TROY GROUP, INC.
NOTES TO CONSOLIDATED
FINANCIAL STATEMENTS
(unaudited)

Note 1. Basis of Presentation

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals and adjustments) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended August 31, 2001 are not necessarily indicative of the results that may be expected for the year ended November 30, 2001. For further information, refer to the financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for its fiscal year ended November 30, 2000 (File No. 000-24413).

Certain reclassifications have been made to the August 31, 2000 consolidated income statement and segment information to conform to the August 31, 2001 presentation with no effect on net income or stockholders' equity.

Note 2. Inventories

Inventories consisted of the following as of August 31, 2001 and November 30, 2000 (amounts in thousands):

	August 31, 2001	November 30, 2000
Raw materials	\$ 4,493	\$ 4,016
Work-in-process	675	150
Finished goods	2,673	2,076
Total	\$ 7,841	\$ 6,242

Note 3. Investment in Available-for-sale Securities

As of August 31, 2001, the Company had approximately \$4.5 million in corporate debt securities with contractual maturity dates of up to one year, which management has determined should be classified as available-for-sale. Market values approximated carrying values. Accordingly, no unrealized gains or losses were recorded at August 31, 2001. There were no gains or loss recognized for the nine months ended August 31, 2001 or August 31, 2000.

Note 4. Stock Option and Stock Warrant Plans

During the nine months ended August 31, 2001, the Company granted options to acquire 402,500 shares of common stock at a weighted-average exercise price of \$3.92 per share and 274,000 options

were forfeited at a weighted-average exercise price of \$6.78 per share. The following is a summary of total outstanding options and stock warrants at August 31, 2001:

Range of Exercise Prices	Options and Warrants Outstanding			Options and Warrants Exercisable	
	Number of Options	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Life	Number of Options	Weighted-Average Exercise Price

Edgar Filing: TROY GROUP INC - Form 10-Q

	Options and Warrants Outstanding			Options and Warrants Exercisable			
\$2.94-4.47	494,166	\$	3.82	8.1 years	120,905	\$	3.52
\$6.31-8.75	1,288,000	\$	7.12	8.0 years	500,250	\$	7.03
\$13.16-14.25	25,000	\$	13.38	8.3 years			
	<u>1,807,166</u>				<u>621,155</u>		

At August 31, 2001, there were 1,015,841 shares remaining available for grant under the Company's option plans.

Note 5. Net Income (Loss) Per Share

The following table sets forth the computation of basic and diluted net income (loss) per share:

	Three months ended		Nine months ended	
	August 31, 2001	August 31, 2000	August 31, 2001	August 31, 2000
	(amounts in thousands, except per share data)		(amounts in thousands, except per share data)	
Numerator for basic and diluted net income (loss) per share:				
Net income (loss)	\$ 220	\$ 216	\$ (1,946)	\$ 2,051
Denominator:				
Denominator for basic net income (loss) per share weighted-average shares outstanding	10,667	10,893	10,816	10,803
Effect of employee stock options and warrants	136	502		708
Denominator for diluted net income (loss) per share	10,803	11,395	10,816	11,511
Net income (loss) per share:				
Basic	\$ 0.02	\$ 0.02	\$ (0.18)	\$ 0.19
Diluted	\$ 0.02	\$ 0.02	\$ (0.18)	\$ 0.18

If the Company would have generated net income for each quarter in the nine months ended August 31, 2001, then the denominator for diluted net income per share would have been 10,938,000, after adjusting the basic weighted-average shares outstanding by 122,000 shares for the effect of stock options and warrants.

Note 6. Business Combinations

American Development, Inc.

On February 18, 2000, the Company acquired certain assets and assumed certain liabilities of American Development, Inc., a software development company, in exchange for 42,654 shares of \$0.01

par value common stock, \$1,179,000 in cash and \$54,000 in direct expenses. The total acquisition cost was \$2,652,000, including \$330,000 recorded in connection with warrants issued to a consultant, and was allocated as follows:

Current assets	\$	177,000
Equipment and leasehold improvements		61,000

Edgar Filing: TROY GROUP INC - Form 10-Q

Other assets	94,000
Intangible assets, including customer list, assembled workforce, core technology and goodwill	2,703,000
Current liabilities assumed	(383,000)
	<u>2,652,000</u>

The acquisition has been accounted for as a purchase and results of operations of American Development, Inc. since the date of acquisition are included in the Company's consolidated financial statements.

