CNE GROUP, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Edgar Filing: CNE GROUP INC - Form 10QSB

NOTE A - THE COMPANY

Business

CNE Group, Inc. (the "Company" or "CNE") is a holding company whose primary operating subsidiaries are SRC Technologies, Inc. ("SRC") and U.S. Commlink, Ltd. ("USCL"). SRC, also a holding company, is the parent of Connectivity, Inc. ("Connectivity") and SRC-ECI, Inc. ("ECI") (d/b/a Econo-Comm, Inc. and Mobile Communications). Connectivity, ECI and USCL market, manufacture, repair and maintain remote radio and cellular-based emergency response products to a variety of federal, state and local government institutions, and other vertical markets throughout the United States. The Company has intellectual property rights to certain key elements of these products - specifically, certain communication, data entry and telemetry devices.

The Company also generates revenue from its subsidiary, CareerEngine, Inc., which is engaged in the business of e-recruiting. This segment is not significant to the operations of the Company.

Going Concern

The Company has incurred substantial losses, sustained substantial operating cash outflows and has a working capital deficit at both September 30, 2004 and December 31, 2003. The above factors raise substantial doubt about the Company's ability to continue as a going concern. The Company's continued existence depends on its ability to obtain additional equity and/or debt financing to fund its operations and ultimately to achieve profitable operations. The Company is continuously in the process of raising additional financing and has initiated a cost reduction strategy. At September 30, 2004, management believes that the working capital deficit, losses and negative cash flow will ultimately be improved by (i) the acquisition and increased operations of SRC and ECI and (ii) cost reduction strategies initiated in January and June 2004. There is no assurance that the Company can obtain additional financing or achieve profitable operations or generate positive cash flow. The 2004 and 2003 financial statements do not include any adjustments relating to the recoverability or classification of recorded asset amounts or the amount and classification of liabilities that might be necessary as a result of this going concern uncertainty.

American Stock Exchange Listing

On January 2, 2004, the Company received a notice dated December 31, 2003 from the American Stock Exchange Staff indicating that the Company had demonstrated compliance with the requirements necessary for continued listing on the American Stock Exchange.

As is the case for all listed issuers, the Company's continued listing eligibility will be assessed on an ongoing basis; however, during the year ending December 31, 2004, the Company will be subject to additional scrutiny (as set forth in Section 1009(h) of the AMEX Company Guide) as is the case for any listed company that has regained compliance.

Private Financings

On April 23, 2003, the Company completed a private financing pursuant to which it issued notes (the "Notes") in the aggregate principal amount of \$1,000,000, of which \$650,000 was to the officers of the Company, and 4,165,800 ten year

NOTE A - THE COMPANY (CONTINUED)

Stock at \$0.50 per share. The Notes bear interest at the annual rate of 10% payable quarterly and were due on April 30, 2004. The aggregate number of shares for which the Warrants may be exercised must equal 15% of the Company's outstanding Common Stock on a fully-diluted basis. These Warrants are anti-dilutive until the Notes have been repaid. The due date of the Notes may be extended at the Company's option for an additional year in consideration for the issuance of 10-year warrants to purchase an additional 4% of the Company's then outstanding common stock at \$0.50 per share. These Warrants would also be anti-dilutive until the Notes have been repaid. In addition, the Company valued the warrants, utilizing the Black-Scholes Pricing Model, at \$699,000, which is being accounted for as debt discount and is being amortized ratably over the one-year term of the Notes.

On March 12, 2004, the Company notified the Class B Warrant holders that, to satisfy the 15% non-dilutive provisions of their Warrants, these Warrants were now exercisable for an aggregate of 5,245,200 shares of the Company's common stock at approximately \$0.40 per share. On this date, the Company also exercised its option to extend the maturity date of the notes to April 30, 2005 and satisfied the requirement for the additional 4% non-dilutive interest in the Company by issuing to the noteholders Class B Warrants to purchase an additional 1,708,900 shares of the Company's common stock at \$0.50 per share. The non-dilutive provisions of the Warrants terminate when all of the notes have been paid in full.

