PART I. Item 1. - FINANCIAL INFORMATION (cont'd.) 3/02-10QSB
 Chesapeake Financial Shares, Inc.
 Notes to Consolidated Financial Statements

1. Chesapeake Financial Shares, Inc. ("CFS) owns 100% of Chesapeake Bank (the "Bank") and Chesapeake Investment Group, Inc. The CFS conducts substantially all of its business activities through the Bank. The CFS also operates Chesapeake Investment Group, Inc. and its subsidiaries Chesapeake Financial Group, Inc., Chesapeake Insurance Agency, Inc., d/b/a Chesapeake Investment Services, and Chesapeake Trust Company. The Bank also is the 100% owner of CNB Properties, Inc. The consolidated financial statements include the accounts of CFS and its wholly owned subsidiaries. All significant intercompany accounts have been eliminated.

2. The accounting and reporting policies of the registrant conform to accounting principles generally accepted in the United States of America and to the general practices within the industry. The interim financial statements have not been audited; however, in the opinion of management, all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the consolidated financial statements have been included.

These financial statements should be read in conjunction with the financial statements and the footnotes included in the registrant's 2001 Annual Report to Shareholders.

3. The following data shows the amounts used in computing earnings per share and the effect on the weighted average number of shares of potential dilutive common stock. The potential common stock will not have a significant impact on net income.

	March 31, 2002	March 31, 2001
	-----	-----
Weighted average number of common shares, basic	1,258,118	1,231,126
Effect of dilutive stock options	20,770	29,079
	-----	-----

PART I. Item 2. - FINANCIAL INFORMATION (cont'd.) 3/02-10QSB
 Chesapeake Financial Shares, Inc.
 Management's Discussion and Analysis of Financial
 Condition or Plan of Operation (Unaudited)

A. Critical Accounting Policies

The financial condition and results of operations presented in the

Edgar Filing: CHESAPEAKE FINANCIAL SHARES INC - Form 10-Q

Consolidated Financial Statements, accompanying notes to the Consolidated Financial Statements, selected financial data appearing elsewhere within this report, and management's discussion and analysis are, to a large degree, dependent upon Chesapeake Financial Shares' accounting policies. The selection and application of these policies involve judgments, estimates and uncertainties that are susceptible to change.

Presented below are discussions of those accounting policies that management believes are the most important (Critical Accounting Policies) to the portrayal and understanding of Chesapeake's financial condition and results of operations. These Critical Accounting Policies require management's most difficult, subjective and complex judgments about matters that are inherently uncertain. In the event that different assumptions or conditions were to prevail, and depending upon the severity of such changes, the possibility of materially different financial conditions or results of operations is a reasonable likelihood.

Allowance for Loan Loss - Chesapeake Bank's management maintains an allowance for loan loss that they feel represents a conservative estimate of potential losses in the Bank's loan portfolio. The methodology incorporates subjective factors into the evaluation of the adequacy of the ALLL such as:

- The effect of volume and trends in delinquencies and nonaccrual loans.
- The effect of trends in portfolio volume, maturity, and composition.
- An estimate of future loss on all significant loans and assessment of underwriting and lending policies and procedures including those for charge off, collection and recovery.
- Experience, ability and depth of lending management and staff.
- The effect of national and local economic conditions and downturns in specific industries.
- Concentrations of credit that might affect loss experience across one or more components of the portfolio.
- The results of any independent reviews of the portfolio.

The lookback period for losses and recoveries was changed in 2001 from a 24 month history to a 15 month history in order to arrive at more accurate historical factors which reflect the effects of current economic conditions on the loan portfolio.

Page: 8

PART I. Item 2. - FINANCIAL INFORMATION (cont'd.) 3/02-10QSB
Chesapeake Financial Shares, Inc.
Management's Discussion and Analysis of Financial
Condition or Plan of Operation (Unaudited)

B. Summary - liquidity and capital resources

Sufficient short-term assets are maintained at Chesapeake Financial Shares to meet cash needs anticipated by management. Management's primary sources of liquidity continue to be federal funds sold, short term borrowings from Federal Home Loan Bank Atlanta, securities maturing within one year, and principal payments from mortgage securities. The repayment and sale of loans also provides liquidity. The total of federal funds sold, securities maturing within one year, and estimated principal payments on mortgage-backed securities within one year at March 31, 2002 was approximately \$20,928,000, compared to \$4,768,000 one year ago and \$15,205,000 at December 31, 2001.