CableNet Technologies

On May 9, 2000, the Company acquired North Carolina-based CableNet Technologies, which specializes in printer enhancement and connectivity technology, in exchange for 54,386 shares of \$0.01 par value common stock, \$1,945,000 in cash, \$62,000 in direct expenses and \$306,000 recorded in connection with warrants issued to a consultant. The total acquisition cost was \$3,088,000 and was allocated as follows:

Current assets	\$ 301,000
Equipment and leasehold improvements	17,000
Intangible assets, including customer list, assembled workforce, core technology and goodwill	2,817,000
Current liabilities assumed	(47,000)
	<u>\$ 3,088,000</u>

The acquisition has been accounted for as a purchase and results of operations of CableNet Technologies since the date of acquisition are included in the Company's consolidated financial statements.

8

Extended Systems Incorporated

On May 31, 2001, the Company acquired certain assets and assumed certain liabilities of Extended Systems Incorporated, a print server manufacturer, in exchange for \$1,672,000 in cash and \$433,000 in direct expenses. The total acquisition cost was \$1,980,000 and was preliminarily allocated as follows:

Inventories	\$ 1,600,000
Equipment	46,000
Intangible assets, including manufacturing process, customer list and core technology	459,000
Current liabilities assumed	(125,000)
	<u>\$ 1,980,000</u>

The acquisition has been accounted for as a purchase and results of operations of Extended Systems Incorporated, since the date of acquisition, are included in the Company's consolidated financial statements.

Pro Forma consolidated results of operations for the nine months ended August 31, 2001 and 2000 as though American Development, Inc., CableNet Technologies and Extended Systems Incorporated had been acquired as of December 1, 1999 are as follows (amounts in thousands, except per share data):

	Nine Months Ended	
	August 31, 2001	August 31, 2000

ITEM 2

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Edgar Filing: TROY GROUP INC - Form 10-Q

The following discussion and analysis should be read in conjunction with our Consolidated Financial Statements and related Notes included in this report. This report contains forward-looking statements within the meaning of the Private Securities Litigation Reform act of 1995. The statements contained in this report that are not historical in nature, particularly those that utilize terminology such as "may," "will," "should," "expects," "anticipates," "estimates," "believes" or "plans," or comparable terminology, are forward-looking statements based on current expectations and assumptions.

Various risks and uncertainties could cause actual results to differ materially from those expressed in forward-looking statements. These risks and uncertainties include the growth in acceptance of TROY's electronic payment solutions by online brokerage firms, e-merchants and other bill payment applications; the timely and successful development and integration of the Bluetooth and other wireless standards; the market acceptance of products incorporating wireless printing technologies; the ability to continue to develop and market other electronic payment, networked computer payment and wireless and Internet connectivity technologies; TROY's ability to refocus its management and resources on these emerging technologies; the ability to hire and retain qualified management, technology and other personnel; the impact of competition from existing and new technologies and companies; the ability to identify and assimilate acquired companies and technologies; the continued demand for printed financial documents; and other factors.

Background

We are a leading worldwide provider of financial payment solutions. Our software, firmware and hardware solutions enable businesses to electronically transmit and output financial payment information across computer networks and the Internet.

Our products consist of financial payment solutions and wireless and Internet connectivity products that serve a wide variety of industries including e-commerce retailers, online brokerages, telecommunications, financial services, insurance, computer hardware, automotive, personnel and others.

Our financial payment solutions consist of electronic payment solutions and networked computer payment solutions. Our electronic payment solutions enable Internet merchants to accept payments from their customers' checking accounts as an alternative to credit cards. Our networked computer payment solutions include software, firmware, hardware and imaging supplies that enable standard laser printers to print MICR lines, graphics, barcodes and forms and to perform additional functions such as auditing, status checking and security.

Our wireless and Internet connectivity products enhance the connectivity of devices that transmit information over computer networks and the Internet.

Overview

Net sales are generated from the sale of our wireless and Internet connectivity and financial payment solutions and services. We recognize revenue from the sale of our products when the goods

12

are shipped to the customer and we recognize service revenue over the period of the contract on a straight-line basis. All sales are made through purchase orders.

