TRI-CONTINENTAL CORPORATION
Mid-Year Report June 30, 2003

Mid-Year Report 2003

Tri-Continental Corporation

an investment you can live with

Tri-Continental Corporation invests to produce future growth of both capital and income, while providing reasonable current income.

TY is Tri-Continental Corporation's symbol for its Common Stock on the New York Stock Exchange.

Tri-Continental Corporation

Edgar Filing: TRI-CONTINENTAL CORP - Form N-CSRS

Your mid-year Stockholder report for Tri-Continental Corporation follows this letter. This report contains performance information, as well as Tri-Continental's investment results and financial statements, including a portfolio of investments.

For the six months ended June 30, 2003, Tri-Continental posted a total return of 12.29% based on market price and 9.25% based on net asset value. During the same time period, the S&P 500 returned 11.76%, and the Lipper Closed-End Growth & Income Funds Average returned 11.01%.

Tri-Continental Corporation's Annual Stockholders' Meeting was held on May 15, 2003, in Houston, Texas. At the meeting, four directors were elected, and the selection of Tri-Continental's independent auditors was ratified. For complete details of the vote, please refer to page 19 of this report. Please also take the time to fill out the survey card included in this report. This survey is completely anonymous and gives Stockholders who were unable to attend the Annual Meeting the opportunity to voice their opinions. We appreciate your assistance.

Thank you for your continued support of Tri-Continental Corporation. We look forward to serving your investment needs for many years to come.

By Order of the Board of Directors,

William C. Morris
Chairman

Brian T. Zino
President

The rates of return will vary and the principal value of an investment will fluctuate. Shares, if sold, may be worth more or less than their original cost. Past performance is not indicative of future investment results. Due to market volatility, current performance may be higher or lower than the performance quoted above.

* Returns for periods of less than one year are not annualized.

** These rates of return reflect changes in market price or net asset value, as applicable, and assume that all distributions within the period are taken in additional shares.

*** The Lipper Closed-End Growth & Income Funds Average and the S&P 500 are unmanaged benchmarks that assume reinvestment of all distributions. The Lipper Closed-End Growth & Income Funds Average excludes the effect of any costs associated with the purchase of shares, and the S&P 500 excludes the effect of fees and sales charges. The Lipper Closed-End Growth & Income Funds Average measures the performance of closed-end mutual funds with objectives similar to the Corporation. The S&P 500 measures the performance of 500 of the largest US companies based on market capitalizations. Investors cannot invest directly in an index or an average.

☐ Preferred Stockholders were paid dividends totaling \$1.25 per share.

☐☐ Represents the per share amount of net unrealized appreciation of portfolio securities as of June 30, 2003.

Tri-Continental Corporation

Stockholder Survey

Tri-Continental is conducting a survey in an effort to find out more about the Corporation's Stockholders, particularly how they feel about their investment. Please take a few moments to complete this survey. It is a self mailer that can be folded, sealed, and mailed. Postage has already been paid, and your responses are anonymous.

Tri-Continental's Discount

Closed-end funds, like Tri-Continental, usually trade at either a premium or at a discount; in other words, their market price may be higher or lower than net asset value. During the first six months of 2003, Tri-Continental's discount narrowed from 15.71% on December 31, 2002, to 13.36% on June 30, 2003. This resulted in a disparity between Tri-Continental's net asset value return of 9.25% and its market price return of 12.29% during this time.

We are pleased that there has been a convergence between Tri-Continental's market price and net asset value, creating a narrower discount. Many market professionals believe that a discount represents a buying opportunity to acquire a professionally managed portfolio, with a competitive long-term performance history, at an attractive price.

Tri-Continental's manager, J. & W. Seligman & Co. Incorporated, has taken steps to reduce the discount including proactive contact with the sell-side analyst community, increasing market awareness through www.tri-continental.com, and maintaining an ongoing investor relations program, "Introduce Tri-Continental to a Friend." Also, in November 2002, Tri-Continental renewed its share buyback program for up to 7.5% of shares outstanding as long as the discount remains wider than 10%. While this program was not designed specifically to narrow the discount, that may be a secondary effect. Our studies show that closed-end funds with more rapid growth in the number of shares outstanding tend to have wider discounts, and the buyback program reduces Tri-Continental's shares outstanding by the number of shares repurchased.

www.tri-continental.com

Up-to-date information about Tri-Continental including daily net asset values, monthly fact sheets, portfolio manager commentary, recent reports, and more is available at www.tri-continental.com. This website was developed for the convenience of current Stockholders and to publicize Tri-Continental.

Stock Repurchase Program

In November 1998, the Board of Directors authorized a share repurchase program for up to 7.5% of the Corporation's shares over a 12-month period. This program has been reauthorized each year since, most recently on November 21, 2002. The Board's decision benefits all Stockholders, allowing them to continue to enjoy the advantages of Tri-Continental's closed-end structure, while reducing the number of shares outstanding and increasing the net asset value of the remaining shares.