The asset liquidity ratio at March 31, 2002 was 23.1%, compared with

Edgar Filing: CHESAPEAKE FINANCIAL SHARES INC - Form 10-Q

17.7% one year ago. This ratio is arrived at by dividing net liquid assets (sum of total Cash and Due from Banks, including Federal Reserve, unpledged and over pledged portions of Investment Securities at market value, and federal funds sold less reserves required at the Federal Reserve Bank) by net liabilities (total liabilities excluding valuation reserves and capital). Management believes that this asset liquidity ratio combined with liability liquidity through the Federal Home Loan Bank and other lenders represents a sufficient level of liquidity to meet cash needs.

Management believes capital is adequate to meet current needs. Unencumbered capital (total capital net of accumulated other comprehensive income less intangibles plus reserves) as a percent of total adjusted assets (total assets less intangibles plus reserves) was 9.1% at March 31, 2002 and 9.3% at December 31, 2001, for CFS.

Chesapeake Financial Shares and Chesapeake Bank must have a ratio of Tier 1 capital (common equity, retained earnings less certain goodwill) to risk-adjusted assets of at least 4.0%. At March 31, 2002 and December 31, 2001 the bank's ratio of Tier 1 risk-based capital to risk-adjusted assets was 9.2% and 9.4%, respectively. Total risk-based capital to risk weighted assets was 10.4% and 10.6% at March 31, 2002 and December 31, 2001, respectively. Tier one leverage capital was 7.5% and 7.7% at March 31, 2002 and December 31, 2001, respectively.

Page: 9

PART I. Item 2. - FINANCIAL INFORMATION (cont'd.) 3/02-10QSB
Chesapeake Financial Shares, Inc.
Management's Discussion and Analysis of Financial
Condition or Plan of Operation (Unaudited)

C. Results of operations:

Earnings Summary:

Net income was \$674,232 for the three months ended March 31, 2002, compared with income of \$621,904 for the same period in 2001. On a fully diluted per share basis, the net profit was \$0.53 for the first three months of 2002. Earnings per share for the first quarter of 2001 were \$0.49. Net interest income before provision increased \$299,434 or 14.1% and noninterest income increased \$214,044 or 17.1%. The Company experienced a net increase in noninterest expense (which includes other expense) of \$418,402 or 17.7%.

Net Interest Income:

Chesapeake Financial Shares' results of operation are significantly affected by its ability to manage effectively the interest rate sensitivity and maturity of its interest-earning assets and interest-bearing liabilities. At March 31, 2002, the Company's interest-earning assets exceeded its interest-bearing liabilities by approximately \$31.1 million, compared with \$27.1 million excess one year ago.

Net interest margins are 4.64% at March 31, 2002 compared to 4.55% at March 31, 2001. Unlike most of Chesapeake's peer group, margins increased during the falling rate environment of last year. Margins had generally improved during the first half of 2000, but then compression of margins actually occurred as rates continued upward through the end of 2000. Management expected margins to improve during the past year. If rates stay at current levels margins are expected to narrow.

Edgar Filing: CHESAPEAKE FINANCIAL SHARES INC - Form 10-Q

There has been significant growth in interest bearing deposits, savings accounts, and noninterest bearing deposits during the last year. There has been little growth in certificates of deposit. Deposits have been easier to attract during this falling rate environment and market uncertainty.

Page: 10

PART I. Item 2. - FINANCIAL INFORMATION (cont'd.) 3/02-10QSB
Chesapeake Financial Shares, Inc.
Management's Discussion and Analysis of Financial
Condition or Plan of Operation (Unaudited)

Provision for Loan Losses:

The loan loss provision is a charge against earnings necessary to maintain the allowance for loan losses at a level consistent with management's evaluation of the credit quality and risk adverseness of the portfolio. Management makes a quarterly evaluation as to the adequacy of the current loan loss allowance. Management's detailed analysis as of March 31, 2002 supports the adequacy of the current loan loss level of \$2.6 million.

The loan loss allowance is 1.5% of gross loans as of March 31, 2002 and was also 1.5% of gross loans as of December 31, 2001.

