August 21, 2007

To the Stockholders:

We are pleased to present your mid-year Stockholder report for Tri-Continental Corporation. The report contains the Corporation investment results, portfolio of investments, and financial statements as of June 30, 2007.

Tri-Continental outperformed its benchmark and peers for the six months ended June 30, 2007, delivering a total return of 8.1%, based on net asset value, and 17.6%, based on market price. During the same period, its benchmark, the S&P 500 Index, returned 7.0%, while its peers, as measured by the Lipper Closed-End Core Funds Average and the Lipper Large-Cap Core Funds Average, returned 7.6% and 6.9%, respectively. We are pleased to state that, as of June 30, 2007, Tri-Continental outperformed its benchmark and peers for the one- and three-year periods, based on net asset value and market price, and for the five-year period, based on market price.

Tri-Continental Annual Meeting of Stockholders was held on May 30, 2007. At the meeting, three Directors were re-elected to Tri-Continental Board of Directors, Deloitte & Touchelp was selected as the independent auditors of the Corporation, and the proposal to implement a Distribution Policy was approved. Complete details of the vote can be found on page 28 of this report.

The first distribution under the newly approved Distribution Policy was paid to Common Stockholders on July 26. The distribution aggregated \$0.707 per share, consisting of \$0.248 of net investment income and \$0.459 of net realized short-term capital gains. As of the date of this letter, total distributions already paid to Stockholders in 2007 total \$0.967 per share. A distribution of \$0.755 per share has been declared and will be paid on September 20th to Common Stockholders of record September 11, 2007. This will bring 2007□s cumulative distribution to \$1.722 per share.

Based on the first two quarterly distribution payments, distributions may aggregate nearly \$3.00 on an annual basis, which is significantly higher than in recent years. Accordingly, Stockholders who currently take all or a portion of their distributions in cash should assess their income needs, and may want to consider investing a portion of their distributions in additional shares of Tri-Continental. The various payment options available under the new Policy are outlined on page 5 of this report. Stockholders can change their payment elections at any time by contacting their financial advisors or by calling Stockholder Services at 800-TRI-1092.

Thank you for your continued support of Tri-Continental Corporation. We look forward to serving your investment needs for many more years to come.

By order of the Board of Directors,

William C. Morris Chairman Brian T. Zino President

Performance data quoted in this report represents past performance and does not guarantee or indicate future investment results. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Total returns of the Corporation as of the most recent month end will be made available at www.seligman.com¹ by the seventh business day following that month end. J. & W. Seligman & Co. Incorporated, the investment manager of the Corporation, made certain payments to the Corporation in 2004. Absent such payments, the net asset value returns that include this period would have been lower. Returns reflect changes in market price or net asset value, as applicable, and assume reinvestment of distributions. Performance data quoted does not reflect the deduction of taxes that investors may pay on distributions or the sale of shares. An investment in Tri-Continental is not a deposit in a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation.

See footnotes on page 3.

Investment Results Per Common Share (continued)

- * Returns for periods of less than one year are not annualized.
- ** The Lipper Closed-End Core Funds Average and the Lipper Large-Cap Core Funds Average (the [Lipper Averages]) and the Standard & Poor[s 500 Composite Stock Price Index (the [s&P 500]) are unmanaged benchmarks that assume reinvestment of all distributions. The Lipper Averages exclude the effect of taxes and any costs associated with the purchase of shares, and the S&P 500 excludes the effect of fees, taxes, and sales charges. The Lipper Closed-End Core Funds Average measures the performance of closed-end funds. The Lipper Large-Cap Core Funds Average includes open-end funds that, by portfolio practice, invest at least 75% of their assets in companies with market capitalizations (on a three-year weighted basis) greater than 300% of the dollar-weighted median market capitalization of the middle 1,000 securities of the S&P SuperComposite 1500 Index (\$16.8 billion at June 30, 2007). The Lipper Large-Cap Core Funds Average is provided for comparative purposes so that the Corporation[s performance can be measured against both closed-end and open-end funds with similar portfolio holdings as the Corporation. Lipper classifies the Corporation, based on its portfolio holdings, as a Closed-End Core Fund. The S&P 500 measures the performance of 500 of the largest US companies based on market capitalizations. Investors cannot invest directly in an index or an average.
 - $\ \square$ Preferred Stockholders were paid dividends totaling \$1.25 per share.
 - Represents the per share amount of gross unrealized gain or loss of portfolio securities as of June 30, 2007.
- Ø Current yield, representing the annualized yield for the 30-day period ended June 30, 2007, has been computed in accordance with SEC regulations and will vary.
- 1 The website reference is an inactive textual reference and information contained in or otherwise accessible through the website does not form a part of this report or the Corporation prospectus or statement of additional information.

