ITEM 1. REPORT TO STOCKHOLDERS.

Management's discussion of

Fund performance

By MFC Global Investment Management (U.S.), LLC

U.S. bonds gained ground during the 12 months ended October 31, 2010. The economy delivered solid growth rates during the first half of the period, but the recovery lost momentum in the last six months, and a sovereign debt crisis in Europe further clouded the economic outlook. These developments sparked a flight to quality, and the resulting increase in demand for the relative safety of Treasury securities sent their yields down to levels not seen in decades. At the same time, the low interest-rate environment led many investors to seek out higher-yielding investments, providing a lift to corporate bonds and commercial mortgage-backed securities. High-yield corporate bonds were the best performers overall, while residential mortgage-backed securities lagged.

For the year ended October 31, 2010, John Hancock Income Securities Trust produced a total return of 19.90% at net asset value (NAV) and 23.85% at market value. The Fund's NAV return and its market performance differ because the market share price is subject to the dynamics of secondary market trading, which could cause it to trade at a discount or premium to the Fund's NAV share price at any time. By comparison, the average UBS leveraged closed-end investment-grade bond fund returned 23.47% at NAV and 28.24% at market value. The Fund lagged the UBS peer group because it had a lower stake in corporate bonds than its best-performing peers and a higher stake in U.S. government securities, which underperformed corporate bonds. The Fund's benchmark, the Barclays Capital Government/Credit Bond Index, returned 8.48%. The Fund's outperformance of its benchmark index was driven primarily by the Fund's allocations within the bond market, particularly an outsized position in corporate bonds. Top contributors among the Fund's corporate holdings included television broadcaster Nexstar Broadcasting, Inc., satellite radio company Canadian Satellite Radio Holdings, Inc. and semiconductor manufacturer Freescale Semiconductor, Inc. On the downside, one of the weaker performers was electric utility TXU Corp. Over the last six months of the period, we made some adjustments to the Fund to reduce its overall risk profile. We lowered its position in corporate bonds, taking profits after the substantial rally in the group, and shifted these assets into Treasury bonds and mortgage-backed securities, which had become more attractive on a relative-value basis.

This commentary reflects the views of the portfolio managers through the end of the Fund's period discussed in this report. The managers' statements reflect their own opinions. As such, they are in no way guarantees of future events, and are not intended to be used as investment advice or a recommendation regarding any specific security. They are also subject to change at any time as market and other conditions warrant.

Past performance is no guarantee of future results.

The major factors in this Fund's performance are interest rates and credit rate risk. When interest rates rise, bond prices usually fall. Generally, an increase in the Fund's average maturity will make it more sensitive to interest-rate risk. Higher-yielding bonds are riskier than lower-yielding bonds, and their value may fluctuate more in response to market conditions.

¹ For the ten-month period ended 10-31-08. The Fund changed its fiscal year end from December 31 to October 31.

² Based on the average daily shares outstanding.

³ Total return based on net asset value reflects changes in the Fund's net asset value during each period. Total return based on market value reflects changes in market value. Each figure assumes that dividend and capital gain distributions, if any, were reinvested. These figures will differ depending upon the level of any discount from or premium to net asset value at which the Fund's shares traded during the period.

⁴ Not annualized.

⁵ Unaudited.

⁶ Annualized.

⁷ Ratios calculated on the basis of expenses relative to the average net assets of common shares. Without the exclusion of preferred shares, the annualized ratio of expenses would have been 0.76%, 0.77% and 0.77% for the periods ended 12-31-07, 12-31-06 and 12-31-05, respectively.

⁸ Ratios calculated on the basis of net investment income relative to the average net assets of common shares. Without the exclusion of preferred shares, the annualized ratio of net investment income would have been 5.82%, 5.45%, and 5.06% for the periods ended 12-31-07, 12-31-06 and 12-31-05, respectively.

⁹ Calculated by subtracting the Fund's total liabilities from the Fund's total assets and dividing that amount by the number of APS outstanding, as of the applicable 1940 Act Evaluation Date, which may differ from the financial reporting date.

¹⁰ In May 2008, the Fund entered into a Credit Facility Agreement with a third-party commercial bank in order to redeem the

APS. The redemption of all APS was completed on 6-12-08.

¹¹ Asset coverage equals the total net assets plus APS divided by the APS of the Fund outstanding at period end.

¹² Asset coverage equals the total net assets plus borrowings divided by the borrowings of the Fund outstanding at period end (Note 8).

Notes to financial statements

Note 1 ☐ Organization

John Hancock Income Securities Trust (the Fund) is a closed-end diversified management investment company registered under the Investment Company Act of 1940, as amended (the 1940 Act).

Note 2 ☐ Significant accounting policies

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which require management to make certain estimates and assumptions at the date of the financial statements. Actual results could differ from those estimates. Events or transactions occurring after the end of the fiscal period through the date that the financial statements were issued have been evaluated in the preparation of the financial statements. The following summarizes the significant accounting policies of the Fund:

Security valuation. Investments are stated at value as of the close of regular trading on the New York Stock Exchange (NYSE), normally at 4:00 P.M., Eastern Time. The Fund uses a three-tier hierarchy to prioritize the pricing assumptions, referred to as inputs, used in valuation techniques to measure fair value. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes significant observable inputs. Observable inputs may include quoted prices for similar securities, interest rates, prepayment speeds and credit risk. Prices for securities valued using these techniques are received from independent pricing vendors and brokers and are based on an evaluation of the inputs described. Level 3 includes significant unobservable inputs when market prices are not readily available or reliable, including the Fund's own assumptions in determining the fair value of investments. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the values by input classification of the Fund's investments as of October 31, 2010, by major security category or type:

| INVESTMENTS IN SECURITIES | TOTAL MARKET VALUE AT 10-31-10 | LEVEL 1 QUOTED PRICE | LEVEL 2 | LEVEL 3 |

*Change in unrealized appreciation (depreciation) attributable to Level 3 securities held at the period end. This balance is included in the change in unrealized appreciation (depreciation) on the Statement of Operations.

During the year ended October 31, 2010, there were no significant transfers in or out of Level 1 or Level 2 assets.

In order to value the securities, the Fund uses the following valuation techniques. Equity securities held by the Fund are valued at the last sale price or official closing price on the principal securities exchange on which they trade. In the event there were no sales during the day or closing prices are not available, then securities are valued using the last quoted bid or evaluated price. Debt obligations are valued based on the evaluated prices provided by an independent pricing service, which utilizes both dealer-supplied and electronic data processing techniques, taking into account factors such as institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics and other market data. Certain securities traded only in the over-the-counter market are valued at the last bid price quoted by brokers making markets in the securities at the close of trading. Certain short-term securities are valued at amortized cost. Other portfolio securities and assets, where market quotations are not readily available, are valued at fair value, as determined in good faith by the Fund's Pricing Committee, following procedures established by the Board of Trustees.

