## INFORMATION TO BE INCLUDED IN THE REPORT

### Section 8 Other Events

#### Item 8.01

##### Other Events

On April 13, 2011, Wausau Paper Corp. (the Company ) announced that its Board of Directors had approved plans to expand the Company's towel and tissue production capabilities in response to growing demand for its green products. The project will include a new paper machine located at the Company's converting facility in Harrodsburg, Kentucky, with construction expected to begin in the summer of 2011 and start-up expected during the first quarter of 2013.

Total costs associated with the project are expected to be approximately \$220 million, with \$207 million of those costs capitalized and the remainder being project-related expenses relating to equipment relocation, non-capital labor, and start-up. The Company expects to fund the project primarily through cash provided by operations and its already established \$300 million borrowing base, with peak debt levels anticipated during the first quarter of 2013. The Company is targeting an after-tax internal rate of return of approximately 14% from the project, with full benefits anticipated to be realized by 2017.

The Company anticipates that deinked fiber necessary to support production from the new machine will be purchased under long-term supply arrangements.

A copy of the news release describing the project is included as Exhibit 99.1 to this report.