Distribution Policy

The proposal to implement a new Distribution Policy was approved by more than 90% of the shares voted at the Annual Meeting of Stockholders of Tri-Continental, held on May 30, 2007. Under the Distribution Policy, holders of Tri-Continental\[\] s Common Stock will receive quarterly distributions equal to a minimum of 2.75% of the net asset value of Tri-Continental\[\] s common stock on the last business day of the preceding calendar quarter (approximately 11% annually). The quarterly distributions will not be *in addition to*, but rather will *take the place of*, the capital gain payments and dividend distributions you may have grown accustomed to receiving in the past.

Sources of Distribution for Common Stock

The following table sets forth the estimated amounts of the July 26, 2007 distribution and the cumulative distributions paid to date in 2007 from the following sources, as applicable: net investment income, net realized short- and long-term capital gains, and return of capital. All amounts are expressed per common share.

	July	26, 2007	Cun	nulative	
	Dist	ribution	2007 Distributions		
	Amount	% Breakdown	Amount	% Breakdown	
Net Investment Income	\$ 0.248	35.08%	\$ 0.388	40.12%	
Net Realized Short-Term Capital Gains	0.459	64.92	0.459	47.47	
Net Realized Long-Term Capital Gains	None		0.120	12.41	
Return of Capital	None		None		
Total (per common share)	\$ 0.707	100.00%	\$ 0.967	100.00%	

You should not necessarily draw any conclusions about the investment performance of Tri-Continental Corporation (the [Corporation[) from the amount of these distributions or from the terms of the Corporation[]s Distribution Policy.

The amounts and sources of distributions reported are estimates only and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes, which may include return of capital, will depend upon the Corporation investment experience during the remainder of the year and may be subject to changes based on tax regulations. The Corporation will send you a Form 1099-DIV in January 2008 for the calendar year 2007 that will tell you how to report these distributions for federal income tax purposes.

Distribution Payment Options for Common Stock

Prior to the implementation of the Distribution Policy, you were able to elect separate payment options for capital gain payments and dividend distributions. Under the new Distribution Policy, however, because one distribution will be made quarterly (which may consist of both capital gains and net investment income, as well as a return of capital), the payment options have changed.

The new payment options for receiving distributions are:

- 100% of distribution to be invested in additional shares of Tri-Continental
- 75% of distribution to be invested in additional shares, 25% of distribution to be paid in cash
- 50% of distribution to be invested in additional shares, 50% of distribution to be paid in cash
- 100% of distribution to be paid in cash

The first distribution under the new Distribution Policy was payable to Stockholders on July 26, 2007. As communicated to you in a letter sent in June, if we did not receive instruction from you by July 17, 2007, we used a default option (detailed in the table below) based on your prior election, and will continue to use this default option until you instruct us otherwise.

]	Default Election	
Capital Gains	Dividends	Distribution
Invested in shares Invested in shares	Invested in shares Cash payment	100% invested in shares 75% invested in shares
75% invested in shares	Invested in shares	25% paid in cash 75% invested in shares
25% cash payment75% invested in shares	Cash payment	25% paid in cash 50% invested in shares
25% cash payment		50% paid in cash
Cash payment	Cash payment	100% paid in cash

In 2006, Tri-Continental distributed \$0.28 per Common share. Under the new Distribution Policy, using Tri-Continental s net asset value of \$27.46 on June 29, 2007 as a guide and the 11% minimum annual distribution, distributions for the next four quarterly payments would aggregate approximately \$3.00 per Common share. If you currently take all or a portion of your distributions in cash, you may want to evaluate your income needs and consider investing a portion of your distributions in additional shares of Tri-Continental.

You can change your payment election for future quarterly distributions at any time by contacting your financial advisor or Stockholder Services at 800-TRI-1092.

Please keep in mind that, in order to meet the minimum quarterly distribution of 2.75%, distributions under the new Distribution Policy may at times include a return of capital. A return of capital is a distribution in excess of, and not a part of, the Corporation s net profits. It is a return of a portion of your investment and results in a decrease in the value of your account. You can avoid this result by reinvesting 100% of distributions in additional shares. You can mitigate the impact of a return of capital by reinvesting a portion of distributions in additional shares of Tri-Continental.