1. On September 17, 2003, the Company sold 1,250,000 shares of its Common Stock at \$0.40 per share to an existing noteholder and stockholder of the Company.
2. On January 21, 2004, a secured factoring arrangement with an individual, which amounted to \$300,000 at December 31, 2003, was restructured into a \$300,000 unsecured Note Payable due February 10, 2005. The individual was also issued Class BB Warrants to purchase 150,000 shares of the Company's common stock at \$0.50 per share.
3. On February 10, 2004, the Company sold 1,750,000 shares of its Common Stock at \$0.40 per share. The net proceeds of the transaction amounted to \$571,000. The Company used the funds obtained from this financing primarily for working capital purposes.
4. On June 10, 2004, the two holders of the Company's 8% Subordinated Promissory Notes, in the aggregate principal amount of \$1,000,000, converted their notes into 1,000,000 shares of the Company's Series AA 8% Cumulative Preferred Stock, par value \$0.00001 per share (the "Series AA Preferred Stock"). The aggregate liquidating value of the Series AA Preferred Stock acquired by the converting noteholders, one of whom is an officer and the other an employee of a subsidiary of the Company, is \$1,000,000.
5. On June 10, 2004, an officer and employee of a subsidiary relinquished all their rights to an aggregate 420,000 vested incentive stock options of the Company for an aggregate payment of

Edgar Filing: CNE GROUP INC - Form 10QSB

\$50,000 cash which is included in compensation and related costs.

6. In June 2004, in an effort to conserve the financial resources of the Company, the Board of Directors of the Company deferred 100% of the salaries of four officers of the Company until such time as the Board deems otherwise. In September 2004, three of the aforementioned officers were terminated by the Company. The accompanying financial statements include (i) the

accrued salary owed to the non-terminated officer for the amounts so deferred, and (ii) with regard to the terminated officers, the accrued salaries owed to these officers for the amounts so deferred until their termination. See Note I.

7. On June 28, 2004 the Company repaid, in full, one of its outstanding lines of credit amounting to approximately \$146,000. On the same date the Company issued a secured note payable to an employee of a subsidiary of the Company in the amount of \$150,000. The note is secured by the equipment of a subsidiary of the Company. The note bears interest at 10% per annum and the principal and all interest thereon was due September 28, 2004. The Company is currently negotiating new terms with regard to this note.
8. As of July 1, 2004, 80% of the holders of the Company's 10% subordinated notes agreed to defer \$20,000 of interest due on such date to October 1, 2004 in consideration of the Company issuing to them 153,846 Class B Warrants of the Company, each to give the holder thereof the right to purchase a share of common stock at \$0.39 per share. As of October 1, 2004, 75% of the holders of the Company's 10% subordinated notes agreed to further defer \$18,750 of interest from October 1, 2004 to January 1, 2005 in consideration of the Company issuing to them an additional 170,455 Class B Warrants of the Company, each to give the holder thereof the right to purchase a share of common stock at \$0.33 per share. The noteholders include two officers of the Company.
9. In July and August 2004, the Company issued \$150,000 of its 24% Secured Notes due April 30, 2005 to the wife of the Chief Executive Officer and an existing 10% subordinated noteholder of the Company. Interest on the notes is payable quarterly in arrears. The notes are secured by (i) all the stock of SRC and USCL, and (ii) the pledge of Patent Nos. 6,060,979, 6,047,173 and 5,701,338 -all owned by the Company. On October 1, 2004, 100% of the holders of the Company's 24% Secured Notes agreed to defer \$5,786 of interest due on such date to January 1, 2005 in consideration of the Company issuing to them 76,712 Class B Warrants of the Company, each to give the holder thereof the right to purchase a share of common stock at \$0.33 per share.
10. As of October 1, 2004, 75% of the holders of the Company's 10% subordinated notes agreed to defer \$18,750 of interest due on such date to January 1, 2005 in consideration of the Company issuing to them 170,455 Class B Warrants of the Company, each to give the

Edgar Filing: CNE GROUP INC - Form 10QSB

holder thereof the right to purchase a share of common stock at \$0.33 per share. The noteholders include two officers of the Company.

11. In October 2004, the Company and USCL entered into a two-year Project Financing Agreement with an institutional lender relating to USCL's anticipated participation in the "Cellular Call Box Upgrade and Maintenance Service" projects for numerous Service Authority for Freeway Emergencies ("SAFE") programs within the state of California. These call box programs operate over 17,000 motorist aid analog call boxes that will require upgrades to digital cellular technology available through USCL. This agreement provides the Company with finished goods and accounts receivable financing of up to \$2,000,000 relating to these potential aforementioned projects. The effective interest rate is approximately 3% per month on the outstanding balance of

the amount receivables financed. The finished goods and accounts receivable to be financed, as well as all the other assets of the Company not previously pledged, will secure the borrowings under this agreement.