Repurchase agreements. The Fund may enter into repurchase agreements. When a Fund enters into a repurchase agreement, it receives collateral which is held in a segregated account by the Fund's custodian. The collateral amount is marked-to-market and monitored on a daily basis to ensure that the collateral held is in an amount not less than the principal amount of the repurchase agreement plus any accrued interest. In the event of a default by the counterparty, realization of the collateral proceeds could be delayed, during which time the collateral value may decline.

Security transactions and related investment income. Investment security transactions are accounted for on a trade date plus one basis for daily net asset value calculations. However, for financial reporting purposes, investment transactions are reported on trade date. Interest income is accrued as earned. Gains and losses on securities sold are determined on the basis of identified cost and may include proceeds from litigation. Dividend income is recorded on the ex-date, except for certain foreign dividends where the ex-date may have passed, which are recorded when the Fund becomes aware of the dividends. Interest income includes coupon interest and amortization/accretion of premiums/discounts on debt securities. Debt obligations may be placed in a non-accrual status and related interest income may be reduced by stopping current

Annual report | Income Securities Trust 29

accruals and writing off interest receivable when the collection of all or a portion of interest has become doubtful.

Payment-in-kind bonds. The Fund may invest in payment-in-kind bonds (PIK Bonds). PIK Bonds allow the issuer, at its option, to make current interest payments on the bonds either in cash or in additional bonds. The market prices of PIK Bonds are affected to a greater extent by interest rate changes and thereby tend to be more volatile than securities which pay cash interest periodically. The Fund accrues income on these securities and this income is required to be distributed to shareholders. Because no cash is received at the time income accrues on these securities, the Fund may need to sell other investments to make distributions.

Real estate investment trusts. From time to time, the Fund may invest in real estate investment trusts (REITs) and, as a result, will estimate the components of distributions from these securities. Distributions from REITs received in excess of income are recorded as a reduction of cost of investments and/or as a realized gain.

Stripped securities. Stripped mortgage backed securities are financial instruments that derive their value from other instruments so that one class receives the entire principal from the underlying mortgage assets (PO or principal only), while the other class receives the interest cash flows (IO or interest only). Both PO and IO investments represent an interest in the cash flows of an underlying stripped mortgage backed security. If the underlying mortgage assets experience greater than anticipated prepayments of principal, the Fund may fail to fully receive its initial investment in an IO security. The market value of these securities can be extremely volatile in response to changes in interest rates. In addition, these securities present additional credit risk such that the Fund may not receive all or part of its principal because the counterparty or issuer has defaulted on its obligation.

Overdrafts. Pursuant to the custodian agreement, the Fund's custodian may, in its discretion, advance funds to the Fund to make properly authorized payments. When such payments result in an overdraft, the Fund is obligated to repay the custodian for any overdraft, including any costs or expenses associated with the overdraft. The custodian has a lien, security interest or security entitlement in any Fund property, that is not segregated, to the maximum extent permitted by law to the extent of any overdraft.

Expenses. The majority of expenses are directly attributable to an individual fund. Expenses that are not readily attributable to a specific fund are allocated among all funds in an equitable manner, taking into consideration, among other things, the nature and type of expense and the fund's relative assets. Expense estimates are accrued in the period to which they relate and adjustments are made when actual amounts are known.

Federal income taxes. The Fund intends to qualify as a regulated investment company by complying with the applicable provisions of the Internal Revenue Code and will not be subject to federal income tax on taxable income that is distributed to shareholders. Therefore, no federal income tax provision is required.

For federal income tax purposes, the Fund has a capital loss carryforward of \$17,851,774 available to offset future net realized capital gains as of October 31, 2010. The following table details the capital loss carryforward available as of October 31, 2010.

CAPITAL LOSS CARRYFORWARD EXPIRING AT
OCTOBER 31

| 2012 | 2013 | 2014 | 2015 | 2016 | 2017 | 2018 |
|-------------|-------------|-------------|-------------|-------------|-------------|-----------|
| \$2,123,466 | \$2,443,482 | \$3,342,775 | \$1,351,797 | \$1,367,076 | \$6,785,450 | \$437,728 |

As of October 31, 2010, the Fund had no uncertain tax positions that would require financial statement recognition, de-recognition or disclosure. The Fund's federal tax return is subject to examination by the Internal Revenue Service for a period of three years.

Distribution of income and gains. Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-date. The Fund generally declares and pays dividends quarterly and capital gain distributions, if any, annually. The tax character of distributions for the years ended October 31, 2010 and October 31, 2009 was as follows:

| | OCTOBER 31, 2010 | OCTOBER 31, 2009 |
|-----------------|------------------|------------------|
| Ordinary Income | \$13,367,891 | \$12,871,827 |

As of October 31, 2010, the components of distributable earnings on a tax basis included \$987,438 of undistributed ordinary income.

Such distributions and distributable earnings, on a tax basis, are determined in conformity with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. Material distributions in excess of tax basis earnings and profits, if any, are reported in the Fund's financial statements as a return of capital.

Capital accounts within financial statements are adjusted for permanent book-tax differences. These adjustments have no impact on net assets or the results of operations. Temporary book-tax differences, if any, will reverse in a subsequent period. Book-tax differences are primarily attributable to pay-downs, defaulted bonds, derivative transactions and amortization and accretion on debt securities.

Statement of cash flows. Information on financial transactions that have been settled through the receipt and disbursement of cash is presented in the Statement of Cash Flows. The cash amount shown in the Statement of Cash Flows is the amount included in the Fund's Statement of Assets and Liabilities and represents the cash on hand at its custodian and does not include any short-term investments.

Note 3 □ Derivative instruments

The Fund may invest in derivatives, including futures contracts and swap contracts, in order to meet its investment objectives. The use of derivatives may involve risks different from, or potentially greater than, the risks associated with investing directly in securities. Specifically, derivatives expose the Fund to the risk that the counterparty to an over-the-counter (OTC) derivatives contract will be unable or unwilling to make timely settlement payments or otherwise honor its obligations. OTC derivatives transactions typically can only be closed out with the other party to the transaction. If the counterparty defaults, the Fund will have contractual remedies, but there is no assurance that the counterparty will meet its contractual obligations or that the Fund will succeed in enforcing them.

Futures. A futures contract is a contractual agreement to buy or sell a particular commodity, currency, or financial instrument at a pre-determined price in the future. Risks related to the use of futures contracts include possible illiquidity of the futures markets, contract prices that can be highly volatile and imperfectly correlated to movements in hedged security values and/or interest rates and potential losses in excess of the Fund's initial investment.

Futures contracts are valued at the quoted daily settlement prices established by the exchange on which they trade. Upon entering into a futures contract, the Fund is required to deposit initial margin with the broker in the form of cash or securities. The amount of required margin is generally based on a percentage of the contract value; this amount is the initial margin for the trade. The margin deposit must then be maintained at the established level over the life of the contract.