We believe the implementation of the Distribution Policy will be beneficial for Stockholders as well as for Tri-Continental. It will serve to provide Stockholders with regular, periodic cash distributions and may also reduce the trading discount for Tri-Continental \Box s Common stock.

Frequently Asked Questions

What happens to my distributions if I hold my shares in a retirement account?

If you currently hold shares of Tri-Continental in a retirement account and have elected to have 100% of distributions invested on your behalf in additional shares of Tri-Continental, under the new distribution policy, this election will remain in place and **no action is required by you** unless you wish to make a change. If you are under the age of $59\frac{1}{2}$, distributions from your retirement account will be reinvested.

Tri-Continental Corporation

Why is it important to know what my distribution is made up of? Isn \Box t a distribution income earned on my investment?

The distribution you will be receiving quarterly may come from a few different sources, all of which are treated differently by the IRS. Part of the distribution may come from:

- investment income [] interest payments and dividends that are paid by securities in Tri-Continental[]s portfolio
- capital gain [] a profit that results when a security held in the portfolio is sold
- return of capital [] money that you invested in Tri-Continental is paid back to you

The final determination of the source of all distributions made in 2007 for federal tax purposes will be made after year-end, and you will receive notification (Form 1099-DIV) in January 2008.

Why would Tri-Continental make a return of capital distribution?

Under the new Distribution Policy, Tri-Continental will distribute 2.75% of its net asset value on a quarterly basis. If the portfolio has not generated enough in investment income and capital gains to meet the minimum 2.75% distribution, Tri-Continental will have to include a return of capital. A return of capital distribution does not necessarily reflect Tri-Continental is investment performance and should not be confused with □yield or □income. □

Diversification of Net Investment Assets

Notes to Financial Statements (unaudited)

- **1. Organization** [Tri-Continental Corporation (the [Corporation[) is registered with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended (the []1940 Act[]), as a closed-end diversified management investment company.
- 2. Significant Accounting Policies [The financial statements of Tri-Continental Corporation (the [Corporation]) have been prepared in conformity with accounting principles generally accepted in the United States of America, which require management to make certain estimates and assumptions at the date of the financial statements. Actual results may differ from these estimates. These unaudited interim financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim period presented. All such adjustments are of a normal recurring nature. The following summarizes the significant accounting policies of the Corporation:
 - exchange or market on which they are traded. Securities not listed on an exchange or security market, or securities for which there is no last sales price, are valued at the mean of the most recent bid and asked prices or are valued by J. & W. Seligman & Co. Incorporated (the [Manager]) based on quotations provided by primary market makers in such securities. Securities for which market quotations are not readily available (or are otherwise no longer valid or reliable) are valued at fair value determined in accordance with procedures approved by the Board of Directors. This can occur in the event of, among other things, natural disasters, acts of terrorism, market disruptions, intra-day trading halts, and extreme market volatility. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other investment companies to determine net asset value or the price that may be realized upon the actual sale of the security. Short-term holdings that mature in more than 60 days are valued at current market quotations. Short-term holdings maturing in 60 days or less are valued at current market quotations or amortized cost if the Manager believes it approximates fair value.
 - **b.** Taxes [There is no provision for federal income tax. The Corporation has elected to be taxed as a regulated investment company and intends to distribute substantially all taxable net income and net realized gain.
 - On January 1, 2007, the Corporation adopted Financial Accounting Standards Board (\Box FASB \Box) Interpretation No. 48 (\Box FIN 48 \Box), \Box Accounting for Uncertainty in Income Taxes \Box an interpretation of FASB Statement No. 109. \Box FIN 48 requires the Corporation to recognize in its financial statements the impact of a tax position taken (or expected to be taken) on an income tax return if such position will more likely than not be sustained upon examination based on the technical merits of the position. The Corporation has determined that FIN 48 did not have a material impact on the Corporation \Box s financial statements for the six months ended June 30, 2007.
 - **C. Security Transactions and Related Investment Income** [Investment transactions are recorded on trade dates. Identified cost of investments sold is used for both financial statements and federal income tax purposes. Dividends receivable are recorded on ex-dividend dates, except that certain dividends from foreign securities where the ex-dividend dates may have passed are recorded as soon as the Corporation is informed of the dividend. Interest income is recorded on an accrual basis.
 - **d. Distributions to Stockholders** Dividends and other distributions to stockholders are recorded on ex-dividend date. Effective May 30, 2007, the Corporation has a distribution policy providing that the Corporation will distribute quarterly to holders of Common Stock a minimum amount per share equal to 2.75% of the net asset value attributable to a share of the Common Stock on the last business day of the preceding calendar quarter (or approximately 11% annually).
 - **Options** [The Corporation is authorized to write and purchase put and call options. When the Corporation writes an option, an amount equal to the premium received by the Corporation is reflected