12. In October and November 2004, the Company issued (i) \$125,000 of its 10% Convertible Subordinated Notes due June 30, 2005 and (ii) 787,500 Class C Warrants of the Company, each to give the holder thereof the right to purchase a share of common stock at \$0.50 per share. The notes were sold to the wife of the Chief Executive Officer of the Company and other accredited investors and are convertible by the holder, at any time, into common stock of the Company at \$0.50 per share. The warrants expire on April 30, 2013. Interest on the notes is payable monthly in arrears.

The Company is using the funds obtained from these financings primarily for working capital purposes. The aforementioned financings were effected pursuant to the exemption from the registration provisions of the Securities Act of 1993 provided by Section 4(2) thereof.

[2] Income (loss) per share:

Basic and diluted earnings (loss) per common share have been computed in accordance with SFAS No. 128, "Earnings Per Share." Basic earnings per share ("BEPS") is computed by dividing net income (loss) by the weighted-average number of common shares outstanding during the three and nine month period ended September 30, 2004. For the three and nine month period ended September 30, 2003 diluted earnings per share (diluted EPS) is computed by dividing net income (loss) used in determining basic EPS by the weighted average number of commons hares outstanding during the period, plus the incremental shares, if any, that would have been outstanding upon the assumed exercise of dilutive stock options. Common stock equivalents to purchase common stock of the Company that were outstanding at September 30, 2004 were not included in the computation of diluted net loss per share as their effect would have been anti-dilutive.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[3] Stock-based compensation:

As permitted under SFAS No. 123, Accounting for Stock-based Compensation (SFAS No. 123), the Company has elected to continue to follow the guidance of APB Opinion No. 25, Accounting for Stock Issued to Employees (APB No. 25), and Financial Accounting Standards Board Interpretation No. 44, Accounting for Certain Transactions Involving Stock Compensation--an interpretation of APB Opinion No. 25 (FIN No. 44), in accounting for its stock-based employee compensation arrangements. Accordingly, no compensation cost is recognized for any of the Company's fixed stock options granted to employees when the exercise price of each option equals or exceeds the fair value of the underlying common stock as of the grant date for each stock option. Changes in the terms of stock option grants, such as extensions of the vesting period or changes in the exercise price, result in variable accounting in accordance with APB Opinion No. 25. Accordingly, compensation expense is measured in accordance with APB No. 25 and recognized over the vesting period. If the modified grant is fully vested, any additional compensation costs is recognized immediately. The Company accounts for equity instruments issued to non-employees in accordance with the provisions of SFAS No. 123.

At September 30, 2004 and December 31, 2003, the Company had a stock-based employee compensation plan - the 2003 Plan. Two of Company's subsidiaries each had separate stock-based employee compensation plans. These subsidiaries' plans were contractually terminated by the Company upon the acquisition of SRC and ECI on April 23, 2003. Furthermore, on March 14, 2003, all recipients of options granted pursuant to these plans rescinded all of their interests.

As permitted under SFAS No. 148, Accounting for Stock-Based

Edgar Filing: CNE GROUP INC - Form 10QSB

Compensation--Transition and Disclosure, which amended SFAS No. 123, the Company has elected to continue to follow the intrinsic value method in accounting for its stock-based employee compensation arrangements as defined by APB No. 25 and related interpretations including FIN No. 44. The following table illustrates the effect on net loss and loss per share if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation for options granted under its plan.

[5] Recent accounting pronouncements:

In January 2003, the FASB issued FASB Interpretation No. 46 ("FIN 46"), "Consolidation of Variable Interest Entities." In general, a variable interest entity is a corporation, partnership, trust, or any other legal structure used for business purposes that either (a) does not have equity investors with voting rights or (b) has equity investors that do not provide sufficient financial resources for the entity to support its activities. FIN 46 requires certain variable interest entities to be consolidated by the primary beneficiary of the entity if the investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. In December 2003 the FASB issued FIN46R which revised certain elements of FIN46. The consolidation requirements of FIN 46R apply immediately to variable interest entities created after January 31, 2003. The consolidation requirements apply to older entities in the first fiscal year or interim period beginning after December 15, 2003. Certain of the disclosure requirements apply in all financial statements issued after January 31, 2003, regardless of when the variable interest entity was established. The adoption of this statement has had no effect on the Company's financial position or results of operations.

