**Item 8.01. Other Events.**

In July 2006, ESI completed the sale of Sunbury Generation, LLC to Corona Power, LLC. Sunbury Generation's primary asset was the Sunbury generation plant located in Pennsylvania. The gross proceeds received in the transaction were \$34.6 million, subject to various working capital and other post-closing adjustments, and the pre-tax gain to be recorded in the third quarter of 2006 is expected to be approximately \$19 million. This facility sold power on a wholesale basis when market conditions were economically favorable.

Beginning in the second quarter of 2006, WPS Resources began reporting the assets and liabilities of Sunbury that will be transferred to Corona Power, LLC as held for sale and also reported Sunbury's results of operations and cash flows as discontinued operations in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets."

Based upon the foregoing, WPS Resources is filing this Current Report on Form 8-K to revise certain financial statements and related disclosures pertaining to Sunbury for all periods presented in its 2005 Annual Report on Form 10-K and its Form 10-Q for the quarterly period ended March 31, 2006. These revised financial statements and related disclosures are set forth in the attached exhibits to this Form 8-K. These exhibits contain selected information identical to corresponding information contained in the 2005 Annual Report on Form 10-K and the March 31, 2006 Quarterly Report on Form 10-Q, except that the information contained in the exhibits has been updated, in compliance with generally accepted accounting principles, to the extent necessary to reclassify:

- 1) The assets and liabilities of Sunbury that were transferred to Corona Power, LLC in July 2006 as held for sale, and
- 2) Sunbury's results of operations and related cash flows as discontinued operations.

There have been no other events subsequent to December 31, 2005 that would require an update of the financial statements contained in WPS Resources' 2005 Annual Report on Form 10-K or its Form 10-Q for the quarterly period ended March 31, 2006. Reported net income was not impacted by any of these reclassifications.

### Forward-Looking Statements

Except for historical data and statements of current fact, the information contained or incorporated by reference in this document constitutes forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Any references to plans, goals, beliefs or expectations in respect to future events and conditions or to estimates are forward-looking statements. Although we believe that statements of our expectations are based on reasonable assumptions, forward-looking statements are inherently uncertain and subject to risks and should be viewed with caution. Actual results or experience could differ materially from the forward-looking statements as a result of many factors.

In addition to statements regarding trends or estimates in Management's Discussion and Analysis of Financial Condition and Results of Operations, forward-looking statements included or incorporated in this report include, but are not limited to, statements regarding future:

- Revenues or expenses,
- Capital expenditure projections, and
- Financing sources.

Forward-looking statements involve a number of risks and uncertainties. There are many factors that could cause actual results to differ materially from those expressed or implied in this report. Some risk factors that could cause results different from any forward-looking statement include those described in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2005 and as such may be amended or supplemented in Item 1A of this report. Other factors include:

- Timely completion of the proposed merger of Peoples Energy Corporation into WPS Resources (including receipt of the required regulatory approvals) and the successful integration of operations;
- Successful integration of both the Michigan and Minnesota natural gas distribution operations purchased from Aquila, which are now operated by MGUC and MERC, respectively;
- Resolution of pending and future rate cases and negotiations (including the recovery of deferred costs) and other regulatory decisions impacting WPS Resources' regulated businesses;
- The impact of recent and future federal and state regulatory changes, including legislative and regulatory initiatives regarding deregulation and restructuring of the electric and natural gas utility industries, changes in environmental, tax and other laws and regulations to which WPS Resources and its subsidiaries are subject, as well as changes in application of existing laws and regulations;
- Current and future litigation, regulatory investigations, proceedings or inquiries, including but not limited to, manufactured gas plant site cleanup, pending EPA investigations of WPSC's generation facilities and the appeal of the decision in the contested case proceeding regarding the Weston 4 air permit;
- Resolution of audits by the Internal Revenue Service and various state revenue agencies;
- The effects, extent, and timing of additional competition or regulation in the markets in which our subsidiaries operate;
- The impact of fluctuations in commodity prices, interest rates, and customer demand;
- Available sources and costs of fuels and purchased power;
- Ability to control costs;
- Investment performance of employee benefit plan assets;
- Advances in technology;

- Effects of and changes in political, legal, and economic conditions and developments in the United States and Canada;
- The performance of projects undertaken by nonregulated businesses and the success of efforts to invest in and develop new opportunities;
- Potential business strategies, including mergers and acquisitions or dispositions of assets or businesses, which cannot be assured to be completed (such as the proposed merger with Peoples Energy, construction of the Weston 4 power plant, and additional investment in ATC related to construction of the Wausau, Wisconsin, to Duluth, Minnesota, transmission line);
- The direct or indirect effect resulting from terrorist incidents, natural disasters, or responses to such events;
- Financial market conditions and the results of financing efforts, including credit ratings and risks associated with commodity prices (in particular electricity and natural gas), interest rates, and counterparty credit;
- Weather and other natural phenomena; and
- The effect of accounting pronouncements issued periodically by standard-setting bodies.

Except to the extent required by the federal securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise after the date of this report.