as an asset and an equivalent liability. The amount of the liability is subsequently marked to market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deduct-

Notes to Financial Statements (unaudited)

ed from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Corporation enters into a closing transaction), the Corporation realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid or received). The Corporation, as writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option.

- **Repurchase Agreements** The Corporation may enter into repurchase agreements. Generally, securities received as collateral subject to repurchase agreements are deposited with the Corporation scustodian and, pursuant to the terms of the repurchase agreements, must have an aggregate market value greater than or equal to the repurchase price plus accrued interest at all times. On a daily basis, the market value of repurchase agreements underlying securities are monitored to ensure the existence of the proper level of collateral.
- **9. Restricted Cash** [Restricted cash represents deposits that are being held by banks as collateral for letters of credit issued in connection with the Corporation is insurance policies.
- h. Equity-Linked Notes [The Corporation may purchase notes created by a counterparty, typically an investment bank. The notes bear interest at a fixed or floating rate. At maturity, the notes must be exchanged for an amount based on the value of one or more equity securities ([Underlying Stocks[]) of third party issuers. The exchange value may be limited to an amount less than the actual value of the Underlying Stocks at the maturity date. Any difference between the exchange amount and the original cost of the notes will be a gain or loss.
- 3. Capital Stock Transactions [Under the Corporation]s Charter, dividends on Common Stock cannot be declared unless net assets, after such dividends and dividends on Preferred Stock, equal at least \$100 per share of Preferred Stock outstanding. The Preferred Stock is subject to redemption at the Corporation]s option at any time on 30 days notice at \$55 per share (or a total of \$41,400,700 for the shares outstanding) plus accrued dividends, and entitled in liquidation to \$50 per share plus accrued dividends.

The Corporation, in connection with its Automatic Dividend Investment and Cash Purchase Plan and other Stockholder plans, acquires and issues shares of its own Common Stock, as needed, to satisfy Plan requirements. For the six months ended June 30, 2007, the Corporation purchased 1,115,895 shares of Common Stock from Plan participants at a cost of \$26,646,712, which represented a weighted average discount of 9.83% from the net asset value of those acquired shares. A total of 248,290 shares were issued to Plan participants during the period for proceeds of \$5,646,355, an average discount of 3.71% from the net asset value of those shares.

For the six months ended June 30, 2007, the Corporation purchased 435,500 shares of its Common Stock in the open market at an aggregate cost of \$9,879,890, which represented a weighted average discount of 12.32% from the net asset value of those acquired shares. Shares of Common Stock repurchased to satisfy Plan requirements or in the open market are retired and no longer outstanding.

At June 30, 2007, the Corporation reserved 269,775 shares of Common Stock for issuance upon exercise of 11,990 Warrants, each of which entitled the holder to purchase 22.50 shares of Common Stock at \$1.00 per share.

Assuming the exercise of all Warrants outstanding at June 30, 2007, net investment assets would have increased by \$269,775 and the net asset value of the Common Stock would have been \$27.39 per share. The number of Warrants exercised during the six months ended June 30, 2007 and the year ended December 31, 2006 was 63 and 329, respectively.

4. Management Fee, Administrative Services, and Other Transactions [The Manager manages the affairs of the Corporation and provides for the necessary personnel and facilities. Compensation of all officers of the

Corporation, all directors of the Corporation who are employees of the Manager, and all personnel of the Corporation and the Manager is paid by the Manager. The Manager receives a fee, calculated daily and payable monthly, equal to a percentage of the Corporation adily net assets at the close of business on the previous business day. The management fee rate is calculated on a sliding scale of 0.45% to

Notes to Financial Statements (unaudited)

0.375%, based on average daily net assets of all the investment companies managed by the Manager. The management fee for the six months ended June 30, 2007 was equivalent to an average annual rate of 0.41% of the average daily net assets of the Corporation.