In April 2003, the FASB issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities" ("SFAS No. 149"). SFAS No. 149 amends and clarifies

financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under FASB Statement No. 133, "Accounting for Derivative Instruments and Hedging Activities". This Statement requires that contracts with comparable characteristics be accounted for consistently as either derivatives or hybrid instruments. This Statement is effective for contracts entered into or modified after June 30, 2003, and for hedging relationships designated after June 30, 2003. The adoption of this statement has had no effect on the Company's financial statements.

Edgar Filing: CNE GROUP INC - Form 10QSB

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity." SFAS No. 150 changes the accounting for certain financial instruments that under previous guidance issuers could account for as equity. It requires that those instruments be classified as liabilities in balance sheets. The guidance in SFAS No. 150 is generally effective for all financial instruments entered into or modified after May 31, 2003, and otherwise is effective on July 1, 2003. The adoption of this statement has had no effect on the Company's financial statements.

NOTE G - ACQUISITIONS AND RELATED UNAUDITED PRO FORMA FINANCIAL INFORMATION

The purchase price of the acquisition of SRC and ECI was allocated to the assets and liabilities acquired, both tangible and intangible based on fair values (as determined by an independent appraiser), with the excess of the purchase price over the fair value of the net assets acquired of \$7,285,894 being recorded as Goodwill. The fair value of the intellectual property rights, amounting to \$1,550,609, acquired in the related financing was also determined by an independent appraiser. Due to these acquisitions and related financing, SRC has acquired intellectual property rights to certain key elements of these products - specifically, certain communication, data entry and telemetry devices.

The Company's consolidated financial statements include the results of operations of SRC from its respective acquisition dates. The following unaudited pro forma information presents a summary of our consolidated results of operations as if the SRC and ECI acquisitions and the related financing had taken place on January 1, 2003 for the three and nine-month periods ended September 30, 2003. The SRC and ECI acquisitions have been recorded in accordance with SFAS No. 141; therefore, no amortization of goodwill or intangible assets without determinable lives related to SRC and ECI is reflected in the prior year amounts. These pro forma results have been prepared for comparative purposes only and do not purport to be indicative of the results of operations which actually would have resulted had the acquisitions occurred on January 1, 2003.

Catastrophe of September 11, 2001

Our headquarters were located at Suite 2112 of Two World Trade Center in New York City. The catastrophe of September 11, 2001 involved no injury to any of our employees. However, with the complete destruction of the building, all of our leasehold improvements, furniture and fixtures, and office and computer equipment located at this site were also destroyed. Since the attack through the date of the acquisitions and financing set forth above, our management had been preoccupied with the relocation and reestablishment of our businesses, assessing and processing of insurance claims with the assistance of a risk manager with our insurers, and seeking sources of financing. The Company received insurance proceeds in amounts that have exceeded the net carrying value of the destroyed assets. We also had insurance coverage for other than assets destroyed. In 2003, we received all outstanding insurance claims relating to the catastrophe.

In addition, we applied for governmental assistance grants related to the catastrophe. In 2002 and 2003 we received grants aggregating \$300,000. The grants have a restriction that could require their repayment, specifically if we were to relocate a substantial portion our operations outside of New York City before May 1, 2005. Until such time as this restriction no longer applies, we will classify the grants as a liability of the Company. We will remove the liability and record grant income on our financial statements when these restrictions lapse or are satisfied or, alternatively, repay such grants if the above condition is not satisfied.

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with U.S.

Edgar Filing: CNE GROUP INC - Form 10QSB

generally accepted accounting principles requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net revenue and expenses during the reporting period. On an ongoing basis, we evaluate our estimates, including those related to our allowance for doubtful accounts, inventory reserves, goodwill and purchased intangible asset valuations, and asset impairments. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies, among others, affect the significant judgments and estimates we use in the preparation of our consolidated financial statements:

21

Revenue Recognition

We recognize product revenue when persuasive evidence of an arrangement exists, the sales price is fixed, the service is performed or products are shipped to customers, which is when title and risk of loss transfers to the customers, and collectibility is reasonably assured.

Allowance for Doubtful Accounts

We evaluate the collectibility of our accounts receivable based on a combination of factors. In circumstances where we are aware of a specific customer's inability to meet its financial obligations to us, we record a specific allowance to reduce the net receivable to the amount we reasonably believe will be collected. For all other customers, we record allowances for doubtful accounts based on the length of time the receivables are past due, the prevailing business environment and our historical experience. If the financial condition of our customers were to deteriorate or if economic conditions were to worsen, additional allowances may be required in the future.