Results of Operations

The following table sets forth, for the periods indicated, certain information derived from our consolidated statements of operations expressed as a percentage of net sales:

Net income (loss)	1.6%	1.5%	(5.6)%	5.1%

Three Months Ended August 31, 2001 Compared to Three Months Ended August 31, 2000

Net Sales. Our net sales were \$13.7 million for the three months ended August 31, 2001, with \$9.6 million attributable to financial payment solutions and \$4.1 million attributable to wireless and Internet connectivity products and software. Net sales in the three months ended August 31, 2001 decreased by \$0.5 million, or 3.6%, from \$14.2 million in the three months ended August 31, 2000. This decrease in net sales represents a \$2.1 million decrease in sales of our networked computer payment solutions. This decrease was partially offset by an increase of \$1.4 million in sales of our wireless and Internet connectivity products and software and an increase of \$0.2 million in sales of our electronic payment solutions. Net sales were not significantly affected by price changes. The decrease in our net sales for the three months ended August 31, 2001, as compared to net sales for the three months ended August 31, 2000, can be attributed to a reduction in demand as a result of weak economic conditions and the implementation of our strategy to shift our focus away from our established networked computer payment solutions and toward our electronic payment solutions and wireless and Internet connectivity products and software. To the extent that our mix of revenue sources shifts toward sales of wireless and Internet connectivity products and technology licenses, our net sales could vary from historical patterns.

Cost of Goods Sold. Cost of goods sold decreased by \$400,000 or 5.3% to \$8.2 million in the three months ended August 31, 2001 from \$8.6 million in the three months ended August 31, 2000. This decrease was primarily due to decreased net sales but was also attributable to our actions to streamline operations and improve efficiencies. Cost of goods sold as a percentage of net sales decreased to 59.7% in the three months ended August 31, 2001 from 60.8% in the three months ended August 31, 2000. In connection with our shift in focus, we may enter into agreements to license

technology from other companies. As a result of these agreements, cost of goods sold could vary either upwards or downwards from historical patterns.

Gross Profit. As a result of the above factors, gross profit decreased by \$100,000 to \$5.5 million in the three months ended August 31, 2001 from \$5.6 million in the three months ended August 31, 2000. Gross profit as a percentage of net sales increased to 40.3% in the three months ended August 31, 2001 from 39.2% in the three months ended August 31, 2000.

Selling, General and Administrative Expenses. Selling, general and administrative expenses decreased by \$500,000 or 12.0% to \$3.6 million in the three months ended August 31, 2001 from \$4.1 million in the three months ended August 31, 2000. This decrease was due primarily to a decrease of \$900,000 as a result of our actions to streamline operations and improve efficiencies which was partially offset by an increase in operating expenses of \$400,000 as a result of our acquisitions. Selling, general and administrative expenses as a percentage of net sales decreased to 26.2% in the three months ended August 31, 2001 from 28.7% in the three months ended August 31, 2000, as a result of the above factors. In connection with our shift in focus, we intend to invest in marketing expenditures, increase the size of the sales force, and add technical resources as required. As a result of these expenditures and hiring initiatives, we expect selling, general and administrative expenses to exceed historical levels. This forward-looking statement will be impacted by the timing and amount of these expenditures, our ability to attract

and retain sales and marketing personnel and the associated costs of such personnel, and the success of our marketing efforts.

Research and Development Expenses. Research and development expenses increased by \$300,000 or 31.0% to \$1.4 million in the three months ended August 31, 2001 from \$1.1 million in the three months ended August 31, 2000. This increase was due to increases in personnel and related costs. Research and development expenses as a percentage of net sales was 10.1% in the three months ended August 31, 2001 and 7.4% in the three months ended August 31, 2000. In connection with our growth initiatives and efforts to develop new wireless printing technologies, we expect research and development expenses to exceed historical levels as we add additional personnel and incur additional related costs. This forward-looking statement will be impacted by the timing and amount of additional research and development expenditures and our ability to attract and retain research and development personnel and the associated costs of such personnel.