For the six months ended June 30, 2007, Seligman Data Corp., which is owned by the Corporation and certain associated investment companies, charged the Corporation at cost \$1,775,035 for stockholder account services in accordance with a methodology approved by the Corporation directors. Costs of Seligman Data Corp. directly attributable to the Corporation were charged to the Corporation. The remaining charges were allocated to the Corporation by Seligman Data Corp. pursuant to a formula based on the Corporation s net assets, stockholder transaction volume and number of stockholder accounts. The Corporation s investment in Seligman Data Corp. is recorded at a cost of \$43,681.

The Corporation and certain other associated investment companies (together, the [Guarantors]) have severally but not jointly guaranteed the performance and observance of all the terms and conditions of two leases entered into by Seligman Data Corp., including the payment of rent by Seligman Data Corp. (the [Guaranties]). The leases and the related Guaranties expire in September 2008 and January 2019, respectively. The obligation of the Corporation to pay any amount due under the Guaranties is limited to a specified percentage of the full amount, which generally is based on the Corporation[s percentage of the expenses billed by Seligman Data Corp. to all Guarantors in the most recent calendar quarter. As of June 30, 2007, the Corporation[s potential obligation under the Guaranties is \$1,764,000. As of June 30, 2007, no event has occurred which would result in the Corporation becoming liable to make any payment under the Guaranties. A portion of the rent paid by Seligman Data Corp. is charged to the Corporation as part of Seligman Data Corp. stockholder account services cost.

Certain officers and directors of the Corporation are officers or directors of the Manager and/or Seligman Data Corp.

The Corporation has a compensation arrangement under which directors who receive fees may elect to defer receiving such fees. Directors may elect to have their deferred fees accrue interest or earn a return based on the performance of the Corporation or other funds in the Seligman Group of Investment Companies. The cost of such fees and earnings/loss accrued thereon is included in directors fees and and expenses and the accumulated balance thereof at June 30, 2007, of \$24,329 is included in accrued expenses and other liabilities. Deferred fees and related accrued earnings are not deductible by the Corporation for federal income tax purposes until such amounts are paid.

- **5. Purchases and Sales of Securities** [Purchases and sales of portfolio securities, excluding US Government obligations and short-term investments, for the six months ended June 30, 2007, amounted to \$1,259,061,403 and \$1,302,908,687, respectively.
- **6. Federal Tax Information** [Certain components of income, expense and realized capital gain and loss are recognized at different times or have a different character for federal income tax purposes and for financial reporting purposes. Where such differences are permanent in nature, they are reclassified in the components of net assets based on their characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset value per share of the Corporation. As a result of the differences described above, the treatment for financial reporting purposes of distributions made during the year from net investment income or net realized gains may differ from their ultimate treatment for federal income tax purposes. Further, the cost of investments also can differ for federal income tax purposes.

The tax basis information presented is based on operating results for the six months ended June 30, 2007, and will vary from the final tax information as of the Fund syear end.

At June 30, 2007, the cost of investments for federal income tax purposes was \$2,780,046,356. The tax basis cost was lower than the cost for financial reporting purposes primarily due to tax losses passed through to the Corporation from its limited partnership investments of \$2,733,191 offset, in part, by the tax deferral of losses on

wash sales and certain option transactions in the amount of \$1,305,712.

Notes to Financial Statements (unaudited)

The tax basis components of accumulated earnings at June 30, 2007 are presented below. Undistributed ordinary income primarily consists of net investment income and net short-term capital gains.

Gross unrealized appreciation of portfolio securities	\$ 204,012,129
Gross unrealized depreciation of portfolio securities	(101,633,119)
Net unrealized appreciation of portfolio securities	102,379,010
Undistributed ordinary income	145,274,420
Undistributed net realized gain	46,797,917
Total accumulated earnings	\$ 294,451,347

For the six months ended June 30, 2007 and for the year ended December 31, 2006, the tax characterization of distributions to stockholders was the same as for financial reporting purposes.

7. Restricted Securities [At June 30, 2007, the Corporation owned one investment that was purchased through private offerings and cannot be sold without prior registration under the Securities Act of 1933 or pursuant to an exemption therefrom. The investment is valued at fair value as determined in accordance with procedures approved by the Board of Directors of the Corporation.