Noninterest Income:

Noninterest income is up 17.1% or \$214,044 from the same period last year. Chesapeake Bank's Business Manager product generated \$583,782 in gross revenue for the first three months ended March 31, 2002, compared to the same period last year of \$436,721. Managed assets in the business manager program were \$12,406,036 at March 31, 2002, and \$10,964,328 at March 31, 2001. The merchant card program has generated \$21,793 or 11.2% more in gross revenue through March of this year than in the same period last year due. Income from fiduciary activities was up 9.7%, or \$21,263, from one year ago due to increased business activity in Chesapeake Trust Company.

Noninterest Expenses:

Other expenses are up 30.2%, or \$153,379, over the same period last year due to start up expenses related to the new Gloucester office. Employee salary expense amounted to \$1,031,248 and \$890,852 for the three months ended March 31, 2002 and 2001, respectively. Occupancy expenses were up 31.9% or \$122,474 from March 31, 2001 due primarily to incremental costs and depreciation on the new Gloucester office.

Page: 11

PART I. Item 2. - FINANCIAL INFORMATION (cont'd.) 3/02-10QSB
Chesapeake Financial Shares, Inc.
Management's Discussion and Analysis of Financial
Condition or Plan of Operation (Unaudited)

Assets and Loans:

At March 31, 2002, Chesapeake Financial Shares had total assets of

Edgar Filing: CHESAPEAKE FINANCIAL SHARES INC - Form 10-Q

\$259.4 million, up 5.9% from \$245.0 million at December 31, 2001 and up 13.4% from \$228.8 million of one year ago. Management has budgeted for a 10.6% growth in total assets for 2002.

Total loans (gross) at March 31, 2002 were \$171.5 million, representing an increase of 1.5% from December 31, 2001, when loans were \$169.0 million. Chesapeake Bank's loan quality is good as the following table shows. Management is confident that no serious delinquency trends are developing.

	3/31/02 -----	12/31/01 -----
Nonaccrual loans	\$1,021,246	\$ 822,264
90 days past due	2,499	21,551
Restructured loans	0	0
	-----	-----
Totals	\$1,023,745	\$ 843,815

Management is confident that no significant loss will be incurred as the Bank is well secured on these assets.

Charged off loans through March 31, 2002, amounted to \$167,622. Charged off loans through March 31, 2001 amounted to \$3,032. Recoveries through March 31, 2002 were \$2,190 as compared to \$225 as of March 31, 2001.

Concentrations of credit in loans are compiled quarterly by management and reviewed with the Board of Director's Loan Review Committee. There have been no material changes in the concentrations of credit within the past three months that would warrant above average additions to the allowance. The Bank's only concentrations of credit greater than 70% of capital are individual consumer (224% of capital) and residential real estate (73% of total capital). Bank management feels that the current levels are consistent with the objectives of the Bank and do not represent unwarranted risk.

The Bank's Other Real Estate Owned (OREO) portfolio currently has no properties. The Bank has repossessed assets with a carrying value of \$3,253.

Deposits:

Deposits were \$ 224.3 million at March 31, 2002 and \$211.8 million at December 31, 2001. Deposits were \$200.0 million at March 31, 2001. The Bank's mix of deposit dollars has changed from March 31, 2001. While there was no significant increase in certificates of deposit (0.5%), there was a 24.3% increase in savings and interest bearing deposits and a 25.3% increase in noninterest bearing balances during the same period.

Submission of Matters to a Vote of Security Holders

Chesapeake Financial Shares' annual meeting of shareholders was held on Friday, April 5, 2002 in Irvington, Virginia. We have previously forwarded to the Commission copies of the letter to shareholders, the notice of the meeting, the proxy statement, and the proxy. Over 87% of the shareholders were represented at the meeting in person or by proxy with over 87% voting in favor of the proposals submitted.

PART II. Item 5. - OTHER INFORMATION

Chesapeake Financial Shares, Inc.
Other Information

During the fourth quarter of 2000, the Company satisfactorily completed a Combined Safety and Soundness Examination performed by the Federal Reserve Bank of Richmond. As of December 2000, the Bank and the Company satisfactorily completed Transfer Agent Examination, also performed by the Federal Reserve Bank. Chesapeake completed a Combined Safety and Soundness Examination performed by the Virginia State Corporation Commission, Bureau of Financial Institutions, during the first quarter of 2002. As a result of these examinations management is not aware of any current recommendations of the regulatory authorities, which, if they were implemented, would have a material effect on liquidity, capital resources, or operations of the Bank or Holding Company.