From November 21, 2002, through June 30, 2003, the Corporation repurchased 5,334,822 shares, representing approximately 4.25% of the shares outstanding on the date the program was reauthorized. During this time, the Corporation purchased shares in the open market in compliance with federal regulations that restrict the amount of its own stock it can repurchase. The repurchase of additional shares is expected to take place through November 2003, as long as the discount remains wider than 10%. The Board of Directors will then consider continuing the program.

Tri-Continental Corporation

Notes to Financial Statements (unaudited)

1. Significant Accounting Policies The financial statements of Tri-Continental Corporation (the Corporation) have been prepared in conformity with accounting principles generally accepted in the United States of America, which require management to make certain estimates and assumptions at the date of the financial statements. Actual results may differ from these estimates. These unaudited interim financial statements reflect all adjustments, which are, in the opinion of management, necessary to a fair statement of the results for the interim period presented. All such adjustments are of a normal recurring nature. The following summarizes the significant accounting policies of the Corporation:

- a. Security Valuation** Investments in stocks, limited partnership interests, and short-term holdings maturing in more than 60 days are valued at current market values or, in their absence, fair value determined in accordance with procedures approved by the Board of Directors. Securities traded on an exchange are valued at last sales prices or, in their absence and in the case of over-the-counter securities, at the mean of bid and asked prices. Short-term holdings maturing in 60 days or less are valued at amortized cost.
- b. Federal Taxes** There is no provision for federal income tax. The Corporation has elected to be taxed as a regulated investment company and intends to distribute substantially all taxable net income and net realized gain.
- c. Security Transactions and Related Investment Income** Investment transactions are recorded on trade dates. Identified cost of investments sold is used for both financial statements and federal income tax purposes. Dividends receivable and payable are recorded

on ex-dividend dates. Interest income is recorded on the accrual basis.

- d. Distributions to Stockholders** ¶The treatment for financial statement purposes of distributions made during the year from net investment income or net realized gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or capital gain, and the recharacterization of foreign exchange gains or losses to either ordinary income or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, they are reclassified in the components of net investment assets based on their ultimate characterization for federal income tax purposes. Any such reclassification will have no effect on net assets, results of operations, or net asset value per share of the Corporation.

2. Capital Stock Transactions ¶ Under the Corporation's Charter, dividends on the Common Stock cannot be declared unless net assets, after such dividends and dividends on Preferred Stock, equal at least \$100 per share of Preferred Stock outstanding. The Preferred Stock is subject to redemption at the Corporation's option at any time on 30 days' notice at \$55 per share (or a total of \$41,400,700 for the shares outstanding) plus accrued dividends, and entitled in liquidation to \$50 per share plus accrued dividends.

The Corporation, in connection with its Automatic Dividend Investment and Cash Purchase Plan and other Stockholder plans, acquires and issues shares of its own Common Stock, as needed, to satisfy Plan requirements. For the six months ended June 30, 2003, 1,286,891 shares were purchased from Plan participants at a cost of \$17,487,608, which represented a weighted average discount of 14.12% from the net asset value of those acquired shares. A total of 614,782 shares were issued to Plan participants during the six months ended June 30, 2003, for proceeds of \$8,338,235, at a discount of 15.05% from the net asset value of those shares.

For the six months ended June 30, 2003, the Corporation purchased 2,942,900 shares of its Common Stock in the open market at an aggregate cost of \$40,300,135, which represented a weighted average discount of 13.58% from the net asset value of those acquired shares.

At June 30, 2003, 290,948 shares of Common Stock were reserved for issuance upon exercise of 12,931 Warrants, each of which entitled the holder to purchase 22.50 shares of Common Stock at \$1.00 per share. Assuming the exercise of all Warrants outstanding at June 30, 2003, net investment assets would have

Tri-Continental Corporation

Notes to Financial Statements (unaudited)

increased by \$290,948 and the net asset value of the Common Stock would have been \$17.02 per share. The number of Warrants exercised during the six months ended June 30, 2003, and the year ended December 31, 2002, was 39 and 381, respectively.

3. Purchases and Sales of Securities ¶Purchases and sales of portfolio securities, excluding options and short-term investments, amounted to \$1,122,736,609 and \$1,214,706,713, respectively. At June 30, 2003, the cost of investments for federal income tax purposes was \$2,062,574,743. The tax basis cost was greater than the cost for financial reporting purposes due to the tax deferral of losses on wash sales in the amount of \$3,184,500. The tax basis gross unrealized appreciation and depreciation of portfolio securities amounted to \$142,990,777 and \$113,702,292, respectively.

4. Repurchase Agreements ¶The Corporation may enter into repurchase agreements with commercial banks and with broker/dealers deemed to be creditworthy by J. & W. Seligman & Co. Incorporated (the "Manager"). Securities received as collateral subject to repurchase agreements are deposited with the Corporation's custodian and, pursuant to the terms of the repurchase agreements, must have an aggregate market value greater than or equal to the repurchase price plus accrued interest at all times. Procedures have been established to monitor, on a daily basis, the market value of repurchase agreements' underlying securities to ensure the existence of the proper level of collateral.