Annual report | Income Securities Trust 31

Futures contracts are marked-to-market daily and an appropriate payable or receivable for the change in value (variation margin) is recorded by the Fund.

During the year ended October 31, 2010, the Fund used futures contracts to manage duration of the portfolio. The following table summarizes the contracts held at October 31, 2010. The range of futures contracts absolute notional amounts held by the Fund during the year ended October 31, 2010 was \$2.7 million to \$7.5 million.

| OPEN CONTRACTS | NUMBER OF CONTRACTS | POSITION | EXPIRATION DATE | VALUE (USD) | UNREALIZED APPRECIATION (DEPRECIATION) |

Interest rate swaps. Interest rate swaps represent an agreement between a Fund and counterparty to exchange cash flows based on the difference between two interest rates applied to a notional amount. The payment flows are usually netted against each other, with the difference being paid by one party to the other. The Fund settles accrued net interest receivable or payable under the swap contracts on a periodic basis. Swaps are marked-to-market daily based upon values from third party vendors or broker quotations, and the change in value is recorded as unrealized appreciation/ depreciation of swap contracts.

Entering into swap agreements involves, to varying degrees, elements of credit, market and documentation risk that may amount to values that are in excess of the amounts recognized on the Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for the swap, that a counterparty may default on its obligation or delay payment under the swap terms. The counterparty may disagree or contest the terms of the swap. Market risks may also accompany the swap, including interest rate risk. The Fund may also suffer losses if it is unable to terminate or assign outstanding swaps or reduce its exposure through offsetting transactions.

There were no open interest rate swap contracts at October 31, 2010.

Fair value of derivative instruments by risk category

The table below summarizes the fair value of derivatives held by the Fund at October 31, 2010 by risk category:

Note 4 ☐ Guarantees and indemnifications

Under the Fund's organizational documents, its Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss from such claims is considered remote.

Note 5 ☐ Fees and transactions with affiliates

John Hancock Advisers, LLC (the Adviser) serves as investment adviser for the Fund. The Adviser is an indirect wholly owned subsidiary of Manulife Financial Corporation (MFC).

Management fee. The Fund has an investment management contract with the Adviser under which the Fund pays a daily management fee to the Adviser equivalent, on an annual basis, to the sum of (a) 0.650% of the first \$150,000,000 of the Fund's average daily net assets and the value attributable to the committed facility agreement (collectively, managed assets), (b) 0.375% of the next \$50,000,000, (c) 0.350% of the next \$100,000,000 and (d) 0.300% of the Fund's average daily managed assets in excess of \$300,000,000. The Adviser has a subadvisory agreement with MFC Global Investment Management (U.S.), LLC, an indirectly owned subsidiary of MFC and an affiliate of the Adviser. The Fund is not responsible for payment of the subadvisory fees.

The investment management fees incurred for the year ended October 31, 2010, were equivalent to an annual effective rate of 0.54% of the Fund's managed assets.

Accounting and legal services. Pursuant to the service agreement the Fund reimburses the Adviser for all expenses associated with providing the administrative, financial, legal, accounting and recordkeeping services of the Fund, including the preparation of all tax returns, periodic reports to shareholders and regulatory reports, among other services. The accounting and legal services fees incurred for the year ended October 31, 2010, amounted to an annual rate of 0.01% of the Fund's average daily net assets.

Trustee expenses. The Trust compensates each Trustee who is not an employee of the Adviser or its affiliates. These Trustees may, for tax purposes, elect to defer receipt of this compensation under the John Hancock Group of Funds Deferred Compensation Plan (the Plan). Deferred amounts are invested in various John Hancock funds and remain in the funds until distributed in accordance with the Plan. The investment of deferred amounts and the offsetting liability are included within other receivables and payable to affiliates – Trustees' fees, respectively, in the accompanying Statement of Assets and Liabilities.

Note 6 – Fund share transactions

Transactions in Fund shares for the year ended October 31, 2010 and for the year ended October 31, 2009, were as follows:

| | Year ended 10-31-10 | | Year ended 10-31-09 | |
|--------------------------|---------------------|-------------|---------------------|-------------|
| | Shares | Amount | Shares | Amount |
| Distributions reinvested | 77,303 | \$1,079,434 | 95,623 | \$1,059,251 |

Note 7 – Leverage risk

The Fund utilizes a Committed Facility Agreement (CFA) to increase its assets available for investment. When the Fund leverages its assets, common shareholders bear the fees associated with the facility and have the potential to benefit or be disadvantaged from the use of leverage. The Adviser's fee is also increased in dollar terms from the use of leverage. Consequently, the Fund and the Adviser may have differing interests in determining whether to leverage the Fund's assets. Leverage creates risks that may adversely affect the return for the holders of common shares, including:

- the likelihood of greater volatility of net asset value and market price of common shares
- fluctuations in the interest rate paid for the use of the credit facility
- increased operating costs, which may reduce the Fund's total return
- the potential for a decline in the value of an investment acquired through leverage, while the Fund's obligations under such leverage remains fixed
- the Fund is more likely to have to sell securities in a volatile market in order to meet asset coverage or other debt compliance requirements

To the extent the income or capital appreciation derived from securities purchased with funds received from leverage exceeds the cost of leverage, the Fund's return will be greater than if leverage had not been used, conversely, returns would be lower if the cost of the leverage exceeds the income or capital appreciation derived.

Note 8 – Committed facility agreement

Effective June 2, 2009, the Fund entered into a CFA with a subsidiary of BNP Paribas (BNP) that allowed it to borrow up to an initial limit of \$58 million and to invest the borrowings in accordance with its investment practices. The Fund incurred a \$145,000 arrangement fee upon execution of the CFA which was amortized during the first 270 days of the agreement. On December 17, 2009, the Fund entered into an amendment to the CFA, increasing the amount the Fund can borrow under the CFA from \$58 million to \$90 million. Under the terms

of the amendment, the Fund paid a one time arrangement fee of 0.25% on the increased amount of the committed financing upon execution of the amendment which was amortized during the first 270 days of the amendment.

Borrowings under the CFA are secured by the assets of the Fund as disclosed in the Fund's investments. Interest charged is at the rate of one month LIBOR (reset daily) plus 0.85% and

34 Income Securities Trust | **Annual report**

is payable monthly. The Fund also pays a commitment fee of 0.60% per annum on the unused portion of the facility. Commitment and arrangement fees for the year ended October 31, 2010 amounted to \$54,275 and \$143,907, respectively, and are included in the interest expense in the Statement of Operations. As of October 31, 2010, the Fund had borrowings of \$83,500,000 at an interest rate of 1.10%, which are reflected in the Committed facility agreement payable on the Statement of asset and liabilities. During the year ended October 31, 2010, the average borrowing under the CFA and the effective average interest rate were \$77,045,205 and 1.12%, respectively.