Investment	Acquisition Date(s)	Cost	Value
WCAS Capital Partners II, L.P.	12/11/90 to 3/24/98	\$4,292,803	\$1,785,291

8. Options Written [Transactions in options written during the six months ended June 30, 2007 were as follows:

	Shares	
	Subject	
	to Call/Put	Premium
Options outstanding at December 31, 2006	132,600	\$ 1,177,452
Options written	3,984,800	6,247,174
Options expired	(1,391,500)	(2,059,317)
Options exercised	(2,693,300)	(5,308,419)
Options terminated in closing purchase transactions	(22,200)	(52,834)
Options outstanding at June 30, 2007	10,400	\$ 4,056

9. Other Matters [In late 2003, the Manager conducted an extensive internal review in response to public announcements concerning frequent trading in shares of open-end mutual funds. The Manager[]s review of frequent trading appropriately did not include Tri-Continental Corporation because it is a closed-end investment company. As of September 2003, the Manager had one arrangement that permitted frequent trading in the Seligman registered investment companies (the []Seligman Funds[]). This arrangement was in the process of being closed down by the Manager before the first proceedings relating to trading practices within the mutual fund industry were publicly announced. Based on a review of the Manager[]s records for 2001 through 2003, the Manager identified three other arrangements that had permitted frequent trading in Seligman Funds. All three had already been terminated prior to the end of September 2002. None of these arrangements involved Tri-Continental Corporation.

The results of the Manager's internal review were presented to the Independent Directors of all the Seligman Funds. In order to resolve matters with the Independent Directors relating to the four arrangements that

permitted frequent trading, in May 2004, the Manager made payments to three mutual funds and agreed to waive a portion of its management fee with respect to another mutual fund.

Beginning in February 2004, the Manager was in discussions with the New York staff of the Securities and Exchange Commission ([SEC]) and the Office of the New York Attorney General ([Attorney General]) in connection with their review of frequent trading in certain of the Seligman Funds. No late trading is involved. This review was apparently stimulated by the Manager[s voluntary public disclosure of

Notes to Financial Statements (unaudited)

the foregoing arrangements in January 2004. In March 2005, negotiations to settle the matter were initiated by the New York staff of the SEC. After several months of negotiations, tentative agreement was reached, both with the New York staff of the SEC and the Attorney General, on the financial terms of a settlement. However, settlement discussions with the Attorney General ended when the Attorney General sought to impose operating conditions on the Manager that were unacceptable to the Manager, would have applied in perpetuity and were not requested or required by the SEC. Subsequently, the New York staff of the SEC indicated that, in lieu of moving forward under the terms of the tentative financial settlement, the staff was considering recommending to the Commissioners of the SEC the instituting of a formal action against the Manager, the Distributor, and Seligman Data Corp. (together, \sqcap Seligman \sqcap).

Seligman believes that any action would be both inappropriate and unnecessary, especially in light of the fact that Seligman previously resolved the underlying issue with the Independent Directors of the Seligman Funds and made recompense to the affected Seligman Funds.

Immediately after settlement discussions with the Attorney General ended, the Attorney General issued subpoenas to certain of the Seligman Funds and their directors. The subpoenas sought various Board materials and information relating to the deliberations of the Independent Directors as to the advisory fees paid by the Seligman Funds to the Manager. The Manager objected to the Attorney General\[mathbb{\text{\text{S}}}\]s seeking of such information and, on September 6, 2005, filed suit in federal district court seeking to enjoin the Attorney General from pursuing a fee inquiry. Seligman believes that the Attorney General\[mathbb{\text{\text{S}}}\]s inquiry is improper because Congress has vested exclusive regulatory oversight of investment company advisory fees in the SEC.

At the end of September 2005, the Attorney General indicated that it intends to file an action at some time in the future alleging, in substance, that the Manager permitted other persons to engage in frequent trading other than the arrangements described above and, as a result, the prospectus disclosure of the Seligman Funds is and has been misleading.

On September 26, 2006, the Attorney General commenced a civil action in New York State Supreme Court against J. & W. Seligman & Co. Incorporated, Seligman Advisors, Inc., Seligman Data Corp. and Brian T. Zino (President of the Manager and the Seligman Funds), reiterating, in substance, the foregoing claims and various other related matters. The Attorney General also claims that the fees charged by Seligman are excessive. The Attorney General is seeking damages and restitution, disgorgement, penalties and costs (collectively, [Damages]), including Damages of at least \$80 million relating to alleged timing occurring in the Seligman Funds and disgorgement of profits and management fees, and injunctive relief. Seligman and Mr. Zino believe that the claims are without merit and intend to defend themselves vigorously.