5. Management Fee, Administrative Services, and Other Transactions ¶The Manager manages the affairs of the Corporation and provides for the necessary personnel and facilities. Compensation of all officers of the Corporation, all directors of the Corporation who are employees of the Manager, and all personnel of the Corporation and the Manager is paid by the Manager. The Manager receives a fee, calculated daily and payable monthly, equal to a percentage of the Corporation's daily net assets (including the liquidation value of the Corporation's Preferred Stock) at the close of business on the previous business day. The management fee rate is calculated on a sliding scale of 0.45% to 0.375%, based on average daily net assets of all the investment companies managed by the Manager. The management fee for the six months ended June 30, 2003, was equivalent to an annual rate of 0.41% of the average daily net assets of the Corporation.

Seligman Data Corp., which is owned by the Corporation and certain associated investment companies, charged the Corporation at cost \$1,749,288 for stockholder account services in accordance with a methodology approved by the Corporation's directors. Costs of Seligman Data Corp. directly attributable to the Corporation were charged to the Corporation. The remaining charges were allocated to the Corporation by Seligman Data Corp. pursuant to a formula based on the Corporation's net assets, stockholder transaction volume and number of stockholder accounts.

The Corporation and certain other associated investment companies (together, the "Guarantors") have severally but not jointly guaranteed the performance and observance of all the terms and conditions of two leases entered into by Seligman Data Corp., including the payment of rent by Seligman Data Corp. (the "Guaranties"). The leases and the Guaranties expire in September 2008 and January 2009. The obligation of the Corporation to pay any amount due under either Guaranty is limited to a specified percentage of the full amount, which generally is based on the Corporation's percentage of the expenses billed by Seligman Data Corp. to all Guarantors in the preceding calendar quarter. As of June 30, 2003, the Corporation's potential obligation under the Guaranties is \$941,600. As of June 30, 2003, no event has occurred which would result in the Corporation becoming liable to make any payment under a Guaranty. A portion of rent paid by Seligman Data Corp. is charged to the Corporation as part of Seligman Data Corp.'s shareholder account services cost.

The Corporation's investment in Seligman Data Corp. is recorded at a cost of \$43,681.

Certain officers and directors of the Corporation are officers or directors of the Manager and/or Seligman Data Corp.

The Corporation has a compensation arrangement under which directors who receive fees may elect to defer receiving such fees. Directors may elect to have their deferred fees accrue interest or earn a return based on the performance of the Corporation or other funds in the Seligman Group of

Tri-Continental Corporation

Notes to Financial Statements (unaudited)

Investment Companies. The cost of such fees and earnings/loss accrued thereon is included in directors' fees and expenses, and the accumulated balance thereof at June 30, 2003, of \$230,557 is included in accrued expenses and other liabilities. Deferred fees and related accrued earnings are not deductible for federal income tax purposes until such amounts are paid.

6. Capital Loss Carryforward and Other Tax Adjustments ¶At December 31, 2002, the Corporation had a net capital loss carryforward for federal income tax purposes of \$687,863,434, which is available for offset against future taxable net capital gains, expiring in 2010. The amount was determined after adjustments for certain differences between financial reporting and tax purposes, such as wash sale losses. Accordingly, no capital gain distributions are expected to be paid to stockholders until net capital gains have been realized in excess of available capital loss carryforwards.

In addition, the Corporation elected to defer to January 1, 2003, the recognition for tax purposes of net losses of \$37,298,808 realized on sales of investments after October 31, 2002. These losses will be available to offset future taxable net gains.

7. Restricted Securities [At June 30, 2003, the Tri-Continental Financial Division of the Corporation comprised two investments that were purchased through private offerings and cannot be sold without prior registration under the Securities Act of 1933 or pursuant to an exemption therefrom. These investments are valued at fair value as determined in accordance with procedures approved by the Board of Directors of the Corporation. The acquisition dates of investments in the limited partnerships were as follows:

Investments	Acquisition Date(s)	Cost
WCAS Capital Partners II, L.P.	12/11/90 to 3/24/98	\$ 4,727,686
Whitney Subordinated Debt Fund, L.P.	7/12/89 to 11/10/98	2,464,665
Total		\$ 7,192,351

Tri-Continental Corporation

Financial Highlights (unaudited)

The Corporation's financial highlights are presented below. [Per share operating performance] data is designed to allow investors to trace the operating performance, on a per Common share basis, from the beginning net asset value to the ending net asset value, so that investors can understand what effect the individual items have on their investment, assuming it was held throughout the period. Generally, the per share amounts are derived by converting the actual dollar amounts incurred for each item, as disclosed in the financial statements, to their equivalent per Common share amounts, using average shares outstanding.

[Total investment return] measures the Corporation's performance assuming that investors purchased shares of the Corporation at the market value or net asset value as of the beginning of the period, invested dividends and capital gains paid, as provided for in the Corporation's Prospectus and Automatic Dividend Investment and Cash Purchase Plan, and then sold their shares at the closing market value or net asset value per share on the last day of the period. The computations do not reflect taxes or any sales commissions investors may incur in purchasing or selling shares of the Corporation. Total investment returns are not annualized for periods of less than one year.

The ratios of expenses and net investment income to average net investment assets and to average net assets for Common Stock for the periods presented do not reflect the effect of dividends paid to Preferred Stockholders.