The Fund may terminate the agreement with 270 days' notice and, if the Board of Trustees determines that the elimination of all indebtedness leveraging the Fund's investments is in the best interest of the Fund's shareholders, the Fund may terminate the agreement with 60 days' notice. In addition, if certain asset coverage and collateral requirements, minimum net assets or other covenants are not met, the CFA could be deemed in default and result in termination.

On October 30, 2009, the Fund entered into an agreement with BNP that allows BNP to borrow a portion of the pledged collateral (Lent Securities) in an amount not to exceed the lesser of: (i) outstanding borrowings owed by the Fund to BNP and (ii) thirty three and one third percent of the Fund's total assets. The Fund can designate any security within the pledged collateral as ineligible to be a Lent Security and can recall any of the Lent Securities. The Fund also has the right to apply and set-off an amount equal to one hundred percent (100%) of the then-current fair market value of such Lent Securities against the current borrowings under the CFA. There has been no lending activity under this agreement during the year.

Note 9 – Purchase and sale of securities

Purchases and sales of securities, other than short-term securities and U.S. Treasury obligations, aggregated to \$157,632,617 and \$134,868,656, respectively, for the year ended October 31, 2010. Purchases and sales of U.S. Treasury obligations aggregated to \$52,363,046 and \$50,212,819, respectively, for the year ended October 31, 2010.

Auditors' report

Report of Independent Registered Public Accounting Firm

To the Board of Trustees and Shareholders of John Hancock Income Securities Trust:

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations, of changes in net assets and of cash flows and the financial highlights present fairly, in all material respects, the financial position of John Hancock Income Securities Trust (the "Fund") at October 31, 2010, and the results of its operations, the changes in its net assets, its cash flows and the financial highlights for each of the periods indicated, in conformity with accounting principles generally accepted

in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities as of October 31, 2010 by correspondence with the custodian and brokers, and the application of alternative auditing procedures where securities purchased confirmations had not been received, provide a reasonable basis for our opinion.

Investment objective and policy

The Fund is a closed-end diversified management investment company, common shares of which were initially offered to the public on February 14, 1973, and are publicly traded on the NYSE. The Fund's investment objective is to generate a high level of current income consistent with prudent investment risk. The Fund invests, primarily in a diversified portfolio of freely marketable debt securities and may invest an amount not exceeding 20% of its assets in income-producing preferred and common stock. Under normal circumstances, the Fund will

invest at least 80% of net assets in income securities. Income securities will consist of the following: (i) marketable corporate debt securities, (ii) governmental obligations and (iii) cash and commercial paper. [Net assets] is defined as net assets plus borrowings for investment purposes. The Fund will notify shareholders at least 60 days prior to any change in this 80% investment policy.

It is contemplated that at least 75% of the value of the Fund's total assets will be represented by debt securities, which have at the time of purchase a rating within the four highest grades as determined by Moody's Investors Service, Inc. or Standard & Poor's Corporation. The Fund intends to engage in short-term trading and may invest in repurchase agreements.

Bylaws and Declaration of Trust

In November 2002, the Board of Trustees adopted several amendments to the Fund's bylaws, including provisions relating to the calling of a special meeting and requiring advance notice of shareholder proposals or nominees for Trustee. The advance notice provisions in the bylaws require shareholders to notify the Fund in writing of any proposal which they intend to present at an annual meeting of shareholders, including any nominations for Trustee, between 90 and 120 days prior to the first anniversary of the mailing date of the notice from the prior year's annual meeting of shareholders. The notification must be in the form prescribed by the bylaws. The advance notice provisions provide the Fund and its Trustees with the opportunity to thoughtfully consider and address the matters proposed before the Fund prepares and mails its proxy statement to shareholders. Other amendments set forth the procedures that must be followed in order for a shareholder to call a special meeting of shareholders. Please contact the Secretary of the Fund for additional information about the advance notice requirements or the other amendments to the bylaws.

On August 21, 2003, shareholders approved the amendment of the Fund's bylaws effective August 26, 2003, to provide for the issuance of preferred shares.

On March 31, 2008, the shareholders approved an amendment to the Fund's Declaration of Trust to permit the Fund's Board of Trustees to delegate the authority to declare dividends to a Dividend Committee consisting of officers, employees or agents of the Fund.

Effective September 9, 2008, the Fund's bylaws were amended with respect to notice requirements for Trustee nominations and other proposals by the Fund's shareholders. These provisions require the disclosure of the nominating shareholder and the nominee's investment interests as they relate to the Fund, as well as the name of any other shareholder supporting the nominee for election as a Trustee or the proposal of other business. In order for notice to be proper, such notice must disclose the economic interests of the nominating shareholder and nominee, including his or her holdings of shares in the Fund, the intent upon which those shares were acquired, and any hedging arrangements (including leveraged or short positions) made with respect to the shares of the Fund. Additionally, any material interest that the shareholder has in the business to be brought before the meeting must be disclosed.

Dividends and distributions

During the year ended October 31, 2010, dividends from net investment income totaling \$1.16 per share were paid to shareholders. The dates of payments and the amounts per share were as follows:

| PAYMENT DATE | INCOME DIVIDEND |
|-------------------|--------------------|
| December 31, 2009 | \$0.2914 |
| March 31, 2010 | 0.2755 |

| | |
|--------------------|----------|
| June 30, 2010 | 0.3027 |
| September 30, 2010 | 0.2916 |
| Total | \$1.1612 |

Dividend reinvestment plan

The Fund offers its common shareholders a Dividend Reinvestment Plan (the Plan), which offers the opportunity to earn compounded yields. Any holder of common shares of record of the Fund may elect to participate in the Plan and receive the Fund's common shares in lieu of all or a portion of the cash dividends. The Plan is available to all common shareholders without charge. Mellon Investor Services (the Plan Agent) will act as agent for participating shareholders.

Shareholders may join the Plan by notifying the Plan Agent by telephone, in writing or by visiting the Plan Agent's Web site at www.melloninvestor.com showing an election to reinvest all or a portion of dividend payments. If received in proper form by the Plan Agent prior to the record date for a dividend, the election will be effective with respect to all dividends paid after such record date. Shareholders whose shares are held in the name of a broker or nominee should contact the broker or nominee to determine whether and how they may participate in the Plan.

The Board of Trustees of the Fund has authorized the Dividend Committee to declare dividends from net investment income payable in cash or, in the case of shareholders participating in the Plan, partially or entirely in the Fund's common shares. The number of shares to be issued for the benefit of each shareholder will be determined by dividing the amount of the cash dividend, otherwise payable to such shareholder on shares included under the Plan, by the per share net asset value of the common shares on the date for payment of the dividend, unless the net asset value per share on the payment date is less than 95% of the market price per share on that date, in which event the number of shares to be issued to a shareholder will be determined by dividing the amount of the cash dividend payable to such shareholder, by 95% of the market price per share of the common shares on the payment date. The market price of the common shares on a particular date shall be the mean between the highest and lowest sales price on the NYSE on that date. Net asset value will be determined in accordance with the established procedures of the Fund. However, if as of such payment date the market price of the common shares is lower than such net asset value per share, the number of shares to be issued will be determined on the basis of such market price. Fractional shares, carried out to four decimal places, will be credited to the shareholder's account. Such fractional shares will be entitled to future dividends.