At September 30, 2004 our allowance for doubtful accounts was \$64,707 or 29.7% of gross receivables, compared to \$51,500 or 19.8% of gross receivables as of December 31, 2003. The increase in the reserve as a percentage of gross receivable from prior period is the result of a decrease in accounts receivable.

Inventory Valuation

At each balance sheet date, we evaluate our ending inventories for excess quantities and obsolescence. This evaluation includes analyses of sales levels by product and projections of future demand. If inventories on hand are in excess of forecasted demand, we provide appropriate reserves for such excess inventory. If we have previously recorded the value of such inventory determined to be in excess of projected demand, or if we determine that inventory

Edgar Filing: CNE GROUP INC - Form 10QSB

is obsolete, we write off these inventories in the period the determination is made. Remaining inventory balances are adjusted to approximate the lower of our cost or market value. If future demand or market conditions are less favorable than our projects, additional inventory write-downs may be required, and would be reflected in cost of revenues in the period the revision is made.

Valuation of Goodwill, Purchased Intangible Assets and

----- Long-Lived Assets -----

We perform goodwill impairment tests on an annual basis and on an interim basis if an event or circumstance indicates that it is more likely than not that impairment has occurred. We assess the impairment of other amortizable intangible assets and long-lived assets whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors we consider important that could trigger an impairment review include significant

22

underperformance to historical or projected operating results, substantial changes in our business strategy and significant negative industry or economic trends. If such indicators are present, we evaluate the fair value of the goodwill. For other intangible assets and long-lived assets we determine whether the sum of the estimated undiscounted cash flows attributable to the assets in question is less than their carrying value. If less, we recognize an impairment loss based on the excess of the carrying amount of the assets over their respective fair values. Fair value of goodwill is determined by using a valuation model based on market capitalization. Fair value of other intangible assets and long-lived assets is determined by future cash flows, appraisals or other methods. If the long-lived asset determined to be impaired is to be held and used, we recognize an impairment charge to the extent the anticipated net cash flows attributable to the asset are less than the asset's carrying value. The fair value of the long-lived asset then becomes the asset's new carrying value, which we depreciate over the remaining estimated useful life of the asset.

Recent Accounting Pronouncements

In January 2003, the FASB issued FASB Interpretation No. 46 ("FIN 46"), "Consolidation of Variable Interest Entities." In general, a variable interest entity is a corporation, partnership, trust, or any other legal structure used for business purposes that either (a) does not have equity investors with voting rights or (b) has equity investors that do not provide sufficient financial resources for the entity to support its activities. FIN 46 requires certain variable interest entities to be consolidated by the primary beneficiary of the entity if the investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The consolidation requirements of FIN 46 apply immediately to variable interest entities created after January 31, 2003. The consolidation requirements apply to older entities in the first fiscal year or interim period beginning after December 15, 2003. Certain of the

Edgar Filing: CNE GROUP INC - Form 10QSB

disclosure requirements apply in all financial statements issued after January 31, 2003, regardless of when the variable interest entity was established. The adoption of this statement has had no effect on the Company's financial position or results of operations.

In April 2003, the FASB issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities" ("SFAS No. 149"). SFAS No. 149 amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities. This Statement requires that contracts with comparable characteristics be accounted for consistently as either derivatives or hybrid instruments. This Statement is effective for contracts entered into or modified after June 30, 2003, and for hedging relationships designated after June 30, 2003. The adoption of this statement has had no effect on our financial statements.

23

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity." SFAS No. 150 changes the accounting for certain financial instruments that under previous guidance issuers could account for as equity. It requires that those instruments be classified as liabilities in balance sheets. The guidance in SFAS No. 150 is generally effective for all financial instruments entered into or modified after May 31, 2003, and otherwise is effective on July 1, 2003. The adoption of this statement has had no effect on our financial statements.