We capitalize certain software development costs in accordance with Financial Accounting Standards Board (FASB) Statement No. 86, Accounting for the Costs of Computer Software to be Sold, Leased, or Otherwise Marketed. Under the provisions of FASB No. 86, we capitalize computer software development costs from the point that technological feasibility is established until the time when the product is available for general release to the public. Research and development costs, consisting of software development costs incurred until the point of technological feasibility, are charged to operations when incurred. In connection with our initiatives in wireless connectivity and electronic payment solutions, we capitalized software development costs of \$485,000 and \$114,000, respectively, during the three months ended August 31, 2001. There were no software development costs capitalized during the three months ended August 31, 2000.

Amortization of Intangible Assets. Amortization of intangible assets increased by \$5,000 or 1.6% to \$320,000 in the three months ended August 31, 2001 from \$315,000 in the three months ended August 31, 2000. This increase was the result of increases in the intangible assets associated with our acquisitions.

Operating Income. As a result of the above factors, operating income increased by \$107,000 to \$230,000 in the three months ended August 31, 2001 from \$123,000 in the three months ended August 31, 2000. Operating income as a percentage of net sales increased to 1.7% in the three months ended August 31, 2001 from 0.9% in the three months ended August 31, 2000.

14

Interest Income. Interest income decreased by \$107,000 to \$102,000 in the three months ended August 31, 2001 from \$209,000 in the three months ended August 31, 2000. This income was due to our investment of proceeds from our initial public offering. This decrease is the result of reductions in our investment in available-for-sale securities due to our acquisitions, our stock repurchase program and working capital requirements.

Interest Expense. Interest expense increased by \$27,000 to \$28,000 in the three months ended August 31, 2001 from \$1,000 in the three months ended August 31, 2000. This increase was due to increased borrowings under our line of credit.

Income Taxes. Income taxes decreased to \$84,000 in the three months ended August 31, 2001 from \$115,000 in the three months ended August 31, 2000. This decrease is a result of decreased income before income taxes and adjustments to reflect our anticipated annual tax rate. Income taxes as a percentage of pretax income decreased to 27.6% in the three months ended August 31, 2001 from 34.7% in the three months ended August 31, 2000.

Nine Months Ended August 31, 2001 Compared to Nine Months Ended August 31, 2000

Net Sales. Our net sales were \$34.8 million for the nine months ended August 31, 2001, with \$26.3 million attributable to financial payment solutions and \$8.5 million attributable to wireless and Internet connectivity products and software. Net sales in the nine months ended August 31, 2001 decreased by \$5.2 million, or 13.0%, from \$40.0 million in the nine months ended August 31, 2000. This decrease in net sales represents a \$5.5 million decrease in sales of our networked computer payment solutions, and a decrease of \$300,000 in sales of our wireless and Internet connectivity products and software. These decreases were partially offset by an increase of \$600,000 in sales of our electronic payment solutions. Net sales were not significantly affected by price changes. The decrease in our net sales for the nine months ended August 31, 2001, as compared to net sales for the nine months ended August 31, 2000, can be attributed to \$2.8 million in non-recurring sales of software licenses in the first and third quarters of 2000, a reduction in demand during the nine months ended August 31, 2001 as a result of weak economic conditions and the implementation of our strategy to shift our focus away from our established networked computer payment solutions and toward our electronic payment solutions and wireless and Internet connectivity products and software. In connection with our shift in focus, we may continue to license our software technology to third parties as we consider appropriate. To the extent that our mix of revenue sources continues to shift toward sales of wireless and Internet connectivity products and technology licenses, our net sales could vary from historical patterns.

Edgar Filing: TROY GROUP INC - Form 10-Q

Cost of Goods Sold. Cost of goods sold decreased by \$1.6 million or 7.0% to \$21.2 million in the nine months ended August 31, 2001 from \$22.8 million in the nine months ended August 31, 2000. This decrease was primarily due to decreased net sales but was also attributable to our actions to streamline operations and improve efficiencies. Cost of goods sold include approximately \$400,000 in restructuring costs during the second quarter of 2001. Cost of goods sold as a percentage of net sales increased to 61.1% in the nine months ended August 31, 2001 from 57.1% in the nine months ended August 31, 2000. In connection with our shift in focus, we may enter into agreements to license technology from other companies. As a result of these agreements, cost of goods sold could vary either upwards or downwards from historical patterns.