The shares issued to participating shareholders, including fractional shares, will be held by the Plan Agent in the name of the participant. A confirmation will be sent to each shareholder promptly, normally within five to seven days, after the payment date of the dividend. The confirmation will show the total number of shares held by such shareholder before and after the dividend, the amount of the most recent cash dividend that the shareholder has elected to reinvest and the number of shares acquired with such dividend.

Participation in the Plan may be terminated at any time by contacting the Plan Agent by telephone, in writing or by visiting the Plan Agent's Web site, and such termination will be effective immediately. However, notice of termination must be received prior to the record date of any distribution to be effective for that distribution. Upon termination,

certificates will be issued representing the number of full shares of common shares held by the Plan Agent. A shareholder will receive a cash payment for any fractional share held.

The reinvestment of dividends will not relieve participants of any federal, state or local income tax, which may be due with respect to such dividend. Dividends reinvested in common shares will be treated on your federal income tax return as though you had received a dividend in cash in an amount equal to the fair market value of the

shares received, as determined by the prices for common shares of the Fund on the NYSE as of the dividend payment date. Distributions from the Fund's long-term capital gains will be processed as noted above for those electing to reinvest in common shares and will be taxable to you as long-term capital gains. The confirmation referred to above will contain all the information you will require for determining the cost basis of shares acquired and should be retained for that purpose. At year end, each account will be supplied with detailed information necessary to determine total tax liability for the calendar year. All correspondence or additional information concerning the Plan should be directed to the Plan Agent, Mellon Bank, N.A., c/o Mellon Investor Services, P.O. Box 358015, Pittsburgh, PA 15252-8015 (Telephone: 1-800-852-0218).

Certain modifications to the Plan have been approved by the Board of Trustees on December 7, 2010. These modifications will be provided to shareholders at least 90 days prior to implementation.

Board Consideration of and Continuation of Investment Advisory Agreement and Subadvisory Agreement

The Board of Trustees (the Board, the members of which are referred to as Trustees) of John Hancock Income Securities Trust (the Fund) met in-person on May 2nd and June 6th, 2010 to consider the approval of the Fund's investment advisory agreement (the Advisory Agreement) with John Hancock Advisers, LLC (the Adviser), the Fund's investment adviser. The Board also considered the approval of the investment subadvisory agreement (the Subadvisory Agreement) among the Adviser, MFC Global Investment Management (U.S.), LLC (the Subadviser) and the Fund. The Advisory Agreement and the Subadvisory Agreement are referred to as the Agreements.

Activities and composition of the Board

The Board consists of eleven individuals, nine of whom are Independent Trustees. Independent Trustees are generally those individuals who are unaffiliated with the Fund, the Adviser and the Subadviser. The Trustees are responsible for the oversight of operations of the Fund and perform the various duties required of directors of investment companies by the Investment Company Act of 1940, as amended (the 1940 Act). The Independent Trustees have retained independent legal counsel to assist them in connection with their duties. The Board has appointed an Independent Trustee as Chairperson. The Board has established four standing committees that are composed entirely of Independent Trustees: the Audit Committee; the Compliance Committee; the Nominating, Governance and Administration Committee; and the Contracts/Operations Committee. Additionally, Investment Performance Committee A is a standing committee of the Board that is composed of Independent Trustees and one Trustee who is affiliated with the Adviser. Investment Performance Committee A oversees and monitors matters relating to the investment performance of the Fund. The Board has also designated a Vice Chairperson to serve in the absence of the Chairperson, who also serves as Chairman of the Board's Nominating, Governance and Administration Committee. The Board also designates working groups or ad hoc committees as it deems

appropriate.

The approval process

Pursuant to the 1940 Act, the Board is required to consider the continuation of the Agreements on an annual basis. Throughout the year, the Board, acting directly and through its committees, regularly reviews and assesses the quality of the services that the Fund receives under these Agreements. In this regard, the Board reviews reports of the Adviser at least quarterly, which include, among other things, Fund performance reports and compliance reports. In addition, the Board meets with portfolio managers and senior investment officers at various times throughout the year. The Board considers at each of its meetings factors that are relevant to its annual consideration of the renewal of the Agreements, including the services and support provided by the Adviser and Subadviser to the Fund and its shareholders.

Prior to the May 27, 2010 meeting, the Board requested and received materials specifically relating to the Agreements. The materials provided in connection with the May meeting included information independently compiled and prepared by Morningstar, Inc. (Morningstar) on Fund fees and expenses, and the investment performance of the Fund. This Fund information is assembled in a format that permits comparison with similar information from a category of relevant funds (the Category) and a peer group of comparable funds (the Peer Group) as determined by Morningstar, and its benchmark index. Other material provided for the Fund review included (a) information on the profitability of the Agreements to the Adviser and a discussion of any additional benefits to the Adviser and its affiliates that result from being the Adviser or Subadviser to the Fund; (b) a general analysis provided by the Adviser and the Subadviser concerning investment advisory fees charged to other clients, such as institutional clients and other investment companies, under similar investment mandates, as well as the performance of such other clients; (c) the impact of economies of scale; and (d) a summary of aggregate amounts paid by the Fund to the Adviser.

Annual report | Income Securities Trust 41

At an in-person meeting held on May 27, 2010, the Board reviewed materials relating to its consideration of the Agreements. As a result of the discussions that occurred during the May 27, 2010 meeting, the Board presented the Adviser and Subadviser with questions and requests for additional information and the Adviser and Subadviser responded to these requests with additional written information in advance of the June 8, 2010 Board meeting. The Board also reviewed these additional materials relating to its consideration of the Agreements.

At an in-person meeting held on June 8, 2010, the Board, including the Independent Trustees, formally considered the continuation of the Advisory Agreement between the Adviser and the Fund and the Subadvisory Agreement among the Adviser, the Subadviser and the Fund, each for an additional one-year term. The Board considered all factors it believed relevant with respect to the Fund, including, among other factors: (a) the nature, extent and quality of the services provided by the Adviser and the Subadviser; (b) the investment performance of the Fund and portfolio management of the Subadviser; (c) the advisory fees and the cost of the services and profits to be realized by the Adviser and certain affiliates from their relationship with the Fund; (d) economies of scale; and (e) other factors.

The Board also considered other matters important to the approval process, such as payments made to the Adviser or its affiliates relating to the distribution of Fund shares and other services. The Board reviewed services related to the valuation and pricing of Fund portfolio holdings. Other important matters considered by the Board were the direct and indirect benefits to the Adviser, the Subadviser, and their affiliates from their relationship with the Fund and advice from independent legal counsel with respect to the review process and materials submitted for the Board's review. Each Trustee may have attributed different weights to the various items considered.