B. Liquidity and Capital Resources

The Company has incurred substantial losses, sustained substantial cash outflows from operating activities and had a working capital deficit at September 30, 2004 and December 31, 2003. The above factors raise substantial doubt about the Company's ability to continue as a going concern. The Company's continued existence

Edgar Filing: CNE GROUP INC - Form 10QSB

depends on its ability to obtain additional equity and/or debt financing to fund its operations, financial obligations as they become due, and ultimately to achieve profitable operations. The Company is continuously in the process of raising additional financing and has initiated a cost reduction strategy. At September 30, 2004 and December 31, 2003, management believed that the working capital deficit, losses and negative cash flow will ultimately be improved by (i) the acquisition and increased operations of SRC and ECI, (ii) cost reduction strategies initiated in January and June 2004, and (iii) additional equity and debt financing activities in addition to those set forth in the financial statements. On January 2, 2004, the Company received a notice dated December 31, 2003 from the American Stock Exchange indicating that the Company had demonstrated compliance with the requirement for continued listing on the Exchange. As is the case for all listed issuers, the Company's continued listing eligibility will be assessed on an ongoing basis; however, during the year ending December 31, 2004, the Company will be subject to additional scrutiny (as set forth in Section 1009(h) of the AMEX Company Guide) as is the case for any listed company that has regained compliance. There is no assurance that the Company can obtain additional financing or achieve profitable operations or generate positive cash flow.

Off-Balance Sheet Arrangements

At September 30, 2004 and December 31, 2003, the Company had no off-balance sheet arrangements.

Operating Activities

We utilized \$1,021,523 of cash in operating activities during the nine-month period ended September 30, 2004. We had a net loss of 1,695,180 during this period, which included an aggregate of \$383,158 of non-cash items, including depreciation and amortization, amortization of debt discount, allowance for doubtful accounts and a charge for the issuance of common stock of the Company for services. In addition to the impact of non-cash items, our operating activities for the nine-month period ended September 30, 2004 also reflected an increase in inventory and accounts payable, accrued expenses and other liabilities, and a decrease in accounts receivable and other assets.

We utilized \$1,114,894 of cash in operating activities during the nine-month period ended September 30, 2003. We had a net loss of \$286,532 during this period which included depreciation and amortization, non-cash items, amounting to \$93,463. In addition to the impact of non-cash items, our operating activities for the nine-month period ended September 30, 2003 also reflected an increase in deferred grant revenue and a decrease in accounts receivable, inventory, prepaid expenses, and accounts payable, accrued expenses and other liabilities.

On January 21, 2004, we took several initiatives to address our operating cash deficiency, which included, but were not limited to, the reduction and/or elimination of certain executive salaries, waiving of certain interest payments due officers and/or directors,

Edgar Filing: CNE GROUP INC - Form 10QSB

waiving of certain accounts receivable due an officer and employee, and the reduction of certain administrative costs. In addition, we raised (a) gross proceeds of \$700,000 (net cash proceeds of \$571,000) in February 2004 from the sale of our common stock (see "Financing Activities" below), (b) restructured (i) certain short-term credit arrangements into a \$300,000 Note payable due in February 2005 (see Note A to our Consolidated Financial Statements) and (ii) a certain line of credit into a \$150,000 secured note payable, (c) raised \$150,000 through the issuance of our 25% Secured Notes in July and August 2004, and (d) raised \$150,000 through the issuance of our 10% Convertible Subordinated Notes and related Class C warrants in October 2004.

Financing Activities

On April 23, 2003, we issued \$1,000,000 in principal amount of our 10% Subordinated Notes due April 30, 2004 to investors for a 15% non-dilutive interest in the Company in the form of 4,165,800 cashless Class B Warrants, each to purchase one share of Common Stock at \$0.50 per share. We had the option to extend the maturity date of the notes to April 30, 2005 in consideration for issuing the noteholders an additional 4% non-dilutive interest in the Company. The notes also require prepayment in an amount equal to 100% of any net financing proceeds obtained by us after the issuance of the notes. The noteholders waived this provision to the extent of \$2,000,000 through April 15, 2004, of which \$1,200,000 was raised. The investors included two of our officers. Interest is payable, in arrears, calendar quarterly. We valued the Warrants, utilizing the Black-Scholes Pricing Model, at \$699,000, which is being accounted for as debt discount and is being amortized ratably over the initial one-year term of the Notes.

On March 12, 2004, we notified the Class B Warrant holders that, to satisfy the 15% non-dilutive provisions of their Warrants, these Warrants were now exercisable for an aggregate of 5,245,200 shares of our common stock at approximately \$0.40 per share. On this date, we also exercised our option to extend the maturity date of the notes to April 30, 2005 and satisfied the requirement for the additional 4% non-dilutive interest in the Company by issuing to the noteholders Class B Warrants to purchase an additional 1,708,900 shares of our common stock at \$0.50 per share. The non-dilutive provisions of the Warrants terminate when all of the notes have been paid in full.

In addition, on September 17, 2003, we sold 1,250,000 shares of our common stock at \$0.40 per share to an existing noteholder and stockholder of the Company.