Gross Profit. As a result of the above factors, gross profit decreased by \$3.7 million to \$13.5 million in the nine months ended August 31, 2001 from \$17.2 million in the nine months ended August 31, 2000. Gross profit as a percentage of net sales decreased to 38.9% in the nine months ended August 31, 2001 from 42.9% in the nine months ended August 31, 2000.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased by \$800,000 or 8.2% to \$11.5 million in the nine months ended August 31, 2001 from

15

\$10.7 million in the nine months ended August 31, 2000. This increase was due primarily to additional operating expenses of \$400,000 as a result of our acquisitions and an increase of \$400,000 due to increases in personnel, promotions and other expenses associated with our shift in focus and restructuring costs. Selling, general and administrative expenses as a percentage of net sales increased to 33.1% in the nine months ended August 31, 2001 from 26.7% in the nine months ended August 31, 2000, due to our acquisition strategy and our associated growth requirements.

Research and Development Expenses. Research and development expenses increased by \$1.3 million or 44.2% to \$4.4 million in the nine months ended August 31, 2001 from \$3.1 million in the nine months ended August 31, 2000. This increase was due to increases in personnel and related costs and restructuring costs. Research and development expenses as a percentage of net sales was 12.6% in the nine months ended August 31, 2001 and 7.6% in the nine months ended August 31, 2000.

We capitalize certain software development costs in accordance with FASB No. 86. In connection with our initiatives in wireless connectivity and electronic payment solutions, we capitalized software development costs of \$485,000 and \$377,000, respectively, during the nine months ended August 31, 2001. We may capitalize additional software costs in subsequent periods in connection with the development of enhancements to our wireless connectivity and electronic payment solutions. There were no software development costs capitalized during the nine months ended August 31, 2000.

Amortization of Intangible Assets. Amortization of intangible assets increased by \$223,000 or 30.3% to \$960,000 in the nine months ended August 31, 2001 from \$737,000 in the nine months ended August 31, 2000. This increase was the result of increases in the intangible assets associated with our acquisitions.

Operating Income (Loss). As a result of the above factors, operating income decreased by \$6.1 million to a \$3.4 million loss in the nine months ended August 31, 2001 from \$2.7 million income in the nine months ended August 31, 2000. Operating income as a percentage of net sales decreased to (9.6)% in the nine months ended August 31, 2001 from 6.7% in the nine months ended August 31, 2000.

Interest Income. Interest income decreased by \$166,000 to \$468,000 in the nine months ended August 31, 2001 from \$634,000 in the nine months ended August 31, 2000. This income was due to our investment of proceeds from our initial public offering. This decrease is the result of reductions in our investment in available-for-sale securities due to our acquisitions, our stock repurchase program and working capital requirements.

Interest Expense. Interest expense increased by \$79,000 to \$92,000 in the nine months ended August 31, 2001 from \$13,000 in the nine months ended August 31, 2000. This increase was due to temporary borrowings under our line of credit.

Income Taxes. Income taxes decreased to a \$1.0 million tax credit in the nine months ended August 31, 2001 from a \$1.3 million expense in the nine months ended August 31, 2000. This decrease is a result of decreased income before income taxes. Income taxes (credits) as a percentage of pretax income (loss) decreased to 34.6% in the nine months ended August 31, 2001 from 38.2% in the nine months ended August 31, 2000.

Liquidity and Capital Resources

Prior to our initial public offering in July, 1999, our primary source of liquidity was through cash generated from operations and borrowings under our revolving credit facility and term loans.

Edgar Filing: TROY GROUP INC - Form 10-Q

Cash flows provided by operating activities were \$760,000 in the nine months ended August 31, 2001 compared to \$6.3 million provided by operating activities in the nine months ended August 31,

16

2000. This decrease was due primarily to generating a net loss of \$1.9 million in the nine months ended August 31, 2001 compared to net income of \$2.1 million in the nine months ended August 31, 2000 and an increase in prepaid expenses and was offset by a decrease in accounts receivable, income tax receivable and inventories, and increases in accounts payable and accrued expenses. The accounts receivable decrease resulted primarily from collections.