The key factors considered by the Board and the conclusions reached are described below.

Nature, extent and quality of services

The Board, including the Independent Trustees, reviewed the nature, extent and quality of services provided by the Adviser and the Subadviser, including the investment advisory services and the resulting performance of the Fund. The Board reviewed the Adviser's and Subadviser's senior management personnel responsible for investment operations, including the senior investment officers. The Board also reviewed the materials provided by the Fund's portfolio management team discussing Fund performance and the Fund's investment objective, strategies and outlook.

The Board considered the ability of the Adviser and the Subadviser, based on their resources, reputation and other attributes, to attract and retain qualified investment professionals, including research, advisory, and supervisory personnel. It considered the background and experience of senior management and investment professionals responsible for managing the Fund. The Board considered the investment philosophy, research and investment decision-making processes of the Adviser and the Subadviser responsible for the daily investment activities of the Fund, including, among other things, portfolio trading capabilities, use of technology, commitment to compliance and approach to training and retaining portfolio managers and other research, advisory and management personnel.

The Board considered the Subadviser's history and experience with the Fund. The Board considered the Adviser's execution of its oversight responsibilities. The Board further considered the culture of compliance, resources dedicated to compliance, compliance programs, record of compliance with applicable laws and regulation, with the Fund's investment policies and restrictions and with the applicable Code of Ethics, and the responsibilities of the Adviser's and Subadviser's compliance departments.

In addition to advisory services, the Board considered the quality of the administrative and non-investment advisory services provided to the Fund by the Adviser under a separate agreement.

42 Income Securities Trust | **Annual report**

The Board noted that the Adviser and its affiliates provide the Fund with certain administrative, transfer agency, shareholder and other services (in addition to any such services provided to the Fund by third parties) and officers and other personnel as are necessary for the operations of the Fund. The Board reviewed the structure and duties of the Adviser's administration, accounting, legal and compliance departments and considered the Adviser's policies and procedures for assuring compliance with applicable laws and regulations.

The Board also received information about the nature, extent and quality of services and fee rates offered by the Adviser and Subadviser to their other clients, including other registered investment companies, institutional investors and separate accounts. The Board reviewed a general analysis provided by the Adviser and the Subadviser concerning investment advisory fees charged to such other clients under similar investment mandates, the services provided to such other clients as compared to the services provided to the Fund, the performance of such other clients, and other factors relating to such other clients. The Board considered the significant differences between the Adviser's and Subadviser's services to the Fund and those services they provide to other clients which, to the extent the other client is not a closed-end fund, may generally be attributable to the more burdensome regulatory and legal obligations of closed-end funds and the higher turnover of closed-end fund assets.

Fund performance

The Board, including the Independent Trustees, reviewed and considered the performance history of the Fund. The Board was provided with reports, independently prepared by Morningstar, which included a comprehensive analysis of the Fund's performance. The Board also reviewed a narrative and statistical analysis of the Morningstar data that was prepared by the Adviser, which analyzed various factors that may affect the Morningstar rankings. The Board reviewed information regarding the investment performance of the Fund as compared to its Morningstar Category and Peer Group as well as its benchmark index (see chart below). The Board was provided with a description of the methodology used by Morningstar to select the funds in the Category and the Peer Group. The Board also considered updated performance information provided by the Adviser at its May and June 2010 meetings. The Board regularly reviews the performance of the Fund throughout the year and attaches more importance to performance over relatively longer periods of time, typically three to

Edgar Filing: HANCOCK JOHN INCOME SECURITIES TRUST /MA - Form N-CSR

five years. The Board noted that the Fund significantly exceeded the performance of its Peer Group median, its Category median and its benchmark index during the past year and that performance for the 3-, 5- and 10-year periods tracked well with its comparison groups.

| | 1 YEAR | 3 YEAR | 5 YEAR | 10 YEAR |
|---|---------------|--------------|--------------|--------------|
| Income Securities | 47.42% | 4.59% | 4.26% | 6.47% |
| Barclays Capital U.S. Government Bond Index | 4.52% | 5.81% | 4.71% | 6.34% |
| Intermediate Government Category Median | 27.97% | 4.92% | 4.90% | 6.61% |
| Morningstar 15(c) Peer Group Median | 27.97% | 4.71% | 4.60% | 6.45% |

The Board noted that the Subadviser remained consistent with its investment style and adhered to its investment mandates.

Expenses and fees

The Board, including the Independent Trustees, reviewed the Fund's contractual advisory fee rate payable by the Fund to the Adviser as compared with the other funds in its Category and Peer Group. The Board also received information about the investment subadvisory fee rate payable by the Adviser to the Subadviser for investment subadvisory services. The Board considered the services provided and the fees charged by the Adviser and the Subadviser to other types of clients with similar investment mandates, including separately managed institutional accounts.

Annual report | Income Securities Trust 43

In addition, the Board considered the cost of the services provided to the Fund by the Adviser. The Board received and considered expense information regarding the Fund's various components, including advisory fees, distribution fees and fees other than advisory and distribution fees, including transfer agent fees, custodian fees, administration fees and other miscellaneous fees (*e.g.*, fees for accounting and legal services). The Board considered comparisons of these expenses to the Peer Group median. The Board also considered expense information regarding the Fund's total operating expense ratio (Gross Expense Ratio) and total operating expense ratio after taking the fee waiver arrangement applicable to the Advisory Agreement rate into account (Net Expense Ratio). The Board considered information comparing the Gross Expense Ratio and Net Expense Ratio of the Fund to that of the Peer Group and Category medians. As part of its analysis, the Board reviewed the Adviser's methodology in allocating its costs to the management of the Fund. The Board considered expenses and fee rates to be higher or lower if they were over or under 10 basis points, respectively; slightly higher or slightly lower if they were above or below 6-10 basis points, respectively, and inline if they were above or below 5 basis points.

The Board noted that the investment advisory rate was higher than the Category and Peer Group medians. The Board noted the following information about the Fund's Gross and Net Expense Ratios in relation with the Fund's Peer Group and Category:

| EXPENSE RATIO | | RELATION TO PEER GROUP | RELATION TO CATEGORY |
|-------------------------------|-------|------------------------|----------------------|
| Gross Expense Ratio (Class A) | 2.25% | Higher | Slightly Lower |

| | | | |
|-----------------------------|-------|--------|--------|
| Net Expense Ratio (Class A) | 1.40% | Higher | Higher |
|-----------------------------|-------|--------|--------|

The Board also received and considered information relating to the Fund's use of leverage and its impact on fees.

The Board received and reviewed statements relating to the Adviser's financial condition and profitability with respect to the services it provides the Fund. The Board was also provided with a profitability analysis that detailed the revenues earned and the expenses incurred by the Adviser for services provided to the Fund. The Board reviewed the Adviser's profitability with respect to the Fund and other funds the Board currently oversees for the year ended December 31, 2009 compared to available aggregate profitability data provided for the year ended December 31, 2008.

