to be immediately accretive to earnings and to provide cash flow from vessel operations of approximately \$85 million in 2004 (on an annualized basis), \$120 million in 2005 and \$125 million annually thereafter, following delivery of the newbuildings. Mr. Moller added, Tapias long-term charter contracts with financially strong customers will add significantly to Teekay s fixed-rate segment. We anticipate that the acquisition will further increase Teekay s annualized cash flow from vessel operations from long-term fixed-rate contracts to approximately \$400 million by the end of 2005.

The transaction, which is subject to customary closing conditions, is expected to close by April 30, 2004.

#### **Conference Call**

Teekay will host a conference call at 11:00 a.m. EST (8:00 a.m. PST) today (Tuesday, March 16, 2004) to discuss this transaction, which will include the provision of additional important information. All shareholders and interested parties are invited to listen to the live conference call and view a presentation that will be posted at <a href="https://www.teekay.com">www.teekay.com</a> prior to the call. A recording of the call will be available until midnight Tuesday, March 23, 2004 by dialing (719) 457-0820 and entering access code 414223, or via Teekay s website until April 16, 2004.

#### **About Teekay**

Teekay Shipping Corporation is the leading provider of international crude oil and petroleum product transportation services, transporting more than 10 percent of the world sea-borne oil.

With offices in 13 countries, Teekay employs 4,700 seagoing and shore-based staff around the world. The Company has earned a reputation for safety and excellence in providing transportation services to major oil companies, oil traders and government agencies worldwide.

Teekay s common stock is listed on the New York Stock Exchange where it trades under the symbol TK.

#### About Naviera F. Tapias S.A.

Naviera F. Tapias S.A. was formed in 1991 and is Spain s largest crude oil transportation company, with a fleet of nine Suezmax tankers. Tapias also owns and operates four LNG carriers, which are all contracted under long-term fixed-rate contracts with Spanish energy companies.

#### **Description of Non-GAAP Financial Measures**

Cash flow from vessel operations represents income from vessel operations before depreciation and amortization expense. Cash flow from vessel operations is included because some investors use this data to measure a company s financial performance. Cash flow from vessel operations is not required by accounting principles generally accepted in the United States and should not be considered as an alternative to net income or any other indicator of the Company s performance required by accounting principles generally accepted in the United States. Expected cash flow from vessel operations detailed in this release, has been reconciled to financial measures defined by accounting principles generally accepted in the United States in the associated presentation available on Teekay s website at <a href="https://www.teekay.com">www.teekay.com</a>.

#### **Forward Looking Statement**

This release contains forward-looking statements (as defined in Section 21E of the Securities Exchange Act of 1934, as amended) which reflect management is current views with respect to certain future events and performance, including statements regarding: the impact of the Tapias acquisition to Teekay is earnings and future cash flow from vessel operations; the closing of Teekay is acquisition of Tapias and the joint venture; the transaction serving as a strategic platform for Teekay in the LNG market; the growth prospects of the LNG shipping sector and the joint venture company; trading of some of the tankers on the spot market; newbuilding delivery dates and debt financing of newbuilding commitments prior to vessel deliveries; and other potential financial and other benefits relating to the acquisition and joint venture. The following factors are among those that could cause actual results to differ materially from the forward-looking statements, which involve risks and uncertainties, and that should be considered in evaluating any such statement: potential failure to close the transaction; potential inability of Teekay to integrate Tapias successfully, including the retention of key employees; customer and market reaction to the transaction, including its effect on Tapias relationship with major Spanish energy companies; early termination or breach of one or more of the long-term charter contracts; changes in production of or demand for oil, petroleum products and LNG, either generally or in particular regions; greater than anticipated levels of tanker newbuilding orders or less than

anticipated rates of tanker scrapping; changes in trading patterns significantly impacting overall tanker tonnage requirements; potential breach of the newbuilding contracts by any of the parties, potential delays or non-delivery of the newbuildings; changes in applicable industry regulations; changes in the typical seasonal variations in tanker charter rates; and other factors discussed in Teekay s Report on Form 20-F for the fiscal year ended December 31, 2002 which is on file with the SEC.