Cash flows provided by investing activities were \$1.9 million in the nine months ended August 31, 2001 compared to \$1.7 million used in the nine months ended August 31, 2000. Included in cash flows provided by investing activities in the nine months ended August 31, 2001 was \$5.8 million in net sales of available-for-sale securities. This cash in flow was offset by \$3.9 million used for an acquisition of a business, equipment and leaseholds and other assets. In connection with split-dollar life insurance arrangements with our majority shareholders, we have agreed to pay the underlying life insurance premiums as a condition of continued employment. Annual premiums on these policies are approximately \$428,000 per year.

Cash flows used in financing activities were \$1.6 million in the nine months ended August 31, 2001 compared to cash flows provided by financing activities of \$301,000 in the nine months ended August 31, 2000. Included in cash flows used in financing activities in the nine months ended August 31, 2001 was \$200,000 in proceeds from issuance of common stock offset by \$1.8 million used for the reduction of checks issued not presented for payment, payment on notes payable, and the purchase of treasury stock.

At August 31, 2001, we had a \$5.0 million general line of credit and a \$10.0 million acquisition line of credit with Comerica Bank California. Both lines of credit are secured by substantially all of our assets and are subject to certain financial covenants. In connection with the general line of credit agreement, we have a \$650,000 standby letter of credit sublimit agreement of which \$80,000 was outstanding at August 31, 2001. As of August 31, 2001, there were no amounts outstanding against the general line of credit or the acquisition line of credit and \$4,920,000 was available under the general line of credit and all \$10 million was available under the acquisition line of credit. The acquisition line of credit expired on October 1, 2001 and was not renewed. The general line of credit has no expiration date.

We believe that existing cash balances, cash generated by operating activities and funds available under our credit facility will be sufficient to finance our operating activities for at least the next 12 months. To the extent that the funds generated from these sources are insufficient to finance our operating activities, we would need to raise additional funds through public or private financing. We cannot assure you that additional financing will be available on terms favorable to us, or at all.

In March 2001, Troy established a stock repurchase program under which Troy's common stock, with an aggregate market value up to \$4.0 million, may be acquired in the open market. As of October 12, 2001, Troy has purchased approximately 280,620 shares of common stock in the open market, at an average price of \$3.64 per share, under the stock repurchase program. Approximately \$3.0 million remain available for future common stock repurchases.

NEW ACCOUNTING STANDARDS: In June 2001, the FASB issued Statement of Financial Accounting Standards No. 141, "Business Combinations" (SFAS No. 141) and Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" (SFAS No. 142). SFAS No. 141 addresses financial accounting and reporting for business combinations and is effective for all business combinations after June 30, 2001. SFAS No. 142 addresses financial accounting and reporting for acquired goodwill and other intangible assets and is effective for fiscal years beginning after December 15, 2001. The Company is in the process of determining the expected impact on earnings and existing goodwill and other intangibles upon adoption which will include the elimination of goodwill amortization and may include additional goodwill impairment. As of August 31, 2001, goodwill totaled \$1.3 million and is being amortized over not more than 10 years.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the risk of loss to future earnings, to fair values or to future cash flows that may result from changes in the price of a financial instrument. The value of a financial instrument may change as a result of changes in interest rates, exchange rates, commodity prices, equity prices and other market changes. Market risk is attributed to all market sensitive financial instruments, including long term debt.

We do not utilize derivative financial instruments. Accordingly, our exposure to market risk is through our investments in available-for-sale securities and our bank debt which bears interest at variable rates. Available-for-sale securities consist of corporate debt securities. These securities generally have contractual maturity dates of up to one year. At August 31, 2001, market values approximated carrying values. Due to the short-term maturities of these securities, management believes that there is no significant market risk. At August 31, 2001, we had approximately \$7.7 million in cash, cash equivalents and investments in available-for-sale securities, and, accordingly, a sustained decrease in the rate of interest earned of 1% would cause a decrease in the annual amount of interest earned of \$77,000. The bank debt is a revolving line of credit. All borrowings bear interest based upon the reference rate per annum as announced by the bank (5.5% at August 31, 2001) less 0.25%. At August 31, 2001, there were no amounts outstanding under the line of credit agreement and, accordingly, a sustained increase in the reference rate of 1% would cause no increase in the annual amount of interest expense.