The Board received and considered a detailed profitability analysis of the Adviser based on the Advisory Agreement, as well as on other relationships between the Fund and the Adviser and its affiliates. The Board also considered a comparison of the Adviser's profitability to that of other similar investment advisers whose profitability information is publicly available. The Board reviewed the Adviser's profitability with respect to other fund complexes managed by the Adviser and/or its affiliates. The Board reviewed the Adviser's assumptions and methodology of allocating expenses in the profitability analysis, noting the inherent limitations in allocating costs among various advisory products. The Board recognized that profitability may be affected by numerous factors including, among other things, fee waivers and expense reimbursements by the Adviser, the types of funds managed, expense allocations and business mix, and therefore comparability of profitability is somewhat limited.

The Board considered the profitability information with respect to the Subadviser, which is affiliated with the Adviser. In addition, as noted above, the Board considered the methodologies involved in allocating such profit to the Subadviser.

Economies of scale

The Board, including the Independent Trustees, considered the extent to which economies of scale might be realized as the assets of the Fund increase and whether there should be changes in the advisory fee rate or structure in order to enable the Fund to participate in these economies of scale, for example through the use of breakpoints in the advisory fee based upon the assets of the Fund.

The Board also considered the Adviser's overall operations and its efforts to expand the scale of, and improve the quality of, its operations. During its considerations, the Board recognized the limited significance of economies of scale with respect to closed-end funds.

The Board recognized the inherent limitations of any analysis of economies of scale, stemming largely from the Board's understanding that most of the Adviser's costs are not specific to individual funds, but rather are incurred across a variety of products and services. To ensure that any economies are reasonably shared with the Fund as its assets increase, the Adviser and the Board agreed to continue the existing breakpoints to the Agreement fee rate.

Other benefits to the Adviser and the Subadviser

The Board understands that the Adviser, the Subadviser, or their affiliates may derive other ancillary benefits from their relationship with the Fund, both tangible and intangible, such as their ability to leverage investment professionals who manage other portfolios, an increase in their profile in the investment advisory community, and the engagement of their affiliates and/or significant shareholders as service providers to the Fund, including for administrative, transfer agency and distribution services. The Board believes that certain of these benefits are difficult to quantify. The Board also was informed that the Subadviser may use third party research obtained by soft dollars generated by certain mutual fund transactions to assist itself in managing all or a number of its other client accounts.

Board determination

The Board, including the Independent Trustees, unanimously approved the continuation of the Advisory Agreement between the Adviser and the Fund for an additional one-year term and the Subadvisory Agreement among the Adviser, Subadviser and the Fund for an additional one-year term. Based upon its evaluation of relevant factors in their totality, the Board, including a majority of the Independent Trustees, was satisfied that the terms of the Agreements were fair and reasonable and in the best interest of the Fund and its shareholders. In arriving at a decision to approve the Agreements, the Board did not identify any single factor listed above, or any group of factors listed above, as all-important or controlling, but considered all factors together, and different Trustees may have attributed different weights to the various factors considered. The Independent Trustees were also assisted by the advice of independent legal counsel in making this determination. The Board noted that contractual fee arrangements for the Fund reflect the results of several years of review by the Board and certain predecessor Trustees, and discussions between such Trustees (and predecessor Trustees) and the Adviser. Certain aspects of the arrangements may be the subject of more attention in some years than in others, and the Trustees' conclusions may be based in part on their consideration of these arrangements in prior years.

ITEM 2. CODE OF ETHICS.

As of the end of the year, October 31, 2010, the registrant has adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to its Chief Executive Officer, Chief Financial Officer and Treasurer (respectively, the principal executive officer, the principal financial officer and the principal accounting officer, the [Senior Financial Officers]). A copy of the code of ethics is filed as an exhibit to this Form N-CSR.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

Stanley Martin is the audit committee financial expert and is [independent], pursuant to general instructions on Form N-CSR Item 3.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

(a) Audit Fees

The aggregate fees billed for professional services rendered by the principal accountant(s) for the audit of the registrant's annual financial statements or services that are normally provided by the accountant(s) in connection with statutory and regulatory filings or engagements amounted to \$36,410 for the fiscal year ended October 31, 2010 and \$41,819 for the fiscal year ended October 31, 2009. These fees were billed to the registrant and were approved by the registrant's audit committee.

(b) Audit-Related Services

Audit-related fees amounted to \$0 for the fiscal year ended October 31, 2010 and \$0 for the fiscal year ended October 31, 2009 billed to the registrant or to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant ("control affiliates").

(c) Tax Fees

The aggregate fees billed for professional services rendered by the principal accountant(s) for the tax compliance, tax advice and tax planning ("tax fees") amounted to \$2,959 for the fiscal year ended October 31, 2010 and \$2,873 for the fiscal year ended October 31, 2009. The nature of the services comprising the tax fees was the review of the registrant's income tax returns and tax distribution requirements. These fees were billed to the registrant and were approved by the registrant's audit committee. There were no tax fees billed to the control affiliates.

(d) All Other Fees

The all other fees billed to the registrant for products and services provided by the principal accountant were \$20,020 for the fiscal year ended October 31, 2010 and \$3,555 for the fiscal year ended October 31, 2009 billed to control affiliates for products and services provided by the principal accountant. The nature of the services comprising the all other fees was related to the principal accountant's report on the registrant's Eligible Asset Coverage. These fees were approved by the registrant's audit committee.

(e)(1) Audit Committee Pre-Approval Policies and Procedures:

The trust's Audit Committee must pre-approve all audit and non-audit services provided by the independent registered public accounting firm (the "Auditor") relating to the operations or financial reporting of the funds. Prior to the commencement of any audit or non-audit services to a fund, the Audit Committee reviews the services to determine whether they are appropriate and permissible under applicable law.

The trust's Audit Committee has adopted policies and procedures to, among other purposes, provide a framework for the Committee's consideration of audit-related and non-audit services by

the Auditor. The policies and procedures require that any audit-related and non-audit service provided by the Auditor and any non-audit service provided by the Auditor to a fund service provider that relates directly to the operations and financial reporting of a fund are subject to approval by the Audit Committee before such service is provided. Audit-related services provided by the Auditor that are expected to exceed \$25,000 per instance/per fund are subject to specific pre-approval by the Audit Committee. Tax services provided by the Auditor that are expected to exceed \$30,000 per instance/per fund are subject to specific pre-approval by the Audit Committee.

All audit services, as well as the audit-related and non-audit services that are expected to exceed the amounts stated above, must be approved in advance of provision of the service by formal resolution of the Audit Committee. At the regularly scheduled Audit Committee meetings, the Committee reviews a report summarizing the services, including fees, provided by the Auditor.

(e)(2) Services approved pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X:

Audit-Related Fees, Tax Fees and All Other Fees:

There were no amounts that were approved by the Audit Committee pursuant to the de minimis exception under

Rule 2-01 of Regulation S-X.