Any resolution of these matters with regulatory authorities may include, but not be limited to, sanctions, penalties, injunctions regarding Seligman, restitution to mutual fund shareholders or changes in procedures. Any Damages will be paid by Seligman and not by the Seligman Funds. If Seligman is unsuccessful in its defense of these proceedings, it and its affiliates could be barred from providing services to the Seligman Funds, including serving as an investment adviser for the Seligman Funds and principal underwriter for the open-end Seligman Funds. If these results occur, Seligman will seek exemptive relief from the SEC to permit it and its affiliates to continue to provide services to the Seligman Funds. There is no assurance that such exemptive relief will be granted.

Seligman does not believe that the foregoing legal action or other possible actions should have a material adverse impact on Seligman or the Seligman Funds; however, there can be no assurance of this, or that these matters and any related publicity will not result in reduced demand for shares of the Seligman Funds or other adverse consequences.

10. Recently Issued Accounting Pronouncement [In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157 ([SFAS No. 157]), [Fair Value Measurements.] SFAS No. 157 defines fair value, establishes a framework for measuring fair value of assets and liabilities and expands disclosure about fair

value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The Corporation is currently evaluating the impact of the adoption of SFAS No. 157 but believes the impact will be limited to expanded disclosures in the Corporation \square s financial statements.

Financial Highlights (unaudited)

The Corporation is financial highlights are presented below. Per share operating performance data is designed to allow investors to trace the operating performance, on a per Common share basis, from the beginning net asset value to the ending net asset value, so that investors can understand what effect the individual items have on their investment, assuming it was held throughout the period. Generally, the per share amounts are derived by converting the actual dollar amounts incurred for each item, as disclosed in the financial statements, to their equivalent per Common share amounts, using average shares outstanding.

Total investment return measures the Corporation sperformance assuming that investors purchased shares of the Corporation at the market value or net asset value as of the beginning of the period, invested dividends and capital gains paid, as provided for in the Corporation spectus and Automatic Dividend Investment and Cash Purchase Plan, and then sold their shares at the closing market value or net asset value per share on the last day of the period. The computations do not reflect any sales commissions investors may incur in purchasing or selling shares of the Corporation, and taxes investors may incur on distributions or on the sale of shares of the Corporation. Total investment returns are not annualized for periods of less than one year.

The ratios of expenses and net investment income to average net investment assets and to average net assets for Common Stock for the periods presented do not reflect the effect of dividends paid to Preferred Stockholders.

⁽¹⁾ The stock repurchase program, renewed on November 16, 2006, authorizes the Registrant to repurchase up to 5.0% of its common stock in the open market or elsewhere from

January 1, 2007 through December 31, 2007 as long as the discount of the net asset value of the common stock to its market price exceeds 10%. On April 6, 2007, the open market portion of the stock repurchase program was suspended pending the outcome of the vote of Stockholders of the Registrant on a proposal to implement a Distribution Policy. The Distribution Policy was approved by Stockholders on May 30, 2007, and the Registrant Board of Directors authorized repurchase of common stock in the open market if the discount to net asset value is greater than 5%. The Board intends such repurchases to moderate the growth in the number of outstanding shares resulting from the investment by Stockholders of distributions received under the Distribution Policy.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS. Not applicable.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive officer and principal financial officer have concluded, based upon their evaluation of the registrant's disclosure controls and procedures as conducted within 90 days of the filing date of this report, that these disclosure controls and procedures provide reasonable assurance that material information required to be disclosed by the registrant in the report it files or submits on Form N-CSR is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms and that such material information is accumulated and communicated to the registrant's management, including its principal executive officer and principal financial officer, as appropriate, in order to allow timely decisions regarding required disclosure.
- (b) The registrant principal executive officer and principal financial officer are aware of no changes in the registrant internal control over financial reporting that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant internal control over financial reporting.

ITEM 12. EXHIBITS.

- (a)(1) Not applicable.
- (a)(2) Certifications of principal executive officer and principal financial officer as required by Rule 30a-2(a) under the Investment Company Act of 1940.
- (a)(3) Not applicable.
- (b) Certifications of chief executive officer and chief financial officer as required by Rule 30a-2(b) under the Investment Company Act of 1940.