(f) According to the registrant's principal accountant, for the fiscal year ended October 31, 2010, the percentage of hours spent on the audit of the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons who were not full-time, permanent employees of principal accountant was less than 50%.

(g) The aggregate non-audit fees billed by the registrant's accountant(s) for services rendered to the registrant and rendered to the registrant's control affiliates for each of the last two fiscal years of the registrant were \$3,086,768 for the fiscal year ended October 31, 2010 and \$8,200,526 for the fiscal year ended October 31, 2009.

(h) The audit committee of the registrant has considered the non-audit services provided by the registrant's principal accountant(s) to the control affiliates and has determined that the services that were not pre-approved are compatible with maintaining the principal accountant(s)' independence.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant has a separately-designated standing audit committee comprised of independent trustees. The members of the audit committee are as follows:

Stanley Martin - Chairman
Deborah C. Jackson
Steven R. Pruchansky

| Howard C. Greene, CFA | Other Investment Companies: 8 accounts with assets of approximately \$7.9 billion. Other Pooled Investment Vehicles: 4 accounts with assets of approximately \$197.4 million. Other Accounts: 11 accounts with assets of approximately \$5.1 billion. |

Neither the Adviser or the Subadviser receives a fee based upon the investment performance of any of the accounts included under □Other Accounts Managed by the Portfolio Managers□ in the table above.

When a portfolio manager is responsible for the management of more than one account, the potential arises for the portfolio manager to favor one account over another. For the reasons outlined

below, the Fund does not believe that any material conflicts are likely to arise out of a portfolio manager's responsibility for the management of the Fund as well as one or more other accounts. The Adviser and the Subadviser have adopted procedures, overseen by the Chief Compliance Officer, that are intended to monitor compliance with the policies referred to in the following paragraphs.

□ The Subadviser has policies that require a portfolio manager to allocate investment opportunities in an equitable manner and generally to allocate such investments proportionately among all accounts with similar investment objectives.

□ When a portfolio manager intends to trade the same security for more than one account, the policies of the Subadviser generally require that such trades for the individual accounts are aggregated so each account receives the same price. Where not possible or may not result in the best possible price, the Subadviser will place the order in a manner intended to result in as favorable a price as possible for such client.

□ The investment performance on specific accounts is not a factor in determining the portfolio manager's compensation. See "Compensation of Portfolio Managers" below. Neither the Adviser nor the Subadviser receives a performance-based fee with respect to other accounts managed by the Fund's portfolio managers.

□ The Subadviser imposes certain trading restrictions and reporting requirements for accounts in which a portfolio manager or certain family members have a personal interest in order to confirm that such accounts are not favored over other accounts.

□ The Subadviser seeks to avoid portfolio manager assignments with potentially conflicting situations. However, where a portfolio manager is responsible for accounts with differing investment objectives and policies, it is possible that the portfolio manager will conclude that it is in the best interest of one account to sell a portfolio security while another account continues to hold or increase the holding in such security.

Compensation of Portfolio Managers

The Subadviser has adopted a system of compensation for portfolio managers and others involved in the investment process that is applied systematically among investment professionals. At the Subadviser, the structure of compensation of investment professionals is currently comprised of the following basic components: base salary and an annual investment bonus plan as well as customary benefits that are offered generally to all full-time employees of the Subadviser. A limited number of senior investment professionals, who serve as officers of both the Subadviser and its parent company, may also receive options or restricted stock grants of common shares of Manulife Financial. The following describes each component of the compensation package for the individuals identified as a portfolio manager for the Funds.

Base salary. Base compensation is fixed and normally reevaluated on an annual basis. The Subadviser seeks to set compensation at market rates, taking into account the experience and responsibilities of the investment professional.

Investment Bonus Plan. Only investment professionals are eligible to participate in the Investment Bonus Plan. Under the plan, investment professionals are eligible for an annual bonus. The plan is intended to provide a competitive level of annual bonus compensation that is tied to the investment professional achieving superior investment performance and aligns the financial incentives of the Subadviser and the investment professional. Any bonus under the plan is completely discretionary, with a maximum annual bonus that may be well in excess of base salary. Payout of a portion of this bonus may be deferred for up to five years. While the amount of any bonus is discretionary, the following factors are generally used in determining bonuses under the plan:

□ **Investment Performance:** The investment performance of all accounts managed by the investment professional over one- and three-year periods are considered. The pre- tax performance of each account is measured relative to an appropriate peer group benchmark (for example a Morningstar large cap growth peer group if the fund invests primarily in large cap stocks with a growth strategy). With respect to fixed income accounts, relative yields are also used to measure performance.

□ **The Profitability of the Subadviser:** The profitability of the Subadviser and its parent company are also considered in determining bonus awards.

□ Non-Investment Performance: To a lesser extent, intangible contributions, including the investment professional's support of client service and sales activities, new fund/strategy idea generation, professional growth and development, and management, where applicable, are also evaluated when determining bonus awards.

Options and Stock Grants. A limited number of senior investment professionals may receive options to purchase shares of Manulife Financial stock. Generally, such option would permit the investment professional to purchase a set amount of stock at the market price on the date of grant. The option can be exercised for a set period (normally a number of years or until termination of employment) and the investment professional would exercise the option if the market value of Manulife Financial stock increases. Some investment professionals may receive restricted stock grants, where the investment professional is entitled to receive the stock at no or nominal cost, provided that the stock is forgone if the investment professional's employment is terminated prior to a vesting date.

The Subadviser also permits investment professionals to participate on a voluntary basis in a deferred compensation plan, under which the investment professional may elect on an annual basis to defer receipt of a portion of their compensation until retirement. Participation in the plan is voluntary.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There were no material changes to previously disclosed John Hancock Funds' Governance Committee Charter.

ITEM 11. CONTROLS AND PROCEDURES.

(a) Based upon their evaluation of the registrant's disclosure controls and procedures as conducted within 90 days of the filing date of this Form N-CSR, the registrant's principal executive officer and principal financial officer have concluded that those disclosure controls and procedures provide reasonable assurance that the material information required to be disclosed by the registrant on this report is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

(b) There were no changes in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

(a)(1) Code of Ethics for Senior Financial Officers is attached.

(a)(2) Separate certifications for the registrant's principal executive officer and principal financial officer, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and Rule 30a-2(a) under the Investment Company Act of 1940, are attached.

(b)(1) Separate certifications for the registrant's principal executive officer and principal financial officer, as required by 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, and Rule 30a-2(b) under the Investment Company Act of 1940, are attached. The certifications furnished pursuant to this paragraph are not deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, or otherwise subject to the liability of that section. Such certifications are not deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that the Registrant specifically incorporates them by reference.

(c)(1) Proxy Voting Policies and Procedures are attached.

(c)(2) Submission of Matters to a Vote of Security Holders is attached. See attached [John Hancock Funds Governance Committee Charter].

(c)(3) Contact person at the registrant.
